for persons of low and moderate income. Consistent with this primary objective, not less than 70 percent of the aggregate of the Federal assistance provided to States and units of general local government under section 5306 of this title and, if applicable, the funds received as a result of a guarantee or a grant under section 5308 of this title, shall be used for the support of activities that benefit persons of low and moderate income, and the Federal assistance provided in this chapter is for the support of community development activities which are directed toward the following specific objectives—

(1) the elimination of slums and blight and the prevention of blighting influences and the deterioration of property and neighborhood and community facilities of importance to the welfare of the community, principally persons of low and moderate income;

(2) the elimination of conditions which are detrimental to health, safety, and public welfare, through code enforcement, demolition, interim rehabilitation assistance, and related activities;

(3) the conservation and expansion of the Nation's housing stock in order to provide a decent home and a suitable living environment for all persons, but principally those of low and moderate income;

(4) the expansion and improvement of the quantity and quality of community services, principally for persons of low and moderate income, which are essential for sound community development and for the development of viable urban communities;

(5) a more rational utilization of land and other natural resources and the better arrangement of residential, commercial, industrial, recreational, and other needed activity centers;

(6) the reduction of the isolation of income groups within communities and geographical areas and the promotion of an increase in the diversity and vitality of neighborhoods through the spatial deconcentration of housing opportunities for persons of lower income and the revitalization of deteriorating or deteriorated neighborhoods;

(7) the restoration and preservation of properties of special value for historic, architectural, or esthetic reasons;

(8) the alleviation of physical and economic distress through the stimulation of private investment and community revitalization in areas with population outmigration or a stagnating or declining tax base; and

(9) the conservation of the Nation's scarce energy resources, improvement of energy efficiency, and the provision of alternative and renewable energy sources of supply.

It is the intent of Congress that the Federal assistance made available under this chapter not be utilized to reduce substantially the amount of local financial support for community development activities below the level of such support prior to the availability of such assistance.

(d) Consolidation of complex and overlapping Federal assistance programs into consistent system of Federal aid

It is also the purpose of this chapter to further the development of a national urban growth pol-

icy by consolidating a number of complex and overlapping programs of financial assistance to communities of varying sizes and needs into a consistent system of Federal aid which—

(1) provides assistance on an annual basis, with maximum certainty and minimum delay, upon which communities can rely in their planning;

(2) encourages community development activities which are consistent with comprehensive local and areawide development planning;

(3) furthers achievement of the national housing goal of a decent home and a suitable living environment for every American family; and

(4) fosters the undertaking of housing and community development activities in a coordinated and mutually supportive manner by Federal agencies and programs, as well as by communities.

“(3) CRITERIA.—The funding formula required under paragraph (1) shall ensure that any amounts appropriated or otherwise made available under this section are allocated to States and units of general local government with the greatest need, as such need is determined in the discretion of the Secretary based on—

“(A) the number and percentage of home foreclosures in each State or unit of general local government;

“(B) the number and percentage of homes financed by a subprime mortgage related loan in each State or unit of general local government; and

“(C) the number and percentage of homes in default or delinquency in each State or unit of general local government.

“(B) with the highest percentage of homes financed by a subprime mortgage related loan; and

“(C) identified by the State or unit of general local government as likely to face a significant rise in the rate of home foreclosures.

“(3) EXCEPTION FOR CERTAIN STATES.—Each State that has received the minimum allocation of amounts pursuant to the requirement under section 2302 may, to the extent such State has fulfilled the requirements of paragraph (2), distribute any remaining amounts to areas with homeowners at risk of foreclosure or in foreclosure without regard to the percentage of home foreclosures in such areas.

“(a) IN GENERAL.—The Secretary of Housing and Urban Development shall, for not less than 10 jurisdictions that are metropolitan cities or urban counties for purposes of title I of the Housing and Community Development Act of 1974 [42 U.S.C. 5301 et seq.], grant exceptions not later than 90 days after the date of the enactment of this Act [Oct. 21, 1998] for such jurisdictions that provide that—

FINDINGS AND PURPOSE

Pub. L. 100-242, § 2, Feb. 5, 1988, 101 Stat. 1819, provided that:

“(a) FINDINGS.—The Congress finds that—

“(1) for the past 50 years, the Federal Government has taken the leading role in enabling the people of the Nation to be the best housed in the world, and recent reductions in Federal assistance have contributed to a deepening housing crisis for low- and moderate-income families;

“(2) the efforts of the Federal Government have included a system of specialized lending institutions, favorable tax policies, construction assistance, mortgage insurance, loan guarantees, secondary markets, and interest and rental subsidies, that have enabled people to rent or buy affordable, decent, safe, and sanitary housing; and

“(3) the tragedy of homelessness in urban and suburban communities across the Nation, involving a record number of people, dramatically demonstrates the lack of affordable residential shelter, and people living on the economic margins of our society (lower income families, the elderly, the working poor, and the deinstitutionalized) have few available alternatives for shelter.

“(b) PURPOSE.—The purpose of this Act [see Short Title of 1988 Amendment note above], therefore, is—

“(1) to reaffirm the principle that decent and affordable shelter is a basic necessity, and the general welfare of the Nation and the health and living standards of its people require the addition of new housing units to remedy a serious shortage of housing units for all Americans, particularly for persons of low and moderate income;

“(2) to make the distribution of direct and indirect housing assistance more equitable by providing Federal assistance for the less affluent people of the Nation;

“(3) to provide needed housing assistance for homeless people and for persons of low and moderate income who lack affordable, decent, safe, and sanitary housing; and

“(4) to reform existing programs to ensure that such assistance is delivered in the most efficient manner possible.”

BUDGET COMPLIANCE

Pub. L. 100-242, § 3, Feb. 5, 1988, 101 Stat. 1819, provided that:

“(a) IN GENERAL.—This Act and the amendments made by this Act [see Short Title of 1988 Amendment note above] may not be construed to provide for new budget authority, budget outlays, or new entitlement authority, for fiscal year 1988 in excess of the appropriate aggregate levels established by the concurrent resolution on the budget for such fiscal year for the programs authorized by this Act and the amendments made by this Act.

“(b) DEFINITIONS.—For purposes of this section, the terms ‘budget authority’, ‘budget outlays’, ‘concurrent resolution on the budget’, and ‘entitlement authority’ have the meanings given such terms in section 3 of the Congressional Budget Act of 1974 (2 U.S.C. 622).”

CREDIT LIMITATION

Pub. L. 100-242, § 4, Feb. 5, 1988, 101 Stat. 1819, provided that: “Any new credit authority (as defined in section 3 of the Congressional Budget Act of 1974 [2 U.S.C. 622]) which is provided by this Act [see Short Title of 1988 Amendment note above], or by an amendment made by this Act, shall be effective only to such extent or in such amounts as are provided in appropriation Acts.”

LIMITATION ON SPENDING AUTHORITY

Pub. L. 100-242, § 5, Feb. 5, 1988, 101 Stat. 1820, provided that: “Any new spending authority (as defined in section 401(c) of the Congressional Budget Act of 1974 [2 U.S.C. 651(c)]) which is provided by this Act, or by an amendment made by this Act [see Short Title of 1988 Amendment note above], shall be effective only to such extent or in such amounts as are provided in appropriation Acts.”

LIMITATION ON WITHHOLDING OR CONDITIONING OF ASSISTANCE

Pub. L. 93-383, title VIII, § 817, Aug. 22, 1974, 88 Stat. 739, as amended by Pub. L. 98-181, title I [title III, § 302(c)], Nov. 30, 1983, 97 Stat. 1206, provided that: “Assistance provided for in this Act [see Short Title note above] the National Housing Act, [12 U.S.C. 1701 et seq.], the United States Housing Act of 1937 [42 U.S.C. 1437 et seq.], the Housing Act of 1949 [42 U.S.C. 1441 et seq.], the Demonstration Cities and Metropolitan Development Act of 1966 [see Short Title note set out under section 3331 of this title], the Housing and Urban Development Acts of 1965, 1968, 1969, and 1970 [see Short

Title notes set out under section 1701 of Title 12, Banks and Banking], and section 17 of the United States Housing Act of 1937 [42 U.S.C. 1437o] shall not be withheld or made subject to conditions or preference by reason of the tax-exempt status of bonds or other obligations issued or to be issued to provide financing for use in connection with such assistance, except where otherwise expressly provided or authorized by law.”

EX. ORD. NO. 13853. ESTABLISHING THE WHITE HOUSE OPPORTUNITY AND REVITALIZATION COUNCIL

Ex. Ord. No. 13853, Dec. 12, 2018, 83 F.R. 65071, provided:

SECTION 1. *Purpose.* Fifty-two million Americans live in economically distressed communities. Despite the growing national economy, these communities are plagued by high poverty levels, failing schools, and a scarcity of jobs. In December 2017, I signed into law a bill originally introduced as the Tax Cuts and Jobs Act (Act) [title I of Pub. L. 115-97, see Tables for classification], which established a historic new Federal tax incentive that promotes long-term equity investments in low-income communities designated as “qualified opportunity zones” by the Governors of States or territories. In order to further facilitate such investment, my Administration will implement reforms that streamline existing regulations, protect taxpayers by optimizing use of Federal resources, stimulate economic opportunity and mobility, encourage entrepreneurship, expand quality educational opportunities, develop and rehabilitate quality housing stock, promote workforce development, and promote safety and prevent crime in urban and economically distressed communities.

This order establishes a White House Council to carry out my Administration’s plan to encourage public and private investment in urban and economically distressed areas, including qualified opportunity zones. The Council shall lead joint efforts across executive departments and agencies (agencies) to engage with State, local, and tribal governments to find ways to better use public funds to revitalize urban and economically distressed communities.

SEC. 2. *Establishment.* There is established a White House Opportunity and Revitalization Council (Council). - (xii) the Director of the Office of Management and Budget;
- (xiii) the Administrator of the Small Business Administration;
- (xiv) the Assistant to the President for Economic Policy;
- (xv) the Chairman of the Council of Economic Advisers;
- (xvi) the Chairman of the Council on Environmental Quality; and
- (xvii) the heads of such other agencies, offices, or independent regulatory agencies as the Chair may, from time to time, designate or invite.

(b) ADMINISTRATION. The Vice Chair shall convene regular meetings of the Council, determine its agenda, and direct its work, all under the guidance of the Chair. The Department of Housing and Urban Development shall provide funding and administrative support for the Council to the extent permitted by law and within existing appropriations. The Secretary of HUD shall designate a HUD officer or employee to serve as the Executive Director of the Council, who shall be responsible for coordinating the Council’s work.

SEC. 3. *Mission and Function of the Council.* The Council shall, to the extent permitted by law, work across agencies, giving consideration to existing agency initiatives, to:

(a) assess the actions each agency can take under existing authorities to prioritize or focus Federal investments and programs on urban and economically distressed communities, including qualified opportunity zones;

(b) assess the actions each agency can take under existing authorities to minimize all regulatory and administrative costs and burdens that discourage public and private investment in urban and economically distressed communities, including qualified opportunity zones;

(c) regularly consult with officials from State, local, and tribal governments and individuals from the private sector to solicit feedback on how best to stimulate the economic development of urban and economically distressed areas, including qualified opportunity zones;

(d) coordinate Federal interagency efforts to help ensure that private and public stakeholders—such as investors; business owners; institutions of higher education (including Historically Black Colleges and Universities, as defined by 50 U.S.C. 3224(g)(2), and tribally controlled colleges and universities, as defined by 25 U.S.C. 1801(a)(4)); K-12 education providers; early care and education providers; human services agencies; State, local, and tribal leaders; public housing agencies; non-profit organizations; and economic development organizations—can successfully develop strategies for economic growth and revitalization;

(e) recommend policies that would:

(i) reduce and streamline regulatory and administrative burdens, including burdens on applicants applying for multiple Federal assistance awards;

(ii) help community-based applicants, including recipients of investments from qualified opportunity funds, identify and apply for relevant Federal resources; and

(iii) make it easier for recipients to receive and manage multiple types of public and private investments, including by aligning certain program requirements;

(f) evaluate the following:

(i) whether and how agencies can prioritize support for urban and economically distressed areas, including qualified opportunity zones, in their grants, financing, and other assistance;

(ii) appropriate methods for Federal cooperation with and support for States, localities, and tribes that are innovatively and strategically facilitating economic growth and inclusion in urban and economically distressed communities, including qualified opportunity zones, consistent with preserving State, local, and tribal control;

(iii) whether and how to develop an integrated web-based tool through which entrepreneurs, investors, and other stakeholders can see the full range of applicable Federal financing programs and incentives available to projects located in urban and economically distressed areas, including qualified opportunity zones;

(iv) whether and how to consider urban and economically distressed areas, including qualified opportunity zones, as possible locations for Federal buildings, through consultation with the General Services Administration;

(v) whether and how Federal technical assistance, planning, financing tools, and implementation strate-

gies can be coordinated across agencies to assist communities in addressing economic problems, engaging in comprehensive planning, and advancing regional collaboration; and

(vi) what data, metrics, and methodologies can be used to measure the effectiveness of public and private investments in urban and economically distressed communities, including qualified opportunity zones.

SEC. 4. Reports. The Assistant to the President for Domestic Policy shall, on behalf of the Council, be responsible for submitting to the President:

(a) Within 90 days of the date of this order [Dec. 12, 2018], a detailed work plan for how, and by when, the Council will accomplish the goals detailed in section 3 of this order;

(b) Within 210 days of the date of this order, a list of recommended changes to Federal statutes, regulations, policies, and programs that would encourage public and private investment in urban and economically distressed communities, including qualified opportunity zones;

(c) Within 1 year of the date of this order, a list of recommended changes to Federal statutes, regulations, policies, and programs that would help State, local, and tribal governments to better identify, use, and administer Federal resources in urban and economically distressed communities, including qualified opportunity zones;

(d) Within 1 year of the date of this order, a list of best practices that could be integrated into public and private investments in urban and economically distressed communities, including qualified opportunity zones, in order to increase economic growth, encourage new business formation, and revitalize communities; and

(e) Any subsequent reports that the President may request or that the Council may deem appropriate.

SEC. 5. Amendments to Executive Order 13845. [Amended Ex. Ord. No. 13845, formerly set out as a note under section 3101 of Title 29, Labor.]

SEC. 6. General Provisions. (a) The heads of agencies shall assist and provide information to the Council, consistent with applicable law, as may be necessary for the Council to carry out its functions.

(b) The heads of agencies shall consider the reports and recommendations of the Council in carrying out their responsibilities related to urban and economically distressed communities.

(c) The Council shall terminate on January 21, 2021, unless extended by the President.

(d) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department, agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(e) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(f) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

DONALD J. TRUMP.

Notwithstanding the second sentence of this paragraph, a city may elect not to retain its classification as a metropolitan city. Any city classified as a metropolitan city pursuant to this paragraph, and that no longer qualifies as a metropolitan city in a fiscal year beginning after fiscal year 1989, shall retain its classification as a metropolitan city for such fiscal year and the succeeding fiscal year, except that in such succeeding fiscal year (A) the amount of the grant to such city shall be 50 percent of the amount calculated under section 5306(b) of this title; and (B) the remaining 50 percent shall be added to the amount allocated under section 5306(d) of this title to the State in which the city is located and the city shall be eligible in such succeeding fiscal year to receive a distribution from the State allocation under section 5306(d) of this title as increased by this sentence. Any unit of general local government that was classified as a metropolitan city in any fiscal year, may, upon submission of written notification to the Secretary, relinquish such classification for all purposes under this chapter if it elects to have its population included with the population of a county for purposes of qualifying for assistance (for such following fiscal year) under section 5306 of this title as an urban county under

(5) The term "city" means (A) any unit of general local government which is classified as a municipality by the United States Bureau of the Census or (B) any other unit of general local government which is a town or township and which, in the determination of the Secretary, (i) possesses powers and performs functions comparable to those associated with municipalities, (ii) is closely settled, and (iii) contains within its boundaries no incorporated places as defined by the United States Bureau of the Census which have not entered into cooperation agreements with such town or township to undertake or to assist in the undertaking of essential community development and housing assistance activities.

§ 5304. Statement of activities and review

(a) Statement of objectives and projected use of funds by grantee prerequisite to receipt of grant; publication of proposals by grantees; notice and comment; citizen participation plan

(1) Prior to the receipt in any fiscal year of a grant under section 5306(b) of this title by any metropolitan city or urban county, under section 5306(d) of this title by any State, under section 5306(d)(2)(B) of this title by any unit of general local government, or under section 5306(a)(3) of this title by any insular area, the grantee shall have prepared a final statement of community development objectives and projected use of funds and shall have provided the Secretary with the certifications required in subsection (b) and, where appropriate, subsection (c). In the case of metropolitan cities and urban counties receiving grants pursuant to section 5306(b) of this title, units of general local government receiving grants pursuant to section 5306(d)(2)(B) of this title, and insular areas receiving grants pursuant to section 5306(a)(3) of this title, the statement of projected use of funds shall consist of proposed community development activities. In the case of States receiving grants pursuant to section 5306(d) of this title, the statement of projected use of funds shall consist of the method by which the States will distribute funds to units of general local government.

(2) In order to permit public examination and appraisal of such statements, to enhance the public accountability of grantees, and to facili-

tate coordination of activities with different levels of government, the grantee shall in a timely manner—

(A) furnish citizens or, as appropriate, units of general local government information concerning the amount of funds available for proposed community development and housing activities and the range of activities that may be undertaken, including the estimated amount proposed to be used for activities that will benefit persons of low and moderate income and the plans of the grantee for minimizing displacement of persons as a result of activities assisted with such funds and to assist persons actually displaced as a result of such activities;

(B) publish a proposed statement in such manner to afford affected citizens or, as appropriate, units of general local government an opportunity to examine its content and to submit comments on the proposed statement and on the community development performance of the grantee;

(C) hold one or more public hearings to obtain the views of citizens on community development and housing needs;

(D) provide citizens or, as appropriate, units of general local government with reasonable access to records regarding the past use of funds received under section 5306 of this title by the grantee; and

(E) provide citizens or, as appropriate, units of general local government with reasonable notice of, and opportunity to comment on, any substantial change proposed to be made in the use of funds received under section 5306 of this title from one eligible activity to another or in the method of distribution of such funds.

In preparing the final statement, the grantee shall consider any such comments and views and may, if deemed appropriate by the grantee, modify the proposed statement. The final statement shall be made available to the public, and a copy shall be furnished to the Secretary together with the certifications required under subsection (b) and, where appropriate, subsection (c). Any final statement of activities may be modified or amended from time to time by the grantee in accordance with the same procedures required in this paragraph for the preparation and submission of such statement.

(3) A grant under section 5306 of this title may be made only if the grantee certifies that it is following a detailed citizen participation plan which—

(A) provides for and encourages citizen participation, with particular emphasis on participation by persons of low and moderate income who are residents of slum and blight areas and of areas in which section 106 [42 U.S.C. 5306] funds are proposed to be used, and in the case of a grantee described in section 5306(a) of this title, provides for participation of residents in low and moderate income neighborhoods as defined by the local jurisdiction;

(B) provides citizens with reasonable and timely access to local meetings, information, and records relating to the grantee's proposed use of funds, as required by regulations of the Secretary, and relating to the actual use of funds under this chapter;

(C) provides for technical assistance to groups representative of persons of low and moderate income that request such assistance in developing proposals with the level and type of assistance to be determined by the grantee;

(D) provides for public hearings to obtain citizen views and to respond to proposals and questions at all stages of the community development program, including at least the development of needs, the review of proposed activities, and review of program performance, which hearings shall be held after adequate notice, at times and locations convenient to potential or actual beneficiaries, and with accommodation for the handicapped;

(E) provides for a timely written answer to written complaints and grievances, within 15 working days where practicable; and

(F) identifies how the needs of non-English speaking residents will be met in the case of public hearings where a significant number of non-English speaking residents can be reasonably expected to participate.

This paragraph may not be construed to restrict the responsibility or authority of the grantee for the development and execution of its community development program.

(b) Certification of enumerated criteria by grantee to Secretary

Any grant under section 5306 of this title shall be made only if the grantee certifies to the satisfaction of the Secretary that—

(3) the projected use of funds has been developed so as to give maximum feasible priority to activities which will benefit low- and moderate-income families or aid in the prevention or elimination of slums or blight, and the projected use of funds may also include activities which the grantee certifies are designed to meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community where other financial resources are not available to meet such needs, except that (A) the aggregate use of funds received under section 5306 of this title and, if applicable, as a result of a guarantee or a grant under section 5308 of this title, during a period specified by the grantee of not more than 3 years, shall principally benefit persons of low and moderate income in a manner that ensures that not less than 70 percent of such funds are used for activities that benefit such persons during such period; and (B) a grantee that borders on the Great Lakes and that experiences significant adverse financial and physical effects due to lakefront erosion or flooding may include in the projected use of funds activities that

are clearly designed to alleviate the threat posed, and rectify the damage caused, by such erosion or flooding if such activities will principally benefit persons of low and moderate income and the grantee certifies that such activities are necessary to meet other needs having a particular urgency;

(4) it has developed a community development plan pursuant to subsection (m), for the period specified by the grantee under paragraph (3), that identifies community development needs and specifies both short- and long-term community development objectives that have been developed in accordance with the primary objective and requirements of this chapter;

(5) the grantee will not attempt to recover any capital costs of public improvements assisted in whole or part under section 5306 of this title or with amounts resulting from a guarantee under section 5308 of this title by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements, unless (A) funds received under section 5306 of this title are used to pay the proportion of such fee or assessment that relates to the capital costs of such public improvements that are financed from revenue sources other than under this chapter; or (B) for purposes of assessing any amount against properties owned and occupied by persons of moderate income, the grantee certifies to the Secretary that it lacks sufficient funds received under section 5306 of this title to comply with the requirements of subparagraph (A); and

(6) the grantee will comply with the other provisions of this chapter and with other applicable laws.

(c) Special certifications required for certain grants

A grant may be made under section 5306(b) of this title only if the unit of general local government certifies that it is following—

(1) a current housing affordability strategy which has been approved by the Secretary in accordance with section 12705 of this title, or

(2) a housing assistance plan which was approved by the Secretary during the 180-day period beginning on November 28, 1990, or during such longer period as may be prescribed by the Secretary in any case for good cause.

(d) Residential antidisplacement and relocation assistance plan; certification of adherence; contents

(1) A grant under section 5306 or 5318 of this title may be made only if the grantee certifies that it is following a residential antidisplacement and relocation assistance plan. A grantee receiving a grant under section 5306(a) of this title or section 5318 of this title shall so certify to the Secretary. A unit of general local government receiving amounts from a State under section 5306(d) of this title shall so certify to the State, and a unit of general local government receiving amounts from the Secretary under section 5306(d) of this title shall so certify to the Secretary.

(2) The residential antidisplacement and relocation assistance plan shall in connection with a development project assisted under section 5306 or 5318 of this title—

(A) in the event of such displacement, provide that—

(i) governmental agencies or private developers shall provide within the same community comparable replacement dwellings for the same number of occupants as could have been housed in the occupied and vacant occupiable low and moderate income dwelling units demolished or converted to a use other than for housing for low and moderate income persons, and provide that such replacement housing may include existing housing assisted with project based assistance provided under section 1437f of this title;

(ii) such comparable replacement dwellings shall be designed to remain affordable to persons of low and moderate income for 10 years from the time of initial occupancy;

(iii) relocation benefits shall be provided for all low or moderate income persons who occupied housing demolished or converted to a use other than for low or moderate income housing, including reimbursement for actual and reasonable moving expenses, security deposits, credit checks, and other moving-related expenses, including any interim living costs; and in the case of displaced persons of low and moderate income, provide either—

(I) compensation sufficient to ensure that, for a 5-year period, the displaced families shall not bear, after relocation, a ratio of shelter costs to income that exceeds 30 percent; or

(II) if elected by a family, a lump-sum payment equal to the capitalized value of the benefits available under subclause (I) to permit the household to secure participation in a housing cooperative or mutual housing association; and

(iv) persons displaced shall be relocated into comparable replacement housing that is—

(I) decent, safe, and sanitary;

(II) adequate in size to accommodate the occupants;

(III) functionally equivalent; and

(IV) in an area not subject to unreasonably adverse environmental conditions;

(B) provide that persons displaced shall have the right to elect, as an alternative to the benefits under this subsection, to receive benefits under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601 et seq.) if such persons determine that it is in their best interest to do so; and

(C) provide that where a claim for assistance under subparagraph (A)(iv) is denied by a grantee, the claimant may appeal to the Secretary in the case of a grant under section 5306 or 5318 of this title or to the appropriate State official in the case of a grant under section 5306(d) of this title, and that the decision of the Secretary or the State official shall be final unless a court determines the decision was arbitrary and capricious.

(3) Paragraphs (2)(A)(i) and (2)(A)(ii) shall not apply in any case in which the Secretary finds, on the basis of objective data, that there is available in the area an adequate supply of habitable affordable housing for low and moderate income persons. A determination under this paragraph is final and nonreviewable.

(e) Submission of performance and evaluation report by grantee to Secretary; contents; availability for citizen comment; annual review and audit by Secretary of program implementation; adjustments in amount of annual grants

Each grantee shall submit to the Secretary, at a time determined by the Secretary, a performance and evaluation report concerning the use of funds made available under section 5306 of this title, together with an assessment by the grantee of the relationship of such use to the objectives identified in the grantee's statement under subsection (a) and to the requirements of subsection (b)(3). Such report shall also be made available to the citizens in each grantee's jurisdiction in sufficient time to permit such citizens to comment on such report prior to its submission, and in such manner and at such times as the grantee may determine. The grantee's report shall indicate its programmatic accomplishments, the nature of and reasons for changes in the grantee's program objectives, indications of how the grantee would change its programs as a result of its experiences, and an evaluation of the extent to which its funds were used for activities that benefited low- and moderate-income persons. The report shall include a summary of any comments received by the grantee from citizens in its jurisdiction respecting its program. The Secretary shall encourage and assist national associations of grantees eligible under section 5306(d)(2)(B) of this title, national associations of States, and national associations of units of general local government in nonentitlement areas to develop and recommend to the Secretary, within one year after November 30, 1983, uniform recordkeeping, performance reporting, and evaluation reporting, and auditing requirements for such grantees, States, and units of general local government, respectively. Based on the Secretary's approval of these recommendations, the Secretary shall establish such requirements for use by such grantees, States, and units of general local government. The Secretary shall, at least on an annual basis, make such reviews and audits as may be necessary or appropriate to determine—

(1) in the case of grants made under subsection (a)(3), (b), or (d)(2)(B) of section 5306 of this title, whether the grantee has carried out its activities and, where applicable, its housing assistance plan in a timely manner, whether the grantee has carried out those activities and its certifications in accordance with the requirements and the primary objectives of this chapter and with other applicable laws, and whether the grantee has a continuing capacity to carry out those activities in a timely manner; and

(2) in the case of grants to States made under section 5306(d) of this title, whether the State has distributed funds to units of general

local government in a timely manner and in conformance to the method of distribution described in its statement, whether the State has carried out its certifications in compliance with the requirements of this chapter and other applicable laws, and whether the State has made such reviews and audits of the units of general local government as may be necessary or appropriate to determine whether they have satisfied the applicable performance criteria described in paragraph (1) of this subsection.

The Secretary may make appropriate adjustments in the amount of the annual grants in accordance with the Secretary's findings under this subsection. With respect to assistance made available to units of general local government under section 5306(d) of this title, the Secretary may adjust, reduce, or withdraw such assistance, or take other action as appropriate in accordance with the Secretary's reviews and audits under this subsection, except that funds already expended on eligible activities under this chapter shall not be recaptured or deducted from future assistance to such units of general local government.

(f) Audit of grantees by Government Accountability Office; access to books, accounts, records, etc., by representatives of Government Accountability Office

Insofar as they relate to funds provided under this chapter, the financial transactions of recipients of such funds may be audited by the Government Accountability Office under such rules and regulations as may be prescribed by the Comptroller General of the United States. The representatives of the Government Accountability Office shall have access to all books, accounts, records, reports, files, and other papers, things, or property belonging to or in use by such recipients pertaining to such financial transactions and necessary to facilitate the audit.

(g) Environmental protection measures applicable for release of funds to applicants for projects; issuance of regulations by Secretary subsequent to consultation with Council on Environmental Quality; request and certification to Secretary for approval of release of funds; form, contents and effect of certification

(1) In order to assure that the policies of the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.] and other provisions of law which further the purposes of such Act (as specified in regulations issued by the Secretary) are most effectively implemented in connection with the expenditure of funds under this chapter, and to assure to the public undiminished protection of the environment, the Secretary, in lieu of the environmental protection procedures otherwise applicable, may under regulations provide for the release of funds for particular projects to recipients of assistance under this chapter who assume all of the responsibilities for environmental review, decisionmaking, and action pursuant to such Act, and such other provisions of law as the regulations of the Secretary specify, that would apply to the Sec-

retary were he to undertake such projects as Federal projects. The Secretary shall issue regulations to carry out this subsection only after consultation with the Council on Environmental Quality.

(2) The Secretary shall approve the release of funds for projects subject to the procedures authorized by this subsection only if, at least fifteen days prior to such approval and prior to any commitment of funds to such projects other than for purposes authorized by section 5305(a)(12) of this title or for environmental studies, the recipient of assistance under this chapter has submitted to the Secretary a request for such release accompanied by a certification which meets the requirements of paragraph (3). The Secretary's approval of any such certification shall be deemed to satisfy his responsibilities under the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.] and such other provisions of law as the regulations of the Secretary specify insofar as those responsibilities relate to the releases of funds for projects to be carried out pursuant thereto which are covered by such certification.

(3) A certification under the procedures authorized by this subsection shall—

(A) be in a form acceptable to the Secretary,

(B) be executed by the chief executive officer or other officer of the recipient of assistance under this chapter qualified under regulations of the Secretary,

(C) specify that the recipient of assistance under this chapter has fully carried out its responsibilities as described under paragraph (1) of this subsection, and

(D) specify that the certifying officer (i) consents to assume the status of a responsible Federal official under the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.] and each provision of law specified in regulations issued by the Secretary insofar as the provisions of such Act or other such provision of law apply pursuant to paragraph (1) of this subsection, and (ii) is authorized and consents on behalf of the recipient of assistance under this chapter and himself to accept the jurisdiction of the Federal courts for the purpose of enforcement of his responsibilities as such an official.

(4) In the case of grants made to States pursuant to section 5306(d) of this title, the State shall perform those actions of the Secretary described in paragraph (2) and the performance of such actions shall be deemed to satisfy the Secretary's responsibilities referred to in the second sentence of such paragraph.

(h) Payments; revolving loan fund; establishment in private financial institution for rehabilitation activities; standards for payments; criteria

(1) Units of general local government receiving assistance under this chapter may receive funds, in one payment, in an amount not to exceed the total amount designated in the grant (or, in the case of a unit of general local government receiving a distribution from a State pursuant to section 5306(d) of this title, not to exceed the total amount of such distribution) for use in establishing a revolving loan fund which is to be

established in a private financial institution and which is to be used to finance rehabilitation activities assisted under this chapter. Rehabilitation activities authorized under this section shall begin within 45 days after receipt of such payment and substantial disbursements from such fund must begin within 180 days after receipt of such payment.

(2) The Secretary shall establish standards for such cash payments which will insure that the deposits result in appropriate benefits in support of the recipient's rehabilitation program. These standards shall be designed to assure that the benefits to be derived from the local program include, at a minimum, one or more of the following elements, or such other criteria as determined by the Secretary—

(A) leverage of community development block grant funds so that participating financial institutions commit private funds for loans in the rehabilitation program in amounts substantially in excess of deposit of community development funds;

(B) commitment of private funds for rehabilitation loans at below-market interest rates or with repayment periods lengthened or at higher risk than would normally be taken;

(C) provision of administrative services in support of the rehabilitation program by the participating lending institutions; and

(D) interest earned on such cash deposits shall be used in a manner which supports the community rehabilitation program.

(i) Metropolitan city as part of urban county

In any case in which a metropolitan city is located, in whole or in part, within an urban county, the Secretary may, upon the joint request of such city and county, approve the inclusion of the metropolitan city as part of the urban county for purposes of submitting a statement under subsection (a) and carrying out activities under this chapter.

(j) Retention of program income; condition of distribution

Notwithstanding any other provision of law, any unit of general local government may retain any program income that is realized from any grant made by the Secretary, or any amount distributed by a State, under section 5306 of this title if (1) such income was realized after the initial disbursement of the funds received by such unit of general local government under such section; and (2) such unit of general local government has agreed that it will utilize the program income for eligible community development activities in accordance with the provisions of this chapter; except that the Secretary may, by regulation, exclude from consideration as program income any amounts determined to be so small that compliance with this subsection creates an unreasonable administrative burden on the unit of general local government. A State may require as a condition of any amount distributed by such State under section 5306(d) of this title that a unit of general local government shall pay to such State any such income to be used by such State to fund additional eligible community development activities, except that such State shall waive such condition to the extent such income is applied to continue the activity from which such income was derived.

(k) Provision of benefits to displaced persons

Each grantee shall provide for reasonable benefits to any person involuntarily and permanently displaced as a result of the use of assistance received under this chapter to acquire or substantially rehabilitate property.

(l) Protection of individuals engaging in non-violent civil rights demonstrations

No funds authorized to be appropriated under section 5303 of this title may be obligated or expended to any unit of general local government that—

(1) fails to adopt and enforce a policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in nonviolent civil rights demonstrations; or

(2) fails to adopt and enforce a policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of such nonviolent civil rights demonstration within its jurisdiction.

(m) Community development plans

(1) In general

Prior to the receipt in any fiscal year of a grant from the Secretary under subsection (a)(2), (b), (d)(1), or (d)(2)(B) of section 5306 of this title, each recipient shall have prepared and submitted in accordance with this subsection and in such standardized form as the Secretary shall, by regulation, prescribe a description of its priority nonhousing community development needs eligible for assistance under this chapter.

(2) Local governments

In the case of a recipient that is a unit of general local government other than an insular area—

(A) prior to the submission required by paragraph (1), the recipient shall, to the extent practicable, notify adjacent units of general local government and solicit the views of citizens on priority nonhousing community development needs; and

(B) the description required under paragraph (1) shall be submitted to the Secretary, the State, and any other unit of general local government within which the recipient is located, in such standardized form as the Secretary shall, by regulation, prescribe.

(3) States

In the case of a recipient that is a State, the description required by paragraph (1)—

(A) shall include only the needs within the State that affect more than one unit of general local government and involve activities typically funded by such States under this chapter; and

(B) shall be submitted to the Secretary in such standard form as the Secretary, by regulation, shall prescribe.

(4) Effect of submission

A submission under this subsection shall not be binding with respect to the use or distribution of amounts received under section 5306 of this title.

§ 5306. Allocation and distribution of funds

(a) Amounts allocated to Indian tribes, discretionary fund, and metropolitan cities and urban counties; limitations on amount of annual grants

(1) For each fiscal year, of the amount approved in appropriation Acts under section 5303 of this title for grants for such fiscal year (excluding the amounts provided for use in accordance with section 5307 of this title), the Secretary shall reserve for grants to Indian tribes 1 percent of the amount appropriated under such section. The Secretary shall provide for distribution of amounts under this paragraph to Indian tribes on the basis of a competition conducted pursuant to specific criteria for the selection of Indian tribes to receive such amounts. The criteria shall be contained in a regulation promulgated by the Secretary after notice and public comment. Notwithstanding any other provision of this Act, such grants to Indian tribes shall not be subject to the requirements of section 5304 of this title, except subsections (f), (g), and (k) of such section.

(2) For each fiscal year, of the amount approved in appropriation Acts under section 5303 of this title for grants for such fiscal year (excluding the amounts provided for use in accordance with section 5307 of this title), the Secretary shall reserve for grants to insular areas \$7,000,000. The Secretary shall provide for distribution of amounts under this paragraph to insular areas on the basis of the ratio of the population of each insular area to the population of all insular areas. In determining the distribution of amounts to insular areas, the Secretary may also include other statistical criteria as data become available from the Bureau of the Census, but only if such criteria are contained in a regulation promulgated by the Secretary after notice and public comment.

(3) After reserving such amounts for Indian tribes under paragraph (1) and after reserving such amounts for insular areas under paragraph (2), the Secretary shall allocate amounts provided for use under section 5307 of this title.

(4) Of the amount remaining after allocations pursuant to paragraphs (1), (2), and (3), 70 percent shall be allocated by the Secretary to metropolitan cities and urban counties. Except as otherwise specifically authorized, each metropolitan city and urban county shall be entitled to an annual grant from such allocation in an amount not exceeding its basic amount computed pursuant to paragraph (1) or (2) of subsection (b).

(b) Computation of amount allocated to metropolitan cities and urban counties

(1) The Secretary shall determine the amount to be allocated to each metropolitan city which shall be the greater of an amount that bears the same ratio to the allocation for all metropolitan areas as either—

(A) the average of the ratios between—

(i) the population of that city and the population of all metropolitan areas;

(ii) the extent of poverty in that city and the extent of poverty in all metropolitan areas; and

(iii) the extent of housing overcrowding in that city and the extent of housing overcrowding in all metropolitan areas; or

(B) the average of the ratios between—

(i) the extent of growth lag in that city and the extent of growth lag in all metropolitan cities;

(ii) the extent of poverty in that city and the extent of poverty in all metropolitan areas; and

(iii) the age of housing in that city and the age of housing in all metropolitan areas.

(2) The Secretary shall determine the amount to be allocated to each urban county, which shall be the greater of an amount that bears the same ratio to the allocation for all metropolitan areas as either—

(A) the average of the ratios between—

(i) the population of that urban county and the population of all metropolitan areas;

(ii) the extent of poverty in that urban county and the extent of poverty in all metropolitan areas; and

(iii) the extent of housing overcrowding in that urban county and the extent of housing overcrowding in all metropolitan areas; or

(B) the average of the ratios between—

(i) the extent of growth lag in that urban county and the extent of growth lag in all metropolitan cities and urban counties;

(ii) the extent of poverty in that urban county and the extent of poverty in all metropolitan areas; and

(iii) the age of housing in that urban county and the age of housing in all metropolitan areas.

(3) In determining the average of ratios under paragraphs (1)(A) and (2)(A), the ratio involving the extent of poverty shall be counted twice, and each of the other ratios shall be counted once; and in determining the average of ratios

under paragraphs (1)(B) and (2)(B), the ratio involving the extent of growth lag shall be counted once, the ratio involving the extent of poverty shall be counted one and one-half times, and the ratio involving the age of housing shall be counted two and one-half times.

(4) In computing amounts or exclusions under this section with respect to any urban county, there shall be excluded units of general local government located in the county the populations of which are not counted in determining the eligibility of the urban county to receive a grant under this subsection, except that there shall be included any independent city (as defined by the Bureau of the Census) which—

(A) is not part of any county;

(B) is not eligible for a grant pursuant to subsection (b)(1);

(C) is contiguous to the urban county;

(D) has entered into cooperation agreements with the urban county which provide that the urban county is to undertake or to assist in the undertaking of essential community development and housing assistance activities with respect to such independent city; and

(E) is not included as a part of any other unit of general local government for purposes of this section.

Any independent city which is included in any fiscal year for purposes of computing amounts pursuant to the preceding sentence shall not be eligible to receive assistance under subsection (d) with respect to such fiscal year.

(5) In computing amounts under this section with respect to any urban county, there shall be included all of the area of any unit of local government which is part of, but is not located entirely within the boundaries of, such urban county if the part of such unit of local government which is within the boundaries of such urban county would otherwise be included in computing the amount for such urban county under this section, and if the part of such unit of local government which is not within the boundaries of such urban county is not included as a part of any other unit of local government for the purpose of this section. Any amount received by such urban county under this section may be used with respect to the part of such unit of local government which is outside the boundaries of such urban county.

(6)(A) Where data are available, the amount determined under paragraph (1) for a metropolitan city that has been formed by the consolidation of one or more metropolitan cities with an urban county shall be equal to the sum of the amounts that would have been determined under paragraph (1) for the metropolitan city or cities and the balance of the consolidated government, if such consolidation had not occurred. This paragraph shall apply only to any consolidation that—

(i) included all metropolitan cities that received grants under this section for the fiscal year preceding such consolidation and that were located within the urban county;

(ii) included the entire urban county that received a grant under this section for the fiscal year preceding such consolidation; and

(iii) took place on or after January 1, 1983.

(B) The population growth rate of all metropolitan cities referred to in section 5302(a)(12) of

this title shall be based on the population of (i) metropolitan cities other than consolidated governments the grant for which is determined under this paragraph; and (ii) cities that were metropolitan cities before their incorporation into consolidated governments. For purposes of calculating the entitlement share for the balance of the consolidated government under this paragraph, the entire balance shall be considered to have been an urban county.

(c) Reallocation of undistributed funds within same metropolitan area as original allocation; amount and calculation of reallocation grant; disaster relief

(1) Except as provided in paragraphs (2) and (4), any amounts allocated to a metropolitan city or an urban county pursuant to the preceding provisions of this section which are not received by the city or county for a fiscal year because of failure to meet the requirements of subsection (a), (b), (c), or (d) of section 5304 of this title, or which become available as a result of actions under section 5304(e) or 5311 of this title, shall be reallocated in the succeeding fiscal year to the other metropolitan cities and urban counties in the same metropolitan area which certify to the satisfaction of the Secretary that they would be adversely affected by the loss of such amounts from the metropolitan area. The amount of the share of funds reallocated under this paragraph for any metropolitan city or urban county shall bear the same ratio to the total of such reallocated funds in the metropolitan area as the amount of funds awarded to the city or county for the fiscal year in which the reallocated funds become available bears to the total amount of funds awarded to all metropolitan cities and urban counties in the same metropolitan area for that fiscal year, except that—

(A) in determining the amounts awarded to cities or counties for purposes of calculating shares pursuant to this sentence, there shall be excluded from the award of any city or county any amounts which become available as a result of actions against such city or county under section 5311 of this title;

(B) in reallocating amounts resulting from an action under section 5304(e) of this title or section 5311 of this title, a city or county against whom any such action was taken in a fiscal year shall be excluded from a calculation of share for purposes of reallocating, in the succeeding year, the amounts becoming available as a result of such action; and

(C) in no event may the share of reallocated funds for any metropolitan city or urban county exceed 25 per centum of the amount awarded to the city or county under subsection (b) for the fiscal year in which the reallocated funds under this paragraph become available.

Any amounts allocated under subsection (b) which become available for reallocation and for which no metropolitan city or urban county qualifies under this paragraph shall be added to amounts available for allocation under such subsection (b) in the succeeding fiscal year.

(2) Notwithstanding any other provision of this chapter, the Secretary shall make grants from amounts authorized for use under sub-

section (b) by the Department of Housing and Urban Development—Independent Agencies Appropriation Act, 1981, in accordance with the provisions of this chapter which governed grants with respect to such amounts, as such provisions existed prior to October 1, 1981, except that any such amounts which are not obligated before January 1, 1982, shall be reallocated in accordance with paragraph (1).

(3) Notwithstanding the provisions of paragraph (1), the Secretary may upon request transfer responsibility to any metropolitan city for the administration of any amounts received, but not obligated, by the urban county in which such city is located if (A) such city was an included unit of general local government in such county prior to the qualification of such city as a metropolitan city; (B) such amounts were designated and received by such county for use in such city prior to the qualification of such city as a metropolitan city; and (C) such city and county agree to such transfer of responsibility for the administration of such amounts.

(4)(A) Notwithstanding paragraph (1), in the event of a major disaster declared by the President under the Robert T. Stafford Disaster Relief and Emergency Assistance Act [42 U.S.C. 5121 et seq.], the Secretary shall make available, to metropolitan cities and urban counties located or partially located in the areas affected by the disaster, any amounts that become available as a result of actions under section 5304(e) or 5311 of this title.

(B) In using any amounts that become available as a result of actions under section 5304(e) or 5311 of this title, the Secretary shall give priority to providing emergency assistance under this paragraph.

(C) The Secretary may provide assistance to any metropolitan city or urban county under this paragraph only to the extent necessary to meet emergency community development needs, as the Secretary shall determine (subject to subparagraph (D)), of the city or county resulting from the disaster that are not met with amounts otherwise provided under this chapter, the Robert T. Stafford Disaster Relief and Emergency Assistance Act [42 U.S.C. 5121 et seq.], and other sources of assistance.

(D) Amounts provided to metropolitan cities and urban counties under this paragraph may be used only for eligible activities under section 5305 of this title, and in implementing this section, the Secretary shall evaluate the natural hazards to which any permanent replacement housing is exposed and shall take appropriate action to mitigate such hazards.

(E) The Secretary shall provide for applications (or amended applications and statements under section 5304 of this title) for assistance under this paragraph.

(F) A metropolitan city or urban county eligible for assistance under this paragraph may receive such assistance only in each of the fiscal years ending during the 3-year period beginning on the date of the declaration of the disaster by the President.

(G) This paragraph may not be construed to require the Secretary to reserve any amounts that become available as a result of actions under section 5304(e) or 5311 of this title for as-

sistance under this paragraph if, when such amounts are to be reallocated under paragraph (1), no metropolitan city or urban county qualifies for assistance under this paragraph.

(d) Allocation among States for nonentitlement areas; amount and calculation of grants; distributions by State or Secretary; certain distributions made pursuant to prior provisions; certifications required by Governor enumerated; responsibility for administration and administrative expenses; reallocation; certifications required of units of general local government in nonentitlement areas; applicability of this chapter and other law

(1) Of the amount approved in an appropriation Act under section 5303 of this title that remains after allocations pursuant to paragraphs (1), (2), and (3) of subsection (a), 30 per centum shall be allocated among the States for use in nonentitlement areas. The allocation for each State shall be the greater of an amount that bears the same ratio to the allocation for such areas of all States available under this subparagraph as either—

(A) the average of the ratios between—

(i) the population of the nonentitlement areas in that State and the population of the nonentitlement areas of all States;

(ii) the extent of poverty in the nonentitlement areas in that State and the extent of poverty in the nonentitlement areas of all States; and

(iii) the extent of housing overcrowding in the nonentitlement areas in that State and the extent of housing overcrowding in the nonentitlement areas of all States; or

(B) the average of the ratios between—

(i) the age of housing in the nonentitlement areas in that State and the age of housing in the nonentitlement areas of all States;

(ii) the extent of poverty in the nonentitlement areas in that States and the extent of poverty in the nonentitlement areas of all States; and

(iii) the population of the nonentitlement areas in that State and the population of the nonentitlement areas of all States.

In determining the average of the ratios under subparagraph (A) the ratio involving the extent of poverty shall be counted twice and each of the other ratios shall be counted once; and in determining the average of the ratios under subparagraph (B), the ratio involving the age of housing shall be counted two and one-half times, the ratio involving the extent of poverty shall be counted one and one-half times, and the ratio involving population shall be counted once. The Secretary shall, in order to compensate for the discrepancy between the total of the amounts to be allocated under this paragraph and the total of the amounts available under such paragraph, make a pro rata reduction of each amount allocated to the nonentitlement areas in each State under such paragraph so that the nonentitlement areas in each State will receive an amount which represents the same percentage of the total amount available under such paragraph as

the percentage which the nonentitlement areas of the same State would have received under such paragraph if the total amount available under such paragraph had equaled the total amount which was allocated under such paragraph.

(2)(A) Amounts allocated under paragraph (1) shall be distributed to units of general local government located in nonentitlement areas of the State to carry out activities in accordance with the provisions of this chapter—

(i) by a State that has elected, in such manner and at such time as the Secretary shall prescribe, to distribute such amounts, consistent with the statement submitted under section 5304(a) of this title; or

(ii) by the Secretary, in any case described in subparagraph (B), for use by units of general local government in accordance with paragraph (3)(B).

Any election to distribute funds made after the close of fiscal year 1984 is permanent and final. Notwithstanding any provision of this chapter, the Secretary shall make grants from amounts authorized for use in nonentitlement areas by the Department of Housing and Urban Development—Independent Agencies Appropriation Act, 1981, in accordance with the provisions of this chapter which governed grants with respect to such amounts, as such provisions existed prior to October 1, 1981. Any amounts under the preceding sentence (except amounts for which preapplications have been approved by the Secretary prior to October 1, 1981, and which have been obligated by January 1, 1982) which are or become available for obligation after fiscal year 1981 shall be available for distribution in the State in which the grants from such amounts were made, by the State or by the Secretary, whichever is distributing the State allocation in the fiscal year in which such amounts are or become available.

(B) The Secretary shall distribute amounts allocated under paragraph (1) if the State has not elected to distribute such amounts.

(C) To receive and distribute amounts allocated under paragraph (1), the State must certify that it, with respect to units of general local government in nonentitlement areas—

(i) engages or will engage in planning for community development activities;

(ii) provides or will provide technical assistance to units of general local government in connection with community development programs;

(iii) will not refuse to distribute such amounts to any unit of general local government on the basis of the particular eligible activity selected by such unit of general local government to meet its community development needs, except that this clause may not be considered to prevent a State from establishing priorities in distributing such amounts on the basis of the activities selected; and

(iv) has consulted with local elected officials from among units of general local government located in nonentitlement areas of that State in determining the method of distribution of funds required by subparagraph (A).

(D) To receive and distribute amounts allocated under paragraph (1), the State shall cer-

tify that each unit of general local government to be distributed funds will be required to identify its community development and housing needs, including the needs of low and moderate income persons, and the activities to be undertaken to meet such needs.

(3)(A) If the State receives and distributes such amounts, it shall be responsible for the administration of funds so distributed. The State shall pay from its own resources all administrative expenses incurred by the State in carrying out its responsibilities under this chapter or section 14370(e)(1)¹ of this title, except that from the amounts received for distribution in nonentitlement areas, the State may deduct an amount to cover such expenses and its administrative expenses under section 1706e¹ of title 12 not to exceed the sum of \$100,000 plus 50 percent of any such expenses under this chapter in excess of \$100,000. Amounts deducted in excess of \$100,000 shall not, subject to paragraph (6), exceed 3 percent of the amount so received.

(B) If the Secretary distributes such amounts, the distribution shall be made in accordance with determinations of the Secretary pursuant to statements submitted and the other requirements of section 5304 of this title (other than subsection (c)) and in accordance with regulations and procedures prescribed by the Secretary.

(C) Any amounts allocated for use in a State under paragraph (1) that are not received by the State for any fiscal year because of failure to meet the requirements of subsection (a), (b), or (d) of section 5304 of this title or to make the certifications required in subparagraphs (C) and (D) of paragraph (2), or that become available as a result of actions against the State under section 5304(e) or 5311 of this title, shall be added to amounts allocated to all States under paragraph (1) for the succeeding fiscal year.

(D) Any amounts allocated for use in a State under paragraph (1) that become available as a result of actions under section 5304(e) or 5311 of this title against units of general local government in nonentitlement areas of the State or as a result of the closeout of a grant made by the Secretary under this section in nonentitlement areas of the State shall be added to amounts allocated to the State under paragraph (1) for the fiscal year in which the amounts become so available.

(4) Any combination of units of general local governments may not be required to obtain recognition by the Secretary pursuant to section 5302(a)(1) of this title to be treated as a single unit of general local government for purposes of this subsection.

(5) From the amounts received under paragraph (1) for distribution in nonentitlement areas, the State may deduct an amount, subject to paragraph (6), not to exceed 3 percent of the amount so received, to provide technical assistance to local governments and nonprofit program recipients.

(6) Of the amounts received under paragraph (1), the State may deduct not more than an aggregate total of 3 percent of such amounts for—

(A) administrative expenses under paragraph (3)(A); and

¹ See References in Text note below.

(B) technical assistance under paragraph (5).

(7) No amount may be distributed by any State or the Secretary under this subsection to any unit of general local government located in a nonentitlement area unless such unit of general local government certifies that—

(A) it will minimize displacement of persons as a result of activities assisted with such amounts;

(B) its program will be conducted and administered in conformity with the Civil Rights Act of 1964 [42 U.S.C. 2000a et seq.] and the Fair Housing Act [42 U.S.C. 3601 et seq.], and that it will affirmatively further fair housing;

(C) it will provide for opportunities for citizen participation, hearings, and access to information with respect to its community development program that are comparable to those required of grantees under section 5304(a)(2) of this title; and

(D) it will not attempt to recover any capital costs of public improvements assisted in whole or part under this section or with amounts resulting from a guarantee under section 5308 of this title by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements, unless (i) funds received under this section are used to pay the proportion of such fee or assessment that relates to the capital costs of such public improvements that are financed from revenue sources other than under this chapter; or (ii) for purposes of assessing any amount against properties owned and occupied by persons of moderate income, the grantee certifies to the Secretary or such State, as the case may be, that it lacks sufficient funds received under this section to comply with the requirements of clause (i).

(8) Any activities conducted with amounts received by a unit of general local government under this subsection shall be subject to the applicable provisions of this chapter and other Federal law in the same manner and to the same extent as activities conducted with amounts received by a unit of general local government under subsection (a).

(e) Qualification or submission dates, and finality and conclusiveness of computations and determinations

The Secretary may fix such qualification or submission dates as he determines are necessary to permit the computations and determinations required by this section to be made in a timely manner, and all such computations and determinations shall be final and conclusive.

(f) Pro rata adjustment of entitlement amounts

If the total amount available for distribution in any fiscal year to metropolitan cities and urban counties under this section is insufficient to provide the amounts to which metropolitan cities and urban counties would be entitled under subsection (b), and funds are not otherwise appropriated to meet the deficiency, the Secretary shall meet the deficiency through a pro rata reduction of all amounts determined under subsection (b). If the total amount avail-

able for distribution in any fiscal year to metropolitan cities and urban counties under this section exceeds the amounts to which metropolitan cities and urban counties would be entitled under subsection (b), the Secretary shall distribute the excess through a pro rata increase of all amounts determined under subsection (b).

Notwithstanding any other provision of law and subject only to the absence of qualified applicants or proposed activities and to the authority provided in this section, to the extent approved or provided in appropriation Acts, the Secretary shall enter into commitments to guarantee notes and obligations under this section with an aggregate principal amount of \$2,000,000,000 for fiscal year 1993 and \$2,000,000,000 for fiscal year 1994. The obligations issued under this subsection shall have such maturities and bear such rate or rates of interest as shall be determined by the Secretary of the Treasury. The Secretary of the Treasury is authorized and directed to purchase any obligations of the Secretary issued under this section, and for such purposes is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under chapter 31 of title 31, and the purposes for which such securities may be issued under such chapter are extended to include the purchases of the Secretary's obligations hereunder.

§ 5318. Urban development action grants

(a) Authorization; purpose; amount

The Secretary is authorized to make urban development action grants to cities and urban counties which are experiencing severe economic distress to help stimulate economic development activity needed to aid in economic recovery. There are authorized to be appropriated to carry out this section \$225,000,000 for fiscal year 1988, and \$225,000,000 for fiscal year 1989. Any amount appropriated under this subsection shall remain available until expended.

(b) Eligibility of cities and urban counties; criteria and standards; regulations

(1) Urban development action grants shall be made only to cities and urban counties which have, in the determination of the Secretary, demonstrated results in providing housing for

low- and moderate-income persons and in providing equal opportunity in housing and employment for low- and moderate-income persons and members of minority groups. The Secretary shall issue regulations establishing criteria in accordance with the preceding sentence and setting forth minimum standards for determining the level of economic distress of cities and urban counties for eligibility for such grants. These standards shall take into account factors such as the age of housing; the extent of poverty; the extent of population lag; growth of per capita income; and the extent of unemployment, job lag, or surplus labor. Any city that has a population of less than 50,000 persons and is not the central city of a metropolitan area, and that was eligible for fiscal year 1983 under this paragraph for assistance under this section, shall continue to be eligible for such assistance until the Secretary revises the standards for eligibility for such cities under this paragraph and includes the extent of unemployment, job lag, or labor surplus as a standard of distress for such cities. The Secretary shall make such revision as soon as practicable following November 30, 1983.

(2) A city or urban county which fails to meet the minimum standards established pursuant to paragraph (1) shall be eligible for assistance under this section if it meets the requirements of the first sentence of such paragraph and—

(A) in the case of a city with a population of fifty thousand persons or more or an urban county, contains an area (i) composed of one or more contiguous census tracts, enumeration districts, neighborhood statistics areas, or block groups, as defined by the United States Bureau of the Census, having at least a population of ten thousand persons or 10 per centum of the population of the city or urban county; (ii) in which at least 70 per centum of the residents have incomes below 80 per centum of the median income of the city or urban county; and (iii) in which at least 30 per centum of the residents have incomes below the national poverty level; or

(B) in the case of a city with a population of less than fifty thousand persons, contains an area (i) composed of one or more contiguous census tracts, enumeration districts, neighborhood statistics areas, or block groups or other areas defined by the United States Bureau of the Census or for which data certified by the United States Bureau of the Census are available having at least a population of two thousand five hundred persons or 10 per centum of the population of the city, whichever is greater; (ii) in which at least 70 per centum of the residents have incomes below 80 per centum of the median income of the city; and (iii) in which at least 30 per centum of the residents have incomes below the national poverty level.

The Secretary shall use up to, but not more than, 20 per centum of the funds appropriated for use in any fiscal year under this section for the purpose of making grants to cities and urban counties eligible under this paragraph.

(c) Applications; documentation of eligibility; proposed plan; assurance of notice and comment; assurance of consideration on historical landmarks

(iv) the extent to which the project will retain jobs that will be lost without the provision of a grant under this section;

(I) reemploying workers in a skill that has recently suffered a sharp increase in unemployment locally;

(II) retraining recently unemployed residents in new skills;

(III) providing training to increase the local pool of skilled labor; or

(IV) producing decent housing for low- and moderate-income persons in cases where such housing is in severe shortage in the area of the applicant, except that an application shall be considered to produce housing for low- and moderate-income persons under this clause only if such application proposes that (a) not less than 51 percent of all funds available for the project shall be used for dwelling units and related facilities; and (b) not less than 30 percent of all funds used for dwelling units and related facilities shall be used for dwelling units to be occupied by persons of low and moderate income, or not less than 20 percent of all dwelling units made available to occupancy using such funds shall be occupied by persons of low and moderate income, whichever results in the occupancy of more dwelling units by persons of low and moderate income;

(vi) the impact of the proposed activities on the fiscal base of the city or urban county and its relation to the amount of grant funds requested;

(vii) the extent to which State or local Government¹ funding or special economic incentives have been committed; and

(viii) the extent to which the project will have a substantial impact on physical and economic development of the city or urban county, the proposed activities are likely to be accomplished in a timely fashion with the grant amount available, and the city or urban county has demonstrated performance in housing and community development programs; and

(D) additional consideration for projects with the following characteristics:

¹ So in original. Probably should not be capitalized.

(i) projects to be located within a city or urban county which did not receive a preliminary grant approval under this section during the 12-month period preceding the date on which applications are required to be submitted for the grant competition involved; and

(ii) twice the amount of the additional consideration provided under clause (i) for projects to be located in cities or urban counties which did not receive a preliminary grant approval during the 24-month period preceding the date on which applications under this section are required to be submitted for the grant competition involved.

If a city or urban county has submitted and has pending more than one application, the additional consideration provided by subparagraph (D) of the preceding sentence shall be available only to the project in such city or urban county which received the highest number of points under subparagraph (C) of such sentence.

(2) For the purpose of making grants with respect to areas described in subsection (b)(2), the Secretary shall establish selection criteria, which must include (A) factors determined to be relevant by the Secretary in assessing the comparative degree of economic deterioration among eligible areas, and (B) such other criteria as the Secretary may determine, including at a minimum the criteria listed in paragraph (1)(C) of this subsection.

(3) The Secretary shall award points to each application as follows:

(A) not more than 35 points on the basis of the criteria referred to in paragraph (1)(A);

(B) not more than 35 points on the basis of the criteria referred to in paragraph (1)(B);

(C) not more than 33 points on the basis of the criteria referred to in paragraph (1)(C); and

(ii) any funds available for such grants in any previous competition that are not awarded; and

(iii) any funds available for such grants in any previous competition that are recaptured.

(C) Notwithstanding any other provision of this section, in each competition for grants under this section, no city or urban county may be awarded a grant or grants in an amount in excess of \$10,000,000 until all cities and urban counties which submitted fundable applications have been awarded a grant. If funds are available for additional grants after each city and urban county submitting a fundable application is awarded one or more grants under the preceding sentence, then additional grants shall be made so that each city or urban county that has submitted multiple applications is awarded one additional grant in order of ranking, with no single city or urban county receiving more than one grant approval in any subsequent series of grant determinations within the same competition.

(D) All grants under this section, including grants to cities and urban counties described in subsection (b)(2), shall be awarded in accordance with subparagraph (C) so that all grants under this section are made in order of ranking.

(e) Limitations on power of Secretary to approve grants; waiver

The Secretary may not approve any grant to a city or urban county eligible under subsection (b)(2) unless—

(3) the grant will be used in connection with a project which will directly benefit the low- and moderate-income families and individuals residing in the area described in subsection (b)(2); and

(4) the city or urban county makes available, from its own funds or from funds received from the State or under any Federal program which permits the use of financial assistance to meet the non-Federal share requirements of Federal grant-in-aid programs, an amount equal to 20 per centum of the grant to be available under this section to be used in carrying out the activities described in the application.

(f) Permissibility of consistent but unenumerated activities; report on use of repaid grant funds for economic development activities

Activities assisted under this section may include such activities, in addition to those authorized under section 5305(a) of this title, as the Secretary determines to be consistent with the purposes of this section. In any case in which the project proposes the repayment to the applicant of the grant funds, such funds shall be made available by the applicant for economic development activities that are eligible activities under this section or section 5305 of this title. The applicant shall annually provide the Secretary with a statement of the projected receipt and use of repaid grant funds during the next year together with a report acceptable to the Secretary on the use of such funds during the most recent preceding full fiscal year of the applicant.

(g) Annual review and audit; adjustments, withdrawals and reduction permitted

The Secretary shall, at least on an annual basis, make reviews and audits of recipients of grants under this section as necessary to determine the progress made in carrying out activities substantially in accordance with approved plans and timetables. The Secretary may adjust, reduce, or withdraw grant funds, or take other action as appropriate in accordance with the findings of these reviews and audits, except that funds already expended on eligible activities under this chapter shall not be recaptured or deducted from future grants made to the recipient.

(h) Limitations on grants for industrial or commercial relocations or expansions; appeal of denial or cancellation of assistance; grants to adversely affected individuals

(1) Speculative projects

No assistance may be provided under this section for projects intended to facilitate the relocation of industrial or commercial plants or facilities from one area to another, unless the Secretary finds that the relocation does not significantly and adversely affect the unemployment or economic base of the area from which the industrial or commercial plant or facility is to be relocated. The provisions of this paragraph shall apply only to projects that do not have identified intended occupants.

(2) Projects with identified intended occupants

No assistance may be provided or utilized under this section for any project with identified intended occupants that is likely to facilitate—

(A) a relocation of any operation of an industrial or commercial plant or facility or other business establishment—

(i) from any city, urban county, or identifiable community described in subsection (p), that is eligible for assistance under this section; and

(ii) to the city, urban county, or identifiable community described in subsection (p), in which the project is located; or

(B) an expansion of any such operation that results in a reduction of any such oper-

ation in any city, county, or community described in subparagraph (A)(i).

(3) Significant and adverse effect

The restrictions established in paragraph (2) shall not apply if the Secretary determines that the relocation or expansion does not significantly and adversely affect the employment or economic base of the city, county, or community from which the relocation or expansion occurs.

(4) Appeal of adverse determination

Following notice of intent to withhold, deny, or cancel assistance under paragraph (1) or (2), the Secretary shall provide a period of not less than 90 days in which the applicant can appeal to the Secretary the withholding, denial, or cancellation of assistance. Notwithstanding any other provision of this section, nothing in this section or in any legislative history related to the enactment of this section may be construed to permit an inference or conclusion that the policy of the Congress in the urban development action grant program is to facilitate the relocation of businesses from one area to another.

(5) Assistance for individuals adversely affected by prohibited relocations

(A) Any amount withdrawn by, recaptured by, or paid to the Secretary due to a violation (or a settlement of an alleged violation) of this subsection (or of any regulation issued or contractual provision entered into to carry out this subsection) by a project with identified intended occupants shall be made available by the Secretary as a grant to the city, county, or community described in subsection (p), from which the operation of an industrial or commercial plant or facility or other business establishment relocated or in which the operation was reduced.

(B)(i) Any amount made available under this paragraph shall be used by the grantee to assist individuals who were employed by the operation involved prior to the relocation or reduction and whose employment or terms of employment were adversely affected by the relocation or reduction. The assistance shall include job training, job retraining, and job placement.

(ii) If any amount made available to a grantee under this paragraph is more than is required to provide assistance under clause (i), the grantee shall use the excess amount to carry out community development activities eligible under section 5305(a) of this title.

(C)(i) The provisions of this paragraph shall be applicable to any amount withdrawn by, recaptured by, or paid to the Secretary under this section, including any amount withdrawn, recaptured, or paid before the effective date of this paragraph.

(ii) Grants may be made under this paragraph only to the extent of amounts provided in appropriation Acts.

(6) Definition

(7) Regulations

Not later than 60 days after February 5, 1988, the Secretary shall issue such regulations as may be necessary to carry out the provisions of this subsection. Such regulations shall include specific criteria to be used by the Secretary in determining whether there is a significant and adverse effect under paragraph (3).

(i) Minimum percentage of funds to be allocated to certain noncentral cities; application by consortia of cities of less than 50,000 population

Not less than 25 per centum of the funds made available for grants under this section shall be used for cities with populations of less than fifty thousand persons which are not central cities of a metropolitan statistical area. The Secretary shall encourage cooperation by geographically proximate cities of less than 50,000 population by permitting consortia of such cities, which may also include county governments that are not urban counties, to apply for grants on behalf of a city that is otherwise eligible for assistance under this section. Any grants awarded to such consortia shall be administered in compliance with eligibility requirements applicable to individual cities.

(j) Grant contingent on factors related to non-Federal funds

A grant may be made under this section only where the Secretary determines that there is a strong probability that (1) the non-Federal investment in the project would not be made without the grant, and (2) the grant would not substitute for non-Federal funds which are otherwise available to the project.

(k) Duty of Secretary to minimize amount

In making grants under this section, the Secretary shall take such steps as the Secretary deems appropriate to assure that the amount of the grant provided is the least necessary to make the project feasible.

(l) Power of Secretary to waive requirement that town or township be closely settled

For purposes of this section, the Secretary may reduce or waive the requirement in section 5302(a)(5)(B)(ii) of this title that a town or township be closely settled.

(m) Notice to State historic preservation officer and Secretary of the Interior required with regard to affected landmark property; opportunity for comment

In the case of any application which identifies any property in accordance with subsection (c)(4)(B), the Secretary may not commit funds with respect to an approved application unless the applicant has certified to the Secretary that the appropriate State historic preservation officer and the Secretary of the Interior have been provided an opportunity to take action in accordance with the provisions of section 5320(b) of this title.

(n) Territories, tribes, and certain Hawaiian counties included in term "city"

(1) For the purposes of this section, the term "city" includes Guam, American Samoa, the

Northern Mariana Islands, the Virgin Islands, and Indian tribes. Such term also includes the counties of Kauai, Maui and Hawaii in the State of Hawaii.

(2) The Secretary may not approve a grant to an Indian tribe under this section unless the tribe (A) is located on a reservation, or on former Indian reservations in Oklahoma as determined by the Secretary of the Interior, or in an Alaskan Native Village, and (B) was an eligible recipient under chapter 67 of title 31 prior to the repeal of such chapter.

(o) Special provisions for years after 1983

If no amounts are set aside under, or amounts are precluded from being appropriated for this section for fiscal years after fiscal year 1983, any amount which is or becomes available for use under this section after fiscal year 1983 shall be added to amounts appropriated under section 5303 of this title, except that amounts available to the Secretary for use under this subsection as of October 1, 1993, and amounts released to the Secretary pursuant to subsection (t) may be used to provide grants under section 5308(q) of this title.²

(p) Unincorporated portions of urban counties

An unincorporated portion of an urban county that is approved by the Secretary as an identifiable community for purposes of this section is eligible for a grant under subsection (b)(2) if such portion meets the eligibility requirements contained in the first sentence of subsection (b)(1) and the requirements of subsection (b)(2)(B) (applied to the population of the portion of the urban county) and if it otherwise complies with the provisions of this section.

(q) Technical assistance grants

Of the amounts appropriated for purposes of this section for any fiscal year, not more than \$2,500,000 may be used by the Secretary to make technical assistance grants to States or their agencies, municipal technical advisory services operated by universities, or State associations of counties or municipalities, to enable such entities to assist units of general local government described in subsection (i) in developing, applying for assistance for, and implementing programs eligible for assistance under this section.

(r) Nondiscrimination by Secretary against type of activity or applicant

In utilizing the discretion of the Secretary when providing assistance and applying selection criteria under this section, the Secretary may not discriminate against applications on the basis of (1) the type of activity involved, whether such activity is primarily housing, industrial, or commercial; or (2) the type of applicant, whether such applicant is a city or urban county.

Subject to section 5404 of this title, there is reserved to each State the right to establish standards for the stabilizing and support systems of manufactured homes sited within that State, and for the foundations on which

(2) consult with such State or interstate agencies (including legislative committees) as he deems appropriate;

(3) consider whether any such proposed standard is reasonable for the particular type of manufactured home or for the geographic region for which it is prescribed;

(5) consider the extent to which any such standard will contribute to carrying out the purposes of this chapter.

(f) Coverage; exclusion

The Secretary shall exclude from the coverage of this chapter any structure which the manufacturer certifies, in a form prescribed by the Secretary, to be:

(1) designed only for erection or installation on a site-built permanent foundation;

(2) not designed to be moved once so erected or installed;

(3) designed and manufactured to comply with a nationally recognized model building code or an equivalent local code, or with a State or local modular building code recognized as generally equivalent to building codes for site-built housing, or with minimum property standards adopted by the Secretary pursuant to title II of the National Housing Act [12 U.S.C. 1707 et seq.]; and

(4) to the manufacturer's knowledge is not intended to be used other than on a site-built permanent foundation.

(g) Manufactured housing construction and safety standards

(1) The Federal manufactured home construction and safety standards established by the Secretary under this section shall include preemptive energy conservation standards in accordance with this subsection.

(2) The energy conservation standards established under this subsection shall be cost-effective energy conservation performance standards designed to ensure the lowest total of construction and operating costs.

(3) The energy conservation standards established under this subsection shall take into con-

sideration the design and factory construction techniques of manufactured homes and shall provide for alternative practices that result in net estimated energy consumption equal to or less than the specified standards.

(h) New performance standards for hardboard siding

The Secretary shall develop a new standard for hardboard panel siding on manufactured housing taking into account durability, longevity, consumer's costs for maintenance and any other relevant information pursuant to subsection (e). The Secretary shall consult with the National Manufactured Home Advisory Council and the National Commission on Manufactured Housing in establishing the new standard. The new performance standard developed shall ensure the durability of hardboard sidings for at least a normal life of a mortgage with minimum maintenance required. Not later than 180 days from October 28, 1992, the Secretary shall update the standards for hardboard siding.

The Secretary thereupon shall file in the court the record of the proceedings on which the Secretary based his order, as provided in section 2112 of title 28.

(2) If the petitioner applies to the court for leave to adduce additional evidence, and shows to the satisfaction of the court that such additional evidence is material and that there were reasonable grounds for the failure to adduce such evidence in the proceeding before the Secretary, the court may order such additional evidence (and evidence in rebuttal thereof) to be taken before the Secretary, and to be adduced upon the hearing, in such manner and upon such terms and conditions as to the court may seem proper. Nothing in this subsection shall authorize the withholding of information by the Secretary or any officer or employee under his control from the duly authorized committees of the Congress.

(c) "Cost information" defined

For purposes of this section, "cost information" means information with respect to alleged cost increases resulting from action by the Secretary, in such a form as to permit the public, the consensus committee, and the Secretary to make an informed judgment on the validity of the manufacturer's statements. (a) If the Secretary or a court of appropriate jurisdiction determines that any manufactured home does not conform to applicable Federal manufactured home construction and safety standards, or that it contains a defect which constitutes an imminent safety hazard, after the sale of such manufactured home by a manufacturer to a distributor or a retailer and prior to the sale of such manufactured home by such distributor or retailer to a purchaser—

(1) the manufacturer shall immediately repurchase such manufactured home from such distributor or retailer at the price paid by such distributor or retailer, plus all transportation charges involved and a reasonable reimbursement of not less than 1 per centum per month of such price paid prorated from the date of receipt by certified mail of notice of such nonconformance to the date of repurchase by the manufacturer; or

The Secretary is authorized to conduct such inspections and investigations as may be necessary to promulgate or enforce Federal manufactured home construction and safety standards established under this chapter or otherwise to carry out his duties under this chapter. He shall furnish the Attorney General and, when appropriate, the Secretary of the Treasury any information obtained indicating noncompliance with such standards for appropriate action.

(b) Designation by Secretary of persons to enter and inspect factories, etc.; presentation of credentials; reasonableness and scope of inspection

(1) For purposes of enforcement of this chapter, persons duly designated by the Secretary, upon presenting appropriate credentials to the owner, operator, or agent in charge, are authorized—

(A) to enter, at reasonable times and without advance notice, any factory, warehouse, or establishment in which manufactured homes are manufactured, stored, or held, for sale; and

(B) to inspect, at reasonable times and within reasonable limits and in a reasonable manner, any such factory, warehouse, or establishment, and to inspect such books, papers, records, and documents as are set forth in subsection (c). Each such inspection shall be com-

menced and completed with reasonable promptness.

(2) The Secretary is authorized to contract with State and local governments and private inspection organizations to carry out his functions under this subsection.

(c) Powers of Secretary

For the purpose of carrying out the provisions of this chapter, the Secretary is authorized—

(1) to hold such hearings, take such testimony, sit and act at such times and places, administer such oaths, and require, by subpoena or otherwise, the attendance and testimony of such witnesses and the production of such books, papers, correspondence, memorandums, contracts, agreements, or other records, as the Secretary or such officer or employee deems advisable. Witnesses summoned pursuant to this subsection shall be paid the same fees and mileage that are paid witnesses in the courts of the United States;

(2) to examine and copy any documentary evidence of any person having materials or information relevant to any function of the Secretary under this chapter;

(3) to require, by general or special orders, any person to file, in such form as the Secretary may prescribe, reports or answers in writing to specific questions relating to any function of the Secretary under this chapter. (4) to request from any Federal agency any information he deems necessary to carry out his functions under this chapter, and each such agency is authorized and directed to cooperate with the Secretary and to furnish such information upon request made by the Secretary, and the head of any Federal agency is authorized to detail, on a reimbursable basis, any personnel of such agency to assist in carrying out the duties of the Secretary under this chapter; and

(5) to make available to the public any information which may indicate the existence of a defect which relates to manufactured home construction or safety or of the failure of a manufactured home to comply with applicable manufactured home construction and safety standards. The Secretary shall disclose so much of other information obtained under this subsection to the public as he determines will assist in carrying out this chapter; but he shall not (under the authority of this sentence) make available or disclosure to the public any information which contains or relates to a trade secret or any information the disclosure of which would put the person furnishing such information at a substantial competitive disadvantage, unless he determines that it is necessary to carry out the purpose of this chapter.

(d) Refusal to obey subpoena or order of Secretary; order of compliance by district court; failure to obey order of compliance punishable as contempt

Any of the district courts of the United States within the jurisdiction of which an inquiry is

carried on may, in the case of contumacy or refusal to obey a subpoena or order of the Secretary issued under paragraph (1) or paragraph (3) of subsection (c) of this section, issue an order requiring compliance therewith; and any failure to obey such order of the court may be punished by such court as a contempt thereof.

(e) Submission by manufacturer of building plans for manufactured homes; certification by manufacturer of conformity of building plans to standards

Each manufacturer of manufactured homes shall submit the building plans for every model of such manufactured homes to the Secretary or his designee for the purpose of inspection under this section. The manufacturer must certify that each such building plan meets the Federal construction and safety standards in force at that time before the model involved is produced.

(f) Records, reports and information from manufacturers, distributors and retailers of manufactured homes; inspection and examination of relevant books, papers, records and documents by designated person

Each manufacturer, distributor, and retailer of manufactured homes shall establish and maintain such records, make such reports, and provide such information as the Secretary may reasonably require to enable him to determine whether such manufacturer, distributor, or retailer has acted or is acting in compliance with this chapter and Federal manufactured home construction and safety standards prescribed pursuant to this chapter and shall, upon request of a person duly designated by the Secretary, permit such person to inspect appropriate books, papers, records, and documents relevant to determining whether such manufacturer, distributor, or retailer has acted or is acting in compliance with this chapter and manufactured home construction and safety standards prescribed pursuant to this chapter.

(g) Performance and technical data from manufacturer; persons required to receive notification of data

Each manufacturer of manufactured homes shall provide to the Secretary such performance data and other technical data related to performance and safety as may be required to carry out the purposes of this chapter. These shall include records of tests and test results which the Secretary may require to be performed. The Secretary is authorized to require the manufacturer to give notification of such performance and technical data to—

(1) each prospective purchaser of a manufactured home before its first sale for purposes other than resale, at each location where any such manufacturer's manufactured homes are offered for sale by a person with whom such manufacturer has a contractual, proprietary, or other legal relationship and in a manner determined by the Secretary to be appropriate, which may include, but is not limited to, printed matter (A) available for retention by such prospective purchaser, and (B) sent by mail to such prospective purchaser upon his request; and

(2) the first person who purchases a manufactured home for purposes other than resale,

at the time of such purchase or in printed matter placed in the manufactured home.

(h) Disclosure of confidential information and trade secrets

All information reported to or otherwise obtained by the Secretary or his representative pursuant to subsection (b), (c), (f), or (g) which contains or relates to a trade secret, or which, if disclosed, would put the person furnishing such information at a substantial competitive disadvantage, shall be considered confidential, except that such information may be disclosed to other officers or employees concerned with carrying out this chapter or when relevant in any proceeding under this chapter. Nothing in this section shall authorize the withholding of information by the Secretary or any officer or employee under his control from the duly authorized committees of the Congress.

EFFECTIVE DATE

Section effective upon the expiration of 180 days following Aug. 22, 1974, see section 627 of Pub. L. 93-383, set out as a note under section 5401 of this title.

§ 5414. Notification and correction of defects by manufacturer

(a) Notice to purchaser within reasonable time after discovery of defect

Every manufacturer of manufactured homes shall furnish notification of any defect in any manufactured home produced by such manufac-

turer which he determines, in good faith, relates to a Federal manufactured home construction or safety standard or contains a defect which constitutes an imminent safety hazard to the purchaser of such manufactured home, within a reasonable time after such manufacturer has discovered such defect.

(b) Notification by mail

The notification required by subsection (a) shall be accomplished—

(1) by mail to the first purchaser (not including any retailer or distributor of such manufacturer) of the manufactured home containing the defect, and to any subsequent purchaser to whom any warranty on such manufactured home has been transferred;

(2) by mail to any other person who is a registered owner of such manufactured home and whose name and address has been ascertained pursuant to procedures established under subsection (f); and

(3) by mail or other more expeditious means to the retailer or retailers of such manufacturer to whom such manufactured home was delivered.

(c) Form and requisites of notification

The notification required by subsection (a) shall contain a clear description of such defect or failure to comply, an evaluation of the risk to manufactured home occupants’ safety reasonably related to such defect, and a statement of the measures needed to repair the defect. The notification shall also inform the owner whether the defect is a construction or safety defect which the manufacturer will have corrected at no cost to the owner of the manufactured home under subsection (g) or otherwise, or is a defect which must be corrected at the expense of the owner.

(d) Copy to Secretary of all notices, bulletins, and communications sent by manufacturer to retailers and purchasers concerning defects; disclosure to public by Secretary

Every manufacturer of manufactured homes shall furnish to the Secretary a true or representative copy of all notices, bulletins, and other communications to the retailers of such manufacturer or purchasers of manufactured homes of such manufacturer regarding any defect in any such manufactured home produced by such manufacturer. The Secretary shall disclose to the public so much of the information contained in such notices or other information obtained under section 5413 of this title as he deems will assist in carrying out the purposes of this chapter, but he shall not disclose any information which contains or relates to a trade secret, or which, if disclosed, would put such manufacturer at a substantial competitive disadvantage, unless he determines that it is necessary to carry out the purposes of this chapter.

(e) Notice by Secretary to manufacturers of non-compliance with standards or defective nature of manufactured home; contents of notice; presentation by manufacturer of views; notice to purchasers of defects

If the Secretary determines that any manufactured home—

(1) does not comply with an applicable Federal manufactured home construction and safety standard prescribed pursuant to section 5403 of this title; or

(2) contains a defect which constitutes an imminent safety hazard,

then he shall immediately notify the manufacturer of such manufactured home of such defect or failure to comply. The notice shall contain the findings of the Secretary and shall include all information upon which the findings are based. The Secretary shall afford such manufacturer an opportunity to present his views and evidence in support thereof, to establish that there is no failure of compliance. If after such presentation by the manufacturer the Secretary determines that such manufactured home does not comply with applicable Federal manufactured home construction or safety standards, or contains a defect which constitutes an imminent safety hazard, the Secretary shall direct the manufacturer to furnish the notification specified in subsections (a) and (b) of this section.

(f) Maintenance by manufacturers of record of names and addresses of first purchasers of manufactured homes; procedures for ascertaining names and addresses of subsequent purchasers; establishment and reasonableness of procedures for maintaining records

Every manufacturer of manufactured homes shall maintain a record of the name and address of the first purchaser of each manufactured home (for purposes other than resale), and, to the maximum extent feasible, shall maintain procedures for ascertaining the name and address of any subsequent purchaser thereof and shall maintain a record of names and addresses so ascertained. Such records shall be kept for each home produced by a manufacturer. The Secretary may establish by order procedures to be followed by manufacturers in establishing and maintaining such records, including procedures to be followed by distributors and retailers to assist manufacturers to secure the information required by this subsection. Such procedures shall be reasonable for the particular type of manufactured home for which they are prescribed.

(g) Correction of defects by manufacturer; conditions; procedures; contract or legal rights of purchasers or other persons unaffected

A manufacturer required to furnish notification of a defect under subsection (a) or (e) shall also bring the manufactured home into compliance with applicable standards and correct the defect or have the defect corrected within a reasonable period of time at no expense to the owner, but only if—

(1) the defect presents an unreasonable risk of injury or death to occupants of the affected manufactured home or homes;

(2) the defect can be related to an error in design or assembly of the manufactured home by the manufacturer.

The Secretary may direct the manufacturer to make such corrections after providing an opportunity for oral and written presentation of views

by interested persons. Nothing in this section shall limit the rights of the purchaser or any other person under any contract or applicable law.

(h) Submission to Secretary by manufacturer of plan for notifying owners of defects and repair of defects; approval of manufacturer's remedy plan; effectuation and implementation of remedy plan

The manufacturer shall submit his plan for notifying owners of the defect and for repairing such defect (if required under subsection (g)) to the Secretary for his approval before implementing such plan. Whenever a manufacturer is required under subsection (g) to correct a defect, the Secretary shall approve with or without modification, after consultation with the manufacturer of the manufactured home involved, such manufacturer's remedy plan including the date when, and the method by which, the notification and remedy required pursuant to this section shall be effectuated. Such date shall be the earliest practicable one but shall not be more than sixty days after the date of discovery or determination of the defect or failure to comply, unless the Secretary grants an extension of such period for good cause shown and publishes a notice of such extension in the Federal Register. Such manufacturer is bound to implement such remedy plan as approved by the Secretary.

(i) Defective or inadequately repaired manufactured homes; replacement with new or equivalent home or refund of purchase price

Where a defect or failure to comply in a manufactured home cannot be adequately repaired within sixty days from the date of discovery or determination of the defect, the Secretary may require that the manufactured home be replaced with a new or equivalent home without charge, or that the purchase price be refunded in full, less a reasonable allowance for depreciation based on actual use if the home has been in the possession of the owner for more than one year.

SUBCHAPTER III—SOLAR PHOTOVOLTAIC ENERGY RESEARCH, DEVELOPMENT AND DEMONSTRATION

5581 to 5594. Repealed.

SUBCHAPTER I—HEATING AND COOLING

§ 5501. Congressional findings and declaration of policy

(a) The Congress hereby finds that—

(1) the current imbalance between supply and demand for fuels and energy is likely to persist for some time;

(2) the early demonstration of the feasibility of using solar energy for the heating and cooling of buildings could help to relieve the demand upon present fuel and energy supplies;

(3) the technologies for solar heating are close to the point of commercial application in the United States;

(4) the technologies for combined solar heating and cooling still require research, development, testing and demonstration, but no insoluble technical problem is now foreseen in achieving commercial use of such technologies;

(5) the early development and export of viable solar heating equipment and combined solar heating and cooling equipment, consistent with the established preeminence of the United States in the field of high technology products, can make a valuable contribution to our balance of trade;

(6) the widespread use of solar energy in place of conventional methods for the heating and cooling of buildings would have a significantly beneficial effect upon the environment;

(7) the mass production and use of solar heating and cooling equipment will help to eliminate the dependence of the United States upon foreign energy sources and promote the national defense;

(8) the widespread introduction of low-cost solar energy will be beneficial to consumers in a period of rapidly rising fuel cost;

(9) innovation and creativity in the development of solar heating and combined solar heating and cooling components and systems can be fostered through encouraging direct contact between the manufacturers of such systems and the architects, engineers, developers, contractors, and other persons interested in installing such systems in buildings;

(10) evaluation of the performance and reliability of solar heating and combined solar

heating and cooling technologies can be expedited by testing under carefully controlled conditions; and

(11) commercial application of solar heating and combined solar heating and cooling technologies can be expedited by early commercial demonstration under practical conditions.

(b) It is therefore declared to be the policy of the United States and the purpose of this subchapter to provide for the demonstration within a three-year period of the practical use of solar heating technology, and to provide for the development and demonstration within a five-year period of the practical use of combined heating and cooling technology.

SAVINGS PROVISION

Pub. L. 116-260, div. Z, title III, §3006(e)(2), Dec. 27, 2020, 134 Stat. 2513, provided that: “The repeal of the Solar Energy Research, Development, and Demonstration Act of 1974 (42 U.S.C. 5551 et seq.) under paragraph (1) shall not affect the authority of the Secretary of Energy to conduct research and development on solar energy.”

§ 5556a. Solar photovoltaic energy systems studies and acquisitions by Secretary of Energy; scope, contents, and submission dates for reports; acquisition authority and requirements; authorization of appropriations

(a) The Secretary of Energy shall—

(1) initiate and conduct an “application and system design study”, cooperatively with appropriate Federal agencies, to determine the potential for the use of solar photovoltaic systems at specific Federal installations; and this study shall—

(A) include an analysis of those sites that are currently cost-effective for solar photovoltaic energy systems, using life-cycle costing techniques, as well as those which would be cost-effective at expected future market prices;

(B) identify potential sites and uses of solar photovoltaic energy systems at the following agencies as well as any others which the Secretary of Energy deems necessary:

(i) the Department of Defense;

(ii) the Department of Transportation (including the United States Coast Guard, the Federal Aviation Administration, and the Federal Highway Administration);

(iii) the Department of Commerce;

(iv) the Department of Agriculture; and

(v) the Department of the Interior;

(C) provide a preliminary report to Congress within nine months following February 25, 1978;

(D) include the presentation of a detailed plan for the implementation of solar photovoltaic energy systems for power generation at specific sites in Federal Government agencies to Congress within twelve months following February 25, 1978;

(2) initiate and conduct a study of the options available to the Federal Government to provide for the adequate growth of the solar photovoltaic industry and to include such possible incentives as government funding, loan guarantees, tax incentives, the operation of pilot plants or production lines and other incentives deemed worthy of consideration by the Secretary of Energy. A preliminary report shall be submitted to Congress within six months following February 25, 1978;

(3) initiate and conduct a study involving the prospects for applications of solar photo-

voltaic energy systems for power generation in foreign countries, particularly lesser developed countries, and the potential for the exportation of these energy systems. This study shall involve the cooperation of the Department of State and the Department of Commerce, as well as other Federal agencies which the Secretary of Energy deems appropriate. A final report shall be submitted to the Congress, as well as a preliminary report within twelve months of February 25, 1978; and

(4) be authorized to acquire up to an additional 4.0 megawatts (peak) of solar photovoltaic energy systems. The sum of \$13,000,000 is hereby authorized to be appropriated (in addition to any other amounts authorized by this Act to be appropriated) for the fiscal year ending September 30, 1978, and for delivery in the following twelve months. Such sums shall remain available until expended. The solar photovoltaic energy systems acquired shall be available for use for power generation by Federal agencies, provided that no procurement takes place until their application on Federal sites is determined to be life cycle cost effective.

(b) For technology development, particularly for engineering design and development of the manufacturing process of solar photovoltaic energy systems (primarily for the implementation of automated processes and other cost reducing production technologies), the sum of \$6,000,000 is hereby authorized by this Act to be appropriated for the fiscal year ending September 30, 1978.

-------	--------------------------------

§ 5801. Congressional declaration of policy and purpose

(a) Development and utilization of energy sources

The Congress hereby declares that the general welfare and the common defense and security require effective action to develop, and increase the efficiency and reliability of use of, all energy sources to meet the needs of present and future generations, to increase the productivity of the national economy and strengthen its position in regard to international trade, to make the Nation self-sufficient in energy, to advance the goals of restoring, protecting, and enhancing environmental quality, and to assure public health and safety.

(b) Necessity of establishing Energy Research and Development Administration

The Congress finds that, to best achieve these objectives, improve Government operations, and assure the coordinated and effective development of all energy sources, it is necessary to establish an Energy Research and Development Administration to bring together and direct Federal activities relating to research and development on the various sources of energy, to increase the efficiency and reliability in the use of energy, and to carry out the performance of other functions, including but not limited to the Atomic Energy Commission's military and production activities and its general basic research activities. In establishing an Energy Research and Development Administration to achieve these objectives, the Congress intends that all possible sources of energy be developed consistent with warranted priorities.

(c) Separation of licensing and regulatory functions of Atomic Energy Commission

The Congress finds that it is in the public interest that the licensing and related regulatory functions of the Atomic Energy Commission be separated from the performance of the other functions of the Commission, and that this separation be effected in an orderly manner, pursu-

ant to this chapter, assuring adequacy of technical and other resources necessary for the performance of each.

(d) Small business participation

The Congress declares that it is in the public interest and the policy of Congress that small business concerns be given a reasonable opportunity to participate, insofar as is possible, fairly and equitably in grants, contracts, purchases, and other Federal activities relating to research, development, and demonstration of sources of energy efficiency, and utilization and conservation of energy. In carrying out this policy, to the extent practicable, the Administrator shall consult with the Administrator of the Small Business Administration.

(e) Priorities

Determination of priorities which are warranted should be based on such considerations as power-related values of an energy source, preservation of material resources, reduction of pollutants, export market potential (including reduction of imports), among others. On such a basis, energy sources warranting priority might include, but not be limited to, the various methods of utilizing solar energy.

RESEARCH APPLIED TO NATIONAL NEEDS; COORDINATION OF ENERGY RESEARCH AND DEVELOPMENT ACTIVITIES

L. 94-471, § 2(e)(3), Oct. 11, 1976, 90 Stat. 2053, provided that: "In the conduct of the energy research and development activities under the 'Research Applied to National Needs' category, the National Science Foundation shall coordinate all new energy research project awards with the Administrator of the Energy Research and Development Administration or his designee."

Similar provisions were contained in Pub. L. 94-86, § 5, Aug. 9, 1975, 89 Stat. 430.

§ 5821. Annual authorization Acts

(a) General requirements; applicability to appropriations

All appropriations made to the Energy Research and Development Administration or the Administrator shall, except as otherwise provided by law, be subject to annual authorization in accordance with section 2017 of this title, section 5915 of this title, and section 5875 of this title. The provisions of this section shall apply with respect to appropriations made pursuant to the Act providing such authorization (hereinafter in this section referred to as "annual authorization Acts").

(b) Requirements and limitations respecting funds appropriated for operating expenses

(1) Funds appropriated pursuant to an annual authorization Act for "Operating expenses" may be used for—

(A) the construction or acquisition of any facilities, or major items of equipment, which may be required at locations other than installations of the Administration, for the performance of research, development, and demonstration activities, and

(B) grants to any organization for purchase or construction of research facilities.

No such funds shall be used under this subsection for the acquisition of land. Fee title to all such facilities and items of equipment shall be vested in the United States, unless the Administrator or his designee determines in writing that the research, development, and demonstration authorized by such Act would best be implemented by permitting fee title or any other property interest to be vested in an entity

other than the United States; but before approving the vesting of such title or interest in such entity, the Administrator shall (i) transmit such determination, together with all pertinent data, to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate and (ii) wait a period of thirty calendar days (not including any day in which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain), unless prior to the expiration of such period each such committee has transmitted to the Administrator written notice to the effect that such committee has no objection to the proposed action.

(2) No funds shall be used under paragraph (1) for any facility or major item of equipment, including collateral equipment, if the estimated cost to the Federal Government exceeds \$5,000,000 in the case of such a facility or \$2,000,000 in the case of such an item of equipment, unless such facility or item has been previously authorized by the appropriate committees of the House of Representatives and the Senate, or the Administrator—

(A) transmit to the appropriate committees of the House of Representatives and the Senate a report on such facility or item showing its nature, purpose, and estimated cost, and

(B) waits a period of thirty calendar days (not including any day in which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain), unless prior to the expiration of such period each such committee has transmitted to the Administrator written notice to the effect that such committee has no objection to the proposed action.

(c) Additional requirements and limitations respecting funds appropriated for operating expenses

(1) Not to exceed 1 per centum of all funds appropriated pursuant to any annual authorization Act for "Operating expenses" may be used by the Administrator to construct, expand, or modify laboratories and other facilities, including the acquisition of land, at any location under the control of the Administrator, if the Administrator determines that (A) such action would be necessary because of changes in the national programs authorized to be funded by such Act or because of new scientific or engineering developments, and (B) deferral of such action until the enactment of the next authorization Act would be inconsistent with the policies established by Congress for the Administration.

(2) No funds may be obligated for expenditure or expended under paragraph (1) for activities described in such paragraph unless—

(A) a period of thirty calendar days (not including any day in which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) has passed after the Administrator has transmitted to the appropriate committees of the House of Representatives and the Senate a written report containing a full and complete statement concerning (i) the nature of the construction, expansion, or modification in-

involved, (ii) the cost thereof, including the cost of any real estate action pertaining thereto, and (iii) the reason why such construction, expansion, or modification is necessary and in the national interest, or

(B) each such committee before the expiration of such period has transmitted to the Administrator a written notice to the effect that such committee has no objection to the proposed action;

except that this paragraph shall not apply to any project the estimated total cost of which does not exceed \$50,000.

(d) Requirements respecting amounts appropriated in annual appropriation Act for use in programs in excess of amount actually authorized for use in program not presented to, or requested of Congress; reduction in aggregate amount available for categories of coal, etc., from sums appropriated

(1) Except as otherwise provided in the authorization Act involved—

(A) no amount appropriated pursuant to any annual authorization Act may be used for any program in excess of the amount actually authorized for that particular program by such Act, and

(B) no amount appropriated pursuant to any annual authorization Act may be used for any program which has not been presented to, or requested of the Congress,

unless (i) a period of thirty calendar days (not including any day in which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) has passed after the receipt by the appropriate committees of the House of Representatives and the Senate of notice given by the Administrator containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of such proposed action, or (ii) each such committee before the expiration of such period has transmitted to the Administrator written notice to the effect that such committee has no objection to the proposed action.

(2) Notwithstanding any other provision of this section or the authorization Act involved, the aggregate amount available for use within the categories of coal, petroleum and natural gas, oil shale, solar, geothermal, nuclear energy (non-weapons), environment and safety, and conservation from sums appropriated pursuant to an annual authorization Act may not, as a result of reprogramming, be decreased by more than 10 per centum of the total of the sums appropriated pursuant to such Act for those categories.

(e) Requirements and limitations respecting merger of amounts appropriated for operating expenses or for plant and capital equipment

Subject to the applicable requirements and limitations of this section and the authorization Act involved, when so specified in an appropriation Act, amounts appropriated pursuant to any annual authorization Act for "Operating expenses" or for "Plant and capital equipment" may be merged with any other amounts appro-

riated for like purposes pursuant to any other Act authorizing appropriations for the Administration: *Provided*, That no such amounts appropriated for "Plant and capital equipment" may be merged with amounts appropriated for "Operating expenses".

(f) Availability until expended of amounts appropriated for operating expenses or for plant and capital equipment

When so specified in an appropriation Act, amounts appropriated pursuant to any annual authorization Act for "Operating expenses" or for "Plant and capital equipment" may remain available until expended.

(g) Performance of construction design services by Administrator

The Administrator is authorized to perform construction design services for any administration construction project whenever (1) such construction project has been included in a proposed authorization bill transmitted to the Congress by the Administration, and (2) the Administration determines that the project is of such urgency in order to meet the needs of national defense or protection of life and property or health and safety that construction of the project should be initiated promptly upon enactment of legislation appropriating funds for its construction.

(h) Retention and use for operating expenses, and availability until expended, of moneys received by Administration; exceptions

When so specified in appropriation Acts, any moneys received by the Administration may be retained and used for operating expenses, and may remain available until expended, notwithstanding the provisions of section 3302(b) of title 31; except that—

(1) this subsection shall not apply with respect to sums received from disposal of property under the Atomic Energy Community Act of 1955 [42 U.S.C. 2301 et seq.] or the Strategic and Critical Materials Stockpiling Act, as amended [50 U.S.C. 98 et seq.], or with respect to fees received for tests or investigations under the Act of May 16, 1910, as amended (30 U.S.C. 7); and

(2) revenues received by the Administration from the enrichment of uranium shall (when so specified) be retained and used for the specific purpose of offsetting costs incurred by the Administration in providing uranium enrichment service activities.

(i) Requirements respecting transfers of sums appropriated for operating expenses to other Government agencies; merger of transferred sums

When so specified in an appropriation Act, transfers of sums from the "Operating expenses" appropriation made pursuant to an annual authorization Act may be made to other agencies of the Government for the performance of the work for which the appropriation is made, and in such cases the sums so transferred may be merged with the appropriations to which they are transferred.

TRANSPORTATION OF PLUTONIUM BY AIRCRAFT THROUGH UNITED STATES AIR SPACE

Pub. L. 100-202, §101(d) [title III, §300], Dec. 22, 1987, 101 Stat. 1329-104, 1329-121, and Pub. L. 100-203, title V, §5062, Dec. 22, 1987, 101 Stat. 1330-251, provided that:

“(a) IN GENERAL.—Notwithstanding any other provision of law, no form of plutonium may be transported by aircraft through the air space of the United States from a foreign nation to a foreign nation unless the Nuclear Regulatory Commission has certified to Congress that the container in which such plutonium is transported is safe, as determined in accordance with subsection (b), the second undesignated paragraph under section 201 of Public Law 94-79 (89 Stat. 413; 42 U.S.C. 5841 note), and all other applicable laws.

“(b) RESPONSIBILITIES OF THE NUCLEAR REGULATORY COMMISSION.—

“(1) DETERMINATION OF SAFETY.—The Nuclear Regulatory Commission shall determine whether the container referred to in subsection (a) is safe for use in the transportation of plutonium by aircraft and transmit to Congress a certification for the purposes of such subsection in the case of each container determined to be safe.

“(2) TESTING.—In order to make a determination with respect to a container under paragraph (1), the Nuclear Regulatory Commission shall—

“(A) require an actual drop test from maximum cruising altitude of a full-scale sample of such container loaded with test materials; and

“(B) require an actual crash test of a cargo aircraft fully loaded with full-scale samples of such container loaded with test material unless the Commission determines, after consultation with an independent scientific review panel, that the stresses on the container produced by other tests used in developing the container exceed the stresses which would occur during a worst case plutonium air shipment accident.

“(3) LIMITATION.—The Nuclear Regulatory Commission may not certify under this section that a container is safe for use in the transportation of plutonium by aircraft if the container ruptured or released its contents during testing conducted in accordance with paragraph (2).

“(4) EVALUATION.—The Nuclear Regulatory Commission shall evaluate the container certification required by title II of the Energy Reorganization Act of 1974 (42 U.S.C. 5841 et seq.) and subsection (a) in accordance with the National Environmental Policy Act of 1969 (83 Stat. 852; 42 U.S.C. 4321 et seq.) and all other applicable law.

“(c) CONTENT OF CERTIFICATION.—A certification referred to in subsection (a) with respect to a container shall include—

“(1) the determination of the Nuclear Regulatory Commission as to the safety of such container;

“(2) a statement that the requirements of subsection (b)(2) were satisfied in the testing of such container; and

“(3) a statement that the container did not rupture or release its contents into the environment during testing.

“(d) DESIGN OF TESTING PROCEDURES.—The tests required by subsection (b) shall be designed by the Nuclear Regulatory Commission to replicate actual worst case transportation conditions to the maximum extent practicable. In designing such tests, the Commission shall provide for public notice of the proposed test procedures, provide a reasonable opportunity for public comment on such procedures, and consider such comments, if any.

“(e) TESTING RESULTS: REPORTS AND PUBLIC DISCLOSURE.—The Nuclear Regulatory Commission shall transmit to Congress a report on the results of each test conducted under this section and shall make such results available to the public.

“(f) ALTERNATIVE ROUTES AND MEANS OF TRANSPORTATION.—With respect to any shipments of plutonium from a foreign nation to a foreign nation which are subject to United States consent rights contained in an Agreement for Peaceful Nuclear Cooperation, the President is authorized to make every effort to pursue and conclude arrangements for alternative routes and means of transportation, including sea shipment. All

such arrangements shall be subject to stringent physical security conditions, and other conditions designed to protect the public health and safety, and provisions of this section, and all other applicable laws.

“(g) INAPPLICABILITY TO MEDICAL DEVICES.—Subsections (a) through (e) shall not apply with respect to plutonium in any form contained in a medical device designed for individual human application.

“(h) INAPPLICABILITY TO MILITARY USES.—Subsections (a) through (e) shall not apply to plutonium in the form of nuclear weapons nor to other shipments of plutonium determined by the Department of Energy to be directly connected with the United States national security or defense programs.

“(i) INAPPLICABILITY TO PREVIOUSLY CERTIFIED CONTAINERS.—This section shall not apply to any containers for the shipment of plutonium previously certified as safe by the Nuclear Regulatory Commission under Public Law 94-79 (89 Stat. 413; 42 U.S.C. 5841 note).

“(j) PAYMENT OF COSTS.—All costs incurred by the Nuclear Regulatory Commission associated with the testing program required by this section, and administrative costs related thereto, shall be reimbursed to the Nuclear Regulatory Commission by any foreign country receiving plutonium shipped through United States airspace in containers specified by the Commission.”

RESIDENT INSPECTOR PROGRAM; IMPLEMENTATION AND ACCELERATION OF ASSIGNMENT OF PERSONNEL; STUDY OF EXISTING AND ALTERNATE PROGRAMS FOR IMPROVING QUALITY ASSURANCE AND CONTROL; PILOT PROGRAMS TO REVIEW AND EVALUATE ALTERNATIVE PROGRAMS; SCOPE OF PILOT PROGRAM; REPORT TO CONGRESS; CONTENTS

Pub. L. 97-415, §13, Jan. 4, 1983, 96 Stat. 2074, provided that:

“(a) The Nuclear Regulatory Commission is authorized and directed to implement and accelerate the resident inspector program so as to assure the assignment of at least one resident inspector by the end of fiscal year 1982 at each site at which a commercial nuclear powerplant is under construction and construction is more than 15 percent complete. At each such site at which construction is not more than 15 percent complete, the Commission shall provide that such inspection personnel as the Commission deems appropriate shall be physically present at the site at such times following issuance of the construction permit as may be necessary in the judgment of the Commission.

“(b) The Commission shall conduct a study of existing and alternative programs for improving quality assurance and quality control in the construction of commercial nuclear powerplants. In conducting the study, the Commission shall obtain the comments of the public, licensees of nuclear powerplants, the Advisory Committee on Reactor Safeguards, and organizations comprised of professionals having expertise in appropriate fields. The study shall include an analysis of the following:

“(1) providing a basis for quality assurance and quality control, inspection, and enforcement actions through the adoption of an approach which is more prescriptive than that currently in practice for defining principal architectural and engineering criteria for the construction of commercial nuclear powerplants;

“(2) conditioning the issuance of construction permits for commercial nuclear powerplants on a demonstration by the licensee that the licensee is capable of independently managing the effective performance of all quality assurance and quality control responsibilities for the powerplant;

“(3) evaluations, inspections, or audits of commercial nuclear powerplant construction by organizations comprised of professionals having expertise in appropriate fields which evaluations, inspections, or audits are more effective than those under current practice;

“(4) improvement of the Commission’s organization, methods, and programs for quality assurance development, review, and inspection; and

“(5) conditioning the issuance of construction permits for commercial nuclear powerplants on the permittee entering into contracts or other arrangements with an independent inspector to audit the quality assurance program to verify quality assurance performance.

For purposes of paragraph (5), the term ‘independent inspector’ means a person or other entity having no responsibility for the design or construction of the plant involved. The study shall also include an analysis of quality assurance and quality control programs at representative sites at which such programs are operating satisfactorily and an assessment of the reasons therefor.

“(c) For purposes of—

“(1) determining the best means of assuring that commercial nuclear powerplants are constructed in accordance with the applicable safety requirements in effect pursuant to the Atomic Energy Act of 1954 [42 U.S.C. 2011 et seq.]; and

“(2) assessing the feasibility and benefits of the various means listed in subsection (b);

the Commission shall undertake a pilot program to review and evaluate programs that include one or more of the alternative concepts identified in subsection (b) for the purposes of assessing the feasibility and benefits of their implementation. The pilot program shall include programs that use independent inspectors for auditing quality assurance responsibilities of the licensee for the construction of commercial nuclear powerplants, as described in paragraph (5) of subsection (b). The pilot program shall include at least three sites at which commercial nuclear powerplants are under construction. The Commission shall select at least one site at which quality assurance and quality control programs have operated satisfactorily, and at least two sites with remedial programs underway at which major construction, quality assurance, or quality control deficiencies (or any combination thereof) have been identified in the past. The Commission may require any changes in existing quality assurance and quality control organizations and relationships that may be necessary at the selected sites to implement the pilot program.

“(d) Not later than fifteen months after the date of the enactment of this Act [Jan. 4, 1983], the Commission shall complete the study required under subsection (b) and submit to the United States Senate and House of Representatives a report setting forth the results of the study. The report shall include a brief summary of the information received from the public and from other persons referred to in subsection (b) and a statement of the Commission’s response to the significant comments received. The report shall also set forth an analysis of the results of the pilot program required under subsection (c). The report shall be accompanied by the recommendations of the Commission, including any legislative recommendations, and a description of any administrative actions that the Commission has undertaken or intends to undertake, for improving quality assurance and quality control programs that are applicable during the construction of nuclear powerplants.”

PLUTONIUM SHIPMENTS RESTRICTIONS

Pub. L. 94-79, title II, §201, Aug. 9, 1975, 89 Stat. 413, provided in part that: “The Nuclear Regulatory Commission shall not license any shipments by air transport of plutonium in any form, whether exports, imports or domestic shipments: *Provided, however,* That any plutonium in any form contained in a medical device designed for individual human application is not subject to this restriction. This restriction shall be in force until the Nuclear Regulatory Commission has certified to the Joint Committee on Atomic Energy of the Congress that a safe container has been developed and tested which will not rupture under crash and blast-testing equivalent to the crash and explosion of a high-flying aircraft.”

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I am submitting herewith to the Congress Reorganization Plan No. 1 of 1980, under authority vested in me by the Reorganization Act of 1977 (Chapter 9 of Title 5 of the United States Code). The Plan is designed to strengthen management of the Nuclear Regulatory Commission in order to foster safety in all of the agency's activities.

The need for more effective management of the Nuclear Regulatory Commission has been amply demonstrated over the past year. The accident at Three Mile Island one year ago revealed serious shortcomings in the agency's ability to respond effectively during a crisis. The lessons learned from that accident go beyond crisis management, however. They provide the impetus for improving the effectiveness of all aspects of the government regulation of nuclear energy.

In my statement of December 7, 1979, I responded to the recommendations of my Commission on the Accident at Three Mile Island and set forth steps now being taken to address those recommendations. I stated that I would send to Congress a Reorganization Plan to strengthen the Nuclear Regulatory Commission's ability to regulate nuclear safety. I am submitting that Plan today.

The Plan clarifies the duties of the Chairman as principal executive officer. In addition to directing the day-to-day operations of the agency, the Chairman would take charge of the Commission's response to nuclear emergencies and, as principal executive officer, would be guided by Commission policy and subject to Commission oversight.

MANAGEMENT PROBLEMS

Intensive investigations undertaken since the Three Mile Island accident have revealed management problems at the Nuclear Regulatory Commission. These problems must be rectified if the Commission is to be a strong and effective safety regulator.

—My Commission, called the Kemeny Commission after its Chairman, Dr. John Kemeny, concluded that the underlying problem at Three Mile Island stemmed not from deficient equipment but rather from compounded human failures. This included the inability of the Nuclear Regulatory Commission to pursue its safety mission effectively in view of its existing management policies and practices. The Kemeny Commission reported a lack of "closure" in the system to ensure that safety issues are raised, analyzed and resolved. Kemeny Commission members also concluded that the Nuclear Regulatory Commission relies too heavily on licensing, and pays insufficient attention to ensuring the safety of plants once they are in operation.

—During the course of its investigation, the Kemeny Commission found serious managerial problems at the top of the Nuclear Regulatory Commission. It noted that the Commissioners and the Chairman are unclear as to their respective roles. Uncertain, diffuse leadership of this kind leads to highly compartmentalized offices that operate with little or no effective guidance and little coordination.

—A recently completed independent study authorized and funded by the Nuclear Regulatory Commission itself also found serious fault with the Commission's management and called for a major organizational overhaul. The report states that there is no authoritative manager but, instead, five equally responsible Commissioners who deal individually with office directors who, in turn, head their own "independent fiefdoms."

—Likewise, a recent report of the General Accounting Office notes the failure of the Nuclear Regulatory Commission to define either the authority of the Chairman or that of the Executive Director for Operations. The staff lacks policy guidance and top management leadership to set priorities and resolve safety issues. There are unreasonable delays in developing policies to guide the licensing and enforcement activities of the agency.

The central theme in all three of these studies is the failure of the Nuclear Regulatory Commission to provide unified leadership and consistent direction of the agency's activities. The present statutes contain conflicting and ambiguous provisions for managing the agency. Important corrective actions cannot or will not be taken by the Commission until the laws are changed. Failure to do so constitutes a continuing nuclear safety hazard.

The present Reorganization Plan would improve the effectiveness of the Nuclear Regulatory Commission by giving the Chairman the powers he needs to ensure efficient and coherent management in a manner that preserves, in fact enhances, the commission form of organization.

COMMISSION

Under the proposed Plan, the Commission would continue to be responsible for policy formulation, rule-making and adjudication as functions which should have collegial deliberation. In addition, the Commission would review and approve proposals by the Chairman concerning key management actions such as personnel decisions affecting top positions which directly support Commission functions, the annual budget, and major staff reorganizations. In carrying out its role, the Commission would have the direct assistance of several Commission-level offices as well as the licensing board, the appeal panel, and the Advisory Committee on Reactor Safeguards. The Plan would not alter the present arrangement whereby the Commission, acting on majority vote, represents the ultimate authority of the Nuclear Regulatory Commission and sets the framework within which the Chairman is to operate.

CHAIRMAN

Under the Plan, the Chairman would act as the principal executive officer and spokesman for the Commission. To accomplish this, those functions of the Nuclear Regulatory Commission not retained by the Commission would be vested in the Chairman, who is currently coequal with the Commissioners in all decisions and actions. The Chairman would be authorized to make appointments, on his own authority, to all positions not specified for Commission approval and would be responsible to the Commission for assuring staff support by the operating offices in meeting the needs of the Commission. The Executive Director for Operations would report directly to and receive his authority from the Chairman. Heads of operating offices would also report to the Chairman or, by delegation, to the Executive Director for Operations. Office heads would also be authorized to communicate directly with members of the Commission whenever an office head believed critical safety issues were not being addressed.

EMERGENCY MANAGEMENT

The Nuclear Regulatory Commission's ability to respond decisively and responsibly to any nuclear emergency must be fully ensured in advance. Experience has shown that the Commission as a whole cannot deal expeditiously with emergencies or communicate in a clear, unified voice to civil authorities or to the public. But present law prevents the Commission from delegating its emergency authority to one of its members. The Plan would correct this situation by specifically authorizing the Chairman to act for the Commission in an emergency. In order to ensure flexibility, the Chairman would be permitted to delegate his authority to

deal with a particular emergency to any other Commissioner. Plans for dealing with various contingencies would be approved by the Commission in advance. The Commission would also receive a report from the Chairman or his designee describing the management of the emergency once it was over.

ACTIONS NOT INCLUDED IN THIS PLAN

Not included in this Plan are two actions that I support in principle but that need not or cannot be accomplished by means of a Reorganization Plan. First the Commission, as part of its implementation of this reorganization, can and should establish an internal entity to help oversee the performance of the agency as it operates under the Chairman's direction. This action does not require a Reorganization Plan. Second, I have consistently favored funding assistance to intervenors in regulatory proceedings. This is particularly important in the case of nuclear safety regulation. I therefore encourage the Commission to include consideration of intervenor funding as part of its review and upgrading of the licensing process, as called for by the Kemeny Commission. I have also requested Congress to appropriate funds for this purpose. This activity cannot be authorized by a Reorganization Plan.

NO ADDED COSTS

This proposed realignment and clarification of responsibilities would not result in an increase or decrease of expenditures. But placing management responsibilities in the Chairman would result in greater attention to developing and implementing nuclear safety policies and to strict enforcement of the terms of licenses granted by the Commission.

Each of the provisions of this proposed reorganization would also accomplish one or more of the purposes set forth in 5 U.S.C. 901(a). No statutory functions would be abolished by the Plan; rather they would be consolidated or reassigned in order to improve management, delivery of services, execution of the law, and overall operational efficiency and effectiveness of the Commission.

By Executive Order No. 12202, dated March 18, 1980 [42 U.S.C. 5848 note], I established a Nuclear Safety Oversight Committee to advise me of progress being made by the Nuclear Regulatory Commission, the nuclear industry, and others in improving nuclear safety. I am confident that the present Reorganization Plan, together with the other steps that have been or are being taken by this Administration and by others, will greatly advance the goal of nuclear safety. It would permit the Commission and the American people to hold one individual—the Chairman—accountable for implementation of the Commission's policies through effective management of the Commission staff. Freed of management and administrative details, the Commission could then concentrate on the purpose for which that collegial body was created—to deliberate on the formulation of policy and rules to govern nuclear safety and to decide or oversee disposition of individual cases.

JIMMY CARTER.

THE WHITE HOUSE, March 27, 1980.

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I herewith transmit the following amendments to Reorganization Plan No. 1 of 1980, which I sent to the Congress on March 27, 1980.

The amendments to Reorganization Plan No. 1 are consistent with my original intent of strengthening the management of the Nuclear Regulatory Commission in order to improve safety in all of the agency's activities, while preserving the advantages of the Commission form. The amendments reinforce the purpose of the Plan in two respects. First, the amended Plan gives the Commission a greater role in selection of key program officers of the agency by adding four positions to the list of appointments initiated by the Chairman for the Commission's advice and consent. These are the Execu-

tive Director for Operations, the Director of Inspection and Enforcement, the Director of Nuclear Regulatory Research, and the Director of Standards Development. Each of these positions contributes to nuclear safety regulation, and each performs functions that help determine the policy and performance of the agency.

The Advisory Committee on Reactor Safeguards advises the Commission as a whole. Since its members serve renewable 4-year terms, another amendment provides that a Commission member, as well as the Chairman, can initiate an appointment to the Advisory Committee on Reactor Safeguards for approval by the Commission.

As a means to ensure that the flow of information to the Commission will not be restricted, the Plan has been amended to make explicit that the Chairman, and the Executive Director of Operations through the Chairman, shall keep the Commission fully and currently informed.

The second general purpose of the amendments is to provide for more effective management of the agency by making more explicit the responsibilities of the Chairman and the Executive Director for Operations acting under his direction. As amended, the Plan charges the Chairman with planning for the development of policy for consideration and approval by the Commission. In the past, this responsibility has not been clearly fixed and has consequently been neglected. The amended Plan continues to make clear that the Executive Director for Operations reports to the Chairman. An amendment, however, requires the Chairman to delegate to the Executive Director for Operations the authority to appoint the staff and the day-to-day administration of the agency. Under this arrangement, the Chairman retains responsibility for the delegated functions but will be better able to handle his other leadership tasks.

In summary, the amendments I am transmitting to Reorganization Plan No. 1 of 1980, based on review and hearings conducted by the Congress and on continued consultations, will help establish a more accountable central management structure for the Nuclear Regulatory Commission as it pursues its statutory objective of ensuring safety in the use of nuclear power.

JIMMY CARTER.

THE WHITE HOUSE, May 5, 1980.

EXECUTIVE ORDER NO. 11902

(a)(1)¹ The Commission is authorized and directed to make or cause to be made under its direction, a national survey, which shall include consideration of each of the existing or future electric reliability regions, or other appropriate regional areas, to locate and identify possible nuclear energy center sites. This survey shall be conducted in cooperation with other interested Federal, State, and local agencies, and the views of interested persons, including electric utilities, citizens' groups, and others, shall be solicited and considered.

(2) For purposes of this section, the term "nuclear energy center site" means any site, including a site not restricted to land, large enough to support utility operations or other elements of the total nuclear fuel cycle, or both including, if appropriate, nuclear fuel reprocessing facilities, nuclear fuel fabrication plants, retrievable nuclear waste storage facilities, and uranium² enrichment facilities.

(3) The survey shall include—

(a) a regional evaluation of natural resources, including land, air, and water resources, available for use in connection with nuclear energy center sites; estimates of future electric power requirements that can be served by each nuclear energy center site; an assessment of the economic impact of each nuclear energy site; and consideration of any other relevant factors, including but not limited to population distribution, proximity to electric load centers and to other elements of the fuel cycle, transmission line rights-of-way, and the availability of other fuel resources;

(b) an evaluation of the environmental impact likely to result from construction and operation of such nuclear energy centers, including an evaluation whether such nuclear energy centers will result in greater or lesser environmental impact than separate siting of the reactors and/or fuel cycle facilities; and

(c) consideration of the use of federally owned property and other property designated for public use, but excluding national parks, national forests, national wilderness areas, and national historic monuments.

(4) A report of the results of the survey shall be published and transmitted to the Congress

The report shall include the Commission's evaluation of the results of the survey and any conclusions and recommendations, including recommendations for legislation, which the Commission may have concerning the feasibility and practicality of locating nuclear power reactors and/or other elements of the nuclear fuel cycle on nuclear energy center sites. The Commission is authorized to adopt policies which will encourage the location of nuclear power reactors and related fuel cycle facilities on nuclear energy center sites insofar as practicable.

TRANSFER OF FUNCTIONS

For transfer of certain functions from Nuclear Regulatory Commission to Chairman thereof, see Reorg. Plan No. 1 of 1980, 45 F.R. 40561, 94 Stat. 3585, set out as a note under section 5841 of this title.

§ 5851. Employee protection

(a) Discrimination against employee

(1) No employer may discharge any employee or otherwise discriminate against any employee with respect to his compensation, terms, conditions, or privileges of employment because the employee (or any person acting pursuant to a request of the employee)—

(A) notified his employer of an alleged violation of this chapter or the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.);

(B) refused to engage in any practice made unlawful by this chapter or the Atomic Energy Act of 1954, if the employee has identified the alleged illegality to the employer;

(C) testified before Congress or at any Federal or State proceeding regarding any provision (or proposed provision) of this chapter or the Atomic Energy Act of 1954;

(D) commenced, caused to be commenced, or is about to commence or cause to be commenced a proceeding under this chapter or the Atomic Energy Act of 1954, as amended, or a proceeding for the administration or enforcement of any requirement imposed under this chapter or the Atomic Energy Act of 1954, as amended;

(E) testified or is about to testify in any such proceeding or;

(F) assisted or participated or is about to assist or participate in any manner in such a proceeding or in any other manner in such a proceeding or in any other action to carry out

the purposes of this chapter or the Atomic Energy Act of 1954, as amended.

(2) For purposes of this section, the term “employer” includes—

(A) a licensee of the Commission or of an agreement State under section 274 of the Atomic Energy Act of 1954 (42 U.S.C. 2021);

(B) an applicant for a license from the Commission or such an agreement State;

(C) a contractor or subcontractor of such a licensee or applicant;

(D) a contractor or subcontractor of the Department of Energy that is indemnified by the Department under section 170 d. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(d)), but such term shall not include any contractor or subcontractor covered by Executive Order No. 12344;

(E) a contractor or subcontractor of the Commission;

(F) the Commission; and

(G) the Department of Energy.

(b) Complaint, filing and notification

(1) Any employee who believes that he has been discharged or otherwise discriminated against by any person in violation of subsection (a) may, within 180 days after such violation occurs, file (or have any person file on his behalf) a complaint with the Secretary of Labor (in this section referred to as the “Secretary”) alleging such discharge or discrimination. Upon receipt of such a complaint, the Secretary shall notify the person named in the complaint of the filing of the complaint, the Commission, and the Department of Energy.

(2)(A) Upon receipt of a complaint filed under paragraph (1), the Secretary shall conduct an investigation of the violation alleged in the complaint. Within thirty days of the receipt of such complaint, the Secretary shall complete such investigation and shall notify in writing the complainant (and any person acting in his behalf) and the person alleged to have committed such violation of the results of the investigation conducted pursuant to this subparagraph. Within ninety days of the receipt of such complaint the Secretary shall, unless the proceeding on the complaint is terminated by the Secretary on the basis of a settlement entered into by the Secretary and the person alleged to have committed such violation, issue an order either providing the relief prescribed by subparagraph (B) or denying the complaint. An order of the Secretary shall be made on the record after notice and opportunity for public hearing. Upon the conclusion of such hearing and the issuance of a recommended decision that the complaint has merit, the Secretary shall issue a preliminary order providing the relief prescribed in subparagraph (B), but may not order compensatory damages pending a final order. The Secretary may not enter into a settlement terminating a proceeding on a complaint without the participation and consent of the complainant.

(B) If, in response to a complaint filed under paragraph (1), the Secretary determines that a violation of subsection (a) has occurred, the Secretary shall order the person who committed such violation to (i) take affirmative action to abate the violation, and (ii) reinstate the com-

plainant to his former position together with the compensation (including back pay), terms, conditions, and privileges of his employment, and the Secretary may order such person to provide compensatory damages to the complainant. If an order is issued under this paragraph, the Secretary, at the request of the complainant shall assess against the person against whom the order is issued a sum equal to the aggregate amount of all costs and expenses (including attorneys' and expert witness fees) reasonably incurred, as determined by the Secretary, by the complainant for, or in connection with, the bringing of the complaint upon which the order was issued.

(3)(A) The Secretary shall dismiss a complaint filed under paragraph (1), and shall not conduct the investigation required under paragraph (2), unless the complainant has made a prima facie showing that any behavior described in subparagraphs (A) through (F) of subsection (a)(1) was a contributing factor in the unfavorable personnel action alleged in the complaint.

(B) Notwithstanding a finding by the Secretary that the complainant has made the showing required by subparagraph (A), no investigation required under paragraph (2) shall be conducted if the employer demonstrates, by clear and convincing evidence, that it would have taken the same unfavorable personnel action in the absence of such behavior.

(C) The Secretary may determine that a violation of subsection (a) has occurred only if the complainant has demonstrated that any behavior described in subparagraphs (A) through (F) of subsection (a)(1) was a contributing factor in the unfavorable personnel action alleged in the complaint.

(D) Relief may not be ordered under paragraph (2) if the employer demonstrates by clear and convincing evidence that it would have taken the same unfavorable personnel action in the absence of such behavior.

(4) If the Secretary has not issued a final decision within 1 year after the filing of a complaint under paragraph (1), and there is no showing that such delay is due to the bad faith of the person seeking relief under this paragraph, such person may bring an action at law or equity for de novo review in the appropriate district court of the United States, which shall have jurisdiction over such an action without regard to the amount in controversy.

(c) Review

(1) Any person adversely affected or aggrieved by an order issued under subsection (b) may obtain review of the order in the United States court of appeals for the circuit in which the violation, with respect to which the order was issued, allegedly occurred. The petition for review must be filed within sixty days from the issuance of the Secretary's order. Review shall conform to chapter 7 of title 5. The commencement of proceedings under this subparagraph shall not, unless ordered by the court, operate as a stay of the Secretary's order.

(2) An order of the Secretary with respect to which review could have been obtained under paragraph (1) shall not be subject to judicial review in any criminal or other civil proceeding.

(d) Jurisdiction

Whenever a person has failed to comply with an order issued under subsection (b)(2), the Secretary may file a civil action in the United States district court for the district in which the violation was found to occur to enforce such order. In actions brought under this subsection, the district courts shall have jurisdiction to grant all appropriate relief including, but not limited to, injunctive relief, compensatory, and exemplary damages.

(e) Commencement of action

(1) Any person on whose behalf an order was issued under paragraph (2) of subsection (b) may commence a civil action against the person to whom such order was issued to require compliance with such order. The appropriate United States district court shall have jurisdiction, without regard to the amount in controversy or the citizenship of the parties, to enforce such order.

(2) The court, in issuing any final order under this subsection, may award costs of litigation (including reasonable attorney and expert witness fees) to any party whenever the court determines such award is appropriate.

(f) Enforcement

Any nondiscretionary duty imposed by this section shall be enforceable in a mandamus proceeding brought under section 1361 of title 28.

(g) Deliberate violations

Subsection (a) shall not apply with respect to any employee who, acting without direction from his or her employer (or the employer's agent), deliberately causes a violation of any requirement of this chapter or of the Atomic Energy Act of 1954, as amended [42 U.S.C. 2011 et seq.].

(h) Nonpreemption

This section may not be construed to expand, diminish, or otherwise affect any right otherwise available to an employee under Federal or State law to redress the employee's discharge or other discriminatory action taken by the employer against the employee.

(i) Posting requirement

The provisions of this section shall be prominently posted in any place of employment to which this section applies.

(j) Investigation of allegations

(1) The Commission or the Department of Energy shall not delay taking appropriate action with respect to an allegation of a substantial safety hazard on the basis of—

(A) the filing of a complaint under subsection (b)(1) of this section arising from such allegation; or

(B) any investigation by the Secretary, or other action, under this section in response to such complaint.

(2) A determination by the Secretary under this section that a violation of subsection (a) has not occurred shall not be considered by the Commission or the Department of Energy in its determination of whether a substantial safety hazard exists.

SUBCHAPTER III—MISCELLANEOUS AND TRANSITIONAL PROVISIONS**§ 5871. Transitional provisions****(a) Lapse of agency or other body from which functions or programs have been transferred and positions or offices therein**

Except as otherwise provided in this chapter, whenever all of the functions or programs of an agency, or other body, or any component thereof, affected by this chapter, have been transferred from that agency, or other body, or any component thereof by this chapter, the agency, or other body, or component thereof shall lapse. If an agency, or other body, or any component thereof, lapses pursuant to the preceding sentence, each position and office therein which

was expressly authorized by law, or the incumbent of which was authorized to receive compensation at the rate prescribed for an office or position at level II, III, IV, or V of the Executive Schedule (5 U.S.C. 5313–5316), shall lapse.

(b) Continuation of orders, determinations, rules, etc.

All orders, determinations, rules, regulations, permits, contracts, certificates, licenses, and privileges—

(2) which are in effect at the time this chapter takes effect,

shall continue in effect according to their terms until modified, terminated, superseded, set aside, or revoked by the President, the Administrator, the Commission, or other authorized officials, a court of competent jurisdiction, or by operation of law.

(c) Effect of chapter on proceedings pending before Atomic Energy Commission or other department or agency

The provisions of this chapter shall not affect any proceeding pending, at the time this section takes effect, before the Atomic Energy Commission or any department or agency (or component thereof) functions of which are transferred by this chapter; but such proceedings, to the extent that they relate to functions so transferred, shall be continued. Orders shall be issued in such proceedings, appeals shall be taken therefrom, and payments shall be made pursuant to such orders, as if this chapter had not been enacted; and orders issued in any such proceedings shall continue in effect until modified, terminated, superseded, or revoked by a duly authorized official, by a court of competent jurisdiction, or by operation of law. Final orders and actions of any official or component in the performance of functions transferred by this chapter shall be subject to judicial review to the same extent and in the same manner as if such orders or actions had been made or taken by the officer, department, agency, or instrumentality in the performance of such functions immediately preceding the effective date of this chapter. Any statutory requirements relating to notices, hearings, action upon the record, or administrative review that apply to any function transferred by this chapter shall apply to the performance of those functions by the Administrator or Commission, or any officer or component.

§ 5901. Congressional statement of findings

The Congress hereby finds that—

(a) The Nation is suffering from a shortage of environmentally acceptable forms of energy.

(b) Compounding this energy shortage is our past and present failure to formulate a comprehensive and aggressive research and development program designed to make available to American consumers our large domestic energy reserves including fossil fuels, nuclear fuels, geothermal resources, solar energy, and other forms of energy. This failure is partially because the unconventional energy technologies have not been judged to be economically competitive with traditional energy technologies.

(c) The urgency of the Nation’s energy challenge will require commitments similar to those undertaken in the Manhattan and Apollo projects; it will require that the Nation undertake a research, development, and demonstration program in nonnuclear energy technologies with a total Federal investment which may reach or exceed \$20,000,000,000 over the next decade.

(d) In undertaking such program, full advantage must be taken of the existing technical and managerial expertise in the various energy fields within Federal agencies and particularly in the private sector.

(e) The Nation’s future energy needs can be met if a national commitment is made now to dedicate the necessary financial resources, to enlist our scientific and technological capabilities, and to accord the proper priority to developing new nonnuclear energy options to serve national needs, conserve vital resources, and protect the environment.

§ 5904. Research, development, and demonstration program governing principles

(a) The Congress authorizes and directs that the comprehensive program in research, development, and demonstration required by this chapter shall be designed and executed according to the following principles:

(1) Energy conservation shall be a primary consideration in the design and implementation of the Federal nonnuclear energy program. For the purposes of this chapter, energy conservation means both improvement in efficiency of energy production and use, and reduction in energy waste.

(2) The environmental and social consequences of a proposed program shall be analyzed and considered in evaluating its potential.

(3) Any program for the development of a technology which may require significant consumptive use of water after the technology has reached the stage of commercial application shall include thorough consideration of the impacts of such technology and use on water resources pursuant to the provisions of section 5912 of this title.

(4) Heavy emphasis shall be given to those technologies which utilize renewable or essentially inexhaustible energy sources.

(5) The potential for production of net energy by the proposed technology at the stage of commercial application shall be analyzed and considered in evaluating proposals.

(b) The Congress further directs that the execution of the comprehensive research, development, and demonstration program shall conform to the following principles:

(1) Research and development of nonnuclear energy sources shall be pursued in such a way as to facilitate the commercial availability of adequate supplies of energy to all regions of the United States.

(2) In determining the appropriateness of Federal involvement in any particular research and development undertaking, the Secretary shall give consideration to the extent to which the proposed undertaking satisfies criteria including, but not limited to, the following:

(A) The urgency of public need for the potential results of the research, development, or demonstration effort is high, and it is unlikely that similar results would be achieved in a timely manner in the absence of Federal assistance.

(B) The potential opportunities for non-Federal interests to recapture the investment in the undertaking through the normal commercial utilization of proprietary knowledge appear inadequate to encourage timely results.

(C) The extent of the problems treated and the objectives sought by the undertaking are national or widespread in their significance.

(D) There are limited opportunities to induce non-Federal support of the undertaking through regulatory actions, end use controls, tax and price incentives, public education, or other alternatives to direct Federal financial assistance.

(E) The degree of risk of loss of investment inherent in the research is high, and the availability or risk capital to the non-Federal entities which might otherwise engage in the field of the research is inadequate for the timely development of the technology.

(F) The magnitude of the investment appears to exceed the financial capabilities of potential non-Federal participants in the research to support effective efforts.

All patent rights of the corporation shall, on such date of dissolution, be vested in the Secretary: *Provided*, That Federal participation may be terminated prior to the time established in the authorizing Act upon recommendation of the Board of Directors.

(4) Any commercially valuable product produced by demonstration facilities shall be disposed of in such manner and under such terms and conditions as the corporation shall prescribe. All revenues received by the corporation from the sale of such products shall be available to the corporation for use by it in defraying expenses incurred in connection with carrying out its functions to which this chapter applies.

(5) The estimated Federal share of the construction, operation, and maintenance cost over the life of each corporation shall be determined in order to facilitate a single congressional authorization of the full amount at the time of establishment of the corporation.

(6) The Federal share of the cost of each such corporation shall reflect (A) the technical and economic risk of the venture, (B) the probability of any financial return to the non-Federal participants arising from the venture, (C) the financial capability of the potential non-Federal participants, and (D) such other factors as the Secretary may set forth in proposing the corporation: *Provided*, That in no instance shall the Federal share exceed 90 per centum of the cost.

(7) No such corporation shall be established unless previously authorized by specific legislation enacted by the Congress.

(c) Proposed competitive systems of price supports for demonstration facilities; guidelines

Competitive systems of price supports proposed for congressional authorization pursuant to this chapter shall conform to the following guidelines:

(1) The Secretary shall determine the types and capacities of the desired full-scale, commercial-size facility or other operation which would demonstrate the technical, environmental, and economic feasibility of a particular nonnuclear energy technology.

(2) The Secretary may award planning grants for the purpose of financing a study of the full cycle economic and environmental costs associated with the demonstration facility selected pursuant to paragraph (1) of this subsection. Such planning grants may be awarded to Federal and non-Federal entities including, but not limited to, industrial entities, universities, and nonprofit organizations. Such planning grants may also be used by the grantee to prepare a detailed and comprehensive bid to construct the demonstration facility.

(3) Following the completion of the studies pursuant to the planning grants awarded under paragraph (2) of this subsection regarding each such potential price supported demonstration facility for which the Secretary intends to request congressional authorization, he shall invite bids from all interested parties to determine the minimum amount of Federal price support needed to construct the demonstration facility. The Secretary may designate one or more competing entities, each to construct one commercial demonstration facility. Such designation shall be made on the basis of those entities, (A) commitment to construct the demonstration facility at the minimum level of Federal price supports, (B) detailed plan of environmental protection, and (C) proposed design and operation of the demonstration facility.

(4) The construction plans and actual construction of the demonstration facility, together with all related facilities, shall be monitored by the Environmental Protection Agency. If additional environmental requirements are imposed by the Secretary after the designation of the successful bidders and if such additional environmental requirements result in additional costs, the Secretary is authorized to renegotiate the support price to cover such additional costs.

(5) The estimated amount of the Federal price support for a demonstration facility's product over the life of such facility shall be determined by the Secretary to facilitate a single congressional authorization of the full amount of such support at the time of the designation of the successful bidders.

(6) No price support program shall be implemented unless previously authorized by specific legislation enacted by the Congress.

(d) Support for joint university-industry research efforts

Nothing in this section shall preclude Federal participation in, and support for, joint university-industry nonnuclear energy research efforts.

(e) Considerations applicable to identified invention for waiver determination by Secretary

In determining whether a waiver to the contractor or inventor or rights to an identified invention will best serve the interests of the United States and the general public, the Secretary shall specifically include as considerations paragraphs (4) through (11) of subsection (d) as applied to the invention and—

(1) the extent to which such waiver is a reasonable and necessary incentive to call forth private risk capital for the development and commercialization of the invention; and

CHAPTER 75—PROGRAMS FOR INDIVIDUALS WITH DEVELOPMENTAL DISABILITIES

Editorial Notes

CODIFICATION

The Developmental Disabilities Assistance and Bill of Rights Act, formerly comprising this chapter, was title I of the Mental Retardation Facilities and Community Mental Health Centers Construction Act of 1963, which was originally enacted by Pub. L. 88-164, Oct. 31, 1963, 77 Stat. 282, at which time title I was known as the Mental Retardation Facilities Construction Act, and parts B and C of such title I were classified to subchapters I (§2661 et seq.) and II (§2670 et seq.), respectively, of chapter 33 of this title. Because of the extensive amendments, reorganization of the subject matter, and expansion of the Act by the acts summarized below, the Act was set out here as having been added by Pub. L. 98-527, without reference to intervening amendments.

Part D of the Act was added by Pub. L. 90-170, §4, Dec. 4, 1967, 81 Stat. 528, and was classified to subchapter IIA (§2678 et seq.) of chapter 33 of this title. Part C of the Act was amended generally and the Act was reorganized and renamed the Developmental Disabilities Services and Facilities Construction Act, by Pub. L. 91-517, Oct. 30, 1970, 84 Stat. 1316.

Parts A, B, and D of the Act were amended generally and the Act was otherwise extensively amended and reorganized by Pub. L. 94-103, Oct. 4, 1975, 89 Stat. 486, and was reclassified to this chapter.

The Act was renamed the Developmental Disabilities Assistance and Bill of Rights Act and was amended and reorganized by Pub. L. 95-602, title V, Nov. 6, 1978, 92 Stat. 3003, and was subsequently amended generally and completely reorganized by Pub. L. 98-527, §2, Oct. 19, 1984, 98 Stat. 2662.

§ 6104. Enforcement

(a) Methods of achieving compliance with regulations

The head of any Federal department or agency who prescribes regulations under section 6103 of this title may seek to achieve compliance with any such regulation—

(1) by terminating, or refusing to grant or to continue, assistance under the program or activity involved to any recipient with respect to whom there has been an express finding on the record, after reasonable notice and opportunity for hearing, of a failure to comply with any such regulation; or

(2) by any other means authorized by law.

(b) Limitations on termination of, or on refusal to grant or to continue, assistance; disbursement of withheld funds to achiever agencies

Any termination of, or refusal to grant or to continue, assistance under subsection (a)(1) shall be limited to the particular political entity or other recipient with respect to which a finding has been made under subsection (a)(1). Any such termination or refusal shall be limited in its effect to the particular program or activity, or part of such program or activity, with respect to which such finding has been made. No such termination or refusal shall be based in whole or in part on any finding with respect to any program or activity which does not receive Federal financial assistance. Whenever the head of any Federal department or agency who prescribes regulations under section 6103 of this title withholds funds pursuant to subsection (a), he may, in accordance with regulations he shall prescribe, disburse the funds so withheld directly to any public or nonprofit private organization or agency, or State or political subdivision thereof, which demonstrates the ability to achieve the goals of the Federal statute authorizing the program or activity while complying with regulations issued under section 6103 of this title.

(c) Advice as to failure to comply with regulation; determination that compliance cannot be secured by voluntary means

No action may be taken under subsection (a) until the head of the Federal department or

agency involved has advised the appropriate person of the failure to comply with the regulation involved and has determined that compliance cannot be secured by voluntary means.

(d) Report to Congressional committees

In the case of any action taken under subsection (a), the head of the Federal department or agency involved shall transmit a written report of the circumstances and grounds of such action to the committees of the House of Representatives and the Senate having legislative jurisdiction over the program or activity involved. No such action shall take effect until thirty days after the transmission of any such report.

(e) Injunctions; notice of violations; costs; conditions for actions

(1) When any interested person brings an action in any United States district court for the district in which the defendant is found or transacts business to enjoin a violation of this Act by any program or activity receiving Federal financial assistance, such interested person shall give notice by registered mail not less than 30 days prior to the commencement of that action to the Secretary of Health and Human Services, the Attorney General of the United States, and the person against whom the action is directed. Such interested person may elect, by a demand for such relief in his complaint, to recover reasonable attorney's fees, in which case the court shall award the costs of suit, including a reasonable attorney's fee, to the prevailing plaintiff.

(2) The notice referred to in paragraph (1) shall state the nature of the alleged violation, the relief to be requested, the court in which the action will be brought, and whether or not attorney's fees are being demanded in the event that the plaintiff prevails. No action described in paragraph (1) shall be brought (A) if at the time the action is brought the same alleged violation by the same defendant is the subject of a pending action in any court of the United States; or (B) if administrative remedies have not been exhausted.

(f) Exhaustion of administrative remedies

With respect to actions brought for relief based on an alleged violation of the provisions of this chapter, administrative remedies shall be deemed exhausted upon the expiration of 180 days from the filing of an administrative complaint during which time the Federal department or agency makes no finding with regard to the complaint, or upon the day that the Federal department or agency issues a finding in favor of the recipient of financial assistance, whichever occurs first.

“SEC. 701. SHORT TITLE.

“This title may be cited as the ‘National Oilheat Research Alliance Act of 2000’.

“SEC. 702. FINDINGS.

“Congress finds that—

“(1) oilheat fuel is an important commodity relied on by approximately 30,000,000 Americans as an efficient and economical energy source for commercial and residential space and hot water heating;

“(2) oilheat fuel equipment operates at efficiencies among the highest of any space heating energy source, reducing fuel costs and making oilheat fuel an economical means of space heating;

“(3) the production, distribution, and marketing of oilheat fuel and oilheat fuel equipment plays a significant role in the economy of the United States, accounting for approximately \$12,900,000,000 in expenditures annually and employing millions of Americans in all aspects of the oilheat fuel industry;

“(4) only very limited Federal resources have been made available for oilheat fuel research, development, safety, training, and education efforts, to the detriment of both the oilheat fuel industry and its 30,000,000 consumers;

“(5) the cooperative development, self-financing, and implementation of a coordinated national oilheat fuel industry program of research and development, training, and consumer education is necessary and important for the welfare of the oilheat fuel industry, the general economy of the United States, and the millions of Americans that rely on oilheat fuel for commercial and residential space and hot water heating;

“(6) consumers of oilheat fuel fuel [sic] are provided service by thousands of small businesses that are unable to individually develop training programs to facilitate the entry of new and qualified workers into the oilheat fuel fuel [sic] industry;

“(7) small businesses and trained employees are in an ideal position—

“(A) to provide information to consumers about the benefits of improved efficiency; and

“(B) to encourage consumers to value efficiency in energy choices and assist individuals in conserving energy;

“(8) additional research is necessary—

“(A) to improve oilheat fuel fuel [sic] equipment; and

“(B) to develop domestic renewable resources that can be used to safely and affordably heat homes;

“(9) since there are no Federal resources available to assist the oilheat fuel fuel [sic] industry, it is necessary and appropriate to develop a self-funded program dedicated—

“(A) to improving efficiency in customer homes;

“(B) to assist individuals to gain employment in the oilheat fuel fuel [sic] industry; and

“(C) to develop domestic renewable resources;

“(10) both consumers of oilheat fuel fuel [sic] and retailers would benefit from the self-funded program; and

“(11) the oilheat fuel fuel [sic] industry is committed to providing appropriate funding necessary to carry out the purposes of this title without passing additional costs on to residential consumers.

(d) Not later than November 1, 1977, the Secretary, with the concurrence of the Director of the Office of Management and Budget, and after consultation with the Administrator of General Services and the heads of the Executive agencies specified in subsection (a) shall issue guidelines for the plans to be submitted pursuant to subsection (e).

(e)(1) The head of each Executive agency that maintains any existing building or will maintain any new building shall submit no later than six months after the issuance of guidelines pursuant to subsection (d), to the Secretary a ten-year plan designed to the maximum extent practicable to meet the goals in subsection (b) for the total of existing or new Federal buildings. Such ten-year plans shall only consider improvements that are cost-effective consistent with the criteria established by the Director of the Office of Management and Budget (OMB Circular A-94) and the method established pursuant to subsection (c) of this Section. The plan submitted shall specify appropriate energy-saving initiatives and shall estimate the expected improvements by fiscal year in terms of specific accomplishments—energy savings and cost savings—together with the estimated costs of achieving the savings.

(2) The plans submitted shall, to the maximum extent practicable, include the results of preliminary energy audits of all existing buildings with over 30,000 gross square feet of space owned and maintained by Executive agencies. Further, the second annual report submitted under subsection (g)(2) of this Section shall, to the maximum extent practicable, include the results of preliminary energy audits of all existing buildings with more than 5,000 but not more than 30,000 gross square feet of space. The purpose of such preliminary energy audits shall be to identify the type, size, energy use level and major energy using systems of existing Federal buildings.

(3) The Secretary shall evaluate agency plans relative to the guidelines established pursuant to subsection (d) for such plans and relative to the cost estimating method established pursuant to subsection (c). Plans determined to be deficient by the Secretary will be returned to the submitting agency head for revision and resubmission within 60 days.

(4) The head of any Executive agency submitting a plan, should he disagree with the Secretary's determination with respect to that plan, may appeal to the Director of the Office of Management and Budget for resolution of the disagreement.

(f) The head of each agency submitting a plan or revised plan determined not deficient by the Secretary or, on appeal, by the Director of the Office of Management and Budget, shall implement the plan in accord with approved budget estimates.

(g)(1) Each Executive agency shall submit to the Secretary an overall plan for conserving fuel and energy in all operations of the agency. This overall plan shall be in addition to and include any ten-year plan for energy conservation in Government buildings submitted in accord with Subsection (e).

(2) By July 1 of each year, each Executive agency shall submit a report to the Secretary on progress made toward achieving the goals established in the overall plan required by paragraph (1) of this subsection. The annual report shall include quantitative measures and accomplishment with respect to energy saving actions taken, the cost of these actions, the energy saved, the costs saved, and other benefits realized.

(3) The Secretary shall prepare a consolidated annual report on Federal government progress toward achieving the goals, including aggregate quantitative measures of accomplishment as well as suggested revisions to the ten-year plan, and submit the report to the President by August 15 of each year.

(h) Each agency required to submit a plan shall submit to the Director of the Office of Management and Budget with the agency's annual budget submission, and in accordance with procedures and requirements that the Director shall establish, estimates for implementation of the agency's plan. The Director of the Office of Management and Budget shall consult with the Secretary about the agency budget estimates.

(i) Each agency shall program its proposed energy conservation improvements of buildings so as to give the highest priority to the most cost-effective projects.

(j) No agency of the Federal government may enter into a lease or a commitment to lease a building the construction of which has not commenced by the effective date of this Order unless the building will likely meet or exceed the general goal set forth in subsection (b)(2).

(k) The provisions of this Section do not apply to housing units repossessed by the Federal Government.

§ 6213. Certain lease bidding arrangements prohibited

(a) Promulgation of rule by Secretary of the Interior

The Secretary of the Interior shall, not later than 30 days after December 22, 1975, prescribe and make effective a rule which prohibits the bidding for any right to develop crude oil, natural gas, and natural gas liquids on any lands located on the Outer Continental Shelf by any person if more than one major oil company, more than one affiliate of a major oil company, or a major oil company and any affiliate of a major oil company, has or have a significant ownership interest in such person. Such rule shall define affiliate relationships and significant ownership interests.

(b) Definitions

As used in this section:

(1) The term “major oil company” means any person who, individually or together with any other person with respect to which such person has an affiliate relationship or significant ownership interest, produced during a prior 6-month period specified by the Secretary, an average daily volume of 1,600,000 barrels of crude oil, natural gas liquids equivalents, and natural gas equivalents.

(2) One barrel of natural gas equivalent equals 5,626 cubic feet of natural gas measured

at 14.73 pounds per square inch (MSL) and 60 degrees Fahrenheit.

(3) One barrel of natural gas liquids equivalent equals 1.454 barrels of natural gas liquids at 60 degrees Fahrenheit.

(c) Exemptions

The Secretary may, in his discretion, consider a request from any person described in subsection (a) of this section for an exemption from the prohibition of this section. In considering any such request, the Secretary may exempt bidding for leases for lands in any area only if the Secretary finds, on the record after opportunity for an agency hearing, that—

(1) such lands have extremely high cost exploration or development problems; and

(2) exploration and development will not occur on such lands unless such exemption is granted.

Findings of the Secretary under this subsection shall be final, and shall not be invalidated unless found to be arbitrary or capricious.

(d) Unitization of producing fields

This section shall not be construed to prohibit the unitization of producing fields to increase production or maximize ultimate recovery of oil or natural gas, or both.

(e) Report to Congress covering extension of restrictions on joint bidding

The Secretary shall study and report to the Congress, not later than 6 months after December 22, 1975, with respect to the feasibility and desirability of extending the prohibition on joint bidding to—

(1) bidding for any right to develop crude oil, natural gas, and natural gas liquids on Federal lands other than those located on the Outer Continental Shelf; and

(2) bidding for any right to develop coal and oil shale on such lands.

Editorial Notes

AMENDMENTS

1978—Subsec. (c). Pub. L. 95-372 substituted “in his discretion, consider a request from any person described in subsection (a) of this section for an exemption from the prohibition of this section” for “by amendment to the rule, exempt bidding for leases for lands located in frontier or other areas determined by the Secretary to be extremely high risk lands or to present unusually high cost exploration, or development, problems” in existing provisions and inserted provisions setting out the requisite finding of the Secretary and making arbitrariness and capriciousness of the Secretary’s findings the only bases for invalidation of those findings.

CHANGE OF NAME

Committee on Resources of House of Representatives changed to Committee on Natural Resources of House of Representatives by House Resolution No. 6, One Hundred Tenth Congress, Jan. 5, 2007.

PART B—STRATEGIC PETROLEUM RESERVE

§ 6231. Congressional finding and declaration of policy

(a) The Congress finds that the storage of substantial quantities of petroleum products will diminish the vulnerability of the United States to the effects of a severe energy supply interruption, and provide limited protection from the short-term consequences of interruptions in supplies of petroleum products.

(b) It is the policy of the United States to provide for the creation of a Strategic Petroleum Reserve for the storage of up to 1 billion barrels of petroleum products to reduce the impact of disruptions in supplies of petroleum products, to carry out obligations of the United States under the international energy program, and for other purposes as provided for in this chapter.

(Pub. L. 94-163, title I, §151, Dec. 22, 1975, 89 Stat. 881; Pub. L. 106-469, title I, §103(4), Nov. 9, 2000, 114 Stat. 2029.)

(4) minimization of the impact of such acquisition upon supply levels and market forces; and

(5) encouragement of competition in the petroleum industry.

(c) Procedures

The Secretary shall develop, with public notice and opportunity for comment, procedures consistent with the objectives of this section to acquire petroleum for the Reserve. Such procedures shall take into account the need to—

(1) maximize overall domestic supply of crude oil (including quantities stored in private sector inventories);

(2) avoid incurring excessive cost or appreciably affecting the price of petroleum products to consumers;

(3) minimize the costs to the Department of the Interior and the Department of Energy in acquiring such petroleum products (including foregone revenues to the Treasury when petroleum products for the Reserve are obtained through the royalty-in-kind program);

(g) Repealed. Pub. L. 106-469, title I, § 103(14)(D), Nov. 9, 2000, 114 Stat. 2031

(h) Purchase from stripper well properties

(1) If the President finds that declines in the production of oil from domestic resources pose a threat to national energy security, the President may direct the Secretary to acquire oil from domestic production of stripper well properties for storage in the Strategic Petroleum Reserve. Except as provided in paragraph (2), the Secretary may set such terms and conditions as he deems necessary for such acquisition.

(2) Crude oil purchased by the Secretary pursuant to this subsection shall be by competitive bid. The price paid by the Secretary—

(A) shall take into account the cost of production including costs of reservoir and well maintenance; and

then the Secretary may, subject to the limitations of paragraph (2), draw down and sell petroleum products from the Strategic Petroleum Reserve.

(D) below the level of an aggregate of 252,400,000 barrels of petroleum product stored in the Reserve.

(3) During any period in which there is a drawdown and sale of the Reserve in effect under this subsection, the Secretary shall transmit a monthly report to the Congress containing an account of the drawdown and sale of petroleum products under this subsection and an assessment of its effect.

(4) In no case may the drawdown under this subsection be extended beyond 60 days with respect to any domestic energy supply shortage.

(i) Exchange of withdrawn products

Notwithstanding any other law, the President may permit any petroleum products withdrawn from the Strategic Petroleum Reserve in accordance with this section to be sold and delivered for refining or exchange outside of the United States, in connection with an arrangement for the delivery of refined petroleum products to the United States.

the category that is the subject of the offering; and

(ii) submit one or more alternative offers, for other categories of the petroleum product, that will be binding if no price competitive contract is awarded for the category of petroleum product on which a binding offer is submitted under clause (i); and

(B) at the request of the Governor of the State of Hawaii, a petroleum product purchased by the State of Hawaii at a competitive sale or through a binding offer shall have first preference in scheduling for lifting.

PRIOR PROVISIONS

A prior section 181 of Pub. L. 94-163 was renumbered section 191 and was classified to section 6251 of this title, prior to repeal by Pub. L. 109-58.

§ 6250a. Authority

To the extent necessary or appropriate to carry out this part, the Secretary may—

(1) purchase, contract for, lease, or otherwise acquire, in whole or in part, storage and related facilities, and storage services;

(2) use, lease, maintain, sell, or otherwise dispose of storage and related facilities acquired under this part;

(3) acquire by purchase, exchange (including exchange of petroleum products from the Strategic Petroleum Reserve or received as royalty from Federal lands), lease, or otherwise, petroleum distillate for storage in the Northeast Home Heating Oil Reserve;

(4) store petroleum distillate in facilities not owned by the United States; and

(5) sell, exchange, or otherwise dispose of petroleum distillate from the Reserve established under this part, including to maintain the quality or quantity of the petroleum distillate in the Reserve or to maintain the operational capability of the Reserve.

(Pub. L. 94-163, title I, §182, as added Pub. L. 106-469, title II, §201(a)(3), Nov. 9, 2000, 114 Stat. 2034.)

§ 6250b. Conditions for release; plan

(a) Finding

The Secretary may sell products from the Reserve only upon a finding by the President that there is a severe energy supply interruption. Such a finding may be made only if he determines that—

(1) a dislocation in the heating oil market has resulted from such interruption; or

(2) a circumstance, other than that described in paragraph (1), exists that constitutes a regional supply shortage of significant scope and duration and that action taken under this section would assist directly and significantly in reducing the adverse impact of such shortage.

(b) Definition

For purposes of this section a “dislocation in the heating oil market” shall be deemed to occur only when—

(1) The price differential between crude oil, as reflected in an industry daily publication such as “Platt’s Oilgram Price Report” or “Oil Daily” and No. 2 heating oil, as reported in the Energy Information Administration’s retail

price data for the Northeast, increases by more than 60 percent over its 5-year rolling average for the months of mid-October through March (considered as a heating season average), and continues for 7 consecutive days; and

(2) The price differential continues to increase during the most recent week for which price information is available.

(c) Continuing evaluation

The Secretary shall conduct a continuing evaluation of the residential price data supplied by the Energy Information Administration for the Northeast and data on crude oil prices from published sources.

(d) Release of petroleum distillate

After consultation with the heating oil industry, the Secretary shall determine procedures governing the release of petroleum distillate from the Reserve. The procedures shall provide that—

(1) the Secretary may—

(A) sell petroleum distillate from the Reserve through a competitive process, or

(B) enter into exchange agreements for the petroleum distillate that results¹ in the Secretary receiving a greater volume of petroleum distillate as repayment than the volume provided to the acquirer;

(2) in all such sales or exchanges, the Secretary shall receive revenue or its equivalent in petroleum distillate that provides the Department with fair market value. At no time may the oil be sold or exchanged resulting in a loss of revenue or value to the United States; and

(3) the Secretary shall only sell or dispose of the oil in the Reserve to entities customarily engaged in the sale and distribution of petroleum distillate.

(e) Plan

Within 45 days of November 9, 2000, the Secretary shall transmit to the President and, if the President approves, to the Congress a plan describing—

(1) the acquisition of storage and related facilities or storage services for the Reserve, including the potential use of storage facilities not currently in use;

(2) the acquisition of petroleum distillate for storage in the Reserve;

(3) the anticipated methods of disposition of petroleum distillate from the Reserve;

(4) the estimated costs of establishment, maintenance, and operation of the Reserve;

(5) efforts the Department will take to minimize any potential need for future drawdowns and ensure that distributors and importers are not discouraged from maintaining and increasing supplies to the Northeast; and

(6) actions to ensure quality of the petroleum distillate in the Reserve.

PART B—AUTHORITIES WITH RESPECT TO INTERNATIONAL ENERGY PROGRAM

§ 6271. International oil allocations

(a) Authority of President to prescribe rules for implementation of obligations of United States relating to international allocation of petroleum products; amounts of allocation and prices; petroleum products subject to rule; term of rule

The President may, by rule, require that persons engaged in producing, transporting, refining, distributing, or storing petroleum products, take such action as he determines to be necessary for implementation of the obligations of

the United States under chapters III and IV of the international energy program insofar as such obligations relate to the international allocation of petroleum products. Allocation under such rule shall be in such amounts and at such prices as are specified in (or determined in a manner prescribed by) such rule. Such rule may apply to any petroleum product owned or controlled by any person described in the first sentence of this subsection who is subject to the jurisdiction of the United States, including any petroleum product destined, directly or indirectly, for import into the United States or any foreign country, or produced in the United States. Subject to subsection (b)(2), such a rule shall remain in effect until amended or rescinded by the President.

(b) Prerequisites to rule taking effect; time rule may be put into effect or remain in effect

(1) No rule under subsection (a) may take effect unless the President—

(A) has transmitted such rule to the Congress;

(B) has found that putting such rule into effect is required in order to fulfill obligations of the United States under the international energy program; and

(C) has transmitted such finding to the Congress, together with a statement of the effective date and manner for exercise of such rule.

(2) No rule under subsection (b) may be put into effect or remain in effect after the expiration of 12 months after the date such rule was transmitted to Congress under paragraph (1)(A).

(c) Consistency of rule with attainment of objectives specified in section 753(b)(1)¹ of title 15; limitation on authority of officers or agencies of United States

(1) Any rule under this section shall be consistent with the attainment, to the maximum extent practicable, of the objectives specified in section 753(b)(1)¹ of title 15.

(2) No officer or agency of the United States shall have any authority, other than authority under this section, to require that petroleum products be allocated to other countries for the purpose of implementation of the obligations of the United States under the international energy program.

(d) Nonapplicability of export restrictions under other laws

Neither section 6212¹ of this title nor section 185(u) of title 30 shall preclude the allocation and export, to other countries in accordance with this section, of petroleum products produced in the United States.

(e) Prerequisites for effectiveness of rule

No rule under this section may be put into effect unless—

(1) an international energy supply emergency, as defined in the first sentence of section 6272(k)(1) of this title, is in effect; and

(2) the allocation of available oil referred to in chapter III of the international energy program has been activated pursuant to chapter IV of such program.

§ 6272. International voluntary agreements

(a) Exclusiveness of section's requirements

Effective 90 days after December 22, 1975, the requirements of this section shall be the sole procedures applicable to—

- (1) the development or carrying out of voluntary agreements and plans of action to implement the international emergency response provisions, and
- (2) the availability of immunity from the antitrust laws with respect to the development or carrying out of such voluntary agreements and plans of action.

(b) Prescription by Secretary of standards and procedures for developing and carrying out voluntary agreements and plans of action

The Secretary, with the approval of the Attorney General, after each of them has consulted with the Federal Trade Commission and the Secretary of State, shall prescribe, by rule, standards and procedures by which persons engaged in the business of producing, transporting, refining, distributing, or storing petroleum products may develop and carry out voluntary agreements, and plans of action, which are required to implement the international emergency response provisions.

(c) Requirements for standards and procedures

The standards and procedures prescribed under subsection (b) shall include the following requirements:

- (1)(A)(i) Except as provided in clause (ii) or (iii) of this subparagraph, meetings held to develop or carry out a voluntary agreement or plan of action under this subsection shall permit attendance by representatives of committees of Congress and interested persons, including all interested segments of the petroleum industry, consumers, and the public; shall be preceded by timely and adequate notice with identification of the agenda of such meeting to the Attorney General, the Federal Trade Commission, committees of Congress, and (except during an international energy supply emergency with respect to meetings to carry out a voluntary agreement or to develop or carry out a plan of action) the public; and

shall be initiated and chaired by a regular full-time Federal employee.

(ii) Meetings of bodies created by the International Energy Agency established by the international energy program need not be open to interested persons and need not be initiated and chaired by a regular full-time Federal employee.

(iii) The President, in consultation with the Secretary, the Secretary of State, and the Attorney General, may determine that a meeting held to carry out a voluntary agreement or to develop or carry out a plan of action shall not be open to interested persons or that attendance by interested persons may be limited, if the President finds that a wider disclosure would be detrimental to the foreign policy interests of the United States.

(B) No meetings may be held to develop or carry out a voluntary agreement or plan of action under this section unless a regular full-time Federal employee is present.

(2) Interested persons permitted to attend such a meeting shall be afforded an opportunity to present, in writing and orally, data, views, and arguments at such meetings, subject to any reasonable limitations with respect to the manner of presentation of data, views, and arguments as the Secretary may impose.

(3) A full and complete record, and where practicable a verbatim transcript, shall be kept of any meeting held, and a full and complete record shall be kept of any communication (other than in a meeting) made, between or among participants or potential participants, to develop, or carry out a voluntary agreement or a plan of action under this section. Such record or transcript shall be deposited, together with any agreement resulting therefrom, with the Secretary, and shall be available to the Attorney General and the Federal Trade Commission. Such records or transcripts shall be available for public inspection and copying in accordance with section 552 of title 5; except that (A) matter may not be withheld from disclosure under section 552(b) of such title on grounds other than the grounds specified in section 552(b)(1), (b)(3), or so much of (b)(4) as relates to trade secrets; and (B) in the exercise of authority under section 552(b)(1), the President shall consult with the Secretary of State, the Secretary, and the Attorney General with respect to questions relating to the foreign policy interests of the United States.

(4) No provision of this section may be exercised so as to prevent representatives of committees of Congress from attending meetings to which this section applies, or from having access to any transcripts, records, and agreements kept or made under this section. Such access to any transcript that is required to be kept for any meeting shall be provided as soon as practicable (but not later than 14 days) after that meeting.

(d) Participation of Attorney General and Federal Trade Commission in development and carrying out of voluntary agreements and plans of action

(1) The Attorney General and the Federal Trade Commission shall participate from the be-

ginning in the development, and when practicable, in the carrying out of voluntary agreements and plans of action authorized under this section. Each may propose any alternative which would avoid or overcome, to the greatest extent practicable, possible anticompetitive effects while achieving substantially the purposes of this part. A voluntary agreement or plan of action under this section may not be carried out unless approved by the Attorney General, after consultation with the Federal Trade Commission. Prior to the expiration of the period determined under paragraph (2), the Federal Trade Commission shall transmit to the Attorney General its views as to whether such an agreement or plan of action should be approved, and shall publish such views in the Federal Register. The Attorney General, in consultation with the Federal Trade Commission, the Secretary of State, and the Secretary, shall have the right to review, amend, modify, disapprove, or revoke, on his own motion or upon the request of the Federal Trade Commission or any interested person, any voluntary agreement or plan of action at any time, and, if revoked, thereby withdraw prospectively any immunity which may be conferred by subsection (f) or (j).

(2) Any voluntary agreement or plan of action entered into pursuant to this section shall be submitted in writing to the Attorney General and the Federal Trade Commission 20 days before being implemented; except that during an international energy supply emergency, the Secretary, subject to approval of the Attorney General, may reduce such 20-day period. Any such agreement or plan of action shall be available for public inspection and copying, except that a plan of action shall be so available only to the extent to which records or transcripts are so available as provided in the last sentence of subsection (c)(3). Any action taken pursuant to such voluntary agreement or plan of action shall be reported to the Attorney General and the Federal Trade Commission pursuant to such regulations as shall be prescribed under paragraphs (3) and (4) of subsection (e).

(3) A plan of action may not be approved by the Attorney General under this subsection unless such plan (A) describes the types of substantive actions which may be taken under the plan, and (B) is as specific in its description of proposed substantive actions as is reasonable in light of circumstances known at the time of approval.

(e) Monitoring of development and carrying out of voluntary agreements and plans of action by Attorney General and Federal Trade Commission

(1) The Attorney General and the Federal Trade Commission shall monitor the development and carrying out of voluntary agreements and plans of action authorized under this section in order to promote competition and to prevent anticompetitive practices and effects, while achieving substantially the purposes of this part.

(2) In addition to any requirement specified under subsections (b) and (c) of this section and in order to carry out the purposes of this section, the Attorney General, in consultation with

the Federal Trade Commission and the Secretary, may promulgate rules concerning the maintenance of necessary and appropriate records related to the development and carrying out of voluntary agreements and plans of action authorized pursuant to this section.

(3) Persons developing or carrying out voluntary agreements and plans of action authorized pursuant to this section shall maintain such records as are required by rules promulgated under paragraph (2). The Attorney General and the Federal Trade Commission shall have access to and the right to copy such records at reasonable times and upon reasonable notice.

(4) The Attorney General and the Federal Trade Commission may each prescribe such rules as may be necessary or appropriate to carry out their respective responsibilities under this section. They may both utilize for such purposes and for purposes of enforcement any powers conferred upon the Federal Trade Commission or the Department of Justice, or both, by the antitrust laws or the Antitrust Civil Process Act [15 U.S.C. 1311 et seq.]; and wherever any such law refers to "the purposes of this Act" or like terms, the reference shall be understood to include this section.

(f) Defense to civil or criminal antitrust actions

(1) There shall be available as a defense to any civil or criminal action brought under the antitrust laws (or any similar State law) in respect to actions taken to develop or carry out a voluntary agreement or plan of action by persons engaged in the business of producing, transporting, refining, distributing, or storing petroleum products (provided that such actions were not taken for the purpose of injuring competition) that—

(A) such actions were taken—

(i) in the course of developing a voluntary agreement or plan of action pursuant to this section, or

(ii) to carry out a voluntary agreement or plan of action authorized and approved in accordance with this section, and

(B) such persons complied with the requirements of this section and the rules promulgated hereunder.

(2) Except in the case of actions taken to develop a voluntary agreement or plan of action, the defense provided in this subsection shall be available only if the person asserting the defense demonstrates that the actions were specified in, or within the reasonable contemplation of, an approved voluntary agreement or plan of action.

(3) Persons interposing the defense provided by this subsection shall have the burden of proof, except that the burden shall be on the person against whom the defense is asserted with respect to whether the actions were taken for the purpose of injuring competition.

(g) Acts or practices occurring prior to date of enactment of chapter or subsequent to its expiration or repeal

No provision of this section shall be construed as granting immunity for, or as limiting or in any way affecting any remedy or penalty which may result from any legal action or proceeding

arising from, any act or practice which occurred prior to the date of enactment of this chapter or subsequent to its expiration or repeal.

(h) Applicability of Defense Production Act of 1950

Section 4558 of title 50 shall not apply to any agreement or action undertaken for the purpose of developing or carrying out—

- (1) the international energy program; or
- (2) any allocation, price control, or similar program with respect to petroleum products under this chapter.

(i) Reports by Attorney General and Federal Trade Commission to Congress and President

The Attorney General and the Federal Trade Commission shall each submit to the Congress and to the President, at such intervals as are appropriate based on significant developments and issues, reports on the impact on competition and on small business of actions authorized by this section.

(j) Defense in breach of contract actions

In any action in any Federal or State court for breach of contract, there shall be available as a defense that the alleged breach of contract was caused predominantly by action taken during an international energy supply emergency to carry out a voluntary agreement or plan of action authorized and approved in accordance with this section.

(k) Definitions

As used in this section and section 6274 of this title:

(1) The term “international energy supply emergency” means any period (A) beginning on any date which the President determines allocation of petroleum products to nations participating in the international energy program is required by chapters III and IV of such program, and (B) ending on a date on which he determines that such allocation is no longer required. Such a period may not exceed 90 days, but the President may establish one or more additional 90-day periods by making anew the determination under subparagraph (A) of the preceding sentence. Any determination respecting the beginning or end of any such period shall be published in the Federal Register.

(2) The term “international emergency response provisions” means—

(A) the provisions of the international energy program which relate to international allocation of petroleum products and to the information system provided in the program; and

(B) the emergency response measures adopted by the Governing Board of the International Energy Agency (including the July 11, 1984, decision by the Governing Board on “Stocks and Supply Disruptions”) for—

- (i) the coordinated drawdown of stocks of petroleum products held or controlled by governments; and
- (ii) complementary actions taken by governments during an existing or impending international oil supply disruption.

(l) Applicability of antitrust defense

The antitrust defense under subsection (f) shall not extend to the international allocation of petroleum products unless allocation is required by chapters III and IV of the international energy program during an international energy supply emergency.

(m) Limitation on new plans of action

(1) With respect to any plan of action approved by the Attorney General after July 2, 1985—

(A) the defenses under subsection (f) and (j) shall be applicable to Type 1 activities (as that term is defined in the International Energy Agency Emergency Management Manual, dated December 1982) only if—

- (i) the Secretary has transmitted such plan of action to the Congress; and
- (ii)(I) 90 calendar days of continuous session have elapsed since receipt by the Congress of such transmittal; or

(II) within 90 calendar days of continuous session after receipt of such transmittal, either House of the Congress has disapproved a joint resolution of disapproval pursuant to subsection (n); and

(B) such defenses shall not be applicable to Type 1 activities if there has been enacted, in accordance with subsection (n), a joint resolution of disapproval.

(2) The Secretary may withdraw the plan of action at any time prior to adoption of a joint resolution described in subsection (n)(3) by either House of Congress.

(3) For the purpose of this subsection—

(A) continuity of session is broken only by an adjournment of the Congress sine die at the end of the second session of Congress; and

(B) the days on which either House is not in session because of an adjournment of more than three days to a day certain are excluded in the computation of the calendar-day period involved.

(n) Joint resolution of disapproval

(1)(A) The application of defenses under subsections (f) and (j) for Type 1 activities with respect to any plan of action transmitted to Congress as described in subsection (m)(1)(A)(i) shall be disapproved if a joint resolution of disapproval has been enacted into law during the 90-day period of continuous session after which such transmission was received by the Congress. For the purpose of this subsection, the term “joint resolution” means only a joint resolution of either House of the Congress as described in paragraph (3).

(B) After receipt by the Congress of such plan of action, a joint resolution of disapproval may be introduced in either House of the Congress. Upon introduction in the Senate, the joint resolution shall be referred in the Senate immediately to the Committee on Energy and Natural Resources of the Senate.

(2) This subsection is enacted by the Congress—

(A) as an exercise of the rulemaking power of the Senate and as such it is deemed a part of the rules of the Senate, but applicable only with respect to the procedure to be followed in

the Senate in the case of resolutions described by paragraph (3); it supersedes other rules only to the extent that is inconsistent therewith; and

(B) with full recognition of the constitutional right of the Senate to change the rules (so far as relating to the procedure of the Senate) at any time, in the same manner and to the same extent as in the case of any other rule of the Senate.

(3) The joint resolution disapproving the transmission under subsection (m) shall read as follows after the resolving clause: "That the Congress of the United States disapproves the availability of the defenses pursuant to section 252 (f) and (j) of the Energy Policy and Conservation Act with respect to Type 1 activities under the plan of action submitted to the Congress by the Secretary of Energy on . . .", the blank space therein being filled with the date and year of receipt by the Congress of the plan of action transmitted as described in subsection (m).

(4)(A) If the Committee on Energy and Natural Resources of the Senate has not reported a joint resolution referred to it under this subsection at the end of 20 calendar days of continuous session after its referral, it shall be in order to move either to discharge the committee from further consideration of such resolution or to discharge the committee from further consideration of any other joint resolution which has been referred to the committee with respect to such plan of action.

(B) The Secretary may, in accordance with the requirements of this subsection, prescribe test procedures for any consumer product classified as a covered product under section 6292(b) of this title.

(C) The Secretary shall direct the National Institute of Standards and Technology to assist in developing new or amended test procedures.

(2) If the Secretary determines, on his own behalf or in response to a petition by any interested person, that a test procedure should be prescribed or amended, the Secretary shall promptly publish in the Federal Register proposed test procedures and afford interested persons an opportunity to present oral and written data, views, and arguments with respect to such procedures. The comment period shall not be less than 60 days and may be extended for good cause shown to not more than 270 days. In prescribing or amending a test procedure, the Secretary shall take into account such information as the Secretary determines relevant to such procedure, including technological developments relating to energy use or energy efficiency of the type (or class) of covered products involved.

(3) Any test procedures prescribed or amended under this section shall be reasonably designed to produce test results which measure energy efficiency, energy use, water use (in the case of showerheads, faucets, water closets and urinals), or estimated annual operating cost of a covered product during a representative average use cycle or period of use, as determined by the Secretary, and shall not be unduly burdensome to conduct.

(4) If the test procedure is a procedure for determining estimated annual operating costs, such procedure shall provide that such costs shall be calculated from measurements of energy use or, in the case of showerheads, faucets, water closets, or urinals, water use in a rep-

resentative average use cycle or period of use, as determined by the Secretary, and from representative average unit costs of the energy needed to operate such product during such cycle, or in the case of showerheads, faucets, water closets, or urinals, representative average unit costs of water and wastewater treatment service resulting from the operation of such products during such cycle. The Secretary shall provide information to manufacturers with respect to representative average unit costs of energy, water, and wastewater treatment.

(5) With respect to fluorescent lamp ballasts manufactured on or after January 1, 1990, and to which standards are applicable under section 6295 of this title, the Secretary shall prescribe test procedures that are in accord with ANSI standard C82.2-1984 or other test procedures determined appropriate by the Secretary.

(6) With respect to fluorescent lamps and incandescent reflector lamps to which standards are applicable under subsection (i) of section 6295 of this title, the Secretary shall prescribe test procedures, to be carried out by accredited test laboratories, that take into consideration the applicable IES or ANSI standard.

(7)(A) Test procedures for showerheads and faucets to which standards are applicable under subsection (j) of section 6295 of this title shall be the test procedures specified in ASME A112.18.1M-1989 for such products.

(B) If the test procedure requirements of ASME A112.18.1M-1989 are revised at any time and approved by ANSI, the Secretary shall amend the test procedures established by subparagraph (A) to conform to such revised ASME/ANSI requirements unless the Secretary determines, by rule, that to do so would not meet the requirements of paragraph (3).

(8)(A) Test procedures for water closets and urinals to which standards are applicable under subsection (k) of section 6295 of this title shall be the test procedures specified in ASME A112.19.6-1990 for such products.

(B) If the test procedure requirements of ASME A112.19.6-1990 are revised at any time and approved by ANSI, the Secretary shall amend the test procedures established by subparagraph (A) to conform to such revised ASME/ANSI requirements unless the Secretary determines, by rule, that to do so would not meet the requirements of paragraph (3).

(9) Test procedures for illuminated exit signs shall be based on the test method used under version 2.0 of the Energy Star program of the Environmental Protection Agency for illuminated exit signs.

(B) Except as provided in subparagraph (C), medium base compact fluorescent lamps shall meet all test requirements for regulated parameters of section 6295(cc)¹ of this title.

(C) Notwithstanding subparagraph (B), if manufacturers document engineering predictions and analysis that support expected attainment of lumen maintenance at 40 percent rated life and lamp lifetime, medium base compact fluorescent lamps may be marketed before completion of the testing of lamp life and lumen maintenance at 40 percent of rated life.

(13) Test procedures for dehumidifiers shall be based on the test criteria used under the Energy Star Program Requirements for Dehumidifiers developed by the Environmental Protection Agency, as in effect on August 8, 2005, unless revised by the Secretary pursuant to this section.

(18) METAL HALIDE LAMP BALLASTS.—Test procedures for metal halide lamp ballasts shall be based on ANSI Standard C82.6-2005, entitled “Ballasts for High Intensity Discharge Lamps—Method of Measurement”.

(c) Restriction on certain representations

(1) No manufacturer, distributor, retailer, or private labeler may make any representation—

- (A) in writing (including a representation on a label); or
- (B) in any broadcast advertisement,

with respect to the energy use or efficiency or, in the case of showerheads, faucets, water closets, and urinals, water use of a covered product to which a test procedure is applicable under subsection (a) or the cost of energy consumed by such product, unless such product has been tested in accordance with such test procedure and such representation fairly discloses the results of such testing.

(2) Effective 180 days after an amended or new test procedure applicable to a covered product is prescribed or established under subsection (b), no manufacturer, distributor, retailer, or private labeler may make any representation—

- (A) in writing (including a representation on a label); or
- (B) in any broadcast advertisement,

with respect to energy use or efficiency or, in the case of showerheads, faucets, water closets, and urinals, water use of such product or cost of energy consumed by such product, unless such product has been tested in accordance with such amended or new test procedures and such representation fairly discloses the results of such testing.

(3) On the petition of any manufacturer, distributor, retailer, or private labeler, filed not later than the 60th day before the expiration of the period involved, the 180-day period referred to in paragraph (2) may be extended by the Secretary with respect to the petitioner (but in no event for more than an additional 180 days) if the Secretary determines that the requirements of paragraph (2) would impose an undue hardship on such petitioner.

(d) Case in which test procedure is not required

(1) The Secretary is not required to publish and prescribe test procedures for a covered product (or class thereof) if the Secretary determines, by rule, that test procedures cannot be developed which meet the requirements of subsection (b)(3) and publishes such determination in the Federal Register, together with the reasons therefor.

(2) For purposes of section 6297 of this title, a determination under paragraph (1) with respect to any covered product or class shall have the same effect as would a standard prescribed for a covered product (or class).

(e) Amendment of standard

(1) In the case of any amended test procedure which is prescribed pursuant to this section, the

¹ So in original. Probably should be section “6295(bb)”.

Secretary shall determine, in the rulemaking carried out with respect to prescribing such procedure, to what extent, if any, the proposed test procedure would alter the measured energy efficiency, measured energy use, or measured water use of any covered product as determined under the existing test procedure.

(2) If the Secretary determines that the amended test procedure will alter the measured efficiency or measured use, the Secretary shall amend the applicable energy conservation standard during the rulemaking carried out with respect to such test procedure. In determining the amended energy conservation standard, the Secretary shall measure, pursuant to the amended test procedure, the energy efficiency, energy use, or water use of a representative sample of covered products that minimally comply with the existing standard. The average of such energy efficiency, energy use, or water use levels determined under the amended test procedure shall constitute the amended energy conservation standard for the applicable covered products.

(3) Models of covered products in use before the date on which the amended energy conservation standard becomes effective (or revisions of such models that come into use after such date and have the same energy efficiency, energy use, or water use characteristics) that comply with the energy conservation standard applicable to such covered products on the day before such date shall be deemed to comply with the amended energy conservation standard.

(4) The Secretary's authority to amend energy conservation standards under this subsection shall not affect the Secretary's obligation to issue final rules as described in section 6295 of this title.

(f) Additional consumer and commercial products

(1) Not later than 2 years after August 8, 2005, the Secretary shall prescribe testing requirements for refrigerated bottled or canned beverage vending machines.

(2) To the maximum extent practicable, the testing requirements prescribed under paragraph (1) shall be based on existing test procedures used in industry.

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110-140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110-140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

§ 6294. Labeling

(a) In general

(1) The Commission shall prescribe labeling rules under this section applicable to all covered products of each of the types specified in paragraphs (1), (2), (4), (6), and (8) through (12) of section 6292(a) of this title, except to the extent that, with respect to any such type (or class thereof), the Commission determines under the second sentence of subsection (b)(5) that labeling in accordance with this section is not technologically or economically feasible.

(2)(A) The Commission shall prescribe labeling rules under this section applicable to all covered products of each of the types specified in paragraphs (3), (5), and (7) of section 6292(a) of this title, except to the extent that with respect to any such type (or class thereof), the Commission determines under the second sentence of subsection (b)(5) that labeling in accordance with this section is not technologically or economically feasible or is not likely to assist consumers in making purchasing decisions.

(B) The Commission shall prescribe labeling rules under this section applicable to the covered product specified in paragraph (13) of section 6292(a) of this title and to which standards are applicable under section 6295 of this title. Such rules shall provide that the labeling of any fluorescent lamp ballast manufactured on or after January 1, 1990, will indicate conspicuously, in a manner prescribed by the Commission under subsection (b) by July 1, 1989, a capital letter "E" printed within a circle on the ballast and on the packaging of the ballast or of the luminaire into which the ballast has been incorporated.

(C) METAL HALIDE LAMP FIXTURES.—

(i) IN GENERAL.—The Commission shall issue labeling rules under this section applicable to the covered product specified in section 6292(a)(19) of this title and to which standards are applicable under section 6295 of this title.

(ii) LABELING.—The rules shall provide that the labeling of any metal halide lamp fixture manufactured on or after the later of January 1, 2009, or the date that is 270 days after December 19, 2007, shall indicate conspicuously, in a manner prescribed by the Commission under subsection (b) by July 1, 2008, a capital letter "E" printed within a circle on the packaging of the fixture, and on the ballast contained in the fixture.

(D)(i) Not later than 18 months after October 24, 1992, the Commission shall prescribe labeling

rules under this section applicable to general service fluorescent lamps, medium base compact fluorescent lamps, and general service incandescent lamps. Except as provided in clause (ii), such rules shall provide that the labeling of any general service fluorescent lamp, medium base compact fluorescent lamp, and general service incandescent lamp manufactured after the 12-month period beginning on the date of the publication of such rule shall indicate conspicuously on the packaging of the lamp, in a manner prescribed by the Commission under subsection (b), such information as the Commission deems necessary to enable consumers to select the most energy efficient lamps which meet their requirements. Labeling information for incandescent lamps shall be based on performance when operated at 120 volts input, regardless of the rated lamp voltage.

(ii) If the Secretary determines that compliance with the standards specified in section 6295(i) of this title for any lamp will result in the discontinuance of the manufacture of such lamp, the Commission may exempt such lamp from the labeling rules prescribed under clause (i).

(iii) RULEMAKING TO CONSIDER EFFECTIVENESS OF LAMP LABELING.—

(I) IN GENERAL.—Not later than 1 year after December 19, 2007, the Commission shall initiate a rulemaking to consider—

(aa) the effectiveness of current lamp labeling for power levels or watts, light output or lumens, and lamp lifetime; and

(bb) alternative labeling approaches that will help consumers to understand new high-efficiency lamp products and to base the purchase decisions of the consumers on the most appropriate source that meets the requirements of the consumers for lighting level, light quality, lamp lifetime, and total lifecycle cost.

(II) COMPLETION.—The Commission shall—

(aa) complete the rulemaking not later than the date that is 30 months after December 19, 2007; and

(bb) consider reopening the rulemaking not later than 180 days before the effective dates of the standards for general service incandescent lamps established under section 6295(i)(1)(A) of this title, if the Commission determines that further labeling changes are needed to help consumers understand lamp alternatives.

(E)(i) Not later than one year after October 24, 1992, the Commission shall prescribe labeling rules under this section for showerheads and faucets to which standards are applicable under subsection (j) of section 6295 of this title. Such rules shall provide that the labeling of any showerhead or faucet manufactured after the 12-month period beginning on the date of the publication of such rule shall be consistent with the marking and labeling requirements of ASME A112.18.1M-1989, except that each showerhead and flow restricting or controlling spout-end device shall bear a permanent legible marking indicating the flow rate, expressed in gallons per minute (gpm) or gallons per cycle (gpc), and the flow rate value shall be the actual flow rate or

the maximum flow rate specified by the standards established in subsection (j) of section 6295 of this title.

(ii) If the marking and labeling requirements of ASME A112.18.1M-1989 are revised at any time and approved by ANSI, the Commission shall amend the labeling rules established pursuant to clause (i) to be consistent with such revised ASME/ANSI requirements unless such requirements are inconsistent with the purposes of this chapter or the requirement specified in clause (i) requiring each showerhead and flow restricting or controlling spout-end device to bear a permanent legible marking indicating the flow rate of such product.

(F)(i) Not later than one year after October 24, 1992, the Commission shall prescribe labeling rules under this section for water closets and urinals to which standards are applicable under subsection (k) of section 6295 of this title. Such rules shall provide that the labeling of any water closet or urinal manufactured after the 12-month period beginning on the date of the publication of such rule shall be consistent with the marking and labeling requirements of ASME A112.19.2M-1990, except that each fixture (and flushometer valve associated with such fixture) shall bear a permanent legible marking indicating the water use, expressed in gallons per flush (gpf), and the water use value shall be the actual water use or the maximum water use specified by the standards established in subsection (k) of section 6295 of this title.

(ii) If the marking and labeling requirements of ASME A112.19.2M-1990 are revised at any time and approved by ANSI, the Commission shall amend the labeling rules established pursuant to clause (i) to be consistent with such revised ASME/ANSI requirements unless such requirements are inconsistent with the purposes of this chapter or the requirement specified in clause (i) requiring each fixture and flushometer valve to bear a permanent legible marking indicating the water use of such fixture or flushometer valve.

(iii) Any labeling rules prescribed under this subparagraph before January 1, 1997, shall provide that, with respect to any gravity tank-type white 2-piece toilet which has a water use greater than 1.6 gallons per flush (gpf), any printed matter distributed or displayed in connection with such product (including packaging and point of sale material, catalog material, and print advertising) shall include, in a conspicuous manner, the words "For Commercial Use Only".

(G)(i) Not later than 90 days after August 8, 2005, the Commission shall initiate a rulemaking to consider—

(I) the effectiveness of the consumer products labeling program in assisting consumers in making purchasing decisions and improving energy efficiency; and

(II) changes to the labeling rules (including categorical labeling) that would improve the effectiveness of consumer product labels.

(ii) Not later than 2 years after August 8, 2005, the Commission shall complete the rulemaking initiated under clause (i).

(H)(i) Not later than 18 months after August 8, 2005, the Commission shall issue by rule, in accordance with this section, labeling require-

ments for the electricity used by ceiling fans to circulate air in a room.

(ii) The rule issued under clause (i) shall apply to products manufactured after the later of—

(I) January 1, 2009; or

(II) the date that is 60 days after the final rule is issued.

(I) LABELING REQUIREMENTS.—

(i) IN GENERAL.—Subject to clauses (ii) through (iv), not later than 18 months after the date of issuance of applicable Department of Energy testing procedures, the Commission, in consultation with the Secretary and the Administrator of the Environmental Protection Agency (acting through the Energy Star program), shall, by regulation, prescribe labeling or other disclosure requirements for the energy use of—

(I) televisions;

(II) personal computers;

(III) cable or satellite set-top boxes;

(IV) stand-alone digital video recorder boxes; and

(V) personal computer monitors.

(ii) ALTERNATE TESTING PROCEDURES.—In the absence of applicable testing procedures described in clause (i) for products described in subclasses (I) through (V) of that clause, the Commission may, by regulation, prescribe labeling or other disclosure requirements for a consumer product category described in clause (i) if the Commission—

(I) identifies adequate non-Department of Energy testing procedures for those products; and

(II) determines that labeling of, or other disclosures relating to, those products is likely to assist consumers in making purchasing decisions.

(iii) DEADLINE AND REQUIREMENTS FOR LABELING.—

(I) DEADLINE.—Not later than 18 months after the date of promulgation of any requirements under clause (i) or (ii), the Commission shall require labeling of, or other disclosure requirements for, electronic products described in clause (i).

(II) REQUIREMENTS.—The requirements prescribed under clause (i) or (ii) may include specific requirements for each electronic product to be labeled with respect to the placement, size, and content of Energy Guide labels.

(iv) DETERMINATION OF FEASIBILITY.—Clause (i) or (ii) shall not apply in any case in which the Commission determines that labeling in accordance with this subsection—

(I) is not technologically or economically feasible; or

(II) is not likely to assist consumers in making purchasing decisions.

(3) The Commission may prescribe a labeling rule under this section applicable to covered products of a type specified in paragraph (20) of section 6292(a) of this title (or a class thereof) if—

(A) the Commission or the Secretary has made a determination with respect to such type (or class thereof) that labeling in accord-

ance with this section will assist purchasers in making purchasing decisions,

(B) the Secretary has prescribed test procedures under section 6293(b)(1)(B) of this title for such type (or class thereof), and

(C) the Commission determines with respect to such type (or class thereof) that application of labeling rules under this section to such type (or class thereof) is economically and technologically feasible.

(4) Any determination under this subsection shall be published in the Federal Register.

(5)(A) For covered products described in subsections (u) through (ff) of section 6295 of this title, after a test procedure has been prescribed under section 6293 of this title, the Secretary or the Commission, as appropriate, may prescribe, by rule, under this section labeling requirements for the products.

(B) In the case of products to which TP-1 standards under section 6295(y) of this title apply, labeling requirements shall be based on the “Standard for the Labeling of Distribution Transformer Efficiency” prescribed by the National Electrical Manufacturers Association (NEMA TP-3) as in effect on August 8, 2005.

(C) In the case of dehumidifiers covered under section 6295(dd) of this title, the Commission shall not require an “Energy Guide” label.

(6) **AUTHORITY TO INCLUDE ADDITIONAL PRODUCT CATEGORIES.**—The Commission may, by regulation, require labeling or other disclosures in accordance with this subsection for any consumer product not specified in this subsection or section 6292 of this title if the Commission determines that labeling for the product is likely to assist consumers in making purchasing decisions.

(b) Rules in effect; new rules

(1)(A) Any labeling rule in effect on March 17, 1987, shall remain in effect until amended, by rule, by the Commission.

(B) After March 17, 1987, and not later than 30 days after the date on which a proposed test procedure applicable to a covered product of any of the types specified in paragraphs (1) through (13), and paragraphs (15) through (20) of section 6292(a) of this title (or class thereof) is prescribed under section 6293(b) of this title, the Commission shall publish a proposed labeling rule applicable to such type (or class thereof).

(2) The Commission shall afford interested persons an opportunity to present written or oral data, views, and comments with respect to the proposed labeling rules published under paragraph (1). The period for such presentations shall not be less than 45 days.

(3) Not earlier than 45 days nor later than 60 days after the date on which test procedures are prescribed under section 6293(b) of this title with respect to covered products of any type (or class thereof) specified in paragraphs (1) through (12) of section 6292(a) of this title, the Commission shall prescribe labeling rules with respect to covered products of such type (or class thereof). Not earlier than 45 days after the date on which test procedures are prescribed under section 6293(b) of this title with respect to covered products of a type specified in paragraph (20) of section 6292(a) of this title, the Commission may

prescribe labeling rules with respect to covered products of such type (or class thereof).

(4) A labeling rule prescribed under paragraph (3) shall take effect not later than 3 months after the date of prescription of such rule, except that such rules may take effect not later than 6 months after such date of prescription if the Commission determines that such extension is necessary to allow persons subject to such rules adequate time to come into compliance with such rules.

(5) The Commission may delay the publication of a proposed labeling rule, or the prescription of a labeling rule, beyond the dates specified in paragraph (1) or (3), if it determines that it cannot publish proposed labeling rules or prescribe labeling rules which meet the requirements of this section on or prior to the date specified in the applicable paragraph and publishes such determination in the Federal Register, together with the reasons therefor. In any such case, it shall publish proposed labeling rules or prescribe labeling rules for covered products of such type (or class thereof) as soon as practicable unless it determines (A) that labeling in accordance with this section is not economically or technically feasible, or (B) in the case of a type specified in paragraphs (3), (5), and (7) of section 6292(a) of this title, that labeling in accordance with this section is not likely to assist consumers in purchasing decisions. Any such determination shall be published in the Federal Register, together with the reasons therefor. This paragraph shall not apply to the prescription of a labeling rule with respect to covered products of a type specified in paragraph (20) of section 6292(a) of this title.

(c) Content of label

(1) Subject to paragraph (6), a rule prescribed under this section shall require that each covered product in the type or class of covered products to which the rule applies bear a label which discloses—

(A) the estimated annual operating cost of such product (determined in accordance with test procedures prescribed under section 6293 of this title), except that if—

(i) the Secretary determines that disclosure of estimated annual operating cost is not technologically feasible, or

(ii) the Commission determines that such disclosure is not likely to assist consumers in making purchasing decisions or is not economically feasible,

the Commission shall require disclosure of a different useful measure of energy consumption (determined in accordance with test procedures prescribed under section 6293 of this title); and

(B) information respecting the range of estimated annual operating costs for covered products to which the rule applies; except that if the Commission requires disclosure under subparagraph (A) of a measure of energy consumption different from estimated annual operating cost, then the label shall disclose the range of such measure of energy consumption of covered products to which such rule applies.

(2) A rule under this section shall include the following:

(A) A description of the type or class of covered products to which such rule applies.

(B) Subject to paragraph (6), information respecting the range of estimated annual operating costs or other useful measure of energy consumption (determined in such manner as the rule may prescribe) for such type or class of covered products.

(C) A description of the test procedures under section 6293 of this title used in determining the estimated annual operating costs or other measure of energy consumption of the type or class of covered products.

(D) A prototype label and directions for displaying such label.

(3) A rule under this section shall require that the label be displayed in a manner that the Commission determines is likely to assist consumers in making purchasing decisions and is appropriate to carry out this part. The Commission may permit a tag to be used in lieu of a label in any case in which the Commission finds that a tag will carry out the purposes for which the label was intended.

(4) A rule under this section applicable to a covered product may require disclosure, in any printed matter displayed or distributed at the point of sale of such product, of any information which may be required under this section to be disclosed on the label of such product. Requirements under this paragraph shall not apply to any broadcast advertisement or any advertisement in any newspaper, magazine, or other periodical.

(5) The Commission may require that a manufacturer of a covered product to which a rule under this section applies—

- (A) include on the label,
- (B) separately attach to the product, or
- (C) ship with the product,

additional information relating to energy consumption, including instructions for the maintenance, use, or repair of the covered product, if the Commission determines that such additional information would assist consumers in making purchasing decisions or in using such product, and that such requirement would not be unduly burdensome to manufacturers.

(6) The Commission may delay the effective date of the requirement specified in paragraph (1)(B) of this subsection applicable to a type or class of covered product, insofar as it requires the disclosure on the label of information respecting range of a measure of energy consumption, for not more than 12 months after the date on which the rule under this section is first applicable to such type or class, if the Commission determines that such information will not be available within an adequate period of time before such date.

(7) Paragraphs (1), (2), (3), (5), and (6) of this subsection shall not apply to the covered product specified in paragraphs (13), (14), (15), (16), (17), and (18) of section 6292(a) of this title.

(8) If a manufacturer of a covered product specified in paragraph (15) or (17) of section 6292(a) of this title elects to provide a label for such covered product conveying the estimated annual operating cost of such product or the range of estimated annual operating costs for the type or class of such product—

(A) such estimated cost or range of costs shall be determined in accordance with test procedures prescribed under section 6293 of this title;

(B) the format of such label shall be in accordance with a format prescribed by the Commission; and

(C) such label shall be displayed in a manner, prescribed by the Commission, to be likely to assist consumers in making purchasing decisions and appropriate to carry out the purposes of this chapter.

(9) DISCRETIONARY APPLICATION.—The Commission may apply paragraphs (1), (2), (3), (5), and (6) of this subsection to the labeling of any product covered by paragraph (2)(I) or (6) of subsection (a).

(d) Effective date

A rule under this section (or an amendment thereto) shall not apply to any covered product the manufacture of which was completed prior to the effective date of such rule or amendment, as the case may be.

(e) Study of certain products

The Secretary, in consultation with the Commission, shall study consumer products for which labeling rules under this section have not been proposed, in order to determine (1) the aggregate energy consumption of such products, and (2) whether the imposition of labeling requirements under this section would be feasible and useful to consumers in making purchasing decisions. The Secretary shall include the results of such study in the annual report under section 6308 of this title.

(f) Consultation

The Secretary and the Commission shall consult with each other on a continuing basis as may be necessary or appropriate to carry out their respective responsibilities under this part. Before the Commission makes any determination under subsection (a)(1), it shall obtain the views of the Secretary and shall take such views into account in making such determination.

(g) Other authority of the Commission

Until such time as labeling rules under this section take effect with respect to a type or class of covered product, this section shall not affect any authority of the Commission under the Federal Trade Commission Act [15 U.S.C. 41 et seq.] to require labeling with respect to energy consumption of such type or class of covered product.

(5) Not later than the end of the 24-month period beginning on the date labeling requirements under section 6294(a)(2)(C)² of this title become effective, the Secretary shall initiate a rulemaking procedure to determine if the standards in effect for fluorescent lamps and incandescent lamps should be amended so that they would be applicable to additional general service fluorescent³ and shall publish, not later than 18 months after initiating such rulemaking, a final rule including such amended standards, if any. Such rule shall provide that the amendment shall apply to products manufactured after a date which is 36 months after the date such rule is published.

(6) STANDARDS FOR GENERAL SERVICE LAMPS.—
(A) RULEMAKING BEFORE JANUARY 1, 2014.—

(i) IN GENERAL.—Not later than January 1, 2014, the Secretary shall initiate a rulemaking procedure to determine whether—

(I) standards in effect for general service lamps should be amended to establish more stringent standards than the standards specified in paragraph (1)(A); and

(II) the exemptions for certain incandescent lamps should be maintained or discontinued based, in part, on exempted lamp sales collected by the Secretary from manufacturers.

(ii) SCOPE.—The rulemaking—

(I) shall not be limited to incandescent lamp technologies; and

(II) shall include consideration of a minimum standard of 45 lumens per watt for general service lamps.

(iii) AMENDED STANDARDS.—If the Secretary determines that the standards in effect for general service incandescent lamps should be amended, the Secretary shall publish a final rule not later than January 1, 2017, with an effective date that is not earlier than 3 years after the date on which the final rule is published.

(iv) PHASED-IN EFFECTIVE DATES.—The Secretary shall consider phased-in effective dates under this subparagraph after considering—

(I) the impact of any amendment on manufacturers, retiring and repurposing existing equipment, stranded investments, labor contracts, workers, and raw materials; and

(II) the time needed to work with retailers and lighting designers to revise sales and marketing strategies.

(v) BACKSTOP REQUIREMENT.—If the Secretary fails to complete a rulemaking in accordance with clauses (i) through (iv) or if the final rule does not produce savings that are greater than or equal to the savings from a minimum efficacy standard of 45 lumens per watt, effective beginning January 1, 2020, the Secretary shall prohibit the sale of any general service lamp that does not meet a minimum efficacy standard of 45 lumens per watt.

(vi) STATE PREEMPTION.—Neither section 6297(b) of this title nor any other provision of law shall preclude California or Nevada from adopting, effective beginning on or after January 1, 2018—

(I) a final rule adopted by the Secretary in accordance with clauses (i) through (iv);

(II) if a final rule described in subclause (I) has not been adopted, the backstop requirement under clause (v); or

(III) in the case of California, if a final rule described in subclause (I) has not been adopted, any California regulations relating to these covered products adopted pursuant to State statute in effect as of December 19, 2007.

(B) RULEMAKING BEFORE JANUARY 1, 2020.—

(i) IN GENERAL.—Not later than January 1, 2020, the Secretary shall initiate a rulemaking procedure to determine whether—

(I) standards in effect for general service incandescent lamps should be amended to reflect lumen ranges with more stringent maximum wattage than the standards specified in paragraph (1)(A); and

(II) the exemptions for certain incandescent lamps should be maintained or discontinued based, in part, on exempted lamp sales data collected by the Secretary from manufacturers.

(ii) SCOPE.—The rulemaking shall not be limited to incandescent lamp technologies.

(iii) AMENDED STANDARDS.—If the Secretary determines that the standards in effect for general service incandescent lamps

should be amended, the Secretary shall publish a final rule not later than January 1, 2022, with an effective date that is not earlier than 3 years after the date on which the final rule is published.

(iv) PHASED-IN EFFECTIVE DATES.—The Secretary shall consider phased-in effective dates under this subparagraph after considering—

(I) the impact of any amendment on manufacturers, retiring and repurposing existing equipment, stranded investments, labor contracts, workers, and raw materials; and

(II) the time needed to work with retailers and lighting designers to revise sales and marketing strategies.

(7)(A) With respect to any lamp to which standards are applicable under this subsection or any lamp specified in section 6317 of this title, the Secretary shall inform any Federal entity proposing actions which would adversely impact the energy consumption or energy efficiency of such lamp of the energy conservation consequences of such action. It shall be the responsibility of such Federal entity to carefully consider the Secretary's comments.

(B) Notwithstanding subsection (n)(1), the Secretary shall not be prohibited from amending any standard, by rule, to permit increased energy use or to decrease the minimum required energy efficiency of any lamp to which standards are applicable under this subsection if such action is warranted as a result of other Federal action (including restrictions on materials or processes) which would have the effect of either increasing the energy use or decreasing the energy efficiency of such product.

(8) Not later than the date on which standards established pursuant to this subsection become effective, or, with respect to high-intensity discharge lamps covered under section 6317 of this title, the effective date of standards established pursuant to such section, each manufacturer of a product to which such standards are applicable shall file with the Secretary a laboratory report certifying compliance with the applicable standard for each lamp type. Such report shall include the lumen output and wattage consumption for each lamp type as an average of measurements taken over the preceding 12-month period. With respect to lamp types which are not manufactured during the 12-month period preceding the date such standards become effective, such report shall be filed with the Secretary not later than the date which is 12 months after the date manufacturing is commenced and shall include the lumen output and wattage consumption for each such lamp type as an average of measurements taken during such 12-month period.

(j) Standards for showerheads and faucets

(1) The maximum water use allowed for any showerhead manufactured after January 1, 1994, is 2.5 gallons per minute when measured at a flowing water pressure of 80 pounds per square inch. Any such showerhead shall also meet the requirements of ASME/ANSI A112.18.1M-1989, 7.4.3(a).

(2) The maximum water use allowed for any of the following faucets manufactured after Janu-

ary 1, 1994, when measured at a flowing water pressure of 80 pounds per square inch, is as follows:

Lavatory faucets	2.5 gallons per minute
Lavatory replacement aerators	2.5 gallons per minute
Kitchen faucets	2.5 gallons per minute
Kitchen replacement aerators	2.5 gallons per minute
Metering faucets	0.25 gallons per cycle

(3)(A) If the maximum flow rate requirements or the design requirements of ASME/ANSI Standard A112.18.1M-1989 are amended to improve the efficiency of water use of any type or class of showerhead or faucet and are approved by ANSI, the Secretary shall, not later than 12 months after the date of such amendment, publish a final rule establishing an amended uniform national standard for that product at the level specified in the amended ASME/ANSI Standard A112.18.1M and providing that such standard shall apply to products manufactured after a date which is 12 months after the publication of such rule, unless the Secretary determines, by rule published in the Federal Register, that adoption of a uniform national standard at the level specified in such amended ASME/ANSI Standard A112.18.1M—

(i) is not technologically feasible and economically justified under subsection (o);

(ii) is not consistent with the maintenance of public health and safety; or

(iii) is not consistent with the purposes of this chapter.

(B)(i) As part of the rulemaking conducted under subparagraph (A), the Secretary shall also determine if adoption of a uniform national standard for any type or class of showerhead or faucet more stringent than such amended ASME/ANSI Standard A112.18.1M—

(I) would result in additional conservation of energy or water;

(II) would be technologically feasible and economically justified under subsection (o); and

(III) would be consistent with the maintenance of public health and safety.

(ii) If the Secretary makes an affirmative determination under clause (i), the final rule published under subparagraph (A) shall waive the provisions of section 6297(c) of this title with respect to any State regulation concerning the water use or water efficiency of such type or class of showerhead or faucet if such State regulation—

(I) is more stringent than amended ASME/ANSI Standard A112.18.1M for such type or class of showerhead or faucet and the standard in effect for such product on the day before the date on which a final rule is published under subparagraph (A); and

(II) is applicable to any sale or installation of all products in such type or class of showerhead or faucet.

(C) If, after any period of five consecutive years, the maximum flow rate requirements of the ASME/ANSI standard for showerheads are not amended to improve the efficiency of water use of such products, or after any such period such requirements for faucets are not amended

to improve the efficiency of water use of such products, the Secretary shall, not later than six months after the end of such five-year period, publish a final rule waiving the provisions of section 6297(c) of this title with respect to any State regulation concerning the water use or water efficiency of such type or class of showerhead or faucet if such State regulation—

- (i) is more stringent than the standards in effect for such type or class of showerhead or faucet; and
- (ii) is applicable to any sale or installation of all products in such type or class of showerhead or faucet.

(k) Standards for water closets and urinals

(1)(A) Except as provided in subparagraph (B), the maximum water use allowed in gallons per flush for any of the following water closets manufactured after January 1, 1994, is the following:

Gravity tank-type toilets	1.6 gpf.
Flushometer tank toilets	1.6 gpf.
Electromechanical hydraulic toilets	1.6 gpf.
Blowout toilets	3.5 gpf.

(B) The maximum water use allowed for any gravity tank-type white 2-piece toilet which bears an adhesive label conspicuous upon installation consisting of the words "Commercial Use Only" manufactured after January 1, 1994, and before January 1, 1997, is 3.5 gallons per flush.

(C) The maximum water use allowed for flushometer valve toilets, other than blowout toilets, manufactured after January 1, 1997, is 1.6 gallons per flush.

(2) The maximum water use allowed for any urinal manufactured after January 1, 1994, is 1.0 gallon per flush.

(3)(A) If the maximum flush volume requirements of ASME Standard A112.19.6-1990 are amended to improve the efficiency of water use of any low consumption water closet or low consumption urinal and are approved by ANSI, the Secretary shall, not later than 12 months after the date of such amendment, publish a final rule establishing an amended uniform national standard for that product at the level specified in amended ASME/ANSI Standard A112.19.6 and providing that such standard shall apply to products manufactured after a date which is one year after the publication of such rule, unless the Secretary determines, by rule published in the Federal Register, that adoption of a uniform national standard at the level specified in such amended ASME/ANSI Standard A112.19.6—

- (i) is not technologically feasible and economically justified under subsection (o);
- (ii) is not consistent with the maintenance of public health and safety; or
- (iii) is not consistent with the purposes of this chapter.

(B)(i) As part of the rulemaking conducted under subparagraph (A), the Secretary shall also determine if adoption of a uniform national standard for any type or class of low consumption water closet or low consumption urinal more stringent than such amended ASME/ANSI Standard A112.19.6 for such product—

- (I) would result in additional conservation of energy or water;
- (II) would be technologically feasible and economically justified under subsection (o); and

(III) would be consistent with the maintenance of public health and safety.

(ii) If the Secretary makes an affirmative determination under clause (i), the final rule published under subparagraph (A) shall waive the provisions of section 6297(c) of this title with respect to any State regulation concerning the water use or water efficiency of such type or class of low consumption water closet or low consumption urinal if such State regulation—

(I) is more stringent than amended ASME/ANSI Standard A112.19.6 for such type or class of low consumption water closet or low consumption urinal and the standard in effect for such product on the day before the date on which a final rule is published under subparagraph (A); and

(II) is applicable to any sale or installation of all products in such type or class of low consumption water closet or low consumption urinal.

(C) If, after any period of five consecutive years, the maximum flush volume requirements of the ASME/ANSI standard for low consumption water closets are not amended to improve the efficiency of water use of such products, or after any such period such requirements for low consumption urinals are not amended to improve the efficiency of water use of such products, the Secretary shall, not later than six months after the end of such five-year period, publish a final rule waiving the provisions of section 6297(c) of this title with respect to any State regulation concerning the water use or water efficiency of such type or class of water closet or urinal if such State regulation—

- (i) is more stringent than the standards in effect for such type or class of water closet or urinal; and
- (ii) is applicable to any sale or installation of all products in such type or class of water closet or urinal.

(l) Standards for other covered products

(1) The Secretary may prescribe an energy conservation standard for any type (or class) of covered products of a type specified in paragraph (2) of section 6292(a) of this title if the requirements of subsections (o) and (p) are met and the Secretary determines that—

(A) the average per household energy use within the United States by products of such type (or class) exceeded 150 kilowatt-hours (or its Btu equivalent) for any 12-month period ending before such determination;

(B) the aggregate household energy use within the United States by products of such type (or class) exceeded 4,200,000,000 kilowatt-hours (or its Btu equivalent) for any such 12-month period;

(C) substantial improvement in the energy efficiency of products of such type (or class) is technologically feasible; and

(D) the application of a labeling rule under section 6294 of this title to such type (or class) is not likely to be sufficient to induce manufacturers to produce, and consumers and other persons to purchase, covered products of such type (or class) which achieve the maximum energy efficiency which is technologically feasible and economically justified.

(2) Any new or amended standard for covered products of a type specified in paragraph (20) of section 6292(a) of this title shall not apply to products manufactured within five years after the publication of a final rule establishing such standard.

(3) The Secretary may, in accordance with subsections (o) and (p), prescribe an energy conservation standard for television sets. Any such standard may not become effective with respect to products manufactured before January 1, 1992.

(4) ENERGY EFFICIENCY STANDARDS FOR CERTAIN LAMPS.—

(B) BENCHMARKS.—Not later than 1 year after December 19, 2007, the Secretary, in consultation with the National Electrical Manufacturers Association, shall—

(i) collect actual data for United States unit sales for each of calendar years 1990 through 2006 for each of the 5 types of lamps described in subparagraph (A) to determine the historical growth rate of the type of lamp; and

(ii) construct a model for each type of lamp based on coincident economic indicators that closely match the historical annual growth rate of the type of lamp to provide a neutral comparison benchmark to model future unit sales after calendar year 2006.

(C) ACTUAL SALES DATA.—

(i) IN GENERAL.—Effective for each of calendar years 2010 through 2025, the Secretary, in consultation with the National Electrical Manufacturers Association, shall—

(I) collect actual United States unit sales data for each of 5 types of lamps described in subparagraph (A); and

(II) not later than 90 days after the end of each calendar year, compare the lamp sales in that year with the sales predicted by the comparison benchmark for each of the 5 types of lamps described in subparagraph (A).

(ii) CONTINUATION OF TRACKING.—

(I) DETERMINATION.—Not later than January 1, 2023, the Secretary shall determine if actual sales data should be tracked for the lamp types described in subparagraph (A) after calendar year 2025.

(II) CONTINUATION.—If the Secretary finds that the market share of a lamp type described in subparagraph (A) could significantly erode the market share for general service lamps, the Secretary shall continue to track the actual sales data for the lamp type.

(D) ROUGH SERVICE LAMPS.—

(i) IN GENERAL.—Effective beginning with the first year that the reported annual sales rate for rough service lamps demonstrates actual unit sales of rough service lamps that achieve levels that are at least 100 percent higher than modeled unit sales for that same year, the Secretary shall—

(I) not later than 90 days after the end of the previous calendar year, issue a finding that the index has been exceeded; and

(II) not later than the date that is 1 year after the end of the previous calendar year, complete an accelerated rulemaking to establish an energy conservation standard for rough service lamps.

(ii) BACKSTOP REQUIREMENT.—If the Secretary fails to complete an accelerated rulemaking in accordance with clause (i)(II), effective beginning 1 year after the date of the issuance of the finding under clause (i)(I), the Secretary shall require rough service lamps to—

(II) have a maximum 40-watt limitation; and

(III) be sold at retail only in a package containing 1 lamp.

(E) VIBRATION SERVICE LAMPS.—

(i) IN GENERAL.—Effective beginning with the first year that the reported annual sales rate for vibration service lamps demonstrates actual unit sales of vibration service lamps that achieve levels that are at least 100 percent higher than modeled unit sales for that same year, the Secretary shall—

(ii) BACKSTOP REQUIREMENT.—If the Secretary fails to complete an accelerated rulemaking in accordance with clause (i)(II), effective beginning 1 year after the date of the issuance of the finding under clause (i)(I), the Secretary shall require vibration service lamps to—

(I) have a maximum 40-watt limitation; and

(II) be sold at retail only in a package containing 1 lamp.

(F) 3-WAY INCANDESCENT LAMPS.—

(i) IN GENERAL.—Effective beginning with the first year that the reported annual sales rate for 3-way incandescent lamps demonstrates actual unit sales of 3-way incandescent lamps that achieve levels that are at least 100 percent higher than modeled unit sales for that same year, the Secretary shall—

(I) not later than 90 days after the end of the previous calendar year, issue a finding that the index has been exceeded; and

(II) not later than the date that is 1 year after the end of the previous calendar year, complete an accelerated rulemaking to establish an energy conservation standard for 3-way incandescent lamps.

(ii) **BACKSTOP REQUIREMENT.**—If the Secretary fails to complete an accelerated rulemaking in accordance with clause (i)(II), effective beginning 1 year after the date of issuance of the finding under clause (i)(I), the Secretary shall require that—

(I) each filament in a 3-way incandescent lamp meet the new maximum wattage requirements for the respective lumen range established under subsection (i)(1)(A)²; and

(II) 3-way lamps be sold at retail only in a package containing 1 lamp.

(G) **2,601–3,300 LUMEN GENERAL SERVICE INCANDESCENT LAMPS.**—Effective beginning with the first year that the reported annual sales rate demonstrates actual unit sales of 2,601–3,300 lumen general service incandescent lamps in the lumen range of 2,601 through 3,300 lumens (or, in the case of a modified spectrum, in the lumen range of 1,951 through 2,475 lumens) that achieve levels that are at least 100 percent higher than modeled unit sales for that same year, the Secretary shall impose—

(i) a maximum 95-watt limitation on general service incandescent lamps in the lumen range of 2,601 through 3,300 lumens; and

(ii) a requirement that those lamps be sold at retail only in a package containing 1 lamp.

(H) **SHATTER-RESISTANT LAMPS.**—

(i) **IN GENERAL.**—Except as provided in clause (ii), if the Secretary issues a final rule prior to January 1, 2025, establishing an energy conservation standard for any of the 5 types of lamps for which data collection is required under any of subparagraphs (D) through (G), the requirement to collect and model data for that type of lamp shall terminate unless, as part of the rulemaking, the Secretary determines that continued tracking is necessary.

(ii) **BACKSTOP REQUIREMENT.**—If the Secretary imposes a backstop requirement as a result of a failure to complete an accelerated rulemaking in accordance with clause (i)(II) of any of subparagraphs (D) through (G),⁴ the requirement to collect and model data for the applicable type of lamp shall continue for an additional 2 years after the effective date of the backstop requirement.

(m) Amendment of standards

(1) In general

Not later than 6 years after issuance of any final rule establishing or amending a standard, as required for a product under this part, the Secretary shall publish—

(A) a notice of the determination of the Secretary that standards for the product do not need to be amended, based on the criteria established under subsection (n)(2); or

(B) a notice of proposed rulemaking including new proposed standards based on the criteria established under subsection (o) and the procedures established under subsection (p).

(2) Notice

If the Secretary publishes a notice under paragraph (1), the Secretary shall—

(A) publish a notice stating that the analysis of the Department is publicly available; and

(B) provide an opportunity for written comment.

(3) Amendment of standard; new determination

(A) Amendment of standard

Not later than 2 years after a notice is issued under paragraph (1)(B), the Secretary shall publish a final rule amending the standard for the product.

(B) New determination

Not later than 3 years after a determination under paragraph (1)(A), the Secretary shall make a new determination and publication under subparagraph (A) or (B) of paragraph (1).

(4) Application to products

(A) In general

Except as provided in subparagraph (B), an amendment prescribed under this subsection shall apply to—

(i) with respect to refrigerators, refrigerator-freezers, freezers, room air conditioners, dishwashers, clothes washers, clothes dryers, fluorescent lamp ballasts, and kitchen ranges and ovens, such a product that is manufactured after the date that is 3 years after publication of the final rule establishing an applicable standard; and

(ii) with respect to central air conditioners, heat pumps, water heaters, pool heaters, direct heating equipment, and furnaces, such a product that is manufactured after the date that is 5 years after publication of the final rule establishing an applicable standard.

⁴So in original. Subpar. (G) does not contain a cl. (i)(II).

(B) Other new standards

A manufacturer shall not be required to apply new standards to a product with respect to which other new standards have been required during the prior 6-year period.

(5) Reports

The Secretary shall promptly submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate—

(A) a progress report every 180 days on compliance with this section, including a specific plan to remedy any failures to comply with deadlines for action established under this section; and

(B) all required reports to the Court or to any party to the Consent Decree in State of New York v Bodman, Consolidated Civil Actions No. 05 Civ. 7807 and No. 05 Civ. 7808.

(n) Petition for amended standard

(1) With respect to each covered product described in paragraphs (1) through (11), and in paragraphs (13) and (14) of section 6292(a) of this title, any person may petition the Secretary to conduct a rulemaking to determine for a covered product if the standards contained either in the last final rule required under subsections (b) through (i) of this section or in a final rule published under this section should be amended.

(2) The Secretary shall grant a petition if he finds that it contains evidence which, assuming no other evidence were considered, provides an adequate basis for amending the standards under the following criteria—

(A) amended standards will result in significant conservation of energy;

(B) amended standards are technologically feasible; and

(C) amended standards are cost effective as described in subsection (o)(2)(B)(i)(II).

The grant of a petition by the Secretary under this subsection creates no presumption with respect to the Secretary's determination of any of the criteria in a rulemaking under this section.

(3) NOTICE OF DECISION.—Not later than 180 days after the date of receiving a petition, the Secretary shall publish in the Federal Register a notice of, and explanation for, the decision of the Secretary to grant or deny the petition.

(4) NEW OR AMENDED STANDARDS.—Not later than 3 years after the date of granting a petition for new or amended standards, the Secretary shall publish in the Federal Register—

(A) a final rule that contains the new or amended standards; or

(B) a determination that no new or amended standards are necessary.

(5) An amendment prescribed under this subsection shall apply to products manufactured after a date which is 5 years after—

(A) the effective date of the previous amendment pursuant to this part; or

(B) if the previous final rule published under this part did not amend the standard, the earliest date by which a previous amendment could have been in effect, except that in no case may an amended standard apply to prod-

ucts manufactured within 3 years (for refrigerators, refrigerator-freezers, and freezers, room air conditioners, dishwashers, clothes washers, clothes dryers, fluorescent lamp ballasts, general service fluorescent lamps, incandescent reflector lamps, and kitchen ranges and ovens) or 5 years (for central air conditioners and heat pumps, water heaters, pool heaters, direct heating equipment and furnaces) after publication of the final rule establishing a standard.

(o) Criteria for prescribing new or amended standards

(1) The Secretary may not prescribe any amended standard which increases the maximum allowable energy use, or, in the case of showerheads, faucets, water closets, or urinals, water use, or decreases the minimum required energy efficiency, of a covered product.

(2)(A) Any new or amended energy conservation standard prescribed by the Secretary under this section for any type (or class) of covered product shall be designed to achieve the maximum improvement in energy efficiency, or, in the case of showerheads, faucets, water closets, or urinals, water efficiency, which the Secretary determines is technologically feasible and economically justified.

(B)(i) In determining whether a standard is economically justified, the Secretary shall, after receiving views and comments furnished with respect to the proposed standard, determine whether the benefits of the standard exceed its burdens by, to the greatest extent practicable, considering—

(I) the economic impact of the standard on the manufacturers and on the consumers of the products subject to such standard;

(II) the savings in operating costs throughout the estimated average life of the covered product in the type (or class) compared to any increase in the price of, or in the initial charges for, or maintenance expenses of, the covered products which are likely to result from the imposition of the standard;

(III) the total projected amount of energy, or as applicable, water, savings likely to result directly from the imposition of the standard;

(IV) any lessening of the utility or the performance of the covered products likely to result from the imposition of the standard;

(V) the impact of any lessening of competition, as determined in writing by the Attorney General, that is likely to result from the imposition of the standard;

(VI) the need for national energy and water conservation; and

(VII) other factors the Secretary considers relevant.

(ii) For purposes of clause (i)(V), the Attorney General shall make a determination of the impact, if any, of any lessening of competition likely to result from such standard and shall transmit such determination, not later than 60 days after the publication of a proposed rule prescribing or amending an energy conservation standard, in writing to the Secretary, together with an analysis of the nature and extent of such impact. Any such determination and analysis shall be published by the Secretary in the Federal Register.

(iii) If the Secretary finds that the additional cost to the consumer of purchasing a product complying with an energy conservation standard level will be less than three times the value of the energy, and as applicable, water, savings during the first year that the consumer will receive as a result of the standard, as calculated under the applicable test procedure, there shall be a rebuttable presumption that such standard level is economically justified. A determination by the Secretary that such criterion is not met shall not be taken into consideration in the Secretary's determination of whether a standard is economically justified.

(3) The Secretary may not prescribe an amended or new standard under this section for a type (or class) of covered product if—

(A) for products other than dishwashers, clothes washers, clothes dryers, and kitchen ranges and ovens, a test procedure has not been prescribed pursuant to section 6293 of this title with respect to that type (or class) of product; or

(B) the Secretary determines, by rule, that the establishment of such standard will not result in significant conservation of energy or, in the case of showerheads, faucets, water closets, or urinals, water, or that the establishment of such standard is not technologically feasible or economically justified.

For purposes of section 6297 of this title, a determination under subparagraph (B) with respect to any type (or class) of covered products shall have the same effect as would a standard prescribed for such type (or class).

(4) The Secretary may not prescribe an amended or new standard under this section if the Secretary finds (and publishes such finding) that interested persons have established by a preponderance of the evidence that the standard is likely to result in the unavailability in the United States in any covered product type (or class) of performance characteristics (including reliability), features, sizes, capacities, and volumes that are substantially the same as those generally available in the United States at the time of the Secretary's finding. The failure of some types (or classes) to meet this criterion shall not affect the Secretary's determination of whether to prescribe a standard for other types (or classes).

(5) The Secretary may set more than 1 energy conservation standard for products that serve more than 1 major function by setting 1 energy conservation standard for each major function.

(6) REGIONAL STANDARDS FOR FURNACES, CENTRAL AIR CONDITIONERS, AND HEAT PUMPS.—

(A) IN GENERAL.—In any rulemaking to establish a new or amended standard, the Secretary may consider the establishment of separate standards by geographic region for furnaces (except boilers), central air conditioners, and heat pumps.

(B) NATIONAL AND REGIONAL STANDARDS.—

(i) NATIONAL STANDARD.—If the Secretary establishes a regional standard for a product, the Secretary shall establish a base national standard for the product.

(ii) REGIONAL STANDARDS.—If the Secretary establishes a regional standard for a product, the Secretary may establish more re-

strictive standards for the product by geographic region as follows:

(I) For furnaces, the Secretary may establish 1 additional standard that is applicable in a geographic region defined by the Secretary.

(II) For any cooling product, the Secretary may establish 1 or 2 additional standards that are applicable in 1 or 2 geographic regions as may be defined by the Secretary.

(C) BOUNDARIES OF GEOGRAPHIC REGIONS.—

(i) IN GENERAL.—Subject to clause (ii), the boundaries of additional geographic regions established by the Secretary under this paragraph shall include only contiguous States.

(ii) ALASKA AND HAWAII.—The States of Alaska and Hawaii may be included under this paragraph in a geographic region that the States are not contiguous to.

(iii) INDIVIDUAL STATES.—Individual States shall be placed only into a single region under this paragraph.

(D) PREREQUISITES.—In establishing additional regional standards under this paragraph, the Secretary shall—

(i) establish additional regional standards only if the Secretary determines that—

(I) the establishment of additional regional standards will produce significant energy savings in comparison to establishing only a single national standard; and

(II) the additional regional standards are economically justified under this paragraph; and

(ii) consider the impact of the additional regional standards on consumers, manufacturers, and other market participants, including product distributors, dealers, contractors, and installers.

(E) APPLICATION; EFFECTIVE DATE.—

(i) BASE NATIONAL STANDARD.—Any base national standard established for a product under this paragraph shall—

(I) be the minimum standard for the product; and

(II) apply to all products manufactured or imported into the United States on and after the effective date for the standard.

(ii) REGIONAL STANDARDS.—Any additional and more restrictive regional standard established for a product under this paragraph shall apply to any such product installed on or after the effective date of the standard in States in which the Secretary has designated the standard to apply.

(F) CONTINUATION OF REGIONAL STANDARDS.—

(i) IN GENERAL.—In any subsequent rulemaking for any product for which a regional standard has been previously established, the Secretary shall determine whether to continue the establishment of separate regional standards for the product.

(ii) REGIONAL STANDARD NO LONGER APPROPRIATE.—Except as provided in clause (iii), if the Secretary determines that regional

standards are no longer appropriate for a product, beginning on the effective date of the amended standard for the product—

(I) there shall be 1 base national standard for the product with Federal enforcement; and

(II) State authority for enforcing a regional standard for the product shall terminate.

(iii) REGIONAL STANDARD APPROPRIATE BUT STANDARD OR REGION CHANGED.—

(I) STATE NO LONGER CONTAINED IN REGION.—Subject to subclause (III), if a State is no longer contained in a region in which a regional standard that is more stringent than the base national standard applies, the authority of the State to enforce the regional standard shall terminate.

(II) STANDARD OR REGION REVISED SO THAT EXISTING REGIONAL STANDARD EQUALS BASE NATIONAL STANDARD.—If the Secretary revises a base national standard for a product or the geographic definition of a region so that an existing regional standard for a State is equal to the revised base national standard—

(aa) the authority of the State to enforce the regional standard shall terminate on the effective date of the revised base national standard; and

(bb) the State shall be subject to the revised base national standard.

(III) STANDARD OR REGION REVISED SO THAT EXISTING REGIONAL STANDARD EQUALS BASE NATIONAL STANDARD.—If the Secretary revises a base national standard for a product or the geographic definition of a region so that the standard for a State is lower than the previously approved regional standard, the State may continue to enforce the previously approved standard level.

(iv) WAIVER OF FEDERAL PREEMPTION.—Nothing in this paragraph diminishes the authority of a State to enforce a State regulation for which a waiver of Federal preemption has been granted under section 6297(d) of this title.

(G) ENFORCEMENT.—

(i) BASE NATIONAL STANDARD.—

(I) IN GENERAL.—The Secretary shall enforce any base national standard.

(II) TRADE ASSOCIATION CERTIFICATION PROGRAMS.—In enforcing the base national standard, the Secretary shall use, to the maximum extent practicable, national standard nationally recognized certification programs of trade associations.

(ii) REGIONAL STANDARDS.—

(I) ENFORCEMENT PLAN.—Not later than 90 days after the date of the issuance of a final rule that establishes a regional standard, the Secretary shall initiate a rulemaking to develop and implement an effective enforcement plan for regional standards for the products that are covered by the final rule.

(II) RESPONSIBLE ENTITIES.—Any rules regarding enforcement of a regional stand-

ard shall clearly specify which entities are legally responsible for compliance with the standards and for making any required information or labeling disclosures.

(III) FINAL RULE.—Not later than 15 months after the date of the issuance of a final rule that establishes a regional standard for a product, the Secretary shall promulgate a final rule covering enforcement of regional standards for the product.

(IV) INCORPORATION BY STATES AND LOCALITIES.—A State or locality may incorporate any Federal regional standard into State or local building codes or State appliance standards.

(V) STATE ENFORCEMENT.—A State agency may seek enforcement of a Federal regional standard in a Federal court of competent jurisdiction.

(H) INFORMATION DISCLOSURE.—

(i) IN GENERAL.—Not later than 90 days after the date of the publication of a final rule that establishes a regional standard for a product, the Federal Trade Commission shall undertake a rulemaking to determine the appropriate 1 or more methods for disclosing information so that consumers, distributors, contractors, and installers can easily determine whether a specific piece of equipment that is installed in a specific building is in conformance with the regional standard that applies to the building.

(ii) METHODS.—A method of disclosing information under clause (i) may include—

(I) modifications to the Energy Guide label; or

(II) other methods that make it easy for consumers and installers to use and understand at the point of installation.

(iii) COMPLETION OF RULEMAKING.—The rulemaking shall be completed not later 15 months after the date of the publication of a final rule that establishes a regional standard for a product.

(p) Procedure for prescribing new or amended standards

Any new or amended energy conservation standard shall be prescribed in accordance with the following procedure:

(1) A proposed rule which prescribes an amended or new energy conservation standard or prescribes no amendment or no new standard for a type (or class) of covered products shall be published in the Federal Register. In prescribing any such proposed rule with respect to a standard, the Secretary shall determine the maximum improvement in energy efficiency or maximum reduction in energy use that is technologically feasible for each type (or class) of covered products. If such standard is not designed to achieve such efficiency or use, the Secretary shall state in the proposed rule the reasons therefor.

(2) After the publication of such proposed rulemaking, the Secretary shall, in accordance with section 6306 of this title, afford interested persons an opportunity, during a period of not less than 60 days, to present oral and written comments (including an oppor-

tunity to question those who make such presentations, as provided in such section) on matters relating to such proposed rule, including—

(A) whether the standard to be prescribed is economically justified (taking into account those factors which the Secretary must consider under subsection (o)(2)) or will result in the effects described in subsection (o)(4);

(B) whether the standard will achieve the maximum improvement in energy efficiency which is technologically feasible;

(C) if the standard will not achieve such improvement, whether the reasons for not achieving such improvement are adequate; and

(D) whether such rule should prescribe a level of energy use or efficiency which is higher or lower than that which would otherwise apply in the case of any group of products within the type (or class) that will be subject to such standard.

(3) A final rule prescribing an amended or new energy conservation standard or prescribing no amended or new standard for a type (or class) of covered products shall be published as soon as is practicable, but not less than 90 days, after publication of the proposed rule in the Federal Register.

(4) DIRECT FINAL RULES.—

(A) IN GENERAL.—On receipt of a statement that is submitted jointly by interested persons that are fairly representative of relevant points of view (including representatives of manufacturers of covered products, States, and efficiency advocates), as determined by the Secretary, and contains recommendations with respect to an energy or water conservation standard—

(i) if the Secretary determines that the recommended standard contained in the statement is in accordance with subsection (o) or section 6313(a)(6)(B) of this title, as applicable, the Secretary may issue a final rule that establishes an energy or water conservation standard and is published simultaneously with a notice of proposed rulemaking that proposes a new or amended energy or water conservation standard that is identical to the standard established in the final rule to establish the recommended standard (referred to in this paragraph as a “direct final rule”); or

(ii) if the Secretary determines that a direct final rule cannot be issued based on the statement, the Secretary shall publish a notice of the determination, together with an explanation of the reasons for the determination.

(B) PUBLIC COMMENT.—The Secretary shall solicit public comment for a period of at least 110 days with respect to each direct final rule issued by the Secretary under subparagraph (A)(i).

(C) WITHDRAWAL OF DIRECT FINAL RULES.—

(i) IN GENERAL.—Not later than 120 days after the date on which a direct final rule issued under subparagraph (A)(i) is published in the Federal Register, the Sec-

retary shall withdraw the direct final rule if—

(I) the Secretary receives 1 or more adverse public comments relating to the direct final rule under subparagraph (B)(i)⁵ or any alternative joint recommendation; and

(II) based on the rulemaking record relating to the direct final rule, the Secretary determines that such adverse public comments or alternative joint recommendation may provide a reasonable basis for withdrawing the direct final rule under subsection (o), section 6313(a)(6)(B) of this title, or any other applicable law.

(ii) ACTION ON WITHDRAWAL.—On withdrawal of a direct final rule under clause (i), the Secretary shall—

(I) proceed with the notice of proposed rulemaking published simultaneously with the direct final rule as described in subparagraph (A)(i); and

(II) publish in the Federal Register the reasons why the direct final rule was withdrawn.

(iii) TREATMENT OF WITHDRAWN DIRECT FINAL RULES.—A direct final rule that is withdrawn under clause (i) shall not be considered to be a final rule for purposes of subsection (o).

(D) EFFECT OF PARAGRAPH.—Nothing in this paragraph authorizes the Secretary to issue a direct final rule based solely on receipt of more than 1 statement containing recommended standards relating to the direct final rule.

(q) Special rule for certain types or classes of products

(1) A rule prescribing an energy conservation standard for a type (or class) of covered products shall specify a level of energy use or efficiency higher or lower than that which applies (or would apply) for such type (or class) for any group of covered products which have the same function or intended use, if the Secretary determines that covered products within such group—

(A) consume a different kind of energy from that consumed by other covered products within such type (or class); or

(B) have a capacity or other performance-related feature which other products within such type (or class) do not have and such feature justifies a higher or lower standard from that which applies (or will apply) to other products within such type (or class).

In making a determination under this paragraph concerning whether a performance-related feature justifies the establishment of a higher or lower standard, the Secretary shall consider such factors as the utility to the consumer of such a feature, and such other factors as the Secretary deems appropriate.

(2) Any rule prescribing a higher or lower level of energy use or efficiency under paragraph (1) shall include an explanation of the basis on

⁵ So in original. Probably should be “subparagraph (A)(i)”.

which such higher or lower level was established.

(r) Inclusion in standards of test procedures and other requirements

Any new or amended energy conservation standard prescribed under this section shall include, where applicable, test procedures prescribed in accordance with section 6293 of this title and may include any requirement which the Secretary determines is necessary to assure that each covered product to which such standard applies meets the required minimum level of energy efficiency or maximum quantity of energy use specified in such standard.

(s) Determination of compliance with standards

Compliance with, and performance under, the energy conservation standards (except for design standards authorized by this part) established in, or prescribed under, this section shall be determined using the test procedures and corresponding compliance criteria prescribed under section 6293 of this title.

(t) Small manufacturer exemption

(1) Subject to paragraph (2), the Secretary may, on application of any manufacturer, exempt such manufacturer from all or part of the requirements of any energy conservation standard established in or prescribed under this section for any period not longer than the 24-month period beginning on the date such rule becomes effective, if the Secretary finds that the annual gross revenues of such manufacturer from all its operations (including the manufacture and sale of covered products) does not exceed \$8,000,000 for the 12-month period preceding the date of the application. In making such finding with respect to any manufacturer, the Secretary shall take into account the annual gross revenues of any other person who controls, is controlled by, or is under common control with, such manufacturer.

(2) The Secretary may not exercise the authority granted under paragraph (1) with respect to any type (or class) of covered product subject to an energy conservation standard under this section unless the Secretary makes a finding, after obtaining the written views of the Attorney General, that a failure to allow an exemption under paragraph (1) would likely result in a lessening of competition.

(u) Battery charger and external power supply electric energy consumption

(1)(A) Not later than 18 months after August 8, 2005, the Secretary shall, after providing notice and an opportunity for comment, prescribe, by rule, definitions and test procedures for the power use of battery chargers and external power supplies.

(B) In establishing the test procedures under subparagraph (A), the Secretary shall—

(i) consider existing definitions and test procedures used for measuring energy consumption in standby mode and other modes; and

(ii) assess the current and projected future market for battery chargers and external power supplies.

(C) The assessment under subparagraph (B)(ii) shall include—

(i) estimates of the significance of potential energy savings from technical improvements to battery chargers and external power supplies; and

(ii) suggested product classes for energy conservation standards.

(I) meets the criteria and procedures of subsections (o), (p), (q), (r), (s), and (t); and

(II) would result in significant overall annual energy savings, considering standby mode and other operating modes.

(1) Definitions

(A) In general

Unless the Secretary determines otherwise pursuant to subparagraph (B), in this subsection:

(i) Active mode

The term “active mode” means the condition in which an energy-using product—

(I) is connected to a main power source;

(II) has been activated; and

(III) provides 1 or more main functions.

(ii) Off mode

The term “off mode” means the condition in which an energy-using product—

(I) is connected to a main power source; and

(II) is not providing any standby or active mode function.

(iii) Standby mode

The term “standby mode” means the condition in which an energy-using product—

(I) is connected to a main power source; and

(II) offers 1 or more of the following user-oriented or protective functions:

L. 95-619 substituted provisions authorizing Secretary to prescribe an energy efficiency standard for each type of covered product specified in section 6292(a)(1) to (13) of this title, authorizing such prescription for any type of covered product specified in section 6292(a)(14) of this title where certain conditions are found to exist, and requiring publication of a list of those types of covered products considered subject to prescribed standards in the Federal Register not later than two years after Nov. 9, 1978, for provisions requiring the Administrator, meaning the Administrator of the Federal Energy Administration, to direct the National Bureau of Standards to develop an energy efficiency improvement target for each type of covered product listed in section 6292(a)(1) to (10) of this title, requiring prescription of such a target by the Administrator not later than ninety days after Aug. 14, 1976, requiring such targets be designed to exceed by 1980 by at least twenty percent the aggregate energy efficiency of the covered products as manufactured in 1972, requiring similar energy efficiency targets be prescribed for covered products specified in section 6292(a)(11) to (13) of this title not later than one year after Aug. 14, 1976, authorizing the Administrator to modify periodically any established targets, requiring the manufacturers of any covered products to submit reports as requested by the Administrator to help in establishing and reaching such targets, authorizing the Administrator to commence proceedings in certain situations to prescribe initial or revised targets, specifying when improvements of energy efficiency are economically justified, and authorizing the Attorney General to determine any negative effects on competition so as to make certain improvements economically unjustified.

Subsec. (b). Pub. L. 95-619 substituted provisions specifying preconditions for prescription of a standard for a type or class of covered products for provisions specifying the procedure to be followed in prescribing energy efficiency standards.

Subsec. (c). Pub. L. 95-619 substituted provisions requiring energy efficiency standards for each type of covered products be designed to achieve the maximum improvement in energy efficiency which the Secretary determines feasible and justified and requiring such standards be phased in over a period not to exceed five years for provisions relating to the prescription of test procedures and the requirements necessary to meet minimum energy efficiency levels.

Subsec. (d). Pub. L. 95-619 substituted provisions relating to a determination by the Secretary of the eco-

conomic justification of any particular energy efficiency standard and a determination by the Attorney General of the impact on competition of any proposed standard for provisions relating to labeling rules.

Subsecs. (e) to (j). Pub. L. 95-619 added subsecs. (e) to (j).

1976—Subsec. (a)(1)(A). Pub. L. 94-385, §161(a), transferred authority to determine energy targets from the Administrator to the National Bureau of Standards and substituted 90 days after August 14, 1976, for 180 days after December 22, 1975, for the promulgation of rules by the Administrator.

Subsec. (a)(2). Pub. L. 94-385, §161(b), transferred authority to determine energy targets from the Administrator to the National Bureau of Standards and substituted one year after August 14, 1976, for one year after December 22, 1975, for the promulgation of rules by the Administrator.

§ 6296. Requirements of manufacturers

(a) In general

Each manufacturer of a covered product to which a rule under section 6294 of this title applies shall provide a label which meets, and is

displayed in accordance with, the requirements of such rule. If such manufacturer or any distributor, retailer, or private labeler of such product advertises such product in a catalog from which it may be purchased, such catalog shall contain all information required to be displayed on the label, except as otherwise provided by rule of the Commission. The preceding sentence shall not require that a catalog contain information respecting a covered product if the distribution of such catalog commenced before the effective date of the labeling rule under section 6294 of this title applicable to such product.

(b) Notification

(1) Each manufacturer of a covered product to which a rule under section 6294 of this title applies shall notify the Secretary or the Commission—

(A) not later than 60 days after the date such rule takes effect, of the models in current production (and starting serial numbers of those models) to which such rule applies; and

(B) prior to commencement of production, of all models subsequently produced (and starting serial numbers of those models) to which such rule applies.

(2) If requested by the Secretary or Commission, the manufacturer of a covered product to which a rule under section 6294 of this title applies shall provide, within 30 days of the date of the request, the data from which the information included on the label and required by the rule was derived. Data shall be kept on file by the manufacturer for a period specified in the rule.

(3) When requested—

(A) by the Secretary for purposes of ascertaining whether a product subject to a standard established in or prescribed under section 6295 of this title is in compliance with that standard, or

(B) by the Commission for purposes of ascertaining whether the information set out on a label of a product, as required under section 6294 of this title, is accurate,

each manufacturer of such a product shall supply at his expense a reasonable number of such covered products to any laboratory designated by the Secretary or the Commission, as the case may be. Any reasonable charge levied by the laboratory for such testing shall be borne by the United States, if and to the extent provided in appropriation Acts.

(4) Each manufacturer of a covered product to which a rule under section 6294 of this title applies shall annually, at a time specified by the Commission, supply to the Commission relevant data respecting energy consumption or water use developed in accordance with the test procedures applicable to such product under section 6293 of this title.

(5) A rule under section 6293, 6294, or 6295 of this title may require the manufacturer or his agent to permit a representative designated by the Commission or the Secretary to observe any testing required by this part and inspect the results of such testing.

(c) Deadline

Each manufacturer shall use labels reflecting the range data required to be disclosed under section 6294(c)(1)(B) of this title after the expiration of 60 days following the date of publication of any revised table of ranges unless the rule under section 6294 of this title provides for a later date. The Commission may not require labels be changed to reflect revised tables of ranges more often than annually.

(d) Information requirements

(1) For purposes of carrying out this part, the Secretary may require, under this part or other provision of law administered by the Secretary, each manufacturer of a covered product to submit information or reports to the Secretary with respect to energy efficiency, energy use, or, in the case of showerheads, faucets, water closets, and urinals, water use of such covered product and the economic impact of any proposed energy conservation standard, as the Secretary determines may be necessary to establish and revise test procedures, labeling rules, and energy conservation standards for such product and to insure compliance with the requirements of this part. In making any determination under this paragraph, the Secretary shall consider existing public sources of information, including nationally recognized certification programs of trade associations.

(2) The Secretary shall exercise authority under this section in a manner designed to minimize unnecessary burdens on manufacturers of covered products.

(3) The provisions of section 796(d) of title 15 shall apply with respect to information obtained under this subsection to the same extent and in the same manner as they apply with respect to energy information obtained under section 796 of title 15.

§ 6297. Effect on other law**(a) Preemption of testing and labeling requirements**

(1) Effective on March 17, 1987, this part supercedes any State regulation insofar as such State regulation provides at any time for the disclosure of information with respect to any measure of energy consumption or water use of any covered product if—

(A) such State regulation requires testing or the use of any measure of energy consumption, water use, or energy descriptor in any manner other than that provided under section 6293 of this title; or

(B) such State regulation requires disclosure of information with respect to the energy use, energy efficiency, or water use of any covered product other than information required under section 6294 of this title.

(2) For purposes of this section, the following definitions apply:

(A) The term “State regulation” means a law, regulation, or other requirement of a State or its political subdivisions. With respect to showerheads, faucets, water closets, and urinals, such term shall also mean a law, regulation, or other requirement of a river basin commission that has jurisdiction within a State.

(B) The term “river basin commission” means—

Effective on March 17, 1987, and ending on the effective date of an energy conservation stand-

ard established under section 6295 of this title for any covered product, no State regulation, or revision thereof, concerning the energy efficiency, energy use, or water use of the covered product shall be effective with respect to such covered product, unless the State regulation or revision—

(1)(A) was prescribed or enacted before January 8, 1987, and is applicable to products before January 3, 1988, or in the case of any portion of any regulation which establishes requirements for fluorescent lamp ballasts, was prescribed or enacted before June 28, 1988, or in the case of any portion of any regulation which establishes requirements for fluorescent or incandescent lamps, flow rate requirements for showerheads or faucets, or water use requirements for water closets or urinals, was prescribed or enacted before October 24, 1992; or

(B) in the case of any portion of any regulation that establishes requirements for general service incandescent lamps, intermediate base incandescent lamps, or candelabra base lamps, was enacted or adopted by the State of California or Nevada before December 4, 2007, except that—

(i) the regulation adopted by the California Energy Commission with an effective date of January 1, 2008, shall only be effective until the effective date of the Federal standard for the applicable lamp category under subparagraphs (A), (B), and (C) of section 6295(i)(1) of this title; and

(ii) the States of California and Nevada may, at any time, modify or adopt a State standard for general service lamps to conform with Federal standards with effective dates no earlier than 12 months prior to the Federal effective dates prescribed under subparagraphs (A), (B), and (C) of section 6295(i)(1) of this title, at which time any prior regulations adopted by the State of California or Nevada shall no longer be effective.

(2) is a State procurement regulation described in subsection (e);

(5) is a regulation described in subsection (d)(5)(B) for which a waiver has been granted under subsection (d);

(6) is a regulation effective on or after January 1, 1992, concerning the energy efficiency or energy use of television sets; or

(7) is a regulation (or portion thereof) concerning the water efficiency or water use of low consumption flushometer valve water closets.

(c) General rule of preemption for energy conservation standards when Federal standard becomes effective for product

Except as provided in section 6295(b)(3)(A)(ii) of this title, subparagraphs (B) and (C) of section 6295(j)(3) of this title, and subparagraphs (B) and (C) of section 6295(k)(3) of this title and effective on the effective date of an energy conservation standard established in or prescribed under section 6295 of this title for any covered product, no State regulation concerning the energy efficiency, energy use, or water use of such covered product shall be effective with respect to such product unless the regulation—

(1) is a regulation described in paragraph (2) or (4) of subsection (b), except that a State regulation (or portion thereof) regulating fluorescent lamp ballasts other than those to which paragraph (5) of section 6295(g) of this title is applicable shall be effective only until the effective date of a standard that is prescribed by the Secretary under paragraph (7) of such section and is applicable to such ballasts, except that a State regulation (or portion thereof) regulating fluorescent or incandescent lamps other than those for which section 6295(i) of this title is applicable shall be effective only until the effective date of a standard that is prescribed by the Secretary and is applicable to such lamps;

(7)(A) is a regulation concerning standards for commercial prerinse spray valves adopted by the California Energy Commission before January 1, 2005; or

(B) is an amendment to a regulation described in subparagraph (A) that was developed to align California regulations with changes in American Society for Testing and Materials Standard F2324;

(8)(A) is a regulation concerning standards for pedestrian modules adopted by the California Energy Commission before January 1, 2005; or

(B) is an amendment to a regulation described in subparagraph (A) that was developed to align California regulations to changes

in the Institute for Transportation Engineers standards, entitled “Performance Specification: Pedestrian Traffic Control Signal Indications”; and

(9) is a regulation concerning metal halide lamp fixtures adopted by the California Energy Commission on or before January 1, 2011, except that—

(A) if the Secretary fails to issue a final rule within 180 days after the deadlines for rulemakings in section 6295(hh) of this title, notwithstanding any other provision of this section, preemption shall not apply to a regulation concerning metal halide lamp fixtures adopted by the California Energy Commission—

(i) on or before July 1, 2015, if the Secretary fails to meet the deadline specified in section 6295(hh)(2) of this title; or

(ii) on or before July 1, 2022, if the Secretary fails to meet the deadline specified in section 6295(hh)(3) of this title.

(d) Waiver of Federal preemption

(1)(A) Any State or river basin commission with a State regulation which provides for any energy conservation standard or other requirement with respect to energy use, energy efficiency, or water use for any type (or class) of covered product for which there is a Federal energy conservation standard under section 6295 of this title may file a petition with the Secretary requesting a rule that such State regulation become effective with respect to such covered product.

(B) Subject to paragraphs (2) through (5), the Secretary shall, within the period described in paragraph (2) and after consideration of the petition and the comments of interested persons, prescribe such rule if the Secretary finds (and publishes such finding) that the State or river basin commission has established by a preponderance of the evidence that such State regulation is needed to meet unusual and compelling State or local energy or water interests.

(C) For purposes of this subsection, the term “unusual and compelling State or local energy or water interests” means interests which—

(i) are substantially different in nature or magnitude than those prevailing in the United States generally; and

(ii) are such that the costs, benefits, burdens, and reliability of energy or water savings resulting from the State regulation make such regulation preferable or necessary when measured against the costs, benefits, burdens, and reliability of alternative approaches to energy or water savings or production, including reliance on reasonably predictable market-induced improvements in efficiency of all products subject to the State regulation.

The factors described in clause (ii) shall be evaluated within the context of the State’s energy plan and forecast, and, with respect to a State regulation for which a petition has been submitted to the Secretary which provides for any energy conservation standard or requirement with respect to water use of a covered product, within the context of the water supply and groundwater management plan, water quality program, and comprehensive plan (if any) of the

State or river basin commission for improving, developing, or conserving a waterway affected by water supply development.

(2) The Secretary shall give notice of any petition filed under paragraph (1)(A) and afford interested persons a reasonable opportunity to make written comments, including rebuttal comments, thereon. The Secretary shall, within the 6-month period beginning on the date on which any such petition is filed, deny such petition or prescribe the requested rule, except that the Secretary may publish a notice in the Federal Register extending such period to a date certain but no longer than one year after the date on which the petition was filed. Such notice shall include the reasons for delay. In the case of any denial of a petition under this subsection, the Secretary shall publish in the Federal Register notice of, and the reasons for, such denial.

(3) The Secretary may not prescribe a rule under this subsection if the Secretary finds (and publishes such finding) that interested persons have established, by a preponderance of the evidence, that such State regulation will significantly burden manufacturing, marketing, distribution, sale, or servicing of the covered product on a national basis. In determining whether to make such finding, the Secretary shall evaluate all relevant factors, including—

(A) the extent to which the State regulation will increase manufacturing or distribution costs of manufacturers, distributors, and others;

(B) the extent to which the State regulation will disadvantage smaller manufacturers, distributors, or dealers or lessen competition in the sale of the covered product in the State;

(C) the extent to which the State regulation would cause a burden to manufacturers to redesign and produce the covered product type (or class), taking into consideration the extent to which the regulation would result in a reduction—

(i) in the current models, or in the projected availability of models, that could be shipped on the effective date of the regulation to the State and within the United States; or

(ii) in the current or projected sales volume of the covered product type (or class) in the State and the United States; and

(D) the extent to which the State regulation is likely to contribute significantly to a proliferation of State appliance efficiency requirements and the cumulative impact such requirements would have.

(4) The Secretary may not prescribe a rule under this subsection if the Secretary finds (and publishes such finding) that interested persons have established, by a preponderance of the evidence, that the State regulation is likely to result in the unavailability in the State of any covered product type (or class) of performance characteristics (including reliability), features, sizes, capacities, and volumes that are substantially the same as those generally available in the State at the time of the Secretary’s finding, except that the failure of some classes (or types) to meet this criterion shall not affect the Sec-

retary's determination of whether to prescribe a rule for other classes (or types).

(5) No final rule prescribed by the Secretary under this subsection may—

(A) permit any State regulation to become effective with respect to any covered product manufactured within three years after such rule is published in the Federal Register or within five years if the Secretary finds that such additional time is necessary due to the substantial burdens of retooling, redesign, or distribution needed to comply with the State regulation; or

(B) become effective with respect to a covered product manufactured before the earliest possible effective date specified in section 6295 of this title for the initial amendment of the energy conservation standard established in such section for the covered product; except that such rule may become effective before such date if the Secretary finds (and publishes such finding) that, in addition to the other requirements of this subsection the State has established, by a preponderance of the evidence, that—

(i) there exists within the State an energy emergency condition or, if the State regulation provides for an energy conservation standard or other requirement with respect to the water use of a covered product for which there is a Federal energy conservation standard under subsection (j) or (k) of section 6295 of this title, a water emergency condition, which—

(I) imperils the health, safety, and welfare of its residents because of the inability of the State or utilities within the State to provide adequate quantities of gas or electric energy or, in the case of a water emergency condition, water or wastewater treatment, to its residents at less than prohibitive costs; and

(II) cannot be substantially alleviated by the importation of energy or, in the case of a water emergency condition, by the importation of water, or by the use of interconnection agreements; and

(ii) the State regulation is necessary to alleviate substantially such condition.

(6) In any case in which a State is issued a rule under paragraph (1) with respect to a covered product and subsequently a Federal energy conservation standard concerning such product is amended pursuant to section 6295 of this title, any person subject to such State regulation may file a petition with the Secretary requesting the Secretary to withdraw the rule issued under paragraph (1) with respect to such product in such State. The Secretary shall consider such petition in accordance with the requirements of paragraphs (1), (3), and (4), except that the burden shall be on the petitioner to show by a preponderance of the evidence that the rule received by the State under paragraph (1) should be withdrawn as a result of the amendment to the Federal standard. If the Secretary determines that the petitioner has shown that the rule issued by the State should be so withdrawn, the Secretary shall withdraw it.

(e) Exception for certain State procurement standards

Any State regulation which sets forth procurement standards for a State (or political subdivision thereof) shall not be superseded by the provisions of this part if such standards are more stringent than the corresponding Federal energy conservation standards.

(f) Exception for certain building code requirements

(1) A regulation or other requirement enacted or prescribed before January 8, 1987, that is contained in a State or local building code for new construction concerning the energy efficiency or energy use of a covered product is not superseded by this part until the effective date of the energy conservation standard established in or prescribed under section 6295 of this title for such covered product.

(2) A regulation or other requirement, or revision thereof, enacted or prescribed on or after January 8, 1987, that is contained in a State or local building code for new construction concerning the energy efficiency or energy use of a covered product is not superseded by this part until the effective date of the energy conservation standard established in or prescribed under section 6295 of this title for such covered product if the code does not require that the energy efficiency of such covered product exceed—

(A) the applicable minimum efficiency requirement in a national voluntary consensus standard; or

(B) the minimum energy efficiency level in a regulation or other requirement of the State meeting the requirements of subsection (b)(1) or (b)(5),

whichever is higher.

(3) Effective on the effective date of an energy conservation standard for a covered product established in or prescribed under section 6295 of this title, a regulation or other requirement contained in a State or local building code for new construction concerning the energy efficiency or energy use of such covered product is not superseded by this part if the code complies with all of the following requirements:

(A) The code permits a builder to meet an energy consumption or conservation objective for a building by selecting items whose combined energy efficiencies meet the objective.

(B) The code does not require that the covered product have an energy efficiency exceeding the applicable energy conservation standard established in or prescribed under section 6295 of this title, except that the required efficiency may exceed such standard up to the level required by a regulation of that State for which the Secretary has issued a rule granting a waiver under subsection (d).

(C) The credit to the energy consumption or conservation objective allowed by the code for installing covered products having energy efficiencies exceeding such energy conservation standard established in or prescribed under section 6295 of this title or the efficiency level required in a State regulation referred to in subparagraph (B) is on a one-for-one equivalent energy use or equivalent cost basis.

(D) If the code uses one or more baseline building designs against which all submitted

building designs are to be evaluated and such baseline building designs contain a covered product subject to an energy conservation standard established in or prescribed under section 6295 of this title, the baseline building designs are based on the efficiency level for such covered product which meets but does not exceed such standard or the efficiency level required by a regulation of that State for which the Secretary has issued a rule granting a waiver under subsection (d).

(E) If the code sets forth one or more optional combinations of items which meet the energy consumption or conservation objective, for every combination which includes a covered product the efficiency of which exceeds either standard or level referred to in subparagraph (D), there also shall be at least one combination which includes such covered product the efficiency of which does not exceed such standard or level by more than 5 percent, except that at least one combination shall include such covered product the efficiency of which meets but does not exceed such standard.

(F) The energy consumption or conservation objective is specified in terms of an estimated total consumption of energy (which may be calculated from energy loss- or gain-based codes) utilizing an equivalent amount of energy (which may be specified in units of energy or its equivalent cost).

(G) The estimated energy use of any covered product permitted or required in the code, or used in calculating the objective, is determined using the applicable test procedures prescribed under section 6293 of this title, except that the State may permit the estimated energy use calculation to be adjusted to reflect the conditions of the areas where the code is being applied if such adjustment is based on the use of the applicable test procedures prescribed under section 6293 of this title or other technically accurate documented procedure.

(4)(A) Subject to subparagraph (B), a State or local government is not required to submit a petition to the Secretary in order to enforce or apply its building code or to establish that the code meets the conditions set forth in this subsection.

§ 6303. Enforcement**(a) In general**

Except as provided in subsection (c), any person who knowingly violates any provision of section 6302 of this title shall be subject to a civil penalty of not more than \$100 for each violation. Such penalties shall be assessed by the Commission, except that penalties for violations of section 6302(a)(3) of this title which relate to requirements prescribed by the Secretary, violations of section 6302(a)(4) of this title which relate to requests of the Secretary under section 6296(b)(2) of this title, or violations of paragraph (5), (6), (7), or (8) of section 6302(a) of this title shall be assessed by the Secretary. Each violation of paragraph (1), (2), (5), (6), (7), or (8) of section 6302(a) of this title shall constitute a separate violation with respect to each covered product, and each day of violation of section 6302(a)(3) or (4) of this title shall constitute a separate violation.

(b) “Knowingly” defined

As used in subsection (a), the term “knowingly” means (1) the having of actual knowledge, or (2) the presumed having of knowledge deemed to be possessed by a reasonable man who acts in the circumstances, including knowledge obtainable upon the exercise of due care.

(1) Before issuing an order assessing a civil penalty against any person under this section, the Secretary shall provide to such person notice of the proposed penalty. Such notice shall inform such person of his opportunity to elect in writing within 30 days after the date of receipt of such notice to have the procedures of paragraph (3) (in lieu of those of paragraph (2)) apply with respect to such assessment.

(2)(A) Unless an election is made within 30 calendar days after receipt of notice under paragraph (1) to have paragraph (3) apply with respect to such penalty, the Secretary shall assess the penalty, by order, after a determination of violation has been made on the record after an opportunity for an agency hearing pursuant to section 554 of title 5 before an administrative law judge appointed under section 3105 of such title 5. Such assessment order shall include the

administrative law judge’s findings and the basis for such assessment.

The court shall have jurisdiction to enter a judgment affirming, modifying, or setting aside in whole or in part, the order of the Secretary, or the court may remand the proceeding to the Secretary for such further action as the court may direct.

(B) If the civil penalty has not been paid within 60 calendar days after the assessment order has been made under subparagraph (A), the Secretary shall institute an action in the appropriate district court of the United States for an order affirming the assessment of the civil penalty. The court shall have authority to review de novo the law and the facts involved, and shall have jurisdiction to enter a judgment enforcing, modifying, and enforcing as so modified, or setting aside in whole or in part, such assessment.

(C) Any election to have this paragraph apply may not be revoked except with the consent of the Secretary.

In such action, the validity and appropriateness of such final assessment order or judgment shall not be subject to review.

However, the Secretary or the general counsel shall consult with the Attorney General concerning such litigation, and the Attorney General shall provide, on request, such assistance in the conduct of such litigation as may be appropriate.

(I) IN GENERAL.—Except as provided in subclause (II), not later than 18 months after the date of publication of the amendment to the ASHRAE/IES Standard 90.1 for a product described in clause (i), the Sec-

retary shall establish an amended uniform national standard for the product at the minimum level specified in the amended ASHRAE/IES Standard 90.1.

(II) MORE STRINGENT STANDARD.—Subclause (I) shall not apply if the Secretary determines, by rule published in the Federal Register, and supported by clear and convincing evidence, that adoption of a uniform national standard more stringent than the amended ASHRAE/IES Standard 90.1 for the product would result in significant additional conservation of energy and is technologically feasible and economically justified.

(B) RULE.—

(i) IN GENERAL.—If the Secretary makes a determination described in subparagraph (A)(ii)(II) for a product described in subparagraph (A)(i), not later than 30 months after the date of publication of the amendment to the ASHRAE/IES Standard 90.1 for the product, the Secretary shall issue the rule establishing the amended standard.

(ii) FACTORS.—In determining whether a standard is economically justified for the purposes of subparagraph (A)(ii)(II), the Secretary shall, after receiving views and comments furnished with respect to the proposed standard, determine whether the benefits of the standard exceed the burden of the proposed standard by, to the maximum extent practicable, considering—

(I) the economic impact of the standard on the manufacturers and on the consumers of the products subject to the standard;

(II) the savings in operating costs throughout the estimated average life of the product in the type (or class) compared to any increase in the price of, or in the initial charges for, or maintenance expenses of, the products that are likely to result from the imposition of the standard;

(III) the total projected quantity of energy savings likely to result directly from the imposition of the standard;

(IV) any lessening of the utility or the performance of the products likely to result from the imposition of the standard;

(V) the impact of any lessening of competition, as determined in writing by the Attorney General, that is likely to result from the imposition of the standard;

(VI) the need for national energy conservation; and

(VII) other factors the Secretary considers relevant.

(iii) ADMINISTRATION.—

(I) ENERGY USE AND EFFICIENCY.—The Secretary may not prescribe any amended standard under this paragraph that increases the maximum allowable energy use, or decreases the minimum required energy efficiency, of a covered product.

(II) UNAVAILABILITY.—

(aa) IN GENERAL.—The Secretary may not prescribe an amended standard under this subparagraph if the Secretary finds (and publishes the finding) that inter-

ested persons have established by a preponderance of the evidence that a standard is likely to result in the unavailability in the United States in any product type (or class) of performance characteristics (including reliability, features, sizes, capacities, and volumes) that are substantially the same as those generally available in the United States at the time of the finding of the Secretary.

(bb) OTHER TYPES OR CLASSES.—The failure of some types (or classes) to meet the criterion established under this subclause shall not affect the determination of the Secretary on whether to prescribe a standard for the other types or classes.

(C) AMENDMENT OF STANDARD.—

(i) IN GENERAL.—Every 6 years, the Secretary shall conduct an evaluation of each class of covered equipment and shall publish—

(I) a notice of the determination of the Secretary that standards for the product do not need to be amended, based on the criteria established under subparagraph (A); or

(II) a notice of proposed rulemaking including new proposed standards based on the criteria and procedures established under subparagraph (B).

(ii) NOTICE.—If the Secretary publishes a notice under clause (i), the Secretary shall—

§ 6314. Test procedures

(a) Prescription by Secretary; requirements

(1) TEST PROCEDURES.—

(A)¹ AMENDMENT.—At least once every 7 years, the Secretary shall conduct an evaluation of each class of covered equipment and—

(i) if the Secretary determines that amended test procedures would more accurately or fully comply with the require-

ments of paragraphs (2) and (3), shall prescribe test procedures for the class in accordance with this section; or

(ii) shall publish notice in the Federal Register of any determination not to amend a test procedure.

(2) Test procedures prescribed in accordance with this section shall be reasonably designed to produce test results which reflect energy efficiency, energy use, and estimated operating costs of a type of industrial equipment (or class thereof) during a representative average use cycle (as determined by the Secretary), and shall not be unduly burdensome to conduct.

(3) If the test procedure is a procedure for determining estimated annual operating costs, such procedure shall provide that such costs shall be calculated from measurements of energy use in a representative average-use cycle (as determined by the Secretary), and from representative average unit costs of the energy needed to operate such equipment during such cycle. The Secretary shall provide information to manufacturers of covered equipment respecting representative average unit costs of energy.

(4)(A) With respect to small commercial package air conditioning and heating equipment, large commercial package air conditioning and heating equipment, very large commercial package air conditioning and heating equipment, packaged terminal air conditioners, packaged terminal heat pumps, warm-air furnaces, packaged boilers, storage water heaters, instantaneous water heaters, and unfired hot water storage tanks to which standards are applicable under section 6313 of this title, the test procedures shall be those generally accepted industry testing procedures or rating procedures developed or recognized by the Air-Conditioning, Heating, and Refrigeration Institute or by the American Society of Heating, Refrigerating and Air Conditioning Engineers, as referenced in ASHRAE/IES Standard 90.1 and in effect on June 30, 1992.

(B) If such an industry test procedure or rating procedure for small commercial package air conditioning and heating equipment, large commercial package air conditioning and heating equipment, very large commercial package air conditioning and heating equipment, packaged terminal air conditioners, packaged terminal heat pumps, warm-air furnaces, packaged boilers, storage water heaters, instantaneous water heaters, or unfired hot water storage tanks is amended, the Secretary shall amend the test procedure for the product as necessary to be consistent with the amended industry test procedure or rating procedure unless the Secretary determines, by rule, published in the Federal Register and supported by clear and convincing evidence, that to do so would not meet the requirements for test procedures described in paragraphs (2) and (3) of this subsection.

(C) If the Secretary prescribes a rule containing such a determination, the rule may establish an amended test procedure for such product that meets the requirements of paragraphs (2) and (3) of this subsection. In establishing any amended test procedure under this subparagraph or subparagraph (B), the Secretary shall follow the procedures and meet the requirements specified in section 6293(e) of this title.

¹ So in original. No subpar. (B) has been enacted.

(5)(A) With respect to electric motors to which standards are applicable under section 6313 of this title, the test procedures shall be the test procedures specified in NEMA Standards Publication MG1-1987 and IEEE Standard 112 Test Method B for motor efficiency, as in effect on October 24, 1992.

(B) If the test procedure requirements of NEMA Standards Publication MG-1987 and IEEE Standard 112 Test Method B for motor efficiency are amended, the Secretary shall amend the test procedures established by subparagraph (A) to conform to such amended test procedure requirements unless the Secretary determines, by rule, published in the Federal Register and supported by clear and convincing evidence, that to do so would not meet the requirements for test procedures described in paragraphs (2) and (3) of this subsection.

(C) If the Secretary prescribes a rule containing such a determination, the rule may establish amended test procedures for such electric motors that meets the requirements of paragraphs (2) and (3) of this subsection. In establishing any amended test procedure under this subparagraph or subparagraph (B), the Secretary shall follow the procedures and meet the requirements specified in section 6293(e) of this title.

(6)(A)(i) In the case of commercial refrigerators, freezers, and refrigerator-freezers, the test procedures shall be—

(I) the test procedures determined by the Secretary to be generally accepted industry testing procedures; or

(II) rating procedures developed or recognized by the ASHRAE or by the American National Standards Institute.

(ii) In the case of self-contained refrigerators, freezers, and refrigerator-freezers to which standards are applicable under paragraphs (2) and (3) of section 6313(c) of this title, the initial test procedures shall be the ASHRAE 117 test procedure that is in effect on January 1, 2005.

(B)(i)² In the case of commercial refrigerators, freezers, and refrigerator-freezers with doors covered by the standards adopted in February 2002, by the California Energy Commission, the rating temperatures shall be the integrated average temperature of 38 degrees F (\pm 2 degrees F) for refrigerator compartments and 0 degrees F (\pm 2 degrees F) for freezer compartments.

(C) The Secretary shall issue a rule in accordance with paragraphs (2) and (3) to establish the appropriate rating temperatures for the other products for which standards will be established under section 6313(c)(4)³ of this title.

(D) In establishing the appropriate test temperatures under this subparagraph, the Secretary shall follow the procedures and meet the requirements under section 6293(e) of this title.

(E)(i) Not later than 180 days after the publication of the new ASHRAE 117 test procedure, if the ASHRAE 117 test procedure for commercial refrigerators, freezers, and refrigerator-freezers is amended, the Secretary shall, by rule, amend the test procedure for the product as necessary to ensure that the test procedure is consistent

with the amended ASHRAE 117 test procedure, unless the Secretary makes a determination, by rule, and supported by clear and convincing evidence, that to do so would not meet the requirements for test procedures under paragraphs (2) and (3).

(ii) If the Secretary determines that 180 days is an insufficient period during which to review and adopt the amended test procedure or rating procedure under clause (i), the Secretary shall publish a notice in the Federal Register stating the intent of the Secretary to wait not longer than 1 additional year before putting into effect an amended test procedure or rating procedure.

(F)(i) If a test procedure other than the ASHRAE 117 test procedure is approved by the American National Standards Institute, the Secretary shall, by rule—

(I) review the relative strengths and weaknesses of the new test procedure relative to the ASHRAE 117 test procedure; and

(II) based on that review, adopt one new test procedure for use in the standards program.

(ii) If a new test procedure is adopted under clause (i)—

(I) section 6293(e) of this title shall apply; and

(II) subparagraph (B) shall apply to the adopted test procedure.

(7)(A) In the case of automatic commercial ice makers, the test procedures shall be the test procedures specified in Air-Conditioning, Heating, and Refrigeration Institute Standard 810-2003, as in effect on January 1, 2005.

(B)(i) If Air-Conditioning, Heating, and Refrigeration Institute Standard 810-2003 is amended, the Secretary shall amend the test procedures established in subparagraph (A) as necessary to be consistent with the amended Air-Conditioning, Heating, and Refrigeration Institute Standard, unless the Secretary determines, by rule, published in the Federal Register and supported by clear and convincing evidence, that to do so would not meet the requirements for test procedures under paragraphs (2) and (3).

(ii) If the Secretary issues a rule under clause (i) containing a determination described in clause (ii), the rule may establish an amended test procedure for the product that meets the requirements of paragraphs (2) and (3).

(C) The Secretary shall comply with section 6293(e) of this title in establishing any amended test procedure under this paragraph.

(8) With respect to commercial clothes washers, the test procedures shall be the same as the test procedures established by the Secretary for residential clothes washers under section 6295(g) of this title.

(9) WALK-IN COOLERS AND WALK-IN FREEZERS.—

(A) IN GENERAL.—For the purpose of test procedures for walk-in coolers and walk-in freezers:

(i) The R value shall be the 1/K factor multiplied by the thickness of the panel.

(ii) The K factor shall be based on ASTM test procedure C518-2004.

(iii) For calculating the R value for freezers, the K factor of the foam at 20°F (average foam temperature) shall be used.

(iv) For calculating the R value for coolers, the K factor of the foam at 55°F (average foam temperature) shall be used.

² So in original. No cl. (ii) has been enacted.

³ See References in Text note below.

(B) TEST PROCEDURE.—

(i) **IN GENERAL.**—Not later than January 1, 2010, the Secretary shall establish a test procedure to measure the energy-use of walk-in coolers and walk-in freezers.

(ii) **COMPUTER MODELING.**—The test procedure may be based on computer modeling, if the computer model or models have been verified using the results of laboratory tests on a significant sample of walk-in coolers and walk-in freezers.

(b) Publication in Federal Register; presentment of oral and written data, views, and arguments by interested persons

Before prescribing any final test procedures under this section, the Secretary shall—

(1) publish proposed test procedures in the Federal Register; and

(2) afford interested persons an opportunity (of not less than 45 days' duration) to present oral and written data, views, and arguments on the proposed test procedures.

(c) Reevaluations

(1) The Secretary shall, not later than 3 years after the date of prescribing a test procedure under this section (and from time to time thereafter), conduct a reevaluation of such procedure and, on the basis of such reevaluation, shall determine if such test procedure should be amended. In conducting such reevaluation, the Secretary shall take into account such information as he deems relevant, including technological developments relating to the energy efficiency of the type (or class) of covered equipment involved.

(2) If the Secretary determines under paragraph (1) that a test procedure should be amended, he shall promptly publish in the Federal Register proposed test procedures incorporating such amendments and afford interested persons an opportunity to present oral and written data, views, and arguments. Such comment period shall not be less than 45 days' duration.

(d) Prohibited representations

(1) Effective 180 days (or, in the case of small commercial package air conditioning and heating equipment, large commercial package air conditioning and heating equipment, very large commercial package air conditioning and heating equipment, commercial refrigerators, freezers, and refrigerator-freezers, automatic commercial ice makers, commercial clothes washers, packaged terminal air conditioners, packaged terminal heat pumps, warm-air furnaces, packaged boilers, storage water heaters, instantaneous water heaters, and unfired hot water storage tanks, 360 days) after a test procedure rule applicable to any covered equipment is prescribed under this section, no manufacturer, distributor, retailer, or private labeler may make any representation—

(A) in writing (including any representation on a label), or

(B) in any broadcast advertisement,

respecting the energy consumption of such equipment or cost of energy consumed by such equipment, unless such equipment has been tested in accordance with such test procedure and such representation fairly discloses the results of such testing.

(2) On the petition of any manufacturer, distributor, retailer, or private labeler, filed not later than the 60th day before the expiration of the period involved, the 180-day period referred to in paragraph (1) may be extended by the Secretary with respect to the petitioner (but in no event for more than an additional 180 days) if he finds that the requirements of paragraph (1) would impose on such petitioner an undue hardship (as determined by the Secretary).

(e) Assistance by National Institute of Standards and Technology

The Secretary may direct the National Institute of Standards and Technology to provide such assistance as the Secretary deems necessary to carry out his responsibilities under this part, including the development of test procedures.

Such rules shall provide that the labeling of any electric motor manufactured after the 12-month period beginning on the date the Secretary prescribes such labeling rules, shall—

(1) indicate the energy efficiency of the motor on the permanent nameplate attached to such motor;

(2) prominently display the energy efficiency of the motor in equipment catalogs and other material used to market the equipment; and

(3) include such other markings as the Secretary determines necessary solely to facilitate enforcement of the standards established for electric motors under section 6313 of this title.

(e) Labeling rules for air conditioning and heating equipment

Subject to subsection (h), not later than 12 months after the Secretary establishes test procedures for small commercial package air conditioning and heating equipment, large commercial package air conditioning and heating equipment, very large commercial package air conditioning and heating equipment, commercial refrigerators, freezers, and refrigerator-freezers, automatic commercial ice makers, commercial clothes washers, walk-in coolers and walk-in freezers, packaged terminal air conditioners, packaged terminal heat pumps, warm-air furnaces, packaged boilers, storage water heaters, instantaneous water heaters, and unfired hot water storage tanks under section 6314 of this title, the Secretary shall prescribe labeling rules under this section for such equipment. Such rules shall provide that the labeling of any small commercial package air conditioning and heating equipment, large commercial package air conditioning and heating equipment, very large commercial package air conditioning and heating equipment, commercial refrigerators, freezers, and refrigerator-freezers, automatic commercial ice makers, commercial clothes washers, walk-in coolers and walk-in freezers, packaged terminal air conditioner, packaged terminal heat pump, warm-air furnace, packaged boiler, storage water heater, instantaneous water heater, and unfired hot water storage tank manufactured after the 12-month period beginning on the date the Secretary prescribes such rules shall—

(f) Consultation with Federal Trade Commission

Before prescribing any labeling rules for a type (or class) of covered equipment, the Secretary shall consult with, and obtain the written views of, the Federal Trade Commission with respect to such rules. The Federal Trade Commission shall promptly provide such written views upon the request of the Secretary.

(g) Publication in Federal Register; presentment of oral and written data, views, and arguments of interested persons

(1) Before prescribing any labeling rules under this section, the Secretary shall—

(A) publish proposed labeling rules in the Federal Register, and

(B) afford interested persons an opportunity (of not less than 45 days' duration) to present oral and written data, views, and arguments on the proposed rules.

(2) A labeling rule prescribed under this section shall take effect not later than 3 months after the date of prescription of such rule, except that such rules may take effect not later than 6 months after such date of prescription if the Secretary determines that such extension is necessary to allow persons subject to such rules adequate time to come into compliance with such rules.

(h) Restrictions on Secretary's authority to promulgate rules

The Secretary shall not promulgate labeling rules for any class of industrial equipment unless he has determined that—

(1) labeling in accordance with this section is technologically and economically feasible with respect to such class;

(2) significant energy savings will likely result from such labeling; and

(3) labeling in accordance with this section is likely to assist consumers in making purchasing decisions.

(i) Tests for accuracy of information contained on labels

When requested by the Secretary, any manufacturer of industrial equipment to which a rule under this section applies shall supply at the manufacturer's expense a reasonable number of articles of such covered equipment to any laboratory or testing facility designated by the Secretary, or permit representatives of such laboratory or facility to test such equipment at the site where it is located, for purposes of ascertaining whether the information set out on the label, or otherwise required to be disclosed, as required under this section, is accurate. Any reasonable charge levied by the laboratory or facility for such testing shall be borne by the United States, if and to the extent provided in appropriations Acts.

(j) Products completed prior to effective date of rules

A labeling rule under this section shall not apply to any article of covered equipment the manufacture of which was completed before the effective date of such rule.

(k) Labeling authority under Federal Trade Commission Act

Until such time as labeling rules under this section take effect with respect to a type (or

class) of covered equipment, this section shall not affect any authority of the Commission under the Federal Trade Commission Act [15 U.S.C. 41 et seq.] to require labeling with respect to energy consumption of such type (or class) of covered equipment.

PART B—STATE ENERGY CONSERVATION PLANS

Editorial Notes

CODIFICATION

This part, originally designated part C and subsequently redesignated part D by Pub. L. 95-619, title IV, §441(a), Nov. 9, 1978, 92 Stat. 3267, was changed to part B for purposes of codification.

§ 6321. Findings; purpose; definitions

(a) Findings

Congress finds that—

(1) the development and implementation by States of laws, policies, programs, and procedures to conserve and to improve efficiency in the use of energy will have an immediate and substantial effect in reducing the rate of

growth of energy demand and in minimizing the adverse social, economic, political, and environmental impacts of increasing energy consumption;

(2) the development and implementation of energy conservation programs by States will most efficiently and effectively minimize any adverse economic or employment impacts of changing patterns of energy use and meet local economic, climatic, geographic, and other unique conditions and requirements of each State; and

(3) the Federal Government has a responsibility to foster and promote comprehensive energy conservation programs and practices by establishing guidelines for such programs and providing overall coordination, technical assistance, and financial support for specific State initiatives in energy conservation.

(b) Purpose

It is the purpose of this part to promote the conservation of energy and reduce the rate of growth of energy demand by authorizing the Secretary to establish procedures and guidelines for the development and implementation of specific State energy conservation programs and to provide Federal financial and technical assistance to States in support of such programs.

(c) Definitions

In this part:

(1) Appliance

The term “appliance” means any article, such as a room air-conditioner, refrigerator-freezer, or dishwasher, which the Secretary classifies as an appliance for purposes of this part.

(2) Building

The term “building” means any structure which includes provision for a heating or cooling system, or both, or for a hot water system.

(3) Energy audit

The term “energy audit” means any process which identifies and specifies the energy and cost savings which are likely to be realized through the purchase and installation of particular energy conservation measures or renewable-resource energy measures and which—

(A) is carried out in accordance with rules of the Secretary; and

(B) imposes—

(i) no direct costs, with respect to individuals who are occupants of dwelling units in any State having a supplemental State energy conservation plan; and

(ii) only reasonable costs, as determined by the Secretary, with respect to any person not described in clause (i).

Rules referred to in subparagraph (A) may include minimum qualifications for, and provisions with respect to conflicts of interest of, persons carrying out such energy audits.

(4) Energy conservation measure

The term “energy conservation measure” means a measure which modifies any building, building system, energy consuming device associated with the building, or industrial plant,

the construction of which has been completed prior to May 1, 1989, if such measure has been determined by means of an energy audit or by the Secretary, by rule under section 6325(e)(1) of this title, to be likely to maintain or improve the efficiency of energy use and to reduce energy costs (as calculated on the basis of energy costs reasonably projected over time, as determined by the Secretary) in an amount sufficient to enable a person to recover the total cost of purchasing and installing such measure (without regard to any tax benefit or Federal financial assistance applicable thereto) within the period of—

- (A) the useful life of the modification involved, as determined by the Secretary, or
- (B) 15 years after the purchase and installation of such measure,

whichever is less. Such term does not include (i) the purchase or installation of any appliance, (ii) any conversion from one fuel or source of energy to another which is of a type which the Secretary, by rule, determines is ineligible on the basis that such type of conversion is inconsistent with national policy with respect to energy conservation or reduction of imports of fuels, or (iii) any measure, or type of measure, which the Secretary determines does not have as its primary purpose an improvement in efficiency of energy use.

(5) Industrial plant

The term “industrial plant” means any fixed equipment or facility which is used in connection with, or as part of, any process or system for industrial production or output.

(6) Public building

The term “public building” means any building which is open to the public during normal business hours.

(7) Renewable-resource energy measure

The term “renewable-resource energy measure” means a measure which modifies any building or industrial plant, the construction of which has been completed prior to August 14, 1976, if such measure has been determined by means of an energy audit or by the Secretary, by rule under section 6325(e)(1) of this title, to—

- (A) involve changing, in whole or in part, the fuel or source of the energy used to meet the requirements of such building or plant from a depletable source of energy to a non-depletable source of energy; and
- (B) be likely to reduce energy costs (as calculated on the basis of energy costs reasonably projected over time, as determined by the Secretary) in an amount sufficient to enable a person to recover the total cost of purchasing and installing such measure (without regard to any tax benefit or Federal financial assistance applicable thereto) within the period of—
 - (i) the useful life of the modification involved, as determined by the Secretary, or
 - (ii) 25 years after the purchase and installation of such measure,

whichever is less.

Such term does not include the purchase or installation of any appliance.

(8) Transportation controls

The term “transportation controls” means any plan, procedure, method, or arrangement, or any system of incentives, disincentives, restrictions, and requirements, which is designed to reduce the amount of energy consumed in transportation, except that the term does not include rationing of gasoline or diesel fuel.

(1) The Secretary may grant Federal financial assistance pursuant to this section for the purpose of assisting such State in the development of any such energy conservation plan or in the implementation or modification of a State energy conservation plan or part thereof which has been submitted to and approved by the Secretary pursuant to this part.

(2) In determining whether to approve a State energy conservation plan submitted under section 6322(b) or (e) of this title, the Secretary—

(A) shall take into account the impact of local economic, climatic, geographic, and other unique conditions and requirements of such State on the opportunity to conserve and to improve efficiency in the use of energy in such State; and

(B) may extend the period of time during which a State energy conservation feasibility report or State energy conservation plan may be submitted if the Secretary determines that participation by the State submitting such report or plan is likely to result in significant progress toward achieving the purposes of this chapter.

No such plan shall be disapproved without notice and an opportunity to present views.

(3) In determining the amount of Federal financial assistance to be provided to any State under this subsection, the Secretary shall consider—

(A) the contribution to energy conservation which can reasonably be expected,

(e) State buildings energy efficiency improvements incentive fund

If the Secretary determines that a State has demonstrated a commitment to improving the energy efficiency of buildings within such State, the Secretary may, beginning in fiscal year 1994, provide up to \$1,000,000 to such State for deposit into a revolving fund established by such State for the purpose of financing energy efficiency improvements in State and local government buildings. In making such determination the Secretary shall consider whether—

(1) such State, or a majority of the units of local government with jurisdiction over building energy codes within such State, has adopted codes for energy efficiency in new buildings that are at least as stringent as American Society of Heating, Refrigerating, and Air-Conditioning Engineers Standard 90.1-1989 (with respect to commercial buildings) and Council of

American Building Officials Model Energy Code, 1992 (with respect to residential buildings);

Executive Documents

EX. ORD. NO. 13624. ACCELERATING INVESTMENT IN INDUSTRIAL ENERGY EFFICIENCY

Ex. Ord. No. 13624, Aug. 30, 2012, 77 Stat. 54779, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to promote American manufacturing by helping to facilitate investments in energy efficiency at industrial facilities, it is hereby ordered as follows:

SECTION 1. *Policy.* The industrial sector accounts for over 30 percent of all energy consumed in the United States, and, for many manufacturers, energy costs affect overall competitiveness. While our manufacturing facilities have made progress in becoming more energy efficient over the past several decades, there is an opportunity to accelerate and expand these efforts with investments to reduce energy use through more efficient manufacturing processes and facilities and the expanded use of combined heat and power (CHP). Instead of burning fuel in an on-site boiler to produce thermal energy and also purchasing electricity from the grid, a manufacturing facility can use a CHP system to provide both types of energy in one energy-efficient step. Accelerating these investments in our Nation’s factories can improve the competitiveness of United States manufacturing, lower energy costs, free up future capital for businesses to invest, reduce air pollution, and create jobs.

Despite these benefits, independent studies have pointed to under-investment in industrial energy efficiency and CHP as a result of numerous barriers. The Federal Government has limited but important authorities to overcome these barriers, and our efforts to support investment in industrial energy efficiency and CHP should involve coordinated engagement with a broad set of stakeholders, including States, manufacturers, utilities, and others. By working with all stakeholders to address these barriers, we have an opportunity to save industrial users tens of billions of dollars in energy costs over the next decade.

There is no one-size-fits-all solution for our manufacturers, so it is imperative that we support these investments through a variety of approaches, including encouraging private sector investment by setting goals and highlighting the benefits of investment, improving coordination at the Federal level, partnering with and supporting States, and identifying investment models beneficial to the multiple stakeholders involved.

To formalize and support the close interagency coordination that is required to accelerate greater investment in industrial energy efficiency and CHP, this order directs certain executive departments and agencies to convene national and regional stakeholders to identify, develop, and encourage the adoption of investment models and State best practice policies for industrial energy efficiency and CHP; provide technical assistance to States and manufacturers to encourage investment in industrial energy efficiency and CHP; provide public information on the benefits of investment in industrial energy efficiency and CHP; and use existing Federal authorities, programs, and policies to support investment in industrial energy efficiency and CHP.

SEC. 2. *Encouraging Investment in Industrial Efficiency.* The Departments of Energy, Commerce, and Agriculture, and the Environmental Protection Agency, in coordination with the National Economic Council, the Domestic Policy Council, the Council on Environmental Quality, and the Office of Science and Technology Policy, shall coordinate policies to encourage investment in industrial efficiency in order to reduce costs for industrial users, improve U.S. competitiveness, create jobs, and reduce harmful air pollution. In doing so, they shall engage States, industrial companies, utility companies, and other stakeholders to accelerate this investment. Specifically, these agencies shall, as appropriate and consistent with applicable law:

(a) coordinate and strongly encourage efforts to achieve a national goal of deploying 40 gigawatts of new, cost-effective industrial CHP in the United States by the end of 2020;

(b) convene stakeholders, through a series of public workshops, to develop and encourage the use of best

practice State policies and investment models that address the multiple barriers to investment in industrial energy efficiency and CHP;

(c) utilize their respective relevant authorities and resources to encourage investment in industrial energy efficiency and CHP, such as by:

(i) providing assistance to States on accounting for the potential emission reduction benefits of CHP and other energy efficiency policies when developing State Implementation Plans (SIPs) to achieve national ambient air quality standards;

(ii) providing incentives for the deployment of CHP and other types of clean energy, such as set-asides under emissions allowance trading program state implementation plans, grants, and loans;

(iii) employing output-based approaches as compliance options in power and industrial sector regulations, as appropriate, to recognize the emissions benefits of highly efficient energy generation technologies like CHP; and

(iv) seeking to expand participation in and create additional tools to support the Better Buildings, Better Plants program at the Department of Energy, which is working with companies to help them achieve a goal of reducing energy intensity by 25 percent over 10 years, as well as utilizing existing partnership programs to support energy efficiency and CHP;

(d) support and encourage efforts to accelerate investment in industrial energy efficiency and CHP by:

(i) providing general guidance, technical analysis and information, and financial analysis on the value of investment in industrial energy efficiency and CHP to States, utilities, and owners and operators of industrial facilities;

(ii) improving the usefulness of Federal data collection and analysis; and

(iii) assisting States in developing and implementing State-specific best practice policies that can accelerate investment in industrial energy efficiency and CHP.

In implementing this section, these agencies should consult with the Federal Energy Regulatory Commission, as appropriate.

SEC. 3. *General Provisions.* (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department, agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

BARACK OBAMA.

(a) Recoverable waste energy inventory program

(1) In general

The Administrator, in cooperation with the Secretary and State energy offices, shall establish a recoverable waste energy inventory program.

(2) Survey

The program shall include—

(A) an ongoing survey of all major industrial and large commercial combustion sources in the United States (as defined by the Administrator) and the sites at which the sources are located; and

(B) a review of each source for the quantity and quality of waste energy produced at the source.

(b) Criteria

(1) In general

Not later than 270 days after December 19, 2007, the Administrator shall publish a rule for establishing criteria for including sites in the Registry.

(2) Inclusions

(C) procedures for contesting the listing of any source or site on the Registry by any State, utility, or other interested person.

(c) Technical support

On the request of the owner or operator of a source or site included in the Registry, the Secretary shall—

(1) provide to owners or operators of combustion sources technical support; and

(2) offer partial funding (in an amount equal to not more than one-half of total costs) for feasibility studies to confirm whether or not investment in recovery of waste energy or combined heat and power at a source would offer a payback period of 5 years or less.

(d) Registry

(1) Establishment

(A) In general

Not later than 1 year after December 19, 2007, the Administrator shall establish a Registry of Recoverable Waste Energy Sources, and sites on which the sources are located, that meet the criteria established under subsection (b).

The information shall be made available to—

(I) the applicable State energy office; and

(II) any utility requested to support recovery of waste energy from the source pursuant to the incentives provided under section 6344 of this title.

(iii) State totals

Information concerning the site shall be included in the total quantity of recoverable waste energy for a State unless there are fewer than 3 sites in the State.

(4) Removal of projects from registry

(A) In general

(ii) the petition has not been acted on or denied.

(5) Ineligibility of certain sources

The Administrator shall not list any source constructed after December 19, 2007, on the Registry if the Administrator determines that the source—

(A) was developed for the primary purpose of making sales of excess electric power under the regulatory provisions of this part; or

(B) does not capture at least 60 percent of the total energy value of the fuels used (on a higher-heating-value basis) in the form of useful thermal energy, electricity, mechanical energy, chemical output, or any combination thereof.

(e) Self-certification

(1) In general

Subject to any procedures that are established by the Administrator, an owner, operator, or third-party developer of a recoverable waste energy project that qualifies under standards established by the Administrator may self-certify the sites or sources of the owner, operator, or developer to the Administrator for inclusion in the Registry.

(2) Review and approval

To prevent a fraudulent listing, a site or source shall be included on the Registry only if the Administrator reviews and approves the self-certification.

(f) New facilities

As a new energy-consuming industrial facility is developed after December 19, 2007, to the extent the facility may constitute a site with recoverable waste energy that may qualify for inclusion on the Registry, the Administrator may elect to include the facility on the Registry, at the request of the owner, operator, or developer of the facility, on a conditional basis with the site to be removed from the Registry if the development ceases or the site fails to qualify for listing under this part.

(g) Optimum means of recovery

For each site listed in the Registry, at the request of the owner or operator of the site, the Administrator shall offer, in cooperation with Clean Energy Application Centers operated by the Secretary of Energy, suggestions for optimum means of recovery of value from waste energy stream in the form of electricity, useful thermal energy, or other energy-related products.

§ 6344. Additional incentives for recovery, use, and prevention of industrial waste energy

(a) Consideration of standard

(1) In general

Not later than 180 days after the receipt by a State regulatory authority (with respect to each electric utility for which the authority has ratemaking authority), or nonregulated electric utility, of a request from a project sponsor or owner or operator, the State regulatory authority or nonregulated electric utility shall—

(A) provide public notice and conduct a hearing respecting the standard established by subsection (b); and

(B) on the basis of the hearing, consider and make a determination whether or not it is appropriate to implement the standard to carry out the purposes of this part.

(2) Relationship to State law

For purposes of any determination under paragraph (1) and any review of the determination in any court, the purposes of this section supplement otherwise applicable State law.

(3) Nonadoption of standard

Nothing in this part prohibits any State regulatory authority or nonregulated electric utility from making any determination that it is not appropriate to adopt any standard described in paragraph (1), pursuant to authority under otherwise applicable State law.

(b) Standard for sales of excess power

For purposes of this section, the standard referred to in subsection (a) shall provide that an owner or operator of a waste energy recovery project identified on the Registry that generates net excess power shall be eligible to benefit from at least 1 of the options described in subsection (c) for disposal of the net excess power in accordance with the rate conditions and limitations described in subsection (d).

(c) Options

The options referred to in subsection (b) are as follows:

(1) Sale of net excess power to utility

The electric utility shall purchase the net excess power from the owner or operator of the eligible waste energy recovery project during the operation of the project under a contract entered into for that purpose.

(2) Transport by utility for direct sale to third party

The electric utility shall transmit the net excess power on behalf of the project owner or operator to up to 3 separate locations on the system of the utility for direct sale by the owner or operator to third parties at those locations.

(3) Transport over private transmission lines

The State and the electric utility shall permit, and shall waive or modify such laws as would otherwise prohibit, the construction and operation of private electric wires constructed, owned, and operated by the project owner or operator, to transport the power to up to 3 purchasers within a 3-mile radius of the project, allowing the wires to use or cross public rights-of-way, without subjecting the project to regulation as a public utility, and according the wires the same treatment for safety, zoning, land use, and other legal privileges as apply or would apply to the wires of the utility, except that—

(A) there shall be no grant of any power of eminent domain to take or cross private property for the wires; and

(B) the wires shall be physically segregated and not interconnected with any portion of the system of the utility, except on the customer side of the revenue meter of the utility and in a manner that precludes any possible export of the electricity onto the utility system, or disruption of the system.

(4) Agreed on alternatives

The utility and the owner or operator of the project may reach agreement on any alternate arrangement and payments or rates associated with the arrangement that is mutually satisfactory and in accord with State law.

(d) Rate conditions and criteria

(1) Definitions

In this subsection:

(A) Per unit distribution costs

The term “per unit distribution costs” means (in kilowatt hours) the quotient obtained by dividing—

(i) the depreciated book-value distribution system costs of a utility; by

(ii) the volume of utility electricity sales or transmission during the previous year at the distribution level.

(B) Per unit distribution margin

The term “per unit distribution margin” means—

(i) in the case of a State-regulated electric utility, a per-unit gross pretax profit equal to the product obtained by multiplying—

(I) the State-approved percentage rate of return for the utility for distribution system assets; by

(II) the per unit distribution costs; and

(ii) in the case of a nonregulated utility, a per unit contribution to net revenues determined multiplying—

(I) the percentage (but not less than 10 percent) obtained by dividing—

(aa) the amount of any net revenue payment or contribution to the owners or subscribers of the nonregulated utility during the prior year; by

(bb) the gross revenues of the utility during the prior year to obtain a percentage; by

(II) the per unit distribution costs.

(C) Per unit transmission costs

The term “per unit transmission costs” means the total cost of those transmission services purchased or provided by a utility on a per-kilowatt-hour basis as included in the retail rate of the utility.

(2) Options

The options described in paragraphs (1) and (2) in subsection (c) shall be offered under purchase and transport rate conditions that reflect the rate components defined under paragraph (1) as applicable under the circumstances described in paragraph (3).

(3) Applicable rates

(A) Rates applicable to sale of net excess power

(i) In general

Sales made by a project owner or operator of a facility under the option described in subsection (c)(1) shall be paid for on a per kilowatt hour basis that shall equal the full undiscounted retail rate paid to the utility for power purchased by the facility minus per unit distribution costs, that applies to the type of utility purchasing the power.

(ii) Voltages exceeding 25 kilovolts

If the net excess power is made available for purchase at voltages that must be transformed to or from voltages exceeding 25 kilovolts to be available for resale by the utility, the purchase price shall further be reduced by per unit transmission costs.

(B) Rates applicable to transport by utility for direct sale to third parties

(i) In general

Transportation by utilities of power on behalf of the owner or operator of a project under the option described in subsection (c)(2) shall incur a transportation rate that shall equal the per unit distribution costs and per unit distribution margin, that applies to the type of utility transporting the power.

(ii) Voltages exceeding 25 kilovolts

If the net excess power is made available for transportation at voltages that must be transformed to or from voltages exceeding 25 kilovolts to be transported to the designated third-party purchasers, the transport rate shall further be increased by per unit transmission costs.

(iii) States with competitive retail markets for electricity

In a State with a competitive retail market for electricity, the applicable transportation rate for similar transportation shall be applied in lieu of any rate calculated under this paragraph.

(4) Limitations

(A) In general

Any rate established for sale or transportation under this section shall—

(i) be modified over time with changes in the underlying costs or rates of the electric utility; and

(ii) reflect the same time-sensitivity and billing periods as are established in the retail sales or transportation rates offered by the utility.

(B) Limitation

No utility shall be required to purchase or transport a quantity of net excess power under this section that exceeds the available capacity of the wires, meter, or other equipment of the electric utility serving the site unless the owner or operator of the project agrees to pay necessary and reasonable upgrade costs.

(e) Procedural requirements for consideration and determination

(1) Public notice and hearing

(A) In general

The consideration referred to in subsection (a) shall be made after public notice and hearing.

(B) Administration

The determination referred to in subsection (a) shall be—

(i) in writing;

(ii) based on findings included in the determination and on the evidence presented at the hearing; and

(iii) available to the public.

(2) Intervention by Administrator

The Administrator may intervene as a matter of right in a proceeding conducted under this section—

(A) to calculate—

(i) the energy and emissions likely to be saved by electing to adopt 1 or more of the options; and

(ii) the costs and benefits to ratepayers and the utility; and

(B) to advocate for the waste-energy recovery opportunity.

(3) Procedures

(A) In general

Executive Documents**EX. ORD. NO. 12191. FEDERAL FACILITY RIDESHARING PROGRAM**

Ex. Ord. No. 12191, Feb. 1, 1980, 45 F.R. 7997, provided: By the authority vested in me as President by the Constitution and statutes of the United States of America, and in order to increase ridesharing as a means to conserve petroleum, reduce congestion, improve air quality, and provide an economical way for Federal employees to commute to work, it is hereby ordered as follows:

1-1. RESPONSIBILITIES OF EXECUTIVE AGENCIES

1-101. Executive agencies shall promote the use of ridesharing (carpools, vanpools, privately leased buses, public transportation, and other multi-occupancy modes of travel) by personnel working at Federal facilities. Agency actions pursuant to this Order shall be consistent with Circular A-118 issued by the Office of Management and Budget.

1-102. Agencies shall establish an annual ridesharing goal tailored to each facility, and expressed as a percentage of fulltime personnel working at that facility who use ridesharing in the commute between home and work. Agencies that share facilities or that are within easy walking distance of one another should coordinate their efforts to develop and implement ridesharing opportunities.

1-103. Agencies shall designate, in accordance with OMB Circular A-118, an employee transportation coordinator. Agencies that share facilities may designate a single transportation coordinator. The coordinator shall assist employees in forming carpools or vanpools (employee-owned or leased) and facilitate employee participation in ridesharing matching programs. The coordinator shall publicize within the facility the availability of public transportation. The coordinator shall also communicate employee needs for new or improved transportation service to the appropriate local public transit authorities or other organizations furnishing multi-passenger modes of travel.

1-104. Agencies shall report to the Administrator of General Services, hereinafter referred to as the Administrator, the goals established, the means developed to achieve those goals, and the progress achieved. These reports shall be in such form and frequency as the Administrator may require.

1-2. RESPONSIBILITIES OF THE ADMINISTRATOR OF GENERAL SERVICES

1-201. The Administrator shall issue such regulations as are necessary to implement this Order.

1-202. The Administrator may exempt small, remotely located Federal facilities from the requirements of Sections 1-102, 1-103, and 1-104 on his own initiative or upon request of the agency. An exemption shall be granted in whole or in part when, in the judgment of the Administrator, the requirements of those Sections would not yield significant ridesharing benefits.

1-203. The Administrator shall, in consultation with the Secretary of Transportation, periodically provide agencies with guidelines, instructions, and other practical aids for establishing, implementing, and improving their ridesharing programs.

1-204. The Administrator shall assist in coordinating the ridesharing activities of the agencies with the efforts of the Department of Energy, under the Federal Energy Management Program and in the development of an emergency energy conservation plan for the Federal government.

1-205. The Administrator shall take into consideration the advice of the Environmental Protection Agency under the Clean Air Act, as amended [42 U.S.C. 7401 et seq.] in performing his responsibilities under this Order.

§ 6363. Federal actions with respect to recycled oil

(a) Purpose

The purposes of this section are—

- (1) to encourage the recycling of used oil;
- (2) to promote the use of recycled oil;
- (3) to reduce consumption of new oil by promoting increased utilization of recycled oil; and
- (4) to reduce environmental hazards and wasteful practices associated with the disposal of used oil.

(b) Definitions

As used in this section:

(1) the term "used oil" means any oil which has been refined from crude oil, has been used, and as a result of such use has been contaminated by physical or chemical impurities.

(2) The term "recycled oil" means—

(A) used oil from which physical and chemical contaminants acquired through use have been removed by re-refining or other processing, or

(B) any blend of oil, consisting of such re-refined or otherwise processed used oil and new oil or additives,

with respect to which the manufacturer has determined, pursuant to the rule prescribed under subsection (d)(1)(A)(i), is substantially equivalent to new oil for a particular end use.

(3) The term "new oil" means any oil which has been refined from crude oil and has not been used, and which may or may not contain additives. Such term does not include used oil or recycled oil.

(4) The term "manufacturer" means any person who re-refines or otherwise processes used oil to remove physical or chemical impurities acquired through use or who blends such re-refined or otherwise processed used oil with new oil or additives.

(5) The term "Commission" means the Federal Trade Commission.

(c) Test procedures for determining substantial equivalency of recycled oil and new oil

As soon as practicable after December 22, 1975, the National Institute of Standards and Technology shall develop test procedures for the determination of substantial equivalency of re-refined or otherwise processed used oil or blend of oil, consisting of such re-refined or otherwise processed used oil and new oil or additives, with new oil for a particular end use. As soon as practicable after development of such test procedures, the National Institute of Standards and Technology shall report such procedures to the Commission.

(d) Promulgation of rules prescribing test procedures and labeling standards

(1)(A) Within 90 days after the date on which the Commission receives the report under subsection (c), the Commission shall, by rule, prescribe—

- (i) test procedures for the determination of substantial equivalency of re-refined or otherwise processed used oil or blend of oil, consisting of such re-refined or otherwise processed used oil and new oil or additives, with

new oil distributed for a particular end use; and

(ii) labeling standards applicable to containers of recycled oil in order to carry out the purposes of this section.

(B) Such labeling standards shall permit any container of recycled oil to bear a label indicating any particular end use for which a determination of substantial equivalency has been made pursuant to subparagraph (A)(i).

(2) Not later than the expiration of such 90-day period, the Administrator of the Environmental Protection Agency shall, by rule, prescribe labeling standards applicable to containers of new oil, used oil, and recycled oil relating to the proper disposal of such oils after use. Such standards shall be designed to reduce, to the maximum extent practicable, environmental hazards and wasteful practices associated with the disposal of such oils after use.

(e) Labeling standards

Beginning on the effective date of the standards prescribed pursuant to subsection (d)(1)(A)—

(1) no rule or order of the Commission, other than the rules required to be prescribed pursuant to subsection (d)(1)(A), and no law, regulation, or order of any State or political subdivision thereof may apply, or remain applicable, to any container of recycled oil, if such law, regulation, rule, or order requires any container of recycled oil, which container bears a label in accordance with the terms of the rules prescribed under subsection (d)(1)(A), to bear any label with respect to the comparative characteristics of such recycled oil with new oil which is not identical to that permitted by the rule respecting labeling standards prescribed under subsection (d)(1)(A)(ii); and

(2) no rule or order of the Commission may require any container of recycled oil to also bear a label containing any term, phrase, or description which connotes less than substantial equivalency of such recycled oil with new oil.

(f) Conformity of acts of Federal officials to Commission rules

After the effective date of the rules required to be prescribed under subsection (d)(1)(A), all Federal officials shall act within their authority to carry out the purposes of this section, including—

(1) revising procurement policies to encourage procurement of recycled oil for military and nonmilitary Federal uses whenever such recycled oil is available at prices competitive with new oil procured for the same end use; and

(2) educating persons employed by Federal and State governments and private sectors of the economy of the merits of recycled oil, the need for its use in order to reduce the drain on the Nation's oil reserves, and proper disposal of used oil to avoid waste of such oil and to minimize environmental hazards associated with improper disposal.

APPLICABILITY OF LABELING STANDARDS

Pub. L. 96-463, §4(c), Oct. 15, 1980, 94 Stat. 2056, provided: “Before the effective date of the labeling standards required to be prescribed under section 383(d)(1)(A) of the Energy Policy and Conservation Act [subsec. (d)(1)(A) of this section], no requirement of any rule or order of the Federal Trade Commission may apply, or remain applicable, to any container of recycled oil (as defined in section 383(b) of such Act [subsec. (b) of this section]) if such requirement provides that the container must bear any label referring to the fact that it has been derived from previously used oil. Nothing in this subsection [this note] shall be construed to affect any labeling requirement applicable to recycled oil under any authority of law to the extent such requirement relates to fitness for intended use or any other performance characteristic of such oil or to any characteristic of such oil other than that referred to in the preceding sentence.”
