To amend the Export-Import Bank Act of 1945, and for other purposes.

January 4, 1975
[H. R. 15977]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Export-Import
Bank Amendments
of 1974.

SHORT TITLE

SECTION 1. This Act may be cited as the "Export-Import Bank Amendments of 1974". 12 USC 635 note.

CHARTER AMENDMENTS

SEC. 2. Section 2(a) (1) of the Export-Import Bank Act of 1945 is amended— 12 USC 635.

(1) by inserting in the third sentence immediately after "other evidences of indebtedness;" the following: "to guarantee, insure, coinsure, and reinsure against political and credit risks of loss;"

(2) by inserting in the third sentence immediately after "competent jurisdiction;" the following: "to represent itself or to contract for representation in all legal and arbitral proceedings outside the United States;"; and

(3) by inserting after the fourth sentence the following new sentence: "The Bank is authorized to publish or arrange for the publication of any documents, reports, contracts, or other material necessary in connection with or in furtherance of its objects and purposes without regard to the provisions of section 501 of title 44, United States Code, whenever the Bank determines that publication in accordance with the provisions of such section would not be practicable."

POLICY

SEC. 3. Section 2(b) (1) of the Export-Import Bank Act of 1945 is amended to read as follows: 12 USC 635.

"(b) (1) (A) It is the policy of the United States to foster expansion of exports of goods and related services, thereby contributing to the promotion and maintenance of high levels of employment and real income and to the increased development of the productive resources of the United States. To meet this objective, the Export-Import Bank is directed, in the exercise of its functions, to provide guarantees, insurance, and extensions of credit at rates and on terms and other conditions which are competitive with the Government-supported rates and terms and other conditions available for the financing of exports from the principal countries whose exporters compete with United States exporters. The Bank shall, in cooperation with the export financing instrumentalities of other governments, seek to minimize competition in government-supported export financing. The Bank shall, on a semiannual basis, report to the appropriate committees of Congress its actions in complying with these directives. In this report the Bank shall include a survey of all other major export-financing facilities available from other governments and government-related agencies through which foreign exporters compete with the United States exporters and indicate in specific terms the ways in which the Bank's rates, terms, and other conditions compare with those offered from such other governments directly or indirectly. Further, the Bank shall at the same time survey a representative number of United States exporters and United States commercial lending institutions which provide export credit to determine their experience in meeting financial competition from other countries whose exporters compete

with United States exporters. The results of this survey shall be included as part of the semiannual report required by this subparagraph. The Bank shall also include in the semiannual report a description of each loan by the Bank involving the export of any product or service related to the production, refining or transportation of any type of energy or the development of any energy resource with a statement assessing the impact, if any, on the availability of such products, services, or energy supplies thus developed for use within the United States.

“(B) It is further the policy of the United States that loans made by the Bank shall bear interest at rates determined by the Board of Directors of the Bank, taking into consideration the average cost of money to the Bank as well as the Bank’s mandate to support United States exports at rates and on terms and conditions which are competitive with exports of other countries; that the Bank in the exercise of its functions should supplement and encourage, and not compete with, private capital; that the Bank shall accord equal opportunity to export agents and managers, independent export firms, and small commercial banks in the formulation and implementation of its programs; that the Bank shall give due recognition to the policy stated in section 2(a) of the Small Business Act that ‘the Government should aid, counsel, assist, and protect, insofar as is possible, the interests of small business concerns in order to preserve free competitive enterprise’ and that in furtherance of this policy the Board of Directors shall designate an officer of the Bank who shall be responsible to the President of the Bank for all matters concerning or affecting small business concerns and who, among other duties, shall be responsible for advising small businessmen of the opportunities for small business concerns in the functions of the Bank and for maintaining liaison with the Small Business Administration and other departments and agencies in matters affecting small business concerns; that loans, so far as possible consistent with the carrying out of the purposes of subsection (a) of this section, shall generally be for specific purposes, and, in the judgment of the Board of Directors, offer reasonable assurance of repayment; and that in authorizing any loan or guarantee, the Board of Directors shall take into account any serious adverse effect of such loan or guarantee on the competitive position of United States industry, the availability of materials which are in short supply in the United States, and employment in the United States.”

15 USC 631.

“(A) in connection with the purchase or lease of any product by a Communist country (as defined in section 620(f) of the Foreign Assistance Act of 1961), or agency, or national thereof, or

“(B) in connection with the purchase or lease of any product by any other foreign country, or agency or national thereof, if the product to be purchased or leased by such other country, agency, or national is, to the knowledge of the Bank, principally for use in, or sale or lease to, a Communist country (as so defined), unless the President determines that guarantees, insurance, or extensions of credit in connection therewith to such Communist or such other country or agency or national thereof would be in the national interest. The President shall make a separate determination with respect to each transaction in which the Bank would extend a loan to such Communist or such other country, or agency, or national thereof
