By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to ensure protection of information systems for critical infrastructure, including emergency preparedness communications and the physical assets that support such systems, in the information age, it is hereby ordered as follows:

SECTION 1. *Policy.* The information technology revolution has changed the way business is transacted, government operates, and national defense is conducted. Those three functions now depend on an interdependent network of critical information infrastructures. It is the policy of the United States to protect against disruption of the operation of information systems for critical infrastructure and thereby help to protect the people, economy, essential human and government services, and national security of the United States, and to ensure that any disruptions that occur are infrequent, of minimal duration, and manageable, and cause the least damage possible. The implementation of this policy shall include a voluntary public-private partnership, involving corporate and nongovernmental organizations.

SEC. 2. *Continuing Authorities.* This order does not alter the existing authorities or roles of United States Government departments and agencies. Authorities set forth in 44 U.S.C. chapter 35, and other applicable law, provide senior officials with responsibility for the security of Federal Government information systems.

(a) Executive Branch Information Systems Security. The Director of the Office of Management and Budget (OMB) has the responsibility to develop and oversee the implementation of government-wide policies, principles, standards, and guidelines for the security of information systems that support the executive branch departments and agencies, except those noted in section 2(b) of this order. The Director of OMB shall advise the President and the appropriate department or agency head when there is a critical deficiency in the security practices within the purview of this section in an executive branch department or agency.

(b) National Security Information Systems. The Secretary of Defense and the Director of Central Intelligence (DCI) shall have responsibility to oversee, develop, and ensure implementation of policies, principles, standards, and guidelines for the security of information systems that support the operations under their respective control. In consultation with the Assistant to the President for National Security Affairs and the affected departments and agencies, the Secretary of Defense and the DCI shall develop policies, principles, standards, and guidelines for the security of national security information systems that support the operations of other executive branch departments and agencies with national security information.

(i) Policies, principles, standards, and guidelines developed under this subsection may require more stringent protection than those developed in accordance with section 2(a) of this order.

(ii) The Assistant to the President for National Security Affairs shall advise the President and the appropriate department or agency when there is a critical deficiency in the security practices of a department or agency within the purview of this section.

(iii) National Security Systems. The National Security Telecommunications and Information Systems Security Committee, as established by and consistent with NSD-42 and chaired by the Department of Defense, shall be designated as the “Committee on National Security Systems.”

(c) Additional Responsibilities. The heads of executive branch departments and agencies are responsible and accountable for providing and maintaining adequate levels of security for information systems, including emergency preparedness communications systems, for programs under their control. Heads of such departments and agencies shall ensure the development and, within available appropriations, funding of programs that adequately address these mission systems, especially those critical systems that support the national security and other essential government programs. Additionally, security should enable, and not unnecessarily impede, department and agency business operations.

SEC. 3. *The National Infrastructure Advisory Council.* The National Infrastructure Advisory Council (NIAC), established on October 16, 2001, shall provide the President, through the Secretary of Homeland Security, with advice on the security and resilience of the critical infrastructure sectors and their functional systems, physical assets, and cyber networks.

(a) *Membership.* The NIAC shall be composed of not more than 30 members appointed by the President, taking appropriate account of the benefits of having members:

(i) from the private sector, including individuals with experience in banking and finance, transportation, energy, water, communications, health care services, food and agriculture, government facilities, emergency services organizations, institutions of higher education, environmental and climate resilience, and State, local, and tribal governments;

(ii) with senior executive leadership responsibilities for the availability and reliability, including security and resilience, of critical infrastructure sectors;

(iii) with expertise relevant to the functions of the NIAC; and

(iv) with experience equivalent to that of a chief executive of an organization.

Unless otherwise determined by the President, no full-time officer or employee of the executive branch shall be appointed to serve as a member of the NIAC. The President shall designate from among the members of the NIAC a Chair and a Vice Chair, who shall perform the functions of the Chair if the Chair is absent or disabled, or in the instance of a vacancy in the Chair.

(b) *Functions of the NIAC.* The NIAC shall meet periodically to:

EX. ORD. NO. 13636. IMPROVING CRITICAL
INFRASTRUCTURE CYBERSECURITY

Ex. Ord. No. 13636, Feb. 12, 2013, 78 F.R. 11739, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. *Policy.* Repeated cyber intrusions into critical infrastructure demonstrate the need for improved cybersecurity. The cyber threat to critical infrastructure continues to grow and represents one of the most serious national security challenges we must confront. The national and economic security of the United States depends on the reliable functioning of the Nation’s critical infrastructure in the face of such threats. It is the policy of the United States to enhance the security and resilience of the Nation’s critical infrastructure and to maintain a cyber environment that encourages efficiency, innovation, and economic prosperity while promoting safety, security, business confidentiality, privacy, and civil liberties. We can achieve these goals through a partnership with the owners and operators of critical infrastructure to improve cybersecurity information sharing and collaboratively develop and implement risk-based standards.

SEC. 2. *Critical Infrastructure.* As used in this order, the term critical infrastructure means systems and assets, whether physical or virtual, so vital to the United States that the incapacity or destruction of such systems and assets would have a debilitating impact on security, national economic security, national public health or safety, or any combination of those matters.

SEC. 3. *Policy Coordination.* Policy coordination, guidance, dispute resolution, and periodic in-progress reviews for the functions and programs described and assigned herein shall be provided through the interagency process established in Presidential Policy Directive-1 of February 13, 2009 (Organization of the National Security Council System), or any successor.

SEC. 4. *Cybersecurity Information Sharing.* (a) It is the policy of the United States Government to increase the volume, timeliness, and quality of cyber threat information shared with U.S. private sector entities so that these entities may better protect and defend themselves against cyber threats. Within 120 days of the date of this order, the Attorney General, the Secretary of Homeland Security (the “Secretary”), and the Director of National Intelligence shall each issue instructions consistent with their authorities and with the requirements of section 12(c) of this order to ensure the timely production of unclassified reports of cyber threats to the U.S. homeland that identify a specific targeted entity. The instructions shall address the need to protect intelligence and law enforcement sources, methods, operations, and investigations.

(b) The Secretary and the Attorney General, in coordination with the Director of National Intelligence, shall establish a process that rapidly disseminates the reports produced pursuant to section 4(a) of this order to the targeted entity. Such process shall also, consistent with the need to protect national security information, include the dissemination of classified reports to critical infrastructure entities authorized to receive them. The Secretary and the Attorney General, in coordination with the Director of National Intelligence, shall establish a system for tracking the production, dissemination, and disposition of these reports.

(c) To assist the owners and operators of critical infrastructure in protecting their systems from unauthorized access, exploitation, or harm, the Secretary, consistent with 6 U.S.C. 143 and in collaboration with the Secretary of Defense, shall, within 120 days of the date of this order, establish procedures to expand the Enhanced Cybersecurity Services program to all critical infrastructure sectors. This voluntary information sharing program will provide classified cyber threat and technical information from the Government to eligible critical infrastructure companies or commercial service providers that offer security services to critical infrastructure.

(d) The Secretary, as the Executive Agent for the Classified National Security Information Program created under Executive Order 13549 of August 18, 2010 (Classified National Security Information Program for State, Local, Tribal, and Private Sector Entities), shall expedite the processing of security clearances to appropriate personnel employed by critical infrastructure owners and operators, prioritizing the critical infrastructure identified in section 9 of this order.

(e) In order to maximize the utility of cyber threat information sharing with the private sector, the Secretary shall expand the use of programs that bring private sector subject-matter experts into Federal service on a temporary basis. These subject matter experts should provide advice regarding the content, structure, and types of information most useful to critical infrastructure owners and operators in reducing and mitigating cyber risks.

SEC. 5. *Privacy and Civil Liberties Protections.* (a) Agencies shall coordinate their activities under this order with their senior agency officials for privacy and civil liberties and ensure that privacy and civil liberties protections are incorporated into such activities. Such protections shall be based upon the Fair Information Practice Principles and other privacy and civil liberties policies, principles, and frameworks as they apply to each agency’s activities.

(b) The Chief Privacy Officer and the Officer for Civil Rights and Civil Liberties of the Department of Homeland Security (DHS) shall assess the privacy and civil liberties risks of the functions and programs undertaken by DHS as called for in this order and shall recommend to the Secretary ways to minimize or mitigate such risks, in a publicly available report, to be released within 1 year of the date of this order. Senior agency privacy and civil liberties officials for other agencies engaged in activities under this order shall conduct assessments of their agency activities and provide those assessments to DHS for consideration and inclusion in

the report. The report shall be reviewed on an annual basis and revised as necessary. The report may contain a classified annex if necessary. Assessments shall include evaluation of activities against the Fair Information Practice Principles and other applicable privacy and civil liberties policies, principles, and frameworks. Agencies shall consider the assessments and recommendations of the report in implementing privacy and civil liberties protections for agency activities.

(c) In producing the report required under subsection (b) of this section, the Chief Privacy Officer and the Officer for Civil Rights and Civil Liberties of DHS shall consult with the Privacy and Civil Liberties Oversight Board and coordinate with the Office of Management and Budget (OMB).

(d) Information submitted voluntarily in accordance with 6 U.S.C. 133 by private entities under this order shall be protected from disclosure to the fullest extent permitted by law.

SEC. 6. Consultative Process. The Secretary shall establish a consultative process to coordinate improvements to the cybersecurity of critical infrastructure. As part of the consultative process, the Secretary shall engage and consider the advice, on matters set forth in this order, of the Critical Infrastructure Partnership Advisory Council; Sector Coordinating Councils; critical infrastructure owners and operators; Sector-Specific Agencies; other relevant agencies; independent regulatory agencies; State, local, territorial, and tribal governments; universities; and outside experts.

SEC. 7. Baseline Framework to Reduce Cyber Risk to Critical Infrastructure. (a) The Secretary of Commerce shall direct the Director of the National Institute of Standards and Technology (the “Director”) to lead the development of a framework to reduce cyber risks to critical infrastructure (the “Cybersecurity Framework”). The Cybersecurity Framework shall include a set of standards, methodologies, procedures, and processes that align policy, business, and technological approaches to address cyber risks. The Cybersecurity Framework shall incorporate voluntary consensus standards and industry best practices to the fullest extent possible. The Cybersecurity Framework shall be consistent with voluntary international standards when such international standards will advance the objectives of this order, and shall meet the requirements of the National Institute of Standards and Technology Act, as amended (15 U.S.C. 271 et seq.), the National Technology Transfer and Advancement Act of 1995 (Public Law 104-113), and OMB Circular A-119, as revised.

(b) The Cybersecurity Framework shall provide a prioritized, flexible, repeatable, performance-based, and cost-effective approach, including information security measures and controls, to help owners and operators of critical infrastructure identify, assess, and manage cyber risk. The Cybersecurity Framework shall focus on identifying cross-sector security standards and guidelines applicable to critical infrastructure. The Cybersecurity Framework will also identify areas for improvement that should be addressed through future collaboration with particular sectors and standards-developing organizations. To enable technical innovation and account for organizational differences, the Cybersecurity Framework will provide guidance that is technology neutral and that enables critical infrastructure sectors to benefit from a competitive market for products and services that meet the standards, methodologies, procedures, and processes developed to address cyber risks. The Cybersecurity Framework shall include guidance for measuring the performance of an entity in implementing the Cybersecurity Framework.

(c) The Cybersecurity Framework shall include methodologies to identify and mitigate impacts of the Cybersecurity Framework and associated information security measures or controls on business confidentiality, and to protect individual privacy and civil liberties.

(d) In developing the Cybersecurity Framework, the Director shall engage in an open public review and

comment process. The Director shall also consult with the Secretary, the National Security Agency, Sector-Specific Agencies and other interested agencies including OMB, owners and operators of critical infrastructure, and other stakeholders through the consultative process established in section 6 of this order. The Secretary, the Director of National Intelligence, and the heads of other relevant agencies shall provide threat and vulnerability information and technical expertise to inform the development of the Cybersecurity Framework. The Secretary shall provide performance goals for the Cybersecurity Framework informed by work under section 9 of this order.

(e) Within 240 days of the date of this order, the Director shall publish a preliminary version of the Cybersecurity Framework (the “preliminary Framework”). Within 1 year of the date of this order, and after coordination with the Secretary to ensure suitability under section 8 of this order, the Director shall publish a final version of the Cybersecurity Framework (the “final Framework”).

(f) Consistent with statutory responsibilities, the Director will ensure the Cybersecurity Framework and related guidance is reviewed and updated as necessary, taking into consideration technological changes, changes in cyber risks, operational feedback from owners and operators of critical infrastructure, experience from the implementation of section 8 of this order, and any other relevant factors.

SEC. 8. Voluntary Critical Infrastructure Cybersecurity Program. (a) The Secretary, in coordination with Sector-Specific Agencies, shall establish a voluntary program to support the adoption of the Cybersecurity Framework by owners and operators of critical infrastructure and any other interested entities (the “Program”).

(b) Sector-Specific Agencies, in consultation with the Secretary and other interested agencies, shall coordinate with the Sector Coordinating Councils to review the Cybersecurity Framework and, if necessary, develop implementation guidance or supplemental materials to address sector-specific risks and operating environments.

(c) Sector-Specific Agencies shall report annually to the President, through the Secretary, on the extent to which owners and operators notified under section 9 of this order are participating in the Program.

(d) The Secretary shall coordinate establishment of a set of incentives designed to promote participation in the Program. Within 120 days of the date of this order, the Secretary and the Secretaries of the Treasury and Commerce each shall make recommendations separately to the President, through the Assistant to the President for Homeland Security and Counterterrorism and the Assistant to the President for Economic Affairs, that shall include analysis of the benefits and relative effectiveness of such incentives, and whether the incentives would require legislation or can be provided under existing law and authorities to participants in the Program.

(e) Within 120 days of the date of this order, the Secretary of Defense and the Administrator of General Services, in consultation with the Secretary and the Federal Acquisition Regulatory Council, shall make recommendations to the President, through the Assistant to the President for Homeland Security and Counterterrorism and the Assistant to the President for Economic Affairs, on the feasibility, security benefits, and relative merits of incorporating security standards into acquisition planning and contract administration. The report shall address what steps can be taken to harmonize and make consistent existing procurement requirements related to cybersecurity.

SEC. 9. Identification of Critical Infrastructure at Greatest Risk. (a) Within 150 days of the date of this order, the Secretary shall use a risk-based approach to identify critical infrastructure where a cybersecurity incident could reasonably result in catastrophic regional or national effects on public health or safety, economic security, or national security. In identifying critical

infrastructure for this purpose, the Secretary shall use the consultative process established in section 6 of this order and draw upon the expertise of Sector-Specific Agencies. The Secretary shall apply consistent, objective criteria in identifying such critical infrastructure. The Secretary shall not identify any commercial information technology products or consumer information technology services under this section. The Secretary shall review and update the list of identified critical infrastructure under this section on an annual basis, and provide such list to the President, through the Assistant to the President for Homeland Security and Counterterrorism and the Assistant to the President for Economic Affairs.

(b) Heads of Sector-Specific Agencies and other relevant agencies shall provide the Secretary with information necessary to carry out the responsibilities under this section. The Secretary shall develop a process for other relevant stakeholders to submit information to assist in making the identifications required in subsection (a) of this section.

(c) The Secretary, in coordination with Sector-Specific Agencies, shall confidentially notify owners and operators of critical infrastructure identified under subsection (a) of this section that they have been so identified, and ensure identified owners and operators are provided the basis for the determination. The Secretary shall establish a process through which owners and operators of critical infrastructure may submit relevant information and request reconsideration of identifications under subsection (a) of this section.

SEC. 10. *Adoption of Framework.* (a) Agencies with responsibility for regulating the security of critical infrastructure shall engage in a consultative process with DHS, OMB, and the National Security Staff to review the preliminary Cybersecurity Framework and determine if current cybersecurity regulatory requirements are sufficient given current and projected risks. In making such determination, these agencies shall consider the identification of critical infrastructure required under section 9 of this order. Within 90 days of the publication of the preliminary Framework, these agencies shall submit a report to the President, through the Assistant to the President for Homeland Security and Counterterrorism, the Director of OMB, and the Assistant to the President for Economic Affairs, that states whether or not the agency has clear authority to establish requirements based upon the Cybersecurity Framework to sufficiently address current and projected cyber risks to critical infrastructure, the existing authorities identified, and any additional authority required.

(b) If current regulatory requirements are deemed to be insufficient, within 90 days of publication of the final Framework, agencies identified in subsection (a) of this section shall propose prioritized, risk-based, efficient, and coordinated actions, consistent with Executive Order 12866 of September 30, 1993 (Regulatory Planning and Review), Executive Order 13563 of January 18, 2011 (Improving Regulation and Regulatory Review), and Executive Order 13609 of May 1, 2012 (Promoting International Regulatory Cooperation), to mitigate cyber risk.

(c) Within 2 years after publication of the final Framework, consistent with Executive Order 13563 and Executive Order 13610 of May 10, 2012 (Identifying and Reducing Regulatory Burdens), agencies identified in subsection (a) of this section shall, in consultation with owners and operators of critical infrastructure, report to OMB on any critical infrastructure subject to ineffective, conflicting, or excessively burdensome cybersecurity requirements. This report shall describe efforts made by agencies, and make recommendations for further actions, to minimize or eliminate such requirements.

(d) The Secretary shall coordinate the provision of technical assistance to agencies identified in subsection (a) of this section on the development of their cybersecurity workforce and programs.

(e) Independent regulatory agencies with responsibility for regulating the security of critical infrastructure

are encouraged to engage in a consultative process with the Secretary, relevant Sector-Specific Agencies, and other affected parties to consider prioritized actions to mitigate cyber risks for critical infrastructure consistent with their authorities.

SEC. 11. *Definitions.* (a) “Agency” means any authority of the United States that is an “agency” under 44 U.S.C. 3502(1), other than those considered to be independent regulatory agencies, as defined in 44 U.S.C. 3502(5).

Nothing in this order shall be construed to provide an agency with authority for regulating the security of critical infrastructure in addition to or to a greater extent than the authority the agency has under existing law. Nothing in this order shall be construed to alter or limit any authority or responsibility of an agency under existing law.

(b) Nothing in this order shall be construed to impair or otherwise affect the functions of the Director of OMB relating to budgetary, administrative, or legislative proposals.

(c) All actions taken pursuant to this order shall be consistent with requirements and authorities to protect intelligence and law enforcement sources and methods. EXECUTIVE ORDER NO. 13650

Ex. Ord. No. 13650, Aug. 1, 2013, 78 F.R. 48029, was transferred to a note set out under section 621 of this title.

EX. ORD. NO. 13691. PROMOTING PRIVATE SECTOR CYBERSECURITY INFORMATION SHARING

Ex. Ord. No. 13691, Feb. 13, 2015, 80 F.R. 9349, provided: By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. *Policy.* In order to address cyber threats to public health and safety, national security, and economic security of the United States, private compa-

nies, nonprofit organizations, executive departments and agencies (agencies), and other entities must be able to share information related to cybersecurity risks and incidents and collaborate to respond in as close to real time as possible.

Organizations engaged in the sharing of information related to cybersecurity risks and incidents play an invaluable role in the collective cybersecurity of the United States. The purpose of this order is to encourage the voluntary formation of such organizations, to establish mechanisms to continually improve the capabilities and functions of these organizations, and to better allow these organizations to partner with the Federal Government on a voluntary basis.

Such information sharing must be conducted in a manner that protects the privacy and civil liberties of individuals, that preserves business confidentiality, that safeguards the information being shared, and that protects the ability of the Government to detect, investigate, prevent, and respond to cyber threats to the public health and safety, national security, and economic security of the United States.

This order builds upon the foundation established by Executive Order 13636 of February 12, 2013 (Improving Critical Infrastructure Cybersecurity), and Presidential Policy Directive-21 (PPD-21) of February 12, 2013 (Critical Infrastructure Security and Resilience).

Policy coordination, guidance, dispute resolution, and periodic in-progress reviews for the functions and programs described and assigned herein shall be provided through the interagency process established in Presidential Policy Directive-1 [sic] (PPD-1 [PPD-1]) of February 13, 2009 (Organization of the National Security Council System), or any successor.

SEC. 2. Information Sharing and Analysis Organizations.

(a) The Secretary of Homeland Security (Secretary) shall strongly encourage the development and formation of Information Sharing and Analysis Organizations (ISAOs).

(b) ISAOs may be organized on the basis of sector, sub-sector, region, or any other affinity, including in response to particular emerging threats or vulnerabilities. ISAO membership may be drawn from the public or private sectors, or consist of a combination of public and private sector organizations. ISAOs may be formed as for-profit or nonprofit entities.

(c) The National Cybersecurity and Communications Integration Center (NCCIC), established under section 226(b) of the Homeland Security Act of 2002 (the “Act”), shall engage in continuous, collaborative, and inclusive coordination with ISAOs on the sharing of information related to cybersecurity risks and incidents, addressing such risks and incidents, and strengthening information security systems consistent with sections 212 and 226 of the Act.

(d) In promoting the formation of ISAOs, the Secretary shall consult with other Federal entities responsible for conducting cybersecurity activities, including Sector-Specific Agencies, independent regulatory agencies at their discretion, and national security and law enforcement agencies.

SEC. 3. ISAO Standards Organization. (a) The Secretary, in consultation with other Federal entities responsible for conducting cybersecurity and related activities, shall, through an open and competitive process, enter into an agreement with a nongovernmental organization to serve as the ISAO Standards Organization (SO), which shall identify a common set of voluntary standards or guidelines for the creation and functioning of ISAOs under this order. The standards shall further the goal of creating robust information sharing related to cybersecurity risks and incidents with ISAOs and among ISAOs to create deeper and broader networks of information sharing nationally, and to foster the development and adoption of automated mechanisms for the sharing of information. The standards will address the baseline capabilities that ISAOs under this order should possess and be able to demonstrate. FINDINGS

Pub. L. 111–258, §2, Oct. 7, 2010, 124 Stat. 2648, provided that: “Congress finds the following:

“(1) The National Commission on Terrorist Attacks Upon the United States (commonly known as the ‘9/11 Commission’) concluded that security requirements nurture over-classification and excessive compartmentation of information among agencies.

“(2) The 9/11 Commission and others have observed that the over-classification of information interferes with accurate, actionable, and timely information sharing, increases the cost of information security, and needlessly limits stakeholder and public access to information.

“(3) Over-classification of information causes considerable confusion regarding what information may be shared with whom, and negatively affects the dissemination of information within the Federal Government and with State, local, and tribal entities, and with the private sector.

“(4) Over-classification of information is antithetical to the creation and operation of the information sharing environment established under section 1016 of the Intelligence Reform and Terrorism Prevention Act of 2004 (6 U.S.C. 485).

“(5) Federal departments or agencies authorized to make original classification decisions or that perform derivative classification of information are responsible for developing, implementing, and administering policies, procedures, and programs that promote compliance with applicable laws, executive orders, and other authorities pertaining to the proper use of classification markings and the policies of the National Archives and Records Administration.”

(A) has completed at least 3 years of current continuous service with 1 or more covered entities; and

(B) is serving under an appointment without time limitation,

(b) Strategic restructuring plan

Before the Attorney General or the Secretary obligates any resources for voluntary separation incentive payments under this section, such official shall submit to the appropriate committees of Congress a strategic restructuring plan, which shall include—

(1) an organizational chart depicting the covered entities after their restructuring pursuant to this chapter;

(2) a summary description of how the authority under this section will be used to help carry out that restructuring; and

(3) the information specified in section 663(b)(2) of Public Law 104-208 (5 U.S.C. 5597 note).

(A) the 3-month period beginning on the date on which such payment is offered or made available to such employee; or

(B) the 3-year period beginning on November 25, 2002,

whichever occurs first;

(5) shall not be a basis for payment, and shall not be included in the computation, of any other type of Government benefit; and

(6) shall not be taken into account in determining the amount of any severance pay to which the employee may be entitled under section 5595 of title 5, based on any other separation.

(d) Additional agency contributions to the retirement fund

(1) In general

In addition to any payments which it is otherwise required to make, the Department

of Justice and the Department of Homeland Security shall, for each fiscal year with respect to which it makes any voluntary separation incentive payments under this section, remit to the Office of Personnel Management for deposit in the Treasury of the United States to the credit of the Civil Service Retirement and Disability Fund the amount required under paragraph (2).

(B) Second method

The amount under this subparagraph shall, for any fiscal year, be equal to 45 percent of the sum total of the final basic pay of the employees described in paragraph (3).

(3) Computations to be based on separations occurring in the fiscal year involved

The employees described in this paragraph are those employees who receive a voluntary separation incentive payment under this section based on their separating from service during the fiscal year with respect to which the payment under this subsection relates.

(4) Final basic pay defined

In this subsection, the term “final basic pay” means, with respect to an employee, the total amount of basic pay which would be payable for a year of service by such employee, computed using the employee’s final rate of basic pay, and, if last serving on other than a full-time basis, with appropriate adjustment therefor.

(e) Effect of subsequent employment with the Government

An individual who receives a voluntary separation incentive payment under this section and who, within 5 years after the date of the separation on which the payment is based, accepts any compensated employment with the Government or works for any agency of the Government through a personal services contract, shall be required to pay, prior to the individual’s first day of employment, the entire amount of the incentive payment. Such payment shall be made to the covered entity from which the individual separated or, if made on or after the transfer date, to the Deputy Secretary or the Under Secretary for Border and Transportation Security (for transfer to the appropriate component of the Department of Homeland Security, if necessary).

(f) Effect on employment levels**(1) Intended effect**

Voluntary separations under this section are not intended to necessarily reduce the total number of full-time equivalent positions in any covered entity.

(2) Use of voluntary separations

A covered entity may redeploy or use the full-time equivalent positions vacated by voluntary separations under this section to make other positions available to more critical locations or more critical occupations.

CHANGE OF NAME

Select Committee on Homeland Security, which was established by House Resolution 449, One Hundred Seventh Congress, June 19, 2002, and reestablished by section 4 of House Resolution 5, One Hundred Eighth Congress, Jan. 4, 2005, was not reestablished in the One Hundred Ninth Congress. Rule X(1)(i) of the Rules of the House of Representatives, One Hundred Ninth Congress, as amended by section 2 of House Resolution 5, One Hundred Ninth Congress, Jan. 4, 2005, established a Committee on Homeland Security. For jurisdiction of the Select Committee on Homeland Security and of the Committee on Homeland Security, see section 4 of House Resolution 5, One Hundred Eighth Congress, and Rule X(1)(i) of the Rules of the House, One Hundred Ninth Congress.

Committee on Government Reform of House of Representatives changed to Committee on Oversight and Government Reform of House of Representatives by House Resolution No. 6, One Hundred Tenth Congress, Jan. 5, 2007.

Committee on Governmental Affairs of Senate changed to Committee on Homeland Security and Governmental Affairs of Senate, effective Jan. 4, 2005, by Senate Resolution No. 445, One Hundred Eighth Congress, Oct. 9, 2004.

FINDINGS

Pub. L. 108-330, § 2, Oct. 16, 2004, 118 Stat. 1275, provided that: “The Congress finds the following:

“(1) Influential financial management leadership is of vital importance to the mission success of the Department of Homeland Security. For this reason, the Chief Financial Officer of the Department must be a key figure in the Department’s management.

“(2) To provide a sound financial leadership structure, the provisions of law enacted by the Chief Financial Officers Act of 1990 (Public Law 101-576) [see Short Title of 1990 Amendment note set out under section 501 of Title 31, Money and Finance] provide that the Chief Financial Officer of each of the Federal executive departments is to be a Presidential appointee who reports directly to the Secretary of that department on financial management matters. Because the Department of Homeland Security was only recently created, the provisions enacted by that Act must be amended to include the Department within these provisions.

“(3) The Department of Homeland Security was created by consolidation of 22 separate Federal agencies, each with its own accounting and financial management system. None of these systems was developed with a view to executing the mission of the Department of Homeland Security to prevent terrorist attacks within the United States, reduce the Nation’s vulnerability to terrorism, and minimize the damage and assist in the recovery from terrorist attacks. For these reasons, a strong Chief Financial Officer is needed within the Department both to consolidate financial management operations, and to insure that management control systems are comprehensively designed to achieve the mission and execute the strategy of the Department.

“(4) The provisions of law enacted by the Chief Financial Officers Act of 1990 require agency Chief Financial Officers to improve the financial information

available to agency managers and the Congress. Those provisions also specify that agency financial management systems must provide for the systematic measurement of performance. In the case of the Department of Homeland Security, therefore, it is vitally important that management control systems be designed with a clear view of a homeland security strategy, including the priorities of the Department in addressing those risks of terrorism deemed most significant based upon a comprehensive assessment of potential threats, vulnerabilities, criticality, and consequences. For this reason, Federal law should be amended to clearly state the responsibilities of the Chief Financial Officer of the Department of Homeland Security to provide management control information, for the benefit of managers within the Department and to help inform the Congress, that permits an assessment of the Department’s performance in executing a homeland security strategy.”

EX. ORD. NO. 13629. ESTABLISHING THE WHITE HOUSE
HOMELAND SECURITY PARTNERSHIP COUNCIL

Ex. Ord. No. 13629, Oct. 26, 2012, 77 F.R. 66353, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to advance the Federal Government's use of local partnerships to address homeland security challenges, it is hereby ordered as follows:

SECTION 1. Policy. The purpose of this order is to maximize the Federal Government's ability to develop local partnerships in the United States to support homeland security priorities. Partnerships are collaborative working relationships in which the goals, structure, and roles and responsibilities of the relationships are mutually determined. Collaboration enables the Federal Government and its partners to use resources more efficiently, build on one another's expertise, drive innovation, engage in collective action, broaden investments to achieve shared goals, and improve performance. Partnerships enhance our ability to address homeland security priorities, from responding to natural disasters to preventing terrorism, by utilizing diverse perspectives, skills, tools, and resources.

The National Security Strategy emphasizes the importance of partnerships, underscoring that to keep our Nation safe “we must tap the ingenuity outside government through strategic partnerships with the private sector, nongovernmental organizations, foundations, and community-based organizations. Such partnerships are critical to U.S. success at home and abroad, and we will support them through enhanced opportunities for engagement, coordination, transparency, and information sharing.” This approach recognizes that, given the complexities and range of challenges, we must institutionalize an all-of-Nation effort to address the evolving threats to the United States.

PART G—SUPPORT ANTI-TERRORISM BY FOSTERING EFFECTIVE TECHNOLOGIES

§ 441. Administration

(a) In general

The Secretary shall be responsible for the administration of this part.

(b) Designation of qualified anti-terrorism technologies

The Secretary may designate anti-terrorism technologies that qualify for protection under

the system of risk management set forth in this part in accordance with criteria that shall include, but not be limited to, the following:

- (1) Prior United States Government use or demonstrated substantial utility and effectiveness.
- (2) Availability of the technology for immediate deployment in public and private settings.
- (3) Existence of extraordinarily large or extraordinarily unquantifiable potential third party liability risk exposure to the Seller or other provider of such anti-terrorism technology.
- (4) Substantial likelihood that such anti-terrorism technology will not be deployed unless protections under the system of risk management provided under this part are extended.
- (5) Magnitude of risk exposure to the public if such anti-terrorism technology is not deployed.
- (6) Evaluation of all scientific studies that can be feasibly conducted in order to assess the capability of the technology to substantially reduce risks of harm.
- (7) Anti-terrorism technology that would be effective in facilitating the defense against acts of terrorism, including technologies that prevent, defeat or respond to such acts.

(Pub. L. 107-296, title VIII, § 862, Nov. 25, 2002, 116 Stat. 2238.)

SHORT TITLE

For short title of this part as the “Support Anti-terrorism by Fostering Effective Technologies Act of 2002” or the “SAFETY Act”, see section 861 of Pub. L. 107-296, set out as a Short Title note under section 101 of this title.

§ 442. Litigation management

(a) Federal cause of action

(1) In general

There shall exist a Federal cause of action for claims arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller. The substantive law for decision in any such action shall be derived from the law, including choice of law principles, of the State in which such acts of terrorism occurred, unless such law is inconsistent with or preempted by Federal law. Such Federal cause of action shall be brought only for claims for injuries that are proximately caused by sellers that provide qualified anti-terrorism technology to Federal and non-Federal government customers.

(2) Jurisdiction

Such appropriate district court of the United States shall have original and exclusive jurisdiction over all actions for any claim for loss of property, personal injury, or death

arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller.

(b) Special rules

In an action brought under this section for damages the following provisions apply:

(1) Punitive damages

No punitive damages intended to punish or deter, exemplary damages, or other damages not intended to compensate a plaintiff for actual losses may be awarded, nor shall any party be liable for interest prior to the judgment.

(2) Noneconomic damages

(A) In general

Noneconomic damages may be awarded against a defendant only in an amount directly proportional to the percentage of responsibility of such defendant for the harm to the plaintiff, and no plaintiff may recover noneconomic damages unless the plaintiff suffered physical harm.

(B) Definition

For purposes of subparagraph (A), the term “noneconomic damages” means damages for losses for physical and emotional pain, suffering, inconvenience, physical impairment, mental anguish, disfigurement, loss of enjoyment of life, loss of society and companionship, loss of consortium, hedonic damages, injury to reputation, and any other nonpecuniary losses.

(c) Collateral sources

Any recovery by a plaintiff in an action under this section shall be reduced by the amount of collateral source compensation, if any, that the plaintiff has received or is entitled to receive as a result of such acts of terrorism that result or may result in loss to the Seller.

(d) Government contractor defense

(1) In general

Should a product liability or other lawsuit be filed for claims arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies approved by the Secretary, as provided in paragraphs (2) and (3) of this subsection, have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller, there shall be a rebuttable presumption that the government contractor defense applies in such lawsuit. This presumption shall only be overcome by evidence showing that the Seller acted fraudulently or with willful misconduct in submitting information to the Secretary during the course of the Secretary’s consideration of such technology under this subsection. This presumption of the government contractor defense shall apply regardless of whether the claim against the Seller arises from a sale of the product to Federal Government or non-Federal Government customers.

(2) Exclusive responsibility

The Secretary will be exclusively responsible for the review and approval of anti-terrorism technology for purposes of establishing a government contractor defense in any product liability lawsuit for claims arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies approved by the Secretary, as provided in this paragraph and paragraph (3), have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller. Upon the Seller's submission to the Secretary for approval of anti-terrorism technology, the Secretary will conduct a comprehensive review of the design of such technology and determine whether it will perform as intended, conforms to the Seller's specifications, and is safe for use as intended. The Seller will conduct safety and hazard analyses on such technology and will supply the Secretary with all such information.

(3) Certificate

For anti-terrorism technology reviewed and approved by the Secretary, the Secretary will issue a certificate of conformance to the Seller and place the anti-terrorism technology on an Approved Product List for Homeland Security.

(e) Exclusion

Nothing in this section shall in any way limit the ability of any person to seek any form of recovery from any person, government, or other entity that—

- (1) attempts to commit, knowingly participates in, aids and abets, or commits any act of terrorism, or any criminal act related to or resulting from such act of terrorism; or
- (2) participates in a conspiracy to commit any such act of terrorism or any such criminal act.

(Pub. L. 107-296, title VIII, § 863, Nov. 25, 2002, 116 Stat. 2239.)

§ 443. Risk management**(a) In general****(1) Liability insurance required**

Any person or entity that sells or otherwise provides a qualified anti-terrorism technology to Federal and non-Federal Government customers ("Seller") shall obtain liability insurance of such types and in such amounts as shall be required in accordance with this section and certified by the Secretary to satisfy otherwise compensable third-party claims arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against or response or recovery from such act.

(2) Maximum amount

For the total claims related to 1 such act of terrorism, the Seller is not required to obtain liability insurance of more than the maximum amount of liability insurance reasonably available from private sources on the world market at prices and terms that will not un-

reasonably distort the sales price of Seller's anti-terrorism technologies.

(3) Scope of coverage

Liability insurance obtained pursuant to this subsection shall, in addition to the Seller, protect the following, to the extent of their potential liability for involvement in the manufacture, qualification, sale, use, or operation of qualified anti-terrorism technologies deployed in defense against or response or recovery from an act of terrorism:

- (A) Contractors, subcontractors, suppliers, vendors and customers of the Seller.
- (B) Contractors, subcontractors, suppliers, and vendors of the customer.

(4) Third party claims

Such liability insurance under this section shall provide coverage against third party claims arising out of, relating to, or resulting from the sale or use of anti-terrorism technologies.

(b) Reciprocal waiver of claims

The Seller shall enter into a reciprocal waiver of claims with its contractors, subcontractors, suppliers, vendors and customers, and contractors and subcontractors of the customers, involved in the manufacture, sale, use or operation of qualified anti-terrorism technologies, under which each party to the waiver agrees to be responsible for losses, including business interruption losses, that it sustains, or for losses sustained by its own employees resulting from an activity resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against or response or recovery from such act.

(c) Extent of liability

Notwithstanding any other provision of law, liability for all claims against a Seller arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller, whether for compensatory or punitive damages or for contribution or indemnity, shall not be in an amount greater than the limits of liability insurance coverage required to be maintained by the Seller under this section.

(Pub. L. 107-296, title VIII, § 864, Nov. 25, 2002, 116 Stat. 2240.)

§ 465. Joint Interagency Task Force

(a) Establishment

The Secretary may establish and operate a permanent Joint Interagency Homeland Security Task Force composed of representatives from military and civilian agencies of the United States Government for the purposes of anticipating terrorist threats against the United States and taking appropriate actions to prevent harm to the United States.

(b) Structure

It is the sense of Congress that the Secretary should model the Joint Interagency Homeland Security Task Force on the approach taken by the Joint Interagency Task Forces for drug interdiction at Key West, Florida and Alameda, California, to the maximum extent feasible and appropriate.

(Pub. L. 107-296, title VIII, §885, Nov. 25, 2002, 116 Stat. 2247.)

§ 466. Sense of Congress reaffirming the continued importance and applicability of the Posse Comitatus Act

(a) Findings

Congress finds the following:

(1) Section 1385 of title 18 (commonly known as the “Posse Comitatus Act”) prohibits the use of the Armed Forces as a posse comitatus to execute the laws except in cases and under circumstances expressly authorized by the Constitution or Act of Congress.

(2) Enacted in 1878, the Posse Comitatus Act was expressly intended to prevent United States Marshals, on their own initiative, from calling on the Army for assistance in enforcing Federal law.

(3) The Posse Comitatus Act has served the Nation well in limiting the use of the Armed Forces to enforce the law.

(4) Nevertheless, by its express terms, the Posse Comitatus Act is not a complete barrier to the use of the Armed Forces for a range of domestic purposes, including law enforcement functions, when the use of the Armed Forces is authorized by Act of Congress or the President determines that the use of the Armed Forces is required to fulfill the President’s obligations under the Constitution to respond promptly in time of war, insurrection, or other serious emergency.

(5) Existing laws, including chapter 15 of title 10 (commonly known as the “Insurrec-

tion Act”), and the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), grant the President broad powers that may be invoked in the event of domestic emergencies, including an attack against the Nation using weapons of mass destruction, and these laws specifically authorize the President to use the Armed Forces to help restore public order.

(b) Sense of Congress

Congress reaffirms the continued importance of section 1385 of title 18, and it is the sense of Congress that nothing in this chapter should be construed to alter the applicability of such section to any use of the Armed Forces as a posse comitatus to execute the laws.

FINDINGS

Pub. L. 114-22, title III, §302(a), May 29, 2015, 129 Stat. 251, provided that: “Congress finds the following:

“(1) The illegal market for the production and distribution of child abuse imagery is a growing threat to children in the United States. International demand for this material creates a powerful incentive for the rape, abuse, and torture of children within the United States.

“(2) The targeting of United States children by international criminal networks is a threat to the homeland security of the United States. This threat must be fought with trained personnel and highly specialized counter-child-exploitation strategies and technologies.

“(3) The United States Immigration and Customs Enforcement of the Department of Homeland Security serves a critical national security role in protecting the United States from the growing international threat of child exploitation and human trafficking.

“(4) The Cyber Crimes Center of the United States Immigration and Customs Enforcement is a vital national resource in the effort to combat international child exploitation, providing advanced expertise and assistance in investigations, computer forensics, and victim identification.

PART I—INFORMATION SHARING

§ 481. Short title; findings; and sense of Congress

(a) Short title

This part may be cited as the “Homeland Security Information Sharing Act”.

(b) Findings

Congress finds the following:

(1) The Federal Government is required by the Constitution to provide for the common defense, which includes terrorist attack.

(2) The Federal Government relies on State and local personnel to protect against terrorist attack.

(3) The Federal Government collects, creates, manages, and protects classified and sen-

sitive but unclassified information to enhance homeland security.

(4) Some homeland security information is needed by the State and local personnel to prevent and prepare for terrorist attack.

(5) The needs of State and local personnel to have access to relevant homeland security information to combat terrorism must be reconciled with the need to preserve the protected status of such information and to protect the sources and methods used to acquire such information.

(6) Granting security clearances to certain State and local personnel is one way to facilitate the sharing of information regarding specific terrorist threats among Federal, State, and local levels of government.

(7) Methods exist to declassify, redact, or otherwise adapt classified information so it may be shared with State and local personnel without the need for granting additional security clearances.

(8) State and local personnel have capabilities and opportunities to gather information on suspicious activities and terrorist threats not possessed by Federal agencies.

(9) The Federal Government and State and local governments and agencies in other jurisdictions may benefit from such information.

(10) Federal, State, and local governments and intelligence, law enforcement, and other emergency preparation and response agencies must act in partnership to maximize the benefits of information gathering and analysis to prevent and respond to terrorist attacks.

(11) Information systems, including the National Law Enforcement Telecommunications System and the Terrorist Threat Warning System, have been established for rapid sharing of classified and sensitive but unclassified information among Federal, State, and local entities.

(12) Increased efforts to share homeland security information should avoid duplicating existing information systems.

(c) Sense of Congress

It is the sense of Congress that Federal, State, and local entities should share homeland security information to the maximum extent practicable, with special emphasis on hard-to-reach urban and rural communities.

(5) Each appropriate Federal agency, as determined by the President, shall have access to each information sharing system through which information is shared under paragraph (1), and shall therefore have access to all information, as appropriate, shared under such paragraph.

(1) The President shall prescribe procedures under which Federal agencies may, to the extent the President considers necessary, share with appropriate State and local personnel homeland security information that remains classified or otherwise protected after the determinations prescribed under the procedures set forth in subsection (a).

(2) It is the sense of Congress that such procedures may include 1 or more of the following means:

- With respect to the Nuclear Incident Response Team (regardless of whether it is operating as an organizational unit of the Department pursuant to the Act):

1. Establishing standards and certifying when those standards have been met;

2. Conducting joint and other exercises and training and evaluating performance; and,

3. Providing funds to the Department of Energy and the Environmental Protection Agency, as appropriate, for homeland security planning, exercises and training, and equipment.

- Providing the Federal Government’s response to terrorist attacks and major disasters, including:

1. Managing such response;

2. Directing the Domestic Emergency Support Team, the Strategic National Stockpile, the National Disaster Medical System, and (when operating as an organizational unit of the Department pursuant to the Act) the Nuclear Incident Response Team;

3. Overseeing the Metropolitan Medical Response System; and

4. Coordinating other Federal response resources in the event of a terrorist attack or major disaster.

- Aiding the recovery from terrorist attacks and major disasters;

- Building a comprehensive national incident management system with Federal, State, and local government personnel, agencies, and authorities, to respond to such attacks and disasters.

- Consolidating existing Federal Government emergency response plans into a single, coordinated national response plan; and
- Developing comprehensive programs for developing interoperative communications technology, and helping to ensure that emergency response providers acquire such technology.

5. Other Officers and Functions

a. *Director of the Bureau of Citizenship and Immigration Services:* Will report directly to the Deputy Secretary; and will be responsible for the following:

- Establishing the policies for performing such functions as are transferred to the Director by Section 451 of the Act [6 U.S.C. 271] or otherwise vested in the Director by law.
- Oversight of the administration of such policies.
- Advising the Deputy Secretary with respect to any policy or operation of the Bureau of Citizenship and Immigration Services that may affect the Bureau of Border Security [now Bureau of Immigration and Customs Enforcement] of the Department, including potentially conflicting policies or operations.
- Establishing national immigration services policies and priorities.
- Meeting regularly with the Ombudsman described in Section 452 of the Act [6 U.S.C. 272] to correct serious service problems identified by the Ombudsman.
- Establishing procedures requiring a formal response to any recommendations submitted in the Ombudsman's annual report to Congress within three months after its submission to Congress.

b. *Citizenship and Immigration Services Ombudsman:* Will report directly to the Deputy Secretary; and will be responsible for the following:

- Assisting individuals and employers in resolving problems with the Bureau of Citizenship and Immigration Services;
- Identifying areas in which individuals and employers have problems in dealing with the Bureau of Citizenship and Immigration Services; and
- Proposing changes in the administrative practices of the Bureau of Citizenship and Immigration Services to mitigate identified problems.

(3) Specification of the funds available to each agency that will be transferred to the Department as a result of transfers under the plan.

- The attached tables [not set out in the Code] provide estimates of the funds available to the agencies and entities that will be transferred to the Department by operation of the Act. The two tables include total funding (mandatory and discretionary including fees) and discretionary funding net of fees. The tables provide the enacted levels for 2002 and 2002 supplementals, and the President's requested levels for 2003.

Because of the current state of the 2003 budget process, information concerning the funds that will be available to each transferring agency on the date of the proposed transfers is not currently available and will not likely be available during the time period in which the President is to submit this Reorganization Plan. As additional information becomes available, it will be provided as may be required in accordance with the procedures under the Act for modification of this Plan or other applicable law.

(4) Specification of the proposed allocations within the Department of unexpended funds transferred in connection with transfers under the plan.

- The attached tables [not set out in the Code] provide estimates of the unobligated balances as of September 30, 2002, for the agencies and programs that will be transferred to the Department. The first table provides estimates of unobligated balances for the accounts that are moving to the Department in whole. The second table provides estimates of the unobli-

gated balances in the accounts of which only a portion will be transferring to the new Department. These latter estimates, however, are of the unobligated balances for the full account, only a portion of which are associated with the activities that will be transferred to the Department. In addition, these unobligated balances are based on the Department of Treasury's estimates as of September 30, 2002, which are the latest available figures. Since October 1, 2002, Departments and agencies (except the Department of Defense) have been operating under continuing resolutions, and, as such, have been spending these balances to maintain current operations.

Authority to reallocate unexpended funds of agencies transferred under this Plan is found in H.J. Res. 124 [Pub. L. 107-294, Nov. 23, 2002, 116 Stat. 2062], the continuing resolution in effect currently and until January 11, 2003. The resolution provides authority for the Office of Management and Budget to transfer an amount not to exceed \$140,000,000 from unobligated balances of appropriations enacted before October 1, 2002 "for organizations and entities that will be transferred to the new Department and for salaries and expenses associated with the initiation of the Department." Such authority may be exercised upon providing 15 days' notice to the Appropriations Committees. We anticipate that it may be necessary to provide funding through such transfers both for transferring entities and for salaries and expenses associated with the initiation of the Department, including, for example, those associated with establishing the Office of the Secretary and other new offices provided for in the Act. Any plan to use such funding will follow the procedures required under the continuing resolution, including the provision of at least 15 days' notice to the Appropriations Committees.

(5) Specification of any proposed disposition of property, facilities, contracts, records, and other assets and obligations of agencies transferred under the plan.

- There is no intention to dispose of property, facility, contracts, records, and other assets and obligations of agencies transferred under the plan. All of such assets and obligations will transfer with each agency pursuant to Section 1511(d)(1) of the Act [6 U.S.C. 551(d)(1)].
- Prior to and during the transition period (as defined by Section 1501(a)(2) of the Act [6 U.S.C. 541(a)(2)]), the Department may identify property, facilities, contracts, records, and other assets and obligations of agencies transferred that would be candidates for disposition due to duplication, non-use, obsolescence, and the like. If and when any such proposed dispositions are identified, we will follow provisions of the Act relating to modification of this plan or further notification of Congress.

(6) Specification of the proposed allocations within the Department of the functions of the agencies and subdivisions that are not related directly to securing the homeland.

- As agencies and subdivisions are transferred into the Department, any functions of those entities that are not directly related to securing the homeland will continue to be allocated to the agencies and subdivisions in which they are currently incorporated.

[For transfer of functions of Strategic National Stockpile to Secretary of Health and Human Services, with certain exceptions, see section 3(c)(1), (2) of Pub. L. 108-276, set out as a note under section 247d-6b of Title 42, The Public Health and Welfare.]

January 30, 2003

H. Doc. No. 108-32, 108th Congress, 1st Session, provided:

INTRODUCTION

This Reorganization Plan Modification is submitted pursuant to the Homeland Security Act (“the Act”) of 2002 [Pub. L. 107-296, Nov. 25, 2002, 116 Stat. 2135]. All elements of the Department of Homeland Security Reorganization Plan of November 25, 2002 (“the Plan”) [set out above] remain as submitted except for those modifications addressed herein.

PURPOSE OF MODIFICATION

This modification of the Plan is to establish and specify organizational units within the Border and Transportation Security Directorate. This modification presents a structural change, but does not consolidate, discontinue, or diminish transferred agencies’ current operations in the field.

PLAN MODIFICATIONS

(a) *Rename the “Bureau of Border Security” the “Bureau of Immigration and Customs Enforcement.”* As required by the Act, this Bureau will be headed by an Assistant Secretary who will report directly to the Undersecretary for Border and Transportation Security.

This Bureau will comprise Immigration Naturalization Service (INS) interior enforcement functions, including the detention and removal program, the intelligence program, and the investigations program. At the same time, pursuant to this modification, the interior enforcement resources and missions of the Customs Service and the Federal Protective Service will be added to this Bureau. The mission of the Bureau is:

1. To enforce the full range of immigration and customs laws within the interior of the United States; and,
2. To protect specified federal buildings.

The Assistant Secretary will:

1. Establish and oversee the administration of the policies for performing the detention and removal program, the intelligence program, and the investigation program functions as are—

(a) transferred to the Under Secretary for Border and Transportation Security by Section 441 of the Act [6 U.S.C. 251] and delegated to the Assistant Secretary by the Under Secretary for Border and Transportation Security; or

(b) otherwise vested in the Assistant Secretary by law.

2. Advise the Under Secretary for Border and Transportation Security with respect to any policy or oper-

ation of the Bureau that may affect the Bureau of Citizenship and Immigration Services established under subtitle E of the Act [probably means subtitle E of title IV of the Act, 6 U.S.C. 271 et seq.], including potentially conflicting policies and operations.

(b) *Rename the “Customs Service” the “Bureau of Customs and Border Protection.”* This Bureau will be headed by the Commissioner of Customs and will report to the Under Secretary for Border and Transportation Security.

The Bureau will contain the resources and missions relating to borders and ports of entry of the Customs Service, the INS, including the Border Patrol and the inspections program, and the agricultural inspections function of the Agricultural Quarantine Inspection program.

The Commissioner will:

1. Establish and oversee the administration of the policies for performing the Border Patrol and inspections program functions as are—

(a) transferred to the Under Secretary for Border and Transportation Security by Section 441 of the Act [6 U.S.C. 251] and delegated to the Commissioner by the Under Secretary for Border and Transportation Security; or

(b) otherwise vested in the Assistant Secretary [probably should be “Commissioner”] by law.

2. Advise the Under Secretary for Border and Transportation Security with respect to any policy or operation of the Bureau that may affect the Bureau of Citizenship and Immigration Services established under subtitle E of the Act [probably means subtitle E of title IV of the Act, 6 U.S.C. 271 et seq.], including potentially conflicting policies and operations.

IMPLEMENTATION DATE

March 1, 2003

ELEMENTS REQUIRED BY THE ACT TO BE SUBMITTED WITH MODIFIED PLAN

(1) *Identification of any functions of agencies transferred to the Department pursuant to this Act that will not be transferred to the Department under the plan.*

None.

(2) *Specification of the steps to be taken by the Secretary to organize the Department, including the delegation or assignment of functions transferred to the Department among officers of the Department in order to permit the Department to carry out the functions transferred under the plan.*

See plan modifications above.

(3) *Specification of the funds available to each agency that will be transferred to the Department as a result of transfers under the plan.*

The table attached at Tab A [not set out in the Code] provides estimates of the funds available to the agencies affected by this modification that will be transferred to the Department by operation of the Act. The table includes total funding (mandatory and discretionary including fees) and discretionary funding net of fees. The table provides the President’s requested levels for 2003.

Because of the current state of the 2003 budget process, information concerning the funds that will be available to each transferring agency on the date of the proposed transfers is not currently available. As additional information becomes available, it will be provided as may be required in accordance with the procedures under the Act for modification of this Plan or other applicable law.

(4) *Specification of the proposed allocations within the Department of unexpended funds transferred in connection with transfers under the plan.*

The table attached at Tab B [not set out in the Code] provides updated estimates of the unobligated balances as of September 30, 2002, for the agencies affected by this modification that will be transferred to the Department. Since October 1, 2002, these agencies have been operating under continuing resolutions, and, as such, have been spending these balances to maintain

current operations. As additional information becomes available, it will be provided as may be required in accordance with the procedures under the Act for modification of this Plan or other applicable law.

(5) *Specification of any proposed disposition of property, facilities, contracts, records, and other assets and obligations of agencies transferred under the plan.*

There is no intention to dispose of property, facilities, contracts, records, and other assets and obligations of agencies transferred under this modification. All such assets and obligations will transfer with each agency pursuant to Section 1511(d)(1) of the Act [6 U.S.C. 551(d)(1)].

(6) *Specification of the proposed allocations within the Department of the functions of the agencies and subdivisions that are not related directly to securing the homeland.*

PART B—TRANSITIONAL PROVISIONS

§ 551. Transitional authorities

(a) Provision of assistance by officials

Until the transfer of an agency to the Department, any official having authority over or functions relating to the agency immediately before the effective date of this chapter shall provide to the Secretary such assistance, including the use of personnel and assets, as the Secretary may request in preparing for the transfer and integration of the agency into the Department.

AMENDMENTS

2010—Subsec. (a)(10) to (14). Pub. L. 111-140, §4(a)(1), added pars. (10) to (13) and redesignated former par. (10) as (14).

Subsec. (b). Pub. L. 111-140, §4(a)(2), added subsec. (b).

FINDINGS

Pub. L. 111-140, §2, Feb. 16, 2010, 124 Stat. 31, provided that: “Congress finds the following:

“(1) The threat of a nuclear terrorist attack on American interests, both domestic and abroad, is one of the most serious threats to the national security of the United States. In the wake of an attack, attribution of responsibility would be of utmost importance. Because of the destructive power of a nuclear weapon, there could be little forensic evidence except the radioactive material in the weapon itself.

“(2) Through advanced nuclear forensics, using both existing techniques and those under development, it may be possible to identify the source and pathway of a weapon or material after it is interdicted or deto-

nated. Though identifying intercepted smuggled material is now possible in some cases, pre-detonation forensics is a relatively undeveloped field. The post-detonation nuclear forensics field is also immature, and the challenges are compounded by the pressures and time constraints of performing forensics after a nuclear or radiological attack.

“(3) A robust and well-known capability to identify the source of nuclear or radiological material intended for or used in an act of terror could also deter prospective proliferators. Furthermore, the threat of effective attribution could compel improved security at material storage facilities, preventing the unwitting transfer of nuclear or radiological materials.

“(4)(A) In order to identify special nuclear material and other radioactive materials confidently, it is necessary to have a robust capability to acquire samples in a timely manner, analyze and characterize samples, and compare samples against known signatures of nuclear and radiological material.

“(B) Many of the radioisotopes produced in the detonation of a nuclear device have short half-lives, so the timely acquisition of samples is of the utmost importance. Over the past several decades, the ability of the United States to gather atmospheric samples—often the preferred method of sample acquisition—has diminished. This ability must be restored and modern techniques that could complement or replace existing techniques should be pursued.

“(C) The discipline of pre-detonation forensics is a relatively undeveloped field. The radiation associated with a nuclear or radiological device may affect traditional forensics techniques in unknown ways. In a post-detonation scenario, radiochemistry may provide the most useful tools for analysis and characterization of samples. The number of radiochemistry programs and radiochemists in United States National Laboratories and universities has dramatically declined over the past several decades. The narrowing pipeline of qualified people into this critical field is a serious impediment to maintaining a robust and credible nuclear forensics program.

“(5) Once samples have been acquired and characterized, it is necessary to compare the results against samples of known material from reactors, weapons, and enrichment facilities, and from medical, academic, commercial, and other facilities containing such materials, throughout the world. Some of these samples are available to the International Atomic Energy Agency through safeguards agreements, and some countries maintain internal sample databases. Access to samples in many countries is limited by national security concerns.

“(6) In order to create a sufficient deterrent, it is necessary to have the capability to positively identify the source of nuclear or radiological material, and potential traffickers in nuclear or radiological material must be aware of that capability. International cooperation may be essential to catalogue all existing sources of nuclear or radiological material.”

SECTION 1. *Purpose.* Chemicals, and the facilities where they are manufactured, stored, distributed, and used, are essential to today’s economy. Past and recent tragedies have reminded us, however, that the handling and storage of chemicals are not without risk. The Federal Government has developed and implemented numerous programs aimed at reducing the safety risks and security risks associated with hazardous chemicals. However, additional measures can be taken by executive departments and agencies (agencies) with regulatory authority to further improve chemical facility safety and security in coordination with owners and operators.

SEC. 2. *Establishment of the Chemical Facility Safety and Security Working Group.* (a) There is established a Chemical Facility Safety and Security Working Group (Working Group) co-chaired by the Secretary of Homeland Security, the Administrator of the Environmental Protection Agency (EPA), and the Secretary of Labor or their designated representatives at the Assistant Secretary level or higher. In addition, the Working Group shall consist of the head of each of the following agencies or their designated representatives at the Assistant Secretary level or higher:

- (i) the Department of Justice;
- (ii) the Department of Agriculture; and
- (iii) the Department of Transportation.

(b) In carrying out its responsibilities under this order, the Working Group shall consult with representatives from:

The Working Group is encouraged to invite other affected agencies, such as the Nuclear Regulatory Commission, to attend these meetings as appropriate. Additionally, the Working Group shall provide, within 270 days of the date of this order, a status report to the President through the Chair of the Council on Environmental Quality and the Assistant to the President for Homeland Security and Counterterrorism.

SEC. 3. *Improving Operational Coordination with State, Local, and Tribal Partners.* (a) Within 135 days of the date of this order, the Working Group shall develop a plan to support and further enable efforts by State regulators, State, local, and tribal emergency responders, chemical facility owners and operators, and local and tribal communities to work together to improve chemical facility safety and security. In developing this plan, the Working Group shall:

- (i) identify ways to improve coordination among the Federal Government, first responders, and State, local, and tribal entities;
- (ii) take into account the capabilities, limitations, and needs of the first responder community;
- (iii) identify ways to ensure that State homeland security advisors, State Emergency Response Commissions (SERCs), Tribal Emergency Response Commissions (TERCs), Local Emergency Planning Committees (LEPCs), Tribal Emergency Planning Committees

(TEPCs), State regulators, and first responders have ready access to key information in a useable format, including by thoroughly reviewing categories of chemicals for which information is provided to first responders and the manner in which it is made available, so as to prevent, prepare for, and respond to chemical incidents;

(iv) identify areas, in collaboration with State, local, and tribal governments and private sector partners, where joint collaborative programs can be developed or enhanced, including by better integrating existing authorities, jurisdictional responsibilities, and regulatory programs in order to achieve a more comprehensive engagement on chemical risk management;

(v) identify opportunities and mechanisms to improve response procedures and to enhance information sharing and collaborative planning between chemical facility owners and operators, TEPCs, LEPCs, and first responders;

(b) Within 90 days of the date of this order, the Attorney General, through the head of the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF), shall assess the feasibility of sharing data related to the storage of explosive materials with SERCs, TEPCs, and LEPCs.

(c) Within 90 days of the date of this order, the Secretary of Homeland Security shall assess the feasibility of sharing Chemical Facility Anti-Terrorism Standards (CFATS) data with SERCs, TEPCs, and LEPCs on a categorical basis.

SEC. 4. *Enhanced Federal Coordination.* In order to enhance Federal coordination regarding chemical facility safety and security:

(a) Within 45 days of the date of this order, the Working Group shall deploy a pilot program, involving the EPA, Department of Labor, Department of Homeland Security, and any other appropriate agency, to validate best practices and to test innovative methods for Federal interagency collaboration regarding chemical facility safety and security. The pilot program shall operate in at least one region and shall integrate regional Federal, State, local, and tribal assets, where appropriate. The pilot program shall include innovative and effective methods of collecting, storing, and using facility information, stakeholder outreach, inspection planning, and, as appropriate, joint inspection efforts. The Working Group shall take into account the results of the pilot program in developing integrated standard operating procedures pursuant to subsection (b) of this section.

(b) Within 270 days of the date of this order, the Working Group shall create comprehensive and integrated standard operating procedures for a unified Federal approach for identifying and responding to risks in chemical facilities (including during pre-inspection, inspection execution, post-inspection, and post-incident investigation activities), incident reporting and response procedures, enforcement, and collection, storage, and use of facility information. This effort shall reflect best practices and shall include agency-to-agency referrals and joint inspection procedures where possible and appropriate, as well as consultation with the Federal Emergency Management Agency on post-incident response activities.

(c) Within 90 days of the date of this order, the Working Group shall consult with the Chemical Safety Board (CSB) and determine what, if any, changes are required to existing memorandums of understanding (MOUs) and processes between EPA and CSB, ATF and CSB, and the Occupational Safety and Health Adminis-

tration and CSB for timely and full disclosure of information. To the extent appropriate, the Working Group may develop a single model MOU with CSB in lieu of existing agreements.

SEC. 5. *Enhanced Information Collection and Sharing.* In order to enhance information collection by and sharing across agencies to support more informed decision-making, streamline reporting requirements, and reduce duplicative efforts:

(a) Within 90 days of the date of this order, the Working Group shall develop an analysis, including recommendations, on the potential to improve information collection by and sharing between agencies to help identify chemical facilities which may not have provided all required information or may be non-compliant with Federal requirements to ensure chemical facility safety. This analysis should consider ongoing data-sharing efforts, other federally collected information, and chemical facility reporting among agencies (including information shared with State, local, and tribal governments).

(b) Within 180 days of the date of this order, the Working Group shall produce a proposal for a coordinated, flexible data-sharing process which can be utilized to track data submitted to agencies for federally regulated chemical facilities, including locations, chemicals, regulated entities, previous infractions, and other relevant information. The proposal shall allow for the sharing of information with and by State, local, and tribal entities where possible, consistent with section 3 of this order, and shall address computer-based and non-computer-based means for improving the process in the short-term, if they exist.

(c) Within 180 days of the date of this order, the Working Group shall identify and recommend possible changes to streamline and otherwise improve data collection to meet the needs of the public and Federal, State, local, and tribal agencies (including those charged with protecting workers and the public), consistent with the Paperwork Reduction Act and other relevant authorities, including opportunities to lessen the reporting burden on regulated industries. To the extent feasible, efforts shall minimize the duplicative collection of information while ensuring that pertinent information is shared with all key entities.

SEC. 6. *Policy, Regulation, and Standards Modernization.* (a) In order to enhance safety and security in chemical facilities by modernizing key policies, regulations, and standards, the Working Group shall:

(b) Within 90 days of the date of this order, the Secretary of Homeland Security, the Secretary of Labor, and the Secretary of Agriculture shall develop a list of potential regulatory and legislative proposals to improve the safe and secure storage, handling, and sale of ammonium nitrate and identify ways in which ammonium nitrate safety and security can be enhanced under existing authorities.

(c) Within 90 days of the date of this order, the Administrator of EPA and the Secretary of Labor shall review the chemical hazards covered by the Risk Management Program (RMP) and the Process Safety Management Standard (PSM) and determine if the RMP or PSM can and should be expanded to address additional

regulated substances and types of hazards. In addition, the EPA and the Department of Labor shall develop a plan, including a timeline and resource requirements, to expand, implement, and enforce the RMP and PSM in a manner that addresses the additional regulated substances and types of hazards.

CODIFICATION

Section was enacted as part of the Department of Homeland Security Appropriations Act, 2007, and not as part of the Security and Accountability For Every Port Act of 2006, also known as the SAFE Port Act, which comprises this chapter.

§ 982. Screening and scanning of cargo containers

(a) One hundred percent screening of cargo containers and 100 percent scanning of high-risk containers

(1) Screening of cargo containers

The Secretary shall ensure that 100 percent of the cargo containers originating outside the United States and unloaded at a United States seaport undergo a screening to identify high-risk containers.

(2) Scanning of high-risk containers

The Secretary shall ensure that 100 percent of the containers that have been identified as high-risk under paragraph (1), or through other means, are scanned or searched before such containers leave a United States seaport facility.

(b) Full-scale implementation

(1) In general

A container that was loaded on a vessel in a foreign port shall not enter the United States (either directly or via a foreign port) unless the container was scanned by nonintrusive imaging equipment and radiation detection equipment at a foreign port before it was loaded on a vessel.

(2) Application

Paragraph (1) shall apply with respect to containers loaded on a vessel in a foreign country on or after the earlier of—

(A) July 1, 2012; or

(B) such other date as may be established by the Secretary under paragraph (3).

(3) Establishment of earlier deadline

The Secretary shall establish a date under (2)(B)¹ pursuant to the lessons learned through the pilot integrated scanning systems established under section 981 of this title.

(4) Extensions

The Secretary may extend the date specified in paragraph (2)(A) or (2)(B) for 2 years, and may renew the extension in additional 2-year increments, for containers loaded in a port or ports, if the Secretary certifies to Congress that at least two of the following conditions exist:

(A) Systems to scan containers in accordance with paragraph (1) are not available for purchase and installation.

(B) Systems to scan containers in accordance with paragraph (1) do not have a sufficiently low false alarm rate for use in the supply chain.

(C) Systems to scan containers in accordance with paragraph (1) cannot be purchased, deployed, or operated at ports overseas, including, if applicable, because a port does not have the physical characteristics to install such a system.

(D) Systems to scan containers in accordance with paragraph (1) cannot be integrated, as necessary, with existing systems.

(E) Use of systems that are available to scan containers in accordance with paragraph (1) will significantly impact trade capacity and the flow of cargo.

(F) Systems to scan containers in accordance with paragraph (1) do not adequately provide an automated notification of questionable or high-risk cargo as a trigger for further inspection by appropriately trained personnel.

(5) Exemption for military cargo

Notwithstanding any other provision in the section, supplies bought by the Secretary of Defense and transported in compliance section 2631 of title 10 and military cargo of foreign countries are exempt from the requirements of this section.

(6) Report on extensions

An extension under paragraph (4) for a port or ports shall take effect upon the expiration of the 60-day period beginning on the date the Secretary provides a report to Congress that—

(A) states what container traffic will be affected by the extension;

(B) provides supporting evidence to support the Secretary's certification of the basis for the extension; and

(C) explains what measures the Secretary is taking to ensure that scanning can be implemented as early as possible at the port or ports that are the subject of the report.

(C) coordinate with other Federal agencies that administer scanning or detection programs at foreign ports.

(9) International trade and other obligations

In carrying out this subsection, the Secretary shall consult with appropriate Federal departments and agencies and private sector stakeholders, and ensure that actions under this section do not violate international trade obligations, and are consistent with the World Customs Organization framework, or other international obligations of the United States.

(c) Report

Not later than 6 months after the submission of a report under section 981(d) of this title, and every 6 months thereafter, the Secretary shall submit a report to the appropriate congressional committees describing the status of full-scale deployment under subsection (b) and the cost of deploying the system at each foreign port at which the integrated scanning systems are deployed.

The Secretary, in coordination with the Secretary of State, the Secretary of Energy, and appropriate representatives of other Federal agencies, may provide technical assistance, equipment, and training to facilitate the implementation of supply chain security measures at ports designated under the Container Security Initiative.

¹ So in original. Probably should be "paragraph (2)(B)".

(2) Acquisition and training

Unless otherwise prohibited by law, the Secretary may—

(A) lease, loan, provide, or otherwise assist in the deployment of nonintrusive inspection and radiation detection equipment at foreign land and sea ports under such terms and conditions as the Secretary prescribes, including nonreimbursable loans or the transfer of ownership of equipment; and

(B) provide training and technical assistance for domestic or foreign personnel responsible for operating or maintaining such equipment.

(Pub. L. 109-347, title II, §233(a), Oct. 13, 2006, 120 Stat. 1917.)

The Secretary shall conduct a 1-year pilot program to assess the risk posed by and improve the security of empty containers at United States seaports to ensure the safe and secure delivery of cargo and to prevent potential acts of terrorism involving such containers. The pilot program shall include the use of visual searches of empty containers at United States seaports.

(b) Report

Not later than 90 days after the completion of the pilot program under paragraph (1), the Secretary shall prepare and submit to the appropriate congressional committees a report that contains—

(1) the results of the pilot program; and

(2) the determination of the Secretary on whether to expand the pilot program.

(Pub. L. 109-347, title II, §235, Oct. 13, 2006, 120 Stat. 1919.)

Nothing in this section shall be construed to limit or otherwise affect the ability of a Federal, State, or local government entity, under applicable law, to obtain supply chain security information, including any information lawfully and properly disclosed generally or broadly to the public and to use such information in any manner permitted by law.

(e) Authority to issue warnings

The Secretary may provide advisories, alerts, and warnings to relevant companies, targeted sectors, other governmental entities, or the general public regarding potential risks to the supply chain as appropriate. In issuing a warning, the Secretary shall take appropriate actions to protect from disclosure—

(A) In general

Not later than 60 days after the date of receipt of a complaint filed under paragraph (1) and after affording the person named in the complaint an opportunity to submit to the Secretary of Labor a written response to the complaint and an opportunity to meet with a representative of the Secretary of Labor to present statements from witnesses, the Secretary of Labor shall conduct an investigation and determine whether there is reasonable cause to believe that the complaint has merit and notify, in writing, the complainant and the person alleged to have committed a violation of subsection (a) or (b) of the Secretary of Labor's findings. If the Secretary of Labor concludes that there is a reasonable cause to believe that a violation of subsection (a) or (b) has occurred, the Secretary of Labor shall accompany the Secretary of Labor's findings with a preliminary order providing the relief prescribed by paragraph (3)(B). Not later than 30 days after the date of notification of findings under this paragraph, either the person alleged to have committed the violation or the complainant may file objections to the findings or preliminary order, or both, and request a hearing on the record. The filing of such objections shall not operate to stay any reinstatement remedy contained in the preliminary order. Such hearings shall be conducted expeditiously. If a hearing is not requested in such 30-day period, the preliminary order shall be deemed a final order that is not subject to judicial review.

(B) Requirements

(i) Required showing by complainant

The Secretary of Labor shall dismiss a complaint filed under this subsection and shall not conduct an investigation otherwise required under subparagraph (A) unless the complainant makes a prima facie showing that any behavior described in subsection (a) or (b) was a contributing

factor in the unfavorable personnel action alleged in the complaint.

(ii) Showing by employer

Notwithstanding a finding by the Secretary of Labor that the complainant has made the showing required under clause (i), no investigation otherwise required under paragraph (A) shall be conducted if the employer demonstrates, by clear and convincing evidence, that the employer would have taken the same unfavorable personnel action in the absence of that behavior.

(iii) Criteria for determination by Secretary of Labor

The Secretary of Labor may determine that a violation of subsection (a) or (b) has occurred only if the complainant demonstrates that any behavior described in subsection (a) or (b) was a contributing factor in the unfavorable personnel action alleged in the complaint.

Relief may not be ordered under paragraph (A) if the employer demonstrates by clear and convincing evidence that the employer would have taken the same unfavorable personnel action in the absence of that behavior.

(3) Final order

(A) Deadline for issuance; settlement agreements

Not later than 120 days after the date of conclusion of a hearing under paragraph (2), the Secretary of Labor shall issue a final order providing the relief prescribed by this paragraph or denying the complaint. At any time before issuance of a final order, a proceeding under this subsection may be terminated on the basis of a settlement agreement entered into by the Secretary of Labor, the complainant, and the person alleged to have committed the violation.

(B) Remedy

If, in response to a complaint filed under paragraph (1), the Secretary of Labor determines that a violation of subsection (a) or (b) has occurred, the Secretary of Labor shall order the person who committed such violation to—

- (ii) provide the remedies described in subsection (d).

(C) Order

If an order is issued under subparagraph (B), the Secretary of Labor, at the request of the complainant, shall assess against the person against whom the order is issued a sum equal to the aggregate amount of all costs and expenses (including attorney and expert witness fees) reasonably incurred, as determined by the Secretary of Labor, by the complainant for, or in connection with, bringing the complaint upon which the order was issued.

(D) Frivolous complaints

If the Secretary of Labor finds that a complaint under paragraph (1) is frivolous or has been brought in bad faith, the Secretary of Labor may award to the prevailing employer reasonable attorney fees not exceeding \$1,000.

(4) Review

(A) Appeal to Court of Appeals

Any person adversely affected or aggrieved by an order issued under paragraph (3) may obtain review of the order in the United States Court of Appeals for the circuit in which the violation, with respect to which the order was issued, allegedly occurred or the circuit in which the complainant resided on the date of such violation. The petition for review must be filed not later than 60 days after the date of the issuance of the final order of the Secretary of Labor. Review shall conform to chapter 7 of title 5. The commencement of proceedings under this subparagraph shall not, unless ordered by the court, operate as a stay of the order.

(B) Limitation on collateral attack

An order of the Secretary of Labor with respect to which review could have been obtained under subparagraph (A) shall not be subject to judicial review in any criminal or other civil proceeding.

(5) Enforcement of order by Secretary of Labor

Whenever any person has failed to comply with an order issued under paragraph (3), the Secretary of Labor may file a civil action in the United States district court for the district in which the violation was found to occur to enforce such order. In actions brought under this paragraph, the district courts shall have jurisdiction to grant all appropriate relief including, but not limited to, injunctive relief and compensatory damages.

(6) Enforcement of order by parties

(A) Commencement of action

A person on whose behalf an order was issued under paragraph (3) may commence a civil action against the person to whom such order was issued to require compliance with such order. The appropriate United States district court shall have jurisdiction, without regard to the amount in controversy or the citizenship of the parties, to enforce such order.

(B) Attorney fees

The court, in issuing any final order under this paragraph, may award costs of litigation (including reasonable attorney and expert witness fees) to any party whenever the court determines such award is appropriate.

(7) De novo review

With respect to a complaint under paragraph (1), if the Secretary of Labor has not issued a final decision within 210 days after the filing of the complaint and if the delay is not due to the bad faith of the employee, the employee may bring an original action at law or equity for de novo review in the appropriate district

court of the United States, which shall have jurisdiction over such an action without regard to the amount in controversy, and which action shall, at the request of either party to such action, be tried by the court with a jury. The action shall be governed by the same legal burdens of proof specified in paragraph (2)(B) for review by the Secretary of Labor.

(3) Possible relief

Relief in any action under subsection (c) may include punitive damages in an amount not to exceed \$250,000.

(e) Election of remedies

An employee may not seek protection under both this section and another provision of law for the same allegedly unlawful act of the public transportation agency.

(f) No preemption

Nothing in this section preempts or diminishes any other safeguards against discrimination, demotion, discharge, suspension, threats, harassment, reprimand, retaliation, or any other manner of discrimination provided by Federal or State law.

(g) Rights retained by employee

Nothing in this section shall be construed to diminish the rights, privileges, or remedies of any employee under any Federal or State law or under any collective bargaining agreement. The rights and remedies in this section may not be waived by any agreement, policy, form, or condition of employment.

§ 1169. Railroad tank car security testing

(a) Railroad tank car vulnerability assessment

(1) Assessment

The Secretary shall assess the likely methods of a deliberate terrorist attack against a railroad tank car used to transport toxic-inhalation-hazard materials, and for each method assessed, the degree to which it may be successful in causing death, injury, or serious adverse effects to human health, the environment, critical infrastructure, national security, the national economy, or public welfare.

(2) Threats

In carrying out paragraph (1), the Secretary shall consider the most current threat information as to likely methods of a successful terrorist attack on a railroad tank car transporting toxic-inhalation-hazard materials, and may consider the following:

(A) Explosive devices placed along the tracks or attached to a railroad tank car.

(B) The use of missiles, grenades, rockets, mortars, or other high-caliber weapons against a railroad tank car.

(3) Physical testing

In developing the assessment required under paragraph (1), the Secretary shall conduct physical testing of the vulnerability of railroad tank cars used to transport toxic-inhala-

tion-hazard materials to different methods of a deliberate attack, using technical information and criteria to evaluate the structural integrity of railroad tank cars.

(4) Report

Not later than 30 days after the completion of the assessment under paragraph (1), the Secretary shall provide to the appropriate congressional committees a report, in the appropriate format, on such assessment.

(b) Railroad tank car dispersion modeling

(1) In general

The Secretary, acting through the National Infrastructure Simulation and Analysis Center, shall conduct an air dispersion modeling analysis of release scenarios of toxic-inhalation-hazard materials resulting from a terrorist attack on a loaded railroad tank car carrying such materials in urban and rural environments.

(2) Considerations

The analysis under this subsection shall take into account the following considerations:

(A) The most likely means of attack and the resulting dispersal rate.

(B) Different times of day, to account for differences in cloud coverage and other atmospheric conditions in the environment being modeled.

(C) Differences in population size and density.

(D) Historically accurate wind speeds, temperatures, and wind directions.

(E) Differences in dispersal rates or other relevant factors related to whether a railroad tank car is in motion or stationary.

(F) Emergency response procedures by local officials.

(G) Any other considerations the Secretary believes would develop an accurate, plausible dispersion model for toxic-inhalation-hazard materials released from a railroad tank car as a result of a terrorist act.

(3) Consultation

In conducting the dispersion modeling under paragraph (1), the Secretary shall consult with the Secretary of Transportation, hazardous materials experts, railroad carriers, nonprofit employee labor organizations representing railroad employees, appropriate State, local, and tribal officials, and other Federal agencies, as appropriate.

(4) Information sharing

Upon completion of the analysis required under paragraph (1), the Secretary shall share the information developed with the appropriate stakeholders, given appropriate information protection provisions as may be required by the Secretary.

(5) Report

Not later than 30 days after completion of all dispersion analyses under paragraph (1), the Secretary shall submit to the appropriate congressional committees a report detailing the Secretary's conclusions and findings in an appropriate format.

PART D—HAZARDOUS MATERIAL AND PIPELINE SECURITY

§ 1201. Railroad routing of security-sensitive materials

(a) In general

Not later than 9 months after August 3, 2007, the Secretary of Transportation, in consultation with the Secretary, shall publish a final rule

based on the Pipeline and Hazardous Materials Safety Administration's Notice of Proposed Rulemaking published on December 21, 2006, entitled "Hazardous Materials: Enhancing Railroad Transportation Safety and Security for Hazardous Materials Shipments". The final rule shall incorporate the requirements of this section and, as appropriate, public comments received during the comment period of the rulemaking.

(b) Security-sensitive materials commodity data

The Secretary of Transportation shall ensure that the final rule requires each railroad carrier transporting security-sensitive materials in commerce to, no later than 90 days after the end of each calendar year, compile security-sensitive materials commodity data. Such data must be collected by route, line segment, or series of line segments, as aggregated by the railroad carrier. Within the railroad carrier selected route, the commodity data must identify the geographic location of the route and the total number of shipments by the United Nations identification number for the security-sensitive materials.

(c) Railroad transportation route analysis for security-sensitive materials

The Secretary of Transportation shall ensure that the final rule requires each railroad carrier transporting security-sensitive materials in commerce to, for each calendar year, provide a written analysis of the safety and security risks for the transportation routes identified in the security-sensitive materials commodity data collected as required by subsection (b). The safety and security risks present shall be analyzed for the route, railroad facilities, railroad storage facilities, and high-consequence targets along or in proximity to the route.

(d) Alternative route analysis for security-sensitive materials

The Secretary of Transportation shall ensure that the final rule requires each railroad carrier transporting security-sensitive materials in commerce to—

(1) for each calendar year—

(A) identify practicable alternative routes over which the railroad carrier has authority to operate as compared to the current route for such a shipment analyzed under subsection (c); and

(B) perform a safety and security risk assessment of the alternative route for comparison to the route analysis specified in subsection (c);

(2) ensure that the analysis under paragraph (1) includes—

(A) identification of safety and security risks for an alternative route;

(B) comparison of those risks identified under subparagraph (A) to the primary railroad transportation route, including the risk of a catastrophic release from a shipment traveling along the alternate route compared to the primary route;

(C) any remediation or mitigation measures implemented on the primary or alternative route; and

(D) potential economic effects of using an alternative route; and

(3) consider when determining the practicable alternative routes under paragraph (1)(A) the use of interchange agreements with other railroad carriers.

(e) Alternative route selection for security-sensitive materials

The Secretary of Transportation shall ensure that the final rule requires each railroad carrier transporting security-sensitive materials in commerce to use the analysis required by subsections (c) and (d) to select the safest and most secure route to be used in transporting security-sensitive materials.

(f) Review

The Secretary of Transportation shall ensure that the final rule requires each railroad carrier transporting security-sensitive materials in commerce to annually review and select the practicable route posing the least overall safety and security risk in accordance with this section. The railroad carrier must retain in writing all route review and selection decision documentation and restrict the distribution, disclosure, and availability of information contained in the route analysis to appropriate persons. This documentation should include, but is not limited to, comparative analyses, charts, graphics, or railroad system maps.

(g) Retrospective analysis

The Secretary of Transportation shall ensure that the final rule requires each railroad carrier transporting security-sensitive materials in commerce to, not less than once every 3 years, analyze the route selection determinations required under this section. Such an analysis shall include a comprehensive, systemwide review of all operational changes, infrastructure modifications, traffic adjustments, changes in the nature of high-consequence targets located along or in proximity to the route, or other changes affecting the safety and security of the movements of security-sensitive materials that were implemented since the previous analysis was completed.

(h) Consultation

In carrying out subsection (c), railroad carriers transporting security-sensitive materials in commerce shall seek relevant information from State, local, and tribal officials, as appropriate, regarding security risks to high-consequence targets along or in proximity to a route used by a railroad carrier to transport security-sensitive materials.

(i) Definitions

In this section:

(1) The term “route” includes storage facilities and trackage used by railroad cars in transportation in commerce.

(2) The term “high-consequence target” means a property, natural resource, location, area, or other target designated by the Secretary that is a viable terrorist target of national significance, which may include a facility or specific critical infrastructure, the attack of which by railroad could result in—

(A) catastrophic loss of life;

(B) significant damage to national security or defense capabilities; or

(C) national economic harm.

The assessment shall, at a minimum—

(A) compare the percentage of Department of Transportation recordable incidents and the severity of such incidents for shipments of explosives and radioactive materials for which such route plans are required with the percentage of recordable incidents and the severity of such incidents for shipments of explosives and radioactive materials not subject to such route plans; and

(B) quantify the security and safety benefits, feasibility, and costs of requiring each motor carrier that is required to have a hazardous material safety permit under part 385 of title 49, Code of Federal Regulations, to maintain, follow, and carry such a route plan that meets the requirements of section 397.101 of that title when transporting the type and quantity of hazardous materials described in section 385.403, taking into account the various segments of the motor carrier industry, including tank truck, truckload and less than truckload carriers.

(2) Report
