for each such facility, and any temporary operating license issued for such facility based upon the initial petition, shall be limited to power levels not to exceed 5 percent of rated full thermal power. Following issuance by the Commission of the temporary operating license for each such facility, the licensee may file petitions with the Commission to amend the license to allow facility operation in staged increases at specific power levels, to be determined by the Commission, exceeding 5 percent of rated full thermal power. The initial petition for a temporary operating license for each such facility may be filed at any time after the filing of: (1) the report of the Advisory Committee on Reactor Safeguards required by section 2232(b) of this title; (2) the filing of the initial Safety Evaluation Report by the Nuclear Regulatory Commission staff and the Nuclear Regulatory Commission staff's first supplement to the report prepared in response to the report of the Advisory Committee on Reactor Safeguards for the facility; (3) the Nuclear Regulatory Commission staff's final detailed statement on the environmental impact of the facility prepared pursuant to section 4332(2)(C) of this title; and (4) a State, local, or utility emergency preparedness plan for the facility. Petitions for the issuance of a temporary operating license, or for an amendment to such a license allowing operation at a specific power level greater than that authorized in the initial temporary operating license, shall be accompanied by an affidavit or affidavits setting forth the specific facts upon which the petitioner relies to justify issuance of the temporary operating license or the amendment thereto. The Commission shall publish notice of each such petition in the Federal Register and in such trade or news publications as the Commission deems appropriate to give reasonable notice to persons who might have a potential interest in the grant of such temporary operating license or amendment thereto. Any person may file affidavits or statements in support of, or in opposition to, the petition within thirty days after the publication of such notice in the Federal Register.

(b) Operation at greater power level; criteria, effect, terms and conditions, etc.; procedures applicable

With respect to any petition filed pursuant to subsection (a) of this section, the Commission may issue a temporary operating license, or amend the license to authorize temporary operation at each specific power level greater than that authorized in the initial temporary operating license, as determined by the Commission, upon finding that—

- (1) in all respects other than the conduct or completion of any required hearing, the requirements of law are met;
- (2) in accordance with such requirements, there is reasonable assurance that operation of the facility during the period of the temporary operating license in accordance with its terms and conditions will provide adequate protection to the public health and safety and the environment during the period of temporary operation; and
- (3) denial of such temporary operating license will result in delay between the date on

which construction of the facility is sufficiently completed, in the judgment of the Commission, to permit issuance of the temporary operating license, and the date when such facility would otherwise receive a final operating license pursuant to this chapter.

The temporary operating license shall become effective upon issuance and shall contain such terms and conditions as the Commission may deem necessary, including the duration of the license and any provision for the extension thereof. Any final order authorizing the issuance or amendment of any temporary operating license pursuant to this section shall recite with specificity the facts and reasons justifying the findings under this subsection, and shall be transmitted upon such issuance to the Committees on Natural Resources and on Energy and Commerce of the House of Representatives and the Committee on Environment and Public Works of the Senate. The final order of the Commission with respect to the issuance or amendment of a temporary operating license shall be subject to judicial review pursuant to chapter 158 of title 28. The requirements of section 2239(a) of this title with respect to the issuance or amendment of facility licenses shall not apply to the issuance or amendment of a temporary operating license under this section.

(c) Hearing for final operating license; suspension, issuance, compliance, etc., with temporary operating license

Any hearing on the application for the final operating license for a facility required pursuant to section 2239(a) of this title shall be concluded as promptly as practicable. The Commission shall suspend the temporary operating license if it finds that the applicant is not prosecuting the application for the final operating license with due diligence. Issuance of a temporary operating license under subsection (b) of this section shall be without prejudice to the right of any party to raise any issue in a hearing required pursuant to section 2239(a) of this title; and failure to assert any ground for denial or limitation of a temporary operating license shall not bar the assertion of such ground in connection with the issuance of a subsequent final operating license. Any party to a hearing required pursuant to section 2239(a) of this title on the final operating license for a facility for which a temporary operating license has been issued under subsection (b) of this section, and any member of the Atomic Safety and Licensing Board conducting such hearing, shall promptly notify the Commission of any information indicating that the terms and conditions of the temporary operating license are not being met, or that such terms and conditions are not sufficient to comply with the provisions of paragraph (2) of subsection (b) of this section.

(d) Administrative remedies for minimization of need for license

The Commission is authorized and directed to adopt such administrative remedies as the Commission deems appropriate to minimize the need for issuance of temporary operating licenses pursuant to this section.

(e) Expiration of issuing authority

The authority to issue new temporary operating licenses under this section shall expire on December 31, 1983.

(Aug. 1, 1946, ch. 724, title I, §192, as added June 2, 1972, Pub. L. 92-307, 86 Stat. 191; amended Jan. 4, 1983, Pub. L. 97-415, §11, 96 Stat. 2071; renumbered title I, Oct. 24, 1992, Pub. L. 102-486, title IX, §902(a)(8), 106 Stat. 2944; Nov. 2, 1994, Pub. L. 103-437, §15(f)(8), 108 Stat. 4593.)

The court shall have authority to review de novo the law and facts involved, and shall have jurisdiction to enter a judgment enforcing, modifying, and enforcing as so modified, or setting aside in whole or in part, such assessment.

The Board shall review and evaluate the content and implementation of the standards relating to the design, construction, operation, and decommissioning of defense nuclear facilities of the Department of Energy (including all applicable Department of Energy orders, regulations, and requirements) at each Department of Energy defense nuclear facility. The Board shall recommend to the Secretary of Energy those specific measures that should be adopted to ensure that public health and safety are adequately protected. The Board shall include in its recommendations necessary changes in the content and implementation of such standards, as well as matters on which additional data or additional research is needed.

(2) Investigations

(A) The Board shall investigate any event or practice at a Department of Energy defense nuclear facility which the Board determines has adversely affected, or may adversely affect, public health and safety.

(B) The purpose of any Board investigation under subparagraph (A) shall be—

(i) to determine whether the Secretary of Energy is adequately implementing the standards described in paragraph (1) of the Department of Energy (including all applicable Department of Energy orders, regulations, and requirements) at the facility;

(ii) to ascertain information concerning the circumstances of such event or practice and its implications for such standards;

(iii) to determine whether such event or practice is related to other events or practices at other Department of Energy defense nuclear facilities; and

(iv) to provide to the Secretary of Energy such recommendations for changes in such standards or the implementation of such standards (including Department of Energy orders, regulations, and requirements) and such recommendations relating to data or research needs as may be prudent or necessary.

(3) Analysis of design and operational data

The Board shall have access to and may systematically analyze design and operational data, including safety analysis reports, from any Department of Energy defense nuclear facility.

(4) Review of facility design and construction

The Board shall review the design of a new Department of Energy defense nuclear facility before construction of such facility begins and shall recommend to the Secretary, within a reasonable time, such modifications of the design as the Board considers necessary to ensure adequate protection of public health and safety. During the construction of any such facility, the Board shall periodically review and

monitor the construction and shall submit to the Secretary, within a reasonable time, such recommendations relating to the construction of that facility as the Board considers necessary to ensure adequate protection of public health and safety. An action of the Board, or a failure to act, under this paragraph may not delay or prevent the Secretary of Energy from carrying out the construction of such a facility.

(5) Recommendations

The Board shall make such recommendations to the Secretary of Energy with respect to Department of Energy defense nuclear facilities, including operations of such facilities, standards, and research needs, as the Board determines are necessary to ensure adequate protection of public health and safety. In making its recommendations the Board shall consider the technical and economic feasibility of implementing the recommended measures.

(b) Excluded functions

The functions of the Board under this subchapter do not include functions relating to the safety of atomic weapons. However, the Board shall have access to any information on atomic weapons that is within the Department of Energy and is necessary to carry out the functions of the Board.

(A) having maturities determined by the Secretary of the Treasury to be appropriate for what the Department determines to be the needs of the Fund; and

(B) bearing interest at rates determined to be appropriate by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to these obligations.

(Aug. 1, 1946, ch. 724, title II, §1801, as added Oct. 24, 1992, Pub. L. 102-486, title XI, §1101, 106 Stat. 2953.)

(b) Source

Deposits described in subsection (a) of this section shall be from the following sources:

(1) Sums collected pursuant to subsection (c) of this section.

The amount collected from each utility pursuant to this subsection for a fiscal year shall be in the same ratio to the amount required under subsection (a) of this section to be deposited for such fiscal year as the total amount of separative work units such utility has purchased from the Department of Energy for the purpose of commercial electricity generation, before October 24, 1992, bears to the total amount of separative work units purchased from the Department of Energy for all

purposes (including units purchased or produced for defense purposes) before October 24, 1992. For purposes of this subsection—

(1) a utility shall be considered to have purchased a separative work unit from the Department if such separative work unit was produced by the Department, but purchased by the utility from another source; and

(2) a utility shall not be considered to have purchased a separative work unit from the Department if such separative work unit was purchased by the utility, but sold to another source.

(d) Authorization of appropriations

(f) Continuation of deposits

Except as provided in subsection (e) of this section, deposits shall continue to be made into the Fund under subsection (d) of this section for the period specified in such subsection.

(g) Treatment of assessment

Any special assessment levied under this section on domestic utilities for the decontamination and decommissioning of the Department's gaseous diffusion enrichment facilities shall be deemed a necessary and reasonable current cost of fuel and shall be fully recoverable in rates in all jurisdictions in the same manner as the utility's other fuel cost.

(Aug. 1, 1946, ch. 724, title II, §1802, as added Oct. 24, 1992, Pub. L. 102-486, title XI, §1101, 106 Stat. 2953.)

§ 2297g-2. Department facilities

(a) Study by National Academy of Sciences

The National Academy of Sciences shall conduct a study and provide recommendations for reducing costs associated with decontamination and decommissioning, and shall report its findings to the Congress within 3 years after October 24, 1992. Such report shall include a determination of the decontamination and decommissioning required for each facility, shall identify alternative methods, using different technologies, shall include site-specific surveys of the actual contamination, and shall provide estimated costs of those activities.

(b) Payment of decontamination and decommissioning costs

The costs of all decontamination and decommissioning activities of the Department shall be paid from the Fund until such time as the Secretary certifies and the Congress concurs, by law, that such activities are complete.

(c) Payment of remedial action costs

The annual cost of remedial action at the Department's gaseous diffusion facilities shall be paid from the Fund to the extent the amount available in the Fund is sufficient. To the extent the amount in the Fund is insufficient, the Department shall be responsible for the cost of remedial action. § 2297g-3. Employee provisions

All laborers and mechanics employed by contractors or subcontractors in the performance of decontamination or decommissioning of uranium enrichment facilities of the Department shall be paid wages at rates not less than those prevailing on projects of a similar character in the locality as determined by the Secretary of Labor in accordance with the Act of March 3, 1931 (known as the Davis-Bacon Act) (40 U.S.C. 276a et seq.). The Secretary of Labor shall have, with respect to the labor standards specified in this section, the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176, 64 Stat. 1267) and section 276c of title 40. § 2301. Congressional declaration of policy
 It is declared to be the policy of the United States of America that Government ownership and management of the communities owned by the Atomic Energy Commission shall be terminated in an expeditious manner which is consistent with and will not impede the accomplishment of the purposes and programs established by the Atomic Energy Act of 1954 [42 U.S.C. 2011 et seq.]. To that end, it is desired at each community to—
 (a) facilitate the establishment of local self-government;</p> |

(b) provide for the orderly transfer to local entities of municipal functions, municipal installations, and utilities; and

(c) provide for the orderly sale to private purchasers of property within those communities with a minimum of dislocation.

to an entity whose membership or ownership consists of occupants, or project-connected persons, or persons residing in the community both at the time of offering of an apartment house for sale and for the preceding six months, or any of the foregoing persons (provided that such entity has obtained the priority interest of at least one occupant), and whose membership or ownership equals in number, and occupies or agrees to occupy, at least 70 per centum of the housing units in the apartment house. SUBCHAPTER I—GENERAL PROVISIONS

§ 2451. Congressional declaration of policy and purpose

(a) Devotion of space activities to peaceful purposes for benefit of all mankind

The Congress declares that it is the policy of the United States that activities in space should be devoted to peaceful purposes for the benefit of all mankind.

(b) Aeronautical and space activities for welfare and security of United States; control by civilian agency; exceptions

The Congress declares that the general welfare and security of the United States require that adequate provision be made for aeronautical and space activities. The Congress further declares that such activities shall be the responsibility of, and shall be directed by, a civilian agency exercising control over aeronautical and space activities sponsored by the United States, except that activities peculiar to or primarily associated with the development of weapons systems, military operations, or the defense of the United States (including the research and development necessary to make effective provision for the defense of the United States) shall be the responsibility of, and shall be directed by, the Department of Defense; and that determination as to which such agency has responsibility for and direction of any such activity shall be made by the President in conformity with section 2471(e) of this title.

(c) Commercial use of space

The Congress declares that the general welfare of the United States requires that the National Aeronautics and Space Administration (as established by subchapter II of this chapter) seek and encourage, to the maximum extent possible, the fullest commercial use of space.

(d) Objectives of aeronautical and space activities

The aeronautical and space activities of the United States shall be conducted so as to contribute materially to one or more of the following objectives:

- (1) The expansion of human knowledge of the Earth and of phenomena in the atmosphere and space;
- (2) The improvement of the usefulness, performance, speed, safety, and efficiency of aeronautical and space vehicles;
- (3) The development and operation of vehicles capable of carrying instruments, equipment, supplies, and living organisms through space;

§ 2457. Property rights in inventions

(a) Exclusive property of United States; issuance of patent

Whenever any invention is made in the performance of any work under any contract of the Administration, and the Administrator determines that—

(1) the person who made the invention was employed or assigned to perform research, development, or exploration work and the invention is related to the work he was employed or assigned to perform, or that it was within the scope of his employment duties, whether or not it was made during working hours, or with a contribution by the Government of the use of Government facilities, equipment, materials, allocated funds, information proprietary to the Government, or services of Government employees during working hours; or

(2) the person who made the invention was not employed or assigned to perform research, development, or exploration work, but the invention is nevertheless related to the contract, or to the work or duties he was employed or assigned to perform, and was made during working hours, or with a contribution from the Government of the sort referred to in clause (1),

such invention shall be the exclusive property of the United States, and if such invention is patentable a patent therefor shall be issued to the United States upon application made by the Administrator, unless the Administrator waives all or any part of the rights of the United States to such invention in conformity with the provisions of subsection (f) of this section.

(b) Contract provisions for furnishing reports of inventions, discoveries, improvements, or innovations

Each contract entered into by the Administrator with any party for the performance of

any work shall contain effective provisions under which such party shall furnish promptly to the Administrator a written report containing full and complete technical information concerning any invention, discovery, improvement, or innovation which may be made in the performance of any such work.

(c) Patent application

No patent may be issued to any applicant other than the Administrator for any invention which appears to the Commissioner of Patents and Trademarks to have significant utility in the conduct of aeronautical and space activities unless the applicant files with the Commissioner, with the application or within thirty days after request therefor by the Commissioner, a written statement executed under oath setting forth the full facts concerning the circumstances under which such invention was made and stating the relationship (if any) of such invention to the performance of any work under any contract of the Administration. Copies of each such statement and the application to which it relates shall be transmitted forthwith by the Commissioner to the Administrator.

(d) Issuance of patent to applicant; request by Administrator; notice; hearing; determination; review

Upon any application as to which any such statement has been transmitted to the Administrator, the Commissioner may, if the invention is patentable, issue a patent to the applicant unless the Administrator, within ninety days after receipt of such application and statement, requests that such patent be issued to him on behalf of the United States. If, within such time, the Administrator files such a request with the Commissioner, the Commissioner shall transmit notice thereof to the applicant, and shall issue such patent to the Administrator unless the applicant within thirty days after receipt of such notice requests a hearing before the Board of Patent Appeals and Interferences on the question whether the Administrator is entitled under this section to receive such patent. The Board may hear and determine, in accordance with rules and procedures established for interference cases, the question so presented, and its determination shall be subject to appeal by the applicant or by the Administrator to the United States Court of Appeals for the Federal Circuit in accordance with procedures governing appeals from decisions of the Board of Patent Appeals and Interferences in other proceedings.

(e) False representations; request for transfer of title to patent; notice; hearing; determination; review

Whenever any patent has been issued to any applicant in conformity with subsection (d) of this section, and the Administrator thereafter has reason to believe that the statement filed by the applicant in connection therewith contained any false representation of any material fact, the Administrator within five years after the date of issuance of such patent may file with the Commissioner a request for the transfer to the Administrator of title to such patent on the records of the Commissioner. Notice of any such request shall be transmitted by the Commis-

sioner to the owner of record of such patent, and title to such patent shall be so transferred to the Administrator unless within thirty days after receipt of such notice such owner of record requests a hearing before the Board of Patent Appeals and Interferences on the question whether any such false representation was contained in such statement. Such question shall be heard and determined, and determination thereof shall be subject to review, in the manner prescribed by subsection (d) of this section for questions arising thereunder. No request made by the Administrator under this subsection for the transfer of title to any patent, and no prosecution for the violation of any criminal statute, shall be barred by any failure of the Administrator to make a request under subsection (d) of this section for the issuance of such patent to him, or by any notice previously given by the Administrator stating that he had no objection to the issuance of such patent to the applicant therefor.

(f) Waiver of rights to inventions; Inventions and Contributions Board

Under such regulations in conformity with this subsection as the Administrator shall prescribe, he may waive all or any part of the rights of the United States under this section with respect to any invention or class of inventions made or which may be made by any person or class of persons in the performance of any work required by any contract of the Administration if the Administrator determines that the interests of the United States will be served thereby. Any such waiver may be made upon such terms and under such conditions as the Administrator shall determine to be required for the protection of the interests of the United States. Each such waiver made with respect to any invention shall be subject to the reservation by the Administrator of an irrevocable, non-exclusive, nontransferable, royalty-free license for the practice of such invention throughout the world by or on behalf of the United States or any foreign government pursuant to any treaty or agreement with the United States. Each proposal for any waiver under this subsection shall be referred to an Inventions and Contributions Board which shall be established by the Administrator within the Administration. Such Board shall accord to each interested party an opportunity for hearing, and shall transmit to the Administrator its findings of fact with respect to such proposal and its recommendations for action to be taken with respect thereto.

(g) Repealed. Pub. L. 96-517, § 7(b), Dec. 12, 1980, 94 Stat. 3027

(h) Protection of title

The Administrator is authorized to take all suitable and necessary steps to protect any invention or discovery to which he has title, and to require that contractors or persons who retain title to inventions or discoveries under this section protect the inventions or discoveries to which the Administration has or may acquire a license of use.

- (2) control of or assistance in the defense by the United States, at its election, of that suit or claim.

No payment may be made under subsection (b) of this section unless the Administrator or his designee certifies that the amount is just and reasonable.

Upon the approval by the Administrator, payments under subsection (b) of this section may be made, at the Administrator's election, either from funds available for research and development not otherwise obligated or from funds appropriated for such payments.

Ex. Ord. No. 12465, Feb. 24, 1984, 49 F.R. 7211, provided: By the authority vested in me as President by the Constitution and laws of the United States of America, and in order to encourage, facilitate and coordinate the development of commercial expendable launch vehicle (ELV) operations by private United States enterprises, it is hereby ordered as follows:

SECTION 1. The Department of Transportation is designated as the lead agency within the Federal government for encouraging and facilitating commercial ELV activities by the United States private sector.

SEC. 2. *Responsibilities of Lead Agency.* The Secretary of Transportation shall, to the extent permitted by law and subject to the availability of appropriations, perform the following functions:

(a) act as a focal point within the Federal government for private sector space launch contacts related to commercial ELV operations;

(b) promote and encourage commercial ELV operations in the same manner that other private United States commercial enterprises are promoted by United States agencies;

(c) provide leadership in the establishment, within affected departments and agencies, of procedures that expedite the processing of private sector requests to obtain licenses necessary for commercial ELV launches and the establishment and operation of commercial launch ranges;

(d) consult with other affected agencies to promote consistent application of ELV licensing requirements for the private sector and assure fair and equitable treatment for all private sector applicants;

(e) serve as a single point of contact for collection and dissemination of documentation related to commercial ELV licensing applications;

(f) make recommendations to affected agencies and, as appropriate, to the President, concerning administrative measures to streamline Federal government procedures for licensing of commercial ELV activities;

(g) identify Federal statutes, treaties, regulations and policies which may have an adverse impact on ELV commercialization efforts and recommend appropriate changes to affected agencies and, as appropriate, to the President; and

(h) conduct appropriate planning regarding long-term effects of Federal activities related to ELV commercialization.

SEC. 3. An interagency group, chaired by the Secretary of Transportation and composed of representatives from the Department of State, the Department of Defense, the Department of Commerce, the Federal Communications Commission, and the National Aeronautics and Space Administration, is hereby established. This group shall meet at the call of the Chair and shall advise and assist the Department of Transportation in performing its responsibilities under this Order.

(c) establish timetables for the expeditious handling of and response to applications for licenses and approvals for commercial ELV activities.

SEC. 5. The powers granted to the Secretary of Transportation to encourage, facilitate and coordinate the overall ELV commercialization process shall not diminish or abrogate any statutory or operational authority exercised by any other Federal agency.

SEC. 7. This Order shall be effective immediately.

RONALD REAGAN.

§ 2465a. Space Shuttle use policy

(a) Use policy

(1) It shall be the policy of the United States to use the Space Shuttle for purposes that (i) require the presence of man, (ii) require the unique capabilities of the Space Shuttle or (iii) when other compelling circumstances exist.

(2) The term “compelling circumstances” includes, but is not limited to, occasions when the Administrator determines, in consultation with the Secretary of Defense and the Secretary of State, that important national security or foreign policy interests would be served by a Shuttle launch.

(3) The policy stated in subsection (a)(1) of this section shall not preclude the use of available cargo space, on a Space Shuttle mission otherwise consistent with the policy described under subsection (a)(1) of this section, for the purpose of carrying secondary payloads (as defined by the Administrator) that do not require the presence of man if such payloads are consistent with the requirements of research, development, demonstration, scientific, commercial, and educational programs authorized by the Administrator.

(b) Implementation plan

The Administrator shall, within six months after November 16, 1990, submit a report to the Congress setting forth a plan for the implementation of the policy described in subsection (a)(1) of this section. Such plan shall include—

(1) details of the implementation plan;

(2) a list of purposes that meet such policy;

(3) a proposed schedule for the implementation of such policy;

(4) an estimate of the costs to the United States of implementing such policy; and

(5) a process for informing the Congress in a timely and regular manner of how the plan is being implemented.

(c) Annual report

At least annually, the Administrator shall submit to the Congress a report certifying that the payloads scheduled to be launched on the space shuttle for the next four years are consistent with the policy set forth in subsection (a)(1)

of this section. For each payload scheduled to be launched from the space shuttle, which do not require the presence of man, the Administrator shall, in the certified report to Congress, state the specific circumstances which justified the use of the space shuttle. If, during the period between scheduled reports to the Congress, any additions are made to the list of certified payloads intended to be launched from the Shuttle, the Administrator shall inform the Congress of the additions and the reasons therefor within 45 days of the change.

(d) NASA payloads

The report described in subsection (c) of this section shall also include those National Aeronautics and Space Administration payloads designed solely to fly on the space shuttle which have begun the phase C/D of its development cycle.

CODIFICATION

Section was enacted as part of the National Aeronautics and Space Administration Authorization Act, Fiscal Year 1991, and not as part of the National Aeronautics and Space Act of 1958 which is classified principally to this chapter.

DEFINITION OF "ADMINISTRATOR"

Section 127 of title I of Pub. L. 101-611 provided that: "For purposes of this title [enacting this section and sections 2459a and 2471a of this title and section 1535 of Title 15, Commerce and Trade, amending section 2473 of this title and sections 2601, 2602, 2604, 2614, and 2623 of former Title 49, Transportation, and enacting provisions set out as notes under sections 2451, 2459, and 2471 of this title], the term 'Administrator' means the Administrator of the National Aeronautics and Space Administration."

§ 2465b. Congressional findings

The Congress finds that—

(1) the United States commercial launch industry is technically capable of providing reliable and cost efficient access to space and is an essential component of national efforts to assure access to space for Government and commercial users;

(2) the Federal Government should encourage, facilitate, and promote the United States commercial launch industry, including the development and enhancement of commercial launch facilities, in order to ensure United States economic preeminence in space;

(3) the interests of the United States will be served if the commercial launch industry is competitive in the international marketplace;

(4) commercial vehicles are effective means to challenge foreign competition;

(5) the use by the Federal Government of performance specifically in lieu of detailed specifications relating to vehicle design, construction, and operation will facilitate the efficient operation of the United States commercial launch industry;

(6) the procurement of commercial launch services in a commercially reasonable manner permits a reduced level of Federal Government regulation and oversight and economies of scale which may result in significant cost sav-

ings to the commercial launch industry and to the United States.¹

(7) it is the general policy of the Federal Government to purchase needed goods and services, including launch services, from the private sector to the fullest extent feasible; and

(8) predictable access to National Aeronautics and Space Administration launch markets would encourage continuing United States private sector investment in space and related activities.

§ 2465d. Requirement to procure commercial launch services

(a) In general

Except as otherwise provided in this section, the National Aeronautics and Space Administration shall purchase launch services for its primary payloads from commercial providers whenever such services are required in the course of its activities.

¹ So in original. The period probably should be a semicolon.

(b) Exceptions

The National Aeronautics and Space Administration shall not be required to purchase launch services as provided in subsection (a) of this section if, on a case by case basis the Administrator of the National Aeronautics and Space Administration determines that—

- (1) the payload requires the unique capabilities of the space shuttle;
- (2) cost effective commercial launch services to meet specific mission requirements are not reasonably available and would not be available when required;
- (3) the use of commercial launch services poses an unacceptable risk of loss of a unique scientific opportunity; or
- (4) the payload serves national security or foreign policy purposes.

Upon any such determination, the Administrator shall, within 30 days, notify in writing the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate of the determination and its rationale.

(c) National Aeronautics and Space Administration launch vehicles

Launch vehicles shall be acquired or owned by the National Aeronautics and Space Administration only—

- (1) as required under circumstances described in subsection (b) of this section; or
- (2) by the National Aeronautics and Space Administration for conducting research and development on, and testing of, launch technology.

(d) Phase-in period

Subsections (a) and (c) of this section shall not apply to launch services and launch vehicles purchased by the National Aeronautics and Space Administration before November 16, 1990.

(e) Historical purposes

Sections 2465b to 2465f of this title shall not be interpreted to prohibit the National Aeronautics and Space Administration from acquiring, owning, or maintaining launch vehicles solely for historical display purposes.

(1) Contracts to provide launch services to the National Aeronautics and Space Administration under section 2465d of this title shall be awarded on the basis of full, fair, and open competition, consistent with section 2304 of title 10 and section 2459c of this title.

(2) The National Aeronautics and Space Administration shall limit its requirements for submission of cost or pricing data in support of a bid or proposal to that data which is reasonably required to protect the interests of the United States.

(b) Specification systems

Reasonable performance specifications, not detailed Government design or construction specifications, shall be used to the maximum extent feasible to define requirements for a commercial provider bidding to provide launch services. This subsection shall not preclude the National Aeronautics and Space Administration from requiring compliance with applicable safety standards.

- (2) launching of the payload on the space shuttle is important for either national security or foreign policy purposes.

(b) Report

By March 15, 1991, the Administrator, in consultation with the Office of Federal Procurement Policy, shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report outlining the minimal requirements for documentation and other administrative data needed to procure launch services in a commercially reasonable manner, including—

§ 2467b. Requirements

(a) Competition

Making use of the existing infrastructure established in eligible States by the National Science Foundation, the Administrator shall conduct a merit grant competition among the eligible States in areas of research important to the mission of the National Aeronautics and Space Administration. With respect to a grant application by an eligible State, the Administrator shall consider—

(1) the application’s merit and relevance to the mission of the National Aeronautics and Space Administration;

(2) the potential for the grant to serve as a catalyst to enhance the ability of researchers in the State to become more competitive for regular National Aeronautics and Space Administration funding;

(3) the potential for the grant to improve the environment for science, mathematics, and engineering education in the State; and

(4) the need to assure the maximum distribution of grants among eligible States, consistent with merit.

(b) Supplemental grants

The Administrator shall endeavor, where appropriate, to supplement grants made under subsection (a) of this section with such grants for fellowships, traineeships, equipment, or instrumentation as are available.

(c) “Eligible State” defined

In this section, the term “eligible State” means a State designated by the Administrator as eligible to compete in the Foundation’s Experimental Program to Stimulate Competitive Research.

CONGRESSIONAL FINDINGS AND POLICY

Sections 301 to 303 of title III of Pub. L. 102-588 provided that:

“SEC. 301. SHORT TITLE.

“This title [enacting this section and provisions set out as a note below] may be cited as the ‘Experimental Program to Stimulate Competitive Research on Space and Aeronautics Act’.

“SEC. 302. FINDINGS.

“Congress finds that—

“(1) the report of the Advisory Committee on the Future of the United States Space Program has provided a framework within which a consensus on the goals of the space program can be developed;

“(2) the National Aeronautics and Space Administration’s space science and applications, aeronautical research and technology, and space research and technology programs will serve as the fulcrum for future initiatives by the United States in civil space and aviation;

“(3) colleges and universities in many States are currently not able to compete successfully for research grants awarded by the National Aeronautics and Space Administration through its space science and applications, aeronautical research and technology, and space research and technology programs;

“(4) balanced programs of space science and applications, aeronautical research and technology, and space research and technology should include initiatives designed to foster competitive research capacity in all geographic areas of the Nation; and

“(5) by strengthening the competitive research capacity in those geographic areas of the Nation which are not currently fully competitive, the education and training of scientists and engineers important to the future of the United States civil space and aviation programs will be fostered.

“SEC. 303. POLICY.

“It is the policy of the United States that—

“(1) the Administrator [of the National Aeronautics and Space Administration], in planning for national programs in space science and applications, aeronautical research, space flight, and exploration, should ensure the resilience of the space and aeronautics research infrastructure;

“(2) a stable and balanced program of space science and applications, aeronautical research and technology, and space research and technology should include programs to assure that geographic areas of the United States that currently do not successfully participate in competitive space and aeronautical research activities are enabled to become more competitive; and

“(3) programs to improve competitive capabilities should be a part of the research and the educational activities of the National Aeronautics and Space Administration.”

AUTHORIZATION OF APPROPRIATIONS

Section 305 of Pub. L. 102-588 provided that: “In carrying out the programs listed in section 102(a) [106 Stat. 5108], the Administrator [of the National Aeronautics and Space Administration] should ensure that up to \$10,000,000 from the appropriations authorized for ‘Research and Development’, for fiscal year 1993 are also used for purposes of establishing and developing an Experimental Program to Stimulate Competitive Research on Space and Aeronautics.”

“ADMINISTRATOR” DEFINED

Administrator means Administrator of the National Aeronautics and Space Administration, see section 102(f) of Pub. L. 102-588, 106 Stat. 5110.

PRIOR PROVISIONS

A prior section 2471, Pub. L. 85-568, title II, § 201, July 29, 1958, 72 Stat. 427; Pub. L. 87-26, § 1, Apr. 25, 1961, 75 Stat. 46; Pub. L. 87-367, title II, § 207, Oct. 4, 1961, 75 Stat. 792; Pub. L. 91-406, Sept. 23, 1970, 84 Stat. 855, which related to the establishment, membership, duties, and personnel of the National Aeronautics and Space Council, was omitted from the Code, because the Council, including the office of Executive Secretary of the Council, together with the functions of the Council, was abolished by section 3(a)(4) of Reorg. Plan No. 1 of 1973, 38 F.R. 9579, 87 Stat. 1089, effective July 1, 1973, set out in the Appendix to Title 5, Government Organization and Employees.

NATIONAL SPACE COUNCIL AUTHORIZATION

Provisions authorizing appropriations for specific fiscal years to carry out the National Space Council activities established by this section with limitation of \$1,000 on amount available for official reception and representation expenses and requiring the National Space Council to reimburse other agencies for not less than one-half of the personnel compensation costs of individuals detailed to it were contained in the following appropriation authorization acts:

STUDY ON INTERNATIONAL COOPERATION IN PLANETARY EXPLORATION

Pub. L. 101-611, title I, § 114, Nov. 16, 1990, 104 Stat. 3200, provided that:

“(a) FINDINGS.—The Congress finds that—

“(1) the President on July 20, 1989, established the long-range goal of establishing a lunar base, followed by manned exploration of Mars in the early twenty-first century;

“(2) the United States and the Soviet Union, in cooperation with other countries, are currently planning further unmanned missions to the Moon and to

Mars with the possible goal of landing a human on Mars;

“(3) a series of international missions to expand human presence beyond Earth orbit would further a spirit of, and follow through on the commitment made in, the 1987 agreement between the Soviet Union and the United States for space cooperation, as well as the successful cooperative agreements the United States has pursued with over one hundred countries since its inception, including the agreement with Japan, Canada, and the European countries for Space Station Freedom;

“(4) international manned missions beyond Earth orbit could further encourage a cooperative approach in world affairs unrelated to activities in space;

“(5) international manned missions beyond Earth orbit could save the individual nations involved tens of billions of dollars over national missions; and

“(6) a multilateral effort for manned missions to establish a lunar colony, a Mars mission, and any other missions that have the goal of establishing human presence beyond Earth’s orbit and possibly landing a human on Mars would lead to greater understanding of our universe and greater sensitivity to our own planet.

“(b) STUDY.—The National Space Council shall conduct a study on International Cooperation in Planetary Exploration (hereafter in this section referred to as the ‘study’).

“(c) PURPOSE OF STUDY.—The purpose of the study is—

“(1) to develop an inventory of technologies and intentions of all national space agencies with regard to lunar and planetary exploration, both manned and unmanned;

“(2) to seek ways, through direct communication with appropriate officials of other nations or otherwise, to enhance the planning and exchange of information and data among the United States, the Soviet Union, European countries, Canada, Japan, and other interested countries with respect to unmanned projects beyond Earth orbit, in anticipation of later international manned missions to the Moon and to other bodies, including the possible goal of an international manned mission to Mars;

“(3) to prepare a detailed proposal that most efficiently uses the resources of the national space agencies in cooperative endeavors to establish human presence beyond Earth orbit;

“(4) to develop priority goals that accomplish unmet needs that could not be achieved by any individual country;

“(5) to explore the possibilities of international unmanned probes to the Moon and Mars, and the possibilities for international manned missions beyond Earth’s orbit; and

“(6) to devise strategies for such cooperation that would prevent the unwanted transfer of technology. In developing the inventory under paragraph (1), and in preparing the detailed proposal under paragraph (3), consideration shall be given to the potential contributions of commercial providers of space goods and services.

“(d) REPORT.—The National Space Council shall, within one year after the date of the enactment of this Act [Nov. 16, 1990], prepare and submit to Congress a report—

“(1) outlining a preliminary strategy for cooperation among the United States, the Soviet Union, European countries, Canada, Japan, and other interested countries, based on their respective national strengths, with respect to unmanned projects beyond Earth orbit, in anticipation of later international manned missions to the Moon and to other bodies, including the possible goal of an international manned mission to Mars;

“(2) including a conceptual design of a possible international manned mission, in coordination with the preliminary strategy referred to in paragraph (1), with target dates and a breakdown of responsibilities by nation;

“(3) containing an inventory of planned and anticipated missions, manned and unmanned, that are being considered by national space agencies and commercial providers of space goods and services; and

“(4) containing an inventory of space exploration technologies that either—

“(A) are not immediately available in the United States but are available from other nations; or

“(B) are available in the United States but are available from other nations in equal or superior form.”

L. 101-509, set out in a note under section 5376 of Title 5.]

§ 2471a. Users’ Advisory Group

(a) Establishment

(1) The National Space Council shall establish a Users’ Advisory Group composed of non-Federal representatives of industries and other persons involved in aeronautical and space activities.

(2) The Vice President shall name a chairman of the Users’ Advisory Group.

(3) The National Space Council shall from time to time, but not less than once a year, meet with the Users’ Advisory Group.

(a) Planning, directing and conducting aeronautical and space activities; participation by scientific community; dissemination of information

The Administration, in order to carry out the purpose of this chapter, shall—

(1) plan, direct, and conduct aeronautical and space activities;

(2) arrange for participation by the scientific community in planning scientific measurements and observations to be made through use of aeronautical and space vehicles, and conduct or arrange for the conduct of such measurements and observations;

(3) provide for the widest practicable and appropriate dissemination of information concerning its activities and the results thereof;

(4) seek and encourage, to the maximum extent possible, the fullest commercial use of space; and

(5) encourage and provide for Federal Government use of commercially provided space services and hardware, consistent with the requirements of the Federal Government.

(b) Research, development, etc., in ground propulsion technologies and solar heating and cooling technologies

(1) The Administration shall, to the extent of appropriated funds, initiate, support, and carry out such research, development, demonstration, and other related activities in ground propulsion technologies as are provided for in sections 2503 through 2509 of title 15.

(2) The Administration shall initiate, support, and carry out such research, development, dem-

tracts, leases, cooperative agreements, or other transactions as may be necessary in the conduct of its work and on such terms as it may deem appropriate, with any agency or instrumentality of the United States, or with any State, Territory, or possession, or with any political subdivision thereof, or with any person, firm, association, corporation, or educational institution. To the maximum extent practicable and consistent with the accomplishment of the purpose of this chapter, such contracts, leases, agreements, and other transactions shall be allocated by the Administrator in a manner which will enable small-business concerns to participate equitably and proportionately in the conduct of the work of the Administration;

(6) to use, with their consent, the services, equipment, personnel, and facilities of Federal and other agencies with or without reimbursement, and on a similar basis to cooperate with other public and private agencies and instrumentalities in the use of services, equipment, and facilities. Each department and agency of the Federal Government shall cooperate fully with the Administration in making its services, equipment, personnel, and facilities available to the Administration, and any such department or agency is authorized, notwithstanding any other provision of law, to transfer to or to receive from the Administration, without reimbursement, aeronautical and space vehicles, and supplies and equipment other than administrative supplies or equipment;

(7) to appoint such advisory committees as may be appropriate for purposes of consultation and advice to the Administration in the performance of its functions;

(8) to establish within the Administration such offices and procedures as may be appropriate to provide for the greatest possible coordination of its activities under this chapter with related scientific and other activities being carried on by other public and private agencies and organizations;

(9) to obtain services as authorized by section 3109 of title 5, but at rates for individuals not to exceed the per diem rate equivalent to the rate for GS-18;

(10) when determined by the Administrator to be necessary, and subject to such security investigations as he may determine to be appropriate, to employ aliens without regard to statutory provisions prohibiting payment of compensation to aliens;

(11) to provide by concession, without regard to section 303b of title 40, on such terms as the Administrator may deem to be appropriate and to be necessary to protect the concessioner against loss of his investment in property (but not anticipated profits) resulting from the Administration's discretionary acts and decisions, for the construction, maintenance, and operation of all manner of facilities and equipment for visitors to the several installations of the Administration and, in connection therewith, to provide services incident to the dissemination of information concerning its activities to such visitors, without charge or with a reasonable charge therefor

(with this authority being in addition to any other authority which the Administration may have to provide facilities, equipment, and services for visitors to its installations). A concession agreement under this paragraph may be negotiated with any qualified proposer following due consideration of all proposals received after reasonable public notice of the intention to contract. The concessioner shall be afforded a reasonable opportunity to make a profit commensurate with the capital invested and the obligations assumed, and the consideration paid by him for the concession shall be based on the probable value of such opportunity and not on maximizing revenue to the United States. Each concession agreement shall specify the manner in which the concessioner's records are to be maintained, and shall provide for access to any such records by the Administration and the Comptroller General of the United States for a period of five years after the close of the business year to which such records relate. A concessioner may be accorded a possessory interest, consisting of all incidents of ownership except legal title (which shall vest in the United States), in any structure, fixture, or improvement he constructs or locates upon land owned by the United States; and, with the approval of the Administration, such possessory interest may be assigned, transferred, encumbered, or relinquished by him, and, unless otherwise provided by contract, shall not be extinguished by the expiration or other termination of the concession and may not be taken for public use without just compensation;

(12) with the approval of the President, to enter into cooperative agreements under which members of the Army, Navy, Air Force, and Marine Corps may be detailed by the appropriate Secretary for services in the performance of functions under this chapter to the same extent as that to which they might be lawfully assigned in the Department of Defense;

(13)(A) to consider, ascertain, adjust, determine, settle, and pay, on behalf of the United States, in full satisfaction thereof, any claim for \$25,000 or less against the United States for bodily injury, death, or damage to or loss of real or personal property resulting from the conduct of the Administration's functions as specified in subsection (a) of this section, where such claim is presented to the Administration in writing within two years after the accident or incident out of which the claim arises; and

(B) if the Administration considers that a claim in excess of \$25,000 is meritorious and would otherwise be covered by this paragraph, to report the facts and circumstances thereof to the Congress for its consideration.

§ 2473c. Drug and alcohol testing**(a) Short title**

This section may be cited as the “Civil Space Employee Testing Act of 1991”.

(b) Findings

The Congress finds that—

(1) alcohol abuse and illegal drug use pose significant dangers to the safety and welfare of the Nation;

(2) the success of the United States civil space program is contingent upon the safe and successful development and deployment of the many varied components of that program;

(3) the greatest efforts must be expended to eliminate the abuse of alcohol and use of illegal drugs, whether on duty or off duty, by those individuals who are involved in the positions affecting safety, security, and national security;

(4) the use of alcohol and illegal drugs has been demonstrated to adversely affect the performance of individuals, and has been proven to have been a critical factor in accidents in the workplace;

(5) the testing of uniformed personnel of the Armed Forces has shown that the most effective deterrent to abuse of alcohol and use of illegal drugs is increased testing, including random testing;

(6) adequate safeguards can be implemented to ensure that testing for abuse of alcohol or use of illegal drugs is performed in a manner which protects an individual's right of privacy, ensures that no individual is harassed by being treated differently from other individuals, and ensures that no individual's reputation or career development is unduly threatened or harmed; and

(7) rehabilitation is a critical component of any testing program for abuse of alcohol or use of illegal drugs, and should be made available to individuals, as appropriate.

(c) Testing program

(1) The Administrator shall establish a program applicable to employees of the National Aeronautics and Space Administration whose duties include responsibility for safety-sensitive, security, or national security functions. Such program shall provide for preemployment, reasonable suspicion, random, and post-accident testing for use, in violation of applicable law or Federal regulation, of alcohol or a controlled substance. The Administrator may also prescribe regulations, as the Administrator considers appropriate in the interest of safety, security, and national security, for the conduct of periodic recurring testing of such employees for such use in violation of applicable law or Federal regulation.

(2) The Administrator shall, in the interest of safety, security, and national security, prescribe regulations within 18 months after December 9, 1991. Such regulations shall establish a program which requires National Aeronautics and Space Administration contractors to conduct pre-employment, reasonable suspicion, random, and post-accident testing of contractor employees responsible for safety-sensitive, security, or national security functions (as determined by the

Administrator) for use, in violation of applicable law or Federal regulation, of alcohol or a controlled substance. The Administrator may also prescribe regulations, as the Administrator considers appropriate in the interest of safety, security, and national security, for the conduct of periodic recurring testing of such employees for such use in violation of applicable law or Federal regulation.

(3) In prescribing regulations under the programs required by this subsection, the Administrator shall require, as the Administrator considers appropriate, the suspension, disqualification, or dismissal of any employee to which paragraph (1) or (2) applies, in accordance with the provisions of this section, in any instance where a test conducted and confirmed under this section indicates that such employee has used, in violation of applicable law or Federal regulation, alcohol or a controlled substance.

(d) Prohibition on service

(1) No individual who is determined by the Administrator under this section to have used, in violation of applicable law or Federal regulation, alcohol or a controlled substance after December 9, 1991, shall serve as a National Aeronautics and Space Administration employee with responsibility for safety-sensitive, security, or national security functions (as determined by the Administrator), or as a National Aeronautics and Space Administration contractor employee with such responsibility, unless such individual has completed a program of rehabilitation described in subsection (e) of this section.

(2) Any such individual determined by the Administrator under this section to have used, in violation of applicable law or Federal regulation, alcohol or a controlled substance after December 9, 1991, who—

(A) engaged in such use while on duty;

(B) prior to such use had undertaken or completed a rehabilitation program described in subsection (e) of this section;

(C) following such determination refuses to undertake such a rehabilitation program; or

(D) following such determination fails to complete such a rehabilitation program,

shall not be permitted to perform the duties which such individual performed prior to the date of such determination.

(e) Program for rehabilitation

(1) The Administrator shall prescribe regulations setting forth requirements for rehabilitation programs which at a minimum provide for the identification and opportunity for treatment of employees referred to in subsection (c) of this section in need of assistance in resolving problems with the use, in violation of applicable law or Federal regulation, of alcohol or a controlled substance. Each contractor is encouraged to make such a program available to all of its employees in addition to those employees referred to in subsection (c)(2) of this section. The Administrator shall determine the circumstances under which such employees shall be required to participate in such a program. Nothing in this subsection shall preclude any National Aeronautics and Space Administration contractor

from establishing a program under this subsection in cooperation with any other such contractor.

(2) The Administrator shall establish and maintain a rehabilitation program which at a minimum provides for the identification and opportunity for treatment of those employees of the National Aeronautics and Space Administration whose duties include responsibility for safety-sensitive, security, or national security functions who are in need of assistance in resolving problems with the use of alcohol or controlled substances.

(f) Procedures for testing

In establishing the programs required under subsection (c) of this section, the Administrator shall develop requirements which shall—

(1) promote, to the maximum extent practicable, individual privacy in the collection of specimen samples;

(2) with respect to laboratories and testing procedures for controlled substances, incorporate the Department of Health and Human Services scientific and technical guidelines dated April 11, 1988, and any subsequent amendments thereto, including mandatory guidelines which—

(A) establish comprehensive standards for all aspects of laboratory controlled substances testing and laboratory procedures to be applied in carrying out this section, including standards which require the use of the best available technology for ensuring the full reliability and accuracy of controlled substances tests and strict procedures governing the chain of custody of specimen samples collected for controlled substances testing;

(B) establish the minimum list of controlled substances for which individuals may be tested; and

(C) establish appropriate standards and procedures for periodic review of laboratories and criteria for certification and revocation of certification of laboratories to perform controlled substances testing in carrying out this section;

(3) require that all laboratories involved in the controlled substances testing of any individual under this section shall have the capability and facility, at such laboratory, of performing screening and confirmation tests;

(4) provide that all tests which indicate the use, in violation of applicable law or Federal regulation, of alcohol or a controlled substance by any individual shall be confirmed by a scientifically recognized method of testing capable of providing quantitative data regarding alcohol or a controlled substance;

(5) provide that each specimen sample be subdivided, secured, and labelled in the presence of the tested individual and that a portion thereof be retained in a secure manner to prevent the possibility of tampering, so that in the event the individual's confirmation test results are positive the individual has an opportunity to have the retained portion assayed by a confirmation test done independently at a second certified laboratory if the individual requests the independent test within 3 days

after being advised of the results of the initial confirmation test;

(6) ensure appropriate safeguards for testing to detect and quantify alcohol in breath and body fluid samples, including urine and blood, through the development of regulations as may be necessary and in consultation with the Department of Health and Human Services;

(7) provide for the confidentiality of test results and medical information of employees; and

(8) ensure that employees are selected for tests by nondiscriminatory and impartial methods, so that no employee is harassed by being treated differently from other employees in similar circumstances.

(g) Effect on other laws and regulations

(1) No State or local government shall adopt or have in effect any law, rule, regulation, ordinance, standard, or order that is inconsistent with the regulations promulgated under this section.

(2) Nothing in this section shall be construed to restrict the discretion of the Administrator to continue in force, amend, or further supplement any regulations issued before December 9, 1991, that govern the use of alcohol and controlled substances by National Aeronautics and Space Administration employees with responsibility for safety-sensitive, security, and national security functions (as determined by the Administrator), or by National Aeronautics and Space Administration contractor employees with such responsibility.

(h) "Controlled substance" defined

For the purposes of this section, the term "controlled substance" means any substance under section 802(6) of title 21 specified by the Administrator.

(Pub. L. 102-195, §21, Dec. 9, 1991, 105 Stat. 1616.)

CODIFICATION

§ 2473d. Use of abandoned and underutilized buildings, grounds, and facilities

(a) General rule

In meeting the needs of the National Aeronautics and Space Administration for additional facilities, the Administrator shall investigate the use of abandoned and underutilized buildings, grounds, and facilities in depressed communities that can be converted to National Aeronautics and Space Administration facilities and shall prioritize such uses where cost effective, as determined by the Administrator.

(b) "Depressed communities" defined

For purposes of this section, the term "depressed communities" means rural and urban communities that are relatively depressed, in terms of age of housing, extent of poverty, growth of per capita income, extent of unemployment, job lag, or surplus labor.

§ 2486. Congressional statement of findings

The Congress finds that—

(1) the vitality of the Nation and the quality of life of the citizens of the Nation depend increasingly on the understanding, assessment, development, and utilization of space resources;

(2) research and development of space science, space technology, and space commercialization will contribute to the quality of

life, national security, and the enhancement of commerce;

(3) the understanding and development of the space frontiers require a broad commitment and an intense involvement on the part of the Federal Government in partnership with State and local governments, private industry, universities, organizations, and individuals concerned with the exploration and utilization of space;

(4) the National Aeronautics and Space Administration, through the national space grant college and fellowship program, offers the most suitable means for such commitment and involvement through the promotion of activities that will result in greater understanding, assessment, development, and utilization; and

(5) Federal support of the establishment, development, and operation of programs and projects by space grant colleges, space grant regional consortia, institutions of higher education, institutes, laboratories, and other appropriate public and private entities is the most cost-effective way to promote such activities.

(Pub. L. 100-147, title II, §202, Oct. 30, 1987, 101 Stat. 869.)

SHORT TITLE

Section 201 of title II of Pub. L. 100-147 provided that: "This title [enacting this chapter] may be cited as the 'National Space Grant College and Fellowship Act'."

§ 2486a. Congressional statement of purposes

The purposes of this chapter are to—

(1) increase the understanding, assessment, development, and utilization of space resources by promoting a strong educational base, responsive research and training activities, and broad and prompt dissemination of knowledge and techniques;

(2) utilize the abilities and talents of the universities of the Nation to support and contribute to the exploration and development of the resources and opportunities afforded by the space environment;

(3) encourage and support the existence of interdisciplinary and multidisciplinary programs of space research within the university community of the Nation, to engage in integrated activities of training, research and public service, to have cooperative programs with industry, and to be coordinated with the overall program of the National Aeronautics and Space Administration;

(4) encourage and support the existence of consortia, made up of university and industry members, to advance the exploration and development of space resources in cases in which national objectives can be better fulfilled than through the programs of single universities;

(5) encourage and support Federal funding for graduate fellowships in fields related to space; and

(6) support activities in colleges and universities generally for the purpose of creating and operating a network of institutional programs that will enhance achievements resulting from efforts under this chapter.

CHAPTER 31—PUBLIC WORKS ACCELERATION PROGRAM

Sec.
2641. Congressional declaration of purpose.
2642. Acceleration of public works.
(a) Eligible areas.
(b) Authority to initiate and accelerate projects; allocation of funds.

Sec.

- (c) Grants-in-aid; law governing; amount of Federal contributions.
- (d) Authorization of appropriations.
- (e) Rules and regulations; considerations.
- (f) Restrictions on allocated funds.
- (g) Limit on allocations available for projects in any one State.
- (h) Criteria determining substantial unemployment.

2643. Increase of State or local expenditures.

§ 2641. Congressional declaration of purpose

(a) The Congress finds that (1) certain communities and areas in the Nation are presently burdened by substantial unemployment and underemployment and have failed to share fully in the economic gains of the recovery from the recession of 1960-1961 and (2) action by the Federal Government is necessary, both to provide immediate useful work for the unemployed and underemployed in these communities and to help these communities, through improvement of their facilities, to become more conducive to industrial development and better places in which to live and work. The Nation has a backlog of needed public projects, and an acceleration of these projects now will not only increase employment at a time when jobs are urgently required but will also meet longstanding public needs, improve community services, and enhance the health and welfare of citizens of the Nation.

(b) The Congress further finds that Federal assistance to stimulate public works investment in order to increase employment opportunities is most urgently needed in those areas, both urban and rural, which qualify as redevelopment areas because they suffer from persistent and chronic unemployment and economic underdevelopment, as well as in other areas which have suffered from substantial unemployment for a period of at least twelve months.

(Pub. L. 87-658, § 2, Sept. 14, 1962, 76 Stat. 542.)

SHORT TITLE

Section 1 of Pub. L. 87-658 provided: "That this Act [enacting this chapter and amending section 462 of Title 40, Public Buildings, Property, and Works, and section 1492 of this title] may be cited as the 'Public Works Acceleration Act'."

§ 2642. Acceleration of public works**(a) Eligible areas**

For the purposes of this section the term "eligible area" means—

(1) those areas which the Secretary of Labor designates each month as having been areas of substantial unemployment for at least nine of the preceding twelve months; and

(2) those areas which are designated by the Secretary of Commerce under subsections (a) and (b) of section 2504 of this title as "redevelopment areas".

(b) Authority to initiate and accelerate projects; allocation of funds

The President is authorized to initiate and accelerate in eligible areas those Federal public works projects which have been authorized by Congress, and those public works projects of States and local governments for which Federal

financial assistance is authorized under provisions of law other than this chapter, by allocating funds appropriated to carry out this section—

(1) to the heads of the departments, agencies, and instrumentalities of the Federal Government responsible for the construction of Federal public works projects, and

(2) to the heads of the departments, agencies, and instrumentalities of the Federal Government responsible for the administration of laws authorizing Federal financial assistance to public works projects of State and local governments.

(c) Grants-in-aid; law governing; amount of Federal contributions

All grants-in-aid made from allocations made by the President under this section shall be made by the head of the department, agency, or instrumentality of the Federal Government administering the law authorizing such grants, and, except as otherwise provided in this subsection, shall be made in accordance with all of the provisions of such law except (1) provisions requiring allocation of funds among the States, and (2) limitations upon the total amount of such grants for any period. Notwithstanding any provisions of such law requiring the Federal contribution to the State or local government involved to be less than a fixed portion of the cost of a project, grants-in-aid may be made under authority of this section which bring the total of all Federal contributions to such project up to 50 per centum of the cost of such project, or up to 75 per centum of the cost of such project if the State or local government does not have economic and financial capacity to assume all of the additional financial obligations required.

(d) Authorization of appropriations

There is authorized to be appropriated not to exceed \$900,000,000 to be allocated by the President in accordance with subsection (b) of this section, except that not less than \$300,000,000 shall be allocated for public works projects in areas designated by the Secretary of Commerce as redevelopment areas under subsection (b) of section 2504 of this title.

(e) Rules and regulations; considerations

The President shall prescribe rules, regulations, and procedures to carry out this section which will assure that adequate consideration is given to the relative needs of eligible areas. In prescribing such rules, regulations, and procedures the President shall consider among other relevant factors (1) the severity of the rates of unemployment in the eligible areas and the duration of such unemployment and (2) the income levels of families and the extent of underemployment in eligible areas.

(f) Restrictions on allocated funds

Funds allocated by the President under this section shall be available only for projects—

- (1) which can be initiated or accelerated within a reasonably short period of time;
- (2) which will meet an essential public need;
- (3) a substantial portion of which can be completed within twelve months after initiation or acceleration;

(4) which will contribute significantly to the reduction of local unemployment;

(5) which are not inconsistent with locally approved comprehensive plans for the jurisdiction affected, wherever such plans exist.

(g) Limit on allocations available for projects in any one State

Not more than 10 per centum of all amounts allocated by the President under this section shall be made available for public works projects within any one State.

(h) Criteria determining substantial unemployment

The criteria to be used by the Secretary of Labor in determining areas of substantial unemployment for the purposes of paragraph (1) of subsection (a) of this section shall be the criteria established in section 6.3 of title 29 of the Code of Federal Regulations as in effect May 1, 1962.

In any case in which the United States is authorized or required by law to furnish hospital, medical, surgical, or dental care and treatment (including prostheses and medical appliances) to a person who is injured or suffers a disease, after the effective date of this Act, under circumstances creating a tort liability upon some third person (other than or in addition to the United States and except employers of seamen treated under the provisions of section 249 of this title) to pay damages therefor, the United States shall have a right to recover from said third person the reasonable value of the care and treatment so furnished or to be furnished and shall, as to this right be subrogated to any right or claim that the injured or diseased person, his guardian, personal representative, estate, dependents, or survivors has against such third person to the extent of the reasonable value of the care and treatment so furnished or to be furnished. The head of the department or agency of the United States furnishing such care or treatment may also require the injured or diseased person, his guardian, personal representative, estate, dependents, or survivors, as appropriate, to assign his claim or cause of action against the third person to the extent of that right or claim.

The United States may, to enforce such right, (1) intervene or join in any action or proceeding brought by the injured or diseased person, his guardian, personal representative, estate, dependents, or survivors, against the third person who is liable for the injury or disease; or (2) if such action or proceeding is not commenced within six months after the first day in which care and treatment is furnished by the United States in connection with the injury or disease involved, institute and prosecute legal proceedings against the third person who is liable for the injury or disease, in a State or Federal court, either alone (in its own name or in the name of the injured person, his guardian, personal representative, estate, dependents, or survivors) or in conjunction with the injured or diseased person, his guardian, personal representative, estate, dependents, or survivors.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 2752 of this title.

§ 2752. Allocation of funds

(a) Allocation based on previous allocation

(1) From the amount appropriated pursuant to section 2751(b) of this title for each fiscal year, the Secretary shall first allocate to each eligible institution for each succeeding fiscal year, an amount equal to 100 percent of the amount such institution received and used under this part for fiscal year 1985.

(2)(A) From the amount so appropriated, the Secretary shall next allocate to each eligible institution that began participation in the program under this part after fiscal year 1985 but is not a first or second time participant, an amount equal to the greater of—

(i) \$5,000; or

(ii) 90 percent of the amount received and used under this part for the first year it participated in the program.

(B) From the amount so appropriated, the Secretary shall next allocate to each eligible institution that began participation in the program under this part after fiscal year 1985 and is a first or second time participant, an amount equal to the greatest of—

(i) \$5,000;

(ii) an amount equal to (I) 90 percent of the amount received and used under this part in the second preceding fiscal year by eligible institutions offering comparable programs of instruction, divided by (II) the number of students enrolled at such comparable institutions in such fiscal year, multiplied by (III) the number of students enrolled at the applicant institution in such fiscal year; or

(iii) 90 percent of the institution's allocation under this part for the preceding fiscal year.

(C) Notwithstanding subparagraphs (A) and (B) of this paragraph, the Secretary shall allocate to each eligible institution which—

(i) was a first-time participant in the program in fiscal year 1986 or any subsequent fiscal year, and

(ii) received a larger amount under this subsection in the second year of participation,

an amount equal to 90 percent of the amount it received under this subsection in its second year of participation.

(3)(A) If the amount appropriated for any fiscal year is less than the amount required to be allocated to all institutions under paragraph (1) of this subsection, then the amount of the allocation to each such institution shall be ratably reduced.

(B) If the amount appropriated for any fiscal year is more than the amount required to be allocated to all institutions under paragraph (1) but less than the amount required to be allocated to all institutions under paragraph (2), then—

(i) the Secretary shall allot the amount required to be allocated to all institutions under paragraph (1), and

(ii) the amount of the allocation to each institution under paragraph (2) shall be ratably reduced.

(C) If additional amounts are appropriated for any such fiscal year, such reduced amounts shall be increased on the same basis as they were reduced (until the amount allocated equals the amount required to be allocated under paragraphs (1) and (2) of this subsection).

(4)(A) Notwithstanding any other provision of this section, the Secretary may allocate an amount equal to not more than 10 percent of the amount by which the amount appropriated in any fiscal year to carry out this part exceeds \$700,000,000 among eligible institutions described in subparagraph (B).

(B) In order to receive an allocation pursuant to subparagraph (A) an institution shall be an eligible institution from which 50 percent or more of the Pell Grant recipients attending such eligible institution graduate or transfer to a 4-year institution of higher education.

(b) Allocation of excess based on pro rata share

From one-quarter of the remainder of the amount appropriated pursuant to section 2751(b) of this title for any fiscal year (after making the allocations required by subsection (a) of this section), the Secretary shall allocate to each eligible institution an amount which bears the same ratio to such one-quarter as the amount the eligible institution receives for such fiscal year under subsection (a) of this section bears to the amount all such institutions receive under such subsection (a) of this section.

(c) Allocation of excess based on share of excess eligible amounts

(1) From three-quarters of the remainder of the amount appropriated pursuant to section 2751(b) of this title after making the allocations required by subsection (a) of this section, the Secretary shall allocate to each eligible institution which has an excess eligible amount an amount which bears the same ratio to such remainder as such excess eligible amount bears to the sum of the excess eligible amounts of all such eligible institutions (having such excess eligible amounts).

(2) For any eligible institution, the excess eligible amount is the amount, if any, by which—

(A)(i) the amount of that institution's need (as determined under subsection (d) of this section), divided by (ii) the sum of the need of all institutions (as so determined), multiplied by (iii) the amount appropriated pursuant to section 2751(b) of this title for the fiscal year; exceeds

(B) the amount required to be allocated to that institution under subsection (a) of this section.

(d) Determination of institution's need

(1) The amount of an institution's need is equal to the sum of the self-help need of the institution's eligible undergraduate students and the self-help need of the institution's eligible graduate and professional students.

(2) To determine the self-help need of an institution's eligible undergraduate students, the Secretary shall—

(A) establish various income categories for dependent and independent undergraduate students;

(B) establish an expected family contribution for each income category of dependent and independent undergraduate students, determined on the basis of the average expected family contribution (computed in accordance with part F of this title [20 U.S.C. 1087kk et seq.]) of a representative sample within each income category for the second preceding fiscal year;

(C) compute 25 percent of the average cost of attendance for all undergraduate students;

(D) multiply the number of eligible dependent students in each income category by the lesser of—

(i) 25 percent of the average cost of attendance for all undergraduate students determined under subparagraph (C); or

(ii) the average cost of attendance for all undergraduate students minus the expected family contribution determined under subparagraph (B) for that income category, except that the amount computed by such subtraction shall not be less than zero;

(E) add the amounts determined under subparagraph (D) for each income category of dependent students; and

(F) multiply the number of eligible independent students in each income category by the lesser of—

(i) 25 percent of the average cost of attendance for all undergraduate students determined under subparagraph (C); or

(ii) the average cost of attendance for all undergraduate students minus the expected family contribution determined under subparagraph (B) for that income category, except that the amount computed by such subtraction for any income category shall not be less than zero;

(G) add the amounts determined under subparagraph (F) for each income category of independent students; and

(H) add the amounts determined under subparagraphs (E) and (G).

(3) To determine the self-help need of an institution's eligible graduate and professional students, the Secretary, for academic year 1988-1989 shall use the procedures employed for academic year 1986-1987, and, for any subsequent academic years, the Secretary shall—

(A) establish various income categories of graduate and professional students;

(B) establish an expected family contribution for each income category of graduate and professional students, determined on the basis of the average expected family contribution (computed in accordance with part F of this title [20 U.S.C. 1087kk et seq.]) of a representative sample within each income category for the second preceding fiscal year;

(C) determine the average cost of attendance for all graduate and professional students;

(D) subtract from the average cost of attendance for all graduate and professional students (determined under subparagraph (C)), the expected family contribution (determined under subparagraph (B)) for each income category,

except that the amount computed by such subtraction for any income category shall not be less than zero;

(E) multiply the amounts determined under subparagraph (D) by the number of eligible students in each category; and

(F) add the amounts determined under subparagraph (E) of this paragraph for each income category.

(4)(A) For purposes of paragraphs (2) and (3), the term “average cost of attendance” means the average of the attendance costs for undergraduate students and for graduate and professional students, which shall include (i) tuition and fees determined in accordance with subparagraph (B), (ii) standard living expenses determined in accordance with subparagraph (C), and (iii) books and supplies determined in accordance with subparagraph (D).

(B) The average undergraduate and graduate and professional tuition and fees described in subparagraph (A)(i) shall be computed on the basis of information reported by the institution to the Secretary, which shall include (i) total revenue received by the institution from undergraduate and graduate tuition and fees for the second year preceding the year for which it is applying for an allocation, and (ii) the institution’s enrollment for such second preceding year.

(C) The standard living expense described in subparagraph (A)(ii) is equal to 150 percent of the difference between the income protection allowance for a family of five with one in college and the income protection allowance for a family of six with one in college for a single independent student.

(D) The allowance for books and supplies described in subparagraph (A)(iii) is equal to \$450.

(e) Reallocation of excess allocations

(1) If institutions return to the Secretary any portion of the sums allocated to such institutions under this section for any fiscal year, the Secretary shall reallocate such excess to eligible institutions which used at least 10 percent of the total amount of funds granted to such institution under this section to compensate students employed in community service in the preceding fiscal year. Such excess funds shall be reallocated to institutions which qualify under this subsection on the same basis as excess eligible amounts are allocated to institutions pursuant to subsection (c) of this section. Funds received by institutions pursuant to this subsection shall be used to compensate students employed in community service.

(2) If, under paragraph (1) of this subsection, an institution returns more than 10 percent of its allocation, the institution’s allocation for the next fiscal year shall be reduced by the amount returned. The Secretary may waive this paragraph for a specific institution if the Secretary finds that enforcing this paragraph would be contrary to the interest of the program.

(f) Filing deadlines

The Secretary shall, from time to time, set dates before which institutions must file applications for allocations under this part.

§ 2991b. Financial assistance for Native American projects**(a) Authorization for financial assistance to public and nonprofit agencies; consultation with other Federal agencies to avoid duplication**

The Commissioner is authorized to provide financial assistance, on a single year or multiyear basis, to public and nonprofit private agencies, including but not limited to, governing bodies of Indian tribes on Federal and State reservations, Alaska Native villages and regional corporations established by the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.], and such public and nonprofit private agencies serving Native Hawaiians, and Indian and Alaska Native organizations in urban or rural areas that are not Indian reservations or Alaska Native villages, for projects pertaining to the purposes of this subchapter. The Commissioner is authorized to provide financial assistance to public and nonprofit private agencies serving other Native American Pacific Islanders (including American Samoan Natives) for projects pertaining to the purposes of this Act. In determining the projects to be assisted under this subchapter, the Commissioner shall consult with other Federal agencies for the purpose of eliminating duplication or conflict among similar activities or projects and for the purpose of determining whether the findings resulting from those projects may be incorporated into one or more programs for which those agencies are responsible. Every determination made with respect to a request for financial assistance under this section shall be made without regard to whether the agency making such request serves, or the project to be assisted is for the benefit of, Indians who are not members of a federally recognized tribe. To the greatest extent practicable, the Commissioner shall ensure that each project to be assisted under this subchapter is consistent with the priorities established by the agency which receives such assistance.

(b) Limitations of financial assistance; exceptions; non-Federal contributions

Financial assistance extended to an agency under this subchapter shall not exceed 80 per centum of the approved costs of the assisted project, except that the Commissioner may approve assistance in excess of such percentage if the Commissioner determines, in accordance with regulations establishing objective criteria, that such action is required in furtherance of the purposes of this subchapter. Non-Federal contributions may be in cash or in kind, fairly evaluated, including but not limited to plant, equipment, and services. The Commissioner

shall not require non-Federal contributions in excess of 20 per centum of the approved costs of programs or activities assisted under this subchapter.

(c) Assistance as addition to, and not substitution for, activities previously carried out without Federal assistance; waiver; non-reservation areas

(1) No project shall be approved for assistance under this subchapter unless the Commissioner is satisfied that the activities to be carried out under such project will be in addition to, and not in substitution for, comparable activities previously carried out without Federal assistance, except that the Commissioner may waive this requirement in any case in which the Commissioner determines, in accordance with regulations establishing objective criteria, that application of the requirement would result in unnecessary hardship or otherwise be inconsistent with the purposes of this subchapter.

(2) No project may be disapproved for assistance under this subchapter solely because the agency requesting such assistance is an Indian organization in a nonreservation area or serves Indians in a nonreservation area.

(d) Grants to improve tribal regulation of environmental quality

(1) The Commissioner shall award grants to Indian tribes for the purpose of funding 80 percent of the costs of planning, developing, and implementing programs designed to improve the capability of the governing body of the Indian tribe to regulate environmental quality pursuant to Federal and tribal environmental laws.

(2) The purposes for which funds provided under any grant awarded under paragraph (1) may be used include, but are not limited to—

(B) the development of tribal laws on environmental quality, and

(C) the enforcement and monitoring of environmental quality laws.

(3) The 20 percent of the costs of planning, developing, and implementing a program for which a grant is awarded under paragraph (1) that are not to be paid from such grant may be paid by the grant recipient in cash or through the provision of property or services, but only to the extent that such cash or property is from any source (including any Federal agency) other than a program, contract, or grant authorized under this subchapter.

(4) Grants shall be awarded under paragraph (1) on the basis of applications that are submitted by Indian tribes to the Commissioner in such form as the Commissioner shall prescribe.

§ 2996. Congressional findings and declaration of purpose

The Congress finds and declares that—

(1) there is a need to provide equal access to the system of justice in our Nation for individuals who seek redress of grievances;

(2) there is a need to provide high quality legal assistance to those who would be otherwise unable to afford adequate legal counsel and to continue the present vital legal services program;

(3) providing legal assistance to those who face an economic barrier to adequate legal counsel will serve best the ends of justice and assist in improving opportunities for low-income persons consistent with the purposes of this chapter;

(4) for many of our citizens, the availability of legal services has reaffirmed faith in our government of laws;

(5) to preserve its strength, the legal services program must be kept free from the influence of or use by it of political pressures; and

(6) attorneys providing legal assistance must have full freedom to protect the best interests of their clients in keeping with the Code of Professional Responsibility, the Canons of Ethics, and the high standards of the legal profession.

§ 2996f. Grants and contracts

(a) Requisites

With respect to grants or contracts in connection with the provision of legal assistance to eligible clients under this subchapter, the Corporation shall—

(1) insure the maintenance of the highest quality of service and professional standards, the preservation of attorney-client relationships, and the protection of the integrity of the adversary process from any impairment in furnishing legal assistance to eligible clients;

(2)(A) establish, in consultation with the Director of the Office of Management and Budget and with the Governors of the several States, maximum income levels (taking into account family size, urban and rural differences, and substantial cost-of-living variations) for individuals eligible for legal assistance under this subchapter;

(B) establish guidelines to insure that eligibility of clients will be determined by recipients on the basis of factors which include—

(i) the liquid assets and income level of the client,

(ii) the fixed debts, medical expenses, and other factors which affect the client's ability to pay,

(iii) the cost of living in the locality, and

(iv) such other factors as relate to financial inability to afford legal assistance, which may include evidence of a prior determination that such individual's lack of income results from refusal or unwillingness, without good cause, to seek or accept an employment situation; and

(C) insure that (i) recipients, consistent with goals established by the Corporation, adopt procedures for determining and implementing priorities for the provision of such assistance, taking into account the relative needs of eligible clients for such assistance (including such outreach, training, and support services as may be necessary), including particularly the needs for service on the part of significant segments of the population of eligible clients with special difficulties of access to legal services or special legal problems (including elderly and handicapped individuals); and (ii) appropriate training and support services are provided in order to provide such assistance to such significant segments of the population of eligible clients;

(3) insure that grants and contracts are made so as to provide the most economical and effective delivery of legal assistance to persons in both urban and rural areas;

(5) insure that no funds made available to recipients by the Corporation shall be used at any time, directly or indirectly, to influence the issuance, amendment, or revocation of any executive order or similar promulgation by any Federal, State, or local agency, or to undertake to influence the passage or defeat of any legislation by the Congress of the United States, or by any State or local legislative bodies, or State proposals by initiative petition, except where—

(A) representation by an employee of a recipient for any eligible client is necessary to

the provision of legal advice and representation with respect to such client's legal rights and responsibilities (which shall not be construed to permit an attorney or a recipient employee to solicit a client, in violation of professional responsibilities, for the purpose of making such representation possible); or

In making grants or entering into contracts for legal assistance, the Corporation shall insure that any recipient organized solely for the purpose of providing legal assistance to eligible clients is governed by a body at least 60 percent of which consists of attorneys who are members of the bar of a State in which the legal assistance is to be provided (except that the Corporation (1) shall, upon application, grant waivers to permit a legal services program, supported under section 2809(a)(3)¹ of this title, which on July 25, 1974, has a majority of persons who are not attorneys on its policy-making board to continue such a non-attorney majority under the provisions of this subchapter, and (2) may grant, pursuant to regulations issued by the Corporation, such a waiver for recipients which, because of the nature of the population they serve, are unable to comply with such requirement) and at least one-third of which consists of persons who are, when selected, eligible clients who may also be representatives of associations or organizations of eligible clients. Any such attorney, while serving on such board, shall not receive compensation from a recipient.

§ 3024. Allotment to States

(a) Formula for computation of amount

(1) Subject to paragraphs (2) and (3), from the sums appropriated under section 3023 of this title for each fiscal year, each State shall be allotted an amount which bears the same ratio to such sums as the population of older individuals in such State bears to the population of older individuals in all States, except that (A) no State shall be allotted less than one-half of 1 percent of the sum appropriated for the fiscal year for which the determination is made; (B) Guam, the United States Virgin Islands, and the Trust Territory of the Pacific Islands, shall each be allotted not less than one-fourth of 1 percent of the sum appropriated for the fiscal year for which the determination is made; and (C) American Samoa and the Commonwealth of the Northern Mariana Islands shall each be allotted not less than one-sixteenth of 1 percent of the sum appropriated for the fiscal year for which the determination is made. For the purposes of paragraph (3) and the exception contained in subparagraph (A) only, the term "State" does not include Guam, American Samoa, the United States Virgin Islands, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands.

(2) No State shall be allotted less than the total amount allotted to the State under paragraph (1) of this subsection and section 3028 of this title for fiscal year 1987.

(3) No State shall be allotted, from the amount appropriated under section 3023(g) of this title, less than \$50,000 for any fiscal year.

(4) The number of individuals aged 60 or older in any State and in all States shall be determined by the Assistant Secretary on the basis of the most recent data available from the Bureau of the Census, and other reliable demographic data satisfactory to the Assistant Secretary.

(b) Unused funds

Whenever the Assistant Secretary determines that any amount allotted to a State under part B or C of this subchapter for a fiscal year under this section will not be used by such State for carrying out the purpose for which the allotment was made, the Assistant Secretary shall make such allotment available for carrying out such purpose to one or more other States to the extent the Assistant Secretary determines that such other States will be able to use such additional amount for carrying out such purpose. Any amount made available to a State from an appropriation for a fiscal year in accordance with the preceding sentence shall, for purposes

of this subchapter, be regarded as part of such State's allotment (as determined under subsection (a) of this section) for such year, but shall remain available until the end of the succeeding fiscal year.

(c) Withholding of funds; disbursement

If the Assistant Secretary finds that any State has failed to qualify under the State plan requirements of section 3027 of this title or the Assistant Secretary does not approve the funding formula required under section 3025(a)(2)(C) of this title, the Assistant Secretary shall withhold the allotment of funds to such State referred to in subsection (a) of this section. The Assistant Secretary shall disburse the funds so withheld directly to any public or private nonprofit institution or organization, agency, or political subdivision of such State submitting an approved plan under section 3027 of this title, which includes an agreement that any such payment shall be matched in the proportion determined under subsection (d)(1)(D) of this section for such State, by funds or in-kind resources from non-Federal sources.

(d) Costs of administration, ombudsman program, demonstration projects, supportive services, senior centers and nutrition services; payment and determination of non-Federal share

(1) From any State's allotment, after the application of section 3028(b) of this title, under this section for any fiscal year—

(A) such amount as the State agency determines, but not more than 10 percent thereof, shall be available for paying such percentage as the agency determines, but not more than 75 percent, of the cost of administration of area plans;

(B) such amount (excluding any amount attributable to funds appropriated under section 3023(a)(3) of this title) as the State agency determines to be adequate for conducting an effective ombudsman program under section 3027(a)(12) of this title shall be available for conducting such program;

(C) not less than \$150,000 and not more than 4 percent of the amount allotted to the State for carrying out part B of this subchapter, shall be available for conducting outreach demonstration projects under section 3058e of this title; and

(D) the remainder of such allotment shall be available to such State only for paying such percentage as the State agency determines, but not more than 85 percent of the cost of supportive services, senior centers, and nutrition services under this subchapter provided in the State as part of a comprehensive and coordinated system in planning and service areas for which there is an area plan approved by the State agency.

(2) The non-Federal share shall be in cash or in kind. In determining the amount of the non-Federal share, the Assistant Secretary may attribute fair market value to services and facilities contributed from non-Federal sources.

(e) Volunteer services coordinator

Grants made from allotments received under this subchapter may be used for paying for the

§ 3025. Designation of State agencies

(a) Duties of designated agency

In order for a State to be eligible to participate in programs of grants to States from allotments under this subchapter—

(1) the State shall, in accordance with regulations of the Assistant Secretary, designate a State agency as the sole State agency to—

(A) develop a State plan to be submitted to the Assistant Secretary for approval under section 3027 of this title;

(B) administer the State plan within such State;

(C) be primarily responsible for the planning, policy development, administration, coordination, priority setting, and evaluation of all State activities related to the objectives of this chapter;

(D) serve as an effective and visible advocate for older individuals by reviewing and commenting upon all State plans, budgets, and policies which affect older individuals and providing technical assistance to any agency, organization, association, or individual representing the needs of older individuals; and

(E) divide the State into distinct planning and service areas (or in the case of a State specified in subsection (b)(5)(A) of this section, designate the entire State as a single planning and service area), in accordance with guidelines issued by the Assistant Secretary, after considering the geographical distribution of older individuals in the State, the incidence of the need for supportive services, nutrition services, multipurpose senior centers, and legal assistance, the distribution of older individuals who have greatest economic need (with particular attention to low-income minority individuals) residing in such areas, the distribution of older individuals who have greatest social need (with particular attention to low-income minority individuals) residing in such areas, the distribution of older individuals who are Indians residing in such areas, the distribution of resources available to provide such services or centers, the boundaries of existing areas within the State which were drawn for the planning or administration of supportive services programs, the location of units of general purpose local government within the State, and any other relevant factors; and

(2) the State agency shall—

(A) except as provided in subsection (b)(5) of this section, designate for each such area

after consideration of the views offered by the unit or units of general purpose local government in such area, a public or private nonprofit agency or organization as the area agency on aging for such area;

(B) provide assurances, satisfactory to the Assistant Secretary, that the State agency will take into account, in connection with matters of general policy arising in the development and administration of the State plan for any fiscal year, the views of recipients of supportive services or nutrition services, or individuals using multipurpose senior centers provided under such plan;

(C) in consultation with area agencies, in accordance with guidelines issued by the Assistant Secretary, and using the best available data, develop and publish for review and comment a formula for distribution within the State of funds received under this subchapter that takes into account—

(i) the geographical distribution of older individuals in the State; and

(ii) the distribution among planning and service areas of older individuals with greatest economic need and older individuals with greatest social need, with particular attention to low-income minority older individuals;

(D) submit its formula developed under subparagraph (C) to the Assistant Secretary for approval;

(E) provide assurances that preference will be given to providing services to older individuals with greatest economic need and older individuals with greatest social need, with particular attention to low-income minority individuals, and include proposed methods of carrying out the preference in the State plan;

(F) provide assurances that the State agency will require use of outreach efforts described in section 3027(a)(24) of this title; and

(G)(i) set specific objectives, in consultation with area agencies on aging, for each planning and service area for providing services funded under this subchapter to low-income minority older individuals;

(ii) provide an assurance that the State agency will undertake specific program development, advocacy, and outreach efforts focused on the needs of low-income minority older individuals; and

(iii) provide a description of the efforts described in clause (ii) that will be undertaken by the State agency.

(b) Planning and service area designated; Indian reservations; redesignation; adjustment of State allotment; review by Assistant Secretary; additional planning and service areas; right to first refusal to units of local government; procedures and review of boundaries

(1) In carrying out the requirement of subsection (a)(1) of this section, the State may designate as a planning and service area any unit of general purpose local government which has a population of 100,000 or more. In any case in which a unit of general purpose local govern-

ment makes application to the State agency under the preceding sentence to be designated as a planning and service area, the State agency shall, upon request, provide an opportunity for a hearing to such unit of general purpose local government. A State may designate as a planning and service area under subsection (a)(1) of this section, any region within the State recognized for purposes of areawide planning which includes one or more such units of general purpose local government when the State determines that the designation of such a regional planning and service area is necessary for, and will enhance, the effective administration of the programs authorized by this subchapter. The State may include in any planning and service area designated under subsection (a)(1) of this section such additional areas adjacent to the unit of general purpose local government or regions so designated as the State determines to be necessary for, and will enhance the effective administration of the programs authorized by this subchapter.

(2) The State is encouraged in carrying out the requirement of subsection (a)(1) of this section to include the area covered by the appropriate economic development district involved in any planning and service area designated under subsection (a)(1) of this section, and to include all portions of an Indian reservation within a single planning and service area, if feasible.

(3) The chief executive officer of each State in which a planning and service area crosses State boundaries, or in which an interstate Indian reservation is located, may apply to the Assistant Secretary to request redesignation as an interstate planning and service area comprising the entire metropolitan area or Indian reservation. If the Assistant Secretary approves such an application, the Assistant Secretary shall adjust the State allotments of the areas within the planning and service area in which the interstate planning and service area is established to reflect the number of older individuals within the area who will be served by an interstate planning and service area not within the State.

(4) Whenever a unit of general purpose local government, a region, a metropolitan area or an Indian reservation is denied designation under the provisions of subsection (a)(1) of this section, such unit of general purpose local government, region, metropolitan area, or Indian reservation may appeal the decision of the State agency to the Assistant Secretary. The Assistant Secretary shall afford such unit, region, metropolitan area, or Indian reservation an opportunity for a hearing. In carrying out the provisions of this paragraph, the Assistant Secretary may approve the decision of the State agency, disapprove the decision of the State agency and require the State agency to designate the unit, region, area, or Indian reservation appealing the decision as a planning and service area, or take such other action as the Assistant Secretary deems appropriate.

(5)(A) A State which on or before October 1, 1980, had designated, with the approval of the Assistant Secretary, a single planning and service area covering all of the older individuals in the State, in which the State agency was administering the area plan, may after that date des-

ignate one or more additional planning and service areas within the State to be administered by public or private nonprofit agencies or organizations as area agencies on aging, after considering the factors specified in subsection (a)(1)(E) of this section. The State agency shall continue to perform the functions of an area agency on aging for any area of the State not included in a planning and service area for which an area agency on aging has been designated.

(B) Whenever a State agency designates a new area agency on aging after October 9, 1984, the State agency shall give the right to first refusal to a unit of general purpose local government if (i) such unit can meet the requirements of subsection (c) of this section, and (ii) the boundaries of such a unit and the boundaries of the area are reasonably contiguous.

(C)(i) A State agency shall establish and follow appropriate procedures to provide due process to affected parties, if the State agency initiates an action or proceeding to—

(I) revoke the designation of the area agency on aging under subsection (a) of this section;

(II) designate an additional planning and service area in a State;

(III) divide the State into different planning and services¹ areas; or

(IV) otherwise affect the boundaries of the planning and service areas in the State.

(ii) The procedures described in clause (i) shall include procedures for—

(I) providing notice of an action or proceeding described in clause (i);

(II) documenting the need for the action or proceeding;

(III) conducting a public hearing for the action or proceeding;

(IV) involving area agencies on aging, service providers, and older individuals in the action or proceeding; and

(V) allowing an appeal of the decision of the State agency in the action or proceeding to the Assistant Secretary.

(iii) An adversely affected party involved in an action or proceeding described in clause (i) may bring an appeal described in clause (ii)(V) on the basis of—

(I) the facts and merits of the matter that is the subject of the action or proceeding; or

(II) procedural grounds.

(iv) In deciding an appeal described in clause (ii)(V), the Assistant Secretary may affirm or set aside the decision of the State agency. If the Assistant Secretary sets aside the decision, and the State agency has taken an action described in subclauses (I) through (III) of clause (i), the State agency shall nullify the action.

(c) Eligible State area agencies; development of area; preferred area agency on aging designees

An area agency on aging designated under subsection (a) of this section shall be—

(1) an established office of aging which is operating within a planning and service area designated under subsection (a) of this section;

(2) any office or agency of a unit of general purpose local government, which is designated

to function only for the purpose of serving as an area agency on aging by the chief elected official of such unit;

(3) any office or agency designated by the appropriate chief elected officials of any combination of units of general purpose local government to act only on behalf of such combination for such purpose;

(4) any public or nonprofit private agency in a planning and service area, or any separate organizational unit within such agency, which is under the supervision or direction for this purpose of the designated State agency and which can and will engage only in the planning or provision of a broad range of supportive services, or nutrition services within such planning and service area; or

(5) in the case of a State specified in subsection (b)(5) of this section, the State agency; and shall provide assurance, determined adequate by the State agency, that the area agency on aging will have the ability to develop an area plan and to carry out, directly or through contractual or other arrangements, a program in accordance with the plan within the planning and service area. In designating an area agency on aging within the planning and service area or within any unit of general purpose local government designated as a planning and service area the State shall give preference to an established office on aging, unless the State agency finds that no such office within the planning and service area will have the capacity to carry out the area plan.

(d) Publication for review and comment; contents

The publication for review and comment required by paragraph (2)(C) of subsection (a) of this section shall include—

(1) a descriptive statement of the formula's assumptions and goals, and the application of the definitions of greatest economic or social need,

(2) a numerical statement of the actual funding formula to be used,

(3) a listing of the population, economic, and social data to be used for each planning and service area in the State, and

(4) a demonstration of the allocation of funds, pursuant to the funding formula, to each planning and service area in the State.

Except as provided in the succeeding sentence and section 3029(a) of this title, each State, in order to be eligible for grants from its allotment under this subchapter for any fiscal year, shall submit to the Assistant Secretary a State plan for a two-, three-, or four-year period determined by the State agency, with such annual revisions as are necessary, which meets such criteria as the Assistant Secretary may by regulation prescribe. If the Assistant Secretary determines, in the discretion of the Assistant Secretary, that a State failed in 2 successive years to comply with the requirements under this subchapter, then the State shall submit to the Assistant Secretary a State plan for a 1-year period that meets such criteria, for subsequent years until the Assistant Secretary determines that the State is in compliance with such requirements. Each such plan shall comply with all of the following requirements:

(2) The plan shall provide that each area agency on aging designated under section 3025(a)(2)(A) of this title will develop and submit to the State agency for approval an area plan which complies with the provisions of section 3026 of this title.

(3)(A) The plan shall provide that the State agency will evaluate the need for supportive services (including legal assistance and transportation services), nutrition services, and multipurpose senior centers within the State and determine the extent to which existing public or private programs meet such need. To conduct the evaluation, the State agency shall use the procedures implemented under section 3012(a)(29) of this title.

(B) The plan shall provide assurances that the State agency will spend in each fiscal year, for services to older individuals residing in rural areas in the State assisted under this subchapter, an amount equal to not less than 105 percent of the amount expended for such services (including amounts expended under subchapter V and subchapter VII of this chapter) in fiscal year 1978.

methods) as are necessary for the proper and efficient administration of the plan, and, where necessary, provide for the reorganization and reassignment of functions to assure such efficient administration.

The State agency shall establish and publish procedures for requesting and conducting such hearing.

(6) The plan shall provide that the State agency will make such reports, in such form, and containing such information, as the Assistant Secretary may require, and comply with such requirements as the Assistant Secretary may impose to insure the correctness of such reports.

In conducting such evaluations and public hearings, the State agency shall solicit the views and experiences of entities that are knowledgeable about the needs and concerns of low-income minority older individuals.

(9) The plan shall provide for establishing and maintaining information and assistance services in sufficient numbers to assure that all older individuals in the State who are not furnished adequate information and assistance services under section 3026(a)(4) of this title will have reasonably convenient access to such services.

The findings of the Assistant Secretary as to the facts, if supported by substantial evidence, shall be conclusive, but the court, for good cause shown, may remand the case to the Assistant Secretary to take further evidence, and the Assistant Secretary shall, within 30 days, file in the court the record of those further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence. The judgment of the court affirming or setting aside, in whole or in part, any action of the Assistant Secretary shall be final, subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28.

§ 3028. Cost of administration of State plans**(a) Activities constituting administration; use of excess funds to supplement cost of administration of area plans; election to pay costs from sums received for administration of area plans**

(1) Amounts available to States under subsection (b)(1) of this section may be used to make grants to States for paying such percentages as each State agency determines, but not more than 75 percent, of the cost of the administration of its State plan, including the preparation of the State plan, the evaluation of activities carried out under such plan, the collection of data and the carrying out of analyses related to the need for supportive services, nutrition services, and multipurpose senior centers within the State, and dissemination of information so obtained, the provision of short-term training to personnel of public or nonprofit private agencies and organizations engaged in the operation of programs authorized by this chapter, and the carrying out of demonstration projects of statewide significance relating to the initiation, expansion, or improvement of services assisted under this subchapter.

(2) Any sums available to a State under subsection (b)(1) of this section for part of the cost of the administration of its State plan which the State determines is not needed for such purpose may be used by the State to supplement the amount available under section 3024(d)(1)(A) of this title to cover part of the cost of the administration of area plans.

(3) Any State which has been designated a single planning and service area under section 3025(a)(1)(E) of this title covering all, or substantially all, of the older individuals in such State, as determined by the Assistant Secretary, may elect to pay part of the costs of the administration of State and area plans either out of sums received under this section or out of sums made available for the administration of area plans under section 3024(d)(1)(A) of this title, but shall not pay such costs out of sums received or allotted under both such sections.

Any such application shall be transmitted in such form, and according to such procedures, as the Assistant Secretary may require, except that such application may not be made as part of, or as an amendment to, the State plan.

(B) The Assistant Secretary may approve any application transmitted by a State under subparagraph (A) if the Assistant Secretary determines, based upon a particularized showing of need, that—

(i) the State will be unable to fully and effectively administer its State plan and to

carry out programs and projects authorized by this subchapter unless such additional amounts are made available by the Assistant Secretary;

(ii) the State is making full and effective use of its allotment under paragraph (1) and of the personnel of the State agency and area agencies designated under section 3025(a)(2)(A) of this title in the administration of its State plan in accordance with subsection (a) of this section; and

(iii) the State agency and area agencies on aging of such State are carrying out, on a full-time basis, programs and activities which are in furtherance of the objectives of this chapter.

(4)(A) Notwithstanding any other provision of this subchapter and except as provided in subparagraph (B), with respect to funds received by a State and attributable to funds appropriated under paragraph (1) or (2) of section 3023(b) of this title, the State may elect in its plan under section 3027(a)(13) regarding part C of this subchapter, to transfer not more than 30 percent of the funds so received between subpart I and subpart II of part C of this subchapter, for use as the State considers appropriate to meet the needs of the area served. The Assistant Secretary shall approve any such transfer unless the Assistant Secretary determines that such transfer is not consistent with the objectives of this chapter.

(B) If a State demonstrates, to the satisfaction of the Assistant Secretary, that funds received by the State and attributable to funds appropriated under paragraph (1) or (2) of section 3023(b) of this title, including funds transferred under subparagraph (A) without regard to this subparagraph, for fiscal year 1993, 1994, 1995, or 1996 are insufficient to satisfy the need for services under subpart I or subpart II of part C of this subchapter, then the Assistant Secretary may grant a waiver that permits the State to transfer under subparagraph (A) to satisfy such need—

The State shall notify the Assistant Secretary of any such election.

(B)(i) If a State demonstrates, to the satisfaction of the Assistant Secretary, that funds received by the State and attributable to funds appropriated under part B of this subchapter or part C of this subchapter (including funds transferred under subparagraph (A) without regard to this subparagraph) for fiscal year 1994 or 1995 are insufficient to satisfy the need for services under such part, then the Assistant Secretary may grant a waiver that permits the State to transfer under subparagraph (A) to satisfy such need an additional 5 percent of the funds so received for such fiscal year.

(ii) If a State demonstrates, to the satisfaction of the Assistant Secretary, that funds received by the State and attributable to funds appropriated under part B of this subchapter or part C of this subchapter (including funds transferred under subparagraph (A) without regard to this subparagraph) for fiscal year 1996 are insufficient to satisfy the need for services under such part, then the Assistant Secretary may grant a waiver that permits the State to transfer under subparagraph (A) to satisfy such need an additional 8 percent of the funds so received for such fiscal year.

(C) At a minimum, the application described in subparagraph (A) shall include a description of the amount to be transferred, the purposes of the transfer, the need for the transfer, and the impact of the transfer on the provision of services from which the funding will be transferred. The Assistant Secretary shall approve or deny the application in writing.

(I) part B of this subchapter; and

(II) part C of this subchapter, including the effect on the number of meals served.

§ 3056. Older American Community Service Employment Program

(a) Employment

In order to foster and promote useful part-time opportunities in community service activities for unemployed low-income persons who are fifty-five years old or older and who have poor employment prospects, the Secretary of Labor (hereinafter in this subchapter referred to as the "Secretary") is authorized to establish an older American community service employment program.

(b) Authority of Secretary; execution of agreements with terms and conditions for furthering purposes and goals of program; regulations for execution of subchapter provisions; development of alternatives for innovative work modes; creation of job opportunities; Senior Environmental Employment Corps

(1) In order to carry out the provisions of this subchapter, the Secretary is authorized to enter into agreements with public or private nonprofit agencies or organizations, including national organizations, agencies of a State government or a political subdivision of a State (having elected or duly appointed governing officials), or a combination of such political subdivisions, or tribal organizations in order to further the purposes and goals of the program. Such agreements may include provisions for the payment of costs, as provided in subsection (c) of this section, of projects developed by such organizations and agencies in cooperation with the Secretary in order to make the program effective or to supplement the program. No payment shall be made by the Secretary toward the cost of any project established or administered by any such organization or agency unless the Secretary determines that such project—

(A) will provide employment only for eligible individuals, except for necessary technical, administrative, and supervisory personnel, but such personnel shall, to the fullest extent possible,

be recruited from among eligible individuals;

(B) will provide employment for eligible individuals in the community in which such individuals reside, or in nearby communities;

(C) will employ eligible individuals in services related to publicly owned and operated facilities and projects, or projects sponsored by organizations, other than political parties, exempt from taxation under the provisions of section 501(c)(3) of title 26, except projects involving the construction, operation, or maintenance of any facility used or to be used as a place for sectarian religious instruction or worship;

(D) will contribute to the general welfare of the community;

(E) will provide employment for eligible individuals;

(F)(i) will result in an increase in employment opportunities over those opportunities which would otherwise be available, (ii) will not result in the displacement of currently employed workers (including partial displacement, such as a reduction in the hours of non-overtime work or wages or employment benefits), and (iii) will not impair existing contracts or result in the substitution of Federal funds for other funds in connection with work that would otherwise be performed;

(G) will not employ or continue to employ any eligible individual to perform work the same or substantially the same as that performed by any other person who is on layoff;

(H) will utilize methods of recruitment and selection (including listing of job vacancies with the employment agency operated by any State or political subdivision thereof) which will assure that the maximum number of eligible individuals will have an opportunity to participate in the project;

(I) will include such training as may be necessary to make the most effective use of the skills and talents of those individuals who are participating, and will provide for the payment of the reasonable expenses of individuals being trained, including a reasonable subsistence allowance;

(J) will assure that safe and healthy conditions of work will be provided, and will assure that individuals employed in community service jobs assisted under this subchapter shall be paid wages which shall not be lower than whichever is the highest of (i) the minimum wage which would be applicable to the employee under the Fair Labor Standards Act of 1938 [29 U.S.C. 201 et seq.], if section 6(a)(1) of such Act [29 U.S.C. 206(a)(1)], applied to the participant and if the participant were not exempt under section 13 thereof [29 U.S.C. 213], (ii) the State or local minimum wage for the most nearly comparable covered employment, or (iii) the prevailing rates of pay for individuals employed in similar public occupations by the same employer;

(K) will be established or administered with the advice of persons competent in the field of service in which employment is being provided, and of persons who are knowledgeable with regard to the needs of older persons;

(L) will authorize pay for necessary transportation costs of eligible individuals which

may be incurred in employment in any project funded under this subchapter, in accordance with regulations promulgated by the Secretary;

(M) will assure, that to the extent feasible, such project will serve the needs of minority, limited English-speaking, and Indian eligible individuals, and eligible individuals who have greatest economic need, at least in proportion to their numbers in the State and take into consideration their rates of poverty and unemployment;

(N)(i) will prepare an assessment of—

- (I) the participants' skills and talents;
- (II) their need for supportive services; and
- (III) their physical capabilities;

except to the extent such project has, for the particular participant involved, an assessment of such skills and talents, such need, or such capabilities prepared recently pursuant to another employment or training program (such as a program under the Job Training Partnership Act (29 U.S.C. 1501 et seq.) or the Carl D. Perkins Vocational and Applied Technology Education Act (20 U.S.C. 2301 et seq.);

(ii) will provide to eligible individuals training and employment counseling based on strategies that identify appropriate employment objectives and the need for supportive services, developed as a result of the assessment provided for in clause (i); and

(iii) will provide counseling to participants on their progress in meeting such objectives and satisfying their need for supportive services;

(O) will authorize funds to be used, to the extent feasible, to include individuals participating in such project under any State unemployment insurance plan; and

(P) will post in such project workplace a notice, and will make available to each person associated with such project a written explanation, clarifying the law with respect to allowable and unallowable political activities under chapter 15 of title 5, applicable to the project and to each category of individuals associated with such project and containing the address and telephone number of the Inspector General of the Department of Labor, to whom questions regarding the application of such chapter may be addressed.

(2) The Secretary is authorized to establish, issue, and amend such regulations as may be necessary to effectively carry out the provisions of this subchapter.

(3) The Secretary shall develop alternatives for innovative work modes and provide technical assistance in creating job opportunities through work sharing and other experimental methods to prime sponsors, labor organizations, groups representing business and industry and workers as well as to individual employers, where appropriate.

(4) The Secretary may enter into an agreement with the Administrator of the Environmental Protection Agency to establish a Senior Environmental Employment Corps.

(c) Authority of Secretary; project costs; non-Federal share; administration costs

(1) The Secretary is authorized to pay not to exceed 90 percent of the cost of any project

which is the subject of an agreement entered into under subsection (b) of this section, except that the Secretary is authorized to pay all of the costs of any such project which is (A) an emergency or disaster project, or (B) a project located in an economically depressed area, as determined by the Secretary in consultation with the Secretary of Commerce and the Secretary of Health and Human Services.

(2) The non-Federal share shall be in cash or in kind. In determining the amount of the non-Federal share, the Secretary is authorized to attribute fair market value to services and facilities contributed from non-Federal sources.

(3) Of the amount for any project to be paid by the Secretary under this subsection, not more than 13.5 percent for fiscal year 1987 and each fiscal year thereafter shall be available for paying the costs of administration for such project, except that—

(A) whenever the Secretary determines that it is necessary to carry out the project assisted under this subchapter, based on information submitted by the public or private nonprofit agency or organization with which the Secretary has an agreement under subsection (b) of this section, the Secretary may increase the amount available for paying the cost of administration to an amount not more than 15 percent of the cost of such project; and

(B) whenever the public or private nonprofit agency or organization with which the Secretary has an agreement under subsection (b) of this section demonstrates to the Secretary that—

(i) major administrative cost increases are being incurred in necessary program components, including liability insurance, payments for workers' compensation, costs associated with achieving unsubsidized placement goals, and other operation requirements imposed by the Secretary;

(ii) the number of employment positions in the project or the number of minority eligible individuals participating in the project will decline if the amount available for paying the cost of administration is not increased; or

(iii) the size of the project is so small that the amount of administrative expenses incurred to carry out the project necessarily exceed 13.5 percent of the amount for such project;

the Secretary shall increase the amount available for the fiscal year for paying the cost of administration to an amount not more than 15 percent of the cost of such project.

(d) Project and program distribution review; notice and opportunity for hearing

§ 3056d. National grants or contracts and State allotments for projects

(a) Reservation of appropriations; national activities based on level of activities in fiscal year 1978; equitable distribution of aggregate activities; transitional employment funds; allotment of excess appropriations based on amount appropriated in fiscal year 1991; allotment formula; preferences in awards; demographics

(1)(A) Subject to subparagraph (B) and paragraph (2), from sums appropriated under this subchapter for each fiscal year, the Secretary shall first reserve such sums as may be necessary for national grants or contracts with public agencies and public or nonprofit private organizations to maintain the level of activities

carried on under such grants or contracts at least at the level of such activities supported under this subchapter and under any other provision of Federal law relating to community service employment programs for older Americans in fiscal year 1978.

(B)(i)(I) For each fiscal year in which the sums appropriated under this subchapter exceed the amount appropriated under this subchapter for fiscal year 1978, the Secretary shall reserve not more than 45 percent of such excess, except as provided in subclause (II), to carry out clauses (ii), (iii), and (v).

(II) The Secretary shall reserve a sum sufficient to carry out clauses (iii) and (v).

(III) The Secretary in awarding grants and contracts under this paragraph from the sum reserved under this paragraph shall, to the extent feasible, assure an equitable distribution of activities under such grants and contracts designed to achieve the allotment among the States described in paragraph (3) of this subsection.

(ii) The Secretary shall reserve such sums as may be necessary for national grants or contracts with public or nonprofit national Indian aging organizations with the ability to provide employment services to older Indians and with national public or nonprofit Pacific Island and Asian American aging organizations with the ability to provide employment services to older Pacific Island and Asian Americans.

(iii) If the amount appropriated under this subchapter for a fiscal year exceeds 102 percent of the amount appropriated under this subchapter for fiscal year 1991, for each fiscal year described in clause (iv), the Secretary shall reserve for recipients of national grants and contracts under this paragraph such portion of the excess amount as the Secretary determines to be appropriate and is—

(I) at least 25 percent of the excess amount; or

(II) the portion required to increase the amount made available under this paragraph to each of the recipients so that the amount equals 1.3 percent of the amount appropriated under this subchapter for fiscal year 1991.

(iv) From the portion reserved under clause (iii), the Secretary shall increase the amount made available under this paragraph to each of the recipients—

(I) for each fiscal year before the fiscal year described in subclause (II), so that such amount equals, or more closely approaches, such 1.3 percent; and

(II) for the first fiscal year for which the portion is sufficient to make available under this paragraph to each of the recipients the amount equal to such 1.3 percent, so that such amount is not less than such 1.3 percent.

(v) For each fiscal year after the fiscal year described in clause (iv)(II), the Secretary shall make available under this paragraph to each of the recipients an amount not less than such 1.3 percent.

(C) Preference in awarding grants and contracts under this paragraph shall be given to national organizations, and agencies, of proven ability in providing employment services to eli-

gible individuals under this program and similar programs. The Secretary, in awarding grants and contracts under this section, shall, to the extent feasible, assure an equitable distribution of activities under such grants and contracts, in the aggregate, among the States, taking into account the needs of underserved States, subject to subparagraph (B)(i)(III).

(2)(A) From sums appropriated under this subchapter for each fiscal year after September 30, 1978, the Secretary shall reserve an amount which is at least 1 percent and not more than 3 percent of the amount appropriated in excess of the amount appropriated for fiscal year 1978 for the purpose of entering into agreements under section 3056(e) of this title, relating to improved transition to private employment.

(B) After the Secretary makes the reservations required by paragraph (1)(B) and subparagraph (A), the remainder of such excess shall be allotted to the appropriate public agency of each State pursuant to paragraph (3).

(3) The Secretary shall allot to the State agency on aging of each State the remainder of the sums appropriated for any fiscal year under section 3056f of this title so that each State will receive an amount which bears the same ratio to such remainder as the product of the number of persons aged fifty-five or over in the State and the allotment percentage of such State bears to the sum of the corresponding product for all States, except that (A) no State shall be allotted less than one-half of 1 percent of the remainder of the sums appropriated for the fiscal year for which the determination is made, or \$100,000, whichever is greater, and (B) Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the United States Virgin Islands, and the Trust Territory of the Pacific Islands shall each be allotted an amount which is not less than one-fourth of 1 percent of the remainder of the sums appropriated for the fiscal year for which the determination is made, or \$50,000, whichever is greater. For the purpose of the exception contained in this paragraph the term "State" does not include Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the United States Virgin Islands, and the Trust Territory of the Pacific Islands.

(4) For the purpose of this subsection—

(A) the allotment percentage of each State shall be 100 percent less that percentage which bears the same ratio to 50 percent as the per capita income of such State bears to the per capita income of the United States, except that (i) the allotment percentage shall in no case be more than 75 percent or less than 33⅓ percent, and (ii) the allotment percentage for the District of Columbia, the Commonwealth of Puerto Rico, Guam, the United States Virgin Islands, American Samoa, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands shall be 75 percent;

(B) the number of persons aged fifty-five or over in any State and in all States, and the per capita income in any State and in all States, shall be determined by the Secretary on the basis of the most satisfactory data available to the Secretary; and

(C) for the purpose of determining the allotment percentage, the term "United States" means the fifty States and the District of Columbia.

(b) Reallotments

The amount allotted for projects within any State under subsection (a) of this section for any fiscal year which the Secretary determines will not be required for such year shall be reallocated, from time to time and on such dates during such year as the Secretary may fix, to projects within other States in proportion to the original allotments to projects within such States under subsection (a) of this section for such year, but with such proportionate amount for any of such other States being reduced to the extent it exceeds the sum the Secretary estimates that projects within such State need and will be able to use for such year; and the total of such reductions shall be similarly reallocated among the States whose proportionate amounts were not so reduced. Any amount reallocated to a State under this subsection during a year shall be deemed part of its allotment under subsection (a) of this section for such year.

(c) Equitable distribution of assistance

The amount apportioned for projects within each State under subsection (a) of this section shall be apportioned among areas within each such State in an equitable manner, taking into consideration (1) the proportion which eligible individuals in each such area bears to the total number of such individuals, respectively, in that State, (2) the relative distribution of such individuals residing in rural and urban areas within the State, and (3) the relative distribution of (A) such individuals who are individuals with greatest economic need, (B) such individuals who are minority individuals, and (C) such individuals who are individuals with greatest social need.

(d) Compliance reports by State agencies

The Secretary shall require the State agency for each State receiving funds under this subchapter to report at the beginning of each fiscal year on such State's compliance with subsection (c) of this section. Such report shall include the names and geographic location of all projects assisted under this subchapter and carried out in the State and the amount allotted to each such project.

(b) Maximum amount of grants

(c) Utilization of land for public purpose within reasonable period of time

No grant shall be made under this section unless the Secretary determines that the land will be utilized for a public purpose within a reasonable period of time and that such utilization will contribute to economy, efficiency, and the comprehensively planned development of the area. The Secretary shall in all cases require that land acquired with the assistance of a grant under this section be utilized for a public purpose within five years after the date on which a contract to make such grant is entered into, unless the Secretary determines that due to unusual circumstances a longer period of time is necessary and in the public interest.

In cases of a diversion of land to other than a public purpose, the Secretary may require repayment of the grant, or substitution of land of approximately equal fair market value, whichever he deems appropriate. An interim use of the land for a public or private purpose in accordance with standards prescribed by the Secretary, or approved by him, shall not constitute a diversion within the meaning of this subsection.

§ 3121. Congressional findings and statement of purpose

The Congress declares that the maintenance of the national economy at a high level is vital to the best interests of the United States, but that some of our regions, counties, and communities are suffering substantial and persistent unemployment and underemployment; that such unemployment and underemployment cause hardship to many individuals and their families, and waste invaluable human resources; that to overcome this problem the Federal Government, in cooperation with the States, should help areas and regions of substantial and persistent unemployment and underemployment to take effective steps in planning and financing their public works and economic development; that Federal financial assistance, including grants for public

works and development facilities to communities, industries, enterprises, and individuals in areas needing development should enable such areas to help themselves achieve lasting improvement and enhance the domestic prosperity by the establishment of stable and diversified local economies and improved local conditions, provided that such assistance is preceded by and consistent with sound, long-range economic planning; and that under the provisions of this chapter new employment opportunities should be created by developing and expanding new and existing public works and other facilities and resources rather than by merely transferring jobs from one area of the United States to another. Congress further declares that, in furtherance of maintaining the national economy at a high level, the assistance authorized by this chapter should be made available to both rural and urban areas; that such assistance be available for planning for economic development prior to the actual occurrences of economic distress in order to avoid such condition; and that such assistance be used for long-term economic rehabilitation in areas where long-term economic deterioration has occurred or is taking place.

SUBCHAPTER I—GRANTS FOR PUBLIC WORKS AND DEVELOPMENT FACILITIES

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 3153, 3214, 9815 of this title; title 40 App. sections 202, 211, 214.

§ 3131. Direct and supplementary grants

(a) Acquisition or development of public works and development facilities; required findings precedent to making of direct grants; supplementary grants to provide matching share funds

Upon the application of any State, or political subdivision thereof, Indian tribe, or private or public nonprofit organization or association representing any redevelopment area or part thereof, the Secretary of Commerce (hereinafter referred to as the Secretary) is authorized—

(1) to make direct grants for the acquisition or development of land and improvements for public works, public service, or development facility usage, and the acquisition, construc-

tion, rehabilitation, alteration, expansion, or improvement of such facilities, including related machinery and equipment, within a redevelopment area, if he finds that—

(A) the project for which financial assistance is sought will directly or indirectly (i) tend to improve the opportunities, in the area where such project is or will be located, for the successful establishment or expansion of industrial or commercial plants or facilities, (ii) otherwise assist in the creation of additional long-term employment opportunities for such area, or (iii) primarily benefit the long-term unemployed and members of low-income families or otherwise substantially further the objectives of the Economic Opportunity Act of 1964 [42 U.S.C. 2701 et seq.];

(B) the project for which a grant is requested will fulfill a pressing need of the area, or part thereof, in which it is, or will be, located;

(C) the area for which a project is to be undertaken has an approved overall economic development program as provided in section 3142(b)(10) of this title and such project is consistent with such program; and

(D) in the case of a redevelopment area so designated under section 3161(a)(6) of this title, the project to be taken will provide immediate useful work to unemployed and underemployed persons in that area;

(2) to make supplementary grants in order to enable the States and other entities within redevelopment areas to take maximum advantage of designated Federal grant-in-aid programs (as hereinafter defined), direct grants-in-aid authorized under this section, and Federal grant-in-aid programs authorized by the Watershed Protection and Flood Prevention Act (68 Stat. 666, as amended) [16 U.S.C. 1001 et seq.], and the eleven watersheds authorized by the Flood Control Act of December 22, 1944, as amended and supplemented (58 Stat. 887), for which they are eligible but for which, because of their economic situation, they cannot supply the required matching share.

(b) Maximum proportion of direct grant funds to total project cost

Subject to subsection (c) hereof, the amount of any direct grant under this section for any project shall not exceed 50 per centum of the cost of such project.

(c) Proportion of supplementary grant funds to total project cost; rules and regulations; maximum grants; required non-Federal share

The amount of any supplementary grant under this section for any project shall not exceed the applicable percentage established by regulations promulgated by the Secretary, but in no event shall the non-Federal share of the aggregate cost of any such project (including assumptions of debt) be less than 20 per centum of such cost, except that in the case of a grant to an Indian tribe, the Secretary may reduce the non-Federal share below such per centum or may waive the non-Federal share. In the case of any State or political subdivision thereof which the Secretary determines has exhausted its effective

taxing and borrowing capacity, the Secretary shall reduce the non-Federal share below such per centum or shall waive the non-Federal share in the case of such a grant for a project in a redevelopment area designated as such under section 3161(a)(6) of this title. In case of any community development corporation which the Secretary determines has exhausted its effective borrowing capacity, the Secretary may reduce the non-Federal share below such per centum or waive the non-Federal share in the case of such a grant for a project in a redevelopment area designated as such under section 3161(a)(6) of this title. Supplementary grant shall be made by the Secretary, in accordance with such regulations as he shall prescribe, by increasing the amounts of direct grants authorized under this section or by the payment of funds appropriated under this chapter to the heads of the departments, agencies, and instrumentalities of the Federal Government responsible for the administration of the applicable Federal programs. Notwithstanding any requirement as to the amount or sources of non-Federal funds that may otherwise be applicable to the Federal program involved, funds provided under this subsection shall be used for the sole purpose of increasing the Federal contribution to specific projects in redevelopment areas under such programs above the fixed maximum portion of the cost of such project otherwise authorized by the applicable law. The term "designated Federal grant-in-aid programs," as used in this subsection, means such existing or future Federal grant-in-aid programs assisting in the construction or equipping of facilities as the Secretary may, in furtherance of the purposes of this chapter, designate as eligible for allocation of funds under this section. In determining the amount of any supplementary grant available to any project under this section, the Secretary shall take into consideration the relative needs of the area, the nature of the project to be assisted, and the amount of such fair user charges or other revenues as the project may reasonably be expected to generate in excess of those which would amortize the local share of initial costs and provide for its successful operation and maintenance (including depreciation).

(d) Rules and regulations; consideration of unemployment and underemployment in determining rules

The Secretary shall prescribe rules, regulations, and procedures to carry out this section which will assure that adequate consideration is given to the relative needs of eligible areas. In prescribing such rules, regulations, and procedures the Secretary shall consider among other relevant factors (1) the severity of the rates of unemployment in the eligible areas and the duration of such unemployment and (2) the income levels of families and the extent of underemployment in eligible areas.

(e) Repealed. Pub. L. 94-487, title I, § 103(a), Oct. 12, 1976, 90 Stat. 2331

(f) Review and comment upon projects by local governmental authorities

The Secretary shall prescribe regulations which will assure that appropriate local govern-

mental authorities have been given a reasonable opportunity to review and comment upon proposed projects under this section.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 3142, 3143, 3171, 3211, 3220, 3221, 3222, 3223 of this title; title 15 section 636.

§ 3142. Business loans and loan guarantees

(a) Permissible guarantees; guarantee maximums

(1) The Secretary is authorized to aid in financing, within a redevelopment area, the purchase or development of land and facilities (including machinery and equipment) for industrial or commercial usage, including the construction of new buildings, the rehabilitation of abandoned or unoccupied buildings, and the alteration, conversion, or enlargement of existing buildings by (A) purchasing evidences of indebtedness, (B) making loans (which for purposes of this section shall include participation in loans), (C) guaranteeing loans made to private borrowers by private lending institutions, for any of the purposes referred to in this paragraph upon application of such institution and upon such terms and conditions as the Secretary may prescribe, except that no such guarantee shall at any time exceed 90 per centum of the amount of the outstanding unpaid balance of such loan.

(2) In addition to any other financial assistance under this subchapter, the Secretary is authorized, in the case of any loan guarantee under authority of paragraph (1) of this section, to pay to or on behalf of the private borrower an amount sufficient to reduce up to 4 percentage points the interest paid by such borrower on

such guaranteed loans. No payment under this paragraph shall result in the interest rate being paid by a borrower on such a guaranteed loan being less than the rate of interest for such a loan if it were made under section 3141 of this title. Payments made to or on behalf of such borrower shall be made no less often than annually.

(3) The Secretary is authorized to aid in financing any industrial or commercial activity within a redevelopment area by (A) making working capital loans, (B) guaranteeing working capital loans made to private borrowers by private lending institutions upon application of such institution and upon such terms and conditions as the Secretary may prescribe, except that no such guarantee shall at any time exceed 90 per centum of the amount of the outstanding unpaid balance of such loan, (C) guaranteeing rental payments of leases for buildings and equipment, except that no such guarantee shall exceed 90 per centum of the remaining rental payments required by the lease. (D) paying those debts with respect to which a lien against property has been legally obtained (including the refinancing of any such debt) in any case where the Secretary determines that it is essential to do so in order to save employment in a designated area, to avoid a significant rise in unemployment, or to create new or increased employment.

(b) Terms and conditions

Financial assistance under this section shall be on such terms and conditions as the Secretary determines, subject, however, to the following restrictions and limitations:

(1) Such financial assistance shall not be extended to assist establishments relocating from one area to another or to assist subcontractors whose purpose is to divest, or whose economic success is dependent upon divesting, other contractors or subcontractors of contracts theretofore customarily performed by them: *Provided, however,* That such limitation shall not be construed to prohibit assistance for the expansion of an existing business entity through the establishment of a new branch, affiliate, or subsidiary of such entity if the Secretary finds that the establishment of such branch, affiliate, or subsidiary will not result in an increase in unemployment of the area of original location or in any other area where such entity conducts business operations, unless the Secretary has reason to believe that such branch, affiliate, or subsidiary is being established with the intention of closing down the operations of the existing business entity in the area of its original location or in any other area where it conducts such operations.

(2) Such assistance shall be extended only to applicants, both private and public (including Indian tribes), which have been approved for such assistance by an agency or instrumentality of the State or political subdivision thereof in which the project to be financed is located, and which agency or instrumentality is directly concerned with problems of economic development in such State or subdivision.

(3) The project for which financial assistance is sought must be reasonably calculated to

provide more than a temporary alleviation of unemployment or underemployment within the redevelopment area wherein it is or will be located.

(4) No loan or guarantee shall be extended hereunder unless the financial assistance applied for is not otherwise available from private lenders or from other Federal agencies on terms which in the opinion of the Secretary will permit the accomplishment of the project.

(5) The Secretary shall not make any loan without a participation unless he determines that the loan cannot be made on a participation basis.

(6) No evidences of indebtedness shall be purchased and no loans shall be made or guaranteed unless it is determined that there is reasonable assurance of repayment.

(7) Subject to section 3211(5) of this title, no loan or guarantee, including renewals or extension thereof, may be made hereunder for a period exceeding twenty-five years and no evidences of indebtedness maturing more than twenty-five years from date of purchase may be purchased hereunder: *Provided*, That the foregoing restrictions on maturities shall not apply to securities or obligations received by the Secretary as a claimant in bankruptcy or equitable reorganization or as a creditor in other proceedings attendant upon insolvency of the obligor.

(8) Loans made and evidences of indebtedness purchased under this section shall bear interest at a rate not less than a rate determined by the Secretary of the Treasury taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, adjusted to the nearest one-eighth of 1 per centum, plus additional charge, if any, toward covering other costs of the program as the Secretary may determine to be consistent with its purpose.

(9) Loan assistance (other than for a working capital loan) shall not exceed 65 per centum of the aggregate cost to the applicant (excluding all other Federal aid in connection with the undertaking) of acquiring or developing land and facilities (including machinery and equipment), and of constructing, altering, converting, rehabilitating, or enlarging the building or buildings of the particular project, and shall, among others, be on the condition that—

(A) other funds are available in an amount which, together with the assistance provided hereunder, shall be sufficient to pay such aggregate cost;

(B) not less than 15 per centum of such aggregate cost be supplied as equity capital or as a loan repayable in no shorter period of time and at no faster an amortization rate than the Federal financial assistance extended under this section is being repaid, and if such a loan is secured, its security shall be subordinate and inferior to the lien or liens securing such Federal financial assistance: *Provided, however*, That, except in projects involving financial participation by Indian tribes, not less than 5 per centum of

such aggregate cost shall be supplied by the State or any agency, instrumentality, or political subdivision thereof, or by a community or area organization which is non-governmental in character, unless the Secretary shall determine in accordance with objective standards promulgated by regulation that all or part of such funds are not reasonably available to the project because of the economic distress of the area or for other good cause, in which case he may waive the requirement of this provision to the extent of such unavailability, and allow the funds required by this subsection to be supplied by the applicant or by such other non-Federal source as may reasonably be available to the project;

(C) to the extent the Secretary finds such action necessary to encourage financial participation in a particular project by other lenders and investors, and except as otherwise provided in subparagraph (B), any Federal financial assistance extended under this section may be repayable only after other loans made in connection with such project have been repaid in full, and the security, if any, for such Federal financial assistance may be subordinate and inferior to the lien or liens securing other loans made in connection with the same project.

(10) No such assistance shall be extended unless there shall be submitted to and approved by the Secretary an overall program for the economic development of the area and a finding by the State, or any agency, instrumentality, or local political subdivision thereof, that the project for which financial assistance is sought is consistent with such program: *Provided*, That nothing in this chapter shall authorize financial assistance for any project prohibited by laws of the State or local political subdivision in which the project would be located, nor prevent the Secretary from requiring such periodic revisions of previously approved overall economic development programs as he may deem appropriate.

The Secretary shall make available to interested individuals and organizations the results of such research. The Secretary shall include in his annual report under section 3217 of this title a detailed statement concerning the study and research conducted under this section together with his findings resulting therefrom and his recommendations for legislative and other action.

PART A—REDEVELOPMENT AREAS

§ 3161. Area eligibility**(a) Criteria for determining eligible areas; unemployment; median family income; Indian lands; loss of major source of employment**

The Secretary shall designate as “redevelopment areas”—

(1) those areas in which he determines, upon the basis of standards generally comparable with those set forth in paragraphs (A) and (B), that there has existed substantial and persistent unemployment for an extended period of time and those areas in which he determines there has been a substantial loss of population due to lack of employment opportunity. There shall be included among the areas so designated any area—

(A) where the Secretary of Labor finds that the current rate of unemployment, as determined by appropriate annual statistics for the most recent twelve consecutive months, is 6 per centum or more and has averaged at least 6 per centum for the qualifying time periods specified in paragraph (B); and

(B) where the Secretary of Labor finds that the annual average rate of unemployment has been at least—

(i) 50 per centum above the national average for three of the preceding four calendar years, or

(ii) 75 per centum above the national average for two of the preceding three calendar years, or

(iii) 100 per centum above the national average for one of the preceding two calendar years.

The Secretary of Labor shall find the facts and provide the data to be used by the Secretary in making the determinations required by this subsection;

(2) those additional areas which have a median family income not in excess of 50 per centum of the national median, as determined by the most recent available statistics for such areas;

(3) those additional Federal or State Indian reservations or trust or restricted Indian-owned land areas which the Secretary, after consultation with the Secretary of the Interior or an appropriate State agency, determines manifest the greatest degree of economic distress on the basis of unemployment and income statistics and other appropriate evidence of economic underdevelopment; *Provided, however,* That uninhabited Federal or State Indian reservations or trust or restricted Indian-owned land areas may be designated where such designation would permit assistance to Indian tribes, with a direct beneficial effect on the economic well-being of Indians;

(4) upon request of such areas, those additional areas in which the Secretary determines that the loss, removal, curtailment, or closing of a major source of employment has caused within three years prior to, or threatens to cause within three years after, the date of the request an unusual and abrupt rise in

unemployment of such magnitude that the unemployment rate for the area at the time of the request exceeds the national average, or can reasonably be expected to exceed the national average, by 50 per centum or more unless assistance is provided. Notwithstanding any provision of subsection (b) of this section to the contrary, an area designated under the authority of this paragraph may be given a reasonable time after designation in which to submit the overall economic development program required by section 3142(b)(10) of this title;

(5) notwithstanding any provisions of this section to the contrary, those additional areas which were designated redevelopment areas under the Area Redevelopment Act [42 U.S.C. 2501 et seq.] on or after March 1, 1965: *Provided, however,* That the continued eligibility of such areas after the first annual review of eligibility conducted in accordance with section 3162 of this title shall be dependent on their qualification for designation under the standards of economic need set forth in subsections (a)(1) through (a)(4) of this section;

(6) those communities or neighborhoods (defined without regard to political or other subdivisions or boundaries) which the Secretary determines have one of the following conditions:

(A) a large concentration of low-income persons;

(B) rural areas having substantial out-migration;

(C) substantial unemployment; or

(D) an actual or threatened abrupt rise of unemployment due to the closing or curtailment of a major source of employment.

No redevelopment area established under this paragraph shall be subject to the requirements of subparagraphs (A) and (C) of paragraph (1) of subsection (a) of section 3131 of this title. No redevelopment area established under this paragraph shall be eligible to meet the requirements of section 3171(a)(1)(B) of this title;

(7) those areas where per capita employment has declined significantly during the next preceding ten-year period for which appropriate statistics are available;

(8) those areas which the Secretary of Labor determines, on the basis of average annual available unemployment statistics, to have experienced unemployment which is both substantial and above the national average for the preceding twenty-four months;

(9) those areas which the Secretary determines have demonstrated long-term economic deterioration.

(b) Size and boundaries of redevelopment areas

The size and boundaries of redevelopment areas shall be as determined by the Secretary: *Provided, however,* That—

(1) no area shall be designated until it has an approved overall economic development program in accordance with section 3142(b)(10) of this title;

(2) any area which does not submit an acceptable overall economic development program in accordance with section 3142(b)(10) of this title within a reasonable time after notifi-

cation of eligibility for designation, shall not thereafter be designated prior to the next annual review of eligibility in accordance with section 3162 of this title;

(3) no area shall be designated which does not have a population of at least one thousand five hundred persons, except that this limitation shall not apply to any area designated under subsection (a)(3) or (a)(6) of this section; and

(4) except for areas designated under subsections (a)(3), (a)(4) and (a)(6) hereof, no area shall be designated which is smaller than a "labor area" (as defined by the Secretary of Labor), a county, or a municipality with a population of over twenty-five thousand, whichever in the opinion of the Secretary is appropriate.

Nothing in this subsection shall prevent any municipality, designated as a redevelopment area or eligible to be designated as a redevelopment area, from combining with any other community having mutual economic interests and transportation and marketing patterns for the purposes of such designation.

(c) Use of data compiled by other Secretaries in making determination of redevelopment areas

Upon the request of the Secretary, the Secretary of Labor, the Secretary of Agriculture, the Secretary of the Interior, and such other heads of agencies as may be appropriate are authorized to conduct such special studies, obtain such information, and compile and furnish to the Secretary such data as the Secretary may deem necessary or proper to enable him to make the determinations provided for in this section. The Secretary shall reimburse when appropriate, out of any funds appropriated to carry out the purposes of this chapter, the foregoing officers for any expenditures incurred by them under this section.

(d) Designation of areas most nearly qualifying as redevelopment areas in event of failure of any area in State to qualify under preceding subsections

If a State has no area designated under the preceding subsections of this section as a redevelopment area, the Secretary shall designate as a redevelopment area that area in such State which in his opinion most nearly qualifies under such preceding subsections. An area so designated shall have its eligibility terminated in accordance with the provisions of section 3162 of this title if any other area within the same State subsequently has become qualified or been designated under any other subsection of this section other than subsection (a)(6) as of the time of the annual review prescribed by section 3162 of this title: *Provided*, That the Secretary shall not terminate any designations of an area in a State as a redevelopment area if to do so would result in such State having no redevelopment area.

(e) "Redevelopment area" defined

As used in this chapter, the term "redevelopment area" refers to any area within the United States which has been designated by the Secretary as a redevelopment area.

§ 3233. Public works and development facilities grants and loans

(a) Funds for recovery investment plans

The President is authorized to provide funds to any Recovery Planning Council for the implementation of a recovery investment plan by public bodies. Such funds may be used—

(1) to make loans for the acquisition or development of land and improvements for public works, public service, or development facility usage, including the acquisition or development of parks or open spaces, and the acquisition, construction, rehabilitation, alteration, expansion, or improvement of such facilities, including related machinery and equipment, and

(2) to make supplementary grants to increase the Federal share for projects for which funds are reserved pursuant to section 3232(c)(2) of this title, or other Federal-aid projects in the affected area.

Grants and loans under this section may be made to any State, local government, or private or public nonprofit organization representing any area or part thereof affected by a major disaster.

(c) Federal share, increase by supplementary grants; limits

No supplementary grant shall increase the Federal share of the cost of any project to greater than 90 per centum, except in the case of a grant for the benefit of Indians or Alaska Natives, or in the case of any State or local government which the President determines has exhausted its effective taxing and borrowing capacity.

(d) Interest rate

Loans under this section shall bear interest at a rate determined by the Secretary of the Treasury taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, adjusted to the nearest one-eighth of 1 per centum, less 1 per centum per annum.

(e) Assistance resulting in relocation of establishments or divestiture of contractors prohibited

Financial assistance under this subchapter shall not be extended to assist establishments relocating from one area to another or to assist subcontractors whose purpose is to divest, or whose economic success is dependent upon divesting, other contractors or subcontractors of contracts therefore customarily performed by them. Such limitations shall not be construed to prohibit assistance for the expansion of an existing business entity through the establishment of

a new branch, affiliate, or subsidiary of such entity if the Secretary of Commerce finds that the establishment of such branch, affiliate, or subsidiary will not result in an increase in unemployment of the area of original location or in any other area where such entity conducts business operations, unless the Secretary has reason to believe that such branch, affiliate, or subsidiary is being established with the intention of closing down the operations of the existing business entity in the area of its original location or in any other area where it conducts such operations.

Such assistance shall include project planning and feasibility studies, management and operational assistance, and studies evaluating the needs of, and developing potentialities for, economic recovery of such areas. Such assistance may be provided by the President directly, through the payment of funds authorized for this subchapter to other departments or agencies of the Federal Government, through the employment of private individuals, partnerships, firms, corporations, or suitable institutions, under contracts entered into for such purposes, or through grants-in-aid to appropriate public or private nonprofit State, area, district, or local organizations.

(B) Grants for unemployment compensation shall be made to the State. Grants for any other purpose shall be made to any appropriate eligible recipient capable of carrying out such purpose.

(d) Transfer of funds; availability of assistance to qualified individuals; limitation of amounts; administration by State agencies

In each case in which the Secretary determines a need for assistance under subsection (a) of this section due to an increase in unemployment and makes a grant under this section, the Secretary may transfer funds available for such grant to the Secretary of Labor and the Sec-

retary of Labor is authorized to provide to any individual unemployed as a result of the dislocation for which such grant is made, such assistance as he deems appropriate while the individual is unemployed. Such assistance as the Secretary of Labor may provide shall be available to an individual not otherwise disqualified under State law for unemployment compensation benefits, as long as the individual's unemployment caused by the dislocation continues or until the individual is reemployed in a suitable position, but no longer than one year after the unemployment commences. Such assistance for a week of unemployment shall not exceed the maximum weekly amount authorized under the unemployment compensation law of the State in which the dislocation occurred, and the amount of assistance under this subsection shall be reduced by any amount of unemployment compensation or of private income protection insurance compensation available to such individual for such week of unemployment.
