§ 6301. Declaration of policy and statement of purpose

(a) Statement of policy

(1) In general

The Congress declares it to be the policy of the United States that a high-quality education for all individuals and a fair and equal opportunity to obtain that education are a societal good, are a moral imperative, and improve the life of every individual, because the quality of our individual lives ultimately depends on the quality of the lives of others.

(2) Additional policy

The Congress further declares it to be the policy of the United States to expand the pro-

gram authorized by this subchapter over the fiscal years 1996 through 1999 by increasing funding for this subchapter by at least \$750,000,000 over baseline each fiscal year and thereby increasing the percentage of eligible children served in each fiscal year with the intent of serving all eligible children by fiscal year 2004.

(b) Recognition of need

The Congress recognizes that—

(1) although the achievement gap between disadvantaged children and other children has been reduced by half over the past two decades, a sizable gap remains, and many segments of our society lack the opportunity to become well educated;

(2) the most urgent need for educational improvement is in schools with high concentrations of children from low-income families and achieving the National Education Goals will not be possible without substantial improvement in such schools;

(3) educational needs are particularly great for low-achieving children in our Nation's highest-poverty schools, children with limited English proficiency, children of migrant workers, children with disabilities, Indian children, children who are neglected or delinquent, and young children and their parents who are in need of family-literacy services;

(4) while this subchapter and other programs funded under this chapter contribute to narrowing the achievement gap between children in high-poverty and low-poverty schools, such programs need to become even more effective in improving schools in order to enable all children to achieve high standards; and

(5) in order for all students to master challenging standards in core academic subjects as described in the third National Education Goal described in section 5812(3) of this title, students and schools will need to maximize the time spent on teaching and learning the core academic subjects.

(c) What has been learned since 1988

To enable schools to provide all children a high-quality education, this subchapter builds upon the following learned information:

(1) All children can master challenging content and complex problem-solving skills. Research clearly shows that children, including low-achieving children, can succeed when expectations are high and all children are given the opportunity to learn challenging material.

(2) Conditions outside the classroom such as hunger, unsafe living conditions, homelessness, unemployment, violence, inadequate health care, child abuse, and drug and alcohol abuse can adversely affect children's academic achievement and must be addressed through the coordination of services, such as health and social services, in order for the Nation to meet the National Education Goals.

(3) Use of low-level tests that are not aligned with schools' curricula fails to provide adequate information about what children know and can do and encourages curricula and instruction that focus on the low-level skills measured by such tests.

(4) Resources are more effective when resources are used to ensure that children have

full access to effective high-quality regular school programs and receive supplemental help through extended-time activities.

(5) Intensive and sustained professional development for teachers and other school staff, focused on teaching and learning and on helping children attain high standards, is too often not provided.

(6) Insufficient attention and resources are directed toward the effective use of technology in schools and the role technology can play in professional development and improved teaching and learning.

(7) All parents can contribute to their children's success by helping at home and becoming partners with teachers so that children can achieve high standards.

(8) Decentralized decisionmaking is a key ingredient of systemic reform. Schools need the resources, flexibility, and authority to design and implement effective strategies for bringing their children to high levels of performance.

(9) Opportunities for students to achieve high standards can be enhanced through a variety of approaches such as public school choice and public charter schools.

(10) Attention to academics alone cannot ensure that all children will reach high standards. The health and other needs of children that affect learning are frequently unmet, particularly in high-poverty schools, thereby necessitating coordination of services to better meet children's needs.

(11) Resources provided under this subchapter can be better targeted on the highest-poverty local educational agencies and schools that have children most in need.

(12) Equitable and sufficient resources, particularly as such resources relate to the quality of the teaching force, have an integral relationship to high student achievement.

(d) Statement of purpose

The purpose of this subchapter is to enable schools to provide opportunities for children served to acquire the knowledge and skills contained in the challenging State content standards and to meet the challenging State performance standards developed for all children. This purpose shall be accomplished by—

(1) ensuring high standards for all children and aligning the efforts of States, local educational agencies, and schools to help children served under this subchapter to reach such standards;

(2) providing children an enriched and accelerated educational program, including, when appropriate, the use of the arts, through schoolwide programs or through additional services that increase the amount and quality of instructional time so that children served under this subchapter receive at least the classroom instruction that other children receive;

(3) promoting schoolwide reform and ensuring access of children (from the earliest grades) to effective instructional strategies and challenging academic content that includes intensive complex thinking and problem-solving experiences;

(4) significantly upgrading the quality of instruction by providing staff in participating schools with substantial opportunities for professional development;

(5) coordinating services under all parts of this subchapter with each other, with other educational services, and, to the extent feasible, with health and social service programs funded from other sources;

(6) affording parents meaningful opportunities to participate in the education of their children at home and at school;

(7) distributing resources, in amounts sufficient to make a difference, to areas and schools where needs are greatest;

(8) improving accountability, as well as teaching and learning, by using State assessment systems designed to measure how well children served under this subchapter are achieving challenging State student performance standards expected of all children; and

(9) providing greater decisionmaking authority and flexibility to schools and teachers in exchange for greater responsibility for student performance.

EX. ORD. NO. 13153. ACTIONS TO IMPROVE LOW-PERFORMING SCHOOLS

Ex. Ord. No. 13153, May 3, 2000, 65 F.R. 26475, provided: By the authority vested in me as President by the Constitution and the laws of the United States of America, including the Elementary and Secondary Education Act of 1965 (ESEA) [20 U.S.C. 6301 et seq.], the Department of Education Appropriations Act, 2000 (as contained in Public Law 106-113) [Pub. L. 106-113, div. B, §1000(a)(4) [title III], Nov. 29, 1999, 113 Stat. 1535, 1501A-242, see Tables for classification], and in order to take actions to improve low-performing schools, it is hereby ordered as follows:

SECTION 1. *Policy.* Since 1993, this Administration has sought to raise standards for students and to increase

accountability in public education while investing more resources in elementary and secondary schools. While much has been accomplished—there has been progress in math and reading achievement, particularly for low-achieving students and students in our highest poverty schools—much more can be done, especially for low-performing schools.

SEC. 2. *Technical Assistance and Capacity Building.* (a) The Secretary of Education (“Secretary”) shall work with State and local educational agencies (“LEAs”) to develop and implement a comprehensive strategy for providing technical assistance and other assistance to States and LEAs to strengthen their capacity to improve the performance of schools identified as low performing. This comprehensive strategy shall include a number of steps, such as:

(1) providing States, school districts, and schools receiving funds from the school improvement fund established by Public Law 106–113, as well as other districts and schools identified for school improvement or corrective action under Title I of the ESEA [20 U.S.C. 6301 et seq.], with access to the latest research and information on best practices, including research on instruction and educator professional development, and with the opportunity to learn from exemplary schools and exemplary State and local intervention strategies and from each other, in order to improve achievement for all students in the low-performing schools;

(2) determining effective ways of providing low-performing schools with access to resources from other Department of Education programs, such as funds from the Comprehensive School Reform Demonstration Program, the Reading Excellence Act [Pub. L. 105–277, div. A, §101(f) [title VIII], Oct. 21, 1998, 112 Stat. 2681–337, 2681–391, see Tables for classification], the Eisenhower Professional Development Program, the Class Size Reduction Program, and the 21st Century Community Learning Centers Program, and to make effective use of these funds and Title I funds;

(3) providing States and LEAs with information on effective strategies to improve the quality of the teaching force, including strategies for recruiting and retaining highly qualified teachers in high-poverty schools, and implementing research-based professional development programs aligned with challenging standards;

(4) helping States and school districts build partnerships with technical assistance providers, including, but not limited to, federally funded laboratories and centers, foundations, businesses, community-based organizations, institutions of higher education, reform model providers, and other organizations that can help local schools improve;

(5) identifying previously low-performing schools that have made significant achievement gains, and States and school districts that have been effective in improving the achievement of all students in low-performing schools, which can serve as models and resources;

(6) providing assistance and information on how to effectively involve parents in the school-improvement process, including effectively involving and informing parents at the beginning of the school year about improvement goals for their school as well as the goals for their own children, and reporting on progress made in achieving these goals;

(7) providing States and LEAs with information on effective approaches to school accountability, including the effectiveness of such strategies as school reconstitution, peer review teams, and financial rewards and incentives;

(8) providing LEAs with information and assistance on the design and implementation of approaches to choice among public schools that create incentives for improvement throughout the local educational agency, especially in the lowest-performing schools, and that maximize the opportunity of students in low-performing schools to attend a higher-performing public school;

(9) exploring the use of well-trained tutors to raise student achievement through initiatives such as “America Reads,” “America Counts,” and other work-study opportunities to help low-performing schools;

(10) using a full range of strategies for disseminating information about effective practices, including interactive electronic communications;

(11) working with the Department of Interior, Bureau of Indian Affairs (BIA), to provide technical assistance to BIA-funded low-performing schools; and

(12) taking other steps that can help improve the quality of teaching and instruction in low-performing schools.

(b) The Secretary shall, to the extent permitted by law, take whatever steps the Secretary finds necessary and appropriate to redirect the resources and technical assistance capability of the Department of Education (“Department”) to assist States and localities in improving low-performing schools, and to ensure that the dissemination of research to help turn around low-performing schools is a priority of the Department.

SEC. 3. *School Improvement Report.* To monitor the progress of LEAs and schools in turning around failing schools, including those receiving grants from the School Improvement Fund, the Secretary shall prepare an annual School Improvement Report, to be published in September of each year, beginning in 2000. The report shall:

(a) describe trends in the numbers of LEAs and schools identified as needing improvement and subsequent changes in the academic performance of their students;

(b) identify best practices and significant research findings that can be used to help turn around low-performing LEAs and schools; and

(c) document ongoing efforts as a result of this order and other Federal efforts to assist States and local school districts in intervening in low-performing schools, including improving teacher quality. This report shall be publicly accessible.

SEC. 4. *Compliance Monitoring System.* Consistent with the implementation of the School Improvement Fund, the Secretary shall strengthen the Department’s monitoring of ESEA requirements for identifying and turning around low-performing schools, as well as any new requirements established for the School Improvement Fund by Public Law 106–113. The Secretary shall give priority to provisions that have the greatest bearing on identifying and turning around low-performing schools, including sections 1116 and 1117 of the ESEA [20 U.S.C. 6317, 6318], and to developing an ongoing, focused, and systematic process for monitoring these provisions. This improved compliance monitoring shall be designed to:

(a) ensure that States and LEAs comply with ESEA requirements;

(b) assist States and LEAs in implementing effective procedures and strategies that reflect the best research available, as well as the experience of successful schools, school districts, and States as they address similar objectives and challenges; and

(c) assist States, LEAs, and schools in making the most effective use of available Federal resources.

SEC. 5. *Consultation.* The Secretary shall, where appropriate, consult with executive agencies, State and local education officials, educators, community-based groups, and others in carrying out this Executive order.

SEC. 6. *Judicial Review.* This order is intended only to improve the internal management of the executive branch and is not intended to, and does not create any right or benefit, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies or instrumentalities, its officers or employees, or any other person.

WILLIAM J. CLINTON.

(A) Each State plan shall demonstrate that the State has developed or adopted challenging content standards and challenging student performance standards that will be used by the State, its local educational agencies, and its schools to carry out this part, except that a State shall not be required to submit such standards to the Secretary.

(B) If a State has State content standards or State student performance standards developed under title III¹ of the Goals 2000: Educate America Act and an aligned set of assessments for all students developed under such title, or, if not developed under such title, adopted under another process, the State shall use such standards and assessments, modified, if necessary, to conform with the requirements of subparagraphs (A) and (D) of this paragraph, and paragraphs (2) and (3).

(E) For the subjects in which students will be served under this part, but for which a State is not required by subparagraphs (A), (B), and (C) to develop, and has not otherwise developed such standards, the State plan shall describe a strategy for ensuring that such students are taught the same knowledge and skills and held to the same expectations as are all children.

(2) Yearly progress

(A) Each State plan shall demonstrate, based on assessments described under paragraph (3), what constitutes adequate yearly progress of—

(ii) any local educational agency that received funds under this part toward enabling children in schools receiving assistance under this part to meet the State's student performance standards.

(B) Adequate yearly progress shall be defined in a manner—

(i) that is consistent with guidelines established by the Secretary that result in continuous and substantial yearly improvement of each local educational agency and school sufficient to achieve the goal of all children served under this part meeting the State's proficient and advanced levels of performance, particularly economically disadvantaged and limited English proficient children; and

(ii) that links progress primarily to performance on the assessments carried out under this section while permitting progress to be established in part through the use of other measures.

¹ See References in Text note below.

(3) Assessments

Each State plan shall demonstrate that the State has developed or adopted a set of high-quality, yearly student assessments, including assessments in at least mathematics and reading or language arts, that will be used as the primary means of determining the yearly performance of each local educational agency and school served under this part in enabling all children served under this part to meet the State's student performance standards. Such assessments shall—

(G) include students who have attended schools in a local educational agency for a full academic year but have not attended a single school for a full academic year, however the performance of students who have attended more than one school in the local educational agency in any academic year shall be used only in determining the progress of the local educational agency;

(H) provide individual student interpretive and descriptive reports, which shall include scores, or other information on the attainment of student performance standards; and

(5) Language assessments

Each State plan shall identify the languages other than English that are present in the participating student population and indicate the languages for which yearly student assessments are not available and are needed. The State shall make every effort to develop such assessments and may request assistance from the Secretary if linguistically accessible assessment measures are needed. (B) A State that does not have assessments that meet the requirements of paragraph (3) in at least mathematics and reading or language arts shall develop and test such assessments within four years (one year of which shall be used for field testing such assessment), of receiving funds under this part after the first fiscal year for which such State receives such funds after October 20, 1994, and shall develop benchmarks of progress toward the development of such assessments that meet the requirements of paragraph (3), including periodic updates.

(C) The Secretary may extend for one additional year the time for testing new assessments under subparagraph (B) upon the request of the State and the submission of a strategy to correct problems identified in the field testing of such new assessments.

(D) If, after the one-year period described in subparagraph (A), a State does not have challenging State content and challenging student performance standards in at least mathematics and reading or language arts, a State shall adopt a set of standards in these subjects such as the standards and assessments contained in other State plans the Secretary has approved.

(E) If, after the four-year period described in subparagraph (B), a State does not have assessments, in at least mathematics and reading or language arts, that meet the requirement of paragraph (3), and is denied an exten-

(7) Transitional assessments

(A) If a State does not have assessments that meet the requirements of paragraph (3) and proposes to develop such assessments under paragraph (6)(B), the State may propose to use a transitional set of yearly statewide assessments that will assess the performance of complex skills and challenging subject matter.

(B) For any year in which a State uses transitional assessments, the State shall devise a procedure for identifying local educational agencies under paragraphs (3) and (7) of section 6317(d) of this title, and schools under paragraphs (1) and (7) of section 6317(c) of this title, that rely on accurate information about the academic progress of each such local educational agency and school.

(8) Requirement

Each State plan shall describe—

(A) how the State educational agency will help each local educational agency and school affected by the State plan develop the capacity to comply with each of the requirements of sections 6312(c)(1)(D), 6314(b), and 6315(c) of this title that is applicable to such agency or school; and

(C)(i) where educational service agencies exist, the State educational agency will consider providing professional development and technical assistance through such agencies; and

(ii) where educational service agencies do not exist, the State educational agency will consider providing professional development and technical assistance through other cooperative agreements such as through a consortium of local educational agencies;

(2) the State educational agency will notify local educational agencies and the public of the standards and assessments developed

(7) the State educational agency will encourage local educational agencies and individual schools participating in a program assisted under this part to offer family literacy services (using funds under this part), if the agency or school determines that a substantial number of students served under this part by the agency or school have parents who do not have a high school diploma or its recognized equivalent or who have low levels of literacy.

(d) Peer review and secretarial approval

(1) In general

If the State makes significant changes in its plan, such as the adoption of new State content standards and State student performance standards, new assessments, or a new definition of adequate progress, the State shall submit such information to the Secretary.

(f) Limitation on conditions

Nothing in this part shall be construed to authorize an officer or employee of the Federal Government to mandate, direct, or control a State, local educational agency, or school's specific instructional content or student performance standards and assessments, curriculum, or program of instruction, as a condition of eligibility to receive funds under this part.

(g) Special rule

If the aggregate State expenditure by a State educational agency for the operation of elementary and secondary education programs in the State is less than such agency's aggregate Federal expenditure for the State operation of all Federal elementary and secondary education programs, then the State plan shall include assurances and specific provisions that such State will provide State expenditures for the operation of elementary and secondary education programs equal to or exceeding the level of Federal expenditures for such operation by October 1, 1998.

§ 6313. Eligible school attendance areas

(a) Determination

(1) In general

A local educational agency shall use funds received under this part only in eligible school attendance areas.

(2) Eligible school attendance areas

For the purposes of this part—

(A) the term "school attendance area" means, in relation to a particular school, the geographical area in which the children who are normally served by that school reside; and

(B) the term "eligible school attendance area" means a school attendance area in which the percentage of children from low-income families is at least as high as the percentage of children from low-income families in the local educational agency as a whole.

(3) Ranking order

If funds allocated in accordance with subsection (c) of this section are insufficient to serve all eligible school attendance areas, a local educational agency shall—

(A) annually rank, without regard to grade spans, such agency's eligible school attendance areas in which the concentration of children from low-income families exceeds 75 percent from highest to lowest according to the percentage of children from low-income families; and

(B) serve such eligible school attendance areas in rank order.

(4) Remaining funds

If funds remain after serving all eligible school attendance areas under paragraph (3), a local educational agency shall—

(A) annually rank such agency's remaining eligible school attendance areas from highest to lowest either by grade span or for the entire local educational agency according to the percentage of children from low-income families; and

(B) serve such eligible school attendance areas in rank order either within each grade-span grouping or within the local educational agency as a whole.

²So in original. Probably should be "affected".

(5) Measures

The local educational agency shall use the same measure of poverty, which measure shall be the number of children ages 5 through 17 in poverty counted in the most recent census data approved by the Secretary, the number of children eligible for free and reduced priced lunches under the Richard B. Russell National School Lunch Act [42 U.S.C. 1751 et seq.], the number of children in families receiving assistance under the State program funded under part A of title IV of the Social Security Act [42 U.S.C. 601 et seq.], or the number of children eligible to receive medical assistance under the Medicaid program, or a composite of such indicators, with respect to all school attendance areas in the local educational agency—

- (A) to identify eligible school attendance areas;
- (B) to determine the ranking of each area; and
- (C) to determine allocations under subsection (c) of this section.

(6) Exception

This subsection shall not apply to a local educational agency with a total enrollment of less than 1,000 children.

(7) Waiver for desegregation plans

The Secretary may approve a local educational agency's written request for a waiver of the requirements of subsections (a) and (c) of this section, and permit such agency to treat as eligible, and serve, any school that children attend with a State-ordered or a court-ordered school desegregation plan or a plan that continues to be implemented in accordance with a State-ordered or court-ordered desegregation plan, if (A) the number of economically disadvantaged children enrolled in the school is at least 25 percent of the school's total enrollment; and (B) the Secretary determines on the basis of a written request from such agency and in accordance with such criteria as the Secretary establishes, that approval of that request would further the purposes of this part.

(b) Local educational agency discretion**(1) In general**

Notwithstanding subsection (a)(2) of this section, a local educational agency may—

- (A) designate as eligible any school attendance area or school in which at least 35 percent of the children are from low-income families;
- (B) use funds received under this part in a school that is not in an eligible school attendance area, if the percentage of children from low-income families enrolled in the school is equal to or greater than the percentage of such children in a participating school attendance area of such agency; and
- (C) elect not to serve an eligible school attendance area or eligible school that has a higher percentage of children from low-income families if—

(i) the school meets the comparability requirements of section 6322(c) of this title;

(ii) the school is receiving supplemental funds from other State or local sources that are spent according to the requirements of section 6314 or 6315 of this title; and

(iii) the funds expended from such other sources equal or exceed the amount that would be provided under this part.

(2) Special rule

Notwithstanding paragraph (1)(C), the number of children attending private elementary and secondary schools who are to receive services, and the assistance such children are to receive under this part, shall be determined without regard to whether the public school attendance area in which such children reside is assisted under paragraph (1).

(c) Allocations**(1) In general**

A local educational agency shall allocate funds received under this part to eligible school attendance areas or eligible schools, identified under subsection (a) or (b) of this section, in rank order, on the basis of the total number of children from low-income families in each area or school.

(2) Special rule

(A) Except as provided in subparagraph (B), the per pupil amount of funds allocated to each school attendance area or school under paragraph (1) shall be at least 125 percent of the per pupil amount of funds a local educational agency received for that year under the poverty criteria described by the local educational agency in the plan submitted under section 6312 of this title, except that this paragraph shall not apply to a local educational agency that only serves schools in which the percentage of such children is 35 percent or greater.

(B) A local educational agency may reduce the amount of funds allocated under subparagraph (A) for a school attendance area or school by the amount of any supplemental State and local funds expended in that school attendance area or school for programs that meet the requirements of section 6314 or 6315 of this title.

(3) Reservation

A local educational agency shall reserve such funds as are necessary under this part to provide services comparable to those provided to children in schools funded under this part to serve—

- (A) where appropriate, eligible homeless children who do not attend participating schools, including providing educationally related support services to children in shelters;
- (B) children in local institutions for neglected or delinquent children; and
- (C) where appropriate, neglected and delinquent children in community day school programs.

A local educational agency may use funds under this part, in combination with other Federal, State, and local funds, in order to upgrade the entire educational program in a school described in subparagraph (A) or (B) if, for the initial year of the schoolwide program, the school meets either of the following criteria:

(A) For the school year 1995-1996—

(i) the school serves an eligible school attendance area in which not less than 60 percent of the children are from low-income families; or

(ii) not less than 60 percent of the children enrolled in the school are from such families.

(B) For the school year 1996-1997 and subsequent years—

(i) the school serves an eligible school attendance area in which not less than 50 percent of the children are from low-income families; or

(ii) not less than 50 percent of the children enrolled in the school are from such families.

(2) State assurances

(A) A local educational agency may start new schoolwide programs under this section

only after the State educational agency provides written information to each local educational agency in the State that demonstrates that such State agency has established the statewide system of support and improvement required by subsections (c)(1) and (e) of section 6318 of this title.

(B) A school that desires to initiate a schoolwide program under this section prior to the establishment of the statewide system of support and improvement required in subsections (c)(1) and (e) of section 6318 of this title shall demonstrate to the local educational agency that such school has received high quality technical assistance and support from other providers of assistance such as comprehensive technical assistance centers, regional laboratories, institutions of higher education, educational service agencies, or other local consortia.

(3) Identification

(A) No school participating in a schoolwide program shall be required to identify particular children under this part as eligible to participate in a schoolwide program or to provide supplemental services to such children.

(B) A school participating in a schoolwide program shall use funds available to carry out this section only to supplement the amount of funds that would, in the absence of funds under this part, be made available from non-Federal sources for the school, including funds needed to provide services that are required by law for children with disabilities and children with limited English proficiency.

(4) Special rule

(A) Except as provided in subsection (b) of this section, the Secretary may, through publication of a notice in the Federal Register, exempt schoolwide programs under this section from statutory or regulatory provisions of any other noncompetitive formula grant program administered by the Secretary, or any discretionary grant program administered by the Secretary (other than formula or discretionary grant programs under the Individuals with Disabilities Education Act [20 U.S.C. 1400 et seq.]), to support schoolwide programs, if the intent and purposes of such other programs are met.

(B) A school that chooses to use funds from such other programs shall not be relieved of the requirements relating to health, safety, civil rights, gender equity, student and parental participation and involvement, services to private school children, maintenance of effort, comparability of services, uses of Federal funds to supplement, not supplant non-Federal funds, or the distribution of funds to State or local educational agencies that apply to the receipt of funds from such programs.

(5) Professional development

Each school receiving funds under this part for any fiscal year shall devote sufficient resources to effectively carry out the activities described in subsection (b)(1)(D) of this section in accordance with section 6320 of this title for such fiscal year, except that a school may enter into a consortium with another school to carry out such activities.

(b) Components of schoolwide program**(1) In general**

A schoolwide program shall include the following components:

(ii) are based on effective means of improving the achievement of children;

(iii) use effective instructional strategies, which may include the integration of vocational and academic learning (including applied learning and team teaching strategies), that—

(II) include strategies for meeting the educational needs of historically underserved populations, including girls and women;

(iv)(I) address the needs of all children in the school, but particularly the needs of children who are members of the target population of any program that is included in the schoolwide program, which may include—

(aa) counseling, pupil services, and mentoring services;

(C) The comprehensive plan shall be—

(i) developed during a one-year period, unless—

§ 6315. Targeted assistance schools

(a) In general

In all schools selected to receive funds under section 6313(c) of this title that are ineligible for

a schoolwide program under section 6314 of this title, or that choose not to operate such a schoolwide program, a local educational agency may use funds received under this part only for programs that provide services to eligible children under subsection (b) of this section identified as having the greatest need for special assistance.

(b) Eligible children

(1) Eligible population

(A) The eligible population for services under this part is—

(i) children not older than age 21 who are entitled to a free public education through grade 12; and

(ii) children who are not yet at a grade level where the local educational agency provides a free public education, yet are of an age at which such children can benefit from an organized instructional program provided in a school or other educational setting.

(B) From the population described in subparagraph (A), eligible children are children identified by the school as failing, or most at risk of failing, to meet the State's challenging student performance standards on the basis of multiple, educationally related, objective criteria established by the local educational agency and supplemented by the school, except that children from preschool through grade two shall be selected solely on the basis of such criteria as teacher judgment, interviews with parents, and developmentally appropriate measures.

(2) Children included

(A)(i) Children who are economically disadvantaged, children with disabilities, migrant children or limited English proficient children, are eligible for services under this part on the same basis as other children selected to receive services under this part.

(ii) Funds received under this part may not be used to provide services that are otherwise required by law to be made available to such children but may be used to coordinate or supplement such services.

(B) A child who, at any time in the two years preceding the year for which the determination is made, participated in a Head Start or Even Start program, is eligible for services under this part.

(C)(i) A child who, at any time in the two years preceding the year for which the determination is made, received services under the program for youth who are neglected, delinquent, or at risk of dropping out under part D of this subchapter (or its predecessor authority) may be eligible for services under this part.

(ii) A child in a local institution for neglected or delinquent children or attending a community day program for such children may be eligible for services under this part.

(D) A child who is homeless and attending any school in the local educational agency may be eligible for services under this part.

(c) Components of targeted assistance school program

(1) In general

To assist targeted assistance schools and local educational agencies to meet their responsibility to provide for all their students served under this part the opportunity to meet the State's student performance standards in subjects as determined by the State, each targeted assistance program under this section shall—

(A) use such program's resources under this part to help participating children meet such State student performance standards expected for all children;

(B) be based on effective means for improving achievement of children;

(C) ensure that planning for students served under this part is incorporated into existing school planning;

(D) use effective instructional strategies that—

(i) give primary consideration to providing extended learning time such as an extended school year, before- and after-school, and summer, programs and opportunities;

(ii) help provide an accelerated, high-quality curriculum, including applied learning; and

(iii) minimize removing children from the regular classroom during regular school hours for instruction provided under this part;

(E) coordinate with and support the regular education program, which may include—

(i) counseling, mentoring, and other pupil services;

(ii) college and career awareness and preparation, such as college and career guidance, comprehensive career development, occupational information, enhancement of employability skills and occupational skills, personal finance education, job placement services, and innovative teaching methods which may include applied learning and team teaching strategies;

(iii) services to prepare students for the transition from school to work, including the formation of partnerships between elementary, middle, and secondary schools and local businesses, and the integration of school-based and work-based learning; and

(iv) services to assist preschool children in the transition from early childhood programs to elementary school programs;

(F) provide instruction by highly qualified staff;

(G) in accordance with subsection (e)(3) of this section and section 6320 of this title, provide opportunities for professional development with resources provided under this part, and from other sources to the extent feasible, for administrators and for teachers and other school staff who work with participating children in programs under this section or in the regular education program; and

(H) provide strategies to increase parental involvement, such as family literary services.

(2) Requirements

Each school conducting a program under this section shall assist participating children selected in accordance with subsection (b) of this section to meet the State's proficient and advanced levels of performance by—

(A) the coordination of resources provided under this part with other resources to enable the children served to meet the State content standards and State student performance standards; and

(B) reviewing, on an ongoing basis, the progress of participating children and revising the targeted assistance program, if necessary, to provide additional assistance to enable such children to meet the State's challenging student performance standards, such as an extended school year, before- and after-school, and summer, programs and opportunities, training for teachers regarding how to identify students that require additional assistance, and training for teachers regarding how to implement student performance standards in the classroom.

(d) Assignment of personnel

To promote the integration of staff supported with funds under this part and children served under this part into the regular school program and overall school planning and improvement efforts, public school personnel who are paid with funds received under this part may—

(1) assume limited duties that are assigned to similar personnel who are not so paid, including duties beyond classroom instruction or that do not benefit participating children, so long as the amount of time spent on such duties is the same proportion of total work time as prevails with respect to similar personnel at the same school;

(2) participate in general professional development and school planning activities; and

(3) collaboratively teach with regular classroom teachers, if such collaborative teaching directly benefits participating children.

(e) Special rules

(1) Simultaneous service

Nothing in this section shall be construed to prohibit a school from serving students served under this section simultaneously with students with similar educational needs, in the same educational settings where appropriate.

(2) Comprehensive services

If health, nutrition, and other social services are not otherwise available to eligible children in a targeted assistance school and such school, if appropriate, has engaged in a comprehensive needs assessment and established a collaborative partnership with local service providers, and if funds are not reasonably available from other public or private sources to provide services under this part, then a portion of the funds provided under this part may be used as a last resort to provide such services, including—

(A) the provision of basic medical equipment, such as eyeglasses and hearing aids;

(B) compensation of a coordinator; and

(C) professional development necessary to assist teachers, pupil services personnel, other staff, and parents in identifying and meeting the comprehensive needs of eligible children.

(3) Professional development

Each school receiving funds under this part for any fiscal year shall devote sufficient resources to effectively carry out the professional development activities described in subparagraph (G) of subsection (c)(1) of this section in accordance with section 6320 of this title, for such fiscal year, except that a school may enter into a consortium with another school to carry out such activities.

(Pub. L. 89-10, title I, §1115, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3539.)

§ 6316. School choice

(a) Choice programs

A local educational agency may use funds under this part, in combination with State, local, and private funds, to develop and implement choice programs, for children eligible for assistance under this part, which permit parents to select the public school that their children will attend.

(b) Choice plan

A local educational agency that chooses to implement a school choice plan shall first develop a comprehensive plan that includes assurances that—

(1) all eligible students across grade levels will have equal access to the program;

(2) the program does not include schools which follow a racially discriminatory policy;

(3) describe how the school will use resources under this part and from other sources to implement the plan;

(4) describe how the school will provide individual student assessment results, including an interpretation of such results, to the parents of a child who participates in the assessment required by section 6311(b)(3) of this title;

(5) the plan will be developed with the involvement of the community to be served and individuals who will carry out the plan, including teachers, principals, and other staff, parents, and, if the plan relates to a secondary school, students from the school;

(6) the plan will be made available to parents and the public;

(7) the program will not include schools that do not receive funds under this part;

(8) the program will not use funds under this part to pay for transportation costs;

(9) both the sending and receiving schools agree to the student transfer; and

(10) such local educational agency will comply with the other requirements of this part.

(Pub. L. 89-10, title I, §1115A, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3542.)

§ 6317. Assessment and local educational agency and school improvement

(a) Local review

Each local educational agency receiving funds under this part shall—

(1) use the State assessments described in the State plan;

(2) use any additional measures or indicators described in the local educational agency's plan to review annually the progress of each school served under this part to determine whether the school is meeting, or making adequate progress as defined in section 6311(b)(2)(A)(i) of this title toward enabling its students to meet the State's student performance standards described in the State plan;

(3) publicize and disseminate to teachers and other staff, parents, students, and the community, the results of the annual review under paragraph (2) of all schools served under this part in individual school performance profiles that include statistically sound disaggregated results as required by section 6311(b)(3)(I) of this title; and

(4) provide the results of the local annual review to schools so that the schools can continually refine the program of instruction to help all children served under this part in those schools meet the State's student performance standards.

(b) Designation of distinguished schools

Each State educational agency and local educational agency receiving funds under this part shall designate distinguished schools in accordance with section 6318 of this title.

(c) School improvement

(1) In general

A local educational agency shall identify for school improvement any school served under this part that—

(A) has been in program improvement under section 1020 of the Elementary and Secondary Education Act of 1965 (as such section was in effect on the day preceding October 20, 1994), for at least two consecutive school years prior to such day;

(B) has not made adequate progress as defined in the State's plan under section 6311(b)(2)(A)(i) of this title for two consecutive school years, except that—

(i) this subparagraph shall not apply to a school if almost every student in such school is meeting the State's advanced level of performance; or

(ii) in the case of a targeted assistance school, such school may be reviewed on the progress of only those students that have been or are served under this part; or

(C) has failed to meet the criteria established by the State through the State's transitional procedure under section 6311(b)(7)(B) of this title for two consecutive years.

(2) Requirement

(A) Each school identified under paragraph (1) shall—

(i) in consultation with parents, the local educational agency, and the school support

team, develop or revise a school plan in ways that have the greatest likelihood of improving the performance of participating children in meeting the State's student performance standards; and

(ii) submit the plan or revised plan to the local educational agency for approval.

(B) Before identifying a school for school improvement under paragraph (1), the local educational agency shall provide the school with an opportunity to review the school-level data, including assessment data, on which such identification is based. If the school believes that such identification for school improvement is in error for statistical or other substantive reasons, such school may provide evidence to the local educational agency to support such belief.

(C) During the first year immediately following such identification, the school shall implement such school's plan or revised plan.

(3) Professional development

(A) Each school identified under paragraph (1) shall, as part of the school plan under paragraph (2), improve the skills of its staff by providing effective professional development activities. A school shall demonstrate such school's compliance with this paragraph by—

(i) devoting to such activities, over two consecutive years, an amount equivalent to at least 10 percent of the funds received by the school under this part during one fiscal year; or

(ii) otherwise demonstrating that such school is effectively carrying out professional development activities.

(B) A school may use funds from any source to meet the requirements of this subsection.

(C) Decisions about how to use the funds made available under this part which the school makes available for professional development shall be made by teachers, principals, and other school staff in that school.

(4) Technical assistance

(A) For each school identified under paragraph (1), the local educational agency shall provide technical or other assistance as the school develops and implements such school's plan or revised plan, such as a joint plan between the local educational agency and school that addresses specific elements of student performance problems and that specifies school and local educational agency responsibilities under the plan, and waivers or modifications of requirements of local educational agency policy or regulation that impede the ability of the school to educate students.

(B) Such technical assistance may be provided directly by the local educational agency, through mechanisms authorized under section 6318 of this title, or with the local educational agency's approval, by an institution of higher education, a private nonprofit organization, an educational service agency, a comprehensive regional assistance center under part A of subchapter XIII of this chapter, or other entities with experience in helping schools improve achievement.

(5) Corrective action

(A) Except as provided in subparagraph (C), after providing technical assistance pursuant to paragraph (4) and taking other remediation measures, the local educational agency may take corrective action at any time against a school that has been identified under paragraph (1), but, during the third year following identification under paragraph (1), shall take such action against any school that still fails to make adequate progress.

(B)(i) Corrective actions are those, consistent with State and local law, determined and made public and disseminated by the local educational agency, which may include—

- (I) withholding funds;
- (II) interagency collaborative agreements between the school and other public agencies to provide health, counseling, and other social services needed to remove barriers to learning;
- (III) revoking authority for a school to operate a schoolwide program;
- (IV) decreasing decisionmaking authority at the school level;
- (V) making alternative governance arrangements such as the creation of a public charter school;
- (VI) reconstituting the school staff; and
- (VII) authorizing students to transfer, including transportation costs, to other public schools served by the local educational agency.

(ii) Notwithstanding clause (i), corrective actions taken pursuant to this part shall not include the actions described in subclause (I), (III), (IV), (VI), or (VII) of clause (i) until the State has developed assessments that meet the requirements of subparagraph (C) of section 6311(b)(3) of this title.

(C) Prior to implementing any corrective action, the local educational agency may refrain from such corrective action for one additional year to the extent that the failure to make progress can be attributed to extenuating circumstances as determined by the local educational agency.

(D) A school that is no longer operating its schoolwide program due to a corrective action may not resume operation of such a program until the local educational agency determines that the school has adequately reformed its schoolwide program plan to enable the school to make adequate progress toward meeting the State's challenging student performance standards.

(6) State educational agency responsibilities

The State educational agency shall—

(A) make technical assistance under section 6318 of this title available to the schools farthest from meeting the State's challenging student performance standards, if requested by the school or local educational agency; and

(B) if such agency determines that a local educational agency failed to carry out the local educational agency's responsibilities under paragraphs (4) and (5), take such corrective actions as the State educational agency deems appropriate and which are in compliance with State law.

(7) Special rule

Schools that, for at least two of the three years following identification under paragraph (1), make adequate progress toward meeting the State's proficient and advanced levels of performance shall no longer need to be identified for school improvement.

(d) State review and local educational agency improvement**(1) In general**

A State educational agency shall—

(A) annually review the progress of each local educational agency receiving funds under this part to determine whether schools receiving assistance under this part are making adequate progress as defined in section 6311(b)(2)(A)(ii) of this title toward meeting the State's student performance standards; and

(B) publicize and disseminate to local educational agencies, teachers and other staff, parents, students, and the community the results of the State review, including statistically sound disaggregated results, as required by section 6311(b)(3)(I) of this title.

(2) Rewards

In the case of a local educational agency that for three consecutive years has met or exceeded the State's definition of adequate progress as defined in section 6311(b)(2)(A)(ii) of this title, the State may make institutional and individual rewards of the kinds described for individual schools in paragraph (2) of section 6318(c) of this title.

(3) Identification

(A) A State educational agency shall identify for improvement any local educational agency that—

(i) for two consecutive years, is not making adequate progress as defined in section 6311(b)(2)(A)(ii) of this title in schools served under this part toward meeting the State's student performance standards, except that schools served by the local educational agency that are operating targeted assistance programs may be reviewed on the basis of the progress of only those students served under this part; or

(ii) has failed to meet the criteria established by the State through such State's transitional procedure under section 6311(b)(7)(B) of this title for two consecutive years.

(B) Before identifying a local educational agency for improvement under paragraph (1), the State educational agency shall provide the local educational agency with an opportunity to review the school-level data, including assessment data, on which such identification is based. If the local educational agency believes that such identification for improvement is in error due to statistical or other substantive reasons, such local educational agency may provide evidence to the State educational agency to support such belief.

(4) Local educational agency revisions

(A) Each local educational agency identified under paragraph (3) shall, in consultation with

schools, parents, and educational experts, revise its local educational agency plan under section 6312 of this title in ways that have the greatest likelihood of improving the performance of schools served by the local educational agency under this part in meeting the State's student performance standards.

(B) Such revision shall include determining why the local educational agency's plan failed to bring about increased achievement.

(5) State educational agency responsibility

(A) For each local educational agency identified under paragraph (3), the State educational agency shall—

(i) provide technical or other assistance, if requested, as authorized under section 6318 of this title, to better enable the local educational agency to—

(I) develop and implement the local educational agency's revised plan; and

(II) work with schools needing improvement; and

(ii) make available to the local educational agencies farthest from meeting the State's standards, if requested, assistance under section 6318 of this title.

(B) Technical or other assistance may be provided by the State educational agency directly, or by an institution of higher education, a private nonprofit organization, an educational service agency or other local consortium, a technical assistance center, or other entities with experience in assisting local educational agencies improve achievement, and may include—

(i) interagency collaborative agreements between the local educational agency and other public agencies to provide health, pupil services, and other social services needed to remove barriers to learning; and

(ii) waivers or modification of requirements of State law or regulation (in States in which such waivers are permitted) that impede the ability of a local educational agency to educate students.

(6) Corrective action

(A) Except as provided in subparagraph (C), after providing technical assistance pursuant to paragraph (5) and taking other remediation measures, the State educational agency may take corrective action at any time against a local educational agency that has been identified under paragraph (3), but, during the fourth year following identification under paragraph (3), shall take such action against any local educational agency that still fails to make adequate progress.

(B)(i) Corrective actions are those actions, consistent with State law, determined and made public and disseminated by the State educational agency, which may include—

(I) the withholding of funds;

(VI) the authorizing of students to transfer from a school operated by one local educational agency to a school operated by another local educational agency; and

(VII) a joint plan between the State and the local educational agency that addresses specific elements of student performance problems and that specifies State and local responsibilities under the plan.

(ii) Notwithstanding clause (i), corrective actions taken pursuant to this part shall not include the actions described in subclauses (I), (II), and (III) of clause (i) until the State has developed assessments that meet the requirements of paragraph (3)(C) of section 6311(b) of this title.

(C) Prior to implementing any corrective action, the State educational agency shall provide due process and a hearing (if State law provides for such due process and a hearing) to any local educational agency identified under paragraph (3) and may refrain from such corrective action for one year after the four-year period described in subparagraph (A) to the extent that the failure to make progress can be attributed to such extenuating circumstances as determined by the State educational agency.

(7) Special rule

Local educational agencies that for at least two of the three years following identification under paragraph (3) make adequate progress toward meeting the State's standards no longer need to be identified for local educational agency improvement.

(e) Construction

Nothing in this section shall be construed to alter or otherwise affect the rights, remedies, and procedures afforded school or school district employees under Federal, State, or local laws (including applicable regulations or court orders) or under the terms of collective bargaining agreements, memoranda of understanding, or other agreements between such employees and their employers.

§ 6318. State assistance for school support and improvement

(a) System for support

(1) State support

Each State educational agency shall establish a statewide system of intensive and sustained support and improvement for schools receiving funds under this part, including schoolwide programs and schools in need of program improvement, in order to increase the opportunity for all students in such schools to meet the State's content standards and student performance standards.

(2) Meeting requirements

Funds reserved under section 6303(a) of this title or appropriated under section 6302(f) of this title shall be used to meet the requirements of this section. In addition to such funds a State educational agency may use State administrative funds reserved under section 6513(c) of this title to meet such requirements.

(b) Regional centers

Such a statewide system shall work with and receive support and assistance from the comprehensive regional technical assistance centers under part A of subchapter XIII of this chapter and the educational regional laboratories under section 6041(h) of this title.

(c) Provisions

The system shall include at a minimum, the following:

(1) School support teams

(A) Each State educational agency, in consultation with local educational agencies and schools, shall establish a system of school support teams to provide information and assistance to schoolwide programs and to assist such programs in providing an opportunity to all students to meet the State's student performance standards.

(B) If funds are sufficient, school support teams shall provide information and assistance to—

(i) schools—

(I) in which the number of students in poverty is equal to or greater than 75 percent of the total number of students enrolled in such school; and

(II) identified as in need of improvement under section 6317(c)(1) of this title; and

(ii) other schools in need of improvement.

(C) Each such team shall be composed of persons, including teachers, pupil services personnel, representatives of organizations knowledgeable about successful schoolwide projects or comprehensive school reform (especially distinguished educators described in paragraph (3)), and other persons who are knowledgeable about research and practice on teaching and learning, particularly about strategies for improving the educational opportunities for low-achieving students (including alternative and applied learning), such as representatives of institutions of higher education, regional educational laboratories or research centers, and outside consultant groups.

(D) A school support team shall work cooperatively with each school and make recommendations as the school develops the school's schoolwide program plan or school improvement plan, review each plan, and make recommendations to the school and the local educational agency.

(E) During the operation of the schoolwide program or during school improvement activities, a school support team shall—

(i) periodically review the progress of the school in enabling children in the school to meet the State's student performance standards under this part;

(ii) identify problems in the design and operation of the instructional program; and

(iii) make recommendations for improvement to the school and the local educational agency.

(2) Distinguished schools

(A) Each State shall designate as a distinguished school any school served under this part which, for three consecutive years, has exceeded the State's definition of adequate progress as defined in section 6311(b)(2)(A)(i) of this title, and, any school in which—

(i) virtually all students have met the State's advanced level of student performance; and

(ii) equity in participation and achievement of students by sex has been achieved or significantly improved.

(B) Schools designated under this paragraph may serve as models and provide support to other schools, especially schoolwide programs and schools in school improvement, to assist such schools in meeting the State's student performance standards.

(C) States shall use funds reserved under section 6303(a) of this title and funds made available under section 6302(f) of this title to allow schools identified under this paragraph to

carry out the activities described in subparagraph (B) and may use such funds to provide awards to such schools to further such school's education programs under this part, provide additional incentives for continued success, and reward individuals or groups in the school for exemplary performance.

(D) A local educational agency may also recognize the success of a distinguished school by providing additional institutional and individual rewards, such as greater decisionmaking authority at the school building level, increased access to resources or supplemental services such as summer programs that may be used to sustain or increase success, additional professional development opportunities, opportunities to participate in special projects, and individual financial bonuses.

(3) Distinguished educators

(A) In order to provide assistance to schools and local educational agencies identified as needing improvement and schools participating in schoolwide programs, each State, in consultation with local educational agencies and using funds reserved under section 6303(a) of this title and made available under section 6302(f) of this title, shall establish a corps of distinguished educators.

(B) When possible, distinguished educators shall be chosen from schools served under this part that have been especially successful in enabling children to meet or make outstanding progress toward meeting the State's student performance standards, such as the schools described in paragraph (2).

(C) Distinguished educators shall provide, as part of the statewide system, intensive and sustained assistance to the schools and local educational agencies farthest from meeting the State's student performance standards and to schoolwide programs as such programs develop and implement their plans, including participation in the support teams described in paragraph (1).

(d) Implementation

In order to implement this section funds reserved under section 6303(a) of this title and funds made available under section 6302(f) of this title may be used by a State for release time for teachers and administrators, travel, training, and other related costs.

(e) Alternatives

The State may devise additional approaches to providing the assistance described in paragraphs (1) and (3) of subsection (c) of this section, such as providing assistance through institutions of higher education and educational service agencies or other local consortia, and the State may seek approval from the Secretary to use funds reserved under section 6303 of this title and funds made available under section 6302(f) of this title for such approaches as part of the State plan.

Such compact shall—

To the extent consistent with the number of eligible children identified under section 6315(b) of this title in a local educational agency who are enrolled in private elementary and secondary schools, a local educational agency shall, after timely and meaningful consultation with appropriate private school officials,

provide such children, on an equitable basis, special educational services or other benefits under this part (such as dual enrollment, educational radio and television, computer equipment and materials, other technology, and mobile educational services and equipment).

(2) Secular, neutral, nonideological

Such educational services or other benefits, including materials and equipment, shall be secular, neutral, and nonideological.

(3) Equity

Educational services and other benefits for such private school children shall be equitable in comparison to services and other benefits for public school children participating under this part.

(4) Expenditures

Expenditures for educational services and other benefits to eligible private school children shall be equal to the proportion of funds allocated to participating school attendance areas based on the number of children from low-income families who attend private schools.

(5) Provision of services

The local educational agency may provide such services directly or through contracts with public and private agencies, organizations, and institutions.

(b) Consultation

(1) In general

To ensure timely and meaningful consultation, a local educational agency shall consult with appropriate private school officials during the design and development of such agency's programs under this part, on issues such as—

(A) how the children's needs will be identified;

(B) what services will be offered;

(C) how and where the services will be provided;

(D) how the services will be assessed; and

(E) the size and scope of the equitable services to be provided to the eligible private school children, and what is the proportion of funds allocated under subsection (a)(4) of this section for such services.

(2) Timing

Such consultation shall occur before the local educational agency makes any decision that affects the opportunities of eligible private school children to participate in programs under this part.

(3) Discussion

Such consultation shall include a discussion of service delivery mechanisms a local educational agency can use to provide equitable services to eligible private school children.

(c) Public control of funds

(1) In general

The control of funds provided under this part, and title to materials, equipment, and property purchased with such funds, shall be in a public agency, and a public agency shall administer such funds and property.

(2) Provision of services

(A) The provision of services under this section shall be provided—

- (i) by employees of a public agency; or
- (ii) through contract by such public agency with an individual, association, agency, or organization.

(B) In the provision of such services, such employee, person, association, agency, or organization shall be independent of such private school and of any religious organization, and such employment or contract shall be under the control and supervision of such public agency.

(d) Standards for a bypass

If a local educational agency is prohibited by law from providing for the participation on an equitable basis of eligible children enrolled in private elementary and secondary schools or if the Secretary determines that a local educational agency has substantially failed or is unwilling to provide for such participation, as required by this section, the Secretary shall—

- (1) waive the requirements of this section for such local educational agency; and
- (2) arrange for the provision of services to such children through arrangements that shall be subject to the requirements of this section and sections 8895 and 8896 of this title.

(e) Capital expenses**(1) In general**

(A) From the amount appropriated for this subsection under section 6302(e) of this title for any fiscal year, each State is eligible to receive an amount that bears the same ratio to the amount so appropriated as the number of private school children who received services under this part in the State in the most recent year for which data satisfactory to the Secretary are available bears to the number of such children in all States in that same year.

(B) The Secretary shall reallocate any amounts allocated under subparagraph (A) that are not used by a State for the purpose of this subsection to other States on the basis of their respective needs, as determined by the Secretary.

(2) Capital expenses

(A) A local educational agency may apply to the State educational agency for payments for capital expenses consistent with this subsection.

(B) State educational agencies shall distribute such funds under this subsection to local educational agencies based on the degree of need set forth in their respective applications for assistance under this subsection.

(3) Uses of funds

Any funds appropriated to carry out this subsection shall be used only for capital expenses incurred to provide equitable services for private school children under this section.

(4) "Capital expenses" defined

For the purpose of this subsection, the term "capital expenses" means—

- (A) expenditures for noninstructional goods and services, such as the purchase,

lease, or renovation of real and personal property, including mobile educational units and leasing of neutral sites or spaces;

- (B) insurance and maintenance costs;
- (C) transportation; and
- (D) other comparable goods and services.

(b) Federal funds to supplement, not supplant, non-Federal funds**(1) In general**

A State or local educational agency shall use funds received under this part only to supplement the amount of funds that would, in the absence of such Federal funds, be made available from non-Federal sources for the education of pupils participating in programs assisted under this part, and not to supplant such funds.

(2) Special rule

No local educational agency shall be required to provide services under this part through a particular instructional method or in a particular instructional setting in order to demonstrate such agency's compliance with paragraph (1).

(c) Comparability of services**(1) In general**

(2) Written assurance

(A) A local educational agency shall be considered to have met the requirements of paragraph (1) if such agency has filed with the State educational agency a written assurance that such agency has established and implemented—

- (i) a local educational agency-wide salary schedule;

(ii) a policy to ensure equivalence among schools in teachers, administrators, and other staff; and

(iii) a policy to ensure equivalence among schools in the provision of curriculum materials and instructional supplies.

(B) For the purpose of subparagraph (A), in the determination of expenditures per pupil from State and local funds, or instructional salaries per pupil from State and local funds, staff salary differentials for years of employment shall not be included in such determinations.

(B) excess costs of providing services to children with disabilities as determined by the local educational agency.

(d) Exclusion of funds

For the purpose of complying with subsections (b) and (c) of this section, a State or local educational agency may exclude supplemental State or local funds expended in any school attendance area or school for programs that meet the intent and purposes of this part.

(A) 0.25 percent of total appropriations; and

(B) the average of—

(i) 0.25 percent of total appropriations; and

(ii) the greater of 150 percent of the national average grant per child counted for grants under such section 1006 multiplied by the State¹ total number of such children, or \$340,000.

(2) Succeeding fiscal years

For fiscal years 1996 through 1999, an amount of the appropriations for this part equal to the appropriation for fiscal year 1995 for section 1005, shall be allocated in accordance with section 6333 of this title, and an amount equal to the appropriation for fiscal year 1995 for section 1006 shall be allocated in accordance with section 6334 of this title. Any additional appropriations under section 6302(a) of this title for any fiscal year, after application of the preceding sentence, shall be allocated in accordance with section 6335 of this title.

(b) Adjustments where necessitated by appropriations

(1) In general

If the sums available under this part for any fiscal year are insufficient to pay the full

¹ So in original. Probably should be "State's".

amounts that all local educational agencies in States are eligible to receive under sections 6333, 6334, and 6335 of this title for such year, the Secretary shall ratably reduce the allocations to such local educational agencies, subject to subsections (c) and (d) of this section.

(2) Additional funds

If additional funds become available for making payments under sections 6333, 6334, and 6335 of this title for such fiscal year, allocations that were reduced under paragraph (1) shall be increased on the same basis as they were reduced.

(c) Hold-harmless amounts

(1) In general

For fiscal year 1995, notwithstanding subsection (b) of this section and without regard to amounts available for delinquent children under subpart 2 of part D of this subchapter, the amount made available to each local educational agency under such section 1005 shall be at least 85 percent of the amount such local educational agency received for the preceding year under such section 1005.

(2) Fiscal year 1996

Notwithstanding subsection (b) of this section and without regard to amounts available for delinquent children under subpart 2 of part D of this subchapter, for fiscal year 1996 the total amount made available to each local educational agency under each of sections 6333 and 6334 of this title for any fiscal year shall be at least 100 percent of the total amount such local educational agency was allocated under such sections (or their predecessor authorities) for the preceding fiscal year.

(3) Fiscal years 1997 through 1999

For fiscal years 1997 through 1999, notwithstanding subsection (b) of this section and without regard to amounts available for delinquent children under subpart 2 of part D of this subchapter, the amount made available to each local educational agency under each of sections 6333 and 6335 of this title shall be at least 95 percent of the previous year's amount if the number of children counted for grants under section 6333 of this title is at least 30 percent of the total number of children aged 5 to 17 years, inclusive, in the local educational agency, 90 percent of the previous year amount if this percentage is between 15 percent and 30 percent, and 85 percent if this percentage is below 15 percent. For fiscal years 1997 and 1998, in calculating grants on the basis of population data for counties, the Secretary shall apply the hold-homeless² percentages in the preceding sentence to counties. For fiscal years 1996 through 1998, if the Secretary's allocation for a county is not sufficient to meet the hold-harmless requirements of this paragraph for every local educational agency within that county, then the State educational agency shall reallocate funds proportionately from all other local educational agencies in the State that are receiving funds

in excess of the hold-harmless amounts specified in this paragraph.

(d) Ratable reductions

(1) In general

If the sums made available under this part for any fiscal year are insufficient to pay the full amounts that all States are eligible to receive under subsection (c) of this section for such year, the Secretary shall ratably reduce such amounts for such year.

(2) Additional funds

If additional funds become available for making payments under subsection (c) of this section for such fiscal year, amounts that were reduced under paragraph (1) shall be increased on the same basis as such amounts reduced.

(e) "State" defined

For the purpose of this section and sections 6333 and 6335 of this title, the term State means each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6333, 6334, 6335 of this title; title 42 section 11432.

§ 6333. Basic grants to local educational agencies

(a) Amount of grants

(1) Grants for local educational agencies and Puerto Rico

The grant which a local educational agency in a State is eligible to receive under this subpart for a fiscal year shall (except as provided in section 6337 of this title), be determined by multiplying the number of children counted under subsection (c) of this section by 40 percent of the amount determined under the next sentence. The amount determined under this sentence shall be the average per pupil expenditure in the State except that—

(A) if the average per pupil expenditure in the State is less than 80 percent of the average per pupil expenditure in the United States, such amount shall be 80 percent of the average per pupil expenditure in the United States; or

(B) if the average per pupil expenditure in the State is more than 120 percent of the average per pupil expenditure in the United States, such amount shall be 120 percent of the average per pupil expenditure in the United States.

(2) Basis for calculating grants

For fiscal years 1995 through 1998, grants shall be calculated by the Secretary on the

²So in original. Probably should be "hold-harmless".

basis of the number of children counted under subsection (c) of this section for counties, and State educational agencies shall suballocate county amounts to local educational agencies, in accordance with regulations published by the Secretary. In any State in which a large number of local educational agencies overlap county boundaries, the State educational agency may apply to the Secretary for authority during any particular fiscal year to make the allocations under this part (other than section 6334 of this title) directly to local educational agencies without regard to the counties. If the Secretary approves an application of a State educational agency for a particular year under this subparagraph, the State educational agency shall provide assurances that—

(A) such allocations will be made using precisely the same factors for determining a grant as are used under this part;

(B) such allocations will be made using alternative data approved by the Secretary that the State determines best reflects the distribution of children in poor families and is adjusted to be equivalent in proportion to the number of children determined in accordance with subsection (c) of this section; or

(C) such allocations will be made using data that the State educational agency submits to the Secretary for approval that more accurately target poverty.

In addition, the State educational agency shall provide assurances that a procedure will be established through which local educational agencies dissatisfied with the determinations made by the State educational agency may appeal directly to the Secretary for a final determination. Beginning in fiscal year 1999, grants shall be calculated by the Secretary on the basis of population data compiled for local educational agencies, unless the Secretary and the Secretary of Commerce determine that use of the updated population data would be inappropriate or unreliable taking into consideration the recommendations of the study to be conducted by the National Academy of Sciences. If the Secretary and the Secretary of Commerce determine that some or all of the data referred to in this paragraph are inappropriate or unreliable, the Secretaries shall jointly issue a report setting forth their reasons in detail. In years when grants are calculated by the Secretary on the basis of local educational agency data, for each local educational agency serving an area with a total population of at least 20,000 persons, the grant under this section shall be the amount determined by the Secretary. For local educational agencies serving areas with total populations of fewer than 20,000 persons, the State educational agency may either—

(i) distribute to such local educational agencies grants under this section equal to the amounts determined by the Secretary; and

(ii) use an alternative method, approved by the Secretary, to distribute the share of the State's total grants under this section that is based on local educational agencies with

total populations of fewer than 20,000 persons. Such an alternative method of distributing grants under this section among a State's local educational agencies serving areas with total populations of fewer than 20,000 persons shall be based upon population data that the State educational agency determines best reflect the current distribution of children in poor families among the State's local educational agencies serving areas with total populations of fewer than 20,000 persons. If a local educational agency serving an area with total population of less than 20,000 persons is dissatisfied with the determination of its grant by the State education agency, then such local educational agency may appeal this determination to the Secretary. The Secretary must respond to this appeal within 45 days of receipt.

(3) Puerto Rico

For each fiscal year, the Secretary shall determine the percentage which the average per pupil expenditure in the Commonwealth of Puerto Rico is of the lowest average per pupil expenditure of any of the 50 States. The grant which the Commonwealth of Puerto Rico shall be eligible to receive under this section for a fiscal year shall be the amount arrived at by multiplying the number of children counted under subsection (c) of this section for the Commonwealth of Puerto Rico by the product of—

(A) the percentage determined under the preceding sentence; and

(B) 32 percent of the average per pupil expenditure in the United States.

(4) "State" defined

For purposes of this subsection, the term "State" does not include Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and Palau.

(b) Minimum number of children to qualify

Subject to the succeeding sentence, a local educational agency shall be eligible for a basic grant for a fiscal year under this subpart only if the number of children counted under subsection (c) of this section in the school district of such local educational agency is at least 10. Beginning in fiscal year 1996, no local educational agency shall be eligible for a grant under this section if the number of children counted for grants under this section is equal to 2 percent or less of the total school age population in the local educational agency. For fiscal years 1996 through 1998, grants not made as a result of applying the preceding sentence shall be reallocated by the State educational agency to other eligible local educational agencies in the State in proportion to the distribution of other funds under this section.

(c) Children to be counted

(1) Categories of children

The number of children to be counted for purposes of this section is the aggregate of—

(A) the number of children aged 5 to 17, inclusive, in the school district of the local educational agency from families below the poverty level as determined under paragraph (2);

(B) the number of children aged 5 to 17, inclusive, in the school district of such agency from families above the poverty level as determined under paragraph (5); and

(C) the number of children aged 5 to 17, inclusive, in the school district of such agency in institutions for neglected and delinquent children (other than such institutions operated by the United States), but not counted pursuant to subpart 1 of part D of this subchapter for the purposes of a grant to a State agency, or being supported in foster homes with public funds.

(2) Determination of number of children

For the purposes of this section, the Secretary shall determine the number of children aged 5 to 17, inclusive, from families below the poverty level on the basis of the most recent satisfactory data, described in paragraph (3), available from the Department of Commerce. For fiscal year 1999 and beyond, the District of Columbia and the Commonwealth of Puerto Rico shall be treated as individual local educational agencies. If a local educational agency contains two or more counties in their entirety, then each county will be treated as if such county were a separate local educational agency for purposes of calculating grants under this part. The total of grants for such counties shall be allocated to such a local educational agency, which local educational agency shall distribute to schools in each county within such agency a share of the local educational agency's total grant that is no less than the county's share of the population counts used to calculate the local educational agency's grant.

(3) Population updates

In fiscal year 1997 and every 2 years thereafter, the Secretary shall use updated data on the number of children, aged 5 to 17, inclusive, from families below the poverty level for counties or local educational agencies, published by the Department of Commerce, unless the Secretary and the Secretary of Commerce determine that use of the updated population data would be inappropriate or unreliable, taking into consideration the recommendations of the study to be conducted by the National Academy of Sciences. If the Secretary and the Secretary of Commerce determine that some or all of the data referred to in this paragraph are inappropriate or unreliable, they shall jointly issue a report setting forth their reasons in detail. In determining the families which are below the poverty level, the Secretary shall utilize the criteria of poverty used by the Bureau of the Census in compiling the most recent decennial census, in such form as those criteria have been updated by increases in the Consumer Price Index for all urban consumers, published by the Bureau of Labor Statistics.

(4) Study

(A) The Secretary of Education shall, within 30 days after October 20, 1994, contract with the National Academy of Sciences (hereafter in this section referred to as the "Academy") to study the program to produce intercensal

poverty data for small geographic areas and certain age cohorts being developed by the Bureau of the Census.

(B) In conducting its study, the Academy shall consider such matters as—

(i) the methodology used to produce and publish intercensal poverty data, and possible alternative methods to improve the usefulness of the data for Federal program purposes;

(ii) the availability of alternative indicators of poverty for small geographic areas, against which the poverty data produced and published by the Bureau of the Census could be compared;

(iii) the reliability of the poverty data produced and published by the Bureau of the Census, particularly for less populous geographic areas;

(iv) the reliability of intercensal poverty data produced and published by the Bureau of the Census, as compared over time to similar data produced by the Bureau of the Census during the most recent decennial census; and

(v) the usefulness of poverty data produced and published by the Bureau of the Census for Federal programs that allocate funds to State and sub-State areas based, in whole or in part, on such data.

(C) The Academy shall submit to the Secretary and the Secretary of Commerce, as well as to the Committee on Education and Labor and the Committee on Post Office and Civil Service of the House of Representatives and the Committee on Labor and Human Resources and the Committee on Governmental Affairs of the Senate—

(i) not later than 18 months after the date on which a contract is entered into under subsection (a) of this section, and not later than every 18 months thereafter, such interim reports on the Academy's activities under this chapter that the Academy deems appropriate, including a detailed statement of the Academy's findings and conclusions with respect to any poverty data which the Bureau of the Census publishes and produces, within 90 days of such publication; and

(ii) not later than December 31, 1998, a final report which shall include a more detailed statement of the Academy's findings and conclusions with respect to the use of any intercensal poverty data produced and published by the Bureau of the Census as the basis for allocating Federal funds under this chapter.

(D) Of the funds appropriated under section 6302(f) of this title, the Secretary shall use such sums as are necessary in each of fiscal years 1995, 1996, 1997, 1998, and 1999 to carry out the provisions of this paragraph.

(5) Other children to be counted

For purposes of this section, the Secretary shall determine the number of children aged 5 to 17, inclusive, from families above the poverty level on the basis of the number of such children from families receiving an annual in-

come, in excess of the current criteria of poverty, from payments under a State program funded under part A of title IV of the Social Security Act [42 U.S.C. 601 et seq.]; and in making such determinations the Secretary shall utilize the criteria of poverty used by the Bureau of the Census in compiling the most recent decennial census for a family of 4 in such form as those criteria have been updated by increases in the Consumer Price Index for all urban consumers, published by the Bureau of Labor Statistics. The Secretary shall determine the number of such children and the number of children of such ages living in institutions for neglected or delinquent children, or being supported in foster homes with public funds, on the basis of the caseload data for the month of October of the preceding fiscal year (using, in the case of children described in the preceding sentence, the criteria of poverty and the form of such criteria required by such sentence which were determined for the calendar year preceding such month of October) or, to the extent that such data are not available to the Secretary before January of the calendar year in which the Secretary's determination is made, then on the basis of the most recent reliable data available to the Secretary at the time of such determination. The Secretary of Health and Human Services shall collect and transmit the information required by this subparagraph to the Secretary not later than January 1 of each year.

(6) Estimate

When requested by the Secretary, the Secretary of Commerce shall make a special updated estimate of the number of children of such ages who are from families below the poverty level (as determined under subparagraph (A) of this paragraph¹) in each school district, and the Secretary is authorized to pay (either in advance or by way of reimbursement) the Secretary of Commerce the cost of making this special estimate. The Secretary of Commerce shall give consideration to any request of the chief executive of a State for the collection of additional census information. For purposes of this section, the Secretary shall consider all children who are in correctional institutions to be living in institutions for delinquent children.

(d) State minimum

Notwithstanding subsection (b)(1) or (d) of section 6332 of this title, the aggregate amount allotted for all local educational agencies within a State may not be less than the lesser of—

(1) 0.25 percent of total grants under this section; or

(2) the average of—

(A) one-quarter of 1 percent of the total amount available for such fiscal year under this section; and

(B) the number of children in such State counted under subsection (c) of this section in the fiscal year multiplied by 150 percent of the national average per pupil payment made with funds available under this section for that year.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1070a-24, 2351, 6332, 6334, 6335, 6336, 6337, 6661d, 6661e of this title.

§ 6334. Concentration grants to local educational agencies

(a) Eligibility for and amount of grants

(1) In general

(A) Except as otherwise provided in this paragraph, each local educational agency, in a State other than Guam, American Samoa, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, and Palau, which is eligible for a grant under this part for any fiscal year shall be eligible for an additional

grant under this section for that fiscal year if—

(i) the number of children counted under section 6333(c) of this title in the county (for fiscal years 1996 through 1998), or local educational agency (for fiscal years beginning with 1999) for the fiscal year exceeds 6,500; or

(ii) the number of children counted under section 6333(c) of this title exceeds 15 percent of the total number of children aged 5 to 17, inclusive, in the county (for fiscal years 1996 through 1998), or local educational agency (for fiscal years beginning with 1999) in that fiscal year.

(B) Notwithstanding such subsections (b)(1) and (d) of section 6332 of this title, no State described in subparagraph (A) shall receive less than the lesser of—

(i) 0.25 percent of total grants; or

(ii) the average of—

(I) one-quarter of 1 percent of the sums available to carry out this section for such fiscal year; and

(II) the greater of—

(aa) \$340,000; or

(bb) the number of children in such State counted for purposes of this section in that fiscal year multiplied by 150 percent of the national average per pupil payment made with funds available under this section for that year.

(2) Special rule

For each county or local educational agency eligible to receive an additional grant under this section for any fiscal year the Secretary shall determine the product of—

(A) the number of children counted under section 6333(c) of this title for that fiscal year; and

(B) the quotient resulting from the division of the amount determined for those agencies under section 6333(a)(1) of this title for the fiscal year for which the determination is being made divided by the total number of children counted under section 6333(c) of this title for that agency for fiscal year.

(3) Amount

The amount of the additional grant for which an eligible local educational agency or county is eligible under this section for any fiscal year shall be an amount which bears the same ratio to the amount available to carry out this section for that fiscal year as the product determined under paragraph (2) for such local educational agency for that fiscal year bears to the sum of such products for all local educational agencies in the United States for that fiscal year.

(4) Suballocation

For fiscal years 1996 through 1998, county amounts shall be suballocated to local educational agencies meeting the criteria of paragraph (1)(A) by State educational agencies, in accordance with regulations published by the Secretary. For fiscal years 1995 through 1998, grants shall be calculated by the Secretary on the basis of the number of children counted under section 6333(c) of this title for counties, and State educational agencies shall suballo-

cate county amounts to local educational agencies, in accordance with regulations published by the Secretary. In any State in which a large number of local educational agencies overlap county boundaries, the State educational agency may apply to the Secretary for authority during any particular fiscal year to make the allocations under this part (other than this section) directly to local educational agencies without regard to the counties. If the Secretary approves an application of a State educational agency for a particular year under this paragraph, the State educational agency shall provide assurances that—

(A) such allocations will be made using precisely the same factors for determining a grant as are used under this part;

(B) such allocations will be made using alternative data approved by the Secretary that the State determines best reflects the distribution of children in poor families and is adjusted to be equivalent in proportion to the number of children determined in accordance with section 6333(c) of this title; or

(C) such allocations will be made using data that the State educational agency submits to the Secretary for approval that more accurately target poverty.

In addition, the State educational agency shall provide assurances that a procedure will be established through which local educational agencies dissatisfied with the determinations made by the State educational agency may appeal directly to the Secretary for a final determination. A State may reserve not more than 2 percent of its allocations in fiscal years 1996 through 1998 under this section for the purpose of making grants to local educational agencies that meet the criteria of clause (i) or (ii) of paragraph (1)(A), but are in ineligible counties. For fiscal years beginning with 1999, for each local educational agency serving an area with a total population of at least 20,000 persons, the grant under this section shall be the amount determined by the Secretary. For local educational agencies serving areas with total populations of fewer than 20,000 persons, the State educational agency may either (i) distribute to such local educational agencies grants under this section equal to the amounts determined by the Secretary; or (ii) use an alternative method, approved by the Secretary, to distribute the share of the State's total grants under this section that is based on local educational agencies with total populations of fewer than 20,000 persons. Such an alternative method of distributing grants under this section among a State's local educational agencies serving areas with total populations of fewer than 20,000 persons shall be based upon population data that the State educational agency determines best reflects the current distribution of children in poor families among the State's local educational agencies serving areas with total populations of fewer than 20,000 persons and meeting the eligibility criteria of paragraph (1)(A). If a local educational agency serving an area with total population of less than 20,000 persons is dissatisfied with the determination of its grant by the State edu-

cational agency, then such local educational agency may appeal this determination to the Secretary. The Secretary shall respond to this appeal within 45 days of receipt. The Secretary shall consult with the Secretary of Commerce regarding whether available data on population for local educational agencies serving areas with total populations of fewer than 20,000 persons are sufficiently reliable to be used to determine final grants to such areas meeting the eligibility criteria of paragraph (1)(A).

(b) Reservation of funds

Of the total amount of funds available for this section and sections 6333 and 6335 of this title, an amount equal to the appropriation for fiscal year 1995 for section 1006 of this Act (as such section was in effect on the day preceding October 20, 1994) shall be available to carry out this section.

(c) Ratable reduction rule

If the sums available under subsection (b) of this section for any fiscal year for making payments under this section are not sufficient to pay in full the total amounts which all States are eligible to receive under subsection (a) of this section for such fiscal year, the maximum amounts which all States are eligible to receive under subsection (a) of this section for such fiscal year shall be ratably reduced. In the case that additional funds become available for making such payments for any fiscal year during which the preceding sentence is applicable, such reduced amounts shall be increased on the same basis as they were reduced.

(d) States receiving minimum grants

In States that receive the minimum grant under subsection (a)(1)(B) of this section, the State educational agency shall allocate such funds among the local educational agencies in each State either—

- (1) in accordance with paragraphs (2) and (4) of subsection (a) of this section; or
- (2) based on their respective concentrations and numbers of children counted under section 6333(c) of this title, except that only those local educational agencies with concentrations or numbers of children counted under section 6333(c) of this title that exceed the statewide average percentage of such children or the statewide average number of such children shall receive any funds on the basis of this paragraph.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6332, 6333, 6335, 6336, 6337 of this title.

§ 6335. Targeted grants to local educational agencies

(a) Eligibility of local educational agencies

A local educational agency in a State is eligible to receive a targeted grant under this section for any fiscal year if the number of children in the local educational agency counted under subsection¹ 6333(c) of this title, before application of the weighting factor described in subsection (c) of this section, is at least 10, and if the number of children counted for grants under section 6333 of this title is at least 5 percent of the total population aged 5 to 17 years, inclusive, in the local educational agency. Funds made available as a result of applying this subsection shall be reallocated by the State educational agency to other eligible local educational agencies in the State in proportion to the distribution of other funds under this section.

(b) Grants for local educational agencies, the District of Columbia, and Puerto Rico

(1) In general

The amount of the grant that a local educational agency in a State or that the District of Columbia is eligible to receive under this section for any fiscal year shall be the product of—

- (A) the weighted child count determined under subsection (c) of this section; and
- (B) the amount in the second sentence of subparagraph 6333(a)(1)(A)² of this title.

(2) Puerto Rico

For each fiscal year, the amount of the grant for which the Commonwealth of Puerto Rico is eligible under this section shall be equal to the number of children counted under subsection (c) of this section for Puerto Rico, multiplied by the amount determined in subparagraph¹ 6333(a)(3) of this title.

(c) Weighted child count

(1) Fiscal years 1966 to 1998

(A) In general

The weighted child count used to determine a county's allocation under this section is the larger of the two amounts determined under clause (i) or (ii), as follows:

(i) By percentage of children

This amount is determined by adding—

- (I) the number of children determined under section 6333(c) of this title for that county constituting up to 12.20 percent, inclusive, of the county's total population aged 5 to 17, inclusive, multiplied by 1.0;
- (II) the number of such children constituting more than 12.20 percent, but

² So in original. Probably should be “section 6333(a)(1)”.

not more than 17.70 percent, of such population, multiplied by 1.75;

(III) the number of such children constituting more than 17.70 percent, but not more than 22.80 percent, of such population, multiplied by 2.5;

(IV) the number of such children constituting more than 22.80 percent, but not more than 29.70 percent, of such population, multiplied by 3.25; and

(V) the number of such children constituting more than 29.70 percent of such population, multiplied by 4.0.

(ii) By number of children

This amount is determined by adding—

(I) the number of children determined under section 6333(c) of this title constituting up to 1,917, inclusive, of the county's total population aged 5 to 17, inclusive, multiplied by 1.0;

(II) the number of such children between 1,918 and 5,938, inclusive, in such population, multiplied by 1.5;

(III) the number of such children between 5,939 and 20,199, inclusive, in such population, multiplied by 2.0;

(IV) the number of such children between 20,200 and 77,999, inclusive, in such population, multiplied by 2.5; and

(V) the number of such children in excess of 77,999 in such population, multiplied by 3.0.

(B) Puerto Rico

Notwithstanding subparagraph (A), the weighting factor for Puerto Rico under this paragraph shall not be greater than the total number of children counted under subsection³ 6333(c) of this title multiplied by 1.72.

(2) Fiscal years after 1999

(A) In general

For each fiscal year beginning with fiscal year 1999 for which the Secretary uses local educational agency data, the weighted child count used to determine a local educational agency's grant under this section is the larger of the two amounts determined under clauses (i) and (ii), as follows:

(i) By percentage of children

This amount is determined by adding—

(I) the number of children determined under section 6333(c) of this title for that local educational agency constituting up to 14.265 percent, inclusive, of the agency's total population aged 5 to 17, inclusive, multiplied by 1.0;

(II) the number of such children constituting more than 14.265 percent, but not more than 21.553 percent, of such population, multiplied by 1.75;

(III) the number of such children constituting more than 21.553 percent, but not more than 29.223 percent, of such population, multiplied by 2.5;

(IV) the number of such children constituting more than 29.223 percent, but

not more than 36.538 percent, of such population, multiplied by 3.25; and

(V) the number of such children constituting more than 36.538 percent of such population, multiplied by 4.0.

(ii) By number of children

This amount is determined by adding—

(I) the number of children determined under section 6333(c) of this title constituting up to 575, inclusive, of the agency's total population aged 5 to 17, inclusive, multiplied by 1.0;

(II) the number of such children between 576 and 1,870, inclusive, in such population, multiplied by 1.5;

(III) the number of such children between 1,871 and 6,910, inclusive, in such population, multiplied by 2.0;

(IV) the number of such children between 6,911 and 42,000, inclusive, in such population, multiplied by 2.5; and

(V) the number of such children in excess of 42,000 in such population, multiplied by 3.0.

(B) Puerto Rico

Notwithstanding subparagraph (A), the weighting factor for Puerto Rico under this paragraph shall not be greater than the total number of children counted under section 6333(c) of this title multiplied by 1.72.

(d) Local educational agency allocations

For fiscal years 1995 through 1998, grants shall be calculated by the Secretary on the basis of the number of children counted under section 6333 of this title for counties, and State educational agencies shall suballocate county amounts to local educational agencies, in accordance with regulations published by the Secretary. In any State in which a large number of local educational agencies overlap county boundaries, the State educational agency may apply to the Secretary for authority during any particular fiscal year to make the allocations under this part (other than section 6334 of this title) directly to local educational agencies without regard to the counties. If the Secretary approves an application of a State educational agency for a particular year under this subparagraph, the State educational agency shall provide assurances that—

(1) such allocations will be made using precisely the same factors for determining a grant as are used under this part;

(2) such allocations will be made using alternative data approved by the Secretary that the State determines best reflects the distribution of children in poor families and is adjusted to be equivalent in proportion to the number of children determined in accordance with section 6333(c) of this title; or

(3) such allocations will be made using data that the State educational agency submits to the Secretary for approval that more accurately target poverty.

In addition, the State educational agency shall provide assurances that a procedure will be established through which local educational agencies dissatisfied with the determinations made by the State educational agency may appeal di-

rectly to the Secretary for a final determination. For fiscal years beginning in 1999, for each local educational agency serving an area with a total population of at least 20,000 persons, the grant under this section shall be the amount determined by the Secretary. For local educational agencies serving areas with total populations of fewer than 20,000 persons, the State educational agency may either (1) distribute to such local educational agencies grants under this section equal to the amounts determined by the Secretary; or (2) use an alternative method, approved by the Secretary, to distribute the share of the State's total grants under this section that is based on local educational agencies with total populations of fewer than 20,000 persons. Such an alternative method of distributing grants under this section among a State's local educational agencies serving areas with total populations of fewer than 20,000 persons shall be based upon population data that the State educational agency determines best reflects the current distribution of children in poor families among the State's local educational agencies serving areas with total populations of fewer than 20,000 persons. If a local educational agency serving an area with total populations of less than 20,000 persons is dissatisfied with the determination of its grant by the State educational agency, then the local educational agency may appeal this determination to the Secretary. The Secretary shall respond to this appeal within 45 days of receipt.

(e) State minimum

Notwithstanding any other provision of this section or subsection (b)(1) or (d) of section 6332 of this title, from the total amount available for any fiscal year to carry out this section, each State shall be allotted at least the lesser of—

- (1) 0.25 percent of total appropriations; or
- (2) the average of—

(A) one-quarter of 1 percent of the total amount available to carry out this section; and

(B) 150 percent of the national average grant under this section per child described in section 6333(c) of this title, without application of a weighting factor, multiplied by the State's total number of children described in section 6333(c) of this title, without application of a weighting factor.

(Pub. L. 89-10, title I, §1125, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3571.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6332, 6334, 6336, 6337 of this title.

§ 6336. Education finance incentive program

(a) Grants

The Secretary is authorized to make grants to States from the sums appropriated pursuant to subsection (e) of this section to carry out the purposes of this part.

(b) Distribution based upon fiscal effort and equity

(1) In general

Funds appropriated pursuant to subsection (e) of this section shall be allotted to each

State based upon the number of children aged 5 to 17, inclusive, of such State multiplied by the product of—

(A) such State's effort factor described in paragraph (2); multiplied by

(B) 1.30 minus such State's equity factor described in paragraph (3),

except that for each fiscal year no State shall receive less than one-quarter of 1 percent of the total amount appropriated pursuant to subsection (e) of this section for such fiscal year.

(2) Effort factor

(A) Except as provided in subparagraph (B), the effort factor for a State shall be determined in accordance with the succeeding sentence, except that such factor shall not be less than .95 nor greater than 1.05. The effort factor determined under this sentence shall be a fraction the numerator of which is the product of the three-year average per-pupil expenditure in the State multiplied by the three-year average per capita income in the United States and the denominator of which is the product of the three-year average per capita income in such State multiplied by the three-year average per-pupil expenditure in the United States.

(B) The effort factor for the Commonwealth of Puerto Rico shall be equal to the lowest effort factor calculated under subparagraph (A) for any State.

(3) Equity factor

(A)(i) Except as provided in subparagraph (B), the Secretary shall determine the equity factor under this section for each State in accordance with clause (ii).

(ii)(I) For each State, the Secretary shall compute a weighted coefficient of variation for the per-pupil expenditures of local educational agencies in accordance with subclauses (II), (III), (IV), and (V).

(II) In computing coefficients of variation, the Secretary shall weigh the variation between per-pupil expenditures in each local educational agency and the average per-pupil expenditures in the State according to the number of pupils in the local educational agency.

(III) In determining the number of pupils under this paragraph in each local educational agency and each State, the Secretary shall multiply the number of children from low-income families by 1.4 under this paragraph.

(IV) In computing coefficients of variation, the Secretary shall include only those local educational agencies with an enrollment of more than 200 students.

(V) The Secretary shall compute separate coefficients of variation for elementary, secondary, and unified local educational agencies and shall combine such coefficients into a single weighted average coefficient for the State by multiplying each coefficient by the total enrollments of the local educational agencies in each group, adding such products, and dividing such sum by the total enrollments of the local educational agencies in the State.

(B) The equity factor for a State that meets the disparity standard described in section

222.63 of title 34, Code of Federal Regulations (as such section was in effect on the day preceding October 20, 1994) or a State with only one local educational agency shall be not greater than .10.

(C) The Secretary may revise each State's equity factor as necessary based on the advice of independent education finance scholars to reflect other need-based costs of local educational agencies in addition to low-income student enrollment, such as differing geographic costs, costs associated with students with disabilities, children with limited-English proficiency or other meaningful educational needs, which deserve additional support. In addition and also with the advice of independent education finance scholars, the Secretary may revise each State's equity factor to incorporate other valid and accepted methods to achieve adequacy of educational opportunity that may not be reflected in a coefficient of variation method.

(c) Use of funds

All funds awarded to each State under this section shall be allocated to local educational agencies and schools on a basis consistent with the distribution of other funds to such agencies and schools under sections 6333, 6334, and 6335 of this title to carry out activities under this part.

(d) Maintenance of effort

(1) In general

Except as provided in paragraph (2), a State is entitled to receive its full allotment of funds under this part for any fiscal year if the Secretary finds that either the combined fiscal effort per student or the aggregate expenditures within the State with respect to the provision of free public education for the fiscal year preceding the fiscal year for which the determination is made was not less than 90 percent of such combined fiscal effort or aggregate expenditures for the second fiscal year preceding the fiscal year for which the determination is made.

(2) Reduction of funds

The Secretary shall reduce the amount of the of¹ funds awarded to any State under this section in any fiscal year in the exact proportion to which the State fails to meet the requirements of paragraph (1) by falling below 90 percent of both the fiscal effort per student and aggregate expenditures (using the measure most favorable to the State), and no such lesser amount shall be used for computing the effort required under paragraph (1) for subsequent years.

(3) Waivers

The Secretary may waive, for one fiscal year only, the requirements of this subsection if the Secretary determines that such a waiver would be equitable due to exceptional or uncontrollable circumstances such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State.

(e) Authorization of appropriations

For the purpose of making grants under this section, there are authorized to be appropriated

\$200,000,000 for fiscal year 1996 and such sums as may be necessary for each of the three succeeding fiscal years.

(Pub. L. 89-10, title I, §1125A, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3575.)

CODIFICATION

October 20, 1994, referred to in subsec. (b)(3)(B), was in the original "the date of enactment of this Act", which was translated as meaning the date of enactment of Pub. L. 103-382, which enacted this section, to reflect the probable intent of Congress.

§ 6337. Special allocation procedures

(a) Allocations for neglected children

(1) In general

(1) support high-quality and comprehensive educational programs for migratory children to help reduce the educational disruptions and other problems that result from repeated moves;

(2) ensure that migratory children are provided with appropriate educational services (including supportive services) that address their special needs in a coordinated and efficient manner;

(3) ensure that migratory children have the opportunity to meet the same challenging State content standards and challenging State student performance standards that all children are expected to meet;

(4) design programs to help migratory children overcome educational disruption, cultural and language barriers, social isolation, various health-related problems, and other factors that inhibit the ability of such children to do well in school, and to prepare such children to make a successful transition to postsecondary education or employment; and

(5) ensure that migratory children benefit from State and local systemic reforms.

(Pub. L. 89-10, title I, §1301, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3585.)

§ 6393. State allocations**(a) State allocations**

Each State (other than the Commonwealth of Puerto Rico) is entitled to receive under this part, for each fiscal year, an amount equal to—

(1) the sum of the estimated number of migratory children aged three through 21 who reside in the State full time and the full-time equivalent of the estimated number of migratory children aged three through 21 who reside in the State part time, as determined in accordance with subsection (e) of this section; multiplied by

(2) 40 percent of the average per-pupil expenditure in the State, except that the amount determined under this paragraph shall not be less than 32 percent, nor more than 48 percent, of the average expenditure per pupil in the United States.

(b) Allocation to Puerto Rico

For each fiscal year, the amount for which the Commonwealth of Puerto Rico is eligible under this section shall be equal to—

(1) the number of migratory children in Puerto Rico, determined under subsection (a)(1) of this section; multiplied by

(2) the product of—

(A) the percentage that the average per-pupil expenditure in Puerto Rico is of the lowest average per-pupil expenditure of any of the 50 States; and

(B) 32 percent of the average per-pupil expenditure in the United States.

(c) Ratable reductions; reallocations**(1) In general**

(A) If, after the Secretary reserves funds under section 6398(c) of this title, the amount appropriated to carry out this part for any fiscal year is insufficient to pay in full the amounts for which all States are eligible, the Secretary shall ratably reduce each such amount.

(B) If additional funds become available for making such payments for any fiscal year, the Secretary shall allocate such funds to States in amounts that the Secretary determines will best carry out the purpose of this part.

(2) Special rule

(A) The Secretary shall further reduce the amount of any grant to a State under this part for any fiscal year if the Secretary determines, based on available information on the numbers and needs of migratory children in the State and the program proposed by the State to address such needs, that such amount exceeds the amount required under section 6394 of this title.

(B) The Secretary shall reallocate such excess funds to other States whose grants under this part would otherwise be insufficient to provide an appropriate level of services to migratory children, in such amounts as the Secretary determines are appropriate.

(d) Consortium arrangements**(1) In general**

In the case of a State that receives a grant of \$1,000,000 or less under this section, the Sec-

retary shall consult with the State educational agency to determine whether consortium arrangements with another State or other appropriate entity would result in delivery of services in a more effective and efficient manner.

(2) Proposals

Any State, regardless of the amount of such State's allocation, may submit a consortium arrangement to the Secretary for approval.

(3) Approval

The Secretary shall approve a consortium arrangement under paragraph (1) or (2) if the proposal demonstrates that the arrangement will—

(A) reduce administrative costs or program function costs for State programs; and

(B) make more funds available for direct services to add substantially to the welfare or educational attainment of children to be served under this part.

(e) Determining numbers of eligible children

In order to determine the estimated number of migratory children residing in each State for purposes of this section, the Secretary shall—

(1) use such information as the Secretary finds most accurately reflects the actual number of migratory children;

(2) develop and implement a procedure for more accurately reflecting cost factors for different types of summer and intersession program designs;

(3) adjust the full-time equivalent number of migratory children who reside in each State to take into account—

(A) the special needs of those children participating in special programs provided under this part that operate during the summer and intersession periods; and

(B) the additional costs of operating such programs; and

(4) conduct an analysis of the options for adjusting the formula so as to better direct services to the child whose education has been interrupted.

(Pub. L. 89-10, title I, §1303, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3585.)

(c) Assurances

Each such application shall also include assurances, satisfactory to the Secretary, that—

(1) funds received under this part will be used only—

PART D—PREVENTION AND INTERVENTION PROGRAMS FOR CHILDREN AND YOUTH WHO ARE NEGLECTED, DELINQUENT, OR AT RISK OF DROPPING OUT

PART REFERRED TO IN OTHER SECTIONS

This part is referred to in sections 6302, 6312, 6315, 6362, 6512, 6603, 8852, 8857 of this title.

§ 6421. Findings; purpose; program authorized

(a) Findings

Congress finds the following:

(1) A large percentage of youth in the juvenile justice system have poor academic achievement, are a year or more behind grade level, and have dropped out of school.

(2) There is a strong correlation between academic failure and involvement in delinquent activities.

(3) Preventing students from dropping out of local schools and addressing the educational needs of delinquent youth can help reduce the dropout rate and involvement in delinquent activities at the same time.

(4) Many schools and correctional facilities fail to communicate regarding a youth's academic needs and students often return to their home school ill-prepared to meet current curriculum requirements.

(5) Schools are often reluctant to deal with youth returning from facilities and receive no funds to deal with the unique educational and other needs of such youth.

(6) A continuing need exists for activities and programs to reduce the incidence of youth dropping out of school.

(7) Federal dropout prevention programs have demonstrated effectiveness in keeping children and youth in school.

(8) Pregnant and parenting teens are a high at-risk group for dropping out of school and should be targeted by dropout prevention programs.

(9) Such youth need a strong dropout prevention program which provides such youth with high level skills and which provides supports to youth returning from correctional facilities in order to keep such youth in school.

(b) Purpose

It is the purpose of this part—

(1) to improve educational services to children in local and State institutions for neglected or delinquent children and youth so that such children and youth have the opportunity to meet the same challenging State content standards and challenging State student performance standards that all children in the State will be expected to meet;

(2) to provide such children and youth the services needed to make a successful transition from institutionalization to further schooling or employment; and

(3) to prevent at-risk youth from dropping out of school and to provide dropouts and youth returning from institutions with a support system to ensure their continued education.

(c) Program authorized

In order to carry out the purpose of this part the Secretary shall make grants to State edu-

cational agencies to enable such agencies to award subgrants to State agencies and local educational agencies to establish or improve programs of education for neglected or delinquent children and youth at risk of dropping out of school before graduation.

(Pub. L. 89-10, title I, §1401, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3591.)

§ 6422. Payments for programs under this part

(a) Agency subgrants

Based on the allocation amount computed under section 6432 of this title, the Secretary shall allocate to each State educational agency amounts necessary to make subgrants to State agencies.

(b) Local subgrants

Each State shall retain, for purposes of subpart 2 of this part, funds generated throughout the State under part A of this subchapter based on youth residing in local correctional facilities, or attending community day programs for delinquent children and youth.

(c) Use of remaining funds

Each State shall use any funds remaining after allocations are made under subsection (a) of this section.

(Pub. L. 89-10, title I, §1402, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3592.)

(3) in adult correctional institutions.

(Pub. L. 89-10, title I, §1411, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3592.)

(i) are enrolled for at least 15 hours per week in education programs in adult correctional institutions; and

(ii) are enrolled for at least 20 hours per week—

(I) in education programs in institutions for neglected or delinquent children; or

(2) Special rule

The number of neglected or delinquent children and youth determined under paragraph (1) shall—

(A) be determined by the State agency by a deadline set by the Secretary, except that no State agency shall be required to determine the number of such children on a specific date set by the Secretary; and

(1) the number of children and youth counted under subsection (a)(1) of this section for the Commonwealth of Puerto Rico; multiplied by

PROFESSIONAL DEVELOPMENT PROGRAM

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 2344, 6320, 7472, 8293, 8332, 8801, 8857, 8893 of this title.

§ 6601. Findings

The Congress finds as follows:

(1) Reaching the National Education Goals, particularly the third, fourth, and fifth National Education Goals, requires a comprehensive educational reform strategy that involves parents, schools, government, communities, and other public and private organizations at all levels.

(2) A crucial component of the strategy for achieving such goals is ensuring, through sustained and intensive high-quality professional development, that all teachers will provide challenging learning experiences in the core academic subjects for their students.

(3) Decisionmaking as to what activities a State or local educational agency should undertake to improve teaching and learning are best made by individuals in the schools closest to the classroom and most knowledgeable about the needs of schools and students.

(4) The potential positive impact of high-quality professional development is underscored by recent research findings that—

(A) professional development must be focused on teaching and learning in order to improve the opportunities of all students to achieve higher standards;

(B) effective professional development focuses on discipline-based knowledge and effective subject-specific pedagogical skills, involves teams of teachers, and, where appropriate, administrators and pupil services personnel, in a school and, through professional networks of teachers, and, where appropriate, teacher educators, administrators, pupil services personnel, and parents, is interactive and collaborative, motivates by its intrinsic content and relationship to

practice, builds on experience and learning-by-doing, and becomes incorporated into the everyday life of the school;

(C) professional development can dramatically improve classroom instruction and learning when teachers, and, where appropriate, administrators, pupil services personnel, and parents, are partners in the development and implementation of such professional development; and

(D) new and innovative strategies for teaching to high standards will require time for teachers, outside of the time spent teaching, for instruction, practice, and collegial collaboration.

(5) Special attention must be given in professional development activities to ensure that education professionals are knowledgeable of, and make use of, strategies for serving populations that historically have lacked access to equal opportunities for advanced learning and career advancement.

(6) Professional development is often a victim of budget reductions in fiscally difficult times.

(7) The Federal Government has a vital role in helping States and local educational agencies to make sustained and intensive high-quality professional development in the core academic subjects become an integral part of the elementary and secondary education system.

(8) Professional development activities must prepare teachers, pupil services personnel, paraprofessionals and other staff in the collaborative skills needed to appropriately teach children with disabilities, in the core academic subjects.

(9) Parental involvement is an important aspect of school reform and improvement. There is a need for special attention to ensure the effective involvement of parents in the education of their children. Professional development should include methods and strategies to better prepare teachers and, where appropriate, administrators, to enable parents to participate fully and effectively in their children's education.

(Pub. L. 89-10, title II, §2001, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3612.)

§ 6602. Purposes

(1) helping to ensure that teachers, and, where appropriate, other staff and administrators, have access to sustained and intensive high-quality professional development that is aligned to challenging State content standards and challenging State student performance standards, and to support the development and implementation of sustained and intensive high-quality professional development activities in the core academic subjects; and

§ 6623. National Teacher Training Project

(a) Short title; findings; definitions

(1) Short title

This section may be cited as the “National Teacher Training Project Act of 1994”.

(2) Findings

The Congress finds that—

(A) teachers must be major players in educational reform in the United States;

(B) teachers are isolated from their peers and have virtually no time during the school day to consult with other teachers;

(C) there is a shortage of sustained, year-round professional development programs for teachers;

(D) successful teaching methods are not adequately shared among teachers;

(E) teachers are the best teachers of other teachers because practicing classroom teachers have experience that no outside consultant can match;

(F) it is important for universities and schools to collaborate on teacher development programs if teaching and learning are to be improved;

(G) pertinent research is not shared among teachers in a professional setting;

(H) exemplary teachers should be recognized for their abilities and contributions and encouraged to refine their teaching methods;

(I) each State should support a nationally based teacher training program, that is modeled after the National Writing Project, for teachers of early childhood education, and for teachers of core academic subjects including teachers of mathematics, science, English, civics and government, foreign languages, and arts;

(J) the National Writing Project is a nationally recognized and honored nonprofit organization that recognizes there are teachers in every region of the United States who have developed successful methods for teaching writing and that such teachers can be trained and encouraged to train other teachers;

(K) the National Writing Project is a collaborative university-school program which offers summer and school year inservice teacher training programs and a dissemination network to inform and teach teachers regarding developments in the field of writing;

(L) each year, over 125,000 teachers voluntarily seek training in National Writing Project intensive summer institutes and workshops and school year inservice programs through one of the 155 sites located within the United States, and in 18 sites located outside of the United States;

(M) in the 20 years of its existence, over 1,100,000 teachers, administrators, and parents have participated in National Writing Project programs;

(N) less than \$16 per teacher was the average cost in Federal dollars for all teacher training at writing projects in academic year 1991-1992;

(O) for every dollar in Federal support, the National Writing Project provides over \$5 in matching funds from States, local universities and schools, and the private sector;

(P) private foundation resources, although generous in the past concerning National Writing Project programs, are inadequate to fund all of the National Teacher Training Project sites needed, and the future of the program is in jeopardy without secure financial support;

(Q) the National Writing Project has become a model for programs in other fields, such as science, mathematics, history, literature, foreign languages, and the performing arts, and the development of programs in other fields should continue with the support of Federal funds; and

(R) each of the 50 States should participate in the National Teacher Training Project by establishing regional teacher training sites in early childhood development, mathematics, science, English, civics and government, foreign languages, and arts to serve all teachers within the State.

§ 6671. Findings and purpose

(a) Findings

The Congress finds that—

(1) underlying the standards-driven framework of the Goals 2000: Educate America Act [20 U.S.C. 5801 et seq.] and the high academic standards for eligible students under subchapter I of this chapter is a widespread need to prepare teachers to teach to higher standards;

(2) prospective and current teachers need knowledge and skills beyond what such teachers currently possess;

(3) while both the Goals 2000: Educate America Act [20 U.S.C. 5801 et seq.] and subchapters I and II of this chapter have extensive references to professional development of teachers, there are no provisions to incorporate “on-the-ground” planning and implementation to serve as models for local educational agencies across the Nation; and

(4) better prepared teachers can lead to improved student achievement, especially for students who are furthest from reaching high standards.

(b) Purpose

It is the purpose of this part—

(1) to address the need for professional development with a primary focus on teachers;

(2) to provide both prospective teachers and current teachers opportunities to learn both the content and the pedagogy needed to teach to high standards; and

(3) to build models, in a few cities and States, that demonstrate new organizational arrangements and deep investments in teachers necessary to better prepare teachers for new standards and assessments.

(Pub. L. 89-10, title II, §2301, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3633.)

SUBCHAPTER III—TECHNOLOGY FOR EDUCATION

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in section 8893 of this title.

§ 6801. Short title

This subchapter may be cited as the “Technology for Education Act of 1994”.

(Pub. L. 89–10, title III, §3101, as added Pub. L. 103–382, title I, §101, Oct. 20, 1994, 108 Stat. 3636.)

PART A—TECHNOLOGY FOR EDUCATION OF ALL STUDENTS

§ 6811. Findings

The Congress finds that—

(1) technology can produce far greater opportunities for all students to learn to high standards, promote efficiency and effectiveness in education, and help propel our Nation’s school systems into very immediate and dramatic reform, without which our Nation will not meet the National Education Goals by the target year 2000;

(2) the use of technology as a tool in the teaching and learning process is essential to the development and maintenance of a technologically literate citizenry and an internationally competitive workforce;

(3) the acquisition and use of technology in education throughout the United States has been inhibited by—

(A) the absence of Federal leadership;

(B) the inability of many State and local educational agencies to invest in and support needed technologies;

(C) the limited exposure of students and teachers to the power of technology as a cost-effective tool to improve student learning and achievement;

(D) the lack of appropriate electrical and telephone connections in the classroom; and

(E) the limited availability of appropriate technology-enhanced curriculum, instruction, professional development, and administrative support resources and services in the educational marketplace;

(4) policies at the Federal, State, and local levels concerning technology in education must address disparities in the availability of technology to different groups of students, give priority to serving students in greatest need, and recognize that educational telecommunications and technology can address educational equalization concerns and school restructuring needs by providing universal access to high-quality teaching and programs, particularly in urban and rural areas;

(5) the increasing use of new technologies and telecommunications systems in business has increased the gap between schooling and work force preparation, and underscores the need for technology policies at the Federal, State, tribal, and local levels that address preparation for school-to-work transitions;

(6) technology can enhance the ongoing professional development of teachers and administrators by providing constant access to updated research in teaching and learning by means of telecommunications, and, through exposure to technology advancements, keep teachers and administrators excited and knowledgeable about unfolding opportunities for the classroom;

(7) planned and creative uses of technology, combined with teachers adequately trained in the use of technology, can reshape our Nation’s traditional method of providing edu-

cation and empower teachers to create an environment in which students are challenged through rigorous, rich classroom instruction provided at a pace suited to each student's learning style, and in which students have increased opportunities to develop higher order thinking and technical skills;

(8) schools need new ways of financing the acquisition and maintenance of educational technology;

(9) the needs for educational technology differ from State to State;

(10) technology can provide students, parents, teachers, other education professionals, communities, and industry with increased opportunities for partnerships and with increased access to information, instruction, and educational services in schools and other settings, including homes, libraries, preschool and child-care facilities, adult and family education programs, and postsecondary institutions;

(11) the Department, consistent with the overall national technology policy established by the President, must assume a vital leadership and coordinating role in developing the national vision and strategy to infuse advanced technology throughout all educational programs;

(12) Federal support can ease the burden at the State and local levels by enabling the acquisition of advanced technology and initiating the development of teacher training and support as well as new educational products;

(13) leadership at the Federal level should consider guidelines to ensure that educational technology is accessible to all users with maximum interoperability nationwide;

(14) the rapidly changing nature of technology requires coordination and flexibility in Federal leadership; and

(15) technology has the potential to assist and support the improvement of teaching and learning in schools and other settings.

(Pub. L. 89-10, title III, §3111, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3637.)

§ 6812. Statement of purpose

The purpose of this part is to support a comprehensive system for the acquisition and use by elementary and secondary schools in the United States of technology and technology-enhanced curricula, instruction, and administrative support resources and services to improve the delivery of educational services. Such system shall include—

(1) national leadership with respect to the need for, and the provision of, appropriate technology-enhanced curriculum, instruction, and administrative programs to improve learning in the United States, and to promote equal access for all students to educational opportunities in order to achieve the National Education Goals by the year 2000;

(2) funding mechanisms which will support the development, interconnection, implementation, improvement, and maintenance of an effective educational technology infrastructure, including activities undertaken by State and local educational agencies to promote and

provide equipment, training for teachers and school library and media personnel, and technical support;

(3) support for technical assistance, professional development, information and resource dissemination, in order to help States, local educational agencies, teachers, school library and media personnel, and administrators successfully integrate technology into kindergarten through 12th grade classrooms and library media centers;

(4) support for the development of educational and instructional programming in core subject areas, which shall address the National Education Goals;

(5) strengthening and building upon, but not duplicating, existing telecommunications infrastructures dedicated to educational purposes;

(6) development and evaluation of new and emerging educational technologies, telecommunications networks, and state-of-the-art educational technology products that promote the use of advanced technologies in the classroom and school library media center;

(7) assessment data regarding state-of-the-art uses of technologies in United States education upon which commercial and non-commercial telecommunications entities, and governments can rely for decisionmaking about the need for, and provision of, appropriate technologies for education in the United States;

(8) ensuring that uses of educational technology are consistent with the overall national technology policy established by the President, and ensuring that Federal technology-related policies and programs will facilitate the use of technology in education;

(9) ensuring that activities supported under this part will form the basis for sound State and local decisions about investing in, sustaining, and expanding uses of technology in education;

(10) establishing working guidelines to ensure maximum interoperability nationwide and ease of access for the emerging technologies so that no school system will be excluded from the technological revolution;

(11) ensuring that, as technological advances are made, the educational uses of these advances are considered and their applications are developed; and

(12) encouragement of collaborative relationships among the State agency for higher education, the State library administrative agency, the State telecommunications agency, and the State educational agency, in the area of technology support to strengthen the system of education.

(Pub. L. 89-10, title III, §3112, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3638.)

This part may be cited as the “Elementary Mathematics and Science Equipment Act”.

Ex. Ord. No. 12821, Nov. 16, 1992, 57 F.R. 54285, which required executive departments and agencies with a scientific mission that employ significant numbers of scientists, mathematicians, and engineers and have a Federal laboratory to assist in mathematics and science education and to give highest preference to elementary and secondary schools in transfer or donation of education-related Federal equipment, was superseded by Ex. Ord. No. 12999, Apr. 17, 1996, 61 F.R. 17229, set out as a note under section 484 of Title 40, Public Buildings, Property, and Works.

§ 6972. Statement of purpose

It is the purpose of this part to raise the quality of instruction in mathematics and science in the Nation's elementary schools by providing equipment and materials necessary for hands-on instruction through assistance to State and local educational agencies.

§ 6974. Allotments of funds

From the amount appropriated under section 6979 of this title for any fiscal year, the Secretary shall reserve—

(1) not more than one-half of 1 percent for allotment among Guam, American Samoa, the Virgin Islands, and the Northern Mariana Islands according to their respective needs for assistance under this part; and

(2) one-half of 1 percent for programs for Indian students served by schools funded by the Secretary of the Interior which are consistent with the purposes of this part.

(b) Allotment

(1) In general

The remainder of the amount so appropriated (after meeting requirements in subsection (a) of this section) shall be allotted among State educational agencies so that—

(A) one-half of such remainder shall be distributed by allotting to each State educational agency an amount which bears the same ratio to such one-half of such remainder as the number of children aged 5 to 17, inclusive, in the State bears to the number of such children in all States; and

(B) one-half of such remainder shall be distributed according to each State's share of allocations under part A of subchapter I of this chapter.

(2) Minimum

Except as provided in paragraph (3), no State educational agency shall receive an allotment

(B) If additional funds become available for making payments under paragraph (2)(B) for such fiscal year, allotments that were reduced under subparagraph (A) shall be increased on the same basis as such allotments were reduced.

(c) Reallotment of unused funds

The amount of any State educational agency's allotment under subsection (b) of this section for any fiscal year to carry out this part which the Secretary determines will not be required for that fiscal year to carry out this part shall be available for reallotment from time to time, on such dates during that year as the Secretary may determine, to other State educational agencies in proportion to the original allotments to those State educational agencies under subsection (b) of this section for that year but with such proportionate amount for any of those other State educational agencies being reduced to the extent it exceeds the sum the Secretary estimates that the State educational agency needs and will be able to use for that year, and the total of those reductions shall be similarly reallotted among the State educational agencies whose proportionate amounts were not so reduced. Any amounts reallotted to a State educational agency under this subsection during a year shall be deemed a part of the State educational agency's allotment under subsection (b) of this section for that year.

(d) "State" defined

For the purposes of this part the term "State" means each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico.

(C) Resumption of payments

Whenever the Secretary determines (whether by certification or other appropriate evidence) that a recipient of funds who is subject to the withholding of payments under subparagraph (A)(i) has cured the failure providing the basis for the withholding of payments, the Secretary shall cease the withholding of payments to the recipient under that subparagraph.

§ 7102. Findings

The Congress finds as follows:

(1) The seventh National Education Goal provides that by the year 2000, all schools in America will be free of drugs and violence and the unauthorized presence of firearms and alcohol, and offer a disciplined environment that is conducive to learning.

(2) The widespread illegal use of alcohol and other drugs among the Nation’s secondary school students, and increasingly by students in elementary schools as well, constitutes a grave threat to such students’ physical and mental well-being, and significantly impedes the learning process. For example, data show that students who drink tend to receive lower grades and are more likely to miss school because of illness than students who do not drink.

(3) Our Nation's schools and communities are increasingly plagued by violence and crime. Approximately 3,000,000 thefts and violent crimes occur in or near our Nation's schools every year, the equivalent of more than 16,000 incidents per school day.

(4) Violence that is linked to prejudice and intolerance victimizes entire communities leading to more violence and discrimination.

(5) The tragic consequences of violence and the illegal use of alcohol and drugs by students are felt not only by students and such students' families, but by such students' communities and the Nation, which can ill afford to lose such students' skills, talents, and vitality.

(6) While use of illegal drugs is a serious problem among a minority of teenagers, alcohol use is far more widespread. The proportion of high school students using alcohol, though lower than a decade ago, remains unacceptably high. By the 8th grade, 70 percent of youth report having tried alcohol and by the 12th grade, about 88 percent have used alcohol. Alcohol use by young people can and does have adverse consequences for users, their families, communities, schools, and colleges.

(7) Alcohol and tobacco are widely used by young people. Such use can, and does, have adverse consequences for young people, their families, communities, schools, and colleges. Drug prevention programs for youth that address only controlled drugs send an erroneous message that alcohol and tobacco do not present significant problems, or that society is willing to overlook their use. To be credible, messages opposing illegal drug use by youth should address alcohol and tobacco as well.

(8) Every day approximately 3,000 children start smoking. Thirty percent of all secondary school seniors are smokers. Half of all new smokers begin smoking before the age of 14, 90 percent of such smokers begin before the age of 21, and the average age of the first use of smokeless tobacco is under the age of 10. Use of tobacco products has been linked to serious health problems. Drug education and prevention programs that include tobacco have been effective in reducing teenage use of tobacco.

(9) Drug and violence prevention programs are essential components of a comprehensive strategy to promote school safety and to reduce the demand for and use of drugs throughout the Nation. Schools and local organizations in communities throughout the Nation have a special responsibility to work together to combat the growing epidemic of violence and illegal drug use and should measure the success of their programs against clearly defined goals and objectives.

(10) Students must take greater responsibility for their own well-being, health, and safety if schools and communities are to achieve the goals of providing a safe, disciplined, and drug-free learning environment.

§ 7103. Purpose

The purpose of this subchapter is to support programs to meet the seventh National Edu-

cation Goal by preventing violence in and around schools and by strengthening programs that prevent the illegal use of alcohol, tobacco, and drugs, involve parents, and are coordinated with related Federal, State, and community efforts and resources, through the provision of Federal assistance to—

(1) States for grants to local educational agencies and educational service agencies and consortia of such agencies to establish, operate, and improve local programs of school drug and violence prevention, early intervention, rehabilitation referral, and education in elementary and secondary schools (including intermediate and junior high schools);

(2) States for grants to, and contracts with, community-based organizations and other public and private nonprofit agencies and organizations for programs of drug and violence prevention, early intervention, rehabilitation referral, and education;

(3) States for development, training, technical assistance, and coordination activities;

(4) public and private nonprofit organizations to conduct training, demonstrations, and evaluation, and to provide supplementary services for the prevention of drug use and violence among students and youth; and

(5) institutions of higher education to establish, operate, expand, and improve programs of school drug and violence prevention, education, and rehabilitation referral for students enrolled in colleges and universities.

§ 7104. Funding

There are authorized to be appropriated—

(1) \$630,000,000 for fiscal year 1995, and such sums as may be necessary for each of the four succeeding fiscal years, for State grants under subpart 1 of part A of this subchapter; and

(2) \$25,000,000 for fiscal year 1995, and such sums as may be necessary for each of the four succeeding fiscal years, for national programs under subpart 2 of part A of this subchapter.

SUBCHAPTER V—PROMOTING EQUITY

PART A—MAGNET SCHOOLS ASSISTANCE

PART REFERRED TO IN OTHER SECTIONS

This part is referred to in section 6212 of this title.

§ 7201. Findings

The Congress finds that—

(1) magnet schools are a significant part of our Nation's effort to achieve voluntary desegregation in our Nation's schools;

(2) the use of magnet schools has increased dramatically since the date of enactment of the Magnet Schools Assistance program, with approximately 1,400,000 students nationwide now attending such schools, of which more than 60 percent of the students are nonwhite;

(3) magnet schools offer a wide range of distinctive programs that have served as models for school improvement efforts;

(4) in administering the Magnet Schools Assistance program, the Federal Government has learned that—

(A) where magnet programs are implemented for only a portion of a school's student body, special efforts must be made to discourage the isolation of—

(i) magnet school students from other students in the school; and

(ii) students by racial characteristics;

(B) local educational agencies can maximize their effectiveness in achieving the purposes of the Magnet Schools Assistance program if such agencies have more flexibility in the administration of such program in order to serve students attending a school

who are not enrolled in the magnet school program;

(C) local educational agencies must be creative in designing magnet schools for students at all academic levels, so that school districts do not skim off only the highest achieving students to attend the magnet schools;

(D) consistent with desegregation guidelines, local educational agencies must seek to enable participation in magnet school programs by students who reside in the neighborhoods where the programs operate; and

(E) in order to ensure that magnet schools are sustained after Federal funding ends, the Federal Government must assist school districts to improve their capacity to continue to operate magnet schools at a high level of performance; and

(5) it is in the best interest of the Federal Government to—

(A) continue the Federal Government's support of school districts implementing court-ordered desegregation plans and school districts seeking to foster meaningful interaction among students of different racial and ethnic backgrounds, beginning at the earliest stage of such students' education;

(B) ensure that all students have equitable access to quality education that will prepare such students to function well in a culturally diverse, technologically oriented, and highly competitive, global community; and

(C) maximize the ability of local educational agencies to plan, develop, implement and continue effective and innovative magnet schools that contribute to State and local systemic reform.

(Pub. L. 89-10, title V, §5101, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3690.)

§ 7202. Statement of purpose

The purpose of this part is to assist in the desegregation of schools served by local educational agencies by providing financial assistance to eligible local educational agencies for—

(1) the elimination, reduction, or prevention of minority group isolation in elementary and secondary schools with substantial proportions of minority students;

(2) the development and implementation of magnet school projects that will assist local educational agencies in achieving systemic reforms and providing all students the opportunity to meet challenging State content standards and challenging State student performance standards;

(3) the development and design of innovative educational methods and practices; and

(4) courses of instruction within magnet schools that will substantially strengthen the knowledge of academic subjects and the grasp of tangible and marketable vocational skills of students attending such schools.

(Pub. L. 89-10, title V, §5102, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3691.)

The Congress finds that—

(1) since the enactment of title IX of the Education Amendments of 1972 [20 U.S.C. 1681 et seq.], women and girls have made strides in educational achievement and in their ability to avail themselves of educational opportunities;

(2) because of funding provided under the Women’s Educational Equity Act, more curricula, training, and other educational materials concerning educational equity for women and girls are available for national dissemination;

(3) teaching and learning practices in the United States are frequently inequitable as such practices relate to women and girls, for example—

(A) sexual harassment, particularly that experienced by girls, undermines the ability of schools to provide a safe and equitable learning or workplace environment;

(C) girls do not take as many mathematics and science courses as boys, girls lose con-

fidence in their mathematics and science ability as girls move through adolescence, and there are few women role models in the sciences; and

(D) pregnant and parenting teenagers are at high risk for dropping out of school and existing dropout prevention programs do not adequately address the needs of such teenagers;

(4) efforts to improve the quality of public education also must include efforts to ensure equal access to quality education programs for all women and girls;

(5) Federal support should address not only research and development of innovative model curricula and teaching and learning strategies to promote gender equity, but should also assist schools and local communities implement gender equitable practices;

(6) Federal assistance for gender equity must be tied to systemic reform, involve collaborative efforts to implement effective gender practices at the local level, and encourage parental participation; and

(7) excellence in education, high educational achievements and standards, and the full participation of women and girls in American society, cannot be achieved without educational equity for women and girls.

SUBCHAPTER VI—INNOVATIVE EDUCATION PROGRAM STRATEGIES

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 5891b, 7713, 8293, 8801, 8857 of this title.

§ 7301. Findings and statement of purpose

(a) Findings

The Congress finds that chapter 2 of title I of this Act (as such chapter was in effect on the day preceding October 20, 1994) has been successful in achieving the goals of increasing local flexibility, reducing administrative burden, providing services for private school students, en-

couraging innovation, and contributing to the improvement of elementary and secondary educational programs.

(b) Statement of purpose

It is the purpose of programs under this subchapter—

- (1) to support local education reform efforts which are consistent with and support statewide reform efforts under Goals 2000: Educate America Act [20 U.S.C. 5801 et seq.];
- (2) to support State and local efforts to accomplish the National Education Goals;
- (3) to provide funding to enable State and local educational agencies to implement promising educational reform programs;
- (4) to provide a continuing source of innovation, and educational improvement, including support for library services and instructional and media materials; and
- (5) to meet the special educational needs of at risk and high cost students.

(c) State and local responsibility

The basic responsibility for the administration of funds made available under this subchapter is within the State educational agencies, but it is the intent of Congress that the responsibility be carried out with a minimum of paperwork and that the responsibility for the design and implementation of programs assisted under this subchapter will be mainly that of local educational agencies, school superintendents and principals, and classroom teachers and supporting personnel, because such agencies and individuals have the most direct contact with students and are most likely to be able to design programs to meet the educational needs of students in their own school districts.

(A) Strong and effective administrative and instructional leadership that creates consensus on instructional goals and organizational capacity for instructional problem solving.

(B) Emphasis on the acquisition of basic and higher order skills.

(C) A safe and orderly school environment that allows teachers and pupils to focus their energies on academic achievement.

PART A—STATE AND LOCAL PROGRAMS

§ 7311. Allotment to States

(a) Reservations

From the sums appropriated to carry out this subchapter in any fiscal year, the Secretary shall reserve not to exceed one percent for payments to outlying areas to be allotted in accordance with their respective needs.

(b) Allotment

From the remainder of such sums, the Secretary shall allot to each State an amount which bears the same ratio to the amount of such remainder as the school-age population of the State bears to the school-age population of all States, except that no State shall receive less than an amount equal to one-half of one percent of such remainder.

(c) Definitions

For purposes of this part:

(1) The term “school-age population” means the population aged 5 through 17.

(2) The term “States” includes the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico.

§ 7312. Allocation to local educational agencies

(a) Distribution rule

From the sums made available each year to carry out this subchapter, the State educational agency shall distribute not less than 85 percent to local educational agencies within such State according to the relative enrollments in public and private, nonprofit schools within the school districts of such agencies, adjusted, in accordance with criteria approved by the Secretary, to provide higher per pupil allocations to local educational agencies which have the greatest numbers or percentages of children whose education imposes a higher than average cost per child, such as—

(1) children living in areas with high concentrations of low-income families;

(2) children from low-income families; and

(3) children living in sparsely populated areas.

(b) Calculation of enrollments

(1) In general

The calculation of relative enrollments under subsection (a) of this section shall be on the basis of the total of—

(A) the number of children enrolled in public schools; and

(B) the number of children enrolled in private nonprofit schools that desire that their children participate in programs or projects assisted under this subchapter, for the fiscal year preceding the fiscal year for which the determination is made.

(2) Construction

Nothing in this subsection shall diminish the responsibility of local educational agencies to contact, on an annual basis, appropriate officials from private nonprofit schools within the areas served by such agencies in order to determine whether such schools desire that their children participate in programs assisted under this part.

(3) Adjustments

(A) Relative enrollments under subsection (a) of this section shall be adjusted, in accordance with criteria approved by the Secretary under subparagraph (B), to provide higher per pupil allocations only to local educational agencies which serve the greatest numbers or percentages of—

(i) children living in areas with high concentrations of low-income families;

(ii) children from low-income families; or

(iii) children living in sparsely populated areas.

(B) The Secretary shall review criteria submitted by a State educational agency for adjusting allocations under paragraph (1) and shall approve such criteria only if the Secretary determines that such criteria are reasonably calculated to produce an adjusted allocation that reflects the relative needs within the State's local educational agencies based on the factors set forth in subparagraph (A).

(c) Payment of allocations

(1) Distribution

From the funds paid to a State educational agency pursuant to section 7302 of this title

for a fiscal year, a State educational agency shall distribute to each eligible local educational agency which has submitted an application as required in section 7332 of this title the amount of such local educational agency allocation as determined under subsection (a) of this section.

(2) Additional funds

(A) Additional funds resulting from higher per pupil allocations provided to a local educational agency on the basis of adjusted enrollments of children described in subsection (a) of this section, may, at the discretion of the local educational agency, be allocated for expenditures to provide services for children enrolled in public and private nonprofit schools in direct proportion to the number of children described in subsection (a) of this section and enrolled in such schools within the local educational agency.

(B) In any fiscal year, any local educational agency that elects to allocate such additional funds in the manner described in subparagraph (A) shall allocate all additional funds to schools within the local educational agency in such manner.

(C) The provisions of subparagraphs (A) and (B) may not be construed to require any school to limit the use of such additional funds to the provision of services to specific students or categories of students.

(Pub. L. 89-10, title VI, §6102, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3708.)

PART D—GENERAL ADMINISTRATIVE PROVISIONS

§ 7371. Maintenance of effort; Federal funds supplementary

(a) Maintenance of effort

(1) In general

Except as provided in paragraph (2), a State is entitled to receive its full allocation of funds under this part for any fiscal year if the Secretary finds that either the combined fiscal effort per student or the aggregate expenditures within the State with respect to the provision of free public education for the fiscal year preceding the fiscal year for which the determination is made was not less than 90 percent of such combined fiscal effort or aggregate expenditures for the second fiscal year preceding the fiscal year for which the determination is made.

(2) Reduction of funds

The Secretary shall reduce the amount of the allocation of funds under this part in any fiscal year in the exact proportion to which the State fails to meet the requirements of paragraph (1) by falling below 90 percent of both the fiscal effort per student and aggregate expenditures (using the measure most favorable to the State), and no such lesser amount shall be used for computing the effort required under paragraph (1) for subsequent years.

(3) Waivers

The Secretary may waive, for one fiscal year only, the requirements of this section if the Secretary determines that such a waiver would be equitable due to exceptional or uncontrollable circumstances such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State.

(b) Federal funds supplementary

A State or local educational agency may use and allocate funds received under this part only so as to supplement and, to the extent practical, increase the level of funds that would, in the absence of Federal funds made available under this part, be made available from non-Federal sources, and in no case may such funds be used so as to supplant funds from non-Federal sources.

(Pub. L. 89-10, title VI, §6401, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3712.)

§ 7372. Participation of children enrolled in private schools

(a) Participation on equitable basis

(1) In general

To the extent consistent with the number of children in the school district of a local educational agency which is eligible to receive funds under this subchapter or which serves the area in which a program or project as-

sisted under this subchapter is located who are enrolled in private nonprofit elementary and secondary schools, or with respect to instructional or personnel training programs funded by the State educational agency from funds made available for State use, such agency, after consultation with appropriate private school officials, shall provide for the benefit of such children in such schools secular, neutral, and nonideological services, materials, and equipment, including the participation of the teachers of such children (and other educational personnel serving such children) in training programs, and the repair, minor remodeling, or construction of public facilities as may be necessary for their provision (consistent with subsection (c) of this section), or, if such services, materials, and equipment are not feasible or necessary in one or more such private schools as determined by the local educational agency after consultation with the appropriate private school officials, shall provide such other arrangements as will assure equitable participation of such children in the purposes and benefits of this subchapter.

(2) Other provisions for services

If no program or project is carried out under paragraph (1) in the school district of a local educational agency, the State educational agency shall make arrangements, such as through contracts with nonprofit agencies or organizations, under which children in private schools in such district are provided with services and materials to the extent that would have occurred if the local educational agency had received funds under this subchapter.

(3) Application of requirements

The requirements of this section relating to the participation of children, teachers, and other personnel serving such children shall apply to programs and projects carried out under this subchapter by a State or local educational agency, whether directly or through grants to or contracts with other public or private agencies, institutions, or organizations.

(b) Equal expenditures

Expenditures for programs pursuant to subsection (a) of this section shall be equal (consistent with the number of children to be served) to expenditures for programs under this subchapter for children enrolled in the public schools of the local educational agency, taking into account the needs of the individual children and other factors which relate to such expenditures, and when funds available to a local educational agency under this subchapter are used to concentrate programs or projects on a particular group, attendance area, or grade or age level, children enrolled in private schools who are included within the group, attendance area, or grade or age level selected for such concentration shall, after consultation with the appropriate private school officials, be assured equitable participation in the purposes and benefits of such programs or projects.

(c) Funds

(1) Administration of funds and property

The control of funds provided under this subchapter, and title to materials, equipment,

and property repaired, remodeled, or constructed with such funds, shall be in a public agency for the uses and purposes provided in this subchapter, and a public agency shall administer such funds and property.

(2) Provision of services

The provision of services pursuant to this subchapter shall be provided by employees of a public agency or through contract by such public agency with a person, an association, agency, or corporation who or which, in the provision of such services, is independent of such private school and of any religious organizations, and such employment or contract shall be under the control and supervision of such public agency, and the funds provided under this subchapter shall not be commingled with State or local funds.

(d) State prohibition waiver

If by reason of any provision of law a State or local educational agency is prohibited from providing for the participation in programs of children enrolled in private elementary and secondary schools, as required by this section, the Secretary shall waive such requirements and shall arrange for the provision of services to such children through arrangements which shall be subject to the requirements of this section.

(e) Waiver and provision of services

(1) Failure to comply

If the Secretary determines that a State or a local educational agency has substantially failed or is unwilling to provide for the participation on an equitable basis of children enrolled in private elementary and secondary schools as required by this section, the Secretary may waive such requirements and shall arrange for the provision of services to such children through arrangements which shall be subject to the requirements of this section.

(2) Withholding of allocation

Pending final resolution of any investigation or complaint that could result in a determination under this subsection or subsection (d) of this section, the Secretary may withhold from the allocation of the affected State or local educational agency the amount estimated by the Secretary to be necessary to pay the cost of those services.

(f) Determination

Any determination by the Secretary under this section shall continue in effect until the Secretary determines that there will no longer be any failure or inability on the part of the State or local educational agency to meet the requirements of subsections (a) and (b) of this section.

(g) Payment from State allotment

When the Secretary arranges for services pursuant to this section, the Secretary shall, after consultation with the appropriate public and private school officials, pay the cost of such services, including the administrative costs of arranging for those services, from the appropriate allotment of the State under this subchapter.

(h) Review

(1) Written objections

The Secretary shall not take any final action under this section until the State educational agency and the local educational agency affected by such action have had an opportunity, for not less than 45 days after receiving written notice thereof, to submit written objections and to appear before the Secretary or the Secretary's designee to show cause why that action should not be taken.

(2) Court action

If a State or local educational agency is dissatisfied with the Secretary's final action after a proceeding under paragraph (1), such agency may, not later than 60 days after notice of such action, file with the United States court of appeals for the circuit in which such State is located a petition for review of that action. A copy of the petition shall be transmitted by the clerk of the court to the Secretary. The Secretary thereupon shall file in the court the record of the proceedings on which the Secretary based this action, as provided in section 2112 of title 28.

(3) Remand to Secretary

The findings of fact by the Secretary, if supported by substantial evidence, shall be conclusive; but the court, for good cause shown, may remand the case to the Secretary to take further evidence and the Secretary may make new or modified findings of fact and may modify the Secretary's previous action, and shall file in the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.

(4) Court review

Upon the filing of such petition, the court shall have jurisdiction to affirm the action of the Secretary or to set such action aside, in whole or in part. The judgment of the court shall be subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28.

(i) Prior determination

Any bypass determination by the Secretary under chapter 2 of title I of this Act (as such chapter was in effect on the day preceding October 20, 1994) shall, to the extent consistent with the purposes of this subchapter, apply to programs under this subchapter.

**SUBCHAPTER VII—BILINGUAL EDUCATION,
LANGUAGE ENHANCEMENT, AND LAN-
GUAGE ACQUISITION PROGRAMS**

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 6661g, 8893, 9252 of this title.

PART A—BILINGUAL EDUCATION

PART REFERRED TO IN OTHER SECTIONS

This part is referred to in sections 1401, 6396, 6649, 7545, 7571, 7572, 7573, 7575, 7602 of this title.

§ 7401. Short title

This part may be cited as the “Bilingual Education Act”.

(Pub. L. 89–10, title VII, §7101, as added Pub. L. 103–382, title I, §101, Oct. 20, 1994, 108 Stat. 3716.)

§ 7402. Findings, policy, and purpose**(a) Findings**

The Congress finds that—

(1) language-minority Americans speak virtually all world languages plus many that are indigenous to the United States;

(2) there are large and growing numbers of children and youth of limited-English proficiency, many of whom have a cultural heritage that differs from that of their English-proficient peers;

(3) the presence of language-minority Americans is related in part to Federal immigration policies;

(4) many language-minority Americans are limited in their English proficiency, and many have limited education and income;

(5) limited English proficient children and youth face a number of challenges in receiving an education that will enable such children and youth to participate fully in American society, including—

(A) segregated education programs;

(B) disproportionate and improper placement in special education and other special programs due to the use of inappropriate evaluation procedures;

(C) the limited-English proficiency of their own parents, which hinders the parents’ ability to fully participate in the education of their children; and

(D) a shortage of teachers and other staff who are professionally trained and qualified to serve such children and youth;

(6) Native Americans and Native American languages (as such terms are defined in section 2902 of title 25), including native residents of the outlying areas, have a unique status under Federal law that requires special policies within the broad purposes of this chapter to serve the education needs of language minority students in the United States;

(7) institutions of higher education can assist in preparing teachers, administrators and other school personnel to understand and build upon the educational strengths and needs of language-minority and culturally diverse student enrollments;

(8) it is the purpose of this subchapter to help ensure that limited English proficient students master English and develop high levels of academic attainment in content areas;

(9) quality bilingual education programs enable children and youth to learn English and meet high academic standards including proficiency in more than one language;

(10) as the world becomes increasingly interdependent and as international communication becomes a daily occurrence in government, business, commerce, and family life, multilingual skills constitute an important national resource which deserves protection and development;

(11) educational technology has the potential for improving the education of language-minority and limited English proficient students and their families, and the Federal Government should foster this development;

(12) parent and community participation in bilingual education programs contributes to program effectiveness;

(13) research, evaluation, and data-collection capabilities in the field of bilingual education need to be strengthened so that educators and other staff can better identify and promote those programs, program implementation strategies, and instructional practices that result in effective education of limited English proficient children;

(14) the use of a child or youth’s native language and culture in classroom instruction can—

(A) promote self-esteem and contribute to academic achievement and learning English by limited English proficient children and youth;

(B) benefit English-proficient children and youth who also participate in such programs; and

(C) develop our Nation’s national language resources, thus promoting our Nation’s competitiveness in the global economy;

(15) the Federal Government, as exemplified by title VI of the Civil Rights Act of 1964 [42 U.S.C. 2000d et seq.] and section 1703(f) of this title, has a special and continuing obligation to ensure that States and local school districts

take appropriate action to provide equal educational opportunities to children and youth of limited English proficiency; and

(16) the Federal Government also, as exempted by the Federal Government's efforts under this subchapter, has a special and continuing obligation to assist States and local school districts in developing the capacity to provide programs of instruction that offer limited English proficient children and youth an equal educational opportunity.

(b) Policy

The Congress declares it to be the policy of the United States, in order to ensure equal educational opportunity for all children and youth and to promote educational excellence, to assist State and local educational agencies, institutions of higher education and community-based organizations to build their capacity to establish, implement, and sustain programs of instruction for children and youth of limited English proficiency.

(c) Purpose

The purpose of this part is to educate limited English proficient children and youth to meet the same rigorous standards for academic performance expected of all children and youth, including meeting challenging State content standards and challenging State student performance standards in academic areas by—

(1) developing systemic improvement and reform of educational programs serving limited English proficient students through the development and implementation of exemplary bilingual education programs and special alternative instruction programs;

(2) developing bilingual skills and multicultural understanding;

(3) developing the English of such children and youth and, to the extent possible, the native language skills of such children and youth;

(4) providing similar assistance to Native Americans with certain modifications relative to the unique status of Native American languages under Federal law;

(5) developing data collection and dissemination, research, materials development, and technical assistance which is focused on school improvement for limited English proficient students; and

(6) developing programs which strengthen and improve the professional training of educational personnel who work with limited English proficient students.

instructional personnel who are able to communicate in the students' native language.

(4) Consideration

In approving applications under this subpart, the Secretary shall give consideration to the degree to which the program for which assistance is sought involves the collaborative efforts of institutions of higher education, community-based organizations, the appropriate local and State educational agency, or businesses.

PART B—FOREIGN LANGUAGE ASSISTANCE PROGRAM

PRIOR PROVISIONS

Provisions similar to those in this part were contained in part B (§3001 et seq.) of subchapter II of chapter 47 of this title prior to the general amendment of Pub. L. 89-10 by Pub. L. 103-382, §101, and in subpart 1 (§5011 et seq.) of part A of subchapter I of chapter 62 of this title prior to repeal by Pub. L. 103-382, §391(i).

§ 7511. Short title

This part may be cited as the “Foreign Language Assistance Act of 1994”.

(Pub. L. 89-10, title VII, §7201, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3737.)

§ 7512. Findings

The Congress finds as follows:

(1) Foreign language proficiency is crucial to our Nation’s economic competitiveness and national security. Significant improvement in the quantity and quality of foreign language instruction offered in our Nation’s elementary and secondary schools is necessary.

(2) All Americans need a global perspective. To understand the world around us, we must acquaint ourselves with the languages, cultures, and history of other nations.

(3) Proficiency in two or more languages should be promoted for all American students. Multilingualism enhances cognitive and social growth, competitiveness in the global marketplace, national security, and understanding of diverse people and cultures.

(4) The United States lags behind other developed countries in offering foreign language study to elementary and secondary school students.

(5) Four out of five new jobs in the United States are created from foreign trade.

(6) The optimum time to begin learning a second language is in elementary school, when children have the ability to learn and excel in several foreign language acquisition skills, including pronunciation, and when children are most open to appreciating and valuing a culture other than their own.

(7) Foreign language study can increase children’s capacity for critical and creative thinking skills and children who study a second language show greater cognitive development in areas such as mental flexibility, creativity, tolerance, and higher order thinking skills.

(8) Children who have studied a foreign language in elementary school achieve expected gains and score higher on standardized tests of reading, language arts, and mathematics than children who have not studied a foreign language.

(Pub. L. 89-10, title VII, §7202, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3737.)

PART C—EMERGENCY IMMIGRANT EDUCATION PROGRAM

PART REFERRED TO IN OTHER SECTIONS

This part is referred to in sections 5891b, 8857 of this title.

§ 7541. Findings and purpose**(a) Findings**

The Congress finds that—

- (1) the education of our Nation's children and youth is one of the most sacred government responsibilities;
- (2) local educational agencies have struggled to fund adequately education services;
- (3) in the case of Plyler v. Doe, the Supreme Court held that States have a responsibility under the Equal Protection Clause of the Constitution to educate all children, regardless of immigration status; and
- (4) immigration policy is solely a responsibility of the Federal Government.

(b) Purpose

The purpose of this part is to assist eligible local educational agencies that experience unexpectedly large increases in their student population due to immigration to—

- (1) provide high-quality instruction to immigrant children and youth; and
- (2) help such children and youth—
 - (A) with their transition into American society; and
 - (B) meet the same challenging State performance standards expected of all children and youth.

(Pub. L. 89–10, title VII, §7301, as added Pub. L. 103–382, title I, §101, Oct. 20, 1994, 108 Stat. 3739.)

For any fiscal year, a State educational agency may reserve not more than 1.5 percent of the amount allocated to such agency under section 7544 of this title to pay the costs of performing such agency's administrative functions under this part.

(Pub. L. 89–10, title VII, §7302, as added Pub. L. 103–382, title I, §101, Oct. 20, 1994, 108 Stat. 3739.)

§ 7543. Withholding

Whenever the Secretary, after providing reasonable notice and opportunity for a hearing to any State educational agency, finds that there is a failure to meet the requirement of any provision of this part, the Secretary shall notify that agency that further payments will not be made to the agency under this part, or in the discretion of the Secretary, that the State educational agency shall not make further payments under this part to specified local educational agencies whose actions cause or are involved in such failure until the Secretary is satisfied that there is no longer any such failure to comply. Until the Secretary is so satisfied, no further payments shall be made to the State educational agency under this part, or payments by the State educational agency under this part shall be limited to local educational agencies whose actions did not cause or were not involved in the failure, as the case may be.

(Pub. L. 89-10, title VII, §7303, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3739.)

§ 7544. State allocations**(a) Payments**

(b) Allocations**(1) In general**

Except as provided in subsections (c) and (d) of this section, of the amount appropriated for each fiscal year for this part, each State participating in the program assisted under this part shall receive an allocation equal to the proportion of such State's number of immigrant children and youth who are enrolled in public elementary or secondary schools under the jurisdiction of each local educational agency described in paragraph (2) within such State, and in nonpublic elementary or secondary schools within the district served by each such local educational agency, relative to the total number of immigrant children and youth so enrolled in all the States participating in the program assisted under this part.

(2) Eligible local educational agencies

The local educational agencies referred to in paragraph (1) are those local educational agencies in which the sum of the number of immigrant children and youth who are enrolled in public elementary or secondary schools under the jurisdiction of such agencies, and in nonpublic elementary or secondary schools within the districts served by such agencies, during the fiscal year for which the payments are to be made under this part, is equal to—

(A) at least 500; or

whichever number is less.

(c) Determinations of number of children and youth**(1) In general**

Determinations by the Secretary under this section for any period with respect to the number of immigrant children and youth shall be made on the basis of data or estimates provided to the Secretary by each State educational agency in accordance with criteria established by the Secretary, unless the Secretary determines, after notice and opportunity for a hearing to the affected State educational agency, that such data or estimates are clearly erroneous.

(2) Special rule

No such determination with respect to the number of immigrant children and youth shall operate because of an underestimate or overestimate to deprive any State educational agency of the allocation under this section that such State would otherwise have received had such determination been made on the basis of accurate data.

(d) Reallocation

Whenever the Secretary determines that any amount of a payment made to a State under this part for a fiscal year will not be used by such State for carrying out the purpose for which the payment was made, the Secretary shall make such amount available for carrying out such purpose to one or more other States to the extent the Secretary determines that such other States will be able to use such additional amount for carrying out such purpose. Any amount made available to a State from any appropriation for a fiscal year in accordance with the preceding sentence shall, for purposes of this part, be regarded as part of such State's payment (as determined under subsection (b) of this section) for such year, but shall remain available until the end of the succeeding fiscal year.

(e) Reservation of funds**(1) In general**

Notwithstanding any other provision of this part, if the amount appropriated to carry out this part exceeds \$50,000,000 for a fiscal year, a State educational agency may reserve not more than 20 percent of such agency's payment under this part for such year to award grants, on a competitive basis, to local educational agencies within the State as follows:

(A) At least one-half of such grants shall be made available to eligible local educational agencies (as described in subsection (b)(2) of this section) within the State with the highest numbers and percentages of immigrant children and youth.

(B) Funds reserved under this paragraph and not made available under subparagraph (A) may be distributed to local educational agencies within the State experiencing a sudden influx of immigrant children and youth which are otherwise not eligible for assistance under this part.

(2) Use of grant funds

Each local educational agency receiving a grant under paragraph (1) shall use such grant

funds to carry out the activities described in section 7547 of this title.

(5) provide assurances that the State educational agency will not finally disapprove in whole or in part any application for funds received under this part without first affording the local educational agency submitting an application for such funds reasonable notice and opportunity for a hearing;

(6) provide for making such reports as the Secretary may reasonably require to perform the Secretary's functions under this part;

(7) provide assurances—

(A) that to the extent consistent with the number of immigrant children and youth enrolled in the nonpublic elementary or secondary schools within the district served by a local educational agency, such agency,

after consultation with appropriate officials of such schools, shall provide for the benefit of such children and youth secular, neutral, and nonideological services, materials, and equipment necessary for the education of such children and youth;

(B) that the control of funds provided under this part to any materials, equipment, and property repaired, remodeled, or constructed with those funds shall be in a public agency for the uses and purposes provided in this part, and a public agency shall administer such funds and property; and

(2) Approval

The Secretary shall approve any application submitted by a State educational agency that meets the requirements of this section.

§ 7701. Purpose

In order to fulfill the Federal responsibility to assist with the provision of educational services to federally connected children in a manner that promotes control by local educational agencies with little or no Federal or State involvement, because certain activities of the Federal Government, such as activities to fulfill the responsibilities of the Federal Government with respect to Indian tribes and activities under section 574 of title 50, Appendix, place a financial burden on the local educational agencies serving areas where such activities are carried out, and to help such children meet challenging State standards, it is the purpose of this subchapter to provide financial assistance to local educational agencies that—

- (1) experience a substantial and continuing financial burden due to the acquisition of real property by the United States;
- (2) educate children who reside on Federal property and whose parents are employed on Federal property;
- (3) educate children of parents who are in the military services and children who live in low-rent housing;
- (4) educate heavy concentrations of children whose parents are civilian employees of the Federal Government and do not reside on Federal property; or
- (5) need special assistance with capital expenditures for construction activities because of the enrollments of substantial numbers of children who reside on Federal lands and because of the difficulty of raising local revenue through bond referendums for capital projects due to the inability to tax Federal property.

(Pub. L. 89-10, title VIII, §8001, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3749;

§ 7702. Payments relating to Federal acquisition of real property

(a) In general

Where the Secretary, after consultation with any local educational agency and with the appropriate State educational agency, determines for a fiscal year ending prior to October 1, 2003—

- (1) that the United States owns Federal property in the local educational agency, and that such property—

(A) has been acquired by the United States since 1938;

(B) was not acquired by exchange for other Federal property in the local educational agency which the United States owned before 1939; and

(C) had an assessed value (determined as of the time or times when so acquired) aggregating 10 percent or more of the assessed value of—

(i) all real property in the local educational agency (similarly determined as of the time or times when such Federal property was so acquired); or

(ii) all real property in the local educational agency as assessed in the first year preceding or succeeding acquisition, whichever is greater, only if—

(I) the assessment of all real property in the local educational agency is not made at the same time or times that such Federal property was so acquired and assessed; and

(II) State law requires an assessment be made of property so acquired; and

(2) that such agency is not being substantially compensated for the loss in revenue resulting from such ownership by increases in revenue accruing to the agency from the conduct of Federal activities with respect to such Federal property,

then such agency shall be eligible to receive the amount described in subsection (b) of this section.

(b) Amount

(1) In general

(A)(i)(I) Subject to subclauses (II) and (III), the amount that a local educational agency shall be paid under subsection (a) of this section for a fiscal year shall be calculated in accordance with paragraph (2).

(II) Except as provided in subclause (III), the Secretary may not reduce the amount of a payment under this section to a local educational agency for a fiscal year by (aa) the amount equal to the amount of revenue, if any, the agency received during the previous fiscal year from activities conducted on Federal property eligible under this section and located in a school district served by the agency, including amounts received from any Federal department or agency (other than the Department of Education) from such activities, by reason of receipt of such revenue, or (bb) any other amount by reason of receipt of such revenue.

(III) If the amount equal to the sum of (aa) the proposed payment under this section to a local educational agency for a fiscal year and (bb) the amount of revenue described in subclause (II)(aa) received by the agency during the previous fiscal year, exceeds the maximum amount the agency is eligible to receive under this section for the fiscal year involved, then the Secretary shall reduce the amount of the proposed payment under this section by an amount equal to such excess amount.

(i) For purposes of clause (i), the amount of revenue that a local educational agency receives during the previous fiscal year from activities conducted on Federal property shall not include payments received by the agency from the Secretary of Defense to support—

(I) the operation of a domestic dependent elementary or secondary school; or

(II) the provision of a free public education to dependents of members of the Armed Forces residing on or near a military installation.

(B) If funds appropriated under section 7714(a) of this title are insufficient to pay the amount determined under subparagraph (A), the Secretary shall calculate the payment for each eligible local educational agency in accordance with subsection (h) of this section.

(C) Notwithstanding any other provision of this subsection, a local educational agency

may not be paid an amount under this section that, when added to the amount such agency receives under section 7703(b) of this title, exceeds the maximum amount that such agency is eligible to receive for such fiscal year under section 7703(b)(1)(C) of this title, or the maximum amount that such agency is eligible to receive for such fiscal year under this section, whichever is greater.

(2) Application of current levied real property tax rate

In calculating the amount that a local educational agency is eligible to receive for a fiscal year, the Secretary shall apply the current levied real property tax rate for current expenditures levied by fiscally independent local educational agencies, or imputed for fiscally dependent local educational agencies, to the current annually determined aggregate assessed value of such acquired Federal property.

(3) Determination of aggregate assessed value

Such aggregate assessed value of such acquired Federal property shall be determined on the basis of the highest and best use of property adjacent to such acquired Federal property as of the time such value is determined, and provided to the Secretary, by the local official responsible for assessing the value of real property located in the jurisdiction of such local educational agency for the purpose of levying a property tax.

(c) Applicability to Tennessee Valley Authority Act

For the purpose of this section, any real property with respect to which payments are being made under section 13 of the Tennessee Valley Authority Act of 1933 [16 U.S.C. 831] shall not be regarded as Federal property.

(d) Ownership by United States

The United States shall be deemed to own Federal property for the purposes of this chapter, where—

(1) prior to the transfer of Federal property, the United States owned Federal property meeting the requirements of subparagraphs (A), (B), and (C) of subsection (a)(1) of this section; and

(2) the United States transfers a portion of the property referred to in paragraph (1) to another nontaxable entity, and the United States—

(A) restricts some or any construction on such property;

(B) requires that the property be used in perpetuity for the public purposes for which the property was conveyed;

(C) requires the grantee of the property to report to the Federal Government (or its agent) regarding information on the use of the property;

(D) except with the approval of the Federal Government (or its agent), prohibits the sale, lease, assignment, or other disposal of the property unless such sale, lease, assignment, or other disposal is to another eligible government agency; and

(E) reserves to the Federal Government a right of reversion at any time the Federal

Government (or its agent) deems it necessary for the national defense.

(e) Local educational agency containing Forest Service land and serving certain counties

Beginning with fiscal year 1995, a local educational agency shall be deemed to meet the requirements of subsection (a)(1)(C) of this section if such local educational agency meets the following requirements:

(1) Acreage and acquisition by the Forest Service

The local educational agency serves a school district that contains between 20,000 and 60,000 acres of land that has been acquired by the Forest Service of the Department of Agriculture between 1915 and 1990, as demonstrated by written evidence from the Forest Service satisfactory to the Secretary.

(2) County charter

The local educational agency serves a county chartered under State law in 1875 or 1890.

(f) Special rule

(4) For the purposes of payments under this section for each fiscal year beginning with fiscal year 2000, the Secretary shall treat the Hot Springs, South Dakota local educational agency as if it had filed a timely application under this section for fiscal year 1994 if the Secretary has received the fiscal year 1994 application, as well as Exhibits A and B not later than December 1, 1999.

(5) For purposes of payments under this section for each fiscal year beginning with fiscal year 2000, the Secretary shall treat the Hue-neme, California local educational agency as if it had filed a timely application under this section if the Secretary has received the fiscal year 1995 application not later than December 1, 1999.

(g) Former districts

(1) In general

Where the school district of any local educational agency described in paragraph (2) is formed at any time after 1938 by the consolida-

tion of two or more former school districts, such agency may elect (at any time such agency files an application under section 7705 of this title) for any fiscal year after fiscal year 1994 to have (A) the eligibility of such local educational agency, and (B) the amount which such agency shall be eligible to receive, determined under this section only with respect to such of the former school districts comprising such consolidated school districts as such agency shall designate in such election.

(2) Eligible local educational agencies

A local educational agency referred to in paragraph (1) is any local educational agency that, for fiscal year 1994 or any preceding fiscal year, applied for and was determined eligible under section 2(c) of the Act of September 30, 1950 (Public Law 874, 81st Congress) as such section was in effect for such fiscal year.

(1) Foundation payments for pre-1995 recipients

(A) In general

The Secretary shall first make a foundation payment to each local educational agency that is eligible to receive a payment under this section for the fiscal year involved and was eligible to receive a payment under section 2 of the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such section was in effect on the day preceding October 20, 1994) for any of the fiscal years 1989 through 1994.

(C) Insufficient appropriations

(2) Payments for 1995 recipients

(A) In general

From any amounts remaining after making payments under paragraph (1) for the fis-

(B) Amount

The amount of a payment under subparagraph (A) for a local educational agency shall be determined as follows:

(i) Calculate the difference between the amount appropriated to carry out this section for fiscal year 1995 and the total amount of foundation payments made under paragraph (1) for the fiscal year.

(ii) Determine the percentage share for each local educational agency that received a payment under this section for fiscal year 1995 by dividing the assessed value of the Federal property of the local educational agency for fiscal year 1995 determined in accordance with subsection (b)(3) of this section, by the total eligible national assessed value of the eligible Federal property of all such local educational agencies for fiscal year 1995, as so determined.

(iii) Multiply the percentage share described in clause (ii) for the local educational agency by the amount determined under clause (i).

(3) Subsection (i) recipients

From any funds remaining after making payments under paragraphs (1) and (2) for the fiscal year involved, the Secretary shall make payments in accordance with subsection (i) of this section.

(4) Remaining funds

From any funds remaining after making payments under paragraphs (1), (2), and (3) for the fiscal year involved—

(A) the Secretary shall make a payment to each local educational agency that received a foundation payment under paragraph (1) for the fiscal year involved in an amount that bears the same relation to 25 percent of the remainder as the amount the local educational agency received under paragraph (1) for the fiscal year involved bears to the amount all local educational agencies received under paragraph (1) for the fiscal year involved; and

(B) the Secretary shall make a payment to each local educational agency that is eligible to receive a payment under this section for the fiscal year involved in an amount that bears the same relation to 75 percent of the remainder as a percentage share determined for the local educational agency (in the same manner as percentage shares are determined for local educational agencies under paragraph (2)(B)(ii)) bears to the percentage share determined (in the same manner) for all local educational agencies eligible to receive a payment under this section for the fiscal year involved, except that for the purpose of calculating a local educational agency's assessed value of the Federal property, data from the most current fiscal year shall be used.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7703, 7705, 7707, 7709, 7714 of this title.

§ 7703. Payments for eligible federally connected children

(a) Computation of payment

(1) In general

For the purpose of computing the amount that a local educational agency is eligible to receive under subsection (b) or (d) of this section for any fiscal year, the Secretary shall determine the number of children who were in average daily attendance in the schools of such agency, and for whom such agency provided free public education, during the preceding school year and who, while in attendance at such schools—

(A)(i) resided on Federal property with a parent employed on Federal property situated in whole or in part within the boundaries of the school district of such agency; or

(ii) resided on Federal property with a parent who is an official of, and accredited by, a foreign government and is a foreign military officer;

(B) resided on Federal property and had a parent on active duty in the uniformed services (as defined in section 101 of title 37);

(C) resided on Indian lands;

(D)(i) had a parent on active duty in the uniformed services (as defined by section 101 of title 37) but did not reside on Federal property; or

(ii) had a parent who is an official of, and has been accredited by, a foreign government and is a foreign military officer but did not reside on Federal property;

(E) resided in low-rent housing;

(F) resided on Federal property and is not described in subparagraph (A) or (B); or

(G) resided with a parent employed on Federal property situated—

(i) in whole or in part in the county in which such agency is located, or in whole or in part in such agency if such agency is located in more than one county; or

(ii) if not in such county, in whole or in part in the same State as such agency.

(2) Determination of weighted student units

For the purpose of computing the basic support payment under subsection (b) of this section, the Secretary shall calculate the total number of weighted student units for a local educational agency by adding together the results obtained by the following computations:

(A) Multiply the number of children described in subparagraphs (A) and (B) of paragraph (1) by a factor of 1.0.

(B) Multiply the number of children described in paragraph (1)(C) by a factor of 1.25.

(C) Multiply the number of children described in subparagraphs (A) and (B) of paragraph (1) by a factor of .35 if the local educational agency has—

(i) a number of such children described in such subparagraphs which exceeds 6,500; and

(ii) an average daily attendance for all children which exceeds 100,000.

(D) Multiply the number of children described in subparagraph (D) of paragraph (1) by a factor of .20.

(E) Multiply the number of children described in subparagraph (E) of paragraph (1) by a factor of .10.

(F) Multiply the number of children described in subparagraphs (F) and (G) of paragraph (1) by a factor of .05.

(3) Special rule

The Secretary shall only compute a payment for a local educational agency for children described in subparagraph (F) or (G) of paragraph (1) if the number of such children equals or exceeds 1,000 or such number equals or exceeds 10 percent of the total number of students in average daily attendance in the schools of such agency.

(4) Military installation and Indian housing undergoing renovation or rebuilding

(A) In general

(i) For purposes of computing the amount of a payment for a local educational agency for children described in paragraph (1)(D)(i), the Secretary shall consider such children to be children described in paragraph (1)(B) if the Secretary determines, on the basis of a certification provided to the Secretary by a designated representative of the Secretary of Defense, that such children would have resided in housing on Federal property in accordance with paragraph (1)(B) except that such housing was undergoing renovation or rebuilding on the date for which the Secretary determines the number of children under paragraph (1).

(ii) For purposes of computing the amount of a payment for a local educational agency that received a payment for children that resided on Indian lands in accordance with paragraph (1)(C) for the fiscal year prior to the fiscal year for which the local educational agency is making an application, the Secretary shall consider such children to be children described in paragraph (1)(C) if the Secretary determines, on the basis of a certification provided to the Secretary by a designated representative of the Secretary of the Interior or the Secretary of Housing and Urban Development, that such children would have resided in housing on Indian lands in accordance with paragraph (1)(C) except that such housing was undergoing renovation or rebuilding on the date for which the Secretary determines the number of children under paragraph (1).

(B) Limitations

(i)(I) Children described in paragraph (1)(D)(i) may be deemed to be children de-

scribed in paragraph (1)(B) with respect to housing on Federal property undergoing renovation or rebuilding in accordance with subparagraph (A)(i) for a period not to exceed 3 fiscal years.

(II) The number of children described in paragraph (1)(D)(i) who are deemed to be children described in paragraph (1)(B) with respect to housing on Federal property undergoing renovation or rebuilding in accordance with subparagraph (A)(i) for any fiscal year may not exceed the maximum number of children who are expected to occupy that housing upon completion of the renovation or rebuilding.

(ii)(I) Children that resided on Indian lands in accordance with paragraph (1)(C) for the fiscal year prior to the fiscal year for which the local educational agency is making an application may be deemed to be children described in paragraph (1)(C) with respect to housing on Indian lands undergoing renovation or rebuilding in accordance with subparagraph (A)(ii) for a period not to exceed 3 fiscal years.

(II) The number of children that resided on Indian lands in accordance with paragraph (1)(C) for the fiscal year prior to the fiscal year for which the local educational agency is making an application who are deemed to be children described in paragraph (1)(C) with respect to housing on Indian lands undergoing renovation or rebuilding in accordance with subparagraph (A)(ii) for any fiscal year may not exceed the maximum number of children who are expected to occupy that housing upon completion of the renovation or rebuilding.

(5) Military “Build to Lease” program housing

(A) In general

For purposes of computing the amount of payment for a local educational agency for children identified under paragraph (1), the Secretary shall consider children residing in housing initially acquired or constructed under the former section 2828(g) of title 10 (commonly known as the “Build to Lease” program), as added by section 801 of the Military Construction Authorization Act, 1984, to be children described under paragraph (1)(B) if the property described is within the fenced security perimeter of the military facility upon which such housing is situated.

(B) Additional requirements

If the property described in subparagraph (A) is not owned by the Federal Government, is subject to taxation by a State or political subdivision of a State, and thereby generates revenues for a local educational agency that is applying to receive a payment under this section, then the Secretary—

(i) shall require the local educational agency to provide certification from an appropriate official of the Department of Defense that the property is being used to provide military housing; and

(ii) shall reduce the amount of the payment under this section by an amount

equal to the amount of revenue from such taxation received in the second preceding fiscal year by such local educational agency, unless the amount of such revenue was taken into account by the State for such second preceding fiscal year and already resulted in a reduction in the amount of State aid paid to such local educational agency.

(b) Basic support payments; insufficient appropriations; State with only one local educational agency

(1) Basic support payments

(A) In general

From the amount appropriated under section 7714(b) of this title for a fiscal year, the Secretary is authorized to make basic support payments to eligible local educational agencies with children described in subsection (a) of this section.

(B) Eligibility

A local educational agency is eligible to receive a basic support payment under subparagraph (A) for a fiscal year with respect to a number of children determined under subsection (a)(1) of this section only if the number of children so determined with respect to such agency amounts to the lesser of—

- (i) at least 400 such children; or
- (ii) a number of such children which equals at least 3 percent of the total number of children who were in average daily attendance, during such year, at the schools of such agency and for whom such agency provided free public education.

(C) Maximum amount

The maximum amount that a local educational agency is eligible to receive under this paragraph for any fiscal year is the sum of the total weighted student units, as computed under subsection (a)(2) of this section, multiplied by the greater of—

- (i) one-half of the average per-pupil expenditure of the State in which the local educational agency is located for the third fiscal year preceding the fiscal year for which the determination is made;
- (ii) one-half of the average per-pupil expenditure of all of the States for the third fiscal year preceding the fiscal year for which the determination is made;
- (iii) the comparable local contribution rate certified by the State, as determined under regulations prescribed to carry out the Act of September 30, 1950 (Public Law 874, 81st Congress), as such regulations were in effect on January 1, 1994; or
- (iv) the average per-pupil expenditure of the State in which the local educational agency is located, multiplied by the local contribution percentage.

(D) Data

If satisfactory data from the third preceding fiscal year are not available for any of the expenditures described in clause (i) or (ii) of subparagraph (C), the Secretary shall use data from the most recent fiscal year for

which data that are satisfactory to the Secretary are available.

(E) Special rule

For purposes of determining the comparable local contribution rate under subparagraph (C)(iii) for a local educational agency described in section 222.39(c)(3) of title 34, Code of Federal Regulations, that had its comparable local contribution rate for fiscal year 1998 calculated pursuant to section 222.39 of title 34, Code of Federal Regulations, the Secretary shall determine such comparable local contribution rate as the rate upon which payments under this subsection for fiscal year 2000 were made to the local educational agency adjusted by the percentage increase or decrease in the per pupil expenditure in the State serving the local educational agency calculated on the basis of the second most recent preceding school year compared to the third most recent preceding school year for which school year data are available.

(F) Increase in local contribution rate due to unusual geographic factors

If the current expenditures in those local educational agencies which the Secretary has determined to be generally comparable to the local educational agency for which a computation is made under subparagraph (C) are not reasonably comparable because of unusual geographical factors which affect the current expenditures necessary to maintain, in such agency, a level of education equivalent to that maintained in such other agencies, then the Secretary shall increase the local contribution rate for such agency under subparagraph (C)(iii) by such an amount which the Secretary determines will compensate such agency for the increase in current expenditures necessitated by such unusual geographical factors. The amount of any such supplementary payment may not exceed the per-pupil share (computed with regard to all children in average daily attendance), as determined by the Secretary, of the increased current expenditures necessitated by such unusual geographic factors.

(2) Basic support payments for heavily impacted local educational agencies

(A) In general

(i) From the amount appropriated under section 7714(b) of this title for a fiscal year, the Secretary is authorized to make basic support payments to eligible heavily impacted local educational agencies with children described in subsection (a) of this section.

(ii) A local educational agency that receives a basic support payment under this paragraph for a fiscal year shall not be eligible to receive a basic support payment under paragraph (1) for that fiscal year.

(B) Eligibility for continuing heavily impacted local educational agencies

(i) In general

A heavily impacted local educational agency is eligible to receive a basic sup-

port payment under subparagraph (A) with respect to a number of children determined under subsection (a)(1) of this section if the agency—

(I) received an additional assistance payment under subsection (f) of this section (as such subsection was in effect on the day before October 30, 2000) for fiscal year 2000; and

(II)(aa) is a local educational agency whose boundaries are the same as a Federal military installation;

(bb) has an enrollment of children described in subsection (a)(1) of this section that constitutes a percentage of the total student enrollment of the agency which is not less than 35 percent, has a per-pupil expenditure that is less than the average per-pupil expenditure of the State in which the agency is located or the average per-pupil expenditure of all States (whichever average per-pupil expenditure is greater), except that a local educational agency with a total student enrollment of less than 350 students shall be deemed to have satisfied such per-pupil expenditure requirement, and has a tax rate for general fund purposes which is not less than 95 percent of the average tax rate for general fund purposes of local educational agencies in the State;

(cc) has an enrollment of children described in subsection (a)(1) of this section that constitutes a percentage of the total student enrollment of the agency which is not less than 30 percent, and has a tax rate for general fund purposes which is not less than 125 percent of the average tax rate for general fund purposes for comparable local educational agencies in the State;

(dd) has a total student enrollment of not less than 25,000 students, of which not less than 50 percent are children described in subsection (a)(1) of this section and not less than 6,000 of such children are children described in subparagraphs (A) and (B) of subsection (a)(1) of this section; or

(ee) meets the requirements of subsection (f)(2) of this section applying the data requirements of subsection (f)(4) of this section (as such subsections were in effect on the day before October 30, 2000).

(ii) Loss of eligibility

A heavily impacted local educational agency that met the requirements of clause (i) for a fiscal year shall be ineligible to receive a basic support payment under subparagraph (A) if the agency fails to meet the requirements of clause (i) for a subsequent fiscal year, except that such agency shall continue to receive a basic support payment under this paragraph for the fiscal year for which the ineligibility determination is made.

(iii) Resumption of eligibility

A heavily impacted local educational agency described in clause (i) that becomes ineligible under such clause for 1 or more

fiscal years may resume eligibility for a basic support payment under this paragraph for a subsequent fiscal year only if the agency meets the requirements of clause (i) for that subsequent fiscal year, except that such agency shall not receive a basic support payment under this paragraph until the fiscal year succeeding the fiscal year for which the eligibility determination is made.

(C) Eligibility for new heavily impacted local educational agencies

(i) In general

A heavily impacted local educational agency that did not receive an additional assistance payment under subsection (f) of this section (as such subsection was in effect on the day before October 30, 2000) for fiscal year 2000 is eligible to receive a basic support payment under subparagraph (A) for fiscal year 2002 and any subsequent fiscal year with respect to a number of children determined under subsection (a)(1) of this section only if the agency is a local educational agency whose boundaries are the same as a Federal military installation, or the agency—

(I) has an enrollment of children described in subsection (a)(1) of this section that constitutes a percentage of the total student enrollment of the agency that—

(aa) is not less than 50 percent if such agency receives a payment on behalf of children described in subparagraphs (F) and (G) of such subsection; or

(bb) is not less than 40 percent if such agency does not receive a payment on behalf of such children;

(II)(aa) for a local educational agency that has a total student enrollment of 350 or more students, has a per-pupil expenditure that is less than the average per-pupil expenditure of the State in which the agency is located; or

(bb) for a local educational agency that has a total student enrollment of less than 350 students, has a per-pupil expenditure that is less than the average per-pupil expenditure of a comparable local educational agency in the State in which the agency is located; and

(III) has a tax rate for general fund purposes that is at least 95 percent of the average tax rate for general fund purposes of comparable local educational agencies in the State.

(ii) Resumption of eligibility

A heavily impacted local educational agency described in clause (i) that becomes ineligible under such clause for 1 or more fiscal years may resume eligibility for a basic support payment under this paragraph for a subsequent fiscal year only if the agency is a local educational agency whose boundaries are the same as a Federal military installation, or meets the requirements of clause (i), for that subse-

quent fiscal year, except that such agency shall continue to receive a basic support payment under this paragraph for the fiscal year for which the ineligibility determination is made.

(iii) Application

With respect to the first fiscal year for which a heavily impacted local educational agency described in clause (i) applies for a basic support payment under subparagraph (A), or with respect to the first fiscal year for which a heavily impacted local educational agency applies for a basic support payment under subparagraph (A) after becoming ineligible under clause (i) for 1 or more preceding fiscal years, the agency shall apply for such payment at least 1 year prior to the start of that first fiscal year.

(D) Maximum amount for regular heavily impacted local educational agencies

(i) Except as provided in subparagraph (E), the maximum amount that a heavily impacted local educational agency is eligible to receive under this paragraph for any fiscal year is the sum of the total weighted student units, as computed under subsection (a)(2) of this section and subject to clause (ii), multiplied by the greater of—

(I) four-fifths of the average per-pupil expenditure of the State in which the local educational agency is located for the third fiscal year preceding the fiscal year for which the determination is made; or

(II) four-fifths of the average per-pupil expenditure of all of the States for the third fiscal year preceding the fiscal year for which the determination is made.

(ii)(I) For a local educational agency with respect to which 35 percent or more of the total student enrollment of the schools of the agency are children described in subparagraph (D) or (E) (or a combination thereof) of subsection (a)(1) of this section, the Secretary shall calculate the weighted student units of such children for purposes of subsection (a)(2) of this section by multiplying the number of such children by a factor of 0.55.

(II) For a local educational agency that has an enrollment of 100 or fewer children described in subsection (a)(1) of this section, the Secretary shall calculate the total number of weighted student units for purposes of subsection (a)(2) of this section by multiplying the number of such children by a factor of 1.75.

(III) For a local educational agency that has an enrollment of more than 100 but not more than 750 children described in subsection (a)(1) of this section, the Secretary shall calculate the total number of weighted student units for purposes of subsection (a)(2) of this section by multiplying the number of such children by a factor of 1.25.

(E) Maximum amount for large heavily impacted local educational agencies

(i)(I) Subject to clause (ii), the maximum amount that a heavily impacted local edu-

cational agency described in subclause (II) is eligible to receive under this paragraph for any fiscal year shall be determined in accordance with the formula described in paragraph (1)(C).

(II) A heavily impacted local educational agency described in this subclause is a local educational agency that has a total student enrollment of not less than 25,000 students, of which not less than 50 percent are children described in subsection (a)(1) of this section and not less than 6,000 of such children are children described in subparagraphs (A) and (B) of subsection (a)(1) of this section.

(ii) For purposes of calculating the maximum amount described in clause (i), the factor used in determining the weighted student units under subsection (a)(2) of this section with respect to children described in subparagraphs (A) and (B) of subsection (a)(1) of this section shall be 1.35.

(F) Data

For purposes of providing assistance under this paragraph the Secretary—

(i) shall use student, revenue, expenditure, and tax data from the third fiscal year preceding the fiscal year for which the local educational agency is applying for assistance under this paragraph; and

(ii) except as provided in subparagraph (C)(i)(I), shall include all of the children described in subparagraphs (F) and (G) of subsection (a)(1) of this section enrolled in schools of the local educational agency in determining (I) the eligibility of the agency for assistance under this paragraph, and (II) the amount of such assistance if the number of such children meet the requirements of subsection (a)(3) of this section.

(G) Determination of average tax rates for general fund purposes

For the purpose of determining average tax rates for general fund purposes for local educational agencies in a State under this paragraph (except under subparagraph (C)(i)(II)(bb)), the Secretary shall use either—

(i) the average tax rate for general fund purposes for comparable local educational agencies, as determined by the Secretary in regulations; or

(ii) the average tax rate of all the local educational agencies in the State.

(3) Payments with respect to fiscal years in which insufficient funds are appropriated

(A) In general

(B) Learning opportunity threshold payments in lieu of payments under paragraph (1)

(i) For fiscal years described in subparagraph (A), the Secretary shall compute a

learning opportunity threshold payment (hereafter in this subchapter referred to as the “threshold payment”) in lieu of basic support payments under paragraph (1) by multiplying the amount obtained under paragraph (1)(C) by the total percentage obtained by adding—

(I) the percentage of federally connected children for each local educational agency determined by calculating the fraction, the numerator of which is the total number of children described under subsection (a)(1) of this section and the denominator of which is the total number of children in average daily attendance at the schools served by such agency; and

(II) the percentage that funds under paragraph (1)(C) represent of the total budget of the local educational agency, determined by calculating the fraction, the numerator of which is the total amount of funds calculated for each local educational agency under this paragraph, and the denominator of which is the total current expenditures for such agency in the second preceding fiscal year for which the determination is made.

(ii) Such total percentage used to calculate threshold payments under paragraph (1) shall not exceed 100.

(iii) For the purpose of determining the percentages described in subclauses (I) and (II) of clause (i) that are applicable to the local educational agency providing free public education to students in grades 9 through 12 residing on Hanscom Air Force Base, Massachusetts, the Secretary shall consider only that portion of such agency’s total enrollment of students in grades 9 through 12 when calculating the percentage under such subclause (I) and only that portion of the total current expenditures attributed to the operation of grades 9 through 12 in such agency when calculating the percentage under subclause (II).

(iv) In the case of a local educational agency that has a total student enrollment of fewer than 1,000 students and that has a per-pupil expenditure that is less than the average per-pupil expenditure of the State in which the agency is located, the total percentage used to calculate threshold payments under clause (i) shall not be less than 40 percent.

(C) Learning opportunity threshold payments in lieu of payments under paragraph (2)

For fiscal years described in subparagraph (A), the learning opportunity threshold payment in lieu of basic support payments under paragraph (2) shall be equal to the amount obtained under subparagraph (D) or (E) of paragraph (2), as the case may be.

For fiscal years described in subparagraph (A), the Secretary shall make payments as a ratable distribution based upon the computations made under subparagraphs (B) and (C).

(4) States with only one local educational agency

(A) In general

In any of the 50 States of the United States in which there is only one local educational agency, the Secretary shall, for purposes of subparagraphs (B) and (C) of paragraph (1) or subparagraphs (B) through (D) of paragraph (2), as the case may be, paragraph (3) of this subsection, and subsection (e) of this section, consider each administrative school district in the State to be a separate local educational agency.

(i) the Secretary shall first determine the maximum payment amount and the total current expenditures for the State as a whole; and

(ii) the Secretary shall then—

(I) proportionately allocate such maximum payment amount among the administrative school districts on the basis of the respective weighted student units of such districts; and

(II) proportionately allocate such total current expenditures among the administrative school districts on the basis of the respective number of students in average daily attendance at such districts.

(5) Local educational agencies affected by removal of Federal property

(A) In general

(B) Local educational agency described

(C) Additional requirements

The additional requirements described in this subparagraph are the following:

(i) For each fiscal year beginning after the date on which the Federal property is transferred, a child described in subpara-

graph (B) who continues to reside on such property and who continues to receive a free public education at a school of the agency shall be deemed to be a child who resides on Federal property for purposes of computing under the applicable subparagraph of subsection (a)(1) of this section the amount that the agency is eligible to receive under this subsection.

(ii)(I) For the third fiscal year beginning after the date on which the Federal property is transferred, and for each fiscal year thereafter, the Secretary shall, after computing the amount that the agency is otherwise eligible to receive under this subsection for the fiscal year involved, deduct from such amount an amount equal to the revenue received by the agency for the immediately preceding fiscal year as a result of the taxable status of the former Federal property.

(II) For purposes of determining the amount of revenue to be deducted in accordance with subclause (I), the local educational agency—

(aa) shall provide for a review and certification of such amount by an appropriate local tax authority; and

(bb) shall submit to the Secretary a report containing the amount certified under item (aa).

(c) Prior year data

(1) In general

Except as provided in subsections (b)(1)(D), (b)(2), and paragraph (2), all calculations under this section shall be based on data for each local educational agency from not later than the fiscal year preceding the fiscal year for which the agency is making application for payment.

(2) Exception

Calculations for a local educational agency that is newly established by a State shall, for the first year of operation of such agency, be based on data from the fiscal year for which the agency is making application for payment.

(d) Children with disabilities

(1) In general

From the amount appropriated under section 7714(c) of this title for a fiscal year, the Secretary shall pay to each eligible local educational agency, on a pro rata basis, the amounts determined by—

(A) multiplying the number of children described in subparagraphs (A)(ii), (B) and (C) of subsection (a)(1) of this section who are eligible to receive services under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.) by a factor of 1.0; and

(B) multiplying the number of children described in subparagraph (D) of subsection (a)(1) of this section who are eligible to receive services under such Act by a factor of 0.5.

(2) Use of funds

A local educational agency that receives funds under paragraph (1) shall use such funds to provide a free appropriate public education

(3) Ratable reductions

(A) In general

If the sums made available under this subchapter for any fiscal year are insufficient to pay the full amounts that all local educational agencies in all States are eligible to receive under paragraph (1) for such year, then the Secretary shall ratably reduce the payments to all such agencies for such year.

(B) Additional funds

If additional funds become available for making payments under paragraph (1) for such fiscal year, payments that were reduced under subparagraph (A) shall be increased on the same basis as such payments were reduced.

(f) Other funds

Notwithstanding any other provision of law, a local educational agency receiving funds under this section may also receive funds under section 386 of the National Defense Authorization Act for Fiscal Year 1993 or such section's successor authority.

(g) Maintenance of effort

A local educational agency may receive funds under subsection (b) of this section and section 7702 of this title for any fiscal year only if the State educational agency finds that either the combined fiscal effort per student or the aggregate expenditures of that agency and the State with respect to the provision of free public education by that agency for the preceding fiscal year was not less than 90 percent of such combined fiscal effort or aggregate expenditures for the second preceding fiscal year.

A local educational agency that claims children residing on Indian lands for the purpose of receiving funds under section 7703 of this title shall not be required to comply with the requirements of subsections (a) and (b) of this section for any fiscal year with respect to any Indian tribe from which such agency has received a written statement that the agency need not comply with those subsections because the tribe is satisfied with the provision of educational services by such agency to such children.

The Secretary shall—

- (1) provide technical assistance to local educational agencies, parents, and Indian tribes to enable such agencies, parents, and tribes to carry out this section; and

(e) Complaints

(1) In general

(A) Any tribe, or its designee, which has students in attendance at a local educational agency may, in its discretion and without re-

gard to the requirements of any other provision of law, file a written complaint with the Secretary regarding any action of a local educational agency taken pursuant to, or relevant to, the requirements of this section.

(B) Within ten working days from receipt of a complaint, the Secretary shall—

- (i) designate a time and place for a hearing into the matters relating to the complaint at a location in close proximity to the local educational agency involved, or if the Secretary determines there is good cause, at some other location convenient to both the tribe, or its designee, and the local educational agency;

(9) Rejection of determination

If the local educational agency rejects the determination of the Secretary and a tribe exercises the option under section 1101(d) of the Education Amendments of 1978, to have education services provided either directly by the Bureau of Indian Affairs or by contract with the Bureau of Indian Affairs, any Indian students affiliated with that tribe who wish to remain in attendance at the local educational agency against whom the complaint which led to the tribal action under such subsection (d) of this section was lodged may be counted with respect to that local educational agency for the purpose of receiving funds under section 7703 of this title. In such event, funds under such section shall not be withheld pursuant to paragraph (8) and no further complaints with respect to such students may be filed under paragraph (1).

(f) Construction

(B)(i) such agency received assistance under section 7702(a) of this title for the fiscal year and has an assessed value of taxable property per student in the school district that is less than the average of the assessed value of taxable property per student in the State in which the local educational agency is located; or

(B) The extent to which property in the local educational agency is nontaxable due to the presence of the Federal Government.

(C) The extent to which the local educational agency serves high numbers or percentages of children described in subparagraphs (A), (B), (C), and (D) of section 7703(a)(1) of this title.

(D) The need for modernization to meet—

(i) the threat that the condition of the school facility poses to the health, safety, and well-being of students;

(ii) overcrowding conditions as evidenced by the use of trailers and portable buildings and the potential for future overcrowding because of increased enrollment; and

(G) such other information and assurances as the Secretary may reasonably require.

(6) Emergency grants

(A) Applications

Each local educational agency described in paragraph (2)(B)(ii) that desires a grant under this subsection shall include in the application submitted under paragraph (5) a signed statement from an appropriate local official certifying that a health or safety deficiency exists.

(B) Priority

If the Secretary receives more than one application from local educational agencies described in paragraph (2)(B)(ii) for grants under this subsection for any fiscal year, the Secretary shall give priority to local educational agencies based on the severity of the emergency, as determined by the Secretary, and when the application was received.

(7) Supplement not supplant

An eligible local educational agency shall use funds received under this subsection only to supplement the amount of funds that would, in the absence of such Federal funds, be made available from non-Federal sources for the modernization of school facilities used for educational purposes, and not to supplant such funds.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7707, 7714 of this title; title 10 section 2008.

§ 7709. State consideration of payments in providing State aid**(a) General prohibition**

Except as provided in subsection (b) of this section, a State may not—

¹ See References in Text note below.

(1) consider payments under this subchapter in determining for any fiscal year—

(A) the eligibility of a local educational agency for State aid for free public education; or

(B) the amount of such aid; or

(2) make such aid available to local educational agencies in a manner that results in less State aid to any local educational agency that is eligible for such payment than such agency would receive if such agency were not so eligible.

(b) State equalization plans

(1) In general

A State may reduce State aid to a local educational agency that receives a payment under section 7702 or 7703(b) of this title (except the amount calculated in excess of 1.0 under section 7703(a)(2)(B) of this title) for any fiscal year if the Secretary determines, and certifies under subsection (c)(3)(A) of this section, that the State has in effect a program of State aid that equalizes expenditures for free public education among local educational agencies in the State.

(2) Computation

(A) In general

For purposes of paragraph (1), a program of State aid equalizes expenditures among local educational agencies if, in the second fiscal year preceding the fiscal year for which the determination is made, the amount of per-pupil expenditures made by, or per-pupil revenues available to, the local educational agency in the State with the highest such per-pupil expenditures or revenues did not exceed the amount of such per-pupil expenditures made by, or per-pupil revenues available to, the local educational agency in the State with the lowest such expenditures or revenues by more than 25 percent.

(B) Other factors

In making a determination under this subsection, the Secretary shall—

(i) disregard local educational agencies with per-pupil expenditures or revenues above the 95th percentile or below the 5th percentile of such expenditures or revenues in the State; and

(ii) take into account the extent to which a program of State aid reflects the additional cost of providing free public education in particular types of local educational agencies, such as those that are geographically isolated, or to particular types of students, such as children with disabilities.

(3) Exception

Notwithstanding paragraph (2), if the Secretary determines that the State has substantially revised its program of State aid, the Secretary may certify such program for any fiscal year only if—

(A) the Secretary determines, on the basis of projected data, that the State's program will meet the disparity standard described in paragraph (2) for the fiscal year for which the determination is made; and

(B) the State provides an assurance to the Secretary that, if final data do not demonstrate that the State's program met such standard for the fiscal year for which the determination is made, the State will pay to each affected local educational agency the amount by which the State reduced State aid to the local educational agency.

(c) Procedures for review of State equalization plans

(1) Written notice

(A) In general

Any State that wishes to consider payments described in subsection (b)(1) of this section in providing State aid to local educational agencies shall submit to the Secretary, not later than 120 days before the beginning of the State's fiscal year, a written notice of such State's intention to do so.

(B) Contents

Such notice shall be in the form and contain the information the Secretary requires, including evidence that the State has notified each local educational agency in the State of such State's intention to consider such payments in providing State aid.

(2) Opportunity to present views

Before making a determination under subsection (b) of this section, the Secretary shall afford the State, and local educational agencies in the State, an opportunity to present their views.

(3) Qualification procedures

If the Secretary determines that a program of State aid qualifies under subsection (b) of this section, the Secretary shall—

(A) certify the program and so notify the State; and

(B) afford an opportunity for a hearing, in accordance with section 7711(a) of this title, to any local educational agency adversely affected by such certification.

(4) Nonqualification procedures

If the Secretary determines that a program of State aid does not qualify under subsection (b) of this section, the Secretary shall—

(A) so notify the State; and

(B) afford an opportunity for a hearing, in accordance with section 7711(a) of this title, to the State, and to any local educational agency adversely affected by such determination.

(d) Treatment of State aid

(1) In general

If a State has in effect a program of State aid for free public education for any fiscal year, which is designed to equalize expenditures for free public education among the local educational agencies of that State, payments under this subchapter for any fiscal year may be taken into consideration by such State in determining the relative—

(A) financial resources available to local educational agencies in that State; and

(B) financial need of such agencies for the provision of free public education for chil-

dren served by such agency, except that a State may consider as local resources funds received under this subchapter only in proportion to the share that local tax revenues covered under a State equalization program are of total local tax revenues.

(2) Prohibition

A State may not take into consideration payments under this subchapter before such State's program of State aid has been certified by the Secretary under subsection (c)(3) of this section.

(e) Remedies for State violations

(1) In general

The Secretary or any aggrieved local educational agency may, not earlier than 150 days after an adverse determination by the Secretary against a State for violation of subsections (a) or (d)(2) of this section or for failure to carry out an assurance under subsection (b)(3)(B) of this section, and if an administrative proceeding has not been concluded within such time, bring an action in a United States district court against such State for such violations or failure.

(2) Immunity

A State shall not be immune under the 11th amendment to the Constitution of the United States from an action described in paragraph (1).

(3) Relief

The court shall grant such relief as the court determines is appropriate.

PART REFERRED TO IN OTHER SECTIONS

§ 7801. Findings

The Congress finds that—

(1) the Federal Government has a special responsibility to ensure that educational programs for all American Indian and Alaska Native children and adults—

(A) are based on high-quality, internationally competitive content standards and student performance standards and build on Indian culture and the Indian community;

(B) assist local educational agencies, Indian tribes, and other entities and individuals in providing Indian students the opportunity to achieve such standards; and

(C) meet the special educational and culturally related academic needs of American Indian and Alaska Native students;

(2) since the date of enactment of the initial Indian Education Act in 1972, the level of involvement of Indian parents in the planning, development, and implementation of educational programs that affect such parents and their children has increased significantly, and schools should continue to foster such involvement;

(3) although the number of Indian teachers, administrators, and university professors has increased since 1972, teacher training programs are not recruiting, training, or retraining a sufficient number of Indian individuals as educators to meet the needs of a growing Indian student population in elementary, secondary, vocational, adult, and higher education;

(4) the dropout rate for Indian students is unacceptably high, for example, 9 percent of Indian students who were eighth graders in 1988 had already dropped out of school by 1990;

(5) during the period from 1980 to 1990, the percentage of Indian individuals living at or below the poverty level increased from 24 percent to 31 percent, and the readiness of Indian children to learn is hampered by the high incidence of poverty, unemployment, and health problems among Indian children and their families; and

(6) research related specifically to the education of Indian children and adults is very limited, and much of the research is of poor quality or is focused on limited local or regional issues.

EX. ORD. NO. 13096. AMERICAN INDIAN AND ALASKA NATIVE EDUCATION

Ex. Ord. No. 13096, Aug. 6, 1998, 63 F.R. 42681, provided: By the authority vested in me as President by the Constitution and the laws of the United States of America, in affirmation of the unique political and legal relationship of the Federal Government with tribal governments, and in recognition of the unique educational and culturally related academic needs of American Indian and Alaska Native students, it is hereby ordered as follows:

SECTION 1. *Goals.* The Federal Government has a special, historic responsibility for the education of American Indian and Alaska Native students. Improving educational achievement and academic progress for American Indian and Alaska Native students is vital to the national goal of preparing every student for responsible citizenship, continued learning, and productive employment. The Federal Government is committed to improving the academic performance and reducing the dropout rate of American Indian and Alaska Native students. To help fulfill this commitment in a manner consistent with tribal traditions and cultures, Federal

agencies need to focus special attention on six goals: (1) improving reading and mathematics; (2) increasing high school completion and postsecondary attendance rates; (3) reducing the influence of long-standing factors that impede educational performance, such as poverty and substance abuse; (4) creating strong, safe, and drug-free school environments; (5) improving science education; and (6) expanding the use of educational technology.

SEC. 2. *Strategy.* In order to meet the six goals of this order, a comprehensive Federal response is needed to address the fragmentation of government services available to American Indian and Alaska Native students and the complexity of intergovernmental relationships affecting the education of those students. The purpose of the Federal activities described in this order is to develop a long-term, comprehensive Federal Indian education policy that will accomplish those goals.

(a) *Interagency Task Force.* There is established an Interagency Task Force on American Indian and Alaska Native Education (Task Force) to oversee the planning and implementation of this order. The Task Force shall confer with the National Advisory Council on Indian Education (NACIE) in carrying out activities under this order. The Task Force shall consult with representatives of American Indian and Alaska Native tribes and organizations, including the National Indian Education Association (NIEA) and the National Congress of American Indians (NCAI), to gather advice on implementation of the activities called for in this order.

(b) *Composition of the Task Force.* (1) The membership of the Task Force shall include representatives of the Departments of the Treasury, Defense, Justice, the Interior, Agriculture, Commerce, Labor, Health and Human Services, Housing and Urban Development, Transportation, Energy, and Education, as well as the Environmental Protection Agency, the Corporation for National and Community Service, and the National Science Foundation. With the agreement of the Secretaries of Education and the Interior, other agencies may participate in the activities of the Task Force.

(2) Within 30 days of the date of this order, the head of each participating agency shall designate a senior official who is responsible for management or program administration to serve as a member of the Task Force. The official shall report directly to the agency head on the agency's activities under this order.

(3) The Assistant Secretary for Elementary and Secondary Education of the Department of Education and the Assistant Secretary for Indian Affairs of the Department of the Interior shall co-chair the Task Force.

(c) *Interagency plan.* The Task Force shall, within 90 days of the date of this order, develop a Federal interagency plan with recommendations identifying initiatives, strategies, and ideas for future interagency action supportive of the goals of this order.

(d) *Agency participation.* To the extent consistent with law and agency priorities, each participating agency shall adopt and implement strategies to maximize the availability of the agency's education-related programs, activities, resources, information, and technical assistance to American Indian and Alaska Native students. In keeping with the spirit of the Executive Memorandum of April 29, 1994 [25 U.S.C. 450 note], on Government-to-Government Relations with Native American Tribal Governments and Executive Order 13084 of May 14, 1998 [former 25 U.S.C. 450 note], each participating agency shall consult with tribal governments on their education-related needs and priorities, and on how the agency can better accomplish the goals of this order. Within 6 months, each participating agency shall report to the Task Force regarding the strategies it has developed to ensure such consultation.

(e) *Interagency resource guide.* The Task Force shall identify, within participating Federal agencies, all education-related programs and resources that support the goals of this order. Within 12 months, the Task Force, in conjunction with the Department of Education, shall develop, publish, and widely distribute a guide that de-

scribes those programs and resources and how American Indians and Alaska Natives can benefit from them.

(f) *Research.* The Secretary of Education, through the Office of Educational Research and Improvement and the Office of Indian Education, and in consultation with NACIE and participating agencies, shall develop and implement a comprehensive Federal research agenda to:

(1) establish baseline data on academic achievement and retention of American Indian and Alaska Native students in order to monitor improvements;

(2) evaluate promising practices used with those students; and

(3) evaluate the role of native language and culture in the development of educational strategies. Within 1 year, the Secretary of Education shall submit the research agenda, including proposed timelines, to the Task Force.

(g) *Comprehensive Federal Indian education policy.*

(1) The Task Force shall, within 2 years of the date of this order, develop a comprehensive Federal Indian education policy to support the accomplishment of the goals of this order. The policy shall be designed to:

(A) improve Federal interagency cooperation;

(B) promote intergovernmental collaboration; and

(C) assist tribal governments in meeting the unique educational needs of their children, including the need to preserve, revitalize, and use native languages and cultural traditions.

(2) In developing the policy, the Task Force shall consider ideas in the Comprehensive Federal Indian Education Policy Statement proposal developed by the NIEA and the NCAI.

(3) The Task Force shall develop recommendations to implement the policy, including ideas for future interagency action.

(4) As appropriate, participating agencies may develop memoranda of agreement with one another to enable and enhance the ability of tribes and schools to provide, and to coordinate the delivery of, Federal, tribal, State, and local resources and services, including social and health-related services, to meet the educational needs of American Indian and Alaska Native students.

(h) *Reports.* The Task Force co-chairs shall submit the comprehensive Federal Indian education policy, and report annually on the agencies' activities, accomplishments, and progress toward meeting the goals of this order, to the Director of the Office of Management and Budget.

SEC. 3. *Regional partnership forums.* The Departments of Education and the Interior, in collaboration with the Task Force and Federal, tribal, State, and local government representatives, shall jointly convene, within 18 months, a series of regional forums to identify promising practices and approaches on how to share information, provide assistance to schools, develop partnerships, and coordinate intergovernmental strategies supportive of accomplishing the goals of this order. The Departments of Education and the Interior shall submit a report on the forums to the Task Force, which may include recommendations relating to intergovernmental relations.

SEC. 4. *School pilot sites.* The Departments of Education and the Interior shall identify a reasonable number of schools funded by the Bureau of Indian Affairs (BIA) and public schools that can serve as a model for schools with American Indian and Alaska Native students, and provide them with comprehensive technical assistance in support of the goals of this order. A special team of technical assistance providers, including Federal staff, shall provide assistance to these schools. Special attention shall be given, where appropriate, to assistance in implementing comprehensive school reform demonstration programs that meet the criteria for those programs established by the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 1998 (Public Law 105-78) [see Tables for classification], and to providing comprehensive service delivery that connects and uses

diverse Federal agency resources. The team shall disseminate effective and promising practices of the school pilot sites to other local educational agencies. The team shall report to the Task Force on its accomplishments and its recommendations for improving technical support to local educational agencies and schools funded by the BIA.

SEC. 5. *Administration.* The Department of Education shall provide appropriate administrative services and staff support to the Task Force. With the consent of the Department of Education, other participating agencies may provide administrative support to the Task Force, consistent with their statutory authority, and may detail agency employees to the Department of Education, to the extent permitted by law.

SEC. 6. *Termination.* The Task Force established under section 2 of this order shall terminate not later than 5 years from the date of this order.

SEC. 7. *General provisions.* This order is intended only to improve the internal management of the executive branch and is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies or instrumentalities, its officers or employees, or any other person. This order is not intended to preclude, supersede, replace, or otherwise dilute any other Executive order relating to American Indian and Alaska Native education.

- (1) Native Hawaiians are a distinct and unique indigenous people with a historical

continuity to the original inhabitants of the Hawaiian archipelago, whose society was organized as a nation and internationally recognized as such by the United States, Britain, France, and Japan, as evidenced by treaties governing friendship, commerce, and navigation.

(2) At the time of the arrival of the first non-indigenous people in Hawai'i in 1778, the Native Hawaiian people lived in a highly organized, self-sufficient subsistence social system based on a communal land tenure system with a sophisticated language, culture, and religion.

(3) A unified monarchical government of the Hawaiian Islands was established in 1810 under Kamehameha I, the first King of Hawai'i.

(4) From 1826 until 1893, the United States recognized the sovereignty and independence of the Kingdom of Hawai'i, which was established in 1810 under Kamehameha I, extended full and complete diplomatic recognition to the Kingdom of Hawai'i, and entered into treaties and conventions with the Kingdom of Hawai'i to govern friendship, commerce and navigation in 1826, 1842, 1849, 1875, and 1887.

(5) In 1893, the sovereign, independent, internationally recognized, and indigenous government of Hawai'i, the Kingdom of Hawai'i, was overthrown by a small group of non-Hawaiians, including United States citizens, who were assisted in their efforts by the United States Minister, a United States naval representative, and armed naval forces of the United States. Because of the participation of United States agents and citizens in the overthrow of the Kingdom of Hawai'i, the Congress, on behalf of the people of the United States, apologized to Native Hawaiians for the overthrow and the deprivation of the rights of Native Hawaiians to self-determination through Public Law 103-150 (107 Stat. 1510).

(6) In 1898, the joint resolution entitled "A Joint Resolution to provide for annexing the Hawaiian Islands to the United States", approved July 7, 1898 (30 Stat. 750), ceded absolute title of all lands held by the Republic of Hawai'i, including the government and crown lands of the former Kingdom of Hawai'i, to the United States, but mandated that revenue generated from these lands be used "solely for the benefit of the inhabitants of the Hawaiian Islands for educational and other public purposes".

(7) By 1919, the Native Hawaiian population had declined from an estimated 1,000,000 in 1778 to an alarming 22,600, and in recognition of this severe decline, the Congress in 1921 enacted the Hawaiian Homes Commission Act, 1920, which designated approximately 200,000 acres of ceded public lands for homesteading by Native Hawaiians.

(8) Through the enactment of the Hawaiian Homes Commission Act, 1920, the Congress affirmed the special relationship between the United States and the Native Hawaiians, as expressed by then Secretary of the Interior Franklin K. Lane, who was quoted in the committee report for the Hawaiian Homes Commission Act, 1920, as saying: "One thing that impressed me . . . was the fact that the na-

tives of the island who are our wards, I should say, and for whom in a sense we are trustees, are falling off rapidly in numbers and many of them are in poverty."

(9) In 1938, the United States Congress again acknowledged the unique status of the Hawaiian people by including in the Act of June 20, 1938 (52 Stat. 781 et seq.), a provision to lease lands within the National Parks extension to Native Hawaiians and to permit fishing in the area "only by native Hawaiian residents of said area or of adjacent villages and by visitors under their guidance."

(10) Under the Act entitled "An Act to provide for the admission of the State of Hawai'i into the Union" approved March 18, 1959 (73 Stat. 4), the United States transferred responsibility for the administration of the Hawaiian Home Lands to the State of Hawai'i but reaffirmed the trust relationship which existed between the United States and the Hawaiian people by retaining the exclusive power to enforce the trust, including the power to approve land exchanges and legislative amendments affecting the rights of beneficiaries under such Act.

(11) In 1959, under the Act entitled "An Act to provide for the admission of the State of Hawai'i into the Union", approved March 18, 1959 (73 Stat. 4), the United States ceded to the State of Hawai'i title to the public lands formerly held by the United States, but mandated that such lands be held by the State "in public trust" and reaffirmed the special relationship which existed between the United States and the Hawaiian people by retaining the legal responsibility to enforce the public trust responsibility of the State of Hawai'i for the betterment of the conditions of Native Hawaiians, as defined in section 201(a) of the Hawaiian Homes Commission Act, 1920.

(12) The United States assumed special responsibilities for Native Hawaiian lands and resources at the time of the annexation of the Territory in 1898, upon adoption of the Hawaiian Homes Commission Act, 1920, and upon admission of the State of Hawai'i into the Union in 1959, and has retained certain of those responsibilities.

(13) In recognition of the special relationship which exists between the United States and the Native Hawaiian people, the Congress has extended to Native Hawaiians the same rights and privileges accorded to American Indian, Alaska Native, Eskimo, and Aleut communities under the Native American Programs Act of 1974 [42 U.S.C. 2991 et seq.], the American Indian Religious Freedom Act [42 U.S.C. 1996, 1996a], the National Museum of the American Indian Act [20 U.S.C. 80q et seq.], the Native American Graves Protection and Repatriation Act [25 U.S.C. 3001 et seq.], the National Historic Preservation Act [16 U.S.C. 470 et seq.], and the Native American Languages Act [25 U.S.C. 2901 et seq.].

(14) In recognition of the special relationship which exists between the United States and the Native Hawaiian people, the Congress has enacted numerous special provisions of law for the benefit of Native Hawaiians in the areas of health, education, labor, and housing.

(15) In 1981, the Senate instructed the Office of Education to submit to the Congress a comprehensive report on Native Hawaiian education. The report, entitled the "Native Hawaiian Educational Assessment Project", was released in 1983 and documented that Native Hawaiians scored below parity with national norms on standardized achievement tests, were disproportionately represented in many negative social and physical statistics, indicative of special educational needs, and had educational needs which were related to their unique cultural situation, such as different learning styles and low self-image.

(16) In recognition of the educational needs of Native Hawaiians, in 1988, the Congress enacted title IV of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988 to authorize and develop supplemental educational programs to benefit Native Hawaiians.

(17) In 1993, the Kamehameha Schools Bishop Estate released a ten-year update of the Native Hawaiian Educational Assessment Project, which found that despite the successes of the programs established under title IV of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988, many of the same educational needs still exist for Native Hawaiians. For example—

(A) educational risk factors continue to start even before birth for many Native Hawaiian children, including—

- (i) late or no prenatal care;
- (ii) half of Native Hawaiian women who give birth are unmarried; and
- (iii) high rates of births to teenage parents;

(B) Native Hawaiian students continue to begin their school experience lagging behind other students in terms of readiness factors such as vocabulary test scores;

(C) Native Hawaiian students continue to score below national norms on standardized education achievement tests at all grade levels;

(D) both public and private schools continue to show a pattern of lower percentages of Native Hawaiian students in the uppermost achievement levels and in gifted and talented programs;

(E) Native Hawaiian students continue to be overrepresented among students qualifying for special education programs provided to students with learning disabilities, mild mental retardation, emotional impairment, and other such disabilities;

(F) Native Hawaiians continue to be underrepresented in institutions of higher education and among adults who have completed four or more years of college;

(G) Native Hawaiians continue to be disproportionately represented in many negative social and physical statistics, indicative of special educational needs, for example—

- (i) Native Hawaiian students are more likely to be retained in grade level and to be excessively absent in secondary school;

- (ii) Native Hawaiian students are the highest users of drugs and alcohol in the State of Hawai'i; and

- (iii) Native Hawaiian children continue to be disproportionately victimized by child abuse and neglect; and

(H) Native Hawaiians now comprise over 23 percent of the students served by the State of Hawai'i Department of Education and there are and will continue to be geographically rural, isolated areas with a high Native Hawaiian population density.

(18) The findings described in paragraphs (1) through (17) are contrary to the high rate of literacy and integration of traditional culture and Western education achieved by Native Hawaiians through a Hawaiian language-based public school system established in 1840 by Kamehameha III.

(19) After the overthrow of the Kingdom of Hawai'i in 1893, Hawaiian medium schools were banned. After annexation, throughout the territorial and statehood period, and until 1986, use of Hawaiian as a medium of education in public schools was declared unlawful, thereby causing incalculable harm to a culture that placed a very high value on the power of language, as exemplified in the traditional saying: "I ka 'ōlelo no ke ola; I ka 'ōlelo no ka make. In the language rests life; In the language rests death."

(20) Despite the consequences of over 100 years of nonindigenous influence, the Native Hawaiian people are determined to preserve, develop, and transmit to future generations their ancestral territory, and their cultural identity in accordance with their own spiritual and traditional beliefs, customs, practices, language, and social institutions.

(21) The State of Hawai'i, in the constitution and statutes of the State of Hawai'i—

(A) reaffirms and protects the unique right of the Native Hawaiian people to practice and perpetuate their culture and religious customs, beliefs, practices, and language; and

(B) recognizes the traditional language of the Native Hawaiian people as an official language of the State of Hawai'i, which may be used as the language of instruction for all subjects and grades in the public school system.

PART C—ALASKA NATIVE EDUCATION

§ 7931. **Short title**

This part may be cited as the “Alaska Native Educational Equity, Support and Assistance Act”.

(Pub. L. 89-10, title IX, §9301, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3805.)

§ 7932. **Findings**

The Congress finds and declares:

(1) The attainment of educational success is critical to the betterment of the conditions, long-term well-being and preservation of the culture of Alaska Natives.

(2) It is the policy of the Federal Government to encourage the maximum participation by Alaska Natives in the planning and the management of Alaska Native education programs.

(3) Alaska Native children enter and exit school with serious educational handicaps.

(4) The educational achievement of Alaska Native children is far below national norms. In addition to low Native performance on standardized tests, Native student dropout rates are high, and Natives are significantly under-represented among holders of baccalaureate degrees in the State of Alaska. As a result, Native students are being denied their opportunity to become full participants in society by grade school and high school educations that are condemning an entire generation to an underclass status and a life of limited choices.

(5) The programs authorized herein, combined with expanded Head Start, infant learning and early childhood education programs, and parent education programs are essential if educational handicaps are to be overcome.

(6) The sheer magnitude of the geographic barriers to be overcome in delivering educational services in rural and village Alaska should be addressed through the development and implementation of innovative, model programs in a variety of areas.

(7) Congress finds that Native children should be afforded the opportunity to begin their formal education on a par with their non-Native peers. The Federal Government should lend support to efforts developed by and undertaken within the Alaska Native community to improve educational opportunity for all students.

(Pub. L. 89-10, title IX, §9302, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3805.)

§ 8032. Findings and purposes

(a) Findings

The Congress finds and declares that—

(1) all students can learn to high standards and must develop their talents and realize their potential if the United States is to prosper;

(2) gifted and talented students are a national resource vital to the future of the Nation and its security and well-being;

(3) too often schools fail to challenge students to do their best work, and students who are not challenged will not learn to challenging State content standards and challenging State student performance standards, fully develop their talents, and realize their potential;

(4) unless the special abilities of gifted and talented students are recognized and developed during such students' elementary and secondary school years, much of such students' special potential for contributing to the national interest is likely to be lost;

(5) gifted and talented students from economically disadvantaged families and areas, and students of limited-English proficiency are at greatest risk of being unrecognized and of not being provided adequate or appropriate educational services;

(6) State and local educational agencies and private nonprofit schools often lack the necessary specialized resources to plan and implement effective programs for the early identification of gifted and talented students and for the provision of educational services and programs appropriate to their special needs;

(7) the Federal Government can best carry out the limited but essential role of stimulating research and development and personnel training and providing a national focal point of information and technical assistance that is necessary to ensure that the Nation's schools are able to meet the special educational needs of gifted and talented students, and thereby serve a profound national interest; and

(8) the experience and knowledge gained in developing and implementing programs for gifted and talented students can and should be used as a basis to—

(A) develop a rich and challenging curriculum for all students; and

(B) provide all students with important and challenging subject matter to study and encourage the habits of hard work.

(b) Statement of purpose

It is the purpose of this part—

(1) to provide financial assistance to State and local educational agencies, institutions of higher education, and other public and private agencies and organizations, to initiate a coordinated program of research, demonstration projects, personnel training, and similar activities designed to build a nationwide capability in elementary and secondary schools to meet the special educational needs of gifted and talented students;

(2) to encourage the development of rich and challenging curricula for all students through the appropriate application and adaptation of materials and instructional methods developed under this part; and

(3) to supplement and make more effective the expenditure of State and local funds, for the education of gifted and talented students.

(Pub. L. 89-10, title X, §10202, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3820.)

§ 8033. Construction

Nothing in this part shall be construed to prohibit a recipient of funds under this part from serving gifted and talented students simulta-

neously with students with similar educational needs, in the same educational settings where appropriate.

(Pub. L. 89-10, title X, §10203, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3822.)

PART C—PUBLIC CHARTER SCHOOLS

PART REFERRED TO IN OTHER SECTIONS

This part is referred to in sections 7331, 7351, 8881 of this title.

SUBPART 1—BASIC CHARTER SCHOOL GRANT PROGRAM

§ 8061. Findings and purpose

(a) Findings

The Congress finds that—

(1) enhancement of parent and student choices among public schools can assist in promoting comprehensive educational reform and give more students the opportunity to learn to challenging State content standards and challenging State student performance standards, if sufficiently diverse and high-quality choices, and genuine opportunities to take advantage of such choices, are available to all students;

(2) useful examples of such choices can come from States and communities that experiment with methods of offering teachers and other educators, parents, and other members of the public the opportunity to design and imple-

ment new public schools and to transform existing public schools;

(3) charter schools are a mechanism for testing a variety of educational approaches and should, therefore, be exempted from restrictive rules and regulations if the leadership of such schools commits to attaining specific and ambitious educational results for educationally disadvantaged students consistent with challenging State content standards and challenging State student performance standards for all students;

(4) charter schools, as such schools have been implemented in a few States, can embody the necessary mixture of enhanced choice, exemption from restrictive regulations, and a focus on learning gains;

(5) charter schools, including charter schools that are schools-within-schools, can help reduce school size, which reduction can have a significant effect on student achievement;

(6) the Federal Government should test, evaluate, and disseminate information on a variety of charter school models in order to help demonstrate the benefits of this promising educational reform; and

(7) there is a strong documented need for cash-flow assistance to charter schools that are starting up, because State and local operating revenue streams are not immediately available.

(b) Purpose

It is the purpose of this subpart to increase national understanding of the charter schools model by—

(1) providing financial assistance for the planning, program design and initial implementation of charter schools;

(2) evaluating the effects of such schools, including the effects on students, student achievement, staff, and parents; and

(3) expanding the number of high-quality charter schools available to students across the Nation.

SUBPART 2—CULTURAL PARTNERSHIPS FOR AT-RISK CHILDREN AND YOUTH

§ 8101. Findings and purpose

(a) Findings

The Congress finds:

(1) With local school budget cuts there are inadequate arts and cultural programs available for children and youth in schools, especially at the elementary school level.

(2) The arts promote progress in academic subjects as shown by research conducted by the National Endowment for the Arts.

(3) Children and youth who receive instruction in the arts and humanities, or who are involved in cultural activities, remain in school longer and are more successful than children who do not receive such instruction.

(4) Learning in the arts and humanities promotes progress in other academic subjects, and generates positive self-esteem and a greater sense of accomplishment in young people.

(5) School-university and school-cultural institution partnerships that upgrade teacher training in the arts and humanities have significantly contributed to improved instruction and achievement levels of school-aged children.

(6) Museum outreach, cultural activities and informal education for at-risk children and youth have contributed significantly to the educational achievement and enhanced interest in learning of at-risk children and youth.

(7) The Goals 2000: Educate America Act [20 U.S.C. 5801 et seq.], other legislation and local, State and national resources support the integration of the arts and humanities into the regular curriculum and school day for all children.

(8) While all children benefit from instruction in the arts and the humanities, at-risk children and youth have a special, additional need for arts and cultural programs both in school and after school.

(b) Purpose

The purpose of this subpart is to make demonstration grants to eligible entities to improve the educational performance and future potential of at-risk children and youth by providing comprehensive and coordinated educational and cultural services.

§ 8242. Findings

The Congress finds that—

(1) a local public school often serves as a center for the delivery of education and human resources for all members of a community;

(3) by using school facilities, equipment, and resources, communities can promote a more efficient use of public education facilities, especially in rural and inner city areas where limited financial resources have enhanced the necessity for local public schools to become social service centers;

(4) the high technology, global economy of the 21st century will require lifelong learning to keep America's workforce competitive and successful, and local public schools should provide centers for lifelong learning and educational opportunities for individuals of all ages; and

(6) urban schools enroll a disproportionately large share of the Nation’s poor and “at-risk” youth;

(7) urban schools enroll approximately one-third of the Nation’s poor, 40 percent of the Nation’s African American children, and 30 percent of the Nation’s Hispanic youth;

(15) 75 percent of urban public school buildings are over 25 years old, 33 percent of such buildings are over 50 years old, and such buildings are often in serious disrepair and create poor and demoralizing working and learning conditions;

(16) solving the challenges facing our Nation’s urban schools will require the concerted and collaborative efforts of all levels of government and all sectors of the community;

(17) Federal and State funding of urban public schools has not adequately reflected need; and

(18) Federal funding that is well-targeted, flexible, and accountable would contribute significantly to addressing the comprehensive needs of inner-city public schools.

PART K—NATIONAL WRITING PROJECT

§ 8331. Findings

The Congress finds that—

(1) the United States faces a crisis in writing in schools and in the workplace;

(2) the writing problem has been magnified by the rapidly changing student populations and the growing number of at-risk students due to limited English proficiency;

(3) over the past two decades, universities and colleges across the country have reported increasing numbers of entering freshmen who are unable to write at a level equal to the demands of college work;

(4) American businesses and corporations are concerned about the limited writing skills of entry-level workers, and a growing number of executives are reporting that advancement was denied to them due to inadequate writing abilities;

(5) the writing problem has been magnified by the rapidly changing student populations in the Nation's schools and the growing number of students who are at risk because of limited English proficiency;

(6) writing and reading are both fundamental to learning, yet writing has been historically neglected in the schools and colleges, and most teachers in the United States elementary schools, secondary schools, and colleges have not been trained to teach writing;

(7) since 1973, the only national program to address the writing problem in the Nation's

schools has been the National Writing Project, a network of collaborative university-school programs whose goal is to improve the quality of student writing and the teaching of writing at all grade levels and to extend the uses of writing as a learning process through all disciplines;

(8) the National Writing Project offers summer and school year inservice teacher training programs and a dissemination network to inform and teach teachers of developments in the field of writing;

(9) the National Writing Project is a nationally recognized and honored nonprofit organization that recognizes that there are teachers in every region of the country who have developed successful methods for teaching writing and that such teachers can be trained and encouraged to train other teachers;

(10) the National Writing Project has become a model for programs to improve teaching in such other fields as mathematics, science, history, literature, performing arts, and foreign languages;

(11) the National Writing Project teacher-teaching-teachers program identifies and promotes what is working in the classrooms of the Nation's best teachers;

(12) the National Writing Project teacher-teaching-teachers project is a positive program that celebrates good teaching practices and good teachers and through its work with schools increases the Nation's corps of successful classroom teachers;

(13) evaluations of the National Writing Project document the positive impact the project has had on improving the teaching of writing, student performance, and student thinking and learning ability;

(14) the National Writing Project programs offer career-long education to teachers, and teachers participating in the National Writing Project receive graduate academic credit;

(15) each year over 100,000 teachers voluntarily seek training in National Writing Project intensive summer institutes and workshops and school year in-service programs through one of the 154 regional sites located in 45 States, the Commonwealth of Puerto Rico, and in 4 sites that serve United States teachers in United States dependent and independent schools;

(16) 250 National Writing Project sites are needed to establish regional sites to serve all teachers;

(17) private foundation resources, although generous in the past, are inadequate to fund all of the National Writing Project sites needed and the future of the program is in jeopardy without secure financial support;

(18) independent evaluation studies have found the National Writing Project to be highly cost effective compared to other professional development programs for teachers; and

(19) during 1991, the first year of Federal support for the National Writing Project, the National Writing Project matched the \$1,951,975 in Federal support with \$9,485,504 in matching funds from State, local, and other sources.

(Pub. L. 89-10, title X, §10991, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3859.)

See sections 3(2) and 14 of Pub. L. 92-463, Oct. 6, 1972, 86 Stat. 770, 776, set out in the Appendix to Title 5, Government Organization and Employees.

(Pub. L. 89–10, title X, §10999B, as added Pub. L. 106–554, §1(a)(1) [title VII, §701], Dec. 21, 2000, 114 Stat. 2763, 2763A–76.)

PRIOR PROVISIONS

A prior section 8351, Pub. L. 89–10, title X, §10993, as added Pub. L. 103–382, title I, §101, Oct. 20, 1994, 108 Stat. 3863, related to extended time for learning and longer school year, prior to repeal by Pub. L. 105–277, div. A, §101(f) [title VIII, §301(c)(3)], Oct. 21, 1998, 112 Stat. 2681–337, 2681–410.

§ 8352. Findings

Congress makes the following findings:

(1) Physical education is essential to the development of growing children.

(2) Physical education helps improve the overall health of children by improving their cardiovascular endurance, muscular strength and power, and flexibility, and by enhancing weight regulation, bone development, posture, skillful moving, active lifestyle habits, and constructive use of leisure time.

(3) Physical education helps improve the self esteem, interpersonal relationships, responsible behavior, and independence of children.

(4) Children who participate in high quality daily physical education programs tend to be more healthy and physically fit.

(5) The percentage of young people who are overweight has more than doubled in the 30 years preceding 1999.

(6) Low levels of activity contribute to the high prevalence of obesity among children in the United States.

(7) Obesity related diseases cost the United States economy more than \$100,000,000,000 every year.

(8) Inactivity and poor diet cause at least 300,000 deaths a year in the United States.

(9) Physically fit adults have significantly reduced risk factors for heart attacks and stroke.

(10) Children are not as active as they should be and fewer than one in four children get 20 minutes of vigorous activity every day of the week.

(11) The Surgeon General's 1996 Report on Physical Activity and Health, and the Centers for Disease Control and Prevention, recommend daily physical education for all students in kindergarten through grade 12.

(12) Twelve years after Congress passed House Concurrent Resolution 97, 100th Congress, agreed to December 11, 1987, encouraging State and local governments and local educational agencies to provide high quality daily physical education programs for all children in kindergarten through grade 12, little progress has been made.

(13) Every student in our Nation's schools, from kindergarten through grade 12, should have the opportunity to participate in quality

physical education. It is the unique role of quality physical education programs to develop the health-related fitness, physical competence, and cognitive understanding about physical activity for all students so that the students can adopt healthy and physically active lifestyles.

SUBCHAPTER XI—COORDINATED SERVICES

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 1413, 8826 of this title.

§ 8401. Findings and purpose

(a) Findings

The Congress finds the following:

(1) Growing numbers of children are negatively affected by influences outside of the classroom which increase such children's risk of academic failure.

(2) Factors such as poor nutrition, unsafe living conditions, physical and sexual abuse, family and gang violence, inadequate health care, unemployment, lack of child care, and substance abuse, adversely affect family relationships and the ability of a child to learn.

(3) Parents and other caregivers in today's high pressure society often face demands which place restraints on such parents' and caregivers' time and affect such parents' and caregivers' ability to adequately provide for the needs of the families of such parents and caregivers.

(4) Access to health and social service programs can address the basic physical and emotional needs of children so that children can

fully participate in the learning experiences offered children in school.

(5) Services for at-risk students need to be more convenient, and less fragmented, regulated and duplicative, in order to meet the needs of children and their families.

(6) School personnel, parents, and support service providers often lack knowledge of, and access to, available services for at-risk students and their families in the community, and have few resources to coordinate services and make services accessible.

(7) Service providers, such as teachers, social workers, health care and child care providers, juvenile justice workers and others, are often trained in separate disciplines that provide little support for the coordination of services.

(8) Coordination of services is more cost effective because such coordination substitutes prevention for expensive crisis intervention.

(9) Coordinating health and social services with education can help the Nation meet the National Education Goals by ensuring better outcomes for children.

(b) Purpose of coordinating services

The purpose of this subchapter is to provide elementary and secondary school students and their families better access to the social, health and education services necessary for students to succeed in school and for their families to take an active role in ensuring that such students receive the best possible education.

(Pub. L. 89-10, title XI, §11001, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3867.)

(2) the term “eligible entity” means a local educational agency, school, or a consortium of schools.

(Pub. L. 89-10, title XI, §11002, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3868.)

(2) identifies the measures that will be taken to establish a communitywide partnership that links public and private agencies providing services to children and families; and

§ 8502. Findings

The Congress finds the following:

(1) According to a 1991 survey conducted by the American Association of School Administrators, 74 percent of all public school buildings in the United States need to be replaced.

(2) Almost one-third of such buildings were built prior to World War II.

(3) It is estimated that one of every four public school buildings in the United States is in inadequate condition, and of such buildings, 61 percent need maintenance or major repairs, 43 percent are obsolete, 42 percent contain environmental hazards, 25 percent are overcrowded, and 13 percent are structurally unsound.

(4) Large numbers of local educational agencies have difficulties securing financing for school facility improvement, including school libraries, media centers, and facilities.

(5) Improving the quality of public elementary and secondary schools will help our Nation meet the National Education Goals.

(6) The challenges facing our Nation's public elementary and secondary schools require the concerted and collaborative efforts of all levels of government and all sectors of the community.

(Pub. L. 89-10, title XII, §12002, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3870.)

SUBCHAPTER XIII—SUPPORT AND ASSISTANCE PROGRAMS TO IMPROVE EDUCATION

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in section 6212 of this title.

§ 8601. Findings

The Congress finds that—

(1) high-quality technical assistance can enhance the improvements in teaching and learning achieved through the implementation of programs under this chapter;

(2) comprehensive technical assistance and effective program dissemination are essential ingredients of the overall strategy of the Improving America's Schools Act of 1994 to improve programs and provide all children opportunities to meet challenging State content standards and challenging State student performance standards;

(3) States, local educational agencies, tribes, and schools serving students with special needs, such as students with limited-English proficiency and students with disabilities, have great need for comprehensive technical assistance in order to use funds under this chapter to provide such students with opportunities to learn to¹ challenging State content standards and challenging State student performance standards;

(4) current technical assistance and dissemination efforts are fragmented and categorical in nature, and thus fail to address adequately the needs of States, local educational agencies and tribes for help in integrating into a coherent strategy for improving teaching and learning the various programs under this chapter with State and local programs and other education reform efforts;

(5) too little creative use is made of technology as a means of providing information and assistance in a cost-effective way;

(6) comprehensive technical assistance can help schools and school systems focus on improving opportunities for all children to meet challenging State content standards and challenging State student performance standards, as such schools and systems implement programs under this chapter;

(7) comprehensive technical assistance will provide coordinated assistance to help States, local educational agencies, tribes, participating colleges and universities, and schools integrate Federal, State, and local education programs in ways that contribute to improving schools and entire school systems;

(8) technical assistance in support of programs under this chapter should be coordinated with the Department's regional offices, the regional educational laboratories, State Literacy Resource Centers, vocational resource centers, and other technical assistance efforts supported by the Department; and

(9) technical assistance providers should prioritize assistance for local educational agencies and schools.

PART H—SENSE OF CONGRESS

§ 8961. Sense of Congress to increase total share of Federal spending on education

(a) Findings

The Congress finds that—

(1) in order to increase our Nation’s standard of living and to increase the number of good jobs, the United States must increase its productivity and ability to compete in the international marketplace by improving the educational level of our workforce;

(2) although efforts are being made to establish higher educational standards and goals, there is a substantial shortage of resources to meet such standards and goals;

(3) States and local communities are finding it increasingly difficult to meet ever higher educational standards and goals, and States will not be able to fund needed changes without Federal help to reach such standards and goals;

(4) the Federal Government has established many educational programs but failed to provide adequate funding for such programs, for example one such program provides education to our Nation’s disabled students and was established with a promise of 40 percent Federal funding but currently receives only eight percent Federal funding;

(5) the annual shortfall in Federal education programs is approximately half of the promised funding;

(6) many needed educational improvements will not need Federal funds, however, other suggested changes such as lengthened school years, better pay, after-school activities, mentoring for students at risk, programs for gifted students, and replacing substandard buildings, will require substantial Federal assistance; and

(7) the Federal contribution to education is less than two percent of the total Federal budget, and in order to make education a national priority, the total percentage of Federal educational funding should be increased by one percent each year over the next eight years to reach 10 percent of the total Federal budget.

(b) Sense of Congress

It is the sense of the Congress that the total share of the Federal spending on education

should increase by at least one percent each year until such share reaches 10 percent of the total Federal budget.

§ 8962. Sense of Congress; requirement regarding notice

(a) Purchase of American-made equipment and products

In the case of any equipment or products that may be authorized to be purchased with financial assistance provided under this chapter, it is the sense of the Congress that entities receiving such assistance should, in expending the assistance, purchase only American-made equipment and products.

(b) Notice to recipients of assistance

In providing financial assistance under this chapter, the head of each Federal agency shall provide to each recipient of the assistance a notice describing the statement made in subsection (a) of this section by the Congress.

(Pub. L. 89-10, title XIV, § 14802, as added Pub. L. 103-382, title I, § 101, Oct. 20, 1994, 108 Stat. 3912.)

PRIOR PROVISIONS

Provisions similar to those in this chapter were contained in section 1221e-1 of this title prior to repeal by Pub. L. 103-382, §212(a)(1).

§ 9001. Findings; purpose; definitions

(a) Findings

The Congress finds that—

(1) a Department of Education was established in 1867 “for the purpose of collecting such statistics and facts as shall show the condition and progress of education in the several States and territories, and of diffusing such information respecting the organization and management of schools and school systems and methods of teaching as shall aid the people of the United States in the establishment and maintenance of efficient school systems, and otherwise promote the cause of education throughout the United States”;

(2) today, while the role of the current Department of Education is much broader, the National Center for Education Statistics within the Office of Educational Research and Improvement continues to perform those crucial original purposes; and

(3) looking to the 21st century, the National Center for Education Statistics must be able to design and undertake, effectively and efficiently, statistical activities that will aid in the reform of the Nation’s educational systems.

(b) Purpose

It is the purpose of this chapter to ensure the continuation of an effective mechanism for collecting and reporting statistics and information showing the condition and progress of education in the United States and other nations in order to promote and accelerate the improvement of American education.

(c) Definitions

For the purpose of this chapter and unless otherwise specified—

(1) the term “Assistant Secretary” means the Assistant Secretary for Educational Research and Improvement established under section 3412(b)(1)(E)¹ of this title;

(2) the term “Department” means the Department of Education;

(3) the term “institution of higher education” has the same meaning given such term in section 1001 of this title;

(4) the term “local educational agency” has the same meaning given such term in section 8801 of this title;

(5) the term “Secretary” means the Secretary of Education;

(6) the term “State educational agency” has the same meaning given such term in section 8801 of this title; and

(7) the terms “State” and “United States”—

(A) other than for the purpose of section 9010 of this title, mean each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico; and

(B) for the purpose of section 9010 of this title, have the same meaning given such terms in subparagraph (A), except that such terms include Guam, American Samoa, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and Palau.

REFERENCES IN TEXT

The reference to section 3412(b)(1)(E) of this title in subsec. (c)(1) probably should be a reference to section 3412(b)(3) of this title. Pub. L. 103-227, title IX, §913, Mar. 31, 1994, 108 Stat. 223, amended section 3412 by striking out subsec. (b)(1)(E) which related to an Assistant Secretary for Educational Research and Improvement, redesignating subsec. (b)(1)(F) as (b)(1)(E), and adding a subsec. (b)(3) which relates to an Assistant Secretary for Educational Research and Improvement.

§ 9010. National Assessment of Educational Progress

(a) Establishment

The Commissioner shall, with the advice of the National Assessment Governing Board established under section 9011 of this title, and with the technical assistance of the Advisory Council established under section 9006 of this title, carry out, through grants, contracts, or cooperative agreements with one or more qualified organizations, or consortia thereof, a National Assessment of Educational Progress (hereafter in this chapter referred to as the "National Assessment").

(b) Purpose; State assessments

(1) Purpose

The purpose of the National Assessment is to provide a fair and accurate presentation of educational achievement in reading, writing, and the other subjects included in the third National Education Goal, regarding student achievement and citizenship. The Commissioner, in carrying out the National Assessment, shall use sampling techniques that produce data that are representative on a national and regional basis, and on a State basis pursuant to paragraph (2). In addition, the Commissioner shall—

(A)(i) The Commissioner, in carrying out the National Assessment, may conduct State assessments of student achievement in grades 4, 8, and 12.

(ii) Each such State assessment, in each subject area and at each grade level, shall be conducted on a developmental basis until the Commissioner determines, as the result of an evaluation required by subsection (f) of this section, that such assessment produces high quality data that are valid and reliable.

(B)(i) States wishing to participate in State assessments shall enter into an agreement with the Secretary pursuant to subsection (d)(2) of this section.

(ii) Such agreement shall contain information sufficient to give States full information about the process for consensus decision-making on objectives to be tested, and the standards for sampling, test administration, test security, data collection, validation, and reporting.

(C) A participating State shall review and give permission for the release of results from any test of its students administered as a part of a State assessment prior to the release of such data. Refusal by a State to release its data shall not restrict the release of data from other States that have approved the release of such data.

(3) Prohibited data

In carrying out the National Assessment, the Commissioner shall not collect any data that are not directly related to the appraisal of educational performance, achievement, and traditional demographic reporting variables, or to the fair and accurate presentation of such information.

(4) Technical assistance

In carrying out the National Assessment, the Commissioner may provide technical assistance to States, localities, and other parties.

(c) Access

(1) Public access

Except as provided in paragraph (2), the public shall have access to all data, questions, and test instruments of the National Assessment.

Participation in the national and regional assessments by State and local educational agencies shall be voluntary.

(2) State

Participation in assessments made on a State basis shall be voluntary. The Commissioner shall enter into an agreement with any State that desires to carry out an assessment for the State under this subsection. Each such agreement shall contain provisions designed to ensure that the State will—

(A) participate in the assessment; and

(B) pay from non-Federal sources the non-Federal share of such participation.

(3) Non-Federal share

(A) For each fiscal year, the non-Federal share for the purpose of paragraph (2)(B) shall be—

(i) the cost of conducting the assessment at the school level for all public schools in the State sample;

(ii) the cost of coordination within the State; and

(iii) other reasonable costs specified by the Secretary in the agreement described in paragraph (2), such as the cost of analyzing and reporting the data.

(B) The non-Federal share of payments under this paragraph may be in cash or in kind, fairly valued.

(C) The agreement described in paragraph (2) shall describe the manner in which the costs of administering the assessment to private nonprofit schools included in the State sample will be met.

(e) Student performance levels

(1) Performance levels

§ 9241. Grants and contracts for eligible providers

(a) Grants and contracts

From grant funds made available under section 9211(b) of this title, each eligible agency shall award multiyear grants or contracts, on a competitive basis, to eligible providers within the State or outlying area to enable the eligible providers to develop, implement, and improve adult education and literacy activities within the State.

(b) Required local activities

The eligible agency shall require that each eligible provider receiving a grant or contract under subsection (a) of this section use the grant

or contract to establish or operate one or more programs that provide services or instruction in one or more of the following categories:

- (1) Adult education and literacy services, including workplace literacy services.
- (2) Family literacy services.
- (3) English literacy programs.

(c) Direct and equitable access; same process

Each eligible agency receiving funds under this part shall ensure that—

- (1) all eligible providers have direct and equitable access to apply for grants or contracts under this section; and
- (2) the same grant or contract announcement process and application process is used for all eligible providers in the State or outlying area.

(d) Special rule

Each eligible agency awarding a grant or contract under this section shall not use any funds made available under this part for adult education and literacy activities for the purpose of supporting or providing programs, services, or activities for individuals who are not individuals described in subparagraphs (A) and (B) of section 9202(1) of this title, except that such agency may use such funds for such purpose if such programs, services, or activities are related to family literacy services. In providing family literacy services under this part, an eligible provider shall attempt to coordinate with programs and services that are not assisted under this part prior to using funds for adult education and literacy activities under this part for activities other than adult education activities.

(e) Considerations

In awarding grants or contracts under this section, the eligible agency shall consider—

- (1) the degree to which the eligible provider will establish measurable goals for participant outcomes;
- (2) the past effectiveness of an eligible provider in improving the literacy skills of adults and families, and, after the 1-year period beginning with the adoption of an eligible agency’s performance measures under section 9212 of this title, the success of an eligible provider receiving funding under this part in meeting or exceeding such performance measures, especially with respect to those adults with the lowest levels of literacy;
- (3) the commitment of the eligible provider to serve individuals in the community who are most in need of literacy services, including individuals who are low-income or have minimal literacy skills;
- (4) whether or not the program—
 - (A) is of sufficient intensity and duration for participants to achieve substantial learning gains; and
 - (B) uses instructional practices, such as phonemic awareness, systematic phonics, fluency, and reading comprehension that research has proven to be effective in teaching individuals to read;
- (5) whether the activities are built on a strong foundation of research and effective educational practice;
- (6) whether the activities effectively employ advances in technology, as appropriate, including the use of computers;

(7) whether the activities provide learning in real life contexts to ensure that an individual has the skills needed to compete in the workplace and exercise the rights and responsibilities of citizenship;

(8) whether the activities are staffed by well-trained instructors, counselors, and administrators;

(9) whether the activities coordinate with other available resources in the community, such as by establishing strong links with elementary schools and secondary schools, post-secondary educational institutions, one-stop centers, job training programs, and social service agencies;

(10) whether the activities offer flexible schedules and support services (such as child care and transportation) that are necessary to enable individuals, including individuals with disabilities or other special needs, to attend and complete programs;

(11) whether the activities maintain a high-quality information management system that has the capacity to report participant outcomes and to monitor program performance against the eligible agency performance measures; and

(12) whether the local communities have a demonstrated need for additional English literacy programs.

§ 9242. Local application

Each eligible provider desiring a grant or contract under this part shall submit an application to the eligible agency containing such information and assurances as the eligible agency may require, including—

(1) a description of how funds awarded under this part will be spent; and

(2) a description of any cooperative arrangements the eligible provider has with other agencies, institutions, or organizations for the delivery of adult education and literacy activities.

(Pub. L. 105-220, title II, §232, Aug. 7, 1998, 112 Stat. 1072.)

§ 9243. Local administrative cost limits

(a) In general

Subject to subsection (b) of this section, of the amount that is made available under this part to an eligible provider—

(1) not less than 95 percent shall be expended for carrying out adult education and literacy activities; and

(2) the remaining amount, not to exceed 5 percent, shall be used for planning, administration, personnel development, and inter-agency coordination.

(b) Special rule

In cases where the cost limits described in subsection (a) of this section are too restrictive to allow for adequate planning, administration,

personnel development, and interagency coordination, the eligible provider shall negotiate with the eligible agency in order to determine an adequate level of funds to be used for noninstructional purposes.

(Pub. L. 105-220, title II, §233, Aug. 7, 1998, 112 Stat. 1072.)

SUBPART 4—GENERAL PROVISIONS

§ 9251. Administrative provisions

(a) Supplement not supplant

Funds made available for adult education and literacy activities under this part shall supplement and not supplant other State or local public funds expended for adult education and literacy activities.

(b) Maintenance of effort

(1) In general

(A) Determination

An eligible agency may receive funds under this part for any fiscal year if the Secretary finds that the fiscal effort per student or the aggregate expenditures of such eligible agency for adult education and literacy activities, in the second preceding fiscal year, was not less than 90 percent of the fiscal effort per student or the aggregate expenditures of such eligible agency for adult education and literacy activities, in the third preceding fiscal year.

(B) Proportionate reduction

Subject to paragraphs (2), (3), and (4), for any fiscal year with respect to which the Secretary determines under subparagraph (A) that the fiscal effort or the aggregate expenditures of an eligible agency for the preceding program year were less than such effort or expenditures for the second preceding program year, the Secretary—

(i) shall determine the percentage decreases in such effort or in such expenditures; and

(ii) shall decrease the payment made under this part for such program year to the agency for adult education and literacy activities by the lesser of such percentages.

(2) Computation

In computing the fiscal effort and aggregate expenditures under paragraph (1), the Secretary shall exclude capital expenditures and special one-time project costs.

(3) Decrease in Federal support

If the amount made available for adult education and literacy activities under this part for a fiscal year is less than the amount made available for adult education and literacy activities under this part for the preceding fiscal year, then the fiscal effort per student and the aggregate expenditures of an eligible agency required in order to avoid a reduction under paragraph (1)(B) shall be decreased by the same percentage as the percentage decrease in the amount so made available.

(4) Waiver

The Secretary may waive the requirements of this subsection for 1 fiscal year only, if the

Secretary determines that a waiver would be equitable due to exceptional or uncontrollable circumstances, such as a natural disaster or an unforeseen and precipitous decline in the financial resources of the State or outlying area of the eligible agency. If the Secretary grants a waiver under the preceding sentence for a fiscal year, the level of effort required under paragraph (1) shall not be reduced in the subsequent fiscal year because of the waiver.

(Pub. L. 105-220, title II, §241, Aug. 7, 1998, 112 Stat. 1072.)

§ 9401. Purposes

The purposes of this chapter are—

- (1) to increase the availability of voluntary programs, services, and activities that support early childhood development, increase parent effectiveness, and promote the learning readiness of young children so that young children enter school ready to learn;
- (2) to support parents, child care providers, and caregivers who want to incorporate early learning activities into the daily lives of young children;
- (3) to remove barriers to the provision of an accessible system of early childhood learning programs in communities throughout the United States;
- (4) to increase the availability and affordability of professional development activities and compensation for caregivers and child care providers; and

(5) to facilitate the development of community-based systems of collaborative service delivery models characterized by resource sharing, linkages between appropriate supports, and local planning for services.

(Pub. L. 106-554, §1(a)(1) [title VIII, §802], Dec. 21, 2000, 114 Stat. 2763, 2763A-80.)

SHORT TITLE; FINDINGS

Pub. L. 106-554, §1(a)(1) [title VIII, §801], Dec. 21, 2000, 114 Stat. 2763, 2763A-79, provided that:

“(a) SHORT TITLE.—This title [enacting this chapter] may be cited as the ‘Early Learning Opportunities Act’.

“(b) FINDINGS.—Congress finds that—

“(1) medical research demonstrates that adequate stimulation of a young child’s brain between birth and age 5 is critical to the physical development of the young child’s brain;

“(2) parents are the most significant and effective teachers of their children, and they alone are responsible for choosing the best early learning opportunities for their child;

“(3) parent education and parent involvement are critical to the success of any early learning program or activity;

“(4) the more intensively parents are involved in their child’s early learning, the greater the cognitive and noncognitive benefits to their children;

“(5) many parents have difficulty finding the information and support the parents seek to help their children grow to their full potential;

“(6) each day approximately 13,000,000 young children, including 6,000,000 infants or toddlers, spend some or all of their day being cared for by someone other than their parents;

“(7) quality early learning programs, including those designed to promote effective parenting, can increase the literacy rate, the secondary school graduation rate, the employment rate, and the college enrollment rate for children who have participated in voluntary early learning programs and activities;

“(8) early childhood interventions can yield substantial advantages to participants in terms of emotional and cognitive development, education, economic well-being, and health, with the latter two advantages applying to the children’s families as well;

“(9) participation in quality early learning programs, including those designed to promote effective parenting, can decrease the future incidence of teenage pregnancy, welfare dependency, at-risk behaviors, and juvenile delinquency for children;

“(10) several cost-benefit analysis studies indicate that for each \$1 invested in quality early learning programs, the Federal Government can save over \$5 by reducing the number of children and families who participate in Federal Government programs like special education and welfare;

“(11) for children placed in the care of others during the workday, the low salaries paid to the child care staff, the lack of career progression for the staff, and the lack of child development specialists involved in early learning and child care programs, make it difficult to attract and retain the quality of staff necessary for a positive early learning experience;

“(12) Federal Government support for early learning has primarily focused on out-of-home care programs like those established under the Head Start Act [42 U.S.C. 9831 et seq.], the Child Care and Development Block Grant [Act] of 1990 [42 U.S.C. 9858 et seq.], and part C of the Individuals with Disabilities Education Act [20 U.S.C. 1431 et seq.], and these programs—

“(A) serve far fewer than half of all eligible children;

“(B) are not primarily designed to provide support for parents who care for their young children in the home; and

“(C) lack a means of coordinating early learning opportunities in each community; and

“(13) by helping communities increase, expand, and better coordinate early learning opportunities for children and their families, the productivity and creativity of future generations will be improved, and the Nation will be prepared for continued leadership in the 21st century.”
