(1) Governor

For a State to be eligible to receive an allotment under section 3056d of this title, the Governor of the State shall submit to the Secretary for consideration and approval, a single State plan (referred to in this subchapter as the “State plan”) that outlines a 4-year strategy for the statewide provision of community service employment and other authorized activities for eligible individuals under this subchapter. The plan shall contain such provisions as the Secretary may require, consistent with this subchapter, including a description of the process used to ensure the participation of individuals described in paragraph (2). Not less often than every 2 years, the Governor shall review the State plan and submit an update to the State plan to the Secretary for consideration and approval.

(2) Recommendations

Before a proposal for a grant under this subchapter for any fiscal year is submitted to the Secretary, the Governor of the State in which projects are proposed to be conducted under such grant shall be afforded a reasonable opportunity to submit to the Secretary—

For a State that obtains approval of such a combined State plan, that section 103 shall apply in lieu of this subsection and a reference in any other provision of this subchapter (other than this subsection)

to a State plan shall be considered to be a reference to that combined State plan.

(a) Authority to make grants

In order to encourage and assist the timely acquisition of land planned to be utilized in the future for public purposes, the Secretary is authorized to make grants to States and local public bodies and agencies to assist in financing the acquisition of a fee simple estate or other interest in such land.

(b) Maximum amount of grants

The amount of any grant made under this section shall not exceed the aggregate amount of reasonable interest charges on the loans or other financial obligations incurred to finance the acquisition of such land for a period not in excess of the lesser of (1) five years from the date of acquisition of such land or (2) the period of time between the date on which the land was acquired and the date its use began for the purpose for which it was acquired: *Provided*, That where all or any portion of the cost of such land is not financed through borrowings, the amount of the grant shall be computed on the basis of the aggregate amount of reasonable interest charges that the Secretary determines would have been required.

(c) Utilization of land for public purpose within reasonable period of time

No grant shall be made under this section unless the Secretary determines that the land will be utilized for a public purpose within a reasonable period of time and that such utilization will contribute to economy, efficiency, and the comprehensively planned development of the area.

The Secretary shall in all cases require that land acquired with the assistance of a grant under this section be utilized for a public purpose within five years after the date on which a contract to make such grant is entered into, unless the Secretary determines that due to unusual circumstances a longer period of time is necessary and in the public interest.

(d) Diversion of land; repayment; interim use

No land acquired with assistance under this section shall, without approval of the Secretary, be diverted from the purpose originally approved. The Secretary shall approve no such diversion unless he finds that the diversion is in accord with the then applicable comprehensive plan for the area. In cases of a diversion of land to other than a public purpose, the Secretary may require repayment of the grant, or substitution of land of approximately equal fair market value, whichever he deems appropriate. An interim use of the land for a public or private purpose in accordance with standards prescribed by the Secretary, or approved by him, shall not constitute a diversion within the meaning of this subsection.

(e) Eligibility for other Federal loans or grant programs

Notwithstanding any other provision of law, no project for which land is acquired with assistance under this section shall, solely as a result of such advance acquisition, be considered ineligible for the purpose of any other Federal loan or grant program, and the amount of the purchase price paid for the land by the recipient of a grant under this section may be considered an eligible cost for the purpose of such other Federal loan or grant program.

§ 3121. Findings and declarations

(a) Findings

Congress finds that—

(1) there continue to be areas of the United States experiencing chronic high unemployment, underemployment, outmigration, and low per capita incomes, as well as areas facing sudden and severe economic dislocations because of structural economic changes, changing trade patterns, certain Federal actions (including environmental requirements that result in the removal of economic activities from a locality), and natural disasters;

(2) economic growth in the States, cities, and rural areas of the United States is produced by expanding economic opportunities, expanding free enterprise through trade, developing and strengthening public infrastructure, and creating a climate for job creation and business development;

(3) the goal of Federal economic development programs is to raise the standard of liv-

ing for all citizens and increase the wealth and overall rate of growth of the economy by encouraging communities to develop a more competitive and diversified economic base by—

(A) creating an environment that promotes economic activity by improving and expanding public infrastructure;

(B) promoting job creation through increased innovation, productivity, and entrepreneurship; and

(C) empowering local and regional communities experiencing chronic high unemployment and low per capita income to develop private sector business and attract increased private sector capital investment;

(4) while economic development is an inherently local process, the Federal Government should work in partnership with public and private State, regional, tribal, and local organizations to maximize the impact of existing resources and enable regions, communities, and citizens to participate more fully in the American dream and national prosperity;

(5) in order to avoid duplication of effort and achieve meaningful, long-lasting results, Federal, State, tribal, and local economic development activities should have a clear focus, improved coordination, a comprehensive approach, and simplified and consistent requirements; and

(6) Federal economic development efforts will be more effective if the efforts are coordinated with, and build upon, the trade, workforce investment, transportation, and technology programs of the United States.

(b) Declarations

In order to promote a strong and growing economy throughout the United States, Congress declares that—

(1) assistance under this chapter should be made available to both rural- and urban-distressed communities;

(2) local communities should work in partnership with neighboring communities, the States, Indian tribes, and the Federal Government to increase the capacity of the local communities to develop and implement comprehensive economic development strategies to alleviate economic distress and enhance competitiveness in the global economy;

(3) whether suffering from long-term distress or a sudden dislocation, distressed communities should be encouraged to support entrepreneurship to take advantage of the development opportunities afforded by technological innovation and expanding newly opened global markets; and

(4) assistance under this chapter should be made available to promote the productive reuse of abandoned industrial facilities and the redevelopment of brownfields.

3272.	Cooperative assistance to State and other public agencies; types of assistance; private engineering services.
3273.	Contributions of State or other public agencies toward cost of soil surveys.
3274.	Authorization of appropriations.

§ 3271. Availability of soil surveys under soil survey program

In recognition of the increasing need for soil surveys by the States and other public agencies in connection with community planning and resource development for protecting and improving the quality of the environment, meeting recreational needs, conserving land and water resources, providing for multiple uses of such resources, and controlling and reducing pollution from sediment and other pollutants in areas of rapidly changing uses, including farmlands being shifted to other uses, resulting from rapid expansions in the uses of land for industry, housing, transportation, recreation, and related services, it is the sense of Congress that the soil survey program of the United States Department of Agriculture should be conducted so as to make available soil surveys to meet such needs of the States and other public agencies in connection with community planning and resource development.

(Pub. L. 89-560, § 1, Sept. 7, 1966, 80 Stat. 706.)

§ 3272. Cooperative assistance to State and other public agencies; types of assistance; private engineering services

In order to provide soil surveys to assist States, their political subdivisions, soil and water conservation districts, towns, cities, planning boards and commissions, community development districts, and other public agencies in community planning and resource development for the protection and improvement of the quality of the environment, recreational development, the conservation of land and water resources, the development of multiple uses of such resources, and the control and prevention of pollution from sediment and other pollutants in areas of rapidly changing uses, including farm and nonfarm areas, the Secretary of Agriculture shall, upon the request of a State or other public agency, provide by means of such cooperative arrangements with the State or other public agency as he may deem advisable, the following assistance with respect to such areas and purposes:

- (1) the making of studies and reports necessary for the classification and interpretation of kinds of soil;
- (2) an intensification of the use and benefits of the National Cooperative Soil Survey;
- (3) the furnishing of technical and other assistance needed for use of soil surveys; and
- (4) consultation with other Federal agencies participating or assisting in the planning and development of such areas in order to assure

the coordination of the work under this chapter with the related work of such other agencies.

The provision by the Secretary of such assistance shall not interfere with the furnishing of engineering services by private engineering firms or consultants for on-site sampling and testing of sites or for design and construction of specific engineering works.

(Pub. L. 89-560, §2, Sept. 7, 1966, 80 Stat. 706.)

§ 3273. Contributions of State or other public agencies toward cost of soil surveys

It is further the sense of the Congress that the Secretary shall make a reasonable effort to assure that the contributions of any State or other public agency under any cooperative agreement which may be entered into between the Secretary and such State or other public agency with respect to a soil survey shall be a substantial portion of the cost of such soil survey.

(Pub. L. 89-560, §3, Sept. 7, 1966, 80 Stat. 706.)

§ 3274. Authorization of appropriations

There are hereby authorized to be appropriated such sums as may be necessary to carry out the purposes of this chapter, such sums to remain available until expended.

SUBCHAPTER II—PLANNED AREAWIDE DEVELOPMENT

§ 3331. Congressional findings and declaration of purpose

(a) The Congress hereby finds that the welfare of the Nation and of its people is directly dependent upon the sound and orderly development and the effective organization and functioning of our State and local governments.

It further finds that it is essential that our State and local governments prepare, keep current, and carry out comprehensive plans and programs for their orderly physical development with a view to meeting efficiently all their economic and social needs.

It further finds that our State and local governments are especially handicapped in this task by the complexity and scope of govern-

mental services required, the multiplicity of political jurisdictions and agencies involved, and the inadequacy of the operational and administrative arrangements available for cooperation among them.

It further finds that present requirements for areawide planning and programing in connection with various Federal programs have materially assisted in the solution of areawide problems, but that greater coordination of Federal programs and additional participation and cooperation are needed from the States and localities in perfecting and carrying out such efforts.

(b) It is the purpose of this subchapter to provide through greater coordination of Federal programs, and through supplementary grants for certain federally assisted development projects, additional encouragement and assistance to States and localities for making comprehensive areawide planning and programing effective.

(Pub. L. 89-754, title II, § 201, Nov. 3, 1966, 80 Stat. 1261; Pub. L. 90-448, title VI, § 602(b), Aug. 1, 1968, 82 Stat. 531.)

(ii) to receive, as purchase price for their property, an amount not to exceed 90 per centum of prior fair market value as such value is determined by the Secretary of Defense, or the amount of the outstanding mortgages.

(B) Reimbursement of expenses

The Secretary may also pay a person who elects to receive a cash payment under subparagraph (A) an amount that the Secretary determines appropriate to reimburse the person for the costs incurred by the person in the sale of the property if the Secretary determines that such payment will benefit the person and is in the best interest of the United States.

(3) Homeowner assistance for permanently reassigned individuals

(4) Compensation and limitations related to foreclosures and encumbrances

Cash payment as compensation for losses sustained in a private sale shall not be made in any case in which the property is encumbered by a mortgage loan guaranteed, insured, or held by a Federal agency unless such mortgage loan is paid, assumed by a purchaser satisfactory to such Federal agency, or otherwise fully satisfied at or prior to the time such cash payment is made. Except in cases of payment as compensation for losses, in the event of foreclosure by mortgagees commenced on or after public announcement of intention to close all or part of the military base or installation the Secretary of Defense may reimburse or pay on account of eligible persons such sums as may be paid or be otherwise due and owing by such persons as the result of such foreclosure, including (without limiting the generality of the foregoing) direct costs of judicial foreclosure, expenses and liabilities enforceable according to the terms of their mortgages or promissory notes, and the amount of debts, if any, established against such persons by a Federal agency in the case of loans made, guaranteed, or insured by such agency following liquidation of the security for such loans.

(d) Fund for extension of financial assistance; capital and receipts; availability of monies; covering into Treasury as miscellaneous receipts; Federal title to and control of property; other laws unaffected; foreign properties, exclusion

There shall be in the Treasury a fund which shall be available to the Secretary of Defense for the purpose of extending the financial assistance provided above. The capital of such fund shall consist of such sums as may, from time to time, be appropriated thereto, and shall consist also of receipts from the management, rental, or sale of properties acquired under this section, which receipts shall be credited to the fund and shall be available, together with funds appropriated therefor, for purchase or reimbursement purposes as provided above, as well as to defray ex-

penses arising in connection with the acquisition, management, and disposal of such properties, including payment of principal, interest, and expenses of mortgages or other indebtedness thereon, and including the cost of staff services and contract services, costs of insurance, and other indemnity. Any part of such receipts not required for such expenses shall be covered into the Treasury as miscellaneous receipts. Properties acquired under this section shall be conveyed to, and acquired in the name of, the United States. The Secretary of Defense shall have the power to deal with, rent, renovate, and dispose of, whether by sales for cash or credit or otherwise, any properties so acquired: *Provided, however,* That no contract for acquisition, or acquisition, shall be deemed to constitute a contract for or acquisition of family housing units in support of military installations or activities within the meaning of section 1594i² of this title, nor shall it be deemed a transaction within the contemplation of section 2662 of title 10: *Provided further,* That no properties in foreign countries shall be acquired under this section, except in connection with compensation for property located on a base or installation pursuant to subsection (l).

Payments from the fund created by this section may be made in lieu of taxes to any State or political subdivision thereof, with respect to real property, including improvements thereon, acquired and held under this section. The amount so paid for any year upon such property shall not exceed the taxes which would be paid to the State or subdivision, as the case may be, upon such property if it were not exempt from taxation, and shall reflect such allowance as may be considered appropriate for expenditures, if any, by the Government for streets, utilities, or other public services to serve such property.

(f) Title requirements; terms and conditions of payment; finality of decisions

The title to any property acquired under this section, the eligibility for, and the amounts of, cash payable, and the administration of the preceding provisions of this section, shall conform to such requirements, and shall be administered under such conditions and regulations, as the Secretary of Defense may prescribe. Such regulations shall also prescribe the terms and conditions under which payments may be made and instruments accepted under this section, and all the determinations and decisions made pursuant to such regulations by the Secretary of Defense regarding such payments and conveyances and the terms and conditions under which they are approved or disapproved, shall be final and conclusive and shall not be subject to judicial review.

(h) Omitted

(i) Specific authorization for funds; expenditure of monies in Fund

No funds may be appropriated for the acquisition of any property under authority of this sec-

tion unless such funds have been specifically authorized for such purpose in a military construction authorization act, and no moneys in the fund created pursuant to subsection (d) of this section may be expended for any purpose except as may be provided in appropriation Acts.

Notwithstanding the provisions of subsection (a)(1)(A)(ii) and subsection (b)(5), Federal employees or military personnel employed at or near a military base or installation outside the United States who are otherwise eligible under the criteria as set forth above shall be entitled to compensation for losses arising (1) out of the sale of property, or (2) out of the inability to sell property located on a base or installation, incident to the owner's transfer, reassignment, or involuntary termination of employment, which results in his relocation. Such employees or military personnel whose property is located off a base or installation shall be entitled to compensation under subsection (c) for losses sustained in private sales. Such employees or personnel whose property is located on a base or installation, who sell or are unable to find a purchaser for such property, may surrender their interest in such property to the United States, and shall be entitled to compensation, notwithstanding lack of ownership of the land on which such property is located, in an amount equal to (A) 90 per centum of the sum of the present owner's purchase price of the dwelling and improvements, and all costs of ownership including interest on notes, utilities and services, maintenance and insurance, less (B) the total of all housing allowances received from the Government during ownership and occupancy of the dwelling, all rents collected, and the sale price, if any, received for the property, as determined by the Secretary of Defense: *Provided, however,* That the maximum compensation shall in no event exceed 90 per centum of the unamortized portion of the cost of the property, including improvements, at the time ownership is terminated, as reflected in the amortization schedule, if any, relating to such property. For the purpose of this subsection, the term “United States” means the several States and the District of Columbia.

(n) Relocation assistance for Coast Guard personnel

(1) Assistance under subsection (a)(1) shall be provided by the Secretary of Defense with respect to Coast Guard bases and installations ordered to be closed, in whole or in part, after January 1, 1987. Such assistance shall be provided under terms equivalent to those under which assistance is provided under subsection (a)(1) for closings of military bases and installations which are under the jurisdiction of the Secretary of Defense.

(2) The Secretary of the department in which the Coast Guard is operating, if other than the Department of Defense, shall reimburse the Secretary of Defense for expenditures under subsection (a)(1) made by the Secretary of Defense with respect to closings of Coast Guard bases and installations ordered when the Coast Guard is not operating as a service in the Navy. The Secretary of Defense and the Secretary of the department in which the Coast Guard is operating shall enter into an agreement under which the Secretary of the department in which the Coast Guard is operating shall carry out such reimbursement.

(o) Relocation assistance for nonappropriated fund instrumentality and other civilian employees

(1) Assistance under subsection (a)(1) shall be provided by the Secretary of Defense with respect to nonappropriated fund instrumentality employees adversely affected by the closure of a base or installation ordered to be closed, in whole or in part, after December 31, 1988.

(1), inserted par. heading, substituted “if—” for “if he determines” in introductory provisions, inserted “(A) the Secretary determines—”, redesignated former pars. (1) to (3) as cls. Subsec. (b). Pub. L. 111-5, §1001(a)(2), substituted “subsection (a)(1)” for “this section” wherever appearing.

Subsec. (c). Pub. L. 111-5, §1001(a)(3), revised and restructured subsec. (c) into pars. (1) to (4). Prior to amendment, subsec. The Secretary may also pay a person who elects to receive a cash payment under clause (1) of the preceding sentence an amount that the Secretary determines appropriate to reimburse the person for the costs incurred by the person in the sale of the property if the Secretary determines that such payment will benefit the person and is in the best interest of the Federal Government. Except in cases of payment as compensation for losses, in the event of foreclosure by mortgagees commenced on or after public announcement of intention to close all or part of the military base or installation the Secretary of Defense may reimburse or pay on account of eligible persons such sums as may be paid or be otherwise due and owing by such persons as the result of such foreclosure, including (without limiting the generality of the foregoing) direct costs of judicial foreclosure, expenses and liabilities enforceable according to the terms of their mortgages or promissory notes, and the amount of debts, if any, established against such persons by a Federal agency in the case of loans made, guaranteed, or insured by such agency following liquidation of the security for such loans."

Any such determinations shall be entitled to finality to the same extent as if made by the Secretary of Defense, and, in event the Secretaries of Defense and Housing and Urban Development so elect, the fund established pursuant to subsection (d) of this section shall be available to the Secretary of Housing and Urban Development to carry out the purposes thereof."

“(a) PLAN PREPARATION AND IMPLEMENTATION OF MEASURES TO REDUCE ADMINISTRATIVE BURDENS.—

“(1) IN GENERAL.—Not later than 2 years after the date of enactment of this Act [Dec. 13, 2016], the Secretary of Health and Human Services (referred to in this section as the ‘Secretary’) shall—

“(A) lead a review by research funding agencies of all regulations and policies related to the disclosure of financial conflicts of interest, including the minimum threshold for reporting financial conflicts of interest;

“(B) make revisions, as appropriate, to harmonize existing policies and reduce administrative burden on researchers while maintaining the integrity and credibility of research findings and protections of human participants; and

“(C) confer with the Office of the Inspector General about the activities of such office related to financial conflicts of interest involving research funding agencies.

“(2) CONSIDERATIONS.—In updating policies under paragraph (1)(B), the Secretary shall consider—

“(A) modifying the timelines for the reporting of financial conflicts of interest to just-in-time information by institutions receiving grant or cooperative agreement funding from the National Institutes of Health;

“(B) ensuring that financial interest disclosure reporting requirements are appropriate for, and relevant to, awards that will directly fund research, which may include modification of the definition of the term ‘investigator’ for purposes of the regulations and policies described in subparagraphs (A) and (B) of paragraph (1); and

“(C) updating any applicable training modules of the National Institutes of Health related to Federal financial interest disclosure.

“(b) MONITORING OF SUBRECIPIENTS OF FUNDING FROM THE NATIONAL INSTITUTES OF HEALTH.—The Director of the National Institutes of Health (referred to in this section as the ‘Director of National Institutes of

Health') shall implement measures to reduce the administrative burdens related to monitoring of sub-recipients of grants by primary awardees of funding from the National Institutes of Health, which may incorporate findings and recommendations from existing and ongoing activities. Such measures may include, as appropriate—

“(1) an exemption from subrecipient monitoring requirements, upon request from the primary awardees, provided that—

“(A) the subrecipient is subject to Federal audit requirements pursuant to the Uniform Guidance of the Office of Management and Budget;

“(B) the primary awardee conducts, pursuant to guidance of the National Institutes of Health, a pre-award evaluation of each subrecipient's risk of non-compliance with Federal statutes and regulations, the conditions of the subaward, and any recurring audit findings; and

“(2) the implementation of alternative grant structures that obviate the need for subrecipient monitoring, which may include collaborative grant models allowing for multiple primary awardees.

“(C) REPORTING OF FINANCIAL EXPENDITURES.—The Secretary, in consultation with the Director of National Institutes of Health, shall evaluate financial expenditure reporting procedures and requirements for recipients of funding from the National Institutes of Health and take action, as appropriate, to avoid duplication between department and agency procedures and requirements and minimize burden to funding recipients.

In carrying out this effort, the Director of the National Institutes of Health shall seek the input of experts, as appropriate. The Director of the National Institutes of Health shall—

“(1) identify ways to ensure such regulations and policies are not inconsistent, overlapping, or unnecessarily duplicative, including with respect to inspection and review requirements by Federal agencies and accrediting associations;

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I transmit herewith Reorganization Plan No. 1 of 1953, prepared in accordance with the provisions of the Reorganization Act of 1949, as amended.

In my message of February 2, 1953, I stated that I would send to the Congress a reorganization plan defining a new administrative status for Federal activities in health, education, and social security. This plan carries out that intention by creating a Department of Health, Education, and Welfare as one of the executive departments of the Government and by transferring to it the various units of the Federal Security Agency. The Department will be headed by a Secretary of Health, Education, and Welfare, who will be assisted by an Under Secretary and two Assistant Secretaries.

The purpose of this plan is to improve the administration of the vital health, education, and social-security functions now being carried on in the Federal Security Agency by giving them departmental rank. Such action is demanded by the importance and magnitude of these functions, which affect the well-being of millions of our citizens. The programs carried on by the Public Health Service include, for example, the conduct and promotion of research into the prevention and cure of such dangerous ailments as cancer and heart disease. The Public Health Service also administers payments to the States for the support of their health services and for urgently needed hospital construction. The Office of Education collects, analyzes, and distributes to school administrators throughout the country information relating to the organization and management of educational systems. Among its other functions is the provision of financial help to school districts burdened by activities of the United States Government. State assistance to the aged, the blind, the totally disabled, and dependent children is heavily supported by grants-in-aid administered through the Social Security Administration. The old-age and survivors insurance system and child development and welfare programs are additional responsibilities of that Administration. Other offices of the Federal Security Agency are responsible for the conduct of Federal vocational rehabilitation programs and for the enforcement of food and drug laws.

There should be an unremitting effort to improve those health, education, and social-security programs which have proved their value. I have already recommended the expansion of the social-security system to cover persons not now protected, the continuation of assistance to school districts whose population has been greatly increased by the expansion of defense activities, and the strengthening of our food and drug laws.

But good intent and high purpose are not enough; all such programs depend for their success upon efficient, responsible administration. I have recently taken action to assure that the Federal Security Administrator's views are given proper consideration in executive councils by inviting her to attend meetings of the Cabinet. Now the establishment of the new Department provided for in Reorganization Plan No. 1 of 1953 will give the needed additional assurance that these matters will receive the full consideration they deserve in the whole operation of the Government.

This need has long been recognized. In 1923, President Harding proposed a Department of Education and Welfare, which was also to include health functions. In 1924, the Joint Committee on Reorganization recommended a new department similar to that suggested

by President Harding. In 1932, one of President Hoover's reorganization proposals called for the concentration of health, education, and recreational activities in a single executive department. The President's Committee on Administrative Management in 1937 recommended the placing of health, education, and social-security functions in a Department of Social Welfare. This recommendation was partially implemented in 1939 by the creation of the Federal Security Agency—by which action the Congress indicated its approval of the grouping of these functions in a single agency. A new department could not be proposed at that time because the Reorganization Act of 1939 prohibited the creation of additional executive departments. In 1949, the Commission on Organization of the Executive Branch of the Government proposed the creation of a department for social security and education.

The present plan will make it possible to give the officials directing the Department titles indicative of their responsibilities and salaries comparable to those received by their counterparts in other executive departments. As the Under Secretary of an executive department, the Secretary's principal assistant will be better equipped to give leadership in the Department's organization and management activities, for which he will be primarily responsible. The plan opens the way to further administrative improvement by authorizing the Secretary to centralize services and activities common to the several agencies of the Department. It also established a uniform method of appointment for the heads of the three major constituent agencies. At present, the Surgeon General and the Commissioner of Education are appointed by the President and confirmed by the Senate, while the Commissioner for Social Security is appointed by the Federal Security Administrator. Hereafter, all three will be Presidential appointees subject to Senate confirmation.

I believe, and this plan reflects my conviction, that these several fields of Federal activity should continue within the framework of a single department. The plan at the same time assures that the Office of Education and the Public Health Service retain the professional and substantive responsibilities vested by law in those agencies or in their heads. The Surgeon General, the Commissioner of Education, and the Commissioner of Social Security will all have direct access to the Secretary.

There should be in the Department an Advisory Committee on Education, made up of persons chosen by the Secretary from outside the Federal Government, which would advise the Secretary with respect to the educational programs of the Department. I recommend the enactment of legislation authorizing the defrayal of the expenses of this Committee. The creation of such a Committee as an advisory body to the Secretary will help insure the maintenance of responsibility for the public educational system in State and local governments while preserving the national interest in education through appropriate Federal action.

After investigation I have found and hereby declare that each reorganization included in Reorganization Plan No. 1 of 1953 is necessary to accomplish one or more of the purposes set forth in section 2(a) of the Reorganization Act of 1949, as amended. I have also found and hereby declare that by reason of these reorganizations, it is necessary to include in the reorganization plan provisions for the appointment and compensation of the new officers specified in sections 1, 2, 3, and 4 of the reorganization plan. The rates of compensation fixed for these officers are, respectively, those which I have found to prevail in respect of comparable officers in the executive branch of the Government.

Although the effecting of the reorganizations provided for in the reorganization plan will not in itself result in immediate savings, the improvement achieved in administration will in the future allow the performance of necessary services at greater savings than present operations would permit. An itemization of these savings in advance of actual experience is not practicable.

DWIGHT D. EISENHOWER.

THE WHITE HOUSE, March 12, 1953.

EX. ORD. NO. 11583. OFFICE OF CONSUMER AFFAIRS

Ex. Ord. No. 11583, Feb. 24, 1971, 36 F.R. 3509, as amended by Ex. Ord. No. 11595, May 26, 1971, 36 F.R. 9763; Ex. Ord. No. 12608, Sept. 9, 1987, 52 F.R. 34617, provided:

Consumer protection fosters a market place in which our competitive economic system flourishes best. It is good for businessmen because it gives the consumer greater confidence in the goods and services provided by business. It is good for consumers because it reinforces the concept of buyers' rights:

—the right to make an intelligent choice among products and services;

—the right to accurate information on which to make a free choice;

—the right to expect that the health and safety of the buyer is taken into account by those who seek his patronage;

—the right to register dissatisfaction, and have a complaint heard and weighed, when a buyer's interests are badly served.

The Special Assistant to the President for Consumer Affairs is performing an important role in representing consumer interests in the Federal Government. It is important that the role of the office of the Special Assistant be reinforced by increasing its responsibilities and reemphasizing its importance.

There is need for a consumer office within the Executive Office of the President, which not only advises and represents the President on matters of consumer interest, but also analyzes and coordinates the implementation of all Federal activities in the field of consumer protection, helping to establish priorities and resolve conflicts, and recommending ways in which governmental consumer programs can be made more effective.

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States, it is ordered as follows:

SECTION 1. *Office of Consumer Affairs.* The Office of Consumer Affairs (hereinafter referred to as the "Office") is hereby established in the Executive Office of the President. The Office shall be headed by a Director, who shall be appointed by the President, and there shall be in the Office two Deputy Directors who shall also be appointed by the President. The Deputy Directors shall perform such duties as the Director may designate, and in case of a vacancy in the office of Director or during the absence or incapacity of the Director, the Deputy Directors, in the order designated by the President, shall act as Director. The Director and Deputy Directors shall receive compensation at such rates as the President, consonant with law, may hereafter determine.

SEC. 2. *Powers and duties of the Director.* (a) The Director shall be responsible for the exercise of the powers and the discharge of the duties of the Office, and shall have the authority to direct and supervise all personnel and activities thereof. The Director shall take all actions as may be necessary to organize the Office so as to carry out the functions and to achieve the purposes set forth in this order.

(b) In addition to any other authority conferred upon him by this order, the Director is authorized, in carrying out his functions hereunder, to—

(1) appoint one or more advisory committees composed of such private citizens and officials of the Federal, State, and local governments as he deems desirable to advise him with respect to his functions. Members of such committees (including the Consumer Advisory Council established in section 5 of this order) other than those regularly employed by the Federal Government, while attending meetings of such committees or otherwise serving at the request of the Director, shall be entitled to receive compensation and travel expenses as authorized by law for persons serving intermittently;

(2) promulgate such rules, regulations, and procedures as may be necessary to carry out the functions

vested in him or in the Office, and delegate authority for the performance of any function to any officer or employee under his direction and supervision;

(3) utilize, with their consent, the services, personnel, and facilities of other Federal, State, local and private agencies and instrumentalities with or without reimbursement thereof except as reimbursement may be required by law; and

(c) The Director shall report periodically to the President on significant developments affecting the interests of consumers together with such recommendations including legislative recommendations as he deems appropriate.

SEC. 3. *Functions.* (a) The Office shall advise the President as to all matters affecting the interest of consumers.

(b) The Office shall—

(1) with respect to consumer interests in Federal policies and programs, encourage and assist in development and implementation of consumer programs; coordinate and review policies and programs; seek resolution of conflicts; advise and make recommendations to Federal agencies with respect to policy matters, the effectiveness of their programs and operations, and the elimination of duplications;

(2) assure that the interests of consumers are presented and considered in a timely manner by the appropriate levels of the Federal Government in the formulation of policies and in the operation of programs that affect the consumer interest;

(3) conduct investigations, conferences, and surveys concerning the needs, interests and problems of consumers, except that it shall, where feasible, avoid duplicating activities conducted by other Federal agencies;

(4) submit recommendations to the President on how Federal programs and activities affecting consumers can be improved;

(5) take action with respect to consumer complaints to the extent authorized by section 4 of this order;

(6) perform the functions assigned to the President's Committee on Consumer Interests in Executive Order No. 11566 of October 26, 1970;

(7) encourage and coordinate the development of information of interest to consumers by Federal agencies and the publication and distribution of materials which will inform consumers of matters of interest to them in language which is readily understandable by the layman;

(8) encourage and coordinate research conducted by Federal agencies leading to improved consumer products, services, and consumer information;

(9) encourage, initiate, coordinate, evaluate, and participate in consumer education programs and consumer counseling programs;

(10) encourage, cooperate with, and assist State and local governments in the promotion and protection of consumer interests; and

(11) cooperate with and encourage private enterprise in the promotion and protection of consumer interest.

SEC. 4. *Consumer complaints.* (a) Whenever the Office receives from any source complaints or other information disclosing a possible violation of (1) any law of the United States or (2) any rule or order of any Federal agency concerning consumer interests, the Office shall promptly transmit such complaint or other information to the Federal agency charged with the duty of enforcing such law, rule, or order, for appropriate action.

(b) Whenever the Office receives complaints or other information disclosing any commercial or trade practice which it deems detrimental to the general interests of consumers within the United States, and which is not included within the category specified in subsection (a) of this section, the Office may transmit such complaint or other information promptly to the Federal, State, or local agency whose regulatory or other authority provides the most effective means to act upon them; the Office may in its discretion also refer such complaint or other information to the private persons or industry against whom the complaint is made.

SEC. 5. *Consumer Advisory Council.* (a) There is hereby established in the Office a Consumer Advisory Council to be composed of not more than 12 members appointed by the President. Members shall be appointed on the basis of their knowledge and experience in areas of interest to consumers and their demonstrated ability to exercise independent, informed, and critical judgment.

(b)(1) Members shall be appointed for two-year terms. Members of the Consumer Advisory Council, established pursuant to Executive Order No. 11136 of January 3, 1964, as amended, shall continue in office in accordance with the terms of their original appointments.

(2) Any member chosen to fill a vacancy shall be appointed for the unexpired term of the member he succeeds.

(3) A vacancy in the Council shall not affect its authority to act, and a majority of the members thereof shall constitute a quorum.

(c) The President shall designate the Chairman from among the members composing the Council. The Council shall meet at the call of the Director. The Director shall be an ex-officio member of the Council and its Executive Secretary.

(d) The Council shall advise the Director with respect to—

(1) policy matters relating to consumer interests; and

(2) the effectiveness of Federal programs and operations, which affect the interests of consumers; and

(3) problems of primary importance to consumers, and ways in which unmet consumer needs can appropriately be met through Federal Government action.

SEC. 6. *Consideration of the consumer interest in Federal agency determinations.* Every Federal agency in taking any action of a nature which can reasonably be construed as substantially affecting the interests of consumers of products and services, including, but not limited to, (1) the promulgation of rules, regulations, or guidelines, (2) the formulation of written policy decisions, or (3) the issuance of orders, decrees, or standards, shall, in taking such action, give due consideration to the valid interests of consumers.

SEC. 7. *Abolition of Committee and Council.* Except as otherwise provided herein, the President's Committee on Consumer Interests and the Consumer Advisory Council established under Executive Order No. 11136 of January 3, 1964, as amended by Executive Order No. 11349 of May 1, 1967, are abolished.

SEC. 8. *Construction.* Nothing in this order shall be construed as subjecting any function vested by law in, or assigned pursuant to law to, any Federal agency or the head thereof to the authority of any other agency or officer or as abrogating or restricting any such function in any manner.

SEC. 9. *Orders superseded.* Executive Order No. 11136 of January 3, 1964, and Executive Order No. 11349 of May 1, 1967, are hereby superseded.

EX. ORD. NO. 11702. TRANSFER OF OFFICE OF CONSUMER AFFAIRS

Ex. Ord. No. 11702, Jan. 25, 1973, 38 F.R. 2957, as amended by Ex. Ord. No. 12608, Sept. 9, 1987, 52 F.R. 34617, provided:

procedures so that consumer needs and interests are adequately considered and addressed. Agency consumer programs should be tailored to fit particular agency characteristics, but those programs shall include, at a minimum, the following five elements:

(a) *Consumer Affairs Perspective.* Agencies shall have identifiable, accessible professional staffs of consumer affairs personnel authorized to participate, in a manner not inconsistent with applicable statutes, in the development and review of all agency rules, policies, programs, and legislation.

(b) *Consumer Participation.* Agencies shall establish procedures for the early and meaningful participation by consumers in the development and review of all agency rules, policies, and programs. Such procedures shall include provisions to assure that consumer concerns are adequately analyzed and considered in decisionmaking. (c) *Informational Materials.* Agencies shall produce and distribute materials to inform consumers about the agencies' responsibilities and services, about their procedures for consumer participation, and about aspects of the marketplace for which they have responsibility. In addition, each agency shall make available to consumers who attend agency meetings open to the public materials designed to make those meetings comprehensible to them.

(d) *Education and Training.* Agencies shall educate their staff members about the Federal consumer policy embodied in this Order and about the agencies' programs for carrying out that policy. Specialized training shall be provided to agency consumer affairs personnel and, to the extent considered appropriate by each agency and in a manner not inconsistent with applicable statutes, technical assistance shall be made available to consumers and their organizations.

(e) *Complaint Handling.* Agencies shall establish procedures for systematically logging in, investigating, and responding to consumer complaints, and for integrating analyses of complaints into the development of policy.

1-402. The head of each agency shall designate a senior-level official within that agency to exercise, as the official's sole responsibility, policy direction for, and coordination and oversight of, the agency's consumer activities. The designated official shall report directly to the head of the agency and shall apprise the agency head of the potential impact on consumers of particular policy initiatives under development or review within the agency.

No. 13216, June 6, 2001, 66 F.R. 31373, which established in the Department of Health and Human Services a President's Advisory Commission on Asian Americans and Pacific Islanders, was superseded by Ex. Ord. No. 13515, §4(a), Oct. 14, 2009, 74 F.R. 53638, formerly set out as a note under section 1501 of Title 15, Commerce and Trade, and by Ex. Ord. No. 14031, §4(a), May 28, 2021, 86 F.R. 29680, set out below.

EX. ORD. NO. 14031. ADVANCING EQUITY, JUSTICE, AND OPPORTUNITY FOR ASIAN AMERICANS, NATIVE HAWAIIANS, AND PACIFIC ISLANDERS

Ex. Ord. No. 14031, May 28, 2021, 86 F.R. 29675, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. *Policy.* Asian American, Native Hawaiian, and Pacific Islander (AA and NHPI) individuals and communities are irrefutable sources of our Nation's strength. These communities have molded the American experience, and the achievements of AA and NHPI communities make the United States stronger and more vibrant. The richness of America's multicultural democracy is strengthened by the diversity of AA and NHPI communities and the many cultures and languages of AA and NHPI individuals in the United States.

Asian American, Native Hawaiian, and Pacific Islander communities together constitute the fastest growing ethnic group in the United States and make rich contributions to our society, our economy, and our culture. Yet for far too long, systemic barriers to equity, justice, and opportunity put the American dream out of reach of many AA and NHPI communities. Many AA and NHPI individuals face persistent disparities in socioeconomic, health, and educational outcomes. Linguistic isolation and lack of access to language-assistance services continue to lock many AA and NHPI individuals out of opportunity. Too often Federal data collection practices fail to measure, reflect, and disaggregate the diversity of AA and NHPI experiences. These practices contribute to often painful and enduring stereotypes about Asian Americans as a "model minority" and obscure disparities within AA and NHPI communities.

Our Nation has also seen again that anti-Asian bias, xenophobia, racism, and nativism have deep roots in our Nation. Tragic acts of anti-Asian violence have increased during the COVID-19 pandemic, casting a shadow of fear and grief over many AA and NHPI communities, in particular East Asian communities. Long before this pandemic, AA and NHPI communities in the United States—including South Asian and Southeast Asian communities—have faced persistent xenophobia, religious discrimination, racism, and violence. The Federal Government must provide the moral leadership, policies, and programs to address and end anti-Asian violence and discrimination, and advance inclusion and belonging for all AA and NHPI communities.

At the same time, many AA and NHPI communities, and in particular Native Hawaiian and Pacific Islander communities, have also been disproportionately burdened by the COVID-19 public health crisis. Evidence suggests that Native Hawaiians and Pacific Islanders are three times more likely to contract COVID-19 compared to white people and nearly twice as likely to die from the disease. On top of these health inequities, many AA and NHPI families and small businesses have faced devastating economic losses during this crisis, which must be addressed.

As I directed in Executive Order 13985 of January 20, 2021 (Advancing Racial Equity and Support for Under-

served Communities Through the Federal Government) [5 U.S.C. 601 note], the entire Federal Government must advance equity and racial justice for underserved communities, which include AA and NHPI communities. As I established in the Presidential Memorandum of January 26, 2021 (Condemning and Combating Racism, Xenophobia, and Intolerance Against Asian Americans and Pacific Islanders in the United States) [34 U.S.C. 30501 note], it is the policy of my Administration to address and confront racism, xenophobia, and intolerance. The purpose of this order is to build on those policies by establishing the President's Advisory Commission on Asian Americans, Native Hawaiians, and Pacific Islanders and the White House Initiative on Asian Americans, Native Hawaiians, and Pacific Islanders. Both will work to advance equity, justice, and opportunity for AA and NHPI communities in the United States.

SEC. 2. *President's Advisory Commission on Asian Americans, Native Hawaiians, and Pacific Islanders.* (a) There is established in the Department of Health and Human Services the President's Advisory Commission on Asian Americans, Native Hawaiians, and Pacific Islanders (Commission).

(b) The Commission shall be led by two Co-Chairs, one of whom shall be the Secretary of Health and Human Services, the other of whom shall be the head of an executive department or agency (agency) designated by the President. The Commission shall provide advice to the President, in close coordination with the Deputy Assistant to the President and Asian American, Native Hawaiian, and Pacific Islander Senior Liaison, on:

(i) the development, monitoring, and coordination of executive branch efforts to advance equity, justice, and opportunity for AA and NHPI communities in the United States, including efforts to close gaps in health, socioeconomic, employment, and educational outcomes;

(ii) policies to address and end anti-Asian bias, xenophobia, racism, and nativism, and opportunities for the executive branch to advance inclusion, belonging, and public awareness of the diversity and accomplishments of AA and NHPI people, cultures, and histories;

(iii) policies, programs, and initiatives to prevent, report, respond to, and track anti-Asian hate crimes and hate incidents;

(iv) ways in which the Federal Government can build on the capacity and contributions of AA and NHPI communities through equitable Federal funding, grantmaking, and employment opportunities;

(v) policies and practices to improve research and equitable data disaggregation regarding AA and NHPI communities;

(vi) policies and practices to improve language access services to ensure AA and NHPI communities can access Federal programs and services; and

(vii) strategies to increase public- and private-sector collaboration, and community involvement in improving the safety and socioeconomic, health, educational, occupational, and environmental well-being of AA and NHPI communities.

(c) The Commission shall consist of 25 members appointed by the President. The Commission shall include members who:

(i) have a history of advancing equity, justice, and opportunity for AA and NHPI communities;

(ii) represent diverse sectors, including education, commerce, business, health, human services, housing, the environment, the arts, agriculture, labor and employment, transportation, justice, veterans affairs, economic and community development, immigration, law, and national security;

(iii) are from organizations or associations representing one or more of the diverse AA and NHPI communities;

(iv) have personal or professional experience addressing intersectional barriers faced by AA and NHPI communities, such as discrimination or lack of access to opportunity based on country of origin, immigration status, disability, age, or sex, including based on sexual orientation and gender identity; or

(v) have such other experience as the President deems appropriate.

(d) The Secretary of Health and Human Services shall designate an Executive Director of the Commission (Executive Director). The Executive Director shall report to the Secretary of Health and Human Services, in coordination with the other Co-Chair of the Commission and the Deputy Assistant to the President and Asian American, Native Hawaiian, and Pacific Islander Senior Liaison.

(i) The Department of Health and Human Services shall provide funding and administrative support for the Commission to the extent permitted by law and within existing appropriations, and may, as necessary and appropriate under section 1535 of title 31, United States Code, enter into one or more agreements to obtain goods or services from one or more agencies in support of the Commission.

(ii) The heads of other agencies shall assist and provide information to the Commission, consistent with applicable law, as may be necessary to carry out its functions. Each agency shall bear its own expenses of assisting the Commission.

(iii) Members of the Commission shall serve without compensation, but shall be allowed travel expenses, including per diem in lieu of subsistence, as authorized by law for persons serving intermittently in the Government service (5 U.S.C. 5701-5707). Insofar as the Federal Advisory Committee Act, as amended (5 U.S.C. App.) (the "Act") [Pub. L. 92-463], may apply to the administration of the Commission, any functions of the President under the Act, except that of reporting to the Congress, shall be performed by the Secretary of Health and Human Services, in accordance with the guidelines issued by the Administrator of General Services.

(e) The Commission shall terminate 2 years from the date of this order [May 28, 2021], unless sooner renewed by the President.

SEC. 3. *White House Initiative on Asian Americans, Native Hawaiians, and Pacific Islanders.* (a) There is established the White House Initiative on Asian Americans, Native Hawaiians, and Pacific Islanders (Initiative), a Federal interagency working group. The Initiative shall be led by two Co-Chairs, one of whom shall be the Secretary of Health and Human Services, the other of whom shall be the head of an agency designated by the President. The Executive Director of the Commission established in section 2(d) of this order shall also serve as the Executive Director of the Initiative, reporting to the Secretary of Health and Human Services, in coordination with the other Co-Chair of the Initiative and the Deputy Assistant to the President and Asian American, Native Hawaiian, and Pacific Islander Senior Liaison.

(b) The Initiative shall advance equity, justice, and opportunity for AA and NHPI communities by coordinating Federal interagency policymaking and program development efforts to eliminate barriers to equity, justice, and opportunity faced by AA and NHPI communities, including by advancing policies, programs, and initiatives. In developing and implementing such policies, programs, and initiatives, the Co-Chairs of the Initiative and the Executive Director shall coordinate closely with the Deputy Assistant to the President and Asian American, Native Hawaiian, and Pacific Islander Senior Liaison. To support implementation of a whole-of-government approach to equity and racial justice, as established in Executive Order 13985, the Assistant to the President for Domestic Policy and the Director of the Office of Management and Budget shall coordinate closely with the Co-Chairs of the Initiative and the Executive Director to ensure that the needs and voices of AA and NHPI communities are considered in the efforts of my Administration to advance equity and civil rights.

In particular, the Initiative shall advance efforts to:

(i) identify and eliminate any existing institutional policies or barriers within Federal programs and services that may disadvantage or burden AA and NHPI communities;

(ii) improve safety, access to justice, and violence prevention for AA and NHPI communities, including by

preventing, reporting, addressing, and better tracking acts of hate and bias (such as acts of hate and bias at the intersection of gender-based violence);

(iii) promote inclusion and belonging for AA and NHPI communities, including by expanding public education and knowledge of AA and NHPI people and their diverse cultures, languages, and histories;

(iv) expand the collection and use of disaggregated data at the Federal, State and local level on AA and NHPI communities, and facilitate improved research on policy and program outcomes for AA and NHPI communities, in coordination with the Interagency Working Group on Equitable Data established by Executive Order 13985;

(v) end language access and other barriers faced by AA and NHPI communities in accessing government benefits and services;

(vi) improve health outcomes, eliminate health disparities, and expand access to quality, affordable, and culturally competent medical and mental healthcare services for AA and NHPI individuals and communities;

(vii) end disparities in educational outcomes for AA and NHPI youth and students of all ages, and address barriers to learning, including bullying, harassment, and other forms of discrimination at school;

(viii) address the concentration of poverty facing many AA and NHPI communities, including by identifying and addressing disparities in access to safe, affordable housing and homeownership;

(ix) expand economic opportunity for AA and NHPI families, including by advancing opportunities for AA and NHPI entrepreneurs and small businesses, supporting access to jobs and workforce training for AA and NHPI communities, promoting AA and NHPI participation and success in the private sector, ensuring workplaces are free from race and national origin harassment and other forms of employment discrimination, and ensuring AA and NHPI communities can access consumer and finance protections;

(x) increase opportunities for civic engagement, such as electoral participation, within AA and NHPI communities;

(xi) improve the equitable allocation of Federal resources, including through Federal funds, contracts, grants, and awards, to AA and NHPI communities and AA and NHPI-serving organizations;

(xii) support AA and NHPI communities in responding to and recovering from national or regional crises and public health emergencies, including the COVID-19 pandemic and related economic crisis;

(xiii) secure climate and environmental justice for AA and NHPI communities who are particularly impacted by the climate crisis and are overburdened by environmental degradation; and

(xiv) identify ways to foster the recruitment, career and leadership development, retention, advancement, and participation of AA and NHPI public servants at all levels of the Federal workforce.

(c) In addition to the Co-Chairs, the Initiative shall consist of senior officials from the following agencies and offices, designated by the heads thereof:

The Congress hereby declares that the general welfare and security of the Nation and the health and living standards of our people require, as a matter of national purpose, sound development of the Nation's communities and metropolitan areas in which the vast majority of its people live and work.

To carry out such purpose, and in recognition of the increasing importance of housing and urban development in our national life, the Congress finds that establishment of an executive department is desirable to achieve the best administration of the principal programs of the Federal Government which provide assistance for housing and for the development of the Nation's communities; to assist the President in achieving maximum coordination of the various Federal activities which have a major effect

upon urban community, suburban, or metropolitan development; to encourage the solution of problems of housing, urban development, and mass transportation through State, county, town, village, or other local and private action, including promotion of interstate, regional, and metropolitan cooperation; to encourage the maximum contributions that may be made by vigorous private homebuilding and mortgage lending industries to housing, urban development, and the national economy; and to provide for full and appropriate consideration, at the national level, of the needs and interests of the Nation's communities and of the people who live and work in them.

EX. ORD. No. 11668. NATIONAL CENTER FOR HOUSING MANAGEMENT

Ex. Ord. No. 11668, Apr. 21, 1972, 37 F.R. 8057, provided: By virtue of the authority vested in me as President of the United States and in accordance with the provisions of the Department of Housing and Urban Development Act, as amended (42 U.S.C. 3531 et seq.), title VIII of the Housing Act of 1964, as amended (20 U.S.C. 801 et seq.), and title V of the Housing and Urban Development Act of 1970 (12 U.S.C. 1701z-1 et seq.), it is ordered as follows:

SECTION 1. *Policy.* The Nation’s housing stock represents an important national resource which must be

preserved and well managed if public and private investments are to be protected, and if we are to meet our goal of providing a decent home and suitable living environment for low and moderate income residents. The production of Federally-assisted housing has greatly expanded in recent years, creating a need for a balanced strategy to ensure that such housing remains viable for the purposes intended.

This expansion also creates a need for a growing supply of new management manpower for the years ahead. Special skills must be developed among these managers so that they can effectively overcome the social and economic problems facing many residents of Federally-assisted housing, including the elderly. Training, the improvement of career opportunities, and the upgrading of industry standards are all essential to the improvement of the Nation’s housing management capability, particularly for low and moderate income housing.

SEC. 2. *Establishment of a National Center for Housing Management.* (a) The Secretary of Housing and Urban Development is directed to call upon public-spirited citizens, dedicated and experienced in the appropriate disciplines, to create, in accordance with existing laws, a new, non-governmental, not-for-profit institution to serve as a National Center for Housing Management (referred to herein as the Center).

(b) The Center should be designed to provide objective and independent leadership at the national level in helping meet the Nation’s housing management and training needs and should work cooperatively with the Department of Housing and Urban Development and with the public and private organizations and institutions involved in, or affected by, its activities.

SEC. 3. *Activities of the Center.* The activities of the Center should be developed along lines that include the following objectives:

(1) Development of training and educational programs for housing management and personnel;

(2) Cooperation with public and private national, State, and local organizations and institutions in extending housing management training and educational opportunities, using to the fullest extent possible the services and facilities of existing agencies with expertise in training and education.

(3) Cooperation with national, State, and local organizations and institutions in establishing or expanding recruitment and placement systems that will link training in housing management to job opportunities in that field.

(4) Development of improved housing management practices and assistance in professionalizing the housing management industry; and

(5) Stimulating the creation of new management entities, and strengthening the effectiveness of existing management entities.

SEC. 4. *Assistance by Federal Agencies.* To the extent consistent with law, all other Federal executive departments and agencies shall cooperate and work with the Department of Housing and Urban Development and the Center in providing appropriate advice and financial support so as to ensure that the above described objectives are carried out with the most effective and efficient use of Federal, State and local resources, both public and private.

RICHARD NIXON.

§ 3537a. Prohibition of advance disclosure of funding decisions

(a) Prohibited actions

During any selection process, no officer or employee of the Department of Housing and Urban Development shall knowingly disclose any covered selection information regarding such selec-

tion, directly or indirectly, to any person other than a person authorized by the Secretary to receive such information.

(b) Administrative remedies

If the Secretary receives or obtains information providing a reasonable basis to believe that a violation of subsection (a) has occurred, the Secretary shall—

(1) in the case of a selection that has not been made, determine whether to terminate the selection process or take other appropriate actions; and

(2) in the case of a selection that has been made, determine whether to—

(A) void or rescind the selection, subject to review and determination on the record after opportunity for a hearing;

(B) impose sanctions upon the violating applicant selected, subject to review and determination on the record after opportunity for a hearing;

(C) permit the violating applicant selected to continue to participate in the program; or

(D) take any other actions that the Secretary considers appropriate.

(c) Civil money penalties

(1) In general

Whenever any employee of the Department knowingly and materially violates the prohibition in subsection (a), the Secretary may impose a civil money penalty on the employee in accordance with the provisions of this subsection. This penalty shall be in addition to any other available civil remedy or any available criminal penalty and may be imposed whether or not the Secretary takes other disciplinary actions.

(2) Amount

The amount of the penalty, as determined by the Secretary, may not exceed \$10,000 for each violation.

(3) Agency procedures

(A) Establishment

The Secretary shall establish standards and procedures governing the imposition of civil money penalties under this subsection. The standards and procedures—

(i) shall provide for the Secretary or other official of the Department to make the determination to impose a penalty or to use an administrative entity to make the determination;

(ii) shall provide for the imposition of a penalty only after the employee has been given an opportunity for a hearing on the record; and

(iii) may provide for review of any determination or order, or interlocutory ruling, arising from a hearing.

(B) Final orders

If no hearing is requested within 15 days of receipt of the notice of opportunity for hearing, the imposition of the penalty shall constitute a final and unappealable order. If the Secretary reviews the determination or order, the Secretary may affirm, modify, or reverse that determination or order. If the

Secretary does not review the determination or order within 90 days of the issuance of the determination or order, the determination or order shall be final.

(C) Factors in determining amount of penalty

In determining the amount of a penalty under paragraph (2), consideration shall be given to such factors as the gravity of the offense, any history of prior disclosures of information on pending funding decisions made after December 15, 1989, ability to pay the penalty, injury to the public, benefits received, deterrence of future violations, and such other factors as the Secretary may determine in regulations to be appropriate.

(D) Reviewability of imposition of a penalty

The Secretary's determination or order imposing a penalty under paragraph (1) shall not be subject to review, except as provided in paragraph (4).

(4) Judicial review of agency determination

(A) In general

After exhausting all administrative remedies established by the Secretary under paragraph (3)(A), an employee against whom the Secretary has imposed a civil money penalty under paragraph (1) may obtain a review of the penalty and such ancillary issues (such as any administrative sanctions under 24 C.F.R. part 25) as may be addressed in the notice of determination to impose a penalty under paragraph (3)(A)(i) in the appropriate court of appeals of the United States, by filing in such court, within 20 days after the entry of such order or determination, a written petition praying that the Secretary's order or determination be modified or be set aside in whole or in part.

(B) Objections not raised in hearing

The court shall not consider any objection that was not raised in the hearing conducted pursuant to paragraph (3)(A) unless a demonstration is made of extraordinary circumstances causing the failure to raise the objection. If any party demonstrates to the satisfaction of the court that additional evidence not presented at such hearing is material and that there were reasonable grounds for the failure to present such evidence at the hearing, the court shall remand the matter to the Secretary for consideration of such additional evidence.

(C) Scope of review

The decisions, findings, and determinations of the Secretary shall be reviewed pursuant to section 706 of title 5.

(D) Order to pay penalty

Notwithstanding any other provision of law, in any such review, the court shall have the power to order payment of the penalty imposed by the Secretary.

(5) Action to collect penalty

If any employee fails to comply with the Secretary's determination or order imposing a civil money penalty under paragraph (1), after

the determination or order is no longer subject to review as provided by paragraphs (3)(A) and (4), the Secretary may request the Attorney General of the United States to bring an action in an appropriate United States district court to obtain a monetary judgment against the employee and such other relief as may be available. The monetary judgment may, in the court's discretion, include the attorneys' fees and other expenses incurred by the United States in connection with the action. In an action under this subsection, the validity and appropriateness of the Secretary's determination or order imposing the penalty shall not be subject to review.

(6) Settlement by Secretary

The Secretary may compromise, modify, or remit any civil money penalty which may be, or has been, imposed under this subsection.

(7) Deposit of penalties

The Secretary shall deposit all civil money penalties collected under this subsection into miscellaneous receipts of the Treasury.

(d) Criminal penalties

Whoever willfully violates subsection (a) by making a disclosure prohibited by subsection (a) to any applicant, or any officer, employee, representative, agent, or consultant of any applicant, shall be imprisoned not more than 5 years, or fined in accordance with title 18, or both.

Section, Pub. L. 95-128, title IX, §904, Oct. 12, 1977, 91 Stat. 1149, required annual publication of prototype housing costs for one- to four-family dwelling units.

§ 3541. Paperwork reduction

(a) Declaration of policy

The Congress finds and declares—

(1) that various departments, agencies, and instrumentalities of the Federal Government with responsibilities involving housing and housing finance programs, require, approve, use or otherwise employ a variety of different forms as residential mortgages (or deeds of trust or similar security instruments) as notes secured by those mortgages, and for applications, appraisals and other purposes, and that such duplication of forms constitutes a paperwork burden that adds to the costs imposed on the Nation’s homeowners and home buyers;

(2) that unnecessary paperwork impairs the effectiveness of Federal housing and housing finance programs;

(3) that both single-family and multi-family programs are affected; and

(4) that simplification of paperwork imposed by Federal housing and housing finance programs would contribute to achieving the Nation’s housing goals by reducing housing costs.

(b) Uniform legal and other forms for use by agencies in housing programs

(1) Not later than October 1, 1980, the Secretary of Housing and Urban Development, the Secretary of Agriculture, and the Secretary of Veterans Affairs shall, consistent with provisions of law governing the conduct of housing programs, employ in their respective programs—

(A) uniform single-family and multi-family note and mortgage forms;

(B) a uniform application form for mortgage approval and commitment for mortgage insurance;

(C) a uniform form for computation of the monthly net effective income of applicants;

(D) a uniform property appraisal form;

(E) a uniform settlement statement which shall satisfy the requirements of the Real Estate Settlement Procedures Act of 1974 [12 U.S.C. 2601 et seq.]; and

(F) such other consolidated or simplified forms, particularly those which solicit identical or nearly identical information from the same persons in the conduct of two or more such programs, the consolidation or simplification of which the Secretaries of Housing and Urban Development and Agriculture and the Secretary of Veterans Affairs mutually agree would contribute to a reduction in the paperwork and regulatory burden of such programs.

(2) The Secretary of Housing and Urban Development, the Secretary of Agriculture, and the Secretary of Veterans Affairs shall, consistent with provisions of law governing their respective programs, provide by regulation for the elimination of forms which solicit information which is already available from other available sources through indexing or other means of identifying such forms.

(3) Each agency referred to in subsection (b) may employ riders, addenda, or similar forms of modification agreements to adapt such uniform forms to its respective programs and policies, consistent with the goals of minimizing the use and extent of such modification agreements and maximizing the suitability of such forms for the use of all participants, public and private.

(c) Coordination and reports by Director of Office of Management and Budget

The Director of the Office of Management and Budget shall coordinate and monitor the development and implementation by Federal departments and agencies of the efforts required by subsection (b) and shall report to the Congress on such development and implementation and with respect to any provisions of law which unnecessarily prevent such departments and agencies from carrying out the provisions of this section as part of each report required under Public Law 93-556. Such report shall include an estimate of the reduction of the level of paperwork burden hours of the affected agencies as allocated by the Office of Management and Budget.

(Pub. L. 95-557, title IX, §905, Oct. 31, 1978, 92 Stat. 2126; Pub. L. 96-153, title III, §328, Dec. 21, 1979, 93 Stat. 1121; Pub. L. 98-479, title II, §204(n)(4), Oct. 17, 1984, 98 Stat. 2234; Pub. L. 102-54, §13(q)(10), June 13, 1991, 105 Stat. 281.)

§ 3604. Discrimination in the sale or rental of housing and other prohibited practices

As made applicable by section 3603 of this title and except as exempted by sections 3603(b) and 3607 of this title, it shall be unlawful—

(b) To discriminate against any person in the terms, conditions, or privileges of sale or rental of a dwelling, or in the provision of services or facilities in connection therewith, because of race, color, religion, sex, familial status, or national origin.

(c) To make, print, or publish, or cause to be made, printed, or published any notice, statement, or advertisement, with respect to the sale or rental of a dwelling that indicates any preference, limitation, or discrimination based on race, color, religion, sex, handicap, familial status, or national origin, or an intention to make any such preference, limitation, or discrimination.

(d) To represent to any person because of race, color, religion, sex, handicap, familial status, or

(f)(1) To discriminate in the sale or rental, or to otherwise make unavailable or deny, a dwelling to any buyer or renter because of a handicap of—

(A) that buyer or renter;¹

(B) a person residing in or intending to reside in that dwelling after it is so sold, rented, or made available; or

(C) any person associated with that buyer or renter.

(A) that person; or

(B) a person residing in or intending to reside in that dwelling after it is so sold, rented, or made available; or

(C) any person associated with that person.

(3) For purposes of this subsection, discrimination includes—

(A) a refusal to permit, at the expense of the handicapped person, reasonable modifications of existing premises occupied or to be occupied by such person if such modifications may be necessary to afford such person full enjoyment of the premises except that, in the case of a rental, the landlord may where it is reasonable to do so condition permission for a modification on the renter agreeing to restore the interior of the premises to the condition that existed before the modification, reasonable wear and tear excepted.²

(B) a refusal to make reasonable accommodations in rules, policies, practices, or services, when such accommodations may be necessary to afford such person equal opportunity to use and enjoy a dwelling; or

(C) in connection with the design and construction of covered multifamily dwellings for first occupancy after the date that is 30 months after September 13, 1988, a failure to design and construct those dwellings in such a manner that—

(IV) usable kitchens and bathrooms such that an individual in a wheelchair can maneuver about the space.

(4) Compliance with the appropriate requirements of the American National Standard for buildings and facilities providing accessibility and usability for physically handicapped people (commonly cited as “ANSI A117.1”) suffices to satisfy the requirements of paragraph (3)(C)(iii).

(5)(A) If a State or unit of general local government has incorporated into its laws the requirements set forth in paragraph (3)(C), compliance with such laws shall be deemed to satisfy the requirements of that paragraph.

(B) A State or unit of general local government may review and approve newly constructed covered multifamily dwellings for the purpose of making determinations as to whether the design and construction requirements of paragraph (3)(C) are met.

(C) The Secretary shall encourage, but may not require, States and units of local government to include in their existing procedures for the review and approval of newly constructed covered multifamily dwellings, determinations as to whether the design and construction of such dwellings are consistent with paragraph (3)(C), and shall provide technical assistance to States and units of local government and other persons to implement the requirements of paragraph (3)(C).

(D) Nothing in this subchapter shall be construed to require the Secretary to review or approve the plans, designs or construction of all covered multifamily dwellings, to determine whether the design and construction of such dwellings are consistent with the requirements of paragraph 3(C).

(6)(A) Nothing in paragraph (5) shall be construed to affect the authority and responsibility of the Secretary or a State or local public agency certified pursuant to section 3610(f)(3) of this title to receive and process complaints or otherwise engage in enforcement activities under this subchapter.

(B) Determinations by a State or a unit of general local government under paragraphs (5)(A) and (B) shall not be conclusive in enforcement proceedings under this subchapter.

(7) As used in this subsection, the term “covered multifamily dwellings” means—

(A) buildings consisting of 4 or more units if such buildings have one or more elevators; and

(B) ground floor units in other buildings consisting of 4 or more units.

(8) Nothing in this subchapter shall be construed to invalidate or limit any law of a State or political subdivision of a State, or other jurisdiction in which this subchapter shall be effective, that requires dwellings to be designed and constructed in a manner that affords handicapped persons greater access than is required by this subchapter.

(9) Nothing in this subsection requires that a dwelling be made available to an individual

or any nonprofit institution or organization operated, supervised or controlled by or in conjunction with a religious organization, association, or society, from limiting the sale, rental or occupancy of dwellings which it owns or operates for other than a commercial purpose to persons of the same religion, or from giving preference to such persons, unless membership in such religion is restricted on account of race, color, or national origin. Nor shall anything in this subchapter prohibit a private club not in fact open to the public, which as an incident to its primary purpose or purposes provides lodgings which it owns or operates for other than a commercial purpose, from limiting the rental or occupancy of such lodgings to its members or from giving preference to its members.

EX. ORD. NO. 12892. LEADERSHIP AND COORDINATION OF FAIR HOUSING IN FEDERAL PROGRAMS: AFFIRMATIVELY FURTHERING FAIR HOUSING

Ex. Ord. No. 12892, Jan. 17, 1994, 59 F.R. 2939, provided: By the authority vested in me as President by the Constitution and the laws of the United States of America, and in accordance with the Fair Housing Act, as amended (42 U.S.C. 3601 et seq.) (“Act”), in order to affirmatively further fair housing in all Federal programs and activities relating to housing and urban development throughout the United States, it is hereby ordered as follows:

SECTION 1. *Administration of Programs and Activities Relating to Housing and Urban Development.*

1-101. Section 808(d) of the Act, as amended [42 U.S.C. 3608(d)], provides that all executive departments and agencies shall administer their programs and activities relating to housing and urban development (including any Federal agency having regulatory or supervisory authority over financial institutions) in a manner affirmatively to further the purposes of the Act and shall cooperate with the Secretary of Housing and Urban Development to further such purposes.

1-102. As used in this order, the phrase “programs and activities” shall include programs and activities operated, administered, or undertaken by the Federal Government; grants; loans; contracts; insurance; guarantees; and Federal supervision or exercise of regulatory responsibility (including regulatory or supervisory authority over financial institutions).

SEC. 2. *Responsibilities of Executive Agencies.*

2-201. The primary authority and responsibility for administering the programs and activities relating to housing and urban development affirmatively to further fair housing is vested in the Secretary of Housing and Urban Development.

2-202. The head of each executive agency is responsible for ensuring that its programs and activities relating to housing and urban development are administered in a manner affirmatively to further the goal of fair housing as required by section 808 of the Act [42 U.S.C. 3608] and for cooperating with the Secretary of Housing and Urban Development, who shall be responsible for exercising leadership in furthering the purposes of the Act.

2-203. In carrying out the responsibilities in this order, the head of each executive agency shall take appropriate steps to require that all persons or other entities who are applicants for, or participants in, or who are supervised or regulated under, agency programs and activities relating to housing and urban development shall comply with this order.

2-204. Upon receipt of a complaint alleging facts that may constitute a violation of the Act or upon receipt of information from a consumer compliance examination or other information suggesting a violation of the Act, each executive agency shall forward such facts or information to the Secretary of Housing and Urban Development for processing under the Act. Where such facts or information indicate a possible pattern or practice of discrimination in violation of the Act, they also shall be forwarded to the Attorney General. The authority of the Federal depository institution regulatory agencies to take appropriate action under their statutory authority remains unaffected.

SEC. 3. President's Fair Housing Council.

3-301. There is hereby established an advisory council entitled the "President's Fair Housing Council" ("Council"). The Council shall be chaired by the Secretary of Housing and Urban Development and shall consist of the Secretary of Health and Human Services, the Secretary of Transportation, the Secretary of Education, the Secretary of Labor, the Secretary of Defense, the Secretary of Agriculture, the Secretary of Veterans Affairs, the Secretary of the Treasury, the Attorney General, the Secretary of the Interior, the Chair of the Federal Reserve, the Comptroller of the Currency, the Director of the Office of Thrift Supervision, the Chair of the Federal Deposit Insurance Corporation, and such other officials of executive departments and agencies as the President may, from time to time, designate.

3-302. The President's Fair Housing Council shall review the design and delivery of Federal programs and activities to ensure that they support a coordinated strategy to affirmatively further fair housing. The Council shall propose revisions to existing programs or activities, develop pilot programs and activities, and propose new programs and activities to achieve its goals.

3-303. In support of cooperative efforts among all executive agencies, the Secretary of Housing and Urban Development shall:

(a) cooperate with, and render assistance to, the heads of all executive agencies in the formulation of policies and procedures to implement this order and to provide information and guidance on the affirmative administration of programs and activities relating to housing and urban development and the protection of the rights accorded by the Act; and

(b) develop memoranda of understanding and any necessary implementing procedures among executive agencies designed to provide for consultation and the coordination of Federal efforts to further fair housing through the affirmative administration of programs and activities relating to housing and urban development, including coordination of the investigation of complaints or other information referred to the Secretary as required by section 2-204 of this order that would constitute a violation of the Act or, where relevant, other Federal laws. Existing memoranda of understanding shall remain in effect until superseded.

3-304. In connection with carrying out functions under this order, the Secretary of Housing and Urban Development is authorized to request from any executive agency such information and assistance as the Secretary deems necessary. Each agency shall furnish such information to the extent permitted by law and, to the extent practicable, provide assistance to the Secretary.

SEC. 4. Specific Responsibilities.

4-401. In implementing the responsibilities under sections 2-201, 2-202, 2-203, and section 3 of this order, the Secretary of Housing and Urban Development shall, to the extent permitted by law:

(a) promulgate regulations in consultation with the Department of Justice and Federal banking agencies

regarding programs and activities of executive agencies related to housing and urban development that shall:

(2) describe the types of programs and activities defined in section 1-102 of this order that are subject to the order;

(3) describe the responsibilities and obligations of executive agencies in ensuring that programs and activities are administered and executed in a manner that furthers fair housing;

(4) describe the responsibilities and obligations of applicants, participants, and other persons and entities involved in housing and urban development programs and activities affirmatively to further the goal of fair housing; and

(5) describe a method to identify impediments in programs or activities that restrict fair housing choice and implement incentives that will maximize the achievement of practices that affirmatively further fair housing.

(b) coordinate executive agency implementation of the requirements of this order and issue standards and procedures regarding:

(1) the administration of programs and activities relating to housing and urban development in a manner affirmatively to further fair housing; and

(2) the cooperation of executive agencies in furtherance of the Secretary of Housing and Urban Development's authority and responsibility under the Act.

4-402. Within 180 days of the publication of final regulations by the Secretary of Housing and Urban Development under section 4-401 of this order, the head of each executive agency shall publish proposed regulations providing for the administration of programs and activities relating to housing and urban development in a manner affirmatively to further fair housing, consistent with the Secretary of Housing and Urban Development's regulations, and with the standards and procedures issued pursuant to section 4-401(b) of this order. As soon as practicable thereafter, each executive agency shall issue its final regulations. All executive agencies shall formally submit all such proposed and final regulations, and any related issuances or standards, to the Secretary of Housing and Urban Development at least 30 days prior to public announcement.

4-403. 4-404. In addition to promulgating the regulations described in section 4-401 of this order, the Secretary of Housing and Urban Development shall promulgate regulations describing the nature and scope of coverage and the conduct prohibited, including mortgage lending discrimination and property insurance discrimination.

SEC. 5. Administrative Enforcement.

5-501. The head of each executive agency shall be responsible for enforcement of this order and, unless prohibited by law, shall cooperate and provide records, data, and documentation in connection with any other agency's investigation of compliance with provisions of this order.

5-502. If any executive agency concludes that any person or entity (including any State or local public agency) applying for or participating in, or supervised or regulated under, a program or activity relating to housing and urban development has not complied with this order or any applicable rule, regulation, or procedure issued or adopted pursuant to this order, it shall endeavor to end and remedy such violation by informal means, including conference, conciliation, and persuasion. An executive agency need not pursue informal resolution of matters where similar efforts made by another executive agency have been unsuccessful, except where otherwise required by law. In the event of failure of such informal means, the executive agency, in con-

formity with rules, regulations, procedures, or policies issued or adopted by it pursuant to section 4 of this order hereof, shall impose such sanctions as may be authorized by law. To the extent authorized by law, such sanctions may include:

(a) cancellation or termination of agreements or contracts with such person, entity, or any State or local public agency;

(b) refusal to extend any further aid under any program or activity administered by it and affected by this order until it is satisfied that the affected person, entity, or State or local public agency will comply with the rules, regulations, and procedures issued or adopted pursuant to this order;

(c) refusal to grant supervisory or regulatory approval to such person, entity, or State or local public agency under any program or activity administered by it that is affected by this order or revoke such approval if previously given; and

(d) any other action as may be appropriate under law.

5-503. Findings of any violation under section 5-502 of this order shall be promptly reported by the head of each executive agency to the Secretary of Housing and Urban Development and the Attorney General. The Secretary of Housing and Urban Development shall forward this information to all other executive agencies.

5-504. Any executive agency shall also consider invoking appropriate sanctions against any person or entity where any other executive department or agency has initiated action against that person or entity pursuant to section 5-502 of this order, where the Secretary of Housing and Urban Development has issued a charge against such person or entity that has not been resolved, or where the Attorney General has filed a civil action in Federal Court against such person or entity.

5-505. Each executive agency shall consult with the Secretary of Housing and Urban Development, and the Attorney General where a civil action in Federal Court has been filed, regarding agency actions to invoke sanctions under the Act. The Department of Housing and Urban Development, the Department of Justice, and Federal banking agencies shall develop and coordinate appropriate policies and procedures for taking action under their respective authorities. Each decision to invoke sanctions and the reasons therefor shall be documented and shall be provided to the Secretary of Housing and Urban Development and, where appropriate, to the Attorney General in a timely manner.

SEC. 6. General Provisions.

6-601. Nothing in this order shall limit the authority of the Attorney General to provide for the coordinated enforcement of nondiscrimination requirements in Federal assistance programs under Executive Order No. 12250 [42 U.S.C. 2000d-1 note].

6-602. All provisions of regulations, guidelines, and procedures proposed to be issued by executive agencies pursuant to this order that implement nondiscrimination requirements of laws covered by Executive Order No. 12250 [42 U.S.C. 2000d-1 note] shall be submitted to the Attorney General for review in accordance with that Executive order. In addition, the Secretary shall consult with the Attorney General regarding all regulations and procedures proposed to be issued under sections 4-401 and 4-402 of this order to assure consistency with coordinated Federal efforts to enforce nondiscrimination requirements in programs of Federal financial assistance pursuant to Executive Order No. 12250.

(b) Sections 101 and 502(a) of Executive Order No. 11063 are revised to apply to discrimination because of "race, color, religion (creed), sex, disability, familial

status or national origin." All executive agencies shall revise regulations, guidelines, and procedures issued pursuant to Part II of Executive Order No. 11063 to reflect this amendment to coverage.

(c) Section 102 of Executive Order No. 11063 is revised by deleting the term "Housing and Home Finance Agency" and inserting in lieu thereof the term "Department of Housing and Urban Development."

6-605. Nothing in this order shall affect any requirement imposed under the Equal Credit Opportunity Act (15 U.S.C. 1691 *et seq.*), the Home Mortgage Disclosure Act (12 U.S.C. 2801 *et seq.*) or the Community Reinvestment Act (12 U.S.C. 2901 *et seq.*).

WILLIAM J. CLINTON.

FEDERAL LEADERSHIP OF FAIR HOUSING

Memorandum of President of the United States, Jan. 17, 1994, 59 F.R. 8513, provided:

Memorandum for the Heads of Executive Departments and Agencies

On April 11, 1968, one week after the assassination of the great civil rights leader Martin Luther King, Jr., the Fair Housing Act [42 U.S.C. 3601 *et seq.*] was enacted (1) to prohibit discrimination in housing, and (2) to direct the Secretary of Housing and Urban Development to affirmatively further fair housing in Federal housing and urban development programs. Twenty-five years later, despite a strengthening of the Fair Housing Act 5 years ago, hundreds of acts of housing discrimination occur in our Nation each day.

Americans of every income level, seeking to live where they choose, feel the weight of discrimination because of the color of their skin, their race, their religion, their gender, their country of origin, or because they are disabled or have children.

An increasing body of evidence indicates that barriers to fair housing are pervasive. Forty percent of all families move every 5 years. This statistic is significant given the results of a recent study, commissioned by the Department of Housing and Urban Development (HUD), which found that more than half of the African Americans and Latinos seeking to rent or buy a home are treated differently than whites with the same qualifications. Moreover, based upon Home Mortgage Disclosure Act [12 U.S.C. 2801 *et seq.*] data, the number of minority persons who are rejected when attempting to obtain loans to purchase homes is two to three times higher than it is for nonminorities in almost every metropolitan area of this country.

Racial and ethnic segregation, both in the private housing market and in public and assisted housing, has been well documented. Despite legislation (the Fair Housing Act) and Executive action (Executive Order No. 11063 [42 U.S.C. 1982 note]), the divisive impact of housing segregation persists in metropolitan areas all across this country. Too many lower income and minority Americans face barriers to housing outside of central cities. Segregation in housing and schools deprives too many of our children and youth of an opportunity to enter the marketplace or work on an equal footing. For too many families, our cities are no longer the launching pads for economic self-sufficiency and upward mobility that they have been for countless immigrants and minorities since the country's birth. And many Americans who are better off abandon the cities.

The resulting decline in the very heart of too many of our metropolitan areas threatens all of us: the health of our dynamic regional economies—the very lifeblood of future national economic growth and higher living standards for all of us and all of our children—is placed at risk.

We can do better. We can start by making sure that our own Federal policies and programs across all of our agencies support the fair housing and equal opportunity goals to which all Americans are committed. If all of our executive agencies affirmatively further fair housing in the design of their policies and administration of their programs relating to housing and urban development, a truly nondiscriminatory housing market will be closer to achievement.

By an Executive Order [Ex. Ord. No. 12892, set out above] (“the Order”) I am issuing today and this memorandum, I am addressing those needs. The Secretary of Housing and Urban Development and, where appropriate, the Attorney General—the officials with the primary responsibility for the enforcement of Federal fair housing laws—will take the lead in developing and coordinating measures to carry out the purposes of this Order.

Through this Order, I am first expanding Executive Order No. 11063 to provide protection against discrimination in programs of Federal insurance or guaranty to persons who are disabled and to families with children.

Second, I am revoking the old Executive Order No. 12259 entitled “Leadership and Coordination of Fair Housing in Federal Programs.” The new Executive order reflects the expanded authority of the Secretary of Housing and Urban Development and I am directing him to take stronger measures to provide leadership and coordination in affirmatively furthering fair housing in Federal programs.

Third, I ask the heads of departments and agencies, including the Federal banking agencies, to cooperate with the Secretary of Housing and Urban Development in identifying ways to structure agency programs and activities to affirmatively further fair housing and to promptly negotiate memoranda of understanding with him to accomplish that goal.

Further, I direct the Secretary of Housing and Urban Development to review all of HUD’s programs to assure that they truly provide equal opportunity and promote economic self-sufficiency for those who are beneficiaries and recipients of those programs.

I also direct the Secretary to review HUD’s programs to assure that they contain the maximum incentives to affirmatively further fair housing and to eliminate barriers to free choice where they continue to exist. This review shall include Federally assisted housing, Federally insured housing and other housing and housing related programs, including those of the Government National Mortgage Association and the Federal Housing Administration.

Today, I am establishing a new Cabinet-level organization to focus the cooperative efforts of all agencies on fair housing. The President’s Fair Housing Council will be chaired by the Secretary of Housing and Urban Development and will consist of the Secretary of Health and Human Services, the Secretary of Transportation, the Secretary of Education, the Secretary of Labor, the Secretary of Defense, the Secretary of Agriculture, the Secretary of Veterans Affairs, the Secretary of the Treasury, the Attorney General, the Secretary of the Interior, the Chair of the Federal Reserve, the Comptroller of the Currency, the Director of the Office of Thrift Supervision, and the Chair of the Federal Deposit Insurance Corporation.

The President’s Fair Housing Council shall review the design and delivery of Federal programs and activities to ensure that they support a coordinated strategy to affirmatively further fair housing. The Council shall propose revisions to existing programs or activities, develop pilot programs and activities, and propose new programs and activities to achieve its goals.

I direct the Secretary of Housing and Urban Development and the President’s Fair Housing Council to de-

velop a pilot program to be implemented in selected metropolitan areas. This initiative will promote fair housing choice by helping inner-city families to move to suburban neighborhoods and by making the central city more attractive to those who have left it. I direct the members of the Council to undertake a demonstration program that will reinvent the way assisted housing is offered to applicants, will break down jurisdictional barriers in housing opportunities, and will promote the use of subsidies that diminish residential segregation, and will combine these initiatives with refined educational incentives aimed at improving the effectiveness of inner-city schools. I am directing that transportation alternatives be considered along with targeted social service and job training programs as part of the support necessary to create a one-stop, metropolitan area-wide fair housing opportunity pilot program that will effectively offer Federally assisted housing, Federally insured housing, and private market housing within a metropolitan area to all residents of the area. The pilot program should call upon realtors, mortgage lenders, housing providers, and local governments, among others, to assist in expanding housing choices.

To address the findings of recent studies, I hereby direct the Secretary of Housing and Urban Development and the Attorney General and, where appropriate, the heads of the Federal banking agencies to exercise national leadership to end discrimination in mortgage lending, the secondary mortgage market, and property insurance practices. The Secretary is directed to issue regulations to define discriminatory practices in these areas and the Secretary and the Attorney General are directed to aggressively enforce the laws prohibiting these practices.

In each of these areas, I direct the Secretary of Housing and Urban Development to take the lead with the other Federal agencies in working to gain the voluntary cooperation, participation, and expertise of all of those in private industry, the States and localities who can assist in achieving the Nation’s fair housing goals.

The Secretary of Housing and Urban Development is authorized and directed to publish this memorandum in the Federal Register.

WILLIAM J. CLINTON.

REDRESSING OUR NATION’S AND THE FEDERAL GOVERNMENT’S HISTORY OF DISCRIMINATORY HOUSING PRACTICES AND POLICIES

Memorandum of President of the United States, Jan. 26, 2021, 86 F.R. 7487, provided:

Memorandum for the Secretary of Housing and Urban Development

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. *Background and Policy.* Diverse and inclusive communities strengthen our democracy. But our Nation’s history has been one of great struggle toward this ideal. During the 20th century, Federal, State, and local governments systematically implemented racially discriminatory housing policies that contributed to segregated neighborhoods and inhibited equal opportunity and the chance to build wealth for Black, Latino, Asian American and Pacific Islander, and Native American families, and other underserved communities. Ongoing legacies of residential segregation and discrimination remain ever-present in our society. These include a racial gap in homeownership; a persistent undervaluation of properties owned by families of color; a disproportionate burden of pollution and exposure to the impacts of climate change in communities of color; and systemic barriers to safe, accessible, and affordable housing for people of color, immigrants, individuals with disabilities, and lesbian, gay, bisexual, transgender, gender non-conforming, and queer (LGBTQ+) individuals.

Throughout much of the 20th century, the Federal Government systematically supported discrimination

and exclusion in housing and mortgage lending. While many of the Federal Government's housing policies and programs expanded homeownership across the country, many knowingly excluded Black people and other persons of color, and promoted and reinforced housing segregation. Federal policies contributed to mortgage redlining and lending discrimination against persons of color.

The creation of the Interstate Highway System, funded and constructed by the Federal Government and State governments in the 20th century, disproportionately burdened many historically Black and low-income neighborhoods in many American cities. Many urban interstate highways were deliberately built to pass through Black neighborhoods, often requiring the destruction of housing and other local institutions. To this day, many Black neighborhoods are disconnected from access to high-quality housing, jobs, public transit, and other resources.

The Federal Government must recognize and acknowledge its role in systematically declining to invest in communities of color and preventing residents of those communities from accessing the same services and resources as their white counterparts. The effects of these policy decisions continue to be felt today, as racial inequality still permeates land-use patterns in most U.S. cities and virtually all aspects of housing markets.

The Congress enacted the Fair Housing Act [42 U.S.C. 3601 et seq.] more than 50 years ago to lift barriers that created separate and unequal neighborhoods on the basis of race, ethnicity, and national origin. Since then, however, access to housing and the creation of wealth through homeownership have remained persistently unequal in the United States. Many neighborhoods are as racially segregated today as they were in the middle of the 20th century. People of color are over-represented among those experiencing homelessness. In addition, people of color disproportionately bear the burdens of exposure to air and water pollution, and growing risks of housing instability from climate crises like extreme heat, flooding, and wildfires. And the racial wealth gap is wider than it was when the Fair Housing Act was enacted, driven in part by persistent disparities in access to homeownership. Although Federal fair housing laws were expanded to include protections for individuals with disabilities, a lack of access to affordable and integrated living options remains a significant problem.

The Federal Government has a critical role to play in overcoming and redressing this history of discrimination and in protecting against other forms of discrimination by applying and enforcing Federal civil rights and fair housing laws. It can help ensure that fair and equal access to housing opportunity exists for all throughout the United States. This goal is consistent with the Fair Housing Act, which imposes on Federal departments and agencies the duty to "administer their programs and activities relating to housing and urban development . . . in a manner affirmatively to further" fair housing (42 U.S.C. 3608(d)). This is not only a mandate to refrain from discrimination but a mandate to take actions that undo historic patterns of segregation and other types of discrimination and that afford access to long-denied opportunities.

Accordingly, it is the policy of my Administration that the Federal Government shall work with communities to end housing discrimination, to provide redress to those who have experienced housing discrimination, to eliminate racial bias and other forms of discrimination in all stages of home-buying and renting, to lift barriers that restrict housing and neighborhood choice, to promote diverse and inclusive communities, to ensure sufficient physically accessible housing, and to secure equal access to housing opportunity for all.

SEC. 2. *Examining Recent Regulatory Actions.* The Secretary of Housing and Urban Development (HUD) shall, as soon as practicable, take all steps necessary to examine the effects of the August 7, 2020, rule entitled "Preserving Community and Neighborhood Choice"

(codified at parts 5, 91, 92, 570, 574, 576, and 903 of title 24, Code of Federal Regulations), including the effect that repealing the July 16, 2015, rule entitled "Affirmatively Furthering Fair Housing" has had on HUD's statutory duty to affirmatively further fair housing. The Secretary shall also, as soon as practicable, take all steps necessary to examine the effects of the September 24, 2020, rule entitled "HUD's Implementation of the Fair Housing Act's Disparate Impact Standard" (codified at part 100 of title 24, Code of Federal Regulations), including the effect that amending the February 15, 2013, rule entitled "Implementation of the Fair Housing Act's Discriminatory Effects Standard" has had on HUD's statutory duty to ensure compliance with the Fair Housing Act. Based on that examination, the Secretary shall take any necessary steps, as appropriate and consistent with applicable law, to implement the Fair Housing Act's requirements that HUD administer its programs in a manner that affirmatively furthers fair housing and HUD's overall duty to administer the Act (42 U.S.C. 3608(a)) including by preventing practices with an unjustified discriminatory effect.

SEC. 3. *General Provisions.* (a) Nothing in this memorandum shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This memorandum shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This memorandum is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

(d) You are authorized and directed to publish this memorandum in the *Federal Register*.

He shall consult with State and local officials and other interested parties to learn the extent, if any, to which housing discrimination exists in their State or locality, and whether and how State or local enforcement programs might be utilized to combat such discrimination in connection with or in place of, the Secretary's enforcement of this subchapter. The Secretary shall issue reports on such conferences and consultations as he deems appropriate.

(Pub. L. 90-284, title VIII, §809, Apr. 11, 1968, 82 Stat. 85.)

§ 3610. Administrative enforcement; preliminary matters

(a) Complaints and answers

(1)(A)(i) An aggrieved person may, not later than one year after an alleged discriminatory housing practice has occurred or terminated, file a complaint with the Secretary alleging such discriminatory housing practice. The Secretary, on the Secretary's own initiative, may also file such a complaint.

(ii) Such complaints shall be in writing and shall contain such information and be in such form as the Secretary requires.

(iii) The Secretary may also investigate housing practices to determine whether a complaint should be brought under this section.

(B) Upon the filing of such a complaint—

(i) the Secretary shall serve notice upon the aggrieved person acknowledging such filing and advising the aggrieved person of the time limits and choice of forums provided under this subchapter;

(ii) the Secretary shall, not later than 10 days after such filing or the identification of an additional respondent under paragraph (2), serve on the respondent a notice identifying the alleged discriminatory housing practice and advising such respondent of the procedural rights and obligations of respondents under this subchapter, together with a copy of the original complaint;

(iii) each respondent may file, not later than 10 days after receipt of notice from the Secretary, an answer to such complaint; and

(iv) the Secretary shall make an investigation of the alleged discriminatory housing practice and complete such investigation within 100 days after the filing of the complaint (or, when the Secretary takes further action under subsection (f)(2) with respect to a complaint, within 100 days after the commencement of such further action), unless it is impracticable to do so.

(C) If the Secretary is unable to complete the investigation within 100 days after the filing of the complaint (or, when the Secretary takes further action under subsection (f)(2) with respect to a complaint, within 100 days after the commencement of such further action), the Secretary shall notify the complainant and respondent in writing of the reasons for not doing so.

(D) Complaints and answers shall be under oath or affirmation, and may be reasonably and fairly amended at any time.

(2)(A) A person who is not named as a respondent in a complaint, but who is identified as a respondent in the course of investigation, may be joined as an additional or substitute respondent upon written notice, under paragraph (1), to such person, from the Secretary.

(B) Such notice, in addition to meeting the requirements of paragraph (1), shall explain the basis for the Secretary's belief that the person to whom the notice is addressed is properly joined as a respondent.

(b) Investigative report and conciliation

(1) During the period beginning with the filing of such complaint and ending with the filing of a charge or a dismissal by the Secretary, the Secretary shall, to the extent feasible, engage in conciliation with respect to such complaint.

(2) A conciliation agreement arising out of such conciliation shall be an agreement between the respondent and the complainant, and shall be subject to approval by the Secretary.

(3) A conciliation agreement may provide for binding arbitration of the dispute arising from the complaint. Any such arbitration that results from a conciliation agreement may award appropriate relief, including monetary relief.

(4) Each conciliation agreement shall be made public unless the complainant and respondent

otherwise agree and the Secretary determines that disclosure is not required to further the purposes of this subchapter.

(5)(A) At the end of each investigation under this section, the Secretary shall prepare a final investigative report containing—

- (i) the names and dates of contacts with witnesses;
- (ii) a summary and the dates of correspondence and other contacts with the aggrieved person and the respondent;
- (iii) a summary description of other pertinent records;
- (iv) a summary of witness statements; and
- (v) answers to interrogatories.

(B) A final report under this paragraph may be amended if additional evidence is later discovered.

(c) Failure to comply with conciliation agreement

Whenever the Secretary has reasonable cause to believe that a respondent has breached a conciliation agreement, the Secretary shall refer the matter to the Attorney General with a recommendation that a civil action be filed under section 3614 of this title for the enforcement of such agreement.

(d) Prohibitions and requirements with respect to disclosure of information

(1) Nothing said or done in the course of conciliation under this subchapter may be made public or used as evidence in a subsequent proceeding under this subchapter without the written consent of the persons concerned.

(2) Notwithstanding paragraph (1), the Secretary shall make available to the aggrieved person and the respondent, at any time, upon request following completion of the Secretary's investigation, information derived from an investigation and any final investigative report relating to that investigation.

(e) Prompt judicial action

(1) If the Secretary concludes at any time following the filing of a complaint that prompt judicial action is necessary to carry out the purposes of this subchapter, the Secretary may authorize a civil action for appropriate temporary or preliminary relief pending final disposition of the complaint under this section. Upon receipt of such an authorization, the Attorney General shall promptly commence and maintain such an action. Any temporary restraining order or other order granting preliminary or temporary relief shall be issued in accordance with the Federal Rules of Civil Procedure. The commencement of a civil action under this subsection does not affect the initiation or continuation of administrative proceedings under this section and section 3612 of this title.

(2) Whenever the Secretary has reason to believe that a basis may exist for the commencement of proceedings against any respondent under sections 3614(a) and 3614(c) of this title or for proceedings by any governmental licensing or supervisory authorities, the Secretary shall transmit the information upon which such belief is based to the Attorney General, or to such authorities, as the case may be.

(f) Referral for State or local proceedings

(1) Whenever a complaint alleges a discriminatory housing practice—

- (A) within the jurisdiction of a State or local public agency; and
- (B) as to which such agency has been certified by the Secretary under this subsection;

the Secretary shall refer such complaint to that certified agency before taking any action with respect to such complaint.

(2) Except with the consent of such certified agency, the Secretary, after that referral is made, shall take no further action with respect to such complaint unless—

- (A) the certified agency has failed to commence proceedings with respect to the complaint before the end of the 30th day after the date of such referral;
- (B) the certified agency, having so commenced such proceedings, fails to carry forward such proceedings with reasonable promptness; or
- (C) the Secretary determines that the certified agency no longer qualifies for certification under this subsection with respect to the relevant jurisdiction.

(3)(A) The Secretary may certify an agency under this subsection only if the Secretary determines that—

- (i) the substantive rights protected by such agency in the jurisdiction with respect to which certification is to be made;
- (ii) the procedures followed by such agency;
- (iii) the remedies available to such agency; and
- (iv) the availability of judicial review of such agency's action;

are substantially equivalent to those created by and under this subchapter.

(B) Before making such certification, the Secretary shall take into account the current practices and past performance, if any, of such agency.

(4) During the period which begins on September 13, 1988, and ends 40 months after September 13, 1988, each agency certified (including an agency certified for interim referrals pursuant to 24 CFR 115.11, unless such agency is subsequently denied recognition under 24 CFR 115.7) for the purposes of this subchapter on the day before September 13, 1988, shall for the purposes of this subsection be considered certified under this subsection with respect to those matters for which such agency was certified on September 13, 1988. If the Secretary determines in an individual case that an agency has not been able to meet the certification requirements within this 40-month period due to exceptional circumstances, such as the infrequency of legislative sessions in that jurisdiction, the Secretary may extend such period by not more than 8 months.

(5) Not less frequently than every 5 years, the Secretary shall determine whether each agency certified under this subsection continues to qualify for certification. The Secretary shall take appropriate action with respect to any agency not so qualifying.

(g) Reasonable cause determination and effect

(1) The Secretary shall, within 100 days after the filing of the complaint (or, when the Sec-

retary takes further action under subsection (f)(2) with respect to a complaint, within 100 days after the commencement of such further action), determine based on the facts whether reasonable cause exists to believe that a discriminatory housing practice has occurred or is about to occur, unless it is impracticable to do so, or unless the Secretary has approved a conciliation agreement with respect to the complaint. If the Secretary is unable to make the determination within 100 days after the filing of the complaint (or, when the Secretary takes further action under subsection (f)(2) with respect to a complaint, within 100 days after the commencement of such further action), the Secretary shall notify the complainant and respondent in writing of the reasons for not doing so.

(2)(A) If the Secretary determines that reasonable cause exists to believe that a discriminatory housing practice has occurred or is about to occur, the Secretary shall, except as provided in subparagraph (C), immediately issue a charge on behalf of the aggrieved person, for further proceedings under section 3612 of this title.

(B) Such charge—

(i) shall consist of a short and plain statement of the facts upon which the Secretary has found reasonable cause to believe that a discriminatory housing practice has occurred or is about to occur;

(ii) shall be based on the final investigative report; and

(iii) need not be limited to the facts or grounds alleged in the complaint filed under subsection (a).

(C) If the Secretary determines that the matter involves the legality of any State or local zoning or other land use law or ordinance, the Secretary shall immediately refer the matter to the Attorney General for appropriate action under section 3614 of this title, instead of issuing such charge.

(3) If the Secretary determines that no reasonable cause exists to believe that a discriminatory housing practice has occurred or is about to occur, the Secretary shall promptly dismiss the complaint. The Secretary shall make public disclosure of each such dismissal.

(4) The Secretary may not issue a charge under this section regarding an alleged discriminatory housing practice after the beginning of the trial of a civil action commenced by the aggrieved party under an Act of Congress or a State law, seeking relief with respect to that discriminatory housing practice.

(h) Service of copies of charge

After the Secretary issues a charge under this section, the Secretary shall cause a copy thereof, together with information as to how to make an election under section 3612(a) of this title and the effect of such an election, to be served—

(1) on each respondent named in such charge, together with a notice of opportunity for a hearing at a time and place specified in the notice, unless that election is made; and

(2) on each aggrieved person on whose behalf the complaint was filed.

§ 3612. Enforcement by Secretary**(a) Election of judicial determination**

When a charge is filed under section 3610 of this title, a complainant, a respondent, or an aggrieved person on whose behalf the complaint was filed, may elect to have the claims asserted in that charge decided in a civil action under subsection (o) in lieu of a hearing under subsection (b). The election must be made not later than 20 days after the receipt by the electing person of service under section 3610(h) of this title or, in the case of the Secretary, not later than 20 days after such service. The person making such election shall give notice of doing so to the Secretary and to all other complainants and respondents to whom the charge relates.

(b) Administrative law judge hearing in absence of election

If an election is not made under subsection (a) with respect to a charge filed under section 3610 of this title, the Secretary shall provide an opportunity for a hearing on the record with respect to a charge issued under section 3610 of this title. The Secretary shall delegate the conduct of a hearing under this section to an administrative law judge appointed under section 3105 of title 5. The administrative law judge shall conduct the hearing at a place in the vicinity in which the discriminatory housing practice is alleged to have occurred or to be about to occur.

(c) Rights of parties

At a hearing under this section, each party may appear in person, be represented by counsel, present evidence, cross-examine witnesses, and obtain the issuance of subpoenas under section 3611 of this title. Any aggrieved person may intervene as a party in the proceeding. The Federal Rules of Evidence apply to the presentation of evidence in such hearing as they would in a civil action in a United States district court.

(d) Expedited discovery and hearing

(1) Discovery in administrative proceedings under this section shall be conducted as expeditiously and inexpensively as possible, consistent with the need of all parties to obtain relevant evidence.

(2) A hearing under this section shall be conducted as expeditiously and inexpensively as possible, consistent with the needs and rights of the parties to obtain a fair hearing and a complete record.

(3) The Secretary shall, not later than 180 days after September 13, 1988, issue rules to implement this subsection.

(e) Resolution of charge

Any resolution of a charge before a final order under this section shall require the consent of the aggrieved person on whose behalf the charge is issued.

(f) Effect of trial of civil action on administrative proceedings

An administrative law judge may not continue administrative proceedings under this section regarding any alleged discriminatory housing practice after the beginning of the trial of a civil action commenced by the aggrieved party under an Act of Congress or a State law, seeking relief with respect to that discriminatory housing practice.

(g) Hearings, findings and conclusions, and order

(1) The administrative law judge shall commence the hearing under this section no later than 120 days following the issuance of the charge, unless it is impracticable to do so. If the administrative law judge is unable to commence the hearing within 120 days after the issuance of the charge, the administrative law judge shall notify the Secretary, the aggrieved person on whose behalf the charge was filed, and the respondent, in writing of the reasons for not doing so.

(2) The administrative law judge shall make findings of fact and conclusions of law within 60 days after the end of the hearing under this section, unless it is impracticable to do so. If the administrative law judge is unable to make findings of fact and conclusions of law within such period, or any succeeding 60-day period thereafter, the administrative law judge shall notify the Secretary, the aggrieved person on whose behalf the charge was filed, and the respondent, in writing of the reasons for not doing so.

(3) If the administrative law judge finds that a respondent has engaged or is about to engage in a discriminatory housing practice, such administrative law judge shall promptly issue an order for such relief as may be appropriate, which may include actual damages suffered by the aggrieved person and injunctive or other equitable relief. Such order may, to vindicate the public interest, assess a civil penalty against the respondent—

(A) in an amount not exceeding \$10,000 if the respondent has not been adjudged to have committed any prior discriminatory housing practice;

(B) in an amount not exceeding \$25,000 if the respondent has been adjudged to have committed one other discriminatory housing practice during the 5-year period ending on the date of the filing of this charge; and

(C) in an amount not exceeding \$50,000 if the respondent has been adjudged to have committed 2 or more discriminatory housing practices during the 7-year period ending on the date of the filing of this charge;

except that if the acts constituting the discriminatory housing practice that is the object of the charge are committed by the same natural person who has been previously adjudged to have committed acts constituting a discriminatory housing practice, then the civil penalties set forth in subparagraphs (B) and (C) may be im-

posed without regard to the period of time within which any subsequent discriminatory housing practice occurred.

(4) No such order shall affect any contract, sale, encumbrance, or lease consummated before the issuance of such order and involving a bona fide purchaser, encumbrancer, or tenant without actual notice of the charge filed under this subchapter.

(5) In the case of an order with respect to a discriminatory housing practice that occurred in the course of a business subject to a licensing or regulation by a governmental agency, the Secretary shall, not later than 30 days after the date of the issuance of such order (or, if such order is judicially reviewed, 30 days after such order is in substance affirmed upon such review)—

(A) send copies of the findings of fact, conclusions of law, and the order, to that governmental agency; and

(B) recommend to that governmental agency appropriate disciplinary action (including, where appropriate, the suspension or revocation of the license of the respondent).

(6) In the case of an order against a respondent against whom another order was issued within the preceding 5 years under this section, the Secretary shall send a copy of each such order to the Attorney General.

(7) If the administrative law judge finds that the respondent has not engaged or is not about to engage in a discriminatory housing practice, as the case may be, such administrative law judge shall enter an order dismissing the charge. The Secretary shall make public disclosure of each such dismissal.

(h) Review by Secretary; service of final order

(1) The Secretary may review any finding, conclusion, or order issued under subsection (g). Such review shall be completed not later than 30 days after the finding, conclusion, or order is so issued; otherwise the finding, conclusion, or order becomes final.

(2) The Secretary shall cause the findings of fact and conclusions of law made with respect to any final order for relief under this section, together with a copy of such order, to be served on each aggrieved person and each respondent in the proceeding.

(i) Judicial review

(1) Any party aggrieved by a final order for relief under this section granting or denying in whole or in part the relief sought may obtain a review of such order under chapter 158 of title 28.

(2) Notwithstanding such chapter, venue of the proceeding shall be in the judicial circuit in which the discriminatory housing practice is alleged to have occurred, and filing of the petition for review shall be not later than 30 days after the order is entered.

(j) Court enforcement of administrative order upon petition by Secretary

(1) The Secretary may petition any United States court of appeals for the circuit in which the discriminatory housing practice is alleged to have occurred or in which any respondent resides or transacts business for the enforcement of the order of the administrative law judge and

for appropriate temporary relief or restraining order, by filing in such court a written petition praying that such order be enforced and for appropriate temporary relief or restraining order.

(2) The Secretary shall file in court with the petition the record in the proceeding. A copy of such petition shall be forthwith transmitted by the clerk of the court to the parties to the proceeding before the administrative law judge.

(k) Relief which may be granted

(1) Upon the filing of a petition under subsection (i) or (j), the court may—

(A) grant to the petitioner, or any other party, such temporary relief, restraining order, or other order as the court deems just and proper;

(B) affirm, modify, or set aside, in whole or in part, the order, or remand the order for further proceedings; and

(C) enforce such order to the extent that such order is affirmed or modified.

(2) Any party to the proceeding before the administrative law judge may intervene in the court of appeals.

(3) No objection not made before the administrative law judge shall be considered by the court, unless the failure or neglect to urge such objection is excused because of extraordinary circumstances.

(l) Enforcement decree in absence of petition for review

If no petition for review is filed under subsection (i) before the expiration of 45 days after the date the administrative law judge's order is entered, the administrative law judge's findings of fact and order shall be conclusive in connection with any petition for enforcement—

(1) which is filed by the Secretary under subsection (j) after the end of such day; or

(2) under subsection (m).

(m) Court enforcement of administrative order upon petition of any person entitled to relief

If before the expiration of 60 days after the date the administrative law judge's order is entered, no petition for review has been filed under subsection (i), and the Secretary has not sought enforcement of the order under subsection (j), any person entitled to relief under the order may petition for a decree enforcing the order in the United States court of appeals for the circuit in which the discriminatory housing practice is alleged to have occurred.

(n) Entry of decree

The clerk of the court of appeals in which a petition for enforcement is filed under subsection (l) or (m) shall forthwith enter a decree enforcing the order and shall transmit a copy of such decree to the Secretary, the respondent named in the petition, and to any other parties to the proceeding before the administrative law judge.

(o) Civil action for enforcement when election is made for such civil action

(1) If an election is made under subsection (a), the Secretary shall authorize, and not later than 30 days after the election is made the Attorney General shall commence and maintain, a civil

action on behalf of the aggrieved person in a United States district court seeking relief under this subsection. Venue for such civil action shall be determined under chapter 87 of title 28.

(2) Any aggrieved person with respect to the issues to be determined in a civil action under this subsection may intervene as of right in that civil action.

(3) In a civil action under this subsection, if the court finds that a discriminatory housing practice has occurred or is about to occur, the court may grant as relief any relief which a court could grant with respect to such discriminatory housing practice in a civil action under section 3613 of this title. Any relief so granted that would accrue to an aggrieved person in a civil action commenced by that aggrieved person under section 3613 of this title shall also accrue to that aggrieved person in a civil action under this subsection. If monetary relief is sought for the benefit of an aggrieved person who does not intervene in the civil action, the court shall not award such relief if that aggrieved person has not complied with discovery orders entered by the court.

(p) Attorney's fees

In any administrative proceeding brought under this section, or any court proceeding arising therefrom, or any civil action under this section, the administrative law judge or the court, as the case may be, in its discretion, may allow the prevailing party, other than the United States, a reasonable attorney's fee and costs. The United States shall be liable for such fees and costs to the extent provided by section 504 of title 5 or by section 2412 of title 28.

§ 3613. Enforcement by private persons

(a) Civil action

(1)(A) An aggrieved person may commence a civil action in an appropriate United States district court or State court not later than 2 years after the occurrence or the termination of an alleged discriminatory housing practice, or the breach of a conciliation agreement entered into under this subchapter, whichever occurs last, to obtain appropriate relief with respect to such discriminatory housing practice or breach.

(B) The computation of such 2-year period shall not include any time during which an administrative proceeding under this subchapter was pending with respect to a complaint or charge under this subchapter based upon such discriminatory housing practice. This subparagraph does not apply to actions arising from a breach of a conciliation agreement.

(2) An aggrieved person may commence a civil action under this subsection whether or not a complaint has been filed under section 3610(a) of this title and without regard to the status of any such complaint, but if the Secretary or a State or local agency has obtained a conciliation agreement with the consent of an aggrieved person, no action may be filed under this subsection by such aggrieved person with respect to the alleged discriminatory housing practice which forms the basis for such complaint except for the purpose of enforcing the terms of such an agreement.

(3) An aggrieved person may not commence a civil action under this subsection with respect to an alleged discriminatory housing practice which forms the basis of a charge issued by the Secretary if an administrative law judge has commenced a hearing on the record under this subchapter with respect to such charge.

(b) Appointment of attorney by court

Upon application by a person alleging a discriminatory housing practice or a person against whom such a practice is alleged, the court may—

(e) Intervention by Attorney General

Upon timely application, the Attorney General may intervene in such civil action, if the

Attorney General certifies that the case is of general public importance. Upon such intervention the Attorney General may obtain such relief as would be available to the Attorney General under section 3614(e) of this title in a civil action to which such section applies.

§ 4001. Congressional findings and declaration of purpose

(a) Necessity and reasons for flood insurance program

The Congress finds that (1) from time to time flood disasters have created personal hardships and economic distress which have required unforeseen disaster relief measures and have placed an increasing burden on the Nation's resources; (2) despite the installation of preventive and protective works and the adoption of other public programs designed to reduce losses caused by flood damage, these methods have not been sufficient to protect adequately against growing exposure to future flood losses; (3) as a matter of national policy, a reasonable method of sharing the risk of flood losses is through a program of flood insurance which can complement and encourage preventive and protective measures; and (4) if such a program is initiated and carried out gradually, it can be expanded as knowledge is gained and experience is appraised, thus eventually making flood insurance coverage available on reasonable terms and conditions to persons who have need for such protection.

(b) Participation of Federal Government in flood insurance program carried out by private insurance industry

The Congress also finds that (1) many factors have made it uneconomic for the private insurance industry alone to make flood insurance available to those in need of such protection on reasonable terms and conditions; but (2) a program of flood insurance with large-scale participation of the Federal Government and carried out to the maximum extent practicable by the private insurance industry is feasible and can be initiated.

(c) Unified national program for flood plain management

The Congress further finds that (1) a program of flood insurance can promote the public interest by providing appropriate protection against the perils of flood losses and encouraging sound land use by minimizing exposure of property to flood losses; and (2) the objectives of a flood insurance program should be integrally related to a unified national program for flood plain management and, to this end, it is the sense of Congress that within two years following the effective date of this chapter the President should transmit to the Congress for its consideration any further proposals necessary for such a unified program, including proposals for the allocation of costs among beneficiaries of flood protection.

(d) Authorization of flood insurance program; flexibility in program

It is therefore the purpose of this chapter to (1) authorize a flood insurance program by

means of which flood insurance, over a period of time, can be made available on a nationwide basis through the cooperative efforts of the Federal Government and the private insurance industry, and (2) provide flexibility in the program so that such flood insurance may be based on workable methods of pooling risks, minimizing costs, and distributing burdens equitably among those who will be protected by flood insurance and the general public.

(e) Land use adjustments by State and local governments; development of proposed future construction; assistance of lending and credit institutions; relation of Federal assistance to all flood-related programs; continuing studies

It is the further purpose of this chapter to (1) encourage State and local governments to make appropriate land use adjustments to constrict the development of land which is exposed to flood damage and minimize damage caused by flood losses, (2) guide the development of proposed future construction, where practicable, away from locations which are threatened by flood hazards, (3) encourage lending and credit institutions, as a matter of national policy, to assist in furthering the objectives of the flood insurance program, (4) assure that any Federal assistance provided under the program will be related closely to all flood-related programs and activities of the Federal Government, and (5) authorize continuing studies of flood hazards in order to provide for a constant reappraisal of the flood insurance program and its effect on land use requirements.

(f) Mudslides

The Congress also finds that (1) the damage and loss which results from mudslides is related in cause and similar in effect to that which results directly from storms, deluges, overflowing waters, and other forms of flooding, and (2) the problems involved in providing protection against this damage and loss, and the possibilities for making such protection available through a Federal or federally sponsored program, are similar to those which exist in connection with efforts to provide protection against damage and loss caused by such other forms of flooding. It is therefore the further purpose of this chapter to make available, by means of the methods, procedures, and instrumentalities which are otherwise established or available under this chapter for purposes of the flood insurance program, protection against damage and loss resulting from mudslides that are caused by accumulations of water on or under the ground.

AMENDMENTS

1994—Subsec. (g). Pub. L. 103-325 struck out subsec. (g) which read as follows: "The Congress also finds that (1) the damage and loss which may result from the erosion and undermining of shorelines by waves or currents in lakes and other bodies of water exceeding anticipated cyclical levels is related in cause and similar in effect to that which results directly from storms, deluges, overflowing waters, and other forms of flooding, and (2) the problems involved in providing protection against this damage and loss, and the possibilities for making such protection available through a Federal or federally sponsored program, are similar to those which exist in connection with efforts to provide protection against damage and loss caused by such other forms of flooding. It is therefore the further purpose of this chapter to make available, by means of the methods, procedures, and instrumentalities which are otherwise established or available under this chapter for purposes of the flood insurance program, protection against damage and loss resulting from the erosion and undermining of shorelines by waves or currents in lakes and other bodies of water exceeding anticipated cyclical levels."

For provisions relating to the reduction of the risk of flood loss, the minimization of the impact of floods on

human safety, health and welfare, and the management of floodplains, see Ex. Ord. No. 11988, May 24, 1977, 42 F.R. 26951, set out as a note under section 4321 of this title.

§ 4002. Additional Congressional findings and declaration of purpose

(a) The Congress finds that—

(1) annual losses throughout the Nation from floods and mudslides are increasing at an alarming rate, largely as a result of the accelerating development of, and concentration of population in, areas of flood and mudslide hazards;

(2) the availability of Federal loans, grants, guaranties, insurance, and other forms of financial assistance are often determining factors in the utilization of land and the location and construction of public and of private industrial, commercial, and residential facilities;

(3) property acquired or constructed with grants or other Federal assistance may be exposed to risk of loss through floods, thus frustrating the purpose for which such assistance was extended;

(4) Federal instrumentalities insure or otherwise provide financial protection to banking and credit institutions whose assets include a substantial number of mortgage loans and other indebtedness secured by property exposed to loss and damage from floods and mudslides;

(5) the Nation cannot afford the tragic losses of life caused annually by flood occurrences, nor the increasing losses of property suffered by flood victims, most of whom are still inadequately compensated despite the provision of costly disaster relief benefits; and

(6) it is in the public interest for persons already living in flood-prone areas to have both an opportunity to purchase flood insurance and access to more adequate limits of coverage, so that they will be indemnified, for their losses in the event of future flood disasters.

(b) The purpose of this Act, therefore, is to—

(1) substantially increase the limits of coverage authorized under the national flood insurance program;

(2) provide for the expeditious identification of, and the dissemination of information concerning, flood-prone areas;

(3) require States or local communities, as a condition of future Federal financial assistance, to participate in the flood insurance program and to adopt adequate flood plan ordinances with effective enforcement provisions consistent with Federal standards to reduce or avoid future flood losses; and

(4) require the purchase of flood insurance by property owners who are being assisted by Federal programs or by federally supervised, regulated, or insured agencies or institutions in the acquisition or improvement of land or facilities located or to be located in identified areas having special flood hazards.

“(B) any actions taken, or proposed actions to be taken, by the Administrator to provide for more precise and technical processes and procedures for determining that a flood event has commenced or is in progress.

“(b) EFFECTIVE DATE OF POLICIES COVERING PROPERTIES AFFECTED BY FLOODING OF THE MISSOURI RIVER IN 2011.—

“(1) ELIGIBLE COVERAGE.—For purposes of this subsection, the term ‘eligible coverage’ means coverage under a new contract for flood insurance coverage under the National Flood Insurance Program, or a modification to coverage under an existing flood insurance contract, for property damaged by the flooding of the Missouri River that commenced on June 1, 2011, that was purchased or made during the period beginning May 1, 2011, and ending June 6, 2011.

“(2) EFFECTIVE DATES.—Notwithstanding section 1306(c) of the National Flood Insurance Act of 1968 (42 U.S.C. 4013(c)), or any other provision of law, any eligible coverage shall—

“(A) be deemed to take effect on the date that is 30 days after the date on which all obligations for the eligible coverage (including completion of the application and payment of any initial premiums owed) are satisfactorily completed; and

“(B) cover damage to property occurring after the effective date described in subparagraph (A) that resulted from the flooding of the Missouri River

that commenced on June 1, 2011, if the property did not suffer damage or loss as a result of such flooding before the effective date described in subparagraph (A).

“(c) **TIMELY NOTIFICATION.**—Not later than 90 days after the date on which the Administrator submits the report required under subsection (a)(2), the Administrator shall, taking into consideration the results of the review under subsection (a)(1)(B), develop procedures for providing timely notification, to the extent practicable, to policyholders who have purchased flood insurance coverage under the National Flood Insurance Program within 30 days of a determination of a flood in progress and who may be affected by the flood of the determination and how the determination may affect their coverage.”

CONGRESSIONAL FINDINGS

Pub. L. 108-264, §2, June 30, 2004, 118 Stat. 712, provided that: “The Congress finds that—

“(1) the national flood insurance program—

“(A) identifies the flood risk;

“(B) provides flood risk information to the public;

“(C) encourages State and local governments to make appropriate land use adjustments to constrict the development of land which is exposed to flood damage and minimize damage caused by flood losses; and

“(D) makes flood insurance available on a nationwide basis that would otherwise not be available, to accelerate recovery from floods, mitigate future losses, save lives, and reduce the personal and national costs of flood disasters;

“(2) the national flood insurance program insures approximately 4,400,000 policyholders;

“(3) approximately 48,000 properties currently insured under the program have experienced, within a 10-year period, 2 or more flood losses where each such loss exceeds the amount \$1,000;

“(4) approximately 10,000 of these repetitive-loss properties have experienced either 2 or 3 losses that cumulatively exceed building value or 4 or more losses, each exceeding \$1,000;

“(5) repetitive-loss properties constitute a significant drain on the resources of the national flood insurance program, costing about \$200,000,000 annually;

“(6) repetitive-loss properties comprise approximately 1 percent of currently insured properties but are expected to account for 25 to 30 percent of claims losses;

“(7) the vast majority of repetitive-loss properties were built before local community implementation of floodplain management standards under the program and thus are eligible for subsidized flood insurance;

“(8) while some property owners take advantage of the program allowing subsidized flood insurance without requiring mitigation action, others are trapped in a vicious cycle of suffering flooding, then repairing flood damage, then suffering flooding, without the means to mitigate losses or move out of harm’s way;

“(9) mitigation of repetitive-loss properties through buyouts, elevations, relocations, or flood-proofing will produce savings for policyholders under the program and for Federal taxpayers through reduced flood insurance losses and reduced Federal disaster assistance;

“(10) a strategy of making mitigation offers aimed at high-priority repetitive-loss properties and shifting more of the burden of recovery costs to property owners who choose to remain vulnerable to repetitive flood damage can encourage property owners to take appropriate actions that reduce loss of life and property damage and benefit the financial soundness of the program;

“(11) the method for addressing repetitive-loss properties should be flexible enough to take into con-

sideration legitimate circumstances that may prevent an owner from taking a mitigation action; and

“(12) focusing the mitigation and buy-out of repetitive loss properties upon communities and property owners that choose to voluntarily participate in a mitigation and buy-out program will maximize the benefits of such a program, while minimizing any adverse impact on communities and property owners.”

§ 4012a. Flood insurance purchase and compliance requirements and escrow accounts

(a) Amount and term of coverage

After the expiration of sixty days following December 31, 1973, no Federal officer or agency shall approve any financial assistance for acquisition or construction purposes for use in any area that has been identified by the Administrator as an area having special flood hazards and in which the sale of flood insurance has been made available under the National Flood Insurance Act of 1968 [42 U.S.C. 4001 et seq.], unless the building or mobile home and any personal property to which such financial assistance relates is covered by flood insurance in an amount at least equal to its development or project cost (less estimated land cost) or to the maximum limit of coverage made available with respect to the particular type of property under the National Flood Insurance Act of 1968, whichever is less: *Provided*, That if the financial assistance provided is in the form of a loan or an insurance or guaranty of a loan, the amount of flood insurance required need not exceed the outstanding principal balance of the loan and need not be re-

quired beyond the term of the loan. The requirement of maintaining flood insurance shall apply during the life of the property, regardless of transfer of ownership of such property.

(b) Requirement for mortgage loans

(1) Regulated lending institutions

Each Federal entity for lending regulation (after consultation and coordination with the Financial Institutions Examination Council established under the Federal Financial Institutions Examination Council Act of 1974 [12 U.S.C. 3301 et seq.]) shall by regulation direct regulated lending institutions—

(A) not to make, increase, extend, or renew any loan secured by improved real estate or a mobile home located or to be located in an area that has been identified by the Administrator as an area having special flood hazards and in which flood insurance has been made available under the National Flood Insurance Act of 1968 [42 U.S.C. 4001 et seq.], unless the building or mobile home and any personal property securing such loan is covered for the term of the loan by flood insurance in an amount at least equal to the outstanding principal balance of the loan or the maximum limit of coverage made available under the Act with respect to the particular type of property, whichever is less; and

(B) to accept private flood insurance as satisfaction of the flood insurance coverage requirement under subparagraph (A) if the coverage provided by such private flood insurance meets the requirements for coverage under such subparagraph.

(2) Federal agency lenders

A Federal agency lender may not make, increase, extend, or renew any loan secured by improved real estate or a mobile home located or to be located in an area that has been identified by the Administrator as an area having special flood hazards and in which flood insurance has been made available under the National Flood Insurance Act of 1968, unless the building or mobile home and any personal property securing such loan is covered for the term of the loan by flood insurance in the amount provided in paragraph (1)(A). Each Federal agency lender shall accept private flood insurance as satisfaction of the flood insurance coverage requirement under the preceding sentence if the flood insurance coverage provided by such private flood insurance meets the requirements for coverage under such sentence. Such regulations shall be consistent with and substantially identical to the regulations issued under paragraph (1)(A).

(3) Government-sponsored enterprises for housing

The Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation shall implement procedures reasonably designed to ensure that, for any loan that is—

(A) secured by improved real estate or a mobile home located in an area that has been identified, at the time of the origina-

tion of the loan or at any time during the term of the loan, by the Administrator as an area having special flood hazards and in which flood insurance is available under the National Flood Insurance Act of 1968, and

(B) purchased by such entity,

the building or mobile home and any personal property securing the loan is covered for the term of the loan by flood insurance in the amount provided in paragraph (1)(A). The Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation shall accept private flood insurance as satisfaction of the flood insurance coverage requirement under paragraph (1)(A) if the flood insurance coverage provided by such private flood insurance meets the requirements for coverage under such paragraph and any requirements established by the Federal National Mortgage Association or the Federal Home Loan Mortgage Corporation, respectively, relating to the financial solvency, strength, or claims-paying ability of private insurance companies from which the Federal National Mortgage Association or the Federal Home Loan Mortgage Corporation will accept private flood insurance.

(C) Continued effect of regulations

Notwithstanding any other provision of this subsection, the regulations to carry out paragraph (1), as in effect immediately before September 23, 1994, shall continue to apply until the regulations issued to carry out paragraph (1) as amended by section 522(a) of Public Law 103-325 take effect.

(5) Rule of construction

Nothing in this subsection shall be construed to supersede or limit the authority of a Federal entity for lending regulation, the Federal Housing Finance Agency, a Federal agency lender, the Federal National Mortgage Association, or the Federal Home Loan Mortgage Corporation to establish requirements relating to the financial solvency, strength, or claims-paying ability of private insurance companies from which the entity or agency will accept private flood insurance.

(ii) flood insurance that provides the same level of coverage as a standard flood insurance policy under the national flood insurance program may be available from a private insurance company that issues policies on behalf of the company; and

(iii) the borrower is encouraged to compare the flood insurance coverage, deductibles, exclusions, conditions and premiums associated with flood insurance policies issued on behalf of the national flood insurance program and policies issued on behalf of private insurance companies and to direct inquiries regarding the availability, cost, and comparisons of flood insurance coverage to an insurance agent.

(B) Rule of construction

Nothing in this paragraph shall be construed as affecting or otherwise limiting the authority of a Federal entity for lending regulation to approve any disclosure made by a regulated lending institution for purposes of complying with subparagraph (A).

(7) Private flood insurance defined

In this subsection, the term “private flood insurance” means an insurance policy that—

(A) is issued by an insurance company that is—

(B) a repayment term of 1 year or less.

(3) Detached structures

Notwithstanding any other provision of this section, flood insurance shall not be required, in the case of any residential property, for any structure that is a part of such property but is detached from the primary residential structure of such property and does not serve as a residence.

(d) Escrow of flood insurance payments

(1) Regulated lending institutions

(A) Federal entities responsible for lending regulations

Each Federal entity for lending regulation (after consultation and coordination with the Federal Financial Institutions Examination Council) shall, by regulation, direct that all premiums and fees for flood insurance under the National Flood Insurance Act of 1968, for residential improved real estate or a mobile home, shall be paid to the regulated lending institution or servicer for any loan secured by the residential improved real estate or mobile home, with the same frequency as payments on the loan are made, for the duration of the loan. Except as provided in subparagraph (B), upon receipt of any premiums or fees, the regulated lending institution or servicer shall deposit such premiums and fees in an escrow account on behalf of the borrower. Upon receipt of a notice from the Administrator or the provider of the flood insurance that insurance premiums are due, the premiums deposited in the escrow account shall be paid to the provider of the flood insurance.

(B) Limitation

Except as may be required under applicable State law, a Federal entity for lending regulation may not direct or require a regu-

lated lending institution to deposit premiums or fees for flood insurance under the National Flood Insurance Act of 1968 in an escrow account on behalf of a borrower under subparagraph (A)—

(i) if—

(I) the regulated lending institution has total assets of less than \$1,000,000,000; and

(II) on or before July 6, 2012, the regulated lending institution—

(aa) in the case of a loan secured by residential improved real estate or a mobile home, was not required under Federal or State law to deposit taxes, insurance premiums, fees, or any other charges in an escrow account for the entire term of the loan; and

(2) Purchase of coverage on behalf of borrower

If the borrower fails to purchase such flood insurance within 45 days after notification under paragraph (1), the lender or servicer for the loan shall purchase the insurance on behalf of the borrower and may charge the borrower for the cost of premiums and fees incurred by the lender or servicer for the loan in purchasing the insurance, including premiums or fees incurred for coverage beginning on the date on which flood insurance coverage lapsed or did not provide a sufficient coverage amount.

The determination of the Administrator shall be final.

(B) Effect of determination

Any person to whom a borrower provides a letter issued by the Administrator pursuant to subparagraph (A), stating that the building or mobile home securing the loan of the borrower is not in an area having special flood hazards, shall have no obligation under this title² to require the purchase of flood insurance for such building or mobile home during the period determined by the Administrator, which shall be specified in the letter and shall begin on the date on which such letter is provided.

DEFINITIONS

For definitions of terms used in this section, see section 4004 of this title.

§ 4014. Estimates of premium rates**(a) Studies and investigations**

The Administrator is authorized to undertake and carry out such studies and investigations and receive or exchange such information as may be necessary to estimate, and shall from time to time estimate, on an area, subdivision, or other appropriate basis—

(1) the risk premium rates for flood insurance which—

(A) based on consideration of—

(i) the risk involved and accepted actuarial principles; and

(ii) the flood mitigation activities that an owner or lessee has undertaken on a property, including differences in the risk involved due to land use measures, floodproofing, flood forecasting, and similar measures, and

(B) including—

(i) the applicable operating costs and allowances set forth in the schedules prescribed under section 4018 of this title and reflected in such rates,

(ii) any administrative expenses (or portion of such expenses) of carrying out the flood insurance program which, in his discretion, should properly be reflected in such rates,

(iii) any remaining administrative expenses incurred in carrying out the flood insurance and floodplain management programs (including the costs of mapping activities under section 4101 of this title) not included under clause (ii), which shall be recovered by a fee charged to policyholders and such fee shall not be subject to any agents' commissions, company expense allowances, or State or local premium taxes, and

(iv) all costs, as prescribed by principles and standards of practice in ratemaking adopted by the American Academy of Actuaries and the Casualty Actuarial Society, including—

(I) an estimate of the expected value of future costs,

(II) all costs associated with the transfer of risk, and

(III) the costs associated with an individual risk transfer with respect to risk classes, as defined by the Administrator,

would be required in order to make such insurance available on an actuarial basis for any types and classes of properties for which insurance coverage is available under section 4012(a) of this title (or is recommended to the Congress under section 4012(b) of this title);

(2) the rates, if less than the rates estimated under paragraph (1), which would be reasonable, would encourage prospective insureds to purchase flood insurance, and would be consistent with the purposes of this chapter, and which, together with a fee charged to policyholders that shall not be not subject to any agents' commission, company expenses allowances, or State or local premium taxes, shall include any administrative expenses incurred in carrying out the flood insurance and floodplain management programs (including the costs of mapping activities under section 4101 of this title), except that the Administrator shall not estimate rates under this paragraph for—

(A) any residential property which is not the primary residence of an individual;

(B) any severe repetitive loss property;

(C) any property that has incurred flood-related damage in which the cumulative amounts of payments under this chapter equaled or exceeded the fair market value of such property;

(D) any business property; or

(E) any property which on or after July 6, 2012, has experienced or sustained—

(i) substantial damage exceeding 50 percent of the fair market value of such property; or

(ii) substantial improvement exceeding 50 percent of the fair market value of such property; and

(3) the extent, if any, to which federally assisted or other flood protection measures initiated after August 1, 1968, affect such rates.

(b) Utilization of services of other Departments and agencies

In carrying out subsection (a), the Administrator shall, to the maximum extent feasible and on a reimbursement basis, utilize the services of the Department of the Army, the Department of the Interior, the Department of Agriculture, the Department of Commerce, and the Tennessee Valley Authority, and, as appropriate, other Federal departments or agencies, and for such purposes may enter into agreements or other appropriate arrangements with any persons.

(c) Priority to studies and investigations in States or areas evidencing positive interest in securing insurance under program

The Administrator shall give priority to conducting studies and investigations and making estimates under this section in those States or areas (or subdivisions thereof) which he has determined have evidenced a positive interest in securing flood insurance coverage under the flood insurance program.

(d) Parishes of Louisiana; premium rates

Notwithstanding any other provision of law, any structure existing on December 31, 1973, and located within Avoyelles, Evangeline, Rapides, or Saint Landry Parish in the State of Louisiana, which the Secretary determines is subject to additional flood hazards as a result of the construction or operation of the Atchafalaya Basin Levee System, shall be eligible for flood insurance under this chapter (if and to the extent it is eligible for such insurance under the other provisions of this chapter) at premium rates that shall not exceed those which would be applicable if such additional hazards did not exist.

(e) Eligibility of community making adequate progress on construction of flood protection system for rates not exceeding those applicable to completed flood protection system; determination of adequate progress

Notwithstanding any other provision of law, any community that has made adequate progress, acceptable to the Administrator, on the construction or reconstruction of a flood protection system which will afford flood protection for the one-hundred year frequency flood as determined by the Administrator, shall be eligible for flood insurance under this chapter (if and to the extent it is eligible for such insurance under the other provisions of this chapter) at premium rates not exceeding those which would be applicable under this section if such flood protection system had been completed. The Administrator shall find that adequate progress on the construction or reconstruction of a flood protection system, based on the present value of the completed flood protection system, has been made only if: (1) 100 percent of the cost of the system has been authorized; (2) at least 60 percent of the cost of the system has been appropriated; (3) at least 50 percent of the cost of the system has been expended; and (4) the system is at least 50 percent completed. Notwithstanding any other provision of law, in determining whether a community has made adequate progress on the construction, reconstruction, or improvement of a flood protection system, the Administrator shall consider all sources of funding, including Federal, State, and local funds.

(f) Availability of flood insurance in communities restoring discredited flood protection systems; criteria; rates

Notwithstanding any other provision of law, this subsection shall apply to riverine and coastal levees that are located in a community which has been determined by the Administrator of the Federal Emergency Management Agency to be in the process of restoring flood protection afforded by a flood protection system that had been previously accredited on a Flood Insurance Rate Map as providing 100-year frequency flood protection but no longer does so, and shall apply without regard to the level of Federal funding of or participation in the construction, reconstruction, or improvement of the flood protection system. Except as provided in this subsection, in such a community, flood insurance shall be made available to those properties impacted by

the discreditation of the flood protection system at premium rates that do not exceed those which would be applicable to any property located in an area of special flood hazard, the construction of which was started prior to the effective date of the initial Flood Insurance Rate Map published by the Administrator for the community in which such property is located. A revised Flood Insurance Rate Map shall be prepared for the community to delineate as Zone AR the areas of special flood hazard that result from the discreditation of the flood protection system. A community will be considered to be in the process of restoration if—

(1) the flood protection system has been deemed restorable by a Federal agency in consultation with the local project sponsor;

(2) a minimum level of flood protection is still provided to the community by the discredited system; and

(3) restoration of the flood protection system is scheduled to occur within a designated time period and in accordance with a progress plan negotiated between the community and the Federal Emergency Management Agency.

Communities that the Administrator of the Federal Emergency Management Agency determines to meet the criteria set forth in paragraphs (1) and (2) as of January 1, 1992, shall not be subject to revised Flood Insurance Rate Maps that contravene the intent of this subsection. Such communities shall remain eligible for C zone rates for properties located in zone AR for any policy written prior to promulgation of final regulations for this section. Floodplain management criteria for such communities shall not require the elevation of improvements to existing structures and shall not exceed 3 feet above existing grade for new construction, provided the base flood elevation based on the discredited flood control system does not exceed five feet above existing grade, or the remaining new construction in such communities is limited to infill sites, rehabilitation of existing structures, or redevelopment of previously developed areas.

The Administrator of the Federal Emergency Management Agency shall develop and promulgate regulations to implement this subsection, including minimum floodplain management criteria, within 24 months after October 28, 1992.

(g) No extension of subsidy to new policies or lapsed policies

The Administrator shall not provide flood insurance to prospective insureds at rates less than those estimated under subsection (a)(1), as required by paragraph (2) of that subsection, for—

(1) any policy under the flood insurance program that has lapsed in coverage,¹ unless the decision of the policy holder to permit a lapse in flood insurance coverage was as a result of the property covered by the policy no longer being required to retain such coverage; or

(2) any prospective insured who refuses to accept any offer for mitigation assistance by the Administrator (including an offer to relo-

¹ So in original.

cate), including an offer of mitigation assistance—

- (A) following a major disaster, as defined in section 5122 of this title; or
- (B) in connection with—
 - (i) a repetitive loss property; or
 - (ii) a severe repetitive loss property.

(h) Definition

In this section, the term “severe repetitive loss property” has the following meaning:

(1) Single-family properties

In the case of a property consisting of 1 to 4 residences, such term means a property that—

- (A) is covered under a contract for flood insurance made available under this chapter; and
- (B) has incurred flood-related damage—
 - (i) for which 4 or more separate claims payments have been made under flood insurance coverage under this subchapter, with the amount of each such claim exceeding \$5,000, and with the cumulative amount of such claims payments exceeding \$20,000; or
 - (ii) for which at least 2 separate claims payments have been made under such coverage, with the cumulative amount of such claims exceeding the value of the property.

(2) Multifamily properties

In the case of a property consisting of 5 or more residences, such term shall have such meaning as the Director² shall by regulation provide.

“(c) ADDITIONAL AUTHORITY.—

“(1) ADDITIONAL AUTHORITY.—Notwithstanding subsection (a), in exceptional and exigent circumstances, the Administrator may, in the Administrator's sole discretion, determine that a person residing in a community, which is a participant in the National Flood Insurance Program, that has begun reconstruction or improvement of a flood protection system that will afford flood protection for a 100-year floodplain (with-out regard to the level of Federal funding of or participation in the reconstruction or improvement) shall be eligible for flood insurance coverage under the National Flood Insurance Program at a risk premium rate that does not exceed the risk premium rate that would be chargeable if the flood protection system had been completed, provided—

§ 4015. Chargeable premium rates

(a) Establishment; terms and conditions

On the basis of estimates made under section 4014 of this title, and such other information as may be necessary, the Administrator shall from time to time prescribe, after providing notice—

(1) chargeable premium rates for any types and classes of properties for which insurance coverage shall be available under section 4012 of this title (at less than the estimated risk premium rates under section 4014(a)(1) of this title, where necessary), and

(2) the terms and conditions under which, and the areas (including subdivisions thereof) within which, such rates shall apply.

(b) Considerations for rates

Such rates shall, insofar as practicable, be—

(1) based on a consideration of the respective risks involved, including differences in risks due to land use measures, flood-proofing, flood forecasting, and similar measures;

(2) adequate, on the basis of accepted actuarial principles, to provide reserves for anticipated losses, or, if less than such amount, consistent with the objective of making flood insurance available where necessary at reasonable rates so as to encourage prospective insureds to purchase such insurance and with the purposes of this chapter;

(3) adequate, together with the fee under paragraph (1)(B)(iii) or (2) of section 4014(a) of this title, to provide for any administrative expenses of the flood insurance and floodplain management programs (including the costs of mapping activities under section 4101 of this title);

(4) stated so as to reflect the basis for such rates, including the differences (if any) between the estimated risk premium rates under section 4014(a)(1) of this title and the estimated rates under section 4014(a)(2) of this title; and

(5) adequate, on the basis of accepted actuarial principles, to cover the average historical loss year obligations incurred by the National Flood Insurance Fund.

(c) Actuarial rate properties

Subject only to the limitations provided under paragraphs (1) and (2), the chargeable rate shall not be less than the applicable estimated risk premium rate for such area (or subdivision thereof) under section 4014(a)(1) of this title with respect to the following properties:

(1) Post-firm properties

Any property the construction or substantial improvement of which the Administrator

determines has been started after December 31, 1974, or started after the effective date of the initial rate map published by the Administrator under paragraph (2) of section 4101 of this title for the area in which such property is located, whichever is later, except that the chargeable rate for properties under this paragraph shall be subject to the limitation under subsection (e).

(2) Certain leased coastal and river properties

Any property leased from the Federal Government (including residential and nonresidential properties) that the Administrator determines is located on the river-facing side of any dike, levee, or other riverine flood control structure, or seaward of any seawall or other coastal flood control structure.

(d) Payment of certain sums to Administrator; deposits in Fund

With respect to any chargeable premium rate prescribed under this section, a sum equal to the portion of the rate that covers any administrative expenses of carrying out the flood insurance and floodplain management programs which have been estimated under paragraphs (1)(B)(ii) and (1)(B)(iii) of section 4014(a) of this title or paragraph (2) of such section (including the fees under such paragraphs), shall be paid to the Administrator. The Administrator shall deposit the sum in the National Flood Insurance Fund established under section 4017 of this title.

(e) Annual limitation on premium increases

Except with respect to properties described under paragraph (2) of subsection (c), and notwithstanding any other provision of this chapter—

(1) the chargeable risk premium rate for flood insurance under this chapter for any property may not be increased by more than 18 percent each year, except—

(A) as provided in paragraph (4);

(B) in the case of property identified under section 4014(g) of this title; or

(C) in the case of a property that—

(i) is located in a community that has experienced a rating downgrade under the community rating system program carried out under section 4022(b) of this title;

(ii) is covered by a policy with respect to which the policyholder has—

(I) decreased the amount of the deductible; or

(II) increased the amount of coverage;

or

(iii) was misrated;

(2) the chargeable risk premium rates for flood insurance under this chapter for any properties initially rated under section 4014(a)(2) of this title within any single risk classification, excluding properties for which the chargeable risk premium rate is not less than the applicable estimated risk premium rate under section 4014(a)(1) of this title, shall be increased by an amount that results in an average of such rate increases for properties within the risk classification during any 12-month period of not less than 5 percent of the average of the risk premium rates for such

properties within the risk classification upon the commencement of such 12-month period;

(3) the chargeable risk premium rates for flood insurance under this chapter for any properties within any single risk classification may not be increased by an amount that would result in the average of such rate increases for properties within the risk classification during any 12-month period exceeding 15 percent of the average of the risk premium rates for properties within the risk classification upon the commencement of such 12-month period; and

(4) the chargeable risk premium rates for flood insurance under this chapter for any properties described in subparagraphs (A) through (E) of section 4014(a)(2) of this title shall be increased by 25 percent each year, until the average risk premium rate for such properties is equal to the average of the risk premium rates for properties described under paragraph (3).

(f) Adjustment of premium

Notwithstanding any other provision of law, if the Administrator determines that the holder of a flood insurance policy issued under this chapter is paying a lower premium than is required under this section due to an error in the flood plain determination, the Administrator may only prospectively charge the higher premium rate.

(g) Frequency of premium collection

With respect to any chargeable premium rate prescribed under this section, the Administrator shall provide policyholders that are not required to escrow their premiums and fees for flood insurance as set forth under section 4012a of this title with the option of paying their premiums annually or monthly.

(h) Rule of construction

For purposes of this section, the calculation of an “average historical loss year”—

- (1) includes catastrophic loss years; and
- (2) shall be computed in accordance with generally accepted actuarial principles.

(i) Rates for properties newly mapped into areas with special flood hazards

Notwithstanding subsection (f), the premium rate for flood insurance under this chapter that is purchased on or after March 21, 2014—

(1) on a property located in an area not previously designated as having special flood hazards and that, pursuant to any issuance, revision, updating, or other change in a flood insurance map, becomes designated as such an area; and

(2) where such flood insurance premium rate is calculated under subsection (a)(1) of section 4014 of this title,

shall for the first policy year be the preferred risk premium for the property and upon renewal shall be calculated in accordance with subsection (e) of this section until the rate reaches the rate calculated under subsection (a)(1) of section 4014 of this title.

(j) Premiums and reports

In setting premium risk rates, in addition to striving to achieve the objectives of this chapter

the Administrator shall also strive to minimize the number of policies with annual premiums that exceed one percent of the total coverage provided by the policy. For any policies premiums that exceed this one percent threshold, the Administrator shall report such exceptions to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate.

(k) Consideration of mitigation methods

In calculating the risk premium rate charged for flood insurance for a property under this section, the Administrator shall take into account the implementation of any mitigation method identified by the Administrator in the guidance issued under section 4102(d) of this title.

(l) Clear communications

The Administrator shall clearly communicate full flood risk determinations to individual property owners regardless of whether their premium rates are full actuarial rates.

(m) Protection of small businesses, non-profits, houses of worship, and residences

(1) Report

Not later than 18 months after March 21, 2014,¹ and semiannually thereafter, the Administrator shall monitor and report to Committee on Financial Services of the House Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate, the Administrator’s assessment of the impact, if any, of the rate increases required under subparagraphs (A) and (D) of section 4014(a)(2) of this title and the surcharges required under section 4015a of this title on the affordability of flood insurance for—

- (A) small businesses with less than 100 employees;
- (B) non-profit entities;
- (C) houses of worship; and
- (D) residences with a value equal to or less than 25 percent of the median home value of properties in the State in which the property is located.

(2) Recommendations

If the Administrator determines that the rate increases or surcharges described in paragraph (1) are having a detrimental effect on affordability, including resulting in lapsed policies, late payments, or other criteria related to affordability as identified by the Administrator, for any of the properties identified in subparagraphs (A) through (D) of such paragraph, the Administrator shall, not later than 3 months after making such a determination, make such recommendations as the Administrator considers appropriate to improve affordability to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate.

§ 4021. Participation in State disaster claims mediation programs

(a) Requirement to participate

In the case of the occurrence of a major disaster, as defined in section 5122 of this title, that may have resulted in flood damage covered under the national flood insurance program established under this chapter and other personal lines residential property insurance coverage offered by a State regulated insurer, upon a request made by the insurance commissioner of a State (or such other official responsible for regulating the business of insurance in the State) for the participation of representatives of the Administrator in a program sponsored by such State for nonbinding mediation of insurance claims resulting from a major disaster, the Administrator shall cause representatives of the national flood insurance program to participate in such a State program where claims under the national flood insurance program are involved to expedite settlement of flood damage claims resulting from such disaster.

(b) Extent of participation

In satisfying the requirements of subsection (a), the Administrator shall require that each representative of the Administrator—

(1) be certified for purposes of the national flood insurance program to settle claims against such program resulting from such disaster in amounts up to the limits of policies under such program;

(2) attend State-sponsored mediation meetings regarding flood insurance claims resulting from such disaster at such times and places as may be arranged by the State;

(3) participate in good-faith negotiations toward the settlement of such claims with policyholders of coverage made available under the national flood insurance program; and

(4) finalize the settlement of such claims on behalf of the national flood insurance program with such policyholders.

(c) Coordination

Representatives of the Administrator shall at all times coordinate their activities with insurance officials of the State and representatives of insurers for the purposes of consolidating and expediting settlement of claims under the national flood insurance program resulting from such disaster.

(d) Qualifications of mediators

Each State mediator participating in State-sponsored mediation under this section shall be—

(1)(A) a member in good standing of the State bar in the State in which the mediation is to occur with at least 2 years of practical experience; and

(e) Mediation proceedings and documents privileged

As a condition of participation, all statements made and documents produced pursuant to State-sponsored mediation involving representatives of the Administrator shall be deemed privileged and confidential settlement negotiations made in anticipation of litigation.

(A) in any regulation issued by the Administrator, including any regulation relating to a standard flood insurance policy;

(B) under this chapter; and

(h) Cost limitation

Nothing in this section shall be construed to require the Administrator or a representative of the Administrator to pay additional mediation fees relating to flood insurance claims associated with a State-sponsored mediation program in which such representative of the Administrator participates.

(i) Exception

In the case of the occurrence of a major disaster that results in flood damage claims under the national flood insurance program and that does not result in any loss covered by a personal lines residential property insurance policy—

(1) this section shall not apply; and

(2) the provisions of the standard flood insurance policy under the national flood insurance program and the appeals process established under section 205 of the Bunning-Bereuter-Blumenauer Flood Insurance Reform Act of 2004 (42 U.S.C. 4011 note) and the regulations issued pursuant to such section shall apply exclusively.

For complete classification of this Act to the Code, see Short Title note set out under section 4001 of this title and Tables.

Section 205 of the Bunning-Bereuter-Blumenauer Flood Insurance Reform Act of 2004, referred to in subsecs. (i)(2) and (j), is section 205 of Pub. L. 108-264, which is set out in a note under section 4011 of this title.

PRIOR PROVISIONS

A prior section 4021, Pub. L. 90-448, title XIII, § 1314, Aug. 1, 1968, 82 Stat. 579, which denied Federal disaster assistance after Dec. 31, 1973, to persons who for a period of a year or more could have purchased flood insurance but did not do so, and defined "Federal disaster assistance" and "financial assistance", was repealed by Pub. L. 93-234, title II, § 203, Dec. 31, 1973, 87 Stat. 982.

§ 4022. State and local land use controls**(a) Requirement for participation in flood insurance program****(1) In general**

After December 31, 1971, no new flood insurance coverage shall be provided under this chapter in any area (or subdivision thereof)

unless an appropriate public body shall have adopted adequate land use and control measures (with effective enforcement provisions) which the Administrator finds are consistent with the comprehensive criteria for land management and use under section 4102 of this title.

(2) Agricultural structures

(A) Activity restrictions

Notwithstanding any other provision of law, the adequate land use and control measures required to be adopted in an area (or subdivision thereof) pursuant to paragraph (1) may provide, at the discretion of the appropriate State or local authority, for the repair and restoration to predamaged conditions of an agricultural structure that—

- (i) is a repetitive loss structure; or
- (ii) has incurred flood-related damage to the extent that the cost of restoring the structure to its predamaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

(B) Premium rates and coverage

To the extent applicable, an agricultural structure repaired or restored pursuant to subparagraph (A) shall pay chargeable premium rates established under section 4015 of this title at the estimated risk premium rates under section 4014(a)(1) of this title. If resources are available, the Administrator shall provide technical assistance and counseling, upon request of the owner of the structure, regarding wet flood-proofing and other flood damage reduction measures for agricultural structures. The Administrator shall not be required to make flood insurance coverage available for such an agricultural structure unless the structure is wet flood-proofed through permanent or contingent measures applied to the structure or its contents that prevent or provide resistance to damage from flooding by allowing flood waters to pass through the structure, as determined by the Administrator.

(C) Prohibition on disaster relief

Notwithstanding any other provision of law, any agricultural structure repaired or restored pursuant to subparagraph (A) shall not be eligible for disaster relief assistance under any program administered by the Administrator or any other Federal agency.

(D) Definitions

For purposes of this paragraph—

- (i) the term “agricultural structure” means any structure used exclusively in connection with the production, harvesting, storage, raising, or drying of agricultural commodities; and
- (ii) the term “agricultural commodities” means agricultural commodities and livestock.

(b) Community rating system and incentives for community floodplain management

(1) Authority and goals

The Administrator shall carry out a community rating system program, under which communities participate voluntarily—

(A) to provide incentives for measures that reduce the risk of flood or erosion damage that exceed the criteria set forth in section 4102 of this title and evaluate such measures;

(B) to encourage adoption of more effective measures that protect natural and beneficial floodplain functions;

(C) to encourage floodplain and erosion management; and

(D) to promote the reduction of Federal flood insurance losses.

(2) Incentives

The program shall provide incentives in the form of credits on premium rates for flood insurance coverage in communities that the Administrator determines have adopted and enforced measures that reduce the risk of flood and erosion damage that exceed the criteria set forth in section 4102 of this title. In providing incentives under this paragraph, the Administrator may provide for credits to flood insurance premium rates in communities that the Administrator determines have implemented measures that protect natural and beneficial floodplain functions.

(3) Credits

The credits on premium rates for flood insurance coverage shall be based on the estimated reduction in flood and erosion damage risks resulting from the measures adopted by the community under this program. If a community has received mitigation assistance under section 4104c of this title, the credits shall be phased in a manner, determined by the Administrator, to recover the amount of such assistance provided for the community.

(4) Reports

Not later than 2 years after September 23, 1994, and not less than every 2 years thereafter, the Administrator shall submit a report to the Congress regarding the program under this subsection. Each report shall include an analysis of the cost-effectiveness of the program, any other accomplishments or shortcomings of the program, and any recommendations of the Administrator for legislation regarding the program.

(c) Replacement of mobile homes on original sites

(1) Community participation

The placement of any mobile home on any site shall not affect the eligibility of any community to participate in the flood insurance program under this chapter and the Flood Disaster Protection Act of 1973 (notwithstanding that such placement may fail to comply with any elevation or flood damage mitigation requirements), if—

(A) such mobile home was previously located on such site;

(B) such mobile home was relocated from such site because of flooding that threatened or affected such site; and

(C) such replacement is conducted not later than the expiration of the 180-day period that begins upon the subsidence (in the area of such site) of the body of water that flooded to a level considered lower than flood levels.

(2) Definition

For purposes of this subsection, the term “mobile home” has the meaning given such term in the law of the State in which the mobile home is located.

(a) Definitions

In this section:

(1) Administrator

The term “Administrator” means the Administrator of the Federal Emergency Management Agency.

(2) COASTAL Formula

The term “COASTAL Formula” means the formula established under subsection (b).

(3) Coastal State

The term “coastal State” has the meaning given the term “coastal state” in section 1453 of title 16, except that the term shall not apply with respect to a State or territory that has an operational wind and flood loss allocation system.

(4) Indeterminate loss

(A) In general

The term “indeterminate loss” means, as determined by an insurance claims adjuster certified under the national flood insurance program and in consultation with an engineer as appropriate, a loss resulting from physical damage to, or loss of, property located in any coastal State arising from the combined perils of flood and wind associated with a named storm.

(B) Requirements

An insurance claims adjuster certified under the national flood insurance program shall only determine that a loss is an indeterminate loss if the claims adjuster determines that—

(i) no material remnant of physical buildings or man-made structures remain

except building foundations for the specific property for which the claim is made; and

(ii) there is insufficient or no tangible evidence created, yielded, or otherwise left behind of the specific property for which the claim is made as a result of the named storm.

(5) Named storm

The term “named storm” means any organized weather system with a defined surface circulation and maximum sustained winds of not less than 39 miles per hour which the National Hurricane Center of the United States National Weather Service names as a tropical storm or a hurricane.

(6) Post-storm assessment

The term “post-storm assessment” means the post-storm assessment developed under section 3611(b) of title 33.

(7) State

The term “State” means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and any other territory or possession of the United States.

(10) Property

The term “property” means real or personal property that is insured under a standard insurance policy for loss or damage to structure or contents.

(11) Under Secretary

The term “Under Secretary” means the Under Secretary of Commerce for Oceans and Atmosphere, in the Under Secretary’s capacity as Administrator of the National Oceanic and Atmospheric Administration.

(b) Establishment of flood loss allocation formula for indeterminate claims

(1) In general

Not later than 180 days after the date on which the protocol is established under section 3611(c)(1) of title 33, the Secretary, acting through the Administrator and in consultation with the Under Secretary, shall publish for comment in the Federal Register a standard formula to determine and allocate wind losses and flood losses for claims involving indeterminate losses.

(2) Contents

The standard formula established under paragraph (1) shall—

(A) incorporate data available from the Coastal Wind and Water Event Database established under section 3611(f) of title 33;

(B) use relevant data provided on the National Flood Insurance Program Elevation

Certificate, or other data or information used to determine a property's current risk of flood, as determined by the Administrator, for each indeterminate loss for which the formula is used;

(C) consider any sufficient and credible evidence, approved by the Administrator, of the pre-event condition of a specific property, including the findings of any policyholder or insurance claims adjuster in connection with the indeterminate loss to that specific property;

(D) include other measures, as the Administrator considers appropriate, required to determine and allocate by mathematical formula the property damage caused by flood or storm surge associated with a named storm; and

(E) subject to paragraph (3), for each indeterminate loss, use the post-storm assessment to allocate water damage (flood or storm surge) associated with a named storm.

(3) Degree of accuracy required

The standard formula established under paragraph (1) shall specify that the Administrator may only use the post-storm assessment for purposes of the formula if the Under Secretary certifies that the post-storm assessment has a degree of accuracy of not less than 90 percent in connection with the specific indeterminate loss for which the assessment and formula are used.

(c) Authorized use of post-storm assessment and COASTAL Formula

(1) In general

Subject to paragraph (3), the Administrator may use the post-storm assessment and the COASTAL Formula to—

(A) review flood loss payments for indeterminate losses, including as part of the quality assurance reinspection program of the Federal Emergency Management Agency for claims under the national flood insurance program and any other process approved by the Administrator to review and validate payments under the national flood insurance program for indeterminate losses following a named storm; and

(B) assist the national flood insurance program to—

(i) properly cover qualified flood loss for claims for indeterminate losses; and

(ii) avoid paying for any loss or damage to property caused by any peril (including wind), other than flood or storm surge, that is not covered under a standard policy under the national flood insurance program.

(2) Federal disaster declaration

Subject to paragraph (3), in order to expedite claims and reduce costs to the national flood insurance program, following any major disaster declared by the President under section 5170 of this title relating to a named storm in a coastal State, the Administrator may use the COASTAL Formula to determine and pay for any flood loss covered under a standard insurance policy under the national flood insurance program, if the loss is an indeterminate loss.

(3) National Academy of Sciences evaluation

(A) Evaluation required

(i) Evaluation

Upon publication of the COASTAL Formula in the Federal Register as required by subsection (b)(1), and each time the Administrator modifies the COASTAL Formula, the National Academy of Sciences shall—

(I) evaluate the expected financial impact on the national flood insurance program of the use of the COASTAL Formula as so established or modified; and

(II) evaluate the validity of the scientific assumptions upon which the formula is based and determine whether the COASTAL formula¹ can achieve a degree of accuracy of not less than 90 percent in allocating flood losses for indeterminate losses.

(ii) Report

The National Academy of Sciences shall submit a report containing the results of each evaluation under clause (i) to the Administrator, the Committee on Banking, Housing, and Urban Affairs and the Committee on Commerce, Science, and Transportation of the Senate, and the Committee on Financial Services and the Committee on Science, Space, and Technology of the House of Representatives.

(B) Effective date and applicability

(i) Effective date

Paragraphs (1) and (2) of this subsection shall not take effect unless the report under subparagraph (A) relating to the establishment of the COASTAL Formula concludes that the use of the COASTAL Formula for purposes of paragraph² (1) and (2) would not have an adverse financial impact on the national flood insurance program and that the COASTAL Formula is based on valid scientific assumptions that would allow a degree of accuracy of not less than 90 percent to be achieved in allocating flood losses for indeterminate losses.

(ii) Effect of modifications

Unless the report under subparagraph (A) relating to a modification of the COASTAL Formula concludes that the use of the COASTAL Formula, as so modified, for purposes of paragraphs (1) and (2) would not have an adverse financial impact on the national flood insurance program and that the COASTAL Formula is based on valid scientific assumptions that would allow a degree of accuracy of not less than 90 percent to be achieved in allocating flood losses for indeterminate losses the Administrator may not use the COASTAL Formula, as so modified, for purposes of paragraphs (1) and (2).

(C) Funding

Notwithstanding section 4017 of this title, there shall be available to the Administrator

¹ So in original. Probably should be capitalized.

² So in original. Probably should be "paragraphs".

from the National Flood Insurance Fund, of amounts not otherwise obligated, not more than \$750,000 to carry out this paragraph.

(d) Disclosure of COASTAL Formula

Not later than 30 days after the date on which a post-storm assessment is submitted to the Secretary under section 3611(b)(2)(E) of title 33, for each indeterminate loss for which the COASTAL Formula is used pursuant to subsection (c)(2), the Administrator shall disclose to the policyholder that makes a claim relating to the indeterminate loss—

(1) that the Administrator used the COASTAL Formula with respect to the indeterminate loss; and

(2) a summary of the results of the use of the COASTAL Formula.

(e) Consultation

In carrying out subsections (b) and (c), the Secretary shall consult with—

(1) the Under Secretary for Oceans and Atmosphere;

(2) the Director of the National Institute of Standards and Technology;

(3) the Chief of Engineers of the Corps of Engineers;

(4) the Director of the United States Geological Survey;

(5) the Office of the Federal Coordinator for Meteorology;

(6) State insurance regulators of coastal States; and

“(b) METHODOLOGY TO DETERMINE REIMBURSED EXPENSES.—Not later than 180 days after the date of enactment of this Act [July 6, 2012], the Administrator shall develop a methodology for determining the appropriate amounts that property and casualty insurance companies participating in the Write Your Own program should be reimbursed for selling, writing, and servicing flood insurance policies and adjusting flood insurance claims on behalf of the National Flood Insurance Program. L. 103-325) during the 1-year period beginning on Sept. 23, 1994.

§ 4104. Flood elevation determinations

(a) Publication or notification of proposed flood elevation determinations

In establishing projected flood elevations and designating areas having special flood hazards for land use purposes with respect to any community pursuant to section 4102 of this title, the Administrator shall first propose such determinations and designations by publication for comment in the Federal Register, by direct notification to the chief executive officer of the community, and by publication in a prominent local newspaper.

(b) Publication of flood elevation determinations; appeal of owner or lessee to local government; scientific or technical knowledge or information as basis for appeal; modification of proposed determinations

The Administrator shall publish notification of flood elevation determinations and designations of areas having special flood hazards in a prominent local newspaper at least twice during the ten-day period following notification to the local government. During the ninety-day period following the second publication, any owner or lessee of real property within the community who believes his property rights to be adversely affected by the Administrator's proposed determination may appeal such determination to the local government. The sole grounds for appeal shall be the possession of knowledge or information indicating that (1) the elevations being proposed by the Administrator with respect to an identified area having special flood hazards are scientifically or technically incorrect, or (2) the designation of an identified special flood hazard area is scientifically or technically incorrect.

(c) Appeals by private persons; submission of negating or contradicting data to community; opinion of community respecting justification for appeal by community; transmission of individual appeals to Administrator; filing of community action with Administrator

Appeals by private persons shall be made to the chief executive officer of the community, or to such agency as he shall publicly designate, and shall set forth the data that tend to negate or contradict the Administrator's finding in such form as the chief executive officer may specify. The community shall review and consolidate all such appeals and issue a written opinion stating whether the evidence presented is sufficient to justify an appeal on behalf of such persons by the community in its own name.

Whether or not the community decides to appeal the Administrator's determination, copies of individual appeals shall be sent to the Administrator as they are received by the community, and the community's appeal or a copy of its decision not to appeal shall be filed with the Administrator not later than ninety days after the date of the second newspaper publication of the Administrator's notification.

(d) Administrative review of appeals by private persons; modification of proposed determinations; decision of Administrator: form and distribution

In the event the Administrator does not receive an appeal from the community within the ninety days provided, he shall consolidate and review on their own merits, in accordance with the procedures set forth in subsection (e), the appeals filed within the community by private persons and shall make such modifications of his proposed determinations as may be appropriate, taking into account the written opinion, if any, issued by the community in not supporting such appeals. The Administrator's decision shall be in written form, and copies thereof shall be sent both to the chief executive officer of the community and to each individual appellant.

(e) Administrative review of appeals by community; agencies for resolution of conflicting data; availability of flood insurance pending such resolution; time for determination of Administrator; community adoption of local land use and control measures within reasonable time of final determination; public inspection and admissibility in evidence of reports and other administrative information

Upon appeal by any community, as provided by this section, the Administrator shall review and take fully into account any technical or scientific data submitted by the community that tend to negate or contradict the information upon which his proposed determination is based. The Administrator shall resolve such appeal by consultation with officials of the local government involved, by administrative hearing, or by submission of the conflicting data to the Scientific Resolution Panel provided for in section 4104-1 of this title. Until the conflict in data is resolved, and the Administrator makes a final determination on the basis of his findings in the Federal Register, and so notifies the governing body of the community, flood insurance previously available within the community shall continue to be available, and no person shall be denied the right to purchase such insurance at chargeable rates. The Administrator shall make his determination within a reasonable time. The community shall be given a reasonable time after the Administrator's final determination in which to adopt local land use and control measures consistent with the Administrator's determination. The reports and other information used by the Administrator in making his final determination shall be made available for public inspection and shall be admissible in a court of law in the event the community seeks judicial review as provided by this section.

(f) Reimbursement of certain expenses

When, incident to any appeal under subsection (b) or (c) of this section, the owner or lessee of real property or the community, as the case may be, or, in the case of an appeal that is resolved by submission of conflicting data to the Scientific Resolution Panel provided for in section 4104-1 of this title, the community, incurs expense in connection with the services of surveyors, engineers, or similar services, but not including legal services, in the effecting of an appeal based on a scientific or technical error on the part of the Federal Emergency Management Agency, which is successful in whole or part, the Administrator shall reimburse such individual or community to an extent measured by the ratio of the successful portion of the appeal as compared to the entire appeal and applying such ratio to the reasonable value of all such services, but no reimbursement shall be made by the Administrator in respect to any fee or expense payment, the payment of which was agreed to be contingent upon the result of the appeal. The Administrator may use such amounts from the National Flood Insurance Fund established under section 4017 of this title as may be necessary to carry out this subsection. The Administrator shall promulgate regulations to carry out this subsection.

(a) Availability

(1) In general

Pursuant to the authority provided under section 4104(e) of this title, the Administrator shall make available an independent review panel, to be known as the Scientific Resolution Panel, to any community—

(ii) completed 60 days of consultation with the Federal Emergency Management Agency on the appeal; and

(iii) not allowed more than 120 days, or such longer period as may be provided by the Administrator by waiver, to pass since the end of the appeal period; or

(B) that has received an unsatisfactory ruling under the map revision process established pursuant to section 4101(f) of this title.

(2) Appeals by owners and lessees

If a community and an owner or lessee of real property within the community appeal a proposed determination of a flood elevation under section 4104(b) of this title, upon the request of the community—

(A) the owner or lessee shall submit scientific and technical data relating to the appeals to the Scientific Resolution Panel; and

(B) the Scientific Resolution Panel shall make a determination with respect to the appeals in accordance with subsection (c).

(3) Definition

For purposes of paragraph (1)(B), an “unsatisfactory ruling” means that a community—

(A) received a revised Flood Insurance Rate Map from the Federal Emergency Management Agency, via a Letter of Final Determination, after September 30, 2008, and prior to July 6, 2012;

(B) has subsequently applied for a Letter of Map Revision or Physical Map Revision with the Federal Emergency Management Agency; and

(C) has received an unfavorable ruling on their request for a map revision.

(b) Membership

The Scientific Resolution Panel made available under subsection (a) shall consist of 5 members with expertise that relates to the creation and study of flood hazard maps and flood insur-

ance. The Scientific Resolution Panel may include representatives from Federal agencies not involved in the mapping study in question and from other impartial experts. Employees of the Federal Emergency Management Agency may not serve on the Scientific Resolution Panel.

(c) Determination

(1) In general

Following deliberations, and not later than 90 days after its formation, the Scientific Resolution Panel shall issue a determination of resolution of the dispute. Such determination shall set forth recommendations for the base flood elevation determination or the designation of an area having special flood hazards that shall be reflected in the Flood Insurance Rate Maps.

(2) Basis

The determination of the Scientific Resolution Panel shall be based on—

(A) data previously provided to the Administrator by the community, and, in the case of a dispute submitted under subsection (a)(2), an owner or lessee of real property in the community; and

(B) data provided by the Administrator.

(3) No alternative determinations permissible

The Scientific Resolution Panel—

(A) shall provide a determination of resolution of a dispute that—

(i) is either in favor of the Administrator or in favor of the community on each distinct element of the dispute; or

(ii) in the case of a dispute submitted under subsection (a)(2), is in favor of the Administrator, in favor of the community, or in favor of the owner or lessee of real property in the community on each distinct element of the dispute; and

(B) may not offer as a resolution any other alternative determination.

(4) Effect of determination

(A) Binding

The recommendations of the Scientific Resolution Panel shall be binding on all appellants and not subject to further judicial review unless the Administrator determines that implementing the determination of the panel would—

(i) pose a significant threat due to failure to identify a substantial risk of special flood hazards; or

(ii) violate applicable law.

(B) Written justification not to enforce

If the Administrator elects not to implement the determination of the Scientific Resolution Panel pursuant to subparagraph (A), then not later than 60 days after the issuance of the determination, the Administrator shall issue a written justification explaining such election.

The regulations shall also require that the regulated lending institution retain a record of the receipt of the notices by the purchaser or lessee and the servicer.

(2) Federal agency lenders

Each Federal agency lender shall by regulation require notification in the manner provided under paragraph (1) with respect to any loan that is made by the Federal agency lender and secured by improved real estate or a mobile home located or to be located in an area that has been identified by the Administrator under this chapter or the Flood Disaster Protection Act of 1973 as an area having special flood hazards. Any regulations issued under this paragraph shall be consistent with and substantially identical to the regulations issued under paragraph (1).

§ 4104b. Standard hazard determination forms**(a) Development**

The Administrator, in consultation with representatives of the mortgage and lending industry, the Federal entities for lending regulation, the Federal agency lenders, and any other appropriate individuals, shall develop a standard form for determining, in the case of a loan secured by improved real estate or a mobile home, whether the building or mobile home is located in an area identified by the Administrator as an area having special flood hazards and in which flood insurance under this chapter is available. The form shall be established by regulations issued not later than 270 days after September 23, 1994.

(b) Design and contents**(1) Purpose**

The form under subsection (a) shall be designed to facilitate compliance with the flood insurance purchase requirements of this chapter.

(2) Contents

The form shall require identification of the type of flood-risk zone in which the building or mobile home is located, the complete map and panel numbers for the improved real estate or property on which the mobile home is located, the community identification number and community participation status (for purposes of the national flood insurance program) of the community in which the improved real estate or such property is located, and the date of the map used for the determination, with respect to flood hazard information on file with the Administrator. If the building or mobile home is not located in an area having special flood hazards the form shall require a statement to such effect and shall indicate the complete map and panel numbers of the improved real estate or property on which the mobile home is located. If the complete map and panel numbers are not available because the building or mobile home is not located in a community that is participating in the national flood insurance program or because no map exists for the relevant area, the form shall require a statement to such effect. The form shall provide for inclusion or attachment of any relevant documents indicating revisions or amendments to maps.

(c) Required use

The Federal entities for lending regulation shall by regulation require the use of the form under this section by regulated lending institutions. Each Federal agency lender shall by regulation provide for the use of the form with respect to any loan made by such Federal agency lender. The Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation and the Government National Mortgage Association shall require the use of the form with respect to any loan purchased by such entities. A lender or other person may comply with the requirement under this subsection by using the form in a printed, computerized, or electronic manner.

(d) Guarantees regarding information

In providing information regarding special flood hazards on the form developed under this section, any lender (or other person required to use the form) who makes, increases, extends, or renews a loan secured by improved real estate or a mobile home may provide for the acquisition or determination of such information to be made by a person other than such lender (or other person), only to the extent such person guarantees the accuracy of the information.

(e) Reliance on previous determination

Any person increasing, extending, renewing, or purchasing a loan secured by improved real estate or a mobile home may rely on a previous determination of whether the building or mobile home is located in an area having special flood hazards (and shall not be liable for any error in such previous determination), if the previous determination was made not more than 7 years before the date of the transaction and the basis for the previous determination has been set forth on a form under this section, unless—

- (1) map revisions or updates pursuant to section 4101(f) of this title after such previous determination have resulted in the building or mobile home being located in an area having special flood hazards; or
- (2) the person contacts the Administrator to determine when the most recent map revisions or updates affecting such property occurred and such revisions and updates have occurred after such previous determination.

(f) Effective date

The regulations under this section requiring use of the form established pursuant to this section shall be issued together with the regulations required under subsection (a) and shall take effect upon the expiration of the 180-day period beginning on such issuance.

§ 4104c. Mitigation assistance**(a) Authority**

The Administrator shall carry out a program to provide financial assistance to States and communities, using amounts made available from the National Flood Mitigation Fund under section 4104d of this title, for planning and carrying out activities designed to reduce the risk of flood damage to structures covered under contracts for flood insurance under this chapter. Such financial assistance shall be made available—

- (1) to States and communities in the form of grants under this section for carrying out mitigation activities;
- (2) to States and communities in the form of grants under this section for carrying out mitigation activities that reduce flood damage to severe repetitive loss structures; and
- (3) to property owners in the form of direct grants under this section for carrying out mitigation activities that reduce flood damage to individual structures for which 2 or more claim payments for losses have been made under flood insurance coverage under this chapter if the Administrator, after consultation with the State and community, determines that neither the State nor community in which such a structure is located has the capacity to manage such grants.

(3) to property owners in the form of direct grants under this section for carrying out mitigation activities that reduce flood damage to individual structures for which 2 or more claim payments for losses have been made under flood insurance coverage under this chapter if the Administrator, after consultation with the State and community, determines that neither the State nor community in which such a structure is located has the capacity to manage such grants.

(b) Eligibility for mitigation assistance

To be eligible to receive financial assistance under this section for mitigation activities, a State or community shall develop, and have approved by the Administrator, a flood risk mitigation plan (in this section referred to as a “mitigation plan”), that describes the mitigation activities to be carried out with assistance provided under this section, is consistent with the criteria established by the Administrator under section 4102 of this title, provides for reduction of flood losses to structures for which contracts for flood insurance are available under this chapter, and may be included in a multi-hazard mitigation plan. The mitigation plan shall be consistent with a comprehensive strategy for mitigation activities for the area affected by the mitigation plan, that has been adopted by the State or community following a public hearing.

(c) Eligible mitigation activities**(1) Requirement of consistency with approved mitigation plan**

Amounts provided under this section may be used only for mitigation activities that are consistent with mitigation plans that are approved by the Administrator and identified under paragraph (4). The Administrator shall provide assistance under this section to the

extent amounts are available in the National Flood Mitigation Fund pursuant to appropriation Acts, subject only to the absence of approvable mitigation plans.

(2) Requirements of technical feasibility, cost effectiveness, and interest of National Flood Insurance Fund

(A) In general

The Administrator may approve only mitigation activities that the Administrator determines—

(i) are technically feasible and cost-effective; or

(ii) will eliminate future payments from the National Flood Insurance Fund for severe repetitive loss structures through an acquisition or relocation activity.

(B) Considerations

In making a determination under subparagraph (A), the Administrator shall take into consideration recognized ancillary benefits.

(3) Eligible activities

Eligible activities under a mitigation plan may include—

(A) demolition or relocation of any structure located on land that is along the shore of a lake or other body of water and is certified by an appropriate State or local land use authority to be subject to imminent collapse or subsidence as a result of erosion or flooding;

(B) elevation, relocation, demolition, or floodproofing of structures (including public structures) located in areas having special flood hazards or other areas of flood risk;

(C) acquisition by States and communities of properties (including public properties) located in areas having special flood hazards or other areas of flood risk and properties substantially damaged by flood, for public use, as the Administrator determines is consistent with sound land management and use in such area;

(D) elevation, relocation, or floodproofing of utilities (including equipment that serves structures);

(E) minor physical mitigation efforts that do not duplicate the flood prevention activities of other Federal agencies and that lessen the frequency or severity of flooding and decrease predicted flood damages, which shall not include major flood control projects such as dikes, levees, seawalls, groins, and jetties unless the Administrator specifically determines in approving a mitigation plan that such activities are the most cost-effective mitigation activities for the National Flood Mitigation Fund;

(F) the development or update of mitigation plans by a State or community which meet the planning criteria established by the Administrator, except that the amount from grants under this section that may be used under this subparagraph may not exceed \$50,000 for any mitigation plan of a State or \$25,000 for any mitigation plan of a community;

(G) the provision of technical assistance by States to communities and individuals to conduct eligible mitigation activities;

(H) other activities that the Administrator considers appropriate and specifies in regulation;

(I) other mitigation activities not described in subparagraphs (A) through (G) or the regulations issued under subparagraph (H), that are described in the mitigation plan of a State or community; and

§ 4105. Disaster mitigation requirements; notification to flood-prone areas

(a) Initial notification

Not later than six months following December 31, 1973, the Administrator shall publish information in accordance with section 4101(1) of this title, and shall notify the chief executive officer of each known flood-prone community not already participating in the national flood insurance program of its tentative identification as a community containing one or more areas having special flood hazards.

(b) Alternative actions of tentatively identified communities; public hearing; opportunity for submission of evidence; finality of administrative determination of existence or extent of flood hazard area

After such notification, each tentatively identified community shall either (1) promptly make proper application to participate in the national flood insurance program or (2) within six months submit technical data sufficient to establish to the satisfaction of the Administrator that the community either is not seriously flood prone or that such flood hazards as may have ex-

isted have been corrected by flood-works or other flood control methods. The Administrator may, in his discretion, grant a public hearing to any community with respect to which conflicting data exist as to the nature and extent of a flood hazard. If the Administrator decides not to hold a hearing, the community shall be given an opportunity to submit written and documentary evidence. Whether or not such hearing is granted, the Administrator's final determination as to the existence or extent of a flood hazard area in a particular community shall be deemed conclusive for the purposes of this Act if supported by substantial evidence in the record considered as a whole.

(c) Subsequent notification to additional communities known to be flood prone areas

As information becomes available to the Administrator concerning the existence of flood hazards in communities not known to be flood prone at the time of the initial notification provided for by subsection (a) of this section he shall provide similar notifications to the chief executive officers of such additional communities, which shall then be subject to the requirements of subsection (b) of this section.

Formally identified flood-prone communities that do not qualify for the national flood insurance program within one year after such notification or by the date specified in section 4106 of this title, whichever is later, shall thereafter be subject to the provisions of that section relating to flood-prone communities which are not participating in the program.

(e) Administrative procedures; establishment; reimbursement of certain expenses; appropriation authorization

The Administrator is authorized to establish administrative procedures whereby the identification under this section of one or more areas in the community as having special flood hazards may be appealed to the Administrator by the community or any owner or lessee of real property within the community who believes his property has been inadvertently included in a special flood hazard area by the identification. When, incident to any appeal under this subsection, the owner or lessee of real property or the community, as the case may be, incurs expense in connection with the services of surveyors, engineers, or similar services, but not including legal services, in the effecting of an appeal which is successful in whole or part, the Administrator shall reimburse such individual or community to an extent measured by the ratio of the successful portion of the appeal as compared to the entire appeal and applying such ratio to the reasonable value of all such services, but no reimbursement shall be made by the Administrator in respect to any fee or expense payment, the payment of which was agreed to be contingent upon the result of the appeal. There is authorized to be appropriated for purposes of implementing this subsection not to exceed \$250,000.

(2) provide a forum for discussing the administration and coordination of Federal grant and other programs requiring intergovernmental cooperation;

(3) give critical attention to the conditions and controls involved in the administration of Federal grant programs;

(4) make available technical assistance to the executive and legislative branches of the Federal Government in the review of proposed legislation to determine its overall effect on the Federal system;

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I transmit herewith Reorganization Plan No. 3 of 1970, prepared in accordance with chapter 9 of title 5 of the United States Code and providing for an Environmental Protection Agency. My reasons for transmitting this plan are stated in a more extended accompanying message.

After investigation, I have found and hereby declare that each reorganization included in Reorganization Plan No. 3 of 1970 is necessary to accomplish one or more of the purposes set forth in section 901(a) of title 5 of the United States Code. In particular, the plan is responsive to section 901(a)(1), "to promote the better execution of the laws, the more effective management of the executive branch and of its agencies and functions, and the expeditious administration of the public business;" and section 901(a)(3), "to increase the efficiency of the operations of the Government to the fullest extent practicable."

The reorganizations provided for in the plan make necessary the appointment and compensation of new officers as specified in section 1 of the plan. The rates of compensation fixed for these officers are comparable to those fixed for other officers in the executive branch who have similar responsibilities.

Section 907 of title 5 of the United States Code will operate to preserve administrative proceedings, including any public hearing proceedings, related to the transferred functions, which are pending immediately prior to the taking effect of the reorganization plan.

The reorganization plan should result in more efficient operation of the Government. It is not practical, however, to itemize or aggregate the exact expenditure reductions which will result from this action.

RICHARD NIXON.

THE WHITE HOUSE, July 9, 1970.

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

As concern with the condition of our physical environment has intensified, it has become increasingly

clear that we need to know more about the total environment—land, water and air. It also has become increasingly clear that only by reorganizing our Federal efforts can we develop that knowledge, and effectively ensure the protection, development and enhancement of the total environment itself.

The Government's environmentally-related activities have grown up piecemeal over the years. The time has come to organize them rationally and systematically. As a major step in this direction, I am transmitting today two reorganization plans: one to establish an Environmental Protection Agency, and one to establish, within the Department of Commerce, a National Oceanic and Atmospheric Administration.

ENVIRONMENTAL PROTECTION AGENCY (EPA)

Our national government today is not structured to make a coordinated attack on the pollutants which debase the air we breathe, the water we drink, and the land that grows our food. Indeed, the present governmental structure for dealing with environmental pollution often defies effective and concerted action.

Despite its complexity, for pollution control purposes the environment must be perceived as a single, interrelated system. Present assignments of departmental responsibilities do not reflect this interrelatedness.

Many agency missions, for example, are designed primarily along media lines—air, water, and land. Yet the sources of air, water, and land pollution are interrelated and often interchangeable. A single source may pollute the air with smoke and chemicals, the land with solid wastes, and a river or lake with chemical and other wastes. Control of the air pollution may produce more solid wastes, which then pollute the land or water. Control of the water-polluting effluent may convert it into solid wastes, which must be disposed of on land.

Similarly, some pollutants—chemicals, radiation, pesticides—appear in all media. Successful control of them at present requires the coordinated efforts of a variety of separate agencies and departments. The results are not always successful.

A far more effective approach to pollution control would:

- identify pollutants.
- trace them through the entire ecological chain, observing and recording changes in form as they occur.
- Determine the total exposure of man his environment.
- Examine interactions among forms of pollution.
- Identify where in the ecological chain interdiction would be most appropriate.

In organizational terms, this requires pulling together into one agency a variety of research, monitoring, standard-setting and enforcement activities now scattered through several departments and agencies. It also requires that the new agency include sufficient support elements—in research and in aids to State and local anti-pollution programs, for example—to give it the needed strength and potential for carrying out its mission. The new agency would also, of course, draw upon the results of research conducted by other agencies.

COMPONENTS OF THE EPA

Under the terms of Reorganization Plan No. 3, the following would be moved to the new Environmental Protection Agency:

- The functions carried out by the Federal Water Quality Administration (from the Department of the Interior).
- Functions with respect to pesticides studies now vested in the Department of the Interior.
- The functions carried out by the National Air Pollution Control Administration (from the Department of Health, Education, and Welfare).
- The functions carried out by the Bureau of Solid Waste Management and the Bureau of Water Hy-

giene, and portions of the functions carried out by the Bureau of Radiological Health of the Environmental Control Administration (from the Department of Health, Education, and Welfare).

- Certain functions with respect to pesticides carried out by the Food and Drug Administration (from the Department of Health, Education, and Welfare).
- Authority to perform studies relating to ecological systems now vested in the Council on Environmental Quality.
- Certain functions respecting radiation criteria and standards now vested in the Atomic Energy Commission and the Federal Radiation Council.
- Functions respecting pesticides registration and related activities now carried out by the Agricultural Research Service (from the Department of Agriculture).

With its broad mandate, EPA would also develop competence in areas of environmental protection that have not previously been given enough attention, such, for example, as the problem of noise, and it would provide an organization to which new programs in these areas could be added.

In brief, these are the principal functions to be transferred:

Federal Water Quality Administration.—Charged with the control of pollutants which impair water quality, it is broadly concerned with the impact of degraded water quality. It performs a wide variety of functions, including research, standard-setting and enforcement, and provides construction grants and technical assistance.

Certain pesticides research authority from the Department of the Interior.—Authority for research on the effects of pesticides on fish and wildlife would be provided to the EPA through transfer of the specialized research authority of the pesticides act enacted in 1958. Interior would retain its responsibility to do research on all factors affecting fish and wildlife. Under this provision, only one laboratory would be transferred to the EPA—the Gulf Breeze Biological Laboratory of the Bureau of Commercial Fisheries. The EPA would work closely with the fish and wildlife laboratories remaining with the Bureau of Sport Fisheries and Wildlife.

National Air Pollution Control Administration.—As the principal Federal agency concerned with air pollution, it conducts research on the effects of air pollution, operates a monitoring network, and promulgates criteria which serve as the basis for setting air quality standards. Its regulatory functions are similar to those of the Federal Water Quality Administration. NAPCA is responsible for administering the Clean Air Act, which involves designating air quality regions, approving State standards and providing financial and technical assistance to State Control agencies to enable them to comply with the Act's provisions. It also sets and enforces Federal automotive emission standards.

Elements of the Environmental Control Administration.—ECA is the focal point within HEW for evaluation and control of a broad range of environmental health problems, including water quality, solid wastes, and radiation. Programs in the ECA involve research, development of criteria and standards, and the administration of planning and demonstration grants. From the ECA, the activities of the Bureaus of Water Hygiene and Solid Waste Management and portions of the activities of the Bureau of Radiological Health would be transferred. Other functions of the ECA including those related to the regulation of radiation from consumer products and occupational safety and health would remain in HEW.

Pesticides research and standard-setting programs of the Food and Drug Administration.—FDA's pesticides program consists of setting and enforcing standards which limit pesticide residues in food. EPA would have the authority to set pesticide standards and to monitor compliance with them, as well as to conduct related research. However, as an integral part of its food protection activities, FDA would retain its authority to remove from the market food with excess pesticide residues.

General ecological research from the Council on Environmental Quality.—This authority to perform studies and research relating to ecological systems would be in addition to EPA's other specific research authorities, and it would help EPA to measure the impact of pollutants. The Council on Environmental Quality would retain its authority to conduct studies and research relating to environmental quality.

Environmental radiation standards programs.—The Atomic Energy Commission is now responsible for establishing environmental radiation standards and emission limits for radioactivity. Those standards have been based largely on broad guidelines recommended by the Federal Radiation Council. The Atomic Energy Commission's authority to set standards for the protection of the general environment from radioactive material would be transferred to the Environmental Protection Agency. The functions of the Federal Radiation Council would also be transferred. AEC would retain responsibility for the implementation and enforcement of radiation standards through its licensing authority.

Pesticides registration program of the Agricultural Research Service.—The Department of Agriculture is currently responsible for several distinct functions related to pesticides use. It conducts research on the efficacy of various pesticides as related to other pest control methods and on the effects of pesticides on non-target plants, livestock, and poultry. It registers pesticides, monitors their persistence and carries out an educational program on pesticide use through the extension service. It conducts extensive pest control programs which utilize pesticides.

By transferring the Department of Agriculture's pesticides registration and monitoring function to the EPA and merging it with the pesticides programs being transferred from HEW and Interior, the new agency would be given a broad capability for control over the introduction of pesticides into the environment.

The Department of Agriculture would continue to conduct research on the effectiveness of pesticides. The Department would furnish this information to the EPA, which would have the responsibility for actually licensing pesticides for use after considering environmental and health effects. Thus the new agency would be able to make use of the expertise of the Department.

ADVANTAGES OF REORGANIZATION

This reorganization would permit response to environmental problems in a manner beyond the previous capability of our pollution control programs. The EPA would have the capacity to do research on important pollutants irrespective of the media in which they appear, and on the impact of these pollutants on the total environment. Both by itself and together with other agencies, the EPA would monitor the condition of the environment—biological as well as physical. With these data, the EPA would be able to establish quantitative "environmental baselines"—critical if we are to measure adequately the success or failure of our pollution abatement efforts.

As no disjointed array of separate programs can, the EPA would be able—in concert with the States—to set and enforce standards for air and water quality and for individual pollutants. This consolidation of pollution control authorities would help assure that we do not create new environmental problems in the process of controlling existing ones. Industries seeking to minimize the adverse impact of their activities on the environment would be assured of consistent standards covering the full range of their waste disposal problems. As the States develop and expand their own pollution control programs, they would be able to look to one agency to support their efforts with financial and technical assistance and training.

In proposing that the Environmental Protection Agency be set up as a separate new agency, I am making an exception to one of my own principles: that, as a matter of effective and orderly administration, additional new independent agencies normally should not be created. In this case, however, the arguments

against placing environmental protection activities under the jurisdiction of one or another of the existing departments and agencies are compelling.

In the first place, almost every part of government is concerned with the environment in some way, and affects it in some way. Yet each department also has its own primary mission—such as resource development, transportation, health, defense, urban growth or agriculture—which necessarily affects its own view of environmental questions.

In the second place, if the critical standard-setting functions were centralized within any one existing department, it would require that department constantly to make decisions affecting other departments—in which, whether fairly or unfairly, its own objectivity as an impartial arbiter could be called into question.

Because environmental protection cuts across so many jurisdictions, and because arresting environmental deterioration is of great importance to the quality of life in our country and the world, I believe that in this case a strong, independent agency is needed. That agency would, of course, work closely with and draw upon the expertise and assistance of other agencies having experience in the environmental area.

ROLES AND FUNCTIONS OF EPA

The principal roles and functions of the EPA would include:

- The establishment and enforcement of environmental protection standards consistent with national environmental goals.
- The conduct of research on the adverse effects of pollution and on methods and equipment for controlling it, the gathering of information on pollution, and the use of this information in strengthening environmental protection programs and recommending policy changes.
- Assisting others, through grants, technical assistance and other means in arresting pollution of the environment.
- Assisting the Council on Environmental Quality in developing and recommending to the President new policies for the protection of the environment.

One natural question concerns the relationship between the EPA and the Council on Environmental Quality, recently established by Act of Congress.

It is my intention and expectation that the two will work in close harmony, reinforcing each other's mission. Essentially, the Council is a top-level advisory group (which might be compared with the Council of Economic Advisers), while the EPA would be an operating, "line" organization. The Council will continue to be a part of the Executive Office of the President and will perform its overall coordinating and advisory roles with respect to all Federal programs related to environmental quality.

The Council, then, is concerned with all aspects of environmental quality—wildlife preservation, parklands, land use, and population growth, as well as pollution. The EPA would be charged with protecting the environment by abating pollution. In short, the Council focuses on what our broad policies in the environment field should be; the EPA would focus on setting and enforcing pollution control standards. The two are not competing, but complementary—and taken together, they should give us, for the first time, the means to mount an effectively coordinated campaign against environmental degradation in all of its many forms.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

The oceans and the atmosphere are interacting parts of the total environmental system upon which we depend not only for the quality of our lives, but for life itself.

We face immediate and compelling needs for better protection of life and property from natural hazards, and for a better understanding of the total environment—and understanding which will enable us more ef-

fectively to monitor and predict its actions, and ultimately, perhaps to exercise some degree of control over them.

We also face a compelling need for exploration and development leading to the intelligent use of our marine resources. The global oceans, which constitute nearly three-fourths of the surface of our planet, are today the least-understood, the least-developed, and the least-protected part of our earth. Food from the oceans will increasingly be a key element in the world's fight against hunger. The mineral resources of the ocean beds and of the oceans themselves, are being increasingly tapped to meet the growing world demand. We must understand the nature of these resources, and assure their development without either contaminating the marine environment or upsetting its balance.

Establishment of the National Oceanic and Atmospheric Administration—NOAA—within the Department of Commerce would enable us to approach these tasks in a coordinated way. By employing a unified approach to the problems of the oceans and atmosphere, we can increase our knowledge and expand our opportunities not only in those areas, but in the third major component of our environment, the solid earth, as well.

Scattered through various Federal departments and agencies, we already have the scientific, technological, and administrative resources to make an effective, unified approach possible. What we need is to bring them together. Establishment of NOAA would do so.

By far the largest of the components being merged would be the Commerce Department's Environmental Science Services Administration (ESSA), with some 10,000 employees (70 percent of NOAA's total personnel strength) and estimated Fiscal 1970 expenditures of almost \$200 million. Placing NOAA within the Department of Commerce therefore entails the least dislocation, while also placing it within a Department which has traditionally been a center for service activities in the scientific and technological area.

COMPONENTS OF NOAA

Under terms of Reorganization Plan No. 4, the programs of the following organizations would be moved into NOAA:

- The Environmental Science Services Administration (from within the Department of Commerce).
- Elements of the Bureau of Commercial Fisheries (from the Department of the Interior).
- The marine sport fish program of the Bureau of Sport Fisheries and Wildlife (from the Department of the Interior).
- The Marine Minerals Technology Center of the Bureau of Mines (from the Department of the Interior).
- The Office of Sea Grant Programs (from the National Science Foundation).
- Elements of the United States Lake Survey (from the Department of the Army).

In addition, by executive action, the programs of the following organizations would be transferred to NOAA:

- The National Oceanographic Data Center (from the Department of the Navy).
- The National Oceanographic Instrumentation Center (from the Department of the Navy).
- The National Data Buoy Project (from the Department of Transportation).

In brief, these are the principal functions of the programs and agencies to be combined:

THE ENVIRONMENTAL SCIENCE SERVICES ADMINISTRATION

(ESSA) comprises the following components:

- The Weather Bureau (weather, marine, river and flood forecasting and warning).
- The Coast and Geodetic Survey (earth and marine description, mapping and charting).
- The Environmental Data Service (storage and retrieval of environmental data).
- The National Environmental Satellite Center (observation of the global environment from earth-orbiting satellites).

—The ESSA Research Laboratories (research on physical environmental problems).

ESSA's activities include observing and predicting the state of the oceans, the state of the lower and upper atmosphere, and the size and shape of the earth. It maintains the nation's warning systems for such natural hazards as hurricanes, tornadoes, floods, earthquakes and seismic sea waves. It provides information for national defense, agriculture, transportation and industry.

ESSA monitors atmospheric, oceanic and geophysical phenomena on a global basis, through an unparalleled complex of air, ocean, earth and space facilities. It also prepares aeronautical and marine maps and charts.

Bureau of Commercial Fisheries and marine sport fish activities.—Those fishery activities of the Department of the Interior's U.S. Fish and Wildlife Service which are ocean related and those which are directed toward commercial fishing would be transferred. The Fish and Wildlife Service's Bureau of Commercial Fisheries has the dual function of strengthening the fishing industry and promoting conservation of fishery stocks. It conducts research on important marine species and on fundamental oceanography, and operates a fleet of oceanographic vessels and a number of laboratories. Most of its activities would be transferred. From the Fish and Wildlife Service's Bureau of Sport Fisheries and Wildlife, the marine sport fishing program would be transferred. This involves five supporting laboratories and three ships engaged in activities to enhance marine sport fishing opportunities.

The Marine Minerals Technology Center is concerned with the development of marine mining technology.

Office of Sea Grant Programs.—The Sea Grant Program was authorized in 1966 to permit the Federal Government to assist the academic and industrial communities in developing marine resources and technology. It aims at strengthening education and training of marine specialists, supporting applied research in the recovery and use of marine resources, and developing extension and advisory services. The Office carries out these objectives by making grants to selected academic institutions.

The U.S. Lake Survey has two primary missions. It prepares and publishes navigation charts of the Great Lakes and tributary waters and conducts research on a variety of hydraulic and hydrologic phenomena of the Great Lakes' waters. Its activities are very similar to those conducted along the Atlantic and Pacific coasts by ESSA's Coast and Geodetic Survey.

The National Oceanographic Data Center is responsible for the collection and dissemination of oceanographic data accumulated by all Federal agencies.

The National Oceanographic Instrumentation Center provides a central Federal service for the calibration and testing of oceanographic instruments.

The National Data Buoy Development Project was established to determine the feasibility of deploying a system of automatic ocean buoys to obtain oceanic and atmospheric data.

ROLE OF NOAA

Drawing these activities together into a single agency would make possible a balanced Federal program to improve our understanding of the resources of the sea, and permit their development and use while guarding against the sort of thoughtless exploitation that in the past laid waste to so many of our precious natural assets. It would make possible a consolidated program for achieving a more comprehensive understanding of oceanic and atmospheric phenomena, which so greatly affect our lives and activities. It would facilitate the cooperation between public and private interests that can best serve the interests of all.

I expect that NOAA would exercise leadership in developing a national oceanic and atmospheric program of research and development. It would coordinate its own scientific and technical resources with the technical and operational capabilities of other government agencies and private institutions. As important, NOAA

would continue to provide those services to other agencies of government, industry and private individuals which have become essential to the efficient operation of our transportation systems, our agriculture and our national security. I expect it to maintain continuing and close liaison with the new Environmental Protection Agency and the Council on Environmental Quality as part of an effort to ensure that environmental questions are dealt with in their totality and they benefit from the full range of the government's technical and human resources.

Authorities who have studied this matter, including the Commission on Marine Science, Engineering and Resources, strongly recommended the creation of a National Advisory Committee for the Oceans. I agree. Consequently, I will request, upon approval of the plan, that the Secretary of Commerce establish a National Advisory Committee for the Oceans and the Atmosphere to advise him on the progress of governmental and private programs in achieving the nation's oceanic and atmospheric objectives.

AN ON-GOING PROCESS

The reorganizations which I am here proposing afford both the Congress and the Executive Branch an opportunity to re-evaluate the adequacy of existing program authorities involved in these consolidations. As these two new organizations come into being, we may well find that supplementary legislation to perfect their authorities will be necessary. I look forward to working with the Congress in this task.

In formulating these reorganization plans, I have been greatly aided by the work of the President's Advisory Council on Executive Organization (the Ash Council), the Commission on Marine Science, Engineering and Resources (the Stratton Commission, appointed by President Johnson), my special task force on oceanography headed by Dr. James Wakelin, and by the information developed during both House and Senate hearings on proposed NOAA legislation.

Many of those who have advised me have proposed additional reorganizations, and it may well be that in the future I shall recommend further changes. For the present, however, I think the two reorganizations transmitted today represent a sound and significant beginning. I also think that in practical terms, in this sensitive and rapidly developing area, it is better to proceed a step at a time—and thus to be sure that we are not caught up in a form of organizational indigestion from trying to rearrange too much at once. As we see how these changes work out, we will gain a better understanding of what further changes—in addition to these—might be desirable.

Ultimately, our objective should be to insure that the nation's environmental and resource protection activities are so organized as to maximize both the effective coordination of all and the effective functioning of each.

The Congress, the Administration and the public all share a profound commitment to the rescue of our natural environment, and the preservation of the Earth as a place both habitable by and hospitable to man. With its acceptance of these reorganization plans, the Congress will help us fulfill that commitment.

RICHARD NIXON.

In carrying out the foregoing provisions of this subsection, the Cabinet Committee shall, as far as may be practical, advise Federal agencies with respect to the effect of their respective plans

and programs on recreation and natural beauty, and may suggest to such agencies ways to accomplish the purposes of this order. For the purposes of this order, plans and programs may include, but are not limited to, those for or affecting: (1) Development, restoration, and preservation of the beauty of the countryside, urban and suburban areas, water resources, wild rivers, scenic roads, parkways and highways, (2) the protection and appropriate management of scenic or primitive areas, natural wonders, historic sites, and recreation areas, (3) the management of Federal land and water resources, including fish and wildlife, to enhance natural beauty and recreational opportunities consistent with other essential uses, (4) cooperation with the States and their local subdivisions and private organizations and individuals in areas of mutual interest, (5) interstate arrangements, including Federal participation where authorized and necessary, and (6) leadership in a nationwide recreation and beautification effort.

SEC. 103. *Coordination.* The Secretary of the Interior may make available to the Cabinet Committee for coordination of outdoor recreation the authorities and resources available to him under the Act of May 28, 1963, 77 Stat. 49 [see 54 U.S.C. 200101], to the extent permitted by law, he may make such authorities and resources available to the Cabinet Committee also for promoting such coordination of other matters assigned to the Cabinet Committee by this order.

SEC. 104. *Assistance for the Cabinet Committee.* In compliance with provisions of applicable law, and as necessary to serve the purposes of this order, (1) the Council on Environmental Quality (established by Public Law 91-190) [this chapter] shall provide or arrange for necessary administrative and staff services, support, and facilities for the Cabinet Committee, and (2) each department and agency which has membership on the Cabinet Committee under Section 101(c) hereof shall furnish the Cabinet Committee such information and other assistance as may be available.

EX. ORD. NO. 11514. PROTECTION AND ENHANCEMENT OF ENVIRONMENTAL QUALITY

Ex. Ord. No. 11514, Mar. 5, 1970, 35 F.R. 4247, as amended by Ex. Ord. No. 11991, May 24, 1977, 42 F.R. 26967, provided:

By virtue of the authority vested in me as President of the United States and in furtherance of the purpose and policy of the National Environmental Policy Act of 1969 (Public Law No. 91-190, approved January 1, 1970) [this chapter], it is ordered as follows:

SECTION 1. Policy. The Federal Government shall provide leadership in protecting and enhancing the quality of the Nation's environment to sustain and enrich human life. Federal agencies shall initiate measures needed to direct their policies, plans and programs so as to meet national environmental goals. The Council on Environmental Quality, through the Chairman, shall advise and assist the President in leading this national effort.

SEC. 2. Responsibilities of Federal agencies. Consonant with Title I of the National Environmental Policy Act of 1969 [42 U.S.C. 4331 et seq.], hereafter referred to as the "Act", the heads of Federal agencies shall:

(a) Monitor, evaluate, and control on a continuing basis their agencies' activities so as to protect and enhance the quality of the environment. Such activities shall include those directed to controlling pollution and enhancing the environment and those designed to accomplish other program objectives which may affect the quality of the environment. Agencies shall develop programs and measures to protect and enhance environmental quality and shall assess progress in meeting the specific objectives of such activities. Heads of agencies shall consult with appropriate Federal, State and local agencies in carrying out their activities as they affect the quality of the environment.

(b) Develop procedures to ensure the fullest practicable provision of timely public information and understanding of Federal plans and programs with environmental impact in order to obtain the views of interested parties. These procedures shall include, whenever appropriate, provision for public hearings, and shall provide the public with relevant information, including information on alternative courses of action. Federal agencies shall also encourage State and local agencies to adopt similar procedures for informing the public concerning their activities affecting the quality of the environment.

(c) Insure that information regarding existing or potential environmental problems and control methods developed as part of research, development, demonstration, test, or evaluation activities is made available to Federal agencies, States, counties, municipalities, institutions, and other entities, as appropriate.

(d) Review their agencies' statutory authority, administrative regulations, policies, and procedures, including those relating to loans, grants, contracts, leases, licenses, or permits, in order to identify any deficiencies or inconsistencies therein which prohibit or limit full compliance with the purposes and provisions of the Act. A report on this review and the corrective actions taken or planned, including such measures to be proposed to the President as may be necessary to bring their authority and policies into conformance with the intent, purposes, and procedures of the Act, shall be provided to the Council on Environmental Quality not later than September 1, 1970.

(e) Engage in exchange of data and research results, and cooperate with agencies of other governments to foster the purposes of the Act.

(f) Proceed, in coordination with other agencies, with actions required by section 102 of the Act [42 U.S.C. 4332].

(g) In carrying out their responsibilities under the Act and this Order, comply with the regulations issued by the Council except where such compliance would be inconsistent with statutory requirements.

SEC. 3. Responsibilities of Council on Environmental Quality. The Council on Environmental Quality shall:

(a) Evaluate existing and proposed policies and activities of the Federal Government directed to the control of pollution and the enhancement of the environment and to the accomplishment of other objectives which affect the quality of the environment. This shall include continuing review of procedures employed in the development and enforcement of Federal standards affecting environmental quality. Based upon such evaluations the Council shall, where appropriate, recommend to the President policies and programs to achieve more effective protection and enhancement of environmental quality and shall, where appropriate, seek resolution of significant environmental issues.

(b) Recommend to the President and to the agencies priorities among programs designed for the control of pollution and for enhancement of the environment.

(c) Determine the need for new policies and programs for dealing with environmental problems not being adequately addressed.

(d) Conduct, as it determines to be appropriate, public hearings or conferences on issues of environmental significance.

(e) Promote the development and use of indices and monitoring systems (1) to assess environmental conditions and trends, (2) to predict the environmental impact of proposed public and private actions, and (3) to determine the effectiveness of programs for protecting and enhancing environmental quality.

(f) Coordinate Federal programs related to environmental quality.

(g) Advise and assist the President and the agencies in achieving international cooperation for dealing with environmental problems, under the foreign policy guidance of the Secretary of State.

(h) Issue regulations to Federal agencies for the implementation of the procedural provisions of the Act (42 U.S.C. 4332(2)). Such regulations shall be developed after consultation with affected agencies and after such public hearings as may be appropriate. They will be designed to make the environmental impact statement process more useful to decisionmakers and the public; and to reduce paperwork and the accumulation of extraneous background data, in order to emphasize the need to focus on real environmental issues and alternatives. They will require impact statements to be concise, clear, and to the point, and supported by evidence that agencies have made the necessary environmental analyses. The Council shall include in its regulations procedures (1) for the early preparation of environmental impact statements, and (2) for the referral to the Council of conflicts between agencies concerning the implementation of the National Environmental Policy Act of 1969, as amended [this chapter], and Section 309 of the Clean Air Act, as amended [42 U.S.C. 7609], for the Council's recommendation as to their prompt resolution.

(i) Issue such other instructions to agencies, and request such reports and other information from them, as may be required to carry out the Council's responsibilities under the Act.

(j) Assist the President in preparing the annual Environmental Quality Report provided for in section 201 of the Act [42 U.S.C. 4341].

(k) Foster investigations, studies, surveys, research, and analyses relating to (i) ecological systems and environmental quality, (ii) the impact of new and changing technologies thereon, and (iii) means of preventing or reducing adverse effects from such technologies.

SEC. 4. Amendments of E.O. 11472. Executive Order No. 11472 of May 29, 1969, including the heading thereof, is hereby amended:

(1) By substituting for the term “the Environmental Quality Council”, wherever it occurs, the following: “the Cabinet Committee on the Environment”.

(7) By substituting for “(hereinafter referred to as the ‘Committee’)”, in section 201, the following: “(hereinafter referred to as the ‘Citizens’ Committee’)”.

(8) By substituting for the term “the Committee”, wherever it occurs, the following: “the Citizens’ Committee”.

EXECUTIVE ORDER NO. 11643

Ex. Ord. No. 11643, eff. Feb. 8, 1972, 37 F.R. 2875, as amended by Ex. Ord. No. 11870, eff. July 18, 1975, 40 F.R. 30611; Ex. Ord. No. 11917, eff. May 28, 1976, 41 F.R. 22239, which related to environmental safeguards on activities for animal damage control on Federal lands, was revoked by Ex. Ord. No. 12342, Jan. 27, 1982, 47 F.R. 4223.

EX. ORD. NO. 11644. USE OF OFF-ROAD VEHICLES ON PUBLIC LANDS

Ex. Ord. No. 11644, Feb. 8, 1972, 37 F.R. 2877, as amended by Ex. Ord. No. 11989, May 24, 1977, 42 F.R. 26959; Ex. Ord. No. 12608, Sept. 9, 1987, 52 F.R. 34617, provided:

An estimated 5 million off-road recreational vehicles—motorcycles, minibikes, trail bikes, snowmobiles, dunebuggies, all-terrain vehicles, and others—are in use in the United States today, and their popularity continues to increase rapidly. The widespread use of such vehicles on the public lands—often for legitimate purposes but also in frequent conflict with wise land and resource management practices, environmental values, and other types of recreational activity—has demonstrated the need for a unified Federal policy toward the use of such vehicles on the public lands.

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States by the Constitution of the United States and in furtherance of the purpose and policy of the National Environmental Policy Act of 1969 (42 U.S.C. 4321), it is hereby ordered as follows:

SECTION 1. *Purpose.* It is the purpose of this order to establish policies and provide for procedures that will ensure that the use of off-road vehicles on public lands will be controlled and directed so as to protect the resources of those lands, to promote the safety of all users of those lands, and to minimize conflicts among the various uses of those lands.

SEC. 2. *Definitions.* As used in this order, the term:

(1) “public lands” means (A) all lands under the custody and control of the Secretary of the Interior and the Secretary of Agriculture, except Indian lands, (B) lands under the custody and control of the Tennessee Valley Authority that are situated in western Kentucky and Tennessee and are designated as “Land Between the Lakes,” and (C) lands under the custody and control of the Secretary of Defense;

(2) “respective agency head” means the Secretary of the Interior, the Secretary of Defense, the Secretary of Agriculture, and the Board of Directors of the Tennessee Valley Authority, with respect to public lands under the custody and control of each;

(3) “off-road vehicle” means any motorized vehicle designed for or capable of cross-country travel on or immediately over land, water, sand, snow, ice, marsh, swampland, or other natural terrain; except that such term excludes (A) any registered motorboat, (B) any

fire, military, emergency or law enforcement vehicle when used for emergency purposes, and any combat or combat support vehicle when used for national defense purposes, and (C) any vehicle whose use is expressly authorized by the respective agency head under a permit, lease, license, or contract; and

(4) "official use" means use by an employee, agent, or designated representative of the Federal Government or one of its contractors in the course of his employment, agency, or representation.

SEC. 3. *Zones of Use.* (a) Each respective agency head shall develop and issue regulations and administrative instructions, within six months of the date of this order, to provide for administrative designation of the specific areas and trails on public lands on which the use of off-road vehicles may be permitted, and areas in which the use of off-road vehicles may not be permitted, and set a date by which such designation of all public lands shall be completed. Those regulations shall direct that the designation of such areas and trails will be based upon the protection of the resources of the public lands, promotion of the safety of all users of those lands, and minimization of conflicts among the various uses of those lands. The regulations shall further require that the designation of such areas and trails shall be in accordance with the following—

(1) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, or other resources of the public lands.

(2) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats.

(3) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.

(4) Areas and trails shall not be located in officially designated Wilderness Areas or Primitive Areas. Areas and trails shall be located in areas of the National Park system, National Areas, or National Wildlife Refuges and Game Ranges only if the respective agency head determines that off-road vehicle use in such locations will not adversely affect their natural, aesthetic, or scenic values.

(b) The respective agency head shall ensure adequate opportunity for public participation in the promulgation of such regulations and in the designation of areas and trails under this section.

(c) The limitations on off-road vehicle use imposed under this section shall not apply to official use.

SEC. 4. *Operating Conditions.* Each respective agency head shall develop and publish, within one year of the date of this order, regulations prescribing operating conditions for off-road vehicles on the public lands. These regulations shall be directed at protecting resource values, preserving public health, safety, and welfare, and minimizing use conflicts.

SEC. 5. *Public Information.* The respective agency head shall ensure that areas and trails where off-road vehicle use is permitted are well marked and shall provide for the publication and distribution of information, including maps, describing such areas and trails and explaining the conditions on vehicle use. He shall seek cooperation of relevant State agencies in the dissemination of this information.

SEC. 6. *Enforcement.* The respective agency head shall, where authorized by law, prescribe appropriate penalties for violation of regulations adopted pursuant to this order, and shall establish procedures for the enforcement of those regulations. To the extent permitted by law, he may enter into agreements with State or local governmental agencies for cooperative enforcement of laws and regulations relating to off-road vehicle use.

SEC. 7. *Consultation.* Before issuing the regulations or administrative instructions required by this order or designating areas or trails are required by this order and those regulations and administrative instructions,

the Secretary of the Interior shall, as appropriate, consult with the Secretary of Energy and the Nuclear Regulatory Commission.

SEC. 8. *Monitoring of Effects and Review.* (a) The respective agency head shall monitor the effects of the use of off-road vehicles on lands under their jurisdictions. On the basis of the information gathered, they shall from time to time amend or rescind designation of areas or other actions taken pursuant to this order as necessary to further the policy of this order.

(b) The Council on Environmental Quality shall maintain a continuing review of the implementation of this order.

SEC. 9. *Special Protection of the Public Lands.* (a) Notwithstanding the provisions of Section 3 of this Order, the respective agency head shall, whenever he determines that the use of off-road vehicles will cause or is causing considerable adverse effects on the soil, vegetation, wildlife, wildlife habitat or cultural or historic resources of particular areas or trails of the public lands, immediately close such areas or trails to the type of off-road vehicle causing such effects, until such time as he determines that such adverse effects have been eliminated and that measures have been implemented to prevent future recurrence.

(b) Each respective agency head is authorized to adopt the policy that portions of the public lands within his jurisdiction shall be closed to use by off-road vehicles except those areas or trails which are suitable and specifically designated as open to such use pursuant to Section 3 of this Order.

EXECUTIVE ORDER NO. 11987

Ex. Ord. No. 11987, May 24, 1977, 42 F.R. 26949, which directed executive agencies, and encouraged States, local governments, and private citizens, to restrict the introduction of exotic species into the natural ecosystems on lands and waters under their control, and which directed executive agencies to restrict the exportation of native species for introduction of such species into ecosystems outside the United States where they do not naturally occur, unless such introduction or exportation was found not to have an adverse effect on natural ecosystems, was revoked by Ex. Ord. No. 13112, §6(b), Feb. 3, 1999, 64 F.R. 6186, set out below.

EX. ORD. NO. 11988. FLOODPLAIN MANAGEMENT

Ex. Ord. No. 11988, May 24, 1977, 42 F.R. 26951, as amended by Ex. Ord. No. 12148, July 20, 1979, 44 F.R. 43239; Ex. Ord. No. 13690, §2, Jan. 30, 2015, 80 F.R. 6425, provided:

By virtue of the authority vested in me by the Constitution and statutes of the United States of America, and as President of the United States of America, in furtherance of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 et seq.), the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4001 et seq.), and the Flood Disaster Protection Act of 1973 (Public Law 93-234, 87 Stat. 975) [see Short Title of 1973 Amendment note set out under 42 U.S.C. 4001], in order to avoid to the extent possible the long and short term adverse impacts associated with the occupancy and modification of floodplains and to avoid direct or indirect support of floodplain development wherever there is a practicable alternative, it is hereby ordered as follows:

SECTION 1. Each agency shall provide leadership and shall take action to reduce the risk of flood loss, to minimize the impact of floods on human safety, health and welfare, and to restore and preserve the natural and beneficial values served by floodplains in carrying out its responsibilities for (1) acquiring, managing, and disposing of Federal lands and facilities; (2) providing Federally undertaken, financed, or assisted construction and improvements; and (3) conducting Federal activities and programs affecting land use, including but not limited to water and related land resources planning, regulating, and licensing activities.

SEC. 2. In carrying out the activities described in Section 1 of this Order, each agency has a responsibility to

evaluate the potential effects of any actions it may take in a floodplain; to ensure that its planning programs and budget requests reflect consideration of flood hazards and floodplain management; and to prescribe procedures to implement the policies and requirements of this Order, as follows, to the extent permitted by law:

(a)(1) Before taking an action, each agency shall determine whether the proposed action will occur in a floodplain—for major Federal actions significantly affecting the quality of the human environment, the evaluation required below will be included in any statement prepared under Section 102(2)(C) of the National Environmental Policy Act [42 U.S.C. 4332(2)(C)]. To determine whether the action is located in a floodplain, the agency shall use one of the approaches in Section 6(c) of this Order based on the best-available information and the Federal Emergency Management Agency's effective Flood Insurance Rate Map.

(2) If an agency has determined to, or proposes to, conduct, support, or allow an action to be located in a floodplain, the agency shall consider alternatives to avoid adverse effects and incompatible development in the floodplains. Where possible, an agency shall use natural systems, ecosystem processes, and nature-based approaches when developing alternatives for consideration. If the head of the agency finds that the only practicable alternative consistent with the law and with the policy set forth in this Order requires siting in a floodplain, the agency shall, prior to taking action, (i) design or modify its action in order to minimize potential harm to or within the floodplain, consistent with regulations issued in accord with Section 2(d) of this Order, and (ii) prepare and circulate a notice containing an explanation of why the action is proposed to be located in the floodplain.

(3) For programs subject to the Office of Management and Budget Circular A-95, the agency shall send the notice, not to exceed three pages in length including a location map, to the state and areawide A-95 clearinghouses for the geographic areas affected. The notice shall include: (i) the reasons why the action is proposed to be located in a floodplain; (ii) a statement indicating whether the action conforms to applicable state or local floodplain protection standards and (iii) a list of the alternatives considered. Agencies shall endeavor to allow a brief comment period prior to taking any action.

(4) Each agency shall also provide opportunity for early public review of any plans or proposals for actions in floodplains, in accordance with Section 2(b) of Executive Order No. 11514, as amended [set out above], including the development of procedures to accomplish this objective for Federal actions whose impact is not significant enough to require the preparation of an environmental impact statement under Section 102(2)(C) of the National Environmental Policy Act of 1969, as amended [42 U.S.C. 4332(2)(C)].

(b) Any requests for new authorizations or appropriations transmitted to the Office of Management and Budget shall indicate, if an action to be proposed will be located in a floodplain, whether the proposed action is in accord with this Order.

(c) Each agency shall take floodplain management into account when formulating or evaluating any water and land use plans and shall require land and water resources use appropriate to the degree of hazard involved. Agencies shall include adequate provision for the evaluation and consideration of flood hazards in the regulations and operating procedures for the licenses, permits, loan or grants-in-aid programs that they administer. Agencies shall also encourage and provide appropriate guidance to applicants to evaluate the effects of their proposals in floodplains prior to submitting applications for Federal licenses, permits, loans or grants.

(d) As allowed by law, each agency shall issue or amend existing regulations and procedures within one year to comply with this Order. These procedures shall incorporate the Unified National Program for Flood-

plain Management of the Water Resources Council, and shall explain the means that the agency will employ to pursue the nonhazardous use of riverine, coastal and other floodplains in connection with the activities under its authority. To the extent possible, existing processes, such as those of the Council on Environmental Quality and the Water Resources Council, shall be utilized to fulfill the requirements of this Order. Agencies shall prepare their procedures in consultation with the Water Resources Council, the Administrator of the Federal Emergency Management Agency, and the Council on Environmental Quality, and shall update such procedures as necessary.

SEC. 3. In addition to the requirements of Section 2, agencies with responsibilities for Federal real property and facilities shall take the following measures:

(a) The regulations and procedures established under Section 2(d) of this Order shall, at a minimum, require the construction of Federal structures and facilities to be in accordance with the standards and criteria and to be consistent with the intent of those promulgated under the National Flood Insurance Program. The regulations and procedures must also be consistent with the Federal Flood Risk Management Standard (FFRMS). They shall deviate only to the extent that the standards of the Flood Insurance Program and FFRMS are demonstrably inappropriate for a given type of structure or facility.

(b) If, after compliance with the requirements of this Order, new construction of structures or facilities are to be located in a floodplain, accepted floodproofing and other flood protection measures shall be applied to new construction or rehabilitation. To achieve flood protection, agencies shall, wherever practicable, elevate structures above the elevation of the floodplain as defined in Section 6(c) of this Order rather than filling in land.

(c) If property used by the general public has suffered flood damage or is located in an identified flood hazard area, the responsible agency shall provide on structures, and other places where appropriate, conspicuous delineation of past and probable flood height in order to enhance public awareness of and knowledge about flood hazards.

(d) When property in floodplains is proposed for lease, easement, right-of-way, or disposal to non-Federal public or private parties, the Federal agency shall (1) reference in the conveyance those uses that are restricted under identified Federal, State or local floodplain regulations; and (2) attach other appropriate restrictions to the uses of properties by the grantee or purchaser and any successors, except where prohibited by law; or (3) withhold such properties from conveyance.

SEC. 4. In addition to any responsibilities under this Order and Sections 102, 202, and 205 of the Flood Disaster Protection Act of 1973, as amended (42 U.S.C. 4012a, 4106, and 4128), agencies which guarantee, approve, regulate, or insure any financial transaction which is related to an area located in an area subject to the base flood shall, prior to completing action on such transaction, inform any private parties participating in the transaction of the hazards of locating structures in the area subject to the base flood.

SEC. 5. The head of each agency shall submit a report to the Council on Environmental Quality and to the Water Resources Council on June 30, 1978, regarding the status of their procedures and the impact of this Order on the agency's operations. Thereafter, the Water Resources Council shall periodically evaluate agency procedures and their effectiveness.

SEC. 6. As used in this Order:

(a) The term "agency" shall have the same meaning as the term "Executive agency" in Section 105 of Title 5 of the United States Code and shall include the military departments; the directives contained in this Order, however, are meant to apply only to those agencies which perform the activities described in Section 1 which are located in or affecting floodplains.

(b) The term "base flood" shall mean that flood which has a one percent or greater chance of occurrence in any given year.

(c) The term “floodplain” shall mean the lowland and relatively flat areas adjoining inland and coastal waters including floodprone areas of offshore islands. The floodplain shall be established using one of the following approaches:

(1) Unless an exception is made under paragraph (2), the floodplain shall be:

(i) the elevation and flood hazard area that result from using a climate-informed science approach that uses the best-available, actionable hydrologic and hydraulic data and methods that integrate current and future changes in flooding based on climate science. This approach will also include an emphasis on whether the action is a critical action as one of the factors to be considered when conducting the analysis;

(ii) the elevation and flood hazard area that result from using the freeboard value, reached by adding an additional 2 feet to the base flood elevation for non-critical actions and by adding an additional 3 feet to the base flood elevation for critical actions;

(iii) the area subject to flooding by the 0.2 percent annual chance flood; or

(iv) the elevation and flood hazard area that result from using any other method identified in an update to the FFRMS.

(2) The head of an agency may except an agency action from paragraph (1) where it is in the interest of national security, where the agency action is an emergency action, where application to a Federal facility or structure is demonstrably inappropriate, or where the agency action is a mission-critical requirement related to a national security interest or an emergency action. When an agency action is excepted from paragraph (1) because it is in the interest of national security, it is an emergency action, or it is a mission-critical requirement related to a national security interest or an emergency action, the agency head shall rely on the area of land subject to the base flood.

(d) The term “critical action” shall mean any activity for which even a slight chance of flooding would be too great.

SEC. 7. Executive Order No. 11296 of August 10, 1966, is hereby revoked. All actions, procedures, and issuances taken under that Order and still in effect shall remain in effect until modified by appropriate authority under the terms of this Order.

SEC. 8. Nothing in this Order shall apply to assistance provided for emergency work essential to save lives and protect property and public health and safety, performed pursuant to Sections 403 and 502 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act of 1988 (42 U.S.C. 5170b and 5192).

SEC. 9. To the extent the provisions of Section 2(a) of this Order are applicable to projects covered by Section 104(h) of the Housing and Community Development Act of 1974, as amended (88 Stat. 640, 42 U.S.C. 5304(h)), the responsibilities under those provisions may be assumed by the appropriate applicant, if the applicant has also assumed, with respect to such projects, all of the responsibilities for environmental review, decision-making, and action pursuant to the National Environmental Policy Act of 1969, as amended [42 U.S.C. 4321].

EX. ORD. NO. 11990. PROTECTION OF WETLANDS

Ex. Ord. No. 11990, May 24, 1977, 42 F.R. 26961, as amended by Ex. Ord. No. 12608, Sept. 9, 1987, 52 F.R. 34617, provided:

By virtue of the authority vested in me by the Constitution and statutes of the United States of America, and as President of the United States of America, in furtherance of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*), in order to avoid to the extent possible the long and short term adverse impacts associated with the destruction or modification of wetlands and to avoid direct or indirect support of new construction in wetlands wherever there is a practicable alternative, it is hereby ordered as follows:

SECTION 1. (a) Each agency shall provide leadership and shall take action to minimize the destruction, loss

or degradation of wetlands, and to preserve and enhance the natural and beneficial values of wetlands in carrying out the agency’s responsibilities for (1) acquiring, managing, and disposing of Federal lands and facilities; and (2) providing Federally undertaken, financed, or assisted construction and improvements; and (3) conducting Federal activities and programs affecting land use, including but not limited to water and related land resources planning, regulating, and licensing activities.

(b) This Order does not apply to the issuance by Federal agencies of permits, licenses, or allocations to private parties for activities involving wetlands on non-Federal property.

SEC. 2. (a) In furtherance of Section 101(b)(3) of the National Environmental Policy Act of 1969 (42 U.S.C. 4331(b)(3)) to improve and coordinate Federal plans, functions, programs and resources to the end that the Nation may attain the widest range of beneficial uses of the environment without degradation and risk to health or safety, each agency, to the extent permitted by law, shall avoid undertaking or providing assistance for new construction located in wetlands unless the head of the agency finds (1) that there is no practicable alternative to such construction, and (2) that the proposed action includes all practicable measures to minimize harm to wetlands which may result from such use. In making this finding the head of the agency may take into account economic, environmental and other pertinent factors.

(b) Each agency shall also provide opportunity for early public review of any plans or proposals for new construction in wetlands, in accordance with Section 2(b) of Executive Order No. 11514, as amended [set out above], including the development of procedures to accomplish this objective for Federal actions whose impact is not significant enough to require the preparation of an environmental impact statement under Section 102(2)(C) of the National Environmental Policy Act of 1969, as amended [42 U.S.C. 4332(2)(C)].

SEC. 3. Any requests for new authorizations or appropriations transmitted to the Office of Management and Budget shall indicate, if an action to be proposed will be located in wetlands, whether the proposed action is in accord with this Order.

SEC. 4. When Federally-owned wetlands or portions of wetlands are proposed for lease, easement, right-of-way or disposal to non-Federal public or private parties, the Federal agency shall (a) reference in the conveyance those uses that are restricted under identified Federal, State or local wetlands regulations; and (b) attach other appropriate restrictions to the uses of properties by the grantee or purchaser and any successor, except where prohibited by law; or (c) withhold such properties from disposal.

SEC. 5. In carrying out the activities described in Section 1 of this Order, each agency shall consider factors relevant to a proposal’s effect on the survival and quality of the wetlands. Among these factors are:

(a) public health, safety, and welfare, including water supply, quality, recharge and discharge; pollution; flood and storm hazards; and sediment and erosion;

(b) maintenance of natural systems, including conservation and long term productivity of existing flora and fauna, species and habitat diversity and stability, hydrologic utility, fish, wildlife, timber, and food and fiber resources; and

(c) other uses of wetlands in the public interest, including recreational, scientific, and cultural uses.

SEC. 6. As allowed by law, agencies shall issue or amend their existing procedures in order to comply with this Order. To the extent possible, existing processes, such as those of the Council on Environmental Quality, shall be utilized to fulfill the requirements of this Order.

SEC. 7. As used in this Order:

(a) The term “agency” shall have the same meaning as the term “Executive agency” in Section 105 of Title 5 of the United States Code and shall include the military departments; the directives contained in this

Order, however, are meant to apply only to those agencies which perform the activities described in Section 1 which are located in or affecting wetlands.

(b) The term "new construction" shall include draining, dredging, channelizing, filling, diking, impounding, and related activities and any structures or facilities begun or authorized after the effective date of this Order.

(c) The term "wetlands" means those areas that are inundated by surface or ground water with a frequency sufficient to support and under normal circumstances does or would support a prevalence of vegetative or aquatic life that requires saturated or seasonally saturated soil conditions for growth and reproduction. Wetlands generally include swamps, marshes, bogs, and similar areas such as sloughs, potholes, wet meadows, river overflows, mud flats, and natural ponds.

SEC. 8. This Order does not apply to projects presently under construction, or to projects for which all of the funds have been appropriated through Fiscal Year 1977, or to projects and programs for which a draft or final environmental impact statement will be filed prior to October 1, 1977. The provisions of Section 2 of this Order shall be implemented by each agency not later than October 1, 1977.

SEC. 9. Nothing in this Order shall apply to assistance provided for emergency work, essential to save lives and protect property and public health and safety, performed pursuant to Sections 305 and 306 of the Disaster Relief Act of 1974 (88 Stat. 148, 42 U.S.C. 5145 and 5146).

SEC. 10. To the extent the provisions of Sections 2 and 5 of this Order are applicable to projects covered by Section 104(h) of the Housing and Community Development Act of 1974, as amended (88 Stat. 640, 42 U.S.C. 5304(h)), the responsibilities under those provisions may be assumed by the appropriate applicant, if the applicant has also assumed, with respect to such projects, all of the responsibilities for environmental review, decisionmaking, and action pursuant to the National Environmental Policy Act of 1969, as amended [42 U.S.C. 4321 et seq.].

1-6. COMPLIANCE WITH POLLUTION CONTROLS

1-601. Whenever the Administrator or the appropriate State, interstate, or local agency notifies an Executive agency that it is in violation of an applicable pollution control standard (see Section 1-102 of this Order), the Executive agency shall promptly consult with the notifying agency and provide for its approval a plan to achieve and maintain compliance with the applicable pollution control standard. EX. ORD. NO. 12114. ENVIRONMENTAL EFFECTS ABROAD OF MAJOR FEDERAL ACTIONS

Ex. Ord. No. 12114, Jan. 4, 1979, 44 F.R. 1957, provided: By virtue of the authority vested in me by the Constitution and the laws of the United States, and as President of the United States, in order to further environmental objectives consistent with the foreign policy and national security policy of the United States, it is ordered as follows:

SECTION 1

1-1. *Purpose and Scope.* The purpose of this Executive Order is to enable responsible officials of Federal agencies having ultimate responsibility for authorizing and approving actions encompassed by this Order to be informed of pertinent environmental considerations and to take such considerations into account, with other pertinent considerations of national policy, in making decisions regarding such actions. While based on independent authority, this Order furthers the purpose of the National Environmental Policy Act [42 U.S.C. 4321 et seq.] and the Marine Protection Research and Sanctuaries Act [16 U.S.C. 1431 et seq. and 33 U.S.C. 1401 et seq.] and the Deepwater Port Act [33 U.S.C. 1501 et seq.] consistent with the foreign policy and national security policy of the United States, and represents the United States government's exclusive and complete determination of the procedural and other actions to be taken by Federal agencies to further the purpose of the National Environmental Policy Act, with respect to

the environment outside the United States, its territories and possessions.

SECTION 2

2-1. *Agency Procedures.* Every Federal agency taking major Federal actions encompassed hereby and not exempted herefrom having significant effects on the environment outside the geographical borders of the United States and its territories and possessions shall within eight months after the effective date of this Order have in effect procedures to implement this Order. Agencies shall consult with the Department of State and the Council on Environmental Quality concerning such procedures prior to placing them in effect.

2-2. *Information Exchange.* To assist in effectuating the foregoing purpose, the Department of State and the Council on Environmental Quality in collaboration with other interested Federal agencies and other nations shall conduct a program for exchange on a continuing basis of information concerning the environment. The objectives of this program shall be to provide information for use by decisionmakers, to heighten awareness of and interest in environmental concerns and, as appropriate, to facilitate environmental cooperation with foreign nations.

2-3. *Actions Included.* Agencies in their procedures under Section 2-1 shall establish procedures by which their officers having ultimate responsibility for authorizing and approving actions in one of the following categories encompassed by this Order, take into consideration in making decisions concerning such actions, a document described in Section 2-4(a):

(a) major Federal actions significantly affecting the environment of the global commons outside the jurisdiction of any nation (e.g., the oceans or Antarctica);

(b) major Federal actions significantly affecting the environment of a foreign nation not participating with the United States and not otherwise involved in the action;

(c) major Federal actions significantly affecting the environment of a foreign nation which provide to that nation:

(1) a product, or physical project producing a principal product or an emission or effluent, which is prohibited or strictly regulated by Federal law in the United States because its toxic effects on the environment create a serious public health risk; or

(2) a physical project which in the United States is prohibited or strictly regulated by Federal law to protect the environment against radioactive substances.

(d) major Federal actions outside the United States, its territories and possessions which significantly affect natural or ecological resources of global importance designated for protection under this subsection by the President, or, in the case of such a resource protected by international agreement binding on the United States, by the Secretary of State. Recommendations to the President under this subsection shall be accompanied by the views of the Council on Environmental Quality and the Secretary of State.

2-4. *Applicable Procedures.* (a) There are the following types of documents to be used in connection with actions described in Section 2-3:

(i) environmental impact statements (including generic, program and specific statements);

(ii) bilateral or multilateral environmental studies, relevant or related to the proposed action, by the United States and one [or more] more foreign nations, or by an international body or organization in which the United States is a member or participant; or

(iii) concise reviews of the environmental issues involved, including environmental assessments, summary environmental analyses or other appropriate documents.

(b) Agencies shall in their procedures provide for preparation of documents described in Section 2-4(a), with respect to actions described in Section 2-3, as follows:

(1) for effects described in Section 2-3(a), an environmental impact statement described in Section 2-4(a)(i);

(ii) for effects described in Section 2-3(b), a document described in Section 2-4(a)(ii) or (iii), as determined by the agency;

(iii) for effects described in Section 2-3(c), a document described in Section 2-4(a)(ii) or (iii), as determined by the agency;

(iv) for effects described in Section 2-3(d), a document described in Section 2-4(a)(i), (ii) or (iii), as determined by the agency.

Such procedures may provide that an agency need not prepare a new document when a document described in Section 2-4(a) already exists.

(c) Nothing in this Order shall serve to invalidate any existing regulations of any agency which have been adopted pursuant to court order or pursuant to judicial settlement of any case or to prevent any agency from providing in its procedures for measures in addition to those provided for herein to further the purpose of the National Environmental Policy Act [43 U.S.C. 4321 et seq.] and other environmental laws, including the Marine Protection Research and Sanctuaries Act [16 U.S.C. 1431 et seq. and 33 U.S.C. 1401 et seq.], and the Deepwater Port Act [33 U.S.C. 1501 et seq.], consistent with the foreign and national security policies of the United States.

(d) Except as provided in Section 2-5(b), agencies taking action encompassed by this Order shall, as soon as feasible, inform other Federal agencies with relevant expertise of the availability of environmental documents prepared under this Order.

Agencies in their procedures under Section 2-1 shall make appropriate provision for determining when an affected nation shall be informed in accordance with Section 3-2 of this Order of the availability of environmental documents prepared pursuant to those procedures.

In order to avoid duplication of resources, agencies in their procedures shall provide for appropriate utilization of the resources of other Federal agencies with relevant environmental jurisdiction or expertise.

2-5. *Exemptions and Considerations.* (a) Notwithstanding Section 2-3, the following actions are exempt from this Order:

(i) actions not having a significant effect on the environment outside the United States as determined by the agency;

(ii) actions taken by the President;

(iii) actions taken by or pursuant to the direction of the President or Cabinet officer when the national security or interest is involved or when the action occurs in the course of an armed conflict;

(iv) intelligence activities and arms transfers;

(v) export licenses or permits or export approvals, and actions relating to nuclear activities except actions providing to a foreign nation a nuclear production or utilization facility as defined in the Atomic Energy Act of 1954 [42 U.S.C. 2011 et seq.], as amended, or a nuclear waste management facility;

(vi) votes and other actions in international conferences and organizations;

(vii) disaster and emergency relief action.

(b) Agency procedures under Section 2-1 implementing Section 2-4 may provide for appropriate modifications in the contents, timing and availability of documents to other affected Federal agencies and affected nations, where necessary to:

(i) enable the agency to decide and act promptly as and when required;

(ii) avoid adverse impacts on foreign relations or infringement in fact or appearance of other nations' sovereign responsibilities, or

(iii) ensure appropriate reflection of:

(1) diplomatic factors;

(2) international commercial, competitive and export promotion factors;

(3) needs for governmental or commercial confidentiality;

(4) national security considerations;

(5) difficulties of obtaining information and agency ability to analyze meaningfully environmental effects of a proposed action; and

(6) the degree to which the agency is involved in or able to affect a decision to be made.

(c) Agency procedure under Section 2-1 may provide for categorical exclusions and for such exemptions in addition to those specified in subsection (a) of this Section as may be necessary to meet emergency circumstances, situations involving exceptional foreign policy and national security sensitivities and other such special circumstances. In utilizing such additional exemptions agencies shall, as soon as feasible, consult with the Department of State and the Council on Environmental Quality.

(d) The provisions of Section 2-5 do not apply to actions described in Section 2-3(a) unless permitted by law.

SECTION 3

3-1. *Rights of Action.* This Order is solely for the purpose of establishing internal procedures for Federal agencies to consider the significant effects of their actions on the environment outside the United States, its territories and possessions, and nothing in this Order shall be construed to create a cause of action.

3-2. *Foreign Relations.* The Department of State shall coordinate all communications by agencies with foreign governments concerning environmental agreements and other arrangements in implementation of this Order.

3-3. *Multi-Agency Actions.* Where more than one Federal agency is involved in an action or program, a lead agency, as determined by the agencies involved, shall have responsibility for implementation of this Order.

3-4. *Certain Terms.* For purposes of this Order, "environment" means the natural and physical environment and excludes social, economic and other environments; and an action significantly affects the environment if it does significant harm to the environment even though on balance the agency believes the action to be beneficial to the environment. The term "export approvals" in Section 2-5(a)(v) does not mean or include direct loans to finance exports.

3-5. *Multiple Impacts.* If a major Federal action having effects on the environment of the United States or the global commons requires preparation of an environmental impact statement, and if the action also has effects on the environment of a foreign nation, an environmental impact statement need not be prepared with respect to the effects on the environment of the foreign nation.

(d) *Mission and Work.* The Interagency Council shall develop a strategy to address current and historic environmental injustice by consulting with the White House Environmental Justice Advisory Council and with local environmental justice leaders. The Interagency Council shall also develop clear performance metrics to ensure accountability, and publish an annual public performance scorecard on its implementation.

(e) *Administration.* The Office of Administration within the Executive Office of the President shall provide funding and administrative support for the Interagency Council, to the extent permitted by law and within existing appropriations. 1-103. *Development of Agency Strategies.* (a) Except as provided in section 6-605 of this order, each Federal agency shall develop an agency-wide environmental justice strategy, as set forth in subsections (b)-(e) of this section that identifies and addresses disproportionately high and adverse human health or environmental effects of its programs, policies, and activities on minority populations and low-income populations. The environmental justice strategy shall list programs, policies, planning and public participation processes, enforcement, and/or rulemakings related to human health or the environment that should be revised to, at a minimum: (1) promote enforcement of all health and environmental statutes in areas with minority populations and low-income populations; (2) ensure greater public participation; (3) improve research and data collection relating to the health of and environment of minority populations and low-income populations; and (4) identify differential patterns of consumption of natural resources among minority populations and low-income populations. In addition, the environmental justice strategy shall include, where appropriate, a timetable for undertaking identified revisions and consideration of economic and social implications of the revisions.

(b) Within 4 months of the date of this order, each Federal agency shall identify an internal administrative process for developing its environmental justice strategy, and shall inform the Working Group of the process.

(c) Within 6 months of the date of this order, each Federal agency shall provide the Working Group with an outline of its proposed environmental justice strategy.

(d) Within 10 months of the date of this order, each Federal agency shall provide the Working Group with its proposed environmental justice strategy.

(e) By March 24, 1995, each Federal agency shall finalize its environmental justice strategy and provide a copy and written description of its strategy to the Working Group. From the date of this order through March 24, 1995, each Federal agency, as part of its environmental justice strategy, shall identify several specific projects that can be promptly undertaken to address particular concerns identified during the development of the proposed environmental justice strategy, and a schedule for implementing those projects.

(f) Within 24 months of the date of this order, each Federal agency shall report to the Working Group on its progress in implementing its agency-wide environmental justice strategy.

(g) Federal agencies shall provide additional periodic reports to the Working Group as requested by the Working Group.

1-104. *Reports to the President.* Within 14 months of the date of this order, the Working Group shall submit to the President, through the Office of the Deputy Assistant to the President for Environmental Policy and the Office of the Assistant to the President for Domestic Policy, a report that describes the implementation of this order, and includes the final environmental justice strategies described in section 1-103(e) of this order.

SEC. 2-2. FEDERAL AGENCY RESPONSIBILITIES FOR FEDERAL PROGRAMS. Each Federal agency shall conduct its programs, policies, and activities that substantially affect human health or the environment, in a manner that ensures that such programs, policies, and activities do not have the effect of excluding persons (including populations) from participation in, denying persons (including populations) the benefits of, or subjecting persons (including populations) to discrimination under, such programs, policies, and activities, because of their race, color, or national origin.

SEC. 3-3. RESEARCH, DATA COLLECTION, AND ANALYSIS.

3-301. *Human Health and Environmental Research and Analysis.* (a) Environmental human health research,

whenever practicable and appropriate, shall include diverse segments of the population in epidemiological and clinical studies, including segments at high risk from environmental hazards, such as minority populations, low-income populations and workers who may be exposed to substantial environmental hazards.

(b) Environmental human health analyses, whenever practicable and appropriate, shall identify multiple and cumulative exposures.

(c) Federal agencies shall provide minority populations and low-income populations the opportunity to comment on the development and design of research strategies undertaken pursuant to this order.

3-302. *Human Health and Environmental Data Collection and Analysis.* To the extent permitted by existing law, including the Privacy Act, as amended (5 U.S.C. section 552a): (a) each Federal agency, whenever practicable and appropriate, shall collect, maintain, and analyze information assessing and comparing environmental and human health risks borne by populations identified by race, national origin, or income. To the extent practical and appropriate, Federal agencies shall use this information to determine whether their programs, policies, and activities have disproportionately high and adverse human health or environmental effects on minority populations and low-income populations;

(b) In connection with the development and implementation of agency strategies in section 1-103 of this order, each Federal agency, whenever practicable and appropriate, shall collect, maintain and analyze information on the race, national origin, income level, and other readily accessible and appropriate information for areas surrounding facilities or sites expected to have a substantial environmental, human health, or economic effect on the surrounding populations, when such facilities or sites become the subject of a substantial Federal environmental administrative or judicial action. Such information shall be made available to the public, unless prohibited by law; and

(c) Each Federal agency, whenever practicable and appropriate, shall collect, maintain, and analyze information on the race, national origin, income level, and other readily accessible and appropriate information for areas surrounding Federal facilities that are: (1) subject to the reporting requirements under the Emergency Planning and Community Right-to-Know Act, 42 U.S.C. section 11001-11050 as mandated in Executive Order No. 12856 [former 42 U.S.C. 11001 note]; and (2) expected to have a substantial environmental, human health, or economic effect on surrounding populations. Such information shall be made available to the public, unless prohibited by law.

(d) In carrying out the responsibilities in this section, each Federal agency, whenever practicable and appropriate, shall share information and eliminate unnecessary duplication of efforts through the use of existing data systems and cooperative agreements among Federal agencies and with State, local, and tribal governments.

SEC. 4-4. SUBSISTENCE CONSUMPTION OF FISH AND WILDLIFE.

4-401. *Consumption Patterns.* In order to assist in identifying the need for ensuring protection of populations with differential patterns of subsistence consumption of fish and wildlife, Federal agencies, whenever practicable and appropriate, shall collect, maintain, and analyze information on the consumption patterns of populations who principally rely on fish and/or wildlife for subsistence. Federal agencies shall communicate to the public the risks of those consumption patterns.

4-402. *Guidance.* Federal agencies, whenever practicable and appropriate, shall work in a coordinated manner to publish guidance reflecting the latest scientific information available concerning methods for evaluating the human health risks associated with the consumption of pollutant-bearing fish or wildlife. Agencies shall consider such guidance in developing their policies and rules.

SEC. 5-5. PUBLIC PARTICIPATION AND ACCESS TO INFORMATION. (a) The public may submit rec-

ommendations to Federal agencies relating to the incorporation of environmental justice principles into Federal agency programs or policies. Each Federal agency shall convey such recommendations to the Working Group.

(b) Each Federal agency may, whenever practicable and appropriate, translate crucial public documents, notices, and hearings relating to human health or the environment for limited English speaking populations.

(c) Each Federal agency shall work to ensure that public documents, notices, and hearings relating to human health or the environment are concise, understandable, and readily accessible to the public.

(d) The Working Group shall hold public meetings, as appropriate, for the purpose of fact-finding, receiving public comments, and conducting inquiries concerning environmental justice. The Working Group shall prepare for public review a summary of the comments and recommendations discussed at the public meetings.

SEC. 6-6. GENERAL PROVISIONS.

6-601. *Responsibility for Agency Implementation.* The head of each Federal agency shall be responsible for ensuring compliance with this order. Each Federal agency shall conduct internal reviews and take such other steps as may be necessary to monitor compliance with this order.

6-602. *Executive Order No. 12250.* This Executive order is intended to supplement but not supersede Executive Order No. 12250 [42 U.S.C. 2000d-1 note], which requires consistent and effective implementation of various laws prohibiting discriminatory practices in programs receiving Federal financial assistance. Nothing herein shall limit the effect or mandate of Executive Order No. 12250.

6-603. *Executive Order No. 12875.* This Executive order is not intended to limit the effect or mandate of Executive Order No. 12875 [former 5 U.S.C. 601 note].

6-604. *Scope.* For purposes of this order, Federal agency means any agency on the Working Group, and such other agencies as may be designated by the President, that conducts any Federal program or activity that substantially affects human health or the environment. Independent agencies are requested to comply with the provisions of this order.

6-605. *Petitions for Exemptions.* The head of a Federal agency may petition the President for an exemption from the requirements of this order on the grounds that all or some of the petitioning agency's programs or activities should not be subject to the requirements of this order.

6-606. *Native American Programs.* Each Federal agency responsibility set forth under this order shall apply equally to Native American programs. In addition, the Department of the Interior, in coordination with the Working Group, and, after consultation with tribal leaders, shall coordinate steps to be taken pursuant to this order that address Federally-recognized Indian Tribes.

6-607. *Costs.* Unless otherwise provided by law, Federal agencies shall assume the financial costs of complying with this order.

6-608. *General.* Federal agencies shall implement this order consistent with, and to the extent permitted by, existing law.

6-609. *Judicial Review.* This order is intended only to improve the internal management of the executive branch and is not intended to, nor does it create any right, benefit, or trust responsibility, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies, its officers, or any person. This order shall not be construed to create any right to judicial review involving the compliance or noncompliance of the United States, its agencies, its officers, or any other person with this order.

EX. ORD. NO. 13045. PROTECTION OF CHILDREN FROM ENVIRONMENTAL HEALTH RISKS AND SAFETY RISKS

Ex. Ord. No. 13045, Apr. 21, 1997, 62 F.R. 19885, as amended by Ex. Ord. No. 13229, Oct. 9, 2001, 66 F.R. 52013; Ex. Ord. No. 13296, Apr. 18, 2003, 68 F.R. 19931, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. *Policy.*

1-101. A growing body of scientific knowledge demonstrates that children may suffer disproportionately from environmental health risks and safety risks. These risks arise because: children's neurological, immunological, digestive, and other bodily systems are still developing; children eat more food, drink more fluids, and breathe more air in proportion to their body weight than adults; children's size and weight may diminish their protection from standard safety features; and children's behavior patterns may make them more susceptible to accidents because they are less able to protect themselves. Therefore, to the extent permitted by law and appropriate, and consistent with the agency's mission, each Federal agency:

(a) shall make it a high priority to identify and assess environmental health risks and safety risks that may disproportionately affect children; and

(b) shall ensure that its policies, programs, activities, and standards address disproportionate risks to children that result from environmental health risks or safety risks.

1-102. Each independent regulatory agency is encouraged to participate in the implementation of this order and comply with its provisions.

SEC. 2. *Definitions.* The following definitions shall apply to this order.

2-201. "Federal agency" means any authority of the United States that is an agency under 44 U.S.C. 3502(1) other than those considered to be independent regulatory agencies under 44 U.S.C. 3502(5). For purposes of this order, "military departments," as defined in 5 U.S.C. 102, are covered under the auspices of the Department of Defense.

2-202. "Covered regulatory action" means any substantive action in a rulemaking, initiated after the date of this order or for which a Notice of Proposed Rulemaking is published 1 year after the date of this order, that is likely to result in a rule that may:

(a) be "economically significant" under Executive Order 12866 [5 U.S.C. 601 note] (a rulemaking that has an annual effect on the economy of \$100 million or more or would adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities); and

(b) concern an environmental health risk or safety risk that an agency has reason to believe may disproportionately affect children.

2-203. "Environmental health risks and safety risks" mean risks to health or to safety that are attributable to products or substances that the child is likely to come in contact with or ingest (such as the air we breathe, the food we eat, the water we drink or use for recreation, the soil we live on, and the products we use or are exposed to).

SEC. 3. *Task Force on Environmental Health Risks and Safety Risks to Children.*

3-301. There is hereby established the Task Force on Environmental Health Risks and Safety Risks to Children ("Task Force").

3-302. The Task Force will report to the President in consultation with the Domestic Policy Council, the National Science and Technology Council, the Council on Environmental Quality, and the Office of Management and Budget (OMB).

3-303. *Membership.* The Task Force shall be composed of the:

(a) Secretary of Health and Human Services, who shall serve as a Co-Chair of the Council;

(b) Administrator of the Environmental Protection Agency, who shall serve as a Co-Chair of the Council;

(c) Secretary of Education;

(d) Secretary of Labor;

(e) Attorney General;

(f) Secretary of Energy;

- (g) Secretary of Housing and Urban Development;
- (h) Secretary of Agriculture;
- (i) Secretary of Transportation;
- (j) Director of the Office of Management and Budget;
- (k) Chair of the Council on Environmental Quality;
- (l) Chair of the Consumer Product Safety Commission;
- (m) Assistant to the President for Economic Policy;
- (n) Assistant to the President for Domestic Policy;
- (o) Director of the Office of Science and Technology Policy;
- (p) Chair of the Council of Economic Advisers; and
- (q) Such other officials of executive departments and agencies as the President may, from time to time, designate.

Members of the Task Force may delegate their responsibilities under this order to subordinates.

3-304. *Functions.* The Task Force shall recommend to the President Federal strategies for children's environmental health and safety, within the limits of the Administration's budget, to include the following elements:

- (a) statements of principles, general policy, and targeted annual priorities to guide the Federal approach to achieving the goals of this order;
- (b) a coordinated research agenda for the Federal Government, including steps to implement the review of research databases described in section 4 of this order;
- (c) recommendations for appropriate partnerships among Federal, State, local, and tribal governments and the private, academic, and nonprofit sectors;
- (d) proposals to enhance public outreach and communication to assist families in evaluating risks to children and in making informed consumer choices;
- (e) an identification of high-priority initiatives that the Federal Government has undertaken or will undertake in advancing protection of children's environmental health and safety; and
- (f) a statement regarding the desirability of new legislation to fulfill or promote the purposes of this order.

3-305. The Task Force shall prepare a biennial report on research, data, or other information that would enhance our ability to understand, analyze, and respond to environmental health risks and safety risks to children. For purposes of this report, executive departments, the Environmental Protection Agency, and other agencies identified by the Task Force shall identify and specifically describe for the Task Force key data needs related to environmental health risks and safety risks to children that have arisen in the course of the agency's programs and activities. Each report shall also detail the accomplishments of the Task Force from the date of the preceding report. The Task Force shall incorporate agency submissions into its report and ensure that this report is publicly available and widely disseminated. The Office of Science and Technology Policy and the National Science and Technology Council shall ensure that this report is fully considered in establishing research priorities.

3-306. The Task Force shall exist for 8 years from the date of this order.

SEC. 4. *Research Coordination and Integration.*

4-401. Within 6 months of the date of this order, the Task Force shall develop or direct to be developed a review of existing and planned data resources and a proposed plan for ensuring that researchers and Federal research agencies have access to information on all research conducted or funded by the Federal Government that is related to adverse health risks in children resulting from exposure to environmental health risks or safety risks. The National Science and Technology Council shall review the plan.

4-402. The plan shall promote the sharing of information on academic and private research. It shall include recommendations to encourage that such data, to the extent permitted by law, is available to the public, the scientific and academic communities, and all Federal agencies.

SEC. 5. *Agency Environmental Health Risk or Safety Risk Regulations.*

5-501. For each covered regulatory action submitted to OMB's Office of Information and Regulatory Affairs (OIRA) for review pursuant to Executive Order 12866 [5 U.S.C. 601 note], the issuing agency shall provide to OIRA the following information developed as part of the agency's decisionmaking process, unless prohibited by law:

- (a) an evaluation of the environmental health or safety effects of the planned regulation on children; and
- (b) an explanation of why the planned regulation is preferable to other potentially effective and reasonably feasible alternatives considered by the agency.

5-502. In emergency situations, or when an agency is obligated by law to act more quickly than normal review procedures allow, the agency shall comply with the provisions of this section to the extent practicable. For those covered regulatory actions that are governed by a court-imposed or statutory deadline, the agency shall, to the extent practicable, schedule any rulemaking proceedings so as to permit sufficient time for completing the analysis required by this section.

5-503. The analysis required by this section may be included as part of any other required analysis, and shall be made part of the administrative record for the covered regulatory action or otherwise made available to the public, to the extent permitted by law.

SEC. 6. *Interagency Forum on Child and Family Statistics.*

6-601. The Director of the OMB ("Director") shall convene an Interagency Forum on Child and Family Statistics ("Forum"), which will include representatives from the appropriate Federal statistics and research agencies. The Forum shall produce a biennial compendium ("Report") of the most important indicators of the well-being of the Nation's children.

6-602. The Forum shall determine the indicators to be included in each Report and identify the sources of data to be used for each indicator. The Forum shall provide an ongoing review of Federal collection and dissemination of data on children and families, and shall make recommendations to improve the coverage and coordination of data collection and to reduce duplication and overlap.

6-603. The Report shall be published by the Forum in collaboration with the National Institute of Child Health and Human Development [now the Eunice Kennedy Shriver National Institute of Child Health and Human Development]. The Forum shall present the first annual Report to the President, through the Director, by July 31, 1997. The Report shall be published biennially thereafter, using the most recently available data.

SEC. 7. *General Provisions.*

7-701. This order is intended only for internal management of the executive branch. This order is not intended, and should not be construed to create, any right, benefit, or trust responsibility, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies, its officers, or its employees. This order shall not be construed to create any right to judicial review involving the compliance or noncompliance with this order by the United States, its agencies, its officers, or any other person.

7-702. Executive Order 12606 of September 2, 1987 is revoked.

7-703. Nothing in this order shall be construed to impair or otherwise affect the functions of the Director of the Office of Management and Budget relating to budget, administrative, or legislative proposals.

EX. ORD. NO. 13061. FEDERAL SUPPORT OF COMMUNITY EFFORTS ALONG AMERICAN HERITAGE RIVERS

Ex. Ord. No. 13061, Sept. 11, 1997, 62 F.R. 48445, as amended by Ex. Ord. No. 13093, July 27, 1998, 63 F.R. 40357, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the National Environmental Policy Act of 1969 (Public Law 91-190) [42 U.S.C. 4321 et seq.], and in order to protect and restore rivers and their adjacent communities, it is hereby ordered as follows:

SECTION 1. *Policies.*

(a) The American Heritage Rivers initiative has three objectives: natural resource and environmental protection, economic revitalization, and historic and cultural preservation.

(b) Executive agencies ("agencies"), to the extent permitted by law and consistent with their missions and resources, shall coordinate Federal plans, functions, programs, and resources to preserve, protect, and restore rivers and their associated resources important to our history, culture, and natural heritage.

(c) Agencies shall develop plans to bring increased efficiencies to existing and authorized programs with goals that are supportive of protection and restoration of communities along rivers.

(d) In accordance with Executive Order 12630 [5 U.S.C. 601 note], agencies shall act with due regard for the protection of private property provided for by the Fifth Amendment to the United States Constitution. No new regulatory authority is created as a result of the American Heritage Rivers initiative. This initiative will not interfere with matters of State, local, and tribal government jurisdiction.

(e) In furtherance of these policies, the President will designate rivers that meet certain criteria as "American Heritage Rivers."

(f) It is the policy of the Federal Government that communities shall nominate rivers as American Heritage Rivers and the Federal role will be solely to support community-based efforts to preserve, protect, and restore these rivers and their communities.

(g) Agencies should, to the extent practicable, help identify resources in the private and nonprofit sectors to aid revitalization efforts.

(h) Agencies are encouraged, to the extent permitted by law, to develop partnerships with State, local, and tribal governments and community and nongovernmental organizations. Agencies will be responsive to the diverse needs of different kinds of communities from the core of our cities to remote rural areas and shall seek to ensure that the role played by the Federal Government is complementary to the plans and work being carried out by State, local, and tribal governments. To the extent possible, Federal resources will be strategically directed to complement resources being spent by these governments.

(i) Agencies shall establish a method for field offices to assess the success of the American Heritage River initiative and provide a means to recommend changes that will improve the delivery and accessibility of Federal services and programs. Agencies are directed, where appropriate, to reduce and make more flexible procedural requirements and paperwork related to providing assistance to communities along designated rivers.

(j) Agencies shall commit to a policy under which they will seek to ensure that their actions have a positive effect on the natural, historic, economic, and cultural resources of American Heritage River communities. The policy will require agencies to consult with American Heritage River communities early in the planning stages of Federal actions, take into account the communities' goals and objectives and ensure that actions are compatible with the overall character of these communities. Agencies shall seek to ensure that their help for one community does not adversely affect neighboring communities. Additionally, agencies are encouraged to develop formal and informal partnerships to assist communities. Local Federal facilities, to the extent permitted by law and consistent with the agencies' missions and resources, should provide public access, physical space, technical assistance, and other support for American Heritage River communities.

(k) In addition to providing support to designated rivers, agencies will work together to provide information and services to all communities seeking support.

SEC. 2. *Process for Nominating an American Heritage River.*

(a) *Nomination.* Communities, in coordination with their State, local, or tribal governments, can nominate

their river, river stretch, or river confluence for designation as an American Heritage River. When several communities are involved in the nomination of the same river, nominations will detail the coordination among the interested communities and the role each will play in the process. Individuals living outside the community may not nominate a river.

(b) *Selection Criteria.* Nominations will be judged based on the following:

(1) the characteristics of the natural, economic, agricultural, scenic, historic, cultural, or recreational resources of the river that render it distinctive or unique;

(2) the effectiveness with which the community has defined its plan of action and the extent to which the plan addresses, either through planned actions or past accomplishments, all three American Heritage Rivers objectives, which are set forth in section 1(a) of this order;

(3) the strength and diversity of community support for the nomination as evidenced by letters from elected officials; landowners; private citizens; businesses; and especially State, local, and tribal governments. Broad community support is essential to receiving the American Heritage River designation; and

(4) willingness and capability of the community to forge partnerships and agreements to implement their plan to meet their goals and objectives.

(c) *Recommendation Process.*

The Chair of the Council on Environmental Quality ("CEQ") shall develop a fair and objective procedure to obtain the views of a diverse group of experts for the purpose of making recommendations to the President as to which rivers shall be designated. These experts shall reflect a variety of viewpoints, such as those representing natural, cultural, and historic resources; scenic, environmental, and recreation interests; tourism, transportation, and economic development interests; and industries such as agriculture, hydropower, manufacturing, mining, and forest management. The Chair of the CEQ will ensure that the rivers recommended represent a variety of stream sizes, diverse geographical locations, and a wide range of settings from urban to rural and ensure that relatively pristine, successful revitalization efforts are considered as well as degraded rivers in need of restoration.

(d) *Designation.*

(1) The President will designate certain rivers as American Heritage Rivers. Based on the receipt of a sufficient number of qualified nominations, up to 20 rivers will be designated in the first phase of the initiative.

(2) The Interagency Committee provided for in section 3 of this order shall develop a process by which any community that nominates and has its river designated may have this designation terminated at its request.

(3) Upon a determination by the Chair of the CEQ that a community has failed to implement its plan, the Chair may recommend to the President that a designation be revoked. The Chair shall notify the community at least 30 days prior to making such a recommendation to the President. Based on that recommendation, the President may revoke the designation.

SEC. 3. *Establishment of an Interagency Committee.* There is hereby established the American Heritage Rivers Interagency Committee ("Committee"). The Committee shall have two co-chairs. The Chair of the CEQ shall be a permanent co-chair. The other co-chair will rotate among the heads of the agencies listed below.

(a) The Committee shall be composed of the following members or their designees at the Assistant Secretary level or equivalent:

- (1) The Secretary of Defense;
- (2) The Attorney General;
- (3) The Secretary of the Interior;
- (4) The Secretary of Agriculture;
- (5) The Secretary of Commerce;
- (6) The Secretary of Housing and Urban Development;
- (7) The Secretary of Transportation;
- (8) The Secretary of Energy;
- (9) The Administrator of the Environmental Protection Agency;

(10) The Chair of the Advisory Council on Historic Preservation;

(11) The Chairperson of the National Endowment for the Arts; and

(12) The Chairperson of the National Endowment for the Humanities.

The Chair of the CEQ may invite to participate in meetings of the Committee, representatives of other agencies, as appropriate.

(b) The Committee shall:

(1) establish formal guidelines for designation as an American Heritage River;

(2) periodically review the actions of agencies in support of the American Heritage Rivers;

(3) report to the President on the progress, accomplishments, and effectiveness of the American Heritage Rivers initiative; and

(4) perform other duties as directed by the Chair of the CEQ.

SEC. 4. *Responsibilities of the Federal Agencies.* Consistent with Title I of the National Environmental Policy Act of 1969 [42 U.S.C. 4331 *et seq.*], agencies shall:

(a) identify their existing programs and plans that give them the authority to offer assistance to communities involved in river conservation and community health and revitalization;

(b) to the extent practicable and permitted by law and regulation, refocus programs, grants, and technical assistance to provide support for communities adjacent to American Heritage Rivers;

(c) identify all technical tools, including those developed for purposes other than river conservation, that can be applied to river protection, restoration, and community revitalization;

(d) provide access to existing scientific data and information to the extent permitted by law and consistent with the agencies mission and resources;

(e) cooperate with State, local, and tribal governments and communities with respect to their activities that take place in, or affect the area around, an American Heritage River;

(f) commit to a policy, as set forth in section 1(j) of this order, in making decisions affecting the quality of an American Heritage River;

(g) select from among all the agencies a single individual called the "River Navigator," for each river that is designated an American Heritage River, with whom the communities can communicate goals and needs and who will facilitate community-agency interchange;

(h) allow public access to the river, for agencies with facilities along American Heritage Rivers, to the extent practicable and consistent with their mission; and

(i) cooperate, as appropriate, with communities on projects that protect or preserve stretches of the river that are on Federal property or adjacent to a Federal facility.

PROC. NO. 7112. DESIGNATION OF AMERICAN HERITAGE RIVERS

Proc. No. 7112, July 30, 1998, 63 F.R. 41949, provided:

In celebration of America's rivers, and to recognize and reward grassroots efforts to restore them, last year I announced the American Heritage Rivers initiative. My goal was to help communities realize their visions for their rivers by making it easier for them to tap existing programs and resources of the Federal Government. From across the country, hundreds of communities answered my call for nominations, asking that their rivers be designated American Heritage Rivers. I applaud all of the communities that have drawn together and dedicated themselves to the goal of healthy rivers, now and forever.

Having reviewed the recommendations of the American Heritage Rivers Initiative Advisory Committee, I am pleased to be able to recognize a select group of rivers and communities that reflect the true diversity and splendor of America's natural endowment, and the tremendous energy and commitment of its citizenry.

Pursuant to Executive Orders 13061 [set out above], 13080, and 13093 [set out above], I hereby designate the following American Heritage Rivers:

- The Blackstone and Woonasquatucket Rivers, in the States of Massachusetts and Rhode Island;
- The Connecticut River, in the States of Connecticut, Massachusetts, New Hampshire, and Vermont;
- The Cuyahoga River, in the State of Ohio;
- The Detroit River, in the State of Michigan;
- The Hanalei River, in the State of Hawaii;
- The Hudson River, in the State of New York;
- The Upper Mississippi River, in the States of Illinois, Iowa, Minnesota, Missouri, and Wisconsin;
- The Lower Mississippi River, in the States of Louisiana and Tennessee;
- The New River, in the States of North Carolina, Virginia, and West Virginia;
- The Rio Grande, in the State of Texas;
- The Potomac River, in the District of Columbia and the States of Maryland, Pennsylvania, Virginia, and West Virginia;
- The St. Johns River, in the State of Florida;
- The Upper Susquehanna and Lackawanna Rivers, in the State of Pennsylvania;
- The Willamette River, in the State of Oregon.

IN WITNESS WHEREOF, I have heretofore set my hand this thirtieth day of July, in the year of our Lord nineteen hundred and ninety-eight, and of the Independence of the United States of America the two hundred and twenty-third.

WILLIAM J. CLINTON.

EX. ORD. NO. 13690. ESTABLISHING A FEDERAL FLOOD RISK MANAGEMENT STANDARD AND A PROCESS FOR FURTHER SOLICITING AND CONSIDERING STAKEHOLDER INPUT

Ex. Ord. No. 13690, Jan. 30, 2015, 80 F.R. 6425, revoked by Ex. Ord. No. 13807, §6, Aug. 15, 2017, 82 F.R. 40469, reinstated by Ex. Ord. No. 14030, §5(e), May 20, 2021, 86 F.R. 27969, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to improve the Nation's resilience to current and future flood risk, I hereby direct the following:

SECTION 1. Policy. It is the policy of the United States to improve the resilience of communities and Federal assets against the impacts of flooding. These impacts are anticipated to increase over time due to the effects of climate change and other threats. Losses caused by flooding affect the environment, our economic prosperity, and public health and safety, each of which affects our national security.

The Federal Government must take action, informed by the best-available and actionable science, to improve the Nation's preparedness and resilience against flooding. Executive Order 11988 of May 24, 1977 (Floodplain Management) [set out above], requires executive departments and agencies (agencies) to avoid, to the extent possible, the long- and short-term adverse impacts associated with the occupancy and modification of floodplains and to avoid direct or indirect support of floodplain development wherever there is a practicable alternative. The Federal Government has developed processes for evaluating the impacts of Federal actions in or affecting floodplains to implement Executive Order 11988.

As part of a national policy on resilience and risk reduction consistent with my *Climate Action Plan*, the National Security Council staff coordinated an inter-agency effort to create a new flood risk reduction standard for federally funded projects. The views of Governors, mayors, and other stakeholders were solicited and considered as efforts were made to establish a new flood risk reduction standard for federally funded projects. The result of these efforts is the Federal Flood Risk Management Standard (Standard), a flexible framework to increase resilience against flooding and help preserve the natural values of floodplains. Incorporating this Standard will ensure that agencies expand management from the current base flood level to a higher vertical elevation and corresponding horizontal floodplain to address current and future flood risk and ensure that projects funded with taxpayer dollars last as long as intended.

This order establishes the Standard and sets forth a process for further solicitation and consideration of public input, including from Governors, mayors, and other stakeholders, prior to implementation of the Standard.

SEC. 2. Amendments to Executive Order 11988. [Amended Ex. Ord. No. 11988, set out above.]

SEC. 3. Agency Action. (a) Prior to any action to implement the Standard, additional input from stakeholders shall be solicited and considered. To carry out this process:

(i) the Federal Emergency Management Agency, on behalf of the Mitigation Framework Leadership Group,

shall publish for public comment draft amended Floodplain Management Guidelines for Implementing Executive Order 11988 (Guidelines) to provide guidance to agencies on the implementation of Executive Order 11988, as amended, consistent with the Standard;

(ii) during the comment period, the Mitigation Framework Leadership Group shall host public meetings with stakeholders to solicit input; and

(iii) after the comment period closes, and based on the comments received on the draft Guidelines during the comment period, in accordance with subsections (a)(i) and (ii) of this section, the Mitigation Framework Leadership Group shall provide recommendations to the Water Resources Council.

(b) After additional input from stakeholders has been solicited and considered as set forth in subsections (a)(i) and (ii) of this section and after consideration of the recommendations made by the Mitigation Framework Leadership Group pursuant to subsection (a)(iii) of this section, the Water Resources Council shall issue amended Guidelines to provide guidance to agencies on the implementation of Executive Order 11988, as amended, consistent with the Standard.

(c) To the extent permitted by law, each agency shall, in consultation with the Water Resources Council, Federal Interagency Floodplain Management Task Force, Federal Emergency Management Agency, and Council on Environmental Quality, issue or amend existing regulations and procedures to comply with this order, and update those regulations and procedures as warranted. Within 30 days of the closing of the public comment period for the draft amendments to the Guidelines as described in subsection (a) of this section, each agency shall submit an implementation plan to the National Security Council staff that contains milestones and a timeline for implementation of this order and the Standard, by the agency as it applies to the agency's processes and mission. Agencies shall not issue or amend existing regulations and procedures pursuant to this subsection until after the Water Resources Council has issued amended Guidelines pursuant to subsection (b) of this order [sic].

SEC. 4. Reassessment. (a) The Water Resources Council shall issue any further amendments to the Guidelines as warranted.

(b) The Mitigation Framework Leadership Group in consultation with the Federal Interagency Floodplain Management Task Force shall reassess the Standard annually, after seeking stakeholder input, and provide recommendations to the Water Resources Council to update the Standard if warranted based on accurate and actionable science that takes into account changes to climate and other changes in flood risk. The Water Resources Council shall issue an update to the Standard at least every 5 years.

SEC. 5. General Provisions. (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department, agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

(d) The Water Resources Council shall carry out its responsibilities under this order in consultation with the Mitigation Framework Leadership Group.

[BARACK OBAMA.]

EXECUTIVE ORDER NO. 13693

Ex. Ord. No. 13693, Mar. 19, 2015, 80 F.R. 15871, which related to planning by executive departments and agencies for environmental sustainability, was revoked by

Ex. Ord. No. 13834, § 8, May 17, 2018, 83 F.R. 23773, formerly set out below.

EX. ORD. NO. 13751. SAFEGUARDING THE NATION FROM THE IMPACTS OF INVASIVE SPECIES

Ex. Ord. No. 13751, Dec. 5, 2016, 81 F.R. 88609, provided: By the authority vested in me as President by the Constitution and to ensure the faithful execution of the laws of the United States of America, including the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 et seq.), the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990, (16 U.S.C. 4701 et seq.), the Plant Protection Act (7 U.S.C. 7701 et seq.), the Lacey Act, as amended (18 U.S.C. 42, 16 U.S.C. 3371–3378 et seq.), the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.), the Noxious Weed Control and Eradication Act of 2004 (7 U.S.C. 7781 et seq.), and other pertinent statutes, to prevent the introduction of invasive species and provide for their control, and to minimize the economic, plant, animal, ecological, and human health impacts that invasive species cause, it is hereby ordered as follows:

SECTION 1. *Policy.* It is the policy of the United States to prevent the introduction, establishment, and spread of invasive species, as well as to eradicate and control populations of invasive species that are established. Invasive species pose threats to prosperity, security, and quality of life. They have negative impacts on the environment and natural resources, agriculture and food production systems, water resources, human, animal, and plant health, infrastructure, the economy, energy, cultural resources, and military readiness. Every year, invasive species cost the United States billions of dollars in economic losses and other damages.

Of substantial growing concern are invasive species that are or may be vectors, reservoirs, and causative agents of disease, which threaten human, animal, and plant health. The introduction, establishment, and spread of invasive species create the potential for serious public health impacts, especially when considered in the context of changing climate conditions. Climate change influences the establishment, spread, and impacts of invasive species.

Executive Order 13112 of February 3, 1999 (Invasive Species), called upon executive departments and agencies to take steps to prevent the introduction and spread of invasive species, and to support efforts to eradicate and control invasive species that are established. Executive Order 13112 also created a coordinating body—the Invasive Species Council, also referred to as the National Invasive Species Council—to oversee implementation of the order, encourage proactive planning and action, develop recommendations for international cooperation, and take other steps to improve the Federal response to invasive species. Past efforts at preventing, eradicating, and controlling invasive species demonstrated that collaboration across Federal, State, local, tribal, and territorial government; stakeholders; and the private sector is critical to minimizing the spread of invasive species and that coordinated action is necessary to protect the assets and security of the United States.

This order amends Executive Order 13112 and directs actions to continue coordinated Federal prevention and control efforts related to invasive species. This order maintains the National Invasive Species Council (Council) and the Invasive Species Advisory Committee; expands the membership of the Council; clarifies the operations of the Council; incorporates considerations of human and environmental health, climate change, technological innovation, and other emerging priorities into Federal efforts to address invasive species; and strengthens coordinated, cost-efficient Federal action.

SEC. 2. *Definitions.* [Amended Ex. Ord. No. 13112, set out as a note above.]

SEC. 3. *Federal Agency Duties.* [Amended Ex. Ord. No. 13112, set out as a note above.]

SEC. 4. *Emerging Priorities.* Federal agencies that are members of the Council and Federal interagency bodies working on issues relevant to the prevention, eradication, and control of invasive species shall take

emerging priorities into consideration, including:

(a) Federal agencies shall consider the potential public health and safety impacts of invasive species, especially those species that are vectors, reservoirs, and causative agents of disease. The Department of Health and Human Services, in coordination and consultation with relevant agencies as appropriate, shall within 1 year of this order, and as requested by the Council thereafter, provide the Office of Science and Technology Policy and the Council a report on public health impacts associated with invasive species. That report shall describe the disease, injury, immunologic, and safety impacts associated with invasive species, including any direct and indirect impacts on low-income, minority, and tribal communities.

(b) Federal agencies shall consider the impacts of climate change when working on issues relevant to the prevention, eradication, and control of invasive species, including in research and monitoring efforts, and integrate invasive species into Federal climate change coordinating frameworks and initiatives.

(c) Federal agencies shall consider opportunities to apply innovative science and technology when addressing the duties identified in section 2 of Executive Order 13112, as amended, including, but not limited to, promoting open data and data analytics; harnessing technological advances in remote sensing technologies, molecular tools, cloud computing, and predictive analytics; and using tools such as challenge prizes, citizen science, and crowdsourcing.

SEC. 5. *National Invasive Species Council.* [Amended Ex. Ord. No. 13112, set out as a note above.]

SEC. 6. *Duties of the National Invasive Species Council.* [Amended Ex. Ord. No. 13112, set out as a note above.]

SEC. 7. *National Invasive Species Council Management Plan.* [Amended Ex. Ord. No. 13112, set out as a note above.]

SEC. 8. *Actions of the Department of State and Department of Defense.* [Amended Ex. Ord. No. 13112, set out as a note above.]

SEC. 9. *Obligations of the Department of Health and Human Services.* [Amended Ex. Ord. No. 13112, set out as a note above.]

SEC. 10. *General Provisions.* (a) Nothing in this order shall be construed to impair or otherwise affect:

(1) the authority granted by law to an executive department or agency, or the head thereof; or

(2) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

BARACK OBAMA.

EXECUTIVE ORDER NO. 13834

Ex. Ord. No. 13834, May 17, 2018, 83 F.R. 23771, as amended by Ex. Ord. No. 13990, §7(a), Jan. 20, 2021, 86 F.R. 7041, which required executive departments and agencies to meet statutory requirements related to energy and environmental performance by prioritizing actions that reduce waste, cut costs, enhance the resilience of Federal infrastructure and operations, and enable more effective accomplishment of its mission, was revoked by Ex. Ord. No. 14057, §604, Dec. 8, 2021, 86 F.R. 70943, set out below.

EX. ORD. NO. 13990. PROTECTING PUBLIC HEALTH AND THE ENVIRONMENT AND RESTORING SCIENCE TO TACKLE THE CLIMATE CRISIS

Ex. Ord. No. 13990, Jan. 20, 2021, 86 F.R. 7037, provided: By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. *Policy.* Our Nation has an abiding commitment to empower our workers and communities; promote and protect our public health and the environment; and conserve our national treasures and monuments, places that secure our national memory. Where the Federal Government has failed to meet that commitment in the past, it must advance environmental justice. In carrying out this charge, the Federal Government must be guided by the best science and be protected by processes that ensure the integrity of Federal decision-making. It is, therefore, the policy of my Administration to listen to the science; to improve public health and protect our environment; to ensure access to clean air and water; to limit exposure to dangerous chemicals and pesticides; to hold polluters accountable, including those who disproportionately harm communities of color and low-income communities; to reduce greenhouse gas emissions; to bolster resilience to the impacts of climate change; to restore and expand our national treasures and monuments; and to prioritize both environmental justice and the creation of the well-paying union jobs necessary to deliver on these goals.

To that end, this order directs all executive departments and agencies (agencies) to immediately review and, as appropriate and consistent with applicable law, take action to address the promulgation of Federal regulations and other actions during the last 4 years that conflict with these important national objectives, and to immediately commence work to confront the climate crisis.

SEC. 2. *Immediate Review of Agency Actions Taken Between January 20, 2017, and January 20, 2021.* (a) The heads of all agencies shall immediately review all existing regulations, orders, guidance documents, policies, and any other similar agency actions (agency actions) promulgated, issued, or adopted between January 20, 2017, and January 20, 2021, that are or may be inconsistent with, or present obstacles to, the policy set forth in section 1 of this order. For any such actions identified by the agencies, the heads of agencies shall, as appropriate and consistent with applicable law, consider suspending, revising, or rescinding the agency actions. In addition, for the agency actions in the 4 categories set forth in subsections (i) through (iv) of this section, the head of the relevant agency, as appropriate and consistent with applicable law, shall consider publishing for notice and comment a proposed rule suspending, revising, or rescinding the agency action within the time frame specified.

(i) Reducing Methane Emissions in the Oil and Gas Sector: “Oil and Natural Gas Sector: Emission Standards for New, Reconstructed, and Modified Sources Reconsideration,” 85 FR 57398 (September 15, 2020), by September 2021.

(ii) Establishing Ambitious, Job-Creating Fuel Economy Standards: “The Safer Affordable Fuel-Efficient (SAFE) Vehicles Rule Part One: One National Program,” 84 FR 51310 (September 27, 2019), by April 2021; and “The Safer Affordable Fuel-Efficient (SAFE) Vehicles Rule for Model Years 2021–2026 Passenger Cars and Light Trucks,” 85 FR 24174 (April 30, 2020), by July 2021. In considering whether to propose suspending, revising, or rescinding the latter rule, the agency should consider the views of representatives from labor unions, States, and industry.

(iii) Job-Creating Appliance- and Building-Efficiency Standards: “Energy Conservation Program for Appliance Standards: Procedures for Use in New or Revised Energy Conservation Standards and Test Procedures for Consumer Products and Commercial/Industrial Equipment,” 85 FR 8626 (February 14, 2020), with major revisions proposed by March 2021 and any remaining revisions proposed by June 2021; “Energy Conservation Program for Appliance Standards: Procedures for Evaluating Statutory Factors for Use in New or Revised Energy Conservation Standards,” 85 FR 50937 (August 19, 2020), with major revisions proposed by March 2021 and any remaining revisions proposed by June 2021; “Final Determination Regarding Energy Efficiency Improve-

ments in the 2018 International Energy Conservation Code (IECC),” 84 FR 67435 (December 10, 2019), by May 2021; “Final Determination Regarding Energy Efficiency Improvements in ANSI/ASHRAE/IES Standard 90.1–2016: Energy Standard for Buildings, Except Low-Rise Residential Buildings,” 83 FR 8463 (February 27, 2018), by May 2021.

(iv) Protecting Our Air from Harmful Pollution: “National Emission Standards for Hazardous Air Pollutants: Coal- and Oil-Fired Electric Utility Steam Generating Units—Reconsideration of Supplemental Finding and Residual Risk and Technology Review,” 85 FR 31286 (May 22, 2020), by August 2021; “Increasing Consistency and Transparency in Considering Benefits and Costs in the Clean Air Act Rulemaking Process,” 85 FR 84130 (December 23, 2020), as soon as possible; “Strengthening Transparency in Pivotal Science Underlying Significant Regulatory Actions and Influential Scientific Information,” 86 FR 469 (January 6, 2021), as soon as possible.

(b) Within 30 days of the date of this order [Jan. 20, 2021], heads of agencies shall submit to the Director of the Office of Management and Budget (OMB) a preliminary list of any actions being considered pursuant to section (2)(a) of this order that would be completed by December 31, 2021, and that would be subject to OMB review. Within 90 days of the date of this order, heads of agencies shall submit to the Director of OMB an updated list of any actions being considered pursuant to section (2)(a) of this order that would be completed by December 31, 2025, and that would be subject to OMB review. At the time of submission to the Director of OMB, heads of agencies shall also send each list to the National Climate Advisor. In addition, and at the same time, heads of agencies shall send to the National Climate Advisor a list of additional actions being considered pursuant to section (2)(a) of this order that would not be subject to OMB review.

(c) Heads of agencies shall, as appropriate and consistent with applicable law, consider whether to take any additional agency actions to fully enforce the policy set forth in section 1 of this order. With respect to the Administrator of the Environmental Protection Agency, the following specific actions should be considered:

(i) proposing new regulations to establish comprehensive standards of performance and emission guidelines for methane and volatile organic compound emissions from existing operations in the oil and gas sector, including the exploration and production, transmission, processing, and storage segments, by September 2021; and

(ii) proposing a Federal Implementation Plan in accordance with the Environmental Protection Agency’s “Findings of Failure To Submit State Implementation Plan Revisions in Response to the 2016 Oil and Natural Gas Industry Control Techniques Guidelines for the 2008 Ozone National Ambient Air Quality Standards (NAAQS) and for States in the Ozone Transport Region,” 85 FR 72963 (November 16, 2020), for California, Connecticut, New York, Pennsylvania, and Texas by January 2022.

(d) The Attorney General may, as appropriate and consistent with applicable law, provide notice of this order and any actions taken pursuant to section 2(a) of this order to any court with jurisdiction over pending litigation related to those agency actions identified pursuant to section (2)(a) of this order, and may, in his discretion, request that the court stay or otherwise dispose of litigation, or seek other appropriate relief consistent with this order, until the completion of the processes described in this order.

(e) In carrying out the actions directed in this section, heads of agencies shall seek input from the public and stakeholders, including State local, Tribal, and territorial officials, scientists, labor unions, environmental advocates, and environmental justice organizations.

SEC. 3. *Restoring National Monuments.* (a) The Secretary of the Interior, as appropriate and consistent

with applicable law, including the Antiquities Act [of 1906], 54 U.S.C. 320301 *et seq.*, shall, in consultation with the Attorney General, the Secretaries of Agriculture and Commerce, the Chair of the Council on Environmental Quality, and Tribal governments, conduct a review of the monument boundaries and conditions that were established by Proclamation 9681 of December 4, 2017 (Modifying the Bears Ears National Monument) [54 U.S.C. 320301 note]; Proclamation 9682 of December 4, 2017 (Modifying the Grand Staircase-Escalante National Monument) [54 U.S.C. 320301 note]; and Proclamation 10049 of June 5, 2020 (Modifying the Northeast Canyons and Seamounts Marine National Monument) [54 U.S.C. 320301 note], to determine whether restoration of the monument boundaries and conditions that existed as of January 20, 2017, would be appropriate.

(b) Within 60 days of the date of this order, the Secretary of the Interior shall submit a report to the President summarizing the findings of the review conducted pursuant to subsection (a), which shall include recommendations for such Presidential actions or other actions consistent with law as the Secretary may consider appropriate to carry out the policy set forth in section 1 of this order.

(c) The Attorney General may, as appropriate and consistent with applicable law, provide notice of this order to any court with jurisdiction over pending litigation related to the Grand Staircase-Escalante, Bears Ears, and Northeast Canyons and Seamounts Marine National Monuments, and may, in his discretion, request that the court stay the litigation or otherwise delay further litigation, or seek other appropriate relief consistent with this order, pending the completion of the actions described in subsection (a) of this section.

SEC. 4. Arctic Refuge. (a) In light of the alleged legal deficiencies underlying the program, including the inadequacy of the environmental review required by the National Environmental Policy Act [of 1969; 42 U.S.C. 4321 *et seq.*], the Secretary of the Interior shall, as appropriate and consistent with applicable law, place a temporary moratorium on all activities of the Federal Government relating to the implementation of the Coastal Plain Oil and Gas Leasing Program, as established by the Record of Decision signed August 17, 2020, in the Arctic National Wildlife Refuge. The Secretary shall review the program and, as appropriate and consistent with applicable law, conduct a new, comprehensive analysis of the potential environmental impacts of the oil and gas program.

(b) In Executive Order 13754 of December 9, 2016 (Northern Bering Sea Climate Resilience) [15 U.S.C. 4101 note], and in the Presidential Memorandum of December 20, 2016 (Withdrawal of Certain Portions of the United States Arctic Outer Continental Shelf From Mineral Leasing), President Obama withdrew areas in Arctic waters and the Bering Sea from oil and gas drilling and established the Northern Bering Sea Climate Resilience Area. Subsequently, the order was revoked and the memorandum was amended in Executive Order 13795 of April 28, 2017 (Implementing an America-First Offshore Energy Strategy) [former 43 U.S.C. 1331 note]. Pursuant to section 12(a) of the Outer Continental Shelf Lands Act, 43 U.S.C. 1341(a), Executive Order 13754 and the Presidential Memorandum of December 20, 2016, are hereby reinstated in their original form, thereby restoring the original withdrawal of certain offshore areas in Arctic waters and the Bering Sea from oil and gas drilling.

(c) The Attorney General may, as appropriate and consistent with applicable law, provide notice of this order to any court with jurisdiction over pending litigation related to the Coastal Plain Oil and Gas Leasing Program in the Arctic National Wildlife Refuge and other related programs, and may, in his discretion, request that the court stay the litigation or otherwise delay further litigation, or seek other appropriate relief consistent with this order, pending the completion of the actions described in subsection (a) of this section.

SEC. 5. Accounting for the Benefits of Reducing Climate Pollution. (a) It is essential that agencies capture the full costs of greenhouse gas emissions as accurately as possible, including by taking global damages into account. Doing so facilitates sound decision-making, recognizes the breadth of climate impacts, and supports the international leadership of the United States on climate issues. The “social cost of carbon” (SCC), “social cost of nitrous oxide” (SCN), and “social cost of methane” (SCM) are estimates of the monetized damages associated with incremental increases in greenhouse gas emissions. They are intended to include changes in net agricultural productivity, human health, property damage from increased flood risk, and the value of ecosystem services. An accurate social cost is essential for agencies to accurately determine the social benefits of reducing greenhouse gas emissions when conducting cost-benefit analyses of regulatory and other actions.

(b) There is hereby established an Interagency Working Group on the Social Cost of Greenhouse Gases (the “Working Group”). The Chair of the Council of Economic Advisers, Director of OMB, and Director of the Office of Science and Technology Policy shall serve as Co-Chairs of the Working Group.

(i) Membership. The Working Group shall also include the following other officers, or their designees: the Secretary of the Treasury; the Secretary of the Interior; the Secretary of Agriculture; the Secretary of Commerce; the Secretary of Health and Human Services; the Secretary of Transportation; the Secretary of Energy; the Chair of the Council on Environmental Quality; the Administrator of the Environmental Protection Agency; the Assistant to the President and National Climate Advisor; and the Assistant to the President for Economic Policy and Director of the National Economic Council.

(ii) Mission and Work. The Working Group shall, as appropriate and consistent with applicable law:

(A) publish an interim SCC, SCN, and SCM within 30 days of the date of this order, which agencies shall use when monetizing the value of changes in greenhouse gas emissions resulting from regulations and other relevant agency actions until final values are published;

(B) publish a final SCC, SCN, and SCM by no later than January 2022;

(C) provide recommendations to the President, by no later than September 1, 2021, regarding areas of decision-making, budgeting, and procurement by the Federal Government where the SCC, SCN, and SCM should be applied;

(D) provide recommendations, by no later than June 1, 2022, regarding a process for reviewing, and, as appropriate, updating, the SCC, SCN, and SCM to ensure that these costs are based on the best available economics and science; and

(E) provide recommendations, to be published with the final SCC, SCN, and SCM under subparagraph (A) if feasible, and in any event by no later than June 1, 2022, to revise methodologies for calculating the SCC, SCN, and SCM, to the extent that current methodologies do not adequately take account of climate risk, environmental justice, and intergenerational equity.

(iii) Methodology. In carrying out its activities, the Working Group shall consider the recommendations of the National Academies of Science, Engineering, and Medicine as reported in *Valuing Climate Damages: Updating Estimation of the Social Cost of Carbon Dioxide* (2017) and other pertinent scientific literature; solicit public comment; engage with the public and stakeholders; seek the advice of ethics experts; and ensure that the SCC, SCN, and SCM reflect the interests of future generations in avoiding threats posed by climate change.

SEC. 6. Revoking the March 2019 Permit for the Keystone XL Pipeline. (a) On March 29, 2019, the President granted to TransCanada Keystone Pipeline, L.P. a Presidential permit (the “Permit”) [84 F.R. 13101] to construct, connect, operate, and maintain pipeline facili-

ties at the international border of the United States and Canada (the “Keystone XL pipeline”), subject to express conditions and potential revocation in the President’s sole discretion. The Permit is hereby revoked in accordance with Article 1(1) of the Permit.

(b) In 2015, following an exhaustive review, the Department of State and the President determined that approving the proposed Keystone XL pipeline would not serve the U.S. national interest. That analysis, in addition to concluding that the significance of the proposed pipeline for our energy security and economy is limited, stressed that the United States must prioritize the development of a clean energy economy, which will in turn create good jobs. The analysis further concluded that approval of the proposed pipeline would undermine U.S. climate leadership by undercutting the credibility and influence of the United States in urging other countries to take ambitious climate action.

(c) Climate change has had a growing effect on the U.S. economy, with climate-related costs increasing over the last 4 years. Extreme weather events and other climate-related effects have harmed the health, safety, and security of the American people and have increased the urgency for combatting climate change and accelerating the transition toward a clean energy economy. The world must be put on a sustainable climate pathway to protect Americans and the domestic economy from harmful climate impacts, and to create well-paying union jobs as part of the climate solution.

(d) The Keystone XL pipeline disserves the U.S. national interest. The United States and the world face a climate crisis. That crisis must be met with action on a scale and at a speed commensurate with the need to avoid setting the world on a dangerous, potentially catastrophic, climate trajectory. At home, we will combat the crisis with an ambitious plan to build back better, designed to both reduce harmful emissions and create good clean-energy jobs. Our domestic efforts must go hand in hand with U.S. diplomatic engagement. Because most greenhouse gas emissions originate beyond our borders, such engagement is more necessary and urgent than ever. The United States must be in a position to exercise vigorous climate leadership in order to achieve a significant increase in global climate action and put the world on a sustainable climate pathway. Leaving the Keystone XL pipeline permit in place would not be consistent with my Administration’s economic and climate imperatives.

SEC. 7. Other Revocations. (a) Executive Order 13766 of January 24, 2017 (Expediting Environmental Reviews and Approvals For High Priority Infrastructure Projects) [former 42 U.S.C. 4370m note], Executive Order 13778 of February 28, 2017 (Restoring the Rule of Law, Federalism, and Economic Growth by Reviewing the “Waters of the United States” Rule) [82 F.R. 12497], Executive Order 13783 of March 28, 2017 (Promoting Energy Independence and Economic Growth) [former 42 U.S.C. 13201 note], Executive Order 13792 of April 26, 2017 (Review of Designations Under the Antiquities Act) [82 F.R. 20429], Executive Order 13795 of April 28, 2017 (Implementing an America-First Offshore Energy Strategy) [former 43 U.S.C. 1331 note], Executive Order 13868 of April 10, 2019 (Promoting Energy Infrastructure and Economic Growth) [former 42 U.S.C. 13201 note], and Executive Order 13927 of June 4, 2020 (Accelerating the Nation’s Economic Recovery from the COVID-19 Emergency by Expediting Infrastructure Investments and Other Activities) [former 5 U.S.C. 601 note], are hereby revoked. Executive Order 13834 of May 17, 2018 (Efficient Federal Operations) [formerly set out above], is hereby revoked except for sections 6, 7, and 11.

(b) Executive Order 13807 of August 15, 2017 (Establishing Discipline and Accountability in the Environmental Review and Permitting Process for Infrastructure Projects) [former 42 U.S.C. 4370m note], is hereby revoked. The Director of OMB and the Chair of the Council on Environmental Quality shall jointly consider whether to recommend that a replacement order be issued.

(c) Executive Order 13920 of May 1, 2020 (Securing the United States Bulk-Power System) [50 U.S.C. 1621

note], is hereby suspended for 90 days. The Secretary of Energy and the Director of OMB shall jointly consider whether to recommend that a replacement order be issued.

(d) The Presidential Memorandum of April 12, 2018 (Promoting Domestic Manufacturing and Job Creation Policies and Procedures Relating to Implementation of Air Quality Standards) [former 42 U.S.C. 7401 note], the Presidential Memorandum of October 19, 2018 (Promoting the Reliable Supply and Delivery of Water in the West) [former 33 U.S.C. 2201 note], and the Presidential Memorandum of February 19, 2020 (Developing and Delivering More Water Supplies in California), are hereby revoked.

(e) The Council on Environmental Quality shall rescind its draft guidance entitled, “Draft National Environmental Policy Act Guidance on Consideration of Greenhouse Gas Emissions,” 84 FR 30097 (June 26, 2019). The Council, as appropriate and consistent with applicable law, shall review, revise, and update its final guidance entitled, “Final Guidance for Federal Departments and Agencies on Consideration of Greenhouse Gas Emissions and the Effects of Climate Change in National Environmental Policy Act Reviews,” 81 FR 51866 (August 5, 2016).

(f) The Director of OMB and the heads of agencies shall promptly take steps to rescind any orders, rules, regulations, guidelines, or policies, or portions thereof, including, if necessary, by proposing such rescissions through notice-and-comment rulemaking, implementing or enforcing the Executive Orders, Presidential Memoranda, and draft guidance identified in this section, as appropriate and consistent with applicable law.

SEC. 8. General Provisions. (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented in a manner consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

J.R. BIDEN, JR.

EX. ORD. NO. 14008. TACKLING THE CLIMATE CRISIS AT HOME AND ABROAD

Ex. Ord. No. 14008, Jan. 27, 2021, 86 F.R. 7619, provided: The United States and the world face a profound climate crisis. We have a narrow moment to pursue action at home and abroad in order to avoid the most catastrophic impacts of that crisis and to seize the opportunity that tackling climate change presents. Domestic action must go hand in hand with United States international leadership, aimed at significantly enhancing global action. Together, we must listen to science and meet the moment.

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

PART I—PUTTING THE CLIMATE CRISIS AT THE CENTER OF UNITED STATES FOREIGN POLICY AND NATIONAL SECURITY

SECTION 101. Policy. United States international engagement to address climate change—which has become a climate crisis—is more necessary and urgent than ever. The scientific community has made clear that the scale and speed of necessary action is greater than previously believed. There is little time left to avoid setting the world on a dangerous, potentially catastrophic, climate trajectory. Responding to the climate crisis will require both significant short-term global reductions in greenhouse gas emissions and net-zero global emissions by mid-century or before.

It is the policy of my Administration that climate considerations shall be an essential element of United States foreign policy and national security. The United States will work with other countries and partners, both bilaterally and multilaterally, to put the world on a sustainable climate pathway. The United States will also move quickly to build resilience, both at home and abroad, against the impacts of climate change that are already manifest and will continue to intensify according to current trajectories.

Sec. 102. *Purpose.* This order builds on and reaffirms actions my Administration has already taken to place the climate crisis at the forefront of this Nation's foreign policy and national security planning, including submitting the United States instrument of acceptance to rejoin the Paris Agreement. In implementing—and building upon—the Paris Agreement's three overarching objectives (a safe global temperature, increased climate resilience, and financial flows aligned with a pathway toward low greenhouse gas emissions and climate-resilient development), the United States will exercise its leadership to promote a significant increase in global climate ambition to meet the climate challenge. In this regard:

(a) I will host an early Leaders' Climate Summit aimed at raising climate ambition and making a positive contribution to the 26th United Nations Climate Change Conference of the Parties (COP26) and beyond.

(b) The United States will reconvene the Major Economies Forum on Energy and Climate, beginning with the Leaders' Climate Summit. In cooperation with the members of that Forum, as well as with other partners as appropriate, the United States will pursue green recovery efforts, initiatives to advance the clean energy transition, sectoral decarbonization, and alignment of financial flows with the objectives of the Paris Agreement, including with respect to coal financing, nature-based solutions, and solutions to other climate-related challenges.

(c) I have created a new Presidentially appointed position, the Special Presidential Envoy for Climate, to elevate the issue of climate change and underscore the commitment my Administration will make toward addressing it.

(d) Recognizing that climate change affects a wide range of subjects, it will be a United States priority to press for enhanced climate ambition and integration of climate considerations across a wide range of international fora, including the Group of Seven (G7), the Group of Twenty (G20), and fora that address clean energy, aviation, shipping, the Arctic, the ocean, sustainable development, migration, and other relevant topics. The Special Presidential Envoy for Climate and others, as appropriate, are encouraged to promote innovative approaches, including international multi-stakeholder initiatives. In addition, my Administration will work in partnership with States, localities, Tribes, territories, and other United States stakeholders to advance United States climate diplomacy.

(e) The United States will immediately begin the process of developing its nationally determined contribution under the Paris Agreement. The process will include analysis and input from relevant executive departments and agencies (agencies), as well as appropriate outreach to domestic stakeholders. The United States will aim to submit its nationally determined contribution in advance of the Leaders' Climate Summit.

(f) The United States will also immediately begin to develop a climate finance plan, making strategic use of multilateral and bilateral channels and institutions, to assist developing countries in implementing ambitious emissions reduction measures, protecting critical ecosystems, building resilience against the impacts of climate change, and promoting the flow of capital toward climate-aligned investments and away from high-carbon investments. The Secretary of State and the Secretary of the Treasury, in coordination with the Special Presidential Envoy for Climate, shall lead a process to develop this plan, with the participation of the

Administrator of the United States Agency for International Development (USAID), the Chief Executive Officer of the United States International Development Finance Corporation (DFC), the Chief Executive Officer of the Millennium Challenge Corporation, the Director of the United States Trade and Development Agency, the Director of the Office of Management and Budget, and the head of any other agency providing foreign assistance and development financing, as appropriate. The Secretary of State and the Secretary of the Treasury shall submit the plan to the President, through the Assistant to the President for National Security Affairs and the Assistant to the President for Economic Policy, within 90 days of the date of this order [Jan. 27, 2021].

(g) The Secretary of the Treasury shall:

(i) ensure that the United States is present and engaged in relevant international fora and institutions that are working on the management of climate-related financial risks;

(ii) develop a strategy for how the voice and vote of the United States can be used in international financial institutions, including the World Bank Group and the International Monetary Fund, to promote financing programs, economic stimulus packages, and debt relief initiatives that are aligned with and support the goals of the Paris Agreement; and

(iii) develop, in collaboration with the Secretary of State, the Administrator of USAID, and the Chief Executive Officer of the DFC, a plan for promoting the protection of the Amazon rainforest and other critical ecosystems that serve as global carbon sinks, including through market-based mechanisms.

(h) The Secretary of State, the Secretary of the Treasury, and the Secretary of Energy shall work together and with the Export-Import Bank of the United States, the Chief Executive Officer of the DFC, and the heads of other agencies and partners, as appropriate, to identify steps through which the United States can promote ending international financing of carbon-intensive fossil fuel-based energy while simultaneously advancing sustainable development and a green recovery, in consultation with the Assistant to the President for National Security Affairs.

(i) The Secretary of Energy, in cooperation with the Secretary of State and the heads of other agencies, as appropriate, shall identify steps through which the United States can intensify international collaborations to drive innovation and deployment of clean energy technologies, which are critical for climate protection.

(j) The Secretary of State shall prepare, within 60 days of the date of this order [Jan. 27, 2021], a transmittal package seeking the Senate's advice and consent to ratification of the Kigali Amendment to the Montreal Protocol on Substances that Deplete the Ozone Layer, regarding the phasedown of the production and consumption of hydrofluorocarbons.

SEC. 103. *Prioritizing Climate in Foreign Policy and National Security.* To ensure that climate change considerations are central to United States foreign policy and national security:

(a) Agencies that engage in extensive international work shall develop, in coordination with the Special Presidential Envoy for Climate, and submit to the President, through the Assistant to the President for National Security Affairs, within 90 days of the date of this order, strategies and implementation plans for integrating climate considerations into their international work, as appropriate and consistent with applicable law. These strategies and plans should include an assessment of:

(i) climate impacts relevant to broad agency strategies in particular countries or regions;

(ii) climate impacts on their agency-managed infrastructure abroad (e.g., embassies, military installations), without prejudice to existing requirements regarding assessment of such infrastructure;

(iii) how the agency intends to manage such impacts or incorporate risk mitigation into its installation master plans; and

(iv) how the agency's international work, including partner engagement, can contribute to addressing the climate crisis.

(b) The Director of National Intelligence shall prepare, within 120 days of the date of this order, a National Intelligence Estimate on the national and economic security impacts of climate change.

(c) The Secretary of Defense, in coordination with the Secretary of Commerce, through the Administrator of the National Oceanic and Atmospheric Administration, the Chair of the Council on Environmental Quality, the Administrator of the Environmental Protection Agency, the Director of National Intelligence, the Director of the Office of Science and Technology Policy, the Administrator of the National Aeronautics and Space Administration, and the heads of other agencies as appropriate, shall develop and submit to the President, within 120 days of the date of this order, an analysis of the security implications of climate change (Climate Risk Analysis) that can be incorporated into modeling, simulation, war-gaming, and other analyses.

(d) The Secretary of Defense and the Chairman of the Joint Chiefs of Staff shall consider the security implications of climate change, including any relevant information from the Climate Risk Analysis described in subsection (c) of this section, in developing the National Defense Strategy, Defense Planning Guidance, Chairman's Risk Assessment, and other relevant strategy, planning, and programming documents and processes. Starting in January 2022, the Secretary of Defense and the Chairman of the Joint Chiefs of Staff shall provide an annual update, through the National Security Council, on the progress made in incorporating the security implications of climate change into these documents and processes.

(e) The Secretary of Homeland Security shall consider the implications of climate change in the Arctic, along our Nation's borders, and to National Critical Functions, including any relevant information from the Climate Risk Analysis described in subsection (c) of this section, in developing relevant strategy, planning, and programming documents and processes. Starting in January 2022, the Secretary of Homeland Security shall provide an annual update, through the National Security Council, on the progress made in incorporating the homeland security implications of climate change into these documents and processes.

SEC. 104. *Reinstatement.* The Presidential Memorandum of September 21, 2016 (Climate Change and National Security), is hereby reinstated.

PART II—TAKING A GOVERNMENT-WIDE APPROACH TO THE CLIMATE CRISIS

SEC. 201. *Policy.* Even as our Nation emerges from profound public health and economic crises borne of a pandemic, we face a climate crisis that threatens our people and communities, public health and economy, and, starkly, our ability to live on planet Earth. Despite the peril that is already evident, there is promise in the solutions—opportunities to create well-paying union jobs to build a modern and sustainable infrastructure, deliver an equitable, clean energy future, and put the United States on a path to achieve net-zero emissions, economy-wide, by no later than 2050.

We must listen to science—and act. We must strengthen our clean air and water protections. We must hold polluters accountable for their actions. We must deliver environmental justice in communities all across America. The Federal Government must drive assessment, disclosure, and mitigation of climate pollution and climate-related risks in every sector of our economy, marshaling the creativity, courage, and capital necessary to make our Nation resilient in the face of this threat. Together, we must combat the climate crisis with bold, progressive action that combines the full capacity of the Federal Government with efforts from every corner of our Nation, every level of government, and every sector of our economy.

It is the policy of my Administration to organize and deploy the full capacity of its agencies to combat the climate crisis to implement a Government-wide ap-

proach that reduces climate pollution in every sector of the economy; increases resilience to the impacts of climate change; protects public health; conserves our lands, waters, and biodiversity; delivers environmental justice; and spurs well-paying union jobs and economic growth, especially through innovation, commercialization, and deployment of clean energy technologies and infrastructure. Successfully meeting these challenges will require the Federal Government to pursue such a coordinated approach from planning to implementation, coupled with substantive engagement by stakeholders, including State, local, and Tribal governments.

SEC. 202. *White House Office of Domestic Climate Policy.* There is hereby established the White House Office of Domestic Climate Policy (Climate Policy Office) within the Executive Office of the President, which shall coordinate the policy-making process with respect to domestic climate-policy issues; coordinate domestic climate-policy advice to the President; ensure that domestic climate-policy decisions and programs are consistent with the President's stated goals and that those goals are being effectively pursued; and monitor implementation of the President's domestic climate-policy agenda. (c) **Prioritizing Actions.** To the extent permitted by law, Task Force members shall prioritize action on climate change in their policy-making and budget processes, in their contracting and procurement, and in their engagement with State, local, Tribal, and territorial governments; workers and communities; and leaders across all the sectors of our economy.

USE OF THE FEDERAL GOVERNMENT'S BUYING POWER AND REAL PROPERTY AND ASSET MANAGEMENT

SEC. 204. Policy. It is the policy of my Administration to lead the Nation's effort to combat the climate crisis by example—specifically, by aligning the management of Federal procurement and real property, public lands and waters, and financial programs to support robust climate action. By providing an immediate, clear, and stable source of product demand, increased transparency and data, and robust standards for the market, my Administration will help to catalyze private sector investment into, and accelerate the advancement of America's industrial capacity to supply, domestic clean energy, buildings, vehicles, and other necessary products and materials.

SEC. 205. Federal Clean Electricity and Vehicle Procurement Strategy. (a) The Chair of the Council on Environmental Quality, the Administrator of General Services, and the Director of the Office of Management and Budget, in coordination with the Secretary of Commerce, the Secretary of Labor, the Secretary of Energy, and the heads of other relevant agencies, shall assist the National Climate Advisor, through the Task Force established in section 203 of this order, in developing a comprehensive plan to create good jobs and stimulate clean energy industries by revitalizing the Federal Government's sustainability efforts.

(b) The plan shall aim to use, as appropriate and consistent with applicable law, all available procurement authorities to achieve or facilitate:

(i) a carbon pollution-free electricity sector no later than 2035; and

(ii) clean and zero-emission vehicles for Federal, State, local, and Tribal government fleets, including vehicles of the United States Postal Service.

(c) If necessary, the plan shall recommend any additional legislation needed to accomplish these objectives.

(d) The plan shall also aim to ensure that the United States retains the union jobs integral to and involved in running and maintaining clean and zero-emission fleets, while spurring the creation of union jobs in the manufacture of those new vehicles. The plan shall be submitted to the Task Force within 90 days of the date of this order [Jan. 27, 2021].

SEC. 206. Procurement Standards. Consistent with the Executive Order of January 25, 2021, entitled, "Ensuring the Future Is Made in All of America by All of America's Workers," [Ex. Ord. No. 14005, 41 U.S.C. 8301 note] agencies shall adhere to the requirements of the Made in America Laws in making clean energy, energy efficiency, and clean energy procurement decisions. Agencies shall, consistent with applicable law, apply and enforce the Davis-Bacon Act [see 40 U.S.C. 3141-3144, 3146, and 3147] and prevailing wage and benefit requirements. The Secretary of Labor shall take steps to update prevailing wage requirements. The Chair of the Council on Environmental Quality shall consider additional administrative steps and guidance to assist the Federal Acquisition Regulatory Council in developing regulatory amendments to promote increased contractor attention on reduced carbon emission and Federal sustainability.

SEC. 207. Renewable Energy on Public Lands and in Offshore Waters. The Secretary of the Interior shall review

and permitting processes on public lands and in offshore waters to identify to the Task Force steps that can be taken, consistent with applicable law, to increase renewable energy production on those lands and in those waters, with the goal of doubling offshore wind by 2030 while ensuring robust protection for our lands, waters, and biodiversity and creating good jobs. In conducting this review, the Secretary of the Interior shall consult, as appropriate, with the heads of relevant agencies, including the Secretary of Defense, the Secretary of Agriculture, the Secretary of Commerce, through the Administrator of the National Oceanic and Atmospheric Administration, the Secretary of Energy, the Chair of the Council on Environmental Quality, State and Tribal authorities, project developers, and other interested parties. The Secretary of the Interior shall engage with Tribal authorities regarding the development and management of renewable and conventional energy resources on Tribal lands.

SEC. 208. Oil and Natural Gas Development on Public Lands and in Offshore Waters. To the extent consistent with applicable law, the Secretary of the Interior shall pause new oil and natural gas leases on public lands or in offshore waters pending completion of a comprehensive review and reconsideration of Federal oil and gas permitting and leasing practices in light of the Secretary of the Interior's broad stewardship responsibilities over the public lands and in offshore waters, including potential climate and other impacts associated with oil and gas activities on public lands or in offshore waters. The Secretary of the Interior shall complete that review in consultation with the Secretary of Agriculture, the Secretary of Commerce, through the National Oceanic and Atmospheric Administration, and the Secretary of Energy. In conducting this analysis, and to the extent consistent with applicable law, the Secretary of the Interior shall consider whether to adjust royalties associated with coal, oil, and gas resources extracted from public lands and offshore waters, or take other appropriate action, to account for corresponding climate costs.

SEC. 209. Fossil Fuel Subsidies. The heads of agencies shall identify for the Director of the Office of Management and Budget and the National Climate Advisor any fossil fuel subsidies provided by their respective agencies, and then take steps to ensure that, to the extent consistent with applicable law, Federal funding is not directly subsidizing fossil fuels. The Director of the Office of Management and Budget shall seek, in coordination with the heads of agencies and the National Climate Advisor, to eliminate fossil fuel subsidies from the budget request for Fiscal Year 2022 and thereafter.

SEC. 210. Clean Energy in Financial Management. The heads of agencies shall identify opportunities for Federal funding to spur innovation, commercialization, and deployment of clean energy technologies and infrastructure for the Director of the Office of Management and Budget and the National Climate Advisor, and then take steps to ensure that, to the extent consistent with applicable law, Federal funding is used to spur innovation, commercialization, and deployment of clean energy technologies and infrastructure. The Director of the Office of Management and Budget, in coordination with agency heads and the National Climate Advisor, shall seek to prioritize such investments in the President's budget request for Fiscal Year 2022 and thereafter.

SEC. 211. Climate Action Plans and Data and Information Products to Improve Adaptation and Increase Resilience. (a) The head of each agency shall submit a draft action plan to the Task Force and the Federal Chief Sustainability Officer within 120 days of the date of this order that describes steps the agency can take with regard to its facilities and operations to bolster adaptation and increase resilience to the impacts of climate change. Action plans should, among other things, describe the agency's climate vulnerabilities and describe the agency's plan to use the power of procurement to increase the energy and water efficiency of United States Government installations, buildings, and

facilities and ensure they are climate-ready. Agencies shall consider the feasibility of using the purchasing power of the Federal Government to drive innovation, and shall seek to increase the Federal Government's resilience against supply chain disruptions. Such disruptions put the Nation's manufacturing sector at risk, as well as consumer access to critical goods and services. Agencies shall make their action plans public, and post them on the agency website, to the extent consistent with applicable law.

(b) Within 30 days of an agency's submission of an action plan, the Federal Chief Sustainability Officer, in coordination with the Director of the Office of Management and Budget, shall review the plan to assess its consistency with the policy set forth in section 204 of this order and the priorities issued by the Office of Management and Budget.

(c) After submitting an initial action plan, the head of each agency shall submit to the Task Force and Federal Chief Sustainability Officer progress reports annually on the status of implementation efforts. Agencies shall make progress reports public and post them on the agency website, to the extent consistent with applicable law. The heads of agencies shall assign their respective agency Chief Sustainability Officer the authority to perform duties relating to implementation of this order within the agency, to the extent consistent with applicable law.

(d) To assist agencies and State, local, Tribal, and territorial governments, communities, and businesses in preparing for and adapting to the impacts of climate change, the Secretary of Commerce, through the Administrator of the National Oceanic and Atmospheric Administration, the Secretary of Homeland Security, through the Administrator of the Federal Emergency Management Agency, and the Director of the Office of Science and Technology Policy, in coordination with the heads of other agencies, as appropriate, shall provide to the Task Force a report on ways to expand and improve climate forecast capabilities and information products for the public. In addition, the Secretary of the Interior and the Deputy Director for Management of the Office of Management and Budget, in their capacities as the Chair and Vice-Chair of the Federal Geographic Data Committee, shall assess and provide to the Task Force a report on the potential development of a consolidated Federal geographic mapping service that can facilitate public access to climate-related information that will assist Federal, State, local, and Tribal governments in climate planning and resilience activities.

EMPOWERING WORKERS THROUGH REBUILDING OUR INFRASTRUCTURE FOR A SUSTAINABLE ECONOMY

SEC. 212. *Policy.* This Nation needs millions of construction, manufacturing, engineering, and skilled-trades workers to build a new American infrastructure and clean energy economy. These jobs will create opportunities for young people and for older workers shifting to new professions, and for people from all backgrounds and communities. Such jobs will bring opportunity to communities too often left behind—places that have suffered as a result of economic shifts and places that have suffered the most from persistent pollution, including low-income rural and urban communities, communities of color, and Native communities.

SEC. 213. *Sustainable Infrastructure.* (a) The Chair of the Council on Environmental Quality and the Director of the Office of Management and Budget shall take steps, consistent with applicable law, to ensure that Federal infrastructure investment reduces climate pollution, and to require that Federal permitting decisions consider the effects of greenhouse gas emissions and climate change. In addition, they shall review, and report to the National Climate Advisor on, siting and permitting processes, including those in progress under the auspices of the Federal Permitting Improvement Steering Council, and identify steps that can be taken, consistent with applicable law, to accelerate the deployment of clean energy and transmission projects in an environmentally stable manner.

(b) Agency heads conducting infrastructure reviews shall, as appropriate, consult from an early stage with State, local, and Tribal officials involved in permitting or authorizing proposed infrastructure projects to develop efficient timelines for decision-making that are appropriate given the complexities of proposed projects.

EMPOWERING WORKERS BY ADVANCING CONSERVATION, AGRICULTURE, AND REFORESTATION

SEC. 214. *Policy.* It is the policy of my Administration to put a new generation of Americans to work conserving our public lands and waters. The Federal Government must protect America's natural treasures, increase reforestation, improve access to recreation, and increase resilience to wildfires and storms, while creating well-paying union jobs for more Americans, including more opportunities for women and people of color in occupations where they are underrepresented. America's farmers, ranchers, and forest landowners have an important role to play in combating the climate crisis and reducing greenhouse gas emissions, by sequestering carbon in soils, grasses, trees, and other vegetation and sourcing sustainable bioproducts and fuels. Coastal communities have an essential role to play in mitigating climate change and strengthening resilience by protecting and restoring coastal ecosystems, such as wetlands, seagrasses, coral and oyster reefs, and mangrove and kelp forests, to protect vulnerable coastlines, sequester carbon, and support biodiversity and fisheries.

SEC. 215. *Civilian Climate Corps.* In furtherance of the policy set forth in section 214 of this order, the Secretary of the Interior, in collaboration with the Secretary of Agriculture and the heads of other relevant agencies, shall submit a strategy to the Task Force within 90 days of the date of this order for creating a Civilian Climate Corps Initiative, within existing appropriations, to mobilize the next generation of conservation and resilience workers and maximize the creation of accessible training opportunities and good jobs. The initiative shall aim to conserve and restore public lands and waters, bolster community resilience, increase reforestation, increase carbon sequestration in the agricultural sector, protect biodiversity, improve access to recreation, and address the changing climate.

SEC. 216. *Conserving Our Nation's Lands and Waters.* (a) The Secretary of the Interior, in consultation with the Secretary of Agriculture, the Secretary of Commerce, the Chair of the Council on Environmental Quality, and the heads of other relevant agencies, shall submit a report to the Task Force within 90 days of the date of this order recommending steps that the United States should take, working with State, local, Tribal, and territorial governments, agricultural and forest landowners, fishermen, and other key stakeholders, to achieve the goal of conserving at least 30 percent of our lands and waters by 2030.

(i) The Secretary of the Interior, the Secretary of Agriculture, the Secretary of Commerce, through the Administrator of the National Oceanic and Atmospheric Administration, and the Chair of the Council on Environmental Quality shall, as appropriate, solicit input from State, local, Tribal, and territorial officials, agricultural and forest landowners, fishermen, and other key stakeholders in identifying strategies that will encourage broad participation in the goal of conserving 30 percent of our lands and waters by 2030.

(ii) The report shall propose guidelines for determining whether lands and waters qualify for conservation, and it also shall establish mechanisms to measure progress toward the 30-percent goal. The Secretary of the Interior shall subsequently submit annual reports to the Task Force to monitor progress.

(b) The Secretary of Agriculture shall:

(i) initiate efforts in the first 60 days from the date of this order to collect input from Tribes, farmers, ranchers, forest owners, conservation groups, firefighters, and other stakeholders on how to best use Department of Agriculture programs, funding and financing capacities, and other authorities, and how to en-

courage the voluntary adoption of climate-smart agricultural and forestry practices that decrease wildfire risk fueled by climate change and result in additional, measurable, and verifiable carbon reductions and sequestration and that source sustainable bioproducts and fuels; and

(ii) submit to the Task Force within 90 days of the date of this order a report making recommendations for an agricultural and forestry climate strategy.
