(i) in present value terms, in the case of a study period equivalent to the longest useful life of the building, determined by taking into consideration the typical life of such a building in the area in which the building is to be located; or

(ii) in annual value terms, in the case of any other study period.

(17) Office of Commercial High-Performance Green Buildings

The term "Office of Commercial High-Performance Green Buildings" means the Office of Commercial High-Performance Green Buildings established under section 17081(a) of this title.

(18) Office of Federal High-Performance Green Buildings

The term "Office of Federal High-Performance Green Buildings" means the Office of Federal High-Performance Green Buildings established under section 17092(a) of this title.

(19) Practices

The term "practices" means design, financing, permitting, construction, commissioning, operation and maintenance, and other practices that contribute to achieving zero-net-energy buildings or facilities.

(20) Zero-net-energy commercial building

The term "zero-net-energy commercial building" means a commercial building that is designed, constructed, and operated to—

- (A) require a greatly reduced quantity of energy to operate;
- (B) meet the balance of energy needs from sources of energy that do not produce greenhouse gases;
- (C) therefore result in no net emissions of greenhouse gases; and
- (D) be economically viable.

EDITORIAL NOTES

REFERENCES IN TEXT

This title, referred to in text, is title IV of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1596, which enacted this subchapter, part C (§6341 et seq.) of subchapter III of chapter 77 of this title, sections 6371h–1 and 7628 of this title, and subchapter V (§2695 et seq.) of chapter 53 of Title 15, Commerce and Trade, amended sections 6832, 6834, 6862, 6872, 8253, 8254, and 12709 of this title, and enacted provisions set out as notes under sections 6834 and 6872 of this title. For complete classification of title IV to the Code, see Tables.

Section 484, referred to in par. (2), probably should be a reference to section 494 of Pub. L. 110–140, which is classified to section 17123 of this title.

This Act, referred to in par. (5)(A)(ii)(III), is Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1492, known as the Energy Independence and Security Act of 2007, which enacted this chapter and enacted and amended numerous other sections and notes in the Code. For complete classification of this Act to the Code, see Short Title note set out under section 17001 of this title and Tables.

Title III, referred to in par. (5)(A)(ii)(III), is title III of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1549, which enacted section 3313 of Title 40, Public Buildings, Property, and Works, amended sections 6291 to 6295, 6297, 6302, 6304, 6311, 6313 to 6316, 15821, and 16191 of this title and sections 3307, 3310, and 3314 to 3316 of Title 40, and enacted provisions set out as notes under sections 6291, 6294, 6295, and 6313 of this title. For complete classification of title III to the Code, see Tables.

Sections 431 through 435, referred to in pars. (6)(C) and 9(A), are sections 431 to 435 of Pub. L. 110–140. Sections 431 to 434 amended sections 6832, 6834, and 8253 of this title and enacted provisions set out as a note under section 6834 of this title. Section 435 enacted section 17091 of this title.

Title V, referred to in par. (6)(C), is title V of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1655, which enacted subchapter IV (§17131 et seq.) of this chapter, part D (§8279) of subchapter III of chapter 91 of this title, and sections 1824, 2162a, and 2169 of Title 2, The Congress, amended sections 6325, 6834, 8256, 8258, 8259b, 8287, and 8287c of this title, section 2162 of Title 2, section 2913 of Title 10, Armed Forces, section 3203 of Title 15, Commerce and Trade, and section 2621 of Title 16, Conservation, and enacted provisions set out as a note under section 8259b of this title. For complete classification of title V to the Code, see Tables.

Sections 511 through 525, referred to in par. (6)(C), are sections 511 to 525 of Pub. L. 110–140, which enacted part A (§17131) of subchapter IV of this chapter and section 17141 of this title, amended sections 6834, 8256, 8258, 8259b, 8287, and 8287c of this title and section 2913 of Title 10, Armed Forces, and enacted provisions set out as a note under section 8259b of this title.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

¹ [*See References in Text note below.*](#)

² [*So in original. Does not fit with cl. \(ii\) introductory provision.*](#)

§17062. Energy efficiency in Federal and other buildings

(a) Definitions

In this section:

(1) Administrator

The term "Administrator" means the Administrator of General Services.

(2) Cost-effective energy efficiency measure

The term "cost-effective energy efficiency measure" means any building product, material, equipment, or service, and the installing, implementing, or operating thereof, that provides energy savings in an amount that is not less than the cost of such installing, implementing, or operating.

(3) Cost-effective water efficiency measure

The term "cost-effective water efficiency measure" means any building product, material, equipment, or service, and the installing, implementing, or operating thereof, that provides water savings in an amount that is not less than the cost of such installing, implementing, or operating.

(b) Model provisions, policies, and best practices

(1) In general

Not later than 180 days after April 30, 2015, the Administrator, in consultation with the Secretary of Energy and after providing the public with an opportunity for notice and comment, shall develop model commercial leasing provisions and best practices in accordance with this subsection.

(2) Commercial leasing

(A) In general

The model commercial leasing provisions developed under this subsection shall, at a minimum, align the interests of building owners and tenants with regard to investments in cost-effective energy efficiency measures and cost-effective water efficiency measures to encourage building owners and tenants to collaborate to invest in such measures.

(B) Use of model provisions

The Administrator may use the model commercial leasing provisions developed under this subsection in any standard leasing document that designates a Federal agency (or other client of the Administrator) as a landlord or tenant.

(C) Publication

The Administrator shall periodically publish the model commercial leasing provisions developed under this subsection, along with explanatory materials, to encourage building owners and tenants in the private sector to use such provisions and materials.

(3) Realty services

The Administrator shall develop policies and practices to implement cost-effective energy efficiency measures and cost-effective water efficiency measures for the realty services provided by the Administrator to Federal agencies (or other clients of the Administrator), including periodic training of appropriate Federal employees and contractors on how to identify and evaluate those measures.

(4) State and local assistance

The Administrator, in consultation with the Secretary of Energy, shall make available model commercial leasing provisions and best practices developed under this subsection to State, county, and municipal governments for use in managing owned and leased building space in accordance with the goal of encouraging investment in all cost-effective energy efficiency measures and cost-effective water efficiency measures.

(Pub. L. 114–11, title I, §102, Apr. 30, 2015, 129 Stat. 182.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of the Better Buildings Act of 2015, and also as part of the Energy Efficiency Improvement Act of 2015, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

§17063. Energy information for commercial buildings

(a) Omitted

(b) Study

(1) In general

Not later than 2 years after April 30, 2015, the Secretary of Energy, in collaboration with the Administrator of the Environmental Protection Agency, shall complete a study—

(A) on the impact of—

(i) State and local performance benchmarking and disclosure policies, and any associated building efficiency policies, for commercial and multifamily buildings; and

(ii) programs and systems in which utilities provide aggregated information regarding whole building energy consumption and usage information to owners of multitenant commercial, residential, and mixed-use buildings;

(B) that identifies best practice policy approaches studied under subparagraph (A) that have resulted in the greatest improvements in building energy efficiency; and

(C) that considers—

(i) compliance rates and the benefits and costs of the policies and programs on building owners, utilities, tenants, and other parties;

(ii) utility practices, programs, and systems that provide aggregated energy consumption information to multitenant building owners, and the impact of public utility commissions and State privacy laws on those practices, programs, and systems;

(iii) exceptions to compliance in existing laws where building owners are not able to gather or access whole building energy information from tenants or utilities;

(iv) the treatment of buildings with—

(I) multiple uses;

(II) uses for which baseline information is not available; and

(III) uses that require high levels of energy intensities, such as data centers, trading floors, and television studios;

(v) implementation practices, including disclosure methods and phase-in of compliance;

(vi) the safety and security of benchmarking tools offered by government agencies, and the resiliency of those tools against cyber attacks; and

(vii) international experiences with regard to building benchmarking and disclosure laws and data aggregation for multitenant buildings.

(2) Submission to Congress

At the conclusion of the study, the Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives and Committee on Energy and Natural Resources of the Senate a report on the results of the study.

(c) Creation and maintenance of database

(1) In general

Not later than 18 months after April 30, 2015, and following opportunity for public notice and comment, the Secretary of Energy, in coordination with other relevant agencies, shall maintain, and if necessary create, a database for the purpose of storing and making available public energy-related information on commercial and multifamily buildings, including—

(A) data provided under Federal, State, local, and other laws or programs regarding building

benchmarking and energy information disclosure;

(B) information on buildings that have disclosed energy ratings and certifications; and

(C) energy-related information on buildings provided voluntarily by the owners of the buildings, only in an anonymous form unless the owner provides otherwise.

(2) Complementary programs

The database maintained pursuant to paragraph (1) shall complement and not duplicate the functions of the Environmental Protection Agency's Energy Star Portfolio Manager tool.

(d) Input from stakeholders

The Secretary of Energy shall seek input from stakeholders to maximize the effectiveness of the actions taken under this section.

(e) Report

Not later than 2 years after April 30, 2015, and every 2 years thereafter, the Secretary of Energy shall submit to the Committee on Energy and Commerce of the House of Representatives and Committee on Energy and Natural Resources of the Senate a report on the progress made in complying with this section.

(Pub. L. 114–11, title III, §301, Apr. 30, 2015, 129 Stat. 189.)

EDITORIAL NOTES

CODIFICATION

Section is comprised of section 301 of Pub. L. 114–11. Subsec. (a) of section 301 of Pub. L. 114–11 amended section 17091 of this title.

Section was enacted as part of the Energy Efficiency Improvement Act of 2015, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

¹ So in original. Probably should be "television".

§17064. Smart building acceleration

(a) Definitions

In this section:

(1) Department

The term "Department" means the Department of Energy.

(2) Program

The term "program" means the Federal Smart Building Program established under subsection (b)(1).

(3) Secretary

The term "Secretary" means the Secretary of Energy.

(4) Smart building

The term "smart building" means a building, or collection of buildings, with an energy system that—

(A) is flexible and automated;

(B) has extensive operational monitoring and communication connectivity, allowing remote monitoring and analysis of all building functions;

(C) takes a systems-based approach in integrating the overall building operations for control of energy generation, consumption, and storage;

(D) communicates with utilities and other third-party commercial entities, if appropriate;

(E) protects the health and safety of occupants and workers; and

(F) incorporates cybersecurity best practices.

(5) Smart building accelerator

The term "smart building accelerator" means an initiative that is designed to demonstrate specific innovative policies and approaches—

(A) with clear goals and a clear timeline; and

(B) that, on successful demonstration, would accelerate investment in energy efficiency.

(b) Federal Smart Building Program

(1) Establishment

Not later than 1 year after December 27, 2020, the Secretary shall, in consultation with the Administrator of General Services, establish a program to be known as the "Federal Smart Building Program"—

(A) to implement smart building technology; and

(B) to demonstrate the costs and benefits of smart buildings.

(2) Selection

(A) In general

The Secretary shall coordinate the selection of not fewer than 1 building from among each of several key Federal agencies, as described in paragraph (4), to compose an appropriately diverse set of smart buildings based on size, type, and geographic location.

(B) Inclusion of commercially operated buildings

In making selections under subparagraph (A), the Secretary may include buildings that are owned by the Federal Government but are commercially operated.

(3) Targets

Not later than 18 months after December 27, 2020, the Secretary shall establish targets for the number of smart buildings to be commissioned and evaluated by key Federal agencies by 3 years and 6 years after December 27, 2020.

(4) Federal agency described

The key Federal agencies referred to in paragraph (2)(A) shall include buildings operated by—

(A) the Department of the Army;

(B) the Department of the Navy;

(C) the Department of the Air Force;

(D) the Department;

(E) the Department of the Interior;

(F) the Department of Veterans Affairs; and

(G) the General Services Administration.

(5) Requirement

In implementing the program, the Secretary shall leverage existing financing mechanisms including energy savings performance contracts, utility energy service contracts, and annual appropriations.

(6) Evaluation

Using the guidelines of the Federal Energy Management Program relating to whole-building evaluation, measurement, and verification, the Secretary shall evaluate the costs and benefits of the buildings selected under paragraph (2), including an identification of—

(A) which advanced building technologies—

(i) are most cost-effective; and

(ii) show the most promise for—

(I) increasing building energy savings;

(II) increasing service performance to building occupants;

(III) reducing environmental impacts; and

(IV) establishing cybersecurity; and

(B) any other information the Secretary determines to be appropriate.

(7) Awards

The Secretary may expand awards made under the Federal Energy Management Program and the Better Building Challenge to recognize specific agency achievements in accelerating the adoption of smart building technologies.

(c) Survey of private sector smart buildings

(1) Survey

The Secretary shall conduct a survey of privately owned smart buildings throughout the United States, including commercial buildings, laboratory facilities, hospitals, multifamily residential buildings, and buildings owned by nonprofit organizations and institutions of higher education.

(2) Selection

From among the smart buildings surveyed under paragraph (1), the Secretary shall select not fewer than 1 building each from an appropriate range of building sizes, types, and geographic locations.

(3) Evaluation

Using the guidelines of the Federal Energy Management Program relating to whole-building evaluation, measurement, and verification, the Secretary shall evaluate the costs and benefits of the buildings selected under paragraph (2), including an identification of—

(A) which advanced building technologies and systems—

(i) are most cost-effective; and

(ii) show the most promise for—

(I) increasing building energy savings;

(II) increasing service performance to building occupants;

(III) reducing environmental impacts; and

(IV) establishing cybersecurity; and

(B) any other information the Secretary determines to be appropriate.

(d) Better building challenge

As part of the Better Building Challenge of the Department, the Secretary, in consultation with major private sector property owners, shall develop smart building accelerators to demonstrate innovative policies and approaches that will accelerate the transition to smart buildings in the public, institutional, and commercial buildings sectors.

(e) Omitted

(f) Report

Not later than 2 years after December 27, 2020, and every 2 years thereafter until a total of 3 reports have been made, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Energy and Commerce and the Committee on Science, Space, and Technology of the House of Representatives a report on—

(1) the establishment of the Federal Smart Building Program and the evaluation of Federal smart buildings under subsection (b);

(2) the survey and evaluation of private sector smart buildings under subsection (c); and

(3) any recommendations of the Secretary to further accelerate the transition to smart buildings.

(Pub. L. 116–260, div. Z, title I, §1007, Dec. 27, 2020, 134 Stat. 2433.)

EDITORIAL NOTES

CODIFICATION

Section is comprised of section 1007 of Pub. L. 116–260. Subsec. (e) of section 1007 of Pub. L. 160–260 enacted section 17086 of this title.

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

PART A—RESIDENTIAL BUILDING EFFICIENCY

§17071. Energy Code improvements applicable to manufactured housing

(a) Establishment of standards

(1) In general

Not later than 4 years after December 19, 2007, the Secretary shall by regulation establish standards for energy efficiency in manufactured housing.

(2) Notice, comment, and consultation

Standards described in paragraph (1) shall be established after—

(A) notice and an opportunity for comment by manufacturers of manufactured housing and other interested parties; and

(B) consultation with the Secretary of Housing and Urban Development, who may seek further counsel from the Manufactured Housing Consensus Committee.

(b) Requirements

(1) International Energy Conservation Code

The energy conservation standards established under this section shall be based on the most recent version of the International Energy Conservation Code (including supplements), except in cases in which the Secretary finds that the code ¹ is not cost-effective, or a more stringent standard would be more cost-effective, based on the impact of the code ¹ on the purchase price of manufactured housing and on total life-cycle construction and operating costs.

(2) Considerations

The energy conservation standards established under this section may—

(A) take into consideration the design and factory construction techniques of manufactured homes;

(B) be based on the climate zones established by the Department of Housing and Urban Development rather than the climate zones under the International Energy Conservation Code; and

(C) provide for alternative practices that result in net estimated energy consumption equal to or less than the specified standards.

(3) Updating

The energy conservation standards established under this section shall be updated not later than—

(A) 1 year after December 19, 2007; and

(B) 1 year after any revision to the International Energy Conservation Code.

(c) Enforcement

Any manufacturer of manufactured housing that violates a provision of the regulations under subsection (a) is liable to the United States for a civil penalty in an amount not exceeding 1 percent of the manufacturer's retail list price of the manufactured housing.

(Pub. L. 110–140, title IV, §413, Dec. 19, 2007, 121 Stat. 1601.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

¹ So in original. Probably should be "Code".

PART B—HIGH-PERFORMANCE COMMERCIAL BUILDINGS

§17081. Commercial high-performance green buildings

(a) Director of Commercial High-Performance Green Buildings

Notwithstanding any other provision of law, the Secretary, acting through the Assistant Secretary of Energy Efficiency and Renewable Energy, shall appoint a Director of Commercial High-Performance Green Buildings to a position in the career-reserved Senior Executive service, with the principal responsibility to—

- (1) establish and manage the Office of Commercial High-Performance Green Buildings; and
- (2) carry out other duties as required under this part.

(b) Qualifications

The Commercial Director shall be an individual, who by reason of professional background and experience, is specifically qualified to carry out the duties required under this part.

(c) Duties

The Commercial Director shall, with respect to development of high-performance green buildings and zero-energy commercial buildings nationwide—

- (1) coordinate the activities of the Office of Commercial High-Performance Green Buildings with the activities of the Office of Federal High-Performance Green Buildings;
- (2) develop the legal predicates and agreements for, negotiate, and establish one or more public-private partnerships with the Consortium, members of the Consortium, and other capable parties meeting the qualifications of the Consortium, to further such development;
- (3) represent the public and the Department in negotiating and performing in accord with such public-private partnerships;
- (4) use appropriated funds in an effective manner to encourage the maximum investment of private funds to achieve such development;
- (5) promote research and development of high-performance green buildings, consistent with section 17083 of this title; and
- (6) jointly establish with the Federal Director a national high-performance green building clearinghouse in accordance with section 17083(1) of this title, which shall provide high-performance green building information and disseminate research results through—
 - (A) outreach;
 - (B) education; and
 - (C) the provision of technical assistance.

(d) Reporting

The Commercial Director shall report directly to the Assistant Secretary for Energy Efficiency and Renewable Energy, or to other senior officials in a way that facilitates the integrated program of this part for both energy efficiency and renewable energy and both technology development and technology deployment.

(e) Coordination

The Commercial Director shall ensure full coordination of high-performance green building information and activities, including activities under this part, within the Federal Government by working with the General Services Administration and all relevant agencies, including, at a minimum—

- (1) the Environmental Protection Agency;
- (2) the Office of the Federal Environmental Executive;
- (3) the Office of Federal Procurement Policy;
- (4) the Department of Energy, particularly the Federal Energy Management Program;
- (5) the Department of Health and Human Services;
- (6) the Department of Housing and Urban Development;
- (7) the Department of Defense;
- (8) the National Institute of Standards and Technology;
- (9) the Department of Transportation;
- (10) the Office of Science Technology and Policy; and
- (11) such nonprofit high-performance green building rating and analysis entities as the Commercial Director determines can offer support, expertise, and review services.

(f) High-Performance Green Building Partnership Consortium

(1) Recognition

Not later than 90 days after December 19, 2007, the Commercial Director shall formally recognize one or more groups that qualify as a high-performance green building partnership consortium.

(2) Representation to qualify

To qualify under this section, any consortium shall include representation from—

- (A) the design professions, including national associations of architects and of professional engineers;
- (B) the development, construction, financial, and real estate industries;
- (C) building owners and operators from the public and private sectors;
- (D) academic and research organizations, including at least one national laboratory with extensive commercial building energy expertise;
- (E) building code agencies and organizations, including a model energy code-setting organization;
- (F) independent high-performance green building associations or councils;
- (G) experts in indoor air quality and environmental factors;
- (H) experts in intelligent buildings and integrated building information systems;
- (I) utility energy efficiency programs;
- (J) manufacturers and providers of equipment and techniques used in high-performance green buildings;
- (K) public transportation industry experts; and
- (L) nongovernmental energy efficiency organizations.

(3) Funding

The Secretary may make payments to the Consortium pursuant to the terms of a public-private partnership for such activities of the Consortium undertaken under such a partnership as described in this part directly to the Consortium or through one or more of its members.

(g) Report

Not later than 2 years after December 19, 2007, and biennially thereafter, the Commercial Director, in consultation with the Consortium, shall submit to Congress a report that—

- (1) describes the status of the high-performance green building initiatives under this part and other Federal programs affecting commercial high-performance green buildings in effect as of the date of the report, including—
 - (A) the extent to which the programs are being carried out in accordance with this part; and

(B) the status of funding requests and appropriations for those programs; and

(2) summarizes and highlights development, at the State and local level, of high-performance green building initiatives, including executive orders, policies, or laws adopted promoting high-performance green building (including the status of implementation of those initiatives).

(Pub. L. 110–140, title IV, §421, Dec. 19, 2007, 121 Stat. 1602.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

EXECUTIVE DOCUMENTS

CHANGE OF NAME

Office of the Federal Environmental Executive reestablished as the Office of the Chief Sustainability Officer by Ex. Ord. No. 13693, §6, Mar. 19, 2015, 80 F.R. 15877, formerly set out in a note under section 4321 of this title.

§17082. Zero Net Energy Commercial Buildings Initiative

(a) Definitions

In this section:

(1) Consortium

The term "consortium" means a High-Performance Green Building Consortium selected by the Commercial Director.

(2) Initiative

The term "initiative" means the Zero-Net-Energy Commercial Buildings Initiative established under subsection (b)(1).

(3) Zero-net-energy commercial building

The term "zero-net-energy commercial building" means a high-performance commercial building that is designed, constructed, and operated—

- (A) to require a greatly reduced quantity of energy to operate;
- (B) to meet the balance of energy needs from sources of energy that do not produce greenhouse gases;
- (C) in a manner that will result in no net emissions of greenhouse gases; and
- (D) to be economically viable.

(b) Establishment

(1) In general

The Commercial Director shall establish an initiative, to be known as the "Zero-Net-Energy Commercial Buildings Initiative"—

- (A) to reduce the quantity of energy consumed by commercial buildings located in the United States; and
- (B) to achieve the development of zero net energy commercial buildings in the United States.

(2) Consortium

(A) In general

Not later than 180 days after December 19, 2007, the Commercial Director shall

competitively select, and enter into an agreement with, a consortium to develop and carry out the initiative.

(B) Agreements

In entering into an agreement with a consortium under subparagraph (A), the Commercial Director shall use the authority described in section 7256(g) of this title, to the maximum extent practicable.

(c) Goal of initiative

The goal of the initiative shall be to develop and disseminate technologies, practices, and policies for the development and establishment of zero net energy commercial buildings for—

- (1) any commercial building newly constructed in the United States by 2030;
- (2) 50 percent of the commercial building stock of the United States by 2040; and
- (3) all commercial buildings in the United States by 2050.

(d) Components

In carrying out the initiative, the Commercial Director, in consultation with the consortium, may—

- (1) conduct research and development on building science, design, materials, components, equipment and controls, operation and other practices, integration, energy use measurement, and benchmarking;
- (2) conduct pilot programs and demonstration projects to evaluate replicable approaches to achieving energy efficient commercial buildings for a variety of building types in a variety of climate zones;
- (3) conduct deployment, dissemination, and technical assistance activities to encourage widespread adoption of technologies, practices, and policies (including demand-response technologies, practices, and policies) to achieve energy efficient commercial buildings;
- (4) conduct other research, development, demonstration, and deployment activities necessary to achieve each goal of the initiative, as determined by the Commercial Director, in consultation with the consortium;
- (5) develop training materials and courses for building professionals and trades on achieving cost-effective high-performance energy efficient buildings;
- (6) develop and disseminate public education materials to share information on the benefits and cost-effectiveness of high-performance energy efficient buildings;
- (7) support code-setting organizations and State and local governments in developing minimum performance standards in building codes that recognize the ready availability of many technologies utilized in high-performance energy efficient buildings;
- (8) develop strategies for overcoming the split incentives between builders and purchasers, and landlords and tenants, to ensure that energy efficiency and high-performance investments are made that are cost-effective on a lifecycle basis; and
- (9) develop improved means of measurement and verification of energy savings and performance for public dissemination.

(e) Cost sharing

In carrying out this section, the Commercial Director shall require cost sharing in accordance with section 16352 of this title.

(f) Authorization of appropriations

There are authorized to be appropriated to carry out this section—

- (1) \$20,000,000 for fiscal year 2008;
- (2) \$50,000,000 for each of fiscal years 2009 and 2010;
- (3) \$100,000,000 for each of fiscal years 2011 and 2012; and
- (4) \$200,000,000 for each of fiscal years 2013 through 2018.

(Pub. L. 110–140, title IV, §422, Dec. 19, 2007, 121 Stat. 1604; Pub. L. 117–58, div. D, title I, §40104(d), Nov. 15, 2021, 135 Stat. 933.)

EDITORIAL NOTES

AMENDMENTS

2021—Subsec. (d)(3). Pub. L. 117–58 inserted "(including demand-response technologies, practices, and policies)" after "policies".

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§17083. Public outreach

The Commercial Director and Federal Director, in coordination with the Consortium, shall carry out public outreach to inform individuals and entities of the information and services available governmentwide by—

- (1) establishing and maintaining a national high-performance green building clearinghouse, including on the Internet, that—
 - (A) identifies existing similar efforts and coordinates activities of common interest; and
 - (B) provides information relating to high-performance green buildings, including hyperlinks to Internet sites that describe the activities, information, and resources of—
 - (i) the Federal Government;
 - (ii) State and local governments;
 - (iii) the private sector (including nongovernmental and nonprofit entities and organizations); and
 - (iv) international organizations;
- (2) identifying and recommending educational resources for implementing high-performance green building practices, including security and emergency benefits and practices;
- (3) providing access to technical assistance, tools, and resources for constructing high-performance green buildings, particularly tools to conduct life-cycle costing and life-cycle assessment;
- (4) providing information on application processes for certifying a high-performance green building, including certification and commissioning;
- (5) providing to the public, through the Commercial Director, technical and research information or other forms of assistance or advice that would be useful in planning and constructing high-performance green buildings;
- (6) using such additional methods as are determined by the Commercial Director to be appropriate to conduct public outreach;
- (7) surveying existing research and studies relating to high-performance green buildings; and
- (8) coordinating activities of common interest.

(Pub. L. 110–140, title IV, §423, Dec. 19, 2007, 121 Stat. 1606.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17084. Separate spaces with high-performance energy efficiency measures

(a) Definitions

In this section:

(1) High-performance energy efficiency measure

The term "high-performance energy efficiency measure" means a technology, product, or practice that will result in substantial operational cost savings by reducing energy consumption and utility costs.

(2) Separate spaces

The term "separate spaces" means areas within a commercial building that are leased or otherwise occupied by a tenant or other occupant for a period of time pursuant to the terms of a written agreement.

(b) Study

(1) In general

Not later than 1 year after April 30, 2015, the Secretary, acting through the Assistant Secretary of Energy Efficiency and Renewable Energy, shall complete a study on the feasibility of—

(A) significantly improving energy efficiency in commercial buildings through the design and construction, by owners and tenants, of separate spaces with high-performance energy efficiency measures; and

(B) encouraging owners and tenants to implement high-performance energy efficiency measures in separate spaces.

(2) Scope

The study shall, at a minimum, include—

(A) descriptions of—

(i) high-performance energy efficiency measures that should be considered as part of the initial design and construction of separate spaces;

(ii) processes that owners, tenants, architects, and engineers may replicate when designing and constructing separate spaces with high-performance energy efficiency measures;

(iii) policies and best practices to achieve reductions in energy intensities for lighting, plug loads, heating, cooling, cooking, laundry, and other systems to satisfy the needs of the commercial building tenant;

(iv) return on investment and payback analyses of the incremental cost and projected energy savings of the proposed set of high-performance energy efficiency measures, including consideration of available incentives;

(v) models and simulation methods that predict the quantity of energy used by separate spaces with high-performance energy efficiency measures and that compare that predicted quantity to the quantity of energy used by separate spaces without high-performance energy efficiency measures but that otherwise comply with applicable building code requirements;

(vi) measurement and verification platforms demonstrating actual energy use of high-performance energy efficiency measures installed in separate spaces, and whether such measures generate the savings intended in the initial design and construction of the separate spaces;

(vii) best practices that encourage an integrated approach to designing and constructing separate spaces to perform at optimum energy efficiency in conjunction with the central systems of a commercial building; and

(viii) any impact on employment resulting from the design and construction of separate spaces with high-performance energy efficiency measures; and

(B) case studies reporting economic and energy savings returns in the design and construction of separate spaces with high-performance energy efficiency measures.

(3) Public participation

Not later than 90 days after April 30, 2015, the Secretary shall publish a notice in the Federal Register requesting public comments regarding effective methods, measures, and practices for the design and construction of separate spaces with high-performance energy efficiency measures.

(4) Publication

The Secretary shall publish the study on the website of the Department of Energy.

(Pub. L. 110–140, title IV, §424, as added Pub. L. 114–11, title I, §103(a), Apr. 30, 2015, 129 Stat. 183.)

§17085. Tenant Star program

(a) Definitions

In this section:

(1) High-performance energy efficiency measure

The term "high-performance energy efficiency measure" has the meaning given the term in section 17084 of this title.

(2) Separate spaces

The term "separate spaces" has the meaning given the term in section 17084 of this title.

(b) Tenant Star

The Administrator of the Environmental Protection Agency, in consultation with the Secretary of Energy, shall develop a voluntary program within the Energy Star program established by section 6294a of this title, which may be known as "Tenant Star", to promote energy efficiency in separate spaces leased by tenants or otherwise occupied within commercial buildings.

(c) Expanding survey data

The Secretary of Energy, acting through the Administrator of the Energy Information Administration, shall—

(1) collect, through each Commercial Buildings Energy Consumption Survey of the Energy Information Administration that is conducted after April 30, 2015, data on—

(A) categories of building occupancy that are known to consume significant quantities of energy, such as occupancy by data centers, trading floors, and restaurants; and

(B) other aspects of the property, building operation, or building occupancy determined by the Administrator of the Energy Information Administration, in consultation with the Administrator of the Environmental Protection Agency, to be relevant in lowering energy consumption;

(2) with respect to the first Commercial Buildings Energy Consumption Survey conducted after April 30, 2015, to the extent full compliance with the requirements of paragraph (1) is not feasible, conduct activities to develop the capability to collect such data and begin to collect such data; and

(3) make data collected under paragraphs (1) and (2) available to the public in aggregated form and provide such data, and any associated results, to the Administrator of the Environmental Protection Agency for use in accordance with subsection (d).

(d) Recognition of owners and tenants

(1) Occupancy-based recognition

Not later than 1 year after the date on which sufficient data is received pursuant to subsection

(c), the Administrator of the Environmental Protection Agency shall, following an opportunity for public notice and comment—

(A) in a manner similar to the Energy Star rating system for commercial buildings, develop policies and procedures to recognize tenants in commercial buildings that voluntarily achieve high levels of energy efficiency in separate spaces;

(B) establish building occupancy categories eligible for Tenant Star recognition based on the data collected under subsection (c) and any other appropriate data sources; and

(C) consider other forms of recognition for commercial building tenants or other occupants that lower energy consumption in separate spaces.

(2) Design- and construction-based recognition

After the study required by section 17084(b) of this title is completed, the Administrator of the Environmental Protection Agency, in consultation with the Secretary and following an opportunity for public notice and comment, may develop a voluntary program to recognize commercial building owners and tenants that use high-performance energy efficiency measures in the design and construction of separate spaces.

(Pub. L. 110–140, title IV, §425, as added Pub. L. 114–11, title I, §104(a), Apr. 30, 2015, 129 Stat. 185.)

§17086. Advanced integration of buildings onto the electric grid

(a) In general

The Secretary shall establish a program of research, development, and demonstration to enable components of commercial and residential buildings to serve as dynamic energy loads on and resources for the electric grid. The program shall focus on—

(1) developing low-cost, low power, wireless sensors to—

(A) monitor building energy load;

(B) forecast building energy need; and

(C) enable building-level energy control;

(2) developing data management capabilities and standard communication protocols to further interoperability at the building and grid-level;

(3) developing advanced building-level energy management of components through integration of smart technologies, control systems, and data processing, to enable energy efficiency and savings;

(4) optimizing energy consumption at the building level to enable grid stability and resilience;

(5) improving visualization of behind the meter equipment and technologies to provide better insight into the energy needs and energy forecasts of individual buildings;

(6) reducing the cost of key components to accelerate the adoption of smart building technologies;

(7) protecting against cybersecurity threats and addressing security vulnerabilities of building systems or equipment; and

(8) other areas determined appropriate by the Secretary.

(b) Considerations

In carrying out the program under subsection (a), the Secretary shall—

(1) work with utility partners, building owners, technology vendors, and building developers to test and validate technologies and encourage the commercial application of these technologies by building owners; and

(2) consider the specific challenges of enabling greater interaction between components of—

(A) small- and medium-sized buildings and the electric grid; and

(B) residential and commercial buildings and the electric grid.

(c) Buildings-to-grid integration report

Not later than 1 year after December 27, 2020, the Secretary shall submit to the Committee on Science, Space, and Technology and the Committee on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the results of a study that examines the research, development, and demonstration opportunities, challenges, and standards needed to enable components of commercial and residential buildings to serve as dynamic energy loads on and resources for the electric grid.

(1) Report requirements

The report shall include—

(A) an assessment of the technologies needed to enable building components as dynamic loads on and resources for the electric grid, including how such technologies can be—

- (i) incorporated into new commercial and residential buildings; and
- (ii) retrofitted in older buildings;

(B) guidelines for the design of new buildings and building components to enable modern grid interactivity and improve energy efficiency;

(C) an assessment of barriers to the adoption by building owners of advanced technologies enabling greater integration of building components onto the electric grid; and

(D) an assessment of the feasibility of adopting technologies developed under subsection (a) at Department facilities.

(2) Recommendations

As part of the report, the Secretary shall develop a 10-year roadmap to guide the research, development, and demonstration program to enable components of commercial and residential buildings to serve as dynamic energy loads on and resources for the electric grid.

(3) Updates

The Secretary shall update the report required under this section every 3 years for the duration of the program under subsection (a) and shall submit the updated report to the Committee on Science, Space, and Technology and the Committee on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

(d) Program implementation

In carrying out this section, the Secretary shall—

- (1) implement the recommendations from the report in subsection (c); and
- (2) coordinate across all relevant program offices at the Department to achieve the goals established in this section, including the Office of Electricity.

(Pub. L. 110–140, title IV, §426, as added Pub. L. 116–260, div. Z, title I, §1007(e)(1), Dec. 27, 2020, 134 Stat. 2435.)

PART C—HIGH-PERFORMANCE FEDERAL BUILDINGS

§17091. Leasing

(a) In general

Except as provided in subsection (b), effective beginning on the date that is 3 years after December 19, 2007, no Federal agency shall enter into a contract to lease space in a building that has not earned the Energy Star label in the most recent year.

(b) Exception

(1) Application

This subsection applies if—

- (A) no space is available in a building described in subsection (a) that meets the functional requirements of an agency, including locational needs;
- (B) the agency proposes to remain in a building that the agency has occupied previously;
- (C) the agency proposes to lease a building of historical, architectural, or cultural significance (as defined in section 3306(a)(4) of title 40) or space in such a building; or
- (D) the lease is for not more than 10,000 gross square feet of space.

(2) Buildings without Energy Star label

If one of the conditions described in paragraph (1) is met, the agency may enter into a contract to lease space in a building that has not earned the Energy Star label in the most recent year if the lease contract includes provisions requiring that, prior to occupancy or, in the case of a contract described in paragraph (1)(B), not later than 1 year after signing the contract, the following requirements are met:

(A) The space is renovated for all energy efficiency and conservation improvements that would be cost effective over the life of the lease, including improvements in lighting, windows, and heating, ventilation, and air conditioning systems.

(B)(i) Subject to clause (ii), the space is benchmarked under a nationally recognized, online, free benchmarking program, with public disclosure, unless the space is a space for which owners cannot access whole building utility consumption data, including spaces—

(I) that are located in States with privacy laws that provide that utilities shall not provide such aggregated information to multitenant building owners; and

(II) for which tenants do not provide energy consumption information to the commercial building owner in response to a request from the building owner.

(ii) A Federal agency that is a tenant of the space shall provide to the building owner, or authorize the owner to obtain from the utility, the energy consumption information of the space for the benchmarking and disclosure required by this subparagraph.

(c) Revision of Federal Acquisition Regulation

(1) In general

Not later than 3 years after December 19, 2007, the Federal Acquisition Regulation described in section 1121(b) and (c)(1) of title 41 shall be revised to require Federal officers and employees to comply with this section in leasing buildings.

(2) Consultation

The members of the Federal Acquisition Regulatory Council established under section 1302(a) of title 41 shall consult with the Federal Director and the Commercial Director before promulgating regulations to carry out this subsection.

(Pub. L. 110–140, title IV, §435, Dec. 19, 2007, 121 Stat. 1615; Pub. L. 114–11, title III, §301(a), Apr. 30, 2015, 129 Stat. 189.)

EDITORIAL NOTES

CODIFICATION

In subsec. (c)(1), "section 1121(b) and (c)(1) of title 41" substituted for "section 6(a) of the Office of Federal Procurement Policy Act (41 U.S.C. 405(a))" on authority of Pub. L. 111–350, §6(c), Jan. 4, 2011, 124 Stat. 3854, which Act enacted Title 41, Public Contracts.

In subsec. (c)(2), "section 1302(a) of title 41" substituted for "section 25 of the Office of Federal Procurement Policy Act (41 U.S.C. 421)" on authority of Pub. L. 111–350, §6(c), Jan. 4, 2011, 124 Stat. 3854, which Act enacted Title 41, Public Contracts.

AMENDMENTS

2015—Subsec. (b)(2). Pub. L. 114–11 substituted "paragraph (1) is met" for "paragraph (2) is met" and "signing the contract, the following requirements are met:" for "signing the contract, the space will be

renovated for all energy efficiency and conservation improvements that would be cost effective over the life of the lease, including improvements in lighting, windows, and heating, ventilation, and air conditioning systems." and added subpars. (A) and (B).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17092. High-performance green Federal buildings

(a) Establishment of Office

Not later than 60 days after December 19, 2007, the Administrator shall establish within the General Services Administration an Office of Federal High-Performance Green Buildings, and appoint an individual to serve as Federal Director in, a position in the career-reserved Senior Executive service, to—

- (1) establish and manage the Office of Federal High-Performance Green Buildings; and
- (2) carry out other duties as required under this part.

(b) Compensation

The compensation of the Federal Director shall not exceed the maximum rate of basic pay for the Senior Executive Service under section 5382 of title 5, including any applicable locality-based comparability payment that may be authorized under section 5304(h)(2)(C) of that title.

(c) Duties

The Federal Director shall—

(1) coordinate the activities of the Office of Federal High-Performance Green Buildings with the activities of the Office of Commercial High-Performance Green Buildings, and the Secretary, in accordance with section 6834(a)(3)(D) of this title;

(2) ensure full coordination of high-performance green building information and activities within the General Services Administration and all relevant agencies, including, at a minimum—

- (A) the Environmental Protection Agency;
- (B) the Office of the Federal Environmental Executive;
- (C) the Office of Federal Procurement Policy;
- (D) the Department of Energy;
- (E) the Department of Health and Human Services;
- (F) the Department of Defense;
- (G) the Department of Transportation;
- (H) the National Institute of Standards and Technology; and
- (I) the Office of Science and Technology Policy;

(3) establish a senior-level Federal Green Building Advisory Committee under section 474,¹ which shall provide advice and recommendations in accordance with that section and subsection (d);

(4) identify and every 5 years reassess improved or higher rating standards recommended by the Advisory Committee;

(5) ensure full coordination, dissemination of information regarding, and promotion of the results of research and development information relating to Federal high-performance green building initiatives;

(6) identify and develop Federal high-performance green building standards for all types of Federal facilities, consistent with the requirements of this part and section 6834(a)(3)(D) of this title;

- (7) establish green practices that can be used throughout the life of a Federal facility;
- (8) review and analyze current Federal budget practices and life-cycle costing issues, and make recommendations to Congress, in accordance with subsection (d); and
- (9) identify opportunities to demonstrate innovative and emerging green building technologies and concepts.

(d) Additional duties

The Federal Director, in consultation with the Commercial Director and the Advisory Committee, and consistent with the requirements of section 6834(a)(3)(D) of this title shall—

- (1) identify, review, and analyze current budget and contracting practices that affect achievement of high-performance green buildings, including the identification of barriers to high-performance green building life-cycle costing and budgetary issues;
- (2) develop guidance and conduct training sessions with budget specialists and contracting personnel from Federal agencies and budget examiners to apply life-cycle cost criteria to actual projects;
- (3) identify tools to aid life-cycle cost decisionmaking; and
- (4) explore the feasibility of incorporating the benefits of high-performance green buildings, such as security benefits, into a cost-budget analysis to aid in life-cycle costing for budget and decisionmaking processes.

(e) Incentives

Within 90 days after December 19, 2007, the Federal Director shall identify incentives to encourage the expedited use of high-performance green buildings and related technology in the operations of the Federal Government, in accordance with the requirements of section 6834(a)(3)(D) of this title, including through—

- (1) the provision of recognition awards; and
- (2) the maximum feasible retention of financial savings in the annual budgets of Federal agencies for use in reinvesting in future high-performance green building initiatives.

(f) Report

Not later than 2 years after December 19, 2007, and biennially thereafter, the Federal Director, in consultation with the Secretary, shall submit to Congress a report that—

- (1) describes the status of compliance with this part, the requirements of section 6834(a)(3)(D) of this title, and other Federal high-performance green building initiatives in effect as of the date of the report, including—

- (A) the extent to which the programs are being carried out in accordance with this part and the requirements of section 6834(a)(3)(D) of this title; and
 - (B) the status of funding requests and appropriations for those programs;

- (2) identifies within the planning, budgeting, and construction process all types of Federal facility procedures that may affect the certification of new and existing Federal facilities as high-performance green buildings under the provisions of section 6834(a)(3)(D) of this title and the criteria established in subsection (h);

- (3) identifies inconsistencies, as reported to the Advisory Committee, in Federal law with respect to product acquisition guidelines and high-performance product guidelines;

- (4) recommends language for uniform standards for use by Federal agencies in environmentally responsible acquisition;

- (5) in coordination with the Office of Management and Budget, reviews the budget process for capital programs with respect to alternatives for—

- (A) restructuring of budgets to require the use of complete energy and environmental cost accounting;

- (B) using operations expenditures in budget-related decisions while simultaneously incorporating productivity and health measures (as those measures can be quantified by the Office of Federal High-Performance Green Buildings, with the assistance of universities and

national laboratories);

(C) streamlining measures for permitting Federal agencies to retain all identified savings accrued as a result of the use of life-cycle costing for future high-performance green building initiatives; and

(D) identifying short-term and long-term cost savings that accrue from high-performance green buildings, including those relating to health and productivity;

(6) identifies green, self-sustaining technologies to address the operational needs of Federal facilities in times of national security emergencies, natural disasters, or other dire emergencies;

(7) summarizes and highlights development, at the State and local level, of high-performance green building initiatives, including executive orders, policies, or laws adopted promoting high-performance green building (including the status of implementation of those initiatives); and

(8) includes, for the 2-year period covered by the report, recommendations to address each of the matters, and a plan for implementation of each recommendation, described in paragraphs (1) through (7).

(g) Implementation

The Office of Federal High-Performance Green Buildings shall carry out each plan for implementation of recommendations under subsection (f)(8).

(h) Identification of certification system

(1) In general

For the purpose of this section, not later than 60 days after December 19, 2007, the Federal Director shall identify and shall provide to the Secretary pursuant to section 6834(a)(3)(D) of this title, a certification system that the Director determines to be the most likely to encourage a comprehensive and environmentally-sound approach to certification of green buildings.

(2) Basis

The system identified under paragraph (1) shall be based on—

(A) a study completed every 5 years and provided to the Secretary pursuant to section 6834(a)(3)(D) of this title, which shall be carried out by the Federal Director to compare and evaluate standards;

(B) the ability and availability of assessors and auditors to independently verify the criteria and measurement of metrics at the scale necessary to implement this part;

(C) the ability of the applicable standard-setting organization to collect and reflect public comment;

(D) the ability of the standard to be developed and revised through a consensus-based process;

(E) an evaluation of the robustness of the criteria for a high-performance green building, which shall give credit for promoting—

(i) efficient and sustainable use of water, energy, and other natural resources;

(ii) use of renewable energy sources;

(iii) improved indoor environmental quality through enhanced indoor air quality, thermal comfort, acoustics, day lighting, pollutant source control, and use of low-emission materials and building system controls;

(iv) reduced impacts from transportation through building location and site design that promote access by public transportation; and

(v) such other criteria as the Federal Director determines to be appropriate; and

(F) national recognition within the building industry.

(Pub. L. 110–140, title IV, §436, Dec. 19, 2007, 121 Stat. 1616.)

REFERENCES IN TEXT

This part, referred to in subsecs. (a)(2), (c)(6), (f)(1), and (h)(2)(B), was in the original "this subtitle", meaning subtitle C (§§431–441) of title IV of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1607, which enacted this part, amended sections 6832, 6834, 8253, and 8254 of this title, and enacted provisions set out as a note under section 6834 of this title. For complete classification of subtitle C to the Code, see Tables.

Section 474, referred to in subsec. (c)(3), probably means section 494 of Pub. L. 110–140, which is classified to section 17123 of this title.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

EXECUTIVE DOCUMENTS

CHANGE OF NAME

Office of the Federal Environmental Executive reestablished as the Office of the Chief Sustainability Officer by Ex. Ord. No. 13693, §6, Mar. 19, 2015, 80 F.R. 15877, formerly set out in a note under section 4321 of this title.

¹ [*See References in Text note below.*](#)

§17093. Federal green building performance

(a) In general

Not later than October 31 of each of the 2 fiscal years following the fiscal year in which this Act is enacted, and at such times thereafter as the Comptroller General of the United States determines to be appropriate, the Comptroller General of the United States shall, with respect to the fiscal years that have passed since the preceding report—

(1) conduct an audit of the implementation of this part, section 6834(a)(3)(D) of this title, and section 17091 of this title; and

(2) submit to the Federal Director, the Advisory Committee, the Administrator, and Congress a report describing the results of the audit.

(b) Contents

An audit under subsection (a) shall include a review, with respect to the period covered by the report under subsection (a)(2), of—

(1) budget, life-cycle costing, and contracting issues, using best practices identified by the Comptroller General of the United States and heads of other agencies in accordance with section 17092(d) of this title;

(2) the level of coordination among the Federal Director, the Office of Management and Budget, the Department of Energy, and relevant agencies;

(3) the performance of the Federal Director and other agencies in carrying out the implementation plan;

(4) the design stage of high-performance green building measures;

(5) high-performance building data that were collected and reported to the Office; and

(6) such other matters as the Comptroller General of the United States determines to be appropriate.

(c) Environmental Stewardship Scorecard

The Federal Director shall consult with the Advisory Committee to enhance, and assist in the implementation of, the Office of Management and Budget government efficiency reports and

scorecards under section 17144 of this title and the Environmental Stewardship Scorecard announced at the White House summit on Federal sustainable buildings in January 2006, to measure the implementation by each Federal agency of sustainable design and green building initiatives.

(Pub. L. 110–140, title IV, §437, Dec. 19, 2007, 121 Stat. 1619.)

EDITORIAL NOTES

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17094. Storm water runoff requirements for Federal development projects

The sponsor of any development or redevelopment project involving a Federal facility with a footprint that exceeds 5,000 square feet shall use site planning, design, construction, and maintenance strategies for the property to maintain or restore, to the maximum extent technically feasible, the predevelopment hydrology of the property with regard to the temperature, rate, volume, and duration of flow.

(Pub. L. 110–140, title IV, §438, Dec. 19, 2007, 121 Stat. 1620.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17095. Cost-effective technology acceleration program

(a) Definition of Administrator

In this section, the term "Administrator" means the Administrator of General Services.

(b) Establishment

(1) In general

The Administrator shall establish a program to accelerate the use of more cost-effective technologies and practices at GSA facilities.

(2) Requirements

The program established under this subsection shall—

(A) ensure centralized responsibility for the coordination of cost reduction-related recommendations, practices, and activities of all relevant Federal agencies;

(B) provide technical assistance and operational guidance to applicable tenants to achieve the goal identified in subsection (c)(2)(B)(ii);

(C) establish methods to track the success of Federal departments and agencies with respect

to that goal; and

(D) be fully coordinated with and no less stringent nor less energy-conserving or water-conserving than required by other provisions of this Act and other applicable law, including sections 321 through 324, 431 through 438, 461, 511 through 518, and 523 through 525 and amendments made by those sections.

(c) Accelerated use of technologies

(1) Review

(A) In general

As part of the program under this section, not later than 90 days after December 19, 2007, the Administrator shall conduct a review of—

- (i) current use of cost-effective lighting technologies and geothermal heat pumps in GSA facilities; and
- (ii) the availability to managers of GSA facilities of cost-effective lighting technologies and geothermal heat pumps.

(B) Requirements

The review under subparagraph (A) shall—

- (i) examine the use of cost-effective lighting technologies, geothermal heat pumps, and other cost-effective technologies and practices by Federal agencies in GSA facilities; and
- (ii) as prepared in consultation with the Administrator of the Environmental Protection Agency, identify cost-effective lighting technology and geothermal heat pump technology standards that could be used for all types of GSA facilities.

(2) Replacement

(A) In general

As part of the program under this section, not later than 180 days after December 19, 2007, the Administrator shall establish, using available appropriations and programs implementing sections 432 and 525 ¹ (and amendments made by those sections), a cost-effective lighting technology and geothermal heat pump technology acceleration program to achieve maximum feasible replacement of existing lighting, heating, cooling ² technologies with cost-effective lighting technologies and geothermal heat pump technologies in each GSA facility. Such program shall fully comply with the requirements of sections 321 through 324, 431 through 438, 461, 511 through 518, and 523 through 525 ¹ and amendments made by those sections and any other provisions of law, which shall be applicable to the extent that they are more stringent or would achieve greater energy savings than required by this section.

(B) Acceleration plan timetable

(i) In general

To implement the program established under subparagraph (A), not later than 1 year after December 19, 2007, the Administrator shall establish a timetable of actions to comply with the requirements of this section and sections 431 through 435, whichever achieves greater energy savings most expeditiously, including milestones for specific activities needed to replace existing lighting, heating, cooling ² technologies with cost-effective lighting technologies and geothermal heat pump technologies, to the maximum extent feasible (including at the maximum rate feasible), at each GSA facility.

(ii) Goal

The goal of the timetable under clause (i) shall be to complete, using available appropriations and programs implementing sections 431 through 435 ¹ (and amendments made by those sections), maximum feasible replacement of existing lighting, heating, and cooling technologies with cost-effective lighting technologies and geothermal heat pump

technologies consistent with the requirements of this section and sections 431 through 435,¹ whichever achieves greater energy savings most expeditiously. Notwithstanding any provision of this section, such program shall fully comply with the requirements of the Act³ including sections 321 through 324, 431 through 438, 461, 511 through 518, and 523 through 525 and amendments made by those sections and other provisions of law, which shall be applicable to the extent that they are more stringent or would achieve greater energy or water savings than required by this section.

(d) GSA facility technologies and practices

(1) In general

Not later than 180 days after December 19, 2007, and annually thereafter, the Administrator shall—

(A) ensure that a manager responsible for implementing section 432¹ and for accelerating the use of cost-effective technologies and practices is designated for each GSA facility; and

(B) submit to Congress a plan to comply with section 432,¹ this section, and other applicable provisions of this Act and applicable law with respect to energy and water conservation at GSA facilities.

(2) Measures

The plan shall implement measures required by such other provisions of law in accordance with those provisions, and shall implement the measures required by this section to the maximum extent feasible (including at the maximum rate feasible) using available appropriations and programs implementing sections 431 through 435 and 525¹ (and amendments made by those sections), by not later than the date that is 5 years after December 19, 2007.

(3) Contents of plan

The plan shall—

(A) with respect to cost-effective technologies and practices—

(i) identify the specific activities needed to comply with sections 431 through 435;¹

(ii) identify the specific activities needed to achieve at least a 20-percent reduction in operational costs through the application of cost-effective technologies and practices from 2003 levels at GSA facilities by not later than 5 years after December 19, 2007;

(iii) describe activities required and carried out to estimate the funds necessary to achieve the reduction described in clauses (i) and (ii);

(B) include an estimate of the funds necessary to carry out this section;

(C) describe the status of the implementation of cost-effective technologies and practices at GSA facilities, including—

(i) the extent to which programs, including the program established under subsection (b), are being carried out in accordance with this part; and

(ii) the status of funding requests and appropriations for those programs;

(D) identify within the planning, budgeting, and construction processes, all types of GSA facility-related procedures that inhibit new and existing GSA facilities from implementing cost-effective technologies;

(E) recommend language for uniform standards for use by Federal agencies in implementing cost-effective technologies and practices;

(F) in coordination with the Office of Management and Budget, review the budget process for capital programs with respect to alternatives for—

(i) implementing measures that will assure that Federal agencies retain all identified savings accrued as a result of the use of cost-effective technologies, consistent with section 8253(a)(1) of this title, and other applicable law; and

(ii) identifying short- and long-term cost savings that accrue from the use of cost-effective

technologies and practices;

(G) with respect to cost-effective technologies and practices, achieve substantial operational cost savings through the application of the technologies; and

(H) include recommendations to address each of the matters, and a plan for implementation of each recommendation, described in subparagraphs (A) through (G).

(4) Administration

Notwithstanding any provision of this section, the program required under this section shall fully comply with the requirements of sections 321 through 324, 431 through 438, 461, 511 through 518, and 523 through 525 ¹ and amendments made by those sections, which shall be applicable to the extent that they are more stringent or would achieve greater energy or water savings than required by this section.

(e) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section, to remain available until expended.

(Pub. L. 110–140, title IV, §439, Dec. 19, 2007, 121 Stat. 1620.)

EDITORIAL NOTES

REFERENCES IN TEXT

This Act, referred to in subsecs. (b)(2)(D), (c)(2)(B)(ii), and (d)(1)(B), is Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1492, known as the Energy Independence and Security Act of 2007, which enacted this chapter and enacted and amended numerous other sections and notes in the Code. For complete classification of this Act to the Code, see Short Title note set out under section 17001 of this title and Tables.

Sections 321 through 324, 431 through 438, 461, 511 through 518, and 523 through 525, referred to in subsecs. (b)(2)(D), (c)(2)(A), (B)(ii), and (d)(4), are sections 321 to 324, 431 to 438, 461, 511 to 518, and 523 to 525, respectively, of Pub. L. 110–140, which enacted sections 17091 to 17094 of this title, part A (§17131) of subchapter IV of this chapter, subchapter V (§2695 et seq.) of chapter 53 of Title 15, Commerce and Trade, and section 3313 of Title 40, Public Buildings, Property, and Works, amended sections 6291 to 6294, 6295, 6297, 6302, 6304, 6832, 6834, 8253, 8256, 8258, 8259b, 8287, and 8287c of this title, section 2913 of Title 10, Armed Forces, and sections 3307, 3310, and 3314 to 3316 of Title 40, and enacted provisions set out as notes under sections 6294, 6295, 6834, and 8259b of this title.

Sections 432 and 525, referred to in subsec. (c)(2)(A), are sections 432 and 525 of Pub. L. 110–140, which amended sections 8253 and 8259b of this title and enacted provisions set out as a note under section 8259b of this title.

Sections 431 through 435, referred to in subsecs. (c)(2)(B) and (d)(2), (3)(A)(i), are sections 431 to 435 of Pub. L. 110–140, which enacted section 17091 of this title, amended sections 6832, 6834, and 8253 of this title, and enacted provisions set out as a note under section 6834 of this title.

Section 432, referred to in subsec. (d)(1), is section 432 of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1607, which amended section 8253 of this title.

Section 525, referred to in subsec. (d)(2), is section 525 of Pub. L. 110–140, December 19, 2007, 121 Stat. 1663, which amended section 8259b of this title and enacted provisions set out as a note under section 8259b of this title.

This part, referred to in subsec. (d)(3)(C)(i), was in the original "this subtitle", meaning subtitle C (§§431–441) of title IV of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1607, which enacted this part, amended sections 6832, 6834, 8253, and 8254 of this title, and enacted provisions set out as a note under section 6834 of this title. For complete classification of subtitle C to the Code, see Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

¹ *See References in Text note below.*

² *So in original. Probably should be "and cooling".*

³ *So in original. Probably should be "this Act".*

§17096. Authorization of appropriations

There is authorized to be appropriated to carry out sections 434 through 439 and 482 ¹ \$4,000,000 for each of fiscal years 2008 through 2012, to remain available until expended.

(Pub. L. 110–140, title IV, §440, Dec. 19, 2007, 121 Stat. 1623.)

EDITORIAL NOTES

REFERENCES IN TEXT

Sections 434 through 439, referred to in text, are sections 434 to 439 of Pub. L. 110–140, which enacted sections 17091 to 17095 of this title and amended section 8253 of this title. Section 482 is unidentifiable because Pub. L. 110–140 does not contain a section 482.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

PART D—INDUSTRIAL ENERGY EFFICIENCY

§17111. Future of industry program

(a) Definitions

In this section:

(1) Eligible entity

The term "eligible entity" means—

- (A) an energy-intensive industry;
- (B) a national trade association representing an energy-intensive industry; or
- (C) a person acting on behalf of 1 or more energy-intensive industries or sectors, as determined by the Secretary.

(2) Energy-intensive industry

The term "energy-intensive industry" means an industry that uses significant quantities of energy as part of its primary economic activities, including—

- (A) information technology, including data centers containing electrical equipment used in processing, storing, and transmitting digital information;
- (B) consumer product manufacturing;
- (C) food processing;
- (D) materials manufacturers, including—

- (i) aluminum;
- (ii) chemicals;
- (iii) forest and paper products;
- (iv) metal casting;
- (v) glass;
- (vi) petroleum refining;
- (vii) mining; and
- (viii) steel;

(E) water and wastewater treatment facilities, including systems that treat municipal, industrial, and agricultural waste; and

(F) other energy-intensive industries, as determined by the Secretary.

(3) Feedstock

The term "feedstock" means the raw material supplied for use in manufacturing, chemical, and biological processes.

(4) Partnership

The term "partnership" means an energy efficiency partnership established under subsection (c)(1)(A).

(5) Program

The term "program" means the energy-intensive industries program established under subsection (b).

(b) Establishment of program

The Secretary shall establish a program under which the Secretary, in cooperation with energy-intensive industries and national industry trade associations representing the energy-intensive industries, shall support, research, develop, and promote the use of new materials processes, technologies, and techniques to optimize energy efficiency and the economic competitiveness of the United States' industrial and commercial sectors.

(c) Partnerships

(1) In general

As part of the program, the Secretary shall establish energy efficiency partnerships between the Secretary and eligible entities to conduct research on, develop, and demonstrate new processes, technologies, and operating practices and techniques to significantly improve the energy efficiency of equipment and processes used by energy-intensive industries, including the conduct of activities to—

- (A) increase the energy efficiency of industrial processes and facilities;
- (B) research, develop, and demonstrate advanced technologies capable of energy intensity reductions and increased environmental performance; and
- (C) promote the use of the processes, technologies, and techniques described in subparagraphs (A) and (B).

(2) Eligible activities

Partnership activities eligible for funding under this subsection include—

- (A) feedstock and recycling research, development, and demonstration activities to identify and promote—
 - (i) opportunities for meeting industry feedstock requirements with more energy efficient and flexible sources of feedstock or energy supply;
 - (ii) strategies to develop and deploy technologies that improve the quality and quantity of feedstocks recovered from process and waste streams; and
 - (iii) other methods using recycling, reuse, and improved industrial materials;

(B) research to develop and demonstrate technologies and processes that utilize alternative energy sources to supply heat, power, and new feedstocks for energy-intensive industries;

(C) research to achieve energy efficiency in steam, power, control system, and process heat technologies, and in other manufacturing processes; and

(D) industrial and commercial energy efficiency and sustainability assessments to—

(i) assist individual industrial and commercial sectors in developing tools, techniques, and methodologies to assess—

(I) the unique processes and facilities of the sectors;

(II) the energy utilization requirements of the sectors; and

(III) the application of new, more energy efficient technologies; and

(ii) conduct energy savings assessments;

(E) the incorporation of technologies and innovations that would significantly improve the energy efficiency and utilization of energy-intensive commercial applications; and

(F) any other activities that the Secretary determines to be appropriate.

(3) Proposals

(A) In general

To be eligible for funding under this subsection, a partnership shall submit to the Secretary a proposal that describes the proposed research, development, or demonstration activity to be conducted by the partnership.

(B) Review

After reviewing the scientific, technical, and commercial merit of a proposals ¹ submitted under subparagraph (A), the Secretary shall approve or disapprove the proposal.

(C) Competitive awards

The provision of funding under this subsection shall be on a competitive basis.

(4) Cost-sharing requirement

In carrying out this section, the Secretary shall require cost sharing in accordance with section 16352 of this title.

(d) Grants

The Secretary may award competitive grants for innovative technology research, development and demonstrations to universities, individual inventors, and small companies, based on energy savings potential, commercial viability, and technical merit.

(e) Authorization of appropriations

(1) In general

There are authorized to be appropriated to the Secretary to carry out this section—

(A) \$184,000,000 for fiscal year 2008;

(B) \$190,000,000 for fiscal year 2009;

(C) \$196,000,000 for fiscal year 2010;

(D) \$202,000,000 for fiscal year 2011;

(E) \$208,000,000 for fiscal year 2012; and

(F) such sums as are necessary for fiscal year 2013 and each fiscal year thereafter.

(2) Partnership activities

Of the amounts made available under paragraph (1), not less than 50 percent shall be used to pay the Federal share of partnership activities under subsection (c).

(3) Coordination and nonduplication

The Secretary shall coordinate efforts under this section with other programs of the Department

and other Federal agencies to avoid duplication of effort.

(Pub. L. 110–140, title IV, §452, Dec. 19, 2007, 121 Stat. 1634; Pub. L. 117–58, div. D, title V, §40521(a)(1), Nov. 15, 2021, 135 Stat. 1062.)

EDITORIAL NOTES

AMENDMENTS

2021—Pub. L. 117–58, §40521(a)(1)(A), substituted "Future of industry program" for "Energy-intensive industries program" in section catchline.

Subsec. (a)(2)(E), (F). Pub. L. 117–58, §40521(a)(1)(B), added subpar. (E) and redesignated former subpar. (E) as (F).

Subsecs. (e), (f). Pub. L. 117–58, §40521(a)(1)(C), (D), redesignated subsec. (f) as (e) and struck out former subsec. (e) which related to institution of higher education-based industrial research and assessment centers.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

¹ *So in original.*

§17112. Energy efficiency for data center buildings

(a) Definitions

In this section:

(1) Data center

The term "data center" means any facility that primarily contains electronic equipment used to process, store, and transmit digital information, which may be—

(A) a free-standing structure; or

(B) a facility within a larger structure, that uses environmental control equipment to maintain the proper conditions for the operation of electronic equipment.

(2) Data center operator

The term "data center operator" means any person or government entity that builds or operates a data center or purchases data center services, equipment, and facilities.

(b) Voluntary national information program

(1) In general

Not later than 90 days after December 19, 2007, the Secretary and the Administrator of the Environmental Protection Agency shall, after consulting with information technology industry and other interested parties, initiate a voluntary national information program for those types of data centers and data center equipment and facilities that are widely used and for which there is a potential for significant data center energy savings as a result of the program.

(2) Requirements

The program described in paragraph (1) shall—

(A) address data center efficiency holistically, reflecting the total energy consumption of data

centers as whole systems, including both equipment and facilities;

(B) consider prior work and studies undertaken in this area, including by the Environmental Protection Agency and the Department of Energy;

(C) consistent with the objectives described in paragraph (1), determine the type of data center and data center equipment and facilities to be covered under the program;

(D) produce specifications, measurements, best practices, and benchmarks that will enable data center operators to make more informed decisions about the energy efficiency and costs of data centers, and that take into account—

(i) the performance and use of servers, data storage devices, and other information technology equipment;

(ii) the efficiency of heating, ventilation, and air conditioning, cooling, and power conditioning systems, provided that no modification shall be required of a standard then in effect under the Energy Policy and Conservation Act (42 U.S.C. 6201 et seq.) for any covered heating, ventilation, air-conditioning, cooling or power-conditioning product;

(iii) energy savings from the adoption of software and data management techniques; and

(iv) other factors proposed by the stakeholders described in subsection (c);

(E) allow for creation of separate specifications, measurements, and benchmarks based on data center size and function, as well as other appropriate characteristics;

(F) advance the design and implementation of efficiency technologies to the maximum extent economically practical;

(G) provide to data center operators in the private sector and the Federal Government information about best practices and purchasing decisions that reduce the energy consumption of data centers; and

(H) publish the information described in subparagraph (G), which may be disseminated through catalogs, trade publications, the Internet, or other mechanisms, that will allow data center operators to assess the energy consumption and potential cost savings of alternative data centers and data center equipment and facilities.

(c) Stakeholder involvement

(1) In general

The Secretary and the Administrator shall carry out subsection (b) in collaboration with the information technology industry and other key stakeholders, with the goal of producing results that accurately reflect the most relevant and useful information.

(2) Considerations

In carrying out the collaboration described in paragraph (1), the Secretary and the Administrator shall pay particular attention to organizations that—

(A) have members with expertise in energy efficiency and in the development, operation, and functionality of data centers, information technology equipment, and software, including representatives of hardware manufacturers, data center operators, and facility managers;

(B) obtain and address input from the National Laboratories (as that term is defined in section 15801) of this title, or any institution of higher education, research institution, industry association, company, or public interest group with applicable expertise;

(C) follow—

(i) commonly accepted procedures for the development of specifications; and

(ii) accredited standards development processes; or

(D) have a mission to promote energy efficiency for data centers and information technology.

(d) Measurements and specifications

The Secretary and the Administrator shall consider and assess the adequacy of the specifications, measurements, best practices, and benchmarks described in subsection (b) for use by the Federal Energy Management Program, the Energy Star Program, and other efficiency programs of the

Department of Energy or the Environmental Protection Agency.

(e) Study

(1) Definition of report

In this subsection, the term "report" means the report of the Lawrence Berkeley National Laboratory entitled "United States Data Center Energy Usage Report" and dated June 2016, which was prepared as an update to the "Report to Congress on Server and Data Center Energy Efficiency", published on August 2, 2007, pursuant to section 1 of Public Law 109–431 (120 Stat. 2920).

(2) Study

Not later than 4 years after December 27, 2020, the Secretary, in collaboration with the Administrator, shall make available to the public an update to the report that provides—

(A) a comparison and gap analysis of the estimates and projections contained in the report with new data regarding the period from 2015 through 2019;

(B) an analysis considering the impact of information technologies, including virtualization and cloud computing, in the public and private sectors;

(C) an evaluation of the impact of the combination of cloud platforms, mobile devices, social media, and big data on data center energy usage;

(D) an evaluation of water usage in data centers and recommendations for reductions in that water usage; and

(E) updated projections and recommendations for best practices through fiscal year 2025.

(f) Data center energy practitioner program

(1) In general

The Secretary, in collaboration with key stakeholders and the Director of the Office of Management and Budget, shall maintain a data center energy practitioner program that provides for the certification of energy practitioners qualified to evaluate the energy usage and efficiency opportunities in federally owned and operated data centers.

(2) Evaluations

Each Federal agency shall consider having the data centers of the agency evaluated once every 4 years by energy practitioners certified pursuant to the program, whenever practicable using certified practitioners employed by the agency.

(g) Open data initiative

(1) In general

The Secretary, in collaboration with key stakeholders and the Director of the Office of Management and Budget, shall establish an open data initiative relating to energy usage at federally owned and operated data centers, with the purpose of making the data available and accessible in a manner that encourages further data center innovation, optimization, and consolidation.

(2) Consideration

In establishing the initiative under paragraph (1), the Secretary shall consider using the online Data Center Maturity Model.

(h) International specifications and metrics

The Secretary, in collaboration with key stakeholders, shall actively participate in efforts to harmonize global specifications and metrics for data center energy and water efficiency.

(i) Data center utilization metric

The Secretary, in collaboration with key stakeholders, shall facilitate in the development of an efficiency metric that measures the energy efficiency of a data center (including equipment and facilities).

(j) Protection of proprietary information

The Secretary and the Administrator shall not disclose any proprietary information or trade secrets provided by any individual or company for the purposes of carrying out this section or the programs and initiatives established under this section.

(Pub. L. 110–140, title IV, §453, Dec. 19, 2007, 121 Stat. 1637; Pub. L. 116–260, div. Z, title I, §1003, Dec. 27, 2020, 134 Stat. 2426.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Energy Policy and Conservation Act, referred to in subsec. (b)(2)(D)(ii), is Pub. L. 94–163, Dec. 22, 1975, 89 Stat. 871, which is classified principally to chapter 77 (§6201 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 6201 of this title and Tables.

Section 1 of Public Law 109–431 (120 Stat. 2920), referred to in subsec. (e)(1), is section 1 of Pub. L. 109–431, Dec. 20, 2006, 120 Stat. 2920, which is not classified to the Code.

AMENDMENTS

2020—Subsec. (b)(2)(D)(iv). Pub. L. 116–260, §1003(1)(A), substituted "proposed by the stakeholders" for "determined by the organization".

Subsec. (b)(3). Pub. L. 116–260, §1003(1)(B), struck out par. (3). Text read as follows: "The program described in paragraph (1) shall be developed in consultation with and coordinated by the organization described in subsection (c) according to commonly accepted procedures for the development of specifications, measurements, and benchmarks."

Subsecs. (c) to (j). Pub. L. 116–260, §1003(2), added subsecs. (c) to (j) and struck out former subsecs. (c) to (g) which related to consultation with a data center efficiency organization to coordinate the voluntary national information program, including the requirements of such coordination, measurements and specifications, monitoring, alternate systems, and protection of propriety information.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17113. Industrial emissions reduction technology development program

(a) Definitions

In this section:

(1) Director

The term "Director" means the Director of the Office of Science and Technology Policy.

(2) Eligible entity

The term "eligible entity" means—

- (A) a scientist or other individual with knowledge and expertise in emissions reduction;
- (B) an institution of higher education;
- (C) a nongovernmental organization;
- (D) a National Laboratory;
- (E) a private entity; and
- (F) a partnership or consortium of 2 or more entities described in subparagraphs (B) through (E).

(3) Emissions reduction

(A) In general

The term "emissions reduction" means the reduction, to the maximum extent practicable, of net nonwater greenhouse gas emissions to the atmosphere by energy services and industrial processes.

(B) Exclusion

The term "emissions reduction" does not include the elimination of carbon embodied in the principal products of industrial manufacturing.

(4) Program

The term "program" means the program established under subsection (b)(1).

(5) Critical material or mineral

The term "critical material or mineral" means a material or mineral that serves an essential function in the manufacturing of a product and has a high risk of a supply disruption, such that a shortage of such a material or mineral would have significant consequences for United States economic or national security.

(b) Industrial emissions reduction technology development program

(1) In general

Not later than 1 year after December 27, 2020, the Secretary, in consultation with the Director, the heads of relevant Federal agencies, National Laboratories, industry, and institutions of higher education, shall establish a crosscutting industrial emissions reduction technology development program of research, development, demonstration, and commercial application to advance innovative technologies that—

(A) increase the technological and economic competitiveness of industry and manufacturing in the United States;

(B) increase the viability and competitiveness of United States industrial technology exports; and

(C) achieve emissions reduction in nonpower industrial sectors.

(2) Coordination

In carrying out the program, the Secretary shall—

(A) coordinate with each relevant office in the Department and any other Federal agency;

(B) coordinate and collaborate with the Industrial Technology Innovation Advisory Committee established under section 17115 of this title; and

(C) coordinate and seek to avoid duplication with the Future of Industry ¹ program established under section 17111 of this title.

(3) Leverage of existing resources

In carrying out the program, the Secretary shall leverage, to the maximum extent practicable—

(A) existing resources and programs of the Department and other relevant Federal agencies; and

(B) public-private partnerships.

(c) Focus areas

The program shall focus on—

(1) industrial production processes, including technologies and processes that—

(A) achieve emissions reduction in high emissions industrial materials production processes, including production processes for iron, steel, steel mill products, aluminum, cement, concrete, glass, pulp, paper, and industrial ceramics;

(B) achieve emissions reduction in medium- and high-temperature heat generation, including—

(i) through electrification of heating processes;

(ii) through renewable heat generation technology;

(iii) through combined heat and power; and

(iv) by switching to alternative fuels, including hydrogen and nuclear energy;

(C) achieve emissions reduction in chemical production processes, including by incorporating, if appropriate and practicable, principles, practices, and methodologies of sustainable chemistry and engineering;

(D) leverage smart manufacturing technologies and principles, digital manufacturing technologies, and advanced data analytics to develop advanced technologies and practices in information, automation, monitoring, computation, sensing, modeling, and networking to—

- (i) model and simulate manufacturing production lines;
- (ii) monitor and communicate production line status;
- (iii) manage and optimize energy productivity and cost throughout production; and
- (iv) model, simulate, and optimize the energy efficiency of manufacturing processes;

(E) leverage the principles of sustainable manufacturing to minimize the potential negative environmental impacts of manufacturing while conserving energy and resources, including—

- (i) by designing products that enable reuse, refurbishment, remanufacturing, and recycling;
- (ii) by minimizing waste from industrial processes, including through the reuse of waste as other resources in other industrial processes for mutual benefit; and
- (iii) by increasing resource efficiency; and

(F) increase the energy efficiency of industrial processes;

(2) alternative materials that produce fewer emissions during production and result in fewer emissions during use, including—

- (A) high-performance lightweight materials; and
- (B) substitutions for critical materials and minerals;

(3) development of net-zero emissions liquid and gaseous fuels;

(4) emissions reduction in shipping, aviation, and long distance transportation;

(5) carbon capture technologies for industrial processes;

(6) other technologies that achieve net-zero emissions in nonpower industrial sectors, as determined by the Secretary, in consultation with the Director; and

(7) high-performance computing to develop advanced materials and manufacturing processes contributing to the focus areas described in paragraphs (1) through (6), including—

- (A) modeling, simulation, and optimization of the design of energy efficient and sustainable products; and
- (B) the use of digital prototyping and additive manufacturing to enhance product design.

(8) incorporation of sustainable chemistry and engineering principles, practices, and methodologies, as the Secretary determines appropriate; and

(9) other research or technology areas identified in the Strategic Plan authorized in section 17114 of this title.

(d) Grants, contracts, cooperative agreements, and demonstration projects

(1) Grants

In carrying out the program, the Secretary shall award grants on a competitive basis to eligible entities for projects that the Secretary determines would best achieve the goals of the program.

(2) Contracts and cooperative agreements

In carrying out the program, the Secretary may enter into contracts and cooperative agreements with eligible entities and Federal agencies for projects that the Secretary determines would further the purposes of the program.

(3) Demonstration projects

In supporting technologies developed under this section, the Secretary shall fund demonstration projects that test and validate technologies described in subsection (c).

(4) Application

An entity seeking funding or a contract or agreement under this subsection shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(5) Cost sharing

In awarding funds under this section, the Secretary shall require cost sharing in accordance with section 16352 of this title.

(e) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the demonstration projects authorized in subsection (d)(3)—

- (1) \$20,000,000 for fiscal year 2021;
- (2) \$80,000,000 for fiscal year 2022;
- (3) \$100,000,000 for fiscal year 2023;
- (4) \$150,000,000 for fiscal year 2024; and
- (5) \$150,000,000 for fiscal year 2025.

(f) Coordination

The Secretary shall carry out the activities authorized in this section in accordance with section 18631 of this title.

(Pub. L. 110–140, title IV, §454, as added Pub. L. 116–260, div. Z, title VI, §6003(a), Dec. 27, 2020, 134 Stat. 2553; amended Pub. L. 117–58, div. D, title V, §40521(a)(2), Nov. 15, 2021, 135 Stat. 1062.)

EDITORIAL NOTES

AMENDMENTS

2021—Subsec. (b)(2)(C). Pub. L. 117–58 substituted "Future of Industry" for "energy-intensive industries".

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

PURPOSE

Pub. L. 116–260, div. Z, title VI, §6001, Dec. 27, 2020, 134 Stat. 2552, provided that: "The purpose of this title [enacting this section and sections 17114 to 17115a of this title and amending section 6351 of this title] and the amendments made by this title is to encourage the development and evaluation of innovative technologies aimed at increasing—

"(1) the technological and economic competitiveness of industry and manufacturing in the United States; and

"(2) the emissions reduction of nonpower industrial sectors."

¹ *So in original.*

§17113a. Low-emissions steel manufacturing research program

(a) Purpose

The purpose of this section is to encourage the research and development of innovative technologies aimed at—

- (1) increasing the technological and economic competitiveness of industry and manufacturing in the United States; and
- (2) achieving significant net nonwater greenhouse emissions reductions in the production processes for iron, steel, and steel mill products.

(b) Definitions

In this section:

(1) Commercially available steelmaking

The term "commercially available steelmaking" means the current production method of iron, steel, and steel mill products.

(2) Critical material

The term "critical material" has the meaning given such term in section 1606 of title 30.

(3) Critical mineral

The term "critical mineral" has the meaning given such term in section 1606 of title 30.

(4) Eligible entity

The term "eligible entity" means—

- (A) an institution of higher education;
- (B) an appropriate State or Federal entity, including a federally funded research and development center of the Department;
- (C) a nonprofit research institution;
- (D) a private entity;
- (E) any other relevant entity the Secretary determines appropriate; and
- (F) a partnership or consortium of two or more entities described in subparagraphs (A) through (E).

(5) Institution of higher education

The term "institution of higher education" has the meaning given the term in section 1001 of title 20.

(6) Low-emissions steel manufacturing

The term "low-emissions steel manufacturing" means advanced or commercially available steelmaking with the reduction, to the maximum extent practicable, of net nonwater greenhouse gas emissions to the atmosphere from the production of iron, steel, and steel mill products.

(c) In general

Not later than 180 days after August 9, 2022, the Secretary shall establish a program of research, development, demonstration, and commercial application of advanced tools, technologies, and methods for low-emissions steel manufacturing.

(d) Requirements

In carrying out the program under subsection (c), the Secretary shall—

- (1) coordinate this program with the programs and activities authorized in title VI of division Z of the Consolidated Appropriations Act, 2021;
- (2) coordinate across all relevant program offices of the Department, including the Office of Science, Office of Energy Efficiency and Renewable Energy, the Office of Fossil Energy, and the Office of Nuclear Energy;
- (3) leverage, to the extent practicable, the research infrastructure of the Department, including scientific computing user facilities, x-ray light sources, neutron scattering facilities, and nanoscale science research centers; and
- (4) conduct research, development, and demonstration of low-emissions steel manufacturing technologies that have the potential to increase domestic production and employment in advanced

and commercially available steelmaking.

(e) Strategic plan

(1) In general

Not later than 180 days after August 9, 2022, the Secretary shall develop a 5-year strategic plan identifying research, development, demonstration, and commercial application goals for the program established in subsection (c). The Secretary shall submit this plan to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

(2) Contents

The strategic plan submitted under paragraph (1) shall—

(A) identify programs at the Department related to low-emissions steel manufacturing that support the research, development, demonstration, and commercial application activities described in this section, and the demonstration projects under subsection (h);

(B) establish technological and programmatic goals to achieve the requirements of subsection (d); and

(C) include timelines for the accomplishment of goals developed under the plan.

(3) Updates to plan

Not less than once every two years, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate an updated version of the plan under paragraph (1).

(f) Focus areas

In carrying out the program established in subsection (c), the Secretary shall focus on—

(1) medium- and high-temperature heat generation technologies used for low-emissions steel manufacturing, which may include—

(A) alternative fuels, including hydrogen and biomass;

(B) alternative reducing agents, including hydrogen;

(C) renewable heat generation technology, including solar and geothermal;

(D) electrification of heating processes, including through electrolysis; and

(E) other heat generation sources;

(2) carbon capture technologies for advanced and commercially available steelmaking processes, which may include—

(A) combustion and chemical looping technologies;

(B) use of slag to reduce carbon dioxide emissions;

(C) pre-combustion technologies; and

(D) post-combustion technologies;

(3) smart manufacturing technologies and principles, digital manufacturing technologies, and advanced data analytics to develop advanced technologies and practices in information, automation, monitoring, computation, sensing, modeling, and networking to—

(A) model and simulate manufacturing production lines;

(B) monitor and communicate production line status; and

(C) model, simulate, and optimize the energy efficiency of manufacturing processes;

(4) technologies and practices that minimize energy and natural resource consumption, which may include—

(A) designing products that enable reuse, refurbishment, remanufacturing, and recycling;

(B) minimizing waste from advanced and commercially available steelmaking processes, including through the reuse of waste as resources in other industrial processes for mutual benefit;

- (C) increasing resource efficiency; and
- (D) increasing the energy efficiency of advanced and commercially available steelmaking processes;

(5) alternative materials and technologies that produce fewer emissions during production and result in fewer emissions during use, which may include—

- (A) innovative raw materials;
- (B) high-performance lightweight materials;
- (C) substitutions for critical materials and critical minerals; and
- (D) other technologies that achieve significant carbon emission reductions in low-emissions steel manufacturing, as determined by the Secretary; and

(6) high-performance computing to develop advanced materials and manufacturing processes contributing to the focus areas described in paragraphs (1) through (5), including—

- (A) modeling, simulation, and optimization of the design of energy efficient and sustainable products; and
- (B) the use of digital prototyping and additive manufacturing to enhance product design.

(g) Testing and validation

The Secretary, in consultation with the Director of the National Institute of Standards and Technology, shall support the development of standardized testing and technical validation of advanced and commercially available steelmaking and low-emissions steel manufacturing through collaboration with one or more National Laboratories, and one or more eligible entities.

(h) Demonstration

(1) Establishment

Not later than 180 days after August 9, 2022, the Secretary, in carrying out the program established in subsection (c), and in collaboration with industry partners, institutions of higher education, and the National Laboratories, shall support an initiative for the demonstration of low-emissions steel manufacturing, as identified by the Secretary, that uses either—

- (A) a single technology; or
- (B) a combination of multiple technologies.

(2) Selection requirements

Under the initiative established under paragraph (1), the Secretary shall select eligible entities to carry out demonstration projects and to the maximum extent practicable—

- (A) encourage regional diversity among eligible entities, including participation by rural States;
- (B) encourage technological diversity among eligible entities; and
- (C) ensure that specific projects selected—
 - (i) expand on the existing technology demonstration programs of the Department; and
 - (ii) prioritize projects that leverage matching funds from non-Federal sources.

(3) Reports

The Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate—

- (A) not less frequently than once every two years for the duration of the demonstration initiative under this subsection, a report describing the performance of the initiative; and
- (B) if the initiative established under this subsection is terminated, an assessment of the success of, and education provided by, the measures carried out by recipients of financial assistance under the initiative.

(i) Additional coordination

(1) Manufacturing U.S.A.

In carrying out this section the Secretary shall consider—

- (A) leveraging the resources of relevant existing Manufacturing USA Institutes described in section 278s(d) of title 15;
- (B) integrating program activities into a relevant existing Manufacturing USA Institute; or
- (C) establishing a new institute focused on low-emissions steel manufacturing.

(2) Other Federal agencies

In carrying out this section, the Secretary shall coordinate with other Federal agencies that are carrying out research and development initiatives to increase industrial competitiveness and achieve significant net nonwater greenhouse emissions reductions through low-emissions steel manufacturing, including the Department of Defense, Department of Transportation, and the National Institute of Standards and Technology.

(Pub. L. 110–140, title IV, §454A, as added Pub. L. 117–167, div. B, title VI, §10751(a), Aug. 9, 2022, 136 Stat. 1722.)

EDITORIAL NOTES

REFERENCES IN TEXT

Title VI of division Z of the Consolidated Appropriations Act, 2021, referred to in subsec. (d)(1), is title VI of div. Z of Pub. L. 116–260, Dec. 27, 2020, 134 Stat. 2552, which enacted sections 17113 and 17114 to 17115a of this title, amended section 6351 of this title, and enacted provisions set out as a note under section 17113 of this title. For complete classification of title VI to the Code, see Tables.

§17113b. Advanced industrial facilities deployment program

(a) Office of Clean Energy Demonstrations

In addition to amounts otherwise available, there is appropriated to the Secretary, acting through the Office of Clean Energy Demonstrations, for fiscal year 2022, out of any money in the Treasury not otherwise appropriated, \$5,812,000,000, to remain available through September 30, 2026, to carry out this section.

(b) Financial assistance

The Secretary shall use funds appropriated by subsection (a) to provide financial assistance, on a competitive basis, to eligible entities to carry out projects for—

- (1) the purchase and installation, or implementation, of advanced industrial technology at an eligible facility;
- (2) retrofits, upgrades to, or operational improvements at an eligible facility to install or implement advanced industrial technology; or
- (3) engineering studies and other work needed to prepare an eligible facility for activities described in paragraph (1) or (2).

(c) Application

To be eligible to receive financial assistance under subsection (b), an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including the expected greenhouse gas emissions reductions to be achieved by carrying out the project.

(d) Priority

In providing financial assistance under subsection (b), the Secretary shall give priority consideration to projects on the basis of, as determined by the Secretary—

- (1) the expected greenhouse gas emissions reductions to be achieved by carrying out the project;
- (2) the extent to which the project would provide the greatest benefit for the greatest number of people within the area in which the eligible facility is located; and

(3) whether the eligible entity participates or would participate in a partnership with purchasers of the output of the eligible facility.

(e) Cost share

The Secretary shall require an eligible entity to provide not less than 50 percent of the cost of a project carried out pursuant to this section.

(f) Administrative costs

The Secretary shall reserve not more than \$300,000,000 of amounts made available under subsection (a) for administrative costs of carrying out this section.

(g) Definitions

In this section:

(1) Advanced industrial technology

The term "advanced industrial technology" means a technology directly involved in an industrial process, as described in any of paragraphs (1) through (6) of section 17113(c) of this title, and designed to accelerate greenhouse gas emissions reduction progress to net-zero at an eligible facility, as determined by the Secretary.

(2) Eligible entity

The term "eligible entity" means the owner or operator of an eligible facility.

(3) Eligible facility

The term "eligible facility" means a domestic, non-Federal, nonpower industrial or manufacturing facility engaged in energy-intensive industrial processes, including production processes for iron, steel, steel mill products, aluminum, cement, concrete, glass, pulp, paper, industrial ceramics, chemicals, and other energy intensive industrial processes, as determined by the Secretary.

(4) Financial assistance

The term "financial assistance" means a grant, rebate, direct loan, or cooperative agreement.

(Pub. L. 117–169, title V, §50161, Aug. 16, 2022, 136 Stat. 2049.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of Pub. L. 117–169, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

STATUTORY NOTES AND RELATED SUBSIDIARIES

DEFINITIONS

Pub. L. 117–169, title V, §50111, Aug. 16, 2022, 136 Stat. 2033, provided that:

"In this subtitle [subtitle A (§§50111–50173) of title V of Pub. L. 117–169, enacting this section, sections 16517, 18715 to 18715b, and 18795 to 18795b of this title, and amending sections 16511, 16512, and 17013 of this title and section 3502 of Title 25, Indians]:

"(1) GREENHOUSE GAS.—The term 'greenhouse gas' has the meaning given the term in section 1610(a) of the Energy Policy Act of 1992 (42 U.S.C. 13389(a)).

"(2) SECRETARY.—The term 'Secretary' means the Secretary of Energy.

"(3) STATE.—The term 'State' means a State, the District of Columbia, and a United States Insular Area (as that term is defined in section 50211 [of Pub. L. 117–169; 43 U.S.C. 3006 note]).

"(4) STATE ENERGY OFFICE.—The term 'State energy office' has the meaning given the term in section 124(a) of the Energy Policy Act of 2005 (42 U.S.C. 15821(a)).

"(5) STATE ENERGY PROGRAM.—The term 'State Energy Program' means the State Energy Program established pursuant to part D of title III of the Energy Policy and Conservation Act (42 U.S.C. 6321 through 6326)."

§17114. Industrial Technology Innovation Advisory Committee

(a) Definitions

In this section:

(1) Committee

The term "Committee" means the Industrial Technology Innovation Advisory Committee established under subsection (b).

(2) Director

The term "Director" means the Director of the Office of Science and Technology Policy.

(3) Emissions reduction

The term "emissions reduction" has the meaning given the term in section 17113(a) of this title.

(4) Program

The term "program" means the industrial emissions reduction technology development program established under section 17113(b)(1) of this title.

(b) Establishment

Not later than 180 days after December 27, 2020, the Secretary, in consultation with the Director, shall establish an advisory committee, to be known as the "Industrial Technology Innovation Advisory Committee".

(c) Membership

(1) Appointment

The Committee shall be comprised of not fewer than 16 members and not more than 20 members, who shall be appointed by the Secretary, in consultation with the Director.

(2) Representation

Members appointed pursuant to paragraph (1) shall include—

(A) not less than 1 representative of each relevant Federal agency, as determined by the Secretary;

(B) the Chair of the Secretary of Energy Advisory Board, if that position is filled;

(C) not less than 2 representatives of labor groups;

(D) not less than 3 representatives of the research community, which shall include academia and National Laboratories;

(E) not less than 2 representatives of nongovernmental organizations;

(F) ¹ not less than 6 representatives of small- and large-scale industry, the collective expertise of which shall cover every focus area described in section 17113(c) of this title; and ²

(F) ¹ not less than 1 representative of a State government; and

(G) any other individuals the Secretary, in coordination with the Director, determines to be necessary to ensure that the Committee is comprised of a diverse group of representatives of industry, academia, independent researchers, and public and private entities.

(3) Chair

The Secretary shall designate a member of the Committee to serve as Chair.

(d) Duties

(1) In general

The Committee shall—

(A) in consultation with the Secretary and the Director, propose missions and goals for the program, which shall be consistent with the purposes of the program described in section 17113(b)(1) of this title; and

(B) advise the Secretary with respect to the program—

- (i) by identifying and evaluating any technologies being developed by the private sector relating to the focus areas described in section 17113(c) of this title;
- (ii) by identifying technology gaps in the private sector or other Federal agencies in those focus areas, and making recommendations to address those gaps;
- (iii) by surveying and analyzing factors that prevent the adoption of emissions reduction technologies by the private sector; and
- (iv) by recommending technology screening criteria for technology developed under the program to encourage adoption of the technology by the private sector; and

(C) develop the strategic plan described in paragraph (2).

(2) Strategic plan

(A) Purpose

The purpose of the strategic plan developed under paragraph (1)(C) is to set forth a plan for achieving the goals of the program established in section 17113(b)(1) of this title, including for the focus areas described in section 17113(c) of this title.

(B) Contents

The strategic plan developed under paragraph (1)(C) shall—

- (i) specify near-term and long-term qualitative and quantitative objectives relating to each focus area described in section 17113(c) of this title, including research, development, demonstration, and commercial application objectives;
- (ii) leverage existing roadmaps relevant to the program in section 17113(b)(1) of this title and the focus areas in section 17113(c) of this title;
- (iii) specify the anticipated timeframe for achieving the objectives specified under clause (i);
- (iv) include plans for developing emissions reduction technologies that are globally cost-competitive, including, as applicable, in developing economies;
- (v) identify the appropriate role for investment by the Federal Government, in coordination with the private sector, to achieve the objectives specified under clause (i);
- (vi) identify the public and private costs of achieving the objectives specified under clause (i); and
- (vii) estimate the economic and employment impact in the United States of achieving those objectives.

(e) Meetings

(1) Frequency

The Committee shall meet not less frequently than 2 times per year, at the call of the Chair.

(2) Initial meeting

Not later than 30 days after the date on which the members are appointed under subsection (b), the Committee shall hold its first meeting.

(f) Committee report

(1) In general

Not later than 2 years after December 27, 2020, and not less frequently than once every 3 years thereafter, the Committee shall submit to the Secretary a report on the progress of achieving the purposes of the program.

(2) Contents

The report under paragraph (1) shall include—

- (A) a description of any technology innovation opportunities identified by the Committee;
- (B) a description of any technology gaps identified by the Committee under subsection

(d)(1)(B)(ii);

(C) recommendations for improving technology screening criteria and management of the program;

(D) an evaluation of the progress of the program and the research, development, and demonstration activities funded under the program;

(E) any recommended changes to the focus areas of the program described in section 17113(c) of this title;

(F) a description of the manner in which the Committee has carried out the duties described in subsection (d)(1) and any relevant findings as a result of carrying out those duties;

(G) if necessary, an update to the strategic plan developed by the Committee under subsection (d)(1)(C);

(H) the progress made in achieving the goals set out in that strategic plan;

(I) a review of the management, coordination, and industry utility of the program;

(J) an assessment of the extent to which progress has been made under the program in developing commercial, cost-competitive technologies in each focus area described in section 17113(c) of this title; and

(K) an assessment of the effectiveness of the program in coordinating efforts within the Department and with other Federal agencies to achieve the purposes of the program.

(g) Report to Congress

Not later than 60 days after receiving a report from the Committee under subsection (f), the Secretary shall submit a copy of that report to the Committees on Appropriations and Science, Space, and Technology of the House of Representatives, the Committees on Appropriations and Energy and Natural Resources of the Senate, and any other relevant Committee of Congress.

(h) Applicability of Federal Advisory Committee Act

Except as otherwise provided in this section, the Federal Advisory Committee Act (5 U.S.C. App.) ³ shall apply to the Committee.

(Pub. L. 110–140, title IV, §455, as added Pub. L. 116–260, div. Z, title VI, §6004(a), Dec. 27, 2020, 134 Stat. 2556.)

EDITORIAL NOTES

§17115. Technical assistance program to implement industrial emissions reduction

(a) Definitions

In this section:

(1) Eligible entity

The term "eligible entity" means—

- (A) a State;
- (B) a unit of local government;
- (C) a territory or possession of the United States;
- (D) a relevant State or local office, including an energy office;
- (E) a tribal organization (as defined in section 3765 of title 38);
- (F) an institution of higher education; and ¹
- (G) a private entity; and
- (H) a trade association or technical society.

(2) Emissions reduction

The term "emissions reduction" has the meaning given the term in section 17113(a) of this title.

(3) Program

The term "program" means the program established under subsection (b).

(b) Establishment

Not later than 1 year after December 27, 2020, the Secretary shall establish a program to provide technical assistance to eligible entities to promote the commercial application of emission reduction technologies developed through the program established in section 17113(b) of this title.

(c) Applications

(1) In general

An eligible entity desiring technical assistance under the program shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(2) Application process

The Secretary shall seek applications for technical assistance under the program on a periodic basis, but not less frequently than once every 12 months.

(3) Factors for consideration

In selecting eligible entities for technical assistance under the program, the Secretary shall, to the maximum extent practicable—

- (A) give priority to—
 - (i) activities carried out with technical assistance under the program that have the greatest potential for achieving emissions reduction in nonpower industrial sectors;
 - (ii) activities carried out in a State in which there are active or inactive industrial facilities that may be used or retrofitted to carry out activities under the focus areas described in section 17113(c) of this title; and
 - (iii) activities carried out in an economically distressed area (as described in section 3161(a) of this title); and
- (B) ensure that—
 - (i) there is geographic diversity among the eligible entities selected; and
 - (ii) the activities carried out with technical assistance under the program reflect a majority of the focus areas described in section 17113(c) of this title.

(Pub. L. 110–140, title IV, §456, as added Pub. L. 116–260, div. Z, title VI, §6005(a), Dec. 27, 2020, 134 Stat. 2559.)

¹ *So in original.*

§17115a. Development of national smart manufacturing plan

(a) In general

Not later than 3 years after December 27, 2020, the Secretary of Energy (in this section referred to as the "Secretary"), in consultation with the National Academies, shall develop and complete a national plan for smart manufacturing technology development and deployment to improve the productivity and energy efficiency of the manufacturing sector of the United States.

(b) Content

(1) In general

The plan developed under subsection (a) shall identify areas in which agency actions by the Secretary and other heads of relevant Federal agencies would—

- (A) facilitate quicker development, deployment, and adoption of smart manufacturing technologies and processes;
- (B) result in greater energy efficiency and lower environmental impacts for all American manufacturers; and
- (C) enhance competitiveness and strengthen the manufacturing sectors of the United States.

(2) Inclusions

Agency actions identified under paragraph (1) shall include—

- (A) an assessment of previous and current actions of the Department relating to smart manufacturing;
- (B) the establishment of voluntary interconnection protocols and performance standards;
- (C) the use of smart manufacturing to improve energy efficiency and reduce emissions in supply chains across multiple companies;
- (D) actions to increase cybersecurity in smart manufacturing infrastructure;
- (E) deployment of existing research results;
- (F) the leveraging of existing high-performance computing infrastructure; and
- (G) consideration of the impact of smart manufacturing on existing manufacturing jobs and future manufacturing jobs.

(c) Biennial revisions

Not later than 2 years after the date on which the Secretary completes the plan under subsection (a), and not less frequently than once every 2 years thereafter, the Secretary shall revise the plan to account for advancements in information and communication technology and manufacturing needs.

(d) Report

Annually until the completion of the plan under subsection (a), the Secretary shall submit to Congress a report on the progress made in developing the plan.

(e) Definition

In this section, the term "smart manufacturing" means advanced technologies in information, automation, monitoring, computation, sensing, modeling, artificial intelligence, analytics, and networking that—

- (1) digitally—
 - (A) simulate manufacturing production lines;
 - (B) operate computer-controlled manufacturing equipment;
 - (C) monitor and communicate production line status; and
 - (D) manage and optimize energy productivity and cost throughout production;
- (2) model, simulate, and optimize the energy efficiency of a factory building;
- (3) monitor and optimize building energy performance;
- (4) model, simulate, and optimize the design of energy efficient and sustainable products, including the use of digital prototyping and additive manufacturing to enhance product design;
- (5) connect manufactured products in networks to monitor and optimize the performance of the networks, including automated network operations; and
- (6) digitally connect the supply chain network.

(Pub. L. 116–260, div. Z, title VI, §6006, Dec. 27, 2020, 134 Stat. 2560.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

§17116. Industrial research and assessment centers

(a) Definitions

In this section:

(1) Covered project

The term "covered project" means a project—

(A) that has been recommended in an energy assessment described in paragraph (2)(A) conducted for an eligible entity; and

(B) with respect to which the plant site of that eligible entity—

(i) improves—

(I) energy efficiency;

(II) material efficiency;

(III) cybersecurity; or

(IV) productivity; or

(ii) reduces—

(I) waste production;

(II) greenhouse gas emissions; or

(III) nongreenhouse gas pollution.

(2) Eligible entity

The term "eligible entity" means a small- or medium-sized manufacturer that has had an energy assessment completed by—

(A) an industrial research and assessment center;

(B) a Department of Energy Combined Heat and Power Technical Assistance Partnership jointly with an industrial research and assessment center; or

(C) a third-party assessor that provides an assessment equivalent to an assessment described in subparagraph (A) or (B), as determined by the Secretary.

(3) Energy service provider

The term "energy service provider" means—

(A) any business providing technology or services to improve the energy efficiency, water efficiency, power factor, or load management of a manufacturing site or other industrial process in an energy-intensive industry (as defined in section 17111(a) of this title); and

(B) any utility operating under a utility energy service project.

(4) Industrial research and assessment center

The term "industrial research and assessment center" means—

(A) an institution of higher education-based industrial research and assessment center that is funded by the Secretary under subsection (b); and

(B) an industrial research and assessment center at a trade school, community college, or union training program that is funded by the Secretary under subsection (f).

(5) Program

The term "Program" means the program for implementation grants established under subsection

(i)(1).

(6) Small- or medium-sized manufacturer

The term "small- or medium-sized manufacturer" means a manufacturing firm—

- (A) the gross annual sales of which are less than \$100,000,000;
- (B) that has fewer than 500 employees at the plant site of the manufacturing firm; and
- (C) the annual energy bills of which total more than \$100,000 but less than \$3,500,000.

(b) Institution of higher education-based industrial research and assessment centers

(1) In general

The Secretary shall provide funding to institution of higher education-based industrial research and assessment centers.

(2) Purpose

The purpose of each institution of higher education-based industrial research and assessment center shall be—

(A) to provide in-depth assessments of small- and medium-sized manufacturer plant sites to evaluate the facilities, services, and manufacturing operations of the plant sites;

(B) to identify opportunities for optimizing energy efficiency and environmental performance, including implementation of—

- (i) smart manufacturing;
- (ii) energy management systems;
- (iii) sustainable manufacturing;
- (iv) information technology advancements for supply chain analysis, logistics, system monitoring, industrial and manufacturing processes, and other purposes; and
- (v) waste management systems;

(C) to promote applications of emerging concepts and technologies in small- and medium-sized manufacturers (including water and wastewater treatment facilities and federally owned manufacturing facilities);

(D) to promote research and development for the use of alternative energy sources to supply heat, power, and new feedstocks for energy-intensive industries;

(E) to coordinate with appropriate Federal and State research offices;

(F) to provide a clearinghouse for industrial process and energy efficiency technical assistance resources; and

(G) to coordinate with State-accredited technical training centers and community colleges, while ensuring appropriate services to all regions of the United States.

(c) Coordination

To increase the value and capabilities of the industrial research and assessment centers, the centers shall—

(1) coordinate with Manufacturing Extension Partnership Centers of the National Institute of Standards and Technology;

(2) coordinate with the Federal Energy Management Program and the Building Technologies Office of the Department of Energy to provide building assessment services to manufacturers;

(3) increase partnerships with the National Laboratories of the Department of Energy to leverage the expertise, technologies, and research and development capabilities of the National Laboratories for national industrial and manufacturing needs;

(4) increase partnerships with energy service providers and technology providers to leverage private sector expertise and accelerate deployment of new and existing technologies and processes for energy efficiency, power factor, and load management;

(5) identify opportunities for reducing greenhouse gas emissions and other air emissions; and

(6) promote sustainable manufacturing practices for small- and medium-sized manufacturers.

(d) Outreach

The Secretary shall provide funding for—

- (1) outreach activities by the industrial research and assessment centers to inform small- and medium-sized manufacturers of the information, technologies, and services available; and
- (2) coordination activities by each industrial research and assessment center to leverage efforts with—
 - (A) Federal, State, and Tribal efforts;
 - (B) the efforts of utilities and energy service providers;
 - (C) the efforts of regional energy efficiency organizations; and
 - (D) the efforts of other industrial research and assessment centers.

(e) Centers of Excellence

(1) Establishment

The Secretary shall establish a Center of Excellence at not more than 5 of the highest-performing industrial research and assessment centers, as determined by the Secretary.

(2) Duties

A Center of Excellence shall coordinate with and advise the industrial research and assessment centers located in the region of the Center of Excellence, including—

(A) by mentoring new directors and staff of the industrial research and assessment centers with respect to—

- (i) the availability of resources; and
- (ii) best practices for carrying out assessments, including through the participation of the staff of the Center of Excellence in assessments carried out by new industrial research and assessment centers;

(B) by providing training to staff and students at the industrial research and assessment centers on new technologies, practices, and tools to expand the scope and impact of the assessments carried out by the centers;

(C) by assisting the industrial research and assessment centers with specialized technical opportunities, including by providing a clearinghouse of available expertise and tools to assist the centers and clients of the centers in assessing and implementing those opportunities;

(D) by identifying and coordinating with regional, State, local, Tribal, and utility energy efficiency programs for the purpose of facilitating efforts by industrial research and assessment centers to connect industrial facilities receiving assessments from those centers with regional, State, local, and utility energy efficiency programs that could aid the industrial facilities in implementing any recommendations resulting from the assessments;

(E) by facilitating coordination between the industrial research and assessment centers and other Federal programs described in paragraphs (1) through (3) of subsection (c); and

(F) by coordinating the outreach activities of the industrial research and assessment centers under subsection (d)(1).

(3) Funding

For each fiscal year, out of any amounts made available to carry out this section under subsection (j), the Secretary shall use not less than \$500,000 to support each Center of Excellence.

(f) Expansion of industrial research and assessment centers

(1) In general

The Secretary shall provide funding to establish additional industrial research and assessment centers at trade schools, community colleges, and union training programs.

(2) Purpose

(A) In general

Subject to subparagraph (B), to the maximum extent practicable, an industrial research and assessment center established under paragraph (1) shall have the same purpose as an institution

of higher education-based industrial research center that is funded by the Secretary under subsection (b)(1).

(B) Consideration of capabilities

In evaluating or establishing the purpose of an industrial research and assessment center established under paragraph (1), the Secretary shall take into consideration the varying capabilities of trade schools, community colleges, and union training programs.

(g) Workforce training

(1) Internships

The Secretary shall pay the Federal share of associated internship programs under which students work with or for industries, manufacturers, and energy service providers to implement the recommendations of industrial research and assessment centers.

(2) Apprenticeships

The Secretary shall pay the Federal share of associated apprenticeship programs under which—

(A) students work with or for industries, manufacturers, and energy service providers to implement the recommendations of industrial research and assessment centers; and

(B) employees of facilities that have received an assessment from an industrial research and assessment center work with or for an industrial research and assessment center to gain knowledge on engineering practices and processes to improve productivity and energy savings.

(3) Federal share

The Federal share of the cost of carrying out internship programs described in paragraph (1) and apprenticeship programs described in paragraph (2) shall be 50 percent.

(h) Small business loans

The Administrator of the Small Business Administration shall, to the maximum extent practicable, expedite consideration of applications from eligible small business concerns for loans under the Small Business Act (15 U.S.C. 631 et seq.) to implement recommendations developed by the industrial research and assessment centers.

(i) Implementation grants

(1) In general

The Secretary shall establish a program under which the Secretary shall provide grants to eligible entities to implement covered projects.

(2) Application

An eligible entity seeking a grant under the Program shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including a demonstration of need for financial assistance to implement the proposed covered project.

(3) Priority

In awarding grants under the Program, the Secretary shall give priority to eligible entities that—

(A) have had an energy assessment completed by an industrial research and assessment center; and

(B) propose to carry out a covered project with a greater potential for—

(i) energy efficiency gains; or

(ii) greenhouse gas emissions reductions.

(4) Grant amount

(A) Maximum amount

The amount of a grant provided to an eligible entity under the Program shall not exceed \$300,000.

(B) Federal share

A grant awarded under the Program for a covered project shall be in an amount that is not more than 50 percent of the cost of the covered project.

(C) Supplement

A grant received by an eligible entity under the Program shall supplement, not supplant, any private or State funds available to the eligible entity to carry out the covered project.

(j) Authorization of appropriations

There are authorized to be appropriated to the Secretary for the period of fiscal years 2022 through 2026—

(1) \$150,000,000 to carry out subsections (a) through (h); and

(2) \$400,000,000 to carry out subsection (i).

(Pub. L. 110–140, title IV, §457, as added Pub. L. 117–58, div. D, title V, §40521(b), Nov. 15, 2021, 135 Stat. 1062.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Small Business Act, referred to in subsec. (h), is Pub. L. 85–536, §2(1 et seq.), July 18, 1958, 72 Stat. 384, which is classified generally to chapter 14A (§631 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 631 of Title 15 and Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

PART E—GENERAL PROVISIONS

§17121. Demonstration project

(a) In general

The Federal Director and the Commercial Director shall establish guidelines to implement a demonstration project to contribute to the research goals of the Office of Commercial High-Performance Green Buildings and the Office of Federal High-Performance Green Buildings.

(b) Projects

In accordance with guidelines established by the Federal Director and the Commercial Director under subsection (a) and the duties of the Federal Director and the Commercial Director described in this title, ¹ the Federal Director or the Commercial Director shall carry out—

(1) for each of fiscal years 2009 through 2014, 1 demonstration project per year of green features in a Federal building selected by the Federal Director in accordance with relevant agencies and described in subsection (c)(1), that—

(A) provides for instrumentation, monitoring, and data collection related to the green features, for study of the impact of the features on overall energy use and operational costs, and for the evaluation of the information obtained through the conduct of projects and activities under this title; ¹ and

(B) achieves the highest rating offered by the high performance green building system identified pursuant to section 17092(h) of this title;

(2) no fewer than 4 demonstration projects at 4 universities, that, as competitively selected by the Commercial Director in accordance with subsection (c)(2), have—

(A) appropriate research resources and relevant projects to meet the goals of the demonstration project established by the Office of Commercial High-Performance Green Buildings; and

(B) the ability—

(i) to serve as a model for high-performance green building initiatives, including research and education ² by achieving the highest rating offered by the high performance green building system identified pursuant to section 17092(h) of this title;

(ii) to identify the most effective ways to use high-performance green building and landscape technologies to engage and educate undergraduate and graduate students;

(iii) to effectively implement a high-performance green building education program for students and occupants;

(iv) to demonstrate the effectiveness of various high-performance technologies, including their impacts on energy use and operational costs, in each of the 4 climatic regions of the United States described in subsection (c)(2)(B); and

(v) to explore quantifiable and nonquantifiable beneficial impacts on public health and employee and student performance;

(3) demonstration projects to evaluate replicable approaches of achieving high performance in actual building operation in various types of commercial buildings in various climates; and

(4) deployment activities to disseminate information on and encourage widespread adoption of technologies, practices, and policies to achieve zero-net-energy commercial buildings or low energy use and effective monitoring of energy use in commercial buildings.

(c) Criteria

(1) Federal facilities

With respect to the existing or proposed Federal facility at which a demonstration project under this section is conducted, the Federal facility shall—

(A) be an appropriate model for a project relating to—

(i) the effectiveness of high-performance technologies;

(ii) analysis of materials, components, systems, and emergency operations in the building, and the impact of those materials, components, and systems, including the impact on the health of building occupants;

(iii) life-cycle costing and life-cycle assessment of building materials and systems; and

(iv) location and design that promote access to the Federal facility through walking, biking, and mass transit; and

(B) possess sufficient technological and organizational adaptability.

(2) Universities

With respect to the 4 universities at which a demonstration project under this section is conducted—

(A) the universities should be selected, after careful review of all applications received containing the required information, as determined by the Commercial Director, based on—

(i) successful and established public-private research and development partnerships;

(ii) demonstrated capabilities to construct or renovate buildings that meet high indoor environmental quality standards;

(iii) organizational flexibility;

(iv) technological adaptability;

(v) the demonstrated capacity of at least 1 university to replicate lessons learned among nearby or sister universities, preferably by participation in groups or consortia that promote sustainability;

(vi) the demonstrated capacity of at least 1 university to have officially-adopted, institution-wide "high-performance green building" guidelines for all campus building projects; and

(vii) the demonstrated capacity of at least 1 university to have been recognized by similar institutions as a national leader in sustainability education and curriculum for students of the university; and

(B) each university shall be located in a different climatic region of the United States, each of which regions shall have, as determined by the Office of Commercial High-Performance Green Buildings—

(i) a hot, dry climate;

(ii) a hot, humid climate;

(iii) a cold climate; or

(iv) a temperate climate (including a climate with cold winters and humid summers).

(d) Applications

To receive a grant under subsection (b), an eligible applicant shall submit to the Federal Director or the Commercial Director an application at such time, in such manner, and containing such information as the Director may require, including a written assurance that all laborers and mechanics employed by contractors or subcontractors during construction, alteration, or repair that is financed, in whole or in part, by a grant under this section shall be paid wages at rates not less than those prevailing on similar construction in the locality, as determined by the Secretary of Labor in accordance with sections 3141 through 3144, 3146, and 3147 of title 40. The Secretary of Labor shall, with respect to the labor standards described in this subsection, have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (5 U.S.C. App.) and section 3145 of title 40.

(e) Report

Not later than 1 year after December 19, 2007, and annually thereafter through September 30, 2014—

(1) the Federal Director and the Commercial Director shall submit to the Secretary a report that describes the status of the demonstration projects; and

(2) each University at which a demonstration project under this section is conducted shall submit to the Secretary a report that describes the status of the demonstration projects under this section.

(f) Authorization of appropriations

There is authorized to be appropriated to carry out the demonstration project described in section ³(b)(1), \$10,000,000 for the period of fiscal years 2008 through 2012, and to carry out the demonstration project described in section ³(b)(2), \$10,000,000 for the period of fiscal years 2008 through 2012, to remain available until expended.

² *So in original. A comma probably should appear.*

³ *So in original. Probably should be "subsection".*

§17122. Research and development

(a) Establishment

The Federal Director and the Commercial Director, jointly and in coordination with the Advisory Committee, shall—

- (1)(A) survey existing research and studies relating to high-performance green buildings; and
- (B) coordinate activities of common interest;

- (2) develop and recommend a high-performance green building research plan that—

(A) identifies information and research needs, including the relationships between human health, occupant productivity, safety, security, and accessibility and each of—

- (i) emissions from materials and products in the building;
- (ii) natural day lighting;
- (iii) ventilation choices and technologies;
- (iv) heating, cooling, and system control choices and technologies;
- (v) moisture control and mold;
- (vi) maintenance, cleaning, and pest control activities;
- (vii) acoustics;
- (viii) access to public transportation; and
- (ix) other issues relating to the health, comfort, productivity, and performance of occupants of the building;

(B) promotes the development and dissemination of high-performance green building measurement tools that, at a minimum, may be used—

- (i) to monitor and assess the life-cycle performance of facilities (including demonstration projects) built as high-performance green buildings; and
- (ii) to perform life-cycle assessments; and

(C) identifies and tests new and emerging technologies for high-performance green buildings;

(3) assist the budget and life-cycle costing functions of the Directors' Offices under section 17092(d) of this title;

(4) study and identify potential benefits of green buildings relating to security, natural disaster, and emergency needs of the Federal Government; and

(5) support other research initiatives determined by the Directors' Offices.

(b) Indoor air quality

The Federal Director, in consultation with the Administrator of the Environmental Protection Agency and the Advisory Committee, shall develop and carry out a comprehensive indoor air quality program for all Federal facilities to ensure the safety of Federal workers and facility occupants—

- (1) during new construction and renovation of facilities; and
- (2) in existing facilities.

(Pub. L. 110–140, title IV, §492, Dec. 19, 2007, 121 Stat. 1651.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17123. Green Building Advisory Committee

(a) Establishment

Not later than 180 days after December 19, 2007, the Federal Director, in coordination with the Commercial Director, shall establish an advisory committee, to be known as the "Green Building Advisory Committee".

(b) Membership

(1) In general

The Committee shall be composed of representatives of, at a minimum—

(A) each agency referred to in section 17081(e) of this title; and

(B) other relevant agencies and entities, as determined by the Federal Director, including at least 1 representative of each of—

- (i) State and local governmental green building programs;
- (ii) independent green building associations or councils;
- (iii) building experts, including architects, material suppliers, and construction contractors;
- (iv) security advisors focusing on national security needs, natural disasters, and other dire emergency situations;
- (v) public transportation industry experts; and
- (vi) environmental health experts, including those with experience in children's health.

(2) Non-Federal members

The total number of non-Federal members on the Committee at any time shall not exceed 15.

(c) Meetings

The Federal Director shall establish a regular schedule of meetings for the Committee.

(d) Duties

The Committee shall provide advice and expertise for use by the Federal Director in carrying out the duties under this part, including such recommendations relating to Federal activities carried out under sections 434 through 436 ¹ as are agreed to by a majority of the members of the Committee.

(e) Exemption from chapter 10 of title 5

The Committee shall not be subject to section 1013 of title 5.

(Pub. L. 110–140, title IV, §494, Dec. 19, 2007, 121 Stat. 1654; Pub. L. 117–286, §4(a)(279), Dec. 27, 2022, 136 Stat. 4336.)

EDITORIAL NOTES

REFERENCES IN TEXT

This part, referred to in subsec. (d), was in the original "this subtitle", meaning subtitle H (§§491–495) of title IV of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1649, which enacted this part and section 7628 of this title. For complete classification of subtitle H to the Code, see Tables.

Sections 434 through 436, referred to in subsec. (d), are sections 434 to 436 of Pub. L. 110–140, which enacted sections 17091 and 17092 of this title and amended section 8253 of this title.

AMENDMENTS

2022—Subsec. (e). Pub. L. 117–286 substituted "Exemption from chapter 10 of title 5" for "FACA exemption" in heading and "section 1013 of title 5." for "section 14 of the Federal Advisory Committee Act (5 U.S.C. App.)." in text.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17124. Advisory Committee on Energy Efficiency Finance

(a) Establishment

The Secretary, acting through the Assistant Secretary of Energy for Energy Efficiency and Renewable Energy, shall establish an Advisory Committee on Energy Efficiency Finance to provide advice and recommendations to the Department on energy efficiency finance and investment issues, options, ideas, and trends, and to assist the energy community in identifying practical ways of lowering costs and increasing investments in energy efficiency technologies.

(b) Membership

The advisory committee established under this section shall have a balanced membership that shall include members with expertise in—

- (1) availability of seed capital;
- (2) availability of venture capital;
- (3) availability of other sources of private equity;
- (4) investment banking with respect to corporate finance;
- (5) investment banking with respect to mergers and acquisitions;
- (6) equity capital markets;
- (7) debt capital markets;
- (8) research analysis;
- (9) sales and trading;
- (10) commercial lending; and
- (11) residential lending.

(c) Termination

The Advisory Committee on Energy Efficiency Finance shall terminate on the date that is 10 years after December 19, 2007.

(d) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to the Secretary for carrying out this section.

(Pub. L. 110–140, title IV, §495, Dec. 19, 2007, 121 Stat. 1654.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

SUBCHAPTER IV—ENERGY SAVINGS IN GOVERNMENT AND PUBLIC INSTITUTIONS

PART A—ENERGY SAVINGS PERFORMANCE CONTRACTING

§17131. Training Federal contracting officers to negotiate energy efficiency contracts

(a) Program

The Secretary shall create and administer in the Federal Energy Management Program a training program to educate Federal contract negotiation and contract management personnel so that the contract officers are prepared to—

- (1) negotiate energy savings performance contracts;
- (2) conclude effective and timely contracts for energy efficiency services with all companies offering energy efficiency services; and
- (3) review Federal contracts for all products and services for the potential energy efficiency opportunities and implications of the contracts.

(b) Schedule

Not later than 1 year after December 19, 2007, the Secretary shall plan, staff, announce, and begin training under the Federal Energy Management Program.

(c) Personnel to be trained

Personnel appropriate to receive training under the Federal Energy Management Program shall be selected by and sent for the training from—

- (1) the Department of Defense;
- (2) the Department of Veterans Affairs;
- (3) the Department;
- (4) the General Services Administration;
- (5) the Department of Housing and Urban Development;
- (6) the United States Postal Service; and
- (7) all other Federal agencies and departments that enter contracts for buildings, building services, electricity and electricity services, natural gas and natural gas services, heating and air conditioning services, building fuel purchases, and other types of procurement or service contracts determined by the Secretary, in carrying out the Federal Energy Management Program, to offer the potential for energy savings and greenhouse gas emission reductions if negotiated with taking into account those goals.

(d) Trainers

Training under the Federal Energy Management Program may be conducted by—

- (1) attorneys or contract officers with experience in negotiating and managing contracts described in subsection (c)(7) from any agency, except that the Secretary shall reimburse the

related salaries and expenses of the attorneys or contract officers from amounts made available for carrying out this section to the extent the attorneys or contract officers are not employees of the Department; and

(2) private experts hired by the Secretary for the purposes of this section, except that the Secretary may not hire experts who are simultaneously employed by any company under contract to provide energy efficiency services to the Federal Government.

(e) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section \$750,000 for each of fiscal years 2008 through 2012.

(Pub. L. 110–140, title V, §517, Dec. 19, 2007, 121 Stat. 1659.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

PART B—ENERGY EFFICIENCY IN FEDERAL AGENCIES

§17141. Prohibition on incandescent lamps by Coast Guard

(a) Prohibition

Except as provided by subsection (b), on and after January 1, 2009, a general service incandescent lamp shall not be purchased or installed in a Coast Guard facility by or on behalf of the Coast Guard.

(b) Exception

A general service incandescent lamp may be purchased, installed, and used in a Coast Guard facility whenever the application of a general service incandescent lamp is—

(1) necessary due to purpose or design, including medical, security, and industrial applications;

(2) reasonable due to the architectural or historical value of a light fixture installed before January 1, 2009; or

(3) the Commandant of the Coast Guard determines that operational requirements necessitate the use of a general service incandescent lamp.

(c) Limitation

In this section, the term "facility" does not include a vessel or aircraft of the Coast Guard.

(Pub. L. 110–140, title V, §522, Dec. 19, 2007, 121 Stat. 1662.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17142. Procurement and acquisition of alternative fuels

No Federal agency shall enter into a contract for procurement of an alternative or synthetic fuel, including a fuel produced from nonconventional petroleum sources, for any mobility-related use, other than for research or testing, unless the contract specifies that the lifecycle greenhouse gas

emissions associated with the production and combustion of the fuel supplied under the contract must, on an ongoing basis, be less than or equal to such emissions from the equivalent conventional fuel produced from conventional petroleum sources.

(Pub. L. 110–140, title V, §526, Dec. 19, 2007, 121 Stat. 1663.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

WAIVER AUTHORITY FOR ALTERNATIVE FUEL PROCUREMENT REQUIREMENT

Pub. L. 114–328, div. A, title III, §312, Dec. 23, 2016, 130 Stat. 2073, provided that:

"(a) IN GENERAL.—The Secretary of Defense may waive the requirement under section 526 of the Energy Independence and Security Act of 2007 (Public Law 110–140; 42 U.S.C. 17142) if the Secretary determines it is in the national security interest of the United States.

"(b) NOTIFICATION REQUIREMENT.—The Secretary of Defense shall notify the congressional defense committees [Committees on Armed Services and Appropriations of the Senate and the House of Representatives] not later than 15 days after exercising the waiver authority under subsection (a)."

§17143. Government efficiency status reports

(a) In general

Each Federal agency subject to any of the requirements of this title ¹ or the amendments made by this title ¹ shall compile and submit to the Director of the Office of Management and Budget an annual Government efficiency status report on—

(1) compliance by the agency with each of the requirements of this title ¹ and the amendments made by this title; ¹

(2) the status of the implementation by the agency of initiatives to improve energy efficiency, reduce energy costs, and reduce emissions of greenhouse gases; and

(3) savings to the taxpayers of the United States resulting from mandated improvements under this title ¹ and the amendments made by this title. ¹

(b) Submission

The report shall be submitted—

(1) to the Director at such time as the Director requires;

(2) in electronic, not paper, format; and

(3) consistent with related reporting requirements.

(Pub. L. 110–140, title V, §527, Dec. 19, 2007, 121 Stat. 1663.)

§17144. OMB Government efficiency reports and scorecards

(a) Reports

Not later than April 1 of each year, the Director of the Office of Management and Budget shall submit an annual Government efficiency report to the Committee on Oversight and Government Reform of the House of Representatives and the Committee on Governmental Affairs of the Senate, which shall contain—

- (1) a summary of the information reported by agencies under section 17143 of this title;
- (2) an evaluation of the overall progress of the Federal Government toward achieving the goals of this title ¹ and the amendments made by this title; ¹ and
- (3) recommendations for additional actions necessary to meet the goals of this title ¹ and the amendments made by this title. ¹

(b) Scorecards

The Director of the Office of Management and Budget shall include in any annual energy scorecard the Director is otherwise required to submit a description of the compliance of each agency with the requirements of this title ¹ and the amendments made by this title. ¹

PART C—ENERGY EFFICIENCY AND CONSERVATION BLOCK GRANTS

§17151. Definitions

In this part:

(1) Eligible entity

The term "eligible entity" means—

- (A) a State;
- (B) an eligible unit of local government; and
- (C) an Indian tribe.

(2) Eligible unit of local government

The term "eligible unit of local government" means—

- (A) an eligible unit of local government-alternative 1; and
- (B) an eligible unit of local government-alternative 2.

(3)(A) Eligible unit of local government-alternative 1

The term "eligible unit of local government-alternative 1" means—

- (i) a city with a population—
 - (I) of at least 35,000; or
 - (II) that causes the city to be 1 of the 10 highest-populated cities of the State in which the city is located; and
- (ii) a county with a population—
 - (I) of at least 200,000; or
 - (II) that causes the county to be 1 of the 10 highest-populated counties of the State in which the county is located.

(B) Eligible unit of local government-alternative 2

The term "eligible unit of local government-alternative 2" means—

- (i) a city with a population of at least 50,000; or
- (ii) a county with a population of at least 200,000.

(4) Indian tribe

The term "Indian tribe" has the meaning given the term in section 5304 of title 25.

(5) Program

The term "program" means the Energy Efficiency and Conservation Block Grant Program established under section 17152(a) of this title.

(6) State

The term "State" means—

- (A) a State;
- (B) the District of Columbia;
- (C) the Commonwealth of Puerto Rico; and
- (D) any other territory or possession of the United States.

(Pub. L. 110–140, title V, §541, Dec. 19, 2007, 121 Stat. 1667.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17152. Energy Efficiency and Conservation Block Grant Program

(a) Establishment

The Secretary shall establish a program, to be known as the "Energy Efficiency and Conservation Block Grant Program", under which the Secretary shall provide grants to eligible entities in accordance with this part.

(b) Purpose

The purpose of the program shall be to assist eligible entities in implementing strategies—

(1) to reduce fossil fuel emissions created as a result of activities within the jurisdictions of eligible entities in a manner that—

(A) is environmentally sustainable; and

(B) to the maximum extent practicable, maximizes benefits for local and regional communities;

(2) to reduce the total energy use of the eligible entities; and

(3) to improve energy efficiency in—

(A) the transportation sector;

(B) the building sector; and

(C) other appropriate sectors.

(Pub. L. 110–140, title V, §542, Dec. 19, 2007, 121 Stat. 1668.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17153. Allocation of funds

(a) In general

Of amounts made available to provide grants under this part for each fiscal year, the Secretary shall allocate—

(1) 34 percent to eligible units of local government—alternative 1, in accordance with subsection (b);

(2) 34 percent to eligible units of local government—alternative 2, in accordance with subsection (b);

(3) 28 percent to States in accordance with subsection (c);

(4) 2 percent to Indian tribes in accordance with subsection (d); and

(5) 2 percent for competitive grants under section 17156 of this title.

(b) Eligible units of local government

Of amounts available for distribution to eligible units of local government under subsection (a)(1) or (2), the Secretary shall provide grants to eligible units of local government under this section based on a formula established by the Secretary according to—

(1) the populations served by the eligible units of local government, according to the latest available decennial census; and

(2) the daytime populations of the eligible units of local government and other similar factors (such as square footage of commercial, office, and industrial space), as determined by the Secretary.

(c) States

Of amounts available for distribution to States under subsection (a)(2), the Secretary shall

provide—

- (1) not less than 1.25 percent to each State; and
- (2) the remainder among the States, based on a formula to be established by the Secretary that takes into account—
 - (A) the population of each State; and
 - (B) any other criteria that the Secretary determines to be appropriate.

(d) Indian tribes

Of amounts available for distribution to Indian tribes under subsection (a)(3), the Secretary shall establish a formula for allocation of the amounts to Indian tribes, taking into account any factors that the Secretary determines to be appropriate.

(e) Publication of allocation formulas

Not later than 90 days before the beginning of each fiscal year for which grants are provided under this part, the Secretary shall publish in the Federal Register the formulas for allocation established under this section.

(f) State and local advisory committee

The Secretary shall establish a State and local advisory committee to advise the Secretary regarding administration, implementation, and evaluation of the program.

(Pub. L. 110–140, title V, §543, Dec. 19, 2007, 121 Stat. 1668; Pub. L. 111–5, div. A, title IV, §404(a), (b), Feb. 17, 2009, 123 Stat. 143.)

EDITORIAL NOTES

AMENDMENTS

2009—Subsec. (a)(1). Pub. L. 111–5, §404(a)(2), added par. (1) and struck out former par. (1) which read as follows: "68 percent to eligible units of local government in accordance with subsection (b);".

Subsec. (a)(2) to (5). Pub. L. 111–5, §404(a), added par. (2) and redesignated former pars. (2) to (4) as (3) to (5), respectively.

Subsec. (b). Pub. L. 111–5, §404(b), substituted "subsection (a)(1) or (2)" for "subsection (a)(1)" in introductory provisions.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17154. Use of funds

An eligible entity may use a grant received under this part to carry out activities to achieve the purposes of the program, including—

- (1) development and implementation of an energy efficiency and conservation strategy under section 17155(b) of this title;
- (2) retaining technical consultant services to assist the eligible entity in the development of such a strategy, including—
 - (A) formulation of energy efficiency, energy conservation, and energy usage goals;
 - (B) identification of strategies to achieve those goals—
 - (i) through efforts to increase energy efficiency and reduce energy consumption; and
 - (ii) by encouraging behavioral changes among the population served by the eligible entity;
 - (C) development of methods to measure progress in achieving the goals;
 - (D) development and publication of annual reports to the population served by the eligible

entity describing—

- (i) the strategies and goals; and
- (ii) the progress made in achieving the strategies and goals during the preceding calendar year; and

(E) other services to assist in the implementation of the energy efficiency and conservation strategy;

- (3) conducting residential and commercial building energy audits;
- (4) establishment of financial incentive programs for energy efficiency improvements;
- (5) the provision of grants to nonprofit organizations and governmental agencies for the purpose of performing energy efficiency retrofits;
- (6) development and implementation of energy efficiency and conservation programs for buildings and facilities within the jurisdiction of the eligible entity, including—
 - (A) design and operation of the programs;
 - (B) identifying the most effective methods for achieving maximum participation and efficiency rates;
 - (C) public education;
 - (D) measurement and verification protocols; and
 - (E) identification of energy efficient technologies;

(7) development and implementation of programs to conserve energy used in transportation, including—

- (A) use of flex time by employers;
- (B) satellite work centers;
- (C) development and promotion of zoning guidelines or requirements that promote energy efficient development;
- (D) development of infrastructure, such as bike lanes and pathways and pedestrian walkways;
- (E) synchronization of traffic signals; and
- (F) other measures that increase energy efficiency and decrease energy consumption;

(8) development and implementation of building codes and inspection services to promote building energy efficiency;

(9) application and implementation of energy distribution technologies that significantly increase energy efficiency, including—

- (A) distributed resources; and
- (B) district heating and cooling systems;

(10) activities to increase participation and efficiency rates for material conservation programs, including source reduction, recycling, and recycled content procurement programs that lead to increases in energy efficiency;

(11) the purchase and implementation of technologies to reduce, capture, and, to the maximum extent practicable, use methane and other greenhouse gases generated by landfills or similar sources;

(12) replacement of traffic signals and street lighting with energy efficient lighting technologies, including—

- (A) light emitting diodes; and
- (B) any other technology of equal or greater energy efficiency;

(13) development, implementation, and installation on or in any government building of the eligible entity of onsite renewable energy technology that generates electricity from renewable resources, including—

- (A) solar energy;

- (B) wind energy;
- (C) fuel cells; and
- (D) biomass;

(14) programs for financing energy efficiency, renewable energy, and zero-emission transportation (and associated infrastructure), capital investments, projects, and programs, which may include loan programs and performance contracting programs, for leveraging of additional public and private sector funds, and programs that allow rebates, grants, or other incentives for the purchase and installation of energy efficiency, renewable energy, and zero-emission transportation (and associated infrastructure) measures; and

(15) any other appropriate activity, as determined by the Secretary, in consultation with—

- (A) the Administrator of the Environmental Protection Agency;
- (B) the Secretary of Transportation; and
- (C) the Secretary of Housing and Urban Development.

(Pub. L. 110–140, title V, §544, Dec. 19, 2007, 121 Stat. 1669; Pub. L. 117–58, div. D, title V, §40552(a), Nov. 15, 2021, 135 Stat. 1076.)

EDITORIAL NOTES

AMENDMENTS

2021—Pars. (14), (15). Pub. L. 117–58 added par. (14) and redesignated former par. (14) as (15).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§17155. Requirements for eligible entities

(a) Construction requirement

(1) In general

To be eligible to receive a grant under the program, each eligible applicant shall submit to the Secretary a written assurance that all laborers and mechanics employed by any contractor or subcontractor of the eligible entity during any construction, alteration, or repair activity funded, in whole or in part, by the grant shall be paid wages at rates not less than the prevailing wages for similar construction activities in the locality, as determined by the Secretary of Labor, in accordance with sections 3141 through 3144, 3146, and 3147 of title 40.

(2) Secretary of Labor

With respect to the labor standards referred to in paragraph (1), the Secretary of Labor shall have the authority and functions described in—

- (A) Reorganization Plan Numbered 14 of 1950 (5 U.S.C. 903 note); [1](#) and
- (B) section 3145 of title 40.

(b) Eligible units of local government and Indian tribes

(1) Proposed strategy

(A) In general

Not later than 1 year after the date on which an eligible unit of local government or Indian tribe receives a grant under this part, the eligible unit of local government or Indian tribe shall submit to the Secretary a proposed energy efficiency and conservation strategy in accordance with this paragraph.

(B) Inclusions

The proposed strategy under subparagraph (A) shall include—

- (i) a description of the goals of the eligible unit of local government or Indian tribe, in accordance with the purposes of this part, for increased energy efficiency and conservation in the jurisdiction of the eligible unit of local government or Indian tribe; and
- (ii) a plan for the use of the grant to assist the eligible unit of local government or Indian tribe in achieving those goals, in accordance with section 17154 of this title.

(C) Requirements for eligible units of local government

In developing the strategy under subparagraph (A), an eligible unit of local government shall—

- (i) take into account any plans for the use of funds by adjacent eligible units of local governments that receive grants under the program; and
- (ii) coordinate and share information with the State in which the eligible unit of local government is located regarding activities carried out using the grant to maximize the energy efficiency and conservation benefits under this part.

(2) Approval by Secretary

(A) In general

The Secretary shall approve or disapprove a proposed strategy under paragraph (1) by not later than 120 days after the date of submission of the proposed strategy.

(B) Disapproval

If the Secretary disapproves a proposed strategy under subparagraph (A)—

- (i) the Secretary shall provide to the eligible unit of local government or Indian tribe the reasons for the disapproval; and
- (ii) the eligible unit of local government or Indian tribe may revise and resubmit the proposed strategy as many times as necessary until the Secretary approves a proposed strategy.

(C) Requirement

The Secretary shall not provide to an eligible unit of local government or Indian tribe any grant under the program until a proposed strategy of the eligible unit of local government or Indian tribe is approved by the Secretary under this paragraph.

(3) Limitations on use of funds

Of amounts provided to an eligible unit of local government or Indian tribe under the program, an eligible unit of local government or Indian tribe may use—

(A) for administrative expenses, excluding the cost of meeting the reporting requirements of this part, an amount equal to the greater of—

- (i) 10 percent; and ²
- (ii) \$75,000;

(B) for the establishment of revolving loan funds, an amount equal to the greater of—

- (i) 20 percent; and ²
- (ii) \$250,000; and

(C) for the provision of subgrants to nongovernmental organizations for the purpose of assisting in the implementation of the energy efficiency and conservation strategy of the eligible

unit of local government or Indian tribe, an amount equal to the greater of—

- (i) 20 percent; and ²
- (ii) \$250,000.

(4) Annual report

Not later than 2 years after the date on which funds are initially provided to an eligible unit of local government or Indian tribe under the program, and annually thereafter, the eligible unit of local government or Indian tribe shall submit to the Secretary a report describing—

(A) the status of development and implementation of the energy efficiency and conservation strategy of the eligible unit of local government or Indian tribe; and

(B) as practicable, an assessment of energy efficiency gains within the jurisdiction of the eligible unit of local government or Indian tribe.

(c) States

(1) Distribution of funds

(A) In general

A State that receives a grant under the program shall use not less than 60 percent of the amount received to provide subgrants to units of local government in the State that are not eligible units of local government.

(B) Deadline

The State shall provide the subgrants required under subparagraph (A) by not later than 180 days after the date on which the Secretary approves a proposed energy efficiency and conservation strategy of the State under paragraph (3).

(2) Revision of conservation plan; proposed strategy

Not later than 120 days after December 19, 2007, each State shall—

(A) modify the State energy conservation plan of the State under section 6322 of this title to establish additional goals for increased energy efficiency and conservation in the State; and

(B) submit to the Secretary a proposed energy efficiency and conservation strategy that—

(i) establishes a process for providing subgrants as required under paragraph (1); and

(ii) includes a plan of the State for the use of funds received under the program to assist the State in achieving the goals established under subparagraph (A), in accordance with sections 17152(b) and 17154 of this title.

(3) Approval by Secretary

(A) In general

The Secretary shall approve or disapprove a proposed strategy under paragraph (2)(B) by not later than 120 days after the date of submission of the proposed strategy.

(B) Disapproval

If the Secretary disapproves a proposed strategy under subparagraph (A)—

(i) the Secretary shall provide to the State the reasons for the disapproval; and

(ii) the State may revise and resubmit the proposed strategy as many times as necessary until the Secretary approves a proposed strategy.

(C) Requirement

The Secretary shall not provide to a State any grant under the program until a proposed strategy of the State is approved by the Secretary under this paragraph.

(4) Limitations on use of funds

A State may use not more than 10 percent of amounts provided under the program for administrative expenses.

(5) Annual reports

Each State that receives a grant under the program shall submit to the Secretary an annual report that describes—

- (A) the status of development and implementation of the energy efficiency and conservation strategy of the State during the preceding calendar year;
- (B) the status of the subgrant program of the State under paragraph (1);
- (C) the energy efficiency gains achieved through the energy efficiency and conservation strategy of the State during the preceding calendar year; and
- (D) specific energy efficiency and conservation goals of the State for subsequent calendar years.

(Pub. L. 110–140, title V, §545, Dec. 19, 2007, 121 Stat. 1670.)

§17156. Competitive grants

(a) In general

Of the total amount made available for each fiscal year to carry out this part, the Secretary shall use not less than 2 percent to provide grants under this section, on a competitive basis, to—

- (1) units of local government (including Indian tribes) that are not eligible entities; and
- (2) consortia of units of local government described in paragraph (1).

(b) Applications

To be eligible to receive a grant under this section, a unit of local government or consortia shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including a plan of the unit of local government to carry out an activity described in section 17154 of this title.

(c) Priority

In providing grants under this section, the Secretary shall give priority to units of local government—

- (1) located in States with populations of less than 2,000,000; or
- (2) that plan to carry out projects that would result in significant energy efficiency improvements or reductions in fossil fuel use.

(Pub. L. 110–140, title V, §546, Dec. 19, 2007, 121 Stat. 1673.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17157. Review and evaluation

(a) In general

The Secretary may review and evaluate the performance of any eligible entity that receives a grant under the program, including by conducting an audit, as the Secretary determines to be appropriate.

(b) Withholding of funds

The Secretary may withhold from an eligible entity any portion of a grant to be provided to the eligible entity under the program if the Secretary determines that the eligible entity has failed to achieve compliance with—

- (1) any applicable guideline or regulation of the Secretary relating to the program, including the misuse or misappropriation of funds provided under the program; or
- (2) the energy efficiency and conservation strategy of the eligible entity.

(Pub. L. 110–140, title V, §547, Dec. 19, 2007, 121 Stat. 1674.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17158. Funding

(a) Authorization of appropriations

(1) Grants

There is authorized to be appropriated to the Secretary for the provision of grants under the program \$2,000,000,000 for each of fiscal years 2008 through 2012.

(2) Administrative costs

There are authorized to be appropriated to the Secretary for administrative expenses of the program—

- (A) \$20,000,000 for each of fiscal years 2008 and 2009;
- (B) \$25,000,000 for each of fiscal years 2010 and 2011; and
- (C) \$30,000,000 for fiscal year 2012.

(b) Maintenance of funding

The funding provided under this section shall supplement (and not supplant) other Federal funding provided under—

- (1) a State energy conservation plan established under part D of title III of the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.); or
- (2) the Weatherization Assistance Program for Low-Income Persons established under part A of title IV of the Energy Conservation and Production Act (42 U.S.C. 6861 et seq.).

(Pub. L. 110–140, title V, §548, Dec. 19, 2007, 121 Stat. 1674; Pub. L. 111–5, div. A, title IV, §404(c), Feb. 17, 2009, 123 Stat. 143.)

SUBCHAPTER V—ACCELERATED RESEARCH AND DEVELOPMENT

PART A—SOLAR ENERGY

§17171. Thermal energy storage research and development program

(a) Establishment

The Secretary shall establish a program of research and development to provide lower cost and more viable thermal energy storage technologies to enable the shifting of electric power loads on demand and extend the operating time of concentrating solar power electric generating plants.

(b) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section \$5,000,000 for fiscal year 2008, \$7,000,000 for fiscal year 2009, \$9,000,000 for fiscal year 2010, \$10,000,000 for fiscal year 2011, and \$12,000,000 for fiscal year 2012.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

SHORT TITLE

This part known as the "Solar Energy Research and Advancement Act of 2007", see Short Title note set out under section 17001 of this title.

§17172. Solar energy curriculum development and certification grants

(a) Establishment

The Secretary shall establish in the Office of Solar Energy Technologies a competitive grant program to create and strengthen solar industry workforce training and internship programs in installation, operation, and maintenance of solar energy products. The goal of this program is to ensure a supply of well-trained individuals to support the expansion of the solar energy industry.

(b) Authorized activities

Grant funds may be used to support the following activities:

(1) Creation and development of a solar energy curriculum appropriate for the local educational, entrepreneurial, and environmental conditions, including curriculum for community colleges.

(2) Support of certification programs for individual solar energy system installers, instructors, and training programs.

(3) Internship programs that provide hands-on participation by students in commercial applications.

(4) Activities required to obtain certification of training programs and facilities by an industry-accepted quality-control certification program.

(5) Incorporation of solar-specific learning modules into traditional occupational training and internship programs for construction-related trades.

(6) The purchase of equipment necessary to carry out activities under this section.

(7) Support of programs that provide guidance and updates to solar energy curriculum instructors.

(c) Administration of grants

Grants may be awarded under this section for up to 3 years. The Secretary shall award grants to ensure sufficient geographic distribution of training programs nationally. Grants shall only be awarded for programs certified by an industry-accepted quality-control certification institution, or for new and growing programs with a credible path to certification. Due consideration shall be given to women, underrepresented minorities, and persons with disabilities.

(d) Report

The Secretary shall make public, on the website of the Department or upon request, information on the name and institution for all grants awarded under this section, including a brief description of the project as well as the grant award amount.

(e) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section \$10,000,000 for each of the fiscal years 2008 through 2012.

(Pub. L. 110–140, title VI, §604, Dec. 19, 2007, 121 Stat. 1675.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17173. Daylighting systems and direct solar light pipe technology

(a) Establishment

The Secretary shall establish a program of research and development to provide assistance in the demonstration and commercial application of direct solar renewable energy sources to provide alternatives to traditional power generation for lighting and illumination, including light pipe technology, and to promote greater energy conservation and improved efficiency. All direct solar renewable energy devices supported under this program shall have the capability to provide

measurable data on the amount of kilowatt-hours saved over the traditionally powered light sources they have replaced.

(b) Reporting

The Secretary shall transmit to Congress an annual report assessing the measurable data derived from each project in the direct solar renewable energy sources program and the energy savings resulting from its use.

(c) Definitions

For purposes of this section—

(1) the term "direct solar renewable energy" means energy from a device that converts sunlight into useable light within a building, tunnel, or other enclosed structure, replacing artificial light generated by a light fixture and doing so without the conversion of the sunlight into another form of energy; and

(2) the term "light pipe" means a device designed to transport visible solar radiation from its collection point to the interior of a building while excluding interior heat gain in the nonheating season.

(d) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section \$3,500,000 for each of the fiscal years 2008 through 2012.

(Pub. L. 110–140, title VI, §605, Dec. 19, 2007, 121 Stat. 1676.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§§17174, 17175. Repealed. Pub. L. 116–260, div. Z, title III, §3006(g)(1), Dec. 27, 2020, 134 Stat. 2513

Section 17174, Pub. L. 110–140, title VI, §606, Dec. 19, 2007, 121 Stat. 1676, related to solar air conditioning research and development program.

Section 17175, Pub. L. 110–140, title VI, §607, Dec. 19, 2007, 121 Stat. 1677, related to photovoltaic demonstration program.

PART B—GEOTHERMAL ENERGY

§17191. Definitions

For purposes of this part:

(1) Engineered

When referring to enhanced geothermal systems, the term "engineered" means designed to access subsurface heat, including stimulation and nonstimulation technologies to address one or more of the following issues:

(A) Lack of effective permeability, porosity or open fracture connectivity within the heat reservoir.

(B) Insufficient contained geofluid in the heat reservoir.

(C) A low average geothermal gradient which necessitates deeper drilling, or the use of alternative heat sources or heat generation processes.

(2) Eligible entity

The term "eligible entity" means any of the following entities:

- (A) An institution of higher education.
- (B) A National laboratory.
- (C) A Federal research agency.
- (D) A State research agency.
- (E) A nonprofit research organization.
- (F) An industrial entity.
- (G) A consortium of 2 or more entities described in subparagraphs (A) through (F).

(3) Enhanced geothermal systems

The term "enhanced geothermal systems" means geothermal reservoir systems that are engineered, as opposed to occurring naturally.

(4) Geofluid

The term "geofluid" means any fluid used to extract thermal energy from the Earth which is transported to the surface for direct use or electric power generation, except that such term shall not include oil or natural gas.

(5) Geopressured resources

The term "geopressured resources" mean geothermal deposits found in sedimentary rocks under higher than normal pressure and saturated with gas or methane.

(6) Geothermal

The term "geothermal" refers to heat energy stored in the Earth's crust that can be accessed for direct use or electric power generation.

(7) Hydrothermal

The term "hydrothermal" refers to naturally occurring subsurface reservoirs of hot water or steam.

(8) Systems approach

The term "systems approach" means an approach to solving problems or designing systems that attempts to optimize the performance of the overall system, rather than a particular component of the system.

(Pub. L. 110–140, title VI, §612, Dec. 19, 2007, 121 Stat. 1679; Pub. L. 116–260, div. Z, title III, §3002(a), Dec. 27, 2020, 134 Stat. 2487.)

EDITORIAL NOTES

AMENDMENTS

2020—Par. (1). Pub. L. 116–260, §3002(a), amended par. (1) generally. Prior to amendment, par. (1) defined the term "engineered".

Pars. (2) to (8). Pub. L. 116–260, §3002(a)(2), (3), added par. (2) and redesignated former pars. (2) to (7) as (3) to (8), respectively.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

SHORT TITLE

This part known as the "Advanced Geothermal Energy Research and Development Act of 2007", see Short Title note set out under section 17001 of this title.

§17192. Hydrothermal research and development

(a) In general

The Secretary shall carry out a program of research, development, demonstration, and commercial application for geothermal energy production from hydrothermal systems.

(b) Programs

The program authorized in subsection (a) shall include the following:

(1) Advanced hydrothermal resource tools

The research and development of advanced geologic tools to assist in locating hydrothermal resources, and to increase the reliability of site characterization, including the development of new imaging and sensing technologies and techniques to assist in prioritization of targets for characterization;

(2) Exploratory drilling for geothermal resources

The demonstration of advanced technologies and techniques of siting and exploratory drilling for undiscovered resources in a variety of geologic settings, carried out in collaboration with industry partners that will assist in the acquisition of high quality data sets relevant for hydrothermal subsurface characterization activities.

(Pub. L. 110–140, title VI, §613, Dec. 19, 2007, 121 Stat. 1679; Pub. L. 116–260, div. Z, title III, §3002(b), Dec. 27, 2020, 134 Stat. 2487.)

EDITORIAL NOTES

AMENDMENTS

2020—Pub. L. 116–260 amended section generally. Prior to amendment, section related to hydrothermal research and development.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17193. General geothermal systems research and development

(a) Subsurface components and systems

The Secretary shall support a program of research, development, demonstration, and commercial application of components and systems capable of withstanding geothermal environments and necessary to develop, produce, and monitor geothermal reservoirs and produce geothermal energy.

(b) Environmental impacts

The Secretary shall—

(1) support a program of research, development, demonstration, and commercial application of technologies and practices designed to mitigate or preclude potential adverse environmental impacts of geothermal energy development, production or use;

(2) support a research program to identify potential environmental impacts, including induced seismicity, and environmental benefits of geothermal energy development, production, and use, and ensure that the program described in paragraph (1) addresses such impacts, including water use and effects on groundwater and local hydrology;

(3) support a program of research to compare the potential environmental impacts and environmental benefits identified as part of the development, production, and use of geothermal

energy with the potential emission reductions of greenhouse gases gained by geothermal energy development, production, and use; and

(4) in carrying out this section, the Secretary shall, ¹ to the maximum extent practicable, consult with relevant federal agencies, including the Environmental Protection Agency.

(c) Reservoir thermal energy storage

The Secretary shall support a program of research, development, and demonstration of reservoir thermal energy storage, emphasizing cost-effective improvements through deep direct use engineering, design, and systems research.

(d) Oil and gas technology transfer initiative

(1) In general

The Secretary shall support an initiative among the Office of Fossil Energy, the Office of Energy Efficiency and Renewable Energy, and the private sector to research, develop, and demonstrate relevant advanced technologies and operation techniques used in the oil and gas sector for use in geothermal energy development.

(2) Priorities

In carrying out paragraph (1), the Secretary shall prioritize technologies with the greatest potential to significantly increase the use and lower the cost of geothermal energy in the United States, including the cost and speed of geothermal drilling surface technologies, large- and small-scale drilling, and well construction.

(e) Coproduction of geothermal energy and minerals production research and development initiative

(1) In general

The Secretary shall carry out a research and development initiative under which the Secretary shall provide financial assistance to demonstrate the coproduction of critical minerals from geothermal resources.

(2) Requirements

An award made under paragraph (1) shall—

(A) improve the cost effectiveness of removing minerals from geothermal brines as part of the coproduction process;

(B) increase recovery rates of the targeted mineral commodity;

(C) decrease water use and other environmental impacts, as determined by the Secretary; and

(D) demonstrate a path to commercial viability.

(f) Flexible operations

The Secretary shall support a research initiative on flexible operation of geothermal power plants.

(g) Integrated energy systems

The Secretary shall identify opportunities for joint research, development, and demonstration programs between geothermal systems and other energy generation or storage systems.

(h) Drilling data repository

(1) In general

The Secretary shall, in consultation with the Secretary of the Interior, establish and operate a voluntary, industry-wide repository of geothermal drilling information to lower the cost of future geothermal drilling.

(2) Repository

(A) In general

In carrying out paragraph (1), the Secretary shall collaborate with countries utilizing a significant amount of geothermal energy, as determined by the Secretary.

(B) Data system

The repository established under paragraph (1) shall be integrated with the National Geothermal Data System.

(Pub. L. 110–140, title VI, §614, Dec. 19, 2007, 121 Stat. 1680; Pub. L. 116–260, div. Z, title III, §3002(c), Dec. 27, 2020, 134 Stat. 2488.)

EDITORIAL NOTES

AMENDMENTS

2020—Pub. L. 116–260 amended section generally. Prior to amendment, section related to general geothermal systems research and development.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

¹ So in original. The words "The Secretary shall" appear in introductory provisions.

§17194. Enhanced geothermal systems research and development

(a) In general

The Secretary shall support a program of research, development, demonstration, and commercial application for enhanced geothermal systems, including the programs described in subsection (b).

(b) Enhanced geothermal systems technologies

In collaboration with industry partners, institutions of higher education, and the national laboratories, the Secretary shall support a program of research, development, demonstration, and commercial application of the technologies to achieve higher efficiency and lower cost enhanced geothermal systems, including—

- (1) reservoir stimulation;
- (2) drilled, non-stimulated (e.g. closed-loop) reservoir technologies;
- (3) reservoir characterization, monitoring, and modeling and understanding of the surface area and volume of fractures;
- (4) stress and fracture mapping including real time monitoring and modeling;
- (5) tracer development;
- (6) three and four-dimensional seismic imaging and tomography;
- (7) well placement and orientation;
- (8) long-term reservoir management;
- (9) drilling technologies, methods, and tools;
- (10) improved exploration tools;
- (11) zonal isolation; and
- (12) understanding induced seismicity risks from reservoir engineering and stimulation.

(c) Frontier observatory for research in geothermal energy

(1) In general

The Secretary shall support the establishment and construction of up to 3 field research sites, which shall each be known as a "Frontier Observatory for Research in Geothermal Energy" or "FORGE" site to develop, test, and enhance techniques and tools for enhanced geothermal energy.

(2) Duties

The Secretary shall—

(A) provide financial assistance in support of research and development projects focused on advanced monitoring technologies, new technologies and approaches for implementing multi-zone stimulations, nonstimulation techniques, and dynamic reservoir modeling that incorporates all available high-fidelity characterization data; and

(B) seek opportunities to coordinate efforts and share information with domestic and international partners engaged in research and development of geothermal systems and related technology, including coordination between FORGE sites.

(3) Site selection

Of the FORGE sites referred to in paragraph (1), the Secretary shall—

(A) consider applications through a competitive, merit-reviewed process, from National Laboratories, multi-institutional collaborations, institutes of higher education and other appropriate entities best suited to provide national leadership on geothermal related issues and perform the duties enumerated under this subsection;

(B) prioritize existing field sites and facilities with capabilities relevant to the duties enumerated under this subsection;

(C) determine the mission need for and potential location of subsequent FORGE sites following the completion of construction and one year of operation of two FORGE sites; and

(D) ensure geologic diversity among FORGE sites when developing subsequent sites, to the maximum extent practicable.

(4) Existing forge sites

A FORGE site already in existence on December 27, 2020, may continue to receive support.

(5) Site operation

(A) Initial duration

FORGE sites selected under paragraph (3) shall operate for an initial term of not more than 7 years after the date on which site operation begins.

(B) Performance metrics

The Secretary shall establish performance metrics for each FORGE site supported under this paragraph, which may be used by the Secretary to determine whether a FORGE site should continue to receive funding.

(6) Additional terms

(A) In general

At the end of an operational term described in subparagraph (B), a FORGE site may—

(i) be transferred to other public or private entities for further enhanced geothermal testing; or

(ii) subject to appropriations and a merit review by the Secretary, operate for an additional term of not more than 7 years.

(B) Operational term described

An operational term referred to in subparagraph (A)—

(i) in the case of an existing FORGE site, is the existing operational term; and

(ii) in the case of new FORGE sites selected under paragraph (3), is the initial term under paragraph (5)(A) or an additional term under subparagraph (A)(ii) of this paragraph.

(7) Funding

(A) In general

Out of funds authorized to be appropriated under section 17202 of this title, there shall be made available to the Secretary to carry out the FORGE activities under this paragraph—

(i) \$45,000,000 for fiscal year 2021;

(ii) \$55,000,000 for fiscal year 2022;

- (iii) \$65,000,000 for fiscal year 2023;
- (iv) \$70,000,000 for fiscal year 2024; and
- (v) \$70,000,000 for fiscal year 2025.

(B) Considerations

In carrying out this subsection, the Secretary shall consider the balance between funds dedicated to construction and operations and research activities to reflect the state of site development.

(d) Enhanced geothermal systems demonstrations

(1) In general

Beginning on December 27, 2020, the Secretary, in collaboration with industry partners, institutions of higher education, and the national laboratories, shall support an initiative for demonstration of enhanced geothermal systems for power production or direct use.

(2) Projects

(A) In general

Under the initiative described in paragraph (1), 4 demonstration projects shall be carried out in locations that are potentially commercially viable for enhanced geothermal systems development, while also considering environmental impacts to the maximum extent practicable, as determined by the Secretary.

(B) Requirements

Demonstration projects under subparagraph (A) shall—

(i) collectively demonstrate—

(I) different geologic settings, such as hot sedimentary aquifers, layered geologic systems, supercritical systems, and basement rock systems; and

(II) a variety of development techniques, including open hole and cased hole completions, differing well orientations, and stimulation and nonstimulation mechanisms; and

(ii) to the extent practicable, use existing sites where subsurface characterization or geothermal energy integration analysis has been conducted.

(C) Eastern demonstration

Not fewer than 1 of the demonstration projects carried out under subparagraph (A) shall be located in an area east of the Mississippi River that is suitable for enhanced geothermal demonstration for power, heat, or a combination of power and heat.

(D) Milestone-based demonstration projects

The Secretary may carry out demonstration projects under this subsection as a milestone-based demonstration project under section 7256c of this title.

(3) Funding

Out of funds authorized to be appropriated under section 17202 of this title, there shall be made available to the Secretary to carry out the demonstration activities under this subsection \$21,000,000 for each of fiscal years 2021 through 2025.

(Pub. L. 110–140, title VI, §615, Dec. 19, 2007, 121 Stat. 1680; Pub. L. 116–260, div. Z, title III, §3002(d), Dec. 27, 2020, 134 Stat. 2489.)

EDITORIAL NOTES

REFERENCES IN TEXT

December 27, 2020, referred to in subsecs. (c)(4) and (d)(1), was in the original "the date of enactment of this Act" and "the date of enactment of this section", respectively, and were translated as meaning the date of

enactment of Pub. L. 116–260, which was approved Dec. 27, 2020.

AMENDMENTS

2020—Pub. L. 116–260 amended section generally. Prior to amendment, section related to enhanced geothermal systems research and development.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17195. Geothermal energy production from oil and gas fields and recovery and production of geopressured gas resources

(a) In general

The Secretary shall establish a program of research, development, demonstration, and commercial application to support development of geothermal energy production from oil and gas fields and production and recovery of energy, including electricity, from geopressured resources. In addition, the Secretary shall conduct such supporting activities including research, resource characterization, and technology development as necessary.

(b) Geothermal energy production from oil and gas fields

The Secretary shall implement a grant program in support of geothermal energy production from oil and gas fields. The program shall include grants for a total of not less than three demonstration projects of the use of geothermal techniques such as advanced organic rankine cycle systems at marginal, unproductive, and productive oil and gas wells. The Secretary shall, to the extent practicable and in the public interest, make awards that—

- (1) include not less than five oil or gas well sites per project award;
- (2) use a range of oil or gas well hot water source temperatures from 150 degrees Fahrenheit to 300 degrees Fahrenheit;
- (3) cover a range of sizes up to one megawatt;
- (4) are located at a range of sites;
- (5) can be replicated at a wide range of sites;
- (6) facilitate identification of optimum techniques among competing alternatives;
- (7) include business commercialization plans that have the potential for production of equipment at high volumes and operation and support at a large number of sites; and
- (8) satisfy other criteria that the Secretary determines are necessary to carry out the program and collect necessary data and information.

The Secretary shall give preference to assessments that address multiple elements contained in paragraphs (1) through (8).

(c) Grant awards

Each grant award for demonstration of geothermal technology such as advanced organic rankine cycle systems at oil and gas wells made by the Secretary under subsection (b) shall include—

- (1) necessary and appropriate site engineering study;
 - (2) detailed economic assessment of site specific conditions;
 - (3) appropriate feasibility studies to determine whether the demonstration can be replicated;
 - (4) design or adaptation of existing technology for site specific circumstances or conditions;
 - (5) installation of equipment, service, and support;
 - (6) operation for a minimum of 1 year and monitoring for the duration of the demonstration;
- and

(7) validation of technical and economic assumptions and documentation of lessons learned.

(d) Geopressured gas resource recovery and production

(1) The Secretary shall implement a program to support the research, development, demonstration, and commercial application of cost-effective techniques to produce energy from geopressured resources.

(2) The Secretary shall solicit preliminary engineering designs for geopressured resources production and recovery facilities.

(3) Based upon a review of the preliminary designs, the Secretary shall award grants, which may be cost-shared, to support the detailed development and completion of engineering, architectural and technical plans needed to support construction of new designs.

(4) Based upon a review of the final design plans above, the Secretary shall award cost-shared development and construction grants for demonstration geopressured production facilities that show potential for economic recovery of the heat, kinetic energy and gas resources from geopressured resources.

(e) Competitive grant selection

Not less than 90 days after December 19, 2007, the Secretary shall conduct a national solicitation for applications for grants under the programs outlined in subsections (b) and (d). Grant recipients shall be selected on a competitive basis based on criteria in the respective subsection.

(f) Well drilling

No funds may be used under this section for the purpose of drilling new wells.

(Pub. L. 110–140, title VI, §616, Dec. 19, 2007, 121 Stat. 1681.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17195a. Geothermal heat pumps and direct use research and development

(a) Purposes

The purposes of this section are—

(1) to improve the understanding of related earth sciences, components, processes, and systems used for geothermal heat pumps and the direct use of geothermal energy; and

(2) to increase the energy efficiency, lower the cost, increase the use, and improve and demonstrate the effectiveness of geothermal heat pumps and the direct use of geothermal energy.

(b) Definitions

In this section:

(1) Direct use of geothermal energy

The term "direct use of geothermal energy" means geothermal systems that use water directly or through a heat exchanger to provide—

(A) heating and cooling to buildings, commercial districts, residential communities, and large municipal, or industrial projects; or

(B) heat required for industrial processes, agriculture, aquaculture, and other facilities.

(2) Economically distressed area

The term "economically distressed area" means an area described in section 3161(a) of this title.

(3) Geothermal heat pump

The term "geothermal heat pump" means a system that provides heating and cooling by

exchanging heat from shallow geology, groundwater, or surface water using—

(A) a closed loop system, which transfers heat by way of buried or immersed pipes that contain a mix of water and working fluid; or

(B) an open loop system, which circulates ground or surface water directly into the building and returns the water to the same aquifer or surface water source.

(c) Program

(1) In general

The Secretary shall support within the Geothermal Technologies Office a program of research, development, and demonstration for geothermal heat pumps and the direct use of geothermal energy.

(2) Areas

The program under paragraph (1) may include research, development, demonstration, and commercial application of—

(A) geothermal ground loop efficiency improvements, cost reductions, and improved installation and operations methods;

(B) the use of geothermal energy for building-scale energy storage;

(C) the use of geothermal energy as a grid management resource or seasonal energy storage;

(D) geothermal heat pump efficiency improvements;

(E) the use of alternative fluids as a heat exchange medium, such as hot water found in mines and mine shafts, graywater, or other fluids that may improve the economics of geothermal heat pumps;

(F) heating of districts, neighborhoods, communities, large commercial or public buildings, and industrial and manufacturing facilities;

(G) the use of low temperature groundwater for direct use; and

(H) system integration of direct use with geothermal electricity production.

(3) Environmental impacts

In carrying out the program, the Secretary shall identify and mitigate potential environmental impacts in accordance with section 17193(b) of this title.

(d) Financial assistance

(1) In general

The Secretary shall carry out the program established in subsection (c) by making financial assistance available to State, local, and Tribal governments, institutions of higher education, nonprofit entities, National Laboratories, utilities, and for-profit companies.

(2) Priority

In providing financial assistance under this subsection, the Secretary may give priority to proposals that apply to large buildings, commercial districts, and residential communities that are located in economically distressed areas and areas that the Secretary determines to have high economic potential for geothermal district heating based on the report, "Geovision: Harnessing the Heat Beneath our Feet" published by the Department in 2019, or a successor report.

(Pub. L. 110–140, title VI, §616A, as added Pub. L. 116–260, div. Z, title III, §3002(e)(1), Dec. 27, 2020, 134 Stat. 2492.)

§17196. Organization and administration of programs

(a) Federal share

The Federal share of costs of projects funded under this part shall be in accordance with section 16352 of this title.

(b) Organization and administration of programs

Programs under this part shall incorporate the following elements:

(1) The Secretary shall coordinate with, and where appropriate may provide funds in furtherance of the purposes of this part to, other Department of Energy research and development programs focused on drilling, subsurface characterization, and other related technologies.

(2) The Secretary shall coordinate and consult with the appropriate Federal land management agencies in selecting proposals for funding under this part.

(3) Nothing in this part shall be construed to alter or affect any law relating to the management or protection of Federal lands.

(c) Education and outreach

In carrying out the activities described in this part, the Secretary shall support education and outreach activities to disseminate information on geothermal energy technologies and the geothermal energy workforce, including activities at the Frontier Observatory for Research in Geothermal Energy site or sites.

(d) Technical assistance

In carrying out this part, the Secretary shall also conduct technical assistance and analysis activities with eligible entities for the purpose of supporting the commercial application of advances in geothermal energy systems development and operations, which may include activities that support expanding access to advanced geothermal energy technologies for rural, Tribal, and low-income communities.

(e) Report

Every 5 years after December 27, 2020, the Secretary shall report to the Committee on Science and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate on advanced concepts and technologies to maximize the geothermal resource potential of the United States.

(f) Progress reports

Not later than 1 year after December 27, 2020, and every 2 years thereafter, the Secretary shall submit to the Committee on Science and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the results of projects undertaken under this part and other such information the Secretary considers appropriate.

(Pub. L. 110–140, title VI, §617, Dec. 19, 2007, 121 Stat. 1682; Pub. L. 116–260, div. Z, title III, §3002(f)(1), Dec. 27, 2020, 134 Stat. 2493.)

EDITORIAL NOTES

REFERENCES IN TEXT

This part, referred to in subsec. (f), probably should be a reference to "this subtitle", meaning subtitle B of title VI of Pub. L. 110–140, which is classified to this part.

AMENDMENTS

2020—Pub. L. 116–260, §3002(f)(1)(A), substituted "Organization and administration of programs" for "Cost sharing and proposal evaluation" in section catchline.

Subsec. (b)(2) to (4). Pub. L. 116–260, §3002(f)(1)(B), redesignated pars. (3) and (4) as (2) and (3), respectively, and struck out former par. (2) which read as follows: "In evaluating proposals, the Secretary shall give priority to proposals that demonstrate clear evidence of employing a systems approach."

Subsecs. (c) to (f). Pub. L. 116–260, §3002(f)(1)(C), added subsecs. (c) to (f).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17197. Advanced geothermal computing and data science research and development

(a) In general

The Secretary shall carry out a program of research and development of advanced computing and data science tools for geothermal energy.

(b) Programs

The program authorized in subsection (a) shall include the following:

(1) Advanced computing for geothermal systems technologies

Research, development, and demonstration of technologies to develop advanced data, machine learning, artificial intelligence, and related computing tools to assist in locating geothermal resources, to increase the reliability of site characterization, to increase the rate and efficiency of drilling, to improve induced seismicity mitigation, and to support enhanced geothermal systems technologies.

(2) Geothermal systems reservoir modeling

Research, development, and demonstration of models of geothermal reservoir performance and enhanced geothermal systems reservoir stimulation technologies and techniques, with an emphasis on accurately modeling fluid and heat flow, permeability evolution, geomechanics, geochemistry, seismicity, and operational performance over time, including collaboration with industry and field validation.

(c) Coordination

In carrying out these programs, the Secretary shall ensure coordination and consultation with the Department of Energy's Office of Science. The Secretary shall ensure, to the maximum extent practicable, coordination of these activities with the Department of Energy National Laboratories, institutes of higher education, and the private sector.

(Pub. L. 110–140, title VI, §618, Dec. 19, 2007, 121 Stat. 1683; Pub. L. 116–260, div. Z, title III, §3002(g)(1), Dec. 27, 2020, 134 Stat. 2494.)

EDITORIAL NOTES

AMENDMENTS

2020—Pub. L. 116–260 amended section generally. Prior to amendment, section related to Center for Geothermal Technology Transfer.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17198. Geothermal workforce development

The Secretary shall support the development of a geothermal energy workforce through a program that—

(1) facilitates collaboration between university students and researchers at the National Laboratories; and

(2) prioritizes science in areas relevant to the mission of the Department through the application of geothermal energy tools and technologies.

(Pub. L. 110–140, title VI, §619, Dec. 19, 2007, 121 Stat. 1683; Pub. L. 116–260, div. Z, title III,

§3002(h)(1), Dec. 27, 2020, 134 Stat. 2495.)

EDITORIAL NOTES

AMENDMENTS

2020—Pub. L. 116–260 amended section generally. Prior to amendment, section read as follows: "The Secretary shall expand the Department of Energy's GeoPowering the West program to extend its geothermal technology transfer activities throughout the entire United States. The program shall be renamed 'GeoPowering America'. The program shall continue to be based in the Department of Energy office in Golden, Colorado."

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§§17199, 17200. Repealed. Pub. L. 116–260, div. Z, title III, §3002(i)(1), Dec. 27, 2020, 134 Stat. 2495

Section 17199, Pub. L. 110–140, title VI, §620, Dec. 19, 2007, 121 Stat. 1683, related to educational pilot program.

Section 17200, Pub. L. 110–140, title VI, §621, Dec. 19, 2007, 121 Stat. 1684, related to reports to Congress.

§17201. Applicability of other laws

Nothing in this part shall be construed as waiving, modifying, or superseding the applicability of any requirement under any environmental or other Federal or State law. To the extent that activities authorized in this part take place in coastal and ocean areas, the Secretary shall consult with the Secretary of Commerce, acting through the Under Secretary of Commerce for Oceans and Atmosphere, regarding the potential marine environmental impacts and measures to address such impacts.

(Pub. L. 110–140, title VI, §622, Dec. 19, 2007, 121 Stat. 1684.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17202. Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the programs under this part \$170,000,000 for each of fiscal years 2021 through 2025.

(Pub. L. 110–140, title VI, §623, Dec. 19, 2007, 121 Stat. 1684; Pub. L. 116–260, div. Z, title III, §3002(j), Dec. 27, 2020, 134 Stat. 2495.)

EDITORIAL NOTES

AMENDMENTS

2020—Pub. L. 116–260 amended section generally. Prior to amendment, section related to authorization of appropriations for fiscal years 2008 to 2012.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17203. International geothermal energy development

(a) In general

The Secretary of Energy, in coordination with other appropriate Federal and multilateral agencies (including the United States Agency for International Development) shall support collaborative efforts with international partners to promote the research, development, and demonstration of geothermal technologies used to develop hydrothermal and enhanced geothermal system resources.

(b) United States Trade and Development Agency

The Director of the United States Trade and Development Agency may—

(1) encourage participation by United States firms in actions taken to carry out subsection (a); and

(2) provide grants and other financial support for feasibility and resource assessment studies conducted in, or intended to benefit, less developed countries.

(Pub. L. 110–140, title VI, §624, Dec. 19, 2007, 121 Stat. 1684; Pub. L. 116–260, div. Z, title III, §3002(k), Dec. 27, 2020, 134 Stat. 2495.)

EDITORIAL NOTES

AMENDMENTS

2020—Subsec. (a). Pub. L. 116–260, §3002(k)(1), amended subsec. (a) generally. Prior to amendment, text read as follows: "The Secretary of Energy, in coordination with other appropriate Federal and multilateral agencies (including the United States Agency for International Development) shall support international collaborative efforts to promote the research, development, and deployment of geothermal technologies used to develop hydrothermal and enhanced geothermal system resources, including as partners (as appropriate) the African Rift Geothermal Development Facility, Australia, China, France, the Republic of Iceland, India, Japan, and the United Kingdom."

Subsec. (c). Pub. L. 116–260, §3002(k)(2), struck out subsec. (c). Text read as follows: "There are authorized to be appropriated to carry out this section \$5,000,000 for each of fiscal years 2008 through 2012."

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17204. High cost region geothermal energy grant program

(a) Definitions

In this section:

(1) Eligible entity

The term "eligible entity" means—

(A) a utility;

- (B) an electric cooperative;
- (C) a State;
- (D) a political subdivision of a State;
- (E) an Indian tribe; or
- (F) a Native corporation.

(2) High-cost region

The term "high-cost region" means a region in which the average cost of electrical power or heat exceeds 150 percent of the national average retail cost, as determined by the Secretary.

(b) Program

The Secretary shall use amounts made available to carry out this section to make grants to eligible entities for activities described in subsection (c).

(c) Eligible activities

An eligible entity may use grant funds under this section, with respect to a geothermal energy project in a high-cost region, only—

- (1) to conduct a feasibility study, including a study of exploration, geochemical testing, geomagnetic surveys, geologic information gathering, baseline environmental studies, well drilling, resource characterization, permitting, and economic analysis;
- (2) for design and engineering costs, relating to the project; and
- (3) to demonstrate and promote commercial application of technologies related to geothermal energy as part of the project.

(d) Cost sharing

The cost-sharing requirements of section 16352 of this title shall apply to any project carried out under this section.

(e) Authorization of appropriations

Out of funds authorized under section 17202 of this title, there is authorized to be appropriated to carry out this section \$5,000,000 for each of fiscal years 2021 through 2025.

(Pub. L. 110–140, title VI, §625, Dec. 19, 2007, 121 Stat. 1685; Pub. L. 116–260, div. Z, title III, §3002(l), Dec. 27, 2020, 134 Stat. 2496.)

EDITORIAL NOTES

AMENDMENTS

2020—Subsec. (a)(2). Pub. L. 116–260, §3002(l)(1), inserted "or heat" after "electrical power".

Subsec. (e). Pub. L. 116–260, §3002(l)(2), amended subsec. (e) generally. Prior to amendment, text read as follows: "There are authorized to be appropriated such sums as are necessary to carry out this section."

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

PART C—WATER POWER RESEARCH AND DEVELOPMENT

EDITORIAL NOTES

CODIFICATION

Subtitle C of title VI of the Energy Independence and Security Act of 2007, known as the Marine and

Hydrokinetic Renewable Energy Research and Development Act, comprising this part, was originally enacted by Pub. L. 110–140, title VI, Dec. 19, 2007, 121 Stat. 1686. Such part is shown herein, however, as having been added by Pub. L. 116–260, div. Z, title III, §3001(a), Dec. 27, 2020, 134 Stat. 2479, because of the extensive revision of the part's provisions by Pub. L. 116–260.

STATUTORY NOTES AND RELATED SUBSIDIARIES

APPLICATION

Provisions of section 3212 of this title applicable to construction, alteration, or repair work of demonstration projects funded by grants or contracts authorized under this part, see section 9006(b) of div. Z of Pub. L. 116–260, set out as a note under section 16237 of this title.

§17211. Definitions

In this part:

(1) Eligible entity

The term "eligible entity" means any of the following entities:

- (A) An institution of higher education.
- (B) A National Laboratory.
- (C) A Federal research agency.
- (D) A State research agency.
- (E) A nonprofit research organization.
- (F) An industrial entity or a multi-institutional consortium thereof.

(2) Institution of higher education

The term "institution of higher education" means—

- (A) an institution of higher education (as defined in section 1001(a) of title 20); or
- (B) a postsecondary vocational institution (as defined in section 1002(c) of title 20).

(3) Marine energy

The term "marine energy" means energy from—

- (A) waves, tides, and currents in oceans, estuaries, and tidal areas;
- (B) free flowing water in rivers, lakes, streams, and man-made channels;
- (C) differentials in salinity and pressure gradients; and
- (D) differentials in water temperature, including ocean thermal energy conversion.

(4) National laboratory

The term "National Laboratory" has the meaning given such term in section 15801(3) of this title.

(5) Water power

The term "water power" refers to hydropower, including conduit power, pumped storage, and marine energy technologies.

(6) Microgrid

The term "microgrid" has the meaning given such term in section 17231 of this title.

(Pub. L. 110–140, title VI, §632, as added Pub. L. 116–260, div. Z, title III, §3001(a), Dec. 27, 2020, 134 Stat. 2479.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 17211, Pub. L. 110–140, title VI, §632, Dec. 19, 2007, 121 Stat. 1686, related to definitions of terms, prior to the general amendment of this part by Pub. L. 116–260.

STATUTORY NOTES AND RELATED SUBSIDIARIES

SHORT TITLE

This part was formerly known as the "Marine and Hydrokinetic Renewable Energy Research and Development Act", see Short Title note formerly set out under section 17001 of this title.

§17212. Water power technology research, development, and demonstration

The Secretary shall carry out a program to conduct research, development, demonstration, and commercial application of water power technologies in support of each of the following purposes:

- (1) To promote research, development, demonstration, and commercial application of water power generation technologies in order to increase capacity and reduce the cost of those technologies.
- (2) To promote research and development to improve the environmental impact of water power technologies.
- (3) To provide grid reliability and resilience, including through technologies that facilitate new market opportunities, such as ancillary services, for water power.
- (4) To promote the development of water power technologies to improve economic growth and enhance cross-institutional foundational workforce development in the water power sector, including in coastal communities.

(Pub. L. 110–140, title VI, §633, as added Pub. L. 116–260, div. Z, title III, §3001(a), Dec. 27, 2020, 134 Stat. 2480.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 17212, Pub. L. 110–140, title VI, §633, Dec. 19, 2007, 121 Stat. 1686, related to marine and hydrokinetic renewable energy research and development, prior to the general amendment of this part by Pub. L. 116–260.

§17213. Hydropower research, development, and demonstration

The Secretary shall conduct a program of research, development, demonstration, and commercial application for technologies that improve the capacity, efficiency, resilience, security, reliability, affordability, and environmental impact, including potential cumulative environmental impacts, of hydropower systems. In carrying out such program, the Secretary shall prioritize activities designed to—

- (1) develop technology for—
 - (A) non-powered dams, including aging and potentially hazardous dams;
 - (B) pumped storage;
 - (C) constructed waterways;
 - (D) new stream-reach development;
 - (E) modular and small dams;
 - (F) increased operational flexibility; and
 - (G) enhancement of relevant existing facilities;

- (2) develop new strategies and technologies, including analytical methods, physical and numerical tools, and advanced computing, as well as methods to validate such methods and tools, in order to—

- (A) extend the operational lifetime of hydropower systems and their physical structures, while improving environmental impact, including potential cumulative environmental impacts;

- (B) assist in device and system design, installation, operation, and maintenance; and
- (C) reduce costs, limit outages, and increase unit and plant efficiencies, including by examining the impact of changing water and electricity demand on hydropower generation, flexibility, and provision of grid services;

(3) study, in conjunction with other relevant Federal agencies as appropriate, methods to improve the hydropower licensing process, including by compiling current and accepted best practices, public comments, and methodologies to assess the full range of potential environmental and economic impacts;

(4) identify opportunities for joint research, development, and demonstration programs between hydropower systems, which may include—

- (A) pumped storage systems and other renewable energy systems;
- (B) small hydro facilities and other energy storage systems;
- (C) other hybrid energy systems;
- (D) small hydro facilities and critical infrastructure, including water infrastructure; and
- (E) hydro facilities and responsive load technologies, which may include smart buildings and city systems;

(5) improve the reliability of hydropower technologies, including during extreme weather events;

(6) develop methods and technologies to improve environmental impact, including potential cumulative environmental impacts, of hydropower and pumped storage technologies, including potential impacts on wildlife, such as—

- (A) fisheries;
- (B) aquatic life and resources;
- (C) navigation of waterways; and
- (D) upstream and downstream environmental conditions, including sediment movement, water quality, and flow volumes;

(7) identify ways to increase power generation by—

- (A) diversifying plant configuration options;
- (B) improving pump-back efficiencies;
- (C) investigating multi-phase systems;
- (D) developing, testing, and monitoring advanced generators with faster cycling times, variable speeds, and improved efficiencies;
- (E) developing, testing, and monitoring advanced turbines capable of improving environmental impact, including potential cumulative environmental impacts, including small turbine designs;
- (F) developing standardized powertrain components;
- (G) developing components with advanced materials and manufacturing processes, including additive manufacturing; and
- (H) developing analytical tools that enable hydropower to provide grid services that, amongst other services, improve grid integration of other energy sources;

(8) advance new pumped storage technologies, including—

- (A) systems with adjustable speed and other new pumping and generating equipment designs;
- (B) modular systems;
- (C) alternative closed-loop systems, including mines and quarries; and
- (D) other innovative equipment and materials as determined by the Secretary;

(9) reduce civil works costs and construction times for hydropower and pumped storage systems, including comprehensive data and systems analysis of hydropower and pumped storage construction technologies and processes in order to identify areas for whole-system efficiency

gains;

(10) advance efficient and reliable integration of hydropower and pumped storage systems with the electric grid by—

(A) improving methods for operational forecasting of renewable energy systems to identify opportunities for hydropower applications in pumped storage and hybrid energy systems, including forecasting of seasonal and annual energy storage;

(B) considering aggregating small distributed hydropower assets; and

(C) identifying barriers to grid scale implementation of hydropower and pumped storage technologies;

(11) improve computational fluid dynamic modeling methods;

(12) improve flow measurement methods, including maintenance of continuous flow measurement equipment;

(13) identify best methods for compiling data on all hydropower resources and assets, including identifying potential for increased capacity; and

(14) identify mechanisms to test and validate performance of hydropower and pumped storage technologies.

(Pub. L. 110–140, title VI, §634, as added Pub. L. 116–260, div. Z, title III, §3001(a), Dec. 27, 2020, 134 Stat. 2480.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 17213, Pub. L. 110–140, title VI, §634, Dec. 19, 2007, 121 Stat. 1687, related to National Marine Renewable Energy Research, Development, and Demonstration Centers, prior to the general amendment of this part by Pub. L. 116–260.

§17214. Marine energy research, development, and demonstration

(a) In general

The Secretary, in consultation with the Secretary of Defense, Secretary of Commerce (acting through the Under Secretary of Commerce for Oceans and Atmosphere) and other relevant Federal agencies, shall conduct a program of research, development, demonstration, and commercial application of marine energy technology, including activities to—

(1) assist technology development to improve the components, processes, and systems used for power generation from marine energy resources at a variety of scales;

(2) establish and expand critical testing infrastructure and facilities necessary to—

(A) demonstrate and prove marine energy devices at a range of scales in a manner that is cost-effective and efficient; and

(B) accelerate the technological readiness and commercial application of such devices;

(3) address marine energy resource variability issues, including through the application of energy storage technologies;

(4) advance efficient and reliable integration of marine energy with the electric grid, which may include smart building systems;

(5) identify and study critical short-term and long-term needs to maintaining a sustainable marine energy supply chain based in the United States;

(6) increase the reliability, security, and resilience of marine energy technologies;

(7) validate the performance, reliability, maintainability, and cost of marine energy device designs and system components in an operating environment;

(8) consider the protection of critical infrastructure, such as adequate separation between marine energy devices and submarine telecommunications cables, including through the development of

voluntary, consensus-based standards for such purposes;

(9) identify opportunities for crosscutting research, development, and demonstration programs between existing energy research programs;

(10) identify and improve, in conjunction with the Secretary of Commerce, acting through the Under Secretary of Commerce for Oceans and Atmosphere, and other relevant Federal agencies as appropriate, the environmental impact, including potential cumulative environmental impacts, of marine energy technologies, including—

(A) potential impacts on fisheries and other marine resources; and

(B) developing technologies, including mechanisms for self-evaluation, and other means available for improving environmental impact, including potential cumulative environmental impacts;

(11) identify, in consultation with relevant Federal agencies, potential navigational impacts of marine energy technologies and strategies to prevent possible adverse impacts, in addition to opportunities for marine energy systems to aid the United States Coast Guard, such as remote sensing for coastal border security;

(12) develop numerical and physical tools, including models and monitoring technologies, to assist industry in device and system design, installation, operation, and maintenance, including methods to validate such tools;

(13) support materials science as it relates to marine energy technology, such as the development of corrosive-resistant materials;

(14) improve marine energy resource forecasting and general understanding of aquatic system behavior, including turbulence and extreme conditions;

(15) develop metrics and voluntary, consensus-based standards, in coordination with the National Institute of Standards and Technology and appropriate standard development organizations, for marine energy components, systems, and projects, including—

(A) measuring performance of marine energy technologies; and

(B) characterizing environmental conditions;

(16) enhance integration with hybrid energy systems, including desalination;

(17) identify opportunities to integrate marine energy technologies into new and existing infrastructure; and

(18) to ¹ develop technology necessary to support the use of marine energy—

(A) for the generation and storage of power at sea; and

(B) for the generation and storage of power to promote the resilience of coastal communities, including in applications relating to—

(i) desalination;

(ii) disaster recovery and resilience; and

(iii) community microgrids in isolated power systems.

(b) Study of non-power sector applications for advanced marine energy technologies

(1) In general

The Secretary, in consultation with the Secretary of Transportation and the Secretary of Commerce, shall conduct a study to examine opportunities for research and development in advanced marine energy technologies for non-power sector applications, including applications with respect to—

(A) the maritime transportation sector;

(B) associated maritime energy infrastructure, including infrastructure that serves ports, to improve system resilience and disaster recovery; and

(C) enabling scientific missions at sea and in extreme environments, including the Arctic.

(2) Report

Not later than 1 year after December 27, 2020, the Secretary shall submit to the Committee on

Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report that describes the results of the study conducted under paragraph (1).

(Pub. L. 110–140, title VI, §635, as added Pub. L. 116–260, div. Z, title III, §3001(a), Dec. 27, 2020, 134 Stat. 2482.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 17214, Pub. L. 110–140, title VI, §635, Dec. 19, 2007, 121 Stat. 1688, related to applicability of other laws, prior to the general amendment of this part by Pub. L. 116–260.

¹ So in original.

§17215. National Marine Energy Centers

(a) In general

The Secretary shall award grants, each such grant up to \$10,000,000 per year, to institutions of higher education (or consortia thereof) for—

- (1) the continuation and expansion of the research, development, demonstration, testing, and commercial application activities at the National Marine Energy Centers (referred to in this section as "Centers") established as of January 1, 2020; and
- (2) the establishment of new National Marine Energy Centers.

(b) Location selection

In selecting institutions of higher education for new Centers, the Secretary shall consider the following criteria:

- (1) Whether the institution hosts an existing marine energy research and development program.
- (2) Whether the institution has proven technical expertise to support marine energy research.
- (3) Whether the institution has access to marine resources.

(c) Purposes

The Centers shall coordinate among themselves, the Department, and National Laboratories to—

- (1) advance research, development, demonstration, and commercial application of marine energy technologies in response to industry and commercial needs;
- (2) support in-water testing and demonstration of marine energy technologies, including facilities capable of testing—
 - (A) marine energy systems of various technology readiness levels and scales;
 - (B) a variety of technologies in multiple test berths at a single location;
 - (C) arrays of technology devices; and
 - (D) interconnectivity to an electrical grid, including microgrids; and

(3) collect and disseminate information on best practices in all areas relating to developing and managing marine energy resources and energy systems.

(d) Coordination

To the extent practicable, the Centers shall coordinate their activities with the Secretary of Commerce, acting through the Undersecretary of Commerce for Oceans and Atmosphere, and other relevant Federal agencies.

(e) Termination

To the extent otherwise authorized by law, the Secretary may terminate funding for a Center described in paragraph (a) if such Center is under-performing.

(Pub. L. 110–140, title VI, §636, as added Pub. L. 116–260, div. Z, title III, §3001(a), Dec. 27, 2020, 134 Stat. 2484.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 17215, Pub. L. 110–140, title VI, §636, Dec. 19, 2007, 121 Stat. 1688, related to authorization of appropriations, prior to the general amendment of this part by Pub. L. 116–260.

§17216. Organization and administration of programs

(a) Coordination

In carrying out this part, the Secretary shall coordinate activities, and effectively manage cross-cutting research priorities across programs of the Department and other relevant Federal agencies, including the National Laboratories and the National Marine Energy Centers.

(b) Collaboration

(1) In general

In carrying out this part, the Secretary shall collaborate with industry, National Laboratories, other relevant Federal agencies, institutions of higher education, including Minority Serving Institutions, National Marine Energy Centers, Tribal entities, including Alaska Native Corporations, and international bodies with relevant scientific and technical expertise.

(2) Participation

To the extent practicable, the Secretary shall encourage research projects that promote collaboration between entities specified in paragraph (1) and include entities not historically associated with National Marine Energy Centers, such as Minority Serving Institutions.

(3) International collaboration

The Secretary, in coordination with other appropriate Federal and multilateral agencies (including the United States Agency for International Development) shall support collaborative efforts with international partners to promote the research, development, and demonstration of water power technologies used to develop hydropower, pump storage, and marine energy resources.

(c) Dissemination of results and public availability

The Secretary shall—

(1) publish the results of projects supported under this part through Department websites, reports, databases, training materials, and industry conferences, including information discovered after the completion of such projects, withholding any industrial proprietary information; and

(2) share results of such projects with the public except to the extent that the information is protected from disclosure under section 552(b) of title 5.

(d) Award frequency

The Secretary shall solicit applications for awards under this part no less frequently than once per fiscal year.

(e) Education and outreach

In carrying out the activities described in this part, the Secretary shall support education and outreach activities to disseminate information and promote public understanding of water power technologies and the water power workforce, including activities at the National Marine Energy Centers.

(f) Technical assistance and workforce development

In carrying out this part, the Secretary may also conduct, for purposes of supporting technical,

non-hardware, and information-based advances in water power systems development and operations—

- (1) technical assistance and analysis activities with eligible entities, including activities that support expanding access to advanced water power technologies for rural, Tribal, and low-income communities; and
- (2) workforce development and training activities, including to support the dissemination of standards and best practices for enabling water power production.

(g) Strategic plan

In carrying out the activities described in this part, the Secretary shall—

- (1) not later than one year after December 27, 2020, draft a plan, considering input from relevant stakeholders such as industry and academia, to implement the programs described in this part and update the plan on an annual basis; and
- (2) the plan ¹ shall address near-term (up to 2 years), mid-term (up to 7 years), and long-term (up to 15 years) challenges to the advancement of water power systems.

(h) Report to Congress

Not later than 1 year after December 27, 2020, and at least once every 2 years thereafter, the Secretary shall provide, and make available to the public and the relevant authorizing and appropriations committees of Congress, a report on the findings of research conducted and activities carried out pursuant to this part, including the most current strategic plan under subsection (g) and the progress made in implementing such plan.

(Pub. L. 110–140, title VI, §637, as added Pub. L. 116–260, div. Z, title III, §3001(a), Dec. 27, 2020, 134 Stat. 2485.)

¹ *So in original.*

§17217. Applicability of other laws

Nothing in this part shall be construed as waiving, modifying, or superseding the applicability of any requirement under any environmental or other Federal or State law.

(Pub. L. 110–140, title VI, §638, as added Pub. L. 116–260, div. Z, title III, §3001(a), Dec. 27, 2020, 134 Stat. 2486.)

§17218. Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this part \$186,600,000 for each of fiscal years 2021 through 2025, including \$137,428,378 for marine energy and \$49,171,622 for hydropower research, development, and demonstration activities.

(Pub. L. 110–140, title VI, §639, as added Pub. L. 116–260, div. Z, title III, §3001(a), Dec. 27, 2020, 134 Stat. 2486.)

PART D—ENERGY STORAGE FOR TRANSPORTATION AND ELECTRIC POWER

§17231. Energy storage competitiveness

(a) Short title

This section may be cited as the "United States Energy Storage Competitiveness Act of 2007".

(b) Definitions

In this section:

(1) Council

The term "Council" means the Energy Storage Advisory Council established under subsection (e).

(2) Compressed air energy storage

The term "compressed air energy storage" means, in the case of an electricity grid application, the storage of energy through the compression of air.

(3) Electric drive vehicle

The term "electric drive vehicle" means—

(A) a vehicle that uses an electric motor for all or part of the motive power of the vehicle, including battery electric, hybrid electric, plug-in hybrid electric, fuel cell, and plug-in fuel cell vehicles and rail transportation vehicles; or

(B) mobile equipment that uses an electric motor to replace an internal combustion engine for all or part of the work of the equipment.

(4) Islanding

The term "islanding" means a distributed generator or energy storage device continuing to power a location in the absence of electric power from the primary source.

(5) Flywheel

The term "flywheel" means, in the case of an electricity grid application, a device used to store rotational kinetic energy.

(6) Microgrid

The term "microgrid" means an integrated energy system consisting of interconnected loads and distributed energy resources (including generators and energy storage devices), which as an integrated system can operate in parallel with the utility grid or in an intentional islanding mode.

(7) Self-healing grid

The term "self-healing grid" means a grid that is capable of automatically anticipating and responding to power system disturbances (including the isolation of failed sections and components), while optimizing the performance and service of the grid to customers.

(8) Spinning reserve services

The term "spinning reserve services" means a quantity of electric generating capacity in excess of the quantity needed to meet peak electric demand.

(9) Ultracapacitor

The term "ultracapacitor" means an energy storage device that has a power density comparable to a conventional capacitor but is capable of exceeding the energy density of a conventional capacitor by several orders of magnitude.

(c) Program

The Secretary shall carry out a research, development, and demonstration program to support the ability of the United States to remain globally competitive in energy storage systems for electric drive vehicles, stationary applications, and electricity transmission and distribution.

(d) Coordination

In carrying out the activities of this section, the Secretary shall coordinate relevant efforts with appropriate Federal agencies, including the Department of Transportation.

(e) Energy Storage Advisory Council

(1) Establishment

Not later than 90 days after December 19, 2007, the Secretary shall establish an Energy Storage Advisory Council.

(2) Composition

(A) In general

Subject to subparagraph (B), the Council shall consist of not less than 15 individuals appointed by the Secretary, based on recommendations of the National Academy of Sciences.

(B) Energy storage industry

The Council shall consist primarily of representatives of the energy storage industry of the United States.

(C) Chairperson

The Secretary shall select a Chairperson for the Council from among the members appointed under subparagraph (A).

(3) Meetings

(A) In general

The Council shall meet not less than once a year.

(B) Chapter 10 of title 5

Chapter 10 of title 5 shall apply to a meeting of the Council.

(4) Plans

No later than 1 year after December 19, 2007, and every 5 years thereafter, the Council, in conjunction with the Secretary, shall develop a 5-year plan for integrating basic and applied research so that the United States retains a globally competitive domestic energy storage industry for electric drive vehicles, stationary applications, and electricity transmission and distribution.

(5) Review

The Council shall—

(A) assess, every 2 years, the performance of the Department in meeting the goals of the plans developed under paragraph (4); and

(B) make specific recommendations to the Secretary on programs or activities that should be established or terminated to meet those goals.

(f) Basic research program

(1) Basic research

The Secretary shall conduct a basic research program on energy storage systems to support electric drive vehicles, stationary applications, and electricity transmission and distribution, including—

(A) materials design;

(B) materials synthesis and characterization;

(C) electrode-active materials, including electrolytes and bioelectrolytes;

(D) surface and interface dynamics;

(E) modeling and simulation; and

(F) thermal behavior and life degradation mechanisms.

(2) Nanoscience centers

The Secretary, in cooperation with the Council, shall coordinate the activities of the nanoscience centers of the Department to help the energy storage research centers of the Department maintain a globally competitive posture in energy storage systems for electric drive vehicles, stationary applications, and electricity transmission and distribution.

(3) Funding

For activities carried out under this subsection, in addition to funding activities at National Laboratories, the Secretary shall award funds to, and coordinate activities with, a range of stakeholders including the public, private, and academic sectors.

(g) Applied research program

(1) In general

The Secretary shall conduct an applied research program on energy storage systems to support electric drive vehicles, stationary applications, and electricity transmission and distribution technologies, including—

- (A) ultracapacitors;
- (B) flywheels;
- (C) batteries and battery systems (including flow batteries);
- (D) compressed air energy systems;
- (E) power conditioning electronics;
- (F) manufacturing technologies for energy storage systems;
- (G) thermal management systems; and
- (H) hydrogen as an energy storage medium.

(2) Funding

For activities carried out under this subsection, in addition to funding activities at National Laboratories, the Secretary shall provide funds to, and coordinate activities with, a range of stakeholders, including the public, private, and academic sectors.

(h) Energy storage research centers

(1) In general

The Secretary shall establish, through competitive bids, not more than 4 energy storage research centers to translate basic research into applied technologies to advance the capability of the United States to maintain a globally competitive posture in energy storage systems for electric drive vehicles, stationary applications, and electricity transmission and distribution.

(2) Program management

The centers shall be managed by the Under Secretary for Science of the Department.

(3) Participation agreements

As a condition of participating in a center, a participant shall enter into a participation agreement with the center that requires that activities conducted by the participant for the center promote the goal of enabling the United States to compete successfully in global energy storage markets.

(4) Plans

A center shall conduct activities that promote the achievement of the goals of the plans of the Council under subsection (e)(4).

(5) National laboratories

A national laboratory (as defined in section 15801 of this title) may participate in a center established under this subsection, including a cooperative research and development agreement (as defined in section 3710a(d) of title 15).

(6) Disclosure

Section 13293 of this title may apply to any project carried out through a grant, contract, or cooperative agreement under this subsection.

(7) Intellectual property

In accordance with section 202(a)(ii) of title 35, section 2182 of this title, and section 5908 of this title, the Secretary may require, for any new invention developed under this subsection, that—

- (A) if an industrial participant is active in a ¹ energy storage research center established under

this subsection relating to the advancement of energy storage technologies carried out, in whole or in part, with Federal funding, the industrial participant be granted the first option to negotiate with the invention owner, at least in the field of energy storage technologies, nonexclusive licenses, and royalties on terms that are reasonable, as determined by the Secretary;

(B) if 1 or more industry participants are active in a center, during a 2-year period beginning on the date on which an invention is made—

(i) the patent holder shall not negotiate any license or royalty agreement with any entity that is not an industrial participant under this subsection; and

(ii) the patent holder shall negotiate nonexclusive licenses and royalties in good faith with any interested industrial participant under this subsection; and

(C) the new invention be developed under such other terms as the Secretary determines to be necessary to promote the accelerated commercialization of inventions made under this subsection to advance the capability of the United States to successfully compete in global energy storage markets.

(i) Energy storage systems demonstrations

(1) In general

The Secretary shall carry out a program of new demonstrations of advanced energy storage systems.

(2) Scope

The demonstrations shall—

(A) be regionally diversified; and

(B) expand on the existing technology demonstration program of the Department.

(3) Stakeholders

In carrying out the demonstrations, the Secretary shall, to the maximum extent practicable, include the participation of a range of stakeholders, including—

(A) rural electric cooperatives;

(B) investor owned utilities;

(C) municipally owned electric utilities;

(D) energy storage systems manufacturers;

(E) electric drive vehicle manufacturers;

(F) the renewable energy production industry;

(G) State or local energy offices;

(H) the fuel cell industry; and

(I) institutions of higher education.

(4) Objectives

Each of the demonstrations shall include 1 or more of the following:

(A) Energy storage to improve the feasibility of microgrids or islanding, or transmission and distribution capability, to improve reliability in rural areas.

(B) Integration of an energy storage system with a self-healing grid.

(C) Use of energy storage to improve security to emergency response infrastructure and ensure availability of emergency backup power for consumers.

(D) Integration with a renewable energy production source, at the source or away from the source.

(E) Use of energy storage to provide ancillary services, such as spinning reserve services, for grid management.

(F) Advancement of power conversion systems to make the systems smarter, more efficient, able to communicate with other inverters, and able to control voltage.

(G) Use of energy storage to optimize transmission and distribution operation and power quality, which could address overloaded lines and maintenance of transformers and substations.

(H) Use of advanced energy storage for peak load management of homes, businesses, and the grid.

(I) Use of energy storage devices to store energy during nonpeak generation periods to make better use of existing grid assets.

(j) Vehicle energy storage demonstration

(1) In general

The Secretary shall carry out a program of electric drive vehicle energy storage technology demonstrations.

(2) Consortia

The technology demonstrations shall be conducted through consortia, which may include—

(A) energy storage systems manufacturers and suppliers of the manufacturers;

(B) electric drive vehicle manufacturers;

(C) rural electric cooperatives;

(D) investor owned utilities;

(E) municipal and rural electric utilities;

(F) State and local governments;

(G) metropolitan transportation authorities; and

(H) institutions of higher education.

(3) Objectives

The program shall demonstrate 1 or more of the following:

(A) Novel, high capacity, high efficiency energy storage, charging, and control systems, along with the collection of data on performance characteristics, such as battery life, energy storage capacity, and power delivery capacity.

(B) Advanced onboard energy management systems and highly efficient battery cooling systems.

(C) Integration of those systems on a prototype vehicular platform, including with drivetrain systems for passenger, commercial, and nonroad electric drive vehicles.

(D) New technologies and processes that reduce manufacturing costs.

(E) Integration of advanced vehicle technologies with electricity distribution system and smart metering technology.

(F) Control systems that minimize emissions profiles in cases in which clean diesel engines are part of a plug-in hybrid drive system.

(k) Electric drive vehicle battery second-life applications and recycling

(1) Definitions

In this subsection:

(A) Battery recycling and second-life applications program

The term "battery recycling and second-life applications program" means the electric drive vehicle battery recycling and second-life applications program established under paragraph (3).

(B) Critical material

The term "critical material" has the meaning given the term in section 1606(a) of title 30.

(C) Economically distressed area

The term "economically distressed area" means an area described in section 3161(a) of this title.

(D) Electric drive vehicle battery

The term "electric drive ² vehicle battery" means any battery that is a motive power source for an electric drive vehicle.

(E) Eligible entity

The term "eligible entity" means an entity described in any of paragraphs (1) through (5) of section 16353(b) of this title.

(2) Program

The Secretary shall carry out a program of research, development, and demonstration of—

(A) second-life applications for electric drive vehicle batteries that have been used to power electric drive vehicles; and

(B) technologies and processes for final recycling and disposal of the devices described in subparagraph (A).

(3) Electric drive vehicle battery recycling and second-life applications

(A) In general

In carrying out the program under paragraph (2), the Secretary shall establish an electric drive vehicle battery recycling and second-life applications program under which the Secretary shall—

(i) award grants under subparagraph (D); and

(ii) carry out other activities in accordance with this paragraph.

(B) Purposes

The purposes of the battery recycling and second-life applications program are the following:

(i) To improve the recycling rates and second-use adoption rates of electric drive vehicle batteries.

(ii) To optimize the design and adaptability of electric drive vehicle batteries to make electric drive vehicle batteries more easily recyclable.

(iii) To establish alternative supply chains for critical materials that are found in electric drive vehicle batteries.

(iv) To reduce the cost of manufacturing, installation, purchase, operation, and maintenance of electric drive vehicle batteries.

(v) To improve the environmental impact of electric drive vehicle battery recycling processes.

(C) Targets

In carrying out the battery recycling and second-life applications program, the Secretary shall address near-term (up to 2 years), mid-term (up to 5 years), and long-term (up to 10 years) challenges to the recycling of electric drive vehicle batteries.

(D) Grants

(i) In general

In carrying out the battery recycling and second-life applications program, the Secretary shall award multiyear grants on a competitive, merit-reviewed basis to eligible entities—

(I) to conduct research, development, testing, and evaluation of solutions to increase the rate and productivity of electric drive vehicle battery recycling; and

(II) for research, development, and demonstration projects to create innovative and practical approaches to increase the recycling and second-use of electric drive vehicle batteries, including by addressing—

(aa) technology to increase the efficiency of electric drive vehicle battery recycling and maximize the recovery of critical materials for use in new products;

(bb) expanded uses for critical materials recovered from electric drive vehicle batteries;

(cc) product design and construction to facilitate the disassembly and recycling of electric drive vehicle batteries;

(dd) product design and construction and other tools and techniques to extend the lifecycle of electric drive vehicle batteries, including methods to promote the safe second-use of electric drive vehicle batteries;

(ee) strategies to increase consumer acceptance of, and participation in, the recycling of electric drive vehicle batteries;

(ff) improvements and changes to electric drive vehicle battery chemistries that include ways to decrease processing costs for battery recycling without sacrificing front-end performance;

(gg) second-use of electric drive vehicle batteries, including in applications outside of the automotive industry; and

(hh) the commercialization and scale-up of electric drive vehicle battery recycling technologies.

(ii) Priority

In awarding grants under clause (i), the Secretary shall give priority to projects that—

(I) are located in geographically diverse regions of the United States;

(II) include business commercialization plans that have the potential for the recycling of electric drive vehicle batteries at high volumes;

(III) support the development of advanced manufacturing technologies that have the potential to improve the competitiveness of the United States in the international electric drive vehicle battery manufacturing sector;

(IV) provide the greatest potential to reduce costs for consumers and promote accessibility and community implementation of demonstrated technologies;

(V) increase disclosure and transparency of information to consumers;

(VI) support the development or demonstration of projects in economically distressed areas; and

(VII) support other relevant priorities, as determined to be appropriate by the Secretary.

(iii) Solicitation

Not later than 90 days after November 15, 2021, and annually thereafter, the Secretary shall conduct a national solicitation for applications for grants described in clause (i).

(iv) Dissemination of results

The Secretary shall publish the results of the projects carried out through grants awarded under clause (i) through—

(I) best practices relating to those grants, for use in the electric drive vehicle battery manufacturing, design, installation, refurbishing, or recycling industries;

(II) coordination with information dissemination programs relating to general recycling of electronic devices; and

(III) educational materials for the public, produced in conjunction with State and local governments or nonprofit organizations, on the problems and solutions relating to the recycling and second-life applications of electric drive vehicle batteries.

(E) Coordination with other programs of the Department

In carrying out the battery recycling and second-life applications program, the Secretary shall coordinate and leverage the resources of complementary efforts of the Department.

(F) Study and report

(i) Study

The Secretary shall conduct a study on the viable market opportunities available for the recycling, second-use, and manufacturing of electric drive vehicle batteries in the United States.

(ii) Report

Not later than 1 year after November 15, 2021, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate, the Committee on Science, Space, and Technology of the House of Representatives, and any other relevant committee of Congress a report containing the results of the study under clause (i), including a description of—

(I) the ability of relevant businesses or other entities to competitively manufacture electric drive vehicle batteries and recycle electric drive vehicle batteries in the United States;

(II) any existing electric drive vehicle battery recycling and second-use practices and plans of electric drive vehicle manufacturing companies in the United States;

(III) any barriers to electric drive vehicle battery recycling in the United States;

(IV) opportunities and barriers in electric drive vehicle battery supply chains in the United States and internationally, including with allies and trading partners;

(V) opportunities for job creation in the electric drive vehicle battery recycling and manufacturing fields and the necessary skills employees must acquire for growth of those fields in the United States;

(VI) policy recommendations for enhancing electric drive vehicle battery manufacturing and recycling in the United States;

(VII) any recommendations for lowering logistics costs and creating better coordination and efficiency with respect to the removal, collection, transportation, storage, and disassembly of electric drive vehicle batteries;

(VIII) any recommendations for areas of coordination with other Federal agencies to improve electric drive vehicle battery recycling rates in the United States;

(IX) an aggressive 2-year target and plan, the implementation of which shall begin during the 90-day period beginning on the date on which the report is submitted, to enhance the competitiveness of electric drive vehicle battery manufacturing and recycling in the United States; and

(X) needs for future research, development, and demonstration projects in electric drive vehicle battery manufacturing, recycling, and related areas, as determined by the Secretary.

(G) Evaluation

Not later than 3 years after the date on which the report under subparagraph (F)(ii) is submitted, and every 4 years thereafter, the Secretary shall conduct, and make available to the public and the relevant committees of Congress, an independent review of the progress of the grants awarded under subparagraph (D) in meeting the recommendations and targets included in the report.

(I) Cost sharing

The Secretary shall carry out the programs established under this section in accordance with section 16352 of this title.

(m) Merit review of proposals

The Secretary shall carry out the programs established under subsections (i), (j), and (k) in accordance with section 16353 of this title.

(n) Coordination and nonduplication

To the maximum extent practicable, the Secretary shall coordinate activities under this section with other programs and laboratories of the Department and other Federal research programs.

(o) Review by National Academy of Sciences

On the business day that is 5 years after December 19, 2007, the Secretary shall offer to enter into an arrangement with the National Academy of Sciences to assess the performance of the Department in carrying out this section.

(p) Authorization of appropriations

There are authorized to be appropriated to carry out—

(1) the basic research program under subsection (f) \$50,000,000 for each of fiscal years 2009 through 2018;

(2) the applied research program under subsection (g) \$80,000,000 for each of fiscal years 2009 through 2018; and; ²

(3) the energy storage research center program under subsection (h) \$100,000,000 for each of

fiscal years 2009 through 2018;

(4) the energy storage systems demonstration program under subsection (i) \$30,000,000 for each of fiscal years 2009 through 2018;

(5) the vehicle energy storage demonstration program under subsection (j) \$30,000,000 for each of fiscal years 2009 through 2018; and

(6) the electric drive vehicle battery recycling and second-life applications program under subsection (k) \$200,000,000 for the period of fiscal years 2022 through 2026.

(q) Critical material recycling and reuse research, development, and demonstration program

(1) Definitions

In this subsection:

(A) Critical material

The term "critical material" has the meaning given the term in 1606 of title 30.

(B) Critical material recycling

The term "critical material recycling" means the separation and recovery of critical materials embedded within an energy storage system through physical or chemical means for the purpose of reuse of those critical materials in other technologies.

(2) Establishment

Not later than 180 days after December 27, 2020, the Secretary shall establish a research, development, and demonstration program for critical material recycling and reuse of energy storage systems containing critical materials.

(3) Research, development, and demonstration

In carrying out the program established under paragraph (1), the Secretary shall conduct—

(A) research, development, and demonstration activities for—

(i) technologies, process improvements, and design optimizations that facilitate and promote critical material recycling of energy storage systems, including separation and sorting of component materials of such systems, and extraction, recovery, and reuse of critical materials from such systems;

(ii) technologies and methods that mitigate emissions and environmental impacts that arise from critical material recycling, including disposal of toxic reagents and byproducts related to critical material recycling processes;

(iii) technologies to enable extraction, recovery, and reuse of energy storage systems from electric vehicles and critical material recycling from such vehicles; and

(iv) technologies and methods to enable the safe transport, storage, and disposal of energy storage systems containing critical materials, including waste materials and components recovered during the critical material recycling process; and

(B) research on nontechnical barriers to improve the collection and critical material recycling of energy storage systems, including strategies to improve consumer education of, acceptance of, and participation in, the critical material recycling of energy storage systems.

(4) Report to Congress

Not later than 2 years after December 27, 2020, and every 3 years thereafter, the Secretary shall submit to the Committee on Science, Space, and Technology and the Committee on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report summarizing the activities, findings, and progress of the program.

(Pub. L. 110–140, title VI, §641, Dec. 19, 2007, 121 Stat. 1688; Pub. L. 116–260, div. Z, title III, §3201(f), formerly §3201(e), Dec. 27, 2020, 134 Stat. 2523, renumbered §3201(f), Pub. L. 117–58, div. D, title III, §40334(1), Nov. 15, 2021, 135 Stat. 1025; Pub. L. 117–58, div. D, title II, §40208, Nov. 15, 2021, 135 Stat. 971; Pub. L. 117–286, §4(a)(280), Dec. 27, 2022, 136 Stat. 4336.)

EDITORIAL NOTES

CODIFICATION

Section 40334(1) of Pub. L. 117–58, which directed amendment of section 3201 of the Energy Policy Act of 2020 by redesignating subsection (e) as subsection (f), was executed by making the amendment to section 3201 of div. Z of Pub. L. 116–260, known as the Energy Act of 2020, to reflect the probable intent of Congress.

AMENDMENTS

2022—Subsec. (e)(3)(B). Pub. L. 117–286 substituted "Chapter 10 of title 5" for "Federal Advisory Committee Act" in heading and "Chapter 10 of title 5" for "The Federal Advisory Committee Act (5 U.S.C. App.)" in text.

2021—Subsec. (k). Pub. L. 117–58, §40208(1), added subsec. (k) and struck out former subsec. (k) which related to secondary applications and disposal of electric drive vehicle batteries.

Subsec. (p)(6). Pub. L. 117–58, §40208(2), added par. (6) and struck out former par. (6) which read as follows: "the secondary applications and disposal of electric drive vehicle batteries program under subsection (k) \$5,000,000 for each of fiscal years 2009 through 2018."

2020—Subsec. (q). Pub. L. 116–260 added subsec. (q).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

² *So in original.*

§17232. Better energy storage technology

(a) Definitions

In this section:

(1) Energy storage system

The term "energy storage system" means any system, equipment, facility, or technology that—

(A) is capable of absorbing or converting energy, storing the energy for a period of time, and dispatching the energy; and

(B)(i) uses mechanical, electrochemical, thermal, electrolysis, or other processes to convert and store electric energy that was generated at an earlier time for use at a later time;

(ii) uses mechanical, electrochemical, biochemical, or thermal processes to convert and store energy generated from mechanical processes that would otherwise be wasted, for delivery at a later time; or

(iii) stores energy in an electric, thermal, or gaseous state for direct use for heating or cooling at a later time in a manner that avoids the need to use electricity or other fuel sources at that later time, such as a grid-enabled water heater.

(2) Program

The term "program" means the Energy Storage System Research, Development, and Deployment Program established under subsection (b)(1).

(3) Secretary

The term "Secretary" means the Secretary of Energy.

(b) Energy Storage System Research, Development, and Deployment Program

(1) Establishment

Not later than 180 days after December 27, 2020, the Secretary shall establish a program, to be known as the Energy Storage System Research, Development, and Deployment Program.

(2) Initial program objectives

The program shall focus on research, development, and deployment of—

(A) energy storage systems, components, and materials designed to further the development of technologies—

- (i) for large-scale commercial deployment;
- (ii) for deployment at cost targets established by the Secretary;
- (iii) for hourly and subhourly durations required to provide reliability services to the grid;
- (iv) for daily durations, which have the capacity to discharge energy for a minimum of 6 hours;
- (v) for weekly or monthly durations, which have the capacity to discharge energy for 10 to 100 hours, at a minimum; and
- (vi) for seasonal durations, which have the capability to address seasonal variations in supply and demand;

(B) distributed energy storage technologies and applications, including building-grid integration;

(C) long-term cost, performance, and demonstration targets for different types of energy storage systems and for use in a variety of regions, including rural areas;

(D) transportation energy storage technologies and applications, including vehicle-grid integration;

(E) cost-effective systems and methods for—

- (i) the sustainable and secure sourcing, reclamation, recycling, and disposal of energy storage systems, including critical minerals; and
- (ii) the reuse and repurposing of energy storage system technologies;

(F) advanced control methods for energy storage systems;

(G) pumped hydroelectric energy storage systems to advance—

- (i) adoption of innovative technologies, including—
 - (I) systems with adjustable-speed and other new pumping and generating equipment designs;
 - (II) modular systems;
 - (III) closed-loop systems, including mines and quarries; and
 - (IV) other innovative equipment and materials as determined by the Secretary; and
- (ii) reductions of civil works costs and construction times for hydropower and pumped storage systems, including comprehensive data and systems analysis of hydropower and pumped storage construction technologies and processes in order to identify areas for whole-system efficiency gains;

(H) models and tools to demonstrate the costs and benefits of energy storage to—

- (i) power and water supply systems;
- (ii) electric generation portfolio optimization; and
- (iii) expanded deployment of other renewable energy technologies, including in integrated energy storage systems;

(I) energy storage use cases from individual and combination technology applications, including value from various-use cases and energy storage services; and

(J) advanced manufacturing technologies that have the potential to improve United States competitiveness in energy storage manufacturing or reduce United States dependence on critical materials.

(3) Testing and validation

In coordination with 1 or more National Laboratories, the Secretary shall support the development, standardized testing, and validation of energy storage systems under the program, including test-bed and field trials, by developing testing and evaluation methodologies for—

(A) storage technologies, controls, and power electronics for energy storage systems under a variety of operating conditions;

(B) standardized and grid performance testing for energy storage systems, materials, and technologies during each stage of development;

(C) reliability, safety, degradation, and durability testing under standard and evolving duty cycles; and

(D) accelerated life testing protocols to predict estimated lifetime metrics with accuracy.

(4) Periodic evaluation of program objectives

Not less frequently than once every calendar year, the Secretary shall evaluate and, if necessary, update the program objectives to ensure that the program continues to advance energy storage systems toward widespread commercial deployment by lowering the costs and increasing the duration of energy storage resources.

(5) Energy storage strategic plan

(A) In general

The Secretary shall develop a 10-year strategic plan for the program, and update the plan, in accordance with this paragraph.

(B) Contents

The strategic plan developed under subparagraph (A) shall—

(i) be coordinated with and integrated across other relevant offices in the Department;

(ii) to the extent practicable, include metrics that can be used to evaluate storage technologies;

(iii) identify Department programs that—

(I) support the research and development activities described in paragraph (2) and the demonstration projects under subsection (c); and

(II)(aa) do not support the activities or projects described in subclause (I); but

(bb) are important to the development of energy storage systems and the mission of the Department, as determined by the Secretary;

(iv) include expected timelines for—

(I) the accomplishment of relevant objectives under current programs of the Department relating to energy storage systems; and

(II) the commencement of any new initiatives within the Department relating to energy storage systems to accomplish those objectives; and

(v) incorporate relevant activities described in the Grid Modernization Initiative Multi-Year Program Plan.

(C) Submission to Congress

Not later than 180 days after December 27, 2020, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committees on Energy and Commerce and Science, Space, and Technology of the House of Representatives the strategic plan developed under subparagraph (A).

(D) Updates to plan

The Secretary—

- (i) shall annually review the strategic plan developed under subparagraph (A); and
- (ii) may periodically revise the strategic plan as appropriate.

(6) Leveraging of resources

The program may be led by a specific office of the Department, but shall be cross-cutting in nature, so that in carrying out activities under the program, the Secretary (or a designee of the Secretary charged with leading the program) shall leverage existing Federal resources, including, at a minimum, the expertise and resources of—

- (A) the Office of Electricity;
- (B) the Office of Energy Efficiency and Renewable Energy, including the Water Power Technologies Office; and
- (C) the Office of Science, including—
 - (i) the Basic Energy Sciences Program;
 - (ii) the Advanced Scientific Computing Research Program;
 - (iii) the Biological and Environmental Research Program; and

(D) the Electricity Storage Research Initiative established under section 16315 of this title.

(7) Protecting privacy and security

In carrying out this subsection, the Secretary shall identify, incorporate, and follow best practices for protecting the privacy of individuals and businesses and the respective sensitive data of the individuals and businesses, including by managing privacy risk and implementing the Fair Information Practice Principles of the Federal Trade Commission for the collection, use, disclosure, and retention of individual electric consumer information in accordance with the Office of Management and Budget Circular A–130 (or successor circulars).

(c) Energy storage demonstration projects; pilot grant program

(1) Demonstration projects

Not later than September 30, 2023, the Secretary shall, to the maximum extent practicable, enter into agreements to carry out 3 energy storage system demonstration projects, including—

- (A) at least 1 energy storage system demonstration project designed to further the development of technologies described in clause (v) or (vi) of subsection (b)(2)(A); and
- (B) 1 project to demonstrate second-life applications of electric vehicle batteries as aggregated energy storage installations to provide services to the electric grid, in accordance with paragraph (3).

(2) Energy storage pilot grant program

(A) Definition of eligible entity

In this paragraph, the term "eligible entity" means—

- (i) a State energy office (as defined in section 15821(a) of this title);
- (ii) an Indian Tribe (as defined in section 4103 of title 25; [1](#));
- (iii) a Tribal organization (as defined in section 3765 of title 38);
- (iv) an institution of higher education (as defined in section 1001 of title 20);
- (v) an electric utility, including—
 - (I) an electric cooperative;
 - (II) a political subdivision of a State, such as a municipally owned electric utility, or any agency, authority, corporation, or instrumentality of a State political subdivision; and
 - (III) an investor-owned utility; and
- (vi) a private energy storage company.

(B) Establishment

The Secretary shall establish a competitive grant program under which the Secretary shall award grants to eligible entities to carry out demonstration projects for pilot energy storage systems.

(C) Selection requirements

In selecting eligible entities to receive a grant under subparagraph (B), the Secretary shall, to the maximum extent practicable—

- (i) ensure regional diversity among eligible entities awarded grants, including ensuring participation of eligible entities that are rural States and States with high energy costs;
- (ii) ensure that grants are awarded for demonstration projects that—
 - (I) expand on the existing technology demonstration programs of the Department;
 - (II) are designed to achieve 1 or more of the objectives described in subparagraph (D);and
- (III) inject or withdraw energy from the bulk power system, electric distribution system, building energy system, or microgrid (grid-connected or islanded mode) where the project is located;
- (iii) give consideration to proposals from eligible entities for securing energy storage through competitive procurement or contract for service; and
- (iv) prioritize projects that leverage matching funds from non-Federal sources.

(D) Objectives

Each demonstration project carried out by a grant awarded under subparagraph (B) shall have 1 or more of the following objectives:

- (i) To improve the security of critical infrastructure and emergency response systems.
- (ii) To improve the reliability of transmission and distribution systems, particularly in rural areas, including high-energy cost rural areas.
- (iii) To optimize transmission or distribution system operation and power quality to defer or avoid costs of replacing or upgrading electric grid infrastructure, including transformers and substations.
- (iv) To supply energy at peak periods of demand on the electric grid or during periods of significant variation of electric grid supply.
- (v) To reduce peak loads of homes and businesses.
- (vi) To improve and advance power conversion systems.
- (vii) To provide ancillary services for grid stability and management.
- (viii) To integrate renewable energy resource production.
- (ix) To increase the feasibility of microgrids (grid-connected or islanded mode).
- (x) To enable the use of stored energy in forms other than electricity to support the natural gas system and other industrial processes.
- (xi) To integrate fast charging of electric vehicles.
- (xii) To improve energy efficiency.

(3) Demonstration of electric vehicle battery second-life applications for grid services

(A) In general

The Secretary shall enter into an agreement to carry out a project to demonstrate second-life applications of electric vehicle batteries as aggregated energy storage installations to provide services to the electric grid.

(B) Purposes

The purposes of the project under subparagraph (A) shall be—

- (i) to demonstrate power safety and the reliability of the applications demonstrated under the program;
- (ii) to demonstrate the ability of electric vehicle batteries—
 - (I) to provide ancillary services for grid stability and management; and

(II) to reduce the peak loads of homes and businesses;

(iii) to extend the useful life of electric vehicle batteries and the components of electric vehicle batteries prior to the collection, recycling, and reprocessing of the batteries and components; and

(iv) to increase acceptance of, and participation in, the use of second-life applications of electric vehicle batteries by utilities.

(C) Priority

In selecting a project to carry out under subparagraph (A), the Secretary shall give priority to projects in which the demonstration of the applicable second-life applications is paired with 1 or more facilities that could particularly benefit from increased resiliency and lower energy costs, such as a multi-family affordable housing facility, a senior care facility, and a community health center.

(4) Reports

Not less frequently than once every 3 years for the duration of the programs under paragraphs (1) and (2), the Secretary shall submit to Congress and make publicly available a report describing the performance of those programs.

(5) No project ownership interest

The Federal Government shall not hold any equity or other ownership interest in any energy storage system that is part of a project under this subsection unless the holding is agreed to by each participant of the project.

(d) Long-duration demonstration initiative and joint program

(1) Definitions

In this subsection:

(A) Initiative

The term "Initiative" means the demonstration initiative established under paragraph (2).

(B) Joint Program

The term "Joint Program" means the joint program established under paragraph (4).

(2) Establishment of Initiative

Not later than 180 days after December 27, 2020, the Secretary shall establish a demonstration initiative composed of demonstration projects focused on the development of long-duration energy storage technologies.

(3) Selection of projects

To the maximum extent practicable, in selecting demonstration projects to participate in the Initiative, the Secretary shall—

(A) ensure a range of technology types;

(B) ensure regional diversity among projects; and

(C) consider bulk power level, distribution power level, behind-the-meter, microgrid (gridconnected or islanded mode), and off-grid applications.

(4) Joint program

(A) Establishment

As part of the Initiative, the Secretary, in consultation with the Secretary of Defense, shall establish within the Department a joint program to carry out projects—

(i) to demonstrate promising long-duration energy storage technologies at different scales; and

(ii) to help new, innovative long-duration energy storage technologies become commercially viable.

(B) Memorandum of understanding

Not later than 200 days after December 27, 2020, the Secretary shall enter into a memorandum of understanding with the Secretary of Defense to administer the Joint Program.

(C) Infrastructure

In carrying out the Joint Program, the Secretary and the Secretary of Defense shall—

(i) use existing test-bed infrastructure at—

(I) Department facilities; and

(II) Department of Defense installations; and

(ii) develop new infrastructure for identified projects, if appropriate.

(D) Goals and metrics

The Secretary and the Secretary of Defense shall develop goals and metrics for technological progress under the Joint Program consistent with energy resilience and energy security policies.

(E) Selection of projects

(i) In general

To the maximum extent practicable, in selecting projects to participate in the Joint Program, the Secretary and the Secretary of Defense shall—

(I) ensure that projects are carried out under conditions that represent a variety of environments with different physical conditions and market constraints; and

(II) ensure an appropriate balance of—

(aa) larger, higher-cost projects; and

(bb) smaller, lower-cost projects.

(ii) Priority

In carrying out the Joint Program, the Secretary and the Secretary of Defense shall give priority to demonstration projects that—

(I) make available to the public project information that will accelerate deployment of long-duration energy storage technologies; and

(II) will be carried out in the field.

(e) Pumped storage hydropower wind and solar integration and system reliability initiative

(1) Definition of eligible entity

In this subsection, the term "eligible entity" means—

(A)(i) an electric utility, including—

(I) a political subdivision of a State, such as a municipally owned electric utility; or

(II) an instrumentality of a State composed of municipally owned electric utilities;

(ii) an electric cooperative; or

(iii) an investor-owned utility;

(B) an Indian Tribe or Tribal organization;

(C) a State energy office;

(D) an institution of higher education; and

(E) a consortium of the entities described in subparagraphs (A) through (D).

(2) Demonstration project

(A) In general

Not later than September 30, 2023, the Secretary shall, to the maximum extent practicable, enter into an agreement with an eligible entity to provide financial assistance to the eligible entity to carry out project design, transmission studies, power market assessments, and permitting for a pumped storage hydropower project to facilitate the long-duration storage of intermittent renewable electricity.

(B) Project requirements

To be eligible for financial assistance under subparagraph (A), a project shall—

- (i) be designed to provide not less than 1,000 megawatts of storage capacity;
- (ii) be able to provide energy and capacity for use in more than 1 organized electricity market;
- (iii) be able to store electricity generated by intermittent renewable electricity projects located on Tribal land; and
- (iv) have received a preliminary permit from the Federal Energy Regulatory Commission.

(C) Matching requirement

An eligible entity receiving financial assistance under subparagraph (A) shall provide matching funds equal to or greater than the amount of financial assistance provided under that subparagraph.

(3) Authorization of appropriations

There is authorized to be appropriated to carry out this subsection \$2,000,000 for each of fiscal years 2022 through 2026.

(f) Omitted

(g) Coordination

To the maximum extent practicable, the Secretary shall coordinate the activities under this section (including activities conducted pursuant to the amendments made by this section) among the offices and employees of the Department, other Federal agencies, and other relevant entities—

- (1) to ensure appropriate collaboration;
- (2) to avoid unnecessary duplication of those activities; and
- (3) to increase domestic manufacturing and production of energy storage systems, such as those within the Department and within the National Institute of Standards and Technology.

(h) Authorization of appropriations

There are authorized to be appropriated—

- (1) to carry out subsection (b), \$100,000,000 for each of fiscal years 2021 through 2025, to remain available until expended;
- (2) to carry out subsection (c), \$71,000,000 for each of fiscal years 2021 through 2025, to remain available until expended; and
- (3) to carry out subsection (d), \$30,000,000 for each of fiscal years 2021 through 2025, to remain available until expended.

(Pub. L. 116–260, div. Z, title III, §3201, Dec. 27, 2020, 134 Stat. 2517; Pub. L. 117–58, div. D, title I, §40112, title III, §40334, Nov. 15, 2021, 135 Stat. 946, 1024.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

Section is comprised of section 3201 of div. Z of Pub. L. 116–260. Subsec. (f) of section 3201 of div. Z of Pub. L. 116–260 amended section 17231 of this title. Section 40334(1) of Pub. L. 117–58, which directed amendment of section 3201 of the Energy Policy Act of 2020 by redesignating subsections (e) through (g) as subsections (f) through (h), respectively, was executed by making the amendment to section 3201 of div. Z of Pub. L. 116–260, known as the Energy Act of 2020, to reflect the probable intent of Congress.

AMENDMENTS

2021—Subsec. (c)(1). Pub. L. 117–58, §40112(1), substituted "including—" for "including", inserted subpar. (A) designation before "at least", and added subpar. (B).

Subsec. (c)(3) to (5). Pub. L. 117–58, §40112(2), (3), added par. (3) and redesignated former pars. (3) and (4) as (4) and (5), respectively.

Subsecs. (e) to (h). Pub. L. 117–58, §40334, which directed amendment of section 3201 of the Energy Policy Act of 2020 by adding subsec. (e) and redesignating former subsecs. (e) to (g) as (f) to (h), respectively, was executed to this section, which is section 3201 of the Energy Act of 2020, to reflect the probable intent of Congress.

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

¹ So in original. A closing parenthesis probably should precede the semicolon.

§17233. Energy storage technology and microgrid assistance program

(a) Definitions

In this section:

(1) Eligible entity

The term "eligible entity" means—

- (A) a rural electric cooperative;
- (B) an agency, authority, or instrumentality of a State or political subdivision of a State that sells or otherwise uses electrical energy to provide electric services for customers; or
- (C) a nonprofit organization working with at least 6 entities described in subparagraph (A) or (B).

(2) Energy storage technology

The term "energy storage technology" includes grid-enabled water heaters, building heating or cooling systems, electric vehicles, the production of hydrogen for transportation or industrial use, or other technologies that store energy.

(3) Microgrid

The term "microgrid" means a localized grid that operates autonomously regardless of whether the grid can operate in connection with another grid.

(4) Renewable energy source

The term "renewable energy source" has the meaning given the term in section 918c(a) of title 7.

(5) Rural electric cooperative

The term "rural electric cooperative" means an electric cooperative (as defined in section 796 of title 16) that sells electric energy to persons in rural areas.

(6) Secretary

The term "Secretary" means the Secretary of Energy.

(b) In general

Not later than 180 days after December 27, 2020, the Secretary shall establish a program under which the Secretary shall—

- (1) provide grants to eligible entities under subsection (d);
- (2) provide technical assistance to eligible entities under subsection (e); and
- (3) disseminate information to eligible entities on—
 - (A) the activities described in subsections (d)(1) and (e); and
 - (B) potential and existing energy storage technology and microgrid projects.

(c) Cooperative agreement

The Secretary may enter into a cooperative agreement with an eligible entity to carry out subsection (b).

(d) Grants

(1) In general

The Secretary may award grants to eligible entities for identifying, evaluating, designing, and demonstrating energy storage technology and microgrid projects that utilize energy from renewable energy sources.

(2) Application

To be eligible to receive a grant under paragraph (1), an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(3) Use of grant

An eligible entity that receives a grant under paragraph (1)—

(A) shall use the grant—

(i) to conduct feasibility studies to assess the potential for implementation or improvement of energy storage technology or microgrid projects;

(ii) to analyze and implement strategies to overcome barriers to energy storage technology or microgrid project implementation, including financial, contracting, siting, and permitting barriers;

(iii) to conduct detailed engineering of energy storage technology or microgrid projects;

(iv) to perform a cost-benefit analysis with respect to an energy storage technology or microgrid project;

(v) to plan for both the short- and long-term inclusion of energy storage technology or microgrid projects into the future development plans of the eligible entity; or

(vi) to purchase and install necessary equipment, materials, and supplies for demonstration of emerging technologies; and

(B) may use the grant to obtain technical assistance from experts in carrying out the activities described in subparagraph (A).

(4) Condition

As a condition of receiving a grant under paragraph (1), an eligible entity shall—

(A) implement a public awareness campaign, in coordination with the Secretary, about the project implemented under the grant in the community in which the eligible entity is located, which campaign shall include providing projected environmental benefits achieved under the project, where to find more information about the program established under this section, and any other information the Secretary determines necessary;

(B) submit to the Secretary, and make available to the public, a report that describes—

(i) any energy cost savings and environmental benefits achieved under the project; and

(ii) the results of the project, including quantitative assessments to the extent practicable, associated with each activity described in paragraph (3)(A); and

(C) create and disseminate tools and resources that will benefit other rural electric cooperatives, which may include cost calculators, guidebooks, handbooks, templates, and training courses.

(5) Cost-share

Activities under this subsection shall be subject to the cost-sharing requirements of section 16352 of this title.

(e) Technical assistance

(1) In general

In carrying out the program established under subsection (b), the Secretary may provide eligible entities with technical assistance relating to—

- (A) identifying opportunities for energy storage technology and microgrid projects;
- (B) understanding the technical and economic characteristics of energy storage technology or microgrid projects;
- (C) understanding financing alternatives;
- (D) permitting and siting issues;
- (E) obtaining case studies of similar and successful energy storage technology or microgrid projects;
- (F) reviewing and obtaining computer software for assessment, design, and operation and maintenance of energy storage technology or microgrid systems; and
- (G) understanding and utilizing the reliability and resiliency benefits of energy storage technology and microgrid projects.

(2) External contracts

In carrying out paragraph (1), the Secretary may enter into contracts with third-party experts, including engineering, finance, and insurance experts, to provide technical assistance to eligible entities relating to the activities described in such paragraph, or other relevant activities, as determined by the Secretary.

(f) Authorization of appropriations

(1) In general

There is authorized to be appropriated to carry out this section \$15,000,000 for each of fiscal years 2021 through 2025.

(2) Administrative costs

Not more than 5 percent of the amount appropriated under paragraph (1) for each fiscal year shall be used for administrative expenses.

(Pub. L. 116–260, div. Z, title III, §3202, Dec. 27, 2020, 134 Stat. 2525.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

PART E—MISCELLANEOUS PROVISIONS

§17241. Lightweight materials research and development

(a) In general

As soon as practicable after December 19, 2007, the Secretary of Energy shall establish a program to determine ways in which the weight of motor vehicles could be reduced to improve fuel efficiency without compromising passenger safety by conducting research, development, and demonstration relating to—

- (1) the development of new materials (including cast metal composite materials formed by autocombustion synthesis) and material processes that yield a higher strength-to-weight ratio or other properties that reduce vehicle weight; and
- (2) reducing the cost of—
 - (A) lightweight materials (including high-strength steel alloys, aluminum, magnesium, metal

composites, and carbon fiber reinforced polymer composites) with the properties required for construction of lighter-weight vehicles; and

(B) materials processing, automated manufacturing, joining, and recycling lightweight materials for high-volume applications.

(b) Authorization of appropriations

There is authorized to be appropriated to carry out this section \$80,000,000 for the period of fiscal years 2008 through 2012.

(Pub. L. 110–140, title VI, §651, Dec. 19, 2007, 121 Stat. 1694.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17242. Commercial insulation demonstration program

(a) Definitions

In this section:

(1) Advanced insulation

The term "advanced insulation" means insulation that has an R value of not less than R35 per inch.

(2) Covered refrigeration unit

The term "covered refrigeration unit" means any—

(A) commercial refrigerated truck;

(B) commercial refrigerated trailer; or

(C) commercial refrigerator, freezer, or refrigerator-freezer described in section 6313(c) of this title.

(b) Report

Not later than 90 days after December 19, 2007, the Secretary shall submit to Congress a report that includes an evaluation of—

(1) the state of technological advancement of advanced insulation; and

(2) the projected amount of cost savings that would be generated by implementing advanced insulation into covered refrigeration units.

(c) Demonstration program

(1) Establishment

If the Secretary determines in the report described in subsection (b) that the implementation of advanced insulation into covered refrigeration units would generate an economically justifiable amount of cost savings, the Secretary, in cooperation with manufacturers of covered refrigeration units, shall establish a demonstration program under which the Secretary shall demonstrate the cost-effectiveness of advanced insulation.

(2) Disclosure

The Secretary may, for a period of up to 5 years after an award is granted under the demonstration program, exempt from mandatory disclosure under section 552 of title 5 (popularly known as the Freedom of Information Act) information that the Secretary determines would be a privileged or confidential trade secret or commercial or financial information under subsection (b)(4) of such section if the information had been obtained from a non-Government party.

(3) Cost-sharing

Section 16352 of this title shall apply to any project carried out under this subsection.

(d) Authorization of appropriations

There is authorized to be appropriated to carry out this section \$8,000,000 for the period of fiscal years 2009 through 2014.

(Pub. L. 110–140, title VI, §652, Dec. 19, 2007, 121 Stat. 1694.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17243. Bright Tomorrow Lighting Prizes

(a) Establishment

Not later than 1 year after December 19, 2007, as part of the program carried out under section 16396 of this title, the Secretary shall establish and award Bright Tomorrow Lighting Prizes for solid state lighting in accordance with this section.

(b) Prize specifications

(1) 60-Watt Incandescent Replacement Lamp Prize

The Secretary shall award a 60-Watt Incandescent Replacement Lamp Prize to an entrant that produces a solid-state-light package simultaneously capable of—

- (A) producing a luminous flux greater than 900 lumens;
- (B) consuming less than or equal to 10 watts;
- (C) having an efficiency greater than 90 lumens per watt;
- (D) having a color rendering index greater than 90;
- (E) having a correlated color temperature of not less than 2,750, and not more than 3,000, degrees Kelvin;
- (F) having 70 percent of the lumen value under subparagraph (A) exceeding 25,000 hours under typical conditions expected in residential use;
- (G) having a light distribution pattern similar to a soft 60-watt incandescent A19 bulb;
- (H) having a size and shape that fits within the maximum dimensions of an A19 bulb in accordance with American National Standards Institute standard C78.20–2003, figure C78.20–211;
- (I) using a single contact medium screw socket; and
- (J) mass production for a competitive sales commercial market satisfied by producing commercially accepted quality control lots of such units equal to or exceeding the criteria described in subparagraphs (A) through (I).

(2) PAR Type 38 Halogen Replacement Lamp Prize

The Secretary shall award a Parabolic Aluminized Reflector Type 38 Halogen Replacement Lamp Prize (referred to in this section as the "PAR Type 38 Halogen Replacement Lamp Prize") to an entrant that produces a solid-state-light package simultaneously capable of—

- (A) producing a luminous flux greater than or equal to 1,350 lumens;
- (B) consuming less than or equal to 11 watts;
- (C) having an efficiency greater than 123 lumens per watt;
- (D) having a color rendering index greater than or equal to 90;
- (E) having a correlated color coordinate temperature of not less than 2,750, and not more than 3,000, degrees Kelvin;
- (F) having 70 percent of the lumen value under subparagraph (A) exceeding 25,000 hours under typical conditions expected in residential use;

- (G) having a light distribution pattern similar to a PAR 38 halogen lamp;
- (H) having a size and shape that fits within the maximum dimensions of a PAR 38 halogen lamp in accordance with American National Standards Institute standard C78-21-2003, figure C78.21-238;
- (I) using a single contact medium screw socket; and
- (J) mass production for a competitive sales commercial market satisfied by producing commercially accepted quality control lots of such units equal to or exceeding the criteria described in subparagraphs (A) through (I).

(3) Twenty-First Century Lamp Prize

The Secretary shall award a Twenty-First Century Lamp Prize to an entrant that produces a solid-state-light-light ¹ capable of—

- (A) producing a light output greater than 1,200 lumens;
- (B) having an efficiency greater than 150 lumens per watt;
- (C) having a color rendering index greater than 90;
- (D) having a color coordinate temperature between 2,800 and 3,000 degrees Kelvin; and
- (E) having a lifetime exceeding 25,000 hours.

(c) Private funds

(1) In general

Subject to paragraph (2), and notwithstanding section 3302 of title 31, the Secretary may accept, retain, and use funds contributed by any person, government entity, or organization for purposes of carrying out this subsection—

- (A) without further appropriation; and
- (B) without fiscal year limitation.

(2) Prize competition

A private source of funding may not participate in the competition for prizes awarded under this section.

(d) Technical review

The Secretary shall establish a technical review committee composed of non-Federal officers to review entrant data submitted under this section to determine whether the data meets the prize specifications described in subsection (b).

(e) Third party administration

The Secretary may competitively select a third party to administer awards under this section.

(f) Eligibility for prizes

To be eligible to be awarded a prize under this section—

- (1) in the case of a private entity, the entity shall be incorporated in and maintain a primary place of business in the United States; and
- (2) in the case of an individual (whether participating as a single individual or in a group), the individual shall be a citizen or lawful permanent resident of the United States.

(g) Award amounts

Subject to the availability of funds to carry out this section, the amount of—

- (1) the 60-Watt Incandescent Replacement Lamp Prize described in subsection (b)(1) shall be \$10,000,000;
- (2) the PAR Type 38 Halogen Replacement Lamp Prize described in subsection (b)(2) shall be \$5,000,000; and
- (3) the Twenty-First Century Lamp Prize described in subsection (b)(3) shall be \$5,000,000.

(h) Federal procurement of solid-state-lights

(1) 60-watt incandescent replacement

Subject to paragraph (3), as soon as practicable after the successful award of the 60-Watt Incandescent Replacement Lamp Prize under subsection (b)(1), the Secretary (in consultation with the Administrator of General Services) shall develop governmentwide Federal purchase guidelines with a goal of replacing the use of 60-watt incandescent lamps in Federal Government buildings with a solid-state-light package described in subsection (b)(1) by not later than the date that is 5 years after the date the award is made.

(2) PAR 38 halogen replacement lamp replacement ¹

Subject to paragraph (3), as soon as practicable after the successful award of the PAR Type 38 Halogen Replacement Lamp Prize under subsection (b)(2), the Secretary (in consultation with the Administrator of General Services) shall develop governmentwide Federal purchase guidelines with the goal of replacing the use of PAR 38 halogen lamps in Federal Government buildings with a solid-state-light package described in subsection (b)(2) by not later than the date that is 5 years after the date the award is made.

(3) Waivers

(A) In general

The Secretary or the Administrator of General Services may waive the application of paragraph (1) or (2) if the Secretary or Administrator determines that the return on investment from the purchase of a solid-state-light package described in paragraph (1) or (2) of subsection (b), respectively, is cost prohibitive.

(B) Report of waiver

If the Secretary or Administrator waives the application of paragraph (1) or (2), the Secretary or Administrator, respectively, shall submit to Congress an annual report that describes the waiver and provides a detailed justification for the waiver.

(i) Report

Not later than 2 years after December 19, 2007, and annually thereafter, the Administrator of General Services shall submit to the Energy Information Agency a report describing the quantity, type, and cost of each lighting product purchased by the Federal Government.

(j) Bright Tomorrow Lighting Award Fund

(1) Establishment

There is established in the United States Treasury a Bright Tomorrow Lighting permanent fund without fiscal year limitation to award prizes under paragraphs (1), (2), and (3) of subsection (b).

(2) Sources of funding

The fund established under paragraph (1) shall accept—

(A) fiscal year appropriations; and

(B) private contributions authorized under subsection (c).

(k) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section.

(Pub. L. 110–140, title VI, §655, Dec. 19, 2007, 121 Stat. 1700.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

¹ [So in original.](#)

§17244. Renewable Energy Innovation Manufacturing Partnership

(a) Establishment

The Secretary shall carry out a program, to be known as the Renewable Energy Innovation Manufacturing Partnership Program (referred to in this section as the "Program"), to make assistance awards to eligible entities for use in carrying out research, development, and demonstration relating to the manufacturing of renewable energy technologies.

(b) Solicitation

To carry out the Program, the Secretary shall annually conduct a competitive solicitation for assistance awards for an eligible project described in subsection (e).

(c) Program purposes

The purposes of the Program are—

- (1) to develop, or aid in the development of, advanced manufacturing processes, materials, and infrastructure;
- (2) to increase the domestic production of renewable energy technology and components; and
- (3) to better coordinate Federal, State, and private resources to meet regional and national renewable energy goals through advanced manufacturing partnerships.

(d) Eligible entities

An entity shall be eligible to receive an assistance award under the Program to carry out an eligible project described in subsection (e) if the entity is composed of—

- (1) 1 or more public or private nonprofit institutions or national laboratories engaged in research, development, demonstration, or technology transfer, that would participate substantially in the project; and
- (2) 1 or more private entities engaged in the manufacturing or development of renewable energy system components (including solar energy, wind energy, biomass, geothermal energy, energy storage, or fuel cells).

(e) Eligible projects

An eligible entity may use an assistance award provided under this section to carry out a project relating to—

- (1) the conduct of studies of market opportunities for component manufacturing of renewable energy systems;
- (2) the conduct of multiyear applied research, development, demonstration, and deployment projects for advanced manufacturing processes, materials, and infrastructure for renewable energy systems; and
- (3) other similar ventures, as approved by the Secretary, that promote advanced manufacturing of renewable technologies.

(f) Criteria and guidelines

The Secretary shall establish criteria and guidelines for the submission, evaluation, and funding of proposed projects under the Program.

(g) Cost sharing

Section 16352 of this title shall apply to a project carried out under this section.

(h) Disclosure

The Secretary may, for a period of up to 5 years after an award is granted under this section, exempt from mandatory disclosure under section 552 of title 5 (popularly known as the Freedom of Information Act) information that the Secretary determines would be a privileged or confidential trade secret or commercial or financial information under subsection (b)(4) of such section if the information had been obtained from a non-Government party.

(i) Sense of the Congress

It is the sense of the Congress that the Secretary should ensure that small businesses engaged in renewable manufacturing be given priority consideration for the assistance awards provided under this section.

(j) Authorization of appropriations

There is authorized to be appropriated out of funds already authorized to carry out this section \$25,000,000 for each of fiscal years 2008 through 2013, to remain available until expended.

(Pub. L. 110–140, title VI, §656, Dec. 19, 2007, 121 Stat. 1703.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

SUBCHAPTER VI—CARBON CAPTURE AND SEQUESTRATION

**PART A—CARBON CAPTURE AND SEQUESTRATION RESEARCH,
DEVELOPMENT, AND DEMONSTRATION**

§17251. Carbon capture

(a) Program establishment

(1) In general

The Secretary shall carry out a program to demonstrate technologies for the large-scale capture of carbon dioxide from industrial sources. In making awards under this program, the Secretary shall select, as appropriate, a diversity of capture technologies to address the need to capture carbon dioxide from a range of industrial sources.

(2) Scope of award

Awards under this section shall be only for the portion of the project that—

(A) carries out the large-scale capture (including purification and compression) of carbon dioxide from industrial sources;

(B) provides for the transportation and injection of carbon dioxide; and

(C) incorporates a comprehensive measurement, monitoring, and validation program.

(3) Preferences for award

To ensure reduced carbon dioxide emissions, the Secretary shall take necessary actions to provide for the integration of the program under this paragraph with the large-scale carbon dioxide sequestration tests described in section 16293(c) of this title. These actions should not delay implementation of these tests. The Secretary shall give priority consideration to projects with the following characteristics:

(A) Capacity

Projects that will capture a high percentage of the carbon dioxide in the treated stream and large volumes of carbon dioxide as determined by the Secretary.

(B) Sequestration

Projects that capture carbon dioxide from industrial sources that are near suitable geological

reservoirs and could continue sequestration including—

- (i) a field testing validation activity under section 16293 of this title; or
- (ii) other geologic sequestration projects approved by the Secretary.

(4) Requirement

For projects that generate carbon dioxide that is to be sequestered, the carbon dioxide stream shall be of a sufficient purity level to allow for safe transport and sequestration.

(5) Cost-sharing

The cost-sharing requirements of section 16352 of this title for research and development projects shall apply to this section.

(b) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section \$200,000,000 per year for fiscal years 2009 through 2013.

(Pub. L. 110–140, title VII, §703, Dec. 19, 2007, 121 Stat. 1708; Pub. L. 116–260, div. Z, title IV, §4003(c)(1), Dec. 27, 2020, 134 Stat. 2539.)

EDITORIAL NOTES

AMENDMENTS

2020—Subsec. (a)(3). Pub. L. 116–260 substituted "section 16293(c)" for "section 16293(c)(3)".

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

SHORT TITLE

Subtitle A (§§701–708) of title VII of Pub. L. 110–140, which is classified principally to this part, is known as the "Department of Energy Carbon Capture and Sequestration Research, Development, and Demonstration Act of 2007". See Short Title note set out under section 17001 of this title.

§17252. Review of large-scale programs

The Secretary shall enter into an arrangement with the National Academy of Sciences for an independent review and oversight, beginning in 2011, of the programs under section 16293(c) of this title and under section 17251 of this title, to ensure that the benefits of such programs are maximized. Not later than January 1, 2012, the Secretary shall transmit to the Congress a report on the results of such review and oversight.

(Pub. L. 110–140, title VII, §704, Dec. 19, 2007, 121 Stat. 1709; Pub. L. 116–260, div. Z, title IV, §4003(c)(2), Dec. 27, 2020, 134 Stat. 2539.)

EDITORIAL NOTES

AMENDMENTS

2020—Pub. L. 116–260 substituted "section 16293(c)" for "section 16293(c)(3)".

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17253. Geologic sequestration training and research

(a) Study

(1) In general

The Secretary shall enter into an arrangement with the National Academy of Sciences to undertake a study that—

(A) defines an interdisciplinary program in geology, engineering, hydrology, environmental science, and related disciplines that will support the Nation's capability to capture and sequester carbon dioxide from anthropogenic sources;

(B) addresses undergraduate and graduate education, especially to help develop graduate level programs of research and instruction that lead to advanced degrees with emphasis on geologic sequestration science;

(C) develops guidelines for proposals from colleges and universities with substantial capabilities in the required disciplines that seek to implement geologic sequestration science programs that advance the Nation's capacity to address carbon management through geologic sequestration science; and

(D) outlines a budget and recommendations for how much funding will be necessary to establish and carry out the grant program under subsection (b).

(2) Report

Not later than 1 year after December 19, 2007, the Secretary shall transmit to the Congress a copy of the results of the study provided by the National Academy of Sciences under paragraph (1).

(3) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this subsection \$1,000,000 for fiscal year 2008.

(b) Grant program

(1) Establishment

The Secretary shall establish a competitive grant program through which colleges and universities may apply for and receive 4-year grants for—

(A) salary and startup costs for newly designated faculty positions in an integrated geologic carbon sequestration science program; and

(B) internships for graduate students in geologic sequestration science.

(2) Renewal

Grants under this subsection shall be renewable for up to 2 additional 3-year terms, based on performance criteria, established by the National Academy of Sciences study conducted under subsection (a), that include the number of graduates of such programs.

(3) Interface with regional geologic carbon sequestration partnerships

To the greatest extent possible, geologic carbon sequestration science programs supported under this subsection shall interface with the research of the Regional Carbon Sequestration Partnerships operated by the Department to provide internships and practical training in carbon capture and geologic sequestration.

(4) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this subsection such sums as may be necessary.

(Pub. L. 110–140, title VII, §705, Dec. 19, 2007, 121 Stat. 1709.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17254. Relation to Safe Drinking Water Act

The injection and geologic sequestration of carbon dioxide pursuant to this subtitle and the amendments made by this subtitle shall be subject to the requirements of the Safe Drinking Water Act (42 U.S.C. 300f et seq.), including the provisions of part C of such Act (42 U.S.C. 300h et seq.; relating to protection of underground sources of drinking water). Nothing in this subtitle and the amendments made by this subtitle imposes or authorizes the promulgation of any requirement that is inconsistent or in conflict with the requirements of the Safe Drinking Water Act (42 U.S.C. 300f et seq.) or regulations thereunder.

(Pub. L. 110–140, title VII, §706, Dec. 19, 2007, 121 Stat. 1710.)

EDITORIAL NOTES

REFERENCES IN TEXT

This subtitle, referred to in text, is subtitle A (§§701–708) of title VII of Pub. L. 110–140, which enacted this part, amended section 16293 of this title, and enacted provisions set out as a note under section 17001 of this title. For complete classification of subtitle A to the Code, see Short Title note set out under section 17001 of this title and Tables.

The Safe Drinking Water Act, referred to in text, is title XIV of act July 1, 1944, as added Dec. 16, 1974, Pub. L. 93–523, §2(a), 88 Stat. 1660, which is classified generally to subchapter XII (§300f et seq.) of chapter 6A of this title. Part C of the Act is classified generally to part C (§300h et seq.) of subchapter XII of chapter 6A of this title. For complete classification of this Act to the Code, see Short Title note set out under section 201 of this title and Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17255. Safety research

(a) Program

The Administrator of the Environmental Protection Agency shall conduct a research program to address public health, safety, and environmental impacts that may be associated with capture, injection, and sequestration of greenhouse gases in geologic reservoirs.

(b) Authorization of appropriations

There are authorized to be appropriated for carrying out this section \$5,000,000 for each fiscal year.

(Pub. L. 110–140, title VII, §707, Dec. 19, 2007, 121 Stat. 1710.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17256. University based research and development grant program

(a) Establishment

The Secretary, in consultation with other appropriate agencies, shall establish a university based research and development program to study carbon capture and sequestration using the various types of coal.

(b) Rural and agricultural institutions

The Secretary shall give special consideration to rural or agricultural based institutions in areas that have regional sources of coal and that offer interdisciplinary programs in the area of environmental science to study carbon capture and sequestration.

(c) Authorization of appropriations

There are to be authorized to be appropriated \$10,000,000 to carry out this section.
(Pub. L. 110–140, title VII, §708, Dec. 19, 2007, 121 Stat. 1710.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

PART B—CARBON CAPTURE AND SEQUESTRATION ASSESSMENT AND FRAMEWORK

§17271. Carbon dioxide sequestration capacity assessment

(a) Definitions

In this section—

(1) Assessment

The term "assessment" means the national assessment of onshore capacity for carbon dioxide completed under subsection (f).

(2) Capacity

The term "capacity" means the portion of a sequestration formation that can retain carbon dioxide in accordance with the requirements (including physical, geological, and economic requirements) established under the methodology developed under subsection (b).

(3) Engineered hazard

The term "engineered hazard" includes the location and completion history of any well that could affect potential sequestration.

(4) Risk

The term "risk" includes any risk posed by geomechanical, geochemical, hydrogeological, structural, and engineered hazards.

(5) Secretary

The term "Secretary" means the Secretary of the Interior, acting through the Director of the United States Geological Survey.

(6) Sequestration formation

The term "sequestration formation" means a deep saline formation, unmineable coal seam, or oil or gas reservoir that is capable of accommodating a volume of industrial carbon dioxide.

(b) Methodology

Not later than 1 year after December 19, 2007, the Secretary shall develop a methodology for conducting an assessment under subsection (f), taking into consideration—

- (1) the geographical extent of all potential sequestration formations in all States;
- (2) the capacity of the potential sequestration formations;
- (3) the injectivity of the potential sequestration formations;
- (4) an estimate of potential volumes of oil and gas recoverable by injection and sequestration of industrial carbon dioxide in potential sequestration formations;
- (5) the risk associated with the potential sequestration formations; and
- (6) the work done to develop the Carbon Sequestration Atlas of the United States and Canada that was completed by the Department.

(c) Coordination

(1) Federal coordination

(A) Consultation

The Secretary shall consult with the Secretary of Energy and the Administrator of the Environmental Protection Agency on issues of data sharing, format, development of the methodology, and content of the assessment required under this section to ensure the maximum usefulness and success of the assessment.

(B) Cooperation

The Secretary of Energy and the Administrator shall cooperate with the Secretary to ensure, to the maximum extent practicable, the usefulness and success of the assessment.

(2) State coordination

The Secretary shall consult with State geological surveys and other relevant entities to ensure, to the maximum extent practicable, the usefulness and success of the assessment.

(d) External review and publication

On completion of the methodology under subsection (b), the Secretary shall—

- (1) publish the methodology and solicit comments from the public and the heads of affected Federal and State agencies;
- (2) establish a panel of individuals with expertise in the matters described in paragraphs (1) through (5) of subsection (b) composed, as appropriate, of representatives of Federal agencies, institutions of higher education, nongovernmental organizations, State organizations, industry, and international geoscience organizations to review the methodology and comments received under paragraph (1); and
- (3) on completion of the review under paragraph (2), publish in the Federal Register the revised final methodology.

(e) Periodic updates

The methodology developed under this section shall be updated periodically (including at least once every 5 years) to incorporate new data as the data becomes available.

(f) National assessment

(1) In general

Not later than 2 years after the date of publication of the methodology under subsection (d)(1), the Secretary, in consultation with the Secretary of Energy and State geological surveys, shall complete a national assessment of capacity for carbon dioxide in accordance with the methodology.

(2) Geological verification

As part of the assessment under this subsection, the Secretary shall carry out a drilling program to supplement the geological data relevant to determining sequestration capacity of carbon dioxide in geological sequestration formations, including—

- (A) well log data;
- (B) core data; and
- (C) fluid sample data.

(3) Partnership with other drilling programs

As part of the drilling program under paragraph (2), the Secretary shall enter, as appropriate, into partnerships with other entities to collect and integrate data from other drilling programs relevant to the sequestration of carbon dioxide in geological formations.

(4) Incorporation into NatCarb

(A) In general

On completion of the assessment, the Secretary of Energy and the Secretary of the Interior shall incorporate the results of the assessment using—

- (i) the NatCarb database, to the maximum extent practicable; or
- (ii) a new database developed by the Secretary of Energy, as the Secretary of Energy determines to be necessary.

(B) Ranking

The database shall include the data necessary to rank potential sequestration sites for capacity and risk, across the United States, within each State, by formation, and within each basin.

(5) Report

Not later than 180 days after the date on which the assessment is completed, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of Representatives a report describing the findings under the assessment.

(6) Periodic updates

The national assessment developed under this section shall be updated periodically (including at least once every 5 years) to support public and private sector decisionmaking.

(g) Authorization of appropriations

There is authorized to be appropriated to carry out this section \$30,000,000 for the period of fiscal years 2008 through 2012.

(Pub. L. 110–140, title VII, §711, Dec. 19, 2007, 121 Stat. 1710.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17272. Assessment of carbon sequestration and methane and nitrous oxide emissions from ecosystems

(a) Definitions

In this section:

(1) Adaptation strategy

The term "adaptation strategy" means a land use and management strategy that can be used—

- (A) to increase the sequestration capabilities of covered greenhouse gases of any ecosystem;

or

(B) to reduce the emissions of covered greenhouse gases from any ecosystem.

(2) Assessment

The term "assessment" means the national assessment authorized under subsection (b).

(3) Covered greenhouse gas

The term "covered greenhouse gas" means carbon dioxide, nitrous oxide, and methane gas.

(4) Ecosystem

The term "ecosystem" means any terrestrial, freshwater aquatic, or coastal ecosystem, including an estuary.

(5) Native plant species

The term "native plant species" means any noninvasive, naturally occurring plant species within an ecosystem.

(6) Secretary

The term "Secretary" means the Secretary of the Interior.

(b) Authorization of assessment

Not later than 2 years after the date on which the final methodology is published under subsection (f)(3)(D), the Secretary shall complete a national assessment of—

- (1) the quantity of carbon stored in and released from ecosystems, including from man-caused and natural fires; and
- (2) the annual flux of covered greenhouse gases in and out of ecosystems.

(c) Components

In conducting the assessment under subsection (b), the Secretary shall—

- (1) determine the processes that control the flux of covered greenhouse gases in and out of each ecosystem;
- (2) estimate the potential for increasing carbon sequestration in natural and managed ecosystems through management activities or restoration activities in each ecosystem;
- (3) develop near-term and long-term adaptation strategies or mitigation strategies that can be employed—
 - (A) to enhance the sequestration of carbon in each ecosystem;
 - (B) to reduce emissions of covered greenhouse gases from ecosystems; and
 - (C) to adapt to climate change; and

(4) estimate the annual carbon sequestration capacity of ecosystems under a range of policies in support of management activities to optimize sequestration.

(d) Use of native plant species

In developing restoration activities under subsection (c)(2) and management strategies and adaptation strategies under subsection (c)(3), the Secretary shall emphasize the use of native plant species (including mixtures of many native plant species) for sequestering covered greenhouse gas in each ecosystem.

(e) Consultation

(1) In general

In conducting the assessment under subsection (b) and developing the methodology under subsection (f), the Secretary shall consult with—

- (A) the Secretary of Energy;
- (B) the Secretary of Agriculture;
- (C) the Administrator of the Environmental Protection Agency;
- (D) the Secretary of Commerce, acting through the Under Secretary for Oceans and Atmosphere; and

(E) the heads of other relevant agencies.

(2) Ocean and coastal ecosystems

In carrying out this section with respect to ocean and coastal ecosystems (including estuaries), the Secretary shall work jointly with the Secretary of Commerce, acting through the Under Secretary for Oceans and Atmosphere.

(f) Methodology

(1) In general

Not later than 1 year after December 19, 2007, the Secretary shall develop a methodology for conducting the assessment.

(2) Requirements

The methodology developed under paragraph (1)—

(A) shall—

- (i) determine the method for measuring, monitoring, and quantifying covered greenhouse gas emissions and reductions;
- (ii) estimate the total capacity of each ecosystem to sequester carbon; and
- (iii) estimate the ability of each ecosystem to reduce emissions of covered greenhouse gases through management practices; and

(B) may employ economic and other systems models, analyses, and estimates, to be developed in consultation with each of the individuals described in subsection (e).

(3) External review and publication

On completion of a proposed methodology, the Secretary shall—

(A) publish the proposed methodology;

(B) at least 60 days before the date on which the final methodology is published, solicit comments from—

- (i) the public; and
- (ii) heads of affected Federal and State agencies;

(C) establish a panel to review the proposed methodology published under subparagraph (A) and any comments received under subparagraph (B), to be composed of members—

- (i) with expertise in the matters described in subsections (c) and (d); and
- (ii) that are, as appropriate, representatives of Federal agencies, institutions of higher education, nongovernmental organizations, State organizations, industry, and international organizations; and

(D) on completion of the review under subparagraph (C), publish in the Federal Register the revised final methodology.

(g) Estimate; review

The Secretary shall—

- (1) based on the assessment, prescribe the data, information, and analysis needed to establish a scientifically sound estimate of the carbon sequestration capacity of relevant ecosystems; and
- (2) not later than 180 days after the date on which the assessment is completed, submit to the heads of applicable Federal agencies and the appropriate committees of Congress a report that describes the results of the assessment.

(h) Data and report availability

On completion of the assessment, the Secretary shall incorporate the results of the assessment into a web-accessible database for public use.

(i) Authorization

There is authorized to be appropriated to carry out this section \$20,000,000 for the period of fiscal

years 2008 through 2012.

(Pub. L. 110–140, title VII, §712, Dec. 19, 2007, 121 Stat. 1713.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

SUBCHAPTER VII—IMPROVED MANAGEMENT OF ENERGY POLICY

PART A—MANAGEMENT IMPROVEMENTS

§17281. National media campaign

(a) In general

The Secretary, acting through the Assistant Secretary for Energy Efficiency and Renewable Energy (referred to in this section as the "Secretary"), shall develop and conduct a national media campaign—

- (1) to increase energy efficiency throughout the economy of the United States during the 10-year period beginning on December 19, 2007;
- (2) to promote the national security benefits associated with increased energy efficiency; and
- (3) to decrease oil consumption in the United States during the 10-year period beginning on December 19, 2007.

(b) Contract with entity

The Secretary shall carry out subsection (a) directly or through—

- (1) competitively bid contracts with 1 or more nationally recognized media firms for the development and distribution of monthly television, radio, and newspaper public service announcements; or
- (2) collective agreements with 1 or more nationally recognized institutes, businesses, or nonprofit organizations for the funding, development, and distribution of monthly television, radio, and newspaper public service announcements.

(c) Use of funds

(1) In general

Amounts made available to carry out this section shall be used for—

- (A) advertising costs, including—
 - (i) the purchase of media time and space;
 - (ii) creative and talent costs;
 - (iii) testing and evaluation of advertising; and
 - (iv) evaluation of the effectiveness of the media campaign; and

- (B) administrative costs, including operational and management expenses.

(2) Limitations

In carrying out this section, the Secretary shall allocate not less than 85 percent of funds made available under subsection (e) for each fiscal year for the advertising functions specified under paragraph (1)(A).

(d) Reports

The Secretary shall annually submit to Congress a report that describes—

(1) the strategy of the national media campaign and whether specific objectives of the campaign were accomplished, including—

(A) determinations concerning the rate of change of energy consumption, in both absolute and per capita terms; and

(B) an evaluation that enables consideration of whether the media campaign contributed to reduction of energy consumption;

(2) steps taken to ensure that the national media campaign operates in an effective and efficient manner consistent with the overall strategy and focus of the campaign;

(3) plans to purchase advertising time and space;

(4) policies and practices implemented to ensure that Federal funds are used responsibly to purchase advertising time and space and eliminate the potential for waste, fraud, and abuse; and

(5) all contracts or cooperative agreements entered into with a corporation, partnership, or individual working on behalf of the national media campaign.

(e) Authorization of appropriations

(1) In general

There is authorized to be appropriated to carry out this section \$5,000,000 for each of fiscal years 2008 through 2012.

(2) Decreased oil consumption

The Secretary shall use not less than 50 percent of the amount that is made available under this section for each fiscal year to develop and conduct a national media campaign to decrease oil consumption in the United States over the next decade.

(Pub. L. 110–140, title VIII, §801, Dec. 19, 2007, 121 Stat. 1716.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17282. Renewable energy deployment

(a) Definitions

In this section:

(1) Alaska small hydroelectric power

The term "Alaska small hydroelectric power" means power that—

(A) is generated—

(i) in the State of Alaska;

(ii) without the use of a dam or impoundment of water; and

(iii) through the use of—

(I) a lake tap (but not a perched alpine lake); or

(II) a run-of-river screened at the point of diversion; and

(B) has a nameplate capacity rating of a wattage that is not more than 15 megawatts.

(2) Eligible applicant

The term "eligible applicant" means any—

(A) governmental entity;

- (B) private utility;
- (C) public utility;
- (D) municipal utility;
- (E) cooperative utility;
- (F) Indian tribes; and
- (G) Regional Corporation (as defined in section 1602 of title 43).

(3) Ocean energy

(A) Inclusions

The term "ocean energy" includes current, wave, and tidal energy.

(B) Exclusion

The term "ocean energy" excludes thermal energy.

(4) Renewable energy project

The term "renewable energy project" means a project—

- (A) for the commercial generation of electricity; and
- (B) that generates electricity from—
 - (i) solar, wind, or geothermal energy or ocean energy;
 - (ii) biomass (as defined in section 15852(b) of this title);
 - (iii) landfill gas; or
 - (iv) Alaska small hydroelectric power.

(b) Renewable energy construction grants

(1) In general

The Secretary shall use amounts appropriated under this section to make grants for use in carrying out renewable energy projects.

(2) Criteria

Not later than 180 days after December 19, 2007, the Secretary shall set forth criteria for use in awarding grants under this section.

(3) Application

To receive a grant from the Secretary under paragraph (1), an eligible applicant shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including a written assurance that—

(A) all laborers and mechanics employed by contractors or subcontractors during construction, alteration, or repair that is financed, in whole or in part, by a grant under this section shall be paid wages at rates not less than those prevailing on similar construction in the locality, as determined by the Secretary of Labor in accordance with sections 3141–3144, 3146, and 3147 of title 40; and

(B) the Secretary of Labor shall, with respect to the labor standards described in this paragraph, have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (5 U.S.C. App.) and section 3145 of title 40.

(4) Non-Federal share

Each eligible applicant that receives a grant under this subsection shall contribute to the total cost of the renewable energy project constructed by the eligible applicant an amount not less than 50 percent of the total cost of the project.

(c) Authorization of appropriations

There are authorized to be appropriated to the Fund such sums as are necessary to carry out this section.

(Pub. L. 110–140, title VIII, §803, Dec. 19, 2007, 121 Stat. 1718.)

EDITORIAL NOTES

Reorganization Plan Numbered 14 of 1950, referred to in subsec. (b)(3)(B), is set out in the Appendix to Title 5, Government Organization and Employees.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17283. Repealed. Pub. L. 113–76, div. D, title III, §314, Jan. 17, 2014, 128 Stat. 177

Section, Pub. L. 110–140, title VIII, §804, Dec. 19, 2007, 121 Stat. 1720, related to coordination of planned refinery outages.

§17284. Assessment of resources

(a) 5-year plan

(1) Establishment

The Administrator of the Energy Information Administration (referred to in this section as the "Administrator") shall establish a 5-year plan to enhance the quality and scope of the data collection necessary to ensure the scope, accuracy, and timeliness of the information needed for efficient functioning of energy markets and related financial operations.

(2) Requirement

In establishing the plan under paragraph (1), the Administrator shall pay particular attention to—

- (A) data series terminated because of budget constraints;
 - (B) data on demand response;
 - (C) timely data series of State-level information;
 - (D) improvements in the area of oil and gas data;
 - (E) improvements in data on solid byproducts from coal-based energy-producing facilities;
- and
- (F) the ability to meet applicable deadlines under Federal law (including regulations) to provide data required by Congress.

(b) Submission to Congress

The Administrator shall submit to Congress the plan established under subsection (a), including a description of any improvements needed to enhance the ability of the Administrator to collect and process energy information in a manner consistent with the needs of energy markets.

(c) Guidelines

(1) In general

The Administrator shall—

- (A) establish guidelines to ensure the quality, comparability, and scope of State energy data, including data on energy production and consumption by product and sector and renewable and alternative sources, required to provide a comprehensive, accurate energy profile at the State level;
- (B) share company-level data collected at the State level with each State involved, in a manner consistent with the legal authorities, confidentiality protections, and stated uses in effect

at the time the data were collected, subject to the condition that the State shall agree to reasonable requirements for use of the data, as the Administrator may require;

(C) assess any existing gaps in data obtained and compiled by the Energy Information Administration; and

(D) evaluate the most cost-effective ways to address any data quality and quantity issues in conjunction with State officials.

(2) Consultation

The Administrator shall consult with State officials and the Federal Energy Regulatory Commission on a regular basis in—

(A) establishing guidelines and determining the scope of State-level data under paragraph (1); and

(B) exploring ways to address data needs and serve data uses.

(d) Assessment of State data needs

Not later than 1 year after December 19, 2007, the Administrator shall submit to Congress an assessment of State-level data needs, including a plan to address the needs.

(e) Authorization of appropriations

In addition to any other amounts made available to the Administrator, there are authorized to be appropriated to the Administrator to carry out this section—

(1) \$10,000,000 for fiscal year 2008;

(2) \$10,000,000 for fiscal year 2009;

(3) \$10,000,000 for fiscal year 2010;

(4) \$15,000,000 for fiscal year 2011;

(5) \$20,000,000 for fiscal year 2012; and

(6) such sums as are necessary for subsequent fiscal years.

(Pub. L. 110–140, title VIII, §805, Dec. 19, 2007, 121 Stat. 1721.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17285. Sense of Congress relating to the use of renewable resources to generate energy

(a) Findings

Congress finds that—

(1) the United States has a quantity of renewable energy resources that is sufficient to supply a significant portion of the energy needs of the United States;

(2) the agricultural, forestry, and working land of the United States can help ensure a sustainable domestic energy system;

(3) accelerated development and use of renewable energy technologies provide numerous benefits to the United States, including improved national security, improved balance of payments, healthier rural economies, improved environmental quality, and abundant, reliable, and affordable energy for all citizens of the United States;

(4) the production of transportation fuels from renewable energy would help the United States meet rapidly growing domestic and global energy demands, reduce the dependence of the United States on energy imported from volatile regions of the world that are politically unstable, stabilize the cost and availability of energy, and safeguard the economy and security of the United States;

(5) increased energy production from domestic renewable resources would attract substantial

new investments in energy infrastructure, create economic growth, develop new jobs for the citizens of the United States, and increase the income for farm, ranch, and forestry jobs in the rural regions of the United States;

(6) increased use of renewable energy is practical and can be cost effective with the implementation of supportive policies and proper incentives to stimulate markets and infrastructure; and

(7) public policies aimed at enhancing renewable energy production and accelerating technological improvements will further reduce energy costs over time and increase market demand.

(b) Sense of Congress

It is the sense of Congress that it is the goal of the United States that, not later than January 1, 2025, the agricultural, forestry, and working land of the United States should—

(1) provide from renewable resources not less than 25 percent of the total energy consumed in the United States; and

(2) continue to produce safe, abundant, and affordable food, feed, and fiber.

(Pub. L. 110–140, title VIII, §806, Dec. 19, 2007, 121 Stat. 1722.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17286. Geothermal assessment, exploration information, and priority activities

(a) In general

Not later than January 1, 2012, the Secretary of the Interior, acting through the Director of the United States Geological Survey, shall—

(1) complete a comprehensive nationwide geothermal resource assessment that examines the full range of geothermal resources in the United States; and

(2) submit to the the ¹ Committee on Natural Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report describing the results of the assessment.

(b) Periodic updates

At least once every 10 years, the Secretary shall update the national assessment required under this section to support public and private sector decisionmaking.

(c) Authorization of appropriations

There are authorized to be appropriated to the Secretary of the Interior to carry out this section—

(1) \$15,000,000 for each of fiscal years 2008 through 2012; and

(2) such sums as are necessary for each of fiscal years 2013 through 2022.

(Pub. L. 110–140, title VIII, §807, Dec. 19, 2007, 121 Stat. 1723.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

¹ *So in original.*

PART B—PROHIBITIONS ON MARKET MANIPULATION AND FALSE INFORMATION

§17301. Prohibition on market manipulation

It is unlawful for any person, directly or indirectly, to use or employ, in connection with the purchase or sale of crude oil ¹ gasoline or petroleum distillates at wholesale, any manipulative or deceptive device or contrivance, in contravention of such rules and regulations as the Federal Trade Commission may prescribe as necessary or appropriate in the public interest or for the protection of United States citizens.

(Pub. L. 110–140, title VIII, §811, Dec. 19, 2007, 121 Stat. 1723.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

¹ *So in original. A comma probably should appear.*

§17302. Prohibition on false information

It is unlawful for any person to report information related to the wholesale price of crude oil ¹ gasoline or petroleum distillates to a Federal department or agency if—

- (1) the person knew, or reasonably should have known, the information to be false or misleading;
- (2) the information was required by law to be reported; and
- (3) the person intended the false or misleading data to affect data compiled by the department or agency for statistical or analytical purposes with respect to the market for crude oil, gasoline, or petroleum distillates.

(Pub. L. 110–140, title VIII, §812, Dec. 19, 2007, 121 Stat. 1723.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

¹ *So in original. A comma probably should appear.*

§17303. Enforcement by the Federal Trade Commission

(a) Enforcement

This part shall be enforced by the Federal Trade Commission in the same manner, by the same means, and with the same jurisdiction as though all applicable terms of the Federal Trade Commission Act (15 U.S.C. 41 et seq.) were incorporated into and made a part of this part.

(b) Violation is treated as unfair or deceptive act or practice

The violation of any provision of this part shall be treated as an unfair or deceptive act or practice proscribed under a rule issued under section 18(a)(1)(B) of the Federal Trade Commission Act (15 U.S.C. 57a(a)(1)(B)).

(Pub. L. 110–140, title VIII, §813, Dec. 19, 2007, 121 Stat. 1724.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Federal Trade Commission Act, referred to in subsec. (a), is act Sept. 26, 1914, ch. 311, 38 Stat. 717, which is classified generally to subchapter I (§41 et seq.) of chapter 2 of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see section 58 of Title 15 and Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17304. Penalties

(a) Civil penalty

In addition to any penalty applicable under the Federal Trade Commission Act (15 U.S.C. 41 et seq.), any supplier that violates section 17301 or 17302 of this title shall be punishable by a civil penalty of not more than \$1,000,000.

(b) Method

The penalties provided by subsection (a) shall be obtained in the same manner as civil penalties imposed under section 5 of the Federal Trade Commission Act (15 U.S.C. 45).

(c) Multiple offenses; mitigating factors

In assessing the penalty provided by subsection (a)—

(1) each day of a continuing violation shall be considered a separate violation; and

(2) the court shall take into consideration, among other factors—

(A) the seriousness of the violation; and

(B) the efforts of the person committing the violation to remedy the harm caused by the violation in a timely manner.

(Pub. L. 110–140, title VIII, §814, Dec. 19, 2007, 121 Stat. 1724.)

§17305. Effect on other laws

(a) Other authority of the Commission

Nothing in this part limits or affects the authority of the Federal Trade Commission to bring an enforcement action or take any other measure under the Federal Trade Commission Act (15 U.S.C. 41 et seq.) or any other provision of law.

(b) Antitrust law

Nothing in this part shall be construed to modify, impair, or supersede the operation of any of the antitrust laws. For purposes of this subsection, the term "antitrust laws" shall have the meaning given it in subsection (a) of the first section of the Clayton Act (15 U.S.C. 12), except that it includes section 5 of the Federal Trade Commission Act (15 U.S.C. 45) to the extent that such section 5 applies to unfair methods of competition.

(c) State law

Nothing in this part preempts any State law.

SUBCHAPTER VIII—INTERNATIONAL ENERGY PROGRAMS

§17321. Definitions

In this subchapter:

(1) Appropriate congressional committees

The term "appropriate congressional committees" means—

(A) the Committee on Foreign Affairs and the Committee on Energy and Commerce of the House of Representatives; and

(B) the Committee on Foreign Relations, the Committee on Energy and Natural Resources, the Committee on Environment and Public Works, and the Committee on Commerce, Science, and Transportation of the Senate.

(2) Clean and efficient energy technology

The term "clean and efficient energy technology" means an energy supply or end-use technology that, compared to a similar technology already in widespread commercial use in a recipient country, will—

(A) reduce emissions of greenhouse gases; or

(B)(i) increase efficiency of energy production; or

(ii) decrease intensity of energy usage.

(3) Greenhouse gas

The term "greenhouse gas" means—

- (A) carbon dioxide;
- (B) methane;
- (C) nitrous oxide;
- (D) hydrofluorocarbons;
- (E) perfluorocarbons; or
- (F) sulfur hexafluoride.

(Pub. L. 110–140, title IX, §901, Dec. 19, 2007, 121 Stat. 1725.)

EDITORIAL NOTES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

PART A—ASSISTANCE TO PROMOTE CLEAN AND EFFICIENT ENERGY TECHNOLOGIES IN FOREIGN COUNTRIES

§17331. United States assistance for developing countries

(a) Assistance authorized

The Administrator of the United States Agency for International Development shall support policies and programs in developing countries that promote clean and efficient energy technologies—

- (1) to produce the necessary market conditions for the private sector delivery of energy and environmental management services;
- (2) to create an environment that is conducive to accepting clean and efficient energy technologies that support the overall purpose of reducing greenhouse gas emissions, including—
 - (A) improving policy, legal, and regulatory frameworks;
 - (B) increasing institutional abilities to provide energy and environmental management services; and
 - (C) increasing public awareness and participation in the decision-making of delivering energy and environmental management services; and
- (3) to promote the use of American-made clean and efficient energy technologies, products, and energy and environmental management services.

(b) Report

The Administrator of the United States Agency for International Development shall submit to the appropriate congressional committees an annual report on the implementation of this section for each of the fiscal years 2008 through 2012.

(c) Authorization of appropriations

To carry out this section, there are authorized to be appropriated to the Administrator of the United States Agency for International Development \$200,000,000 for each of the fiscal years 2008 through 2012.

(Pub. L. 110–140, title IX, §911, Dec. 19, 2007, 121 Stat. 1725.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17332. United States exports and outreach programs for India, China, and other countries

(a) Assistance authorized

The Secretary of Commerce shall direct the United States and Foreign Commercial Service to expand or create a corps of the Foreign Commercial Service officers to promote United States exports in clean and efficient energy technologies and build the capacity of government officials in India, China, and any other country the Secretary of Commerce determines appropriate, to become more familiar with the available technologies—

(1) by assigning or training Foreign Commercial Service attachés, who have expertise in clean and efficient energy technologies from the United States, to embark on business development and outreach efforts to such countries; and

(2) by deploying the attachés described in paragraph (1) to educate provincial, state, and local government officials in such countries on the variety of United States-based technologies in clean and efficient energy technologies for the purposes of promoting United States exports and reducing global greenhouse gas emissions.

(b) Report

The Secretary of Commerce shall submit to the appropriate congressional committees an annual report on the implementation of this section for each of the fiscal years 2008 through 2012.

(c) Authorization of appropriations

To carry out this section, there are authorized to be appropriated to the Secretary of Commerce such sums as may be necessary for each of the fiscal years 2008 through 2012.

(Pub. L. 110–140, title IX, §912, Dec. 19, 2007, 121 Stat. 1726.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17333. United States trade missions to encourage private sector trade and investment

(a) Assistance authorized

The Secretary of Commerce shall direct the International Trade Administration to expand or create trade missions to and from the United States to encourage private sector trade and investment in clean and efficient energy technologies—

(1) by organizing and facilitating trade missions to foreign countries and by matching United States private sector companies with opportunities in foreign markets so that clean and efficient energy technologies can help to combat increases in global greenhouse gas emissions; and

(2) by creating reverse trade missions in which the Department of Commerce facilitates the meeting of foreign private and public sector organizations with private sector companies in the United States for the purpose of showcasing clean and efficient energy technologies in use or in development that could be exported to other countries.

(b) Report

The Secretary of Commerce shall submit to the appropriate congressional committees an annual report on the implementation of this section for each of the fiscal years 2008 through 2012.

(c) Authorization of appropriations

To carry out this section, there are authorized to be appropriated to the Secretary of Commerce such sums as may be necessary for each of the fiscal years 2008 through 2012.

(Pub. L. 110–140, title IX, §913, Dec. 19, 2007, 121 Stat. 1726.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17334. Actions by United States International Development Finance Corporation

(a) Sense of Congress

It is the sense of Congress that the United States International Development Finance Corporation should promote greater investment in clean and efficient energy technologies by—

(1) proactively reaching out to United States companies that are interested in investing in clean and efficient energy technologies in countries that are significant contributors to global greenhouse gas emissions;

(2) giving preferential treatment to the evaluation and awarding of projects that involve the investment or utilization of clean and efficient energy technologies; and

(3) providing greater flexibility in supporting projects that involve the investment or utilization of clean and efficient energy technologies, including financing, insurance, and other assistance.

(b) Report

The United States International Development Finance Corporation shall include in its annual report required under section 9653 of title 22—

(1) a description of the activities carried out to implement this section; or

(2) if the Corporation did not carry out any activities to implement this section, an explanation of the reasons therefor.

(Pub. L. 110–140, title IX, §914, Dec. 19, 2007, 121 Stat. 1727; Pub. L. 115–254, div. F, title VI, §1470(v)(1), Oct. 5, 2018, 132 Stat. 3519.)

EDITORIAL NOTES

AMENDMENTS

2018—Pub. L. 115–254, §1470(v)(1)(A), substituted "United States International Development Finance Corporation" for "Overseas Private Investment Corporation" in section catchline.

Subsec. (a). Pub. L. 115–254, §1470(v)(1)(B), substituted "United States International Development Finance Corporation" for "Overseas Private Investment Corporation" in introductory provisions.

Subsec. (b). Pub. L. 115–254, §1470(v)(1)(C), substituted "United States International Development Finance Corporation shall include in its annual report required under section 9653 of title 22" for "Overseas Private Investment Corporation shall include in its annual report required under section 2200a of title 22" in introductory provisions.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2018 AMENDMENT

Amendment by Pub. L. 115–254 effective at the end of the transition period, as defined in section 9681 of Title 22, Foreign Relations and Intercourse, see section 1470(w) of Pub. L. 115–254, set out as a note under section 905 of Title 2, The Congress.

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17335. Actions by United States Trade and Development Agency

(a) Assistance authorized

The Director of the Trade and Development Agency shall establish or support policies that—

(1) proactively seek opportunities to fund projects that involve the utilization of clean and efficient energy technologies, including in trade capacity building and capital investment projects;

(2) where appropriate, advance the utilization of clean and efficient energy technologies, particularly to countries that have the potential for significant reduction in greenhouse gas emissions; and

(3) recruit and retain individuals with appropriate expertise or experience in clean, renewable, and efficient energy technologies to identify and evaluate opportunities for projects that involve clean and efficient energy technologies and services.

(b) Report

The President shall include in the annual report on the activities of the Trade and Development Agency required under section 2421(d) of title 22 a description of the activities carried out to implement this section.

(Pub. L. 110–140, title IX, §915, Dec. 19, 2007, 121 Stat. 1727.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17336. Deployment of international clean and efficient energy technologies and investment in global energy markets

(a) Task Force

(1) Establishment

Not later than 90 days after December 19, 2007, the President shall establish a Task Force on International Cooperation for Clean and Efficient Energy Technologies (in this section referred to as the "Task Force").

(2) Composition

The Task Force shall be composed of representatives, appointed by the head of the respective

Federal department or agency, of—

- (A) the Council on Environmental Quality;
- (B) the Department of Energy;
- (C) the Department of Commerce;
- (D) the Department of the Treasury;
- (E) the Department of State;
- (F) the Environmental Protection Agency;
- (G) the United States Agency for International Development;
- (H) the Export-Import Bank of the United States;
- (I) the United States International Development Finance Corporation;
- (J) the Trade and Development Agency;
- (K) the Small Business Administration;
- (L) the Office of the United States Trade Representative; and
- (M) other Federal departments and agencies, as determined by the President.

(3) Chairperson

The President shall designate a Chairperson or Co-Chairpersons of the Task Force.

(4) Duties

The Task Force—

(A) shall develop and assist in the implementation of the strategy required under subsection (c); and

(B)(i) shall analyze technology, policy, and market opportunities for the development, demonstration, and deployment of clean and efficient energy technologies on an international basis; and

(ii) shall examine relevant trade, tax, finance, international, and other policy issues to assess which policies, in the United States and in developing countries, would help open markets and improve the export of clean and efficient energy technologies from the United States.

(5) Termination

The Task Force, including any working group established by the Task Force pursuant to subsection (b), shall terminate 12 years after December 19, 2007.

(b) Working groups

(1) Establishment

The Task Force—

(A) shall establish an Interagency Working Group on the Export of Clean and Efficient Energy Technologies (in this section referred to as the "Interagency Working Group"); and

(B) may establish other working groups as may be necessary to carry out this section.

(2) Composition

The Interagency Working Group shall be composed of—

(A) the Secretary of Energy, the Secretary of Commerce, and the Secretary of State, who shall serve as Co-Chairpersons of the Interagency Working Group; and

(B) other members, as determined by the Chairperson or Co-Chairpersons of the Task Force.

(3) Duties

The Interagency Working Group shall coordinate the resources and relevant programs of the Department of Energy, the Department of Commerce, the Department of State, and other relevant Federal departments and agencies to support the export of clean and efficient energy technologies developed or demonstrated in the United States to other countries and the deployment of such clean and efficient energy technologies in such other countries.

(4) Interagency Center

The Interagency Working Group—

(A) shall establish an Interagency Center on the Export of Clean and Efficient Energy

Technologies (in this section referred to as the "Interagency Center") to assist the Interagency Working Group in carrying out its duties required under paragraph (3); and

(B) shall locate the Interagency Center at a site agreed upon by the Co-Chairpersons of the Interagency Working Group, with the approval of the Chairperson or Co-Chairpersons of the Task Force.

(c) Strategy

(1) In general

Not later than 1 year after December 19, 2007, the Task Force shall develop and submit to the President and the appropriate congressional committees a strategy to—

(A) support the development and implementation of programs, policies, and initiatives in developing countries to promote the adoption and deployment of clean and efficient energy technologies, with an emphasis on those developing countries that are expected to experience the most significant growth in energy production and use over the next 20 years;

(B) open and expand clean and efficient energy technology markets and facilitate the export of clean and efficient energy technologies to developing countries, in a manner consistent with United States obligations as a member of the World Trade Organization;

(C) integrate into the foreign policy objectives of the United States the promotion of—

(i) the deployment of clean and efficient energy technologies and the reduction of greenhouse gas emissions in developing countries; and

(ii) the export of clean and efficient energy technologies; and

(D) develop financial mechanisms and instruments, including securities that mitigate the political and foreign exchange risks of uses that are consistent with the foreign policy objectives of the United States by combining the private sector market and government enhancements, that—

(i) are cost-effective; and

(ii) facilitate private capital investment in clean and efficient energy technology projects in developing countries.

(2) Updates

Not later than 3 years after the date of submission of the strategy under paragraph (1), and every 3 years thereafter, the Task Force shall update the strategy in accordance with the requirements of paragraph (1).

(d) Report

(1) In general

Not later than 3 years after the date of submission of the strategy under subsection (c)(1), and every 3 years thereafter, the President shall transmit to the appropriate congressional committees a report on the implementation of this section for the prior 3-year period.

(2) Matters to be included

The report required under paragraph (1) shall include the following:

(A) The update of the strategy required under subsection (c)(2) and a description of the actions taken by the Task Force to assist in the implementation of the strategy.

(B) A description of actions taken by the Task Force to carry out the duties required under subsection (a)(4)(B).

(C) A description of assistance provided under this section.

(D) The results of programs, projects, and activities carried out under this section.

(E) A description of priorities for promoting the diffusion and adoption of clean and efficient energy technologies and strategies in developing countries, taking into account economic and security interests of the United States and opportunities for the export of technology of the United States.

(F) Recommendations to the heads of appropriate Federal departments and agencies on

methods to streamline Federal programs and policies to improve the role of such Federal departments and agencies in the development, demonstration, and deployment of clean and efficient energy technologies on an international basis.

(G) Strategies to integrate representatives of the private sector and other interested groups on the export and deployment of clean and efficient energy technologies.

(H) A description of programs to disseminate information to the private sector and the public on clean and efficient energy technologies and opportunities to transfer such clean and efficient energy technologies.

(e) Authorization of appropriations

There are authorized to be appropriated to carry out this section \$5,000,000 for each of fiscal years 2008 through 2020.

(Pub. L. 110–140, title IX, §916, Dec. 19, 2007, 121 Stat. 1728; Pub. L. 115–254, div. F, title VI, §1470(v)(2), Oct. 5, 2018, 132 Stat. 3519.)

EDITORIAL NOTES

AMENDMENTS

2018—Subsec. (a)(2)(I). Pub. L. 115–254 substituted "United States International Development Finance Corporation;" for "Overseas Private Investment Corporation:".

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2018 AMENDMENT

Amendment by Pub. L. 115–254 effective at the end of the transition period, as defined in section 9681 of Title 22, Foreign Relations and Intercourse, see section 1470(w) of Pub. L. 115–254, set out as a note under section 905 of Title 2, The Congress.

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17337. United States-Israel energy cooperation

(a) Findings

Congress finds that—

(1) it is in the highest national security interests of the United States to develop covered energy sources;

(2) the State of Israel is a steadfast ally of the United States;

(3) the special relationship between the United States and Israel is manifested in a variety of cooperative scientific research and development programs, such as—

(A) the United States-Israel Binational Science Foundation; and

(B) the United States-Israel Binational Industrial Research and Development Foundation;

(4) those programs have made possible—

(A) many scientific, technological, and commercial breakthroughs in the fields of life sciences, medicine, bioengineering, agriculture, biotechnology, communications, and others; and

(B) significant contributions to the development of renewable energy and energy efficiency through the established programs of the United States-Israel Binational Industrial Research and Development Foundation and the United States-Israel Binational Science Foundation;

(5) on February 1, 1996, the Secretary of Energy (referred to in this section as the "Secretary")

and the Israeli Minister of Energy and Infrastructure signed an agreement to establish a framework for collaboration between the United States and Israel in energy research and development activities;

(6) Israeli scientists and engineers are at the forefront of research and development in the field of covered energy sources;

(7) enhanced cooperation between the United States and Israel for the purpose of research and development of covered energy sources would be in the national interests of both countries;

(8) United States-Israel energy cooperation and the development of natural resources by Israel are in the strategic interest of the United States;

(9) Israel is a strategic partner of the United States in water technology;

(10) the United States can play a role in assisting Israel with regional safety and security issues;

(11) the National Science Foundation of the United States, to the extent consistent with the National Science Foundation's mission, should collaborate with the Israel Science Foundation and the United States-Israel Binational Science Foundation;

(12) the United States and Israel should strive to develop more robust academic cooperation in—

(A) energy innovation technology and engineering;

(B) water science;

(C) technology transfer; and

(D) analysis of emerging geopolitical implications, crises and threats from foreign natural resource and energy acquisitions, and the development of domestic resources as a response;

(13) the United States supports the goals of the Alternative Fuels Administration of Israel with respect to expanding the use of alternative fuels;

(14) the United States strongly urges open dialogue and continued mechanisms for regular engagement and encourages further cooperation between applicable departments, agencies, ministries, institutions of higher education, and the private sector of the United States and Israel on energy security issues, including—

(A) identifying policy priorities associated with the development of natural resources of Israel;

(B) discussing and sharing best practices to secure cyber energy infrastructure and other energy security matters;

(C) leveraging natural gas to positively impact regional stability;

(D) issues relating to the energy-water nexus, including improving energy efficiency and the overall performance of water technologies through research and development in water desalination, wastewater treatment and reclamation, water treatment in gas and oil production processes, and other water treatment refiners;

(E) technical and environmental management of deep-water exploration and production;

(F) emergency response and coastal protection and restoration;

(G) academic outreach and engagement;

(H) private sector and business development engagement;

(I) regulatory consultations;

(J) leveraging alternative transportation fuels and technologies; and

(K) any other areas determined appropriate by the United States and Israel;

(15) the United States—

(A) acknowledges the achievements and importance of the Binational Industrial Research and Development Foundation and the United States-Israel Binational Science Foundation; and

(B) supports continued multiyear funding to ensure the continuity of the programs of the foundations specified in subparagraph (A); and

(16) the United States and Israel have a shared interest in addressing immediate, near-term, and long-term energy, energy poverty, energy independence, and environmental challenges facing the

United States and Israel, respectively.

(b) Grant program

(1) Establishment

In implementing the agreement entitled the "Agreement between the Department of Energy of the United States of America and the Ministry of Energy and Infrastructure of Israel Concerning Energy Cooperation", dated February 1, 1996, the Secretary shall establish a grant program in accordance with the requirements of sections 16352 and 16353 of this title to support research, development, and commercialization of covered energy.

(2) Types of energy

In carrying out paragraph (1), the Secretary may make grants to promote—

(A) solar energy;

(B) biomass energy;

(C) energy efficiency;

(D) wind energy;

(E) geothermal energy;

(F) wave and tidal energy;

(G) advanced battery technology;

(H) natural gas energy, including conventional and unconventional natural gas technologies and other associated technologies, and natural gas projects conducted by or in conjunction with the United States-Israel Binational Science Foundation and the United States-Israel Binational Industrial Research and Development Foundation; and

(I) improvement of energy efficiency and the overall performance of water technologies through research and development in water desalination, wastewater treatment and reclamation, and other water treatment refiners.

(3) Eligible applicants

An applicant shall be eligible to receive a grant under this subsection if the project of the applicant—

(A) addresses a requirement in the area of improved covered energy sources, as determined by the Secretary; and

(B) is a joint venture between—

(i)(I) a for-profit business entity, academic institution, National Laboratory (as defined in section 15801 of this title), or nonprofit entity in the United States; and

(II) a for-profit business entity, academic institution, or nonprofit entity in Israel; or

(ii)(I) the Federal Government; and

(II) the Government of Israel.

(4) Applications

To be eligible to receive a grant under this subsection, an applicant shall submit to the Secretary an application for the grant in accordance with procedures established by the Secretary, in consultation with the advisory board established under paragraph (5).

(5) Advisory board

(A) Establishment

The Secretary shall establish an advisory board—

(i) to monitor the method by which grants are awarded under this subsection; and

(ii) to provide to the Secretary periodic performance reviews of actions taken to carry out this subsection.

(B) Composition

The advisory board established under subparagraph (A) shall be composed of 3 members, to be appointed by the Secretary, of whom—

(i) 1 shall be a representative of the Federal Government;

(ii) 1 shall be selected from a list of nominees provided by the United States-Israel Binational Science Foundation; and

(iii) 1 shall be selected from a list of nominees provided by the United States-Israel Binational Industrial Research and Development Foundation.

(6) Contributed funds

Notwithstanding section 3302 of title 31, the Secretary may accept, retain, and use funds contributed by any person, government entity, or organization for purposes of carrying out this subsection—

(A) without further appropriation; and

(B) without fiscal year limitation.

(7) Report

Not later than 180 days after the date of completion of a project for which a grant is provided under this subsection, the grant recipient shall submit to the Secretary a report that contains—

(A) a description of the method by which the recipient used the grant funds; and

(B) an evaluation of the level of success of each project funded by the grant.

(8) Classification

Grants shall be awarded under this subsection only for projects that are considered to be unclassified by both the United States and Israel.

(c) International partnerships

(1) In general

The Secretary, subject to the availability of appropriations, may enter into cooperative agreements supporting and enhancing dialogue and planning involving international partnerships between the Department, including National Laboratories of the Department, and the Government of Israel and its ministries, offices, and institutions.

(2) Federal share

The Secretary may not pay more than 50 percent of Federal share of the costs of implementing cooperative agreements entered into pursuant to paragraph (1).

(3) Annual reports

If the Secretary enters into agreements authorized by paragraph (1), the Secretary shall submit an annual report to the Committee on Energy and Natural Resources of the Senate, the Committee on Foreign Relations of the Senate, the Committee on Appropriations of the Senate, the Committee on Energy and Commerce of the House of Representatives, the Committee on Science, Space, and Technology of the House of Representatives, the Committee on Foreign Affairs of the House of Representatives, and the Committee on Appropriations of the House of Representatives that describes—

(A) actions taken to implement such agreements; and

(B) any projects undertaken pursuant to such agreements.

(d) United States-Israel Energy Center

The Secretary may establish a joint United States-Israel Energy Center in the United States leveraging the experience, knowledge, and expertise of institutions of higher education and entities in the private sector, among others, in offshore energy development to further dialogue and collaboration to develop more robust academic cooperation in energy innovation technology and engineering, water science, technology transfer, and analysis of emerging geopolitical implications, crises and threats from foreign natural resource and energy acquisitions, and the development of domestic resources as a response.

(e) Termination

The grant program and the advisory committee established under this section terminate on September 30, 2024.

(Pub. L. 110–140, title IX, §917, Dec. 19, 2007, 121 Stat. 1730; Pub. L. 113–296, §12(a)–(c)(1), Dec. 19, 2014, 128 Stat. 4078–4080.)

EDITORIAL NOTES

AMENDMENTS

2014—Subsec. (a)(1). Pub. L. 113–296, §12(a)(1), substituted "covered" for "renewable".

Subsec. (a)(4). Pub. L. 113–296, §12(a)(2), substituted "possible—" for "possible", designated remaining existing provisions as subpar. (A), and added subpar. (B).

Subsec. (a)(6). Pub. L. 113–296, §12(a)(3)(A), substituted "covered" for "renewable".

Subsec. (a)(7). Pub. L. 113–296, §12(a)(4)(A), substituted "covered" for "renewable".

Subsec. (a)(8) to (16). Pub. L. 113–296, §12(a)(3)(B), (4)(B), (5), added pars. (8) to (16).

Subsec. (b)(1). Pub. L. 113–296, §12(b)(1), substituted "covered energy" for "renewable energy or energy efficiency".

Subsec. (b)(2)(H), (I). Pub. L. 113–296, §12(b)(2), added subpars. (H) and (I).

Subsec. (b)(3)(A). Pub. L. 113–296, §12(b)(3), substituted "covered" for "energy efficiency or renewable".

Subsec. (c). Pub. L. 113–296, §12(c)(1)(C), added subsec. (c). Former subsec. (c) redesignated (e).

Subsec. (d). Pub. L. 113–296, §12(c)(1)(A), (C), added subsec. (d) and struck out former subsec. (d) which related to authorization of appropriations.

Subsec. (e). Pub. L. 113–296, §12(c)(1)(B), (D), redesignated subsec. (c) as (e) and substituted "September 30, 2024" for "the date that is 7 years after December 19, 2007".

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

PART B—INTERNATIONAL CLEAN ENERGY FOUNDATION

§17351. Definitions

In this part:

(1) Board

The term "Board" means the Board of Directors of the Foundation established pursuant to section 17352(c) of this title.

(2) Chief Executive Officer

The term "Chief Executive Officer" means the chief executive officer of the Foundation appointed pursuant to section 17352(b) of this title.

(3) Foundation

The term "Foundation" means the International Clean Energy Foundation established by section 17352(a) of this title.

(Pub. L. 110–140, title IX, §921, Dec. 19, 2007, 121 Stat. 1732.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17352. Establishment and management of Foundation

(a) Establishment

(1) In general

There is established in the executive branch a foundation to be known as the "International Clean Energy Foundation" that shall be responsible for carrying out the provisions of this part. The Foundation shall be a government corporation, as defined in section 103 of title 5.

(2) Board of Directors

The Foundation shall be governed by a Board of Directors in accordance with subsection (c).

(3) Intent of Congress

It is the intent of Congress, in establishing the structure of the Foundation set forth in this subsection, to create an entity that serves the long-term foreign policy and energy security goals of reducing global greenhouse gas emissions.

(b) Chief Executive Officer

(1) In general

There shall be in the Foundation a Chief Executive Officer who shall be responsible for the management of the Foundation.

(2) Appointment

The Chief Executive Officer shall be appointed by the Board, with the advice and consent of the Senate, and shall be a recognized leader in clean and efficient energy technologies and climate change and shall have experience in energy security, business, or foreign policy, chosen on the basis of a rigorous search.

(3) Relationship to Board

The Chief Executive Officer shall report to, and be under the direct authority of, the Board.

(4) Compensation and rank

(A) In general

The Chief Executive Officer shall be compensated at the rate provided for level III of the Executive Schedule under section 5314 of title 5.

(B) Omitted

(C) Authorities and duties

The Chief Executive Officer shall be responsible for the management of the Foundation and shall exercise the powers and discharge the duties of the Foundation.

(D) Authority to appoint officers

In consultation and with approval of the Board, the Chief Executive Officer shall appoint all officers of the Foundation.

(c) Board of Directors

(1) Establishment

There shall be in the Foundation a Board of Directors.

(2) Duties

The Board shall perform the functions specified to be carried out by the Board in this part and may prescribe, amend, and repeal bylaws, rules, regulations, and procedures governing the manner in which the business of the Foundation may be conducted and in which the powers granted to it by law may be exercised.

(3) Membership

The Board shall consist of—

(A) the Secretary of State (or the Secretary's designee), the Secretary of Energy (or the Secretary's designee), and the Administrator of the United States Agency for International Development (or the Administrator's designee); and

(B) four other individuals with relevant experience in matters relating to energy security (such as individuals who represent institutions of energy policy, business organizations, foreign policy organizations, or other relevant organizations) who shall be appointed by the President, by and with the advice and consent of the Senate, of whom—

(i) one individual shall be appointed from among a list of individuals submitted by the Majority Leader of the House of Representatives;

(ii) one individual shall be appointed from among a list of individuals submitted by the Minority Leader of the House of Representatives;

(iii) one individual shall be appointed from among a list of individuals submitted by the Majority Leader of the Senate; and

(iv) one individual shall be appointed from among a list of individuals submitted by the Minority Leader of the Senate.

(4) Chief Executive Officer

The Chief Executive Officer of the Foundation shall serve as a nonvoting, ex officio member of the Board.

(5) Terms

(A) Officers of the Federal Government

Each member of the Board described in paragraph (3)(A) shall serve for a term that is concurrent with the term of service of the individual's position as an officer within the other Federal department or agency.

(B) Other members

Each member of the Board described in paragraph (3)(B) shall be appointed for a term of 3 years and may be reappointed for a term of an additional 3 years.

(C) Vacancies

A vacancy in the Board shall be filled in the manner in which the original appointment was made.

(D) Acting members

A vacancy in the Board may be filled with an appointment of an acting member by the Chairperson of the Board for up to 1 year while a nominee is named and awaits confirmation in accordance with paragraph (3)(B).

(6) Chairperson

There shall be a Chairperson of the Board. The Secretary of State (or the Secretary's designee) shall serve as the Chairperson.

(7) Quorum

A majority of the members of the Board described in paragraph (3) shall constitute a quorum, which, except with respect to a meeting of the Board during the 135-day period beginning on December 19, 2007, shall include at least 1 member of the Board described in paragraph (3)(B).

(8) Meetings

The Board shall meet at the call of the Chairperson, who shall call a meeting no less than once a year.

(9) Compensation

(A) Officers of the Federal Government

(i) In general

A member of the Board described in paragraph (3)(A) may not receive additional pay, allowances, or benefits by reason of the member's service on the Board.

(ii) Travel expenses

Each such member of the Board shall receive travel expenses, including per diem in lieu of subsistence, in accordance with applicable provisions under subchapter I of chapter 57 of title 5.

(B) Other members

(i) In general

Except as provided in clause (ii), a member of the Board described in paragraph (3)(B)—

(I) shall be paid compensation out of funds made available for the purposes of this part at the daily equivalent of the highest rate payable under section 5332 of title 5 for each day (including travel time) during which the member is engaged in the actual performance of duties as a member of the Board; and

(II) while away from the member's home or regular place of business on necessary travel in the actual performance of duties as a member of the Board, shall be paid per diem, travel, and transportation expenses in the same manner as is provided under subchapter I of chapter 57 of title 5.

(ii) Limitation

A member of the Board may not be paid compensation under clause (i)(II) for more than 90 days in any calendar year.

(Pub. L. 110–140, title IX, §922, Dec. 19, 2007, 121 Stat. 1733.)

EDITORIAL NOTES

CODIFICATION

Section is comprised of section 922 of Pub. L. 110–140. Subsec. (b)(4)(B) of section 922 of Pub. L. 110–140 amended section 5314 of Title 5, Government Organization and Employees.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17353. Duties of Foundation

The Foundation shall—

(1) use the funds authorized by this part to make grants to promote projects outside of the United States that serve as models of how to significantly reduce the emissions of global greenhouse gases through clean and efficient energy technologies, processes, and services;

(2) seek contributions from foreign governments, especially those rich in energy resources such as member countries of the Organization of the Petroleum Exporting Countries, and private organizations to supplement funds made available under this part;

(3) harness global expertise through collaborative partnerships with foreign governments and domestic and foreign private actors, including nongovernmental organizations and private sector companies, by leveraging public and private capital, technology, expertise, and services towards innovative models that can be instituted to reduce global greenhouse gas emissions;

(4) create a repository of information on best practices and lessons learned on the utilization and implementation of clean and efficient energy technologies and processes to be used for future initiatives to tackle the climate change crisis;

(5) be committed to minimizing administrative costs and to maximizing the availability of funds for grants under this part; and

(6) promote the use of American-made clean and efficient energy technologies, processes, and services by giving preference to entities incorporated in the United States and whose technology will be substantially manufactured in the United States.

(Pub. L. 110–140, title IX, §923, Dec. 19, 2007, 121 Stat. 1735.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17354. Annual report

(a) Report required

Not later than March 31, 2008, and each March 31 thereafter, the Foundation shall submit to the appropriate congressional committees a report on the implementation of this part during the prior fiscal year.

(b) Contents

The report required by subsection (a) shall include—

(1) the total financial resources available to the Foundation during the year, including appropriated funds, the value and source of any gifts or donations accepted pursuant to section 17355(a)(6) of this title, and any other resources;

(2) a description of the Board's policy priorities for the year and the basis upon which competitive grant proposals were solicited and awarded to nongovernmental institutions and other organizations;

(3) a list of grants made to nongovernmental institutions and other organizations that includes the identity of the institutional recipient, the dollar amount, and the results of the program; and

(4) the total administrative and operating expenses of the Foundation for the year, as well as specific information on—

(A) the number of Foundation employees and the cost of compensation for Board members, Foundation employees, and personal service contractors;

(B) costs associated with securing the use of real property for carrying out the functions of the Foundation;

(C) total travel expenses incurred by Board members and Foundation employees in connection with Foundation activities; and

(D) total representational expenses.

(Pub. L. 110–140, title IX, §924, Dec. 19, 2007, 121 Stat. 1736.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17355. Powers of the Foundation; related provisions

(a) Powers

The Foundation—

- (1) shall have perpetual succession unless dissolved by a law enacted after December 19, 2007;
- (2) may adopt, alter, and use a seal, which shall be judicially noticed;
- (3) may make and perform such contracts, grants, and other agreements with any person or government however designated and wherever situated, as may be necessary for carrying out the functions of the Foundation;
- (4) may determine and prescribe the manner in which its obligations shall be incurred and its expenses allowed and paid, including expenses for representation;
- (5) may lease, purchase, or otherwise acquire, improve, and use such real property wherever situated, as may be necessary for carrying out the functions of the Foundation;
- (6) may accept money, funds, services, or property (real, personal, or mixed), tangible or intangible, made available by gift, bequest ¹ grant, or otherwise for the purpose of carrying out the provisions of this subchapter from domestic or foreign private individuals, charities, nongovernmental organizations, corporations, or governments;
- (7) may use the United States mails in the same manner and on the same conditions as the executive departments;
- (8) may contract with individuals for personal services, who shall not be considered Federal employees for any provision of law administered by the Office of Personnel Management;
- (9) may hire or obtain passenger motor vehicles; and
- (10) shall have such other powers as may be necessary and incident to carrying out this part.

(b) Principal office

The Foundation shall maintain its principal office in the metropolitan area of Washington, District of Columbia.

(c) Applicability of Government Corporation Control Act

(1) In general

The Foundation shall be subject to chapter 91 of subtitle VI of title 31, except that the Foundation shall not be authorized to issue obligations or offer obligations to the public.

(2) Omitted

(d) Inspector General

(1) In general

The Inspector General of the Department of State shall serve as Inspector General of the Foundation, and, in acting in such capacity, may conduct reviews, investigations, and inspections of all aspects of the operations and activities of the Foundation.

(2) Authority of the Board

In carrying out the responsibilities under this subsection, the Inspector General shall report to and be under the general supervision of the Board.

(3) Reimbursement and authorization of services

(A) Reimbursement

The Foundation shall reimburse the Department of State for all expenses incurred by the Inspector General in connection with the Inspector General's responsibilities under this subsection.

(B) Authorization for services

Of the amount authorized to be appropriated under section 17357(a) of this title for a fiscal year, up to \$500,000 is authorized to be made available to the Inspector General of the Department of State to conduct reviews, investigations, and inspections of operations and activities of the Foundation.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

¹ *So in original. A comma probably should appear.*

§17356. General personnel authorities

(a) Detail of personnel

Upon request of the Chief Executive Officer, the head of an agency may detail any employee of such agency to the Foundation on a reimbursable basis. Any employee so detailed remains, for the purpose of preserving such employee's allowances, privileges, rights, seniority, and other benefits, an employee of the agency from which detailed.

(b) Reemployment rights

(1) In general

An employee of an agency who is serving under a career or career conditional appointment (or the equivalent), and who, with the consent of the head of such agency, transfers to the Foundation, is entitled to be reemployed in such employee's former position or a position of like seniority, status, and pay in such agency, if such employee—

(A) is separated from the Foundation for any reason, other than misconduct, neglect of duty, or malfeasance; and

(B) applies for reemployment not later than 90 days after the date of separation from the Foundation.

(2) Specific rights

An employee who satisfies paragraph (1) is entitled to be reemployed (in accordance with such paragraph) within 30 days after applying for reemployment and, on reemployment, is entitled to at least the rate of basic pay to which such employee would have been entitled had such employee never transferred.

(c) Hiring authority

Of persons employed by the Foundation, no more than 30 persons may be appointed, compensated, or removed without regard to the civil service laws and regulations.

(d) Basic pay

The Chief Executive Officer may fix the rate of basic pay of employees of the Foundation without regard to the provisions of chapter 51 of title 5 (relating to the classification of positions), subchapter

III of chapter 53 of such title (relating to General Schedule pay rates), except that no employee of the Foundation may receive a rate of basic pay that exceeds the rate for level IV of the Executive Schedule under section 5315 of such title.

(e) Definitions

In this section—

(1) the term "agency" means an executive agency, as defined by section 105 of title 5; and

(2) the term "detail" means the assignment or loan of an employee, without a change of position, from the agency by which such employee is employed to the Foundation.

(Pub. L. 110–140, title IX, §926, Dec. 19, 2007, 121 Stat. 1737.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17357. Authorization of appropriations

(a) Authorization of appropriations

To carry out this part, there are authorized to be appropriated \$20,000,000 for each of the fiscal years 2009 through 2013.

(b) Allocation of funds

(1) In general

The Foundation may allocate or transfer to any agency of the United States Government any of the funds available for carrying out this part. Such funds shall be available for obligation and expenditure for the purposes for which the funds were authorized, in accordance with authority granted in this part or under authority governing the activities of the United States Government agency to which such funds are allocated or transferred.

(2) Notification

The Foundation shall notify the appropriate congressional committees not less than 15 days prior to an allocation or transfer of funds pursuant to paragraph (1).

(Pub. L. 110–140, title IX, §927, Dec. 19, 2007, 121 Stat. 1738.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

PART C—MISCELLANEOUS PROVISIONS

§17371. Energy diplomacy and security within the Department of State

(a) State Department Coordinator for International Energy Affairs

(1) In general

The Secretary of State should ensure that energy security is integrated into the core mission of

the Department of State.

(2) Coordinator for International Energy Affairs

There is established within the Office of the Secretary of State a Coordinator for International Energy Affairs, who shall be responsible for—

(A) representing the Secretary of State in interagency efforts to develop the international energy policy of the United States;

(B) ensuring that analyses of the national security implications of global energy and environmental developments are reflected in the decision making process within the Department of State;

(C) incorporating energy security priorities into the activities of the Department of State;

(D) coordinating energy activities of the Department of State with relevant Federal agencies; and

(E) coordinating energy security and other relevant functions within the Department of State currently undertaken by offices within—

(i) the Bureau of Economic, Energy and Business Affairs;

(ii) the Bureau of Oceans and International Environmental and Scientific Affairs; and

(iii) other offices within the Department of State.

(3) Authorization of appropriations

There are authorized to be appropriated such sums as may be necessary to carry out this subsection.

(b) Energy experts in key embassies

Not later than 180 days after December 19, 2007, the Secretary of State shall submit a report to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives that includes—

(1) a description of the Department of State personnel who are dedicated to energy matters and are stationed at embassies and consulates in countries that are major energy producers or consumers;

(2) an analysis of the need for Federal energy specialist personnel in United States embassies and other United States diplomatic missions; and

(3) recommendations for increasing energy expertise within United States embassies among foreign service officers and options for assigning to such embassies energy attachés from the National Laboratories or other agencies within the Department of Energy.

(c) Energy advisors

The Secretary of Energy may make appropriate arrangements with the Secretary of State to assign personnel from the Department of Energy or the National Laboratories of the Department of Energy to serve as dedicated advisors on energy matters in embassies of the United States or other United States diplomatic missions.

(d) Report

Not later than 180 days after December 19, 2007, and every 2 years thereafter for the following 20 years, the Secretary of State shall submit a report to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives that describes—

(1) the energy-related activities being conducted by the Department of State, including activities within—

(A) the Bureau of Economic, Energy and Business Affairs;

(B) the Bureau of Oceans and Environmental and Scientific Affairs; and

(C) other offices within the Department of State;

(2) the amount of funds spent on each activity within each office described in paragraph (1); and

(3) the number and qualification of personnel in each embassy (or relevant foreign posting) of

the United States whose work is dedicated exclusively to energy matters.
(Pub. L. 110–140, title IX, §931, Dec. 19, 2007, 121 Stat. 1739.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17372. Annual national energy security strategy report

(a) Reports

(1) In general

Subject to paragraph (2), on the date on which the President submits to Congress the budget for the following fiscal year under section 1105 of title 31, the President shall submit to Congress a comprehensive report on the national energy security of the United States.

(2) New Presidents

In addition to the reports required under paragraph (1), the President shall submit a comprehensive report on the national energy security of the United States by not later than 150 days after the date on which the President assumes the office of President after a presidential election.

(b) Contents

Each report under this section shall describe the national energy security strategy of the United States, including a comprehensive description of—

(1) the worldwide interests, goals, and objectives of the United States that are vital to the national energy security of the United States;

(2) the foreign policy, worldwide commitments, and national defense capabilities of the United States necessary—

(A) to deter political manipulation of world energy resources; and

(B) to implement the national energy security strategy of the United States;

(3) the proposed short-term and long-term uses of the political, economic, military, and other authorities of the United States—

(A) to protect or promote energy security; and

(B) to achieve the goals and objectives described in paragraph (1);

(4) the adequacy of the capabilities of the United States to protect the national energy security of the United States, including an evaluation of the balance among the capabilities of all elements of the national authority of the United States to support the implementation of the national energy security strategy; and

(5) such other information as the President determines to be necessary to inform Congress on matters relating to the national energy security of the United States.

(c) Classified and unclassified form

Each national energy security strategy report shall be submitted to Congress in—

(1) a classified form; and

(2) an unclassified form.

(Pub. L. 110–140, title IX, §933, Dec. 19, 2007, 121 Stat. 1740.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17373. Convention on Supplementary Compensation for Nuclear Damage contingent cost allocation

(a) Findings and purpose

(1) Findings

Congress finds that—

(A) section 2210 of this title (commonly known as the "Price-Anderson Act")—

(i) provides a predictable legal framework necessary for nuclear projects; and

(ii) ensures prompt and equitable compensation in the event of a nuclear incident in the United States;

(B) the Price-Anderson Act, in effect, provides operators of nuclear powerplants with insurance for damage arising out of a nuclear incident and funds the insurance primarily through the assessment of a retrospective premium from each operator after the occurrence of a nuclear incident;

(C) the Convention on Supplementary Compensation for Nuclear Damage, done at Vienna on September 12, 1997, will establish a global system—

(i) to provide a predictable legal framework necessary for nuclear energy projects; and

(ii) to ensure prompt and equitable compensation in the event of a nuclear incident;

(D) the Convention benefits United States nuclear suppliers that face potentially unlimited liability for nuclear incidents that are not covered by the Price-Anderson Act by replacing a potentially open-ended liability with a predictable liability regime that, in effect, provides nuclear suppliers with insurance for damage arising out of such an incident;

(E) the Convention also benefits United States nuclear facility operators that may be publicly liable for a Price-Anderson incident by providing an additional early source of funds to compensate damage arising out of the Price-Anderson incident;

(F) the combined operation of the Convention, the Price-Anderson Act, and this section will augment the quantity of assured funds available for victims in a wider variety of nuclear incidents while reducing the potential liability of United States suppliers without increasing potential costs to United States operators;

(G) the cost of those benefits is the obligation of the United States to contribute to the supplementary compensation fund established by the Convention;

(H) any such contribution should be funded in a manner that does not—

(i) upset settled expectations based on the liability regime established under the Price-Anderson Act; or

(ii) shift to Federal taxpayers liability risks for nuclear incidents at foreign installations;

(I) with respect to a Price-Anderson incident, funds already available under the Price-Anderson Act should be used; and

(J) with respect to a nuclear incident outside the United States not covered by the Price-Anderson Act, a retrospective premium should be prorated among nuclear suppliers relieved from potential liability for which insurance is not available.

(2) Purpose

The purpose of this section is to allocate the contingent costs associated with participation by the United States in the international nuclear liability compensation system established by the Convention on Supplementary Compensation for Nuclear Damage, done at Vienna on September

12, 1997—

(A) with respect to a Price-Anderson incident, by using funds made available under section 2210 of this title to cover the contingent costs in a manner that neither increases the burdens nor decreases the benefits under section 2210 of this title; and

(B) with respect to a covered incident outside the United States that is not a Price-Anderson incident, by allocating the contingent costs equitably, on the basis of risk, among the class of nuclear suppliers relieved by the Convention from the risk of potential liability resulting from any covered incident outside the United States.

(b) Definitions

In this section:

(1) Commission

The term "Commission" means the Nuclear Regulatory Commission.

(2) Contingent cost

The term "contingent cost" means the cost to the United States in the event of a covered incident the amount of which is equal to the amount of funds the United States is obligated to make available under paragraph 1(b) of Article III of the Convention.

(3) Convention

The term "Convention" means the Convention on Supplementary Compensation for Nuclear Damage, done at Vienna on September 12, 1997.

(4) Covered incident

The term "covered incident" means a nuclear incident the occurrence of which results in a request for funds pursuant to Article VII of the Convention.

(5) Covered installation

The term "covered installation" means a nuclear installation at which the occurrence of a nuclear incident could result in a request for funds under Article VII of the Convention.

(6) Covered person

(A) In general

The term "covered person" means—

- (i) a United States person; and
- (ii) an individual or entity (including an agency or instrumentality of a foreign country) that—

- (I) is located in the United States; or
- (II) carries out an activity in the United States.

(B) Exclusions

The term "covered person" does not include—

- (i) the United States; or
- (ii) any agency or instrumentality of the United States.

(7) Nuclear supplier

The term "nuclear supplier" means a covered person (or a successor in interest of a covered person) that—

- (A) supplies facilities, equipment, fuel, services, or technology pertaining to the design, construction, operation, or decommissioning of a covered installation; or
- (B) transports nuclear materials that could result in a covered incident.

(8) Price-Anderson incident

The term "Price-Anderson incident" means a covered incident for which section 2210 of this title would make funds available to compensate for public liability (as defined in section 2014 of this title).

(9) Secretary

The term "Secretary" means the Secretary of Energy.

(10) United States

(A) In general

The term "United States" has the meaning given the term in section 2014 of this title.

(B) Inclusions

The term "United States" includes—

- (i) the Commonwealth of Puerto Rico;
- (ii) any other territory or possession of the United States;
- (iii) the Canal Zone; and
- (iv) the waters of the United States territorial sea under Presidential Proclamation Number 5928, dated December 27, 1988 (43 U.S.C. 1331 note).

(11) United States person

The term "United States person" means—

(A) any individual who is a resident, national, or citizen of the United States (other than an individual residing outside of the United States and employed by a person who is not a United States person); and

(B) any corporation, partnership, association, joint stock company, business trust, unincorporated organization, or sole proprietorship that is organized under the laws of the United States.

(c) Use of Price-Anderson funds

(1) In general

Funds made available under section 2210 of this title shall be used to cover the contingent cost resulting from any Price-Anderson incident.

(2) Effect

The use of funds pursuant to paragraph (1) shall not reduce the limitation on public liability established under section 2210(e) of this title.

(d) Effect on amount of public liability

(1) In general

Funds made available to the United States under Article VII of the Convention with respect to a Price-Anderson incident shall be used to satisfy public liability resulting from the Price-Anderson incident.

(2) Amount

The amount of public liability allowable under section 2210 of this title relating to a Price-Anderson incident under paragraph (1) shall be increased by an amount equal to the difference between—

(A) the amount of funds made available for the Price-Anderson incident under Article VII of the Convention; and

(B) the amount of funds used under subsection (c) to cover the contingent cost resulting from the Price-Anderson incident.

(e) Retrospective risk pooling program

(1) In general

Except as provided under paragraph (2), each nuclear supplier shall participate in a retrospective risk pooling program in accordance with this section to cover the contingent cost resulting from a covered incident outside the United States that is not a Price-Anderson incident.

(2) Deferred payment

(A) In general

The obligation of a nuclear supplier to participate in the retrospective risk pooling program shall be deferred until the United States is called on to provide funds pursuant to Article VII of the Convention with respect to a covered incident that is not a Price-Anderson incident.

(B) Amount of deferred payment

The amount of a deferred payment of a nuclear supplier under subparagraph (A) shall be based on the risk-informed assessment formula determined under subparagraph (C).

(C) Risk-informed assessment formula

(i) In general

Not later than 3 years after December 19, 2007, and every 5 years thereafter, the Secretary shall, by regulation, determine the risk-informed assessment formula for the allocation among nuclear suppliers of the contingent cost resulting from a covered incident that is not a Price-Anderson incident, taking into account risk factors such as—

(I) the nature and intended purpose of the goods and services supplied by each nuclear supplier to each covered installation outside the United States;

(II) the quantity of the goods and services supplied by each nuclear supplier to each covered installation outside the United States;

(III) the hazards associated with the supplied goods and services if the goods and services fail to achieve the intended purposes;

(IV) the hazards associated with the covered installation outside the United States to which the goods and services are supplied;

(V) the legal, regulatory, and financial infrastructure associated with the covered installation outside the United States to which the goods and services are supplied; and

(VI) the hazards associated with particular forms of transportation.

(ii) Factors for consideration

In determining the formula, the Secretary may—

(I) exclude—

(aa) goods and services with negligible risk;

(bb) classes of goods and services not intended specifically for use in a nuclear installation;

(cc) a nuclear supplier with a de minimis share of the contingent cost; and

(dd) a nuclear supplier no longer in existence for which there is no identifiable successor; and

(II) establish the period on which the risk assessment is based.

(iii) Application

In applying the formula, the Secretary shall not consider any covered installation or transportation for which funds would be available under section 2210 of this title.

(iv) Report

Not later than 5 years after December 19, 2007, and every 5 years thereafter, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Energy and Commerce of the House of Representatives, a report on whether there is a need for continuation or amendment of this section, taking into account the effects of the implementation of the Convention on the United States nuclear industry and suppliers.

(f) Reporting

(1) Collection of information

(A) In general

The Secretary may collect information necessary for developing and implementing the

formula for calculating the deferred payment of a nuclear supplier under subsection (e)(2).

(B) Provision of information

Each nuclear supplier and other appropriate persons shall make available to the Secretary such information, reports, records, documents, and other data as the Secretary determines, by regulation, to be necessary or appropriate to develop and implement the formula under subsection (e)(2)(C).

(2) Private insurance

The Secretary shall make available to nuclear suppliers, and insurers of nuclear suppliers, information to support the voluntary establishment and maintenance of private insurance against any risk for which nuclear suppliers may be required to pay deferred payments under this section.

(g) Effect on liability

Nothing in any other law (including regulations) limits liability for a covered incident to an amount equal to less than the amount prescribed in paragraph 1(a) of Article IV of the Convention, unless the law—

(1) specifically refers to this section; and

(2) explicitly repeals, alters, amends, modifies, impairs, displaces, or supersedes the effect of this subsection.

(h) Payments to and by the United States

(1) Action by nuclear suppliers

(A) Notification

In the case of a request for funds under Article VII of the Convention resulting from a covered incident that is not a Price-Anderson incident, the Secretary shall notify each nuclear supplier of the amount of the deferred payment required to be made by the nuclear supplier.

(B) Payments

(i) In general

Except as provided under clause (ii), not later than 60 days after receipt of a notification under subparagraph (A), a nuclear supplier shall pay to the general fund of the Treasury the deferred payment of the nuclear supplier required under subparagraph (A).

(ii) Annual payments

A nuclear supplier may elect to prorate payment of the deferred payment required under subparagraph (A) in 5 equal annual payments (including interest on the unpaid balance at the prime rate prevailing at the time the first payment is due).

(C) Vouchers

A nuclear supplier shall submit payment certification vouchers to the Secretary of the Treasury in accordance with section 3325 of title 31.

(2) Use of funds

(A) In general

Amounts paid into the Treasury under paragraph (1) shall be available to the Secretary of the Treasury, without further appropriation and without fiscal year limitation, for the purpose of making the contributions of public funds required to be made by the United States under the Convention.

(B) Action by Secretary of Treasury

The Secretary of the Treasury shall pay the contribution required under the Convention to the court of competent jurisdiction under Article XIII of the Convention with respect to the applicable covered incident.

(3) Failure to pay

If a nuclear supplier fails to make a payment required under this subsection, the Secretary may take appropriate action to recover from the nuclear supplier—

- (A) the amount of the payment due from the nuclear supplier;
- (B) any applicable interest on the payment; and
- (C) a penalty of not more than twice the amount of the deferred payment due from the nuclear supplier.

(i) Limitation on judicial review; cause of action

(1) Limitation on judicial review

(A) In general

In any civil action arising under the Convention over which Article XIII of the Convention grants jurisdiction to the courts of the United States, any appeal or review by writ of mandamus or otherwise with respect to a nuclear incident that is not a Price-Anderson incident shall be in accordance with chapter 83 of title 28, except that the appeal or review shall occur in the United States Court of Appeals for the District of Columbia Circuit.

(B) Supreme Court jurisdiction

Nothing in this paragraph affects the jurisdiction of the Supreme Court of the United States under chapter 81 of title 28.

(2) Cause of action

(A) In general

Subject to subparagraph (B), in any civil action arising under the Convention over which Article XIII of the Convention grants jurisdiction to the courts of the United States, in addition to any other cause of action that may exist, an individual or entity shall have a cause of action against the operator to recover for nuclear damage suffered by the individual or entity.

(B) Requirement

Subparagraph (A) shall apply only if the individual or entity seeks a remedy for nuclear damage (as defined in Article I of the Convention) that was caused by a nuclear incident (as defined in Article I of the Convention) that is not a Price-Anderson incident.

(C) Savings provision

Nothing in this paragraph may be construed to limit, modify, extinguish, or otherwise affect any cause of action that would have existed in the absence of enactment of this paragraph.

(j) Right of recourse

This section does not provide to an operator of a covered installation any right of recourse under the Convention.

(k) Protection of sensitive United States information

Nothing in the Convention or this section requires the disclosure of—

- (1) any data that, at any time, was Restricted Data (as defined in section 2014 of this title);
- (2) information relating to intelligence sources or methods protected by section 3024(h) of title 50; or
- (3) national security information classified under Executive Order 12958 ([former] 50 U.S.C. 435 note; relating to classified national security information) (or a successor Executive Order or regulation).

(l) Regulations

(1) In general

The Secretary or the Commission, as appropriate, may prescribe regulations to carry out section 2210 of this title and this section.

(2) Requirement

Rules prescribed under this subsection shall ensure, to the maximum extent practicable, that—

(A) the implementation of section 2210 of this title and this section is consistent and equitable; and

(B) the financial and operational burden on a Commission licensee in complying with section 2210 of this title is not greater as a result of the enactment of this section.

(3) Applicability of provision

Section 553 of title 5 shall apply with respect to the promulgation of regulations under this subsection.

(4) Effect of subsection

The authority provided under this subsection is in addition to, and does not impair or otherwise affect, any other authority of the Secretary or the Commission to prescribe regulations.

(m) Effective date

This section shall take effect on December 19, 2007.

(Pub. L. 110–140, title IX, §934, Dec. 19, 2007, 121 Stat. 1741; Pub. L. 119–60, div. F, title LXIV, §6402(c)(2)(J), Dec. 18, 2025, 139 Stat. 1616.)

EDITORIAL NOTES

REFERENCES IN TEXT

Presidential Proclamation Number 5928, referred to in subsec. (b)(10)(B)(iv), is set out as a note under section 1331 of Title 43, Public Lands.

Executive Order 12958, referred to in subsec. (k)(3), which was formerly set out as a note under section 435 (now section 3161) of Title 50, War and National Defense, was revoked by Ex. Ord. No. 13526, §6.2(g), Dec. 29, 2009, 75 F.R. 731.

AMENDMENTS

2025—Subsec. (k)(2). Pub. L. 119–60 substituted "section 3024(h) of title 50" for "section 3024(i) of title 50".

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17374. Transparency in extractive industries resource payments

(a) Purpose

The purpose of this section is to—

(1) ensure greater United States energy security by combating corruption in the governments of foreign countries that receive revenues from the sale of their natural resources; and

(2) enhance the development of democracy and increase political and economic stability in such resource rich foreign countries.

(b) Statement of policy

It is the policy of the United States—

(1) to increase energy security by promoting anti-corruption initiatives in oil and natural gas rich countries; and

(2) to promote global energy security through promotion of programs such as the Extractive Industries Transparency Initiative (EITI) that seek to instill transparency and accountability into extractive industries resource payments.

(c) Sense of Congress

It is the sense of Congress that the United States should further global energy security and promote democratic development in resource-rich foreign countries by—

- (1) encouraging further participation in the EITI by eligible countries and companies; and
- (2) promoting the efficacy of the EITI program by ensuring a robust and candid review mechanism.

(d) Report

(1) Report required

Not later than 180 days after December 19, 2007, and annually thereafter, the Secretary of State, in consultation with the Secretary of Energy, shall submit to the appropriate congressional committees a report on progress made in promoting transparency in extractive industries resource payments.

(2) Matters to be included

The report required by paragraph (1) shall include a detailed description of United States participation in the EITI, bilateral and multilateral diplomatic efforts to further participation in the EITI, and other United States initiatives to strengthen energy security, deter energy kleptocracy, and promote transparency in the extractive industries.

(e) Authorization of appropriations

There is authorized to be appropriated \$3,000,000 for the purposes of United States contributions to the Multi-Donor Trust Fund of the EITI.

(Pub. L. 110–140, title IX, §935, Dec. 19, 2007, 121 Stat. 1748.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17375. Regional clean energy innovation program

(a) Definitions

In this section:

(1) Regional clean energy innovation partnership

The term "regional clean energy innovation partnership" means a group of one or more persons, including a covered consortium, who perform a collection of activities that are coordinated by such covered consortium to carry out the purposes of the program under subsection (c) in a region of the United States.

(2) Covered consortium

The term "covered consortium" means an individual or group of individuals in partnership with a government entity, including a State, territorial, local, or tribal government or unit of such government, and at least 2 or more of the following additional entities—

- (A) an institution of higher education or a consortium of institutions of higher education, including community colleges;
- (B) a workforce development program;
- (C) a private sector entity or group of entities, including a trade or industry association;
- (D) a nonprofit organization;
- (E) a community group or community-based organization;
- (F) a labor organization or joint labor-management organization;

- (G) a National Laboratory;
- (H) a venture development organization;
- (I) a community development financial institution or minority depository institution;
- (J) a worker cooperative membership association or state or local employee ownership or cooperative development center;
- (K) an organization focused on clean energy technology innovation or entrepreneurship;
- (L) a business or clean energy accelerator or incubator;
- (M) an economic development organization;
- (N) a manufacturing facility or organization;
- (O) a multi-institutional collaboration; or
- (P) any other entity that the Secretary determines to be relevant.

(3) Program

The term "program" means the Regional Clean Energy Innovation Program authorized in subsection (b).

(4) Institution of higher education

The term "institution of higher education" has the meaning given such term in section 1001 or 1002(a)(1)(B) of title 20.

(5) National Laboratory

The term "National Laboratory" has the meaning given that term in section 15801 of this title.

(6) Clean energy technology

The term "clean energy technology" means a technology that significantly reduces energy use, increases energy efficiency, reduces greenhouse gas emissions, reduces emissions of other pollutants, or mitigates other negative environmental consequences of energy production, transmission or use.

(7) Community-based organization

The term "community-based organization" has the meaning given the term in section 3102 of title 29.

(8) Community college

The term "community college" means—

- (A) a public institution of higher education, including additional locations, at which the highest degree, or the predominantly awarded degree, is an associate degree; or
- (B) any Tribal college or university (as defined in section 1059c of title 20).

(9) Workforce development program

The term "workforce development program" has the meaning given the term in section 3102 of title 29.

(b) In general

The Secretary shall establish a Regional Clean Energy Innovation Program, a research, development, demonstration, and commercial application program designed to enhance the economic, environmental, and energy security of the United States and accelerate the pace of innovation of diverse clean energy technologies through the formation or support of regional clean energy innovation partnerships.

(c) Purposes of the Program

The purposes of the Program established under subsection (b) are to—

- (1) improve the competitiveness of United States' clean energy technology research, development, demonstration, and commercial application; and
- (2) support the development of tools and technologies best suited for use in diverse regions of the United States, including in rural, tribal, and low-income communities.

(d) Regional clean energy innovation partnerships

(1) In general

The Secretary shall competitively award grants to covered consortia to establish or support regional clean energy innovation partnerships that achieve the purposes of the Program in subsection (c).

(2) Permissible activities

Grants awarded under this subsection shall be used for activities determined appropriate by the Secretary to achieve the purposes of the Program in subsection (c), including—

- (A) facilitating the commercial application of clean energy products, processes, and services, including through research, development, demonstration, or technology transfer;
- (B) planning among participants of a regional clean energy innovation partnership to improve the strategic and cost-effective coordination of the partnership;
- (C) improving stakeholder involvement in the development of goals and activities of a regional clean energy innovation partnership;
- (D) assessing different incentive mechanisms for clean energy development and commercial application in the region;
- (E) hosting events and conferences; and
- (F) establishing and updating roadmaps to measure progress on relevant goals, such as those relevant to metrics developed under subsection (g).

(3) Applications

Each application submitted to the Secretary under paragraph (1) may include—

- (A) a list of members and roles of members of the covered consortia, as well as any other stakeholders supporting the activities of the regional clean energy innovation partnership;
- (B) an assessment of the relevant clean energy innovation assets needed in a region to achieve proposed outcomes, such as education and workforce development programs, research facilities, infrastructure or site development, access to capital, manufacturing capabilities, or other assets;
- (C) a description of proposed activities that the regional clean energy innovation partnership plans to undertake and how the proposed activities will achieve the purposes described in subsection (c);
- (D) a plan for attracting additional funds and identification of funding sources from non-Federal sources to deliver the proposed outcomes of the regional clean energy innovation partnership;
- (E) a plan for partnering and collaborating with community development financial institutions and minority depository institutions, labor organizations and community groups, worker cooperative membership associations, local and state employee ownership and cooperative development centers, and other local institutions in order to promote employee, community, and public ownership in the clean energy sector, and advance models of local economic development that build and retain wealth in the region;
- (F) a plan for sustaining activities of the regional clean energy innovation partnership after funds received under this program have been expended; and
- (G) a proposed budget, including financial contributions from non-Federal sources.

(4) Considerations

In selecting covered consortia for funding under the Program, the Secretary shall, to the maximum extent practicable—

- (A) give special consideration to applications from rural, tribal, and low-income communities; and
- (B) ensure that there is geographic diversity among the covered consortia selected to receive funding.

(5) Award amount

Grants given out under this Program shall be in an amount not greater than \$10,000,000, with

the total grant award in any year less than that in the previous year.

(6) Cost share

For grants that are disbursed over the course of three or more years, the Secretary shall require, as a condition of receipt of funds under this section, that a covered consortium provide not less than 50 percent of the funding for the activities of the regional clean energy partnership under this section for years 3, 4, and 5.

(7) Duration

Each grant under paragraph shall be for a period of not longer than 5 years.

(8) Renewal

A grant awarded under this section may be renewed for a period of not more than 5 years, subject to a rigorous merit review based on the progress of a regional clean energy innovation partnership towards achieving the purposes of the program in subsection (c) and the metrics developed under subsection (g).

(9) Termination

Consistent with the existing authorities of the Department, the Secretary may terminate grant funding under this subsection to covered consortia during the performance period if the Secretary determines that the regional clean energy innovation partnership is underperforming.

(10) Administrative costs

The Secretary may allow a covered consortium that receives funds under this section to allocate a portion of the funding received to be used for administrative or indirect costs.

(11) Funding

The Secretary may accept funds from other Federal agencies to support funding and activities under this section.

(e) Planning funds

The Secretary may competitively award grants in an amount no greater than \$2,000,000 for a period not longer than 2 years to an entity consisting of a government entity, including a State, territorial, local, or tribal government or unit of such government or any entity listed under subsection (a)(2) to plan a regional clean energy innovation partnership or establish a covered consortium for the purpose of applying for funds under subsection (b).

(f) Information sharing

As part of the program, the Secretary shall support the gathering, analysis, and dissemination of information on best practices for developing and operating successful regional clean energy innovation partnerships.

(g) Metrics

In evaluating a grant renewal under subsection (d)(8), the Secretary shall work with program evaluation experts to develop and make publicly available metrics to assess the progress of a regional clean energy innovation partnership towards achieving the purposes of the program in subsection (c).

(h) Coordination

In carrying out the program, the Secretary shall coordinate with, and avoid unnecessary duplication of, the activities carried out under this section with the activities of other research entities of the Department or relevant programs at other Federal agencies.

(i) Conflicts of interest

In carrying out the program, the Secretary shall maintain conflict of interest procedures, consistent with the conflict of interest procedures of the Department.

(j) Evaluation by Comptroller General

Not later than 3 years after August 9, 2022, and again 3 years later, the Comptroller General shall

submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate an evaluation on the operation of the program during the most recent 3-year period, including—

- (1) an assessment of the progress made towards achieving the purposes specified in subsection (c) based on the metrics developed under subsection (g);
- (2) the short-term and long-term metrics used to determine the success of the program under subsection (g), and any changes recommended to the metrics used;
- (3) the regional clean energy innovation partnerships established or supported by covered consortia that have received grants under subsection (d); and
- (4) any recommendations on how the program may be improved.

(k) National Laboratories

In supporting technology transfer activities at the National Laboratories, the Secretary shall encourage partnerships with entities that are located in the same region or State as the National Laboratory.

(l) Security

In carrying out the activities under this section, the Secretary shall ensure proper security controls are in place to protect sensitive information, as appropriate.

(m) No funds for construction

No funds provided to the Department of Energy under this section shall be used for construction.

(n) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section \$50,000,000 for each of fiscal years 2023 through 2027.

(Pub. L. 110–140, title IX, §936, as added Pub. L. 117–167, div. B, title VI, §10622, Aug. 9, 2022, 136 Stat. 1660.)

SUBCHAPTER IX—SMART GRID

§17381. Statement of policy on modernization of electricity grid

It is the policy of the United States to support the modernization of the Nation's electricity transmission and distribution system to maintain a reliable and secure electricity infrastructure that can meet future demand growth and to achieve each of the following, which together characterize a Smart Grid:

- (1) Increased use of digital information and controls technology to improve reliability, security, and efficiency of the electric grid.
- (2) Dynamic optimization of grid operations and resources, with full cyber-security.
- (3) Deployment and integration of distributed resources and generation, including renewable resources.
- (4) Development and incorporation of demand response, demand-side resources, and energy-efficiency resources.
- (5) Deployment of "smart" technologies (real-time, automated, interactive technologies that optimize the physical operation of appliances and consumer devices) for metering, communications concerning grid operations and status, and distribution automation.
- (6) Integration of "smart" appliances and consumer devices.
- (7) Deployment and integration of advanced electricity storage and peak-shaving technologies, including plug-in electric and hybrid electric vehicles, and thermal-storage air conditioning.
- (8) Provision to consumers of timely information and control options.
- (9) Development of standards for communication and interoperability of appliances and

equipment connected to the electric grid, including the infrastructure serving the grid.

(10) Identification and lowering of unreasonable or unnecessary barriers to adoption of smart grid technologies, practices, and services.

(Pub. L. 110–140, title XIII, §1301, Dec. 19, 2007, 121 Stat. 1783.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17382. Smart grid system report

The Secretary, acting through the Assistant Secretary of the Office of Electricity Delivery and Energy Reliability (referred to in this section as the "OEDER") and through the Smart Grid Task Force established in section 17383 of this title, shall, after consulting with any interested individual or entity as appropriate, no later than 1 year after December 19, 2007, and every 2 years thereafter, report to Congress concerning the status of smart grid deployments nationwide and any regulatory or government barriers to continued deployment. The report shall provide the current status and prospects of smart grid development, including information on technology penetration, communications network capabilities, costs, and obstacles. It may include recommendations for State and Federal policies or actions helpful to facilitate the transition to a smart grid. To the extent appropriate, it should take a regional perspective. In preparing this report, the Secretary shall solicit advice and contributions from the Smart Grid Advisory Committee created in section 17383 of this title; from other involved Federal agencies including but not limited to the Federal Energy Regulatory Commission ("Commission"), the National Institute of Standards and Technology ("Institute"), and the Department of Homeland Security; and from other stakeholder groups not already represented on the Smart Grid Advisory Committee.

(Pub. L. 110–140, title XIII, §1302, Dec. 19, 2007, 121 Stat. 1784.)

EDITORIAL NOTES

CODIFICATION

December 19, 2007, referred to in text, was in the original "enactment" and was translated as meaning the date of enactment of Pub. L. 110–140 to reflect the probable intent of Congress.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17383. Smart Grid Advisory Committee and Smart Grid Task Force

(a) Smart Grid Advisory Committee

(1) Establishment

The Secretary shall establish, within 90 days of December 19, 2007, a Smart Grid Advisory Committee (either as an independent entity or as a designated sub-part of a larger advisory committee on electricity matters). The Smart Grid Advisory Committee shall include eight or more members appointed by the Secretary who have sufficient experience and expertise to represent the full range of smart grid technologies and services, to represent both private and

non-Federal public sector stakeholders. One member shall be appointed by the Secretary to Chair the Smart Grid Advisory Committee.

(2) Mission

The mission of the Smart Grid Advisory Committee shall be to advise the Secretary, the Assistant Secretary, and other relevant Federal officials concerning the development of smart grid technologies, the progress of a national transition to the use of smart-grid technologies and services, the evolution of widely-accepted technical and practical standards and protocols to allow interoperability and inter-communication among smart-grid capable devices, and the optimum means of using Federal incentive authority to encourage such progress.

(3) Applicability of chapter 10 of title 5

Chapter 10 of title 5 shall apply to the Smart Grid Advisory Committee.

(b) Smart Grid Task Force

(1) Establishment

The Assistant Secretary of the Office of Electricity Delivery and Energy Reliability shall establish, within 90 days of December 19, 2007, a Smart Grid Task Force composed of designated employees from the various divisions of that office who have responsibilities related to the transition to smart-grid technologies and practices. The Assistant Secretary or his designee shall be identified as the Director of the Smart Grid Task Force. The Chairman of the Federal Energy Regulatory Commission and the Director of the National Institute of Standards and Technology shall each designate at least one employee to participate on the Smart Grid Task Force. Other members may come from other agencies at the invitation of the Assistant Secretary or the nomination of the head of such other agency. The Smart Grid Task Force shall, without disrupting the work of the Divisions or Offices from which its members are drawn, provide an identifiable Federal entity to embody the Federal role in the national transition toward development and use of smart grid technologies.

(2) Mission

The mission of the Smart Grid Task Force shall be to insure awareness, coordination and integration of the diverse activities of the Office and elsewhere in the Federal Government related to smart-grid technologies and practices, including but not limited to: smart grid research and development; development of widely accepted smart-grid standards and protocols; the relationship of smart-grid technologies and practices to electric utility regulation; the relationship of smart-grid technologies and practices to infrastructure development, system reliability and security; and the relationship of smart-grid technologies and practices to other facets of electricity supply, demand, transmission, distribution, and policy. The Smart Grid Task Force shall collaborate with the Smart Grid Advisory Committee and other Federal agencies and offices. The Smart Grid Task Force shall meet at the call of its Director as necessary to accomplish its mission.

(c) Authorization

There are authorized to be appropriated for the purposes of this section such sums as are necessary to the Secretary to support the operations of the Smart Grid Advisory Committee and Smart Grid Task Force for each of fiscal years 2008 through 2020.

(Pub. L. 110–140, title XIII, §1303, Dec. 19, 2007, 121 Stat. 1784; Pub. L. 117–286, §4(a)(281), Dec. 27, 2022, 136 Stat. 4336.)

EDITORIAL NOTES

AMENDMENTS

2022—Subsec. (a)(3). Pub. L. 117–286 substituted "chapter 10 of title 5" for "Federal Advisory Committee Act" in heading and "Chapter 10 of title 5" for "The Federal Advisory Committee Act (5 U.S.C. App.)" in text.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17384. Smart grid technology research, development, and demonstration

(a) Power grid digital information technology

The Secretary, in consultation with the Federal Energy Regulatory Commission and other appropriate agencies, electric utilities, the States, and other stakeholders, shall carry out a research, development, and demonstration program—

(1) to develop advanced techniques for measuring peak load reductions and energy-efficiency savings from smart metering, demand response, distributed generation, and electricity storage systems;

(2) to investigate means for demand response, distributed generation, and storage to provide ancillary services;

(3) to conduct research to advance the use of wide-area measurement and control networks, including data mining, visualization, advanced computing, and secure and dependable communications in a highly-distributed environment;

(4) to test new reliability technologies, including those concerning communications network capabilities, in a grid control room environment against a representative set of local outage and wide area blackout scenarios;

(5) to identify communications network capacity needed to implement advanced technologies.¹

(6) to investigate the feasibility of a transition to time-of-use and real-time electricity pricing;

(7) to develop algorithms for use in electric transmission system software applications;

(8) to promote the use of underutilized electricity generation capacity in any substitution of electricity for liquid fuels in the transportation system of the United States; and

(9) in consultation with the Federal Energy Regulatory Commission, to propose interconnection protocols to enable electric utilities to access electricity stored in vehicles to help meet peak demand loads.

(b) Smart grid regional demonstration initiative

(1) In general

The Secretary shall establish a smart grid regional demonstration initiative (referred to in this subsection as the "Initiative") composed of demonstration projects focused on cost-effective, advanced technologies for use in power grid sensing, communications, analysis, power flow control, visualization, distribution automation, industrial control systems, dynamic line rating systems, grid redesign, and the integration of distributed energy resources.

(2) Goals

The goals of the Initiative shall be—

(A) to demonstrate the potential benefits of concentrated investments in advanced grid technologies on a regional grid;

(B) to facilitate the commercial transition from the current power transmission and distribution system technologies to advanced technologies;

(C) to facilitate the integration of advanced technologies in existing electric networks to improve system performance, power flow control, and reliability;

(D) to demonstrate protocols and standards that allow for the measurement and validation of the energy savings and fossil fuel emission reductions associated with the installation and use of energy efficiency and demand response technologies and practices;

(E) to investigate differences in each region and regulatory environment regarding best practices in implementing smart grid technologies; and

(F) to encourage the commercial application of advanced distribution automation technologies that exert intelligent control over electrical grid functions at the distribution level to improve system resilience.

(3) Demonstration projects

(A) In general

In carrying out the initiative,² the Secretary shall provide financial support to smart grid demonstration projects in urban, suburban, tribal, and rural areas, including areas where electric system assets are controlled by nonprofit entities and areas where electric system assets are controlled by investor-owned utilities.

(B) Cooperation

A demonstration project under subparagraph (A) shall be carried out in cooperation with the electric utility that owns the grid facilities in the electricity control area in which the demonstration project is carried out.

(C) Federal share of cost of technology investments

The Secretary shall provide to an electric utility described in subparagraph (B) or to other parties financial assistance for use in paying an amount equal to not more than 50 percent of the cost of qualifying advanced grid technology investments made by the electric utility or other party to carry out a demonstration project.

(D) Ineligibility for grants

No person or entity participating in any demonstration project conducted under this subsection shall be eligible for grants under section 17386 of this title for otherwise qualifying investments made as part of that demonstration project.

(E) Availability of data

The Secretary shall establish and maintain a smart grid information clearinghouse in a timely manner which will make data from smart grid demonstration projects and other sources available to the public. As a condition of receiving financial assistance under this subsection, a utility or other participant in a smart grid demonstration project shall provide such information as the Secretary may require to become available through the smart grid information clearinghouse in the form and within the timeframes as directed by the Secretary. The Secretary shall assure that business proprietary information and individual customer information is not included in the information made available through the clearinghouse.

(F) Open protocols and standards

The Secretary shall require as a condition of receiving funding under this subsection that demonstration projects utilize open protocols and standards (including Internet-based protocols and standards) if available and appropriate.

(c) Authorization of appropriations

There are authorized to be appropriated—

(1) to carry out subsection (a), such sums as are necessary for each of fiscal years 2008 through 2012; and

(2) to carry out subsection (b), such sums as may be necessary.

(Pub. L. 110–140, title XIII, §1304, Dec. 19, 2007, 121 Stat. 1786; Pub. L. 111–5, div. A, title IV, §405(1)–(4), Feb. 17, 2009, 123 Stat. 143, 144; Pub. L. 116–260, div. Z, title VIII, §8001, Dec. 27, 2020, 134 Stat. 2578.)

EDITORIAL NOTES

AMENDMENTS

2020—Subsec. (a). Pub. L. 116–260, §8001(1), inserted "research, development, and demonstration" before

"program" in introductory provisions.

Subsec. (b)(1). Pub. L. 116–260, §8001(2)(A), amended par. (1) generally. Prior to amendment, text read as follows: "The Secretary shall establish a smart grid regional demonstration initiative (referred to in this subsection as the 'Initiative') composed of demonstration projects specifically focused on advanced technologies for use in power grid sensing, communications, analysis, and power flow control. The Secretary shall seek to leverage existing smart grid deployments."

Subsec. (b)(2)(F). Pub. L. 116–260, §8001(2)(B), added subpar. (F).

2009—Subsec. (b)(3)(A). Pub. L. 111–5, §405(1), amended subpar. (A) generally. Prior to amendment, text read as follows: "In carrying out the initiative, the Secretary shall carry out smart grid demonstration projects in up to 5 electricity control areas, including rural areas and at least 1 area in which the majority of generation and transmission assets are controlled by a tax-exempt entity."

Subsec. (b)(3)(C). Pub. L. 111–5, §405(2), amended subpar. (C) generally. Prior to amendment, text read as follows: "The Secretary shall provide to an electric utility described in subparagraph (B) financial assistance for use in paying an amount equal to not more than 50 percent of the cost of qualifying advanced grid technology investments made by the electric utility to carry out a demonstration project."

Subsec. (b)(3)(E), (F). Pub. L. 111–5, §405(3), added subpars. (E) and (F).

Subsec. (c)(2). Pub. L. 111–5, §405(4), amended par. (2) generally. Prior to amendment, par. (2) read as follows: "to carry out subsection (b), \$100,000,000 for each of fiscal years 2008 through 2012."

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

¹ So in original. The period probably should be a semicolon.

² So in original. Probably should be "Initiative."

§17384a. Smart grid modeling, visualization, architecture, and controls

(a) In general

Not later than 180 days after December 27, 2020, the Secretary shall establish a program of research, development, demonstration, and commercial application on electric grid modeling, sensing, visualization, architecture development, and advanced operation and controls.

(b) Modeling research and development

The Secretary shall support development of models of emerging technologies and systems to facilitate the secure and reliable design, planning, and operation of the electric grid for use by industry stakeholders. In particular, the Secretary shall support development of—

- (1) models to analyze and predict the effects of adverse physical and cyber events on the electric grid;
- (2) coupled models of electrical, physical, and cyber systems;
- (3) models of existing and emerging technologies being deployed on the electric grid due to projected changes in the electric generation mix and loads, for a variety of regional characteristics; and
- (4) integrated models of the communications, transmission, distribution, and other interdependent systems for existing, new, and emerging technologies.

(c) Situational awareness research and development

(1) In general

The Secretary shall support development of computational tools and technologies to improve sensing, monitoring, and visualization of the electric grid for real-time situational awareness and decision support tools that enable improved operation of the power system, including utility,

non-utility, and customer grid-connected assets, for use by industry partners.

(2) Data use

In developing visualization capabilities under this section, the Secretary shall develop tools for industry stakeholders to use to analyze data collected from advanced measurement and monitoring technologies, including data from phasor measurement units and advanced metering units.

(3) Severe events

The Secretary shall prioritize enhancing cyber and physical situational awareness of the electric grid during adverse manmade and naturally-occurring events.

(d) Operation and controls research and development

The Secretary shall conduct research to develop improvements to the operation and controls of the electric grid, in coordination with industry partners. Such activities shall include—

- (1) a training facility or facilities to allow grid operators to gain operational experience with advanced grid control concepts and technologies;
- (2) development of cost-effective advanced operation and control concepts and technologies, such as adaptive islanding, dynamic line rating systems, power flow controllers, network topology optimization, smart circuit breakers, intelligent load shedding, and fault-tolerant control system architectures;
- (3) development of real-time control concepts using artificial intelligence and machine learning for improved electric grid resilience; and
- (4) utilization of advanced data analytics including load forecasting, power flow modeling, equipment failure prediction, resource optimization, risk analysis, and decision analysis.

(e) Interoperability research and development

The Secretary shall conduct research and development on tools and technologies that improve the interoperability and compatibility of new and emerging components, technologies, and systems with existing electric grid infrastructure.

(f) Underground transmission and distribution lines

In carrying out the program under subsection (a), the Secretary shall support research and development on underground transmission and distribution lines. This shall include research on—

- (1) methods for lowering the costs of underground transmission and distribution lines, including through novel installation techniques and materials considerations;
- (2) techniques to improve the lifespan of underground transmission and distribution lines;
- (3) wireless sensors to improve safety of underground transmission and distribution lines and to predict, identify, detect, and transmit information about degradation and faults; and
- (4) methods for improving the resilience and reliability of underground transmission and distribution lines, including technologies and techniques that can mitigate the impact of flooding, storm surge, and seasonal climate cycles on degradation of and damage to underground transmission and distribution lines.

(g) Grid architecture and scenario development

(1) In general

Subject to paragraph (3), the Secretary shall establish and facilitate a collaborative process to develop model grid architecture and a set of future scenarios for the electric grid to examine the impacts of different combinations of resources (including different quantities of distributed energy resources and large-scale, central generation) on the electric grid.

(2) Architecture

In supporting the development of model grid architectures, the Secretary shall—

- (A) analyze a variety of grid architecture scenarios that range from minor upgrades to existing transmission grid infrastructure to scenarios that involve the replacement of significant portions of existing transmission grid infrastructure;
- (B) analyze the effects of the increasing proliferation of renewable and other zero emissions

energy generation sources, increasing use of distributed resources owned by non-utility entities, and the use of digital and automated controls not managed by grid operators;

(C) include a variety of new and emerging distribution grid technologies, including distributed energy resources, electric vehicle charging stations, distribution automation technologies, energy storage, and renewable energy sources;

(D) analyze the effects of local load balancing and other forms of decentralized control;

(E) analyze the effects of changes to grid architectures resulting from modernizing electric grid systems, including communications, controls, markets, consumer choice, emergency response, electrification, and cybersecurity concerns; and

(F) develop integrated grid architectures that incorporate system resilience for cyber, physical, and communications systems.

(3) Market structure

The grid architecture and scenarios developed under paragraph (1) shall, to the extent practicable, account for differences in market structure, including an examination of the potential for stranded costs in each type of market structure.

(h) Computing resources and data coordination research and development

In carrying out this section, the Secretary shall—

(1) leverage existing computing resources at the National Laboratories; and

(2) develop voluntary standards for data taxonomies and communication protocols in coordination with public and private sector stakeholders.

(i) Information sharing

None of the activities authorized in this section shall require private entities to share information or data with the Secretary.

(j) Resilience

In this section, the term "resilience" means the ability to withstand and reduce the magnitude or duration of disruptive events, which includes the capability to anticipate, absorb, adapt to, or rapidly recover from such an event, including from deliberate attacks, accidents, and naturally occurring threats or incidents.

(Pub. L. 110–140, title XIII, §1304A, as added Pub. L. 116–260, div. Z, title VIII, §8002, Dec. 27, 2020, 134 Stat. 2579.)

§17385. Smart grid interoperability framework

(a) Interoperability framework

The Director of the National Institute of Standards and Technology shall have primary responsibility to coordinate the development of a framework that includes protocols and model standards for information management to achieve interoperability of smart grid devices and systems. Such protocols and standards shall further align policy, business, and technology approaches in a manner that would enable all electric resources, including demand-side resources, to contribute to an efficient, reliable electricity network. In developing such protocols and standards—

(1) the Director shall seek input and cooperation from the Commission, OEDER and its Smart Grid Task Force, the Smart Grid Advisory Committee, other relevant Federal and State agencies; and

(2) the Director shall also solicit input and cooperation from private entities interested in such protocols and standards, including but not limited to the Gridwise Architecture Council, the International Electrical and Electronics Engineers, the National Electric Reliability Organization recognized by the Federal Energy Regulatory Commission, and National Electrical Manufacturer's Association.

(b) Scope of framework

The framework developed under subsection (a) shall be flexible, uniform and technology neutral, including but not limited to technologies for managing smart grid information, and designed—

(1) to accommodate traditional, centralized generation and transmission resources and consumer distributed resources, including distributed generation, renewable generation, energy storage, energy efficiency, and demand response and enabling devices and systems;

(2) to be flexible to incorporate—

(A) regional and organizational differences; and

(B) technological innovations;

(3) to consider the use of voluntary uniform standards for certain classes of mass-produced electric appliances and equipment for homes and businesses that enable customers, at their election and consistent with applicable State and Federal laws, and are manufactured with the ability to respond to electric grid emergencies and demand response signals by curtailing all, or a portion of, the electrical power consumed by the appliances or equipment in response to an emergency or demand response signal, including through—

(A) load reduction to reduce total electrical demand;

(B) adjustment of load to provide grid ancillary services; and

(C) in the event of a reliability crisis that threatens an outage, short-term load shedding to help preserve the stability of the grid; and

(4) such voluntary standards should incorporate appropriate manufacturer lead time.¹

(c) Timing of framework development

The Institute shall begin work pursuant to this section within 60 days of December 19, 2007. The Institute shall provide and publish an initial report on progress toward recommended or consensus standards and protocols within 1 year after December 19, 2007, further reports at such times as developments warrant in the judgment of the Institute, and a final report when the Institute determines that the work is completed or that a Federal role is no longer necessary.

(d) Standards for interoperability in Federal jurisdiction

At any time after the Institute's work has led to sufficient consensus in the Commission's judgment, the Commission shall institute a rulemaking proceeding to adopt such standards and protocols as may be necessary to insure smart-grid functionality and interoperability in interstate transmission of electric power, and regional and wholesale electricity markets.

(e) Authorization

There are authorized to be appropriated for the purposes of this section \$5,000,000 to the Institute to support the activities required by this subsection ² for each of fiscal years 2008 through 2012.

(Pub. L. 110–140, title XIII, §1305, Dec. 19, 2007, 121 Stat. 1787.)

EDITORIAL NOTES

CODIFICATION

December 19, 2007, referred to in subsec. (c), was in the original "enactment" and was translated as meaning the date of enactment of Pub. L. 110–140, to reflect the probable intent of Congress.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

¹ *So in original. Does not fit with subsec. (b) introductory provisions.*

² So in original. Probably should be "section".

§17386. Federal matching fund for smart grid investment costs

(a) Matching fund

The Secretary shall establish a Smart Grid Investment Matching Grant Program to provide grants of up to one-half (50 percent) of qualifying Smart Grid investments.

(b) Qualifying investments

Qualifying Smart Grid investments may include any of the following made on or after November 15, 2021:

(1) In the case of appliances covered for purposes of establishing energy conservation standards under part B of title III of the Energy Policy and Conservation Act of 1975 (42 U.S.C. 6291 et seq.), the documented expenditures incurred by a manufacturer of such appliances associated with purchasing or designing, creating the ability to manufacture, and manufacturing and installing for one calendar year, internal devices that allow the appliance to engage in Smart Grid functions.

(2) In the case of specialized electricity-using equipment, including motors and drivers, installed in industrial or commercial applications, the documented expenditures incurred by its owner or its manufacturer of installing devices or modifying that equipment to engage in Smart Grid functions.

(3) In the case of transmission and distribution equipment fitted with monitoring and communications devices to enable smart grid functions, the documented expenditures incurred by the electric utility to purchase and install such monitoring and communications devices.

(4) In the case of metering devices, sensors, control devices, and other devices integrated with and attached to an electric utility system or retail distributor or marketer of electricity that are capable of engaging in Smart Grid functions, the documented expenditures incurred by the electric utility, distributor, or marketer and its customers to purchase and install such devices.

(5) In the case of software that enables devices or computers to engage in Smart Grid functions, the documented purchase costs of the software.

(6) In the case of entities that operate or coordinate operations of regional electric grids, the documented expenditures for purchasing and installing such equipment that allows Smart Grid functions to operate and be combined or coordinated among multiple electric utilities and between that region and other regions.

(7) In the case of persons or entities other than electric utilities owning and operating a distributed electricity generator, the documented expenditures of enabling that generator to be monitored, controlled, or otherwise integrated into grid operations and electricity flows on the grid utilizing Smart Grid functions.

(8) In the case of electric or hybrid-electric vehicles, the documented expenses for devices that allow the vehicle to engage in Smart Grid functions (but not the costs of electricity storage for the vehicle).

(9) In the case of data analytics that enable software to engage in Smart Grid functions, the documented purchase costs of the data analytics.

(10) In the case of buildings, the documented expenses for devices and software, including for installation, that allow buildings to engage in demand flexibility or Smart Grid functions.

(11) In the case of utility communications, operational fiber and wireless broadband communications networks to enable data flow between distribution system components.

(12) In the case of advanced transmission technologies such as dynamic line rating, flow control devices, advanced conductors, network topology optimization, or other hardware, software, and associated protocols applied to existing transmission facilities that increase the operational transfer capacity of a transmission network, the documented expenditures to purchase and install those advanced transmission technologies.

(13) In the case of extreme weather or natural disasters, the ability to redirect or shut off power to minimize blackouts and avoid further damage.

(14) The documented expenditures related to purchasing and implementing Smart Grid functions in such other cases as the Secretary shall identify.

(c) Investments not included

Qualifying Smart Grid investments do not include any of the following:

(1) Investments or expenditures for Smart Grid technologies, devices, or equipment that utilize specific tax credits or deductions under the Internal Revenue Code, as amended.

(2) Expenditures for electricity generation, transmission, or distribution infrastructure or equipment not directly related to enabling Smart Grid functions.

(3) After the final date for State consideration of the Smart Grid Information Standard under section 2621(d)(17) ¹ of title 16, an investment that is not in compliance with such standard.

(4) After the development and publication by the Institute of protocols and model standards for interoperability of smart grid devices and technologies, an investment that fails to incorporate any of such protocols or model standards.

(5) Expenditures for physical interconnection of generators or other devices to the grid except those that are directly related to enabling Smart Grid functions.

(6) Expenditures for ongoing salaries, benefits, or personnel costs not incurred in the initial installation, training, or start up of smart grid functions.

(7) Expenditures for travel, lodging, meals or other personal costs.

(8) Ongoing or routine operation, billing, customer relations, security, and maintenance expenditures.

(9) Such other expenditures that the Secretary determines not to be Qualifying Smart Grid Investments by reason of the lack of the ability to perform Smart Grid functions or lack of direct relationship to Smart Grid functions.

(d) Smart grid functions

The term "smart grid functions" means any of the following:

(1) The ability to develop, store, send and receive digital information concerning electricity use, costs, prices, time of use, nature of use, storage, or other information relevant to device, grid, or utility operations, to or from or by means of the electric utility system, through one or a combination of devices and technologies.

(2) The ability to develop, store, send and receive digital information concerning electricity use, costs, prices, time of use, nature of use, storage, or other information relevant to device, grid, or utility operations to or from a computer or other control device.

(3) The ability to measure or monitor electricity use as a function of time of day, power quality characteristics such as voltage level, current, cycles per second, or source or type of generation and to store, synthesize or report that information by digital means.

(4) The ability to sense and localize disruptions or changes in power flows on the grid and communicate such information instantaneously and automatically for purposes of enabling automatic protective responses to sustain reliability and security of grid operations.

(5) The ability to detect, prevent, communicate with regard to, respond to, or recover from system security threats, including cyber-security threats and terrorism, using digital information, media, and devices.

(6) The ability of any appliance or machine to respond to such signals, measurements, or communications automatically or in a manner programmed by its owner or operator without independent human intervention.

(7) The ability to use digital information to operate functionalities on the electric utility grid that were previously electro-mechanical or manual.

(8) The ability to use digital controls to manage and modify electricity demand, enable congestion management, assist in voltage control, provide operating reserves, and provide frequency regulation.

(9) The ability to use data analytics and software-as-a-service to provide flexibility by improving the visibility of the electrical system to grid operators that can help quickly rebalance the electrical system with autonomous controls.

(10) The ability to facilitate the aggregation or integration of distributed energy resources to serve as assets for the grid.

(11) The ability to provide energy storage to meet fluctuating electricity demand, provide voltage support, and integrate intermittent generation sources, including vehicle-to-grid technologies.

(12) The ability of hardware, software, and associated protocols applied to existing transmission facilities to increase the operational transfer capacity of a transmission network.

(13) The ability to anticipate and mitigate impacts of extreme weather or natural disasters on grid resiliency.

(14) The ability to facilitate the integration of renewable energy resources, electric vehicle charging infrastructure, and vehicle-to-grid technologies.

(15) The ability to reliably meet increased demand from electric vehicles and the electrification of appliances and other sectors.

(16) Such other functions as the Secretary may identify as being necessary or useful to the operation of a Smart Grid.

(e) Procedures and rules

(1) The Secretary shall, within 60 days after February 17, 2009, by means of a notice of intent and subsequent solicitation of grant proposals—

(A) establish procedures by which applicants can obtain grants of not more than one-half of their documented costs;

(B) require as a condition of receiving funding under this subsection that demonstration projects utilize open protocols and standards (including Internet-based protocols and standards) if available and appropriate;

(C) establish procedures to ensure that there is no duplication or multiple payment for the same investment or costs, that the grant goes to the party making the actual expenditures for the qualifying Smart Grid investments, and that the grants made have a significant effect in encouraging and facilitating the development of a smart grid;

(D) establish procedures to ensure there will be public records of grants made, recipients, and qualifying Smart Grid investments which have received grants; and

(E) establish procedures to provide advance payment of moneys up to the full amount of the grant award.

(2) The Secretary shall have discretion and exercise reasonable judgment to deny grants for investments that do not qualify.

(f) Authorization of appropriations

There are authorized to be appropriated to the Secretary such sums as are necessary for the administration of this section and the grants to be made pursuant to this section for fiscal years 2008 through 2012.

(Pub. L. 110–140, title XIII, §1306, Dec. 19, 2007, 121 Stat. 1789; Pub. L. 111–5, div. A, title IV, §405(5)–(8), Feb. 17, 2009, 123 Stat. 144; Pub. L. 117–58, div. D, title I, §40107(a), Nov. 15, 2021, 135 Stat. 940.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Energy Policy and Conservation Act, referred to in subsec. (b)(1), is Pub. L. 94–163, Dec. 22, 1975, 89 Stat. 871. Part B of title III of the Act is classified generally to part A (§6291 et seq.) of subchapter III of chapter 77 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 6201 of this title and Tables.

Section 2621(d)(17) of title 16, referred to in subsec. (c)(3), was redesignated section 2621(d)(19) by Pub. L. 111–5, div. A, title IV, §408(a), Feb. 17, 2009, 123 Stat. 146.

AMENDMENTS

2021—Subsec. (b). Pub. L. 117–58, §40107(a)(1)(A), substituted "November 15, 2021" for "December 19, 2007" in introductory provisions.

Subsec. (b)(9) to (14). Pub. L. 117–58, §40107(a)(1)(B), (C), added pars. (9) to (13) and redesignated former par. (9) as (14).

Subsec. (d)(9) to (16). Pub. L. 117–58, §40107(a)(2), added pars. (9) to (15) and redesignated former par. (9) as (16).

2009—Subsec. (a). Pub. L. 111–5, §405(5), substituted "grants of up to one-half (50 percent)" for "reimbursement of one-fifth (20 percent)".

Subsec. (b)(9). Pub. L. 111–5, §405(6), struck out last sentence which read as follows: "In making such grants, the Secretary shall seek to reward innovation and early adaptation, even if success is not complete, rather than deployment of proven and commercially viable technologies."

Subsec. (c)(1). Pub. L. 111–5, §405(7), substituted "utilize" for "are eligible for".

Subsec. (e). Pub. L. 111–5, §405(8), amended subsec. (e) generally. Prior to amendment, text related to establishment of procedures by which applicants who have made qualifying Smart Grid investments can seek and obtain reimbursement of one-fifth of documented expenditures.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

[1 See References in Text note below.](#)

§17387. Integrated energy systems

(a) In general

Not later than 180 days after December 27, 2020, the Secretary shall establish a research, development, and demonstration program to develop cost-effective integrated energy systems, including—

- (1) development of computer modeling to design different configurations of integrated energy systems and to optimize system operation;
- (2) research on system integration needed to plan, design, build, and operate integrated energy systems, including interconnection requirements with the electric grid;
- (3) development of integrated energy systems for various applications, including—
 - (A) thermal energy generation and storage for buildings and manufacturing;
 - (B) electricity storage coupled with energy generation;
 - (C) desalination;
 - (D) production of liquid and gaseous fuels; and
 - (E) production of chemicals such as ammonia and ethylene;
- (4) development of testing facilities for integrated energy systems; and
- (5) research on incorporation of various technologies for integrated energy systems, including nuclear energy, renewable energy, storage, and carbon capture, utilization, and sequestration technologies.

(b) Strategic plan

(1) In general

Not later than 1 year after December 27, 2020, the Secretary shall submit to the Committee on

Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a strategic plan that identifies opportunities, challenges, and standards needed for the development and commercial application of integrated energy systems. The strategic plan shall include—

- (A) analysis of the potential benefits of development of integrated electric systems on the electric grid;
- (B) analysis of the potential contributions of integrated energy systems to different grid architecture scenarios;
- (C) research and development goals for various integrated energy systems, including those identified in subsection (a);
- (D) assessment of policy and market barriers to the adoption of integrated energy systems;
- (E) analysis of the technical and economic feasibility of adoption of different integrated energy systems; and
- (F) a 10-year roadmap to guide the program established under subsection (a).

(2) Updates

Not less than once every 3 years for the duration of this research program, the Secretary shall submit an updated version of the strategic plan to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

(c) Program implementation

In carrying out the research, development, demonstration, and commercial application aims of subsection (a), the Secretary shall—

- (1) implement the recommendations set forth in the strategic plan in subsection (b);
- (2) coordinate across all relevant program offices at the Department, including—
 - (A) the Office of Energy Efficiency and Renewable Energy;
 - (B) the Office of Nuclear Energy; and
 - (C) the Office of Fossil Energy;
- (3) leverage existing programs and resources of the Department; and
- (4) prioritize activities that accelerate the development of integrated electricity generation, storage, and distribution systems with net zero greenhouse gas emissions.

(d) Integrated energy system defined

The term "integrated energy system" means a system composed of 2 or more co-located or jointly operated sub-systems of energy generation, energy storage, or other energy technologies.

(Pub. L. 110–140, title XIII, §1310, as added Pub. L. 116–260, div. Z, title VIII, §8003, Dec. 27, 2020, 134 Stat. 2581.)

§17388. Advisory committee

(a) In general

Not later than 180 days after December 27, 2020, the Secretary shall designate an existing advisory committee to advise the Secretary on the authorization of research, development, and demonstration projects under sections 17384 and 17384a of this title.

(b) Responsibility

The Secretary shall annually solicit from the advisory committee—

- (1) comments to identify grid modernization technology needs;
- (2) an assessment of the progress of the research activities on grid modernization; and
- (3) assistance in annually updating grid modernization technology roadmaps.

(Pub. L. 110–140, title XIII, §1311, as added Pub. L. 116–260, div. Z, title VIII, §8005, Dec. 27,

2020, 134 Stat. 2585.)

§17389. Technology demonstration on the distribution grid

(a) In general

The Secretary shall establish a grant program to carry out eligible projects related to the modernization of the electric grid, including the application of technologies to improve observability, advanced controls, and prediction of system performance on the distribution system.

(b) Eligible projects

To be eligible for a grant under subsection (a), a project shall—

(1) be designed to improve the performance and efficiency of the future electric grid, while ensuring the continued provision of safe, secure, reliable, and affordable power; and

(2) demonstrate—

(A) secure integration and management of two or more energy resources, including distributed energy generation, combined heat and power, micro-grids, energy storage, electric vehicles, energy efficiency, demand response, and intelligent loads; and

(B) secure integration and interoperability of communications and information technologies.

(Pub. L. 116–260, div. Z, title VIII, §8007, Dec. 27, 2020, 134 Stat. 2586.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

STATUTORY NOTES AND RELATED SUBSIDIARIES

APPLICATION

Provisions of section 3212 of this title applicable to construction, alteration, or repair work of demonstration projects funded by grants or contracts authorized under this section, see section 9006(b) of div. Z of Pub. L. 116–260, set out as a note under section 16237 of this title.

§17390. Voluntary model pathways

(a) Establishment of voluntary model pathways

(1) Establishment

Not later than 90 days after December 27, 2020, the Secretary of Energy (in this section referred to as the "Secretary"), in consultation with the steering committee established under paragraph (3), shall initiate the development of voluntary model pathways for modernizing the electric grid through a collaborative, public-private effort that—

(A) produces illustrative policy pathways encompassing a diverse range of technologies that can be adapted for State and regional applications by regulators and policymakers;

(B) facilitates the modernization of the electric grid and associated communications networks to achieve the objectives described in paragraph (2);

(C) ensures a reliable, resilient, affordable, safe, and secure electric grid; and

(D) acknowledges and accounts for different priorities, electric systems, and rate structures across States and regions.

(2) Objectives

The pathways established under paragraph (1) shall facilitate achievement of as many of the following objectives as practicable:

- (A) Near real-time situational awareness of the electric system.
- (B) Data visualization.
- (C) Advanced monitoring and control of the advanced electric grid.
- (D) Enhanced certainty of policies for investment in the electric grid.
- (E) Increased innovation.
- (F) Greater consumer empowerment.
- (G) Enhanced grid resilience, reliability, and robustness.
- (H) Improved—
 - (i) integration of distributed energy resources;
 - (ii) interoperability of the electric system; and
 - (iii) predictive modeling and capacity forecasting.
- (I) Reduced cost of service for consumers.
- (J) Diversification of generation sources.

(3) Steering committee

Not later than 90 days after December 27, 2020, the Secretary shall establish a steering committee to help develop the pathways under paragraph (1), to be composed of members appointed by the Secretary, consisting of persons with appropriate expertise representing a diverse range of interests in the public, private, and academic sectors, including representatives of—

- (A) the Federal Energy Regulatory Commission;
- (B) the National Laboratories;
- (C) States;
- (D) State regulatory authorities;
- (E) transmission organizations;
- (F) representatives of all sectors of the electric power industry;
- (G) institutions of higher education;
- (H) independent research institutes; and
- (I) other entities.

(b) Technical assistance

The Secretary may provide technical assistance to States, Indian Tribes, or units of local government to adopt or implement one or more elements of the pathways developed under subsection (a)(1), including on a pilot basis.

(Pub. L. 116–260, div. Z, title VIII, §8008, Dec. 27, 2020, 134 Stat. 2586.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

§17391. Voluntary state, regional, and local electricity distribution planning

(a) In general

On the request of a State, regional organization, or electric utility, the Secretary of Energy shall provide assistance to States, regional organizations, and electric utilities to facilitate the development of State, regional, and local electricity distribution plans by—

- (1) conducting a resource assessment and analysis of future demand and distribution requirements; and
- (2) developing open source tools for State, regional, and local planning and operations.

(b) Risk and security analysis

The assessment under subsection (a)(1) shall include—

- (1) the evaluation of the physical security, cybersecurity, and associated communications needs of an advanced distribution management system and the integration of distributed energy resources; and
- (2) advanced use of grid architecture to analyze risks in an all-hazards approach that includes communications infrastructure, control systems architecture, and power systems architecture.

(c) Designation

The information collected for the assessment and analysis under subsection (a)(1)—

- (1) shall be considered to be critical electric infrastructure information under section 824o–1 of title 16; and
- (2) shall only be released in compliance with regulations implementing that section.

(d) Technical assistance

For the purpose of assisting in the development of State and regional electricity distribution plans, the Secretary shall provide technical assistance to—

- (1) States;
- (2) regional reliability entities; and
- (3) other distribution asset owners and operators.

(e) Withdrawal

A State or any entity that has requested technical assistance under this section may withdraw the request for technical assistance at any time, and on such withdrawal, the Secretary shall terminate all assistance efforts.

(f) Effect

Nothing in this section authorizes the Secretary to require any State, regional organization, regional reliability entity, asset owner, or asset operator to adopt any model, tool, plan, analysis, or assessment.

(Pub. L. 116–260, div. Z, title VIII, §8010, Dec. 27, 2020, 134 Stat. 2588.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

§17392. Micro-grid and integrated micro-grid systems program

(a) Definitions

In this section:

(1) Integrated micro-grid system

The term "integrated micro-grid system" means a micro-grid system that—

- (A) comprises generation from both conventional and renewable energy resources; and
- (B) may use grid-scale energy storage.

(2) Isolated community

The term "isolated community" means a community that is powered by a stand-alone electric generation and distribution system without the economic and reliability benefits of connection to a regional electric grid.

(3) Micro-grid system

The term "micro-grid system" means a localized grid that operates autonomously, regardless of whether the grid can operate in connection with another grid.

(4) Rural electric cooperative

The term "rural electric cooperative" means an electric cooperative (as defined in section 796 of title 16) that sells electric energy to persons in rural areas.

(5) Strategy

The term "strategy" means the strategy developed pursuant to subsection (b)(2)(B).

(b) Program

(1) Establishment

The Secretary of Energy (in this section referred to as the "Secretary") shall establish a program to promote the development of—

- (A) integrated micro-grid systems for isolated communities; and
- (B) micro-grid systems to increase the resilience of critical infrastructure.

(2) Requirements

The program established under paragraph (1) shall—

- (A) develop a feasibility assessment for—
 - (i) integrated micro-grid systems in isolated communities; and
 - (ii) micro-grid systems to enhance the resilience of critical infrastructure;

(B) develop an implementation strategy, in accordance with paragraph (3), to promote the development of integrated micro-grid systems for isolated communities, particularly for those communities exposed to extreme weather conditions and high energy costs, including electricity, space heating and cooling, and transportation;

(C) develop an implementation strategy to promote the development of micro-grid systems that increase the resilience of critical infrastructure; and

(D) carry out cost-shared demonstration projects, based upon the strategies developed under subparagraph (B) that include the development of physical and cybersecurity plans to take appropriate measures to protect and secure the electric grid.

(3) Requirements for strategy

In developing the strategy under paragraph (2)(B), the Secretary shall consider—

- (A) opportunities for improving the efficiency of existing integrated micro-grid systems;
- (B) the capacity of the local workforce to operate, maintain, and repair a integrated micro-grid system as well as opportunities to improve that capacity;
- (C) leveraging existing capacity within local or regional research organizations, such as organizations based at institutions of higher education, to support development of integrated micro-grid systems, including by testing novel components and systems prior to field deployment;
- (D) the need for basic infrastructure to develop, deploy, and sustain a integrated micro-grid system;
- (E) input of traditional knowledge from local leaders of isolated communities in the development of a integrated micro-grid system;
- (F) the impact of integrated micro-grid systems on defense, homeland security, economic development, and environmental interests;
- (G) opportunities to leverage existing interagency coordination efforts and recommendations for new interagency coordination efforts to minimize unnecessary overhead, mobilization, and other project costs; and
- (H) any other criteria the Secretary determines appropriate.

(c) Collaboration

The program established under subsection (b)(1) shall be carried out in collaboration with relevant stakeholders, including, as appropriate—

- (1) States;
- (2) Indian Tribes;

- (3) regional entities and regulators;
- (4) units of local government;
- (5) institutions of higher education; and
- (6) private sector entities.

(d) Report

Not later than 180 days after December 27, 2020, and annually thereafter until calendar year 2029, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives a report on the efforts to implement the program established under subsection (b)(1) and the status of the strategy developed under subsection (b)(2)(B).

(e) Barriers and benefits to micro-grid systems

(1) Report

Not later than 270 days after December 27, 2020, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives a report on the benefits of, and barriers to, implementing resilient micro-grid systems that are—

- (A)(i) owned or operated by an isolated community, rural electric cooperative, or municipal government; or
- (ii) operated on behalf of a municipal government or rural electric cooperative; and
- (B) designed to maximize the use of—
 - (i) energy-generation facilities owned or operated by isolated communities; or
 - (ii) a municipal or rural electric cooperative energy-generation facility.

(2) Grants to overcome barriers

The Secretary shall award grants of not more than \$500,000 to not fewer than 20 municipal governments, rural electric cooperatives, or isolated communities, up to a total of \$15,000,000, each year to assist those municipal governments, rural electric cooperatives, and isolated communities in overcoming the barriers identified in the report under paragraph (1).

(Pub. L. 116–260, div. Z, title VIII, §8011, Dec. 27, 2020, 134 Stat. 2589.)

EDITORIAL NOTES

CODIFICATION

Section 17616 was editorially reclassified as section 21116 of Title 34, Crime Control and Law Enforcement.

§17617. Transferred

EDITORIAL NOTES

CODIFICATION

Section 17617 was editorially reclassified as section 21117 of Title 34, Crime Control and Law Enforcement.

SUBCHAPTER II—ADDITIONAL MEASURES TO COMBAT CHILD EXPLOITATION

§17631. Transferred

EDITORIAL NOTES

CODIFICATION

Section 17631 was editorially reclassified as section 21131 of Title 34, Crime Control and Law Enforcement.

CHAPTER 155—AERONAUTICS AND SPACE ACTIVITIES

§§17701, 17702. Transferred

EDITORIAL NOTES

CODIFICATION

Section 17701, Pub. L. 110–422, §2, Oct. 15, 2008, 122 Stat. 4781, which related to congressional findings on the 50th anniversary of the establishment of the National Aeronautics and Space Administration, was transferred and is set out as a note under section 20102 of Title 51, National and Commercial Space Programs.

Section 17702, Pub. L. 110–422, §3, Oct. 15, 2008, 122 Stat. 4782, which related to definitions, was transferred and is set out as a note under section 10101 of Title 51.

SUBCHAPTER I—EARTH SCIENCE

§17711. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 110–422, title II, §201, Oct. 15, 2008, 122 Stat. 4784, related to goal for NASA's Earth Science program. See section 60501 of Title 51, National and Commercial Space Programs.

§§17712, 17713. Repealed or Omitted

EDITORIAL NOTES

CODIFICATION

Section 17712, Pub. L. 110–422, title II, §204, Oct. 15, 2008, 122 Stat. 4785, which related to transitioning experimental research into operational services, was repealed in part and omitted in part. Subsecs. (b), (c), and (d) were repealed and reenacted as subsecs. (a), (b), and (c), respectively, of section 60502 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (a), which provided sense of Congress regarding such transitioning, was omitted from the Code following the enactment of Title 51.

Section 17713, Pub. L. 110–422, title II, §206, Oct. 15, 2008, 122 Stat. 4785, which related to reauthorization of Glory Mission examining effect of aerosols and solar energy on climate, was repealed in part and omitted in part. Subsec. (a) was repealed and reenacted as section 60503 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (b), which required baseline report no later than 90 days after Oct. 15, 2008, was omitted from the Code following the enactment of Title 51.

§17714. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 110–422, title II, §208, Oct. 15, 2008, 122 Stat. 4786, related to cooperative activities with NOAA to study tornadoes and other severe storms. See section 60504 of Title 51, National and Commercial Space Programs.

SUBCHAPTER II—AERONAUTICS

§§17721, 17722. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section 17721, Pub. L. 110–422, title III, §302, Oct. 15, 2008, 122 Stat. 4786, related to environmentally friendly aircraft research and development initiative. See section 40702 of Title 51, National and Commercial Space Programs.

Section 17722, Pub. L. 110–422, title III, §303, Oct. 15, 2008, 122 Stat. 4787, related to research alignment in fundamental aeronautics research program. See section 40703 of Title 51.

§17723. Repealed or Transferred

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 110–422, title III, §304, Oct. 15, 2008, 122 Stat. 4787, which related to research program to determine perceived impact of sonic booms, was repealed in part and transferred in part. Subsecs. (b) and (c) were repealed and reenacted as section 40704 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (a) was transferred and is set out as a note under section 40704 of Title 51.

§17724. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 110–422, title III, §307, Oct. 15, 2008, 122 Stat. 4788, related to funding for research and development activities in support of other mission directorates. See section 40104 of Title 51, National and Commercial Space Programs.

SUBCHAPTER III—EXPLORATION INITIATIVE

§17731. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 110–422, title IV, §403, Oct. 15, 2008, 122 Stat. 4789, related to stepping stone approach to exploration. See section 70504 of Title 51, National and Commercial Space Programs.

§17732. Repealed or Omitted

EDITORIAL NOTES

CODIFICATION

Section 17732, Pub. L. 110–422, title IV, §404, Oct. 15, 2008, 122 Stat. 4789, which related to establishment of a lunar outpost, was repealed in part and omitted in part. Subsecs. (a) and (b) were repealed and reenacted as section 70505 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (c), providing sense of Congress relating to use of commercial services in support of lunar outpost activities, was omitted from the Code following the enactment of Title 51.

§17733. Repealed or Transferred

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 110–422, title IV, §405, Oct. 15, 2008, 122 Stat. 4789, which related to exploration technology development, was repealed in part and transferred in part. Subsec. (b) was repealed and reenacted as section 70506 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (a) was transferred and is set out as a note under section 70506 of Title 51.

§17734. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 110–422, title IV, §407, Oct. 15, 2008, 122 Stat. 4790, related to discussions of common docking system standard among spacefaring nations to facilitate exploration crew rescue. See section 71301 of Title 51, National and Commercial Space Programs.

SUBCHAPTER IV—SPACE SCIENCE

§§17741, 17742. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section 17741, Pub. L. 110–422, title V, §501, Oct. 15, 2008, 122 Stat. 4791, related to long-term technology development program for space and Earth science. See section 70507 of Title 51, National and Commercial Space Programs.

Section 17742, Pub. L. 110–422, title V, §502, Oct. 15, 2008, 122 Stat. 4791, provided for future servicing of observatory-class scientific spacecraft. See section 70508 of Title 51.

SUBCHAPTER V—SPACE OPERATIONS

PART A—INTERNATIONAL SPACE STATION

§17751. Repealed or Omitted

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 110–422, title VI, §601, Oct. 15, 2008, 122 Stat. 4793, which related to plan to support operation and utilization of the International Space Station beyond fiscal year 2015, was repealed in part and omitted in part. Subsec. (a) was repealed and reenacted as section 70907 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (b), which required Administrator to submit a plan to congressional committees not later than nine months after Oct. 15, 2008, was omitted from the Code following the enactment of Title 51.

§17752. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 110–422, title VI, §602, Oct. 15, 2008, 122 Stat. 4795, related to International Space Station National Laboratory Advisory Committee. See section 70906 of Title 51, National and Commercial Space Programs.

§17753. Omitted

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 110–422, title VI, §603, Oct. 15, 2008, 122 Stat. 4796, which related to contingency plan for cargo resupply of the International Space Station, and required contingency plan to be delivered to congressional committees no later than one year after Oct. 15, 2008, was omitted from the Code following the enactment of Title 51, National and Commercial Space Programs, by Pub. L. 111–314.

PART B—SPACE SHUTTLE

§17761. Transferred

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 110–422, title VI, §613, Oct. 15, 2008, 122 Stat. 4799, which related to Space Shuttle transition and disposition of program-related assets, and provided for Space Shuttle Transition Liaison Office, was transferred and is set out as a note under section 70501 of Title 51, National and Commercial Space Programs.

PART C—LAUNCH SERVICES

§17771. Transferred

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 110–422, title VI, §621, Oct. 15, 2008, 122 Stat. 4801, which related to Launch Services strategy, was transferred and is set out as a note under section 50903 of Title 51, National and Commercial Space Programs.

SUBCHAPTER VI—EDUCATION

§17781. Repealed or Omitted

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 110–422, title VII, §704, Oct. 15, 2008, 122 Stat. 4802, which related to enhancement of NASA's educational role, was repealed in part and omitted in part. Subsec. (b) was repealed and reenacted as subsec. (d) of section 40903, and subsec. (c) was repealed and reenacted as section 40311, of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (a), which provided sense of Congress regarding educational and agency use of the International Space Station National Laboratory, was omitted from the Code following the enactment of Title 51.

SUBCHAPTER VII—NEAR-EARTH OBJECTS

§17791. Repealed or Omitted

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 110–422, title VIII, §801, Oct. 15, 2008, 122 Stat. 4803, which reaffirmed policy on surveying near-Earth asteroids and comets, was repealed in part and omitted in part. Subsec. (a) was repealed and reenacted as section 71101 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (b), which provided sense of Congress regarding the policy and its benefits, was omitted from the Code following the enactment of Title 51.

§17792. Transferred

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 110–422, title VIII, §802, Oct. 15, 2008, 122 Stat. 4803, which related to Congressional findings regarding threat of collision of potentially hazardous near-Earth object with Earth, was transferred and is set out as a note under section 71101 of Title 51, National and Commercial Space Programs.

§§17793 to 17795. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section 17793, Pub. L. 110–422, title VIII, §803, Oct. 15, 2008, 122 Stat. 4803, related to requests for specific mission information. See section 71102 of Title 51, National and Commercial Space Programs.

Section 17794, Pub. L. 110–422, title VIII, §804, Oct. 15, 2008, 122 Stat. 4804, established policy with respect to threats posed by near-Earth objects. See section 71103 of Title 51.

Section 17795, Pub. L. 110–422, title VIII, §805, Oct. 15, 2008, 122 Stat. 4804, related to required planetary radar capability. See section 71104 of Title 51.

SUBCHAPTER VIII—COMMERCIAL INITIATIVES

§17801. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 110–422, title IX, §902, Oct. 15, 2008, 122 Stat. 4805, related to commercial crew transfer and crew rescue services for the International Space Station. See section 50111(b) of Title 51, National and Commercial Space Programs.

SUBCHAPTER IX—REVITALIZATION OF NASA INSTITUTIONAL CAPABILITIES

§§17811, 17812. Repealed or Omitted

EDITORIAL NOTES

CODIFICATION

Section 17811, Pub. L. 110–422, title X, §1002, Oct. 15, 2008, 122 Stat. 4806, which related to maintenance and upgrade of NASA Center facilities, was repealed in part and omitted in part. Subsec. (a) was repealed and reenacted as section 31502 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (b), which required

determination of maintenance and upgrade backlog at NASA Centers and facilities, and subsec. (c), which required report to Congress to be delivered concurrently with fiscal 2011 budget request, were omitted from the Code following the enactment of Title 51.

Section 17812, Pub. L. 110–422, title X, §1003, Oct. 15, 2008, 122 Stat. 4807, which related to assessment of NASA laboratory capabilities, was repealed in part and omitted in part. Subsec. (a) was repealed and reenacted as section 31503 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (b), which required independent external review of NASA laboratories and report to congressional committees no later than 18 months after Oct. 15, 2008, was omitted from the Code following the enactment of Title 51.

SUBCHAPTER X—OTHER PROVISIONS

§17821. Repealed or Transferred

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 110–422, title XI, §1102, Oct. 15, 2008, 122 Stat. 4808, which related to initiation of discussions on development of framework for space traffic management, was repealed in part and transferred in part. Subsec. (b) was repealed and reenacted as section 71302 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (a), which provided congressional finding of need for space traffic management, was transferred and is set out as a note under section 71302 of Title 51.

§§17822 to 17824. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section 17822, Pub. L. 110–422, title XI, §1103, Oct. 15, 2008, 122 Stat. 4808, related to astronaut health care. See section 31302 of Title 51, National and Commercial Space Programs.

Section 17823, Pub. L. 110–422, title XI, §1104, Oct. 15, 2008, 122 Stat. 4809, related to National Academies decadal surveys. See section 20305 of Title 51.

Section 17824, Pub. L. 110–422, title XI, §1107, Oct. 15, 2008, 122 Stat. 4810, related to NASA outreach program to promote business competitiveness through space and aeronautics technologies. See section 30305 of Title 51.

§17825. Repealed or Omitted

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 110–422, title XI, §1109, Oct. 15, 2008, 122 Stat. 4811, which related to protection of scientific credibility, integrity, and communication within NASA, was repealed in part and omitted in part.

Subsec. (c) was repealed and reenacted as section 60506 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51.

Subsec. (a), which provided sense of Congress regarding NASA's posture toward scientific research, and subsec. (b), which directed Comptroller General to initiate study within 60 days after Oct. 15, 2008, complete it within 270 days, and report to Congress, were omitted from the Code following the enactment of Title 51.

§17826. Omitted

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 110–422, title XI, §1111, Oct. 15, 2008, 122 Stat. 4811, which required a plan and inventory of natural methane stocks and fluxes in the polar region of the United States within 12 months after Oct. 15, 2008, was omitted from the Code following the enactment of Title 51, National and Commercial Space Programs, by Pub. L. 111–314.

§§17827 to 17829. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section 17827, Pub. L. 110–422, title XI, §1112, Oct. 15, 2008, 122 Stat. 4811, provided an exception to alternative fuel procurement requirement. See section 30310 of Title 51, National and Commercial Space Programs.

Section 17828, Pub. L. 110–422, title XI, §1116, Oct. 15, 2008, 122 Stat. 4813, related to cooperative unmanned aerial vehicle activities. See section 31504 of Title 51.

Section 17829, Pub. L. 110–422, title XI, §1117, Oct. 15, 2008, 122 Stat. 4813, related to development of enhanced-use lease policy. See section 31505 of Title 51.

CHAPTER 156—HEALTH INFORMATION TECHNOLOGY

SUBCHAPTER I—APPLICATION AND USE OF ADOPTED HEALTH INFORMATION TECHNOLOGY STANDARDS; REPORTS

Sec.

17901. Coordination of Federal activities with adopted standards and implementation specifications.

17902. Application to private entities.

17903. Study and reports.

SUBCHAPTER II—TESTING OF HEALTH INFORMATION TECHNOLOGY

17911. National Institute for Standards and Technology testing.

17912. Research and development programs.

SUBCHAPTER III—PRIVACY

17921. Definitions.

PART A—IMPROVED PRIVACY PROVISIONS AND SECURITY PROVISIONS

17931. Application of security provisions and penalties to business associates of covered entities; annual guidance on security provisions.

17932. Notification in the case of breach.

17933. Education on health information privacy.

17934. Application of privacy provisions and penalties to business associates of covered entities.

17935. Restrictions on certain disclosures and sales of health information; accounting of certain protected health information disclosures; access to certain information in electronic format.

17936. Conditions on certain contacts as part of health care operations.

17937. Temporary breach notification requirement for vendors of personal health records and other non-HIPAA covered entities.

17938. Business associate contracts required for certain entities.

17939. Improved enforcement.

17940. Audits.

17941. Recognition of security practices.

PART B—RELATIONSHIP TO OTHER LAWS; REGULATORY REFERENCES; EFFECTIVE

DATE; REPORTS

- 17951. Relationship to other laws.
- 17952. Regulatory references.
- 17953. Studies, reports, guidance.

SUBCHAPTER I—APPLICATION AND USE OF ADOPTED HEALTH INFORMATION TECHNOLOGY STANDARDS; REPORTS

§17901. Coordination of Federal activities with adopted standards and implementation specifications

(a) Spending on health information technology systems

As each agency (as defined by the Director of the Office of Management and Budget, in consultation with the Secretary of Health and Human Services) implements, acquires, or upgrades health information technology systems used for the direct exchange of individually identifiable health information between agencies and with non-Federal entities, it shall utilize, where available, health information technology systems and products that meet standards and implementation specifications adopted under section 300jj–14 of this title, as added by section 13101.¹

(b) Federal information collection activities

With respect to a standard or implementation specification adopted under section 300jj–14 of this title, as added by section 13101, the President shall take measures to ensure that Federal activities involving the broad collection and submission of health information are consistent with such standard or implementation specification, respectively, within three years after the date of such adoption.

(c) Application of definitions

The definitions contained in section 300jj of this title, as added by section 13101,¹ shall apply for purposes of this subchapter.

(Pub. L. 111–5, div. A, title XIII, §13111, Feb. 17, 2009, 123 Stat. 242.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 13101, referred to in text, means section 13101 of div. A of Pub. L. 111–5.

§17903. Study and reports

(a) Report on adoption of nationwide system

Not later than 2 years after February 17, 2009, and annually thereafter, the Secretary of Health and Human Services shall submit to the appropriate committees of jurisdiction of the House of Representatives and the Senate a report that—

(1) describes the specific actions that have been taken by the Federal Government and private entities to facilitate the adoption of a nationwide system for the electronic use and exchange of health information;

(2) describes barriers to the adoption of such a nationwide system; and

(3) contains recommendations to achieve full implementation of such a nationwide system.

(b) Reimbursement incentive study and report

(1) Study

The Secretary of Health and Human Services shall carry out, or contract with a private entity to carry out, a study that examines methods to create efficient reimbursement incentives for improving health care quality in Federally qualified health centers, rural health clinics, and free clinics.

(2) Report

Not later than 2 years after February 17, 2009, the Secretary of Health and Human Services shall submit to the appropriate committees of jurisdiction of the House of Representatives and the Senate a report on the study carried out under paragraph (1).

(c) Aging services technology study and report

(1) In general

The Secretary of Health and Human Services shall carry out, or contract with a private entity to carry out, a study of matters relating to the potential use of new aging services technology to assist seniors, individuals with disabilities, and their caregivers throughout the aging process.

(2) Matters to be studied

The study under paragraph (1) shall include—

(A) an evaluation of—

(i) methods for identifying current, emerging, and future health technology that can be used to meet the needs of seniors and individuals with disabilities and their caregivers across all aging services settings, as specified by the Secretary;

(ii) methods for fostering scientific innovation with respect to aging services technology within the business and academic communities; and

(iii) developments in aging services technology in other countries that may be applied in the United States; and

(B) identification of—

(i) barriers to innovation in aging services technology and devising strategies for removing such barriers; and

(ii) barriers to the adoption of aging services technology by health care providers and consumers and devising strategies to removing such barriers.

(3) Report

Not later than 24 months after February 17, 2009, the Secretary shall submit to the appropriate committees of jurisdiction of the House of Representatives and of the Senate a report on the study carried out under paragraph (1).

(4) Definitions

For purposes of this subsection:

(A) Aging services technology

The term "aging services technology" means health technology that meets the health care needs of seniors, individuals with disabilities, and the caregivers of such seniors and individuals.

(B) Senior

The term "senior" has such meaning as specified by the Secretary.

(Pub. L. 111–5, div. A, title XIII, §13113, Feb. 17, 2009, 123 Stat. 243.)

SUBCHAPTER II—TESTING OF HEALTH INFORMATION TECHNOLOGY

§17911. National Institute for Standards and Technology testing

(a) Pilot testing of standards and implementation specifications

In coordination with the HIT Standards Committee established under section 300jj–13 ¹ of this title, as added by section 13101, ¹ with respect to the development of standards and implementation specifications under such section, the Director of the National Institute for Standards and Technology shall test such standards and implementation specifications, as appropriate, in order to assure the efficient implementation and use of such standards and implementation specifications.

(b) Voluntary testing program

In coordination with the HIT Standards Committee established under section 300jj–13 ¹ of this title, as added by section 13101, ¹ with respect to the development of standards and implementation specifications under such section, the Director of the National Institute of Standards and Technology shall support the establishment of a conformance testing infrastructure, including the development of technical test beds. The development of this conformance testing infrastructure may include a program to accredit independent, non-Federal laboratories to perform testing.

(Pub. L. 111–5, div. A, title XIII, §13201, Feb. 17, 2009, 123 Stat. 244.)

EDITORIAL NOTES

§17912. Research and development programs

(a) Health Care Information Enterprise Integration Research Centers

(1) In general

The Director of the National Institute of Standards and Technology, in consultation with the Director of the National Science Foundation and other appropriate Federal agencies, shall establish a program of assistance to institutions of higher education (or consortia thereof which may include nonprofit entities and Federal Government laboratories) to establish multidisciplinary Centers for Health Care Information Enterprise Integration.

(2) Review; competition

Grants shall be awarded under this subsection on a merit-reviewed, competitive basis.

(3) Purpose

The purposes of the Centers described in paragraph (1) shall be—

(A) to generate innovative approaches to health care information enterprise integration by conducting cutting-edge, multidisciplinary research on the systems challenges to health care delivery; and

(B) the development and use of health information technologies and other complementary fields.

(4) Research areas

Research areas may include—

(A) interfaces between human information and communications technology systems;

(B) voice-recognition systems;

(C) software that improves interoperability and connectivity among health information systems;

(D) software dependability in systems critical to health care delivery;

(E) measurement of the impact of information technologies on the quality and productivity of health care;

(F) health information enterprise management;

(G) health information technology security and integrity; and

(H) relevant health information technology to reduce medical errors.

(5) Applications

An institution of higher education (or a consortium thereof) seeking funding under this subsection shall submit an application to the Director of the National Institute of Standards and Technology at such time, in such manner, and containing such information as the Director may require. The application shall include, at a minimum, a description of—

(A) the research projects that will be undertaken by the Center established pursuant to assistance under paragraph (1) and the respective contributions of the participating entities;

(B) how the Center will promote active collaboration among scientists and engineers from different disciplines, such as information technology, biologic sciences, management, social sciences, and other appropriate disciplines;

(C) technology transfer activities to demonstrate and diffuse the research results, technologies, and knowledge; and

(D) how the Center will contribute to the education and training of researchers and other professionals in fields relevant to health information enterprise integration.

(b) National information technology research and development program

The Networking and Information Technology Research and Development Program established by section 5511 of title 15 shall include Federal research and development programs related to health information technology.

(Pub. L. 111–5, div. A, title XIII, §13202, Feb. 17, 2009, 123 Stat. 245; Pub. L. 114–329, title I, §105(s), Jan. 6, 2017, 130 Stat. 2985.)

AMENDMENTS

2017—Subsec. (b). Pub. L. 114–329 substituted "Networking and Information Technology Research and Development Program" for "National High-Performance Computing Program".

SUBCHAPTER III—PRIVACY

§17921. Definitions

In this subchapter, except as specified otherwise:

(1) Breach

(A) In general

The term "breach" means the unauthorized acquisition, access, use, or disclosure of protected health information which compromises the security or privacy of such information, except where an unauthorized person to whom such information is disclosed would not reasonably have been able to retain such information.

(B) Exceptions

The term "breach" does not include—

(i) any unintentional acquisition, access, or use of protected health information by an employee or individual acting under the authority of a covered entity or business associate if—

(I) such acquisition, access, or use was made in good faith and within the course and scope of the employment or other professional relationship of such employee or individual, respectively, with the covered entity or business associate; and

(II) such information is not further acquired, accessed, used, or disclosed by any person; or

(ii) any inadvertent disclosure from an individual who is otherwise authorized to access protected health information at a facility operated by a covered entity or business associate to another similarly situated individual at ¹ same facility; and

(iii) any such information received as a result of such disclosure is not further acquired, accessed, used, or disclosed without authorization by any person.

(2) Business associate

The term "business associate" has the meaning given such term in section 160.103 of title 45, Code of Federal Regulations.

(3) Covered entity

The term "covered entity" has the meaning given such term in section 160.103 of title 45, Code of Federal Regulations.

(4) Disclose

The terms "disclose" and "disclosure" have the meaning given the term "disclosure" in section 160.103 of title 45, Code of Federal Regulations.

(5) Electronic health record

The term "electronic health record" means an electronic record of health-related information on an individual that is created, gathered, managed, and consulted by authorized health care clinicians and staff.

(6) Health care operations

The term "health care operation" has the meaning given such term in section 164.501 of title 45,

Code of Federal Regulations.

(7) Health care provider

The term "health care provider" has the meaning given such term in section 160.103 of title 45, Code of Federal Regulations.

(8) Health plan

The term "health plan" has the meaning given such term in section 160.103 of title 45, Code of Federal Regulations.

(9) National Coordinator

The term "National Coordinator" means the head of the Office of the National Coordinator for Health Information Technology established under section 300jj–11(a) of this title, as added by section 13101.²

(10) Payment

The term "payment" has the meaning given such term in section 164.501 of title 45, Code of Federal Regulations.

(11) Personal health record

The term "personal health record" means an electronic record of PHR identifiable health information (as defined in section 17937(f)(2) of this title) on an individual that can be drawn from multiple sources and that is managed, shared, and controlled by or primarily for the individual.

(12) Protected health information

The term "protected health information" has the meaning given such term in section 160.103 of title 45, Code of Federal Regulations.

(13) Secretary

The term "Secretary" means the Secretary of Health and Human Services.

(14) Security

The term "security" has the meaning given such term in section 164.304 of title 45, Code of Federal Regulations.

(15) State

The term "State" means each of the several States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands.

(16) Treatment

The term "treatment" has the meaning given such term in section 164.501 of title 45, Code of Federal Regulations.

(17) Use

The term "use" has the meaning given such term in section 160.103 of title 45, Code of Federal Regulations.

(18) Vendor of personal health records

The term "vendor of personal health records" means an entity, other than a covered entity (as defined in paragraph (3)), that offers or maintains a personal health record.

PART A—IMPROVED PRIVACY PROVISIONS AND SECURITY PROVISIONS

§17931. Application of security provisions and penalties to business associates of covered entities; annual guidance on security provisions

(a) Application of security provisions

Sections 164.308, 164.310, 164.312, and 164.316 of title 45, Code of Federal Regulations, shall apply to a business associate of a covered entity in the same manner that such sections apply to the covered entity. The additional requirements of this title ¹ that relate to security and that are made applicable with respect to covered entities shall also be applicable to such a business associate and shall be incorporated into the business associate agreement between the business associate and the covered entity.

(b) Application of civil and criminal penalties

In the case of a business associate that violates any security provision specified in subsection (a), sections 1320d–5 and 1320d–6 of this title shall apply to the business associate with respect to such violation in the same manner such sections apply to a covered entity that violates such security provision.

(c) Annual guidance

For the first year beginning after February 17, 2009, and annually thereafter, the Secretary of Health and Human Services shall, after consultation with stakeholders, annually issue guidance on the most effective and appropriate technical safeguards for use in carrying out the sections referred to in subsection (a) and the security standards in subpart C of part 164 of title 45, Code of Federal Regulations, including the use of standards developed under section 300jj–12(b)(2)(B)(vi) ¹ of this title, as added by section 13101 of this Act, as such provisions are in effect as of the date before February 17, 2009.

(Pub. L. 111–5, div. A, title XIII, §13401, Feb. 17, 2009, 123 Stat. 260.)

EDITORIAL NOTES

§17932. Notification in the case of breach

(a) In general

A covered entity that accesses, maintains, retains, modifies, records, stores, destroys, or otherwise holds, uses, or discloses unsecured protected health information (as defined in subsection (h)(1)) shall, in the case of a breach of such information that is discovered by the covered entity, notify each individual whose unsecured protected health information has been, or is reasonably believed by the covered entity to have been, accessed, acquired, or disclosed as a result of such breach.

(b) Notification of covered entity by business associate

A business associate of a covered entity that accesses, maintains, retains, modifies, records, stores, destroys, or otherwise holds, uses, or discloses unsecured protected health information shall, following the discovery of a breach of such information, notify the covered entity of such breach. Such notice shall include the identification of each individual whose unsecured protected health information has been, or is reasonably believed by the business associate to have been, accessed, acquired, or disclosed during such breach.

(c) Breaches treated as discovered

For purposes of this section, a breach shall be treated as discovered by a covered entity or by a business associate as of the first day on which such breach is known to such entity or associate, respectively, (including any person, other than the individual committing the breach, that is an employee, officer, or other agent of such entity or associate, respectively) or should reasonably have been known to such entity or associate (or person) to have occurred.

(d) Timeliness of notification

(1) In general

Subject to subsection (g), all notifications required under this section shall be made without unreasonable delay and in no case later than 60 calendar days after the discovery of a breach by the covered entity involved (or business associate involved in the case of a notification required under subsection (b)).

(2) Burden of proof

The covered entity involved (or business associate involved in the case of a notification required under subsection (b)), shall have the burden of demonstrating that all notifications were made as required under this part, including evidence demonstrating the necessity of any delay.

(e) Methods of notice

(1) Individual notice

Notice required under this section to be provided to an individual, with respect to a breach, shall be provided promptly and in the following form:

(A) Written notification by first-class mail to the individual (or the next of kin of the individual if the individual is deceased) at the last known address of the individual or the next of kin, respectively, or, if specified as a preference by the individual, by electronic mail. The notification may be provided in one or more mailings as information is available.

(B) In the case in which there is insufficient, or out-of-date contact information (including a phone number, email address, or any other form of appropriate communication) that precludes direct written (or, if specified by the individual under subparagraph (A), electronic) notification to the individual, a substitute form of notice shall be provided, including, in the case that there are 10 or more individuals for which there is insufficient or out-of-date contact information, a conspicuous posting for a period determined by the Secretary on the home page of the Web site of the covered entity involved or notice in major print or broadcast media, including major media in geographic areas where the individuals affected by the breach likely reside. Such a notice in media or web posting will include a toll-free phone number where an individual can learn whether or not the individual's unsecured protected health information is possibly included in the breach.

(C) In any case deemed by the covered entity involved to require urgency because of possible imminent misuse of unsecured protected health information, the covered entity, in addition to notice provided under subparagraph (A), may provide information to individuals by telephone or other means, as appropriate.

(2) Media notice

Notice shall be provided to prominent media outlets serving a State or jurisdiction, following the discovery of a breach described in subsection (a), if the unsecured protected health information of more than 500 residents of such State or jurisdiction is, or is reasonably believed to have been, accessed, acquired, or disclosed during such breach.

(3) Notice to Secretary

Notice shall be provided to the Secretary by covered entities of unsecured protected health information that has been acquired or disclosed in a breach. If the breach was with respect to 500 or more individuals than ¹ such notice must be provided immediately. If the breach was with respect to less than 500 individuals, the covered entity may maintain a log of any such breach occurring and annually submit such a log to the Secretary documenting such breaches occurring during the year involved.

(4) Posting on HHS public website

The Secretary shall make available to the public on the Internet website of the Department of Health and Human Services a list that identifies each covered entity involved in a breach described in subsection (a) in which the unsecured protected health information of more than 500 individuals is acquired or disclosed.

(f) Content of notification

Regardless of the method by which notice is provided to individuals under this section, notice of a breach shall include, to the extent possible, the following:

(1) A brief description of what happened, including the date of the breach and the date of the discovery of the breach, if known.

(2) A description of the types of unsecured protected health information that were involved in the breach (such as full name, Social Security number, date of birth, home address, account number, or disability code).

(3) The steps individuals should take to protect themselves from potential harm resulting from the breach.

(4) A brief description of what the covered entity involved is doing to investigate the breach, to mitigate losses, and to protect against any further breaches.

(5) Contact procedures for individuals to ask questions or learn additional information, which shall include a toll-free telephone number, an e-mail address, Web site, or postal address.

(g) Delay of notification authorized for law enforcement purposes

If a law enforcement official determines that a notification, notice, or posting required under this section would impede a criminal investigation or cause damage to national security, such notification, notice, or posting shall be delayed in the same manner as provided under section

164.528(a)(2) of title 45, Code of Federal Regulations, in the case of a disclosure covered under such section.

(h) Unsecured protected health information

(1) Definition

(A) In general

Subject to subparagraph (B), for purposes of this section, the term "unsecured protected health information" means protected health information that is not secured through the use of a technology or methodology specified by the Secretary in the guidance issued under paragraph (2).

(B) Exception in case timely guidance not issued

In the case that the Secretary does not issue guidance under paragraph (2) by the date specified in such paragraph, for purposes of this section, the term "unsecured protected health information" shall mean protected health information that is not secured by a technology standard that renders protected health information unusable, unreadable, or indecipherable to unauthorized individuals and is developed or endorsed by a standards developing organization that is accredited by the American National Standards Institute.

(2) Guidance

For purposes of paragraph (1) and section 17937(f)(3) of this title, not later than the date that is 60 days after February 17, 2009, the Secretary shall, after consultation with stakeholders, issue (and annually update) guidance specifying the technologies and methodologies that render protected health information unusable, unreadable, or indecipherable to unauthorized individuals, including the use of standards developed under section 300jj–12(b)(2)(B)(vi) ² of this title, as added by section 13101 of this Act.

(i) Report to Congress on breaches

(1) In general

Not later than 12 months after February 17, 2009, and annually thereafter, the Secretary shall prepare and submit to the Committee on Finance and the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Ways and Means and the Committee on Energy and Commerce of the House of Representatives a report containing the information described in paragraph (2) regarding breaches for which notice was provided to the Secretary under subsection (e)(3).

(2) Information

The information described in this paragraph regarding breaches specified in paragraph (1) shall include—

- (A) the number and nature of such breaches; and
- (B) actions taken in response to such breaches.

(j) Regulations; effective date

To carry out this section, the Secretary of Health and Human Services shall promulgate interim final regulations by not later than the date that is 180 days after February 17, 2009. The provisions of this section shall apply to breaches that are discovered on or after the date that is 30 days after the date of publication of such interim final regulations.

(Pub. L. 111–5, div. A, title XIII, §13402, Feb. 17, 2009, 123 Stat. 260.)

² *See References in Text note below.*

§17933. Education on health information privacy

(a) Regional office privacy advisors

Not later than 6 months after February 17, 2009, the Secretary shall designate an individual in each regional office of the Department of Health and Human Services to offer guidance and education to covered entities, business associates, and individuals on their rights and responsibilities related to Federal privacy and security requirements for protected health information.

(b) Education initiative on uses of health information

Not later than 12 months after February 17, 2009, the Office for Civil Rights within the Department of Health and Human Services shall develop and maintain a multi-faceted national education initiative to enhance public transparency regarding the uses of protected health information, including programs to educate individuals about the potential uses of their protected health information, the effects of such uses, and the rights of individuals with respect to such uses. Such programs shall be conducted in a variety of languages and present information in a clear and understandable manner.

(Pub. L. 111-5, div. A, title XIII, §13403, Feb. 17, 2009, 123 Stat. 263.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective 12 months after Feb. 17, 2009, except as otherwise specifically provided, see section 13423 of Pub. L. 111-5, set out as a note under section 17931 of this title.

§17934. Application of privacy provisions and penalties to business associates of covered entities

(a) Application of contract requirements

In the case of a business associate of a covered entity that obtains or creates protected health information pursuant to a written contract (or other written arrangement) described in section 164.502(e)(2) of title 45, Code of Federal Regulations, with such covered entity, the business associate may use and disclose such protected health information only if such use or disclosure, respectively, is in compliance with each applicable requirement of section 164.504(e) of such title. The additional requirements of this subchapter that relate to privacy and that are made applicable with respect to covered entities shall also be applicable to such a business associate and shall be incorporated into the business associate agreement between the business associate and the covered entity.

(b) Application of knowledge elements associated with contracts

Section 164.504(e)(1)(ii) of title 45, Code of Federal Regulations, shall apply to a business associate described in subsection (a), with respect to compliance with such subsection, in the same manner that such section applies to a covered entity, with respect to compliance with the standards in sections 164.502(e) and 164.504(e) of such title, except that in applying such section 164.504(e)(1)(ii) each reference to the business associate, with respect to a contract, shall be treated as a reference to the covered entity involved in such contract.

(c) Application of civil and criminal penalties

In the case of a business associate that violates any provision of subsection (a) or (b), the provisions of sections 1176 and 1177 of the Social Security Act (42 U.S.C. 1320d–5, 1320d–6) shall apply to the business associate with respect to such violation in the same manner as such provisions apply to a person who violates a provision of part C of title XI of such Act [42 U.S.C. 1320d et seq.]. (Pub. L. 111–5, div. A, title XIII, §13404, Feb. 17, 2009, 123 Stat. 264.)

EDITORIAL NOTES

This subchapter, referred to in subsec. (a), was in the original "this subtitle", meaning subtitle D (§13400 et seq.) of title XIII of div. A of Pub. L. 111–5, Feb. 17, 2009, 123 Stat. 258, which is classified principally to this subchapter. For complete classification of subtitle D to the Code, see Tables.

The Social Security Act, referred to in subsec. (c), is act Aug. 14, 1935, ch. 531, 49 Stat. 620. Part C of title XI of the Act is classified generally to part C (§1320d et seq.) of subchapter XI of chapter 7 of this title. For complete classification of this Act to the Code, see section 1305 of this title and Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective 12 months after Feb. 17, 2009, except as otherwise specifically provided, see section 13423 of Pub. L. 111–5, set out as a note under section 17931 of this title.

§17935. Restrictions on certain disclosures and sales of health information; accounting of certain protected health information disclosures; access to certain information in electronic format

(a) Requested restrictions on certain disclosures of health information

In the case that an individual requests under paragraph (a)(1)(i)(A) of section 164.522 of title 45, Code of Federal Regulations, that a covered entity restrict the disclosure of the protected health information of the individual, notwithstanding paragraph (a)(1)(ii) of such section, the covered entity must comply with the requested restriction if—

- (1) except as otherwise required by law, the disclosure is to a health plan for purposes of carrying out payment or health care operations (and is not for purposes of carrying out treatment); and
- (2) the protected health information pertains solely to a health care item or service for which the health care provider involved has been paid out of pocket in full.

(b) Disclosures required to be limited to the limited data set or the minimum necessary

(1) In general

(A) In general

Subject to subparagraph (B), a covered entity shall be treated as being in compliance with section 164.502(b)(1) of title 45, Code of Federal Regulations, with respect to the use, disclosure, or request of protected health information described in such section, only if the

covered entity limits such protected health information, to the extent practicable, to the limited data set (as defined in section 164.514(e)(2) of such title) or, if needed by such entity, to the minimum necessary to accomplish the intended purpose of such use, disclosure, or request, respectively.

(B) Guidance

Not later than 18 months after February 17, 2009, the Secretary shall issue guidance on what constitutes "minimum necessary" for purposes of subpart E of part 164 of title 45, Code of Federal Regulation.¹ In issuing such guidance the Secretary shall take into consideration the guidance under section 17953(c) of this title and the information necessary to improve patient outcomes and to detect, prevent, and manage chronic disease.

(C) Sunset

Subparagraph (A) shall not apply on and after the effective date on which the Secretary issues the guidance under subparagraph (B).

(2) Determination of minimum necessary

For purposes of paragraph (1), in the case of the disclosure of protected health information, the covered entity or business associate disclosing such information shall determine what constitutes the minimum necessary to accomplish the intended purpose of such disclosure.

(3) Application of exceptions

The exceptions described in section 164.502(b)(2) of title 45, Code of Federal Regulations, shall apply to the requirement under paragraph (1) as of the effective date described in section 13423² in the same manner that such exceptions apply to section 164.502(b)(1) of such title before such date.

(4) Rule of construction

Nothing in this subsection shall be construed as affecting the use, disclosure, or request of protected health information that has been de-identified.

(c) Accounting of certain protected health information disclosures required if covered entity uses electronic health record

(1) In general

In applying section 164.528 of title 45, Code of Federal Regulations, in the case that a covered entity uses or maintains an electronic health record with respect to protected health information—

(A) the exception under paragraph (a)(1)(i) of such section shall not apply to disclosures through an electronic health record made by such entity of such information; and

(B) an individual shall have a right to receive an accounting of disclosures described in such paragraph of such information made by such covered entity during only the three years prior to the date on which the accounting is requested.

(2) Regulations

The Secretary shall promulgate regulations on what information shall be collected about each disclosure referred to in paragraph (1), not later than 6 months after the date on which the Secretary adopts standards on accounting for disclosure described in the ³ section 300jj-12(b)(2)(B)(iv) of this title, as added by section 13101.² Such regulations shall only require such information to be collected through an electronic health record in a manner that takes into account the interests of the individuals in learning the circumstances under which their protected health information is being disclosed and takes into account the administrative burden of accounting for such disclosures.

(3) Process

In response to an ⁴ request from an individual for an accounting, a covered entity shall elect to provide either an—

(A) accounting, as specified under paragraph (1), for disclosures of protected health information that are made by such covered entity and by a business associate acting on behalf of the covered entity; or

(B) accounting, as specified under paragraph (1), for disclosures that are made by such covered entity and provide a list of all business associates acting on behalf of the covered entity, including contact information for such associates (such as mailing address, phone, and email address).

A business associate included on a list under subparagraph (B) shall provide an accounting of disclosures (as required under paragraph (1) for a covered entity) made by the business associate upon a request made by an individual directly to the business associate for such an accounting.

(4) Effective date

(A) Current users of electronic records

In the case of a covered entity insofar as it acquired an electronic health record as of January 1, 2009, paragraph (1) shall apply to disclosures, with respect to protected health information, made by the covered entity from such a record on and after January 1, 2014.

(B) Others

In the case of a covered entity insofar as it acquires an electronic health record after January 1, 2009, paragraph (1) shall apply to disclosures, with respect to protected health information, made by the covered entity from such record on and after the later of the following:

- (i) January 1, 2011; or
- (ii) the date that it acquires an electronic health record.

(C) Later date

The Secretary may set an effective date that is later than ⁵ the date specified under subparagraph (A) or (B) if the Secretary determines that such later date is necessary, but in no case may the date specified under—

- (i) subparagraph (A) be later than 2016; or
- (ii) subparagraph (B) be later than 2013.

(d) Prohibition on sale of electronic health records or protected health information

(1) In general

Except as provided in paragraph (2), a covered entity or business associate shall not directly or indirectly receive remuneration in exchange for any protected health information of an individual unless the covered entity obtained from the individual, in accordance with section 164.508 of title 45, Code of Federal Regulations, a valid authorization that includes, in accordance with such section, a specification of whether the protected health information can be further exchanged for remuneration by the entity receiving protected health information of that individual.

(2) Exceptions

Paragraph (1) shall not apply in the following cases:

(A) The purpose of the exchange is for public health activities (as described in section 164.512(b) of title 45, Code of Federal Regulations).

(B) The purpose of the exchange is for research (as described in sections 164.501 and 164.512(i) of title 45, Code of Federal Regulations) and the price charged reflects the costs of preparation and transmittal of the data for such purpose.

(C) The purpose of the exchange is for the treatment of the individual, subject to any regulation that the Secretary may promulgate to prevent protected health information from inappropriate access, use, or disclosure.

(D) The purpose of the exchange is the health care operation specifically described in subparagraph (iv) of paragraph (6) of the definition of healthcare operations in section 164.501 of title 45, Code of Federal Regulations.

(E) The purpose of the exchange is for remuneration that is provided by a covered entity to a business associate for activities involving the exchange of protected health information that the business associate undertakes on behalf of and at the specific request of the covered entity pursuant to a business associate agreement.

(F) The purpose of the exchange is to provide an individual with a copy of the individual's protected health information pursuant to section 164.524 of title 45, Code of Federal Regulations.

(G) The purpose of the exchange is otherwise determined by the Secretary in regulations to be similarly necessary and appropriate as the exceptions provided in subparagraphs (A) through (F).

(3) Regulations

Not later than 18 months after February 17, 2009, the Secretary shall promulgate regulations to carry out this subsection. In promulgating such regulations, the Secretary—

(A) shall evaluate the impact of restricting the exception described in paragraph (2)(A) to require that the price charged for the purposes described in such paragraph reflects the costs of the preparation and transmittal of the data for such purpose, on research or public health activities, including those conducted by or for the use of the Food and Drug Administration; and

(B) may further restrict the exception described in paragraph (2)(A) to require that the price charged for the purposes described in such paragraph reflects the costs of the preparation and transmittal of the data for such purpose, if the Secretary finds that such further restriction will not impede such research or public health activities.

(4) Effective date

Paragraph (1) shall apply to exchanges occurring on or after the date that is 6 months after the date of the promulgation of final regulations implementing this subsection.

(e) Access to certain information in electronic format

In applying section 164.524 of title 45, Code of Federal Regulations, in the case that a covered entity uses or maintains an electronic health record with respect to protected health information of an individual—

(1) the individual shall have a right to obtain from such covered entity a copy of such information in an electronic format and, if the individual chooses, to direct the covered entity to transmit such copy directly to an entity or person designated by the individual, provided that any such choice is clear, conspicuous, and specific;

(2) if the individual makes a request to a business associate for access to, or a copy of, protected health information about the individual, or if an individual makes a request to a business associate to grant such access to, or transmit such copy directly to, a person or entity designated by the individual, a business associate may provide the individual with such access or copy, which may be in an electronic form, or grant or transmit such access or copy to such person or entity designated by the individual; and

(3) notwithstanding paragraph (c)(4) of such section, any fee that the covered entity may impose for providing such individual with a copy of such information (or a summary or explanation of such information) if such copy (or summary or explanation) is in an electronic form shall not be greater than the entity's labor costs in responding to the request for the copy (or summary or explanation).

§17936. Conditions on certain contacts as part of health care operations

(a) Marketing

(1) In general

A communication by a covered entity or business associate that is about a product or service and that encourages recipients of the communication to purchase or use the product or service shall not be considered a health care operation for purposes of subpart E of part 164 of title 45, Code of Federal Regulations, unless the communication is made as described in subparagraph (i), (ii), or (iii) of paragraph (1) of the definition of marketing in section 164.501 of such title.

(2) Payment for certain communications

A communication by a covered entity or business associate that is described in subparagraph (i), (ii), or (iii) of paragraph (1) of the definition of marketing in section 164.501 of title 45, Code of Federal Regulations, shall not be considered a health care operation for purposes of subpart E of part 164 of title 45, Code of Federal Regulations if the covered entity receives or has received direct or indirect payment in exchange for making such communication, except where—

(A)(i) such communication describes only a drug or biologic that is currently being prescribed for the recipient of the communication; and

(ii) any payment received by such covered entity in exchange for making a communication described in clause (i) is reasonable in amount;

(B) each of the following conditions apply—

(i) the communication is made by the covered entity; and

(ii) the covered entity making such communication obtains from the recipient of the communication, in accordance with section 164.508 of title 45, Code of Federal Regulations, a valid authorization (as described in paragraph (b) of such section) with respect to such communication; or

(C) each of the following conditions apply—

- (i) the communication is made by a business associate on behalf of the covered entity; and
- (ii) the communication is consistent with the written contract (or other written arrangement described in section 164.502(e)(2) of such title) between such business associate and covered entity.

(3) Reasonable in amount defined

For purposes of paragraph (2), the term "reasonable in amount" shall have the meaning given such term by the Secretary by regulation.

(4) Direct or indirect payment

For purposes of paragraph (2), the term "direct or indirect payment" shall not include any payment for treatment (as defined in section 164.501 of title 45, Code of Federal Regulations) of an individual.

(b) Opportunity to opt out of fundraising

The Secretary shall by rule provide that any written fundraising communication that is a healthcare operation as defined under section 164.501 of title 45, Code of Federal Regulations, shall, in a clear and conspicuous manner, provide an opportunity for the recipient of the communications to elect not to receive any further such communication. When an individual elects not to receive any further such communication, such election shall be treated as a revocation of authorization under section 164.508 of title 45, Code of Federal Regulations.

(c) Effective date

This section shall apply to written communications occurring on or after the effective date specified under section 13423.¹

§17937. Temporary breach notification requirement for vendors of personal health records and other non-HIPAA covered entities

(a) In general

In accordance with subsection (c), each vendor of personal health records, following the discovery of a breach of security of unsecured PHR identifiable health information that is in a personal health record maintained or offered by such vendor, and each entity described in clause (ii), (iii), or (iv) of section 17953(b)(1)(A) of this title, following the discovery of a breach of security of such information that is obtained through a product or service provided by such entity, shall—

- (1) notify each individual who is a citizen or resident of the United States whose unsecured PHR identifiable health information was acquired by an unauthorized person as a result of such a

breach of security; and

(2) notify the Federal Trade Commission.

(b) Notification by third party service providers

A third party service provider that provides services to a vendor of personal health records or to an entity described in clause (ii), (iii),¹ or (iv) of section 17953(b)(1)(A) of this title in connection with the offering or maintenance of a personal health record or a related product or service and that accesses, maintains, retains, modifies, records, stores, destroys, or otherwise holds, uses, or discloses unsecured PHR identifiable health information in such a record as a result of such services shall, following the discovery of a breach of security of such information, notify such vendor or entity, respectively, of such breach. Such notice shall include the identification of each individual whose unsecured PHR identifiable health information has been, or is reasonably believed to have been, accessed, acquired, or disclosed during such breach.

(c) Application of requirements for timeliness, method, and content of notifications

Subsections (c), (d), (e), and (f) of section 17932 of this title shall apply to a notification required under subsection (a) and a vendor of personal health records, an entity described in subsection (a) and a third party service provider described in subsection (b), with respect to a breach of security under subsection (a) of unsecured PHR identifiable health information in such records maintained or offered by such vendor, in a manner specified by the Federal Trade Commission.

(d) Notification of the Secretary

Upon receipt of a notification of a breach of security under subsection (a)(2), the Federal Trade Commission shall notify the Secretary of such breach.

(e) Enforcement

A violation of subsection (a) or (b) shall be treated as an unfair and deceptive act or practice in violation of a regulation under section 57a(a)(1)(B) of title 15 regarding unfair or deceptive acts or practices.

(f) Definitions

For purposes of this section:

(1) Breach of security

The term "breach of security" means, with respect to unsecured PHR identifiable health information of an individual in a personal health record, acquisition of such information without the authorization of the individual.

(2) PHR identifiable health information

The term "PHR identifiable health information" means individually identifiable health information, as defined in section 1320d(6) of this title, and includes, with respect to an individual, information—

(A) that is provided by or on behalf of the individual; and

(B) that identifies the individual or with respect to which there is a reasonable basis to believe that the information can be used to identify the individual.

(3) Unsecured PHR identifiable health information

(A) In general

Subject to subparagraph (B), the term "unsecured PHR identifiable health information" means PHR identifiable health information that is not protected through the use of a technology or methodology specified by the Secretary in the guidance issued under section 17932(h)(2) of this title.

(B) Exception in case timely guidance not issued

In the case that the Secretary does not issue guidance under section 17932(h)(2) of this title by the date specified in such section, for purposes of this section, the term "unsecured PHR

identifiable health information" shall mean PHR identifiable health information that is not secured by a technology standard that renders protected health information unusable, unreadable, or indecipherable to unauthorized individuals and that is developed or endorsed by a standards developing organization that is accredited by the American National Standards Institute.

(g) Regulations; effective date; sunset

(1) Regulations; effective date

To carry out this section, the Federal Trade Commission shall promulgate interim final regulations by not later than the date that is 180 days after February 17, 2009. The provisions of this section shall apply to breaches of security that are discovered on or after the date that is 30 days after the date of publication of such interim final regulations.

(2) Sunset

If Congress enacts new legislation establishing requirements for notification in the case of a breach of security, that apply to entities that are not covered entities or business associates, the provisions of this section shall not apply to breaches of security discovered on or after the effective date of regulations implementing such legislation.

(Pub. L. 111–5, div. A, title XIII, §13407, Feb. 17, 2009, 123 Stat. 269.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective 12 months after Feb. 17, 2009, except as otherwise specifically provided, see section 13423 of Pub. L. 111–5, set out as a note under section 17931 of this title.

¹ So in original. The period probably should be a comma.

§17938. Business associate contracts required for certain entities

Each organization, with respect to a covered entity, that provides data transmission of protected health information to such entity (or its business associate) and that requires access on a routine basis to such protected health information, such as a Health Information Exchange Organization, Regional Health Information Organization, E-prescribing Gateway, or each vendor that contracts with a covered entity to allow that covered entity to offer a personal health record to patients as part of its electronic health record, is required to enter into a written contract (or other written arrangement) described in section 164.502(e)(2) of title 45, Code of Federal Regulations and a written contract (or other arrangement) described in section 164.308(b) of such title, with such entity and shall be treated as a business associate of the covered entity for purposes of the provisions of this subchapter and subparts C and E of part 164 of title 45, Code of Federal Regulations, as such provisions are in effect as of February 17, 2009.

(Pub. L. 111–5, div. A, title XIII, §13408, Feb. 17, 2009, 123 Stat. 271.)

EDITORIAL NOTES

REFERENCES IN TEXT

This subchapter, referred to in text, was in the original "this subtitle", meaning subtitle D (§13400 et seq.) of title XIII of div. A of Pub. L. 111–5, Feb. 17, 2009, 123 Stat. 258, which is classified principally to this subchapter. For complete classification of subtitle D to the Code, see Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective 12 months after Feb. 17, 2009, except as otherwise specifically provided, see section 13423 of Pub. L. 111–5, set out as a note under section 17931 of this title.

§17939. Improved enforcement

(a) In general

(1) Omitted

(2) Enforcement under Social Security Act

Any violation by a covered entity under thus ¹ subchapter is subject to enforcement and penalties under section ² 1176 and 1177 of the Social Security Act [42 U.S.C. 1320d–5, 1320d–6].

(b) Effective date; regulations

(1) The amendments made by subsection (a) shall apply to penalties imposed on or after the date that is 24 months after February 17, 2009.

(2) Not later than 18 months after February 17, 2009, the Secretary of Health and Human Services shall promulgate regulations to implement such amendments.

(c) Distribution of certain civil monetary penalties collected

(1) In general

Subject to the regulation promulgated pursuant to paragraph (3), any civil monetary penalty or monetary settlement collected with respect to an offense punishable under this subchapter or section 1176 of the Social Security Act (42 U.S.C. 1320d–5) insofar as such section relates to privacy or security shall be transferred to the Office for Civil Rights of the Department of Health and Human Services to be used for purposes of enforcing the provisions of this subchapter and subparts C and E of part 164 of title 45, Code of Federal Regulations, as such provisions are in effect as of February 17, 2009.

(2) GAO report

Not later than 18 months after February 17, 2009, the Comptroller General shall submit to the Secretary a report including recommendations for a methodology under which an individual who is harmed by an act that constitutes an offense referred to in paragraph (1) may receive a percentage of any civil monetary penalty or monetary settlement collected with respect to such offense.

(3) Establishment of methodology to distribute percentage of CMPS collected to harmed individuals

Not later than 3 years after February 17, 2009, the Secretary shall establish by regulation and based on the recommendations submitted under paragraph (2), a methodology under which an individual who is harmed by an act that constitutes an offense referred to in paragraph (1) may receive a percentage of any civil monetary penalty or monetary settlement collected with respect to such offense.

(4) Application of methodology

The methodology under paragraph (3) shall be applied with respect to civil monetary penalties or monetary settlements imposed on or after the effective date of the regulation.

(d) Tiered increase in amount of civil monetary penalties

(1) to (3) Omitted

(4) Effective date

The amendments made by this subsection shall apply to violations occurring after February 17, 2009.

(e) Enforcement through State attorneys general

(1), (2) Omitted

(3) Effective date

The amendments made by this subsection shall apply to violations occurring after February 17, 2009.

(Pub. L. 111–5, div. A, title XIII, §13410, Feb. 17, 2009, 123 Stat. 271.)

EDITORIAL NOTES

§17940. Audits

The Secretary shall provide for periodic audits to ensure that covered entities and business associates that are subject to the requirements of this subchapter and subparts C and E of part 164 of title 45, Code of Federal Regulations, as such provisions are in effect as of February 17, 2009, comply with such requirements.

(Pub. L. 111–5, div. A, title XIII, §13411, Feb. 17, 2009, 123 Stat. 276.)

EDITORIAL NOTES

REFERENCES IN TEXT

This subchapter, referred to in text, was in the original "this subtitle", meaning subtitle D (§13400 et seq.) of title XIII of div. A of Pub. L. 111–5, Feb. 17, 2009, 123 Stat. 258, which is classified principally to this subchapter. For complete classification of subtitle D to the Code, see Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective 12 months after Feb. 17, 2009, except as otherwise specifically provided, see section 13423 of Pub. L. 111–5, set out as a note under section 17931 of this title.

§17941. Recognition of security practices

(a) In general

Consistent with the authority of the Secretary under sections 1320d–5 and 1320d–6 of this title, when making determinations relating to fines under such section 1320d–5 (as amended by section 13410 of Pub. L. 111–5) or such section 1320d–6, decreasing the length and extent of an audit under section 17940 of this title, or remedies otherwise agreed to by the Secretary, the Secretary shall consider whether the covered entity or business associate has adequately demonstrated that it had, for not less than the previous 12 months, recognized security practices in place that may—

- (1) mitigate fines under section 1320d–5 of this title (as amended by section 13410 of Pub. L. 111–5);
- (2) result in the early, favorable termination of an audit under section 17940 of this title; and
- (3) mitigate the remedies that would otherwise be agreed to in any agreement with respect to resolving potential violations of the HIPAA Security rule (part 160 of title 45 Code of Federal Regulations and subparts A and C of part 164 of such title) between the covered entity or business associate and the Department of Health and Human Services.

(b) Definition and miscellaneous provisions

(1) Recognized security practices

The term "recognized security practices" means the standards, guidelines, best practices, methodologies, procedures, and processes developed under section 272(c)(15) of title 15, the approaches promulgated under section 1533(d) of title 6, and other programs and processes that address cybersecurity and that are developed, recognized, or promulgated through regulations under other statutory authorities. Such practices shall be determined by the covered entity or business associate, consistent with the HIPAA Security rule (part 160 of title 45 Code of Federal Regulations and subparts A and C of part 164 of such title).

(2) Limitation

Nothing in this section shall be construed as providing the Secretary authority to increase fines under section 1320d–5 of this title (as amended by section 13410 of Pub. L. 111–5), or the length, extent or quantity of audits under section 17940 of this title, due to a lack of compliance with the recognized security practices.

(3) No liability for nonparticipation

Subject to paragraph (4), nothing in this section shall be construed to subject a covered entity or business associate to liability for electing not to engage in the recognized security practices defined by this section.

(4) Rule of construction

Nothing in this section shall be construed to limit the Secretary's authority to enforce the HIPAA Security rule (part 160 of title 45 Code of Federal Regulations and subparts A and C of part 164 of such title), or to supersede or conflict with an entity or business associate's obligations under the HIPAA Security rule.

(Pub. L. 111–5, div. A, title XIII, §13412, as added Pub. L. 116–321, §1, Jan. 5, 2021, 134 Stat. 5072.)

PART B—RELATIONSHIP TO OTHER LAWS; REGULATORY REFERENCES; EFFECTIVE DATE; REPORTS

§17951. Relationship to other laws

(a) Application of HIPAA State preemption

Section 1178 of the Social Security Act (42 U.S.C. 1320d–7) shall apply to a provision or requirement under this subchapter in the same manner that such section applies to a provision or requirement under part C of title XI of such Act [42 U.S.C. 1320d et seq.] or a standard or implementation specification adopted or established under sections 1172 through 1174 of such Act [42 U.S.C. 1320d–1 to 1320d–3].

(b) Health Insurance Portability and Accountability Act of 1996

The standards governing the privacy and security of individually identifiable health information promulgated by the Secretary under sections 262(a) and 264 of the Health Insurance Portability and Accountability Act of 1996 shall remain in effect to the extent that they are consistent with this subchapter. The Secretary shall by rule amend such Federal regulations as required to make such regulations consistent with this subchapter.

(c) Construction

Nothing in this subchapter shall constitute a waiver of any privilege otherwise applicable to an individual with respect to the protected health information of such individual.

(Pub. L. 111–5, div. A, title XIII, §13421, Feb. 17, 2009, 123 Stat. 276.)

EDITORIAL NOTES

REFERENCES IN TEXT

This subchapter, referred to in text, was in the original "this subtitle", meaning subtitle D (§13400 et seq.) of title XIII of div. A of Pub. L. 111–5, Feb. 17, 2009, 123 Stat. 258, which is classified principally to this subchapter. For complete classification of subtitle D to the Code, see Tables.

The Social Security Act, referred to in subsec. (a), is act Aug. 14, 1935, ch. 531, 49 Stat. 620. Part C of title XI of the Act is classified generally to part C (§1320d et seq.) of subchapter XI of chapter 7 of this title. For complete classification of this Act to the Code, see section 1305 of this title and Tables.

The Health Insurance Portability and Accountability Act of 1996, referred to in subsec. (b), is Pub. L. 104–191, Aug. 21, 1996, 110 Stat. 1936. Section 262(a) of the Act enacted sections 1320d to 1320d–8 of this title. Section 264 of the Act is set out as a note under section 1320d–2 of this title. For complete classification of this Act to the Code, see Short Title of 1996 Amendments note set out under section 201 of this title and Tables.

§17952. Regulatory references

Each reference in this subchapter to a provision of the Code of Federal Regulations refers to such provision as in effect on February 17, 2009 (or to the most recent update of such provision).

(Pub. L. 111–5, div. A, title XIII, §13422, Feb. 17, 2009, 123 Stat. 276.)

§17953. Studies, reports, guidance

(a) Report on compliance

(1) In general

For the first year beginning after February 17, 2009, and annually thereafter, the Secretary shall

prepare and submit to the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Ways and Means and the Committee on Energy and Commerce of the House of Representatives a report concerning complaints of alleged violations of law, including the provisions of this subchapter as well as the provisions of subparts C and E of part 164 of title 45, Code of Federal Regulations, (as such provisions are in effect as of February 17, 2009) relating to privacy and security of health information that are received by the Secretary during the year for which the report is being prepared. Each such report shall include, with respect to such complaints received during the year—

(A) the number of such complaints;

(B) the number of such complaints resolved informally, a summary of the types of such complaints so resolved, and the number of covered entities that received technical assistance from the Secretary during such year in order to achieve compliance with such provisions and the types of such technical assistance provided;

(C) the number of such complaints that have resulted in the imposition of civil monetary penalties or have been resolved through monetary settlements, including the nature of the complaints involved and the amount paid in each penalty or settlement;

(D) the number of compliance reviews conducted and the outcome of each such review;

(E) the number of subpoenas or inquiries issued;

(F) the Secretary's plan for improving compliance with and enforcement of such provisions for the following year; and

(G) the number of audits performed and a summary of audit findings pursuant to section 17940 of this title.

(2) Availability to public

Each report under paragraph (1) shall be made available to the public on the Internet website of the Department of Health and Human Services.

(b) Study and report on application of privacy and security requirements to non-HIPAA covered entities

(1) Study

Not later than one year after February 17, 2009, the Secretary, in consultation with the Federal Trade Commission, shall conduct a study, and submit a report under paragraph (2), on privacy and security requirements for entities that are not covered entities or business associates as of February 17, 2009, including—

(A) requirements relating to security, privacy, and notification in the case of a breach of security or privacy (including the applicability of an exemption to notification in the case of individually identifiable health information that has been rendered unusable, unreadable, or indecipherable through technologies or methodologies recognized by appropriate professional organization or standard setting bodies to provide effective security for the information) that should be applied to—

(i) vendors of personal health records;

(ii) entities that offer products or services through the website of a vendor of personal health records;

(iii) entities that are not covered entities and that offer products or services through the websites of covered entities that offer individuals personal health records;

(iv) entities that are not covered entities and that access information in a personal health record or send information to a personal health record; and

(v) third party service providers used by a vendor or entity described in clause (i), (ii), (iii), or (iv) to assist in providing personal health record products or services;

(B) a determination of which Federal government agency is best equipped to enforce such requirements recommended to be applied to such vendors, entities, and service providers under subparagraph (A); and

(C) a timeframe for implementing regulations based on such findings.

(2) Report

The Secretary shall submit to the Committee on Finance, the Committee on Health, Education, Labor, and Pensions, and the Committee on Commerce of the Senate and the Committee on Ways and Means and the Committee on Energy and Commerce of the House of Representatives a report on the findings of the study under paragraph (1) and shall include in such report recommendations on the privacy and security requirements described in such paragraph.

(c) Guidance on implementation specification to de-identify protected health information

Not later than 12 months after February 17, 2009, the Secretary shall, in consultation with stakeholders, issue guidance on how best to implement the requirements for the de-identification of protected health information under section 164.514(b) of title 45, Code of Federal Regulations.

(d) GAO report on treatment disclosures

Not later than one year after February 17, 2009, the Comptroller General of the United States shall submit to the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Ways and Means and the Committee on Energy and Commerce of the House of Representatives a report on the best practices related to the disclosure among health care providers of protected health information of an individual for purposes of treatment of such individual. Such report shall include an examination of the best practices implemented by States and by other entities, such as health information exchanges and regional health information organizations, an examination of the extent to which such best practices are successful with respect to the quality of the resulting health care provided to the individual and with respect to the ability of the health care provider to manage such best practices, and an examination of the use of electronic informed consent for disclosing protected health information for treatment, payment, and health care operations.

(e) Report required

Not later than 5 years after February 17, 2009, the Government Accountability Office shall submit to Congress and the Secretary of Health and Human Services a report on the impact of any of the provisions of this Act on health insurance premiums, overall health care costs, adoption of electronic health records by providers, and reduction in medical errors and other quality improvements.

(f) Study

The Secretary shall study the definition of "psychotherapy notes" in section 164.501 of title 45, Code of Federal Regulations, with regard to including test data that is related to direct responses, scores, items, forms, protocols, manuals, or other materials that are part of a mental health evaluation, as determined by the mental health professional providing treatment or evaluation in such definitions and may, based on such study, issue regulations to revise such definition.

CHAPTER 157—QUALITY, AFFORDABLE HEALTH CARE FOR ALL AMERICANS

SUBCHAPTER I—IMMEDIATE ACTIONS TO PRESERVE AND EXPAND COVERAGE

Sec.

- 18001. Immediate access to insurance for uninsured individuals with a preexisting condition.
- 18002. Reinsurance for early retirees.
- 18003. Immediate information that allows consumers to identify affordable coverage options.

SUBCHAPTER II—OTHER PROVISIONS

- 18011. Preservation of right to maintain existing coverage.
- 18012. Rating reforms must apply uniformly to all health insurance issuers and group health plans.
- 18013. Annual report on self-insured plans.
- 18014. Treatment of expatriate health plans under ACA.

SUBCHAPTER III—AVAILABLE COVERAGE CHOICES FOR ALL AMERICANS

PART A—ESTABLISHMENT OF QUALIFIED HEALTH PLANS

- 18021. Qualified health plan defined.
- 18022. Essential health benefits requirements.
- 18023. Special rules.
- 18024. Related definitions.

PART B—CONSUMER CHOICES AND INSURANCE COMPETITION THROUGH HEALTH BENEFIT EXCHANGES

- 18031. Affordable choices of health benefit plans.
- 18032. Consumer choice.
- 18033. Financial integrity.

PART C—STATE FLEXIBILITY RELATING TO EXCHANGES

- 18041. State flexibility in operation and enforcement of Exchanges and related requirements.
- 18042. Federal program to assist establishment and operation of nonprofit, member-run health insurance issuers.
- 18043. Funding for the territories.
- 18044. Level playing field.

PART D—STATE FLEXIBILITY TO ESTABLISH ALTERNATIVE PROGRAMS

- 18051. State flexibility to establish basic health programs for low-income individuals not eligible for medicaid.
- 18052. Waiver for State innovation.
- 18053. Provisions relating to offering of plans in more than one State.
- 18054. Multi-State plans.

PART E—REINSURANCE AND RISK ADJUSTMENT

- 18061. Transitional reinsurance program for individual market in each State.
- 18062. Establishment of risk corridors for plans in individual and small group markets.
- 18063. Risk adjustment.

SUBCHAPTER IV—AFFORDABLE COVERAGE CHOICES FOR ALL AMERICANS

PART A—PREMIUM TAX CREDITS AND COST-SHARING REDUCTIONS

- 18071. Reduced cost-sharing for individuals enrolling in qualified health plans.

PART B—ELIGIBILITY DETERMINATIONS

- 18081. Procedures for determining eligibility for Exchange participation, premium tax credits and reduced cost-sharing, and individual responsibility exemptions.
- 18082. Advance determination and payment of premium tax credits and cost-sharing reductions.
- 18083. Streamlining of procedures for enrollment through an Exchange and State medicaid, CHIP, and health subsidy programs.
- 18084. Premium tax credit and cost-sharing reduction payments disregarded for Federal and federally-assisted programs.

SUBCHAPTER V—SHARED RESPONSIBILITY FOR HEALTH CARE

PART A—INDIVIDUAL RESPONSIBILITY

- 18091. Requirement to maintain minimum essential coverage; findings.
- 18092. Notification of nonenrollment.

PART B—EMPLOYER RESPONSIBILITIES

- 18101. Repealed.

SUBCHAPTER VI—MISCELLANEOUS PROVISIONS

- 18111. Definitions.
- 18112. Transparency in Government.
- 18113. Prohibition against discrimination on assisted suicide.
- 18114. Access to therapies.
- 18115. Freedom not to participate in Federal health insurance programs.
- 18116. Nondiscrimination.
- 18117. Oversight.
- 18118. Rules of construction.
- 18119. Small business procurement.
- 18120. Application.
- 18121. Implementation funding.
- 18122. Rule of construction regarding health care providers.

**SUBCHAPTER I—IMMEDIATE ACTIONS TO PRESERVE AND EXPAND
COVERAGE**

**§18001. Immediate access to insurance for uninsured individuals with a
preexisting condition**

(a) In general

Not later than 90 days after March 23, 2010, the Secretary shall establish a temporary high risk health insurance pool program to provide health insurance coverage for eligible individuals during the period beginning on the date on which such program is established and ending on January 1, 2014.

(b) Administration

(1) In general

The Secretary may carry out the program under this section directly or through contracts to eligible entities.

(2) Eligible entities

To be eligible for a contract under paragraph (1), an entity shall—

- (A) be a State or nonprofit private entity;
- (B) submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require; and
- (C) agree to utilize contract funding to establish and administer a qualified high risk pool for eligible individuals.

(3) Maintenance of effort

To be eligible to enter into a contract with the Secretary under this subsection, a State shall agree not to reduce the annual amount the State expended for the operation of one or more State high risk pools during the year preceding the year in which such contract is entered into.

(c) Qualified high risk pool

(1) In general

Amounts made available under this section shall be used to establish a qualified high risk pool

that meets the requirements of paragraph (2).

(2) Requirements

A qualified high risk pool meets the requirements of this paragraph if such pool—

(A) provides to all eligible individuals health insurance coverage that does not impose any preexisting condition exclusion with respect to such coverage;

(B) provides health insurance coverage—

(i) in which the issuer's share of the total allowed costs of benefits provided under such coverage is not less than 65 percent of such costs; and

(ii) that has an out of pocket limit not greater than the applicable amount described in section 223(c)(2) of title 26 for the year involved, except that the Secretary may modify such limit if necessary to ensure the pool meets the actuarial value limit under clause (i);

(C) ensures that with respect to the premium rate charged for health insurance coverage offered to eligible individuals through the high risk pool, such rate shall—

(i) except as provided in clause (ii), vary only as provided for under section 300gg of this title (as amended by this Act and notwithstanding the date on which such amendments take effect);

(ii) vary on the basis of age by a factor of not greater than 4 to 1; and

(iii) be established at a standard rate for a standard population; and

(D) meets any other requirements determined appropriate by the Secretary.

(d) Eligible individual

An individual shall be deemed to be an eligible individual for purposes of this section if such individual—

(1) is a citizen or national of the United States or is lawfully present in the United States (as determined in accordance with section 18081 of this title);

(2) has not been covered under creditable coverage (as defined in section 300gg(c)(1) of this title as in effect on March 23, 2010) during the 6-month period prior to the date on which such individual is applying for coverage through the high risk pool; and

(3) has a pre-existing condition, as determined in a manner consistent with guidance issued by the Secretary.

(e) Protection against dumping risk by insurers

(1) In general

The Secretary shall establish criteria for determining whether health insurance issuers and employment-based health plans have discouraged an individual from remaining enrolled in prior coverage based on that individual's health status.

(2) Sanctions

An issuer or employment-based health plan shall be responsible for reimbursing the program under this section for the medical expenses incurred by the program for an individual who, based on criteria established by the Secretary, the Secretary finds was encouraged by the issuer to disenroll from health benefits coverage prior to enrolling in coverage through the program. The criteria shall include at least the following circumstances:

(A) In the case of prior coverage obtained through an employer, the provision by the employer, group health plan, or the issuer of money or other financial consideration for disenrolling from the coverage.

(B) In the case of prior coverage obtained directly from an issuer or under an employment-based health plan—

(i) the provision by the issuer or plan of money or other financial consideration for disenrolling from the coverage; or

(ii) in the case of an individual whose premium for the prior coverage exceeded the

premium required by the program (adjusted based on the age factors applied to the prior coverage)—

(I) the prior coverage is a policy that is no longer being actively marketed (as defined by the Secretary) by the issuer; or

(II) the prior coverage is a policy for which duration of coverage form ¹ issue or health status are factors that can be considered in determining premiums at renewal.

(3) Construction

Nothing in this subsection shall be construed as constituting exclusive remedies for violations of criteria established under paragraph (1) or as preventing States from applying or enforcing such paragraph or other provisions under law with respect to health insurance issuers.

(f) Oversight

The Secretary shall establish—

- (1) an appeals process to enable individuals to appeal a determination under this section; and
- (2) procedures to protect against waste, fraud, and abuse.

(g) Funding; termination of authority

(1) In general

There is appropriated to the Secretary, out of any moneys in the Treasury not otherwise appropriated, \$5,000,000,000 to pay claims against (and the administrative costs of) the high risk pool under this section that are in excess of the amount of premiums collected from eligible individuals enrolled in the high risk pool. Such funds shall be available without fiscal year limitation.

(2) Insufficient funds

If the Secretary estimates for any fiscal year that the aggregate amounts available for the payment of the expenses of the high risk pool will be less than the actual amount of such expenses, the Secretary shall make such adjustments as are necessary to eliminate such deficit.

(3) Termination of authority

(A) In general

Except as provided in subparagraph (B), coverage of eligible individuals under a high risk pool in a State shall terminate on January 1, 2014.

(B) Transition to Exchange

The Secretary shall develop procedures to provide for the transition of eligible individuals enrolled in health insurance coverage offered through a high risk pool established under this section into qualified health plans offered through an Exchange. Such procedures shall ensure that there is no lapse in coverage with respect to the individual and may extend coverage after the termination of the risk pool involved, if the Secretary determines necessary to avoid such a lapse.

(4) Limitations

The Secretary has the authority to stop taking applications for participation in the program under this section to comply with the funding limitation provided for in paragraph (1).

(5) Relation to State laws

The standards established under this section shall supersede any State law or regulation (other than State licensing laws or State laws relating to plan solvency) with respect to qualified high risk pools which are established in accordance with this section.

EXECUTIVE DOCUMENTS

EXECUTIVE ORDER NO. 13765

Ex. Ord. No. 13765, Jan. 20, 2017, 82 F.R. 8351, which related to minimizing the economic burden of the Patient Protection and Affordable Care Act (Pub. L. 111–148) pending repeal, was revoked by Ex. Ord. No. 14009, §4(a), Jan. 28, 2021, 86 F.R. 7794, formerly set out below.

EXECUTIVE ORDER NO. 13813

Ex. Ord. No. 13813, Oct. 12, 2017, 82 F.R. 48385, which related to promoting association health plans, short-term, limited-duration insurance, and health reimbursement arrangements, was revoked by Ex. Ord. No. 14009, §4(a), Jan. 28, 2021, 86 F.R. 7794, set out below.

EX. ORD. NO. 13877. IMPROVING PRICE AND QUALITY TRANSPARENCY IN AMERICAN HEALTHCARE TO PUT PATIENTS FIRST

Ex. Ord. No. 13877, June 24, 2019, 84 F.R. 30849, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. Purpose. My Administration seeks to enhance the ability of patients to choose the healthcare that is best for them. To make fully informed decisions about their healthcare, patients must know the price and quality of a good or service in advance. With the predominant role that third-party payers and Government programs play in the American healthcare system, however, patients often lack both access to useful price and quality information and the incentives to find low-cost, high-quality care. Opaque pricing structures may benefit powerful special interest groups, such as large hospital systems and insurance companies, but they generally leave patients and taxpayers worse off than would a more transparent system.

Pursuant to Executive Order 13813 of October 12, 2017 (Promoting Healthcare Choice and Competition Across the United States) [formerly set out above], my Administration issued a report entitled "Reforming America's Healthcare System Through Choice and Competition." The report recommends developing price and quality transparency initiatives to ensure that healthcare patients can make well-informed decisions about their care. In particular, the report describes the characteristics of the most effective price transparency efforts: they distinguish between the charges that providers bill and the rates negotiated between payers and providers; they give patients proper incentives to seek information about the price of healthcare services; and they provide useful price comparisons for "shoppable" services (common services offered by multiple providers through the market, which patients can research and compare before making informed choices based on price and quality).

Shoppable services make up a significant share of the healthcare market, which means that increasing transparency among these services will have a broad effect on increasing competition in the healthcare system as a whole. One study, cited by the Council of Economic Advisers in its 2019 Annual Report, examined a sample of the highest-spending categories of medical cases requiring inpatient and outpatient care. Of the categories of medical cases requiring inpatient care, 73 percent of the 100 highest-spending categories were

shoppable. Among the categories of medical cases requiring outpatient care, 90 percent of the 300 highest-spending categories were shoppable. Another study demonstrated that the ability of patients to price-shop imaging services, a particularly fungible and shoppable set of healthcare services, was associated with a per-service savings of up to approximately 19 percent.

Improving transparency in healthcare will also further protect patients from harmful practices such as surprise billing, which occurs when patients receive unexpected bills at highly inflated prices from out-of-network providers they had no opportunity to select in advance. On May 9, 2019, I announced principles to guide efforts to address surprise billing. The principles outline how patients scheduling appointments to receive facility-based care should have access to pricing information related to the providers and services they may need, and the out-of-pocket costs they may incur. Having access to this type of information in advance of care can help patients avoid excessive charges.

Making meaningful price and quality information more broadly available to more Americans will protect patients and increase competition, innovation, and value in the healthcare system.

SEC. 2. Policy. It is the policy of the Federal Government to ensure that patients are engaged with their healthcare decisions and have the information requisite for choosing the healthcare they want and need. The Federal Government aims to eliminate unnecessary barriers to price and quality transparency; to increase the availability of meaningful price and quality information for patients; to enhance patients' control over their own healthcare resources, including through tax-preferred medical accounts; and to protect patients from surprise medical bills.

SEC. 3. *Informing Patients About Actual Prices.* (a) Within 60 days of the date of this order [June 24, 2019], the Secretary of Health and Human Services shall propose a regulation, consistent with applicable law, to require hospitals to publicly post standard charge information, including charges and information based on negotiated rates and for common or shoppable items and services, in an easy-to-understand, consumer-friendly, and machine-readable format using consensus-based data standards that will meaningfully inform patients' decision making and allow patients to compare prices across hospitals. The regulation should require the posting of standard charge information for services, supplies, or fees billed by the hospital or provided by employees of the hospital. The regulation should also require hospitals to regularly update the posted information and establish a monitoring mechanism for the Secretary to ensure compliance with the posting requirement, as needed.

(b) Within 90 days of the date of this order, the Secretaries of Health and Human Services, the Treasury, and Labor shall issue an advance notice of proposed rulemaking, consistent with applicable law, soliciting comment on a proposal to require healthcare providers, health insurance issuers, and self-insured group health plans to provide or facilitate access to information about expected out-of-pocket costs for items or services to patients before they receive care.

(c) Within 180 days of the date of this order, the Secretary of Health and Human Services, in consultation with the Attorney General and the Federal Trade Commission, shall issue a report describing the manners in which the Federal Government or the private sector are impeding healthcare price and quality transparency for patients, and providing recommendations for eliminating these impediments in a way that promotes competition. The report should describe why, under current conditions, lower-cost providers generally avoid healthcare advertising.

SEC. 4. *Establishing a Health Quality Roadmap.* Within 180 days of the date of this order, the Secretaries of Health and Human Services, Defense, and Veterans Affairs shall develop a Health Quality Roadmap (Roadmap) that aims to align and improve reporting on data and quality measures across Medicare, Medicaid, the Children's Health Insurance Program, the Health Insurance Marketplace, the Military Health System, and the Veterans Affairs Health System. The Roadmap shall include a strategy for establishing, adopting, and publishing common quality measurements; aligning inpatient and outpatient measures; and eliminating low-value or counterproductive measures.

SEC. 5. *Increasing Access to Data to Make Healthcare Information More Transparent and Useful to Patients.* Within 180 days of the date of this order, the Secretary of Health and Human Services, in consultation with the Secretaries of the Treasury, Defense, Labor, and Veterans Affairs, and the Director of the Office of Personnel Management, shall increase access to de-identified claims data from taxpayer-funded healthcare programs and group health plans for researchers, innovators, providers, and entrepreneurs, in a manner that is consistent with applicable law and that ensures patient privacy and security. Providing access to this data will facilitate the development of tools that empower patients to be better informed as they make decisions related to healthcare goods and services. Access to this data will also enable researchers and entrepreneurs to locate inefficiencies and opportunities for improvement, such as patterns of performance of medical procedures that are outside the recommended standards of care. Such data may be derived from the Transformed Medicaid Statistical Information System (T-MSIS) and other sources. As part of this process,

the Secretary of Health and Human Services shall make a list of priority datasets that, if de-identified, could advance the policies set forth by this order, and shall report to the President on proposed plans for future release of these priority datasets and on any barriers to their release.

SEC. 6. *Empowering Patients by Enhancing Control Over Their Healthcare Resources.* (a) Within 120 days of the date of this order, the Secretary of the Treasury, to the extent consistent with law, shall issue guidance to expand the ability of patients to select high-deductible health plans that can be used alongside a health savings account, and that cover low-cost preventive care, before the deductible, for medical care that helps maintain health status for individuals with chronic conditions.

(b) Within 180 days of the date of this order, the Secretary of the Treasury, to the extent consistent with law, shall propose regulations to treat expenses related to certain types of arrangements, potentially including direct primary care arrangements and healthcare sharing ministries, as eligible medical expenses under section 213(d) of title 26, United States Code.

(c) Within 180 days of the date of this order, the Secretary of the Treasury, to the extent consistent with law, shall issue guidance to increase the amount of funds that can carry over without penalty at the end of the year for flexible spending arrangements.

SEC. 7. *Addressing Surprise Medical Billing.* Within 180 days of the date of this order, the Secretary of Health and Human Services shall submit a report to the President on additional steps my Administration may take to implement the principles on surprise medical billing announced on May 9, 2019.

SEC. 8. *General Provisions.* (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

DONALD J. TRUMP.

EX. ORD. NO. 13951. AN AMERICA-FIRST HEALTHCARE PLAN

Ex. Ord. No. 13951, Sept. 24, 2020, 85 F.R. 62179, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. *Purpose.* Since January 20, 2017, my Administration has been committed to the goal of bringing great healthcare to the American people and putting patients first. To that end, my Administration has taken monumental steps to improve the efficiency and quality of healthcare in the United States.

(a) My Administration has been committed to restoring choice and control to the American patient.

On December 22, 2017, I signed into law the repeal of the burdensome individual-mandate penalty, liberating millions of low-income Americans from a tax that penalized them for not purchasing health-insurance coverage they did not want or could not afford. Through Executive Order 13813 of October 12, 2017 (Promoting Healthcare Choice and Competition Across the United States) [formerly set out above], my Administration has expanded coverage options for millions of Americans in several ways. My Administration increased the availability of renewable short-term, limited-duration healthcare plans, providing options that are up to 60 percent cheaper than the least expensive alternatives under the Patient Protection and Affordable Care Act (ACA) [Pub. L. 111–148] and are projected to cover 500,000 individuals who would otherwise be uninsured. My Administration expanded health reimbursement arrangements, which have been projected by the Department of the Treasury to reach 800,000 businesses and over 11 million employees and to expand coverage to more than 800,000 individuals who would otherwise be uninsured. My Administration also issued a rule to increase the availability of association health plans for small businesses, which, upon implementation of the rule, are projected to cover up to 400,000 previously uninsured individuals for on average 30 percent less cost.

As set forth in the Economic Report of the President (February 2020), my Administration's expansion of health savings accounts will further help millions of Americans pay for health expenditures by allowing them to save more of their own money free from Federal taxation, and will especially help Americans with chronic conditions who now have more flexibility to enroll in plans that fit their complicated care needs and can be paired with a tax-advantaged account.

At the beginning of the current COVID–19 pandemic, my Administration acted to dramatically increase the accessibility and availability of telehealth services for Medicare beneficiaries, enabling millions of individuals

to use these services. Pursuant to Executive Order 13941 of August 3, 2020 (Improving Rural Health and Telehealth Access) [42 U.S.C. 254c note], the Secretary of Health and Human Services will make permanent many of the new policies that improve the accessibility and availability of telehealth services. In addition, pursuant to that order, the Secretary of Health and Human Services and the Secretary of Agriculture will develop and implement a strategy to improve the physical and communications healthcare infrastructure available to rural Americans.

Through our State Relief and Empowerment Waivers, my Administration has given States additional health-insurance flexibility, which has expanded health-insurance coverage options for consumers and lowered costs for patients. These waivers allow States to move away from the ACA's rigid structure and are estimated to have lowered premiums by approximately 11 percent in Wisconsin, 20 percent in Minnesota, and 43 percent in Maryland. Due to actions my Administration took, like the State Relief and Empowerment Waivers, after years of dwindling choices and escalating prices, plan options for consumers increased and for 2019, for the first time ever, benchmark premiums actually decreased on Healthcare.gov. For 2020, the average benchmark premium dropped by nearly 4 percent.

After the prior Administration spent tens of billions of dollars creating electronic health records systems unable to accurately or effectively record and communicate patient data, my Administration has paved the way for a new wave of innovation to allow patients to safely send their own medical records to care providers of their choosing. My Patients over Paperwork initiative has cut red tape for doctors and nurses so they can spend more time with their patients, which the Centers for Medicare and Medicaid Services (CMS) within the Department of Health and Human Services (HHS) has estimated to save over 40 million hours of wasted time for providers and suppliers between 2017 and 2021.

(b) My Administration has been ceaseless in its efforts to lower costs to make healthcare more affordable for American patients.

Under my tenure, prescription drugs saw their largest annual price decrease in nearly half a century. For three consecutive years, we have approved a record number of generic drugs. The Council of Economic Advisers has estimated that these approvals saved patients \$26 billion in the first 18 months of my Administration alone. As part of the Further Consolidated Appropriations Act, 2020 [Pub. L. 116-94], I signed into law the Creating and Restoring Equal Access to Equivalent Samples Act [see 21 U.S.C. 355-2], which will pave the way for even more generic drugs and is projected to save taxpayers \$3.3 billion from 2019 to 2029.

CMS has acted to offer Medicare beneficiaries prescription drug plans with the option of insulin capped at \$35 in out-of-pocket expenses for a 30-day supply. We are also reducing Government payments to overcharging hospitals participating in the 340B Drug Pricing Program by instead paying rates that more accurately reflect the hospitals' acquisition costs, which CMS estimated would save Medicare beneficiaries \$320 million on copayments for drugs alone.

As a result of Executive Order 13937 of July 24, 2020 (Access to Affordable Life-Saving Medications) [42 U.S.C. 254b note], low-income Americans who receive care from a federally qualified health center will have access to insulin and injectable epinephrine at prices lower than ever before. Under Executive Order 13938 of July 24, 2020 (Increasing Drug Importation to Lower Prices for American Patients) [21 U.S.C. 384 note], my Administration will be the first to complete a rulemaking to authorize the safe importation of certain lower-cost prescription drugs from Canada. Pursuant to Executive Order 13939 of July 24, 2020 (Lowering Prices for Patients by Eliminating Kickbacks to Middlemen) [42 U.S.C. 1320a-7b note], my Administration is taking action to eliminate wasteful payments to middlemen by passing drug discounts through to patients at the pharmacy counter without increasing premiums for beneficiaries or cost to Federal taxpayers. And my Administration is taking action to ensure that Medicare patients receive the lowest price that drug companies offer comparable foreign nations through Executive Order 13948 of September 13, 2020 (Lowering Drug Prices by Putting America First) [42 U.S.C. 1395u note].

As part of the Further Consolidated Appropriations Act, 2020, I also signed into law the repeal of the medical device tax, the annual fee on health-insurance providers, and the "Cadillac" tax on certain employer-sponsored health insurance, which threatened to dramatically increase the cost of healthcare for working families.

My Administration is transforming the black-box hospital and insurance pricing systems to be transparent about price and quality. Regardless of health-insurance coverage, two-thirds of adults in America still worry about the threat of unexpected medical bills. This fear is the result of a system under which individuals and employers are unable to see how insurance companies, pharmacy benefit managers, insurance brokers, and providers are or will be paid. One major culprit is the practice of "surprise billing," in which a patient receives

unexpected bills at highly inflated prices from providers who are not part of the patient's insurance network, even if the patient was treated at a hospital that was part of the patient's network. Patients can receive these bills despite having no opportunity to select around an out-of-network provider in advance.

On May 9, 2019, I announced four principles to guide congressional efforts to prohibit exorbitant bills resulting from patients' accidentally or unknowingly receiving services from out-of-network physicians. Unfortunately, the Congress has failed to act, and patients remain vulnerable to surprise billing.

In the absence of congressional action, my Administration has already taken strong and decisive action to make healthcare prices more transparent. On June 24, 2019, I signed Executive Order 13877 (Improving Price and Quality Transparency in American Healthcare to Put Patients First) [set out above], directing certain agencies—for the first time ever—to make sure patients have access to meaningful price and quality information prior to the delivery of care. Beginning January 1, 2021, hospitals will be required to publish their real price for every service, and publicly display in a consumer-friendly, easy-to-understand format the prices of at least 300 different common services that are able to be shopped for in advance.

We have also taken some concrete steps to eliminate surprise out-of-network bills. For example, on April 10, 2020, my Administration required providers to certify, as a condition of receiving supplemental COVID-19 funding, that they would not seek to collect out-of-pocket expenses from a patient for treatment related to COVID-19 in an amount greater than what the patient would have otherwise been required to pay for care by an in-network provider. These initiatives have made important progress, although additional efforts are necessary.

Not all hospitals allow for surprise bills. But many do. Unfortunately, surprise billing has become sufficiently pervasive that the fear of receiving a surprise bill may dissuade patients from seeking appropriate care. And research suggests a correlation between hospitals that frequently allow surprise billing and increases in hospital admissions and imaging procedures, putting patients at risk of receiving unnecessary services, which can lead to physical harm and threatens the long-term financial sustainability of Medicare.

Efforts to limit surprise billing and increase the number of providers participating in the same insurance network as the hospital in which they work would correspondingly streamline the ability of patients to receive care and reduce time spent on billing disputes.

On May 15, 2020, HHS released the Health Quality Roadmap to empower patients to make fully informed decisions about their healthcare by facilitating the availability of appropriate and meaningful price and quality information. These transformative actions will arm patients with the tools to be active and effective shoppers for healthcare services, enabling them to identify high-value providers and services, and ultimately place downward pressure on prices.

My Administration has cracked down on waste, fraud, and abuse that direct valuable taxpayer resources away from those who need them most. My Administration implemented a "site neutral" payment system between hospital outpatient departments and physicians' offices, to ensure Medicare beneficiaries are charged the same price for the same service regardless of where it takes place, which CMS estimates will save them approximately \$160 million in co-payments for 2020. We also changed the rules to enable Government watchdogs to proactively identify and stop perpetrators of fraud before money goes out the door.

(c) My Administration has been dedicated to providing better care for all Americans.

This includes a steadfast commitment to always protecting individuals with pre-existing conditions and ensuring they have access to the high-quality healthcare they deserve. No American should have to risk going without health insurance based on a health history that he or she cannot change.

In an attempt to justify the ACA, the previous Administration claimed that, absent action by the Congress, up to 129 million (later updated to 133 million) non-elderly people with what it described as pre-existing conditions were in danger of being denied health-insurance coverage. According to the previous Administration, however, only 2.7 percent of such individuals actually gained access to health insurance through the ACA, given existing laws and programs already in place to cover them. For example, the Health Insurance Portability and Accountability Act of 1996 [Pub. L. 104-191] has long protected individuals with pre-existing conditions, including individuals covered by group health plans and individuals who had such coverage but lost it.

The ACA produced multiple other failures. The average insurance premium in the individual market more than doubled from 2013 to 2017, and those who have not received generous Federal subsidies have struggled to maintain coverage. For those who have managed to maintain coverage, many have experienced a substantial rise in deductibles, limited choice of insurers, and limited provider networks that exclude their doctors and the facilities best suited to care for them.

Additionally, approximately 30 million Americans remain uninsured, notwithstanding the previous Administration's promises that the ACA would address this intractable problem. On top of these disappointing results, Federal taxpayers and, unfortunately, future generations of American workers, have been left with an

enormous bill. The ACA's Medicaid expansion and subsidies for the individual market are projected by the Congressional Budget Office to cost more than \$1.8 trillion over the next decade.

The ACA is neither the best nor the only way to ensure that Americans who suffer from pre-existing conditions have access to health-insurance coverage. I have agreed with the States challenging the ACA, who have won in the Federal district court and court of appeals, that the ACA, as amended, exceeds the power of the Congress. The ACA was flawed from its inception and should be struck down. However, access to health insurance despite underlying health conditions should be maintained, even if the Supreme Court invalidates the unconstitutional, and largely harmful, ACA.

My Administration has always been committed to ensuring that patients with pre-existing conditions can obtain affordable healthcare, to lowering healthcare costs, to improving quality of care, and to enabling individuals to choose the healthcare that meets their needs. For example, when the COVID-19 pandemic hit, my Administration implemented a program to provide any individual without health-insurance coverage access to necessary COVID-19-related testing and treatment.

My commitment to improving care across our country expands vastly beyond the rules governing health insurance. On July 10, 2019, I signed Executive Order 13879 (Advancing American Kidney Health) [42 U.S.C. 280g-6 note] to improve care for the hundreds of thousands of Americans suffering from end-stage renal disease. Pursuant to that order, my Administration launched a program to encourage home dialysis and promote transplants for patients, and expects to enroll approximately 120,000 Medicare beneficiaries with end-stage renal disease in the program. We also have removed financial barriers to living organ donation by adding additional financial support for living donors, such as by reimbursing expenses for lost wages, child care, and elder care. HHS, together with the American Society of Nephrology, issued two phases of awards through KidneyX's Redesign Dialysis Price Competition to work toward the creation of an artificial kidney.

My Administration has taken unprecedented action to improve the quality of and access to care for individuals with HIV, as part of our goal of ending the epidemic of HIV in the United States by 2030. HHS has awarded at least \$226 million to expand access to HIV care, treatment, medication, and prevention services, focused on 48 counties, Washington, DC, and San Juan, Puerto Rico, where more than 50 percent of new HIV diagnoses occurred in 2016 and 2017, as well as seven States with a substantial rural HIV rate. We secured a historic donation of a groundbreaking HIV preventive medication that is available at no cost to eligible patients.

My Administration has started a transformation in healthcare in rural America. This includes a new effort, pursuant to my directive in Executive Order 13941, to support small hospitals and health clinics in rural communities in transitioning from volume-based Medicare and Medicaid reimbursement, which has failed rural communities that struggle with a lack of patient volume, and toward value-based payment mechanisms that are tailored to meet the needs of their communities. We updated Medicare payment policies to address a problem in the program's payment calculation that has historically disadvantaged rural hospitals, and released a Rural Action Plan to incorporate recommendations from experts and leaders across the Federal Government. We have also dedicated a special focus on improving care offered through the Indian Health Service (IHS) within HHS, including by creating the Office of Quality, implementing an increase in annual funding for IHS by \$243 million from 2019 to 2020, and expanding nationwide IHS's successful Alaska Community Health Aide Program.

My Administration has additionally demonstrated an incredible dedication to protecting and improving care for those most in need, including senior citizens, those with substance use disorders, and those to whom our Nation owes the greatest debt: our veterans.

I have protected the viability of the Medicare program. For example, on February 9, 2018, I signed into law the repeal of the Independent Payment Advisory Board, which would have been a group of unelected bureaucrats created by the ACA, designed to be insulated from the will of America's elected leaders for the purpose of cutting the spending of this important program. On October 3, 2019, I signed Executive Order 13890 (Protecting and Improving Medicare for Our Nation's Seniors) [42 U.S.C. 1395 note prec.], to modernize the Medicare program and continue its viability. According to CMS estimates, seniors have saved \$2.65 billion in lower Medicare premiums under my Administration while benefiting from more choices. For example, the average monthly Medicare Advantage premium has declined an estimated 28 percent since 2017, and Medicare Advantage has included about 1,200 more plan options since 2018. New Medicare Advantage supplemental benefits have helped seniors stay safe in their homes, improved respite care for caregivers, and provided transportation, more in-home support services and assistance, and non-opioid pain management alternatives like therapeutic massages. Medicare Part D premiums are at their lowest level in their history, with the average basic premium declining 13.5 percent since 2016.

My Administration has directed unprecedented attention on the substance use disorder epidemic, with a focus on reducing overdose deaths from prescription opioids and the deadly synthetic opioid fentanyl. On

October 24, 2018, I signed the Substance Use-Disorder Prevention that Promotes Opioid Recovery and Treatment for Patients and Communities Act [Pub. L. 115–271], enabling the expenditure of billions of dollars of funding for important programs to support prevention and recovery. My Administration has provided approximately \$22.5 billion from 2017 to 2020 to address the opioid crisis and improve access to prevention, treatment, and recovery services. We saw a 34 percent decrease in total opioids dispensed monthly by pharmacies between 2017 and 2019, an approximate increase of 64 percent in the number of Americans who receive medication-assisted treatment for opioid use disorder since 2016, and a 484 percent increase in naloxone prescriptions since 2017. Data show that drug overdose deaths fell nationwide for the first time in decades between 2017 and 2018, with many of the hardest-hit States leading the way.

Improving care for our Nation's veterans has been a priority since the beginning of my Administration. On June 6, 2018, I signed the [John S. McCain III, Daniel K. Akaka, and Samuel R. Johnson] VA Maintaining Internal Systems and Strengthening Integrated Outside Networks (MISSION) Act of 2018 [Pub. L. 115–182], which authorized billions of dollars to improve options for veterans to receive care outside of Department of Veterans Affairs (VA) healthcare providers. Since taking effect, the VA estimates that more than 2.4 million veterans have benefited from more than 6.5 million referrals to the 725,000 private healthcare providers with which the VA is now working. On June 23, 2017, I signed the Department of Veterans Affairs Accountability and Whistleblower Protection Act of 2017 [Pub. L. 115–41] to hold our civil servants accountable for maintaining the best quality of care possible for our Nation's veterans by giving the Secretary of Veterans Affairs more power to discipline employees and shorten an appeals process that can last years. On March 5, 2019, I signed Executive Order 13861 (National Roadmap to Empower Veterans and End Suicide) [Mar. 5, 2019, 84 F.R. 8585] to ensure that the Federal Government leads a collective effort to prevent suicide among our veterans.

I have used scientific research to focus on areas most pressing for the health of Americans. On September 19, 2019, I signed Executive Order 13887 (Modernizing Influenza Vaccines in the United States to Promote National Security and Public Health) [42 U.S.C. 247d–7e note], recognizing the threat that pandemic influenza continues to represent and putting forward a plan to prepare for future influenza pandemics. To modernize influenza vaccines and promote national security and public health, HHS issued a 6-year, \$226 million contract to retain and increase capacity to produce recombinant influenza vaccine domestically, and the National Institute of Allergy and Infectious Diseases, part of the National Institutes of Health within HHS, initiated the Collaborative Influenza Vaccine Innovation Centers program.

Investments my Administration has made in scientific research will help tackle some of our most pressing medical challenges and pay dividends for generations to come. This includes working to increase funding for Alzheimer's disease research by billions of dollars since 2017 and a plan to invest more than \$500 million over the next decade to improve pediatric cancer research. On December 18, 2018, I signed the Sickle Cell Disease and Other Heritable Blood Disorders Research, Surveillance, Prevention, and Treatment Act of 2018 [Pub. L. 115–327, see 42 U.S.C. 300b–5] to provide support for research into sickle cell disease, which disproportionately impacts African Americans and Hispanics, and to authorize programs relating to sickle cell disease surveillance, prevention, and treatment.

On May 30, 2018, I signed the Trickett Wendler, Frank Mongiello, Jordan McLinn, and Matthew Bellina Right to Try Act of 2017 [Pub. L. 115–176, see 21 U.S.C. 360bbb–0a], which gives terminally ill patients the right to access certain treatments without being blocked by onerous Federal regulations.

In response to the COVID–19 pandemic, my Administration launched Operation Warp Speed, a groundbreaking effort of the Federal Government to engage with the private sector to quickly develop and deliver safe and effective vaccines, therapeutics, and diagnostics for COVID–19. On August 6, 2020, I signed Executive Order 13944 (Combating Public Health Emergencies and Strengthening National Security by Ensuring Essential Medicines, Medical Countermeasures, and Critical Inputs Are Made in the United States) [42 U.S.C. 247d–6b note], to protect Americans through reduced dependence on foreign manufacturers for essential medicines and other items and to strengthen the Nation's Public Health Industrial Base.

Taken together, these extraordinary reforms constitute an ongoing effort to improve American healthcare by putting patients first and delivering continuous innovation. And this effort will continue to succeed because of my Administration's commitment to delivering great healthcare with more choices, better care, and lower costs for all Americans.

SEC. 2. Policy. It has been and will continue to be the policy of the United States to give Americans seeking healthcare more choice, lower costs, and better care and to ensure that Americans with pre-existing conditions can obtain the insurance of their choice at affordable rates.

SEC. 3. Giving Americans More Choice in Healthcare. The Secretary of the Treasury, the Secretary of Labor, and the Secretary of Health and Human Services shall maintain and build upon existing actions to expand access to and options for affordable healthcare.

SEC. 4. *Lowering Healthcare Costs for Americans.* (a) The Secretary of Health and Human Services, in coordination with the Commissioner of Food and Drugs, shall maintain and build upon existing actions to expand access to affordable medicines, including accelerating the approvals of new generic and biosimilar drugs and facilitating the safe importation of affordable prescription drugs from abroad.

(b) The Secretary of the Treasury, the Secretary of Labor, and the Secretary of Health and Human Services shall maintain and build upon existing actions to ensure consumers have access to meaningful price and quality information prior to the delivery of care.

(i) Recognizing that both chambers of the Congress have made substantial progress towards a solution to end surprise billing, the Secretary of Health and Human Services shall work with the Congress to reach a legislative solution by December 31, 2020.

(ii) In the event a legislative solution is not reached by December 31, 2020, the Secretary of Health and Human Services shall take administrative action to prevent a patient from receiving a bill for out-of-pocket expenses that the patient could not have reasonably foreseen.

(iii) Within 180 days of the date of this order [Sept. 24, 2020], the Secretary of Health and Human Services shall update the Medicare.gov Hospital Compare website to inform beneficiaries of hospital billing quality, including:

(A) whether the hospital is in compliance with the Hospital Price Transparency Final Rule, as amended (84 Fed. Reg. 65524), effective January 1, 2021;

(B) whether, upon discharge, the hospital provides patients with a receipt that includes a list of itemized services received during a hospital stay; and

(C) how often the hospital pursues legal action against patients, including to garnish wages, to place a lien on a patient's home, or to withdraw money from a patient's income tax refund.

(c) The Secretary of Health and Human Services, in coordination with the Administrator of CMS, shall maintain and build upon existing actions to reduce waste, fraud, and abuse in the healthcare system.

SEC. 5. *Providing Better Care to Americans.* (a) The Secretary of Health and Human Services and the Secretary of Veterans Affairs shall maintain and build upon existing actions to improve quality in the delivery of care for veterans.

(b) The Secretary of Health and Human Services shall continue to promote medical innovations to find novel and improved treatments for COVID-19, Alzheimer's disease, sickle cell disease, pediatric cancer, and other conditions threatening the well-being of Americans.

SEC. 6. *General Provisions.* (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

DONALD J. TRUMP.

EXECUTIVE ORDER NO. 14009

Ex. Ord. No. 14009, Jan. 28, 2021, 86 F.R. 7793, which related to a special enrollment period in response to the COVID-19 pandemic and increasing access and affordability of healthcare under and the Patient Protection and Affordable Care Act (Pub. L. 111-148), was revoked by Ex. Ord. No. 14148, §2(t), Jan. 20, 2025, 90 F.R. 8238.

EXECUTIVE ORDER NO. 14070

Ex. Ord. No. 14070, Apr. 5, 2022, 87 F.R. 20689, which related to expanding the availability of affordable health coverage, improving the quality of coverage, strengthening benefits, and helping more Americans enroll in quality health coverage, was revoked by Ex. Ord. No. 14148, §2(uu), Jan. 20, 2025, 90 F.R. 8239.

EX. ORD. NO. 14221. MAKING AMERICA HEALTHY AGAIN BY EMPOWERING PATIENTS WITH CLEAR, ACCURATE, AND ACTIONABLE HEALTHCARE PRICING INFORMATION

Ex. Ord. No. 14221, Feb. 25, 2025, 90 F.R. 11005, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered:

SECTION 1. *Purpose.* During my first term, my Administration took historic steps to correct a fundamental

wrong within the American healthcare system. For far too long, prices were hidden from patients and employers, with inadequate recourse available to individuals looking to shop for care or obtain pricing information from a healthcare provider in advance of a visit or procedure. These opaque pricing arrangements allowed powerful entities, such as hospitals and insurance companies, to operate with insufficient accountability regarding their pricing practices, resulting in patients, employers, and taxpayers shouldering the burden of inflated healthcare costs.

Pursuant to Executive Order 13877 of June 24, 2019 (Improving Price and Quality Transparency in American Healthcare to Put Patients First) [set out above], my Administration issued paradigm-shifting regulations to put patients first by requiring hospitals and health plans to deliver meaningful price information to the American people. These regulations require hospitals to maintain a consumer-friendly display of pricing information for up to 300 shoppable services and a machine-readable file with negotiated rates for every single service the hospital provides; health plans to post their negotiated rates with providers as well as their out-of-network payments to providers and the actual prices they or their pharmacy benefit manager pay for prescription drugs; and health plans to maintain a consumer-facing internet tool through which individuals can access price information.

One economic analysis from 2023 estimated the impact of these regulations, if fully implemented, could result in as much as \$80 billion in healthcare savings for consumers, employers, and insurers by 2025. Another report from 2024 suggested healthcare price transparency could help employers reduce healthcare costs by 27 percent across 500 common healthcare services. Recent data has found the top 25 percent of most expensive healthcare service prices have dropped by 6.3 percent per year following the initial implementation of price transparency during my first term.

Unfortunately, progress on price transparency at the Federal level has stalled since the end of my first term. Hospitals and health plans were not adequately held to account when their price transparency data was incomplete or not even posted at all. The Biden Administration failed to take sufficient steps to fully enforce my Administration's requirement that would end the opaque nature of drug prices by ensuring health plans publicly post the true prices they pay for prescription drugs.

The American people deserve better. Making America healthy again will require empowering individuals with the best information possible to inform their life and healthcare choices. By building on the historic efforts of my first term, my Administration will make more meaningful price information available to patients to support a more competitive, innovative, affordable, and higher quality healthcare system.

SEC. 2. *Policy.* It is the policy of the United States to put patients first and ensure they have the information they need to make well-informed healthcare decisions. The Federal Government will continue to promote universal access to clear and accurate healthcare prices and will take all necessary steps to improve existing price transparency requirements; increase enforcement of price transparency requirements; and identify opportunities to further empower patients with meaningful price information, potentially including through the expansion of existing price transparency requirements.

SEC. 3. *Fulfilling the Promise of Radical Transparency.* The Secretary of the Treasury, the Secretary of Labor, and the Secretary of Health and Human Services shall take all necessary and appropriate action to rapidly implement and enforce the healthcare price transparency regulations issued pursuant to Executive Order 13877, including, within 90 days of the date of this order [Feb. 25, 2025], action to:

- (a) require the disclosure of the actual prices of items and services, not estimates;
- (b) issue updated guidance or proposed regulatory action ensuring pricing information is standardized and easily comparable across hospitals and health plans; and
- (c) issue guidance or proposed regulatory action updating enforcement policies designed to ensure compliance with the transparent reporting of complete, accurate, and meaningful data.

SEC. 4. *General Provisions.* (a) Nothing in this order shall be construed to impair or otherwise affect:

- (i) the authority granted by law to an executive department or agency, or the head thereof; or
 - (ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.
- (b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.
- (c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

DONALD J. TRUMP.

¹ *So in original. Probably should be "from".*

§18002. Reinsurance for early retirees

(a) Administration

(1) In general

Not later than 90 days after March 23, 2010, the Secretary shall establish a temporary reinsurance program to provide reimbursement to participating employment-based plans for a portion of the cost of providing health insurance coverage to early retirees (and to the eligible spouses, surviving spouses, and dependents of such retirees) during the period beginning on the date on which such program is established and ending on January 1, 2014.

(2) Reference

In this section:

(A) Health benefits

The term "health benefits" means medical, surgical, hospital, prescription drug, and such other benefits as shall be determined by the Secretary, whether self-funded, or delivered through the purchase of insurance or otherwise.

(B) Employment-based plan

The term "employment-based plan" means a group benefits plan providing health benefits that—

(i) is—

(I) maintained by one or more current or former employers (including without limitation any State or local government or political subdivision thereof or any agency or instrumentality of any of the foregoing), employee organization, a voluntary employees' beneficiary association, or a committee or board of individuals appointed to administer such plan; or

(II) a multiemployer plan (as defined in section 1002(37) of title 29); and

(ii) provides health benefits to early retirees.

(C) Early retirees

The term "early retirees" means individuals who are age 55 and older but are not eligible for coverage under title XVIII of the Social Security Act [42 U.S.C. 1395 et seq.], and who are not active employees of an employer maintaining, or currently contributing to, the employment-based plan or of any employer that has made substantial contributions to fund such plan.

(b) Participation

(1) Employment-based plan eligibility

A participating employment-based plan is an employment-based plan that—

(A) meets the requirements of paragraph (2) with respect to health benefits provided under the plan; and

(B) submits to the Secretary an application for participation in the program, at such time, in such manner, and containing such information as the Secretary shall require.

(2) Employment-based health benefits

An employment-based plan meets the requirements of this paragraph if the plan—

(A) implements programs and procedures to generate cost-savings with respect to participants with chronic and high-cost conditions;

(B) provides documentation of the actual cost of medical claims involved; and

(C) is certified by the Secretary.

(c) Payments

(1) Submission of claims

(A) In general

A participating employment-based plan shall submit claims for reimbursement to the Secretary which shall contain documentation of the actual costs of the items and services for which each claim is being submitted.

(B) Basis for claims

Claims submitted under subparagraph (A) shall be based on the actual amount expended by the participating employment-based plan involved within the plan year for the health benefits provided to an early retiree or the spouse, surviving spouse, or dependent of such retiree. In determining the amount of a claim for purposes of this subsection, the participating employment-based plan shall take into account any negotiated price concessions (such as discounts, direct or indirect subsidies, rebates, and direct or indirect remunerations) obtained by such plan with respect to such health benefit. For purposes of determining the amount of any such claim, the costs paid by the early retiree or the retiree's spouse, surviving spouse, or dependent in the form of deductibles, co-payments, or co-insurance shall be included in the amounts paid by the participating employment-based plan.

(2) Program payments

If the Secretary determines that a participating employment-based plan has submitted a valid claim under paragraph (1), the Secretary shall reimburse such plan for 80 percent of that portion of the costs attributable to such claim that exceed \$15,000, subject to the limits contained in paragraph (3).

(3) Limit

To be eligible for reimbursement under the program, a claim submitted by a participating employment-based plan shall not be less than \$15,000 nor greater than \$90,000. Such amounts shall be adjusted each fiscal year based on the percentage increase in the Medical Care Component of the Consumer Price Index for all urban consumers (rounded to the nearest multiple of \$1,000) for the year involved.

(4) Use of payments

Amounts paid to a participating employment-based plan under this subsection shall be used to lower costs for the plan. Such payments may be used to reduce premium costs for an entity described in subsection (a)(2)(B)(i) or to reduce premium contributions, co-payments, deductibles, co-insurance, or other out-of-pocket costs for plan participants. Such payments shall not be used as general revenues for an entity described in subsection (a)(2)(B)(i). The Secretary shall develop a mechanism to monitor the appropriate use of such payments by such entities.

(5) Payments not treated as income

Payments received under this subsection shall not be included in determining the gross income of an entity described in subsection (a)(2)(B)(i) that is maintaining or currently contributing to a participating employment-based plan.

(6) Appeals

The Secretary shall establish—

- (A) an appeals process to permit participating employment-based plans to appeal a determination of the Secretary with respect to claims submitted under this section; and
- (B) procedures to protect against fraud, waste, and abuse under the program.

(d) Audits

The Secretary shall conduct annual audits of claims data submitted by participating employment-based plans under this section to ensure that such plans are in compliance with the requirements of this section.

(e) Funding

There is appropriated to the Secretary, out of any moneys in the Treasury not otherwise appropriated, \$5,000,000,000 to carry out the program under this section. Such funds shall be available without fiscal year limitation.

(f) Limitation

The Secretary has the authority to stop taking applications for participation in the program based on the availability of funding under subsection (e).

(Pub. L. 111–148, title I, §1102, title X, §10102(a), Mar. 23, 2010, 124 Stat. 143, 892.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Social Security Act, referred to in subsec. (a)(2)(C), is act Aug. 14, 1935, ch. 531, 49 Stat. 620. Title XVIII of the Act is classified generally to subchapter XVIII (§1395 et seq.) of chapter 7 of this title. For complete classification of this Act to the Code, see section 1305 of this title and Tables.

AMENDMENTS

2010—Subsec. (a)(2)(B). Pub. L. 111–148, §10102(a)(1), substituted "group benefits plan providing health benefits" for "group health benefits plan" in introductory provisions.

Subsec. (a)(2)(B)(i)(I). Pub. L. 111–148, §10102(a)(2), inserted "or any agency or instrumentality of any of the foregoing" after "political subdivision thereof".

§18003. Immediate information that allows consumers to identify affordable coverage options

(a) Internet portal to affordable coverage options

(1) Immediate establishment

Not later than July 1, 2010, the Secretary, in consultation with the States, shall establish a mechanism, including an Internet website, through which a resident of, or small business in, any State may identify affordable health insurance coverage options in that State.

(2) Connecting to affordable coverage

An Internet website established under paragraph (1) shall, to the extent practicable, provide ways for residents of, and small businesses in, any State to receive information on at least the following coverage options:

(A) Health insurance coverage offered by health insurance issuers, other than coverage that provides reimbursement only for the treatment or mitigation of—

(i) a single disease or condition; or

(ii) an unreasonably limited set of diseases or conditions (as determined by the Secretary).

(B) Medicaid coverage under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.].

(C) Coverage under title XXI of the Social Security Act [42 U.S.C. 1397aa et seq.].

(D) A State health benefits high risk pool, to the extent that such high risk pool is offered in such State; and

(E) Coverage under a high risk pool under section 18001 of this title.

(F) Coverage within the small group market for small businesses and their employees, including reinsurance for early retirees under section 18002 of this title, tax credits available under section 45R of title 26 (as added by section 1421), and other information specifically for small businesses regarding affordable health care options.

(b) Enhancing comparative purchasing options

(1) In general

Not later than 60 days after March 23, 2010, the Secretary shall develop a standardized format

to be used for the presentation of information relating to the coverage options described in subsection (a)(2). Such format shall, at a minimum, require the inclusion of information on the percentage of total premium revenue expended on nonclinical costs (as reported under section 300gg–18(a) of this title), eligibility, availability, premium rates, and cost sharing with respect to such coverage options and be consistent with the standards adopted for the uniform explanation of coverage as provided for in section 300gg–15 of this title.

(2) Use of format

The Secretary shall utilize the format developed under paragraph (1) in compiling information concerning coverage options on the Internet website established under subsection (a).

(c) Authority to contract

The Secretary may carry out this section through contracts entered into with qualified entities. (Pub. L. 111–148, title I, §1103, title X, §10102(b), Mar. 23, 2010, 124 Stat. 146, 892.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Social Security Act, referred to in subsec. (a)(2)(B), (C), is act Aug. 14, 1935, ch. 531, 49 Stat. 620. Titles XIX and XXI of the Act are classified generally to subchapters XIX (§1396 et seq.) and XXI (§1397aa et seq.), respectively, of chapter 7 of this title. For complete classification of this Act to the Code, see section 1305 of this title and Tables.

Section 1421, referred to in subsec. (a)(2)(F), means section 1421 of Pub. L. 111–148.

AMENDMENTS

2010—Subsec. (a)(1). Pub. L. 111–148, §10102(b)(1), which directed insertion of ", or small business in," after "residents of any", was executed by making the insertion after "resident of" to reflect the probable intent of Congress.

Subsec. (a)(2). Pub. L. 111–148, §10102(b)(2), added par. (2) and struck out former par. (2). Prior to amendment, text read as follows:

"An Internet website established under paragraph (1) shall, to the extent practicable, provide ways for residents of any State to receive information on at least the following coverage options:

"(A) Health insurance coverage offered by health insurance issuers, other than coverage that provides reimbursement only for the treatment or mitigation of—

"(i) a single disease or condition; or

"(ii) an unreasonably limited set of diseases or conditions (as determined by the Secretary);

"(B) Medicaid coverage under title XIX of the Social Security Act.

"(C) Coverage under title XXI of the Social Security Act.

"(D) A State health benefits high risk pool, to the extent that such high risk pool is offered in such State; and

"(E) Coverage under a high risk pool under section 18001 of this title."

SUBCHAPTER II—OTHER PROVISIONS

§18011. Preservation of right to maintain existing coverage

(a) No changes to existing coverage

(1) In general

Nothing in this Act (or an amendment made by this Act) shall be construed to require that an individual terminate coverage under a group health plan or health insurance coverage in which such individual was enrolled on March 23, 2010.

(2) Continuation of coverage

Except as provided in paragraph (3), with respect to a group health plan or health insurance coverage in which an individual was enrolled on March 23, 2010, this subtitle and subtitle A (and the amendments made by such subtitles) shall not apply to such plan or coverage, regardless of whether the individual renews such coverage after March 23, 2010.

(3) Application of certain provisions

The provisions of sections 2715 [42 U.S.C. 300gg–15] and 2718 [42 U.S.C. 300gg–18] of the Public Health Service Act (as added by subtitle A) shall apply to grandfathered health plans for plan years beginning on or after March 23, 2010.

(4) Application of certain provisions

(A) In general

The following provisions of the Public Health Service Act [42 U.S.C. 201 et seq.] (as added by this title) ¹ shall apply to grandfathered health plans for plan years beginning with the first plan year to which such provisions would otherwise apply:

- (i) Section 2708 [42 U.S.C. 300gg–7] (relating to excessive waiting periods).
- (ii) Those provisions of section 2711 [42 U.S.C. 300gg–11] relating to lifetime limits.
- (iii) Section 2712 [42 U.S.C. 300gg–12] (relating to rescissions).
- (iv) Section 2714 [42 U.S.C. 300gg–14] (relating to extension of dependent coverage).

(B) Provisions applicable only to group health plans

(i) Provisions described

Those provisions of section 2711 [42 U.S.C. 300gg–11] relating to annual limits and the provisions of section 2704 [42 U.S.C. 300gg–3] (relating to pre-existing condition exclusions) of the Public Health Service Act (as added by this subtitle) shall apply to grandfathered health plans that are group health plans for plan years beginning with the first plan year to which such provisions otherwise apply.

(ii) Adult child coverage

For plan years beginning before January 1, 2014, the provisions of section 2714 of the Public Health Service Act [42 U.S.C. 300gg–14] (as added by this subtitle) shall apply in the case of an adult child with respect to a grandfathered health plan that is a group health plan only if such adult child is not eligible to enroll in an eligible employer-sponsored health plan (as defined in section 5000A(f)(2) of title 26) other than such grandfathered health plan.

(5) Application of additional provisions

Sections 300gg–111, 300gg–112, and 300gg–117 of this title shall apply to grandfathered health plans for plan years beginning on or after January 1, 2022.

(b) Allowance for family members to join current coverage

With respect to a group health plan or health insurance coverage in which an individual was enrolled on March 23, 2010, and which is renewed after such date, family members of such individual shall be permitted to enroll in such plan or coverage if such enrollment is permitted under the terms of the plan in effect as of March 23, 2010.

(c) Allowance for new employees to join current plan

A group health plan that provides coverage on March 23, 2010, may provide for the enrolling of new employees (and their families) in such plan, and this subtitle and subtitle A (and the amendments made by such subtitles) shall not apply with respect to such plan and such new employees (and their families).

(d) Effect on collective bargaining agreements

In the case of health insurance coverage maintained pursuant to one or more collective bargaining agreements between employee representatives and one or more employers that was ratified before March 23, 2010, the provisions of this subtitle and subtitle A (and the amendments made by such

subtitles) shall not apply until the date on which the last of the collective bargaining agreements relating to the coverage terminates. Any coverage amendment made pursuant to a collective bargaining agreement relating to the coverage which amends the coverage solely to conform to any requirement added by this subtitle or subtitle A (or amendments) shall not be treated as a termination of such collective bargaining agreement.

(e) Definition

In this title,¹ the term "grandfathered health plan" means any group health plan or health insurance coverage to which this section applies.

(Pub. L. 111–148, title I, §1251, title X, §10103(d), Mar. 23, 2010, 124 Stat. 161, 895; Pub. L. 111–152, title II, §2301(a), Mar. 30, 2010, 124 Stat. 1081; Pub. L. 116–260, div. BB, title I, §102(d)(2), Dec. 27, 2020, 134 Stat. 2797.)

EDITORIAL NOTES

REFERENCES IN TEXT

This Act, referred to in subsec. (a)(1), is Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 119, known as the Patient Protection and Affordable Care Act. For complete classification of this Act to the Code, see Short Title note set out under section 18001 of this title and Tables.

This subtitle, referred to in subsecs. (a)(2), (4)(B), (c), and (d), is subtitle C (§§1201–1255) of title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 154, which enacted this subchapter and sections 300gg–2 and 300gg–4 to 300gg–7 of this title, transferred section 300gg of this title to section 300gg–3 of this title, amended sections 300gg–1 and 300gg–4 of this title, and enacted provisions set out as a note under section 300gg of this title. For complete classification of subtitle C to the Code, see Tables.

Subtitle A, referred to in subsecs. (a)(2), (3), (c), and (d), is subtitle A (§§1001–1004) of title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted sections 300gg–11 to 300gg–19, 300gg–93, and 300gg–94 of this title, transferred sections 300gg–4 to 300gg–7 and 300gg–13 of this title to sections 300gg–25 to 300gg–28 and 300gg–9 of this title, respectively, amended sections 300gg–11, 300gg–12, and 300gg–21 to 300gg–23 of this title, and enacted provisions set out as a note under section 300gg–11 of this title. For complete classification of subtitle A to the Code, see Tables.

The Public Health Service Act, referred to in subsec. (a)(4)(A), is act July 1, 1944, ch. 373, 58 Stat. 682, which is classified generally to chapter 6A (§201 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 201 of this title and Tables.

This title, referred to in subsecs. (a)(4)(A) and (e), is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

AMENDMENTS

2020—Subsec. (a)(5). Pub. L. 116–260 added par. (5).

2010—Subsec. (a)(2). Pub. L. 111–148, §10103(d)(1), substituted "Except as provided in paragraph (3), with" for "With".

Subsec. (a)(3). Pub. L. 111–148, §10103(d)(2), added par. (3).

Subsec. (a)(4). Pub. L. 111–152 added par. (4).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2020 AMENDMENT

Amendment by Pub. L. 116–260 applicable with respect to plan years beginning on or after Jan. 1, 2022, see section 102(e) of div. BB of Pub. L. 116–260, set out as a note under section 8902 of Title 5, Government Organization and Employees.

EFFECTIVE DATE

Section effective Mar. 23, 2010, see section 1255(1) of Pub. L. 111–148, set out as a note under section 300gg of this title.

¹ See *References in Text* note below.

§18012. Rating reforms must apply uniformly to all health insurance issuers and group health plans

Any standard or requirement adopted by a State pursuant to this title,¹ or any amendment made by this title,¹ shall be applied uniformly to all health plans in each insurance market to which the standard and requirements apply. The preceding sentence shall also apply to a State standard or requirement relating to the standard or requirement required by this title ¹ (or any such amendment) that is not the same as the standard or requirement but that is not preempted under section 18041(d) of this title.

(Pub. L. 111–148, title I, §1252, Mar. 23, 2010, 124 Stat. 162.)

§18013. Annual report on self-insured plans

Not later than 1 year after March 23, 2010, and annually thereafter, the Secretary of Labor shall prepare an aggregate annual report, using data collected from the Annual Return/Report of Employee Benefit Plan (Department of Labor Form 5500), that shall include general information on self-insured group health plans (including plan type, number of participants, benefits offered, funding arrangements, and benefit arrangements) as well as data from the financial filings of self-insured employers (including information on assets, liabilities, contributions, investments, and expenses). The Secretary shall submit such reports to the appropriate committees of Congress.

(Pub. L. 111–148, title I, §1253, as added Pub. L. 111–148, title X, §10103(f)(2), Mar. 23, 2010, 124 Stat. 895.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 1253 of Pub. L. 111–148 was renumbered section 1255 and is set out as a note under section 300gg of this title.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective for plan years beginning on or after Jan. 1, 2014, see section 1255 of Pub. L. 111–148, set out as a note under section 300gg of this title.

§18014. Treatment of expatriate health plans under ACA

(a) In general

Subject to subsection (b), the provisions of (including any amendment made by) the Patient Protection and Affordable Care Act (Public Law 111–148) and of title I and subtitle B of title II of the Health Care and Education Reconciliation Act of 2010 (Public Law 111–152) shall not apply with respect to—

- (1) expatriate health plans;
- (2) employers with respect to such plans, solely in their capacity as plan sponsors for such plans; or
- (3) expatriate health insurance issuers with respect to coverage offered by such issuers under such plans.

(b) Minimum essential coverage and reporting requirements

(1) In general

For the purpose of section 5000A(f) of title 26, and any other section of title 26 that incorporates the definition of minimum essential coverage under such section 5000A(f) by reference:

(A) An expatriate health plan offered to primary enrollees who are described in subsections (d)(3)(A) and (d)(3)(B) of this section shall be treated as an eligible employer sponsored plan under 5000A(f)(2) of such title.

(B) An expatriate health plan offered to primary enrollees who are described in subsection (d)(3)(C) of this section shall be treated as a plan in the individual market under section 5000A(f)(1)(C) of such title. This subparagraph shall apply solely for the purposes of sections 36B, 5000A, and 6055 of such title.

(2) Exception

Subsection (a) shall not apply with respect to section 6055 of title 26, or sections 4980H and 6056 of such title in the case of an applicable large employer (as defined in section 4980H of such title), except that statements furnished to individuals may be provided through electronic media and the primary insured shall be deemed to have consented to receive the statements under such sections in electronic form, unless the individual explicitly refuses such consent. Notwithstanding subsection (a), section 4980I ¹ of title 26 shall continue to apply with respect to applicable employer-sponsored coverage (as defined in such section) of a qualified expatriate described in subsection (d)(3)(A)(i) who is assigned (rather than transferred) to work in the United States.

(c) Qualified expatriates, spouses, and dependents not United States health risk

(1) In general

For purposes of section 9010 ¹ of the Patient Protection and Affordable Care Act (26 U.S.C. 4001 note prec.), for calendar years after 2015, a qualified expatriate (and any spouse, dependent, or any other individual enrolled in the plan) enrolled in an expatriate health plan shall not be considered a United States health risk.

(2) Special rule

Notwithstanding paragraph (1), the fee under section 9010 ¹ of such Act for each of calendar years 2014 and 2015 with respect to any expatriate health insurance issuer shall be the amount which bears the same ratio to the fee amount determined by the Secretary of the Treasury with respect to such issuer under such section for each such year (determined without regard to this paragraph) as—

(A) the amount of premiums taken into account under such section with respect to such issuer for each such year, less the amount of premiums for expatriate health plans taken into account under such section with respect to such issuer for each such year, bears to

(B) the amount of premiums taken into account under such section with respect to such issuer

for each such year.

(d) Definitions

In this section:

(1) Expatriate health insurance issuer

The term "expatriate health insurance issuer" means a health insurance issuer that issues expatriate health plans.

(2) Expatriate health plan

The term "expatriate health plan" means a group health plan, health insurance coverage offered in connection with a group health plan, or health insurance coverage offered to a group of individuals described in paragraph (3)(C) (which may include spouses, dependents, and other individuals enrolled in the plan) that meets each of the following standards:

(A) Substantially all of the primary enrollees in such plan or coverage are qualified expatriates with respect to such plan or coverage. In applying the previous sentence, an individual shall not be considered a primary enrollee if the individual is not a national of the United States and the individual resides in the country of which the individual is a citizen.

(B) Substantially all of the benefits provided under the plan or coverage are not excepted benefits described in section 9832(c) of title 26.

(C) The plan or coverage provides coverage for inpatient hospital services, outpatient facility services, physician services, and emergency services (comparable to such emergency services coverage described in and offered under section 8903(1) of title 5 for plan year 2009)—

(i) in the case of individuals described in paragraph (3)(A), both in the United States and in the country or countries from which the individual was transferred or assigned (accounting for flexibility needed with existing coverage), and such other country or countries as the Secretary of Health and Human Services, in consultation with the Secretary of the Treasury and the Secretary of Labor, may designate (after taking into account the barriers and prohibitions to providing health care services in the countries as designated);

(ii) in the case of individuals described in paragraph (3)(B), in the country or countries in which the individual is present in connection with the individual's employment, and such other country or countries as the Secretary of Health and Human Services, in consultation with the Secretary of the Treasury and the Secretary of Labor, may designate; or

(iii) in the case of individuals described in paragraph (3)(C), in the country or countries as the Secretary of Health and Human Services, in consultation with the Secretary of the Treasury and the Secretary of Labor, may designate.

(D) The plan sponsor reasonably believes that the benefits provided by the expatriate health plan satisfy a standard at least actuarially equivalent to the level provided for in section 36B(c)(2)(C)(ii) of title 26.

(E) If the plan or coverage provides dependent coverage of children, the plan or coverage makes such dependent coverage available for adult children until the adult child turns 26 years of age, unless such individual is the child of a child receiving dependent coverage.

(F) The plan or coverage—

(i) is issued by an expatriate health plan issuer, or administered by an administrator, that together with any other person in the expatriate health plan issuer's or administrator's controlled group (as described in section 9010 ¹ of the Patient Protection and Affordable Care Act (and the regulations promulgated thereunder)), has licenses to sell insurance in more than two countries, and, with respect to such plan, coverage, or company in the controlled group—

(I) maintains network provider agreements that provide for direct claims payments, directly or through third party contracts, with health care providers in eight or more countries;

(II) maintains call centers, directly or through third party contracts, in three or more countries and accepts calls from customers in eight or more languages;

- (III) processes (in the aggregate together with other plans or coverage it issues or administers) at least \$1,000,000 in claims in foreign currency equivalents each year;
- (IV) makes available (directly or through third party contracts) global evacuation/repatriation coverage; and
- (V) maintains legal and compliance resources in three or more countries; and

(ii) offers reimbursements for items or services under such plan or coverage in the local currency in eight or more countries.

(G) The plan or coverage, and the plan sponsor or expatriate health insurance issuer with respect to such plan or coverage, satisfies the provisions of title XXVII of the Public Health Service Act (42 U.S.C. 300gg et seq.), chapter 100 of title 26, and part 7 of subtitle B of title I of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1181 et seq.), which would otherwise apply to such a plan or coverage, and sponsor or issuer, if not for the enactment of the Patient Protection and Affordable Care Act and title I and subtitle B of title II of the Health Care and Education Reconciliation Act of 2010.

(3) Qualified expatriate

The term "qualified expatriate" means a primary insured, or individual otherwise described in subparagraph (C)—

(A)(i) whose skills, qualifications, job duties, or expertise is of a type that has caused his or her employer to transfer or assign him or her to the United States for a specific and temporary purpose or assignment tied to his or her employment; and

(ii) in connection with such transfer or assignment, is reasonably determined by the plan sponsor to require access to health insurance and other related services and support in multiple countries, and is offered other multinational benefits on a periodic basis (such as tax equalization, compensation for cross border moving expenses, or compensation to enable the expatriate to return to their home country);

(B) who is working outside of the United States for a period of at least 180 days in a consecutive 12-month period that overlaps with the plan year; or

(C) who is a member of a group of similarly situated individuals—

(i) that is formed for the purpose of traveling or relocating internationally in service of one or more of the purposes listed in section 501(c)(3) or 501(c)(4) of title 26, or similarly situated organizations or groups (such as students or religious missionaries);

(ii) that is not formed primarily for the sale of health insurance coverage; and

(iii) that the Secretary of Health and Human Services, in consultation with the Secretary of the Treasury and the Secretary of Labor, determines requires access to health insurance and other related services and support in multiple countries.

(4) United States

The term "United States" means the 50 States, the District of Columbia, and Puerto Rico.

(5) Miscellaneous terms

(A) Group health plan; health insurance coverage; health insurance issuer; plan sponsor

The terms "group health plan", "health insurance coverage", "health insurance issuer", and "plan sponsor" have the meanings given those terms in section 2791 of the Public Health Service Act (42 U.S.C. 300gg-91).

(B) Transfer

The term "transfer" means an employer has transferred an employee to perform services for a branch of the same employer or a parent, affiliate, franchise, or subsidiary thereof.

(e) Regulations

The Secretary of the Treasury, the Secretary of Health and Human Services, and the Secretary of Labor may promulgate regulations necessary to carry out this Act, including such rules as may be

necessary to prevent inappropriate expansion of the application of the exclusions under this Act from applicable laws and regulations, and to amend existing annual reporting requirements or procedures to include applicable qualified expatriate health insurers' total number of expatriate plan enrollees.

(f) Effective date

Unless otherwise specified, this Act shall take effect on December 16, 2014, and shall apply only to expatriate health plans issued or renewed on or after July 1, 2015.

(Pub. L. 113–235, div. M, §3, Dec. 16, 2014, 128 Stat. 2768.)

SUBCHAPTER III—AVAILABLE COVERAGE CHOICES FOR ALL AMERICANS

PART A—ESTABLISHMENT OF QUALIFIED HEALTH PLANS

§18021. Qualified health plan defined

(a) Qualified health plan

In this title: ¹

(1) In general

The term "qualified health plan" means a health plan that—

(A) has in effect a certification (which may include a seal or other indication of approval) that such plan meets the criteria for certification described in section 18031(c) of this title issued or recognized by each Exchange through which such plan is offered;

(B) provides the essential health benefits package described in section 18022(a) of this title; and

(C) is offered by a health insurance issuer that—

(i) is licensed and in good standing to offer health insurance coverage in each State in which such issuer offers health insurance coverage under this title; ¹

(ii) agrees to offer at least one qualified health plan in the silver level and at least one plan in the gold level in each such Exchange;

(iii) agrees to charge the same premium rate for each qualified health plan of the issuer without regard to whether the plan is offered through an Exchange or whether the plan is offered directly from the issuer or through an agent; and

(iv) complies with the regulations developed by the Secretary under section 18031(d) of this title and such other requirements as an applicable Exchange may establish.

(2) Inclusion of CO–OP plans and multi-State qualified health plans

Any reference in this title ¹ to a qualified health plan shall be deemed to include a qualified health plan offered through the CO–OP program under section 18042 of this title, and a multi-State plan under section 18054 of this title, unless specifically provided for otherwise.

(3) Treatment of qualified direct primary care medical home plans

The Secretary of Health and Human Services shall permit a qualified health plan to provide coverage through a qualified direct primary care medical home plan that meets criteria established by the Secretary, so long as the qualified health plan meets all requirements that are otherwise applicable and the services covered by the medical home plan are coordinated with the entity offering the qualified health plan.

(4) Variation based on rating area

A qualified health plan, including a multi-State qualified health plan, may as appropriate vary premiums by rating area (as defined in section 300gg(a)(2) of this title).

(b) Terms relating to health plans

In this title: ¹

(1) Health plan

(A) In general

The term "health plan" means health insurance coverage and a group health plan.

(B) Exception for self-insured plans and MEWAs

Except to the extent specifically provided by this title, ¹ the term "health plan" shall not include a group health plan or multiple employer welfare arrangement to the extent the plan or arrangement is not subject to State insurance regulation under section 1144 of title 29.

(2) Health insurance coverage and issuer

The terms "health insurance coverage" and "health insurance issuer" have the meanings given such terms by section 300gg–91(b) of this title.

(3) Group health plan

The term "group health plan" has the meaning given such term by section 300gg–91(a) of this title.

EDITORIAL NOTES

REFERENCES IN TEXT

This title, where footnoted in text, is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

AMENDMENTS

2010—Subsec. (a)(2) to (4). Pub. L. 111–148, §10104(a), added pars. (2) to (4) and struck out former par. (2). Prior to amendment, text of par. (2) read as follows: "Any reference in this title to a qualified health plan shall be deemed to include a qualified health plan offered through the CO-OP program under section 18042 of this title or a community health insurance option under section 18043 of this title, unless specifically provided for otherwise."

§18022. Essential health benefits requirements

(a) Essential health benefits package

In this title,¹ the term "essential health benefits package" means, with respect to any health plan, coverage that—

- (1) provides for the essential health benefits defined by the Secretary under subsection (b);
- (2) limits cost-sharing for such coverage in accordance with subsection (c); and
- (3) subject to subsection (e), provides either the bronze, silver, gold, or platinum level of coverage described in subsection (d).

(b) Essential health benefits

(1) In general

Subject to paragraph (2), the Secretary shall define the essential health benefits, except that such benefits shall include at least the following general categories and the items and services covered within the categories:

- (A) Ambulatory patient services.
- (B) Emergency services.
- (C) Hospitalization.
- (D) Maternity and newborn care.
- (E) Mental health and substance use disorder services, including behavioral health treatment.
- (F) Prescription drugs.
- (G) Rehabilitative and habilitative services and devices.
- (H) Laboratory services.
- (I) Preventive and wellness services and chronic disease management.
- (J) Pediatric services, including oral and vision care.

(2) Limitation

(A) In general

The Secretary shall ensure that the scope of the essential health benefits under paragraph (1) is equal to the scope of benefits provided under a typical employer plan, as determined by the Secretary. To inform this determination, the Secretary of Labor shall conduct a survey of employer-sponsored coverage to determine the benefits typically covered by employers, including multiemployer plans, and provide a report on such survey to the Secretary.

(B) Certification

In defining the essential health benefits described in paragraph (1), and in revising the benefits under paragraph (4)(H), the Secretary shall submit a report to the appropriate

committees of Congress containing a certification from the Chief Actuary of the Centers for Medicare & Medicaid Services that such essential health benefits meet the limitation described in paragraph (2).

(3) Notice and hearing

In defining the essential health benefits described in paragraph (1), and in revising the benefits under paragraph (4)(H), the Secretary shall provide notice and an opportunity for public comment.

(4) Required elements for consideration

In defining the essential health benefits under paragraph (1), the Secretary shall—

(A) ensure that such essential health benefits reflect an appropriate balance among the categories described in such subsection,² so that benefits are not unduly weighted toward any category;

(B) not make coverage decisions, determine reimbursement rates, establish incentive programs, or design benefits in ways that discriminate against individuals because of their age, disability, or expected length of life;

(C) take into account the health care needs of diverse segments of the population, including women, children, persons with disabilities, and other groups;

(D) ensure that health benefits established as essential not be subject to denial to individuals against their wishes on the basis of the individuals' age or expected length of life or of the individuals' present or predicted disability, degree of medical dependency, or quality of life;

(E) provide that a qualified health plan shall not be treated as providing coverage for the essential health benefits described in paragraph (1) unless the plan provides that—

(i) coverage for emergency department services will be provided without imposing any requirement under the plan for prior authorization of services or any limitation on coverage where the provider of services does not have a contractual relationship with the plan for the providing of services that is more restrictive than the requirements or limitations that apply to emergency department services received from providers who do have such a contractual relationship with the plan; and

(ii) if such services are provided out-of-network, the cost-sharing requirement (expressed as a copayment amount or coinsurance rate) is the same requirement that would apply if such services were provided in-network;

(F) provide that if a plan described in section 18031(b)(2)(B)(ii)³ of this title (relating to stand-alone dental benefits plans) is offered through an Exchange, another health plan offered through such Exchange shall not fail to be treated as a qualified health plan solely because the plan does not offer coverage of benefits offered through the stand-alone plan that are otherwise required under paragraph (1)(J); and⁴

(G) periodically review the essential health benefits under paragraph (1), and provide a report to Congress and the public that contains—

(i) an assessment of whether enrollees are facing any difficulty accessing needed services for reasons of coverage or cost;

(ii) an assessment of whether the essential health benefits needs to be modified or updated to account for changes in medical evidence or scientific advancement;

(iii) information on how the essential health benefits will be modified to address any such gaps in access or changes in the evidence base;

(iv) an assessment of the potential of additional or expanded benefits to increase costs and the interactions between the addition or expansion of benefits and reductions in existing benefits to meet actuarial limitations described in paragraph (2); and

(H) periodically update the essential health benefits under paragraph (1) to address any gaps in access to coverage or changes in the evidence base the Secretary identifies in the review conducted under subparagraph (G).

(5) Rule of construction

Nothing in this title ¹ shall be construed to prohibit a health plan from providing benefits in excess of the essential health benefits described in this subsection.

(c) Requirements relating to cost-sharing

(1) Annual limitation on cost-sharing

(A) 2014

The cost-sharing incurred under a health plan with respect to self-only coverage or coverage other than self-only coverage for a plan year beginning in 2014 shall not exceed the dollar amounts in effect under section 223(c)(2)(A)(ii) of title 26 for self-only and family coverage, respectively, for taxable years beginning in 2014.

(B) 2015 and later

In the case of any plan year beginning in a calendar year after 2014, the limitation under this paragraph shall—

(i) in the case of self-only coverage, be equal to the dollar amount under subparagraph (A) for self-only coverage for plan years beginning in 2014, increased by an amount equal to the product of that amount and the premium adjustment percentage under paragraph (4) for the calendar year; and

(ii) in the case of other coverage, twice the amount in effect under clause (i).

If the amount of any increase under clause (i) is not a multiple of \$50, such increase shall be rounded to the next lowest multiple of \$50.

(2) Repealed. Pub. L. 113–93, title II, §213(a)(1), Apr. 1, 2014, 128 Stat. 1047

(3) Cost-sharing

In this title— ¹

(A) In general

The term "cost-sharing" includes—

(i) deductibles, coinsurance, copayments, or similar charges; and

(ii) any other expenditure required of an insured individual which is a qualified medical expense (within the meaning of section 223(d)(2) of title 26) with respect to essential health benefits covered under the plan.

(B) Exceptions

Such term does not include premiums, balance billing amounts for non-network providers, or spending for non-covered services.

(4) Premium adjustment percentage

For purposes of paragraph (1)(B)(i), the premium adjustment percentage for any calendar year is the percentage (if any) by which the average per capita premium for health insurance coverage in the United States for the preceding calendar year (as estimated by the Secretary no later than October 1 of such preceding calendar year) exceeds such average per capita premium for 2013 (as determined by the Secretary).

(d) Levels of coverage

(1) Levels of coverage defined

The levels of coverage described in this subsection are as follows:

(A) Bronze level

A plan in the bronze level shall provide a level of coverage that is designed to provide benefits that are actuarially equivalent to 60 percent of the full actuarial value of the benefits provided under the plan.

(B) Silver level

A plan in the silver level shall provide a level of coverage that is designed to provide benefits that are actuarially equivalent to 70 percent of the full actuarial value of the benefits provided under the plan.

(C) Gold level

A plan in the gold level shall provide a level of coverage that is designed to provide benefits that are actuarially equivalent to 80 percent of the full actuarial value of the benefits provided under the plan.

(D) Platinum level

A plan in the platinum level shall provide a level of coverage that is designed to provide benefits that are actuarially equivalent to 90 percent of the full actuarial value of the benefits provided under the plan.

(2) Actuarial value

(A) In general

Under regulations issued by the Secretary, the level of coverage of a plan shall be determined on the basis that the essential health benefits described in subsection (b) shall be provided to a standard population (and without regard to the population the plan may actually provide benefits to).

(B) Employer contributions

The Secretary shall issue regulations under which employer contributions to a health savings account (within the meaning of section 223 of title 26) may be taken into account in determining the level of coverage for a plan of the employer.

(C) Application

In determining under this title,¹ the Public Health Service Act [42 U.S.C. 201 et seq.], or title 26 the percentage of the total allowed costs of benefits provided under a group health plan or health insurance coverage that are provided by such plan or coverage, the rules contained in the regulations under this paragraph shall apply.

(3) Allowable variance

The Secretary shall develop guidelines to provide for a de minimis variation in the actuarial valuations used in determining the level of coverage of a plan to account for differences in actuarial estimates.

(4) Plan reference

In this title,¹ any reference to a bronze, silver, gold, or platinum plan shall be treated as a reference to a qualified health plan providing a bronze, silver, gold, or platinum level of coverage, as the case may be.

(e) Catastrophic plan

(1) In general

A health plan not providing a bronze, silver, gold, or platinum level of coverage shall be treated as meeting the requirements of subsection (d) with respect to any plan year if—

(A) the only individuals who are eligible to enroll in the plan are individuals described in paragraph (2); and

(B) the plan provides—

(i) except as provided in clause (ii), the essential health benefits determined under subsection (b), except that the plan provides no benefits for any plan year until the individual has incurred cost-sharing expenses in an amount equal to the annual limitation in effect under subsection (c)(1) for the plan year (except as provided for in section 2713); ¹ and

(ii) coverage for at least three primary care visits.

(2) Individuals eligible for enrollment

An individual is described in this paragraph for any plan year if the individual—

(A) has not attained the age of 30 before the beginning of the plan year; or

(B) has a certification in effect for any plan year under this title ¹ that the individual is exempt from the requirement under section 5000A of title 26 by reason of—

(i) section 5000A(e)(1) of such title (relating to individuals without affordable coverage);

or

(ii) section 5000A(e)(5) of such title (relating to individuals with hardships).

(3) Restriction to individual market

If a health insurance issuer offers a health plan described in this subsection, the issuer may only offer the plan in the individual market.

(f) Child-only plans

If a qualified health plan is offered through the Exchange in any level of coverage specified under subsection (d), the issuer shall also offer that plan through the Exchange in that level as a plan in which the only enrollees are individuals who, as of the beginning of a plan year, have not attained the age of 21, and such plan shall be treated as a qualified health plan.

(g) Payments to Federally-qualified health centers

If any item or service covered by a qualified health plan is provided by a Federally-qualified health center (as defined in section 1396d(l)(2)(B) of this title) to an enrollee of the plan, the offeror of the plan shall pay to the center for the item or service an amount that is not less than the amount of payment that would have been paid to the center under section 1396a(bb) of this title) for such item or service.

EDITORIAL NOTES

REFERENCES IN TEXT

This title, referred to in subsecs. (a), (b)(5), (c)(3), (d)(2)(C), (4), and (e)(2)(B), is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

The Public Health Service Act, referred to in subsec. (d)(2)(C), is act July 1, 1944, ch. 373, 58 Stat. 682, which is classified generally to chapter 6A (§201 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 201 of this title and Tables.

Section 2713, referred to in subsec. (e)(1)(B)(i), probably means section 2713 of act July 1, 1944, which is classified to section 300gg–13 of this title.

AMENDMENTS

2014—Subsec. (c)(2). Pub. L. 113–93, §213(a)(1), struck out par. (2) which related to annual limitation on deductibles for employer-sponsored plans.

Subsec. (c)(4). Pub. L. 113–93, §213(a)(2), which directed amendment of par. (4)(A) by substituting "paragraph (1)(B)(i)" for "paragraphs (1)(B)(i) and (2)(B)(i)", was executed by making the substitution in par. (4) to reflect the probable intent of Congress.

2010—Subsec. (d)(2)(B). Pub. L. 111–148, §10104(b)(1), substituted "shall issue" for "may issue".

Subsec. (g). Pub. L. 111–148, §10104(b)(2), added subsec. (g).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2014 AMENDMENT

Amendment by Pub. L. 113–93 effective as if included in the enactment of Pub. L. 111–148, see section 213(c) of Pub. L. 113–93, set out as a note under section 300gg–6 of this title.

³ So in original. Probably should be "18031(d)(2)(B)(ii)".

⁴ So in original. The word "and" probably should not appear.

§18023. Special rules

(a) State opt-out of abortion coverage

(1) In general

A State may elect to prohibit abortion coverage in qualified health plans offered through an Exchange in such State if such State enacts a law to provide for such prohibition.

(2) Termination of opt out

A State may repeal a law described in paragraph (1) and provide for the offering of such services through the Exchange.

(b) Special rules relating to coverage of abortion services

(1) Voluntary choice of coverage of abortion services

(A) In general

Notwithstanding any other provision of this title ¹ (or any amendment made by this title)— ¹

(i) nothing in this title ¹ (or any amendment made by this title), ¹ shall be construed to require a qualified health plan to provide coverage of services described in subparagraph (B)(i) or (B)(ii) as part of its essential health benefits for any plan year; and

(ii) subject to subsection (a), the issuer of a qualified health plan shall determine whether or not the plan provides coverage of services described in subparagraph (B)(i) or (B)(ii) as part of such benefits for the plan year.

(B) Abortion services

(i) Abortions for which public funding is prohibited

The services described in this clause are abortions for which the expenditure of Federal funds appropriated for the Department of Health and Human Services is not permitted, based on the law as in effect as of the date that is 6 months before the beginning of the plan year involved.

(ii) Abortions for which public funding is allowed

The services described in this clause are abortions for which the expenditure of Federal funds appropriated for the Department of Health and Human Services is permitted, based on the law as in effect as of the date that is 6 months before the beginning of the plan year involved.

(2) Prohibition on the use of Federal funds

(A) In general

If a qualified health plan provides coverage of services described in paragraph (1)(B)(i), the issuer of the plan shall not use any amount attributable to any of the following for purposes of paying for such services:

(i) The credit under section 36B of title 26 (and the amount (if any) of the advance payment of the credit under section 18082 of this title).

(ii) Any cost-sharing reduction under section 18071 of this title (and the amount (if any) of

the advance payment of the reduction under section 18082 of this title).

(B) Establishment of allocation accounts

In the case of a plan to which subparagraph (A) applies, the issuer of the plan shall—

(i) collect from each enrollee in the plan (without regard to the enrollee's age, sex, or family status) a separate payment for each of the following:

- (I) an amount equal to the portion of the premium to be paid directly by the enrollee for coverage under the plan of services other than services described in paragraph (1)(B)(i) (after reduction for credits and cost-sharing reductions described in subparagraph (A)); and
- (II) an amount equal to the actuarial value of the coverage of services described in paragraph (1)(B)(i), and

(ii) shall ² deposit all such separate payments into separate allocation accounts as provided in subparagraph (C).

In the case of an enrollee whose premium for coverage under the plan is paid through employee payroll deposit, the separate payments required under this subparagraph shall each be paid by a separate deposit.

(C) Segregation of funds

(i) In general

The issuer of a plan to which subparagraph (A) applies shall establish allocation accounts described in clause (ii) for enrollees receiving amounts described in subparagraph (A).

(ii) Allocation accounts

The issuer of a plan to which subparagraph (A) applies shall deposit—

- (I) all payments described in subparagraph (B)(i)(I) into a separate account that consists solely of such payments and that is used exclusively to pay for services other than services described in paragraph (1)(B)(i); and
- (II) all payments described in subparagraph (B)(i)(II) into a separate account that consists solely of such payments and that is used exclusively to pay for services described in paragraph (1)(B)(i).

(D) Actuarial value

(i) In general

The issuer of a qualified health plan shall estimate the basic per enrollee, per month cost, determined on an average actuarial basis, for including coverage under the qualified health plan of the services described in paragraph (1)(B)(i).

(ii) Considerations

In making such estimate, the issuer—

- (I) may take into account the impact on overall costs of the inclusion of such coverage, but may not take into account any cost reduction estimated to result from such services, including prenatal care, delivery, or postnatal care;
- (II) shall estimate such costs as if such coverage were included for the entire population covered; and
- (III) may not estimate such a cost at less than \$1 per enrollee, per month.

(E) Ensuring compliance with segregation requirements

(i) In general

Subject to clause (ii), State health insurance commissioners shall ensure that health plans comply with the segregation requirements in this subsection through the segregation of plan

funds in accordance with applicable provisions of generally accepted accounting requirements, circulars on funds management of the Office of Management and Budget, and guidance on accounting of the Government Accountability Office.

(ii) Clarification

Nothing in clause (i) shall prohibit the right of an individual or health plan to appeal such action in courts of competent jurisdiction.

(3) Rules relating to notice

(A) Notice

A qualified health plan that provides for coverage of the services described in paragraph (1)(B)(i) shall provide a notice to enrollees, only as part of the summary of benefits and coverage explanation, at the time of enrollment, of such coverage.

(B) Rules relating to payments

The notice described in subparagraph (A), any advertising used by the issuer with respect to the plan, any information provided by the Exchange, and any other information specified by the Secretary shall provide information only with respect to the total amount of the combined payments for services described in paragraph (1)(B)(i) and other services covered by the plan.

(4) No discrimination on basis of provision of abortion

No qualified health plan offered through an Exchange may discriminate against any individual health care provider or health care facility because of its unwillingness to provide, pay for, provide coverage of, or refer for abortions ³

(c) Application of State and Federal laws regarding abortion

(1) No preemption of State laws regarding abortion

Nothing in this Act shall be construed to preempt or otherwise have any effect on State laws regarding the prohibition of (or requirement of) coverage, funding, or procedural requirements on abortions, including parental notification or consent for the performance of an abortion on a minor.

(2) No effect on Federal laws regarding abortion

(A) ⁴ In general

Nothing in this Act shall be construed to have any effect on Federal laws regarding—

- (i) conscience protection;
- (ii) willingness or refusal to provide abortion; and
- (iii) discrimination on the basis of the willingness or refusal to provide, pay for, cover, or refer for abortion or to provide or participate in training to provide abortion.

(3) No effect on Federal civil rights law

Nothing in this subsection shall alter the rights and obligations of employees and employers under title VII of the Civil Rights Act of 1964 [42 U.S.C. 2000e et seq.].

(d) Application of emergency services laws

Nothing in this Act shall be construed to relieve any health care provider from providing emergency services as required by State or Federal law, including section 1395dd of this title (popularly known as "EMTALA").

(Pub. L. 111–148, title I, §1303, title X, §10104(c), Mar. 23, 2010, 124 Stat. 168, 896.)

AMENDMENTS

2010—Pub. L. 111–148, §10104(c), amended section generally. Prior to amendment, section consisted of subsecs. (a) to (c) relating to special rules relating to coverage of abortion services, application of State and Federal laws regarding abortion, and application of emergency services laws.

EXECUTIVE DOCUMENTS

EX. ORD. NO. 13535. ENSURING ENFORCEMENT AND IMPLEMENTATION OF ABORTION RESTRICTIONS IN THE PATIENT PROTECTION AND AFFORDABLE CARE ACT

Ex. Ord. No. 13535, Mar. 24, 2010, 75 F.R. 15599, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the "Patient Protection and Affordable Care Act" (Public Law 111–148), I hereby order as follows:

SECTION. 1. Policy. Following the recent enactment of the Patient Protection and Affordable Care Act (the "Act"), it is necessary to establish an adequate enforcement mechanism to ensure that Federal funds are not used for abortion services (except in cases of rape or incest, or when the life of the woman would be endangered), consistent with a longstanding Federal statutory restriction that is commonly known as the Hyde Amendment. The purpose of this order is to establish a comprehensive, Government-wide set of policies and procedures to achieve this goal and to make certain that all relevant actors—Federal officials, State officials (including insurance regulators) and health care providers—are aware of their responsibilities, new and old.

The Act maintains current Hyde Amendment restrictions governing abortion policy and extends those restrictions to the newly created health insurance exchanges. Under the Act, longstanding Federal laws to protect conscience (such as the Church Amendment, 42 U.S.C. 300a–7, and the Weldon Amendment, section 508(d)(1) of Public Law 111–8) remain intact and new protections prohibit discrimination against health care facilities and health care providers because of an unwillingness to provide, pay for, provide coverage of, or refer for abortions.

Numerous executive agencies have a role in ensuring that these restrictions are enforced, including the Department of Health and Human Services (HHS), the Office of Management and Budget (OMB), and the Office of Personnel Management.

SEC. 2. *Strict Compliance with Prohibitions on Abortion Funding in Health Insurance Exchanges.* The Act specifically prohibits the use of tax credits and cost-sharing reduction payments to pay for abortion services (except in cases of rape or incest, or when the life of the woman would be endangered) in the health insurance exchanges that will be operational in 2014. The Act also imposes strict payment and accounting requirements to ensure that Federal funds are not used for abortion services in exchange plans (except in cases of rape or incest, or when the life of the woman would be endangered) and requires State health insurance commissioners to ensure that exchange plan funds are segregated by insurance companies in accordance with generally accepted accounting principles, OMB funds management circulars, and accounting guidance provided by the Government Accountability Office.

I hereby direct the Director of the OMB and the Secretary of HHS to develop, within 180 days of the date of this order, a model set of segregation guidelines for State health insurance commissioners to use when determining whether exchange plans are complying with the Act's segregation requirements, established in section 1303 of the Act, for enrollees receiving Federal financial assistance. The guidelines shall also offer technical information that States should follow to conduct independent regular audits of insurance companies that participate in the health insurance exchanges. In developing these model guidelines, the Director of the OMB and the Secretary of HHS shall consult with executive agencies and offices that have relevant expertise in accounting principles, including, but not limited to, the Department of the Treasury, and with the Government Accountability Office. Upon completion of those model guidelines, the Secretary of HHS should promptly initiate a rulemaking to issue regulations, which will have the force of law, to interpret the Act's segregation requirements, and shall provide guidance to State health insurance commissioners on how to comply with the model guidelines.

SEC. 3. *Community Health Center Program.* The Act establishes a new Community Health Center (CHC) Fund within HHS, which provides additional Federal funds for the community health center program. Existing law prohibits these centers from using Federal funds to provide abortion services (except in cases of rape or incest, or when the life of the woman would be endangered), as a result of both the Hyde Amendment and longstanding regulations containing the Hyde language. Under the Act, the Hyde language shall apply to the authorization and appropriations of funds for Community Health Centers under section 10503 and all other relevant provisions. I hereby direct the Secretary of HHS to ensure that program administrators and recipients of Federal funds are aware of and comply with the limitations on abortion services imposed on CHCs by existing law. Such actions should include, but are not limited to, updating Grant Policy Statements that accompany CHC grants and issuing new interpretive rules.

SEC. 4. *General Provisions.* (a) Nothing in this order shall be construed to impair or otherwise affect: (i) authority granted by law or Presidential directive to an agency, or the head thereof; or (ii) functions of the Director of the OMB relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees or agents, or any other person.

BARACK OBAMA.

§18024. Related definitions

(a) Definitions relating to markets

In this title: ¹

(1) Group market

The term "group market" means the health insurance market under which individuals obtain health insurance coverage (directly or through any arrangement) on behalf of themselves (and their dependents) through a group health plan maintained by an employer.

(2) Individual market

The term "individual market" means the market for health insurance coverage offered to individuals other than in connection with a group health plan.

(3) Large and small group markets

The terms "large group market" and "small group market" mean the health insurance market under which individuals obtain health insurance coverage (directly or through any arrangement) on behalf of themselves (and their dependents) through a group health plan maintained by a large employer (as defined in subsection (b)(1)) or by a small employer (as defined in subsection (b)(2)), respectively.

(b) Employers

In this title: ¹

(1) Large employer

The term "large employer" means, in connection with a group health plan with respect to a calendar year and a plan year, an employer who employed an average of at least 51 employees on

business days during the preceding calendar year and who employs at least 1 employee on the first day of the plan year.

(2) Small employer

The term "small employer" means, in connection with a group health plan with respect to a calendar year and a plan year, an employer who employed an average of at least 1 but not more than 50 employees on business days during the preceding calendar year and who employs at least 1 employee on the first day of the plan year.

(3) State option to extend definition of small employer

Notwithstanding paragraphs (1) and (2), nothing in this section shall prevent a State from applying this subsection by treating as a small employer, with respect to a calendar year and a plan year, an employer who employed an average of at least 1 but not more than 100 employees on business days during the preceding calendar year and who employs at least 1 employee on the first day of the plan year.

(4) Rules for determining employer size

For purposes of this subsection—

(A) Application of aggregation rule for employers

All persons treated as a single employer under subsection (b), (c), (m), or (o) of section 414 of title 26 shall be treated as 1 employer.

(B) Employers not in existence in preceding year

In the case of an employer which was not in existence throughout the preceding calendar year, the determination of whether such employer is a small or large employer shall be based on the average number of employees that it is reasonably expected such employer will employ on business days in the current calendar year.

(C) Predecessors

Any reference in this subsection to an employer shall include a reference to any predecessor of such employer.

(D) Continuation of participation for growing small employers

If—

- (i) a qualified employer that is a small employer makes enrollment in qualified health plans offered in the small group market available to its employees through an Exchange; and
- (ii) the employer ceases to be a small employer by reason of an increase in the number of employees of such employer;

the employer shall continue to be treated as a small employer for purposes of this subchapter for the period beginning with the increase and ending with the first day on which the employer does not make such enrollment available to its employees.

(c) Secretary

In this title,¹ the term "Secretary" means the Secretary of Health and Human Services.

(d) State

In this title,¹ the term "State" means each of the 50 States and the District of Columbia.

(e) Educated health care consumers

The term "educated health care consumer" means an individual who is knowledgeable about the health care system, and has background or experience in making informed decisions regarding health, medical, and scientific matters.

EDITORIAL NOTES

REFERENCES IN TEXT

This title, referred to in subsecs. (a) to (d), is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

AMENDMENTS

2015—Subsec. (b)(1). Pub. L. 114–60, §2(a)(1), substituted "51" for "101".

Subsec. (b)(2). Pub. L. 114–60, §2(a)(2), substituted "50" for "100".

Subsec. (b)(3). Pub. L. 114–60, §2(a)(3), amended par. (3) generally. Prior to amendment, text read as follows: "In the case of plan years beginning before January 1, 2016, a State may elect to apply this subsection by substituting '51 employees' for '101 employees' in paragraph (1) and by substituting '50 employees' for '100 employees' in paragraph (2)."

2010—Subsec. (e). Pub. L. 111–148, §10104(d), added subsec. (e).

PART B—CONSUMER CHOICES AND INSURANCE COMPETITION THROUGH HEALTH BENEFIT EXCHANGES

§18031. Affordable choices of health benefit plans

(a) Assistance to States to establish American Health Benefit Exchanges

(1) Planning and establishment grants

There shall be appropriated to the Secretary, out of any moneys in the Treasury not otherwise appropriated, an amount necessary to enable the Secretary to make awards, not later than 1 year after March 23, 2010, to States in the amount specified in paragraph (2) for the uses described in paragraph (3).

(2) Amount specified

For each fiscal year, the Secretary shall determine the total amount that the Secretary will make available to each State for grants under this subsection.

(3) Use of funds

A State shall use amounts awarded under this subsection for activities (including planning activities) related to establishing an American Health Benefit Exchange, as described in subsection (b).

(4) Renewability of grant

(A) In general

Subject to subsection (d)(4), the Secretary may renew a grant awarded under paragraph (1) if the State recipient of such grant—

(i) is making progress, as determined by the Secretary, toward—

(I) establishing an Exchange; and

(II) implementing the reforms described in subtitles A and C (and the amendments made by such subtitles); and

(ii) is meeting such other benchmarks as the Secretary may establish.

(B) Limitation

No grant shall be awarded under this subsection after January 1, 2015.

(5) Technical assistance to facilitate participation in SHOP Exchanges

The Secretary shall provide technical assistance to States to facilitate the participation of qualified small businesses in such States in SHOP Exchanges.

(b) American Health Benefit Exchanges

(1) In general

Each State shall, not later than January 1, 2014, establish an American Health Benefit Exchange (referred to in this title ¹ as an "Exchange") for the State that—

(A) facilitates the purchase of qualified health plans;

(B) provides for the establishment of a Small Business Health Options Program (in this title ¹ referred to as a "SHOP Exchange") that is designed to assist qualified employers in the State who are small employers in facilitating the enrollment of their employees in qualified health plans offered in the small group market in the State; and

(C) meets the requirements of subsection (d).

(2) Merger of individual and SHOP Exchanges

A State may elect to provide only one Exchange in the State for providing both Exchange and SHOP Exchange services to both qualified individuals and qualified small employers, but only if the Exchange has adequate resources to assist such individuals and employers.

(c) Responsibilities of the Secretary

(1) In general

The Secretary shall, by regulation, establish criteria for the certification of health plans as qualified health plans. Such criteria shall require that, to be certified, a plan shall, at a minimum—

(A) meet marketing requirements, and not employ marketing practices or benefit designs that have the effect of discouraging the enrollment in such plan by individuals with significant health needs;

(B) ensure a sufficient choice of providers (in a manner consistent with applicable network adequacy provisions under section 2702(c) of the Public Health Service Act [42 U.S.C. 300gg-1(c)]), and provide information to enrollees and prospective enrollees on the availability of in-network and out-of-network providers;

(C) include within health insurance plan networks those essential community providers, where available, that serve predominately low-income, medically-underserved individuals, such as health care providers defined in section 340B(a)(4) of the Public Health Service Act [42 U.S.C. 256b(a)(4)] and providers described in section 1927(c)(1)(D)(i)(IV) of the Social Security Act [42 U.S.C. 1396r-8(c)(1)(D)(i)(IV)] as set forth by section 221 of Public Law 111-8, except that nothing in this subparagraph shall be construed to require any health plan to provide coverage for any specific medical procedure;

(D)(i) be accredited with respect to local performance on clinical quality measures such as the Healthcare Effectiveness Data and Information Set, patient experience ratings on a standardized Consumer Assessment of Healthcare Providers and Systems survey, as well as consumer access, utilization management, quality assurance, provider credentialing, complaints and appeals, network adequacy and access, and patient information programs by any entity recognized by the Secretary for the accreditation of health insurance issuers or plans (so long as any such entity has transparent and rigorous methodological and scoring criteria); or

(ii) receive such accreditation within a period established by an Exchange for such accreditation that is applicable to all qualified health plans;

(E) implement a quality improvement strategy described in subsection (g)(1);

(F) utilize a uniform enrollment form that qualified individuals and qualified employers may use (either electronically or on paper) in enrolling in qualified health plans offered through such Exchange, and that takes into account criteria that the National Association of Insurance Commissioners develops and submits to the Secretary;

(G) utilize the standard format established for presenting health benefits plan options;

(H) provide information to enrollees and prospective enrollees, and to each Exchange in which the plan is offered, on any quality measures for health plan performance endorsed under section 399JJ of the Public Health Service Act [42 U.S.C. 280j–2], as applicable; and

(I) report to the Secretary at least annually and in such manner as the Secretary shall require, pediatric quality reporting measures consistent with the pediatric quality reporting measures established under section 1139A of the Social Security Act [42 U.S.C. 1320b–9a].

(2) Rule of construction

Nothing in paragraph (1)(C) shall be construed to require a qualified health plan to contract with a provider described in such paragraph if such provider refuses to accept the generally applicable payment rates of such plan.

(3) Rating system

The Secretary shall develop a rating system that would rate qualified health plans offered through an Exchange in each benefits level on the basis of the relative quality and price. The Exchange shall include the quality rating in the information provided to individuals and employers through the Internet portal established under paragraph (4).

(4) Enrollee satisfaction system

The Secretary shall develop an enrollee satisfaction survey system that would evaluate the level of enrollee satisfaction with qualified health plans offered through an Exchange, for each such qualified health plan that had more than 500 enrollees in the previous year. The Exchange shall include enrollee satisfaction information in the information provided to individuals and employers through the Internet portal established under paragraph (5) in a manner that allows individuals to easily compare enrollee satisfaction levels between comparable plans.

(5) Internet portals

The Secretary shall—

(A) continue to operate, maintain, and update the Internet portal developed under section 18003(a) of this title and to assist States in developing and maintaining their own such portal; and

(B) make available for use by Exchanges a model template for an Internet portal that may be used to direct qualified individuals and qualified employers to qualified health plans, to assist such individuals and employers in determining whether they are eligible to participate in an Exchange or eligible for a premium tax credit or cost-sharing reduction, and to present standardized information (including quality ratings) regarding qualified health plans offered through an Exchange to assist consumers in making easy health insurance choices.

Such template shall include, with respect to each qualified health plan offered through the Exchange in each rating area, access to the uniform outline of coverage the plan is required to provide under section 2716 ¹ of the Public Health Service Act and to a copy of the plan's written policy.

(6) Enrollment periods

The Secretary shall require an Exchange to provide for—

(A) an initial open enrollment, as determined by the Secretary (such determination to be made not later than July 1, 2012);

(B) annual open enrollment periods, as determined by the Secretary for calendar years after the initial enrollment period;

(C) special enrollment periods specified in section 9801 of title 26 and other special enrollment periods under circumstances similar to such periods under part D of title XVIII of the Social Security Act [42 U.S.C. 1395w–101 et seq.]; and

(D) special monthly enrollment periods for Indians (as defined in section 1603 of title 25).

(7) Reenrollment of certain individuals in qualified health plans in certain exchanges

(A) In general

In the case of an Exchange that the Secretary operates pursuant to section 18041(c)(1) of this title, the Secretary shall establish a process under which an individual described in subparagraph (B) is reenrolled for plan year 2021 in a qualified health plan offered through such Exchange. Such qualified health plan under which such individual is so reenrolled shall be—

- (i) if available for plan year 2021, the qualified health plan under which such individual is enrolled during the annual open enrollment period for such plan year; and
- (ii) if such qualified health plan is not available for plan year 2021, a qualified health plan offered through such Exchange determined appropriate by the Secretary.

(B) Individual described

An individual described in this subsection is an individual who, with respect to plan year 2020—

- (i) resides in a State with an Exchange described in subparagraph (A);
- (ii) is enrolled in a qualified health plan during such plan year and does not enroll in a qualified health plan for plan year 2021 during the annual open enrollment period for such plan year 2021; and
- (iii) does not elect to disenroll under a qualified health plan for plan year 2021 during such annual open enrollment period.

(d) Requirements

(1) In general

An Exchange shall be a governmental agency or nonprofit entity that is established by a State.

(2) Offering of coverage

(A) In general

An Exchange shall make available qualified health plans to qualified individuals and qualified employers.

(B) Limitation

(i) In general

An Exchange may not make available any health plan that is not a qualified health plan.

(ii) Offering of stand-alone dental benefits

Each Exchange within a State shall allow an issuer of a plan that only provides limited scope dental benefits meeting the requirements of section 9832(c)(2)(A) of title 26 to offer the plan through the Exchange (either separately or in conjunction with a qualified health plan) if the plan provides pediatric dental benefits meeting the requirements of section 18022(b)(1)(J) of this title).

(3) Rules relating to additional required benefits

(A) In general

Except as provided in subparagraph (B), an Exchange may make available a qualified health plan notwithstanding any provision of law that may require benefits other than the essential health benefits specified under section 18022(b) of this title.

(B) States may require additional benefits

(i) In general

Subject to the requirements of clause (ii), a State may require that a qualified health plan offered in such State offer benefits in addition to the essential health benefits specified under section 18022(b) of this title.

(ii) State must assume cost

A State shall make payments—

- (I) to an individual enrolled in a qualified health plan offered in such State; or
- (II) on behalf of an individual described in subclause (I) directly to the qualified health plan in which such individual is enrolled;

to defray the cost of any additional benefits described in clause (i).

(4) Functions

An Exchange shall, at a minimum—

(A) implement procedures for the certification, recertification, and decertification, consistent with guidelines developed by the Secretary under subsection (c), of health plans as qualified health plans;

(B) provide for the operation of a toll-free telephone hotline to respond to requests for assistance;

(C) maintain an Internet website through which enrollees and prospective enrollees of qualified health plans may obtain standardized comparative information on such plans;

(D) assign a rating to each qualified health plan offered through such Exchange in accordance with the criteria developed by the Secretary under subsection (c)(3);

(E) utilize a standardized format for presenting health benefits plan options in the Exchange, including the use of the uniform outline of coverage established under section 2715 of the Public Health Service Act [42 U.S.C. 300gg-15];

(F) in accordance with section 18083 of this title, inform individuals of eligibility requirements for the medicaid program under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.], the CHIP program under title XXI of such Act [42 U.S.C. 1397aa et seq.], or any applicable State or local public program and if through screening of the application by the Exchange, the Exchange determines that such individuals are eligible for any such program, enroll such individuals in such program;

(G) establish and make available by electronic means a calculator to determine the actual cost of coverage after the application of any premium tax credit under section 36B of title 26 and any cost-sharing reduction under section 18071 of this title;

(H) subject to section 18081 of this title, grant a certification attesting that, for purposes of the individual responsibility penalty under section 5000A of title 26, an individual is exempt from the individual requirement or from the penalty imposed by such section because—

(i) there is no affordable qualified health plan available through the Exchange, or the individual's employer, covering the individual; or

(ii) the individual meets the requirements for any other such exemption from the individual responsibility requirement or penalty;

(I) transfer to the Secretary of the Treasury—

(i) a list of the individuals who are issued a certification under subparagraph (H), including the name and taxpayer identification number of each individual;

(ii) the name and taxpayer identification number of each individual who was an employee of an employer but who was determined to be eligible for the premium tax credit under section 36B of title 26 because—

(I) the employer did not provide minimum essential coverage; or

(II) the employer provided such minimum essential coverage but it was determined under section 36B(c)(2)(C) of such title to either be unaffordable to the employee or not provide the required minimum actuarial value; and

(iii) the name and taxpayer identification number of each individual who notifies the Exchange under section 18081(b)(4) of this title that they have changed employers and of each individual who ceases coverage under a qualified health plan during a plan year (and the effective date of such cessation);

(J) provide to each employer the name of each employee of the employer described in

subparagraph (I)(ii) who ceases coverage under a qualified health plan during a plan year (and the effective date of such cessation); and

(K) establish the Navigator program described in subsection (i).

(5) Funding limitations

(A) No Federal funds for continued operations

In establishing an Exchange under this section, the State shall ensure that such Exchange is self-sustaining beginning on January 1, 2015, including allowing the Exchange to charge assessments or user fees to participating health insurance issuers, or to otherwise generate funding, to support its operations.

(B) Prohibiting wasteful use of funds

In carrying out activities under this subsection, an Exchange shall not utilize any funds intended for the administrative and operational expenses of the Exchange for staff retreats, promotional giveaways, excessive executive compensation, or promotion of Federal or State legislative and regulatory modifications.

(6) Consultation

An Exchange shall consult with stakeholders relevant to carrying out the activities under this section, including—

(A) educated health care consumers who are enrollees in qualified health plans;

(B) individuals and entities with experience in facilitating enrollment in qualified health plans;

(C) representatives of small businesses and self-employed individuals;

(D) State Medicaid offices; and

(E) advocates for enrolling hard to reach populations.

(7) Publication of costs

An Exchange shall publish the average costs of licensing, regulatory fees, and any other payments required by the Exchange, and the administrative costs of such Exchange, on an Internet website to educate consumers on such costs. Such information shall also include monies lost to waste, fraud, and abuse.

(e) Certification

(1) In general

An Exchange may certify a health plan as a qualified health plan if—

(A) such health plan meets the requirements for certification as promulgated by the Secretary under subsection (c)(1); and

(B) the Exchange determines that making available such health plan through such Exchange is in the interests of qualified individuals and qualified employers in the State or States in which such Exchange operates, except that the Exchange may not exclude a health plan—

(i) on the basis that such plan is a fee-for-service plan;

(ii) through the imposition of premium price controls; or

(iii) on the basis that the plan provides treatments necessary to prevent patients' deaths in circumstances the Exchange determines are inappropriate or too costly.

(2) Premium considerations

The Exchange shall require health plans seeking certification as qualified health plans to submit a justification for any premium increase prior to implementation of the increase. Such plans shall prominently post such information on their websites. The Exchange shall take this information, and the information and the recommendations provided to the Exchange by the State under section 2794(b)(1) of the Public Health Service Act [42 U.S.C. 300gg-94(b)(1)] (relating to patterns or practices of excessive or unjustified premium increases), into consideration when determining

whether to make such health plan available through the Exchange. The Exchange shall take into account any excess of premium growth outside the Exchange as compared to the rate of such growth inside the Exchange, including information reported by the States.

(3) Transparency in coverage

(A) In general

The Exchange shall require health plans seeking certification as qualified health plans to submit to the Exchange, the Secretary, the State insurance commissioner, and make available to the public, accurate and timely disclosure of the following information:

- (i) Claims payment policies and practices.
- (ii) Periodic financial disclosures.
- (iii) Data on enrollment.
- (iv) Data on disenrollment.
- (v) Data on the number of claims that are denied.
- (vi) Data on rating practices.
- (vii) Information on cost-sharing and payments with respect to any out-of-network coverage.
- (viii) Information on enrollee and participant rights under this title.¹
- (ix) Other information as determined appropriate by the Secretary.

(B) Use of plain language

The information required to be submitted under subparagraph (A) shall be provided in plain language. The term "plain language" means language that the intended audience, including individuals with limited English proficiency, can readily understand and use because that language is concise, well-organized, and follows other best practices of plain language writing. The Secretary and the Secretary of Labor shall jointly develop and issue guidance on best practices of plain language writing.

(C) Cost sharing transparency

The Exchange shall require health plans seeking certification as qualified health plans to permit individuals to learn the amount of cost-sharing (including deductibles, copayments, and coinsurance) under the individual's plan or coverage that the individual would be responsible for paying with respect to the furnishing of a specific item or service by a participating provider in a timely manner upon the request of the individual. At a minimum, such information shall be made available to such individual through an Internet website and such other means for individuals without access to the Internet.

(D) Group health plans

The Secretary of Labor shall update and harmonize the Secretary's rules concerning the accurate and timely disclosure to participants by group health plans of plan disclosure, plan terms and conditions, and periodic financial disclosure with the standards established by the Secretary under subparagraph (A).

(f) Flexibility

(1) Regional or other interstate exchanges

An Exchange may operate in more than one State if—

- (A) each State in which such Exchange operates permits such operation; and
- (B) the Secretary approves such regional or interstate Exchange.

(2) Subsidiary Exchanges

A State may establish one or more subsidiary Exchanges if—

- (A) each such Exchange serves a geographically distinct area; and
- (B) the area served by each such Exchange is at least as large as a rating area described in section 2701(a) of the Public Health Service Act [42 U.S.C. 300gg(a)].

(3) Authority to contract

(A) In general

A State may elect to authorize an Exchange established by the State under this section to enter into an agreement with an eligible entity to carry out 1 or more responsibilities of the Exchange.

(B) Eligible entity

In this paragraph, the term "eligible entity" means—

(i) a person—

(I) incorporated under, and subject to the laws of, 1 or more States;

(II) that has demonstrated experience on a State or regional basis in the individual and small group health insurance markets and in benefits coverage; and

(III) that is not a health insurance issuer or that is treated under subsection (a) or (b) of section 52 of title 26 as a member of the same controlled group of corporations (or under common control with) as a health insurance issuer; or

(ii) the State medicaid agency under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.].

(g) Rewarding quality through market-based incentives

(1) Strategy described

A strategy described in this paragraph is a payment structure that provides increased reimbursement or other incentives for—

(A) improving health outcomes through the implementation of activities that shall include quality reporting, effective case management, care coordination, chronic disease management, medication and care compliance initiatives, including through the use of the medical home model, for treatment or services under the plan or coverage;

(B) the implementation of activities to prevent hospital readmissions through a comprehensive program for hospital discharge that includes patient-centered education and counseling, comprehensive discharge planning, and post discharge reinforcement by an appropriate health care professional;

(C) the implementation of activities to improve patient safety and reduce medical errors through the appropriate use of best clinical practices, evidence based medicine, and health information technology under the plan or coverage;

(D) the implementation of wellness and health promotion activities; and

(E) the implementation of activities to reduce health and health care disparities, including through the use of language services, community outreach, and cultural competency trainings.

(2) Guidelines

The Secretary, in consultation with experts in health care quality and stakeholders, shall develop guidelines concerning the matters described in paragraph (1).

(3) Requirements

The guidelines developed under paragraph (2) shall require the periodic reporting to the applicable Exchange of the activities that a qualified health plan has conducted to implement a strategy described in paragraph (1).

(h) Quality improvement

(1) Enhancing patient safety

Beginning on January 1, 2015, a qualified health plan may contract with—

(A) a hospital with greater than 50 beds only if such hospital—

(i) utilizes a patient safety evaluation system as described in part C of title IX of the Public Health Service Act [42 U.S.C. 299b–21 et seq.]; and

(ii) implements a mechanism to ensure that each patient receives a comprehensive program

for hospital discharge that includes patient-centered education and counseling, comprehensive discharge planning, and post discharge reinforcement by an appropriate health care professional; or

(B) a health care provider only if such provider implements such mechanisms to improve health care quality as the Secretary may by regulation require.

(2) Exceptions

The Secretary may establish reasonable exceptions to the requirements described in paragraph (1).

(3) Adjustment

The Secretary may by regulation adjust the number of beds described in paragraph (1)(A).

(i) Navigators

(1) In general

An Exchange shall establish a program under which it awards grants to entities described in paragraph (2) to carry out the duties described in paragraph (3).

(2) Eligibility

(A) In general

To be eligible to receive a grant under paragraph (1), an entity shall demonstrate to the Exchange involved that the entity has existing relationships, or could readily establish relationships, with employers and employees, consumers (including uninsured and underinsured consumers), or self-employed individuals likely to be qualified to enroll in a qualified health plan.

(B) Types

Entities described in subparagraph (A) may include trade, industry, and professional associations, commercial fishing industry organizations, ranching and farming organizations, community and consumer-focused nonprofit groups, chambers of commerce, unions, resource partners of the Small Business Administration, other licensed insurance agents and brokers, and other entities that—

- (i) are capable of carrying out the duties described in paragraph (3);
- (ii) meet the standards described in paragraph (4); and
- (iii) provide information consistent with the standards developed under paragraph (5).

(3) Duties

An entity that serves as a navigator under a grant under this subsection shall—

(A) conduct public education activities to raise awareness of the availability of qualified health plans;

(B) distribute fair and impartial information concerning enrollment in qualified health plans, and the availability of premium tax credits under section 36B of title 26 and cost-sharing reductions under section 18071 of this title;

(C) facilitate enrollment in qualified health plans;

(D) provide referrals to any applicable office of health insurance consumer assistance or health insurance ombudsman established under section 2793 of the Public Health Service Act [42 U.S.C. 300gg–93], or any other appropriate State agency or agencies, for any enrollee with a grievance, complaint, or question regarding their health plan, coverage, or a determination under such plan or coverage; and

(E) provide information in a manner that is culturally and linguistically appropriate to the needs of the population being served by the Exchange or Exchanges.

(4) Standards

(A) In general

The Secretary shall establish standards for navigators under this subsection, including provisions to ensure that any private or public entity that is selected as a navigator is qualified, and licensed if appropriate, to engage in the navigator activities described in this subsection and to avoid conflicts of interest. Under such standards, a navigator shall not—

- (i) be a health insurance issuer; or
- (ii) receive any consideration directly or indirectly from any health insurance issuer in connection with the enrollment of any qualified individuals or employees of a qualified employer in a qualified health plan.

(5) Fair and impartial information and services

The Secretary, in collaboration with States, shall develop standards to ensure that information made available by navigators is fair, accurate, and impartial.

(6) Funding

Grants under this subsection shall be made from the operational funds of the Exchange and not Federal funds received by the State to establish the Exchange.

(j) Applicability of mental health parity

Section 2726 of the Public Health Service Act [42 U.S.C. 300gg–26] shall apply to qualified health plans in the same manner and to the same extent as such section applies to health insurance issuers and group health plans.

(k) Conflict

An Exchange may not establish rules that conflict with or prevent the application of regulations promulgated by the Secretary under this subchapter.

(Pub. L. 111–148, title I, §1311, title X, §§10104(e)–(h), 10203(a), Mar. 23, 2010, 124 Stat. 173, 900, 901, 927; Pub. L. 116–94, div. N, title I, §608, Dec. 20, 2019, 133 Stat. 3130.)

For complete classification of title I to the Code, see Tables.

Section 2716 of the Public Health Service Act, referred to in subsec. (c)(5), probably should be section 2715 of the Public Health Service Act, act July 1, 1944, which is classified to section 300gg–15 of this title and requires the Secretary to develop a uniform explanation of coverage documents and standardized definitions. Section 2716 of act July 1, 1944, which is classified to section 300gg–16 of this title, relates to prohibition on discrimination in favor of highly compensated individuals.

The Social Security Act, referred to in subsecs. (c)(6)(C), (d)(4)(F), and (f)(3)(B)(ii), is act Aug. 14, 1935, ch. 531, 49 Stat. 620. Part D of title XVIII of the Act is classified generally to part D (§1395w–101 et seq.) of subchapter XVIII of chapter 7 of this title. Titles XIX and XXI of the Act are classified generally to subchapters XIX (§1396 et seq.) and XXI (§1397aa et seq.), respectively, of chapter 7 of this title. For complete classification of this Act to the Code, see section 1305 of this title and Tables.

The Public Health Service Act, referred to in subsec. (h)(1)(A)(i), is act July 1, 1944, ch. 373, 58 Stat. 682. Part C of title IX of the Act is classified generally to part C (§299b–21 et seq.) of subchapter VII of chapter 6A of this title. For complete classification of this Act to the Code, see Short Title note set out under section

201 of this title and Tables.

This subchapter, referred to in subsec. (k), was in the original "this subtitle", meaning subtitle D of title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 162, which enacted this subchapter and amended sections 501, 4958, and 6033 of Title 26, Internal Revenue Code.

AMENDMENTS

2019—Subsec. (c)(7). Pub. L. 116–94 added par. (7).

2010—Subsec. (c)(1)(I). Pub. L. 111–148, §10203(a), added subpar. (I).

Subsec. (d)(3)(B)(ii). Pub. L. 111–148, §10104(e)(1), added cl. (ii) and struck out former cl. (ii). Prior to amendment, text read as follows: "A State shall make payments to or on behalf of an individual eligible for the premium tax credit under section 36B of title 26 and any cost-sharing reduction under section 18071 of this title to defray the cost to the individual of any additional benefits described in clause (i) which are not eligible for such credit or reduction under section 36B(b)(3)(D) of title 26 and section 18071(c)(4) of this title."

Subsec. (d)(6)(A). Pub. L. 111–148, §10104(e)(2), inserted "educated" before "health care".

Subsec. (e)(2). Pub. L. 111–148, §10104(f)(1), which directed substitution of "shall" for "may" in second sentence, was executed by making the substitution in third sentence before "take" to reflect the probable intent of Congress because the word "shall" already appeared in second sentence.

Subsec. (e)(3). Pub. L. 111–148, §10104(f)(2), added par. (3).

Subsec. (g)(1)(E). Pub. L. 111–148, §10104(g), added subpar. (E).

Subsec. (i)(2)(B). Pub. L. 111–148, §10104(h), substituted "resource partners of the Small Business Administration" for "small business development centers".

STATUTORY NOTES AND RELATED SUBSIDIARIES

ESTABLISHING A GRANT PROGRAM FOR EXCHANGE MODERNIZATION

Pub. L. 117–2, title II, §2801, Mar. 11, 2021, 135 Stat. 49, provided that:

"(a) **IN GENERAL.**—Out of funds appropriated under subsection (b), the Secretary of Health and Human Services (in this subtitle [subtitle I (§2801) of title II of Pub. L. 117–2] referred to as the 'Secretary') shall award grants to each American Health Benefits Exchange established under section 1311(b) of the Patient Protection and Affordable Care Act (42 U.S.C. 18031(b)) (other than an Exchange established by the Secretary under section 1321(c) of such Act (42 U.S.C. 18041(c))) that submits to the Secretary an application at such time and in such manner, and containing such information, as specified by the Secretary, for purposes of enabling such Exchange to modernize or update any system, program, or technology utilized by such Exchange to ensure such Exchange is compliant with all applicable requirements.

"(b) **FUNDING.**—In addition to amounts otherwise available, there is appropriated, for fiscal year 2021, out of any money in the Treasury not otherwise appropriated, \$20,000,000, to remain available until September 30, 2022, for carrying out this section."

¹ [*See References in Text note below.*](#)

§18032. Consumer choice

(a) Choice

(1) Qualified individuals

A qualified individual may enroll in any qualified health plan available to such individual and for which such individual is eligible.

(2) Qualified employers

(A) Employer may specify level

A qualified employer may provide support for coverage of employees under a qualified health plan by selecting any level of coverage under section 18022(d) of this title to be made available to employees through an Exchange.

(B) Employee may choose plans within a level

Each employee of a qualified employer that elects a level of coverage under subparagraph (A) may choose to enroll in a qualified health plan that offers coverage at that level.

(b) Payment of premiums by qualified individuals

A qualified individual enrolled in any qualified health plan may pay any applicable premium owed by such individual to the health insurance issuer issuing such qualified health plan.

(c) Single risk pool

(1) Individual market

A health insurance issuer shall consider all enrollees in all health plans (other than grandfathered health plans) offered by such issuer in the individual market, including those enrollees who do not enroll in such plans through the Exchange, to be members of a single risk pool.

(2) Small group market

A health insurance issuer shall consider all enrollees in all health plans (other than grandfathered health plans) offered by such issuer in the small group market, including those enrollees who do not enroll in such plans through the Exchange, to be members of a single risk pool.

(3) Merger of markets

A State may require the individual and small group insurance markets within a State to be merged if the State determines appropriate.

(4) State law

A State law requiring grandfathered health plans to be included in a pool described in paragraph (1) or (2) shall not apply.

(d) Empowering consumer choice

(1) Continued operation of market outside Exchanges

Nothing in this title [1](#) shall be construed to prohibit—

(A) a health insurance issuer from offering outside of an Exchange a health plan to a qualified individual or qualified employer; and

(B) a qualified individual from enrolling in, or a qualified employer from selecting for its employees, a health plan offered outside of an Exchange.

(2) Continued operation of State benefit requirements

Nothing in this title [1](#) shall be construed to terminate, abridge, or limit the operation of any requirement under State law with respect to any policy or plan that is offered outside of an Exchange to offer benefits.

(3) Voluntary nature of an Exchange

(A) Choice to enroll or not to enroll

Nothing in this title [1](#) shall be construed to restrict the choice of a qualified individual to enroll or not to enroll in a qualified health plan or to participate in an Exchange.

(B) Prohibition against compelled enrollment

Nothing in this title [1](#) shall be construed to compel an individual to enroll in a qualified health plan or to participate in an Exchange.

(C) Individuals allowed to enroll in any plan

A qualified individual may enroll in any qualified health plan, except that in the case of a catastrophic plan described in section 18022(e) of this title, a qualified individual may enroll in the plan only if the individual is eligible to enroll in the plan under section 18022(e)(2) of this title.

(D) Members of Congress in the Exchange

(i) Requirement

Notwithstanding any other provision of law, after the effective date of this subtitle, the only health plans that the Federal Government may make available to Members of Congress and congressional staff with respect to their service as a Member of Congress or congressional staff shall be health plans that are—

(I) created under this Act (or an amendment made by this Act); or

(II) offered through an Exchange established under this Act (or an amendment made by this Act).

(ii) Definitions

In this section:

(I) Member of Congress

The term "Member of Congress" means any member of the House of Representatives or the Senate.

(II) Congressional staff

The term "congressional staff" means all full-time and part-time employees employed by the official office of a Member of Congress, whether in Washington, DC or outside of Washington, DC.

(4) No penalty for transferring to minimum essential coverage outside Exchange

An Exchange, or a qualified health plan offered through an Exchange, shall not impose any penalty or other fee on an individual who cancels enrollment in a plan because the individual becomes eligible for minimum essential coverage (as defined in section 5000A(f) of title 26 without regard to paragraph (1)(C) or (D) thereof) or such coverage becomes affordable (within the meaning of section 36B(c)(2)(C) of such title).

(e) Enrollment through agents or brokers

The Secretary shall establish procedures under which a State may allow agents or brokers—

(1) to enroll individuals and employers in any qualified health plans in the individual or small group market as soon as the plan is offered through an Exchange in the State; and

(2) to assist individuals in applying for premium tax credits and cost-sharing reductions for plans sold through an Exchange.

(f) Qualified individuals and employers; access limited to citizens and lawful residents

(1) Qualified individuals

In this title: [1](#)

(A) In general

The term "qualified individual" means, with respect to an Exchange, an individual who—

(i) is seeking to enroll in a qualified health plan in the individual market offered through the Exchange; and

(ii) resides in the State that established the Exchange.

(B) Incarcerated individuals excluded

An individual shall not be treated as a qualified individual if, at the time of enrollment, the individual is incarcerated, other than incarceration pending the disposition of charges.

(2) Qualified employer

In this title: [1](#)

(A) In general

The term "qualified employer" means a small employer that elects to make all full-time employees of such employer eligible for 1 or more qualified health plans offered in the small

group market through an Exchange that offers qualified health plans.

(B) Extension to large groups

(i) In general

Beginning in 2017, each State may allow issuers of health insurance coverage in the large group market in the State to offer qualified health plans in such market through an Exchange. Nothing in this subparagraph shall be construed as requiring the issuer to offer such plans through an Exchange.

(ii) Large employers eligible

If a State under clause (i) allows issuers to offer qualified health plans in the large group market through an Exchange, the term "qualified employer" shall include a large employer that elects to make all full-time employees of such employer eligible for 1 or more qualified health plans offered in the large group market through the Exchange.

(3) Access limited to lawful residents

If an individual is not, or is not reasonably expected to be for the entire period for which enrollment is sought, a citizen or national of the United States or an alien lawfully present in the United States, the individual shall not be treated as a qualified individual and may not be covered under a qualified health plan in the individual market that is offered through an Exchange.

(Pub. L. 111–148, title I, §1312, title X, §10104(i), Mar. 23, 2010, 124 Stat. 182, 901.)

This title, referred to in subsecs. (d)(1), (2), (3)(A), (B) and (f)(1), (2), is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

The effective date of this subtitle, referred to in subsec. (d)(3)(D)(i), is the effective date of subtitle D of title I of Pub. L. 111–148, which is Mar. 23, 2010.

This Act, referred to in subsec. (d)(3)(D)(i), is Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 119, known as the Patient Protection and Affordable Care Act. For complete classification of this Act to the Code, see Short Title note set out under section 18001 of this title and Tables.

AMENDMENTS

2010—Subsec. (a)(1). Pub. L. 111–148, §10104(i)(1), inserted "and for which such individual is eligible" before period at end.

Subsec. (e). Pub. L. 111–148, §10104(i)(2)(B), struck out concluding provisions which read as follows: "Such procedures may include the establishment of rate schedules for broker commissions paid by health benefits plans offered through an exchange."

Subsec. (e)(1). Pub. L. 111–148, §10104(i)(2)(A), inserted "and employers" after "enroll individuals".

Subsec. (f)(1)(A)(ii). Pub. L. 111–148, §10104(i)(3), struck out "(except with respect to territorial agreements under this subsection)" before period at end.

¹ [*See References in Text note below.*](#)

§18033. Financial integrity

(a) Accounting for expenditures

(1) In general

An Exchange shall keep an accurate accounting of all activities, receipts, and expenditures and shall annually submit to the Secretary a report concerning such accountings.

(2) Investigations

The Secretary, in coordination with the Inspector General of the Department of Health and Human Services, may investigate the affairs of an Exchange, may examine the properties and records of an Exchange, and may require periodic reports in relation to activities undertaken by an Exchange. An Exchange shall fully cooperate in any investigation conducted under this paragraph.

(3) Audits

An Exchange shall be subject to annual audits by the Secretary.

(4) Pattern of abuse

If the Secretary determines that an Exchange or a State has engaged in serious misconduct with respect to compliance with the requirements of, or carrying out of activities required under, this title,¹ the Secretary may rescind from payments otherwise due to such State involved under this or any other Act administered by the Secretary an amount not to exceed 1 percent of such payments per year until corrective actions are taken by the State that are determined to be adequate by the Secretary.

(5) Protections against fraud and abuse

With respect to activities carried out under this title,¹ the Secretary shall provide for the efficient and non-discriminatory administration of Exchange activities and implement any measure or procedure that—

(A) the Secretary determines is appropriate to reduce fraud and abuse in the administration of this title; ¹ and

(B) the Secretary has authority to implement under this title ¹ or any other Act.

(6) Application of the False Claims Act

(A) In general

Payments made by, through, or in connection with an Exchange are subject to the False Claims Act (31 U.S.C. 3729 et seq.) if those payments include any Federal funds. Compliance with the requirements of this Act concerning eligibility for a health insurance issuer to participate in the Exchange shall be a material condition of an issuer's entitlement to receive payments, including payments of premium tax credits and cost-sharing reductions, through the Exchange.

(B) ² Damages

Notwithstanding paragraph (1) of section 3729(a) of title 31, and subject to paragraph (2) of such section, the civil penalty assessed under the False Claims Act on any person found liable under such Act as described in subparagraph (A) shall be increased by not less than 3 times and not more than 6 times the amount of damages which the Government sustains because of the act of that person.

(b) GAO oversight

Not later than 5 years after the first date on which Exchanges are required to be operational under this title,¹ the Comptroller General shall conduct an ongoing study of Exchange activities and the enrollees in qualified health plans offered through Exchanges. Such study shall review—

(1) the operations and administration of Exchanges, including surveys and reports of qualified health plans offered through Exchanges and on the experience of such plans (including data on enrollees in Exchanges and individuals purchasing health insurance coverage outside of Exchanges), the expenses of Exchanges, claims statistics relating to qualified health plans, complaints data relating to such plans, and the manner in which Exchanges meet their goals;

(2) any significant observations regarding the utilization and adoption of Exchanges;

(3) where appropriate, recommendations for improvements in the operations or policies of Exchanges;

(4) a survey of the cost and affordability of health care insurance provided under the Exchanges for owners and employees of small business concerns (as defined under section 632 of title 15),

including data on enrollees in Exchanges and individuals purchasing health insurance coverage outside of Exchanges; and

(5) how many physicians, by area and specialty, are not taking or accepting new patients enrolled in Federal Government health care programs, and the adequacy of provider networks of Federal Government health care programs.

(Pub. L. 111–148, title I, §1313, title X, §10104(k), Mar. 23, 2010, 124 Stat. 184, 902.)

EDITORIAL NOTES

REFERENCES IN TEXT

This title, referred to in subsecs. (a)(4), (5) and (b), is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

This Act, referred to in subsec. (a)(4), (6)(A), is Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 119, known as the Patient Protection and Affordable Care Act. For complete classification of this Act to the Code, see Short Title note set out under section 18001 of this title and Tables.

The False Claims Act, referred to in subsec. (a)(6), was the popular name for sections 231, 232, 233, and 235 of former Title 31, Money and Finance. Sections 231, 232, 233, and 235 were repealed by Pub. L. 97–258, §5(b), Sept. 13, 1982, 96 Stat. 1084, and reenacted by the first section thereof as sections 3729 to 3731 of Title 31, Money and Finance.

AMENDMENTS

2010—Subsec. (b)(4), (5). Pub. L. 111–148, §10104(k), added par. (4) and redesignated former par. (4) as (5).

STATUTORY NOTES AND RELATED SUBSIDIARIES

TERMINATION OF PROVISION

Pub. L. 111–148, title X, §10104(j)(1), Mar. 23, 2010, 124 Stat. 901, provided that: "Subparagraph (B) of section 1313(a)(6) of this Act [42 U.S.C. 18033(a)(6)(B)] is hereby deemed null, void, and of no effect."

PART C—STATE FLEXIBILITY RELATING TO EXCHANGES

§18041. State flexibility in operation and enforcement of Exchanges and related requirements

(a) Establishment of standards

(1) In general

The Secretary shall, as soon as practicable after March 23, 2010, issue regulations setting standards for meeting the requirements under this title,¹ and the amendments made by this title,¹ with respect to—

- (A) the establishment and operation of Exchanges (including SHOP Exchanges);
- (B) the offering of qualified health plans through such Exchanges;
- (C) the establishment of the reinsurance and risk adjustment programs under part E; and
- (D) such other requirements as the Secretary determines appropriate.

The preceding sentence shall not apply to standards for requirements under subtitles A and C (and the amendments made by such subtitles) for which the Secretary issues regulations under the Public Health Service Act [42 U.S.C. 201 et seq.].

(2) Consultation

In issuing the regulations under paragraph (1), the Secretary shall consult with the National Association of Insurance Commissioners and its members and with health insurance issuers, consumer organizations, and such other individuals as the Secretary selects in a manner designed to ensure balanced representation among interested parties.

(b) State action

Each State that elects, at such time and in such manner as the Secretary may prescribe, to apply the requirements described in subsection (a) shall, not later than January 1, 2014, adopt and have in effect—

(1) the Federal standards established under subsection (a); or

(2) a State law or regulation that the Secretary determines implements the standards within the State.

(c) Failure to establish Exchange or implement requirements

(1) In general

If—

(A) a State is not an electing State under subsection (b); or

(B) the Secretary determines, on or before January 1, 2013, that an electing State—

(i) will not have any required Exchange operational by January 1, 2014; or

(ii) has not taken the actions the Secretary determines necessary to implement—

(I) the other requirements set forth in the standards under subsection (a); or

(II) the requirements set forth in subtitles A and C and the amendments made by such subtitles;

the Secretary shall (directly or through agreement with a not-for-profit entity) establish and operate such Exchange within the State and the Secretary shall take such actions as are necessary to implement such other requirements.

(2) Enforcement authority

The provisions of section 2736(b) ¹ of the Public Health Services ² Act [42 U.S.C. 300gg–22(b)] shall apply to the enforcement under paragraph (1) of requirements of subsection (a)(1) (without regard to any limitation on the application of those provisions to group health plans).

(d) No interference with State regulatory authority

Nothing in this title ¹ shall be construed to preempt any State law that does not prevent the application of the provisions of this title.¹

(e) Presumption for certain State-operated Exchanges

(1) In general

In the case of a State operating an Exchange before January 1, 2010, and which has insured a percentage of its population not less than the percentage of the population projected to be covered nationally after the implementation of this Act, that seeks to operate an Exchange under this section, the Secretary shall presume that such Exchange meets the standards under this section unless the Secretary determines, after completion of the process established under paragraph (2), that the Exchange does not comply with such standards.

(2) Process

The Secretary shall establish a process to work with a State described in paragraph (1) to provide assistance necessary to assist the State's Exchange in coming into compliance with the

standards for approval under this section.

(Pub. L. 111–148, title I, §1321, Mar. 23, 2010, 124 Stat. 186.)

EDITORIAL NOTES

REFERENCES IN TEXT

This title, referred to in subsecs. (a)(1) and (d), is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

Subtitles A and C, referred to in subsecs. (a)(1) and (c)(1)(B)(ii)(II), are subtitles A (§§1001–1004) and C (§§1201–1255), respectively, of title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, 154. Subtitle A enacted sections 300gg–11 to 300gg–19, 300gg–93, and 300gg–94 of this title, transferred sections 300gg–4 to 300gg–7 and 300gg–13 of this title to sections 300gg–25 to 300gg–28 and 300gg–9 of this title, respectively, amended sections 300gg–11, 300gg–12, and 300gg–21 to 300gg–23 of this title, and enacted provisions set out as a note under section 300gg–11 of this title. Subtitle C enacted subchapter II of this chapter and sections 300gg to 300gg–2 and 300gg–4 to 300gg–7 of this title, transferred section 300gg of this title to section 300gg–3 of this title, amended sections 300gg–1 and 300gg–4 of this title, and enacted provisions set out as a note under section 300gg of this title. For complete classification of subtitles A and C to the Code, see Tables.

The Public Health Service Act, referred to in subsec. (a)(1), is act July 1, 1944, ch. 373, 58 Stat. 682, which is classified generally to chapter 6A (§201 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 201 of this title and Tables.

Section 2736 of the Public Health Service Act, referred to in subsec. (c)(2), was renumbered section 2723 of that Act by Pub. L. 111–148, §1563(c)(13)(C) (formerly §1562(c)(13)(C)), Mar. 23, 2010, 124 Stat. 269, and is classified to section 300gg–22 of this title.

This Act, referred to in subsec. (e)(1), is Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 119, known as the Patient Protection and Affordable Care Act. For complete classification of this Act to the Code, see Short Title note set out under section 18001 of this title and Tables.

² [So in original. Probably should be "Service".](#)

§18042. Federal program to assist establishment and operation of nonprofit, member-run health insurance issuers

(a) Establishment of program

(1) In general

The Secretary shall establish a program to carry out the purposes of this section to be known as the Consumer Operated and Oriented Plan (CO–OP) program.

(2) Purpose

It is the purpose of the CO–OP program to foster the creation of qualified nonprofit health insurance issuers to offer qualified health plans in the individual and small group markets in the States in which the issuers are licensed to offer such plans.

(b) Loans and grants under the CO–OP program

(1) In general

The Secretary shall provide through the CO–OP program for the awarding to persons applying to become qualified nonprofit health insurance issuers of—

(A) loans to provide assistance to such person in meeting its start-up costs; and

(B) grants to provide assistance to such person in meeting any solvency requirements of States in which the person seeks to be licensed to issue qualified health plans.

(2) Requirements for awarding loans and grants

(A) In general

In awarding loans and grants under the CO-OP program, the Secretary shall—

- (i) take into account the recommendations of the advisory board established under paragraph (3);
- (ii) give priority to applicants that will offer qualified health plans on a Statewide basis, will utilize integrated care models, and have significant private support; and
- (iii) ensure that there is sufficient funding to establish at least 1 qualified nonprofit health insurance issuer in each State, except that nothing in this clause shall prohibit the Secretary from funding the establishment of multiple qualified nonprofit health insurance issuers in any State if the funding is sufficient to do so.

(B) States without issuers in program

If no health insurance issuer applies to be a qualified nonprofit health insurance issuer within a State, the Secretary may use amounts appropriated under this section for the awarding of grants to encourage the establishment of a qualified nonprofit health insurance issuer within the State or the expansion of a qualified nonprofit health insurance issuer from another State to the State.

(C) Agreement

(i) In general

The Secretary shall require any person receiving a loan or grant under the CO-OP program to enter into an agreement with the Secretary which requires such person to meet (and to continue to meet)—

- (I) any requirement under this section for such person to be treated as a qualified nonprofit health insurance issuer; and
- (II) any requirements contained in the agreement for such person to receive such loan or grant.

(ii) Restrictions on use of Federal funds

The agreement shall include a requirement that no portion of the funds made available by any loan or grant under this section may be used—

- (I) for carrying on propaganda, or otherwise attempting, to influence legislation; or
- (II) for marketing.

Nothing in this clause shall be construed to allow a person to take any action prohibited by section 501(c)(29) of title 26.

(iii) Failure to meet requirements

If the Secretary determines that a person has failed to meet any requirement described in clause (i) or (ii) and has failed to correct such failure within a reasonable period of time of when the person first knows (or reasonably should have known) of such failure, such person shall repay to the Secretary an amount equal to the sum of—

- (I) 110 percent of the aggregate amount of loans and grants received under this section; plus
- (II) interest on the aggregate amount of loans and grants received under this section for the period the loans or grants were outstanding.

The Secretary shall notify the Secretary of the Treasury of any determination under this section of a failure that results in the termination of an issuer's tax-exempt status under section 501(c)(29) of such title.

(D) Time for awarding loans and grants

The Secretary shall not later than July 1, 2013, award the loans and grants under the CO-OP

program and begin the distribution of amounts awarded under such loans and grants.

(3) Repayment of loans and grants

Not later than July 1, 2013, and prior to awarding loans and grants under the CO-OP program, the Secretary shall promulgate regulations with respect to the repayment of such loans and grants in a manner that is consistent with State solvency regulations and other similar State laws that may apply. In promulgating such regulations, the Secretary shall provide that such loans shall be repaid within 5 years and such grants shall be repaid within 15 years, taking into consideration any appropriate State reserve requirements, solvency regulations, and requisite surplus note arrangements that must be constructed in a State to provide for such repayment prior to awarding such loans and grants.

(4) Advisory board

(A) In general

The advisory board under this paragraph shall consist of 15 members appointed by the Comptroller General of the United States from among individuals with qualifications described in section 1395b-6(c)(2) of this title.

(B) Rules relating to appointments

(i) Standards

Any individual appointed under subparagraph (A) shall meet ethics and conflict of interest standards protecting against insurance industry involvement and interference.

(ii) Original appointments

The original appointment of board members under subparagraph (A)(ii) shall be made no later than 3 months after March 23, 2010.

(C) Vacancy

Any vacancy on the advisory board shall be filled in the same manner as the original appointment.

(D) Pay and reimbursement

(i) No compensation for members of advisory board

Except as provided in clause (ii), a member of the advisory board may not receive pay, allowances, or benefits by reason of their service on the board.

(ii) Travel expenses

Each member shall receive travel expenses, including per diem in lieu of subsistence under subchapter I of chapter 57 of title 5.

(E) Application of chapter 10 of title 5

Chapter 10 of title 5 shall apply to the advisory board, except that section 1013 of title 5 shall not apply.

(F) Termination

The advisory board shall terminate on the earlier of the date that it completes its duties under this section or December 31, 2015.

(c) Qualified nonprofit health insurance issuer

For purposes of this section—

(1) In general

The term "qualified nonprofit health insurance issuer" means a health insurance issuer that is an organization—

(A) that is organized under State law as a nonprofit, member corporation;

(B) substantially all of the activities of which consist of the issuance of qualified health plans

in the individual and small group markets in each State in which it is licensed to issue such plans; and

(C) that meets the other requirements of this subsection.

(2) Certain organizations prohibited

An organization shall not be treated as a qualified nonprofit health insurance issuer if—

(A) the organization or a related entity (or any predecessor of either) was a health insurance issuer on July 16, 2009; or

(B) the organization is sponsored by a State or local government, any political subdivision thereof, or any instrumentality of such government or political subdivision.

(3) Governance requirements

An organization shall not be treated as a qualified nonprofit health insurance issuer unless—

(A) the governance of the organization is subject to a majority vote of its members;

(B) its governing documents incorporate ethics and conflict of interest standards protecting against insurance industry involvement and interference; and

(C) as provided in regulations promulgated by the Secretary, the organization is required to operate with a strong consumer focus, including timeliness, responsiveness, and accountability to members.

(4) Profits inure to benefit of members

An organization shall not be treated as a qualified nonprofit health insurance issuer unless any profits made by the organization are required to be used to lower premiums, to improve benefits, or for other programs intended to improve the quality of health care delivered to its members.

(5) Compliance with State insurance laws

An organization shall not be treated as a qualified nonprofit health insurance issuer unless the organization meets all the requirements that other issuers of qualified health plans are required to meet in any State where the issuer offers a qualified health plan, including solvency and licensure requirements, rules on payments to providers, and compliance with network adequacy rules, rate and form filing rules, any applicable State premium assessments and any other State law described in section 18044(b) of this title.

(6) Coordination with State insurance reforms

An organization shall not be treated as a qualified nonprofit health insurance issuer unless the organization does not offer a health plan in a State until that State has in effect (or the Secretary has implemented for the State) the market reforms required by part A of title XXVII of the Public Health Service Act [42 U.S.C. 300gg et seq.] (as amended by subtitles A and C of this Act).

(d) Establishment of private purchasing council

(1) In general

Qualified nonprofit health insurance issuers participating in the CO-OP program under this section may establish a private purchasing council to enter into collective purchasing arrangements for items and services that increase administrative and other cost efficiencies, including claims administration, administrative services, health information technology, and actuarial services.

(2) Council may not set payment rates

The private purchasing council established under paragraph (1) shall not set payment rates for health care facilities or providers participating in health insurance coverage provided by qualified nonprofit health insurance issuers.

(3) Continued application of antitrust laws

(A) In general

Nothing in this section shall be construed to limit the application of the antitrust laws to any private purchasing council (whether or not established under this subsection) or to any qualified nonprofit health insurance issuer participating in such a council.

(B) Antitrust laws

For purposes of this subparagraph, the term "antitrust laws" has the meaning given the term in subsection (a) of section 12 of title 15. Such term also includes section 45 of title 15 to the extent that such section 45 applies to unfair methods of competition.

(e) Limitation on participation

No representative of any Federal, State, or local government (or of any political subdivision or instrumentality thereof), and no representative of a person described in subsection (c)(2)(A), may serve on the board of directors of a qualified nonprofit health insurance issuer or with a private purchasing council established under subsection (d).

(f) Limitations on Secretary

(1) In general

The Secretary shall not—

(A) participate in any negotiations between 1 or more qualified nonprofit health insurance issuers (or a private purchasing council established under subsection (d)) and any health care facilities or providers, including any drug manufacturer, pharmacy, or hospital; and

(B) establish or maintain a price structure for reimbursement of any health benefits covered by such issuers.

(2) Competition

Nothing in this section shall be construed as authorizing the Secretary to interfere with the competitive nature of providing health benefits through qualified nonprofit health insurance issuers.

(g) Appropriations

There are hereby appropriated, out of any funds in the Treasury not otherwise appropriated, \$6,000,000,000 to carry out this section.

(h) Omitted

(i) GAO study and report

(1) Study

The Comptroller General of the General Accountability Office shall conduct an ongoing study on competition and market concentration in the health insurance market in the United States after the implementation of the reforms in such market under the provisions of, and the amendments made by, this Act. Such study shall include an analysis of new issuers of health insurance in such market.

(2) Report

The Comptroller General shall, not later than December 31 of each even-numbered year (beginning with 2014), report to the appropriate committees of the Congress the results of the study conducted under paragraph (1), including any recommendations for administrative or legislative changes the Comptroller General determines necessary or appropriate to increase competition in the health insurance market.

(Pub. L. 111–148, title I, §1322, title X, §10104(l), Mar. 23, 2010, 124 Stat. 187, 902; Pub. L. 117–286, §4(a)(282), Dec. 27, 2022, 136 Stat. 4337.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Public Health Service Act, referred to in subsec. (c)(6), is act July 1, 1944, ch. 373, 58 Stat. 682. Part A of title XXVII of the Act is classified generally to part A (§300gg et seq.) of subchapter XXV of chapter 6A of this title. For complete classification of this Act to the Code, see Short Title note set out under section 201 of this title and Tables.

Subtitles A and C of this Act, referred to in subsec. (c)(6), are subtitles A (§§1001–1004) and C (§§1201–1255), respectively, of title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, 154. Subtitle A enacted sections 300gg–11 to 300gg–19, 300gg–93, and 300gg–94 of this title, transferred sections 300gg–4 to 300gg–7 and 300gg–13 of this title to sections 300gg–25 to 300gg–28 and 300gg–9 of this title, respectively, amended sections 300gg–11, 300gg–12, and 300gg–21 to 300gg–23 of this title, and enacted provisions set out as a note under section 300gg–11 of this title. Subtitle C enacted subchapter II of this chapter and sections 300gg to 300gg–2 and 300gg–4 to 300gg–7 of this title, transferred section 300gg of this title to section 300gg–3 of this title, amended sections 300gg–1 and 300gg–4 of this title, and enacted provisions set out as a note under section 300gg of this title. For complete classification of subtitles A and C to the Code, see Tables.

This Act, referred to in subsec. (i)(1), is Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 119, known as the Patient Protection and Affordable Care Act. For complete classification of this Act to the Code, see Short Title note set out under section 18001 of this title and Tables.

CODIFICATION

Section is comprised of section 1322 of Pub. L. 111–148. Subsec. (h) of section 1322 of Pub. L. 111–148 amended sections 501, 4958, and 6033 of Title 26, Internal Revenue Code.

AMENDMENTS

2022—Subsec. (b)(4)(E). Pub. L. 117–286 substituted "chapter 10 of title 5" for "FACA" in heading and "Chapter 10 of title 5 shall apply to the advisory board, except that section 1013 of title 5" for "The Federal Advisory Committee Act (5 U.S.C. App.) shall apply to the advisory board, except that section 14 of such Act" in text.

2010—Subsec. (b)(3), (4). Pub. L. 111–148, §10104(l), added par. (3) and redesignated former par. (3) as (4).

STATUTORY NOTES AND RELATED SUBSIDIARIES

CONSUMER OPERATED AND ORIENTED PLAN PROGRAM CONTINGENCY FUND

Pub. L. 112–240, title VI, §644, Jan. 2, 2013, 126 Stat. 2362, provided that:

"(a) **ESTABLISHMENT.**—The Secretary of Health and Human Services shall establish a fund to be used to provide assistance and oversight to qualified nonprofit health insurance issuers that have been awarded loans or grants under section 1322 of the Patient Protection and Affordable Care Act (42 U.S.C. 18042) prior to the date of enactment of this Act [Jan. 2, 2013].

"(b) **TRANSFER AND RESCISSION.**—

"(1) **TRANSFER.**—From the unobligated balance of funds appropriated under section 1322(g) of the Patient Protection and Affordable Care Act (42 U.S.C. 18042(g)), 10 percent of such sums are hereby transferred to the fund established under subsection (a) to remain available until expended.

"(2) **RESCISSION.**—Except as provided for in paragraph (1), amounts appropriated under section 1322(g) of the Patient Protection and Affordable Care Act (42 U.S.C. 18042(g)) that are unobligated as of the date of enactment of this Act [Jan. 2, 2013] are rescinded."

§18043. Funding for the territories

(a) In general

A territory that—

(1) elects consistent with subsection (b) to establish an Exchange in accordance with part B of this subchapter and establishes such an Exchange in accordance with such part shall be treated as a State for purposes of such part and shall be entitled to payment from the amount allocated to the territory under subsection (c); or

(2) does not make such election shall be entitled to an increase in the dollar limitation applicable to the territory under subsections (f) and (g) of section 1108 of the Social Security Act (42 U.S.C. 1308) for such period in such amount for such territory and such increase shall not be taken into account in computing any other amount under such subsections.

(b) Terms and conditions

An election under subsection (a)(1) shall—

(1) not be effective unless the election is consistent with section 18041 of this title and is received not later than October 1, 2013; and

(2) be contingent upon entering into an agreement between the territory and the Secretary that requires that—

(A) funds provided under the agreement shall be used only to provide premium and cost-sharing assistance to residents of the territory obtaining health insurance coverage through the Exchange; and

(B) the premium and cost-sharing assistance provided under such agreement shall be structured in such a manner so as to prevent any gap in assistance for individuals between the income level at which medical assistance is available through the territory's Medicaid plan under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.] and the income level at which premium and cost-sharing assistance is available under the agreement.

(c) Appropriation and allocation

(1) Appropriation

Out of any funds in the Treasury not otherwise appropriated, there is appropriated for purposes of payment pursuant to subsection (a) \$1,000,000,000, to be available during the period beginning with 2014 and ending with 2019.

(2) Allocation

The Secretary shall allocate the amount appropriated under paragraph (1) among the territories for purposes of carrying out this section as follows:

(A) For Puerto Rico, \$925,000,000.

(B) For another territory, the portion of \$75,000,000 specified by the Secretary.

(Pub. L. 111–148, title I, §1323, as added Pub. L. 111–152, title I, §1204(a), Mar. 30, 2010, 124 Stat. 1055.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Social Security Act, referred to in subsec. (b)(2)(B), is act Aug. 14, 1935, ch. 531, 49 Stat. 620. Title XIX of the Act is classified generally to subchapter XIX (§1396 et seq.) of chapter 7 of this title. For complete classification of this Act to the Code, see section 1305 of this title and Tables.

PRIOR PROVISIONS

A prior section 18043, Pub. L. 111–148, title I, §1323, Mar. 23, 2010, 124 Stat. 192, which related to establishment of community health insurance option, was repealed by Pub. L. 111–148, title X, §10104(m), Mar. 23, 2010, 124 Stat. 902.

§18044. Level playing field

(a) In general

Notwithstanding any other provision of law, any health insurance coverage offered by a private health insurance issuer shall not be subject to any Federal or State law described in subsection (b) if a qualified health plan offered under the Consumer Operated and Oriented Plan program under section 18042 of this title, or a multi-State qualified health plan under section 18054 of this title, is not subject to such law.

(b) Laws described

The Federal and State laws described in this subsection are those Federal and State laws relating to—

(1) guaranteed renewal;

(2) rating;

- (3) preexisting conditions;
- (4) non-discrimination;
- (5) quality improvement and reporting;
- (6) fraud and abuse;
- (7) solvency and financial requirements;
- (8) market conduct;
- (9) prompt payment;
- (10) appeals and grievances;
- (11) privacy and confidentiality;
- (12) licensure; and
- (13) benefit plan material or information.

(Pub. L. 111–148, title I, §1324, title X, §10104(n), Mar. 23, 2010, 124 Stat. 199, 902.)

EDITORIAL NOTES

AMENDMENTS

2010—Subsec. (a). Pub. L. 111–148, §10104(n), substituted ", or a multi-State qualified health plan under section 18054 of this title" for ", a community health insurance option under section 18043 of this title, or a nationwide qualified health plan under section 18053(b) of this title".

PART D—STATE FLEXIBILITY TO ESTABLISH ALTERNATIVE PROGRAMS

§18051. State flexibility to establish basic health programs for low-income individuals not eligible for medicaid

(a) Establishment of program

(1) In general

The Secretary shall establish a basic health program meeting the requirements of this section under which a State may enter into contracts to offer 1 or more standard health plans providing at least the essential health benefits described in section 18022(b) of this title to eligible individuals in lieu of offering such individuals coverage through an Exchange.

(2) Certifications as to benefit coverage and costs

Such program shall provide that a State may not establish a basic health program under this section unless the State establishes to the satisfaction of the Secretary, and the Secretary certifies, that—

(A) in the case of an eligible individual enrolled in a standard health plan offered through the program, the State provides—

(i) that the amount of the monthly premium an eligible individual is required to pay for coverage under the standard health plan for the individual and the individual's dependents does not exceed the amount of the monthly premium that the eligible individual would have been required to pay (in the rating area in which the individual resides) if the individual had enrolled in the applicable second lowest cost silver plan (as defined in section 36B(b)(3)(B) of title 26) offered to the individual through an Exchange; and

(ii) that the cost-sharing an eligible individual is required to pay under the standard health plan does not exceed—

(I) the cost-sharing required under a platinum plan in the case of an eligible individual with household income not in excess of 150 percent of the poverty line for the size of the family involved; and

(II) the cost-sharing required under a gold plan in the case of an eligible individual not described in subclause (I); and

(B) the benefits provided under the standard health plans offered through the program cover at least the essential health benefits described in section 18022(b) of this title.

For purposes of subparagraph (A)(i), the amount of the monthly premium an individual is required to pay under either the standard health plan or the applicable second lowest cost silver plan shall be determined after reduction for any premium tax credits and cost-sharing reductions allowable with respect to either plan.

(b) Standard health plan

In this section, the term "standard health ¹ plan" means a health benefits plan that the State contracts with under this section—

- (1) under which the only individuals eligible to enroll are eligible individuals;
- (2) that provides at least the essential health benefits described in section 18022(b) of this title; and
- (3) in the case of a plan that provides health insurance coverage offered by a health insurance issuer, that has a medical loss ratio of at least 85 percent.

(c) Contracting process

(1) In general

A State basic health program shall establish a competitive process for entering into contracts with standard health plans under subsection (a), including negotiation of premiums and cost-sharing and negotiation of benefits in addition to the essential health benefits described in section 18022(b) of this title.

(2) Specific items to be considered

A State shall, as part of its competitive process under paragraph (1), include at least the following:

(A) Innovation

Negotiation with offerors of a standard health plan for the inclusion of innovative features in the plan, including—

- (i) care coordination and care management for enrollees, especially for those with chronic health conditions;
- (ii) incentives for use of preventive services; and
- (iii) the establishment of relationships between providers and patients that maximize patient involvement in health care decision-making, including providing incentives for appropriate utilization under the plan.

(B) Health and resource differences

Consideration of, and the making of suitable allowances for, differences in health care needs of enrollees and differences in local availability of, and access to, health care providers. Nothing in this subparagraph shall be construed as allowing discrimination on the basis of pre-existing conditions or other health status-related factors.

(C) Managed care

Contracting with managed care systems, or with systems that offer as many of the attributes of managed care as are feasible in the local health care market.

(D) Performance measures

Establishing specific performance measures and standards for issuers of standard health plans that focus on quality of care and improved health outcomes, requiring such plans to report to the State with respect to the measures and standards, and making the performance and quality

information available to enrollees in a useful form.

(3) Enhanced availability

(A) Multiple plans

A State shall, to the maximum extent feasible, seek to make multiple standard health plans available to eligible individuals within a State to ensure individuals have a choice of such plans.

(B) Regional compacts

A State may negotiate a regional compact with other States to include coverage of eligible individuals in all such States in agreements with issuers of standard health plans.

(4) Coordination with other State programs

A State shall seek to coordinate the administration of, and provision of benefits under, its program under this section with the State medicaid program under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.], the State child health plan under title XXI of such Act [42 U.S.C. 1397aa et seq.], and other State-administered health programs to maximize the efficiency of such programs and to improve the continuity of care.

(d) Transfer of funds to States

(1) In general

If the Secretary determines that a State electing the application of this section meets the requirements of the program established under subsection (a), the Secretary shall transfer to the State for each fiscal year for which 1 or more standard health plans are operating within the State the amount determined under paragraph (3).

(2) Use of funds

A State shall establish a trust for the deposit of the amounts received under paragraph (1) and amounts in the trust fund shall only be used to reduce the premiums and cost-sharing of, or to provide additional benefits for, eligible individuals enrolled in standard health plans within the State. Amounts in the trust fund, and expenditures of such amounts, shall not be included in determining the amount of any non-Federal funds for purposes of meeting any matching or expenditure requirement of any federally-funded program.

(3) Amount of payment

(A) Secretarial determination

(i) In general

The amount determined under this paragraph for any fiscal year is the amount the Secretary determines is equal to 95 percent of the premium tax credits under section 36B of title 26, and the cost-sharing reductions under section 18071 of this title, that would have been provided for the fiscal year to eligible individuals enrolled in standard health plans in the State if such eligible individuals were allowed to enroll in qualified health plans through an Exchange established under this subchapter.

(ii) Specific requirements

The Secretary shall make the determination under clause (i) on a per enrollee basis and shall take into account all relevant factors necessary to determine the value of the premium tax credits and cost-sharing reductions that would have been provided to eligible individuals described in clause (i), including the age and income of the enrollee, whether the enrollment is for self-only or family coverage, geographic differences in average spending for health care across rating areas, the health status of the enrollee for purposes of determining risk adjustment payments and reinsurance payments that would have been made if the enrollee had enrolled in a qualified health plan through an Exchange, and whether any reconciliation of the credit or cost-sharing reductions would have occurred if the enrollee had been so enrolled. This determination shall take into consideration the experience of other States with

respect to participation in an Exchange and such credits and reductions provided to residents of the other States, with a special focus on enrollees with income below 200 percent of poverty.

(iii) Certification

The Chief Actuary of the Centers for Medicare & Medicaid Services, in consultation with the Office of Tax Analysis of the Department of the Treasury, shall certify whether the methodology used to make determinations under this subparagraph, and such determinations, meet the requirements of clause (ii). Such certifications shall be based on sufficient data from the State and from comparable States about their experience with programs created by this Act.

(B) Corrections

The Secretary shall adjust the payment for any fiscal year to reflect any error in the determinations under subparagraph (A) for any preceding fiscal year.

(4) Application of special rules

The provisions of section 18023 of this title shall apply to a State basic health program, and to standard health plans offered through such program, in the same manner as such rules apply to qualified health plans.

(e) Eligible individual

(1) In general

In this section, the term "eligible individual" means, with respect to any State, an individual—

(A) who is a ²resident of the State who is not eligible to enroll in the State's medicaid program under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.] for benefits that at a minimum consist of the essential health benefits described in section 18022(b) of this title;

(B) whose household income exceeds 133 percent but does not exceed 200 percent of the poverty line for the size of the family involved, or, in the case of an alien lawfully present in the United States, whose income is not greater than 133 percent of the poverty line for the size of the family involved but who is not eligible for the Medicaid program under title XIX of the Social Security Act by reason of such alien status;

(C) who is not eligible for minimum essential coverage (as defined in section 5000A(f) of title 26) or is eligible for an employer-sponsored plan that is not affordable coverage (as determined under section 5000A(e)(2) of such title); and

(D) who has not attained age 65 as of the beginning of the plan year.

Such term shall not include any individual who is not a qualified individual under section 18032 of this title who is eligible to be covered by a qualified health plan offered through an Exchange.

(2) Eligible individuals may not use Exchange

An eligible individual shall not be treated as a qualified individual under section 18032 of this title eligible for enrollment in a qualified health plan offered through an Exchange established under section 18031 of this title.

(f) Secretarial oversight

The Secretary shall each year conduct a review of each State program to ensure compliance with the requirements of this section, including ensuring that the State program meets—

- (1) eligibility verification requirements for participation in the program;
- (2) the requirements for use of Federal funds received by the program; and
- (3) the quality and performance standards under this section.

(g) Standard health plan offerors

A State may provide that persons eligible to offer standard health plans under a basic health program established under this section may include a licensed health maintenance organization, a

licensed health insurance insurer, or a network of health care providers established to offer services under the program.

(h) Definitions

Any term used in this section which is also used in section 36B of title 26 shall have the meaning given such term by such section.

(Pub. L. 111–148, title I, §1331, title X, §10104(o), Mar. 23, 2010, 124 Stat. 199, 902.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Social Security Act, referred to in subsecs. (c)(4) and (e)(1)(A), (B), is act Aug. 14, 1935, ch. 531, 49 Stat. 620. Titles XIX and XXI of the Act are classified generally to subchapters XIX (§1396 et seq.) and XXI (§1397aa et seq.), respectively, of chapter 7 of this title. For complete classification of this Act to the Code, see section 1305 of this title and Tables.

This Act, referred to in subsec. (d)(3)(A)(iii), is Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 119, known as the Patient Protection and Affordable Care Act. For complete classification of this Act to the Code, see Short Title note set out under section 18001 of this title and Tables.

AMENDMENTS

2010—Subsec. (d)(3)(A)(i). Pub. L. 111–148, §10104(o)(1), substituted "95 percent" for "85 percent".

Subsec. (e)(1)(B). Pub. L. 111–148, §10104(o)(2), inserted ", or, in the case of an alien lawfully present in the United States, whose income is not greater than 133 percent of the poverty line for the size of the family involved but who is not eligible for the Medicaid program under title XIX of the Social Security Act by reason of such alien status" before semicolon at end.

² *So in original. Probably should be preceded by "is".*

§18052. Waiver for State innovation

(a) Application

(1) In general

A State may apply to the Secretary for the waiver of all or any requirements described in paragraph (2) with respect to health insurance coverage within that State for plan years beginning on or after January 1, 2017. Such application shall—

(A) be filed at such time and in such manner as the Secretary may require;

(B) contain such information as the Secretary may require, including—

(i) a comprehensive description of the State legislation and program to implement a plan meeting the requirements for a waiver under this section; and

(ii) a 10-year budget plan for such plan that is budget neutral for the Federal Government; and

(C) provide an assurance that the State has enacted the law described in subsection (b)(2).

(2) Requirements

The requirements described in this paragraph with respect to health insurance coverage within the State for plan years beginning on or after January 1, 2014, are as follows:

(A) Part A of this subchapter.

(B) Part B of this subchapter.

(C) Section 18071 of this title.

(D) Sections 36B, 4980H, and 5000A of title 26.

(3) Pass through of funding

With respect to a State waiver under paragraph (1), under which, due to the structure of the State plan, individuals and small employers in the State would not qualify for the premium tax credits, cost-sharing reductions, or small business credits under sections ¹ 36B of title 26 or under part I of subtitle E for which they would otherwise be eligible, the Secretary shall provide for an alternative means by which the aggregate amount of such credits or reductions that would have been paid on behalf of participants in the Exchanges established under this title ² had the State not received such waiver, shall be paid to the State for purposes of implementing the State plan under the waiver. Such amount shall be determined annually by the Secretary, taking into consideration the experience of other States with respect to participation in an Exchange and credits and reductions provided under such provisions to residents of the other States.

(4) Waiver consideration and transparency

(A) In general

An application for a waiver under this section shall be considered by the Secretary in accordance with the regulations described in subparagraph (B).

(B) Regulations

Not later than 180 days after March 23, 2010, the Secretary shall promulgate regulations relating to waivers under this section that provide—

(i) a process for public notice and comment at the State level, including public hearings, sufficient to ensure a meaningful level of public input;

(ii) a process for the submission of an application that ensures the disclosure of—

(I) the provisions of law that the State involved seeks to waive; and

(II) the specific plans of the State to ensure that the waiver will be in compliance with subsection (b);

(iii) a process for providing public notice and comment after the application is received by the Secretary, that is sufficient to ensure a meaningful level of public input and that does not impose requirements that are in addition to, or duplicative of, requirements imposed under the Administrative Procedures Act,² or requirements that are unreasonable or unnecessarily burdensome with respect to State compliance;

(iv) a process for the submission to the Secretary of periodic reports by the State concerning the implementation of the program under the waiver; and

(v) a process for the periodic evaluation by the Secretary of the program under the waiver.

(C) Report

The Secretary shall annually report to Congress concerning actions taken by the Secretary with respect to applications for waivers under this section.

(5) Coordinated waiver process

The Secretary shall develop a process for coordinating and consolidating the State waiver processes applicable under the provisions of this section, and the existing waiver processes applicable under titles XVIII, XIX, and XXI of the Social Security Act [42 U.S.C. 1395 et seq., 1396 et seq., 1397aa et seq.], and any other Federal law relating to the provision of health care items or services. Such process shall permit a State to submit a single application for a waiver under any or all of such provisions.

(6) Definition

In this section, the term "Secretary" means—

(A) the Secretary of Health and Human Services with respect to waivers relating to the provisions described in subparagraph (A) through (C) of paragraph (2); and

(B) the Secretary of the Treasury with respect to waivers relating to the provisions described in paragraph (2)(D).

(b) Granting of waivers

(1) In general

The Secretary may grant a request for a waiver under subsection (a)(1) only if the Secretary determines that the State plan—

(A) will provide coverage that is at least as comprehensive as the coverage defined in section 18022(b) of this title and offered through Exchanges established under this title ² as certified by Office ³ of the Actuary of the Centers for Medicare & Medicaid Services based on sufficient data from the State and from comparable States about their experience with programs created by this Act and the provisions of this Act that would be waived;

(B) will provide coverage and cost sharing protections against excessive out-of-pocket spending that are at least as affordable as the provisions of this title ² would provide;

(C) will provide coverage to at least a comparable number of its residents as the provisions of this title ² would provide; and

(D) will not increase the Federal deficit.

(2) Requirement to enact a law

(A) In general

A law described in this paragraph is a State law that provides for State actions under a waiver under this section, including the implementation of the State plan under subsection (a)(1)(B).

(B) Termination of opt out

A State may repeal a law described in subparagraph (A) and terminate the authority provided under the waiver with respect to the State.

(c) Scope of waiver

(1) In general

The Secretary shall determine the scope of a waiver of a requirement described in subsection (a)(2) granted to a State under subsection (a)(1).

(2) Limitation

The Secretary may not waive under this section any Federal law or requirement that is not within the authority of the Secretary.

(d) Determinations by Secretary

(1) Time for determination

The Secretary shall make a determination under subsection (a)(1) not later than 180 days after the receipt of an application from a State under such subsection.

(2) Effect of determination

(A) Granting of waivers

If the Secretary determines to grant a waiver under subsection (a)(1), the Secretary shall notify the State involved of such determination and the terms and effectiveness of such waiver.

(B) Denial of waiver

If the Secretary determines a waiver should not be granted under subsection (a)(1), the Secretary shall notify the State involved, and the appropriate committees of Congress of such determination and the reasons therefore.⁴

(e) Term of waiver

No waiver under this section may extend over a period of longer than 5 years unless the State requests continuation of such waiver, and such request shall be deemed granted unless the Secretary,

within 90 days after the date of its submission to the Secretary, either denies such request in writing or informs the State in writing with respect to any additional information which is needed in order to make a final determination with respect to the request.

§18053. Provisions relating to offering of plans in more than one State

(a) Health care choice compacts

(1) In general

Not later than July 1, 2013, the Secretary shall, in consultation with the National Association of Insurance Commissioners, issue regulations for the creation of health care choice compacts under which 2 or more States may enter into an agreement under which—

(A) 1 or more qualified health plans could be offered in the individual markets in all such States but, except as provided in subparagraph (B), only be subject to the laws and regulations of the State in which the plan was written or issued;

(B) the issuer of any qualified health plan to which the compact applies—

(i) would continue to be subject to market conduct, unfair trade practices, network adequacy, and consumer protection standards (including standards relating to rating), including addressing disputes as to the performance of the contract, of the State in which the purchaser resides;

(ii) would be required to be licensed in each State in which it offers the plan under the compact or to submit to the jurisdiction of each such State with regard to the standards described in clause (i) (including allowing access to records as if the insurer were licensed in the State); and

(iii) must clearly notify consumers that the policy may not be subject to all the laws and regulations of the State in which the purchaser resides.

(2) State authority

A State may not enter into an agreement under this subsection unless the State enacts a law after March 23, 2010, that specifically authorizes the State to enter into such agreements.

(3) Approval of compacts

The Secretary may approve interstate health care choice compacts under paragraph (1) only if the Secretary determines that such health care choice compact—

(A) will provide coverage that is at least as comprehensive as the coverage defined in section 18022(b) of this title and offered through Exchanges established under this title; ¹

(B) will provide coverage and cost sharing protections against excessive out-of-pocket spending that are at least as affordable as the provisions of this title ¹ would provide;

(C) will provide coverage to at least a comparable number of its residents as the provisions of this title ¹ would provide;

(D) will not increase the Federal deficit; and

(E) will not weaken enforcement of laws and regulations described in paragraph (1)(B)(i) in any State that is included in such compact.

(4) Effective date

A health care choice compact described in paragraph (1) shall not take effect before January 1, 2016.

(b) Repealed. Pub. L. 111–148, title X, §10104(p), Mar. 23, 2010, 124 Stat. 902

(Pub. L. 111–148, title I, §1333, title X, §10104(p), Mar. 23, 2010, 124 Stat. 206, 902.)

EDITORIAL NOTES

REFERENCES IN TEXT

This title, where footnoted in subsec. (a)(3)(A) to (C), is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

AMENDMENTS

2010—Subsec. (b). Pub. L. 111–148, §10104(p), struck out subsec. (b) which provided authority and requirements for health insurance issuers to offer nationwide qualified health plans.

¹ [*See References in Text note below.*](#)

§18054. Multi-State plans

(a) Oversight by the Office of Personnel Management

(1) In general

The Director of the Office of Personnel Management (referred to in this section as the "Director") shall enter into contracts with health insurance issuers (which may include a group of health insurance issuers affiliated either by common ownership and control or by the common use of a nationally licensed service mark), without regard to section 6101 of title 41 or other statutes requiring competitive bidding, to offer at least 2 multi-State qualified health plans through each

Exchange in each State. Such plans shall provide individual, or in the case of small employers, group coverage.

(2) Terms

Each contract entered into under paragraph (1) shall be for a uniform term of at least 1 year, but may be made automatically renewable from term to term in the absence of notice of termination by either party. In entering into such contracts, the Director shall ensure that health benefits coverage is provided in accordance with the types of coverage provided for under section 2701(a)(1)(A)(i) of the Public Health Service Act [42 U.S.C. 300gg(a)(1)(A)(i)].

(3) Non-profit entities

In entering into contracts under paragraph (1), the Director shall ensure that at least one contract is entered into with a non-profit entity.

(4) Administration

The Director shall implement this subsection in a manner similar to the manner in which the Director implements the contracting provisions with respect to carriers under the Federal employees health benefit program ¹ under chapter 89 of title 5, including (through negotiating with each multi-state ² plan)—

(A) a medical loss ratio;

(B) a profit margin;

(C) the premiums to be charged; and

(D) such other terms and conditions of coverage as are in the interests of enrollees in such plans.

(5) Authority to protect consumers

The Director may prohibit the offering of any multi-State health plan that does not meet the terms and conditions defined by the Director with respect to the elements described in subparagraphs (A) through (D) of paragraph (4).

(6) Assured availability of varied coverage

In entering into contracts under this subsection, the Director shall ensure that with respect to multi-State qualified health plans offered in an Exchange, there is at least one such plan that does not provide coverage of services described in section 18023(b)(1)(B)(i) of this title.

(7) Withdrawal

Approval of a contract under this subsection may be withdrawn by the Director only after notice and opportunity for hearing to the issuer concerned without regard to subchapter II of chapter 5 and chapter 7 of title 5.

(b) Eligibility

A health insurance issuer shall be eligible to enter into a contract under subsection (a)(1) if such issuer—

(1) agrees to offer a multi-State qualified health plan that meets the requirements of subsection (c) in each Exchange in each State;

(2) is licensed in each State and is subject to all requirements of State law not inconsistent with this section, including the standards and requirements that a State imposes that do not prevent the application of a requirement of part A of title XXVII of the Public Health Service Act [42 U.S.C. 300gg et seq.] or a requirement of this title; ³

(3) otherwise complies with the minimum standards prescribed for carriers offering health benefits plans under section 8902(e) of title 5 to the extent that such standards do not conflict with a provision of this title; ³ and

(4) meets such other requirements as determined appropriate by the Director, in consultation with the Secretary.

(c) Requirements for multi-State qualified health plan

(1) In general

A multi-State qualified health plan meets the requirements of this subsection if, in the determination of the Director—

(A) the plan offers a benefits package that is uniform in each State and consists of the essential benefits described in section 18022 of this title;

(B) the plan meets all requirements of this title ³ with respect to a qualified health plan, including requirements relating to the offering of the bronze, silver, and gold levels of coverage and catastrophic coverage in each State Exchange;

(C) except as provided in paragraph (5), the issuer provides for determinations of premiums for coverage under the plan on the basis of the rating requirements of part A of title XXVII of the Public Health Service Act; and

(D) the issuer offers the plan in all geographic regions, and in all States that have adopted adjusted community rating before March 23, 2010.

(2) States may offer additional benefits

Nothing in paragraph (1)(A) shall preclude a State from requiring that benefits in addition to the essential health benefits required under such paragraph be provided to enrollees of a multi-State qualified health plan offered in such State.

(3) Credits

(A) In general

An individual enrolled in a multi-State qualified health plan under this section shall be eligible for credits under section 36B of title 26 and cost sharing assistance under section 18071 of this title in the same manner as an individual who is enrolled in a qualified health plan.

(B) No additional Federal cost

A requirement by a State under paragraph (2) that benefits in addition to the essential health benefits required under paragraph (1)(A) be provided to enrollees of a multi-State qualified health plan shall not affect the amount of a premium tax credit provided under section 36B of title 26 with respect to such plan.

(4) State must assume cost

A State shall make payments—

(A) to an individual enrolled in a multi-State qualified health plan offered in such State; or

(B) on behalf of an individual described in subparagraph (A) directly to the multi-State qualified health plan in which such individual is enrolled;

to defray the cost of any additional benefits described in paragraph (2).

(5) Application of certain State rating requirements

With respect to a multi-State qualified health plan that is offered in a State with age rating requirements that are lower than 3:1, the State may require that Exchanges operating in such State only permit the offering of such multi-State qualified health plans if such plans comply with the State's more protective age rating requirements.

(d) Plans deemed to be certified

A multi-State qualified health plan that is offered under a contract under subsection (a) shall be deemed to be certified by an Exchange for purposes of section 18031(d)(4)(A) of this title.

(e) Phase-in

Notwithstanding paragraphs (1) and (2) of subsection (b), the Director shall enter into a contract with a health insurance issuer for the offering of a multi-State qualified health plan under subsection (a) if—

(1) with respect to the first year for which the issuer offers such plan, such issuer offers the plan in at least 60 percent of the States;

(2) with respect to the second such year, such issuer offers the plan in at least 70 percent of the States;

(3) with respect to the third such year, such issuer offers the plan in at least 85 percent of the States; and

(4) with respect to each subsequent year, such issuer offers the plan in all States.

(f) Applicability

The requirements under chapter 89 of title 5 applicable to health benefits plans under such chapter shall apply to multi-State qualified health plans provided for under this section to the extent that such requirements do not conflict with a provision of this title.³

(g) Continued support for FEHBP

(1) Maintenance of effort

Nothing in this section shall be construed to permit the Director to allocate fewer financial or personnel resources to the functions of the Office of Personnel Management related to the administration of the Federal Employees Health Benefit Program under chapter 89 of title 5.

(2) Separate risk pool

Enrollees in multi-State qualified health plans under this section shall be treated as a separate risk pool apart from enrollees in the Federal Employees Health Benefit Program under chapter 89 of title 5.

(3) Authority to establish separate entities

The Director may establish such separate units or offices within the Office of Personnel Management as the Director determines to be appropriate to ensure that the administration of multi-State qualified health plans under this section does not interfere with the effective administration of the Federal Employees Health Benefit Program under chapter 89 of title 5.

(4) Effective oversight

The Director may appoint such additional personnel as may be necessary to enable the Director to carry out activities under this section.

(5) Assurance of separate program

In carrying out this section, the Director shall ensure that the program under this section is separate from the Federal Employees Health Benefit Program under chapter 89 of title 5. Premiums paid for coverage under a multi-State qualified health plan under this section shall not be considered to be Federal funds for any purposes.

(6) FEHBP plans not required to participate

Nothing in this section shall require that a carrier offering coverage under the Federal Employees Health Benefit Program under chapter 89 of title 5 also offer a multi-State qualified health plan under this section.

(h) Advisory board

The Director shall establish an advisory board to provide recommendations on the activities described in this section. A significant percentage of the members of such board shall be comprised of enrollees in a multi-State qualified health plan, or representatives of such enrollees.

(i) Authorization of appropriations

There is authorized to be appropriated, such sums as may be necessary to carry out this section. (Pub. L. 111–148, title I, §1334, as added Pub. L. 111–148, title X, §10104(q), Mar. 23, 2010, 124 Stat. 902.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Public Health Service Act, referred to in subsecs. (b)(2) and (c)(1)(C), is act July 1, 1944, ch. 373, 58 Stat. 682. Part A of title XXVII of the Act is classified generally to part A (§300gg et seq.) of subchapter XXV of chapter 6A of this title. For complete classification of this Act to the Code, see Short Title note set out under section 201 of this title and Tables.

This title, referred to in subsecs. (b)(2), (3), (c)(1)(B), and (f), is title I of Pub. PART E—REINSURANCE AND RISK ADJUSTMENT

§18061. Transitional reinsurance program for individual market in each State

(a) In general

Each State shall, not later than January 1, 2014—

(1) include in the Federal standards or State law or regulation the State adopts and has in effect under section 18041(b) of this title the provisions described in subsection (b); and

(2) establish (or enter into a contract with) 1 or more applicable reinsurance entities to carry out the reinsurance program under this section.

(b) Model regulation

(1) In general

In establishing the Federal standards under section 18041(a) of this title, the Secretary, in consultation with the National Association of Insurance Commissioners (the "NAIC"), shall include provisions that enable States to establish and maintain a program under which—

(A) health insurance issuers, and third party administrators on behalf of group health plans, are required to make payments to an applicable reinsurance entity for any plan year beginning in the 3-year period beginning January 1, 2014 (as specified in paragraph (3); ¹ and

(B) the applicable reinsurance entity collects payments under subparagraph (A) and uses amounts so collected to make reinsurance payments to health insurance issuers described in subparagraph (A) that cover high risk individuals in the individual market (excluding grandfathered health plans) for any plan year beginning in such 3-year period.

(2) High-risk individual; payment amounts

The Secretary shall include the following in the provisions under paragraph (1):

(A) Determination of high-risk individuals

The method by which individuals will be identified as high risk individuals for purposes of the reinsurance program established under this section. Such method shall provide for identification of individuals as high-risk individuals on the basis of—

(i) a list of at least 50 but not more than 100 medical conditions that are identified as

high-risk conditions and that may be based on the identification of diagnostic and procedure codes that are indicative of individuals with pre-existing, high-risk conditions; or

(ii) any other comparable objective method of identification recommended by the American Academy of Actuaries.

(B) Payment amount

The formula for determining the amount of payments that will be paid to health insurance issuers described in paragraph (1)(B) that insure high-risk individuals. Such formula shall provide for the equitable allocation of available funds through reconciliation and may be designed—

(i) to provide a schedule of payments that specifies the amount that will be paid for each of the conditions identified under subparagraph (A); or

(ii) to use any other comparable method for determining payment amounts that is recommended by the American Academy of Actuaries and that encourages the use of care coordination and care management programs for high risk conditions.

(3) Determination of required contributions

(A) In general

The Secretary shall include in the provisions under paragraph (1) the method for determining the amount each health insurance issuer and group health plan described in paragraph (1)(A) contributing to the reinsurance program under this section is required to contribute under such paragraph for each plan year beginning in the 36-month period beginning January 1, 2014. The contribution amount for any plan year may be based on the percentage of revenue of each issuer and the total costs of providing benefits to enrollees in self-insured plans or on a specified amount per enrollee and may be required to be paid in advance or periodically throughout the plan year.

(B) Specific requirements

The method under this paragraph shall be designed so that—

(i) the contribution amount for each issuer proportionally reflects each issuer's fully insured commercial book of business for all major medical products and the total value of all fees charged by the issuer and the costs of coverage administered by the issuer as a third party administrator;

(ii) the contribution amount can include an additional amount to fund the administrative expenses of the applicable reinsurance entity;

(iii) the aggregate contribution amounts for all States shall, based on the best estimates of the NAIC and without regard to amounts described in clause (ii), equal \$10,000,000,000 for plan years beginning in 2014, \$6,000,000,000 for plan years beginning ² 2015, and \$4,000,000,000 for plan years beginning in 2016; and

(iv) in addition to the aggregate contribution amounts under clause (iii), each issuer's contribution amount for any calendar year under clause (iii) reflects its proportionate share of an additional \$2,000,000,000 for 2014, an additional \$2,000,000,000 for 2015, and an additional \$1,000,000,000 for 2016.

Nothing in this subparagraph shall be construed to preclude a State from collecting additional amounts from issuers on a voluntary basis.

(4) Expenditure of funds

The provisions under paragraph (1) shall provide that—

(A) the contribution amounts collected for any calendar year may be allocated and used in any of the three calendar years for which amounts are collected based on the reinsurance needs of a particular period or to reflect experience in a prior period; and

(B) amounts remaining unexpended as of December, 2016, may be used to make payments under any reinsurance program of a State in the individual market in effect in the 2-year period

beginning on January 1, 2017.

Notwithstanding the preceding sentence, any contribution amounts described in paragraph (3)(B)(iv) shall be deposited into the general fund of the Treasury of the United States and may not be used for the program established under this section.

(c) Applicable reinsurance entity

For purposes of this section—

(1) In general

The term "applicable reinsurance entity" means a not-for-profit organization—

(A) the purpose of which is to help stabilize premiums for coverage in the individual market in a State during the first 3 years of operation of an Exchange for such markets within the State when the risk of adverse selection related to new rating rules and market changes is greatest; and

(B) the duties of which shall be to carry out the reinsurance program under this section by coordinating the funding and operation of the risk-spreading mechanisms designed to implement the reinsurance program.

(2) State discretion

A State may have more than 1 applicable reinsurance entity to carry out the reinsurance program under this section within the State and 2 or more States may enter into agreements to provide for an applicable reinsurance entity to carry out such program in all such States.

(3) Entities are tax-exempt

An applicable reinsurance entity established under this section shall be exempt from taxation under chapter 1 of title 26. The preceding sentence shall not apply to the tax imposed by section 511 such ³ title (relating to tax on unrelated business taxable income of an exempt organization).

(d) Coordination with State high-risk pools

The State shall eliminate or modify any State high-risk pool to the extent necessary to carry out the reinsurance program established under this section. The State may coordinate the State high-risk pool with such program to the extent not inconsistent with the provisions of this section.

(Pub. L. 111–148, title I, §1341, title X, §10104(r), Mar. 23, 2010, 124 Stat. 208, 906.)

EDITORIAL NOTES

AMENDMENTS

2010—Pub. L. 111–148, §10104(r)(1), substituted "market" for "and small group markets" in section catchline.

Subsec. (b)(2)(B). Pub. L. 111–148, §10104(r)(2), substituted "paragraph (1)(B)" for "paragraph (1)(A)" in introductory provisions.

Subsec. (c)(1)(A). Pub. L. 111–148, §10104(r)(3), substituted "individual market" for "individual and small group markets".

¹ *So in original. A second closing parenthesis probably should precede the semicolon.*

² *So in original. Probably should be followed by "in".*

³ *So in original. Probably should be preceded by "of".*

§18062. Establishment of risk corridors for plans in individual and small group markets

(a) In general

The Secretary shall establish and administer a program of risk corridors for calendar years 2014, 2015, and 2016 under which a qualified health plan offered in the individual or small group market shall participate in a payment adjustment system based on the ratio of the allowable costs of the plan to the plan's aggregate premiums. Such program shall be based on the program for regional participating provider organizations under part D of title XVIII of the Social Security Act [42 U.S.C. 1395w–101 et seq.].

(b) Payment methodology

(1) Payments out

The Secretary shall provide under the program established under subsection (a) that if—

(A) a participating plan's allowable costs for any plan year are more than 103 percent but not more than 108 percent of the target amount, the Secretary shall pay to the plan an amount equal to 50 percent of the target amount in excess of 103 percent of the target amount; and

(B) a participating plan's allowable costs for any plan year are more than 108 percent of the target amount, the Secretary shall pay to the plan an amount equal to the sum of 2.5 percent of the target amount plus 80 percent of allowable costs in excess of 108 percent of the target amount.

(2) Payments in

The Secretary shall provide under the program established under subsection (a) that if—

(A) a participating plan's allowable costs for any plan year are less than 97 percent but not less than 92 percent of the target amount, the plan shall pay to the Secretary an amount equal to 50 percent of the excess of 97 percent of the target amount over the allowable costs; and

(B) a participating plan's allowable costs for any plan year are less than 92 percent of the target amount, the plan shall pay to the Secretary an amount equal to the sum of 2.5 percent of the target amount plus 80 percent of the excess of 92 percent of the target amount over the allowable costs.

(c) Definitions

In this section:

(1) Allowable costs

(A) In general

The amount of allowable costs of a plan for any year is an amount equal to the total costs (other than administrative costs) of the plan in providing benefits covered by the plan.

(B) Reduction for risk adjustment and reinsurance payments

Allowable costs shall ¹reduced by any risk adjustment and reinsurance payments received under section ²18061 and 18063 of this title.

(2) Target amount

The target amount of a plan for any year is an amount equal to the total premiums (including any premium subsidies under any governmental program), reduced by the administrative costs of the plan.

(Pub. L. 111–148, title I, §1342, Mar. 23, 2010, 124 Stat. 211.)

§18063. Risk adjustment

(a) In general

(1) Low actuarial risk plans

Using the criteria and methods developed under subsection (b), each State shall assess a charge on health plans and health insurance issuers (with respect to health insurance coverage) described in subsection (c) if the actuarial risk of the enrollees of such plans or coverage for a year is less than the average actuarial risk of all enrollees in all plans or coverage in such State for such year that are not self-insured group health plans (which are subject to the provisions of the Employee Retirement Income Security Act of 1974 [29 U.S.C. 1001 et seq.]).

(2) High actuarial risk plans

Using the criteria and methods developed under subsection (b), each State shall provide a payment to health plans and health insurance issuers (with respect to health insurance coverage) described in subsection (c) if the actuarial risk of the enrollees of such plans or coverage for a year is greater than the average actuarial risk of all enrollees in all plans and coverage in such State for such year that are not self-insured group health plans (which are subject to the provisions of the Employee Retirement Income Security Act of 1974).

(b) Criteria and methods

The Secretary, in consultation with States, shall establish criteria and methods to be used in carrying out the risk adjustment activities under this section. The Secretary may utilize criteria and methods similar to the criteria and methods utilized under part C or D of title XVIII of the Social Security Act [42 U.S.C. 1395w–21 et seq., 1395w–101 et seq.]. Such criteria and methods shall be included in the standards and requirements the Secretary prescribes under section 18041 of this title.

(c) Scope

A health plan or a health insurance issuer is described in this subsection if such health plan or health insurance issuer provides coverage in the individual or small group market within the State. This subsection shall not apply to a grandfathered health plan or the issuer of a grandfathered health plan with respect to that plan.

The Social Security Act, referred to in subsec. (b), is act Aug. 14, 1935, ch. 531, 49 Stat. 620. Parts C and D of title XVIII of the Act are classified generally to parts C (§1395w–21 et seq.) and D (§1395w–101 et seq.), respectively, of subchapter XVIII of chapter 7 of this title. For complete classification of this Act to the Code, see section 1305 of this title and Tables.

SUBCHAPTER IV—AFFORDABLE COVERAGE CHOICES FOR ALL AMERICANS

PART A—PREMIUM TAX CREDITS AND COST-SHARING REDUCTIONS

§18071. Reduced cost-sharing for individuals enrolling in qualified health plans

(a) In general

In the case of an eligible insured enrolled in a qualified health plan—

- (1) the Secretary shall notify the issuer of the plan of such eligibility; and
- (2) the issuer shall reduce the cost-sharing under the plan at the level and in the manner specified in subsection (c).

(b) Eligible insured

In this section, the term "eligible insured" means an individual—

- (1) who enrolls in a qualified health plan in the silver level of coverage in the individual market offered through an Exchange; and
- (2) whose household income exceeds 100 percent but does not exceed 400 percent of the poverty line for a family of the size involved.

In the case of an individual described in section 36B(c)(1)(B) of title 26, the individual shall be treated as having household income equal to 100 percent for purposes of applying this section.

(c) Determination of reduction in cost-sharing

(1) Reduction in out-of-pocket limit

(A) In general

The reduction in cost-sharing under this subsection shall first be achieved by reducing the applicable out-of-pocket ¹ limit under section 18022(c)(1) of this title in the case of—

- (i) an eligible insured whose household income is more than 100 percent but not more than 200 percent of the poverty line for a family of the size involved, by two-thirds;
- (ii) an eligible insured whose household income is more than 200 percent but not more than 300 percent of the poverty line for a family of the size involved, by one-half; and
- (iii) an eligible insured whose household income is more than 300 percent but not more than 400 percent of the poverty line for a family of the size involved, by one-third.

(B) Coordination with actuarial value limits

(i) In general

The Secretary shall ensure the reduction under this paragraph shall not result in an increase in the plan's share of the total allowed costs of benefits provided under the plan above—

- (I) 94 percent in the case of an eligible insured described in paragraph (2)(A);
- (II) 87 percent in the case of an eligible insured described in paragraph (2)(B);
- (III) 73 percent in the case of an eligible insured whose household income is more than 200 percent but not more than 250 percent of the poverty line for a family of the size involved; and
- (IV) 70 percent in the case of an eligible insured whose household income is more than 250 percent but not more than 400 percent of the poverty line for a family of the size involved.

(ii) Adjustment

The Secretary shall adjust the out-of-pocket ¹ limits under paragraph (1) if necessary to ensure that such limits do not cause the respective actuarial values to exceed the levels specified in clause (i).

(2) Additional reduction for lower income insureds

The Secretary shall establish procedures under which the issuer of a qualified health plan to which this section applies shall further reduce cost-sharing under the plan in a manner sufficient to—

(A) in the case of an eligible insured whose household income is not less than 100 percent but not more than 150 percent of the poverty line for a family of the size involved, increase the plan's share of the total allowed costs of benefits provided under the plan to 94 percent of such costs;

(B) in the case of an eligible insured whose household income is more than 150 percent but not more than 200 percent of the poverty line for a family of the size involved, increase the plan's share of the total allowed costs of benefits provided under the plan to 87 percent of such costs; and

(C) in the case of an eligible insured whose household income is more than 200 percent but not more than 250 percent of the poverty line for a family of the size involved, increase the plan's share of the total allowed costs of benefits provided under the plan to 73 percent of such costs.

(3) Methods for reducing cost-sharing

(A) In general

An issuer of a qualified health plan making reductions under this subsection shall notify the Secretary of such reductions and the Secretary shall make periodic and timely payments to the issuer equal to the value of the reductions.

(B) Capitated payments

The Secretary may establish a capitated payment system to carry out the payment of cost-sharing reductions under this section. Any such system shall take into account the value of the reductions and make appropriate risk adjustments to such payments.

(4) Additional benefits

If a qualified health plan under section 18022(b)(5) of this title offers benefits in addition to the essential health benefits required to be provided by the plan, or a State requires a qualified health plan under section 18031(d)(3)(B) of this title to cover benefits in addition to the essential health benefits required to be provided by the plan, the reductions in cost-sharing under this section shall not apply to such additional benefits.

(5) Special rule for pediatric dental plans

If an individual enrolls in both a qualified health plan and a plan described in section 18031(d)(2)(B)(ii)(I) ² of this title for any plan year, subsection (a) shall not apply to that portion of any reduction in cost-sharing under subsection (c) that (under regulations prescribed by the Secretary) is properly allocable to pediatric dental benefits which are included in the essential health benefits required to be provided by a qualified health plan under section 18022(b)(1)(J) of this title.

(d) Special rules for Indians

(1) Indians under 300 percent of poverty

If an individual enrolled in any qualified health plan in the individual market through an Exchange is an Indian (as defined in section 5304(d) of title 25) whose household income is not more than 300 percent of the poverty line for a family of the size involved, then, for purposes of this section—

(A) such individual shall be treated as an eligible insured; and

(B) the issuer of the plan shall eliminate any cost-sharing under the plan.

(2) Items or services furnished through Indian health providers

If an Indian (as so defined) enrolled in a qualified health plan is furnished an item or service

directly by the Indian Health Service, an Indian Tribe, Tribal Organization, or Urban Indian Organization or through referral under contract health services—

(A) no cost-sharing under the plan shall be imposed under the plan for such item or service; and

(B) the issuer of the plan shall not reduce the payment to any such entity for such item or service by the amount of any cost-sharing that would be due from the Indian but for subparagraph (A).

(3) Payment

The Secretary shall pay to the issuer of a qualified health plan the amount necessary to reflect the increase in actuarial value of the plan required by reason of this subsection.

(e) Rules for individuals not lawfully present

(1) In general

If an individual who is an eligible insured is not lawfully present—

(A) no cost-sharing reduction under this section shall apply with respect to the individual; and

(B) for purposes of applying this section, the determination as to what percentage a taxpayer's household income bears to the poverty level for a family of the size involved shall be made under one of the following methods:

(i) A method under which—

(I) the taxpayer's family size is determined by not taking such individuals into account, and

(II) the taxpayer's household income is equal to the product of the taxpayer's household income (determined without regard to this subsection) and a fraction—

(aa) the numerator of which is the poverty line for the taxpayer's family size determined after application of subclause (I), and

(bb) the denominator of which is the poverty line for the taxpayer's family size determined without regard to subclause (I).

(ii) A comparable method reaching the same result as the method under clause (i).

(2) Lawfully present

For purposes of this section, an individual shall be treated as lawfully present only if the individual is, and is reasonably expected to be for the entire period of enrollment for which the cost-sharing reduction under this section is being claimed, a citizen or national of the United States or an alien lawfully present in the United States.

(3) Secretarial authority

The Secretary, in consultation with the Secretary of the Treasury, shall prescribe rules setting forth the methods by which calculations of family size and household income are made for purposes of this subsection. Such rules shall be designed to ensure that the least burden is placed on individuals enrolling in qualified health plans through an Exchange and taxpayers eligible for the credit allowable under this section.

(f) Special rule for individuals who receive unemployment compensation during 2021

For purposes of this section, in the case of an individual who has received, or has been approved to receive, unemployment compensation for any week beginning during 2021, for the plan year in which such week begins—

(1) such individual shall be treated as meeting the requirements of subsection (b)(2), and

(2) for purposes of subsections (c) and (d), there shall not be taken into account any household income of the individual in excess of 133 percent of the poverty line for a family of the size involved.

(g) Definitions and special rules

In this section:

(1) In general

Any term used in this section which is also used in section 36B of title 26 shall have the meaning given such term by such section.

(2) Limitations on reduction

No cost-sharing reduction shall be allowed under this section with respect to coverage for any month unless the month is a coverage month with respect to which a credit is allowed to the insured (or an applicable taxpayer on behalf of the insured) under section 36B of such title.

(3) Data used for eligibility

Any determination under this section shall be made on the basis of the taxable year for which the advance determination is made under section 18082 of this title and not the taxable year for which the credit under section 36B of title 26 is allowed.

(Pub. L. 111–148, title I, §1402, Mar. 23, 2010, 124 Stat. 220; Pub. L. 111–152, title I, §1001(b), Mar. 30, 2010, 124 Stat. 1031; Pub. L. 117–2, title II, §2305(a), Mar. 11, 2021, 135 Stat. 39.)

EDITORIAL NOTES

AMENDMENTS

2021—Subsecs. (f), (g). Pub. L. 117–2 added subsec. (f) and redesignated former subsec. (f) as (g).

2010—Subsec. (c)(1)(B)(i)(I). Pub. L. 111–152, §1001(b)(1)(A), substituted "94" for "90".

Subsec. (c)(1)(B)(i)(II). Pub. L. 111–152, §1001(b)(1)(B)(i), substituted "87" for "80".

Subsec. (c)(1)(B)(i)(III), (IV). Pub. L. 111–152, §1001(b)(1)(B)(ii), (C), added subcls. (III) and (IV) and struck out former subcl. (III). Prior to amendment, subcl. (III) read as follows: "70 percent in the case of an eligible insured described in clause (ii) or (iii) of subparagraph (A)."

Subsec. (c)(2)(A). Pub. L. 111–152, §1001(b)(2)(A)(i), substituted "94" for "90".

Subsec. (c)(2)(B). Pub. L. 111–152, §1001(b)(2)(B)(i), substituted "87" for "80".

Subsec. (c)(2)(C). Pub. L. 111–152, §1001(b)(2)(A)(ii), (B)(ii), (C), added subpar. (C).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2021 AMENDMENT

Pub. L. 117–2, title II, §2305(b), Mar. 11, 2021, 135 Stat. 40, provided that: "The amendment made by this section [amending this section] shall apply to plan years beginning after December 31, 2020."

¹ *So in original. Probably should be "out-of-pocket".*

² *So in original. Probably should be "18031(d)(3)(B)(ii)(I)".*

PART B—ELIGIBILITY DETERMINATIONS

§18081. Procedures for determining eligibility for Exchange participation, premium tax credits and reduced cost-sharing, and individual responsibility exemptions

(a) Establishment of program

The Secretary shall establish a program meeting the requirements of this section for determining—

(1) whether an individual who is to be covered in the individual market by a qualified health plan offered through an Exchange, or who is claiming a premium tax credit or reduced

cost-sharing, meets the requirements of sections 18032(f)(3), 18071(e), and 18082(d) of this title and section 36B(e) of title 26 that the individual be a citizen or national of the United States or an alien lawfully present in the United States;

(2) in the case of an individual claiming a premium tax credit or reduced cost-sharing under section 36B of title 26 or section 18071 of this title—

- (A) whether the individual meets the income and coverage requirements of such sections; and
- (B) the amount of the tax credit or reduced cost-sharing;

(3) whether an individual's coverage under an employer-sponsored health benefits plan is treated as unaffordable under sections 36B(c)(2)(C) and 5000A(e)(2) of title 26; ¹ and

(4) whether to grant a certification under section 18031(d)(4)(H) of this title attesting that, for purposes of the individual responsibility requirement under section 5000A of title 26, an individual is entitled to an exemption from either the individual responsibility requirement or the penalty imposed by such section.

(b) Information required to be provided by applicants

(1) In general

An applicant for enrollment in a qualified health plan offered through an Exchange in the individual market shall provide—

- (A) the name, address, and date of birth of each individual who is to be covered by the plan (in this subsection referred to as an "enrollee"); and
- (B) the information required by any of the following paragraphs that is applicable to an enrollee.

(2) Citizenship or immigration status

The following information shall be provided with respect to every enrollee:

- (A) In the case of an enrollee whose eligibility is based on an attestation of citizenship of the enrollee, the enrollee's social security number.
- (B) In the case of an individual whose eligibility is based on an attestation of the enrollee's immigration status, the enrollee's social security number (if applicable) and such identifying information with respect to the enrollee's immigration status as the Secretary, after consultation with the Secretary of Homeland Security, determines appropriate.

(3) Eligibility and amount of tax credit or reduced cost-sharing

In the case of an enrollee with respect to whom a premium tax credit or reduced cost-sharing under section 36B of title 26 or section 18071 of this title is being claimed, the following information:

(A) Information regarding income and family size

The information described in section 6103(l)(21) of title 26 ¹ for the taxable year ending with or within the second calendar year preceding the calendar year in which the plan year begins.

(B) Certain individual health insurance policies obtained through small employers

The amount of the enrollee's permitted benefit (as defined in section 9831(d)(3)(C) of title 26) under a qualified small employer health reimbursement arrangement (as defined in section 9831(d)(2) of such title).

(C) Changes in circumstances

The information described in section 18082(b)(2) of this title, including information with respect to individuals who were not required to file an income tax return for the taxable year described in subparagraph (A) or individuals who experienced changes in marital status or family size or significant reductions in income.

(4) Employer-sponsored coverage

In the case of an enrollee with respect to whom eligibility for a premium tax credit under

section 36B of title 26 or cost-sharing reduction under section 18071 of this title is being established on the basis that the enrollee's (or related individual's) employer is not treated under section 36B(c)(2)(C) of title 26 as providing minimum essential coverage or affordable minimum essential coverage, the following information:

(A) The name, address, and employer identification number (if available) of the employer.

(B) Whether the enrollee or individual is a full-time employee and whether the employer provides such minimum essential coverage.

(C) If the employer provides such minimum essential coverage, the lowest cost option for the enrollee's or individual's enrollment status and the enrollee's or individual's required contribution (within the meaning of section 5000A(e)(1)(B) of title 26) under the employer-sponsored plan.

(D) If an enrollee claims an employer's minimum essential coverage is unaffordable, the information described in paragraph (3).

If an enrollee changes employment or obtains additional employment while enrolled in a qualified health plan for which such credit or reduction is allowed, the enrollee shall notify the Exchange of such change or additional employment and provide the information described in this paragraph with respect to the new employer.

(5) Exemptions from individual responsibility requirements

In the case of an individual who is seeking an exemption certificate under section 18031(d)(4)(H) of this title from any requirement or penalty imposed by section 5000A of title 26, ¹ the following information:

(A) In the case of an individual seeking exemption based on the individual's status as a member of an exempt religious sect or division, as a member of a health care sharing ministry, as an Indian, or as an individual eligible for a hardship exemption, such information as the Secretary shall prescribe.

(B) In the case of an individual seeking exemption based on the lack of affordable coverage or the individual's status as a taxpayer with household income less than 100 percent of the poverty line, the information described in paragraphs (3) and (4), as applicable.

(c) Verification of information contained in records of specific Federal officials

(1) Information transferred to Secretary

An Exchange shall submit the information provided by an applicant under subsection (b) to the Secretary for verification in accordance with the requirements of this subsection and subsection (d).

(2) Citizenship or immigration status

(A) Commissioner of Social Security

The Secretary shall submit to the Commissioner of Social Security the following information for a determination as to whether the information provided is consistent with the information in the records of the Commissioner:

(i) The name, date of birth, and social security number of each individual for whom such information was provided under subsection (b)(2).

(ii) The attestation of an individual that the individual is a citizen.

(B) Secretary of Homeland Security

(i) In general

In the case of an individual—

(I) who attests that the individual is an alien lawfully present in the United States; or

(II) who attests that the individual is a citizen but with respect to whom the Commissioner of Social Security has notified the Secretary under subsection (e)(3) that the attestation is inconsistent with information in the records maintained by the Commissioner;

the Secretary shall submit to the Secretary of Homeland Security the information described in clause (ii) for a determination as to whether the information provided is consistent with the information in the records of the Secretary of Homeland Security.

(ii) Information

The information described in clause (ii) is the following:

(I) The name, date of birth, and any identifying information with respect to the individual's immigration status provided under subsection (b)(2).

(II) The attestation that the individual is an alien lawfully present in the United States or in the case of an individual described in clause (i)(II), the attestation that the individual is a citizen.

(3) Eligibility for tax credit and cost-sharing reduction

The Secretary shall submit the information described in subsection (b)(3)(A) provided under paragraph (3), (4), or (5) of subsection (b) to the Secretary of the Treasury for verification of household income and family size for purposes of eligibility.

(4) Methods

(A) In general

The Secretary, in consultation with the Secretary of the Treasury, the Secretary of Homeland Security, and the Commissioner of Social Security, shall provide that verifications and determinations under this subsection shall be done—

(i) through use of an on-line system or otherwise for the electronic submission of, and response to, the information submitted under this subsection with respect to an applicant; or

(ii) by determining the consistency of the information submitted with the information maintained in the records of the Secretary of the Treasury, the Secretary of Homeland Security, or the Commissioner of Social Security through such other method as is approved by the Secretary.

(B) Flexibility

The Secretary may modify the methods used under the program established by this section for the Exchange ² and verification of information if the Secretary determines such modifications would reduce the administrative costs and burdens on the applicant, including allowing an applicant to request the Secretary of the Treasury to provide the information described in paragraph (3) directly to the Exchange or to the Secretary. The Secretary shall not make any such modification unless the Secretary determines that any applicable requirements under this section and section 6103 of title 26 with respect to the confidentiality, disclosure, maintenance, or use of information will be met.

(d) Verification by Secretary

In the case of information provided under subsection (b) that is not required under subsection (c) to be submitted to another person for verification, the Secretary shall verify the accuracy of such information in such manner as the Secretary determines appropriate, including delegating responsibility for verification to the Exchange.

(e) Actions relating to verification

(1) In general

Each person to whom the Secretary provided information under subsection (c) shall report to the Secretary under the method established under subsection (c)(4) the results of its verification and the Secretary shall notify the Exchange of such results. Each person to whom the Secretary provided information under subsection (d) shall report to the Secretary in such manner as the Secretary determines appropriate.

(2) Verification

(A) Eligibility for enrollment and premium tax credits and cost-sharing reductions

If information provided by an applicant under paragraphs (1), (2), (3), and (4) of subsection (b) is verified under subsections (c) and (d)—

(i) the individual's eligibility to enroll through the Exchange and to apply for premium tax credits and cost-sharing reductions shall be satisfied; and

(ii) the Secretary shall, if applicable, notify the Secretary of the Treasury under section 18082(c) of this title of the amount of any advance payment to be made.

(B) Exemption from individual responsibility

If information provided by an applicant under subsection (b)(5) is verified under subsections (c) and (d), the Secretary shall issue the certification of exemption described in section 18031(d)(4)(H) of this title.

(3) Inconsistencies involving attestation of citizenship or lawful presence

If the information provided by any applicant under subsection (b)(2) is inconsistent with information in the records maintained by the Commissioner of Social Security or Secretary of Homeland Security, whichever is applicable, the applicant's eligibility will be determined in the same manner as an individual's eligibility under the medicaid program is determined under section 1396a(ee) of this title (as in effect on January 1, 2010).

(4) Inconsistencies involving other information

(A) In general

If the information provided by an applicant under subsection (b) (other than subsection (b)(2)) is inconsistent with information in the records maintained by persons under subsection (c) or is not verified under subsection (d), the Secretary shall notify the Exchange and the Exchange shall take the following actions:

(i) Reasonable effort

The Exchange shall make a reasonable effort to identify and address the causes of such inconsistency, including through typographical or other clerical errors, by contacting the applicant to confirm the accuracy of the information, and by taking such additional actions as the Secretary, through regulation or other guidance, may identify.

(ii) Notice and opportunity to correct

In the case the inconsistency or inability to verify is not resolved under subparagraph (A), the Exchange shall—

(I) notify the applicant of such fact;

(II) provide the applicant an opportunity to either present satisfactory documentary evidence or resolve the inconsistency with the person verifying the information under subsection (c) or (d) during the 90-day period beginning the date on which the notice required under subclause (I) is sent to the applicant.

The Secretary may extend the 90-day period under subclause (II) for enrollments occurring during 2014.

(B) Specific actions not involving citizenship or lawful presence

(i) In general

Except as provided in paragraph (3), the Exchange shall, during any period before the close of the period under subparagraph (A)(ii)(II), make any determination under paragraphs (2), (3), and (4) of subsection (a) on the basis of the information contained on the application.

(ii) Eligibility or amount of credit or reduction

If an inconsistency involving the eligibility for, or amount of, any premium tax credit or cost-sharing reduction is unresolved under this subsection as of the close of the period under subparagraph (A)(ii)(II), the Exchange shall notify the applicant of the amount (if any) of the

credit or reduction that is determined on the basis of the records maintained by persons under subsection (c).

(iii) Employer affordability

If the Secretary notifies an Exchange that an enrollee is eligible for a premium tax credit under section 36B of title 26 or cost-sharing reduction under section 18071 of this title because the enrollee's (or related individual's) employer does not provide minimum essential coverage through an employer-sponsored plan or that the employer does provide that coverage but it is not affordable coverage, the Exchange shall notify the employer of such fact and that the employer may be liable for the payment assessed under section 4980H of title 26.

(iv) Exemption

In any case where the inconsistency involving, or inability to verify, information provided under subsection (b)(5) is not resolved as of the close of the period under subparagraph (A)(ii)(II), the Exchange shall notify an applicant that no certification of exemption from any requirement or payment under section 5000A of such title will be issued.

(C) Appeals process

The Exchange shall also notify each person receiving notice under this paragraph of the appeals processes established under subsection (f).

(f) Appeals and redeterminations

(1) In general

The Secretary, in consultation with the Secretary of the Treasury, the Secretary of Homeland Security, and the Commissioner of Social Security, shall establish procedures by which the Secretary or one of such other Federal officers—

(A) hears and makes decisions with respect to appeals of any determination under subsection (e); and

(B) redetermines eligibility on a periodic basis in appropriate circumstances.

(2) Employer liability

(A) In general

The Secretary shall establish a separate appeals process for employers who are notified under subsection (e)(4)(C) that the employer may be liable for a tax imposed by section 4980H of title 26 with respect to an employee because of a determination that the employer does not provide minimum essential coverage through an employer-sponsored plan or that the employer does provide that coverage but it is not affordable coverage with respect to an employee. Such process shall provide an employer the opportunity to—

(i) present information to the Exchange for review of the determination either by the Exchange or the person making the determination, including evidence of the employer-sponsored plan and employer contributions to the plan; and

(ii) have access to the data used to make the determination to the extent allowable by law.

Such process shall be in addition to any rights of appeal the employer may have under subtitle F of such title.

(B) Confidentiality

Notwithstanding any provision of this title ¹ (or the amendments made by this title) ¹ or section 6103 of title 26, an employer shall not be entitled to any taxpayer return information with respect to an employee for purposes of determining whether the employer is subject to the penalty under section 4980H of title 26 with respect to the employee, except that—

(i) the employer may be notified as to the name of an employee and whether or not the employee's income is above or below the threshold by which the affordability of an employer's health insurance coverage is measured; and

(ii) this subparagraph shall not apply to an employee who provides a waiver (at such time and in such manner as the Secretary may prescribe) authorizing an employer to have access to the employee's taxpayer return information.

(g) Confidentiality of applicant information

(1) In general

An applicant for insurance coverage or for a premium tax credit or cost-sharing reduction shall be required to provide only the information strictly necessary to authenticate identity, determine eligibility, and determine the amount of the credit or reduction.

(2) Receipt of information

Any person who receives information provided by an applicant under subsection (b) (whether directly or by another person at the request of the applicant), or receives information from a Federal agency under subsection (c), (d), or (e), shall—

(A) use the information only for the purposes of, and to the extent necessary in, ensuring the efficient operation of the Exchange, including verifying the eligibility of an individual to enroll through an Exchange or to claim a premium tax credit or cost-sharing reduction or the amount of the credit or reduction; and

(B) not disclose the information to any other person except as provided in this section.

(h) Penalties

(1) False or fraudulent information

(A) Civil penalty

(i) In general

If—

(I) any person fails to provides ³ correct information under subsection (b); and

(II) such failure is attributable to negligence or disregard of any rules or regulations of the Secretary,

such person shall be subject, in addition to any other penalties that may be prescribed by law, to a civil penalty of not more than \$25,000 with respect to any failures involving an application for a plan year. For purposes of this subparagraph, the terms "negligence" and "disregard" shall have the same meanings as when used in section 6662 of title 26.

(ii) Reasonable cause exception

No penalty shall be imposed under clause (i) if the Secretary determines that there was a reasonable cause for the failure and that the person acted in good faith.

(B) Knowing and willful violations

Any person who knowingly and willfully provides false or fraudulent information under subsection (b) shall be subject, in addition to any other penalties that may be prescribed by law, to a civil penalty of not more than \$250,000.

(2) Improper use or disclosure of information

Any person who knowingly and willfully uses or discloses information in violation of subsection (g) shall be subject, in addition to any other penalties that may be prescribed by law, to a civil penalty of not more than \$25,000.

(3) Limitations on liens and levies

The Secretary (or, if applicable, the Attorney General of the United States) shall not—

(A) file notice of lien with respect to any property of a person by reason of any failure to pay the penalty imposed by this subsection; or

(B) levy on any such property with respect to such failure.

(i) Study of administration of employer responsibility

(1) In general

The Secretary of Health and Human Services shall, in consultation with the Secretary of the Treasury, conduct a study of the procedures that are necessary to ensure that in the administration of this title ¹ and section 4980H of title 26 (as added by section 1513) ¹ that the following rights are protected:

(A) The rights of employees to preserve their right to confidentiality of their taxpayer return information and their right to enroll in a qualified health plan through an Exchange if an employer does not provide affordable coverage.

(B) The rights of employers to adequate due process and access to information necessary to accurately determine any payment assessed on employers.

(2) Report

Not later than January 1, 2013, the Secretary of Health and Human Services shall report the results of the study conducted under paragraph (1), including any recommendations for legislative changes, to the Committees on Finance and Health, Education, Labor and Pensions of the Senate and the Committees of ⁴ Education and Labor and Ways and Means of the House of Representatives.

(Pub. L. 111–148, title I, §1411, Mar. 23, 2010, 124 Stat. 224; Pub. L. 114–255, div. C, title XVIII, §18001(a)(6)(B), Dec. 13, 2016, 130 Stat. 1342; Pub. L. 119–21, title VII, §71301(c)(1), July 4, 2025, 139 Stat. 322.)

AMENDMENT OF SECTION

Pub. L. 119–21, title VII, §71301(c)(1), (3), July 4, 2025, 139 Stat. 322, provided that, applicable with respect to plan years beginning on or after Jan. 1, 2027, this section is amended as follows:

(1) in subsection (a)—

(A) in paragraph (1), by striking "and section 36B(e) of title 26"; and

(B) in paragraph (2)—

(I) in subparagraph (A), by striking "and" at the end;

(II) in subparagraph (B), by adding "and" at the end; and

(III) by adding at the end the following new subparagraph:

"(C) in the case such individual is an alien lawfully present in the United States, whether such individual is an eligible alien (within the meaning of section 36B(e)(2) of title 26);";

(2) in subsection (b)(3), by adding at the end the following new subparagraph:

(D) Immigration status

"In the case the individual's eligibility is based on an attestation of the enrollee's immigration status, an attestation that such individual is an eligible alien (within the meaning of 36B(e)(2) of title 26)."; and

(3) in subsection (c)(2)(B)(ii), by adding at the end the following new subclause:

"(III) In the case of an individual described in clause (i)(I) with respect to whom a premium tax credit under section 36B of title 26 is being claimed, the attestation that the individual is an eligible alien (within the meaning of section 36B(e)(2) of title 26)."

See 2025 Amendment notes below.

Sections 36B(c)(2)(C) and 5000A(e)(2) of title 26, section 6103(l)(21) of title 26, and section 5000A of title 26, referred to in subsecs. (a)(3) and (b)(3)(A), (5), were in the original "sections 36B(c)(2)(C) and 5000A(e)(2)", "section 6103(l)(21)", and "section 5000A", respectively, and were translated as if they had been followed by "of the Internal Revenue Code of 1986", to reflect the probable intent of Congress.

This title, referred to in subsecs. (f)(2)(B) and (i)(1), is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

Section 1513, referred to in subsec. (i)(1), means section 1513 of Pub. L. 111–148.

AMENDMENTS

2025—Subsec. (a)(1). Pub. L. 119–21, §71301(c)(1)(A)(i), struck out "and section 36B(e) of title 26" before "that the individual be a citizen".

Subsec. (a)(2)(C). Pub. L. 119–21, §71301(c)(1)(A)(ii), added subpar. (C).

Subsec. (b)(3)(D). Pub. L. 119–21, §71301(c)(1)(B), added subpar. (D).

Subsec. (c)(2)(B)(ii)(III). Pub. L. 119–21, §71301(c)(1)(C), added subcl. (III).

2016—Subsec. (b)(3)(B), (C). Pub. L. 114–255 added subpar. (B) and redesignated former subpar. (B) as (C).

STATUTORY NOTES AND RELATED SUBSIDIARIES

CHANGE OF NAME

Committee on Education and Labor of House of Representatives changed to Committee on Education and the Workforce of House of Representatives by House Resolution No. 5, One Hundred Eighteenth Congress, Jan. 9, 2023.

EFFECTIVE DATE OF 2025 AMENDMENT

Pub. L. 119–21, title VII, §71301(c)(3), July 4, 2025, 139 Stat. 322, provided that: "The amendments made by this subsection [amending this section and section 18082 of this title] shall apply with respect to plan years beginning on or after January 1, 2027."

EFFECTIVE DATE OF 2016 AMENDMENT

Amendment by Pub. L. 114–255 applicable to applications for enrollment made after Dec. 31, 2016, see section 18001(a)(7)(F) of Pub. L. 114–255, set out in a note under section 36B of Title 26, Internal Revenue Code.

VERIFICATION OF HOUSEHOLD INCOME AND OTHER QUALIFICATIONS FOR THE PROVISION OF ACA PREMIUM AND COST-SHARING SUBSIDIES

Pub. L. 113–46, div. B, §1001, Oct. 17, 2013, 127 Stat. 566, provided that:

"(a) IN GENERAL.—Notwithstanding any other provision of law, the Secretary of Health and Human Services (referred to in this section as the 'Secretary') shall ensure that American Health Benefit Exchanges verify that individuals applying for premium tax credits under section 36B of the Internal Revenue Code of 1986 [26 U.S.C. 36B] and reductions in cost-sharing under section 1402 of the Patient Protection and Affordable Care Act (42 U.S.C. 18071) are eligible for such credits and cost sharing reductions consistent with the requirements of section 1411 of such Act (42 U.S.C. 18081), and, prior to making such credits and reductions available, the Secretary shall certify to the Congress that the Exchanges verify such eligibility consistent with the requirements of such Act [Pub. L. 111–148, see Tables for classification].

"(b) REPORT BY SECRETARY.—Not later than January 1, 2014, the Secretary shall submit a report to the Congress that details the procedures employed by American Health Benefit Exchanges to verify eligibility for credits and cost-sharing reductions described in subsection (a).

"(c) REPORT BY INSPECTOR GENERAL.—Not later than July 1, 2014, the Inspector General of the Department of Health and Human Services shall submit to the Congress a report regarding the effectiveness of the procedures and safeguards provided under the Patient Protection and Affordable Care Act for preventing the submission of inaccurate or fraudulent information by applicants for enrollment in a qualified health plan offered through an American Health Benefit Exchange."

§18082. Advance determination and payment of premium tax credits and cost-sharing reductions

(a) In general

The Secretary, in consultation with the Secretary of the Treasury, shall establish a program under which—

(1) upon request of an Exchange, advance determinations are made under section 18081 of this title with respect to the income eligibility of individuals enrolling in a qualified health plan in the individual market through the Exchange for the premium tax credit allowable under section 36B of title 26 and the cost-sharing reductions under section 18071 of this title;

(2) the Secretary notifies—

(A) the Exchange and the Secretary of the Treasury of the advance determinations; and

(B) the Secretary of the Treasury of the name and employer identification number of each employer with respect to whom 1 or more employee¹ of the employer were determined to be eligible for the premium tax credit under section 36B of title 26 and the cost-sharing reductions under section 18071 of this title because—

(i) the employer did not provide minimum essential coverage; or

(ii) the employer provided such minimum essential coverage but it was determined under section 36B(c)(2)(C) of title 26 to either be unaffordable to the employee or not provide the required minimum actuarial value; and

(3) the Secretary of the Treasury makes advance payments of such credit or reductions to the issuers of the qualified health plans in order to reduce the premiums payable by individuals eligible for such credit.

(b) Advance determinations

(1) In general

The Secretary shall provide under the program established under subsection (a) that advance determination of eligibility with respect to any individual shall be made—

(A) during the annual open enrollment period applicable to the individual (or such other enrollment period as may be specified by the Secretary); and

(B) on the basis of the individual's household income for the most recent taxable year for which the Secretary, after consultation with the Secretary of the Treasury, determines information is available.

(2) Changes in circumstances

The Secretary shall provide procedures for making advance determinations on the basis of information other than that described in paragraph (1)(B) in cases where information included with an application form demonstrates substantial changes in income, changes in family size or other household circumstances, change in filing status, the filing of an application for unemployment benefits, or other significant changes affecting eligibility, including—

(A) allowing an individual claiming a decrease of 20 percent or more in income, or filing an application for unemployment benefits, to have eligibility for the credit determined on the basis of household income for a later period or on the basis of the individual's estimate of such income for the taxable year; and

(B) the determination of household income in cases where the taxpayer was not required to file a return of tax imposed by this chapter for the second preceding taxable year.

(c) Payment of premium tax credits and cost-sharing reductions

(1) In general

The Secretary shall notify the Secretary of the Treasury and the Exchange through which the individual is enrolling of the advance determination under section 18081 of this title.

(2) Premium tax credit

(A) In general

The Secretary of the Treasury shall make the advance payment under this section of any premium tax credit allowed under section 36B of title 26 to the issuer of a qualified health plan on a monthly basis (or such other periodic basis as the Secretary may provide).

(B) Issuer responsibilities

An issuer of a qualified health plan receiving an advance payment with respect to an individual enrolled in the plan shall—

- (i) reduce the premium charged the insured for any period by the amount of the advance payment for the period;
- (ii) notify the Exchange and the Secretary of such reduction;
- (iii) include with each billing statement the amount by which the premium for the plan has been reduced by reason of the advance payment; and
- (iv) in the case of any nonpayment of premiums by the insured—
 - (I) notify the Secretary of such nonpayment; and
 - (II) allow a 3-month grace period for nonpayment of premiums before discontinuing coverage.

(3) Cost-sharing reductions

The Secretary shall also notify the Secretary of the Treasury and the Exchange under paragraph (1) if an advance payment of the cost-sharing reductions under section 18071 of this title is to be made to the issuer of any qualified health plan with respect to any individual enrolled in the plan. The Secretary of the Treasury shall make such advance payment at such time and in such amount as the Secretary specifies in the notice.

(d) No Federal payments for individuals not lawfully present

Nothing in this subtitle or the amendments made by this subtitle allows Federal payments, credits, or cost-sharing reductions for individuals who are not lawfully present in the United States.

(e) State flexibility

Nothing in this subtitle or the amendments made by this subtitle shall be construed to prohibit a State from making payments to or on behalf of an individual for coverage under a qualified health plan offered through an Exchange that are in addition to any credits or cost-sharing reductions allowable to the individual under this subtitle and such amendments.

(Pub. L. 111–148, title I, §1412, Mar. 23, 2010, 124 Stat. 231; Pub. L. 119–21, title VII, §71301(c)(2), July 4, 2025, 139 Stat. 322.)

AMENDMENT OF SUBSECTION (D)

Pub. L. 119–21, title VII, §71301(c)(2), (3), July 4, 2025, 139 Stat. 322, provided that, applicable with respect to plan years beginning on or after Jan. 1, 2027, subsection (d) of this section is amended by inserting before the period at the end ", or credits under section 36B of title 26 for aliens who are not eligible aliens (within the meaning of section 36B(e)(2) of title 26)". See 2025 Amendment note below.

EDITORIAL NOTES

REFERENCES IN TEXT

This subtitle, referred to in subsecs. (d) and (e), is subtitle E (§§1401–1421) of title I of Pub. L. 111–148, which enacted this subchapter and sections 36B and 45R of Title 26, Internal Revenue Code, amended section 405 of this title, sections 38, 196, 280C, 6103, and 7213 of Title 26, and section 1324 of Title 31, Money and Finance, and enacted provisions set out as notes under sections 36B and 38 of Title 26. AMENDMENTS

2025—Subsec. (d). Pub. L. 119–21 inserted ", or credits under section 36B of title 26 for aliens who are not

eligible aliens (within the meaning of section 36B(e)(2) of title 26)" before period at end.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2025 AMENDMENT

Amendment by Pub. L. 119–21 applicable with respect to plan years beginning on or after Jan. 1, 2027, see section 71301(c)(3) of Pub. L. 119–21, set out as a note under section 18081 of this title.

¹ So in original. Probably should be "employees".

§18083. Streamlining of procedures for enrollment through an Exchange and State medicaid, CHIP, and health subsidy programs

(a) In general

The Secretary shall establish a system meeting the requirements of this section under which residents of each State may apply for enrollment in, receive a determination of eligibility for participation in, and continue participation in, applicable State health subsidy programs. Such system shall ensure that if an individual applying to an Exchange is found through screening to be eligible for medical assistance under the State medicaid plan under title XIX ¹ [42 U.S.C. 1396 et seq.], or eligible for enrollment under a State children's health insurance program (CHIP) under title XXI of such Act [42 U.S.C. 1397aa et seq.], the individual is enrolled for assistance under such plan or program.

(b) Requirements relating to forms and notice

(1) Requirements relating to forms

(A) In general

The Secretary shall develop and provide to each State a single, streamlined form that—

- (i) may be used to apply for all applicable State health subsidy programs within the State;
- (ii) may be filed online, in person, by mail, or by telephone;
- (iii) may be filed with an Exchange or with State officials operating one of the other applicable State health subsidy programs; and
- (iv) is structured to maximize an applicant's ability to complete the form satisfactorily, taking into account the characteristics of individuals who qualify for applicable State health subsidy programs.

(B) State authority to establish form

A State may develop and use its own single, streamlined form as an alternative to the form developed under subparagraph (A) if the alternative form is consistent with standards promulgated by the Secretary under this section.

(C) Supplemental eligibility forms

The Secretary may allow a State to use a supplemental or alternative form in the case of individuals who apply for eligibility that is not determined on the basis of the household income (as defined in section 36B of title 26).

(2) Notice

The Secretary shall provide that an applicant filing a form under paragraph (1) shall receive notice of eligibility for an applicable State health subsidy program without any need to provide additional information or paperwork unless such information or paperwork is specifically required by law when information provided on the form is inconsistent with data used for the electronic verification under paragraph (3) or is otherwise insufficient to determine eligibility.

(c) Requirements relating to eligibility based on data exchanges

(1) Development of secure interfaces

Each State shall develop for all applicable State health subsidy programs a secure, electronic interface allowing an exchange of data (including information contained in the application forms described in subsection (b)) that allows a determination of eligibility for all such programs based on a single application. Such interface shall be compatible with the method established for data verification under section 18081(c)(4) of this title.

(2) Data matching program

Each applicable State health subsidy program shall participate in a data matching arrangement for determining eligibility for participation in the program under paragraph (3) that—

(A) provides access to data described in paragraph (3);

(B) applies only to individuals who—

(i) receive assistance from an applicable State health subsidy program; or

(ii) apply for such assistance—

(I) by filing a form described in subsection (b); or

(II) by requesting a determination of eligibility and authorizing disclosure of the information described in paragraph (3) to applicable State health coverage subsidy programs for purposes of determining and establishing eligibility; and

(C) consistent ² with standards promulgated by the Secretary, including the privacy and data security safeguards described in section 1942 of the Social Security Act [42 U.S.C. 1396w-2] or that are otherwise applicable to such programs.

(3) Determination of eligibility

(A) In general

Each applicable State health subsidy program shall, to the maximum extent practicable—

(i) establish, verify, and update eligibility for participation in the program using the data matching arrangement under paragraph (2); and

(ii) determine such eligibility on the basis of reliable, third party data, including information described in sections 1137, 453(i), and 1942(a) of the Social Security Act [42 U.S.C. 1320b-7, 653(i), 1396w-2(a)], obtained through such arrangement.

(B) Exception

This paragraph shall not apply in circumstances with respect to which the Secretary determines that the administrative and other costs of use of the data matching arrangement under paragraph (2) outweigh its expected gains in accuracy, efficiency, and program participation.

(4) Secretarial standards

The Secretary shall, after consultation with persons in possession of the data to be matched and representatives of applicable State health subsidy programs, promulgate standards governing the timing, contents, and procedures for data matching described in this subsection. Such standards shall take into account administrative and other costs and the value of data matching to the establishment, verification, and updating of eligibility for applicable State health subsidy programs.

(d) Administrative authority

(1) Agreements

Subject to section 18081 of this title and section 6103(l)(21) of title 26 and any other requirement providing safeguards of privacy and data integrity, the Secretary may establish model agreements, and enter into agreements, for the sharing of data under this section.

(2) Authority of exchange to contract out

Nothing in this section shall be construed to—

(A) prohibit contractual arrangements through which a State medicaid agency determines eligibility for all applicable State health subsidy programs, but only if such agency complies with the Secretary's requirements ensuring reduced administrative costs, eligibility errors, and disruptions in coverage; or

(B) change any requirement under title XIX ¹ that eligibility for participation in a State's medicaid program must be determined by a public agency.

(e) Applicable State health subsidy program

In this section, the term "applicable State health subsidy program" means—

(1) the program under this title ³ for the enrollment in qualified health plans offered through an Exchange, including the premium tax credits under section 36B of title 26 and cost-sharing reductions under section 18071 of this title;

(2) a State medicaid program under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.];

(3) a State children's health insurance program (CHIP) under title XXI of such Act [42 U.S.C. 1397aa et seq.]; and

(4) a State program under section 18051 of this title establishing qualified basic health plans.

(Pub. L. 111–148, title I, §1413, Mar. 23, 2010, 124 Stat. 233.)

EDITORIAL NOTES

§18084. Premium tax credit and cost-sharing reduction payments disregarded for Federal and federally-assisted programs

For purposes of determining the eligibility of any individual for benefits or assistance, or the amount or extent of benefits or assistance, under any Federal program or under any State or local program financed in whole or in part with Federal funds—

(1) any credit or refund allowed or made to any individual by reason of section 36B of title 26 (as added by section 1401) ¹ shall not be taken into account as income and shall not be taken into account as resources for the month of receipt and the following 2 months; and

(2) any cost-sharing reduction payment or advance payment of the credit allowed under such section 36B that is made under section 18071 or 18082 of this title shall be treated as made to the qualified health plan in which an individual is enrolled and not to that individual.

SUBCHAPTER V—SHARED RESPONSIBILITY FOR HEALTH CARE

PART A—INDIVIDUAL RESPONSIBILITY

§18091. Requirement to maintain minimum essential coverage; findings

Congress makes the following findings:

(1) In general

The individual responsibility requirement provided for in this section (in this section referred to as the "requirement") is commercial and economic in nature, and substantially affects interstate commerce, as a result of the effects described in paragraph (2).

(2) Effects on the national economy and interstate commerce

The effects described in this paragraph are the following:

(A) The requirement regulates activity that is commercial and economic in nature: economic and financial decisions about how and when health care is paid for, and when health insurance is purchased. In the absence of the requirement, some individuals would make an economic and financial decision to forego health insurance coverage and attempt to self-insure, which increases financial risks to households and medical providers.

(B) Health insurance and health care services are a significant part of the national economy. National health spending is projected to increase from \$2,500,000,000,000, or 17.6 percent of the economy, in 2009 to \$4,700,000,000,000 in 2019. Private health insurance spending is projected to be \$854,000,000,000 in 2009, and pays for medical supplies, drugs, and equipment that are shipped in interstate commerce. Since most health insurance is sold by national or regional health insurance companies, health insurance is sold in interstate commerce and claims payments flow through interstate commerce.

(C) The requirement, together with the other provisions of this Act, will add millions of new consumers to the health insurance market, increasing the supply of, and demand for, health care services, and will increase the number and share of Americans who are insured.

(D) The requirement achieves near-universal coverage by building upon and strengthening the private employer-based health insurance system, which covers 176,000,000 Americans nationwide. In Massachusetts, a similar requirement has strengthened private employer-based coverage: despite the economic downturn, the number of workers offered employer-based coverage has actually increased.

(E) The economy loses up to \$207,000,000,000 a year because of the poorer health and shorter lifespan of the uninsured. By significantly reducing the number of the uninsured, the requirement, together with the other provisions of this Act, will significantly reduce this economic cost.

(F) The cost of providing uncompensated care to the uninsured was \$43,000,000,000 in 2008. To pay for this cost, health care providers pass on the cost to private insurers, which pass on the cost to families. This cost-shifting increases family premiums by on average over \$1,000 a year. By significantly reducing the number of the uninsured, the requirement, together with the other provisions of this Act, will lower health insurance premiums.

(G) 62 percent of all personal bankruptcies are caused in part by medical expenses. By significantly increasing health insurance coverage, the requirement, together with the other provisions of this Act, will improve financial security for families.

(H) Under the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1001 et seq.), the Public Health Service Act (42 U.S.C. 201 et seq.), and this Act, the Federal Government has a significant role in regulating health insurance. The requirement is an essential part of this larger regulation of economic activity, and the absence of the requirement would undercut Federal regulation of the health insurance market.

(I) Under sections 2704 and 2705 of the Public Health Service Act [42 U.S.C. 300gg–3, 300gg–4] (as added by section 1201 of this Act), if there were no requirement, many individuals would wait to purchase health insurance until they needed care. By significantly increasing health insurance coverage, the requirement, together with the other provisions of this Act, will minimize this adverse selection and broaden the health insurance risk pool to include healthy individuals, which will lower health insurance premiums. The requirement is essential to creating effective health insurance markets in which improved health insurance products that are guaranteed issue and do not exclude coverage of pre-existing conditions can be sold.

(J) Administrative costs for private health insurance, which were \$90,000,000,000 in 2006, are 26 to 30 percent of premiums in the current individual and small group markets. By significantly increasing health insurance coverage and the size of purchasing pools, which will increase economies of scale, the requirement, together with the other provisions of this Act, will significantly reduce administrative costs and lower health insurance premiums. The requirement is essential to creating effective health insurance markets that do not require underwriting and eliminate its associated administrative costs.

(3) Supreme Court ruling

In *United States v. South-Eastern Underwriters Association* (322 U.S. 533 (1944)), the Supreme Court of the United States ruled that insurance is interstate commerce subject to Federal regulation.

(Pub. L. 111–148, title I, §1501(a), title X, §10106(a), Mar. 23, 2010, 124 Stat. 242, 907.)

EDITORIAL NOTES

§18112. Transparency in Government

Not later than 30 days after March 23, 2010, the Secretary of Health and Human Services shall publish on the Internet website of the Department of Health and Human Services, a list of all of the authorities provided to the Secretary under this Act (and the amendments made by this Act).

(Pub. L. 111–148, title I, §1552, Mar. 23, 2010, 124 Stat. 258.)

EDITORIAL NOTES

REFERENCES IN TEXT

This Act, referred to in text, is Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 119, known as the Patient Protection and Affordable Care Act. For complete classification of this Act to the Code, see Short Title note set out under section 18001 of this title and Tables.

§18113. Prohibition against discrimination on assisted suicide

(a) In general

The Federal Government, and any State or local government or health care provider that receives Federal financial assistance under this Act (or under an amendment made by this Act) or any health plan created under this Act (or under an amendment made by this Act), may not subject an individual or institutional health care entity to discrimination on the basis that the entity does not provide any health care item or service furnished for the purpose of causing, or for the purpose of assisting in causing, the death of any individual, such as by assisted suicide, euthanasia, or mercy killing.

(b) Definition

In this section, the term "health care entity" includes an individual physician or other health care professional, a hospital, a provider-sponsored organization, a health maintenance organization, a health insurance plan, or any other kind of health care facility, organization, or plan.

(c) Construction and treatment of certain services

Nothing in subsection (a) shall be construed to apply to, or to affect, any limitation relating to—

- (1) the withholding or withdrawing of medical treatment or medical care;
- (2) the withholding or withdrawing of nutrition or hydration;
- (3) abortion; or
- (4) the use of an item, good, benefit, or service furnished for the purpose of alleviating pain or discomfort, even if such use may increase the risk of death, so long as such item, good, benefit, or service is not also furnished for the purpose of causing, or the purpose of assisting in causing, death, for any reason.

(d) Administration

The Office for Civil Rights of the Department of Health and Human Services is designated to receive complaints of discrimination based on this section.

(Pub. L. 111–148, title I, §1553, Mar. 23, 2010, 124 Stat. 259.)

EDITORIAL NOTES

This Act, referred to in subsec. (a), is Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 119, known as the Patient Protection and Affordable Care Act. For complete classification of this Act to the Code, see Short Title note set out under section 18001 of this title and Tables.

§18114. Access to therapies

Notwithstanding any other provision of this Act, the Secretary of Health and Human Services shall not promulgate any regulation that—

- (1) creates any unreasonable barriers to the ability of individuals to obtain appropriate medical care;
- (2) impedes timely access to health care services;
- (3) interferes with communications regarding a full range of treatment options between the patient and the provider;
- (4) restricts the ability of health care providers to provide full disclosure of all relevant information to patients making health care decisions;

(5) violates the principles of informed consent and the ethical standards of health care professionals; or

(6) limits the availability of health care treatment for the full duration of a patient's medical needs.

(Pub. L. 111–148, title I, §1554, Mar. 23, 2010, 124 Stat. 259.)

§18116. Nondiscrimination

(a) In general

Except as otherwise provided for in this title ¹ (or an amendment made by this title), ¹ an individual shall not, on the ground prohibited under title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.), title IX of the Education Amendments of 1972 (20 U.S.C. 1681 et seq.), the Age Discrimination Act of 1975 (42 U.S.C. 6101 et seq.), or section 794 of title 29, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under, any health program or activity, any part of which is receiving Federal financial assistance, including credits, subsidies, or contracts of insurance, or under any program or activity that is administered by an Executive Agency or any entity established under this title ¹ (or amendments). The enforcement mechanisms provided for and available under such title VI, title IX, section 794, or such Age Discrimination Act shall apply for purposes of violations of this subsection.

(b) Continued application of laws

Nothing in this title ¹ (or an amendment made by this title) ¹ shall be construed to invalidate or limit the rights, remedies, procedures, or legal standards available to individuals aggrieved under title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.), title VII of the Civil Rights Act of 1964 (42 U.S.C. 2000e et seq.), title IX of the Education Amendments of 1972 (20 U.S.C. 1681 et seq.), section 794 of title 29, or the Age Discrimination Act of 1975 [42 U.S.C. 6101 et seq.], or to supersede State laws that provide additional protections against discrimination on any basis described in subsection (a).

(c) Regulations

The Secretary may promulgate regulations to implement this section.

(Pub. L. 111–148, title I, §1557, Mar. 23, 2010, 124 Stat. 260.)

§18118. Rules of construction

(a) No effect on antitrust laws

Nothing in this title ¹ (or an amendment made by this title) ¹ shall be construed to modify, impair, or supersede the operation of any of the antitrust laws. For the purposes of this section, the term "antitrust laws" has the meaning given such term in subsection (a) of section 12 of title 15, except that such term includes section 45 of title 15 to the extent that such section 45 applies to unfair methods of competition.

(b) Rule of construction regarding Hawaii's Prepaid Health Care Act

Nothing in this title ¹ (or an amendment made by this title) ¹ shall be construed to modify or limit

the application of the exemption for Hawaii's Prepaid Health Care Act (Haw. Rev. Stat. §§393–1 et seq.) as provided for under section 1144(b)(5) of title 29.

(c) Student health insurance plans

Nothing in this title ¹ (or an amendment made by this title) ¹ shall be construed to prohibit an institution of higher education (as such term is defined for purposes of the Higher Education Act of 1965 [20 U.S.C. 1001 et seq.]) from offering a student health insurance plan, to the extent that such requirement is otherwise permitted under applicable Federal, State or local law.

(d) No effect on existing requirements

Nothing in this title ¹ (or an amendment made by this title, ¹ unless specified by direct statutory reference) shall be construed to modify any existing Federal requirement concerning the State agency responsible for determining eligibility for programs identified in section 18083 of this title. (Pub. L. 111–148, title I, §1560, Mar. 23, 2010, 124 Stat. 261.)

§18119. Small business procurement

Part 19 of the Federal Acquisition Regulation, section 644 of title 15, and any other applicable laws or regulations establishing procurement requirements relating to small business concerns (as defined in section 632 of title 15) may not be waived with respect to any contract awarded under any program or other authority under this Act or an amendment made by this Act.

(Pub. L. 111–148, title I, §1563, as added Pub. L. 111–148, title X, §10107(b)(2), Mar. 23, 2010, 124 Stat. 912.)

EDITORIAL NOTES

REFERENCES IN TEXT

This Act, referred to in text, is Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 119, known as the Patient Protection and Affordable Care Act. For complete classification of this Act to the Code, see Short Title note set out under section 18001 of this title and Tables.

CODIFICATION

Another section 1563 of Pub. L. 111–148 enacted section 18120 of this title, section 9815 of Title 26, Internal Revenue Code, and section 1185d of Title 29, Labor, and amended sections 300gg–1 to 300gg–3, 300gg–9, 300gg–11, 300gg–12, 300gg–21 to 300gg–23, 300gg–25 to 300gg–28, 300gg–62, and 300gg–91 of this title.

§18120. Application

Notwithstanding any other provision of the Patient Protection and Affordable Care Act, nothing in such Act (or an amendment made by such Act) shall be construed to—

(1) prohibit (or authorize the Secretary of Health and Human Services to promulgate regulations that prohibit) a group health plan or health insurance issuer from carrying out utilization management techniques that are commonly used as of March 23, 2010; or

(2) restrict the application of the amendments made by this subtitle.

(Pub. L. 111–148, title I, §1563(d), formerly §1562(d), title X, §10107(b)(1), Mar. 23, 2010, 124 Stat. 269, 911.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Patient Protection and Affordable Care Act, referred to in text, is Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 119. For complete classification of this Act to the Code, see Short Title note set out under section 18001 of this title and Tables.

The amendments made by this subtitle, referred to in par. (2), mean the amendments made by subtitle G (§§1551–1563) of title I of Pub. L. 111–148, which enacted section 300jj–51 of this title, sections 4980H, 5000A, 6055, 6056, and 9815 of Title 26, Internal Revenue Code, and sections 218a to 218c and 1185d of Title 29, Labor, amended sections 300gg–1 to 300gg–3, 300gg–9, 300gg–11, 300gg–12, 300gg–21 to 300gg–23, 300gg–25 to 300gg–28, 300gg–62, and 300gg–91 of this title, sections 125 and 6724 of Title 26, and sections 921 and 932 of Title 30, Mineral Lands and Mining.

CODIFICATION

Another section 1563 of Pub. L. 111–148 is classified to section 18119 of this title.

§18121. Implementation funding

(a) In general

There is hereby established a Health Insurance Reform Implementation Fund (referred to in this section as the "Fund") within the Department of Health and Human Services to carry out the Patient Protection and Affordable Care Act and this Act (and the amendments made by such Acts).

(b) Funding

There is appropriated to the Fund, out of any funds in the Treasury not otherwise appropriated, \$1,000,000,000 for Federal administrative expenses to carry out such Act ¹ (and the amendments made by such Acts).

(Pub. L. 111–152, title I, §1005, Mar. 30, 2010, 124 Stat. 1036.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Patient Protection and Affordable Care Act, referred to in subsec. (a), is Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 119. For complete classification of this Act to the Code, see Short Title note set out under section 18001 of this title and Tables.

This Act, referred to in subsec. (a), is Pub. L. 111–152, Mar. 30, 2010, 124 Stat. 1029, known as the Health Care and Education Reconciliation Act of 2010. For complete classification of this Act to the Code, see Short Title of 2010 Amendment note under section 1305 of this title and Tables.

CODIFICATION

Section was enacted as part of the Health Care and Education Reconciliation Act of 2010, and not as part of the Patient Protection and Affordable Care Act which comprises this chapter.

¹ *So in original. Probably should be "Acts".*

§18122. Rule of construction regarding health care providers

(1) In general

Subject to paragraph (3), the development, recognition, or implementation of any guideline or other standard under any Federal health care provision shall not be construed to establish the standard of care or duty of care owed by a health care provider to a patient in any medical malpractice or medical product liability action or claim.

(2) Definitions

For purposes of this section:

(A) Federal health care provision

The term "Federal health care provision" means any provision of the Patient Protection and Affordable Care Act (Public Law 111–148), title I or subtitle B of title II of the Health Care and Education Reconciliation Act of 2010 (Public Law 111–152), or title XVIII or XIX of the Social Security Act (42 U.S.C. 1395 et seq., 42 U.S.C. 1396 et seq.).

(B) Health care provider

The term "health care provider" means any individual, group practice, corporation of health care professionals, or hospital—

(i) licensed, registered, or certified under Federal or State laws or regulations to provide health care services; or

(ii) required to be so licensed, registered, or certified but that is exempted by other statute or regulation.

(C) Medical malpractice or medical product liability action or claim

The term "medical malpractice or medical product liability action or claim" means a medical malpractice action or claim (as defined in section 11151(7) of this title) and includes a liability action or claim relating to a health care provider's prescription or provision of a drug, device, or biological product (as such terms are defined in section 321 of title 21 or section 262 of this title).

(D) State

The term "State" includes the District of Columbia, Puerto Rico, and any other commonwealth, possession, or territory of the United States.

(3) No preemption

Nothing in paragraph (1) or any provision of the Patient Protection and Affordable Care Act (Public Law 111–148), title I or subtitle B of title II of the Health Care and Education Reconciliation Act of 2010 (Public Law 111–152), or title XVIII or XIX of the Social Security Act (42 U.S.C. 1395 et seq., 42 U.S.C. 1396 et seq.) shall be construed to preempt any State or common law governing medical professional or medical product liability actions or claims.

(Pub. L. 114–10, title I, §106(d), Apr. 16, 2015, 129 Stat. 142.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Patient Protection and Affordable Care Act, referred to in pars. (2)(A) and (3), is Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 119. For complete classification of this Act to the Code, see Short Title note set out under section 18001 of this title and Tables.

The Health Care and Education Reconciliation Act of 2010, referred to in pars. (2)(A) and (3), is Pub. L. 111–152, Mar. 30, 2010, 124 Stat. 1029. For complete classification of this Act to the Code, see Short Title of 2010 Amendment note set out under section 1305 of this title and Tables.

The Social Security Act, referred to in pars. (2)(A) and (3), is act Aug. 14, 1935, ch. 531, 49 Stat. 620. Titles XVIII and XIX of the Act are classified generally to subchapters XVIII (§1395 et seq.) and XIX (§1396 et seq.), respectively, of chapter 7 of this title. For complete classification of this Act to the Code, see section 1305 of this title and Tables.

CODIFICATION

Section was enacted as part of the Medicare Access and CHIP Reauthorization Act of 2015, and not as part of the Patient Protection and Affordable Care Act which comprises this chapter.

CHAPTER 158—SUPPORT FOR PREGNANT AND PARENTING TEENS AND WOMEN

Sec.

- 18201. Definitions.
- 18202. Establishment of Pregnancy Assistance Fund.
- 18203. Permissible uses of Fund.
- 18204. Appropriations.

§18201. Definitions

In this chapter:

(1) Accompaniment

The term "accompaniment" means assisting, representing, and accompanying a woman in seeking judicial relief for child support, child custody, restraining orders, and restitution for harm to persons and property, and in filing criminal charges, and may include the payment of court costs and reasonable attorney and witness fees associated therewith.

(2) Eligible institution of higher education

The term "eligible institution of higher education" means an institution of higher education (as such term is defined in section 1001 of title 20) that has established and operates, or agrees to establish and operate upon the receipt of a grant under this chapter, a pregnant and parenting student services office.

(3) Community service center

The term "community service center" means a non-profit organization that provides social services to residents of a specific geographical area via direct service or by contract with a local governmental agency.

(4) High school

The term "high school" means any public or private school that operates grades 10 through 12, inclusive, grades 9 through 12, inclusive or grades 7 through 12, inclusive.

(5) Intervention services

The term "intervention services" means, with respect to domestic violence, sexual violence, sexual assault, or stalking, 24-hour telephone hotline services for police protection and referral to shelters.

(6) Secretary

The term "Secretary" means the Secretary of Health and Human Services.

(7) State

The term "State" includes the District of Columbia, any commonwealth, possession, or other territory of the United States, and any Indian tribe or reservation.

(8) Supportive social services

The term "supportive social services" means transitional and permanent housing, vocational counseling, and individual and group counseling aimed at preventing domestic violence, sexual violence, sexual assault, or stalking.

(9) Violence

The term "violence" means actual violence and the risk or threat of violence.
(Pub. L. 111–148, title X, §10211, Mar. 23, 2010, 124 Stat. 931.)

§18202. Establishment of Pregnancy Assistance Fund

(a) In general

The Secretary, in collaboration and coordination with the Secretary of Education (as appropriate), shall establish a Pregnancy Assistance Fund to be administered by the Secretary, for the purpose of awarding competitive grants to States to assist pregnant and parenting teens and women.

(b) Use of Fund

A State may apply for a grant under subsection (a) to carry out any activities provided for in section 18203 of this title.

(c) Applications

To be eligible to receive a grant under subsection (a), a State shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including a description of the purposes for which the grant is being requested and the designation of a State agency for receipt and administration of funding received under this chapter.

(Pub. L. 111–148, title X, §10212, Mar. 23, 2010, 124 Stat. 932.)

§18203. Permissible uses of Fund

(a) In general

A State shall use amounts received under a grant under section 18202 of this title for the purposes described in this section to assist pregnant and parenting teens and women.

(b) Institutions of higher education

(1) In general

A State may use amounts received under a grant under section 18202 of this title to make funding available to eligible institutions of higher education to enable the eligible institutions to establish, maintain, or operate pregnant and parenting student services. Such funding shall be used to supplement, not supplant, existing funding for such services.

(2) Application

An eligible institution of higher education that desires to receive funding under this subsection shall submit an application to the designated State agency at such time, in such manner, and containing such information as the State agency may require.

(3) Matching requirement

An eligible institution of higher education that receives funding under this subsection shall contribute to the conduct of the pregnant and parenting student services office supported by the funding an amount from non-Federal funds equal to 25 percent of the amount of the funding provided. The non-Federal share may be in cash or in-kind, fairly evaluated, including services, facilities, supplies, or equipment.

(4) Use of funds for assisting pregnant and parenting college students

An eligible institution of higher education that receives funding under this subsection shall use such funds to establish, maintain or operate pregnant and parenting student services and may use such funding for the following programs and activities:

(A) Conduct a needs assessment on campus and within the local community—

(i) to assess pregnancy and parenting resources, located on the campus or within the local community, that are available to meet the needs described in subparagraph (B); and

(ii) to set goals for—

(I) improving such resources for pregnant, parenting, and prospective parenting students; and

(II) improving access to such resources.

(B) Annually assess the performance of the eligible institution in meeting the following needs of students enrolled in the eligible institution who are pregnant or are parents:

(i) The inclusion of maternity coverage and the availability of riders for additional family members in student health care.

(ii) Family housing.

(iii) Child care.

(iv) Flexible or alternative academic scheduling, such as telecommuting programs, to enable pregnant or parenting students to continue their education or stay in school.

(v) Education to improve parenting skills for mothers and fathers and to strengthen marriages.

(vi) Maternity and baby clothing, baby food (including formula), baby furniture, and similar items to assist parents and prospective parents in meeting the material needs of their children.

(vii) Post-partum counseling.

(C) Identify public and private service providers, located on the campus of the eligible institution or within the local community, that are qualified to meet the needs described in subparagraph (B), and establishes ¹ programs with qualified providers to meet such needs.

(D) Assist pregnant and parenting students, fathers or spouses in locating and obtaining services that meet the needs described in subparagraph (B).

(E) If appropriate, provide referrals for prenatal care and delivery, infant or foster care, or adoption, to a student who requests such information. An office shall make such referrals only to service providers that serve the following types of individuals:

(i) Parents.

(ii) Prospective parents awaiting adoption.

(iii) Women who are pregnant and plan on parenting or placing the child for adoption.

(iv) Parenting or prospective parenting couples.

(5) Reporting

(A) Annual report by institutions

(i) In general

For each fiscal year that an eligible institution of higher education receives funds under this subsection, the eligible institution shall prepare and submit to the State, by the date determined by the State, a report that—

(I) itemizes the pregnant and parenting student services office's expenditures for the fiscal year;

(II) contains a review and evaluation of the performance of the office in fulfilling the requirements of this section, using the specific performance criteria or standards established under subparagraph (B)(i); and

(III) describes the achievement of the office in meeting the needs listed in paragraph (4)(B) of the students served by the eligible institution, and the frequency of use of the office by such students.

(ii) Performance criteria

Not later than 180 days before the date the annual report described in clause (i) is submitted, the State—

(I) shall identify the specific performance criteria or standards that shall be used to prepare the report; and

(II) may establish the form or format of the report.

(B) Report by State

The State shall annually prepare and submit a report on the findings under this subsection, including the number of eligible institutions of higher education that were awarded funds and the number of students served by each pregnant and parenting student services office receiving funds under this section, to the Secretary.

(c) Support for pregnant and parenting teens

A State may use amounts received under a grant under section 18202 of this title to make funding available to eligible high schools and community service centers to establish, maintain or operate pregnant and parenting services in the same general manner and in accordance with all conditions and requirements described in subsection (b), except that paragraph (3) of such subsection shall not apply for purposes of this subsection.

(d) Improving services for pregnant women who are victims of domestic violence, sexual violence, sexual assault, and stalking

(1) In general

A State may use amounts received under a grant under section 18202 of this title to make funding available to ² its State Attorney General to assist Statewide offices in providing—

(A) intervention services, accompaniment, and supportive social services for eligible pregnant women who are victims of domestic violence, sexual violence, sexual assault, or stalking.

(B) technical assistance and training (as described in subsection (c)) relating to violence against eligible pregnant women to be made available to the following:

- (i) Federal, State, tribal, territorial, and local governments, law enforcement agencies, and courts.
- (ii) Professionals working in legal, social service, and health care settings.
- (iii) Nonprofit organizations.
- (iv) Faith-based organizations.

(2) Eligibility

To be eligible for a grant under paragraph (1), a State Attorney General shall submit an application to the designated State agency at such time, in such manner, and containing such information, as specified by the State.

(3) Technical assistance and training described

For purposes of paragraph (1)(B), technical assistance and training is—

(A) the identification of eligible pregnant women experiencing domestic violence, sexual violence, sexual assault, or stalking;

(B) the assessment of the immediate and short-term safety of such a pregnant woman, the evaluation of the impact of the violence or stalking on the pregnant woman's health, and the assistance of the pregnant woman in developing a plan aimed at preventing further domestic violence, sexual violence, sexual assault, or stalking, as appropriate;

(C) the maintenance of complete medical or forensic records that include the documentation of any examination, treatment given, and referrals made, recording the location and nature of the pregnant woman's injuries, and the establishment of mechanisms to ensure the privacy and confidentiality of those medical records; and

(D) the identification and referral of the pregnant woman to appropriate public and private nonprofit entities that provide intervention services, accompaniment, and supportive social services.

(4) Eligible pregnant woman

In this subsection, the term "eligible pregnant woman" means any woman who is pregnant on the date on which such woman becomes a victim of domestic violence, sexual violence, sexual

assault, or stalking or who was pregnant during the one-year period before such date.

(e) Public awareness and education

A State may use amounts received under a grant under section 18202 of this title to make funding available to increase public awareness and education concerning any services available to pregnant and parenting teens and women under this chapter, or any other resources available to pregnant and parenting women in keeping with the intent and purposes of this chapter. The State shall be responsible for setting guidelines or limits as to how much of funding may be utilized for public awareness and education in any funding award.

² *So in original. Probably should be "to".*

§18204. Appropriations

There is authorized to be appropriated, and there are appropriated, \$25,000,000 for each of fiscal years 2010 through 2019, to carry out this chapter.

(Pub. L. 111–148, title X, §10214, Mar. 23, 2010, 124 Stat. 935.)

CHAPTER 159—SPACE EXPLORATION, TECHNOLOGY, AND SCIENCE

Sec.

18301. Findings.

18302. Definitions.

SUBCHAPTER I—POLICY, GOALS, AND OBJECTIVES FOR HUMAN SPACE FLIGHT AND EXPLORATION

18311. United States human space flight policy.

18312. Goals and objectives.

18313. Assurance of core capabilities.

SUBCHAPTER II—EXPANSION OF HUMAN SPACE FLIGHT BEYOND THE INTERNATIONAL SPACE STATION AND LOW-EARTH ORBIT

18321. Human space flight beyond low-Earth orbit.

18322. Space Launch System as follow-on launch vehicle to the Space Shuttle.

18323. Multi-purpose crew vehicle.

18324. Utilization of existing workforce and assets in development of Space Launch System and multi-purpose crew vehicle.

18325. NASA launch support and infrastructure modernization program.

18326. Development of technologies and in-space capabilities for beyond near-Earth space missions.

18327. Report requirement.

SUBCHAPTER III—DEVELOPMENT AND USE OF COMMERCIAL CREW AND CARGO TRANSPORTATION CAPABILITIES

18341. Commercial Cargo Development program.

18342. Requirements applicable to development of commercial crew transportation capabilities and services.

SUBCHAPTER IV—CONTINUATION, SUPPORT, AND EVOLUTION OF THE INTERNATIONAL SPACE STATION

18351. Continuation of the International Space Station.

- 18352. Maximum utilization of the International Space Station.
- 18353. Maintenance of the United States segment and assurance of continued operations of the International Space Station.
- 18354. Management of the ISS national laboratory.

SUBCHAPTER V—SPACE SHUTTLE RETIREMENT AND TRANSITION

- 18361. Sense of Congress on the Space Shuttle program.
- 18362. Retirement of Space Shuttle orbiters and transition of Space Shuttle program.
- 18363. Disposition of orbiter vehicles.

SUBCHAPTER VI—EARTH SCIENCE

- 18371. Interagency collaboration implementation approach.
- 18372. Transitioning experimental research to operations.
- 18373. Decadal Survey missions implementation for Earth observation.
- 18374. Instrument test-beds and venture class missions.

SUBCHAPTER VII—SPACE SCIENCE

- 18381. Technology development.
- 18382. Suborbital research activities.
- 18383. In-space servicing.
- 18384. Decadal results.
- 18385. On-going restoration of radioisotope thermoelectric generator material production.
- 18386. Collaboration with ESMD and SOMD on robotic missions.
- 18387. Near-Earth object survey and policy with respect to threats posed.
- 18388. Repealed.

SUBCHAPTER VIII—AERONAUTICS AND SPACE TECHNOLOGY

- 18401. Aeronautics research goals.
- 18402. Research collaboration.
- 18403. Goal for Agency space technology.
- 18404. National space technology policy.
- 18405. Commercial Reusable Suborbital Research Program.

SUBCHAPTER IX—EDUCATION

- 18421. Study of potential commercial orbital platform program impact on science, technology, engineering, and mathematics.

SUBCHAPTER X—RE-SCOPING AND REVITALIZING INSTITUTIONAL CAPABILITIES

- 18431. Workforce stabilization and critical skills preservation.

SUBCHAPTER XI—OTHER MATTERS

- 18441. National and international orbital debris mitigation.
- 18442. Reports on program and cost assessment and control assessment.
- 18443. Eligibility for service of individual currently serving as Administrator of NASA.
- 18444. Counterfeit parts.
- 18445. Information security.

§18301. Findings

Congress makes the following findings:

(1) The United States human space flight program has, since the first Mercury flight on May 5, 1961, been a source of pride and inspiration for the Nation.

(2) The establishment of and commitment to human exploration goals is essential for providing the necessary long term focus and programmatic consistency and robustness of the United States civilian space program.

(3) The National Aeronautics and Space Administration is and should remain a multi-mission agency with a balanced and robust set of core missions in science, aeronautics, and human space flight and exploration.

(4) In the 50 years since the establishment of NASA, the arena of space has evolved substantially. As the uses and users of space continue to expand, the issues and operations in the regions closest to Earth have become increasingly complex, with a growing number of overlaps between civil, commercial and national security activities. These developments present opportunities and challenges to the space activities of NASA and the United States.

(5) The extraordinary challenges of achieving access to space both motivated and accelerated the development of technologies and industrial capabilities that have had widespread applications which have contributed to the technological excellence of the United States. It is essential to tie space activity to human challenges ranging from enhancing the influence, relationships, security, economic development, and commerce of the United States to improving the overall human condition.

(6) It is essential to the economic well-being of the United States that the aerospace industrial capacity, highly skilled workforce, and embedded expertise remain engaged in demanding, challenging, and exciting efforts that ensure United States leadership in space exploration and related activities.

(7) Crewmembers provide the essential component to ensure the return on investment from and the growth and safe operation of the ISS. The Russian Soyuz vehicle has allowed continued human presence on the ISS for United States crewmembers with its ability to serve as both a routine and backup capability for crew delivery, rescue, and return. With the impending retirement of the Space Shuttle, the United States will find itself with no national crew delivery and return system. Without any other system, the United States and all the ISS partners will have no redundant system for human access to and from the ISS. It is therefore essential that a United States capability be developed as soon as possible.

(8) Existing and emerging United States commercial launch capabilities and emerging launch capabilities offer the potential for providing crew support assets. New capabilities for human crew access to the ISS should be developed in a manner that ensures ISS mission assurance and safety. Commercial services offer the potential to broaden the availability and access to space at lower costs.

(9) While commercial transportation systems have the promise to contribute valuable services, it is in the United States national interest to maintain a government operated space transportation system for crew and cargo delivery to space.

(10) Congress restates its commitment, expressed in the National Aeronautics and Space Administration Authorization Act of 2005 ¹ (Public Law 109-155) and the National Aeronautics and Space Administration Authorization Act of 2008 ¹ (Public Law 110-422), to the development of commercially developed launch and delivery systems to the ISS for crew and cargo missions. Congress reaffirms that NASA shall make use of United States commercially provided ISS crew transfer and crew rescue services to the maximum extent practicable.

(11) It is critical to identify an appropriate combination of NASA and related United States Government programs, while providing a framework that allows partnering, leveraging and stimulation of the existing and emerging commercial and international efforts in both near Earth space and the regions beyond.

(12) The designation of the United States segment of the ISS as a National Laboratory, as provided by the National Aeronautics and Space Administration Authorization Act of 2005 ¹ and the National Aeronautics and Space Administration Authorization Act of 2008, ¹ provides an opportunity for multiple United States Government agencies, university-based researchers, research organizations, and others to utilize the unique environment of microgravity for fundamental scientific research and potential economic development.

(13) For some potential replacement elements necessary for ISS sustainability, the Space Shuttle may represent the only vehicle, existing or planned, capable of carrying those elements to the ISS in the near term. Additional or alternative transportation capabilities must be identified as contingency delivery options, and accompanied by an independent analysis of projected availability of such capabilities.

(14) The United States must develop, as rapidly as possible, replacement vehicles capable of providing both human and cargo launch capability to low-Earth orbit and to destinations beyond low-Earth orbit.

(15) There is a need for national space and export control policies that protect the national security of the United States while also enabling the United States and its aerospace industry to undertake cooperative programs in science and human space flight in an effective and efficient manner and to compete effectively in the global market place.

(Pub. L. 111–267, §2, Oct. 11, 2010, 124 Stat. 2807.)

EDITORIAL NOTES

The National Aeronautics and Space Administration Authorization Act of 2005, referred to in pars. (10) and (12), is Pub. L. 109–155, Dec. 30, 2005, 119 Stat. 2895, which was classified principally to chapter 150 (§16601 et seq.) of this title, and was substantially repealed and restated in chapters 305 (§30501 et seq.), 401 (§40101 et seq.), 603 (§60301 et seq.) and 707 (§70701 et seq.) and sections 20301, 20302, 30103(a), (b), 30104, 30306, 30703, 30704, 30902, 31301, 31501, 40701, 40904 to 40909, 50505, 50116, 60505, 70501 to 70503, and 70902 to 70905 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444. For complete classification of this Act to the Code, see Short Title of 2005 Act note set out under section 10101 of Title 51 and Tables.

The National Aeronautics and Space Administration Authorization Act of 2008, referred to in pars. (10) and (12), is Pub. L. 110–422, Oct. 15, 2008, 122 Stat. 4779, which was classified principally to chapter 155 (§17701 et seq.) of this title, and was substantially repealed and restated as chapters 711 (§71101 et seq.) and 713 (§71301 et seq.) and sections 20305, 30305, 30310, 31302, 31502 to 31505, 40104, 40311, 40702 to 40704, 40903(d), 50111(b), 60501 to 60504, 60506, 70504 to 70508, 70906, and 70907 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444. For complete classification of this Act to the Code, see Short Title of 2008 Act note set out under section 10101 of Title 51 and Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

SHORT TITLE

Pub. L. 111–267, §1(a), Oct. 11, 2010, 124 Stat. 2805, provided that: "This Act [enacting this chapter] may be cited as the 'National Aeronautics and Space Administration Authorization Act of 2010'."

¹ [*See References in Text note below.*](#)

§18302. Definitions

In this chapter:

(1) Administrator

The term "Administrator" means the Administrator of the National Aeronautics and Space Administration.

(2) Appropriate committees of Congress

The term "appropriate committees of Congress" means—

(A) the Committee on Commerce, Science, and Transportation of the Senate; and

(B) the Committee on Science ¹ of the House of Representatives.

(3) Cis-lunar space

The term "cis-lunar space" means the region of space from the Earth out to and including the region around the surface of the Moon.

(4) Deep space

The term "deep space" means the region of space beyond cis-lunar space.

(5) ISS

The term "ISS" means the International Space Station.

(6) NASA

The term "NASA" means the National Aeronautics and Space Administration.

(7) Near-Earth space

The term "near-Earth space" means the region of space that includes low-Earth orbit and extends out to and includes geo-synchronous orbit.

(8) NOAA

The term "NOAA" means the National Oceanic and Atmospheric Administration.

(9) OSTP

The term "OSTP" means the Office of Science and Technology Policy.

(10) Space Launch System

The term "Space Launch System" means the follow-on government-owned civil launch system developed, managed, and operated by NASA to serve as a key component to expand human presence beyond low-Earth orbit.

(Pub. L. 111–267, §3, Oct. 11, 2010, 124 Stat. 2808.)

¹ So in original. Probably should be followed by "and Technology".

SUBCHAPTER I—POLICY, GOALS, AND OBJECTIVES FOR HUMAN SPACE FLIGHT AND EXPLORATION

§18311. United States human space flight policy

(a) Use of non-United States human space flight transportation services

(1) In general

The Federal Government may not acquire human space flight transportation services from a foreign entity unless—

- (A) no United States Government-operated human space flight capability is available;
- (B) no United States commercial provider is available; and
- (C) it is a qualified foreign entity.

(2) Definitions

In this subsection:

(A) Commercial provider

The term "commercial provider" means any person providing human space flight transportation services, primary control of which is held by persons other than the Federal Government, a State or local government, or a foreign government.

(B) Qualified foreign entity

The term "qualified foreign entity" means a foreign entity that is in compliance with all applicable safety standards and is not prohibited from providing space transportation services under other law.

(C) United States commercial provider

The term "United States commercial provider" means a commercial provider, organized under the laws of the United States or of a State, that is more than 50 percent owned by United States nationals.

(3) Arrangements with foreign entities

Nothing in this subsection shall prevent the Administrator from negotiating or entering into human space flight transportation arrangements with foreign entities to ensure safety of flight and continued ISS operations.

(b) United States human space flight capabilities

Congress reaffirms the policy stated in section 70501(a) of title 51, that the United States shall maintain an uninterrupted capability for human space flight and operations in low-Earth orbit, and beyond, as an essential instrument of national security and of the capacity to ensure continued United States participation and leadership in the exploration and utilization of space.

(Pub. L. 111–267, title II, §201, Oct. 11, 2010, 124 Stat. 2811; Pub. L. 115–10, title III, §302(d), Mar. 21, 2017, 131 Stat. 25.)

EDITORIAL NOTES

CODIFICATION

In subsec. (b), "section 70501(a) of title 51" substituted for "section 501(a) of the National Aeronautics and Space Administration Authorization Act of 2005 (42 U.S.C. 16761(a))" on authority of Pub. L. 111–314, §5(e), Dec. 18, 2010, 124 Stat. 3443, which Act enacted Title 51, National and Commercial Space Programs.

AMENDMENTS

2017—Subsec. (a). Pub. L. 115–10 amended subsec. (a) generally. Prior to amendment, text read as follows: "It is the policy of the United States that reliance upon and use of non-United States human space flight capabilities shall be undertaken only as a contingency in circumstances where no United States-owned and operated human space flight capability is available, operational, and certified for flight by appropriate Federal agencies."

§18312. Goals and objectives

(a) Long-term goals

The long-term goals of the human space flight and exploration efforts of NASA shall be—

(1) to expand permanent human presence beyond low-Earth orbit and to do so, where practical, in a manner involving international, academic, and industry partners;

(2) crewed missions and progress toward achieving the goal in paragraph (1) to enable the potential for subsequent human exploration and the extension of human presence throughout the solar system; and

(3) to enable a capability to extend human presence, including potential human habitation on another celestial body and a thriving space economy in the 21st Century.¹

(b) Key objectives

The key objectives of the United States for human expansion into space shall be—

(1) to sustain the capability for long-duration presence in low-Earth orbit, initially through continuation of the ISS and full utilization of the United States segment of the ISS as a National Laboratory, and through assisting and enabling an expanded commercial presence in, and access to, low-Earth orbit, as elements of a low-Earth orbit infrastructure;

(2) to determine if humans can live in an extended manner in space with decreasing reliance on Earth, starting with utilization of low-Earth orbit infrastructure, to identify potential roles that space resources such as energy and materials may play, to meet national and global needs and challenges, such as potential cataclysmic threats, and to explore the viability of and lay the foundation for sustainable economic activities in space;

(3) to maximize the role that human exploration of space can play in advancing overall knowledge of the universe, supporting United States national and economic security and the United States global competitive posture, and inspiring young people in their educational pursuits;

(4) to build upon the cooperative and mutually beneficial framework established by the ISS partnership agreements and experience in developing and undertaking programs and meeting objectives designed to realize the goal of human space flight set forth in subsection (a); and

(5) to achieve human exploration of Mars and beyond through the prioritization of those technologies and capabilities best suited for such a mission in accordance with the stepping stone approach to exploration under section 70504 of title 51.

(Pub. L. 111–267, title II, §202, Oct. 11, 2010, 124 Stat. 2812; Pub. L. 115–10, title IV, §§411, 412, Mar. 21, 2017, 131 Stat. 33.)

EDITORIAL NOTES

AMENDMENTS

2017—Subsec. (a). Pub. L. 115–10, §411, amended subsec. (a) generally. Prior to amendment, text read as follows: "The long term goal of the human space flight and exploration efforts of NASA shall be to expand permanent human presence beyond low-Earth orbit and to do so, where practical, in a manner involving international partners."

Subsec. (b)(5). Pub. L. 115–10, §412, added par. (5).

¹ So in original. Probably should be "century."

§18313. Assurance of core capabilities

(a) Sense of Congress

It is the sense of Congress that—

(1) the ISS, technology developments, the current Space Shuttle program, and follow-on transportation systems authorized by this chapter form the foundation of initial capabilities for missions beyond low-Earth orbit to a variety of lunar and Lagrangian orbital locations; and

(2) these initial missions and related capabilities should be utilized to provide operational experience, technology development, and the placement and assured use of in-space infrastructure and in-space servicing of existing and future assets.

(b) Sense of Congress regarding human space flight capability assurance

It is the sense of Congress that the Administrator shall proceed with the utilization of the ISS, technology development, and follow-on transportation systems (including the Space Launch System, multi-purpose crew vehicle, and commercial crew and cargo transportation capabilities) under subchapters II and III of this chapter in a manner that ensures—

(1) that these capabilities remain inherently complementary and interrelated;

(2) a balance of the development, sustainment, and use of each of these capabilities, which are of critical importance to the viability and sustainability of the U.S. space program; and

(3) that resources required to support the timely and sustainable development of these capabilities authorized in either subchapter II or subchapter III of this chapter are not derived from a reduction in resources for the capabilities authorized in the other subchapter.

(c) Limitation

Nothing in subsection (b) shall apply to or affect any capability authorized by any other subchapter of this chapter ¹

(Pub. L. 111–267, title II, §203, Oct. 11, 2010, 124 Stat. 2812; Pub. L. 112–273, §2, Jan. 14, 2013, 126 Stat. 2454; Pub. L. 115–10, title IV, §416(a), Mar. 21, 2017, 131 Stat. 34.)

EDITORIAL NOTES

REFERENCES IN TEXT

Any other subchapter of this chapter, referred to in subsec. (d), was in the original "any other title of this Act", meaning any other title of Pub.L. 111–267, Oct. 11, 2010, 124 Stat. 2805. In addition to title II which is classified generally to this subchapter, Pub. L. 111–267 contains titles III to XII which are classified generally to subchapters II to XI, respectively, of this chapter and titles I and XIII, 126 Stat. 2809, 2846, which are not classified to the Code.

AMENDMENTS

2017—Subsec. (b). Pub. L. 115–10, §416(a)(1), (3), redesignated subsec. (c) as (b) and struck out former subsec. (b). Prior to amendment, text of subsec. (b) read as follows:

"(1) DEVELOPMENT OF FOLLOW-ON SPACE TRANSPORTATION SYSTEMS.—The Administrator shall proceed with the development of follow-on space transportation systems in a manner that ensures that the national capability to restart and fly Space Shuttle missions can be initiated if required by the Congress, in an Act enacted after October 11, 2010, or by a Presidential determination transmitted to the Congress, before the last Space Shuttle mission authorized by this chapter is completed.

"(2) REQUIRED ACTIONS.—In carrying out the requirement in paragraph (1), the Administrator shall authorize refurbishment of the manufactured external tank of the Space Shuttle, designated as ET–94, and take all actions necessary to enable its readiness for use in the Space Launch System development as a critical skills and capability retention effort or for test purposes, while preserving the ability to use this tank if needed for an ISS contingency if deemed necessary under paragraph (1)."

Subsecs. (c), (d). Pub. L. 115–10, §416(a)(2), (3), substituted "subsection (b)" for "subsection (c)" in subsec. (d) and redesignated subsec. (d) as (c). Former subsec. (c) redesignated (b).

2013—Subsecs. (c), (d). Pub. L. 112–273 added subsecs. (c) and (d).

¹ *So in original. Probably should be followed by a period.*

SUBCHAPTER II—EXPANSION OF HUMAN SPACE FLIGHT BEYOND THE INTERNATIONAL SPACE STATION AND LOW-EARTH ORBIT

§18321. Human space flight beyond low-Earth orbit

(a) Findings

Congress makes the following findings:

(1) The extension of the human presence from low-Earth orbit to other regions of space beyond low-Earth orbit will enable missions to the surface of the Moon and missions to deep space destinations such as near-Earth asteroids and Mars.

(2) The regions of cis-lunar space are accessible to other national and commercial launch capabilities, and such access raises a host of national security concerns and economic implications that international human space endeavors can help to address.

(3) The ability to support human missions in regions beyond low-Earth orbit and on the surface of the Moon can also drive developments in emerging areas of space infrastructure and technology.

(4) Developments in space infrastructure and technology can stimulate and enable increased space applications, such as in-space servicing, propellant resupply and transfer, and in situ resource utilization, and open opportunities for additional users of space, whether national, commercial, or international.

(5) A long term objective for human exploration of space should be the eventual international exploration of Mars.

(6) Future international missions beyond low-Earth orbit should be designed to incorporate capability development and availability, affordability, and international contributions.

(7) Human space flight and future exploration beyond low-Earth orbit should be based around a pay-as-you-go approach. Requirements in new launch and crew systems authorized in this chapter should be scaled to the minimum necessary to meet the core national mission capability needed to conduct cis-lunar missions. These initial missions, along with the development of new technologies and in-space capabilities can form the foundation for missions to other destinations. These initial missions also should provide operational experience prior to the further human expansion into space.

(b) Report on international collaboration

(1) Report required

Not later than 120 days after October 11, 2010, the Administrator shall submit to the appropriate committees of Congress a report on the following assets and capabilities:

(A) Any effort by NASA to expand and ensure effective international collaboration on the ISS.

(B) The efforts of NASA, including its approach and progress, in defining near-term, cis-lunar space human missions.

(2) NASA contributions

In preparing the report required by paragraph (1), the Administrator shall assume that NASA will contribute to the efforts described in that paragraph the following:

(A) A Space Launch System.

(B) A multi-purpose crew vehicle.

(C) Such other technology elements the Administrator may consider appropriate, and which the Administrator shall specifically identify in the report.

(Pub. L. 111-267, title III, §301, Oct. 11, 2010, 124 Stat. 2813.)

§18322. Space Launch System as follow-on launch vehicle to the Space Shuttle

(a) United States policy

It is the policy of the United States that NASA develop a Space Launch System as a follow-on to the Space Shuttle that can access cis-lunar space and the regions of space beyond low-Earth orbit in order to enable the United States to participate in global efforts to access and develop this increasingly strategic region.

(b) Initiation of development

(1) In general

The Administrator shall, as soon as practicable after October 11, 2010, initiate development of a Space Launch System meeting the minimum capabilities requirements specified in subsection (c).

(2) Modification of current contracts

In order to limit NASA's termination liability costs and support critical capabilities, the Administrator shall, to the extent practicable, extend or modify existing vehicle development and associated contracts necessary to meet the requirements in paragraph (1), including contracts for ground testing of solid rocket motors, if necessary, to ensure their availability for development of the Space Launch System.

(c) Minimum capability requirements

(1) IN GENERAL.—The Space Launch System developed pursuant to subsection (b) shall be designed to have, at a minimum, the following:

(A) The initial capability of the core elements, without an upper stage, of lifting payloads weighing between 70 tons and 100 tons into low-Earth orbit in preparation for transit for missions beyond low-Earth orbit.

(B) The capability to carry an integrated upper Earth departure stage bringing the total lift

capability of the Space Launch System to 130 tons or more.

(C) The capability to lift the multipurpose crew vehicle.

(D) The capability to serve as a backup system for supplying and supporting ISS cargo requirements or crew delivery requirements not otherwise met by available commercial or partner-supplied vehicles.

(2) FLEXIBILITY.—The Space Launch System shall be designed from inception as a fully-integrated vehicle capable of carrying a total payload of 130 tons or more into low-Earth orbit in preparation for transit for missions beyond low-Earth orbit. The Space Launch System shall, to the extent practicable, incorporate capabilities for evolutionary growth to carry heavier payloads. Developmental work and testing of the core elements and the upper stage should proceed in parallel subject to appropriations. Priority should be placed on the core elements with the goal for operational capability for the core elements not later than December 31, 2016.

(3) TRANSITION NEEDS.—The Administrator shall ensure critical skills and capabilities are retained, modified, and developed, as appropriate, in areas related to solid and liquid engines, large diameter fuel tanks, rocket propulsion, and other ground test capabilities for an effective transition to the follow-on Space Launch System.

(4) The capacity for efficient and timely evolution, including the incorporation of new technologies, competition of sub-elements, and commercial operations.

(Pub. L. 111–267, title III, §302, Oct. 11, 2010, 124 Stat. 2814.)

§18323. Multi-purpose crew vehicle

(a) Initiation of development

(1) In general

The Administrator shall continue the development of a multi-purpose crew vehicle to be available as soon as practicable, and no later than for use with the Space Launch System. The vehicle shall continue to advance development of the human safety features, designs, and systems in the Orion project.

(2) Goal for operational capability

It shall be the goal to achieve full operational capability for the transportation vehicle developed pursuant to this subsection by not later than December 31, 2016. For purposes of meeting such goal, the Administrator may undertake a test of the transportation vehicle at the ISS before that date.

(b) Minimum capability requirements

The multi-purpose crew vehicle developed pursuant to subsection (a) shall be designed to have, at a minimum, the following:

(1) The capability to serve as the primary crew vehicle for missions beyond low-Earth orbit.

(2) The capability to conduct regular in-space operations, such as rendezvous, docking, and extra-vehicular activities, in conjunction with payloads delivered by the Space Launch System developed pursuant to section 18322 of this title, or other vehicles, in preparation for missions beyond low-Earth orbit or servicing of assets described in section 18383 of this title, or other assets in cis-lunar space.

(3) The capability to provide an alternative means of delivery of crew and cargo to the ISS, in the event other vehicles, whether commercial vehicles or partner-supplied vehicles, are unable to perform that function.

(4) The capacity for efficient and timely evolution, including the incorporation of new technologies, competition of sub-elements, and commercial operations.

(Pub. L. 111–267, title III, §303, Oct. 11, 2010, 124 Stat. 2815.)

§18324. Utilization of existing workforce and assets in development of Space Launch System and multi-purpose crew vehicle

(a) In general

In developing the Space Launch System pursuant to section 18322 of this title and the multi-purpose crew vehicle pursuant to section 18323 of this title, the Administrator shall, to the extent practicable utilize—

(1) existing contracts, investments, workforce, industrial base, and capabilities from the Space Shuttle and Orion and Ares 1 projects, including—

(A) space-suit development activities for application to, and coordinated development of, a multi-purpose crew vehicle suit and associated life-support requirements with potential development of standard NASA-certified suit and life support systems for use in alternative commercially-developed crew transportation systems; and

(B) Space Shuttle-derived components and Ares 1 components that use existing United States propulsion systems, including liquid fuel engines, external tank or tank-related capability, and solid rocket motor engines; and

(2) associated testing facilities, either in being or under construction as of October 11, 2010.

(b) Discharge of requirements

In meeting the requirements of subsection (a), the Administrator—

(1) shall, to the extent practicable, utilize ground-based manufacturing capability, ground testing activities, launch and operations infrastructure, and workforce expertise;

(2) shall, to the extent practicable, minimize the modification and development of ground infrastructure and maximize the utilization of existing software, vehicle, and mission operations processes;

(3) shall complete construction and activation of the A-3 test stand with a completion goal of September 30, 2013;

(4) may procure, develop, and flight test applicable components; and

(5) shall take appropriate actions to ensure timely and cost-effective development of the Space Launch System and the multi-purpose crew vehicle, including the use of a procurement approach that incorporates adequate and effective oversight, the facilitation of contractor efficiencies, and the stream-lining of contract and procurement requirements.

(Pub. L. 111-267, title III, §304, Oct. 11, 2010, 124 Stat. 2816.)

§18325. NASA launch support and infrastructure modernization program

(a) In general

The Administrator shall carry out a program the primary purpose of which is to prepare infrastructure at the Kennedy Space Center that is needed to enable processing and launch of the Space Launch System. Vehicle interfaces and other ground processing and payload integration areas should be simplified to minimize overall costs, enhance safety, and complement the purpose of this section.

(b) Elements

The program required by this section shall include—

(1) investments to improve civil and national security operations at the Kennedy Space Center, to enhance the overall capabilities of the Center, and to reduce the long term cost of operations and maintenance;

(2) measures to provide multi-vehicle support, improvements in payload processing, and partnering at the Kennedy Space Center; and

(3) such other measures, including investments to improve launch infrastructure at NASA flight

facilities scheduled to launch cargo to the ISS under the commercial orbital transportation services program as the Administrator may consider appropriate.

(c) Report on NASA launch support and infrastructure modernization program

(1) Report required

Not later than 120 days after October 11, 2010, the Administrator shall submit to the appropriate committees of Congress a report on the plan for the implementation of the NASA launch support and infrastructure modernization program.

(2) Elements

The report required by this subsection shall include—

(A) a description of the ground infrastructure plan tied to the Space Launch System and potential ground investment activities at other NASA centers related to supporting the development of the Space Launch System;

(B) a description of proposed initiatives intended to be conducted jointly or in cooperation with Cape Canaveral Air Force Station, Florida, or other installations or components of the United States Government; and

(C) a description of plans to use funds authorized to be appropriated by this chapter to improve non-NASA facilities, which plans shall include a business plan outlining the nature and scope of investments planned by other parties.

(Pub. L. 111–267, title III, §305, Oct. 11, 2010, 124 Stat. 2817.)

§18326. Development of technologies and in-space capabilities for beyond near-Earth space missions

(a) Development authorized

The Administrator may initiate activities to develop the following:

(1) Technologies identified as necessary elements of missions beyond low-Earth orbit.

(2) In-space capabilities such as refueling and storage technology, orbital transfer stages, innovative in-space propulsion technology, communications, and data management that facilitate a broad range of users (including military and commercial) and applications defining the architecture and design of such missions.

(3) Spacesuit development and associated life support technology.

(4) Flagship missions.

(b) Investments

In developing technologies and capabilities under subsection (a), the Administrator may make investments—

(1) in space technologies such as advanced propulsion, propellant depots, in situ resource utilization, and robotic payloads or capabilities that enable human missions beyond low-Earth orbit ultimately leading to Mars;

(2) in a space-based transfer vehicle including these technologies with an ability to conduct space-based operations that provide capabilities—

(A) to integrate with the Space Launch System and other space-based systems;

(B) to provide opportunities for in-space servicing of and delivery to multiple space-based platforms; and

(C) to facilitate international efforts to expand human presence to deep space destinations;

(3) in advanced life support technologies and capabilities;

(4) in technologies and capabilities relating to in-space power, propulsion, and energy systems;

(5) in technologies and capabilities relating to in-space propellant transfer and storage;

(6) in technologies and capabilities relating to in situ resource utilization; and

(7) in expanded research to understand the greatest biological impediments to human deep

space missions, especially the radiation challenge.

(c) Utilization of ISS as testbed

The Administrator may utilize the ISS as a testbed for any technology or capability developed under subsection (a) in a manner consistent with the provisions of this chapter.

(d) Coordination

The Administrator shall coordinate development of technologies and capabilities under this section through an overall agency technology approach, as authorized by section 905 of this Act. (Pub. L. 111–267, title III, §308, Oct. 11, 2010, 124 Stat. 2818.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 905 of this Act, referred to in subsec. (d), is Pub. L. 111–267, title IX, §905, Oct. 11, 2010, 124 Stat. 2836, which is not classified to the Code.

§18327. Report requirement

Within 90 days after October 11, 2010, or upon completion of reference designs for the Space Launch System and Multi-purpose Crew Vehicle authorized by this chapter, whichever occurs first, the Administrator shall provide a detailed report to the appropriate committees of Congress that provides an overall description of the reference vehicle design, the assumptions, description, data, and analysis of the systems trades and resolution process, justification of trade decisions, the design factors which implement the essential system and vehicle capability requirements established by this chapter, the explanation and justification of any deviations from those requirements, the plan for utilization of existing contracts, civil service and contract workforce, supporting infrastructure utilization and modifications, and procurement strategy to expedite development activities through modification of existing contract vehicles, and the schedule of design and development milestones and related schedules leading to the accomplishment of operational goals established by this chapter. The Administrator shall provide an update of this report as part of the President's annual Budget Request.

(Pub. L. 111–267, title III, §309, Oct. 11, 2010, 124 Stat. 2819.)

**SUBCHAPTER III—DEVELOPMENT AND USE OF COMMERCIAL CREW
AND CARGO TRANSPORTATION CAPABILITIES**

§18341. Commercial Cargo Development program

The Administrator shall continue to support the existing Commercial Resupply Services program, aimed at enabling the commercial space industry in support of NASA to develop reliable means of launching cargo and supplies to the ISS throughout the duration of the facility's operation. The Administrator may apply funds towards the reduction of risk to the timely start of these services, specifically—

- (1) efforts to conduct a flight test;
- (2) accelerate development; and
- (3) develop the ground infrastructure needed for commercial cargo capability.

(Pub. L. 111–267, title IV, §401, Oct. 11, 2010, 124 Stat. 2820; Pub. L. 115–10, title III, §302(f), Mar. 21, 2017, 131 Stat. 26.)

EDITORIAL NOTES

AMENDMENTS

2017—Pub. L. 115–10 substituted "Commercial Resupply Services" for "Commercial Orbital Transportation Services" in introductory provisions.

§18342. Requirements applicable to development of commercial crew transportation capabilities and services

(a) FY 2011 contracts and procurement agreements

(1) In general

Except as provided in paragraph (2), the Administrator may not execute a contract or procurement agreement with respect to follow-on commercial crew services during fiscal year 2011.

(2) Exception

Notwithstanding paragraph (1), the Administrator may execute a contract or procurement agreement with respect to follow-on commercial crew services during fiscal year 2011 if—

- (A) the requirements of paragraphs (1), (2), and (3) of subsection (b) are met; and
- (B) the total amount involved for all such contracts and procurement agreements executed during fiscal year 2011 does not exceed \$50,000,000 for fiscal year 2011.

(b) Support

The Administrator may, beginning in fiscal year 2012 through the duration of the program, support follow-on commercially-developed crew transportation systems dependent upon the completion of each of the following:

(1) Human rating requirements

Not later than 60 days after October 11, 2010, the Administrator shall develop and make available to the public detailed human rating processes and requirements to guide the design of commercially-developed crew transportation capabilities, which requirements shall be at least equivalent to proven requirements for crew transportation in use as of October 11, 2010.

(2) Commercial market assessment

Not later than 180 days after October 11, 2010, the Administrator shall submit to the appropriate committees of Congress an assessment, conducted, in coordination with the Federal Aviation Administration's Office of Commercial Space Transportation, for purposes of this paragraph, of the potential non-Government market for commercially-developed crew and cargo transportation systems and capabilities, including an assessment of the activities associated with potential private sector utilization of the ISS research and technology development capabilities and other potential activities in low-Earth orbit.

(3) Procurement system review

The Administrator shall review current Government procurement and acquisition practices and processes, including agreement authorities under the National Aeronautics and Space Act of 1958, ¹ to determine the most cost-effective means of procuring commercial crew transportation capabilities and related services in a manner that ensures appropriate accountability, transparency, and maximum efficiency in the procurement of such capabilities and services, which review shall include an identification of proposed measures to address risk management and means of indemnification of commercial providers of such capabilities and services, and measures for quality control, safety oversight, and the application of Federal oversight processes within the jurisdiction of other Federal agencies. A description of the proposed procurement process and justification of the proposed procurement for its selection shall be included in any proposed initiation of procurement activity for commercially-developed crew transportation capabilities and

services and shall be subject to review by the appropriate committees of Congress before the initiation of any competitive process to procure such capabilities or services. In support of the review by such committees, the Comptroller General shall undertake an assessment of the proposed procurement process and provide a report to the appropriate committees of Congress within 90 days after the date on which the Administrator provides the description and justification to such committees.

(4) Use of government-supplied capabilities and infrastructure

In evaluating any proposed development activity for commercially-developed crew or cargo launch capabilities, the Administrator shall identify the anticipated contribution of government personnel, expertise, technologies, and infrastructure to be utilized in support of design, development, or operations of such capabilities. This assessment shall include a clear delineation of the full requirements for the commercial crew service (including the contingency for crew rescue). The Administrator shall include details and associated costs of such support as part of any proposed development initiative for the procurement of commercially-developed crew or cargo launch capabilities or services.

(5) Flight demonstration and readiness requirements

The Administrator shall establish appropriate milestones and minimum performance objectives to be achieved before authority is granted to proceed to the procurement of commercially-developed crew transportation capabilities or systems. The guidelines shall include a procedure to provide independent assurance of flight safety and flight readiness before the authorization of United States government personnel to participate as crew onboard any commercial launch vehicle developed pursuant to this section.

(6) Commercial crew rescue capabilities

The provision of a commercial capability to provide ISS crew services shall include crew rescue requirements, and shall be undertaken through the procurement process initiated in conformance with this section. In the event such development is initiated, the Administrator shall make available any relevant government-owned intellectual property deriving from the development of a multi-purpose crew vehicle authorized by this chapter to commercial entities involved with such crew rescue capability development which shall be relevant to the design of a crew rescue capability. In addition, the Administrator shall seek to ensure that contracts for development of the multi-purpose crew vehicle contain provisions for the licensing of relevant intellectual property to participating commercial providers of any crew rescue capability development undertaken pursuant to this section. If one or more contractors involved with development of the multi-purpose crew vehicle seek to compete in development of a commercial crew service with crew rescue capability, separate legislative authority must be enacted to enable the Administrator to provide funding for any modifications of the multi-purpose crew vehicle necessary to fulfill the ISS crew rescue function.

(Pub. L. 111–267, title IV, §403, Oct. 11, 2010, 124 Stat. 2820.)

SUBCHAPTER IV—CONTINUATION, SUPPORT, AND EVOLUTION OF THE INTERNATIONAL SPACE STATION

§18351. Continuation of the International Space Station

(a) Policy of the United States

It shall be the policy of the United States, in consultation with its international partners in the ISS program, to support full and complete utilization of the ISS through at least September 30, 2030.

(b) NASA action

In furtherance of the policy set forth in subsection (a), NASA shall—

(1) pursue international, commercial, and intragovernmental means to maximize ISS logistics supply, maintenance, and operational capabilities, reduce risks to ISS systems sustainability, and offset and minimize United States operations costs relating to the ISS;

(2) utilize, to the extent practicable, the ISS for the development of capabilities and technologies needed for the future of human space exploration beyond low-Earth orbit; and

(3) utilize, if practical and cost effective, the ISS for Science Mission Directorate missions in low-Earth orbit.

(Pub. L. 111–267, title V, §501, Oct. 11, 2010, 124 Stat. 2822; Pub. L. 114–90, title I, §114(b)(1), Nov. 25, 2015, 129 Stat. 715; Pub. L. 115–10, title III, §301(c), Mar. 21, 2017, 131 Stat. 23; Pub. L. 117–167, div. B, title VII, §10815(a), Aug. 9, 2022, 136 Stat. 1737.)

EDITORIAL NOTES

AMENDMENTS

2022—Subsec. (a). Pub. L. 117–167 substituted "September 30, 2030" for "2024".

2017—Pub. L. 115–10 amended section generally. Prior to amendment, section read as follows:

"(a) **POLICY OF THE UNITED STATES.**—It shall be the policy of the United States, in consultation with its international partners in the ISS program, to support full and complete utilization of the ISS through at least 2024.

"(b) **NASA ACTIONS.**—In furtherance of the policy set forth in subsection (a), NASA shall pursue international, commercial, and intragovernmental means to maximize ISS logistics supply, maintenance, and operational capabilities, reduce risks to ISS systems sustainability, and offset and minimize United States operations costs relating to the ISS."

2015—Pub. L. 114–90, §114(b)(1)(A), struck out "through 2020" after "Station" in section catchline.

Subsec. (a). Pub. L. 114–90, §114(b)(1)(B), substituted "through at least 2024" for "through at least 2020".

§18352. Maximum utilization of the International Space Station

(a) In general

With assembly of the ISS complete, NASA shall take steps to maximize the productivity and use of the ISS with respect to scientific and technological research and development, advancement of space exploration, and international collaboration.

(b) NASA actions

In carrying out subsection (a), NASA shall, at a minimum, undertake the following:

(1) Innovative use of U.S. segment

The United States segment of the ISS, which has been designated as a National Laboratory, shall be developed, managed and utilized in a manner that enables the effective and innovative use of such facility, as provided in section 18354 of this title.

(2) International cooperation

The ISS shall continue to be utilized as a key component of international efforts to build missions and capabilities that further the development of a human presence beyond near-Earth space and advance United States security and economic goals. The Administrator shall actively seek ways to encourage and enable the use of ISS capabilities to support these efforts.

(3) Domestic collaboration

The operations, management, and utilization of the ISS shall be conducted in a manner that provides opportunities for collaboration with other research programs and objectives of the United States Government in cooperation with commercial suppliers, users, and developers.

(Pub. L. 111–267, title V, §502, Oct. 11, 2010, 124 Stat. 2823.)

§18353. Maintenance of the United States segment and assurance of continued operations of the International Space Station

(a) In general

The Administrator shall take all actions necessary to ensure the safe and effective operation, maintenance, and maximum utilization of the United States segment of the ISS through at least September 30, 2030.

(b) Vehicle and component review

(1) In general

The Administrator shall, as soon as is practicable after October 11, 2010, carry out a comprehensive assessment of the essential modules, operational systems and components, structural elements, and permanent scientific equipment on board or planned for delivery and installation aboard the ISS, including both United States and international partner elements, for purposes of identifying the spare or replacement modules, systems and components, elements, and equipment that are required to ensure complete, effective, and safe functioning and full scientific utilization of the ISS through September 30, 2020.¹

(2) Data

In carrying out the assessment, the Administrator shall assemble any existing data, and provide for the development of any data or analysis not currently available, that is necessary for purposes of the assessment.

(c) Reports

(1) Report on assessment

(A) Report required

Not later than 90 days after October 11, 2010, the Administrator shall submit to the appropriate committees of Congress a report on the assessment required by subsection (b).

(B) Elements

The report required by this paragraph shall include, at minimum, the following:

(i) A description of the spare or replacement modules, systems and components, elements, and equipment identified pursuant to the assessment that are currently produced, in inventory, or on order, a description of the state of their readiness, and a schedule for their delivery to the ISS (including the planned transportation means for such delivery), including for each such module, system or component, element, or equipment a description of—

- (I) its specifications, including size, weight, and necessary configuration for launch and delivery to the ISS;
- (II) its function;
- (III) its location; and
- (IV) its criticality for ISS system integrity.

(ii) A description of the spare or replacement modules, systems and components, elements, and equipment identified pursuant to the assessment that are not currently produced, in inventory, or on order, including for each such module, system or component, element, or equipment a description of—

(I) its specifications, including size, weight, and necessary configuration for launch and delivery to the ISS;

(II) its function;

(III) its location;

(IV) its criticality for ISS system integrity; and

(V) the anticipated cost and schedule for its design, procurement, manufacture, and delivery to the ISS.

(iii) A detailed summary of the delivery schedule and associated delivery vehicle requirements necessary to transport all spare and replacement elements considered essential for the ongoing and sustained functionality of all critical systems of the ISS, both in and of themselves and as an element of an integrated, mutually dependent essential capability, including an assessment of the current schedule for delivery, the availability of delivery vehicles to meet that schedule, and the likelihood of meeting that schedule through such vehicles.

(2) GAO report

(A) Report required

Not later than 90 days after the submittal to Congress under paragraph (1) of the assessment required by subsection (b), the Comptroller General of the United States shall submit to the appropriate committees of Congress a report on the assessment. The report shall set forth an evaluation of the assessment by the Comptroller General, including an evaluation of the accuracy and level of confidence in the findings of the assessment.

(B) Cooperation with GAO

The Administrator shall provide for the monitoring and participation of the Comptroller General in the assessment in a manner that permits the Comptroller General to prepare and submit the report required by subparagraph (A).

(d) Utilization of research facilities and capabilities

Utilization of research facilities and capabilities aboard the ISS (other than exploration-related research and technology development facilities and capabilities, and associated ground support and logistics), shall be planned, managed, and supported as provided in section 18354 of this title. Exploration-related research and technology development facilities, capabilities, and associated ground support and logistics shall be planned, managed, and supported by the appropriate NASA organizations and officials in a manner that does not interfere with other activities under section 18354 of this title.

(e) Space Shuttle mission to ISS

(1) Space Shuttle mission

The Administrator shall fly the Launch-On-Need Shuttle mission currently designated in the Shuttle Flight Manifest dated February 28, 2010, to the ISS in fiscal year 2011, but no earlier than June 1, 2011, unless required earlier by an operations contingency, and pending the results of the assessment required by paragraph (2) and the determination under paragraph (3)(A).

(2) Assessment of safe means of return

The Administrator shall provide for an assessment by the NASA Engineering and Safety Center of the procedures and plans developed to ensure the safety of the Space Shuttle crew, and alternative means of return, in the event the Space Shuttle is damaged or otherwise unable to

return safely to Earth.

(3) Schedule and payload

The determination of the schedule and payload for the mission authorized by paragraph (1) shall take into account the following:

- (A) The supply and logistics delivery requirements of the ISS.
- (B) The findings of the study required by paragraph (2).

(4) Funds

Amounts authorized to be appropriated by section 101(2)(B) ¹ shall be available for the mission authorized by paragraph (1).

(f) Space Shuttle manifest flight assurance

(1) In general

The Administrator shall take all actions necessary to preserve Space Shuttle launch capability through fiscal year 2011 in a manner that enables the launch, at a minimum, of missions and primary payloads in the Shuttle flight manifest as of February 28, 2010.

(2) Continuation of contractor support

The Administrator may not terminate any contract that provides the system transitions necessary for shuttle-derived hardware to be used on either the multi-purpose crew vehicle described in section 18323 of this title or the Space Launch System described in section 18322 of this title.

(Pub. L. 111–267, title V, §503, Oct. 11, 2010, 124 Stat. 2823; Pub. L. 114–90, title I, §114(b)(2), Nov. 25, 2015, 129 Stat. 716; Pub. L. 117–167, div. B, title VII, §10815(b), Aug. 9, 2022, 136 Stat. 1737.)

EDITORIAL NOTES

REFERENCES IN TEXT

Reference to September 30, 2020, referred to in subsec. (b)(1), was not amended by section 114(b) of Pub. L. 114–90, which substituted references to "2024" for references to "2020" in other provisions throughout this subchapter. See also section 70907 of Title 51, National and Commercial Space Programs, as amended by section 114(b) of Pub. L. 114–90.

Section 101(2)(B), referred to in subsec. (e)(4), is Pub. L. 111–267, title I, §101(2)(B), Oct. 11, 2010, 124 Stat. 2809, which is not classified to the Code.

AMENDMENTS

2022—Subsec. (a). Pub. L. 117–167 substituted "September 30, 2030" for "September 30, 2024".

2015—Subsec. (a). Pub. L. 114–90, §114(b)(2)(A), substituted "through at least September 30, 2024" for "through at least September 30, 2020".

Subsec. (b)(1). Pub. L. 114–90, §114(b)(2)(B), substituted "The Administrator" for "In carrying out subsection (a), the Administrator".

¹ [*See References in Text note below.*](#)

§18354. Management of the ISS national laboratory

(a) Cooperative agreement with not-for-profit entity for management of national laboratory

(1) In general

The Administrator shall provide initial financial assistance and enter into a cooperative agreement with an appropriate organization that is exempt from taxation under section 501(c)(3) of title 26 to manage the activities of the ISS national laboratory in accordance with this section.

(2) Qualifications

The organization with which the Administrator enters into the cooperative agreement shall develop the capabilities to implement research and development projects utilizing the ISS national laboratory and to otherwise manage the activities of the ISS national laboratory.

(3) Prohibition on other activities

The cooperative agreement shall require the organization entering into the agreement to engage exclusively in activities relating to the management of the ISS national laboratory and activities that promote its long term research and development mission as required by this section, without any other organizational objectives or responsibilities on behalf of the organization or any parent organization or other entity.

(b) NASA liaison

(1) Designation

The Administrator shall designate an official or employee of the Space Operations Mission Directorate of NASA to act as liaison between NASA and the organization with which the Administrator enters into a cooperative agreement under subsection (a) with regard to the management of the ISS national laboratory.

(2) Consultation with liaison

The cooperative agreement shall require the organization entering into the agreement to carry out its responsibilities under the agreement in cooperation and consultation with the official or employee designated under paragraph (1).

(c) Planning and coordination of ISS national laboratory research activities

The Administrator shall provide initial financial assistance to the organization with which the Administrator enters into a cooperative agreement under subsection (a), in order for the organization to initiate the following:

(1) Planning and coordination of the ISS national laboratory research activities.

(2) Development and implementation of guidelines, selection criteria, and flight support requirements for non-NASA scientific utilization of ISS research capabilities and facilities available in United States-owned modules of the ISS or in partner-owned facilities of the ISS allocated to United States utilization by international agreement.

(3) Interaction with and integration of the International Space Station National Laboratory Advisory Committee established under section 70906 of title 51 with the governance of the organization, and review recommendations provided by that Committee regarding agreements with non-NASA departments and agencies of the United States Government, academic institutions and consortia, and commercial entities leading to the utilization of the ISS national laboratory facilities.

(4) Coordination of transportation requirements in support of the ISS national laboratory research and development objectives, including provision for delivery of instruments, logistics support, and related experiment materials, and provision for return to Earth of collected samples, materials, and scientific instruments in need of replacement or upgrade.

(5) Cooperation with NASA, other departments and agencies of the United States Government, the States, and commercial entities in ensuring the enhancement and sustained operations of non-exploration-related research payload ground support facilities for the ISS, including the Space Life Sciences Laboratory, the Space Station Processing Facility and Payload Operations Integration Center.

(6) Development and implementation of scientific outreach and education activities designed to ensure effective utilization of ISS research capabilities including the conduct of scientific assemblies, conferences, and other fora for the presentation of research findings, methods, and mechanisms for the dissemination of non-restricted research findings and the development of educational programs, course supplements, interaction with educational programs at all grade levels, including student-focused research opportunities for conduct of research in the ISS national laboratory facilities.

(7) Such other matters relating to the utilization of the ISS national laboratory facilities for research and development as the Administrator may consider appropriate.

(d) Research capacity allocation and integration of research payloads

(1) Allocation of ISS research capacity

The ISS national laboratory managed experiments shall be guaranteed access to, and utilization of, not less than 50 percent of the United States research capacity allocation, including power, cold stowage, and requisite crew time onboard the ISS through at least September 30, 2030. Access to the ISS research capacity includes provision for the adequate upmass and downmass capabilities to utilize the ISS research capacity, as available. The Administrator may allocate additional capacity to the ISS national laboratory should such capacity be in excess of NASA research requirements.

(2) Additional research capabilities

If any NASA research plan is determined to require research capacity onboard the ISS beyond the percentage allocated under paragraph (1), such research plan shall be prepared in the form of a requested research opportunity to be submitted to the process established under this section for the consideration of proposed research within the capacity allocated to the ISS national laboratory. A proposal for such a research plan may include the establishment of partnerships with non-NASA institutions eligible to propose research to be conducted within the ISS national laboratory capacity. Until at least September 30, 2030, the official or employee designated under subsection (b) may grant an exception to this requirement in the case of a proposed experiment considered essential for purposes of preparing for exploration beyond low-Earth orbit, as determined by joint agreement between the organization with which the Administrator enters into a cooperative agreement under subsection (a) and the official or employee designated under subsection (b).

(3) Research priorities and enhanced capacity

The organization with which the Administrator enters into the cooperative agreement shall consider recommendations of the National Academies Decadal Survey on Biological and Physical Sciences in Space in establishing research priorities and in developing proposed enhancements of research capacity and opportunities for the ISS national laboratory.

(4) Responsibility for research payload

NASA shall retain its roles and responsibilities in providing research payload physical, analytical, and operations integration during pre-flight, post-flight, transportation, and orbital phases essential to ensure safe and effective flight readiness and vehicle integration of research activities approved and prioritized by the organization with which the Administrator enters into the cooperative agreement and the official or employee designated under subsection (b).

(Pub. L. 111–267, title V, §504, Oct. 11, 2010, 124 Stat. 2825; Pub. L. 114–90, title I, §114(b)(3), Nov. 25, 2015, 129 Stat. 716; Pub. L. 117–167, div. B, title VII, §10815(c), Aug. 9, 2022, 136 Stat. 1738.)

EDITORIAL NOTES

CODIFICATION

In subsec. (c)(3), "section 70906 of title 51" substituted for "section 602 of the National Aeronautics and Space Administration Authorization Act of 2008 (42 U.S.C. 17752)" on authority of Pub. L. 111–314, §5(e), Dec. 18, 2010, 124 Stat. 3443, which Act enacted Title 51, National and Commercial Space Programs.

AMENDMENTS

2022—Subsec. (d)(1). Pub. L. 117–167, §10815(c)(1), substituted "The ISS" for "As soon as practicable after October 11, 2010, but not later than October 1, 2011, ISS" and "September 30, 2030" for "September 30, 2024".

Subsec. (d)(2). Pub. L. 117–167, §10815(c)(2), substituted "September 30, 2030" for "September 30, 2024".

2015—Subsec. (d)(1), (2). Pub. L. 114–90 substituted "at least September 30, 2024" for "September 30,

2020".

SUBCHAPTER V—SPACE SHUTTLE RETIREMENT AND TRANSITION

§18361. Sense of Congress on the Space Shuttle program

(a) Findings

Congress makes the following findings:

- (1) The Space Shuttle program represents a national asset consisting of critical skills and capabilities, including the ability to lift large payloads into space and return them to Earth.
- (2) The Space Shuttle has carried more than 355 people from 16 nations into space.
- (3) The Space Shuttle has projected the best of American values around the world, and Space Shuttle crews have sparked the imagination and dreams of the world's youth and young at heart.

(b) Sense of Congress

It is the sense of Congress that—

- (1) it is essential that the retirement of the Space Shuttle and the transition to new human space flight capabilities be done in a manner that builds upon the legacy of this national asset; and
- (2) it is imperative for the United States to retain the skills and the industrial capability to provide a follow-on Space Launch System that is primarily designed for missions beyond near-Earth space, while offering some potential for supplanting shuttle delivery capabilities to low-Earth orbit, particularly in support of ISS requirements, if necessary.

(Pub. L. 111–267, title VI, §601, Oct. 11, 2010, 124 Stat. 2828.)

§18362. Retirement of Space Shuttle orbiters and transition of Space Shuttle program

(a) In general

The Administrator shall retire the Space Shuttle orbiters pursuant to a schedule established by the Administrator and in a manner consistent with provisions of this chapter regarding potential requirements for contingency utilization of Space Shuttle orbiters for ISS requirements.

(b) Utilization of workforce and assets in follow-on Space Launch System

(1) Utilization of vehicle assets

In carrying out subsection (a), the Administrator shall, to the maximum extent practicable, utilize workforce, assets, and infrastructure of the Space Shuttle program in efforts relating to the initiation of a follow-on Space Launch System developed pursuant to section 18322 of this title.

(2) Other assets

With respect to the workforce, assets, and infrastructure not utilized as described in paragraph (1), the Administrator shall work closely with other departments and agencies of the Federal Government, and the private sector, to divest unneeded assets and to assist displaced workers with retraining and other placement efforts. Amounts authorized to be appropriated by section 101(2)(B) ¹ shall be available for activities pursuant to this paragraph.

(Pub. L. 111–267, title VI, §602, Oct. 11, 2010, 124 Stat. 2828.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 101(2)(B), referred to in subsec. (b)(2), is Pub. L. 111–267, title I, §101(2)(B), Oct. 11, 2010, 124 Stat. 2809, which is not classified to the Code.

§18363. Disposition of orbiter vehicles

(a) In general

Upon the termination of the Space Shuttle program as provided in section 18362 of this title, the Administrator shall decommission any remaining Space Shuttle orbiter vehicles according to established safety and historic preservation procedures prior to their designation as surplus government property. The orbiter vehicles shall be made available and located for display and maintenance through a competitive procedure established pursuant to the disposition plan developed under section 613(a) of the National Aeronautics and Space Administration Authorization Act of 2008 (42 U.S.C. 17761(a)),¹ with priority consideration given to eligible applicants meeting all conditions of that plan which would provide for the display and maintenance of orbiters at locations with the best potential value to the public, including where the location of the orbiters can advance educational opportunities in science, technology, engineering, and mathematics disciplines, and with an historical relationship with either the launch, flight operations, or processing of the Space Shuttle orbiters or the retrieval of NASA manned space vehicles, or significant contributions to human space flight. The Smithsonian Institution, which, as of October 11, 2001, houses the Space Shuttle Enterprise, shall determine any new location for the Enterprise.

(b) Display and maintenance

The orbiter vehicles made available under subsection (a) shall be displayed and maintained through agreements and procedures established pursuant to section 613(a) of the National Aeronautics and Space Administration Authorization Act of 2008 (42 U.S.C. 17761(a)).¹

(c) Authorization of appropriations

There are authorized to be appropriated to NASA such sums as may be necessary to carry out this section. The amounts authorized to be appropriated by this subsection shall be in addition to any amounts authorized to be appropriated by title I, and may be requested by the President as supplemental requirements, if needed, in the appropriate fiscal years.

(Pub. L. 111–267, title VI, §603, Oct. 11, 2010, 124 Stat. 2829.)

EDITORIAL NOTES

SUBCHAPTER VI—EARTH SCIENCE

§18371. Interagency collaboration implementation approach

The Director of OSTP shall establish a mechanism to ensure greater coordination of the research, operations, and activities relating to civilian Earth observation of those Agencies, including NASA, that have active programs that either contribute directly or indirectly to these areas. This mechanism should include the development of a strategic implementation plan that is updated at least every 3 years, and includes a process for external independent advisory input. This plan should include a description of the responsibilities of the various Agency roles in Earth observations, recommended cost-sharing and procurement arrangements between Agencies and other entities, including international arrangements, and a plan for ensuring the provision of sustained, long term space-based climate observations. The Director shall provide a report to Congress within 90 days after October 11, 2010, on the implementation plan for this mechanism.

(Pub. L. 111–267, title VII, §702, Oct. 11, 2010, 124 Stat. 2830.)

§18372. Transitioning experimental research to operations

The Administrator shall coordinate with the Administrator of NOAA and the Director of the United States Geological Survey to establish a formal mechanism that plans, coordinates, and supports the transitioning of NASA research findings, assets, and capabilities to NOAA operations and United States Geological Survey operations. In defining this mechanism, NASA should consider the establishment of a formal or informal Interagency Transition Office. The Administrator of NASA shall provide an implementation plan for this mechanism to Congress within 90 days after October 11, 2010.

(Pub. L. 111–267, title VII, §703, Oct. 11, 2010, 124 Stat. 2830.)

§18373. Decadal Survey missions implementation for Earth observation

The Administrator shall undertake to implement, as appropriate, missions identified in the National Research Council's Earth Science Decadal Survey within the scope of the funds authorized for the Earth Science Mission Directorate.

(Pub. L. 111–267, title VII, §704, Oct. 11, 2010, 124 Stat. 2831.)

§18374. Instrument test-beds and venture class missions

The Administrator shall pursue innovative ways to fly instrument-level payloads for early demonstration or as co-manifested payloads. The Congress encourages the use of the ISS as an accessible platform for the conduct of such activities. Additionally, in order to address the cost and schedule challenges associated with large flight systems, NASA should pursue smaller systems where practicable and warranted.

(Pub. L. 111–267, title VII, §706, Oct. 11, 2010, 124 Stat. 2831.)

SUBCHAPTER VII—SPACE SCIENCE

§18381. Technology development

The Administrator shall ensure that the Science Mission Directorate maintains a long term technology development program for space and Earth science. This effort should be coordinated with an overall Agency technology investment approach, as authorized in section 905 of this Act.

(Pub. L. 111–267, title VIII, §801, Oct. 11, 2010, 124 Stat. 2832.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 905 of this Act, referred to in text, is Pub. L. 111–267, title IX, §905, Oct. 11, 2010, 124 Stat. 2836, which is not classified to the Code.

§18382. Suborbital research activities

(a) In general

The report of the National Academy of Sciences, Revitalizing NASA's Suborbital Program: Advancing Science, Driving Innovation and Developing Workforce, found that suborbital science missions were absolutely critical to building an aerospace workforce capable of meeting the needs of current and future human and robotic space exploration.

(b) Management

The Administrator shall designate an officer or employee of the Science Mission Directorate to act as the responsible official for all Suborbital Research in the Science Mission Directorate. The designee shall be responsible for the development of short- and long term strategic plans for maintaining, renewing and extending suborbital facilities and capabilities, monitoring progress towards goals in the plans, and be responsible for integration of suborbital activities and workforce development within the agency, thereby ensuring the long term recognition of their combined value to the directorate, to NASA, and to the Nation.

(c) Establishment of Suborbital Research Program

The Administrator shall establish a Suborbital Research Program within the Science Mission Directorate that shall include the use of sounding rockets, aircraft, high altitude balloons, suborbital reusable launch vehicles, and commercial launch vehicles to advance science and train the next generation of scientists and engineers in systems engineering and systems integration which are vital to maintaining critical skills in the aerospace workforce. The program shall integrate existing suborbital research programs with orbital missions at the discretion of the designated officer or employee and shall emphasize the participation of undergraduate and graduate students and post-doctoral researchers when formulating announcements of opportunity.

(d) Report

The Administrator shall report to the appropriate committees of Congress on the number and type of suborbital missions conducted in each fiscal year and the number of undergraduate and graduate students participating in the missions. The report shall be made annually for each fiscal year under this section.

(e) Authorization

There are authorized to be appropriated to the Administrator such sums as may be necessary to carry out this section.

(Pub. L. 111–267, title VIII, §802, Oct. 11, 2010, 124 Stat. 2832.)

§18383. In-space servicing

The Administrator shall continue to take all necessary steps to ensure that provisions are made for in-space or human servicing and repair of all future observatory-class scientific spacecraft intended to be deployed in Earth-orbit or at a Lagrangian point to the extent practicable and appropriate. The

Administrator should ensure that agency investments and future capabilities for space technology, robotics, and human space flight take the ability to service and repair these spacecraft into account, where appropriate, and incorporate such capabilities into design and operational plans.

(Pub. L. 111–267, title VIII, §804, Oct. 11, 2010, 124 Stat. 2833.)

§18384. Decadal results

NASA shall take into account the current decadal surveys from the National Academies' Space Studies Board when submitting the President's budget request to the Congress.

(Pub. L. 111–267, title VIII, §805, Oct. 11, 2010, 124 Stat. 2833.)

§18385. On-going restoration of radioisotope thermoelectric generator material production

(a) Findings

The Congress finds the following:

- (1) The United States has led the world in the scientific exploration of space for nearly 50 years.
- (2) Missions such as Viking, Voyager, Cassini, and New Horizons have greatly expanded knowledge of our solar system and planetary characteristics and evolution.
- (3) Radioisotope power systems are the only available power sources for deep space missions making it possible to travel to such distant destinations as Mars, Jupiter, Saturn, Pluto, and beyond and maintain operational control and systems viability for extended mission durations.
- (4) Current radioisotope power systems supplies and production will not fully support NASA missions planned even in the next decade and, without a new domestic production capability, the United States will no longer have the means to explore the majority of the solar system by the end of this decade.
- (5) Continuing to rely on Russia or other foreign sources for radioisotope power system fuel production is not a secure option.
- (6) Reestablishing domestic production will require a long lead-time. Thus, meeting future space exploration mission needs requires that a restart project begin at the earliest opportunity.

(b) In general

The Administrator shall, in coordination with the Secretary of Energy, pursue a joint approach beginning in fiscal year 2011 towards restarting and sustaining the domestic production of radioisotope thermoelectric generator material for deep space and other science and exploration missions. Funds authorized by this chapter for NASA shall be made available under a reimbursable agreement with the Department of Energy for the purpose of reestablishing facilities to produce fuel required for radioisotope thermoelectric generators to enable future missions.

(c) Report

Within 120 days after October 11, 2010, the Administrator and the Secretary of Energy shall submit a joint report to the appropriate committees of Congress on coordinated agreements, planned implementation, and anticipated schedule, production quantities, and mission applications under this section.

(Pub. L. 111–267, title VIII, §806, Oct. 11, 2010, 124 Stat. 2833.)

§18386. Collaboration with ESMD and SOMD on robotic missions

The Administrator shall ensure that the Exploration Systems Mission Directorate and the Space Operations Mission Directorate coordinate with the Science Mission Directorate on an overall approach and plan for interagency and international collaboration on robotic missions that are NASA

or internationally developed, including lunar, Lagrangian, near-Earth orbit, and Mars spacecraft, such as the International Lunar Network. Within 90 days after October 11, 2010, the Administrator shall provide a plan to the appropriate committees of Congress for implementation of the collaborative approach required by this section. The Administrator may not cancel or initiate any Exploration Systems Mission Directorate or Science Mission Directorate robotic project before the plan is submitted to the appropriate committees of Congress.

(Pub. L. 111–267, title VIII, §807, Oct. 11, 2010, 124 Stat. 2834.)

§18387. Near-Earth object survey and policy with respect to threats posed

(a) Policy reaffirmation

Congress reaffirms the policy set forth in section 20102(g) of title 51 relating to surveying near-Earth asteroids and comets.

(b) Implementation

The Director of the OSTP shall implement, before September 30, 2012, a policy for notifying Federal agencies and relevant emergency response institutions of an impending near-Earth object threat if near-term public safety is at risk, and assign a Federal agency or agencies to be responsible for protecting the United States and working with the international community on such threats.

(Pub. L. 111–267, title VIII, §808, Oct. 11, 2010, 124 Stat. 2834.)

EDITORIAL NOTES

CODIFICATION

In subsec. (a), "section 20102(g) of title 51" substituted for "section 102(g) of the National Aeronautics and Space Act of 1958 (42 U.S.C. 2451(g))" on authority of Pub. L. 111–314, §5(e), Dec. 18, 2010, 124 Stat. 3443, which Act enacted Title 51, National and Commercial Space Programs.

§18388. Repealed. Pub. L. 116–181, §2(c)(2), Oct. 21, 2020, 134 Stat. 892

Section, Pub. L. 111–267, title VIII, §809, Oct. 11, 2010, 124 Stat. 2834, related to space weather. See chapter 606 of Title 51, National and Commercial Space Programs.

SUBCHAPTER VIII—AERONAUTICS AND SPACE TECHNOLOGY

§18401. Aeronautics research goals

The Administrator should ensure that NASA maintains a strong aeronautics research portfolio ranging from fundamental research through systems research with specific research goals, including the following:

(1) Airspace capacity

NASA's Aeronautics Research Mission Directorate shall address research needs of the Next Generation Air Transportation System, including the ability of the National Airspace System to handle up to 3 times the current travel demand by 2025.

(2) Environmental sustainability

The Directorate shall consider and pursue concepts to reduce noise, emissions, and fuel consumption while maintaining high safety standards and shall pursue research related to alternative fuels.

(3) Aviation safety

The Directorate shall proactively address safety challenges with new and current air vehicles and with operations in the Nation's current and future air transportation system.

(Pub. L. 111–267, title IX, §902, Oct. 11, 2010, 124 Stat. 2835.)

§18402. Research collaboration

(a) Department of Defense

The Administrator shall continue to coordinate with the Secretary of Defense, through the National Partnership for Aeronautics Testing, to develop and implement joint plans for those elements of the Nation's research, development, testing, and engineering infrastructure that are of common interest and use.

(b) Federal Aviation Administration

The Administrator shall continue to coordinate with, and work closely with, the Administrator of the Federal Aviation Administration, under the framework of the Senior Policy Council, in development of the Next Generation Air Transportation Program. The Administrator shall encourage the Council to explore areas for greater collaboration, including areas where NASA can help to accelerate the development and demonstration of NextGen technologies.

(Pub. L. 111–267, title IX, §903, Oct. 11, 2010, 124 Stat. 2835.)

§18403. Goal for Agency space technology

It is critical that NASA maintain an Agency space technology base that helps align mission directorate investments and supports long term needs to complement mission-directorate funded research and support, where appropriate, multiple users, building upon its Innovative Partnerships Program and other partnering approaches.

(Pub. L. 111–267, title IX, §904, Oct. 11, 2010, 124 Stat. 2836.)

§18404. National space technology policy

(a) In general

The President or the President's designee, in consultation with appropriate Federal agencies, shall develop a national policy to guide the space technology development programs of the United States through 2020. The policy shall include national goals for technology development and shall describe the role and responsibilities of each Federal agency that will carry out the policy. In developing the policy, the President or the President's designee shall utilize external studies that have been conducted on the state of United States technology development and have suggested policies to ensure continued competitiveness.

(b) Content

(1) At a minimum, the national space technology development policy shall describe for NASA—

- (A) the priority areas of research for technology investment;
- (B) the basis on which and the process by which priorities for ensuing fiscal years will be selected;
- (C) the facilities and personnel needed to carry out the technology development program; and
- (D) the budget assumptions on which the policy is based, which for fiscal years 2011, 2012, and 2013 shall be the authorized level for NASA's technology program authorized by this chapter.

(2) The policy shall be based on the premise that the Federal Government has an established interest in conducting research and development programs that help preserve the role of the United States as a global leader in space technologies and their application.

(3) **CONSIDERATIONS.**—In developing the national space technology development policy, the President or the President's designee shall consider, and include a discussion in the report required by subsection (c), of the following issues:

(A) The extent to which NASA should focus on long term, high-risk research or more incremental technology development, and the expected impact of that decision on the United States economy.

(B) The extent to which NASA should address military and commercial needs.

(C) How NASA will coordinate its technology program with other Federal agencies.

(D) The extent to which NASA will conduct research in-house, fund university research, and collaborate on industry research and the expected impact of that mix of funding on the supply of United States workers for industry.

(4) **CONSULTATION.**—In the development of the national space technology development policy, the President or the President's designee shall consult widely with academic and industry experts and with other Federal agencies. The Administrator may enter into an arrangement with the National Academy of Sciences to help develop the policy.

(c) Report

(1) Policy

Not later than 1 year after October 11, 2010, the President shall transmit a report setting forth national space technology policy to the appropriate committees of Congress and to the Senate Committee on Appropriations and the House of Representatives Committee on Appropriations.

(2) Implementation

Not later than 60 days after the President transmits the report required by paragraph (1) to the Congress, the Administrator shall transmit a report to the same committees describing how NASA will carry out the policy.

(Pub. L. 111–267, title IX, §906, Oct. 11, 2010, 124 Stat. 2836.)

§18405. Commercial Reusable Suborbital Research Program

(a) In general

The report of the National Academy of Sciences, Revitalizing NASA's Suborbital Program: Advancing Science, Driving Innovation and Developing Workforce, found that suborbital science missions were absolutely critical to building an aerospace workforce capable of meeting the needs of current and future human and robotic space exploration.

(b) Management

The Administrator shall designate an officer or employee of the Space Technology Program to act as the responsible official for the Commercial Reusable Suborbital Research Program in the Space Technology Program. The designee shall be responsible for the development of short- and long term strategic plans for maintaining, renewing and extending suborbital facilities and capabilities.

(c) Establishment

The Administrator shall establish a Commercial Reusable Suborbital Research Program within the Space Technology Program that shall fund the development of payloads for scientific research, technology development, and education, and shall provide flight opportunities for those payloads to microgravity environments and suborbital altitudes. The Commercial Reusable Suborbital Research

Program may fund engineering and integration demonstrations, proofs of concept, or educational experiments for commercial reusable vehicle flights. The program shall endeavor to work with NASA's Mission Directorates to help achieve NASA's research, technology, and education goals.

(d) Report

The Administrator shall submit a report annually to the appropriate committees of Congress describing progress in carrying out the Commercial Reusable Suborbital Research program, including the number and type of suborbital missions planned in each fiscal year.

(e) Authorization

There are authorized to be appropriated to the Administrator \$15,000,000 for each of fiscal years 2011 through 2013 to carry out this section.

(Pub. L. 111–267, title IX, §907, Oct. 11, 2010, 124 Stat. 2837.)

SUBCHAPTER IX—EDUCATION

§18421. Study of potential commercial orbital platform program impact on science, technology, engineering, and mathematics

A fundamental and unique capability of NASA is in stimulating science, technology, engineering, and mathematics education in the United States. In ensuring maximum use of that capability, the Administrator shall carry out a study to—

- (1) identify the benefits of and lessons learned from ongoing and previous NASA orbital student programs including, at a minimum, the Get Away Special (GAS) and Earth Knowledge Acquired by Middle School Students (EarthKAM) programs, on science, technology, engineering, and mathematics education;
- (2) assess the potential impacts on science, technology, engineering, and mathematics education of a program that would facilitate the development of scientific and educational payloads involving United States students and educators and the flights of those payloads on commercially available orbital platforms, when available and operational, with the goal of providing frequent and regular payload launches;
- (3) identify NASA expertise, such as NASA science, engineering, payload development, and payload operations, that could be made available to facilitate a science, technology, engineering, and mathematics program using commercial orbital platforms; and
- (4) identify the issues that would need to be addressed before NASA could properly assess the merits and feasibility of the program described in paragraph (2).

(Pub. L. 111–267, title X, §1003, Oct. 11, 2010, 124 Stat. 2838; Pub. L. 111–358, title II, §205(a), Jan. 4, 2011, 124 Stat. 3995.)

EDITORIAL NOTES

AMENDMENTS

2011—Pub. L. 111–358 amended section generally. Prior to amendment, text read as follows: "A fundamental and unique capability of NASA is in stimulating science, technology, engineering, and mathematics education in the United States. In ensuring maximum use of that capability, NASA shall—

"(1) establish a program to annually sponsor scientific and educational payloads developed with United States student and educator involvement to be flown on commercially available orbital platforms, when available and operational, with the goal of launching at least 50 such payloads (with at least one from each of the 50 States) to orbit on at least one mission per year;

"(2) contract with providers of commercial orbital platform services for their use by the STEM-Commercial Orbital Platform program, preceded by the issuance of a request for proposal, not later

than 90 days after October 11, 2010, to enter into at least one funded, competitively-awarded contract for commercial orbital platform services and make awards within 180 days after such date; and

"(3) engage with United States students and educators and make available NASA's science, engineering, payload development, and payload operations expertise to student teams selected to participate in the STEM-Commercial Orbital Platform program."

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2011 AMENDMENT

Pub. L. 111–358, title II, §205(c), Jan. 4, 2011, 124 Stat. 3996, provided that: "The amendment made by subsection (a) [amending this section] shall take effect on October 12, 2010."

SUBCHAPTER X—RE-SCOPING AND REVITALIZING INSTITUTIONAL CAPABILITIES

§18431. Workforce stabilization and critical skills preservation

Prior to receipt by the Congress of the study, recommendations, and implementation strategy developed pursuant to section 1103,¹ none of the funds authorized for use under this Act may be used to transfer the functions, missions, or activities, and associated civil service and contractor positions, from any NASA facility without authorization by the Congress to implement the proposed strategy. The Administrator shall preserve the critical skills and competencies in place at NASA centers prior to October 11, 2010, in order to facilitate timely implementation of the requirements of this chapter and to minimize disruption to the workforce. The Administrator may not implement any reduction-in-force or other involuntary separations of permanent, non-Senior-Executive-Service, civil servant employees before September 30, 2013, except for cause on charges of misconduct, delinquency, or inefficiency.

(Pub. L. 111–267, title XI, §1105, Oct. 11, 2010, 124 Stat. 2840.)

SUBCHAPTER XI—OTHER MATTERS

§18441. National and international orbital debris mitigation

(a) Findings

Congress makes the following findings:

(1) A national and international effort is needed to develop a coordinated approach towards the prevention, negation, and removal of orbital debris.

(2) The guidelines issued by the Inter-Agency Space Debris Coordination Committee provide a consensus understanding of 10 national space agencies (including NASA) plus the European Space Agency on the necessity of mitigating the creation of space debris and measures for doing so. NASA's participation on the Committee should be robust, and NASA should urge other space-relevant Federal agencies (including the Departments of State, Defense, and Commerce) to work to ensure that their counterpart agencies in foreign governments are aware of these national commitments and the importance in which the United States holds them.

(3) Key components of such an approach should include—

(A) a process for debris prevention through agreements regarding spacecraft design, operations, and end-of-life disposition plans to minimize orbiting vehicles or elements which are nonfunctional;

(B) the development of a robust Space Situational Awareness network that can identify potential collisions and provide sufficient trajectory and orbital data to enable avoidance maneuvers;

(C) the interagency development of an overall strategy for review by the President, with recommendations for proposed international collaborative efforts to address this challenge.

(b) International discussion

(1) In general

The Administrator shall, in consultation with such other departments and agencies of the Federal Government as the Administrator considers appropriate, continue and strengthen discussions with the representatives of other space-faring countries, within the Inter-Agency Space Debris Coordination Committee and elsewhere, to deal with this orbital debris mitigation.

(2) Interagency effort

For purposes of carrying out this subsection, the Director of OSTP, in coordination with the Director of the National Security Council and using the President's Council of Advisors on Science and Technology coordinating mechanism, shall develop an overall strategy for review by the President, with recommendations for proposed international collaborative efforts to address this challenge.

(Pub. L. 111-267, title XII, §1202, Oct. 11, 2010, 124 Stat. 2841.)

§18442. Reports on program and cost assessment and control assessment

(a) Findings

Congress makes the following findings:

(1) The adherence of NASA to program cost and schedule targets and discipline across NASA programs remains a concern.

(2) The James Webb Space Telescope has exceeded its cost estimate.

(3) In 2007 the Government Accountability Office issued a report on NASA's high risk acquisition performance.

(4) In response, NASA prepared a corrective action plan two years ago.

(b) Reports

(1) Reports required

Not later than 90 days after October 11, 2010, and not later than April 30 of each year thereafter, the Administrator shall submit to the appropriate committees of Congress a report on the implementation during the preceding year for the corrective action plan referred to in subsection (a)(4).

(2) Elements

Each report under this subsection shall set forth, for the year covered by such report, the following:

(A) A description of each NASA program that has exceeded its cost baseline by 15 percent or more or is more than 2 years behind its projected development schedule.

(B) For each program specified under subparagraph (A), a plan for such decrease in scope or requirements, or other measures, to be undertaken to control cost and schedule, including any cost monitoring or corrective actions undertaken pursuant to the National Aeronautics and Space Administration Authorization Act of 2005 (Public Law 109–155),¹ and the amendments made by that Act.

(Pub. L. 111–267, title XII, §1203, Oct. 11, 2010, 124 Stat. 2841.)

EDITORIAL NOTES

REFERENCES IN TEXT

The National Aeronautics and Space Administration Authorization Act of 2005, referred to in subsec. (b)(2)(B), is Pub. L. 109–155, Dec. 30, 2005, 119 Stat. 2895, which was classified principally to chapter 150 (§16601 et seq.) of this title and was substantially repealed and restated in chapters 305 (§30501 et seq.), 401 (§40101 et seq.), 603 (§60301 et seq.) and 707 (§70701 et seq.) and sections 20301, 20302, 30103(a), (b), 30104, 30306, 30703, 30704, 30902, 31301, 31501, 40701, 40904 to 40909, 50505, 50116, 60505, 70501 to 70503, and 70902 to 70905 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444. For complete classification of this Act to the Code, see Short Title of 2005 Act note set out under section 10101 of Title 51 and Tables.

§18443. Eligibility for service of individual currently serving as Administrator of NASA

The individual serving in the position of Administrator of the National Aeronautics and Space Administration as of October 11, 2010, comes from civilian life and is therefore eligible to serve in such position, in conformance with section 20111 of title 51.

(Pub. L. 111–267, title XII, §1204, Oct. 11, 2010, 124 Stat. 2842.)

EDITORIAL NOTES

CODIFICATION

In text, "section 20111 of title 51" substituted for "section 202 of the National Aeronautics and Space Act of 1958 (42 U.S.C. 2472(a))" on authority of Pub. L. 111–314, §5(e), Dec. 18, 2010, 124 Stat. 3443, which Act enacted Title 51, National and Commercial Space Programs.

§18444. Counterfeit parts

(a) In general

The Administrator shall plan, develop, and implement a program, in coordination with other Federal agencies, to detect, track, catalog, and reduce the number of counterfeit electronic parts in the NASA supply chain.

(b) Requirements

In carrying out the program, the Administrator shall establish—

(1) counterfeit part identification training for all employees that procure, process, distribute, and install electronic parts that will—

- (A) teach employees how to identify counterfeit parts;
- (B) educate employees on procedures to follow if they suspect a part is counterfeit;
- (C) regularly update employees on new threats, identification techniques, and reporting requirements; and
- (D) integrate industry associations, manufacturers, suppliers, and other Federal agencies, as appropriate;

(2) an internal database to track all suspected and confirmed counterfeit electronic parts that will maintain, at a minimum—

- (A) companies and individuals known and suspected of selling counterfeit parts;
- (B) parts known and suspected of being counterfeit, including lot and date codes, part numbers, and part images;
- (C) countries of origin;
- (D) sources of reporting;
- (E) United States Customs seizures; and
- (F) Government-Industry Data Exchange Program reports and other public or private sector database notifications; and

(3) a mechanism to report all information on suspected and confirmed counterfeit electronic parts to law enforcement agencies, industry associations, and other databases, and to issue bulletins to industry on counterfeit electronic parts and related counterfeit activity.

(c) Review of procurement and acquisition policy

(1) In general

In establishing the program, the Administrator shall amend existing acquisition and procurement policy to purchase electronic parts from trusted or approved manufacturers. To determine trusted or approved manufacturers, the Administrator shall establish a list, assessed and adjusted at least annually, and create criteria for manufacturers to meet in order to be placed onto the list.

(2) Criteria

The criteria may include—

- (A) authentication or encryption codes;
- (B) embedded security markings in parts;
- (C) unique, harder to copy labels and markings;
- (D) identifying distinct lot and serial codes on external packaging;
- (E) radio frequency identification embedded into high-value parts;
- (F) physical destruction of all defective, damaged, and sub-standard parts that are by-products of the manufacturing process;
- (G) testing certifications;
- (H) maintenance of procedures for handling any counterfeit parts that slip through;
- (I) maintenance of secure facilities to prevent unauthorized access to proprietary information; and
- (J) maintenance of product return, buy back, and inventory control practices that limit counterfeiting.

(d) Report to Congress

Within one year after October 11, 2010, the Administrator shall report on the progress of implementing this section to the appropriate committees of Congress.

(Pub. L. 111–267, title XII, §1206, Oct. 11, 2010, 124 Stat. 2843.)

§18445. Information security

(a) Monitoring risk

(1) Update on system implementation

Not later than 120 days after October 11, 2010, and on a biennial basis thereafter, the chief information officer of NASA, in coordination with other national security agencies, shall provide to the appropriate committees of Congress—

(A) an update on efforts to implement a system to provide dynamic, comprehensive, real-time information regarding risk of unauthorized remote, proximity, and insider use or access, for all information infrastructure under the responsibility of the chief information officer, and mission-related networks, including contractor networks;

(B) an assessment of whether the system has demonstrably and quantifiably reduced network risk compared to alternative methods of measuring security; and

(C) an assessment of the progress that each center and facility has made toward implementing the system.

(2) Existing assessments

The assessments required of the Inspector General under section 3545 ¹ of title 44 shall evaluate the effectiveness of the system described in this subsection.

(b) Information security awareness and education

(1) In general

In consultation with the Department of Education, other national security agencies, and other agency directorates, the chief information officer shall institute an information security awareness and education program for all operators and users of NASA information infrastructure, with the goal of reducing unauthorized remote, proximity, and insider use or access.

(2) Program requirements

(A) The program shall include, at a minimum, ongoing classified and unclassified threat-based briefings, and automated exercises and examinations that simulate common attack techniques.

(B) All agency employees and contractors engaged in the operation or use of agency information infrastructure shall participate in the program.

(C) Access to NASA information infrastructure shall only be granted to operators and users who regularly satisfy the requirements of the program.

(D) The chief human capital officer of NASA, in consultation with the chief information officer, shall create a system to reward operators and users of agency information infrastructure for continuous high achievement in the program.

(c) Information infrastructure defined

In this section, the term "information infrastructure" means the underlying framework that information systems and assets rely on to process, transmit, receive, or store information electronically, including programmable electronic devices and communications networks and any associated hardware, software, or data.

(Pub. L. 111–267, title XII, §1207, Oct. 11, 2010, 124 Stat. 2844.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 3545 of title 44, referred to in subsec. (a)(2), was repealed by Pub. L. 113–283, §2(a), Dec. 18, 2014, 128 Stat. 3073. Provisions similar to section 3545 of title 44 are now contained in section 3555 of title 44, as enacted by Pub. L. 113–283.

CHAPTER 160—TREATMENT OF CERTAIN PAYMENTS IN EUGENICS COMPENSATION

Sec.

18501. Exclusion of payments from State eugenics compensation programs from consideration in determining eligibility for, or the amount of, Federal public benefits.

§18501. Exclusion of payments from State eugenics compensation programs from consideration in determining eligibility for, or the amount of, Federal public benefits

(a) In general

Notwithstanding any other provision of law, payments made under a State eugenics compensation program shall not be considered as income or resources in determining eligibility for, or the amount of, any Federal public benefit.

(b) Definitions

For purposes of this section:

(1) Federal public benefit

The term "Federal public benefit" means—

(A) any grant, contract, loan, professional license, or commercial license provided by an agency of the United States or by appropriated funds of the United States; and

(B) any retirement, welfare, health, disability, public or assisted housing, postsecondary education, food assistance, unemployment benefit, or any other similar benefit for which payments or assistance are provided to an individual, household, or family eligibility unit by an agency of the United States or by appropriated funds of the United States.

(2) State eugenics compensation program

The term "State eugenics compensation program" means a program established by State law that is intended to compensate individuals who were sterilized under the authority of the State.

(Pub. L. 114–241, §2, Oct. 7, 2016, 130 Stat. 976.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

SHORT TITLE

Pub. L. 114–241, §1, Oct. 7, 2016, 130 Stat. 976, provided that: "This Act [enacting this chapter] may be cited as the 'Treatment of Certain Payments in Eugenics Compensation Act'."

CHAPTER 161—DEPARTMENT OF ENERGY RESEARCH AND INNOVATION

Sec.

18601. Definitions.

SUBCHAPTER I—LABORATORY MODERNIZATION AND TECHNOLOGY TRANSFER

18611. Sense of Congress on accelerating energy innovation.

18612. Restoration of laboratory directed research and development program.

18613. Research grants database.

18614. Technology transfer and transitions assessment.

18615. Agreements for commercializing technology pilot program.

SUBCHAPTER II—DEPARTMENT OF ENERGY RESEARCH COORDINATION

18631. Crosscutting research and development.

18632. Energy Innovation Hubs.
SUBCHAPTER III—DEPARTMENT OF ENERGY OFFICE OF SCIENCE POLICY
18641. Basic energy sciences.
18642. Advanced scientific computing research.
18643. High-energy physics.
18644. Biological and environmental research.
18645. Fusion energy.
18646. Nuclear physics.
18647. Science laboratories infrastructure program.
18648. Accelerator research and development.
18649. Isotope research, development, and production.
18650. Increased collaboration with teachers and scientists.
18651. High intensity laser research initiative.
18652. Helium conservation program.
18653. Office of Science Biological Threat Preparedness Research Initiative.
18654. Midscale instrumentation and research equipment program.
18655. Authorization of appropriations.

§18601. Definitions

In this chapter:

(1) Department

The term "Department" means the Department of Energy.

(2) Director

The term "Director" means the Director of the Office of Science of the Department, except as otherwise indicated.

(3) National Laboratory

The term "National Laboratory" has the meaning given that term in section 15801 of this title.

(4) Secretary

The term "Secretary" means the Secretary of Energy.

(Pub. L. 115–246, §2, Sept. 28, 2018, 132 Stat. 3130.)

EDITORIAL NOTES

REFERENCES IN TEXT

This chapter, referred to in text, was in the original "this Act", meaning Pub. L. 115–246, Sept. 28, 2018, 132 Stat. 3130, known as the Department of Energy Research and Innovation Act, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out below and Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

SHORT TITLE

Pub. L. 115–246, §1(a), Sept. 28, 2018, 132 Stat. 3130, provided that: "This Act [see Short Title notes below and Tables for classification] may be cited as the 'Department of Energy Research and Innovation Act'."

Pub. L. 115–246, title I, §101, Sept. 28, 2018, 132 Stat. 3131, provided that: "This title [enacting subchapter I of this chapter and amending sections 16352 and 16391 of this title] may be cited as the 'Laboratory Modernization and Technology Transfer Act'."

Pub. L. 115–246, title II, §201, Sept. 28, 2018, 132 Stat. 3134, provided that: "This title [enacting subchapter II of this chapter and section 16358 of this title, amending sections 16357 and 16538 of this title, and repealing section 16358 of this title] may be cited as the 'Department of Energy Research Coordination

Act'."

Pub. L. 115–246, title III, §301, Sept. 28, 2018, 132 Stat. 3140, provided that: "This title [enacting subchapter III of this chapter and amending sections 2053, 7139, 16313, 16315, 16316, and 16321 of this title, sections 5541 and 5542 of Title 15, Commerce and Trade, and provisions set out as a note under section 5501 of Title 15] may be cited as the 'Department of Energy Office of Science Policy Act'."

SUBCHAPTER I—LABORATORY MODERNIZATION AND TECHNOLOGY TRANSFER

§18611. Sense of Congress on accelerating energy innovation

It is the sense of Congress that—

(1) although important progress has been made in cost reduction and deployment of clean energy technologies, accelerating clean energy innovation will help meet critical competitiveness, energy security, and environmental goals;

(2) accelerating the pace of clean energy innovation in the United States calls for—

(A) supporting existing research and development programs at the Department and the world-class National Laboratories;

(B) exploring and developing new pathways for innovators, investors, and decision-makers to leverage the resources of the Department for addressing the challenges and comparative strengths of geographic regions; and

(C) recognizing the financial constraints of the Department, regularly reviewing clean energy programs to ensure that taxpayer investments are maximized;

(3) the energy supply, demand, policies, markets, and resource options of the United States vary by geographic region;

(4) a regional approach to innovation can bridge the gaps between local talent, institutions, and industries to identify opportunities and convert United States investment into domestic companies; and

(5) Congress, the Secretary, and energy industry participants should advance efforts that promote international, domestic, and regional cooperation on the research and development of energy innovations that—

(A) provide clean, affordable, and reliable energy for everyone;

(B) promote economic growth;

(C) are critical for energy security; and

(D) are sustainable without government support.

(Pub. L. 115–246, title I, §103, Sept. 28, 2018, 132 Stat. 3131.)

§18612. Restoration of laboratory directed research and development program

(a) In general

Except as provided in subsection (b), the Secretary shall ensure that laboratory operating contractors do not allocate costs of general and administrative overhead to laboratory directed research and development.

(b) Exception for national security laboratories

This section shall not apply to the national security laboratories with respect to which section 3119 ¹ of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328) applies.

(Pub. L. 115–246, title I, §104, Sept. 28, 2018, 132 Stat. 3132.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 3119 of the National Defense Authorization Act for Fiscal Year 2017, referred to in subsec. (b), is section 3119 of Pub. L. 114–328, which was set out as a note under section 2791 of Title 50, War and National Defense, prior to repeal by Pub. L. 117–263, div. C, title XXXI, §3116(b), Dec. 23, 2022, 136 Stat. 3054.

¹ [See References in Text note below.](#)

§18613. Research grants database

(a) In general

The Secretary shall establish and maintain a public database, accessible on the website of the Department, that contains a searchable listing of each unclassified research and development project contract, grant, cooperative agreement, task order for a federally funded research and development center, or other transaction administered by the Department.

(b) Requirements

Each listing described in subsection (a) shall include, at a minimum, for each listed project, the Department office carrying out the project, the project name, an abstract or summary of the project, funding levels, project duration, contractor or grantee name (including the names of any subcontractors), and expected objectives and milestones.

(c) Relevant literature and patents

The Secretary shall provide information through the public database established under subsection (a) on relevant literature and patents that are associated with each research and development project contract, grant, or cooperative agreement, or other transaction, of the Department.

(Pub. L. 115–246, title I, §105, Sept. 28, 2018, 132 Stat. 3132.)

§18614. Technology transfer and transitions assessment

Not later than 1 year after September 28, 2018, and as often as the Secretary determines to be necessary thereafter, the Secretary shall transmit to the appropriate committees of Congress a report that includes recommended changes to the policy of the Department and legislative changes to section 16391 of this title to improve the ability of the Department to successfully transfer new energy technologies to the private sector.

(Pub. L. 115–246, title I, §106, Sept. 28, 2018, 132 Stat. 3132.)

§18615. Agreements for commercializing technology pilot program

(a) In general

The Secretary shall carry out the Agreements for Commercializing Technology pilot program of the Department, as announced by the Secretary on December 8, 2011, in accordance with this section.

(b) Terms

Each agreement entered into pursuant to the pilot program referred to in subsection (a) shall provide to the contractor of the applicable National Laboratory, to the maximum extent determined to be appropriate by the Secretary, increased authority to negotiate contract terms, such as

intellectual property rights, payment structures, performance guarantees, and multiparty collaborations.

(c) Eligibility

(1) In general

Any director of a National Laboratory may enter into an agreement pursuant to the pilot program referred to in subsection (a).

(2) Agreements with non-Federal entities

To carry out paragraph (1) and subject to paragraph (3), the Secretary shall permit the directors of the National Laboratories to execute agreements with a non-Federal entity, including a non-Federal entity already receiving Federal funding that will be used to support activities under agreements executed pursuant to paragraph (1), provided that such funding is solely used to carry out the purposes of the Federal award.

(3) Restriction

The requirements of chapter 18 of title 35 (commonly known as the "Bayh-Dole Act") shall apply if—

- (A) the agreement is a funding agreement (as that term is defined in section 201 of that title); and
- (B) at least one of the parties to the funding agreement is eligible to receive rights under that chapter.

(d) Submission to Secretary

Each affected director of a National Laboratory shall submit to the Secretary, with respect to each agreement entered into under this section—

- (1) a summary of information relating to the relevant project;
- (2) the total estimated costs of the project;
- (3) estimated commencement and completion dates of the project; and
- (4) other documentation determined to be appropriate by the Secretary.

(e) Certification

The Secretary shall require the contractor of the affected National Laboratory to certify that each activity carried out under a project for which an agreement is entered into under this section—

- (1) is not in direct competition with the private sector; and
- (2) does not present, or minimizes, any apparent conflict of interest, and avoids or neutralizes any actual conflict of interest, as a result of the agreement under this section.

(f) Extension

The pilot program referred to in subsection (a) shall be extended until September 30, 2019.

(g) Reports

(1) Overall assessment

Not later than 60 days after the date described in subsection (f), the Secretary, in coordination with directors of the National Laboratories, shall submit to the appropriate committees of Congress a report that—

- (A) assesses the overall effectiveness of the pilot program referred to in subsection (a);
- (B) identifies opportunities to improve the effectiveness of the pilot program;
- (C) assesses the potential for program activities to interfere with the responsibilities of the National Laboratories to the Department; and
- (D) provides a recommendation regarding the future of the pilot program.

(2) Transparency

The Secretary, in coordination with directors of the National Laboratories, shall submit to the appropriate committees of Congress an annual report that accounts for all incidences of, and provides a justification for, non-Federal entities using funds derived from a Federal contract or

award to carry out agreements pursuant to this section.

(Pub. L. 115–246, title I, §107, Sept. 28, 2018, 132 Stat. 3132.)

SUBCHAPTER II—DEPARTMENT OF ENERGY RESEARCH COORDINATION

§18631. Crosscutting research and development

(a) In general

The Secretary shall use the capabilities of the Department to identify strategic opportunities for collaborative research, development, demonstration, and commercial application of innovative science and technologies.

(b) Existing programs; coordination of activities

To the maximum extent practicable, the Secretary shall seek—

- (1) to leverage existing programs of the Department; and
- (2) to consolidate and coordinate activities throughout the Department to promote collaboration and crosscutting approaches within programs of the Department.

(c) Additional actions

The Secretary shall—

- (1) prioritize activities that use all affordable domestic resources;
- (2) develop a planning, evaluation, and technical assessment framework for setting objective long-term strategic goals and evaluating progress that—
 - (A) ensures integrity and independence; and
 - (B) provides the flexibility to adapt to market dynamics;
- (3) ensure that activities shall be undertaken in a manner that does not duplicate other activities within the Department or other Federal Government activities; and
- (4) identify programs that may be more effectively left to the States, industry, nongovernmental organizations, institutions of higher education, or other stakeholders.

(Pub. L. 115–246, title II, §203, Sept. 28, 2018, 132 Stat. 3135.)

§18632. Energy Innovation Hubs

(a) Definitions

In this section:

(1) Advanced energy technology

The term "advanced energy technology" means—

- (A) an innovative technology—
 - (i) that produces energy from solar, wind, geothermal, biomass, tidal, wave, ocean, or other renewable energy resources;
 - (ii) that produces nuclear energy;
 - (iii) for carbon capture and sequestration;
 - (iv) that enables advanced vehicles, vehicle components, and related technologies that result in significant energy savings;
 - (v) that generates, transmits, distributes, uses, or stores energy more efficiently than conventional technologies, including through Smart Grid technologies; or
 - (vi) that enhances the energy independence and security of the United States by enabling

improved or expanded supply and production of domestic energy resources, including coal, oil, and natural gas;

(B) a research, development, demonstration, or commercial application activity necessary to ensure the long-term, secure, and sustainable supply of an energy-critical element; or

(C) any other innovative energy technology area identified by the Secretary.

(2) Hub

(A) In general

The term "Hub" means an Energy Innovation Hub established under this section.

(B) Inclusion

The term "Hub" includes any Energy Innovation Hub in existence on September 28, 2018.

(3) Qualifying entity

The term "qualifying entity" means—

(A) an institution of higher education;

(B) an appropriate State or Federal entity, including a federally funded research and development center of the Department;

(C) a nongovernmental organization with expertise in advanced energy technology research, development, demonstration, or commercial application; or

(D) any other relevant entity the Secretary determines appropriate.

(b) Authorization of program

(1) In general

The Secretary shall carry out a program to enhance the economic, environmental, and energy security of the United States by making awards to consortia for establishing and operating hubs, to be known as "Energy Innovation Hubs", to conduct and support, at, if practicable, one centralized location, multidisciplinary, collaborative research, development, demonstration, and commercial application of advanced energy technologies.

(2) Technology development focus

The Secretary shall designate for each Hub a unique advanced energy technology or basic research focus.

(3) Coordination

The Secretary shall ensure the coordination of, and avoid unnecessary duplication of, the activities of each Hub with the activities of—

(A) other research entities of the Department, including the National Laboratories, the Advanced Research Projects Agency—Energy, and Energy Frontier Research Centers; and

(B) industry.

(c) Application process

(1) Eligibility

To be eligible to receive an award for the establishment and operation of a Hub under subsection (b)(1), a consortium shall—

(A) be composed of not fewer than two qualifying entities;

(B) operate subject to a binding agreement, entered into by each member of the consortium, that documents—

(i) the proposed partnership agreement, including the governance and management structure of the Hub;

(ii) measures the consortium will undertake to enable cost-effective implementation of activities under the program described in subsection (b)(1); and

(iii) a proposed budget, including financial contributions from non-Federal sources; and

(C) operate as a nonprofit organization.

(2) Application

(A) In general

A consortium seeking to establish and operate a Hub under subsection (b)(1) shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including a detailed description of each element of the consortium agreement required under paragraph (1)(B).

(B) Requirement

If the consortium members will not be located at one centralized location, the application under subparagraph (A) shall include a communications plan that ensures close coordination and integration of Hub activities.

(3) Selection

(A) In general

The Secretary shall select consortia for awards for the establishment and operation of Hubs through a competitive selection process.

(B) Considerations

In selecting consortia under subparagraph (A), the Secretary shall consider—

- (i) the information disclosed by the consortium under this subsection; and
- (ii) any existing facilities a consortium will provide for Hub activities.

(d) Term

(1) In general

An award made to a Hub under this section shall be for a period of not more than 5 years, subject to the availability of appropriations, after which the award may be renewed, subject to a rigorous merit review.

(2) Existing Hubs

A Hub already in existence on, or undergoing a renewal process on, September 28, 2018—

- (A) may continue to receive support during the 5-year period beginning on the date of establishment of that Hub; and
- (B) shall be eligible for renewal of that support at the end of that 5-year period.

(e) Hub operations

(1) In general

Each Hub shall conduct or provide for multidisciplinary, collaborative research, development, demonstration, and commercial application of advanced energy technologies within the technology development focus designated under subsection (b)(2).

(2) Activities

Each Hub shall—

- (A) encourage collaboration and communication among the member qualifying entities of the consortium and awardees;
- (B) develop and publish proposed plans and programs on a publicly accessible website;
- (C) submit an annual report to the Department summarizing the activities of the Hub, including—
 - (i) detailing organizational expenditures; and
 - (ii) describing each project undertaken by the Hub; and

(D) monitor project implementation and coordination.

(3) Conflicts of interest

Each Hub shall maintain conflict of interest procedures, consistent with the conflict of interest procedures of the Department.

(4) Prohibition on construction

(A) In general

Except as provided in subparagraph (B)—

(i) no funds provided under this section may be used for construction of new buildings or facilities for Hubs; and

(ii) construction of new buildings or facilities shall not be considered as part of the non-Federal share of a Hub cost-sharing agreement.

(B) Test bed and renovation exception

Nothing in this paragraph prohibits the use of funds provided under this section or non-Federal cost share funds for the construction of a test bed or renovations to existing buildings or facilities for the purposes of research if the Secretary determines that the test bed or renovations are limited to a scope and scale necessary for the research to be conducted.

(Pub. L. 115–246, title II, §206, Sept. 28, 2018, 132 Stat. 3137.)

SUBCHAPTER III—DEPARTMENT OF ENERGY OFFICE OF SCIENCE POLICY

§18641. Basic energy sciences

(a) Program

As part of the activities authorized under section 7139 of this title, the Director shall carry out a research and development program in basic energy sciences, including materials sciences and engineering, chemical sciences, physical biosciences, geosciences, and other disciplines, to understand, model, and control matter and energy at the electronic, atomic, and molecular levels in order to provide the foundations for new energy technologies, address scientific grand challenges, and support the energy, environment, and national security missions of the Department.

(b) Sustainable chemistry

In carrying out chemistry-related research and development activities under this section, the Director shall prioritize research and development of sustainable chemistry to support clean, safe, and economic alternatives and methodologies to traditional chemical products and processes.

(c) Energy Frontier Research Centers

(1) In general

The Director shall carry out a program to provide awards, on a competitive, merit-reviewed basis, to multi-institutional collaborations or other appropriate entities to conduct fundamental and use-inspired energy research to accelerate scientific breakthroughs.

(2) Collaborations

A collaboration receiving an award under this subsection may include multiple types of institutions and private sector entities.

(3) Selection and duration

(A) In general

A collaboration under this subsection shall be selected for a period of 4 years.

(B) Existing centers

An Energy Frontier Research Center in existence and supported by the Director on September 28, 2018, may continue to receive support for a period of 4 years beginning on the date of establishment of that center.

(C) Reapplication

After the end of the period described in subparagraph (A) or (B), as applicable, a recipient of an award may reapply for selection on a competitive, merit-reviewed basis.

(D) Termination

Consistent with the existing authorities of the Department, the Director may terminate an underperforming center for cause during the performance period.

(4) No funding for construction

No funding provided pursuant to this subsection may be used for the construction of new buildings or facilities.

(d) Basic energy sciences user facilities

(1) In general

The Director shall carry out a program for the development, construction, operation, and maintenance of national user facilities.

(2) Requirements

To the maximum extent practicable, the national user facilities developed, constructed, operated, or maintained under paragraph (1) shall serve the needs of the Department, industry, the academic community, and other relevant entities to create and examine materials and chemical processes for the purpose of improving the competitiveness of the United States.

(3) Included facilities

The national user facilities developed, constructed, operated, or maintained under paragraph (1) shall include—

- (A) x-ray light sources;
- (B) neutron sources;
- (C) nanoscale science research centers;
- (D) autonomous chemistry and materials synthesis and characterization facilities that leverage advances in artificial intelligence; and
- (E) such other facilities as the Director considers appropriate, consistent with section 7139 of this title.

(4) Advanced Photon Source upgrade

(A) Definitions

In this paragraph:

(i) Flux

The term "flux" means the rate of flow of photons.

(ii) Hard x-ray

The term "hard x-ray" means a photon with energy greater than 20 kiloelectron volts.

(B) Upgrade

The Secretary shall provide for the upgrade to the Advanced Photon Source described in the publication approved by the Basic Energy Sciences Advisory Committee on June 9, 2016, entitled "Report on Facility Upgrades", including the development of a multibend achromat lattice to produce a high flux of coherent x-rays within the hard x-ray energy region and a suite of beamlines optimized for this source.

(C) Start of operations

The Secretary shall, subject to the availability of appropriations, ensure that the start of full

operations of the upgrade under this paragraph occurs before March 31, 2026.

(D) Funding

Out of funds authorized to be appropriated under subsection (j), there is authorized to be appropriated to the Secretary to carry out the upgrade under this paragraph \$14,200,000 for fiscal year 2023.

(5) Spallation Neutron Source proton power upgrade

(A) In general

The Secretary shall provide for the proton power upgrade to the Spallation Neutron Source.

(B) Proton power upgrade defined

In this paragraph, the term "proton power upgrade" means the Spallation Neutron Source power upgrade described in—

- (i) the publication entitled "Facilities for the Future of Science: A Twenty-Year Outlook", published by the Office of Science of the Department in December, 2003;
- (ii) the publication entitled "Four Years Later: An Interim Report on Facilities for the Future of Science: A Twenty-Year Outlook", published by the Office of Science of the Department in August, 2007; and
- (iii) the publication approved by the Basic Energy Sciences Advisory Committee on June 9, 2016, entitled "Report on Facility Upgrades".

(C) Start of operations

The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the upgrade under this paragraph occurs before July 30, 2028, with the option for early operation in 2025.

(D) Funding

Out of funds authorized to be appropriated under subsection (j), there is authorized to be appropriated to the Secretary to carry out the upgrade under this paragraph—

- (i) \$17,000,000 for fiscal year 2023;
- (ii) \$14,202,000 for fiscal year 2024; and
- (iii) \$1,567,000 for fiscal year 2025.

(6) Spallation Neutron Source second target station

(A) In general

The Secretary shall provide for a second target station for the Spallation Neutron Source.

(B) Second target station defined

In this paragraph, the term "second target station" means the Spallation Neutron Source second target station described in—

- (i) the publication entitled, "Facilities for the Future of Science: A Twenty-Year Outlook", published by the Office of Science of the Department in December, 2003;
- (ii) the publication entitled, "Four Years Later: An Interim Report on Facilities for the Future of Science: A Twenty-Year Outlook", published by the Office of Science of the Department in August, 2007; and
- (iii) the publication approved by the Basic Energy Sciences Advisory Committee on June 9, 2016, entitled "Report on Facility Upgrades".

(C) Start of operations

The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the second target station under this paragraph occurs before December 31, 2033, with the option for early operation in 2029.

(D) Funding

Out of funds authorized to be appropriated under subsection (j), there are authorized to be

appropriated to the Secretary to carry out the activities under this paragraph, including construction—

- (i) \$127,000,000 for fiscal year 2023;
- (ii) \$205,000,000 for fiscal year 2024;
- (iii) \$279,000,000 for fiscal year 2025;
- (iv) \$300,000,000 for fiscal year 2026; and
- (v) \$281,000,000 for fiscal year 2027.

(7) Advanced Light Source upgrade

(A) Definitions

In this paragraph:

(i) Flux

The term "flux" means the rate of flow of photons.

(ii) Soft x-ray

The term "soft x-ray" means a photon with energy in the range from 50 to 2,000 electron volts.

(B) Upgrade

The Secretary shall provide for the upgrade to the Advanced Light Source described in the publication approved by the Basic Energy Sciences Advisory Committee on June 9, 2016, entitled "Report on Facility Upgrades", including the development of a multibend achromat lattice to produce a high flux of coherent x-rays within the soft x-ray energy region.

(C) Start of operations

The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the upgrade under this paragraph occurs before September 30, 2029.

(D) Funding

Out of funds authorized to be appropriated under subsection (j), there are authorized to be appropriated to the Secretary to carry out the upgrade under this paragraph—

- (i) \$135,000,000 for fiscal year 2023;
- (ii) \$102,500,000 for fiscal year 2024;
- (iii) \$50,000,000 for fiscal year 2025; and
- (iv) \$1,400,000 for fiscal year 2026.

(8) Linac Coherent Light Source II high energy upgrade

(A) Definitions

In this paragraph:

(i) High energy

The term "high energy", with respect to an x-ray, means a photon with an energy in the 5 to 13 kiloelectron volt range.

(ii) High repetition rate

The term "high repetition rate" means the delivery of x-ray pulses up to 1,000,000 pulses per second.

(iii) Ultra-short pulse

The term "ultra-short pulse", with respect to an x-ray, means that the x-ray has bursts capable of durations of less than 100 femtoseconds.

(B) Upgrade

The Secretary shall—

- (i) provide for the upgrade to the Linac Coherent Light Source II facility described in the publication approved by the Basic Energy Sciences Advisory Committee on June 9, 2016,

entitled "Report on Facility Upgrades", including the development of experimental capabilities for high energy x-rays to reveal fundamental scientific discoveries; and

(ii) ensure such upgrade enables the production and use of high energy, ultra-short pulse x-rays delivered at a high repetition rate.

(C) Start of operations

The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the upgrade under this paragraph occurs before December 31, 2026.

(D) Funding

Out of funds authorized to be appropriated under subsection (j), there are authorized to be appropriated to the Secretary to carry out the upgrade under this paragraph—

- (i) \$100,000,000 for fiscal year 2023;
- (ii) \$130,000,000 for fiscal year 2024;
- (iii) \$135,000,000 for fiscal year 2025; and
- (iv) \$99,343,000 for fiscal year 2026.

(9) Cryomodule repair and maintenance facility

(A) In general

The Secretary shall provide for the construction of a cryomodule repair and maintenance facility to service the Linac Coherent Light Source II and subsequent upgrades.

(B) Consultation required

The Secretary shall consult with the private sector, institutions of higher education, National Laboratories, and relevant Federal agencies to ensure that the facility described in subparagraph (A) has the capability to maintain, repair, and test superconducting radio frequency accelerator components.

(C) Funding

Out of funds authorized to be appropriated under subsection (j), there are authorized to be appropriated to the Secretary to carry out the activities under this paragraph—

- (i) \$29,300,000 for fiscal year 2023;
- (ii) \$24,000,000 for fiscal year 2024;
- (iii) \$20,000,000 for fiscal year 2025; and
- (iv) \$15,700,000 for fiscal year 2026.

(10) Nanoscale Science Research Center recapitalization project

(A) In general

The Secretary shall provide for the recapitalization of the Nanoscale Science Research Centers, to include the upgrade of equipment at each Center supported by the Office of Science on August 9, 2022, to accelerate advances in the various fields of science including nanoscience, materials, chemistry, biology, and quantum information science.

(B) Funding

Out of funds authorized to be appropriated under subsection (j), there are authorized to be appropriated to the Secretary to carry out the recapitalization under this paragraph—

- (i) \$25,000,000 for fiscal year 2023; and
- (ii) \$25,000,000 for fiscal year 2024.

(11) National Synchrotron Light Source II beamline buildout

(A) In general

The Secretary shall provide for the development and construction of experimental stations to provide significant additional beamline and instrument capacity, complement the existing portfolio of beamlines, and complete the buildout of the National Synchrotron Light Source II.

(B) Start of operations

Subject to the availability of appropriations, the Secretary—

- (i) shall begin carrying out subparagraph (A) not later than September 30, 2036; and
- (ii) may begin carrying out subparagraph (A)—
 - (I) in calendar year 2033; or
 - (II) after the construction of individual beamlines is complete.

(e) Accelerator research and development

The Director shall carry out research and development on advanced accelerator and storage ring technologies relevant to the development of basic energy sciences user facilities, in consultation with the High Energy Physics and Nuclear Physics programs of the Office of Science.

(f) Omitted

(g) Omitted

(h) Computational materials and chemical sciences

(1) In general

The Director shall support a program of research and development for the application of advanced computing practices to foundational and emerging research problems in chemistry and materials science. Research activities shall include—

- (A) chemical catalysis research and development;
- (B) the use of large data sets to model materials phenomena, including through advanced characterization of materials, materials synthesis, processing, and innovative use of experimental and theoretical data;
- (C) codesign of chemical system and chemistry modeling software with advanced computing systems and hardware technologies; and
- (D) modeling of chemical processes, assemblies, and reactions such as molecular dynamics and quantum chemistry, including through novel computing methods.

(2) Computational materials and chemical sciences centers

(A) In general

In carrying out the activities authorized under paragraph (1), the Director shall select and establish up to 6 computational materials and chemical sciences centers to—

- (i) develop open-source, robust, and validated computational codes and user-friendly software, coupled with innovative use of experimental and theoretical data, to enable the design, discovery, and development of new materials and chemical systems; and
- (ii) focus on overcoming challenges and maximizing the benefits of exascale and other high performance computing underpinned by accelerated node technologies.

(B) Selection

The Director shall select centers under subparagraph (A) on a competitive, merit-reviewed basis. The Director shall consider applications from the National Laboratories, institutions of higher education, multi-institutional collaborations, and other appropriate entities.

(C) Duration

(i) New centers

A center selected under subparagraph (A) shall receive support for a period of not more than 5 years beginning on the date of establishment of that center, subject to the availability of appropriations.

(ii) Existing centers

A center already in existence on August 9, 2022, may continue to receive support for a period of not more than 5 years beginning on the date of establishment of that center.

(D) Renewal

Upon the expiration of any period of support of a center under this subsection, the Director

may renew support for the center, on a merit-reviewed basis, for a period of not more than 5 years.

(i) Materials research database

(1) In general

The Director shall support the development of a web-based platform to develop and provide access to a database of computed information on known and predicted materials properties and computational tools to accelerate breakthroughs in materials discovery and design.

(2) Program

In carrying out this subsection, the Director shall—

(A) conduct cooperative research among National Laboratories, industry, academia, and other research institutions to advance understanding, prediction, and manipulation of materials and facilitate the design of novel materials;

(B) develop and maintain data infrastructure at user facilities that generate data to collect, analyze, label, and otherwise prepare the data for inclusion in the database;

(C) leverage existing high performance computing systems to conduct high throughput calculations, and develop computational and data mining algorithms for the prediction of material properties;

(D) strengthen the foundation for new technologies and advanced manufacturing; and

(E) drive the development of advanced materials for applications that span the Department's missions in energy, environment, and national security.

(3) Coordination

In carrying out this subsection, the Director shall leverage programs and activities across the Department, including computational materials and chemical sciences centers established under subsection (h).

(4) Funding

Out of funds authorized to be appropriated under subsection (j), there is authorized to be appropriated to the Secretary to carry out activities under this subsection \$10,000,000 for each of fiscal years 2023 through 2027.

(j) Authorization of appropriations

Out of funds authorized to be appropriated to the Office of Science in a fiscal year, there are authorized to be appropriated to the Secretary to carry out the activities described in this section—

(1) \$2,685,414,000 for fiscal year 2023;

(2) \$2,866,890,840 for fiscal year 2024;

(3) \$2,987,727,170 for fiscal year 2025;

(4) \$3,062,732,781 for fiscal year 2026; and

(5) \$3,080,067,167 for fiscal year 2027.

(Pub. L. 115–246, title III, §303, Sept. 28, 2018, 132 Stat. 3140; Pub. L. 117–167, div. B, title I, §10102(a), Aug. 9, 2022, 136 Stat. 1409.)

EDITORIAL NOTES

CODIFICATION

Section is comprised of section 303 of Pub. L. 115–246. Subsecs. (f) and (g) of section 303 of Pub. L. 115–246 generally amended sections 16313 and 16315 of this title, respectively, and amended the table of contents for the Energy Policy Act of 2005. Originally, only subsecs. (a) to (c) of section 303 of Pub. L. 115–246 were classified to this section, but the amendments made by Pub. L. 117–167 prompted the reclassification of all of section 303 to this section, with the omission of subsecs. (f) and (g). See 2022 Amendment notes below.

AMENDMENTS

2022—Subsecs. (a) to (d). Pub. L. 117–167, §10102(a)(1), (2), added subsecs. (a) and (b) and redesignated former subsecs. (a) and (b) as (c) and (d), respectively. Former subsec. (d) redesignated (f).

Subsec. (d)(3)(D), (E). Pub. L. 117–167, §10102(a)(3)(A), added subpar. (D) and redesignated former subpar. (D) as (E).

Subsec. (d)(4) to (11). Pub. L. 117–167, §10102(a)(3)(B), added pars. (4) to (11).

Subsecs. (e) to (g). Pub. L. 117–167, §10102(a)(1), redesignated subsec. (c) and omitted subsecs. (d) and (e) as (e) to (g), respectively.

Subsecs. (h) to (j). Pub. L. 117–167, §10102(a)(4), added subsecs. (h) to (j).

§18642. Advanced scientific computing research

(a) In general

As part of the activities authorized under section 7139 of this title, the Director shall carry out, in coordination with academia and relevant public and private sector entities, a research, development, and demonstration program—

(1) to steward applied mathematics, computational science, and computer science research relevant to the missions of the Department and the competitiveness of the United States;

(2) to develop modeling, simulation, and other computational tools relevant to other scientific disciplines and to the development of new energy technologies and other technologies;

(3) to advance computing and networking capabilities for data-driven discovery; and

(4) to develop advanced scientific computing hardware and software tools for science and engineering.

(b) Omitted

(c) High-performance computing and networking research

(1) Director

The Director shall support research in high-performance computing and networking relevant to energy applications, including modeling, simulation, and advanced data analytics for basic and applied energy research programs carried out by the Secretary.

(2) Coordination

The Under Secretary for Science shall ensure the coordination of the activities of the Department, including activities under this section, to determine and meet the computational and networking research and facility needs of the Office of Science and all other relevant energy technology and energy efficiency programs within the Department and with other Federal agencies as appropriate.

(d) Applied mathematics and software development for high-end computing systems and computer sciences research

(1) In general

The Director shall carry out activities to develop, test, and support—

(A) mathematics, statistics, and algorithms for modeling complex systems relevant to the missions of the Department, including on advanced computing architectures; and

(B) tools, languages, programming environments, and operations for high-end computing systems (as defined in section 5541 of title 15).

(2) Portfolio balance

(A) In general

The Director shall maintain a balanced portfolio within the advanced scientific computing research and development program established under section 976 of the Energy Policy Act of 2005 (42 U.S.C. 16316) ¹ that supports robust investment in—

(i) applied mathematical, computational, and computer sciences research needs relevant to the mission of the Department, including foundational areas that are critical to the

advancement of energy sciences and technologies and new and emerging computing technologies; and

(ii) associated high-performance computing hardware and facilities.

(B) Exascale ecosystem sustainment

(i) Sense of Congress

It is the sense of Congress that the Exascale Computing Project has successfully created a broad ecosystem that provides shared software packages, novel evaluation systems, and applications relevant to the science and engineering requirements of the Department, and that such products must be maintained and improved in order that the full potential of the deployed systems can be continuously realized.

(ii) Sustainment

The Secretary shall seek to sustain and evolve the ecosystem described in clause (i) to ensure that the exascale software stack and other research software will continue to be maintained, hardened, and otherwise optimized for long-term use on exascale systems and beyond and reliable availability to the user community.

(e) Advanced computing program

(1) In general

The Secretary shall establish a program to develop and implement a strategy for achieving computing systems with capabilities beyond exascale computing systems. In establishing this program, the Secretary shall—

(A) maintain foundational research programs in mathematical, computational, and computer sciences focused on new and emerging computing needs within the mission of the Department, including post-Moore's law computing architectures, novel approaches to modeling and simulation, artificial intelligence and scientific machine learning, quantum computing, edge computing, extreme heterogeneity, including potential quantum accelerators, and distributed high-performance computing;

(B) retain best practices and maintain support for essential hardware, applications, and software elements of the Exascale Computing Program that are necessary for sustaining the vitality of a long-term capable software ecosystem for exascale and beyond; and

(C) develop a Department-wide strategy for balancing on-premises and cloud-based computing and scientific data management.

(2) Report

Not later than 1 year after August 9, 2022, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the development and implementation of the strategy described in paragraph (1).

(f) Guidance on mitigation of bias in high-performance computing capabilities

In leveraging high-performance computing systems for research purposes, including through the use of machine learning algorithms for data analysis and artificial intelligence, the Secretary shall issue, and ensure adherence to, guidance for the Department, the National Laboratories, and users as to how those capabilities should be employed in a manner that mitigates and, to the maximum extent practicable, avoids harmful algorithmic bias.

(g) Architectural research in heterogeneous computing systems

(1) In general

The Secretary shall carry out a program of research and development in heterogeneous and reconfigurable computing systems to expand understanding of the potential for heterogeneous and reconfigurable computing systems to deliver high performance, high efficiency computing for Department mission challenges. The program shall include research and development that

explores the convergence of big data analytics, simulations, and artificial intelligence to drive the design of heterogeneous computing system architectures.

(2) Coordination

In carrying out the program described in paragraph (1), the Secretary shall ensure coordination between research activities undertaken by the Advanced Scientific Computing Research program and materials research supported by the Basic Energy Sciences program within the Office of Science.

(h) Energy efficient computing program

(1) In general

The Secretary shall support a program of fundamental research, development, and demonstration of energy efficient computing and data center technologies relevant to advanced computing applications, including high-performance computing, artificial intelligence, and scientific machine learning.

(2) Execution

(A) Program

In carrying out the program under paragraph (1), the Secretary shall—

(i) establish a partnership for National Laboratories, industry partners, and institutions of higher education for codesign of energy efficient hardware, technology, software, and applications across all applicable program offices of the Department, and provide access to energy efficient computing resources to such partners;

(ii) develop hardware and software technologies that decrease the energy needs of advanced computing practices, including through data center codesign;

(iii) consider multiple heterogeneous computing architectures in collaboration with the program established under subsection (g), including neuromorphic computing, persistent computing, and ultrafast networking; and

(iv) provide, as appropriate, on a competitive, merit-reviewed basis, access for researchers from institutions of higher education, National Laboratories, industry, and other Federal agencies to the energy efficient computing technologies developed pursuant to clause (i).

(B) Selection of partners

In selecting participants for the partnership established under subparagraph (A)(i), the Secretary shall select participants through a competitive, merit review process.

(C) Report

Not later than 1 year after August 9, 2022, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on—

(i) the activities conducted under subparagraph (A); and

(ii) the coordination and management of the program under subparagraph (A) to ensure an integrated research program across the Department.

(i) Energy Sciences Network

(1) In general

The Secretary shall provide for upgrades to the Energy Sciences Network user facility in order to meet the research needs of the Department for highly reliable data transport capabilities optimized for the requirements of large-scale science.

(2) Capabilities

In carrying out paragraph (1), the Secretary shall ensure the following capabilities:

(A) To provide high bandwidth scientific networking across the continental United States and the Atlantic Ocean.

(B) To ensure network reliability.

- (C) To protect the network infrastructure from cyberattacks.
- (D) To manage transport of exponentially increasing levels of data from the Department's National Laboratories and sites, user facilities, experiments, and sensors.
- (E) To contribute to the integration of heterogeneous computing frameworks and systems.

(j) Computational Science Graduate Fellowship

(1) In general

The Secretary shall support the Computational Science Graduate Fellowship program in order to facilitate collaboration between graduate students and researchers at the National Laboratories, and contribute to the development of a diverse and inclusive computational workforce to help advance research in all areas of computational science relevant to the mission of the Department, including quantum computing.

(2) Funding

Of the funds authorized to be appropriated for the Advanced Scientific Computing Research Program, there are authorized to be appropriated to the Secretary for carrying out activities under this subsection—

- (A) \$15,750,000 for fiscal year 2023;
- (B) \$16,537,500 for fiscal year 2024;
- (C) \$17,364,375 for fiscal year 2025;
- (D) \$18,232,594 for fiscal year 2026; and
- (E) \$19,144,223 for fiscal year 2027.

(k) Authorization of appropriations

Out of funds authorized to be appropriated for the Office of Science in a fiscal year, there are authorized to be appropriated to the Secretary to carry out the activities described in this section—

- (1) \$1,126,950,000 for fiscal year 2023;
- (2) \$1,194,109,500 for fiscal year 2024;
- (3) \$1,265,275,695 for fiscal year 2025;
- (4) \$1,340,687,843 for fiscal year 2026; and
- (5) \$1,420,599,500 for fiscal year 2027.

(Pub. L. 115–246, title III, §304, Sept. 28, 2018, 132 Stat. 3145; Pub. L. 117–167, div. B, title I, §10104(a), Aug. 9, 2022, 136 Stat. 1433.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 976 of the Energy Policy Act of 2005, referred to in subsec. (d)(2)(A), enacted section 16316 of this title and amended section 5523 of Title 15, Commerce and Trade.

CODIFICATION

Section is comprised of section 304 of Pub. L. 115–246. Subsec. (b) of section 304 of Pub. L. 115–246 amended sections 16316 of this title, sections 5541 and 5542 of Title 15, Commerce and Trade, and provisions set out as a note under section 5501 of Title 15.

AMENDMENTS

2022—Subsecs. (a), (b). Pub. L. 117–167, §10104(a)(1), (2), added subsec. (a) and redesignated former subsec. (a) as (b). Former subsec. (b) redesignated (c).

Subsec. (c). Pub. L. 117–167, §10104(a)(1), (3), redesignated subsec. (b) as (c), designated existing provisions par. (1) and inserted heading, and added par. (2). Former subsec. (c) redesignated (d).

Subsec. (d). Pub. L. 117–167, §10104(a)(1), (4), redesignated subsec. (c) as (d) and amended it generally. Prior to amendment, text read as follows: "The Director shall carry out activities to develop, test, and support—

- "(1) mathematics, models, and algorithms for complex systems and programming environments; and
- "(2) tools, languages, and operating systems for high-end computing systems (as defined in section

5541 of title 15)."

Subsecs. (e) to (k). Pub. L. 117–167, §10104(a)(5), added subsecs. (e) to (k).

§18643. High-energy physics

(a) Sense of Congress

It is the sense of Congress that—

(1) the Director should incorporate the findings and recommendations of the report of the Particle Physics Project Prioritization Panel entitled "Building for Discovery: Strategic Plan for U.S. Particle Physics in the Global Context" into the planning process of the Department; and

(2) the nations that lead in particle physics by hosting international teams dedicated to a common scientific goal attract the world's best talent and inspire future generations of physicists and technologists.

(b) Program

As part of the activities authorized under section 7139 of this title, the Director shall carry out a research program in elementary particle physics and advanced technology research and development to improve the understanding of the fundamental properties of the universe, including constituents of matter and energy and the nature of space and time.

(c) High energy frontier research

As part of the program described in subsection (b), the Director shall carry out research using high energy accelerators and advanced detectors, including accelerators and detectors that will function as national user facilities, to create and study interactions of elementary particles and investigate fundamental forces.

(d) International collaboration

The Director shall—

(1) as practicable and in coordination with other appropriate Federal agencies as necessary, ensure the access of United States researchers to the most advanced accelerator facilities and research capabilities in the world, including the Large Hadron Collider;

(2) to the maximum extent practicable, continue to leverage United States participation in the Large Hadron Collider, and prioritize expanding international partnerships and investments in the Long-Baseline Neutrino Facility and Deep Underground Neutrino Experiment; and

(3) to the maximum extent practicable, prioritize engagement in collaborative efforts in support of future international facilities that would provide access to the most advanced accelerator facilities in the world to United States researchers.

(e) Neutrino research

The Director shall carry out research activities on rare decay processes and the nature of the neutrino, which may include collaborations with the National Science Foundation or international collaborations.

(f) Cosmic frontier research

The Director shall carry out research activities on the nature of the primary contents of the universe, including the nature of dark energy and dark matter. These activities shall, to the maximum extent practicable, be consistent with the research priorities identified by the High Energy Physics Advisory Panel or the National Academy of Sciences, and may include—

(1) collaborations with the National Aeronautics and Space Administration, the National Science Foundation, or international partners on relevant projects; and

(2) the development of space-based, land-based, water-based, and underground facilities and experiments.

(g) Facility construction and major items of equipment

(1) Projects

Consistent with the Office of Science's project management practices, the Director shall, to the maximum extent practicable, by incorporating the findings and recommendations of the 2014 Particle Physics Project Prioritization Panel (P5) report entitled "Building for Discovery", support construction or fabrication of—

- (A) an international Long-Baseline Neutrino Facility based in the United States;
- (B) the Proton Improvement Plan II;
- (C) Second Generation Dark Matter experiments;
- (D) the Legacy Survey of Space and Time camera;
- (E) upgrades to detectors and other components of the Large Hadron Collider; and
- (F) the Cosmic Microwave Background Stage 4 project; and
- (G) other high priority projects recommended in the most recent report of the Particle Physics Project Prioritization Panel of the High Energy Physics Advisory Panel.

(2) Long-Baseline Neutrino Facility

(A) In general

The Secretary shall support construction of a Long-Baseline Neutrino Facility to facilitate the international Deep Underground Neutrino Experiment to examine the fundamental properties of neutrinos, explore physics beyond the Standard Model, and better clarify the existence and nature of antimatter.

(B) Facility capabilities

The Secretary shall ensure that the facility described in subparagraph (A) will provide, at a minimum, the following capabilities:

- (i) A neutrino beam with wideband capability of 1.2 megawatts of beam power and upgradable to 2.4 megawatts of beam power.
- (ii) 3 caverns excavated for a 70 kiloton fiducial detector mass and supporting surface buildings and utilities.
- (iii) Cryogenic systems to support neutrino detectors.

(C) Start of operations

The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the facility described in subparagraph (A) occurs before December 31, 2031.

(D) Funding

Out of funds authorized to be appropriated under subsection (k), there are authorized to be appropriated to the Secretary to carry out construction of the project described in subparagraph (A)—

- (i) \$180,000,000 for fiscal year 2023;
- (ii) \$255,000,000 for fiscal year 2024;
- (iii) \$305,000,000 for fiscal year 2025;
- (iv) \$305,000,000 for fiscal year 2026; and
- (v) \$305,000,000 for fiscal year 2027.

(3) Proton Improvement Plan–II accelerator upgrade project

(A) In general

The Secretary shall support construction of the Proton Improvement Plan II, an upgrade to the Fermilab accelerator complex identified in the 2014 Particle Physics Project Prioritization Panel (P5) report entitled "Building for Discovery", to provide the world's most intense beam of neutrinos to the international Long Baseline Neutrino Facility and to carry out a broad range of future high energy physics experiments. The Secretary shall work with international partners to enable further significant contributions to the capabilities of that project.

(B) Facility capabilities

The Secretary shall ensure that the facility described in subparagraph (A) will provide, at a minimum, the following capabilities:

- (i) A state-of-the-art 800 megaelectron volt superconducting linear accelerator.
- (ii) Proton beam power of 1.2 megawatts at the start of LBNF/DUNE, upgradeable to 2.4 megawatts of beam power.
- (iii) A flexible design to enable high power beam delivery to multiple users simultaneously and customized beams tailored to specific scientific needs.
- (iv) Sustained high reliability operation of the Fermilab accelerator complex.

(C) Start of operations

The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the facility described in subparagraph (A) occurs before December 31, 2028.

(D) Funding

Out of funds authorized to be appropriated under subsection (k), there are authorized to be appropriated to the Secretary to carry out construction of the facility described in subparagraph (A)—

- (i) \$130,000,000 for fiscal year 2023;
- (ii) \$120,000,000 for fiscal year 2024;
- (iii) \$120,000,000 for fiscal year 2025;
- (iv) \$115,000,000 for fiscal year 2026; and
- (v) \$110,000,000 for fiscal year 2027.

(4) Cosmic Microwave Background Stage 4

(A) In general

The Secretary, in partnership with the Director of the National Science Foundation, shall support construction of the Cosmic Microwave Background Stage 4 project to survey the cosmic microwave background to test theories of cosmic inflation as described in the 2014 Particle Physics Prioritization Panel (P5) report entitled "Building for Discovery: Strategic Plan for U.S. Particle Physics in the Global Context."¹

(B) Consultation

The Secretary shall consult with the private sector, institutions of higher education, National Laboratories, and relevant Federal agencies to ensure that the project described in subparagraph (A) is capable of meeting Federal research needs in accessing the ultra-high energy physics of inflation and important neutrino properties.

(C) Experimental capabilities

The Secretary shall ensure to the maximum extent practicable that the facility described in subparagraph (A) will provide, at a minimum, 500,000 superconducting detectors deployed on an array of millimeter-wave telescopes with the required range in frequency, sensitivity, and survey speed that will provide sufficient capability to enable an order of magnitude advance in observations of the Cosmic Microwave Background, delivering transformative discoveries in fundamental physics, cosmology, and astrophysics.

(D) Start of operations

The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the facility described in subparagraph (A) occurs before December 31, 2030.

(E) Funding

Out of funds authorized to be appropriated under subsection (k), there are authorized to be appropriated to the Secretary to carry out construction of the facility described in subparagraph (A)—

- (i) \$10,000,000 for fiscal year 2023;

- (ii) \$25,000,000 for fiscal year 2024;
- (iii) \$60,000,000 for fiscal year 2025;
- (iv) \$80,000,000 for fiscal year 2026; and
- (v) \$80,000,000 for fiscal year 2027.

(h) Accelerator and detector upgrades

The Director shall upgrade accelerator facilities and detectors, as necessary and appropriate, to increase beam power, sustain high reliability, and improve precision measurement to advance the highest priority particle physics research programs. In carrying out facility upgrades, the Director shall continue to work with international partners, when appropriate and in the United States' interest, to leverage investments and expertise in critical technologies to help build and upgrade accelerator and detector facilities in the United States.

(i) Accelerator and detector research and development

As part of the program described in subsection (b), the Director shall carry out research and development in particle beam physics, accelerator science and technology, and particle and radiation detection with relevance to the specific needs of the High Energy Physics program, in coordination with the Accelerator Research and Development program authorized under section 18648 of this title.

(j) Underground science

The Director shall—

(1) support an underground science program consistent with the missions of the Department and the scientific needs of the High Energy Physics program, including those articulated in the most recent report of the Particle Physics Project Prioritization Panel of the High Energy Physics Advisory Panel, that leverages the capabilities of relevant underground science and engineering facilities;

(2) carry out a competitive grant program to award scientists and engineers at institutions of higher education, nonprofit institutions, and National Laboratories to conduct research in underground science and engineering; and

(3) submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report on the inventory of underground mines in the United States that may be suitable for future development of underground science and engineering facilities and any anticipated challenges associated with repurposing, repair, facility siting, or construction.

(k) Authorization of appropriations

Out of funds authorized to be appropriated for the Office of Science in a fiscal year, there are authorized to be appropriated to the Secretary to carry out the activities described in this section—

- (1) \$1,159,520,000 for fiscal year 2023;
- (2) \$1,289,891,200 for fiscal year 2024;
- (3) \$1,428,284,672 for fiscal year 2025;
- (4) \$1,499,881,752 for fiscal year 2026; and
- (5) \$1,554,874,657 for fiscal year 2027.

(Pub. L. 115–246, title III, §305, Sept. 28, 2018, 132 Stat. 3147; Pub. L. 117–167, div. B, title I, §10106, Aug. 9, 2022, 136 Stat. 1445.)

EDITORIAL NOTES

AMENDMENTS

2022—Subsecs. (b), (c). Pub. L. 117–167, §10106(a)(2), added subsecs. (b) and (c). Former subsecs. (b) and (c) redesignated (d) and (e), respectively.

Subsec. (d). Pub. L. 117–167, §10106(a)(1), (b), redesignated subsec. (b) as (d), struck it out, and added a new subsec. (d). Prior to amendment, text read as follows: "The Director, as practicable and in coordination with other appropriate Federal agencies as necessary, shall ensure the access of United States researchers to

the most advanced accelerator facilities and research capabilities in the world, including the Large Hadron Collider." Former subsec. (d) redesignated (f).

Subsec. (e). Pub. L. 117–167, §10106(a)(1), redesignated subsec. (c) as (e).

Subsec. (f). Pub. L. 117–167, §10106(a)(1), (c), redesignated subsec. (d) as (f), struck it out, and added a new subsec. (f). Prior to amendment, text read as follows: "The Director shall carry out research activities on the nature of dark energy and dark matter, which may include collaborations with the National Aeronautics and Space Administration or the National Science Foundation; or international collaborations."

Subsecs. (g) to (k). Pub. L. 117–167, §10106(d), added subsecs. (g) to (k).

¹ So in original.

§18644. Biological and environmental research

(a) Program

As part of the duties of the Director authorized under section 7139 of this title, and coordinated with the activities authorized under sections 18641 and 18642 of this title, the Director shall carry out a program of research and development in the areas of biological systems science and climate and environmental science, including subsurface science, relevant to the development of new energy technologies and to support the energy, environmental, and national security missions of the Department.

(b) Biological systems

The Director shall carry out research and development activities in genomic science including fundamental research on plants and microbes to increase systems-level understanding of the complex biological systems, which may include activities—

(1) to provide a fundamental understanding of the biology of plants, fungi, and microbes as a basis for developing innovative processes for bioenergy and bioproducts and accelerate breakthroughs and new knowledge that would enable the cost-effective, sustainable production of—

- (A) advanced biofuels;
- (B) bioenergy; and
- (C) biobased materials;

(2) to conduct foundational functional systems biology research—

- (A) to support expanded biosystems design research; and
- (B) to understand—
 - (i) fundamental genome structure; and
 - (ii) phenomes, including functional genomics of gene products at genome scale;

(3) to develop biosystems designs and synthetic biology approaches for new nonfood plant-derived and microbially derived bioproducts as a basis for new bioeconomy and biotechnology applications in bioproducts production, resource recovery, recycling, and upcycling ventures;

(4) to better understand the behavior of microbiomes in the environment and the interdependencies between plants and microbes in a sustainable ecosystem;

(5) to improve fundamental understanding of plant and microbial processes impacting the global carbon cycle, including processes for removing carbon dioxide from the atmosphere, through photosynthesis and other biological processes, for sequestration, storage, and utilization;

(6) to understand the microbiome mechanisms and microbiota used to transform, immobilize, or remove contaminants from subsurface environments and that affect the cycling and disposition of carbon, nutrients, and contaminants in the environment;

(7) to develop the computational approaches and integrated platforms for open access collaborative science;

(8) to leverage tools and approaches across the Office of Science to expand research to include novel processes, methods, and science to develop bio-based chemicals, polymers, inorganic materials, including research—

(A) to advance fungal, microbial, and plant biosystems design research to advance the understanding of how CRISPR tools and other gene editing tools and technologies work in nature, in the laboratory, and in practice;

(B) to deepen genome-enabled knowledge of the roles of microbes and microbial communities, including fungi, in—

(i) supporting plant and tree growth, productivity, performance, adaptation, and resilience in changing environmental conditions; and

(ii) optimizing end uses of biomass;

(C) to develop biosystems design methods and tools to increase the efficiency of photosynthesis in plants; and

(D) to increase the scale and pace of characterizing the functions and physical characteristics of microbes and microbial communities to improve biosystems design;

(9) to conduct research focused on developing analysis techniques and simulation capabilities, including artificial intelligence and machine learning, on high-performance computing platforms to accelerate collaborative and reproducible systems biology research;

(10) to develop and improve new technologies for bioimaging, measurement, and characterization purposes to understand the structural, spatial, and temporal relationships of metabolic processes governing phenotypic expression in plants and microbes;

(11) to conduct research focused on genotype-to-phenotype translations to develop a predictive understanding of cellular function under a variety of relevant environmental and bioenergy-related conditions;

(12) to conduct metagenomic and metadata assembly research sequencing and analysis; and

(13) to develop other relevant methods and processes as determined by the Director.

(c) Biomolecular characterization and imaging science

The Director shall carry out research and development activities in biomolecular characterization and imaging science, including development of new and integrative imaging and analysis platforms and biosensors to understand the expression, structure, and function of genome information encoded within cells and for real-time measurements in ecosystems and field sites of relevance to the mission of the Department.

(d) Limitation for research funds

The Director shall not approve new climate science-related initiatives without making a determination that such work is well-coordinated with any relevant work carried out by other Federal agencies.

(e) Low-dose radiation research program

(1) In general

The Secretary shall carry out a research program on low-dose and low dose-rate radiation to—

(A) enhance the scientific understanding of, and reduce uncertainties associated with, the effects of exposure to low-dose and low dose-rate radiation; and

(B) inform improved risk-assessment and risk-management methods with respect to such radiation.

(2) Program components

In carrying out the program required under paragraph (1), the Secretary shall—

(A) support and carry out the directives under section 106(b) of the American Innovation and Competitiveness Act (42 U.S.C. 6601 note), except that such section shall be treated for purposes of this subsection as applying to low dose and low-dose rate radiation research, in

coordination with the Physical Science Subcommittee of the National Science and Technology Council;

(B) identify and, to the extent possible, quantify, potential monetary and health-related impacts to Federal agencies, the general public, industry, research communities, and other users of information produced by such research program;

(C) leverage the collective body of knowledge from existing low-dose and low dose-rate radiation research;

(D) engage with other Federal agencies, research communities, and potential users of information produced under this section, including institutions performing or utilizing radiation research, medical physics, radiology, health physics, and emergency response measures; and

(E) support education and outreach activities to disseminate information and promote public understanding of low-dose radiation, with a focus on non-emergency situations such as medical physics, space exploration, and naturally occurring radiation.

(3) Research plan

(A) Not later than 90 days after December 27, 2020, the Secretary shall enter into an agreement with the National Academy of Sciences to develop a long-term strategic and prioritized research agenda for the program described in paragraph (2);

(B) Not later than one year after December 27, 2020, the Secretary shall transmit this research plan developed in subparagraph (A) to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

(4) GAO study

Not later than 3 years after December 27, 2020, the Comptroller General shall transmit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate, a report on:

(A) an evaluation of the program activities carried out under this section;

(B) the effectiveness of the coordination and management of the program; and

(C) the implementation of the research plan outlined in paragraph (3).

(5) Definitions

In this subsection:

(A) Low-dose radiation

The term "low-dose radiation" means a radiation dose of less than 100 millisieverts.

(B) Low dose-rate radiation

The term "low dose-rate radiation" means a radiation dose rate of less than 5 millisieverts per hour.

(6) Rule of construction

Nothing in this subsection shall be construed to subject any research carried out by the Secretary for the program under this subsection to any limitations described in section 16317(e) of this title.

(7) Funding

For purposes of carrying out this subsection, the Secretary is authorized to make available from funds provided to the Biological and Environmental Research Program—

(A) \$20,000,000 for fiscal year 2021;

(B) \$20,000,000 for fiscal year 2022;

(C) \$30,000,000 for fiscal year 2023;

(D) \$40,000,000 for fiscal year 2024;

(E) \$40,000,000 for fiscal year 2025;

(F) \$50,000,000 for fiscal year 2026; and

(G) \$50,000,000 for fiscal year 2027.

(f) Low-dose radiation and space radiation research program

(1) In general

The Secretary, in consultation with the Administrator of the National Aeronautics and Space Administration, shall carry out a basic research program on the similarities and differences between the effects of exposure to low-dose radiation on Earth, in low Earth orbit, and in the space environment.

(2) Purpose

The purpose of the program described in paragraph (1) is to accelerate breakthroughs in low-dose and low dose-rate radiation research and development as described in subsection (e) and to inform the advancement of new tools, technologies, and advanced materials needed to facilitate long-duration space exploration.

(g) Earth and environmental systems sciences activities

(1) In general

As part of the activities authorized under subsection (a), and in coordination with activities carried out under subsection (b), the Director shall coordinate with the National Oceanic and Atmospheric Administration, the National Science Foundation, the Environmental Protection Agency, the National Aeronautics and Space Administration, the Department of Agriculture, the Department of the Interior, and any other relevant agencies to carry out activities relating to Earth and environmental systems science research, which may include activities—

(A) to understand, observe, measure, and model the response of Earth's atmosphere and biosphere to changing concentrations of greenhouse gas emissions and any associated changes in climate, including frequency and intensity of extreme weather events;

(B) to understand the coupled physical, chemical, and biological processes to transform, immobilize, remove, or move carbon, nitrogen, and other energy production-derived contaminants such as radionuclides and heavy metals, and understand the process of sequestration and transformation of these, carbon dioxide, and other relevant molecules in subsurface environments;

(C) to understand, observe, and model the cycling of water, carbon, and nutrients in terrestrial systems across spatiotemporal scales;

(D) to understand the biological, biogeochemical, and physical processes across the multiple scales that control the flux of environmentally relevant compounds between the terrestrial surface and the atmosphere; and

(E) to understand and predict interactions among natural and human systems to inform potential mitigation and adaptation options for increased concentrations of greenhouse gas emissions and any associated changes in climate.

(2) Prioritization

In carrying out the program authorized under paragraph (1), the Director shall prioritize—

(A) the development of software and algorithms to enable the productive application of environmental systems and extreme weather in climate and Earth system prediction models in high-performance computing systems; and

(B) capabilities that support the Department's mission needs for energy and infrastructure security, resilience, and reliability.

(3) Environmental systems science research

(A) In general

As part of the activities described in paragraph (1), the Director shall carry out research to advance an integrated, robust, and scale-aware predictive understanding of environmental systems, including the role of hydrobiogeochemistry, from the subsurface to the top of the vegetative canopy that considers effects of seasonal to interannual variability and change.

(B) Clean water and watershed research

As part of the activities described in subparagraph (A), the Director shall—

(i) support interdisciplinary research to significantly advance our understanding of water availability, quality, and the impact of human activity and a changing climate on urban and rural watershed systems, including in freshwater environments;

(ii) consult with the Interagency Research, Development, and Demonstration Coordination Committee on the Nexus of Energy and Water for Sustainability established under section 16183 of this title on energy-water nexus research activities;

(iii) engage with representatives of research and academic institutions, nonprofit organizations, State, territorial, local, and Tribal governments, and industry, who have expertise in technologies, technological innovations, or practices relating to the energy-water nexus, as applicable; and

(iv) coordinate with the National Oceanic and Atmospheric Administration, the National Science Foundation, the Environmental Protection Agency, the National Aeronautics and Space Administration, the Department of Agriculture, the Department of the Interior, and any other relevant agency.

(C) Coordination

(i) Director

The Director shall carry out activities under this paragraph in accordance with priorities established by the Secretary to support and accelerate the decontamination of relevant facilities managed by the Department.

(ii) Secretary

The Secretary shall ensure the coordination of activities of the Department, including activities under this paragraph, to support and accelerate the decontamination of relevant facilities managed by the Department.

(4) Climate and Earth modeling

As part of the activities described in paragraph (1), the Director, in collaboration with the Advanced Scientific Computing Research program described in section 18642 of this title and other programs carried out by the Department, as applicable, and in coordination with the National Oceanic and Atmospheric Administration, the National Science Foundation, the National Aeronautics and Space Administration, and other relevant agencies, shall carry out research to develop, evaluate, and use high-resolution regional climate, global climate, Earth system, and other relevant models to inform decisions on reducing greenhouse gas emissions and the resulting impacts of a changing global climate. Such modeling shall include—

(A) integrated capabilities for modeling multisectoral interactions, including the impacts of climate policies on human systems and the interdependencies and risks at the energy-water-land nexus;

(B) greenhouse gas emissions, air quality, energy supply and demand, and other critical elements; and

(C) interaction among human and Earth systems informed by interdisciplinary research, including the economic and social sciences.

(5) Midscale funding mechanism

(A) In general

Any of the activities authorized in this subsection may be carried out, in lieu of individual research grants—

(i) by competitively selected midscale, multi-institutional research centers;

(ii) by large-scale experiments or user facilities; or

(iii) through existing facilities and systems of the Department or the National Oceanic and Atmospheric Administration.

(B) Consideration

The Biological and Environmental Research Advisory Committee shall provide

recommendations to the Director on projects most suitable for the research centers described in subparagraph (A).

(6) Atmospheric Systems and Sciences Research Program

(A) In general

As part of the activities carried out under paragraph (1), the Director shall carry out a program, to be known as the "Atmospheric Systems and Sciences Research Program", to use observations to improve understanding of atmospheric processes, under which the Director, in coordination, and as appropriate, collaboration, with the National Oceanic and Atmospheric Administration and other relevant Federal agencies conducting research under the topics described in this subparagraph, shall conduct research relating to—

- (i) better understanding the atmosphere and the interaction of the atmosphere with the surface of the Earth;
- (ii) understanding sources of uncertainty in Earth system models, including with respect to the interdependence of clouds, atmospheric aerosols, radiation processes, and precipitation;
- (iii) understanding the radiative balance and hydrological cycle of Earth;
- (iv) demonstrating the improved predictability of regional and global atmospheric models due to improved process-level understanding;
- (v) atmospheric regimes with large uncertainties in earth system prediction, aerosol processes, warm boundary-layer processes, convective processes, and high-latitude processes;
- (vi) reduced uncertainty and improved simulation capability of earth system models of the atmospheric system in a holistic, comprehensive fashion; and
- (vii) understanding and modeling representation of priority research areas, including aerosol, warm boundary layer, convective, and high-latitude processes.

(B) Activities

In carrying out the Atmospheric Systems and Sciences Research Program, the Director shall, in coordination, and as appropriate, in collaboration, with other relevant Federal agencies—

- (i) collect data and conduct research to advance atmospheric and Earth system modeling capabilities;
- (ii) develop or participate in existing or future integrated, scalable test-beds that—
 - (I) incorporate process-level understanding of the life cycles of aerosols, clouds, and precipitation; and
 - (II) can be incorporated into other models;
- (iii) improve data, analysis, and prediction systems in marine, littoral, terrestrial, and arctic environments, including those environments sensitive to changes in the climate, relating to the energy and science mission of the Department; and
- (iv) support the development of technologies relating to—
 - (I) more accurate cloud, aerosol, and other atmospheric sensors;
 - (II) observing sensor networks; and
 - (III) computational predictive modeling.

(C) Use of Atmospheric Radiation Measurement Program facilities and infrastructure

To support the Atmospheric Systems and Sciences Research Program and, in coordination, and as appropriate, in collaboration, with the National Oceanic and Atmospheric Administration and other relevant Federal agencies, to improve fundamental understanding of the physical and chemical processes that impact the formation, life cycle, and radiative impacts of cloud and aerosol particles, atmospheric processes, and surface or subsurface phenomena, the Director shall use the facilities and infrastructure of the Atmospheric Radiation Measurement User Facility, the Global Monitoring Laboratory of the National Oceanic and Atmospheric Administration, or other Earth and Environmental Systems Sciences User Facilities—

- (i) to provide support to environmental scientists by collecting high-quality and

well-characterized in-situ, remote-sensing, and aircraft observations of—

- (I) the microphysical properties of clouds and atmospheric aerosols;
- (II) the coincident and highly detailed dynamical and thermodynamic properties of the atmospheric environment that contains those clouds and aerosols;
- (III) the properties of precipitation;
- (IV) the properties of radiation and the background environment; and
- (V) the properties of surface or subsurface phenomena;

(ii) to carry out laboratory studies and ground-based and airborne field campaigns to target specific atmospheric and surface or subsurface processes relating to the energy and science mission of the Department in different locations and across a range of environments, including by developing technologies to assist in advancing predictive capabilities;

(iii) to build data sets that can be incorporated into atmospheric models; and

(iv) to enhance observations by using modeling and simulations that test the accuracy of climate model parameterizations.

(h) Biological and environmental research user facilities

(1) In general

The Director shall carry out a program for the development, construction, operation, and maintenance of user facilities to enhance the collection and analysis of observational data related to complex biological, climate, and environmental systems.

(2) Selection

(A) In general

The Director shall select user facilities under paragraph (1) on a competitive, merit-reviewed basis.

(B) Applicants

In selecting user facilities under paragraph (1), the Director shall consider applications from the National Laboratories, institutions of higher education, multi-institutional collaborations, and other appropriate entities.

(3) Facility requirements

To the maximum extent practicable, the user facilities developed, constructed, operated, or maintained under paragraph (1) shall include—

(A) distributed field research and observation platforms for understanding earth system processes;

(B) analytical techniques, instruments, and modeling resources, including high-throughput molecular phenotyping, for understanding and predicting the functional processes of biological and environmental systems;

(C) integrated high-throughput sequencing, advanced bioanalytic techniques, DNA design and synthesis, metabolomics, and computational analysis; and

(D) such other facilities as the Director considers appropriate, consistent with section 7139 of this title.

(4) Existing facilities

In carrying out the program established under paragraph (1), the Director is encouraged to evaluate the capabilities of existing user facilities and, to the maximum extent practicable, invest in modernization of those capabilities to address emerging research priorities.

(5) Earth and environmental systems sciences user facilities

In carrying out the program established under paragraph (1), the Director shall operate at least 1 user facility to advance the collection, validation, and analysis of atmospheric data, including through activities—

(A) to advance knowledge of the Earth and environmental systems and improve model

representations; and

(B) to measure the impact of atmospheric gases, aerosols, and clouds on the Earth and environmental systems.

(6) Microbial molecular phenotyping capability project

(A) In general

The Secretary shall provide for the expansion of the Environmental Molecular Sciences Laboratory, or subsequent facility successor, to advance high-throughput microbial plant and molecular phenotyping capability to accelerate discovery of new protein functions and metabolic pathways in microbial systems.

(B) Capabilities

In carrying out subparagraph (A), the Secretary shall ensure the following capabilities:

- (i) Coupled high-throughput autonomous experimental and multimodal analytical capabilities.
- (ii) Direct integration of automated multiomics analyses, biomolecular and cellular imaging, and functional biological assays with high-throughput microbial culturing and cultivation capabilities at timescales relevant to biological processes under natural and perturbed environmental conditions.

(C) Data coordination

In carrying out subparagraph (A), the Secretary shall ensure integration and coordination with existing data platforms and user facilities of the Department.

(D) Start of operations

Subject to the availability of appropriations, the Secretary shall begin carrying out subparagraph (A) not later than September 29, 2027.

(E) Funding

Of the funds authorized to be appropriated under subsection (k) for a fiscal year, there are authorized to be appropriated to the Secretary to carry out this paragraph—

- (i) \$550,000 for fiscal year 2023;
- (ii) \$29,000,000 for fiscal year 2024;
- (iii) \$32,000,000 for fiscal year 2025;
- (iv) \$30,500,000 for fiscal year 2026; and
- (v) \$27,500,000 for fiscal year 2027.

(7) User facilities integration and collaboration program

(A) In general

The Director shall support a program of collaboration between user facilities to encourage and enable researchers to more readily integrate the tools, expertise, resources, and capabilities of multiple Office of Science user facilities (as described in subsection (d) of section 7139 of this title) to further research and advance emerging technologies.

(B) Activities

The program shall advance the integration of automation, robotics, computational biology, bioinformatics, biosensing, cellular platforms and other relevant emerging technologies as determined by the Director to enhance productivity and scientific impact of user facilities.

(8) Coordination

In carrying out the program authorized under paragraph (1), the Director shall ensure that the Office of Science coordinates with—

(A) the National Oceanic Atmospheric Administration, the Environmental Protection Agency, the National Aeronautics and Space Administration, the Department of Agriculture, the Department of the Interior, and any other relevant Federal agency on the collection, validation, and analysis of atmospheric data; and

(B) relevant stakeholders, including institutions of higher education, nonprofit research institutions, industry, State, territorial, local, and Tribal governments, and other appropriate entities to ensure access to the best available relevant atmospheric and historical weather data.

(i) Terrestrial-aquatic interface research initiative

(1) In general

The Director shall carry out a research program to enhance the understanding of terrestrial-aquatic interface. In carrying out the program, the Director shall prioritize efforts to enhance the collection of observational data, and shall develop models to analyze the natural and human processes that interact in littoral zones.

(2) Littoral data collection system

The Director shall establish an integrated system of geographically diverse field research sites in order to improve the scientific understanding and predictability of the major land water interfaces of the United States through improved data quantity and quality, including in—

- (A) the Great Lakes region;
- (B) the Pacific coast;
- (C) the Atlantic coast;
- (D) the Arctic;
- (E) the Gulf coast; and
- (F) the coasts of United States territories and freely associated States.

(3) Existing infrastructure

In carrying out the programs and establishing the field research sites under paragraphs (1) and (2), the Secretary shall leverage existing research and development infrastructure supported by the Department, including the Department's existing marine and coastal research lab.

(4) Coordination

For the purposes of carrying out the programs and establishing the field research sites under paragraphs (1) and (2), the Secretary may enter into agreements with Federal departments and agencies with complementary capabilities, including the National Oceanic and Atmospheric Administration and any other relevant Federal agency as appropriate.

(5) Report

Not earlier than 2 years after August 9, 2022, the Director shall provide to the Committee on Science, Space, and Technology, the Committee on Natural Resources, and the Committee on Appropriations of the House of Representatives, and the Committee on Energy and Natural Resources and the Committee on Appropriations of the Senate, a report examining whether the system described in paragraph (2) should be established as a National User Facility within the Department or as a research facility within another Federal agency.

(6) Interoperability

(A) In general

The Director shall ensure that activities carried out under paragraphs (1) and (2), including observation, data collection, monitoring, and model development and enhancements, are interoperable and may be integrated with existing related systems at the National Oceanic and Atmospheric Administration and other relevant Federal agencies, as practicable.

(B) Resources

In carrying out subparagraph (A), in support of interoperability, as practicable, the Director may make available to other Federal agencies high performance computing resources.

(C) NOAA

The National Oceanic and Atmospheric Administration shall integrate the data collected under the programs carried out under paragraphs (1) and (2) into relevant data systems and models, as practicable.

(j) Engineered ecosystems initiative

(1) In general

The Secretary shall establish within the Biological and Environmental Research program an initiative focused on the development of engineered ecosystems through the application of artificial intelligence, novel sensing capabilities, and other emerging technologies.

(2) Interagency coordination

The Secretary shall coordinate with the Director of the National Science Foundation, the Administrator of the National Oceanic and Atmospheric Administration, the Director of the U.S. Geological Survey, the Secretary of Agriculture, and other relevant officials to avoid duplication of research and observational activities and to ensure that activities carried out under the initiative established under paragraph (1) are complimentary to activities being undertaken by other agencies.

(3) Report

Not later than 180 days after August 9, 2022, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the activity authorized under this subsection.

(k) Authorization of appropriations

Out of funds authorized to be appropriated for the Office of Science in a fiscal year, there are authorized to be appropriated to the Secretary to carry out the activities described in this section—

- (1) \$885,420,000 for fiscal year 2023;
- (2) \$946,745,200 for fiscal year 2024;
- (3) \$1,001,149,912 for fiscal year 2025;
- (4) \$1,068,818,907 for fiscal year 2026; and
- (5) \$1,129,948,041 for fiscal year 2027.

(l) Definitions

In this section:

(1) Advanced biofuel

The term "advanced biofuel" has the meaning given the term in section 8101 of title 7.

(2) Bioenergy

The term "bioenergy" means energy derived from biofuels.

(3) Biomass

The term "biomass" has the meaning given the term in section 15852(b) of this title.

(4) Bioproduct

The term "bioproduct" has the meaning given the term "biobased product" in section 8101 of title 7.

(Pub. L. 115–246, title III, §306, Sept. 28, 2018, 132 Stat. 3148; Pub. L. 116–260, div. Z, title XI, §11001, Dec. 27, 2020, 134 Stat. 2610; Pub. L. 117–167, div. B, title I, §10103(a)–(d), Aug. 9, 2022, 136 Stat. 1420–1423.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 106(b) of the American Innovation and Competitiveness Act (42 U.S.C. 6601 note), referred to in subsec. (e)(2)(A), is section 106(b) of Pub. L. 114–329, title I, Jan. 6, 2017, 130 Stat. 2986, which is set out in a note under section 6601 of this title.

AMENDMENTS

2022—Subsecs. (a) to (c). Pub. L. 117–167, §10103(a)(3), added subsecs. (a) to (c) and struck out former

subsec. (a) which related to research and development activities of complex biological systems. Former subsecs. (b) and (c) redesignated (d) and (e), respectively.

Subsec. (c)(5) to (8). Pub. L. 117–167, §10103(a)(1), prior to redesignation of subsec. (c) as (e), redesignated pars. (6) to (8) as (5) to (7), respectively.

Subsecs. (d), (e). Pub. L. 117–167, §10103(a)(2), redesignated subsecs. (b) and (c) as (d) and (e), respectively. Former subsec. (d) redesignated (f).

Subsec. (e)(7)(E) to (G). Pub. L. 117–167, §10103(b), which directed amendment of subsec. (e)(8) by adding subpars. (E) to (G), was executed by making the addition to subsec. (e)(7) to reflect the probable intent of Congress and the successive redesignations of subsec. (c)(8) as (c)(7) and then (e)(7) by Pub. L. 117–167, §10103(a)(1), (2). See notes above.

Subsec. (f). Pub. L. 117–167, §10103(a)(2), (c), redesignated subsec. (d) as (f) and amended it generally. Prior to amendment, text read as follows: "The Secretary of Energy, shall continue and strengthen collaboration with the Administrator of the National Aeronautics and Space Administration on basic research to understand the effects and risks of human exposure to ionizing radiation in low Earth orbit, and in the space environment."

Subsecs. (g) to (k). Pub. L. 117–167, §10103(d), added subsecs. (g) to (k).

Subsec. (l). Pub. L. 117–167, §10103(a)(4), added subsec. (l).

2020—Subsec. (c). Pub. L. 116–260, §11001(a), amended subsec. (c) generally. Prior to amendment, subsec. (c) related to the establishment and purpose of a low-dose radiation research program.

Subsec. (d). Pub. L. 116–260, §11001(b), added subsec. (d).

§18645. Fusion energy

(a) Program

As part of the activities authorized under section 7139 of this title and section 16312 of this title, the Director shall carry out a fusion energy sciences research and enabling technology development program to effectively address the scientific and engineering challenges to building a cost competitive fusion power plant and to support the development of a competitive fusion power industry in the United States. As part of this program, the Director shall carry out research activities to expand the fundamental understandings of plasma and matter at very high temperatures and densities for fusion applications and for other engineering and plasma science applications.

(b) Fusion materials research and development

(1) In general

As part of the activities authorized in section 16318 of this title—

(A) the Director, in coordination with the Assistant Secretary for Nuclear Energy of the Department, shall carry out research and development activities to identify, characterize, and demonstrate materials that can endure the neutron, plasma, and heat fluxes expected in a fusion power system; and

(B) the Director shall provide an assessment of—

(i) the need for one or more facilities that can examine and test potential fusion and next generation fission materials and other enabling technologies relevant to the development of fusion power; and

(ii) whether a single new facility that substantially addresses magnetic fusion and next generation fission materials research needs is feasible, in conjunction with the expected capabilities of facilities operational as of September 28, 2018.

(2) Authorization of appropriations

Out of funds authorized to be appropriated under subsection (q),¹ there is authorized to be appropriated to the Secretary to carry out activities described in paragraph (1) \$50,000,000 for each of fiscal years 2023 through 2027.

(c) Tokamak research and development

The Director shall support research and development activities and facility operations to optimize the tokamak approach to fusion energy.

(d) Inertial fusion research and development

(1) In general

The Director shall carry out a program of research and technology development in inertial fusion for energy applications, including ion beam, laser, and pulsed power fusion systems.

(2) Activities

As part of the program described in paragraph (1), the Director shall support activities at and partnerships with universities and the National Laboratories to—

- (A) develop novel target designs;
- (B) support modeling of various inertial fusion energy concepts and systems;
- (C) develop diagnostic tools; and
- (D) improve inertial fusion energy driver technologies.

(3) Authorization of appropriations

Out of funds authorized to be appropriated under subsection (q),¹ there are authorized to be appropriated to the Secretary to carry out the activities described in this subsection \$25,000,000 for each of fiscal years 2021 through 2027.

(e) Alternative and enabling concepts

(1) In general

The Director shall support research and development activities and facility operations at institutions of higher education, National Laboratories, and private facilities in the United States for a portfolio of alternative and enabling fusion energy concepts that may provide solutions to significant challenges to the establishment of a commercial magnetic fusion power plant, prioritized based on the ability of the United States to play a leadership role in the international fusion research community.

(2) Activities

Fusion energy concepts and activities explored under paragraph (1) may include—

- (A) alternative fusion energy concepts, including—
 - (i) advanced stellarator concepts;
 - (ii) non-tokamak confinement configurations operating at low magnetic fields;
 - (iii) magnetized target fusion energy concepts; or
 - (iv) other promising fusion energy concepts identified by the Director;
- (B) enabling fusion technology development activities, including—
 - (i) high magnetic field approaches facilitated by high temperature superconductors;
 - (ii) liquid metals to address issues associated with fusion plasma interactions with the inner wall of the encasing device; and
 - (iii) advanced blankets for heat management and fuel breeding; and
- (C) advanced scientific computing activities.

(3) Innovation network for fusion energy

(A) In general

The Secretary, acting through the Office of Science, shall support a program to provide fusion energy researchers with access to scientific and technical resources and expertise at facilities supported by the Department, including such facilities at National Laboratories and universities, to advance innovative fusion energy technologies toward commercial application.

(B) Awards

Financial assistance under the program established in subsection (a)—

- (i) shall be awarded on a competitive, merit-reviewed basis; and
- (ii) may be in the form of grants, vouchers, equipment loans, or contracts to private

entities.

(4) Authorization of appropriations

Out of funds authorized to be appropriated under subsection (q),¹ there are authorized to be appropriated to the Secretary to carry out the activities described in this subsection \$50,000,000 for each of fiscal years 2021 through 2027.

(f) Coordination with ARPA-E

The Director shall coordinate with the Director of the Advanced Research Projects Agency-Energy (referred to in this subsection as "ARPA-E") to—

- (1) assess the potential for any fusion energy project supported by ARPA-E to represent a promising approach to a commercially viable fusion power plant;
- (2) determine whether the results of any fusion energy project supported by ARPA-E merit the support of follow-on research activities carried out by the Office of Science; and
- (3) avoid the unintentional duplication of activities.

(g) Omitted

(h) Identification of priorities

(1) Report

(A) In general

Not later than 2 years after September 28, 2018, the Secretary shall submit to Congress a report on the fusion energy research and development activities that the Department proposes to carry out over the 10-year period following the date of the report under not fewer than 3 realistic budget scenarios, including a scenario based on 3-percent annual growth in the non-ITER portion of the budget for fusion energy research and development activities.

(B) Inclusions

The report required under subparagraph (A) shall—

- (i) identify specific areas of fusion energy research and enabling technology development in which the United States can and should establish or solidify a lead in the global fusion energy development effort;
- (ii) identify priorities for initiation of facility construction and facility decommissioning under each of the three budget scenarios described in subparagraph (A); and
- (iii) assess the ability of the fusion workforce of the United States to carry out the activities identified under clauses (i) and (ii), including the adequacy of programs at institutions of higher education in the United States to train the leaders and workers of the next generation of fusion energy researchers.

(2) Process

In order to develop the report required under paragraph (1)(A), the Secretary shall leverage best practices and lessons learned from the process used to develop the most recent report of the Particle Physics Project Prioritization Panel of the High Energy Physics Advisory Panel.

(3) Requirement

No member of the Fusion Energy Sciences Advisory Committee shall be excluded from participating in developing or voting on final approval of the report required under paragraph (1)(A).

(i) Milestone-based development program

(1) In general

Using the authority of the Secretary under section 7256(g) of this title, notwithstanding paragraph (10) of such section, the Secretary shall establish, not later than 6 months after the date

of enactment of this section, a milestone-based fusion energy development program that requires projects to meet particular technical milestones before a participant is awarded funds by the Department.

(2) Purpose

The purpose of the program established by paragraph (1) shall be to support the development of a U.S.-based fusion power industry through the research and development of technologies that will enable the construction of new full-scale fusion systems capable of demonstrating significant improvements in the performance of such systems, as defined by the Secretary, within 10 years of the enactment of this section.

(3) Eligibility

Any entity is eligible to participate in the program provided that the Secretary has deemed it as having the necessary resources and expertise.

(4) Requirements

In carrying out the milestone-based program under paragraph (1), the Secretary shall, for each relevant project—

- (A) request proposals from eligible entities, as determined by the Secretary, that include proposed technical milestones, including estimated project timelines and total costs;
- (B) set milestones based on a rigorous technical review process;
- (C) award funding of a predetermined amount to projects that successfully meet proposed milestones under paragraph (1), or for expenses deemed reimbursable by the Secretary, in accordance with terms negotiated for an individual award; and
- (D) communicate regularly with selected eligible entities and, if the Secretary deems appropriate, exercise small amounts of flexibility for technical milestones as projects mature.

(5) Awards

For the program established under paragraph (1)—

- (A) an award recipient shall be responsible for all costs until milestones are achieved, or reimbursable expenses are reviewed and verified by the Department;
- (B) should an awardee not meet the milestones described in paragraph (4), the Secretary may end the partnership with an award recipient and use the remaining funds in the ended agreement for new or existing projects carried out under this section; and
- (C) consistent with the existing authorities of the Department, the Secretary may end the partnership with an award recipient for cause during the performance period.

(6) Applications

Any project proposal submitted to the program under paragraph (1) shall be evaluated based upon its scientific, technical, and business merits through a peer-review process, which shall include reviewers with appropriate expertise from the private sector, the investment community, and experts in the science and engineering of fusion and plasma physics.

(7) Project management

In carrying out projects under this program and assessing the completion of their milestones in accordance with paragraph (4), the Secretary shall consult with experts that represent diverse perspectives and professional experiences, including those from the private sector, to ensure a complete and thorough review.

(8) Programmatic review

Not later than 4 years after the Secretary has established 3 milestones under this program, the Secretary shall enter into a contractual arrangement with the National Academy of Sciences to review and provide a report describing the findings of this review to the House Committee on Science, Space, and Technology and the Senate Committee on Energy and Natural Resources on the program established under this paragraph (1) that assesses—

- (A) the benefits and drawbacks of a milestone-based fusion program as compared to

traditional program structure funding models at the Department;

(B) lessons-learned from program operations; and

(C) any other matters the Secretary determines regarding the program.

(9) Annual report

As part of the annual budget request submitted for each fiscal year, the Secretary shall provide the House Committee on Science, Space, and Technology and the Senate Committee on Energy and Natural Resources a report describing partnerships supported by the program established under paragraph (1) during the previous fiscal year.

(10) Authorization of appropriations

Out of funds authorized to be appropriated under subsection (q),¹ there are authorized to be appropriated to the Secretary to carry out the activities described in this subsection, to remain available until expended—

(A) \$45,000,000 for fiscal year 2021;

(B) \$65,000,000 for fiscal year 2022;

(C) \$105,000,000 for fiscal year 2023;

(D) \$65,000,000 for fiscal year 2024;

(E) \$45,000,000 for fiscal year 2025;

(F) \$45,000,000 for fiscal year 2026; and

(G) \$45,000,000 for fiscal year 2027.

(j) Fusion reactor system design

(1) In general

Not later than 180 days after August 9, 2022, the Director shall establish not less than 2 national teams described in paragraph (2) that shall—

(A) develop conceptual pilot plant designs and technology roadmaps; and

(B) create an engineering design of a pilot plant that will bring fusion to commercial viability.

(2) National teams

A national team referred to in paragraph (1) shall—

(A) be composed of developers, manufacturers, universities, National Laboratories, and representatives of the engineering, procurement, and construction industries; and

(B) include public-private partnerships.

(3) Authorization of appropriations

Of the funds authorized to be appropriated for Fusion Energy Sciences in a fiscal year, there are authorized to be appropriated to the Secretary to carry out this subsection—

(A) \$35,000,000 for fiscal year 2023;

(B) \$50,000,000 for fiscal year 2024;

(C) \$65,000,000 for fiscal year 2025;

(D) \$80,000,000 for fiscal year 2026; and

(E) \$80,000,000 for fiscal year 2027.

(k) General plasma science and applications

The Director shall support research in general plasma science and high energy density physics that advance the understanding of the scientific community of fundamental properties and complex behavior of matter to control and manipulate plasmas for a broad range of applications, including support for research relevant to advancements in chip manufacturing and microelectronics.

(l) Sense of Congress

It is the sense of Congress that the United States should support a robust, diverse program in addition to providing sufficient support to, at a minimum, meet its commitments to ITER and maintain the schedule of the project as determined by the Secretary in coordination with the ITER Organization at the time of the enactment of this section. It is further the sense of Congress that

developing the scientific basis for fusion, providing research results key to the success of ITER, and training the next generation of fusion scientists are of critical importance to the United States and should in no way be diminished by participation of the United States in the ITER project.

(m) International collaboration

The Director shall—

(1) as practicable and in coordination with other appropriate Federal agencies as necessary, ensure the access of United States researchers to the most advanced fusion research facilities and research capabilities in the world, including ITER;

(2) to the maximum extent practicable, continue to leverage United States participation ITER,² and prioritize expanding international partnerships and investments in current and future fusion research facilities within the United States; and

(3) to the maximum extent practicable, prioritize engagement in collaborative efforts in support of future international facilities that would provide access to the most advanced fusion research facilities in the world to United States researchers.

(n) Fission and fusion research coordination report

(1) In general

Not later than 6 months after the date of enactment of this section, the Secretary shall transmit to Congress a report addressing opportunities for coordinating fusion energy research and development activities between the Office of Nuclear Energy, the Office of Science, and the Advanced Research Projects Agency—Energy.

(2) Components

The report shall assess opportunities for collaboration on research and development of—

(A) liquid metals to address issues associated with fusion plasma interactions with the inner wall of the encasing device and other components within the reactor;

(B) immersion blankets for heat management and fuel breeding;

(C) technologies and methods for instrumentation and control;

(D) computational methods and codes for system operation and maintenance;

(E) codes and standard development;

(F) radioactive waste handling;

(G) radiological safety;

(H) potential for non-electricity generation applications; and

(I) any other overlapping priority as identified by the Director of the Office of Science or the Assistant Secretary of Energy for Nuclear Energy.

(o) High-performance computation collaborative research program

(1) In general

The Secretary shall carry out a program to conduct and support collaborative research, development, and demonstration of fusion energy technologies, through high-performance computation modeling and simulation techniques, in order—

(A) to support fundamental research in plasmas and matter at very high temperatures and densities;

(B) to inform the development of a broad range of fusion energy systems; and

(C) to facilitate the translation of research results in fusion energy science to industry.

(2) Coordination

In carrying out the program under paragraph (1), the Secretary shall coordinate with relevant Federal agencies, and prioritize the following objectives:

(A) To use expertise from the private sector, institutions of higher education, and the National Laboratories to leverage existing, and develop new, computational software and capabilities that prospective users may use to accelerate research and development of fusion energy systems.

(B) To develop computational tools to simulate and predict fusion energy science phenomena that may be validated through physical experimentation.

(C) To increase the utility of the research infrastructure of the Department by coordinating with the Advanced Scientific Computing Research program within the Office of Science.

(D) To leverage experience from existing modeling and simulation entities sponsored by the Department.

(E) To ensure that new experimental and computational tools are accessible to relevant research communities, including private sector entities engaged in fusion energy technology development.

(F) To ensure that newly developed computational tools are compatible with modern virtual engineering and visualization capabilities to accelerate the realization of fusion energy technologies and systems.

(3) Duplication

The Secretary shall ensure the coordination of, and avoid unnecessary duplication of, the activities of the program under paragraph (1) with the activities of—

(A) other research entities of the Department, including the National Laboratories, the Advanced Research Projects Agency—Energy, and the Advanced Scientific Computing Research program within the Office of Science; and

(B) industry.

(4) High-Performance Computing for Fusion Innovation Center

(A) In general

In carrying out the program under paragraph (1), the Secretary shall, in coordination with the Innovation Network for Fusion Energy, establish and operate a national High-Performance Computing for Fusion Innovation Center (referred to in this paragraph as the "Center"), to support the program under paragraph (1) by providing, to the extent practicable, a centralized entity for multidisciplinary, collaborative, fusion energy research and development through high-performance computing and advanced data analytics technologies and processes.

(B) Eligible entities

An entity eligible to serve as the Center shall be—

(i) a National Laboratory;

(ii) an institution of higher education;

(iii) a multi-institutional collaboration; or

(iv) any other entity that the Secretary determines to be appropriate.

(C) Application; selection

(i) Application

To be eligible to serve as the Center, an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(ii) Selection

The Secretary shall select the Center on a competitive, merit-reviewed basis.

(D) Existing activities

The Center may incorporate existing research activities that are consistent with the program under paragraph (1).

(E) Priorities

(i) In general

The Center shall prioritize activities that utilize expertise and infrastructure from a balance among the private sector, institutions of higher education, and the National Laboratories to enhance existing computation tools and develop new computational software and capabilities

to accelerate the commercial application of fusion energy systems.

(ii) Maintenance of resource availability

The Secretary may enter into contracts with commercial cloud computing providers to ensure that resource availability within the Department is not reduced or disproportionately distributed as a result of Center activities.

(F) Duration

Subject to subparagraph (G), the Center shall receive support for a period of not more than 5 years, subject to the availability of appropriations.

(G) Renewal

On the expiration of the period of support of the Center under subparagraph (F), the Secretary may renew support for the Center, on a merit-reviewed basis, for a period of not more than 5 years.

(p) Material Plasma Exposure Experiment

(1) In general

The Secretary shall construct a Material Plasma Exposure Experiment facility as described in the 2020 publication approved by the Fusion Energy Sciences Advisory Committee entitled "Powering the Future: Fusion and Plasmas". The Secretary shall consult with the private sector, institutions of higher education, National Laboratories, and relevant Federal agencies to ensure that the facility is capable of meeting Federal research needs for steady state, high-heat-flux, and plasma-material interaction testing of fusion materials over a range of fusion energy relevant parameters.

(2) Facility capabilities

The Secretary shall ensure that the facility described in paragraph (1) will provide the following capabilities:

- (A) A magnetic field at the target of 1 Tesla.
- (B) An energy flux at the target of 10 MW/m².
- (C) The ability to expose previously irradiated plasma facing material samples to plasma.

(3) Start of operations

The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the facility described in paragraph (1) occurs before December 31, 2027.

(4) Funding

Of the funds authorized to be appropriated for Fusion Energy Sciences, there are authorized to be appropriated to the Secretary for the Office of Fusion Energy Sciences to complete construction of the facility described in paragraph (1)—

- (A) \$21,895,000 for fiscal year 2023; and
- (B) \$3,800,000 for fiscal year 2024.

(q) Matter in Extreme Conditions instrument upgrade

(1) In general

The Secretary shall provide for the upgrade to the Matter in Extreme Conditions endstation at the Linac Coherent Light Source as described in the 2020 publication approved by the Fusion Energy Sciences Advisory Committee entitled "Powering the Future: Fusion and Plasmas". The Secretary shall consult with the private sector, institutions of higher education, National Laboratories, and relevant Federal agencies to ensure that this facility is capable of meeting Federal research needs for understanding physical and chemical changes to plasmas at fundamental timescales, and explore new regimes of dense material physics, astrophysics, planetary physics, and short-pulse laser-plasma interactions.

(2) Start of operations

The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the facility described in paragraph (1) occurs before December 31, 2028.

(r) Authorization of appropriations

Out of funds authorized to be appropriated for the Office of Science in a fiscal year, there are authorized to be appropriated to the Secretary to carry out the activities described in this section—

- (1) \$996,000,000 for fiscal year 2021;
- (2) \$921,000,000 for fiscal year 2022;
- (3) \$1,025,500,400 for fiscal year 2023;
- (4) \$1,043,489,724 for fiscal year 2024;
- (5) \$1,053,266,107 for fiscal year 2025;
- (6) \$1,047,962,074 for fiscal year 2026; and
- (7) \$1,114,187,798 for fiscal year 2027.

(Pub. L. 115–246, title III, §307, Sept. 28, 2018, 132 Stat. 3148; Pub. L. 116–260, div. Z, title II, §2008(a), Dec. 27, 2020, 134 Stat. 2474; Pub. L. 117–167, div. B, title I, §10105(a), Aug. 9, 2022, 136 Stat. 1441.)

EDITORIAL NOTES

REFERENCES IN TEXT

Subsection (q), referred to in subsecs. (b)(2), (d)(3), (e)(4), and (i)(10), probably should be a reference to subsec. (r). Prior to amendment by Pub. L. 117–167, those references were to subsec. (o) of this section, which related to authorization of appropriations and was redesignated as subsec. (r) by Pub. L. 117–167, §10105(a)(6). See 2022 Amendment notes below.

The date of enactment of this section, referred to in subsecs. (i)(1) and (n)(1), probably means the date of enactment of Pub. L. 116–260, which enacted subsecs. (i) and (n) of this section and was approved Dec. 27, 2020.

The enactment of this section, referred to in subsecs. (i)(2) and (l), probably means the enactment of Pub. L. 116–260, which enacted subsecs. (i) and (l) of this section and made other amendments to this section.

CODIFICATION

Section is comprised of section 307 of Pub. L. 115–246. Subsec. (g) of section 307 of Pub. L. 115–246 amended section 2053 of this title.

AMENDMENTS

2022—Subsec. (b). Pub. L. 117–167, §10105(a)(1), designated existing provisions as par. (1), inserted heading, redesignated former pars. (1) and (2) as subpars. (A) and (B), respectively, of par. (1) and subpars. (A) and (B) of former par. (2) as cls. (i) and (ii), respectively, of subpar. (B) of par. (1), and added par. (2).

Subsec. (d)(3). Pub. L. 117–167, §10105(a)(2), substituted "subsection (q)" for "subsection (o)", "this subsection" for "subsection (d)", and "2027" for "2025".

Subsec. (e)(4). Pub. L. 117–167, §10105(a)(3), substituted "subsection (q)" for "subsection (o)", "this subsection" for "subsection (e)", and "2027" for "2025".

Subsec. (i)(10). Pub. L. 117–167, §10105(a)(4)(A), substituted, in introductory provisions, "subsection (q)" for "subsection (o)" and "this subsection" for "subsection (i)".

Subsec. (i)(10)(F), (G). Pub. L. 117–167, §10105(a)(4)(B)–(D), added subpars. (F) and (G).

Subsec. (j). Pub. L. 117–167, §10105(a)(5), added subsec. (j) and struck out former subsec. (j). Prior to amendment, text read as follows: "The Director shall support research and development activities to design future fusion reactor systems and examine and address the technical drivers for the cost of these systems."

Subsecs. (o) to (q). Pub. L. 117–167, §10105(a)(7), added subsecs. (o) to (q). Former subsec. (o) redesignated (r).

Subsec. (r). Pub. L. 117–167, §10105(a)(6), (8)(A), redesignated subsec. (o) as (r) and substituted "Out of funds authorized to be appropriated for the Office of Science in a fiscal year, there" for "There" in introductory provisions.

Subsec. (r)(3) to (7). Pub. L. 117–167, §10105(a)(8)(B), added pars. (3) to (7) and struck out former pars. (3) to (5) relating to appropriations for fiscal years 2023 to 2025, respectively.

2020—Subsec. (a). Pub. L. 116–260, §2008(a)(2), added subsec. (a). Former subsec. (a) redesignated (b).

Subsecs. (b), (c). Pub. L. 116–260, §2008(a)(1), redesignated subsecs. (a) and (b) as (b) and (c),

respectively. Former subsec. (c) redesignated (d).

Subsec. (d). Pub. L. 116–260, §2008(a)(3), amended subsec. (d) generally. Prior to amendment, text read as follows: "The Director shall support research and development activities for inertial fusion for energy applications."

Pub. L. 116–260, §2008(a)(1), redesignated subsec. (c) as (d). Former subsec. (d) redesignated (e).

Subsec. (e). Pub. L. 116–260, §2008(a)(4), amended subsec. (e) generally. Prior to amendment, text read as follows: "The Director shall support research and development activities and facility operations at institutions of higher education, National Laboratories, and private facilities in the United States for a portfolio of alternative and enabling fusion energy concepts that may provide solutions to significant challenges to the establishment of a commercial magnetic fusion power plant, prioritized based on the ability of the United States to play a leadership role in the international fusion research community."

Pub. L. 116–260, §2008(a)(1), redesignated subsec. (d) as (e). Former subsec. (e) redesignated (f).

Subsecs. (f) to (h). Pub. L. 116–260, §2008(a)(1), redesignated subsecs. (f) and (g) as (g) and (h), respectively.

Subsecs. (i) to (o). Pub. L. 116–260, §2008(a)(5), added subsecs. (i) to (o).

§18646. Nuclear physics

(a) Program

As part of the activities authorized under section 7139 of this title, the Director shall carry out a research program, and support relevant facilities, to discover and understand various forms of nuclear matter.

(b) Electron Ion Collider

(1) In general

The Secretary shall support construction of an Electron Ion Collider as described in the 2015 Long Range Plan of the Nuclear Science Advisory Committee and the report from the National Academies of Science, Engineering, and Medicine entitled "An Assessment of U.S.-Based Electron-Ion Collider Science", in order to measure the internal structure of the proton and the nucleus and answer fundamental questions about the nature of visible matter.

(2) Facility capability

The Secretary shall ensure that the facility described in paragraph (1) meets the requirements in the 2015 Long Range Plan described in that paragraph, including—

- (A) at least 70 percent polarized beams of electrons and light ions;
- (B) ion beams from deuterium to the heaviest stable nuclei;
- (C) variable center of mass energy from 20 to 140 GeV;
- (D) high collision luminosity of $10^{33-34} \text{cm}^{-2}\text{s}^{-1}$; and
- (E) the possibility of more than 1 interaction region.

(3) Start of operations

The Secretary shall, subject to the availability of appropriations, ensure that the start of full operations of the facility under this subsection occurs before December 31, 2030.

(4) Funding

Out of funds authorized to be appropriated under subsection (c), there are authorized to be appropriated to the Secretary to carry out construction of the facility under this subsection—

- (A) \$90,000,000 for fiscal year 2023;
- (B) \$181,000,000 for fiscal year 2024;
- (C) \$219,000,000 for fiscal year 2025;

(D) \$297,000,000 for fiscal year 2026; and

(E) \$301,000,000 for fiscal year 2027.

(c) Authorization of appropriations

Out of funds authorized to be appropriated for the Office of Science in a fiscal year, there are authorized to be appropriated to the Secretary to carry out the activities described in this section—

- (1) \$840,480,000 for fiscal year 2023;
- (2) \$976,508,800 for fiscal year 2024;
- (3) \$1,062,239,328 for fiscal year 2025;
- (4) \$1,190,833,688 for fiscal year 2026; and
- (5) \$1,248,463,709 for fiscal year 2027.

(Pub. L. 115–246, title III, §308, Sept. 28, 2018, 132 Stat. 3150; Pub. L. 117–167, div. B, title I, §10107, Aug. 9, 2022, 136 Stat. 1449.)

EDITORIAL NOTES

AMENDMENTS

2022—Pub. L. 117–167 amended section generally. Prior to amendment, text was comprised of subsec. (a) of section 308 of Pub. L. 115–246 which read as follows: "The Director—

"(1) may carry out a program for the production of isotopes, including the development of techniques to produce isotopes, that the Secretary determines are needed for research, medical, industrial, or related purposes; and

"(2) shall ensure that isotope production activities carried out under the program under this paragraph do not compete with private industry unless the Director determines that critical national interests require the involvement of the Federal Government."

Prior to amendment, section 308 of Pub. L. 115–246 also contained subsec. (b) which amended section 16321 of this title.

§18647. Science laboratories infrastructure program

(a) In general

The Director shall carry out a program to improve the safety, efficiency, and mission readiness of infrastructure at laboratories of the Office of Science.

(b) Inclusions

The program under subsection (a) shall include projects—

- (1) to renovate or replace space that does not meet research needs;
- (2) to replace facilities that are no longer cost effective to renovate or operate;
- (3) to modernize utility systems to prevent failures and ensure efficiency;
- (4) to remove excess facilities to allow safe and efficient operations; and
- (5) to construct modern facilities to conduct advanced research in controlled environmental conditions.

(c) Approach

In carrying out the program under subsection (a), the Director shall use all available approaches and mechanisms, as the Secretary determines to be appropriate, including—

- (1) capital line items;
- (2) minor construction projects;
- (3) energy savings performance contracts;
- (4) utility energy service contracts;
- (5) alternative financing; and
- (6) expense funding.

(d) Submission to Congress

For each fiscal year through fiscal year 2027, at the same time as the annual budget submission of the President, the Secretary shall submit to the Committee on Appropriations and the Committee on Energy and Natural Resources of the Senate and the Committee on Appropriations and the Committee on Science, Space, and Technology of the House of Representatives a list of projects for which the Secretary will provide funding under this section, including a description of each project and the funding profile for the project.

(e) Authorization of appropriations

Out of funds authorized to be appropriated for the Office of Science in a fiscal year, there is authorized to be appropriated to the Secretary to carry out the activities described in this section \$550,000,000 for each of fiscal years 2023 through 2027.

(Pub. L. 115–246, title III, §309, Sept. 28, 2018, 132 Stat. 3150; Pub. L. 117–167, div. B, title I, §10108, Aug. 9, 2022, 136 Stat. 1450.)

EDITORIAL NOTES

AMENDMENTS

2022—Subsecs. (c) to (e). Pub. L. 117–167 added subsecs. (c) to (e).

§18648. Accelerator research and development

(a) Program

As part of the activities authorized under section 7139 of this title, the Director shall carry out a research program—

- (1) to advance accelerator science and technology relevant to the Department, other Federal agencies, and United States industry;
- (2) to foster partnerships to develop, demonstrate, and enable the commercial application of accelerator technologies;
- (3) to support the development of a skilled, diverse, and inclusive accelerator workforce; and
- (4) to provide access to accelerator design and engineering resources.

(b) Accelerator research

In carrying out the program authorized under subsection (a), the Director shall support—

- (1) research activities in cross-cutting accelerator technologies including superconducting magnets and accelerators, beam physics, data analytics-based accelerator controls, simulation software, new particle sources, advanced laser technology, and transformative research; and
- (2) optimal operation of the Accelerator Test Facility.

(c) Accelerator development

In carrying out the program authorized under subsection (a), the Director shall support partnerships to foster the development, demonstration, and commercial application of accelerator technologies, including advanced superconducting wire and cable, superconducting RF cavities, and high efficiency radiofrequency power sources for accelerators.

(d) Research collaborations

In developing accelerator technologies under the program authorized under subsection (a), the Director shall—

- (1) consider the requirements necessary to support translational research and development for medical, industrial, security, and defense applications; and
- (2) leverage investments in accelerator technologies and fundamental research in particle physics by partnering with institutions of higher education, industry, and other Federal agencies to enable the commercial application of advanced accelerator technologies.

(e) Authorization of appropriations

Out of funds authorized to be appropriated for the Office of Science in a fiscal year, there are authorized to be appropriated to the Secretary to carry out the activities described in this section—

- (1) \$19,080,000 for fiscal year 2023;
- (2) \$20,224,800 for fiscal year 2024;
- (3) \$21,438,288 for fiscal year 2025;
- (4) \$22,724,585 for fiscal year 2026; and
- (5) \$24,088,060 for fiscal year 2027.

(Pub. L. 115–246, title III, §310, as added Pub. L. 117–167, div. B, title I, §10109, Aug. 9, 2022, 136 Stat. 1451.)

§18649. Isotope research, development, and production

(a) Definition of critical radioactive and stable isotope

(1) In general

In this section, the term "critical radioactive and stable isotope" means a radioactive and stable isotope—

- (A) the domestic commercial production of which is unavailable or inadequate to satisfy the demand of research, medical, industrial, or related industries in the United States; and
- (B) the supply of which is augmented through—
 - (i) Department production; or
 - (ii) foreign suppliers.

(2) Exclusion

In this section, the term "critical radioactive and stable isotope" does not include the medical isotope molybdenum-99, the production and supply of which is addressed in the American Medical Isotopes Production Act of 2012 (Public Law 112–239; 126 Stat. 2211) (including the amendments made by that Act).

(b) Program

The Director shall—

- (1) carry out, in coordination with other relevant programs across the Department, a program—
 - (A) for the production of critical radioactive and stable isotopes, including the development of techniques to produce isotopes, that the Secretary determines are needed and of sufficient quality and quantity for research, medical, industrial, or related purposes;
 - (B) for the production of critical radioactive and stable isotopes that are in short supply or projected to be in short supply in the future, including byproducts, surplus materials, and related isotope services;
 - (C) to maintain and enhance the infrastructure required to produce and supply critical radioactive and stable isotope products and related services;
 - (D) to conduct research and development on new and improved isotope production and processing techniques that can make critical radioactive and stable isotopes available for research and application as soon as possible while assisting in workforce development;
 - (E) to reduce domestic dependency on the foreign supply of critical radioactive and stable isotopes to ensure national preparedness; and
 - (F) to the maximum extent practicable, in accordance with—
 - (i) evidence-based reports, such as the 2015 report of the Nuclear Science Advisory Committee entitled "Meeting Isotope Needs and Capturing Opportunities for the Future"; and
 - (ii) assessments of isotope supply chains, including the assessment described in paragraph (3), any reports submitted pursuant to subsection (d), and other current and future assessments;

- (2) ensure that isotope production activities carried out under this subsection are consistent with

the statement of policy entitled "Policies and Procedures for Transfer of Commercial Radioisotope Production and Distribution to Private Industry" (30 Fed. Reg. 3247 (March 9, 1965));

(3) assess the domestic requirements of current and emerging critical radioactive and stable isotopes and associated applications, including by consulting end-users, to identify areas that may require Federal investment for expedited development of domestic production capacity for those isotopes, including through public-private partnerships, as appropriate;

(4) ensure that actions taken by the Department do not interfere with, delay, compete with, or otherwise adversely affect efforts by the private sector to make available or otherwise facilitate the supply of critical radioactive and stable isotopes, including efforts under existing agreements between the Department or contractors of the Department and the private sector; and

(5) in coordination with the Assistant Secretary for Nuclear Energy, assess options for demonstrating the production of critical radioactive and stable isotopes in research, test, or commercial nuclear reactors and accelerators, including reactors and accelerators operated at universities.

(c) Advisory committee

(1) In general

Not later than 90 days after August 9, 2022, the Secretary shall establish an advisory committee (referred to in this subsection as the "committee") in alignment with the program established under subsection (b)—

(A) to carry out the activities previously executed as part of the Isotope Subcommittee of the Nuclear Science Advisory Committee; and

(B) to provide expert advice and assistance to the Director in carrying out that program.

(2) Report

(A) In general

Not later than 1 year after the committee is established, the committee shall—

(i) update the 2015 Nuclear Science Advisory Committee Isotopes Subcommittee Report entitled "Meeting Isotope Needs and Capturing Opportunities for the Future"; and

(ii) periodically update that report thereafter as needed.

(B) Inclusions

An updated report under subparagraph (A) shall include an assessment of—

(i) current demand in the United States for critical radioactive and stable isotopes;

(ii) the impact of continued reliance on foreign supply of critical radioactive and stable isotopes;

(iii) proposed mitigation strategies, including increasing domestic production sources for critical radioactive and stable isotopes, that—

(I) are not commercially available; or

(II) are commercially produced in quantities that are not sufficient—

(aa) to satisfy domestic demand; and

(bb) to minimize production constraints and supply disruptions to the United States healthcare and industrial isotope industries;

(iv) current facilities, including upgrades to those facilities, and new facilities needed to meet domestic critical isotope needs; and

(v) workforce development needs.

(3) Nonduplication

The committee shall work in alignment with, and shall not duplicate the efforts of, preexisting advisory committees that are advising the program established under subsection (b).

(4) FACA

The committee shall be subject to the Federal Advisory Committee Act (5 U.S.C. App.).¹

(d) Report

(1) In general

Not later than the end of the first fiscal year beginning after August 9, 2022, and biennially thereafter, the Secretary of Energy Advisory Board shall submit to the Committees on Energy and Natural Resources and Environment and Public Works of the Senate and the Committees on Science, Space, and Technology and Energy and Commerce of the House of Representatives a report describing the progress made under the program established under subsection (b) during the preceding 2 fiscal years.

(2) Inclusions

Each report under paragraph (1) shall include—

(A) an updated assessment of any critical radioactive and stable isotope shortages in the United States;

(B) a description of—

(i) any disruptions in the international supply of critical radioactive and stable isotopes during the preceding 2 fiscal years; and

(ii) the impact of those disruptions on related activities; and

(C)(i) a projection of anticipated disruptions in the international supply, or supply constraints, of critical radioactive and stable isotopes during the next 2 fiscal years; and

(ii) the anticipated impact of those disruptions or constraints, as applicable, on related domestic activities.

(e) Authorization of appropriations

Out of funds authorized to be appropriated for the Office of Science in a fiscal year, there are authorized to be appropriated to the Secretary to carry out this section—

(1) \$175,708,000 for fiscal year 2023;

(2) \$196,056,480 for fiscal year 2024;

(3) \$215,759,869 for fiscal year 2025;

(4) \$200,633,461 for fiscal year 2026; and

(5) \$146,293,469 for fiscal year 2027.

(Pub. L. 115–246, title III, §311, as added Pub. L. 117–167, div. B, title I, §10110(a), Aug. 9, 2022, 136 Stat. 1452.)

EDITORIAL NOTES

REFERENCES IN TEXT

The American Medical Isotopes Production Act of 2012, referred to in subsec. (a)(2), is subtitle F (§§3171–3178) of title XXXI of div. C of Pub. L. 112–239, which enacted sections 2065 and 2142 of this title, amended section 2160d of this title, and enacted provisions set out as a note under section 2065 of this title. For complete classification of this Act to the Code, see Short Title of 2013 Amendment note set out under section 2011 of this title and Tables.

The Federal Advisory Committee Act, referred to in subsec. (c)(4), is Pub. L. 92–463, Oct. 6, 1972, 86 Stat. 770, which was set out in the Appendix to Title 5, Government Organization and Employees, and was substantially repealed and restated in chapter 10 (§1001 et seq.) of Title 5 by Pub. L. 117–286, §§3(a), 7, Dec. 27, 2022, 136 Stat. 4197, 4361. For disposition of sections of the Act into chapter 10 of Title 5, see Disposition Table preceding section 101 of Title 5.

STATUTORY NOTES AND RELATED SUBSIDIARIES

RADIOISOTOPE PROCESSING FACILITY AND STABLE ISOTOPE PRODUCTION AND RESEARCH CENTER

Pub. L. 117–167, div. B, title I, §10110(c), (d), Aug. 9, 2022, 136 Stat. 1455, provided that:

"(c) Radioisotope Processing Facility.—

"(1) IN GENERAL.—The Secretary of Energy (referred to in this subsection as "the Secretary") shall construct a radioisotope processing facility to provide for the growing radiochemical processing capability needs associated with the production of critical radioactive isotopes authorized under section 311 of the Department of Energy Research and Innovation Act [42 U.S.C. 18649].

"(2) FUNDING.—Out of funds authorized to be appropriated under section 311(e) of the Department of Energy Research and Innovation Act, there are authorized to be appropriated to the Secretary to carry out this subsection—

"(A) \$30,500,000 for fiscal year 2023;

"(B) \$75,000,000 for fiscal year 2024;

"(C) \$105,000,000 for fiscal year 2025;

"(D) \$83,000,000 for fiscal year 2026; and

"(E) \$43,000,000 for fiscal year 2027.

"(d) STABLE ISOTOPE PRODUCTION AND RESEARCH CENTER.—

"(1) IN GENERAL.—The Secretary of Energy (referred to in this subsection as "the Secretary") shall establish a stable isotope production and research center—

"(A) to expand the ability of the United States to perform multiple stable isotope production campaigns at large-scale production, as authorized under section 311 of the Department of Energy Research and Innovation Act;

"(B) to mitigate the dependence of the United States on foreign-produced stable isotopes;

"(C) to promote economic resilience; and

"(D) to conduct research and development on stable isotope production and associated methods and technology.

"(2) FUNDING.—Out of funds authorized to be appropriated under section 311(e) of the Department of Energy Research and Innovation Act, there are authorized to be appropriated to the Secretary to carry out this subsection—

"(A) \$74,400,000 for fiscal year 2023;

"(B) \$46,000,000 for fiscal year 2024;

"(C) \$31,200,000 for fiscal year 2025;

"(D) \$33,300,000 for fiscal year 2026; and

"(E) \$13,900,000 for fiscal year 2027."

¹ [See References in Text note below.](#)

§18650. Increased collaboration with teachers and scientists

The Director shall support the development of a scientific workforce through programs that facilitate collaboration between and among teachers at elementary schools and secondary schools served by local educational agencies, students at institutions of higher education, early-career researchers, faculty at institutions of higher education, and the National Laboratories, including through the use of proven techniques to expand the number of individuals from underrepresented groups pursuing and attaining skills or undergraduate and graduate degrees relevant to the mission of the Office of Science.

(Pub. L. 115–246, title III, §312, as added Pub. L. 117–167, div. B, title I, §10111(a), Aug. 9, 2022, 136 Stat. 1456.)

§18651. High intensity laser research initiative

(a) In general

The Director shall establish a high intensity laser research initiative consistent with the recommendations of the National Academies report entitled "Opportunities in Intense Ultrafast Lasers: Reaching for the Brightest Light" and the report from the Brightest Light Initiative workshop entitled "The Future of Intense Ultrafast Lasers in the U.S.". The initiative should include research

and development of petawatt-scale and of high average power laser technologies necessary for future facility needs in discovery science and to advance energy technologies, as well as support for a user network of academic and National Laboratory high intensity laser facilities.

(b) Leverage

The Director shall leverage new laser technologies for more compact, less complex, and low-cost accelerator systems needed for science applications.

(c) Coordination

(1) Director

The Director shall coordinate the initiative established under subsection (a) among all relevant programs within the Office of Science.

(2) Under Secretary

The Under Secretary for Science shall coordinate the initiative established under subsection (a) with other relevant programs within the Department and other Federal agencies.

(d) Authorization of appropriations

Out of funds authorized to be appropriated for the Office of Science in a fiscal year, there are authorized to be appropriated to the Secretary to carry out the activities described in this section—

- (1) \$50,000,000 for fiscal year 2023;
- (2) \$100,000,000 for fiscal year 2024;
- (3) \$150,000,000 for fiscal year 2025;
- (4) \$200,000,000 for fiscal year 2026; and
- (5) \$250,000,000 for fiscal year 2027.

(Pub. L. 115–246, title III, §313, as added Pub. L. 117–167, div. B, title I, §10112(a), Aug. 9, 2022, 136 Stat. 1459.)

§18652. Helium conservation program

(a) In general

The Secretary shall establish a program to reduce the consumption of helium for Department grant recipients and facilities and encourage helium recycling and reuse. The program shall competitively award grants for—

- (1) the purchase of equipment to capture, reuse, and recycle helium;
- (2) the installation, maintenance, and repair of new and existing helium capture, reuse, and recycling equipment; and
- (3) helium alternatives research and development activities.

(b) Report

Not later than 2 years after August 9, 2022, and every 3 years thereafter, the Director shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the purchase of helium as part of research projects and facilities supported by the Department. The report shall include—

- (1) the quantity of helium purchased for projects and facilities supported by Department grants;
- (2) a cost-analysis for such helium;
- (3) to the maximum extent practicable, information on whether such helium was imported from outside the United States, and if available, the country or region of the world from which the helium was imported;
- (4) expected or experienced impacts of helium supply shortages or prices on the research projects and facilities supported by the Department; and
- (5) recommendations for reducing Department grant recipients' exposure to volatile helium prices and supply shortages.

(c) Coordination

In carrying out the program under this section, the Director shall coordinate with the National Science Foundation and other relevant Federal agencies on helium conservation activities.

(d) Duration

The program established under this section shall receive support for a period of not more than 5 years, subject to the availability of appropriations.

(e) Renewal

Upon expiration of any period of support of the program under this section, the Director may renew support for the program for a period of not more than 5 years.

(Pub. L. 115–246, title III, §314, as added Pub. L. 117–167, div. B, title I, §10112(a), Aug. 9, 2022, 136 Stat. 1460.)

§18653. Office of Science Biological Threat Preparedness Research Initiative

(a) In general

The Secretary shall establish within the Office of Science a cross-cutting research initiative, to be known as the "Biological Threat Preparedness Research Initiative", to leverage the innovative analytical resources and tools, user facilities, and advanced computational and networking capabilities of the Department in order to support efforts that prevent, prepare for, predict, and respond to biological threats to national security, including infectious diseases.

(b) Competitive, merit-reviewed process

The Secretary shall carry out the initiative established under subsection (a) through a competitive, merit-reviewed process, and consider applications from National Laboratories, institutions of higher education, multi-institutional collaborations, industry partners and other appropriate entities.

(c) Activities

In carrying out the initiative established under subsection (a), the Secretary shall—

(1) determine a comprehensive set of technical milestones for the research activities described in that subsection;

(2) prioritize the objectives of—

(A) supporting fundamental research and development in advanced analytics, experimental studies, materials synthesis, and high-performance computing technologies needed in order to more quickly and effectively characterize, model, simulate, and predict complex natural phenomena and biological materials related to emerging biological threats;

(B) supporting the development of tools that inform epidemiological modeling, and applying artificial intelligence, machine learning, and other computing tools to accelerate such processes;

(C) supporting research and capabilities that enhance understanding and modeling of the transport of pathogens in indoor and outdoor air and water environments;

(D) identifying priority research opportunities and capabilities for molecular design and modeling for medical countermeasures;

(E) ensuring that new experimental and computational tools are accessible to relevant research communities, including private sector entities and other Federal research institutions; and

(F) supporting activities and projects that combine computational modeling and simulation with experimental research facilities and studies;

(3) leverage the research infrastructure of the Department, including scientific computing user facilities, x-ray light sources, neutron scattering facilities, nanoscale science research centers, and sequencing and biocharacterization facilities;

(4) leverage experience from existing modeling and simulation research and work sponsored by

the Department and promote collaboration and data sharing between National Laboratories, research entities, and user facilities of the Department by providing necessary access and secure data transfer capabilities; and

(5) ensure that new experimental and computational tools are accessible to relevant research communities, including private sector entities, to address emerging biological threats.

(d) Coordination

In carrying out the initiative established under subsection (a), the Secretary shall coordinate activities with—

- (1) other relevant offices of the Department;
- (2) the National Nuclear Security Administration;
- (3) the National Laboratories;
- (4) the Director of the National Science Foundation;
- (5) the Director of the Centers for Disease Control and Prevention;
- (6) the Director of the National Institutes of Health;
- (7) the Assistant Secretary for Preparedness and Response;
- (8) the heads of other relevant Federal agencies;
- (9) institutions of higher education; and
- (10) the private sector.

(e) Infectious Diseases High Performance Computing Research Consortium

(1) In general

The Secretary, in coordination with the Director of the National Science Foundation and the Director of the Office of Science and Technology Policy, shall establish and operate an Emerging Infectious Diseases High Performance Computing Research Consortium (referred to in this section as the "Consortium"), to support the initiative established under subsection (a) by providing, to the extent practicable, a centralized entity for multidisciplinary, collaborative, emerging infectious disease and biosecurity research and development through high performance computing and advanced data analytics technologies and processes, in conjunction with the experimental research facilities and studies supported by the Department.

(2) Membership

The members of the Consortium may include representatives from relevant Federal agencies, the National Laboratories, the private sector, and institutions of higher education, which can each contribute relevant compute time, capabilities, or other resources.

(3) Activities

The Consortium shall—

- (A) match applicants with available Federal and private sector computing resources;
- (B) consider supplemental awards for computing partnerships with Consortium members to qualifying entities on a competitive merit-review basis;
- (C) encourage collaboration and communication among member representatives of the Consortium and awardees;
- (D) provide access to the high-performance computing capabilities, expertise, and user facilities of the Department and the National Laboratories; and
- (E) submit an annual report to the Secretary summarizing the activities of the Consortium, including—
 - (i) describing each project undertaken by the Consortium;
 - (ii) detailing organizational expenditures; and
 - (iii) evaluating contributions to the achievement of technical milestones as determined in subsection (a).

(4) Coordination

The Secretary shall ensure the coordination of, and avoid unnecessary duplication of, the activities of the Consortium with the activities of other research entities of the Department, other

Federal research institutions, institutions of higher education, and the private sector.

(f) Report

Not later than 2 years after August 9, 2022, the Secretary shall submit to the Committee on Science, Space, and Technology and the Committee on Energy and Commerce of the House of Representatives, and the Committee on Energy and Natural Resources, the Committee on Commerce, Science, and Transportation, and the Committee on Health, Education, Labor, and Pensions of the Senate, a report detailing the effectiveness of—

- (1) the interagency coordination among each Federal agency involved in the initiative established under subsection (a);
- (2) the collaborative research achievements of that initiative, including the achievement of the technical milestones determined under that subsection; and
- (3) potential opportunities to expand the technical capabilities of the Department.

(g) Funding

Out of funds authorized to be appropriated for the Office of Science in a fiscal year, there is authorized to be appropriated to the Secretary to carry out the activities under this section \$50,000,000 for each of fiscal years 2023 through 2027.

(Pub. L. 115–246, title III, §315, as added Pub. L. 117–167, div. B, title I, §10112(a), Aug. 9, 2022, 136 Stat. 1461.)

§18654. Midscale instrumentation and research equipment program

(a) In general

The Director shall establish a midscale instrumentation and research equipment program to develop, acquire, and commercialize research instrumentation and equipment needed to meet the missions of the Department and to provide platform technologies for the broader scientific community.

(b) Activities

Under the program established under subsection (a), the Director shall—

- (1) enable the development and acquisition of novel, state-of-the-art instruments that—
 - (A) range in cost from \$1,000,000 to \$20,000,000 each; and
 - (B) would significantly accelerate scientific breakthroughs at user facilities; and
- (2) strongly encourage partnerships among—
 - (A) National Laboratories;
 - (B) user facilities; and
 - (C)(i) institutions in a State receiving funding under the Established Program to Stimulate Competitive Research established under section 13503(b)(3) of this title;
 - (ii) historically Black colleges or universities;
 - (iii) minority-serving institutions of higher education; or
 - (iv) institutions of higher education in a rural area.

(c) Coordination with other programs

The Director shall coordinate the program established under subsection (a) with all other programs carried out by the Office of Science of the Department.

(d) Research equipment and technology development coordination

The Director shall encourage coordination among the Office of Science, the National Laboratories, the Office of Technology Transitions, and relevant academic and private sector entities to identify, disseminate, and commercialize research instruments, equipment, and related technologies developed to aid basic science research discoveries that meet the mission of the Department.

(e) Authorization of appropriations

Out of funds authorized to be appropriated for the Office of Science in a fiscal year, there is authorized to be appropriated to carry out this section \$150,000,000 for each of fiscals ¹ years 2023 through 2027.

(Pub. L. 115–246, title III, §316, as added Pub. L. 117–167, div. B, title I, §10112(a), Aug. 9, 2022, 136 Stat. 1463.)

¹ So in original. Probably should be "fiscal".

§18655. Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the activities described in this subchapter—

- (1) \$8,902,392,400 for fiscal year 2023;
- (2) \$9,541,895,744 for fiscal year 2024;
- (3) \$10,068,198,994 for fiscal year 2025;
- (4) \$10,468,916,520 for fiscal year 2026; and
- (5) \$10,831,342,317 for fiscal year 2027.

(Pub. L. 115–246, title III, §317, as added Pub. L. 117–167, div. B, title I, §10112(a), Aug. 9, 2022, 136 Stat. 1464.)

CHAPTER 162—ENERGY INFRASTRUCTURE

Sec.

18701. Definitions.

SUBCHAPTER I—GRID INFRASTRUCTURE AND RESILIENCY

PART A—GRID INFRASTRUCTURE RESILIENCE AND RELIABILITY

18711. Preventing outages and enhancing the resilience of the electric grid.
18712. Electric grid reliability and resilience research, development, and demonstration.
18713. Transmission facilitation program.

PART A-1—ELECTRIC TRANSMISSION

18715. Transmission facility financing.
- 18715a. Grants to facilitate the siting of interstate electricity transmission lines.
- 18715b. Interregional and offshore wind electricity transmission planning, modeling, and analysis.

PART B—CYBERSECURITY

18721. Enhancing grid security through public-private partnerships.
18722. Energy cyber sense program.
18723. Rural and municipal utility advanced cybersecurity grant and technical assistance program.
18724. Enhanced grid security.
18725. Cybersecurity plan.
18726. Savings provision.

SUBCHAPTER II—SUPPLY CHAINS FOR CLEAN ENERGY TECHNOLOGIES

18741. Battery processing and manufacturing.
18742. Advanced energy manufacturing and recycling grant program.
18743. Critical minerals mining and recycling research.
18744. 21st Century Energy Workforce Advisory Board.

SUBCHAPTER III—FUELS AND TECHNOLOGY INFRASTRUCTURE INVESTMENTS

PART A—NUCLEAR ENERGY INFRASTRUCTURE

- 18751. Infrastructure planning for micro and small modular nuclear reactors.
- 18752. Property interests relating to certain projects and protection of information relating to certain agreements.
- 18753. Civil nuclear credit program.

PART B—MISCELLANEOUS

- 18761. Clean energy demonstration program on current and former mine land.

SUBCHAPTER IV—ENERGY INFORMATION ADMINISTRATION

- 18771. Definitions.
- 18772. Data collection in the electricity sector.
- 18773. Expansion of energy consumption surveys.
- 18774. Data collection on electric vehicle integration with the electricity grids.
- 18775. Plan for the modeling and forecasting of demand for minerals used in the energy sector.
- 18776. Expansion of international energy data.
- 18777. Harmonization of efforts and data.

SUBCHAPTER V—ENERGY EFFICIENCY AND BUILDING INFRASTRUCTURE

PART A—RESIDENTIAL AND COMMERCIAL ENERGY EFFICIENCY

- 18791. Definitions.
- 18792. Energy efficiency revolving loan fund capitalization grant program.
- 18793. Energy auditor training grant program.

PART A-1—RESIDENTIAL EFFICIENCY AND ELECTRIFICATION REBATES

- 18795. Home energy performance-based, whole-house rebates.
- 18795a. High-efficiency electric home rebate program.
- 18795b. State-based home energy efficiency contractor training grants.

PART B—BUILDINGS

- 18801. Building, training, and assessment centers.
- 18802. Career skills training.
- 18803. Commercial building energy consumption information sharing.

PART C—SMART MANUFACTURING

- 18811. Definitions.
- 18812. Leveraging existing agency programs to assist small and medium manufacturers.
- 18813. Leveraging smart manufacturing infrastructure at National Laboratories.
- 18814. State manufacturing leadership.
- 18815. Report.

PART D—SCHOOLS AND NONPROFITS

- 18831. Grants for energy efficiency improvements and renewable energy improvements at public school facilities.
- 18832. Energy efficiency materials pilot program.

PART E—MISCELLANEOUS

- 18841. Survey, analysis, and report on employment and demographics in the energy, energy efficiency, and motor vehicle sectors of the United States.
- 18842. Model guidance for combined heat and power systems and waste heat to power systems.

SUBCHAPTER VI—WAGE RATE REQUIREMENTS

- 18851. Wage rate requirements.

SUBCHAPTER VII—MISCELLANEOUS

- 18861. Office of Clean Energy Demonstrations.

§18701. Definitions

In this division:

(1) Department

The term "Department" means the Department of Energy.

(2) Indian Tribe

The term "Indian Tribe" has the meaning given the term in section 5304 of title 25.

(3) Secretary

The term "Secretary" means the Secretary of Energy.

(Pub. L. 117–58, div. D, §40001, Nov. 15, 2021, 135 Stat. 923.)

EDITORIAL NOTES

REFERENCES IN TEXT

This division, referred to in text, is div. D of Pub. L. 117–58, Nov. 15, 2021, 135 Stat. 923, which enacted this chapter and enacted and amended numerous other sections and notes in the Code. For complete classification of div. D to the Code, see Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

SUBCHAPTER I—GRID INFRASTRUCTURE AND RESILIENCY

PART A—GRID INFRASTRUCTURE RESILIENCE AND RELIABILITY

§18711. Preventing outages and enhancing the resilience of the electric grid

(a) Definitions

In this section:

(1) Disruptive event

The term "disruptive event" means an event in which operations of the electric grid are disrupted, preventively shut off, or cannot operate safely due to extreme weather, wildfire, or a natural disaster.

(2) Eligible entity

The term "eligible entity" means—

- (A) an electric grid operator;
- (B) an electricity storage operator;
- (C) an electricity generator;
- (D) a transmission owner or operator;
- (E) a distribution provider;
- (F) a fuel supplier; and
- (G) any other relevant entity, as determined by the Secretary.

(3) Natural disaster

The term "natural disaster" has the meaning given the term in section 5195a(a) of this title.

(4) Power line

The term "power line" includes a transmission line or a distribution line, as applicable.

(5) Program

The term "program" means the program established under subsection (b).

(b) Establishment of program

Not later than 180 days after November 15, 2021, the Secretary shall establish a program under which the Secretary shall make grants to eligible entities, States, and Indian Tribes in accordance with this section.

(c) Grants to eligible entities

(1) In general

The Secretary may make a grant under the program to an eligible entity to carry out activities that—

(A) are supplemental to existing hardening efforts of the eligible entity planned for any given year; and

(B)(i) reduce the risk of any power lines owned or operated by the eligible entity causing a wildfire; or

(ii) increase the ability of the eligible entity to reduce the likelihood and consequences of disruptive events.

(2) Application

(A) In general

An eligible entity desiring a grant under the program shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(B) Requirement

As a condition of receiving a grant under the program, an eligible entity shall submit to the Secretary, as part of the application of the eligible entity submitted under subparagraph (A), a report detailing past, current, and future efforts by the eligible entity to reduce the likelihood and consequences of disruptive events.

(3) Limitation

The Secretary may not award a grant to an eligible entity in an amount that is greater than the total amount that the eligible entity has spent in the previous 3 years on efforts to reduce the likelihood and consequences of disruptive events.

(4) Priority

In making grants to eligible entities under the program, the Secretary shall give priority to projects that, in the determination of the Secretary, will generate the greatest community benefit (whether rural or urban) in reducing the likelihood and consequences of disruptive events.

(5) Small utilities set aside

The Secretary shall ensure that not less than 30 percent of the amounts made available to eligible entities under the program are made available to eligible entities that sell not more than 4,000,000 megawatt hours of electricity per year.

(d) Grants to States and Indian Tribes

(1) In general

The Secretary, in accordance with this subsection, may make grants under the program to States and Indian Tribes, which each State or Indian Tribe may use to award grants to eligible entities.

(2) Annual application

(A) In general

For each fiscal year, to be eligible to receive a grant under this subsection, a State or Indian Tribe shall submit to the Secretary an application that includes a plan described in subparagraph (B).

(B) Plan required

A plan prepared by a State or Indian Tribe for purposes of an application described in subparagraph (A) shall—

- (i) describe the criteria and methods that will be used by the State or Indian Tribe to award grants to eligible entities;
- (ii) be adopted after notice and a public hearing; and
- (iii) describe the proposed funding distributions and recipients of the grants to be provided by the State or Indian Tribe.

(3) Distribution of funds

(A) In general

The Secretary shall provide grants to States and Indian Tribes under this subsection based on a formula determined by the Secretary, in accordance with subparagraph (B).

(B) Requirement

The formula referred to in subparagraph (A) shall be based on the following factors:

- (i) The total population of the State or Indian Tribe.
- (ii)(I) The total area of the State or the land of the Indian Tribe; or
(II) the areas in the State or on the land of the Indian Tribe with a low ratio of electricity customers per mileage of power lines.
- (iii) The probability of disruptive events in the State or on the land of the Indian Tribe during the previous 10 years, as determined based on the number of federally declared disasters or emergencies in the State or on the land of the Indian Tribe, as applicable, including—
 - (I) disasters for which Fire Management Assistance Grants are provided under section 5187 of this title;
 - (II) major disasters declared by the President under section 5170 of this title;
 - (III) emergencies declared by the President under section 5191 of this title; and
 - (IV) any other federally declared disaster or emergency in the State or on the land of the Indian Tribe.
- (iv) The number and severity, measured by population and economic impacts, of disruptive events experienced by the State or Indian Tribe on or after January 1, 2011.
- (v) The total amount, on a per capita basis, of public and private expenditures during the previous 10 years to carry out mitigation efforts to reduce the likelihood and consequences of disruptive events in the State or on the land of the Indian Tribe, with States or Indian Tribes with higher per capita expenditures receiving additional weight or consideration as compared to States or Indian Tribes with lower per capita expenditures.

(C) Annual update of data used in distribution of funds

Beginning 1 year after November 15, 2021, the Secretary shall annually update—

- (i) all data relating to the factors described in subparagraph (B); and
- (ii) all other data used in distributing grants to States and Indian Tribes under this subsection.

(4) Oversight

The Secretary shall ensure that each grant provided to a State or Indian Tribe under the program is allocated, pursuant to the applicable plan of the State or Indian Tribe, to eligible entities for projects within the State or on the land of the Indian Tribe.

(5) Priority

In making grants to eligible entities using funds made available to the applicable State or Indian Tribe under the program, the State or Indian Tribe shall give priority to projects that, in the determination of the State or Indian Tribe, will generate the greatest community benefit (whether rural or urban) in reducing the likelihood and consequences of disruptive events.

(6) Small utilities set aside

A State or Indian Tribe receiving a grant under the program shall ensure that, of the amounts made available to eligible entities from funds made available to the State or Indian Tribe under the program, the percentage made available to eligible entities that sell not more than 4,000,000 megawatt hours of electricity per year is not less than the percentage of all customers in the State or Indian Tribe that are served by those eligible entities.

(7) Technical assistance and administrative expenses

Of the amounts made available to a State or Indian Tribe under the program each fiscal year, the State or Indian Tribe may use not more than 5 percent for—

- (A) providing technical assistance under subsection (g)(1)(A); and
- (B) administrative expenses associated with the program.

(8) Matching requirement

Each State and Indian Tribe shall be required to match 15 percent of the amount of each grant provided to the State or Indian Tribe under the program.

(e) Use of grants

(1) In general

A grant awarded to an eligible entity under the program may be used for activities, technologies, equipment, and hardening measures to reduce the likelihood and consequences of disruptive events, including—

- (A) weatherization technologies and equipment;
- (B) fire-resistant technologies and fire prevention systems;
- (C) monitoring and control technologies;
- (D) the undergrounding of electrical equipment;
- (E) utility pole management;
- (F) the relocation of power lines or the reconductoring of power lines with low-sag, advanced conductors;
- (G) vegetation and fuel-load management;
- (H) the use or construction of distributed energy resources for enhancing system adaptive capacity during disruptive events, including—
 - (i) microgrids; and
 - (ii) battery-storage subcomponents;
- (I) adaptive protection technologies;
- (J) advanced modeling technologies;
- (K) hardening of power lines, facilities, substations, of ¹ other systems; and
- (L) the replacement of old overhead conductors and underground cables.

(2) Prohibitions and limitations

(A) In general

A grant awarded to an eligible entity under the program may not be used for—

- (i) construction of a new—
 - (I) electric generating facility; or
 - (II) large-scale battery-storage facility that is not used for enhancing system adaptive capacity during disruptive events; or

(ii) cybersecurity.

(B) Certain investments eligible for recovery

(i) In general

An eligible entity may not seek cost recovery for the portion of the cost of any system, technology, or equipment that is funded through a grant awarded under the program.

(ii) Savings provision

Nothing in this subparagraph prohibits an eligible entity from recovering through traditional or incentive-based ratemaking any portion of an investment in a system, technology, or equipment that is not funded by a grant awarded under the program.

(C) Application limitations

An eligible entity may not submit an application for a grant provided by the Secretary under subsection (c) and a grant provided by a State or Indian Tribe pursuant to subsection (d) during the same application cycle.

(f) Distribution of funding

Of the amounts made available to carry out the program for a fiscal year, the Secretary shall ensure that—

- (1) 50 percent is used to award grants to eligible entities under subsection (c); and
- (2) 50 percent is used to make grants to States and Indian Tribes under subsection (d).

(g) Technical and other assistance

(1) In general

The Secretary, States, and Indian Tribes may—

- (A) provide technical assistance and facilitate the distribution and sharing of information to reduce the likelihood and consequences of disruptive events; and
- (B) promulgate consumer-facing information and resources to inform the public of best practices and resources relating to reducing the likelihood and consequences of disruptive events.

(2) Use of funds by the Secretary

Of the amounts made available to the Secretary to carry out the program each fiscal year, the Secretary may use not more than 5 percent for—

- (A) providing technical assistance under paragraph (1)(A); and
- (B) administrative expenses associated with the program.

(h) Matching requirement

(1) In general

Except as provided in paragraph (2), an eligible entity that receives a grant under this section shall be required to match 100 percent of the amount of the grant.

(2) Exception for small utilities

An eligible entity that sells not more than 4,000,000 megawatt hours of electricity per year shall be required to match 1/3 of the amount of the grant.

(i) Biennial report to Congress

(1) In general

Not later than 2 years after November 15, 2021, and every 2 years thereafter through 2026, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives a report describing the program.

(2) Requirements

The report under paragraph (1) shall include information and data on—

- (A) the costs of the projects for which grants are awarded to eligible entities;
- (B) the types of activities, technologies, equipment, and hardening measures funded by those grants; and
- (C) the extent to which the ability of the power grid to withstand disruptive events has increased.

(j) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out the program \$5,000,000,000 for the period of fiscal years 2022 through 2026.

(Pub. L. 117–58, div. D, title I, §40101, Nov. 15, 2021, 135 Stat. 923.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

EXECUTIVE DOCUMENTS

EX. ORD. NO. 14262. STRENGTHENING THE RELIABILITY AND SECURITY OF THE UNITED STATES ELECTRIC GRID

Ex. Ord. No. 14262, Apr. 8, 2025, 90 F.R. 15521, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered:

SECTION 1. *Purpose.* The United States is experiencing an unprecedented surge in electricity demand driven by rapid technological advancements, including the expansion of artificial intelligence data centers and an increase in domestic manufacturing. This increase in demand, coupled with existing capacity challenges, places a significant strain on our Nation's electric grid. Lack of reliability in the electric grid puts the national and economic security of the American people at risk. The United States' ability to remain at the forefront of technological innovation depends on a reliable supply of energy from all available electric generation sources and the integrity of our Nation's electric grid.

SEC. 2. *Policy.* It is the policy of the United States to ensure the reliability, resilience, and security of the electric power grid. It is further the policy of the United States that in order to ensure adequate and reliable electric generation in America, to meet growing electricity demand, and to address the national emergency declared pursuant to Executive Order 14156 of January 20, 2025 (Declaring a National Energy Emergency) [50 U.S.C. 1621 note], our electric grid must utilize all available power generation resources, particularly those secure, redundant fuel supplies that are capable of extended operations.

SEC. 3. *Addressing Energy Reliability and Security with Emergency Authority.* (a) To safeguard the reliability and security of the United States' electric grid during periods when the relevant grid operator forecasts a temporary interruption of electricity supply is necessary to prevent a complete grid failure, the Secretary of Energy, in consultation with such executive department and agency heads as the Secretary of Energy deems appropriate, shall, to the maximum extent permitted by law, streamline, systemize, and expedite the Department of Energy's processes for issuing orders under section 202(c) of the Federal Power Act [16 U.S.C. 824a(c)] during the periods of grid operations described above, including the review and approval of applications by electric generation resources seeking to operate at maximum capacity.

(b) Within 30 days of the date of this order [Apr. 8, 2025], the Secretary of Energy shall develop a uniform methodology for analyzing current and anticipated reserve margins for all regions of the bulk power system regulated by the Federal Energy Regulatory Commission and shall utilize this methodology to identify current and anticipated regions with reserve margins below acceptable thresholds as identified by the Secretary of Energy. This methodology shall:

- (i) analyze sufficiently varied grid conditions and operating scenarios based on historic events to adequately inform the methodology;
- (ii) accredit generation resources in such conditions and scenarios based on historical performance of each specific generation resource type in the real time conditions and operating scenarios of each grid scenario; and
- (iii) be published, along with any analysis it produces, on the Department of Energy's website within 90

days of the date of this order.

(c) The Secretary of Energy shall establish a process by which the methodology described in subsection (b) of this section, and any analysis and results it produces, are assessed on a regular basis, and a protocol to identify which generation resources within a region are critical to system reliability. This protocol shall additionally:

(i) include all mechanisms available under applicable law, including section 202(c) of the Federal Power Act, to ensure any generation resource identified as critical within an at-risk region is appropriately retained as an available generation resource within the at-risk region; and

(ii) prevent, as the Secretary of Energy deems appropriate and consistent with applicable law, including section 202 of the Federal Power Act, an identified generation resource in excess of 50 megawatts of nameplate capacity from leaving the bulk-power system or converting the source of fuel of such generation resource if such conversion would result in a net reduction in accredited generating capacity, as determined by the reserve margin methodology developed under subsection (b) of this section.

SEC. 4. *General Provisions.* (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

DONALD J. TRUMP.

¹ So in original.

§18712. Electric grid reliability and resilience research, development, and demonstration

(a) Definition of Federal financial assistance

In this section, the term "Federal financial assistance" has the meaning given the term in section 200.1 of title 2, Code of Federal Regulations.

(b) Energy infrastructure Federal financial assistance program

(1) Definitions

In this subsection:

(A) Eligible entity

The term "eligible entity" means each of—

- (i) a State;
- (ii) a combination of 2 or more States;
- (iii) an Indian Tribe;
- (iv) a unit of local government; and
- (v) a public utility commission.

(B) Program

The term "program" means the competitive Federal financial assistance program established under paragraph (2).

(2) Establishment

Not later than 180 days after November 15, 2021, the Secretary shall establish a program, to be known as the "Program Upgrading Our Electric Grid and Ensuring Reliability and Resiliency", to provide, on a competitive basis, Federal financial assistance to eligible entities to carry out the purpose described in paragraph (3).

(3) Purpose

The purpose of the program is to coordinate and collaborate with electric sector owners and operators—

(A) to demonstrate innovative approaches to transmission, storage, and distribution infrastructure to harden and enhance resilience and reliability; and

(B) to demonstrate new approaches to enhance regional grid resilience, implemented through States by public and rural electric cooperative entities on a cost-shared basis.

(4) Applications

To be eligible to receive Federal financial assistance under the program, an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including a description of—

(A) how the Federal financial assistance would be used;

(B) the expected beneficiaries, and

(C) in the case of a proposal from an eligible entity described in paragraph (1)(A)(ii), how the proposal would improve regional energy infrastructure.

(5) Selection

The Secretary shall select eligible entities to receive Federal financial assistance under the program on a competitive basis.

(6) Cost share

Section 16352 of this title shall apply to Federal financial assistance provided under the program.

(7) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this subsection, \$5,000,000,000 for the period of fiscal years 2022 through 2026.

(c) Energy improvement in rural or remote areas

(1) Definition of rural or remote area

In this subsection, the term "rural or remote area" means a city, town, or unincorporated area that has a population of not more than 10,000 inhabitants.

(2) Required activities

The Secretary shall carry out activities to improve in rural or remote areas of the United States—

(A) the resilience, safety, reliability, and availability of energy; and

(B) environmental protection from adverse impacts of energy generation.

(3) Federal financial assistance

The Secretary, in consultation with the Secretary of the Interior, may provide Federal financial assistance to rural or remote areas for the purpose of—

(A) overall cost-effectiveness of energy generation, transmission, or distribution systems;

(B) siting or upgrading transmission and distribution lines;

(C) reducing greenhouse gas emissions from energy generation by rural or remote areas;

(D) providing or modernizing electric generation facilities;

(E) developing microgrids; and

(F) increasing energy efficiency.

(4) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this subsection, \$1,000,000,000 for the period of fiscal years 2022 through 2026.

(d) Energy infrastructure resilience framework

(1) In general

The Secretary, in collaboration with the Secretary of Homeland Security, the Federal Energy Regulatory Commission, the North American Electric Reliability Corporation, and interested energy infrastructure stakeholders, shall develop common analytical frameworks, tools, metrics, and data to assess the resilience, reliability, safety, and security of energy infrastructure in the United States, including by developing and storing an inventory of easily transported high-voltage recovery transformers and other required equipment.

(2) Assessment and report

(A) Assessment

The Secretary shall carry out an assessment of—

(i) with respect to the inventory of high-voltage recovery transformers, new transformers, and other equipment proposed to be developed and stored under paragraph (1)—

(I) the policies, technical specifications, and logistical and program structures necessary to mitigate the risks associated with the loss of high-voltage recovery transformers;

(II) the technical specifications for high-voltage recovery transformers;

(III) where inventory of high-voltage recovery transformers should be stored;

(IV) the quantity of high-voltage recovery transformers necessary for the inventory;

(V) how the stored inventory of high-voltage recovery transformers would be secured and maintained;

(VI) how the high-voltage recovery transformers may be transported;

(VII) opportunities for developing new flexible advanced transformer designs; and

(VIII) whether new Federal regulations or cost-sharing requirements are necessary to carry out the storage of high-voltage recovery transformers; and

(ii) any efforts carried out by industry as of the date of the assessment—

(I) to share transformers and equipment;

(II) to develop plans for next generation transformers; and

(III) to plan for surge and long-term manufacturing of, and long-term standardization of, transformer designs.

(B) Protection of information

Information that is provided to, generated by, or collected by the Secretary under subparagraph (A) shall be considered to be critical electric infrastructure information under section 824o–1 of title 16.

(C) Report

Not later than 180 days after November 15, 2021, the Secretary shall submit to Congress a report describing the results of the assessment carried out under subparagraph (A).

(Pub. L. 117–58, div. D, title I, §40103, Nov. 15, 2021, 135 Stat. 928.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18713. Transmission facilitation program

(a) Definitions

In this section:

(1) Capacity contract

The term "capacity contract" means a contract entered into by the Secretary and an eligible entity under subsection (e)(1)(A) for the right to the use of the transmission capacity of an eligible project.

(2) Eligible electric power transmission line

The term "eligible electric power transmission line" means an electric power transmission line that is capable of transmitting not less than—

(A) 1,000 megawatts; or

(B) in the case of a project that consists of upgrading an existing transmission line or constructing a new transmission line in an existing transmission, transportation, or telecommunications infrastructure corridor, 500 megawatts.

(3) Eligible entity

The term "eligible entity" means an entity seeking to carry out an eligible project.

(4) Eligible project

The term "eligible project" means a project (including any related facility)—

(A) to construct a new or replace an existing eligible electric power transmission line;

(B) to increase the transmission capacity of an existing eligible electric power transmission line; or

(C) to connect an isolated microgrid to an existing transmission, transportation, or telecommunications infrastructure corridor located in Alaska, Hawaii, or a territory of the United States.

(5) Fund

The term "Fund" means the Transmission Facilitation Fund established by subsection (d)(1).

(6) Program

The term "program" means the Transmission Facilitation Program established by subsection (b).

(7) Related facility

(A) In general

The term "related facility" means a facility related to an eligible project described in paragraph (4).

(B) Exclusions

The term "related facility" does not include—

(i) facilities used primarily to generate electric energy; or

(ii) facilities used in the local distribution of electric energy.

(b) Establishment

There is established a program, to be known as the "Transmission Facilitation Program", under which the Secretary shall facilitate the construction of electric power transmission lines and related facilities in accordance with subsection (e).

(c) Applications

(1) In general

To be eligible for assistance under this section, an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(2) Procedures

The Secretary shall establish procedures for the solicitation and review of applications from eligible entities.

(d) Funding

(1) Transmission Facilitation Fund

There is established in the Treasury a fund, to be known as the "Transmission Facilitation Fund", consisting of—

(A) all amounts received by the Secretary, including receipts, collections, and recoveries, from any source relating to expenses incurred by the Secretary in carrying out the program, including—

- (i) costs recovered pursuant to paragraph (4);
- (ii) amounts received as repayment of a loan issued to an eligible entity under subsection (e)(1)(B); and
- (iii) amounts contributed by eligible entities for the purpose of carrying out an eligible project with respect to which the Secretary is participating with the eligible entity under subsection (e)(1)(C);

(B) all amounts borrowed from the Secretary of the Treasury by the Secretary for the program under paragraph (2); and

(C) any amounts appropriated to the Secretary for the program.

(2) Borrowing authority

The Secretary of the Treasury may, without further appropriation and without fiscal year limitation, loan to the Secretary on such terms as may be fixed by the Secretary and the Secretary of the Treasury, such sums as, in the judgment of the Secretary, are from time to time required for the purpose of carrying out the program, not to exceed, in the aggregate (including deferred interest), \$2,500,000,000 in outstanding repayable balances at any 1 time.

(3) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out the program, including for any administrative expenses of carrying out the program that are not recovered under paragraph (4), \$10,000,000 for each of fiscal years 2022 through 2026.

(4) Cost recovery

(A) In general

Except as provided in subparagraph (B), the cost of any facilitation activities carried out by the Secretary under subsection (e)(1) shall be collected—

- (i) from eligible entities receiving the benefit of the applicable facilitation activity, on a schedule to be determined by the Secretary; or
- (ii) with respect to a contracted transmission capacity under subsection (e)(1)(A) through rates charged for the use of the contracted transmission capacity.

(B) Forgiveness of balances

(i) Termination or end of useful life

If, at the end of the useful life of an eligible project or the termination of a capacity contract under subsection (f)(5), there is a remaining balance owed to the Treasury under this section, the balance shall be forgiven.

(ii) Unconstructed projects

Funds expended to study projects that are considered pursuant to this section but that are not constructed shall be forgiven.

(C) Recovery of costs of eligible projects

The Secretary may collect the costs of any activities carried out by the Secretary with respect to an eligible project in which the Secretary participates with an eligible entity under subsection (e)(1)(C) through rates charged to customers benefitting from the new transmission capability provided by the eligible project.

(e) Facilitation of eligible projects

(1) In general

To facilitate eligible projects, the Secretary may—

(A) subject to subsections (f) and (i), enter into a capacity contract with respect to an eligible project prior to the date on which the eligible project is completed;

(B) subject to subsections (g) and (i), issue a loan to an eligible entity for the costs of carrying out an eligible project; or

(C) subject to subsections (h) and (i), participate with an eligible entity in designing, developing, constructing, operating, maintaining, or owning an eligible project.

(2) Requirement

The provision and receipt of assistance for an eligible project under paragraph (1) shall be subject to such terms and conditions as the Secretary determines to be appropriate—

(A) to ensure the success of the program; and

(B) to protect the interests of the United States.

(f) Capacity contracts

(1) Purpose

In entering into capacity contracts under subsection (e)(1)(A), the Secretary shall seek to enter into capacity contracts that will encourage other entities to enter into contracts for the transmission capacity of the eligible project.

(2) Payment

The amount paid by the Secretary to an eligible entity under a capacity contract for the right to the use of the transmission capacity of an eligible project shall be—

(A) the fair market value for the use of the transmission capacity, as determined by the Secretary, taking into account, as the Secretary determines to be necessary, the comparable value for the use of the transmission capacity of other electric power transmission lines; and

(B) on a schedule and in such divided amounts, which may be a single amount, that the Secretary determines are likely to facilitate construction of the eligible project, taking into account standard industry practice and factors specific to each applicant, including, as applicable—

(i) potential review by a State regulatory entity of the revenue requirement of an electric utility; and

(ii) the financial model of an independent transmission developer.

(3) Limitations

A capacity contract shall—

(A) be for a term of not more than 40 years; and

(B) be for not more than 50 percent of the total proposed transmission capacity of the applicable eligible project.

(4) Transmission marketing

(A) In general

If the Secretary has not terminated a capacity contract under paragraph (5) before the applicable eligible project enters into service, the Secretary may enter into 1 or more contracts with a third party to market the transmission capacity of the eligible project to which the Secretary holds rights under the capacity contract.

(B) Return

Subject to subparagraph (D), the Secretary shall seek to ensure that any contract entered into under subparagraph (A) maximizes the financial return to the Federal Government.

(C) Competitive solicitation

The Secretary shall only select third parties for contracts under this paragraph through a competitive solicitation.

(D) Requirement

The marketing of capacity pursuant to this subsection, including any marketing by a third party under subparagraph (A), shall be undertaken consistent with the requirements of the Federal Power Act (16 U.S.C. 791a et seq.).

(5) Termination

(A) In general

The Secretary shall seek to terminate a capacity contract as soon as practicable after determining that sufficient transmission capacity of the eligible project has been secured by other entities to ensure the long-term financial viability of the eligible project, including through 1 or more transfers under subparagraph (B).

(B) Transfer

On payment to the Secretary by a third party for transmission capacity to which the Secretary has rights under a capacity contract, the Secretary may transfer the rights to that transmission capacity to that third party.

(C) Relinquishment

On payment to the Secretary by the applicable eligible entity for transmission capacity to which the Secretary has rights under a capacity contract, the Secretary may relinquish the rights to that transmission capacity to the eligible entity.

(D) Requirement

A payment under subparagraph (B) or (C) shall be in an amount sufficient for the Secretary to recover any remaining costs incurred by the Secretary with respect to the quantity of transmission capacity affected by the transfer under subparagraph (B) or the relinquishment under subparagraph (C), as applicable.

(6) Other Federal capacity positions

The existence of a capacity contract does not preclude a Federal entity, including a Federal power marketing administration, from otherwise securing transmission capacity at any time from an eligible project, to the extent that the Federal entity is authorized to secure that transmission capacity.

(7) Form of financial assistance

Entering into a capacity contract under subsection (e)(1)(A) shall be considered a form of financial assistance described in section 1508.1(q)(1)(vii) of title 40, Code of Federal Regulations (as in effect on November 15, 2021).

(8) Transmission planning region consultation

Prior to entering into a capacity contract under this subsection, the Secretary shall consult with the relevant transmission planning region regarding the transmission planning region's identification of needs, and the Secretary shall minimize, to the extent possible, duplication or conflict with the transmission planning region's needs determination and selection of projects that meet such needs.

(g) Interest rate on loans

The rate of interest to be charged in connection with any loan made by the Secretary to an eligible entity under subsection (e)(1)(B) shall be fixed by the Secretary, taking into consideration market yields on outstanding marketable obligations of the United States of comparable maturities as of the date of the loan.

(h) Public-private partnerships

The Secretary may participate with an eligible entity with respect to an eligible project under subsection (e)(1)(C) if the Secretary determines that the eligible project—

(1)(A) is located in an area designated as a national interest electric transmission corridor pursuant to section 216(a) of the Federal Power Act [16 U.S.C. 824p(a)]; or

(B) is necessary to accommodate an actual or projected increase in demand for electric

transmission capacity across more than 1 State or transmission planning region;

(2) is consistent with efficient and reliable operation of the transmission grid;

(3) will be operated in conformance with prudent utility practices;

(4) will be operated in conformance with the rules of—

(A) a Transmission Organization (as defined in section 3 of the Federal Power Act (16 U.S.C. 796)), if applicable; or

(B) a regional reliability organization; and

(5) is not duplicative of the functions of existing transmission facilities that are the subject of ongoing siting and related permitting proceedings.

(i) Certification

Prior to taking action to facilitate an eligible project under subparagraph (A), (B), or (C) of subsection (e)(1), the Secretary shall certify that—

(1) the eligible project is in the public interest;

(2) the eligible project is unlikely to be constructed in as timely a manner or with as much transmission capacity in the absence of facilitation under this section, including with respect to an eligible project for which a Federal investment tax credit may be allowed; and

(3) it is reasonable to expect that the proceeds from the eligible project will be adequate, as applicable—

(A) to recover the cost of a capacity contract entered into under subsection (e)(1)(A);

(B) to repay a loan provided under subsection (e)(1)(B); or

(C) to repay any amounts borrowed from the Secretary of the Treasury under subsection (d)(2).

(j) Other authorities, limitations, and effects

(1) Participation

The Secretary may permit other entities to participate in the financing, construction, and ownership of eligible projects facilitated under this section.

(2) Operations and maintenance

Facilitation by the Secretary of an eligible project under this section does not create any obligation on the part of the Secretary to operate or maintain the eligible project.

(3) Federal facilities

For purposes of cost recovery under subsection (d)(4) and repayment of a loan issued under subsection (e)(1)(B), each eligible project facilitated by the Secretary under this section shall be treated as separate and distinct from—

(A) each other eligible project; and

(B) all other Federal power and transmission facilities.

(4) Effect on ancillary services authority and obligations

Nothing in this section confers on the Secretary or any Federal power marketing administration any additional authority or obligation to provide ancillary services to users of transmission facilities constructed or upgraded under this section.

(5) Effect on Western Area Power Administration projects

Nothing in this section affects—

(A) any pending project application before the Western Area Power Administration under section 16421a of this title; or

(B) any agreement entered into by the Western Power Administration under that section.

(6) Third-party finance

Nothing in this section precludes an eligible project facilitated under this section from being eligible as a project under section 16421 of this title.

(7) Limitation on loans

An eligible project may not be the subject of both—

- (A) a loan under subsection (e)(1)(B); and
- (B) a Federal loan under section 16421a of this title.

(8) Considerations

In evaluating eligible projects for possible facilitation under this section, the Secretary shall prioritize projects that, to the maximum extent practicable—

- (A) use technology that enhances the capacity, efficiency, resiliency, or reliability of an electric power transmission system, including—
 - (i) reconductoring of an existing electric power transmission line with advanced conductors; and
 - (ii) hardware or software that enables dynamic line ratings, advanced power flow control, or grid topology optimization;
- (B) will improve the resiliency and reliability of an electric power transmission system;
- (C) facilitate interregional transfer capacity that supports strong and equitable economic growth; and
- (D) contribute to national or subnational goals to lower electricity sector greenhouse gas emissions.

(Pub. L. 117–58, div. D, title I, §40106, Nov. 15, 2021, 135 Stat. 934.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Federal Power Act, referred to in subsec. (f)(4)(D), is act June 10, 1920, ch. 285, 41 Stat. 1063, which is classified generally to chapter 12 (§791a et seq.) of Title 16, Conservation. For complete classification of this Act to the Code, see section 791a of Title 16 and Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

PART A–1—ELECTRIC TRANSMISSION

§18715. Transmission facility financing

(a) Appropriation

In addition to amounts otherwise available, there is appropriated to the Secretary for fiscal year 2022, out of any money in the Treasury not otherwise appropriated, \$2,000,000,000, to remain available through September 30, 2030, to carry out this section: *Provided*, That the Secretary shall not enter into any loan agreement pursuant to this section that could result in disbursements after September 30, 2031.

(b) Use of funds

The Secretary shall use the amounts made available by subsection (a) to carry out a program to pay the costs of direct loans to non-Federal borrowers, subject to the limitations that apply to loan guarantees under section 50141(d) and under such terms and conditions as the Secretary determines

to be appropriate, for the construction or modification of electric transmission facilities designated by the Secretary to be necessary in the national interest under section 824p(a) of title 16.

(c) Loans

A direct loan provided under this section—

(1) shall have a term that does not exceed the lesser of—

- (A) 90 percent of the projected useful life, in years, of the eligible transmission facility; and
- (B) 30 years;

(2) shall not exceed 80 percent of the project costs; and

(3) shall, on first issuance, be subject to the condition that the direct loan is not subordinate to other financing.

(d) Interest rates

A direct loan provided under this section shall bear interest at a rate determined by the Secretary, taking into consideration market yields on outstanding marketable obligations of the United States of comparable maturities as of the date on which the direct loan is made.

(e) Definition of direct loan

In this section, the term "direct loan" has the meaning given the term in section 661a of title 2. (Pub. L. 117–169, title V, §50151, Aug. 16, 2022, 136 Stat. 2046.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 50141(d), referred to in subsec. (b), is section 50141(d) of Pub. L. 117–169, title V, Aug. 16, 2022, 136 Stat. 2043, which is not classified to the Code.

CODIFICATION

Section was enacted as part of Pub. L. 117–169, and not as part of div. D of Pub. L. 117–58, which enacted this chapter.

STATUTORY NOTES AND RELATED SUBSIDIARIES

DEFINITION OF "SECRETARY"

"Secretary" means the Secretary of Energy, see section 50111 of Pub. L. 117–169, set out as a note under section 17113b of this title.

§18715a. Grants to facilitate the siting of interstate electricity transmission lines

(a) Appropriation

In addition to amounts otherwise available, there is appropriated to the Secretary for fiscal year 2022, out of any money in the Treasury not otherwise appropriated, \$760,000,000, to remain available through September 30, 2029, for making grants in accordance with this section and for administrative expenses associated with carrying out this section.

(b) Use of funds

(1) In general

The Secretary may make a grant under this section to a siting authority for, with respect to a covered transmission project, any of the following activities:

- (A) Studies and analyses of the impacts of the covered transmission project.
- (B) Examination of up to 3 alternate siting corridors within which the covered transmission project feasibly could be sited.
- (C) Participation by the siting authority in regulatory proceedings or negotiations in another

jurisdiction, or under the auspices of a Transmission Organization (as defined in section 796 of title 16) that is also considering the siting or permitting of the covered transmission project.

(D) Participation by the siting authority in regulatory proceedings at the Federal Energy Regulatory Commission or a State regulatory commission for determining applicable rates and cost allocation for the covered transmission project.

(E) Other measures and actions that may improve the chances of, and shorten the time required for, approval by the siting authority of the application relating to the siting or permitting of the covered transmission project, as the Secretary determines appropriate.

(2) Economic development

The Secretary may make a grant under this section to a siting authority, or other State, local, or Tribal governmental entity, for economic development activities for communities that may be affected by the construction and operation of a covered transmission project, provided that the Secretary shall not enter into any grant agreement pursuant to this section that could result in any outlays after September 30, 2031.

(c) Conditions

(1) Final decision on application

In order to receive a grant for an activity described in subsection (b)(1), the Secretary shall require a siting authority to agree, in writing, to reach a final decision on the application relating to the siting or permitting of the applicable covered transmission project not later than 2 years after the date on which such grant is provided, unless the Secretary authorizes an extension for good cause.

(2) Federal share

The Federal share of the cost of an activity described in subparagraph (C) or (D) of subsection (b)(1) shall not exceed 50 percent.

(3) Economic development

The Secretary may only disburse grant funds for economic development activities under subsection (b)(2)—

(A) to a siting authority upon approval by the siting authority of the applicable covered transmission project; and

(B) to any other State, local, or Tribal governmental entity upon commencement of construction of the applicable covered transmission project in the area under the jurisdiction of the entity.

(d) Returning funds

If a siting authority that receives a grant for an activity described in subsection (b)(1) fails to use all grant funds within 2 years of receipt, the siting authority shall return to the Secretary any such unused funds.

(e) Definitions

In this section:

(1) Covered transmission project

The term "covered transmission project" means a high-voltage interstate or offshore electricity transmission line—

(A) that is proposed to be constructed and to operate—

(i) at a minimum of 275 kilovolts of either alternating-current or direct-current electric energy by an entity; or

(ii) offshore and at a minimum of 200 kilovolts of either alternating-current or direct-current electric energy by an entity; and

(B) for which such entity has applied, or informed a siting authority of such entity's intent to apply, for regulatory approval.

(2) Siting authority

The term "siting authority" means a State, local, or Tribal governmental entity with authority to make a final determination regarding the siting, permitting, or regulatory status of a covered transmission project that is proposed to be located in an area under the jurisdiction of the entity.

(Pub. L. 117–169, title V, §50152, Aug. 16, 2022, 136 Stat. 2046.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of Pub. L. 117–169, and not as part of div. D of Pub. L. 117–58, which enacted this chapter.

STATUTORY NOTES AND RELATED SUBSIDIARIES

DEFINITIONS

For definitions of "Secretary" and "State" as used in this section, see section 50111 of Pub. L. 117–169, set out as a note under section 17113b of this title.

§18715b. Interregional and offshore wind electricity transmission planning, modeling, and analysis

(a) Appropriation

In addition to amounts otherwise available, there is appropriated to the Secretary for fiscal year 2022, out of any money in the Treasury not otherwise appropriated, \$100,000,000, to remain available through September 30, 2031, to carry out this section.

(b) Use of funds

The Secretary shall use amounts made available under subsection (a)—

(1) to pay expenses associated with convening relevant stakeholders to address the development of interregional electricity transmission and transmission of electricity that is generated by offshore wind; and

(2) to conduct planning, modeling, and analysis regarding interregional electricity transmission and transmission of electricity that is generated by offshore wind, taking into account the local, regional, and national economic, reliability, resilience, security, public policy, and environmental benefits of interregional electricity transmission and transmission of electricity that is generated by offshore wind, including planning, modeling, and analysis, as the Secretary determines appropriate, pertaining to—

(A) clean energy integration into the electric grid, including the identification of renewable energy zones;

(B) the effects of changes in weather due to climate change on the reliability and resilience of the electric grid;

(C) cost allocation methodologies that facilitate the expansion of the bulk power system;

(D) the benefits of coordination between generator interconnection processes and transmission planning processes;

(E) the effect of increased electrification on the electric grid;

(F) power flow modeling;

(G) the benefits of increased interconnections or interties between or among the Western Interconnection, the Eastern Interconnection, the Electric Reliability Council of Texas, and other interconnections, as applicable;

(H) the cooptimization of transmission and generation, including variable energy resources, energy storage, and demand-side management;

(I) the opportunities for use of nontransmission alternatives, energy storage, and

grid-enhancing technologies;

(J) economic development opportunities for communities arising from development of interregional electricity transmission and transmission of electricity that is generated by offshore wind;

(K) evaluation of existing rights-of-way and the need for additional transmission corridors; and

(L) a planned national transmission grid, which would include a networked transmission system to optimize the existing grid for interconnection of offshore wind farms.

(Pub. L. 117–169, title V, §50153, Aug. 16, 2022, 136 Stat. 2048.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of Pub. L. 117–169, and not as part of div. D of Pub. L. 117–58, which enacted this chapter.

STATUTORY NOTES AND RELATED SUBSIDIARIES

DEFINITION OF "SECRETARY"

"Secretary" means the Secretary of Energy, see section 50111 of Pub. L. 117–169, set out as a note under section 17113b of this title.

PART B—CYBERSECURITY

§18721. Enhancing grid security through public-private partnerships

(a) Definitions

In this section:

(1) Bulk-power system; Electric Reliability Organization

The terms "bulk-power system" and "Electric Reliability Organization" has the meaning given the terms in section 824o(a) of title 16.

(2) Electric utility; State regulatory authority

The terms "electric utility" and "State regulatory authority" have the meanings given the terms in section 796 of title 16.

(b) Program to promote and advance physical security and cybersecurity of electric utilities

(1) Establishment

The Secretary, in coordination with the Secretary of Homeland Security and in consultation with, as the Secretary determines to be appropriate, the heads of other relevant Federal agencies, State regulatory authorities, industry stakeholders, and the Electric Reliability Organization, shall carry out a program—

(A) to develop, and provide for voluntary implementation of, maturity models, self-assessments, and auditing methods for assessing the physical security and cybersecurity of electric utilities;

(B) to assist with threat assessment and cybersecurity training for electric utilities;

(C) to provide technical assistance for electric utilities subject to the program;

(D) to provide training to electric utilities to address and mitigate cybersecurity supply chain management risks;

(E) to advance, in partnership with electric utilities, the cybersecurity of third-party vendors

that manufacture components of the electric grid;

(F) to increase opportunities for sharing best practices and data collection within the electric sector; and

(G) to assist, in the case of electric utilities that own defense critical electric infrastructure (as defined in section 824o–1(a) of title 16), with full engineering reviews of critical functions and operations at both the utility and defense infrastructure levels—

(i) to identify unprotected avenues for cyber-enabled sabotage that would have catastrophic effects to national security; and

(ii) to recommend and implement engineering protections to ensure continued operations of identified critical functions even in the face of constant cyber attacks and achieved perimeter access by sophisticated adversaries.

(2) Scope

In carrying out the program under paragraph (1), the Secretary shall—

(A) take into consideration—

(i) the different sizes of electric utilities; and

(ii) the regions that electric utilities serve;

(B) prioritize electric utilities with fewer available resources due to size or region; and

(C) to the maximum extent practicable, use and leverage—

(i) existing Department and Department of Homeland Security programs; and

(ii) existing programs of the Federal agencies determined to be appropriate under paragraph (1).

(c) Report on cybersecurity of distribution systems

Not later than 1 year after November 15, 2021, the Secretary, in coordination with the Secretary of Homeland Security and in consultation with, as the Secretary determines to be appropriate, the heads of other Federal agencies, State regulatory authorities, and industry stakeholders, shall submit to Congress a report that assesses—

(1) priorities, policies, procedures, and actions for enhancing the physical security and cybersecurity of electricity distribution systems, including behind-the-meter generation, storage, and load management devices, to address threats to, and vulnerabilities of, electricity distribution systems; and

(2) the implementation of the priorities, policies, procedures, and actions assessed under paragraph (1), including—

(A) an estimate of potential costs and benefits of the implementation; and

(B) an assessment of any public-private cost-sharing opportunities.

(d) Protection of information

Information provided to, or collected by, the Federal Government pursuant to this section the disclosure of which the Secretary reasonably foresees could be detrimental to the physical security or cybersecurity of any electric utility or the bulk-power system—

(1) shall be exempt from disclosure under section 552(b)(3) of title 5; and

(2) shall not be made available by any Federal agency, State, political subdivision of a State, or Tribal authority pursuant to any Federal, State, political subdivision of a State, or Tribal law, respectively, requiring public disclosure of information or records.

(Pub. L. 117–58, div. D, title I, §40121, Nov. 15, 2021, 135 Stat. 949.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18722. Energy cyber sense program

(a) Definitions

In this section:

(1) Bulk-power system

The term "bulk-power system" has the meaning given the term in section 824o(a) of title 16.

(2) Program

The term "program" means the voluntary Energy Cyber Sense program established under subsection (b).

(b) Establishment

The Secretary, in coordination with the Secretary of Homeland Security and in consultation with the heads of other relevant Federal agencies, shall establish a voluntary Energy Cyber Sense program to test the cybersecurity of products and technologies intended for use in the energy sector, including in the bulk-power system.

(c) Program requirements

In carrying out subsection (b), the Secretary, in coordination with the Secretary of Homeland Security and in consultation with the heads of other relevant Federal agencies, shall—

(1) establish a testing process under the program to test the cybersecurity of products and technologies intended for use in the energy sector, including products relating to industrial control systems and operational technologies, such as supervisory control and data acquisition systems;

(2) for products and technologies tested under the program, establish and maintain cybersecurity vulnerability reporting processes and a related database that are integrated with Federal vulnerability coordination processes;

(3) provide technical assistance to electric utilities, product manufacturers, and other energy sector stakeholders to develop solutions to mitigate identified cybersecurity vulnerabilities in products and technologies tested under the program;

(4) biennially review products and technologies tested under the program for cybersecurity vulnerabilities and provide analysis with respect to how those products and technologies respond to and mitigate cyber threats;

(5) develop guidance that is informed by analysis and testing results under the program for electric utilities and other components of the energy sector for the procurement of products and technologies;

(6) provide reasonable notice to, and solicit comments from, the public prior to establishing or revising the testing process under the program;

(7) oversee the testing of products and technologies under the program; and

(8) consider incentives to encourage the use of analysis and results of testing under the program in the design of products and technologies for use in the energy sector.

(d) Protection of information

Information provided to, or collected by, the Federal Government pursuant to this section the disclosure of which the Secretary reasonably foresees could be detrimental to the physical security or cybersecurity of any component of the energy sector, including any electric utility or the bulk-power system—

(1) shall be exempt from disclosure under section 552(b)(3) of title 5; and

(2) shall not be made available by any Federal agency, State, political subdivision of a State, or Tribal authority pursuant to any Federal, State, political subdivision of a State, or Tribal law, respectively, requiring public disclosure of information or records.

(e) Federal Government liability

Nothing in this section authorizes the commencement of an action against the United States with respect to the testing of a product or technology under the program.

(Pub. L. 117–58, div. D, title I, §40122, Nov. 15, 2021, 135 Stat. 950.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18723. Rural and municipal utility advanced cybersecurity grant and technical assistance program

(a) Definitions

In this section:

(1) Advanced cybersecurity technology

The term "advanced cybersecurity technology" means any technology, operational capability, or service, including computer hardware, software, or a related asset, that enhances the security posture of electric utilities through improvements in the ability to protect against, detect, respond to, or recover from a cybersecurity threat (as defined in section 650 of title 6).

(2) Bulk-power system

The term "bulk-power system" has the meaning given the term in section 824o(a) of title 16.

(3) Eligible entity

The term "eligible entity" means—

- (A) a rural electric cooperative;
- (B) a utility owned by a political subdivision of a State, such as a municipally owned electric utility;
- (C) a utility owned by any agency, authority, corporation, or instrumentality of 1 or more political subdivisions of a State;
- (D) a not-for-profit entity that is in a partnership with not fewer than 6 entities described in subparagraph (A), (B), or (C); and
- (E) an investor-owned electric utility that sells less than 4,000,000 megawatt hours of electricity per year.

(4) Program

The term "Program" means the Rural and Municipal Utility Advanced Cybersecurity Grant and Technical Assistance Program established under subsection (b).

(b) Establishment

Not later than 180 days after November 15, 2021, the Secretary, in coordination with the Secretary of Homeland Security and in consultation with the Federal Energy Regulatory Commission, the North American Electric Reliability Corporation, and the Electricity Subsector Coordinating Council, shall establish a program, to be known as the "Rural and Municipal Utility Advanced Cybersecurity Grant and Technical Assistance Program", to provide grants and technical assistance to, and enter into cooperative agreements with, eligible entities to protect against, detect, respond to, and recover from cybersecurity threats.

(c) Objectives

The objectives of the Program shall be—

- (1) to deploy advanced cybersecurity technologies for electric utility systems; and
- (2) to increase the participation of eligible entities in cybersecurity threat information sharing programs.

(d) Awards

(1) In general

The Secretary—

(A) shall award grants and provide technical assistance under the Program to eligible entities on a competitive basis;

(B) shall develop criteria and a formula for awarding grants and providing technical assistance under the Program;

(C) may enter into cooperative agreements with eligible entities that can facilitate the objectives described in subsection (c); and

(D) shall establish a process to ensure that all eligible entities are informed about and can become aware of opportunities to receive grants or technical assistance under the Program.

(2) Priority for grants and technical assistance

In awarding grants and providing technical assistance under the Program, the Secretary shall give priority to an eligible entity that, as determined by the Secretary—

(A) has limited cybersecurity resources;

(B) owns assets critical to the reliability of the bulk-power system; or

(C) owns defense critical electric infrastructure (as defined in section 824o–1(a) of title 16).

(e) Protection of information

Information provided to, or collected by, the Federal Government pursuant to this section the disclosure of which the Secretary reasonably foresees could be detrimental to the physical security or cybersecurity of any electric utility or the bulk-power system—

(1) shall be exempt from disclosure under section 552(b)(3) of title 5; and

(2) shall not be made available by any Federal agency, State, political subdivision of a State, or Tribal authority pursuant to any Federal, State, political subdivision of a State, or Tribal law, respectively, requiring public disclosure of information or records.

(f) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section \$250,000,000 for the period of fiscal years 2022 through 2026.

(Pub. L. 117–58, div. D, title I, §40124, Nov. 15, 2021, 135 Stat. 953; Pub. L. 117–263, div. G, title LXXI, §7143(d)(3), Dec. 23, 2022, 136 Stat. 3663.)

EDITORIAL NOTES

AMENDMENTS

2022—Subsec. (a)(1). Pub. L. 117–263 substituted "section 650 of title 6" for "section 1501 of title 6".

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18724. Enhanced grid security

(a) Definitions

In this section:

(1) Electric utility

The term "electric utility" has the meaning given the term in section 796 of title 16.

(2) E-ISAC

The term "E-ISAC" means the Electricity Information Sharing and Analysis Center.

(b) Cybersecurity for the energy sector research, development, and demonstration program

(1) In general

The Secretary, in coordination with the Secretary of Homeland Security and in consultation with, as determined appropriate, other Federal agencies, the energy sector, the States, Indian Tribes, Tribal organizations, territories or freely associated states, and other stakeholders, shall develop and carry out a program—

(A) to develop advanced cybersecurity applications and technologies for the energy sector—

(i) to identify and mitigate vulnerabilities, including—

(I) dependencies on other critical infrastructure;

(II) impacts from weather and fuel supply;

(III) increased dependence on inverter-based technologies; and

(IV) vulnerabilities from unpatched hardware and software systems; and

(ii) to advance the security of field devices and third-party control systems, including—

(I) systems for generation, transmission, distribution, end use, and market functions;

(II) specific electric grid elements including advanced metering, demand response, distribution, generation, and electricity storage;

(III) forensic analysis of infected systems;

(IV) secure communications; and

(V) application of in-line edge security solutions;

(B) to leverage electric grid architecture as a means to assess risks to the energy sector, including by implementing an all-hazards approach to communications infrastructure, control systems architecture, and power systems architecture;

(C) to perform pilot demonstration projects with the energy sector to gain experience with new technologies;

(D) to develop workforce development curricula for energy sector-related cybersecurity; and

(E) to develop improved supply chain concepts for secure design of emerging digital components and power electronics.

(2) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this subsection \$250,000,000 for the period of fiscal years 2022 through 2026.

(c) Energy sector operational support for cyberresilience program

(1) In general

The Secretary may develop and carry out a program—

(A) to enhance and periodically test—

(i) the emergency response capabilities of the Department; and

(ii) the coordination of the Department with other agencies, the National Laboratories, and private industry;

(B) to expand cooperation of the Department with the intelligence community for energy sector-related threat collection and analysis;

(C) to enhance the tools of the Department and E-ISAC for monitoring the status of the energy sector;

(D) to expand industry participation in E-ISAC; and

(E) to provide technical assistance to small electric utilities for purposes of assessing and improving cybermaturity levels and addressing gaps identified in the assessment.

(2) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this subsection \$50,000,000 for the period of fiscal years 2022 through 2026.

(d) Modeling and assessing energy infrastructure risk

(1) In general

The Secretary, in coordination with the Secretary of Homeland Security, shall develop and carry out an advanced energy security program to secure energy networks, including—

- (A) electric networks;
- (B) natural gas networks; and
- (C) oil exploration, transmission, and delivery networks.

(2) Security and resiliency objective

The objective of the program developed under paragraph (1) is to increase the functional preservation of electric grid operations or natural gas and oil operations in the face of natural and human-made threats and hazards, including electric magnetic pulse and geomagnetic disturbances.

(3) Eligible activities

In carrying out the program developed under paragraph (1), the Secretary may—

- (A) develop capabilities to identify vulnerabilities and critical components that pose major risks to grid security if destroyed or impaired;
- (B) provide modeling at the national level to predict impacts from natural or human-made events;
- (C) add physical security to the cybersecurity maturity model;
- (D) conduct exercises and assessments to identify and mitigate vulnerabilities to the electric grid, including providing mitigation recommendations;
- (E) conduct research on hardening solutions for critical components of the electric grid;
- (F) conduct research on mitigation and recovery solutions for critical components of the electric grid; and
- (G) provide technical assistance to States and other entities for standards and risk analysis.

(4) Savings provision

Nothing in this section authorizes new regulatory requirements.

(5) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this subsection \$50,000,000 for the period of fiscal years 2022 through 2026.

(Pub. L. 117–58, div. D, title I, §40125, Nov. 15, 2021, 135 Stat. 954.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18725. Cybersecurity plan

(a) In general

The Secretary may require, as the Secretary determines appropriate, a recipient of any award or other funding under this division—

- (1) to submit to the Secretary, prior to the issuance of the award or other funding, a cybersecurity plan that demonstrates the cybersecurity maturity of the recipient in the context of the project for which that award or other funding was provided; and
- (2) establish a plan for maintaining and improving cybersecurity throughout the life of the

proposed solution of the project.

(b) Contents of cybersecurity plan

A cybersecurity plan described in subsection (a) shall, at a minimum, describe how the recipient described in that subsection—

(1) plans to maintain cybersecurity between networks, systems, devices, applications, or components—

(A) within the proposed solution of the project; and

(B) at the necessary external interfaces at the proposed solution boundaries;

(2) will perform ongoing evaluation of cybersecurity risks to address issues as the issues arise throughout the life of the proposed solution;

(3) will report known or suspected network or system compromises of the project to the Secretary; and

(4) will leverage applicable cybersecurity programs of the Department, including cyber vulnerability testing and security engineering evaluations.

(c) Additional guidance

Each recipient described in subsection (a) should—

(1) maximize the use of open guidance and standards, including, wherever possible—

(A) the Cybersecurity Capability Maturity Model of the Department (or a successor model); and

(B) the Framework for Improving Critical Infrastructure Cybersecurity of the National Institute of Standards and Technology; and

(2) document—

(A) any deviation from open standards; and

(B) the utilization of proprietary standards where the recipient determines that such deviation necessary.

(d) Coordination

The Office of Cybersecurity, Energy Security, and Emergency Response of the Department shall review each cybersecurity plan submitted under subsection (a) to ensure integration with Department research, development, and demonstration programs.

(e) Protection of information

Information provided to, or collected by, the Federal Government pursuant to this section the disclosure of which the Secretary reasonably foresees could be detrimental to the physical security or cybersecurity of any electric utility or the bulk-power system—

(1) shall be exempt from disclosure under section 552(b)(3) of title 5; and

(2) shall not be made available by any Federal agency, State, political subdivision of a State, or Tribal authority pursuant to any Federal, State, political subdivision of a State, or Tribal law, respectively, requiring public disclosure of information or records.

(Pub. L. 117–58, div. D, title I, §40126, Nov. 15, 2021, 135 Stat. 956.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18726. Savings provision

Nothing in this part affects the authority, existing on the day before November 15, 2021, of any other Federal department or agency, including the authority provided to the Secretary of Homeland Security and the Director of the Cybersecurity and Infrastructure Security Agency in title XXII of the Homeland Security Act of 2002 (6 U.S.C. 651 et seq.).

(Pub. L. 117–58, div. D, title I, §40127, Nov. 15, 2021, 135 Stat. 957.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

SUBCHAPTER II—SUPPLY CHAINS FOR CLEAN ENERGY TECHNOLOGIES

§18741. Battery processing and manufacturing

(a) Definitions

In this section:

(1) Advanced battery

The term "advanced battery" means a battery that consists of a battery cell that can be integrated into a module, pack, or system to be used in energy storage applications, including electric vehicles and the electric grid.

(2) Advanced battery component

(A) In general

The term "advanced battery component" means a component of an advanced battery.

(B) Inclusions

The term "advanced battery component" includes materials, enhancements, enclosures, anodes, cathodes, electrolytes, cells, and other associated technologies that comprise an advanced battery.

(3) Battery material

The term "battery material" means the raw and processed form of a mineral, metal, chemical, or

other material used in an advanced battery component.

(4) Eligible entity

The term "eligible entity" means an entity described in any of paragraphs (1) through (5) of section 16353(b) of this title.

(5) Foreign entity of concern

The term "foreign entity of concern" means a foreign entity that is—

(A) designated as a foreign terrorist organization by the Secretary of State under section 1189(a) of title 8;

(B) included on the list of specially designated nationals and blocked persons maintained by the Office of Foreign Assets Control of the Department of the Treasury (commonly known as the "SDN list");

(C) owned by, controlled by, or subject to the jurisdiction or direction of a government of a foreign country that is a covered nation (as defined in section 2533c(d) 1 of title 10);

(D) alleged by the Attorney General to have been involved in activities for which a conviction was obtained under—

(i) chapter 37 of title 18 (commonly known as the "Espionage Act");

(ii) section 951 or 1030 of title 18;

(iii) chapter 90 of title 18 (commonly known as the "Economic Espionage Act of 1996");

(iv) the Arms Export Control Act (22 U.S.C. 2751 et seq.);

(v) section 224, 225, 226, 227, or 236 of the Atomic Energy Act of 1954 (42 U.S.C. 2274, 2275, 2276, 2277, and 2 2284);

(vi) the Export Control Reform Act of 2018 (50 U.S.C. 4801 et seq.); or

(vii) the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq.); or

(E) determined by the Secretary, in consultation with the Secretary of Defense and the Director of National Intelligence, to be engaged in unauthorized conduct that is detrimental to the national security or foreign policy of the United States.

(6) Manufacturing

The term "manufacturing", with respect to an advanced battery and an advanced battery component, means the industrial and chemical steps taken to produce that advanced battery or advanced battery component, respectively.

(7) Processing

The term "processing", with respect to battery material, means the refining of materials, including the treating, baking, and coating processes used to convert raw products into constituent materials employed directly in advanced battery manufacturing.

(8) Recycling

The term "recycling" means the recovery of materials from advanced batteries to be reused in similar applications, including the extracting, processing, and recoating of battery materials and advanced battery components.

(b) Battery material processing grants

(1) In general

Not later than 180 days after November 15, 2021, the Secretary shall establish within the Office of Fossil Energy a program, to be known as the "Battery Material Processing Grant Program" (referred to in this subsection as the "program"), under which the Secretary shall award grants in accordance with this subsection.

(2) Purposes

The purposes of the program are—

(A) to ensure that the United States has a viable battery materials processing industry to

supply the North American battery supply chain;

(B) to expand the capabilities of the United States in advanced battery manufacturing;

(C) to enhance national security by reducing the reliance of the United States on foreign competitors for critical materials and technologies; and

(D) to enhance the domestic processing capacity of minerals necessary for battery materials and advanced batteries.

(3) Grants

(A) In general

Under the program, the Secretary shall award grants to eligible entities—

(i) to carry out 1 or more demonstration projects in the United States for the processing of battery materials;

(ii) to construct 1 or more new commercial-scale battery material processing facilities in the United States; and

(iii) to retool, retrofit, or expand 1 or more existing battery material processing facilities located in the United States and determined qualified by the Secretary.

(B) Amount limitation

The amount of a grant awarded under the program shall be not less than—

(i) \$50,000,000 for an eligible entity carrying out 1 or more projects described in subparagraph (A)(i);

(ii) \$100,000,000 for an eligible entity carrying out 1 or more projects described in subparagraph (A)(ii); and

(iii) \$50,000,000 for an eligible entity carrying out 1 or more projects described in subparagraph (A)(iii).

(C) Priority; consideration

In awarding grants to eligible entities under the program, the Secretary shall—

(i) give priority to an eligible entity that—

(I) is located and operates in the United States;

(II) is owned by a United States entity;

(III) deploys North American-owned intellectual property and content;

(IV) represents consortia or industry partnerships; and

(V) will not use battery material supplied by or originating from a foreign entity of concern; and

(ii) take into consideration whether a project—

(I) provides workforce opportunities in low- and moderate-income communities;

(II) encourages partnership with universities and laboratories to spur innovation and drive down costs;

(III) partners with Indian Tribes; and

(IV) takes into account—

(aa) greenhouse gas emissions reductions and energy efficient battery material processing opportunities throughout the manufacturing process; and

(bb) supply chain logistics.

(4) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out the program \$3,000,000,000 for the period of fiscal years 2022 through 2026, to remain available until expended.

(c) Battery manufacturing and recycling grants

(1) In general

Not later than 180 days after November 15, 2021, the Secretary shall establish within the Office of Energy Efficiency and Renewable Energy a battery manufacturing and recycling grant program

(referred to in this subsection as the "program").

(2) Purpose

The purpose of the program is to ensure that the United States has a viable domestic manufacturing and recycling capability to support and sustain a North American battery supply chain.

(3) Grants

(A) In general

Under the program, the Secretary shall award grants to eligible entities—

- (i) to carry out 1 or more demonstration projects for advanced battery component manufacturing, advanced battery manufacturing, and recycling;
- (ii) to construct 1 or more new commercial-scale advanced battery component manufacturing, advanced battery manufacturing, or recycling facilities in the United States; and
- (iii) to retool, retrofit, or expand 1 or more existing facilities located in the United States and determined qualified by the Secretary for advanced battery component manufacturing, advanced battery manufacturing, and recycling.

(B) Amount limitation

The amount of a grant awarded under the program shall be not less than—

- (i) \$50,000,000 for an eligible entity carrying out 1 or more projects described in subparagraph (A)(i);
- (ii) \$100,000,000 for an eligible entity carrying out 1 or more projects described in subparagraph (A)(ii); and
- (iii) \$50,000,000 for an eligible entity carrying out 1 or more projects described in subparagraph (A)(iii).

(C) Priority; consideration

In awarding grants to eligible entities under the program, the Secretary shall—

- (i) give priority to an eligible entity that—
 - (I) is located and operates in the United States;
 - (II) is owned by a United States entity;
 - (III) deploys North American-owned intellectual property and content;
 - (IV) represents consortia or industry partnerships; and
 - (V)(aa) if the eligible entity will use the grant for advanced battery component manufacturing, will not use battery material supplied by or originating from a foreign entity of concern; or
 - (bb) if the eligible entity will use the grant for battery recycling, will not export recovered critical materials to a foreign entity of concern; and
- (ii) take into consideration whether a project—
 - (I) provides workforce opportunities in low- and moderate-income or rural communities;
 - (II) provides workforce opportunities in communities that have lost jobs due to the displacements of fossil energy jobs;
 - (III) encourages partnership with universities and laboratories to spur innovation and drive down costs;
 - (IV) partners with Indian Tribes;
 - (V) takes into account—
 - (aa) greenhouse gas emissions reductions and energy efficient battery material processing opportunities throughout the manufacturing process; and
 - (bb) supply chain logistics; and
 - (VI) utilizes feedstock produced in the United States.

(4) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out the program \$3,000,000,000 for the period of fiscal years 2022 through 2026, to remain available until expended.

(d) Reporting requirements

Not later than 1 year after November 15, 2021, and annually thereafter, the Secretary shall submit to Congress a report on the grant programs established under subsections (b) and (c), including, with respect to each grant program, a description of—

- (1) the number of grant applications received;
- (2) the number of grants awarded and the amount of each award;
- (3) the purpose and status of each project carried out using a grant; and
- (4) any other information the Secretary determines necessary.

(e) Lithium-Ion Battery Recycling Prize Competition

(1) In general

The Secretary shall continue to carry out the Lithium-Ion Battery Recycling Prize Competition of the Department established pursuant to section 3719 of title 15 (referred to in this subsection as the "competition").

(2) Authorization of appropriations for pilot projects

(A) In general

There is authorized to be appropriated to the Secretary to carry out Phase III of the competition, \$10,000,000 for fiscal year 2022, to remain available until expended.

(B) Use of funds

The Secretary may use amounts made available under subparagraph (A)—

- (i) to increase the number of winners of Phase III of the competition;
- (ii) to increase the amount awarded to each winner of Phase III of the competition; and
- (iii) to carry out any other activity that is consistent with the goals of Phase III of the competition, as determined by the Secretary.

(f) Battery and critical mineral recycling

(1) Definitions

In this subsection:

(A) Administrator

The term "Administrator" means the Administrator of the Environmental Protection Agency.

(B) Battery

The term "battery" means a device that—

- (i) consists of 1 or more electrochemical cells that are electrically connected; and
- (ii) is designed to store and deliver electric energy.

(C) Battery producer

The term "battery producer" means, with respect to a covered battery or covered battery-containing product that is sold, offered for sale, or distributed for sale in the United States, including through retail, wholesale, business-to-business, and online sale, the following applicable entity:

- (i) A person who—
 - (I) manufactures the covered battery or covered battery-containing product; and
 - (II) sells or offers for sale the covered battery or covered battery-containing product under the brand of that person.

(ii) If there is no person described in clause (i) with respect to the covered battery or covered battery-containing product, the owner or licensee of the brand under which the

covered battery or covered battery-containing product is sold, offered for sale, or distributed, regardless of whether the trademark of the brand is registered.

(iii) If there is no person described in clause (i) or (ii) with respect to the covered battery or covered battery-containing product, a person that imports the covered battery or covered battery-containing product into the United States for sale or distribution.

(D) Covered battery

The term "covered battery" means a new or unused primary battery or rechargeable battery.

(E) Covered battery-containing product

The term "covered battery-containing product" means a new or unused product that contains or is packaged with a primary battery or rechargeable battery.

(F) Critical mineral

The term "critical mineral" has the meaning given the term in section 1606(a) of title 30.

(G) Primary battery

The term "primary battery" means a nonrechargeable battery that weighs not more than 4.4 pounds, including an alkaline, carbon-zinc, and lithium metal battery.

(H) Rechargeable battery

(i) In general

The term "rechargeable battery" means a battery that—

- (I) contains 1 or more voltaic or galvanic cells that are electrically connected to produce electric energy;
- (II) is designed to be recharged;
- (III) weighs not more than 11 pounds; and
- (IV) has a watt-hour rating of not more than 300 watt-hours.

(ii) Exclusions

The term "rechargeable battery" does not include a battery that—

- (I) contains electrolyte as a free liquid; or
- (II) employs lead-acid technology, unless that battery is sealed and does not contain electrolyte as a free liquid.

(I) Recycling

The term "recycling" means the series of activities—

- (i) during which recyclable materials are processed into specification-grade commodities, and consumed as raw-material feedstock, in lieu of virgin materials, in the manufacturing of new products;
- (ii) that may include collection, processing, and brokering; and
- (iii) that result in subsequent consumption by a materials manufacturer, including for the manufacturing of new products.

(2) Battery recycling research, development, and demonstration grants

(A) In general

The Secretary, in coordination with the Administrator, shall award multiyear grants to eligible entities for research, development, and demonstration projects to create innovative and practical approaches to increase the reuse and recycling of batteries, including by addressing—

- (i) recycling activities;
- (ii) the development of methods to promote the design and production of batteries that take into full account and facilitate the dismantling, reuse, recovery, and recycling of battery components and materials;
- (iii) strategies to increase consumer acceptance of, and participation in, the recycling of batteries;
- (iv) the extraction or recovery of critical minerals from batteries that are recycled;

- (v) the integration of increased quantities of recycled critical minerals in batteries and other products to develop markets for recycled battery materials and critical minerals;
- (vi) safe disposal of waste materials and components recovered during the recycling process;
- (vii) the protection of the health and safety of all persons involved in, or in proximity to, recycling and reprocessing activities, including communities located near recycling and materials reprocessing facilities;
- (viii) mitigation of environmental impacts that arise from recycling batteries, including disposal of toxic reagents and byproducts related to recycling processes;
- (ix) protection of data privacy associated with collected covered battery-containing products;
- (x) the optimization of the value of material derived from recycling batteries; and
- (xi) the cost-effectiveness and benefits of the reuse and recycling of batteries and critical minerals.

(B) Eligible entities

The Secretary, in coordination with the Administrator, may award a grant under subparagraph (A) to—

- (i) an institution of higher education;
- (ii) a National Laboratory;
- (iii) a Federal research agency;
- (iv) a State research agency;
- (v) a nonprofit organization;
- (vi) an industrial entity;
- (vii) a manufacturing entity;
- (viii) a private battery-collection entity;
- (ix) an entity operating 1 or more battery recycling activities;
- (x) a State or municipal government entity;
- (xi) a battery producer;
- (xii) a battery retailer; or
- (xiii) a consortium of 2 or more entities described in clauses (i) through (xii).

(C) Applications

(i) In general

To be eligible to receive a grant under subparagraph (A), an eligible entity described in subparagraph (B) shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(ii) Contents

An application submitted under clause (i) shall describe how the project will promote collaboration among—

- (I) battery producers and manufacturers;
- (II) battery material and equipment manufacturers;
- (III) battery recyclers, collectors, and refiners; and
- (IV) retailers.

(D) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this paragraph \$60,000,000 for the period of fiscal years 2022 through 2026.

(3) State and local programs

(A) In general

The Secretary, in coordination with the Administrator, shall establish a program under which the Secretary shall award grants, on a competitive basis, to States and units of local government

to assist in the establishment or enhancement of State battery collection, recycling, and reprocessing programs.

(B) Non-Federal cost share

The non-Federal share of the cost of a project carried out using a grant under this paragraph shall be 50 percent of the cost of the project.

(C) Report

Not later than 2 years after November 15, 2021, and annually thereafter, the Secretary shall submit to Congress a report that describes the number of battery collection points established or enhanced, an estimate of jobs created, and the quantity of material collected as a result of the grants awarded under subparagraph (A).

(D) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this paragraph \$50,000,000 for the period of fiscal years 2022 through 2026.

(4) Retailers as collection points

(A) In general

The Secretary shall award grants, on a competitive basis, to retailers that sell covered batteries or covered battery-containing products to establish and implement a system for the acceptance and collection of covered batteries and covered battery-containing products, as applicable, for reuse, recycling, or proper disposal.

(B) Collection system

A system described in subparagraph (A) shall include take-back of covered batteries—

- (i) at no cost to the consumer; and
- (ii) on a regular, convenient, and accessible basis.

(C) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this paragraph \$15,000,000 for the period of fiscal years 2022 through 2026.

(5) Task force on producer responsibilities

(A) In general

The Secretary, in coordination with the Administrator, shall convene a task force to develop an extended battery producer responsibility framework that—

- (i) addresses battery recycling goals, cost structures for mandatory recycling, reporting requirements, product design, collection models, and transportation of collected materials;
- (ii) provides sufficient flexibility to allow battery producers to determine cost-effective strategies for compliance with the framework; and
- (iii) outlines regulatory pathways for effective recycling.

(B) Task force members

Members of the task force convened under subparagraph (A) shall include—

- (i) battery producers, manufacturers, retailers, recyclers, and collectors or processors;
- (ii) States and municipalities; and
- (iii) other relevant stakeholders, such as environmental, energy, or consumer organizations, as determined by the Secretary.

(C) Report

Not later than 1 year after the date on which the Secretary, in coordination with Administrator, convenes the task force under subparagraph (A), the Secretary shall submit to Congress a report that—

- (i) describes the extended producer responsibility framework developed by the task force;
- (ii) includes the recommendations of the task force on how best to implement a mandatory

pay-in or other enforcement mechanism to ensure that battery producers and sellers are contributing to the recycling of batteries; and

(iii) suggests regulatory pathways for effective recycling.

(6) Effect on Mercury-Containing and Rechargeable Battery Management Act

Nothing in this subsection, or any regulation, guideline, framework, or policy adopted or promulgated pursuant to this subsection, shall modify or otherwise affect the provisions of the Mercury-Containing and Rechargeable Battery Management Act (42 U.S.C. 14301 et seq.).

(Pub. L. 117–58, div. D, title II, §40207, Nov. 15, 2021, 135 Stat. 963.)

EDITORIAL NOTES

Section 2533c(d) of title 10, referred to subsec. (a)(5)(C), was renumbered section 4872(d) of title 10 by Pub. L. 116–283, div. A, title XVIII, §1870(d)(2), Jan. 1, 2021, 134 Stat. 4286, as amended by Pub. L. 117–81, div. A, title XVII, §1701(t)(2)(B), (C), Dec. 27, 2021, 135 Stat. 2150.

The Arms Export Control Act, referred to in subsec. (a)(5)(D)(iv), is Pub. L. 90–629, Oct. 22, 1968, 82 Stat. 1320, which is classified principally to chapter 39 (§2751 et seq.) of Title 22, Foreign Relations and Intercourse. For complete classification of this Act to the Code, see Short Title note set out under section 2751 of Title 22 and Tables.

The Export Control Reform Act of 2018, referred to in subsec. (a)(5)(D)(vi), is subtitle B (§§1741–1781) of title XVII of div. A of Pub. L. 115–232, Aug. 13, 2018, 132 Stat. 2208, which is classified principally to chapter 58 (§4801 et seq.) of Title 50, War and National Defense. For complete classification of this Act to the Code, see Short Title note set out under section 4801 of Title 50 and Tables.

The International Emergency Economic Powers Act, referred to in subsec. (a)(5)(D)(vii), is title II of Pub. L. 95–223, Dec. 28, 1977, 91 Stat. 1626, which is classified generally to chapter 35 (§1701 et seq.) of Title 50, War and National Defense. For complete classification of this Act to the Code, see Short Title note set out under section 1701 of Title 50 and Tables.

The Mercury-Containing and Rechargeable Battery Management Act, referred to in subsec. (f)(6), is Pub. L. 104–142, May 13, 1996, 110 Stat. 1329, which is classified generally to chapter 137 (§14301 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 14301 of this title and Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18742. Advanced energy manufacturing and recycling grant program

(a) Definitions

In this section:

(1) Advanced energy property

The term "advanced energy property" means—

(A) property designed to be used to produce energy from the sun, water, wind, geothermal or hydrothermal (as those terms are defined in section 17191 of this title) resources, enhanced geothermal systems (as defined in that section), or other renewable resources;

(B) fuel cells, microturbines, or energy storage systems and components;
(C) electric grid modernization equipment or components;
(D) property designed to capture, remove, use, or sequester carbon oxide emissions;
(E) equipment designed to refine, electrolyze, or blend any fuel, chemical, or product that is—

- (i) renewable; or
- (ii) low-carbon and low-emission;

(F) property designed to produce energy conservation technologies (including for residential, commercial, and industrial applications);

(G)(i) light-, medium-, or heavy-duty electric or fuel cell vehicles, electric or fuel cell locomotives, electric or fuel cell maritime vessels, or electric or fuel cell planes;

(ii) technologies, components, and materials of those vehicles, locomotives, maritime vessels, or planes; and

(iii) charging or refueling infrastructure associated with those vehicles, locomotives, maritime vessels, or planes;

(H)(i) hybrid vehicles with a gross vehicle weight rating of not less than 14,000 pounds; and

(ii) technologies, components, and materials for those vehicles; and

(I) other advanced energy property designed to reduce greenhouse gas emissions, as may be determined by the Secretary.

(2) Covered census tract

The term "covered census tract" means a census tract—

(A) in which, after December 31, 1999, a coal mine had closed;

(B) in which, after December 31, 2009, a coal-fired electricity generating unit had been retired; or

(C) that is immediately adjacent to a census tract described in subparagraph (A) or (B).

(3) Eligible entity

The term "eligible entity" means a manufacturing firm—

(A) the gross annual sales of which are less than \$100,000,000;

(B) that has fewer than 500 employees at the plant site of the manufacturing firm; and

(C) the annual energy bills of which total more than \$100,000 but less than \$2,500,000.

(4) Minority-owned

The term "minority-owned", with respect to an eligible entity, means an eligible entity not less than 51 percent of which is owned by 1 or more individuals who are—

(A) citizens of the United States; and

(B) Asian American, Native Hawaiian, Pacific Islander, African American, Hispanic, Puerto Rican, Native American, or Alaska Native.

(5) Program

The term "Program" means the grant program established under subsection (b).

(6) Qualifying advanced energy project

The term "qualifying advanced energy project" means a project that—

(A)(i) re-equips, expands, or establishes a manufacturing or recycling facility for the production or recycling, as applicable, of advanced energy property; or

(ii) re-equips an industrial or manufacturing facility with equipment designed to reduce the greenhouse gas emissions of that facility substantially below the greenhouse gas emissions under current best practices, as determined by the Secretary, through the installation of—

(I) low- or zero-carbon process heat systems;

(II) carbon capture, transport, utilization, and storage systems;

(III) technology relating to energy efficiency and reduction in waste from industrial processes; or

(IV) any other industrial technology that significantly reduces greenhouse gas emissions, as determined by the Secretary;

(B) has a reasonable expectation of commercial viability, as determined by the Secretary; and

(C) is located in a covered census tract.

(b) Establishment

Not later than 180 days after November 15, 2021, the Secretary shall establish a program to award grants to eligible entities to carry out qualifying advanced energy projects.

(c) Applications

(1) In general

Each eligible entity seeking a grant under the Program shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including a description of the proposed qualifying advanced energy project to be carried out using the grant.

(2) Selection criteria

(A) Projects

In selecting eligible entities to receive grants under the Program, the Secretary shall, with respect to the qualifying advanced energy projects proposed by the eligible entities, give higher priority to projects that—

(i) will provide higher net impact in avoiding or reducing anthropogenic emissions of greenhouse gases;

(ii) will result in a higher level of domestic job creation (both direct and indirect) during the lifetime of the project;

(iii) will result in a higher level of job creation in the vicinity of the project, particularly with respect to—

(I) low-income communities (as described in section 45D(e) of the Internal Revenue Code of 1986); and

(II) dislocated workers who were previously employed in manufacturing, coal power plants, or coal mining;

(iv) have higher potential for technological innovation and commercial deployment;

(v) have a lower levelized cost of—

(I) generated or stored energy; or

(II) measured reduction in energy consumption or greenhouse gas emission (based on costs of the full supply chain); and

(vi) have a shorter project time.

(B) Eligible entities

In selecting eligible entities to receive grants under the Program, the Secretary shall give priority to eligible entities that are minority-owned.

(d) Project completion and location; return of unobligated funds

(1) Completion; return of unobligated funds

An eligible entity that receives a grant under the Program shall be required—

(A) to complete the qualifying advanced energy project funded by the grant not later than 3 years after the date of receipt of the grant funds; and

(B) to return to the Secretary any grant funds that remain unobligated at the end of that 3-year period.

(2) Location

If the Secretary determines that an eligible entity awarded a grant under the Program has carried out the applicable qualifying advanced energy project at a location that is materially different from the location specified in the application for the grant, the eligible entity shall be required to return the grant funds to the Secretary.

(e) Technical assistance

(1) In general

Not later than 180 days after November 15, 2021, the Secretary shall provide technical assistance on a selective basis to eligible entities that are seeking a grant under the Program to enhance the impact of the qualifying advanced energy project to be carried out using the grant with respect to the selection criteria described in subsection (c)(2)(A).

(2) Applications

An eligible entity desiring technical assistance under paragraph (1) shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(3) Factors for consideration

In selecting eligible entities for technical assistance under paragraph (1), the Secretary shall give higher priority to eligible entities that propose a qualifying advanced energy project that has greater potential for enhancement of the impact of the project with respect to the selection criteria described in subsection (c)(2)(A).

(f) Publication of grants

The Secretary shall make publicly available the identity of each eligible entity awarded a grant under the Program and the amount of the grant.

(g) Report

Not later than 4 years after November 15, 2021, the Secretary shall—

- (1) review the grants awarded under the Program; and
- (2) submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives a report describing those grants.

(h) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out the Program \$750,000,000 for the period of fiscal years 2022 through 2026.

(Pub. L. 117–58, div. D, title II, §40209, Nov. 15, 2021, 135 Stat. 975.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18743. Critical minerals mining and recycling research

(a) Definitions

In this section:

(1) Critical mineral

The term "critical mineral" has the meaning given the term in section 1606(a) of title 30.

(2) Critical minerals and metals

The term "critical minerals and metals" includes any host mineral of a critical mineral.

(3) Director

The term "Director" means the Director of the Foundation.

(4) End-to-end

The term "end-to-end", with respect to the integration of mining or life cycle of minerals, means the integrated approach of, or the lifecycle determined by, examining the research and developmental process from the mining of the raw minerals to its processing into useful materials, its integration into components and devices, the utilization of such devices in the end-use application to satisfy certain performance metrics, and the recycling or disposal of such devices.

(5) Foreign entity of concern

The term "foreign entity of concern" means a foreign entity that is—

(A) designated as a foreign terrorist organization by the Secretary of State under section 1189(a) of title 8;

(B) included on the list of specially designated nationals and blocked persons maintained by the Office of Foreign Assets Control of the Department of the Treasury (commonly known as the SDN list);

(C) owned by, controlled by, or subject to the jurisdiction or direction of a government of a foreign country that is a covered nation (as defined in section 2533c(d) ¹ of title 10);

(D) alleged by the Attorney General to have been involved in activities for which a conviction was obtained under—

(i) chapter 37 of title 18 (commonly known as the "Espionage Act");

(ii) section 951 or 1030 of title 18;

(iii) chapter 90 of title 18 (commonly known as the "Economic Espionage Act of 1996");

(iv) the Arms Export Control Act (22 U.S.C. 2751 et seq.);

(v) section 224, 225, 226, 227, or 236 of the Atomic Energy Act of 1954 (42 U.S.C. 2274, 2275, 2276, 2277, and ² 2284);

(vi) the Export Control Reform Act of 2018 (50 U.S.C. 4801 et seq.); or

(vii) the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq.); or

(E) determined by the Secretary of Commerce, in consultation with the Secretary of Defense and the Director of National Intelligence, to be engaged in unauthorized conduct that is detrimental to the national security or foreign policy of the United States.

(6) Foundation

The term "Foundation" means the National Science Foundation.

(7) Institution of higher education

The term "institution of higher education" has the meaning given the term in section 1001 of title 20.

(8) National Laboratory

The term "National Laboratory" has the meaning given the term in section 15801 of this title.

(9) Recycling

The term "recycling" means the process of collecting and processing spent materials and devices and turning the materials and devices into raw materials or components that can be reused either partially or completely.

(10) Secondary recovery

The term "secondary recovery" means the recovery of critical minerals and metals from discarded end-use products or from waste products produced during the metal refining and manufacturing process, including from mine waste piles, acid mine drainage sludge, or byproducts produced through legacy mining and metallurgy activities.

(b) Critical minerals mining and recycling research and development

(1) In general

In order to support supply chain resiliency, the Secretary, in coordination with the Director, shall issue awards, on a competitive basis, to eligible entities described in paragraph (2) to support basic research that will accelerate innovation to advance critical minerals mining, recycling, and reclamation strategies and technologies for the purposes of—

- (A) making better use of domestic resources; and
- (B) eliminating national reliance on minerals and mineral materials that are subject to supply disruptions.

(2) Eligible entities

Entities eligible to receive an award under paragraph (1) are the following:

- (A) Institutions of higher education.
- (B) National Laboratories.
- (C) Nonprofit organizations.
- (D) Consortia of entities described in subparagraphs (A) through (C), including consortia that collaborate with private industry.

(3) Use of funds

Activities funded by an award under this section may include—

(A) advancing mining research and development activities to develop new mapping and mining technologies and techniques, including advanced critical mineral extraction and production—

- (i) to improve existing, or to develop new, supply chains of critical minerals; and
- (ii) to yield more efficient, economical, and environmentally benign mining practices;

(B) advancing critical mineral processing research activities to improve separation, alloying, manufacturing, or recycling techniques and technologies that can decrease the energy intensity, waste, potential environmental impact, and costs of those activities;

(C) advancing research and development of critical minerals mining and recycling technologies that take into account the potential end-uses and disposal of critical minerals, in order to improve end-to-end integration of mining and technological applications;

(D) conducting long-term earth observation of reclaimed mine sites, including the study of the evolution of microbial diversity at those sites;

(E) examining the application of artificial intelligence for geological exploration of critical minerals, including what size and diversity of data sets would be required;

(F) examining the application of machine learning for detection and sorting of critical minerals, including what size and diversity of data sets would be required;

(G) conducting detailed isotope studies of critical minerals and the development of more refined geologic models; or

(H) providing training and research opportunities to undergraduate and graduate students to prepare the next generation of mining engineers and researchers.

(c) Critical minerals interagency subcommittee

(1) In general

In order to support supply chain resiliency, the Critical Minerals Subcommittee of the National Science and Technology Council (referred to in this subsection as the "Subcommittee") shall coordinate Federal science and technology efforts to ensure secure and reliable supplies of critical minerals to the United States.

(2) Purposes

The purposes of the Subcommittee shall be—

- (A) to advise and assist the National Science and Technology Council, including the Committee on Homeland and National Security of the National Science and Technology Council, on United States policies, procedures, and plans relating to critical minerals,

including—

- (i) Federal research, development, and deployment efforts to optimize methods for extractions, concentration, separation, and purification of conventional, secondary, and unconventional sources of critical minerals, including research that prioritizes end-to-end integration of mining and recycling techniques and the end-use target for critical minerals;
- (ii) efficient use and reuse of critical minerals, including recycling technologies for critical minerals and the reclamation of critical minerals from components, such as spent batteries;
- (iii) addressing the technology transitions between research or lab-scale mining and recycling and commercialization of these technologies;
- (iv) the critical minerals workforce of the United States; and
- (v) United States private industry investments in innovation and technology transfer from federally funded science and technology;

(B) to identify emerging opportunities, stimulate international cooperation, and foster the development of secure and reliable supply chains of critical minerals, including activities relating to the reuse of critical minerals via recycling;

(C) to ensure the transparency of information and data related to critical minerals; and

(D) to provide recommendations on coordination and collaboration among the research, development, and deployment programs and activities of Federal agencies to promote a secure and reliable supply of critical minerals necessary to maintain national security, economic well-being, and industrial production.

(3) Responsibilities

In carrying out paragraphs (1) and (2), the Subcommittee may, taking into account the findings and recommendations of relevant advisory committees—

(A) provide recommendations on how Federal agencies may improve the topographic, geologic, and geophysical mapping of the United States and improve the discoverability, accessibility, and usability of the resulting and existing data, to the extent permitted by law and subject to appropriate limitation for purposes of privacy and security;

(B) assess the progress toward developing critical minerals recycling and reprocessing technologies;

(C) assess the end-to-end lifecycle of critical minerals, including for mining, usage, recycling, and end-use material and technology requirements;

(D) examine, and provide recommendations for, options for accessing and developing critical minerals through investment and trade with allies and partners of the United States;

(E) evaluate and provide recommendations to incentivize the development and use of advances in science and technology in the private industry;

(F) assess the need for, and make recommendations to address, the challenges the United States critical minerals supply chain workforce faces, including—

- (i) aging and retiring personnel and faculty;
- (ii) public perceptions about the nature of mining and mineral processing; and
- (iii) foreign competition for United States talent;

(G) develop, and update as necessary, a strategic plan to guide Federal programs and activities to enhance—

(i) scientific and technical capabilities across critical mineral supply chains, including a roadmap that identifies key research and development needs and coordinates ongoing activities for source diversification, more efficient use, recycling, and substitution for critical minerals; and

(ii) cross-cutting mining science, data science techniques, materials science, manufacturing science and engineering, computational modeling, and environmental health and safety research and development; and

(H) report to the appropriate committees of Congress on activities and findings under this

subsection.

(4) Mandatory responsibilities

In carrying out paragraphs (1) and (2), the Subcommittee shall, taking into account the findings and recommendations of relevant advisory committees, identify and evaluate Federal policies and regulations that restrict the mining of critical minerals.

(d) Grant program for processing of critical minerals and development of critical minerals and metals

(1) Establishment

The Secretary, in consultation with the Director, the Secretary of the Interior, and the Secretary of Commerce, shall establish a grant program to finance pilot projects for—

- (A) the processing or recycling of critical minerals in the United States; or
- (B) the development of critical minerals and metals in the United States ³

(2) Limitation on grant awards

A grant awarded under paragraph (1) may not exceed \$10,000,000.

(3) Economic viability

In awarding grants under paragraph (1), the Secretary shall give priority to projects that the Secretary determines are likely to be economically viable over the long term.

(4) Secondary recovery

In awarding grants under paragraph (1), the Secretary shall seek to award not less than 30 percent of the total amount of grants awarded during the fiscal year for projects relating to secondary recovery of critical minerals and metals.

(5) Domestic priority

In awarding grants for the development of critical minerals and metals under paragraph (1)(B), the Secretary shall prioritize pilot projects that will process the critical minerals and metals domestically.

(6) Prohibition on processing by foreign entity of concern

In awarding grants under paragraph (1), the Secretary shall ensure that pilot projects do not export for processing any critical minerals and metals to a foreign entity of concern.

(7) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out the grant program established under paragraph (1) \$100,000,000 for each of fiscal years 2021 through 2024.

(Pub. L. 117–58, div. D, title II, §40210, Nov. 15, 2021, 135 Stat. 978.)

§18744. 21st Century Energy Workforce Advisory Board

(a) Establishment

The Secretary shall establish a board, to be known as the "21st Century Energy Workforce Advisory Board", to develop a strategy for the Department that, with respect to the role of the Department in the support and development of a skilled energy workforce—

- (1) meets the current and future industry and labor needs of the energy sector;
- (2) provides opportunities for students to become qualified for placement in traditional energy sector and emerging energy sector jobs;
- (3) identifies areas in which the Department can effectively utilize the technical expertise of the Department to support the workforce activities of other Federal agencies;
- (4) strengthens and engages the workforce training programs of the Department and the National Laboratories in carrying out the Equity in Energy Initiative of the Department and other Department workforce priorities;
- (5) develops plans to support and retrain displaced and unemployed energy sector workers; and
- (6) prioritizes education and job training for underrepresented groups, including racial and ethnic minorities, Indian Tribes, women, veterans, and socioeconomically disadvantaged individuals.

(b) Membership

(1) In general

The Board shall be composed of not fewer than 10 and not more than 15 members, with the initial members of the Board to be appointed by the Secretary not later than 1 year after November 15, 2021.

(2) Requirement

The Board shall include not fewer than 1 representative of a labor organization with significant energy experience who has been nominated by a national labor federation.

(3) Qualifications

Each individual appointed to the Board under paragraph (1) shall have expertise in—

- (A) the field of economics or workforce development;
- (B) relevant traditional energy industries or emerging energy industries, including energy efficiency;
- (C) secondary or postsecondary education;
- (D) energy workforce development or apprenticeship programs of States or units of local government;

- (E) relevant organized labor organizations; or
- (F) bringing underrepresented groups, including racial and ethnic minorities, women, veterans, and socioeconomically disadvantaged individuals, into the workforce.

(c) Advisory Board review and recommendations

(1) Determination by Board

In developing the strategy required under subsection (a), the Board shall—

- (A) determine whether there are opportunities to more effectively and efficiently use the capabilities of the Department in the development of a skilled energy workforce;
- (B) identify ways in which the Department could work with other relevant Federal agencies, States, units of local government, institutions of higher education, labor organizations, Indian Tribes and tribal organizations, and industry in the development of a skilled energy workforce, subject to applicable law;
- (C) identify ways in which the Department and National Laboratories can—
 - (i) increase outreach to minority-serving institutions; and
 - (ii) make resources available to increase the number of skilled minorities and women trained to go into the energy and energy-related manufacturing sectors;
 - (iii) increase outreach to displaced and unemployed energy sector workers; and
 - (iv) make resources available to provide training to displaced and unemployed energy sector workers to reenter the energy workforce; and
- (D)(i) identify the energy sectors in greatest need of workforce training; and
- (ii) in consultation with the Secretary of Labor, develop recommendations for the skills necessary to develop a workforce trained to work in those energy sectors.

(2) Required analysis

In developing the strategy required under subsection (a), the Board shall analyze the effectiveness of—

- (A) existing Department-directed support; and
- (B) existing energy workforce training programs.

(3) Report

(A) In general

Not later than 1 year after the date on which the Board is established under this section, and biennially thereafter until the date on which the Board is terminated under subsection (f), the Board shall submit to the Secretary a report containing, with respect to the strategy required under subsection (a)—

- (i) the findings of the Board; and
- (ii) the proposed energy workforce strategy of the Board.

(B) Response of the Secretary

Not later than 90 days after the date on which a report is submitted to the Secretary under subparagraph (A), the Secretary shall—

- (i) submit to the Board a response to the report that—
 - (I) describes whether the Secretary approves or disapproves of each recommendation of the Board under subparagraph (A); and
 - (II) if the Secretary approves of a recommendation, provides an implementation plan for the recommendation; and
- (ii) submit to Congress—
 - (I) the report of the Board under subparagraph (A); and
 - (II) the response of the Secretary under clause (i).

(C) Public availability of report

(i) In general

The Board shall make each report under subparagraph (A) available to the public on the earlier of—

(I) the date on which the Board receives the response of the Secretary under subparagraph (B)(i); and

(II) the date that is 90 days after the date on which the Board submitted the report to the Secretary.

(ii) Requirement

If the Board has received a response to a report from the Secretary under subparagraph (B)(i), the Board shall make that response publicly available with the applicable report.

(d) Report by the Secretary

Not later than 180 days before the date of expiration of a term of the Board under subsection (f), the Secretary shall submit to the Committees on Energy and Natural Resources and Appropriations of the Senate and the Committees on Energy and Commerce and Appropriations of the House of Representatives a report that—

- (1) describes the effectiveness and accomplishments of the Board during the applicable term;
- (2) contains a determination of the Secretary as to whether the Board should be renewed; and
- (3) if the Secretary determines that the Board should be renewed, any recommendations as to whether and how the scope and functions of the Board should be modified.

(e) Outreach to minority-serving institutions, veterans, and displaced and unemployed energy workers

In developing the strategy under subsection (a), the Board shall—

- (1) give special consideration to increasing outreach to minority-serving institutions, veterans, and displaced and unemployed energy workers;
- (2) make resources available to—
 - (A) minority-serving institutions, with the objective of increasing the number of skilled minorities and women trained to go into the energy and manufacturing sectors;
 - (B) institutions that serve veterans, with the objective of increasing the number veterans in the energy industry by ensuring that veterans have the credentials and training necessary to secure careers in the energy industry; and
 - (C) institutions that serve displaced and unemployed energy workers to increase the number of individuals trained for jobs in the energy industry;
- (3) encourage the energy industry to improve the opportunities for students of minority-serving institutions, veterans, and displaced and unemployed energy workers to participate in internships, preapprenticeships, apprenticeships, and cooperative work-study programs in the energy industry; and
- (4) work with the National Laboratories to increase the participation of underrepresented groups, veterans, and displaced and unemployed energy workers in internships, fellowships, training programs, and employment at the National Laboratories.

(f) Term

(1) In general

Subject to paragraph (2), the Board shall terminate on September 30, 2026.

(2) Extensions

The Secretary may renew the Board for 1 or more 5-year periods by submitting, not later than the date described in subsection (d), a report described in that subsection that contains a determination by the Secretary that the Board should be renewed.

(Pub. L. 117–58, div. D, title II, §40211, Nov. 15, 2021, 135 Stat. 983.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

SUBCHAPTER III—FUELS AND TECHNOLOGY INFRASTRUCTURE INVESTMENTS

PART A—NUCLEAR ENERGY INFRASTRUCTURE

§18751. Infrastructure planning for micro and small modular nuclear reactors

(a) Definitions

In this section:

(1) Advanced nuclear reactor

The term "advanced nuclear reactor" has the meaning given the term in section 16271(b) of this title.

(2) Isolated community

The term "isolated community" has the meaning given the term in section 17392(a) of this title.

(3) Micro-reactor

The term "micro-reactor" means an advanced nuclear reactor that has an electric power production capacity that is not greater than 50 megawatts.

(4) National Laboratory

The term "National Laboratory" has the meaning given the term in section 15801 of this title.

(5) Small modular reactor

The term "small modular reactor" means an advanced nuclear reactor—

(A) with a rated capacity of less than 300 electrical megawatts; and

(B) that can be constructed and operated in combination with similar reactors at a single site.

(b) Report

Not later than 180 days after November 15, 2021, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committees on Energy and Commerce and Science, Space, and Technology of the House of Representatives a report that describes how the Department could enhance energy resilience and reduce carbon emissions with the use of micro-reactors and small modular reactors.

(c) Elements

The report required by subsection (b) shall address the following:

(1) An evaluation by the Department of current resilience and carbon reduction requirements for energy for facilities of the Department to determine whether changes are needed to address—

(A) the need to provide uninterrupted power to facilities of the Department for at least 3 days during power grid failures;

(B) the need for protection against cyber threats and electromagnetic pulses; and

(C) resilience to extreme natural events, including earthquakes, volcanic activity, tornados, hurricanes, floods, tsunamis, lahars, landslides, seiches, a large quantity of snowfall, and very

low or high temperatures.

(2) A strategy of the Department for using nuclear energy to meet resilience and carbon reduction goals of facilities of the Department.

(3) A strategy to partner with private industry to develop and deploy micro-reactors and small modular reactors to remote communities in order to replace diesel generation and other fossil fuels.

(4) An assessment by the Department of the value associated with enhancing the resilience of a facility of the Department by transitioning to power from micro-reactors and small modular reactors and to co-located nuclear facilities with the capability to provide dedicated power to the facility of the Department during a grid outage or failure.

(5) The plans of the Department—

(A) for deploying a micro-reactor and a small modular reactor to produce energy for use by a facility of the Department in the United States by 2026;

(B) for deploying a small modular reactor to produce energy for use by a facility of the Department in the United States by 2029; and

(C) to include micro-reactors and small modular reactors in the planning for meeting future facility energy needs.

(d) Financial and technical assistance for siting micro-reactors, small modular reactors, and advanced nuclear reactors

(1) In general

The Secretary shall offer financial and technical assistance to entities to conduct feasibility studies for the purpose of identifying suitable locations for the deployment of micro-reactors, small modular reactors, and advanced nuclear reactors in isolated communities.

(2) Requirement

Prior to providing financial and technical assistance under paragraph (1), the Secretary shall conduct robust community engagement and outreach for the purpose of identifying levels of interest in isolated communities.

(3) Limitation

The Secretary shall not disburse more than 50 percent of the amounts available for financial assistance under this subsection to the National Laboratories.

(Pub. L. 117–58, div. D, title III, §40321, Nov. 15, 2021, 135 Stat. 1016.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18752. Property interests relating to certain projects and protection of information relating to certain agreements

(a) ¹ Property interests relating to federally funded advanced nuclear reactor projects

(1) Definitions

In this section:

(A) Advanced nuclear reactor

The term "advanced nuclear reactor" has the meaning given the term in section 16271(b) of

this title.

(B) Property interest

(i) In general

Except as provided in clause (ii), the term "property interest" means any interest in real property or personal property (as those terms are defined in section 200.1 of title 2, Code of Federal Regulations (as in effect on November 15, 2021)).

(ii) Exclusion

The term "property interest" does not include any interest in intellectual property developed using funding provided under a project described in paragraph (3).

(2) Assignment of property interests

The Secretary may assign to any entity, including the United States, fee title or any other property interest acquired by the Secretary under an agreement entered into with respect to a project described in paragraph (3).

(3) Project described

A project referred to in paragraph (2) is—

(A) a project for which funding is provided pursuant to the funding opportunity announcement of the Department numbered DE-FOA-0002271, including any project for which funding has been provided pursuant to that announcement as of November 15, 2021;

(B) any other project for which funding is provided using amounts made available for the Advanced Reactor Demonstration Program of the Department under the heading "Nuclear Energy" under the heading "ENERGY PROGRAMS" in title III of division C of the Further Consolidated Appropriations Act, 2020 (Public Law 116-94; 133 Stat. 2670);

(C) any other project for which Federal funding is provided under the Advanced Reactor Demonstration Program of the Department; or

(D) a project—

(i) relating to advanced nuclear reactors; and

(ii) for which Federal funding is provided under a program focused on development and demonstration.

(4) Retroactive vesting

The vesting of fee title or any other property interest assigned under paragraph (2) shall be retroactive to the date on which the applicable project first received Federal funding as described in any of subparagraphs (A) through (D) of paragraph (3).

(Pub. L. 117-58, div. D, title III, §40322(a), Nov. 15, 2021, 135 Stat. 1017.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Further Consolidated Appropriations Act, 2020, referred to in subsec. (a)(3)(B), is Pub. L. 116-94, Dec. 20, 2019, 133 Stat. 2534. Title III of division C of the Act is title III of div. C of Pub. L. 116-94, Dec. 20, 2019, 133 Stat. 2669, which enacted section 825s-8 of Title 16, Conservation, and provisions set out as notes under section 6939f of this title and 838i of Title 16, and provisions set out in a table under sections 6241 and 7171 of this title. For complete classification of this Act to the Code, see Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117-58, including authority of Secretary of Labor, see section 18851 of this title.

¹ So in original. No subsec. (b) has been enacted.

§18753. Civil nuclear credit program

(a) Definitions

In this section:

(1) Certified nuclear reactor

The term "certified nuclear reactor" means a nuclear reactor that—

- (A) competes in a competitive electricity market; and
- (B) is certified under subsection (c)(2)(A)(i) to submit a sealed bid in accordance with subsection (d).

(2) Credit

The term "credit" means a credit allocated to a certified nuclear reactor under subsection (e)(2).

(b) Establishment of program

The Secretary shall establish a civil nuclear credit program—

- (1) to evaluate nuclear reactors that are projected to cease operations due to economic factors; and
- (2) to allocate credits to certified nuclear reactors that are selected under paragraph (1)(B) of subsection (e) to receive credits under paragraph (2) of that subsection.

(c) Certification

(1) Application

(A) In general

In order to be certified under paragraph (2)(A)(i), the owner or operator of a nuclear reactor that is projected to cease operations due to economic factors shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary determines to be appropriate, including—

(i) information on the operating costs necessary to make the determination described in paragraph (2)(A)(ii)(I), including—

- (I) the average projected annual operating loss in dollars per megawatt-hour, inclusive of the cost of operational and market risks, expected to be incurred by the nuclear reactor over the 4-year period for which credits would be allocated;
- (II) any private or publicly available data with respect to current or projected bulk power market prices;
- (III) out-of-market revenue streams;
- (IV) operations and maintenance costs;
- (V) capital costs, including fuel; and
- (VI) operational and market risks;

(ii) an estimate of the potential incremental air pollutants that would result if the nuclear reactor were to cease operations;

(iii) known information on the source of produced uranium and the location where the uranium is converted, enriched, and fabricated into fuel assemblies for the nuclear reactor for the 4-year period for which credits would be allocated; and

(iv) a detailed plan to sustain operations at the conclusion of the applicable 4-year period for which credits would be allocated—

- (I) without receiving additional credits; or
- (II) with the receipt of additional credits of a lower amount than the credits allocated during that 4-year credit period.

(B) Timeline

The Secretary shall accept applications described in subparagraph (A)—

- (i) until the date that is 120 days after November 15, 2021; and
- (ii) not less frequently than every year thereafter.

(C) Payments from State programs

(i) In general

The owner or operator of a nuclear reactor that receives a payment from a State zero-emission credit, a State clean energy contract, or any other State program with respect to that nuclear reactor shall be eligible to submit an application under subparagraph (A) with respect to that nuclear reactor during any application period beginning after the 120-day period beginning on November 15, 2021.

(ii) Requirement

An application submitted by an owner or operator described in clause (i) with respect to a nuclear reactor described in that clause shall include all projected payments from State programs in determining the average projected annual operating loss described in subparagraph (A)(i)(I), unless the credits allocated to the nuclear reactor pursuant to that application will be used to reduce those payments.

(2) Determination to certify

(A) Determination

(i) In general

Not later than 60 days after the applicable date under subparagraph (B) of paragraph (1), the Secretary shall determine whether to certify, in accordance with clauses (ii) and (iii), each nuclear reactor for which an application is submitted under subparagraph (A) of that paragraph.

(ii) Minimum requirements

To the maximum extent practicable, the Secretary shall only certify a nuclear reactor under clause (i) if—

- (I) after considering the information submitted under paragraph (1)(A)(i), the Secretary determines that the nuclear reactor is projected to cease operations due to economic factors;
- (II) after considering the estimate submitted under paragraph (1)(A)(ii), the Secretary determines that pollutants would increase if the nuclear reactor were to cease operations and be replaced with other types of power generation; and
- (III) the Nuclear Regulatory Commission has reasonable assurance that the nuclear reactor—
 - (aa) will continue to be operated in accordance with the current licensing basis (as defined in section 54.3 of title 10, Code of Federal Regulations (or successor regulations) ¹ of the nuclear reactor; and
 - (bb) poses no significant safety hazards.

(iii) Priority

In determining whether to certify a nuclear reactor under clause (i), the Secretary shall give priority to a nuclear reactor that uses, to the maximum extent available, uranium that is produced, converted, enriched, and fabricated into fuel assemblies in the United States.

(B) Notice

For each application received under paragraph (1)(A), the Secretary shall provide to the applicable owner or operator, as applicable—

- (i) a notice of the certification of the applicable nuclear reactor; or
- (ii) a notice that describes the reasons why the certification of the applicable nuclear

reactor was denied.

(d) Bidding process

(1) In general

Subject to paragraph (2), the Secretary shall establish a deadline by which each certified nuclear reactor shall submit to the Secretary a sealed bid that—

(A) describes the price per megawatt-hour of the credits desired by the certified nuclear reactor, which shall not exceed the average projected annual operating loss described in subsection (c)(1)(A)(i)(I); and

(B) includes a commitment, subject to the receipt of credits, to provide a specific number of megawatt-hours of generation during the 4-year period for which credits would be allocated.

(2) Requirement

The deadline established under paragraph (1) shall be not later than 30 days after the first date on which the Secretary has made the determination described in paragraph (2)(A)(i) of subsection (c) with respect to each application submitted under paragraph (1)(A) of that subsection.

(e) Allocation

(1) Auction

Notwithstanding section 2209 of this title, the Secretary shall—

(A) in consultation with the heads of applicable Federal agencies, establish a process for evaluating bids submitted under subsection (d)(1) through an auction process; and

(B) select certified nuclear reactors to be allocated credits.

(2) Credits

Subject to subsection (f)(2), on selection under paragraph (1), a certified nuclear reactor shall be allocated credits for a 4-year period beginning on the date of the selection.

(3) Requirement

To the maximum extent practicable, the Secretary shall use the amounts made available for credits under this section to allocate credits to as many certified nuclear reactors as possible.

(f) Renewal

(1) In general

The owner or operator of a certified nuclear reactor may seek to recertify the nuclear reactor in accordance with this section.

(2) Limitation

Notwithstanding any other provision of this section, the Secretary may not allocate any credits after September 30, 2031.

(g) Additional requirements

(1) Audit

During the 4-year period beginning on the date on which a certified nuclear reactor first receives a credit, the Secretary shall periodically audit the certified nuclear reactor.

(2) Recapture

The Secretary shall, by regulation, provide for the recapture of the allocation of any credit to a certified nuclear reactor that, during the period described in paragraph (1)—

(A) terminates operations; or

(B) does not operate at an annual loss in the absence of an allocation of credits to the certified nuclear reactor.

(3) Confidentiality

The Secretary shall establish procedures to ensure that any confidential, private, proprietary, or privileged information that is included in a sealed bid submitted under this section is not publicly

disclosed or otherwise improperly used.

(h) Report

Not later than January 1, 2024, the Comptroller General of the United States shall submit to Congress a report with respect to the credits allocated to certified nuclear reactors, which shall include—

- (1) an evaluation of the effectiveness of the credits in avoiding air pollutants while ensuring grid reliability;
- (2) a quantification of the ratepayer savings achieved under this section; and
- (3) any recommendations to renew or expand the credits.

(i) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section \$6,000,000,000 for the period of fiscal years 2022 through 2026.

(Pub. L. 117–58, div. D, title III, §40323, Nov. 15, 2021, 135 Stat. 1019.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

¹ So in original. Probably should be followed by a second closing parenthesis.

PART B—MISCELLANEOUS

§18761. Clean energy demonstration program on current and former mine land

(a) Definitions

In this section:

(1) Clean energy project

The term "clean energy project" means a project that demonstrates 1 or more of the following technologies:

- (A) Solar.
- (B) Micro-grids.
- (C) Geothermal.
- (D) Direct air capture.
- (E) Fossil-fueled electricity generation with carbon capture, utilization, and sequestration.
- (F) Energy storage, including pumped storage hydropower and compressed air storage.
- (G) Advanced nuclear technologies.

(2) Economically distressed area

The term "economically distressed area" means an area described in section 3161(a) of this title.

(3) Mine land

The term "mine land" means—

- (A) land subject to titles IV and V of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1231 et seq.; 30 U.S.C. 1251 et seq.); and
- (B) land that has been claimed or patented subject to sections 2319 through 2344 of the Revised Statutes (commonly known as the "Mining Law of 1872") (30 U.S.C. 22 et seq.).

(4) Program

The term "program" means the demonstration program established under subsection (b).

(b) Establishment

The Secretary shall establish a program to demonstrate the technical and economic viability of carrying out clean energy projects on current and former mine land.

(c) Selection of demonstration projects

(1) In general

In carrying out the program, the Secretary shall select not more than 5 clean energy projects, to be carried out in geographically diverse regions, at least 2 of which shall be solar projects.

(2) Eligibility

To be eligible to be selected for participation in the program under paragraph (1), a clean energy project shall demonstrate, as determined by the Secretary, a technology on a current or former mine land site with a reasonable expectation of commercial viability.

(3) Priority

In selecting clean energy projects for participation in the program under paragraph (1), the Secretary shall prioritize clean energy projects that will—

(A) be carried out in a location where the greatest number of jobs can be created from the successful demonstration of the clean energy project;

(B) provide the greatest net impact in avoiding or reducing greenhouse gas emissions;

(C) provide the greatest domestic job creation (both directly and indirectly) during the implementation of the clean energy project;

(D) provide the greatest job creation and economic development in the vicinity of the clean energy project, particularly—

(i) in economically distressed areas; and

(ii) with respect to dislocated workers who were previously employed in manufacturing, coal power plants, or coal mining;

(E) have the greatest potential for technological innovation and commercial deployment;

(F) have the lowest levelized cost of generated or stored energy;

(G) have the lowest rate of greenhouse gas emissions per unit of electricity generated or stored; and

(H) have the shortest project time from permitting to completion.

(4) Project selection

The Secretary shall solicit proposals for clean energy projects and select clean energy project finalists in consultation with the Secretary of the Interior, the Administrator of the Environmental Protection Agency, and the Secretary of Labor.

(5) Compatibility with existing operations

Prior to selecting a clean energy project for participation in the program under paragraph (1), the Secretary shall consult with, as applicable, mining claimholders or operators or the relevant Office of Surface Mining Reclamation and Enforcement Abandoned Mine Land program office to confirm—

(A) that the proposed project is compatible with any current mining, exploration, or reclamation activities; and

(B) the valid existing rights of any mining claimholders or operators.

(d) Consultation

The Secretary shall consult with the Director of the Office of Surface Mining Reclamation and Enforcement and the Administrator of the Environmental Protection Agency, acting through the Office of Brownfields and Land Revitalization, to determine whether it is necessary to promulgate

regulations or issue guidance in order to prioritize and expedite the siting of clean energy projects on current and former mine land sites.

(e) Technical assistance

The Secretary shall provide technical assistance to project applicants selected for participation in the program under subsection (c) to assess the needed interconnection, transmission, and other grid components and permitting and siting necessary to interconnect, on current and former mine land where the project will be sited, any generation or storage with the electric grid.

(f) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section \$500,000,000 for the period of fiscal years 2022 through 2026.

(Pub. L. 117–58, div. D, title III, §40342, Nov. 15, 2021, 135 Stat. 1031.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Surface Mining Control and Reclamation Act of 1977, referred to in subsec. (a)(3)(A), is Pub. L. 95–87, Aug. 3, 1977, 91 Stat. 445. Titles IV and V of the Act are classssified to subchapters IV (§1231 et seq.) and V (§1251 et seq.), respectively, of Chapter 25 of Title 30, Mineral Lands and Mining. For complete classification of this Act to the Code, see Short Title note set out under section 1201 of Title 30 and Tables.

The Mining Law of 1872, referred to in subsec. (a)(3)(B), is act May 10, 1872, ch. 152, 17 Stat. 91, which was incorporated into the Revised Statutes of 1878 as R.S. §§2319 to 2328, 2331, 2333 to 2337, and 2344, which are classified to sections 22 to 24, 26 to 28, 29, 30, 33 to 35, 37, 39 to 42, and 47 of Title 30, Mineral Lands and Mining. WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

SUBCHAPTER IV—ENERGY INFORMATION ADMINISTRATION

§18771. Definitions

In this subchapter:

(1) Administrator

The term "Administrator" means the Administrator of the Energy Information Administration.

(2) Annual Critical Minerals Outlook

The term "Annual Critical Minerals Outlook" means the Annual Critical Minerals Outlook prepared under section 1606(j)(1)(B) of title 30.

(3) Critical mineral

The term "critical mineral" has the meaning given the term in section 1606(a) of title 30.

(4) Household energy burden

The term "household energy burden" means the quotient obtained by dividing—

(A) the residential energy expenditures (as defined in section 440.3 of title 10, Code of Federal Regulations (as in effect on November 15, 2021)) of the applicable household; by

(B) the annual income of that household.

(5) Household with a high energy burden

The term "household with a high energy burden" has the meaning given the term in section 440.3 of title 10, Code of Federal Regulations (as in effect on November 15, 2021).

(6) Large manufacturing facility

The term "large manufacturing facility" means a manufacturing facility that—

(A) annually consumes more than 35,000 megawatt-hours of electricity; or

(B) has a peak power demand of more than 10 megawatts.

(7) Load-serving entity

The term "load-serving entity" has the meaning given the term in section 824q(a) of title 16.

(8) Miscellaneous electric load

The term "miscellaneous electric load" means electricity that—

(A) is used by an appliance or device—

(i) within a building; or

(ii) to serve a building; and

(B) is not used for heating, ventilation, air conditioning, lighting, water heating, or refrigeration.

(9) Regional Transmission Organization

The term "Regional Transmission Organization" has the meaning given the term in section 796 of title 16.

(10) Rural area

The term "rural area" has the meaning given the term in section 918c(a) of title 7.

(Pub. L. 117–58, div. D, title IV, §40411, Nov. 15, 2021, 135 Stat. 1038.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18772. Data collection in the electricity sector

(a) Dashboard

(1) Establishment

(A) In general

Not later than 90 days after November 15, 2021, the Administrator shall establish an online database to track the operation of the bulk power system in the contiguous 48 States (referred to in this section as the "Dashboard").

(B) Improvement of existing dashboard

The Dashboard may be established through the improvement, in accordance with this subsection, of an existing dashboard of the Energy Information Administration, such as—

(i) the U.S. Electric System Operating Data dashboard; or

(ii) the Hourly Electric Grid Monitor.

(2) Expansion

(A) In general

Not later than 1 year after November 15, 2021, the Administrator shall expand the Dashboard to include, to the maximum extent practicable, hourly operating data collected from the electricity balancing authorities that operate the bulk power system in all of the several States, each territory of the United States, and the District of Columbia.

(B) Types of data

The hourly operating data collected under subparagraph (A) may include data relating to—

- (i) total electricity demand;
- (ii) electricity demand by subregion;
- (iii) short-term electricity demand forecasts;
- (iv) total electricity generation;
- (v) net electricity generation by fuel type, including renewables;
- (vi) electricity stored and discharged;
- (vii) total net electricity interchange;
- (viii) electricity interchange with directly interconnected balancing authorities; and
- (ix) where available, the estimated marginal greenhouse gas emissions per megawatt hour of electricity generated—
 - (I) within the metered boundaries of each balancing authority; and
 - (II) for each pricing node.

(b) Mix of energy sources

(1) In general

Not later than 1 year after November 15, 2021, the Administrator shall establish, in accordance with section 18777 of this title and this subsection and to the extent the Administrator determines to be appropriate, a system to harmonize the operating data on electricity generation collected under subsection (a) with—

- (A) measurements of greenhouse gas and other pollutant emissions collected by the Environmental Protection Agency;
- (B) other data collected by the Environmental Protection Agency or other relevant Federal agencies, as the Administrator determines to be appropriate; and
- (C) data collected by State or regional energy credit registries.

(2) Outcomes

The system established under paragraph (1) shall result in an integrated dataset that includes, for any given time—

- (A) the net generation of electricity by megawatt hour within the metered boundaries of each balancing authority; and
- (B) where available, the average and marginal greenhouse gas emissions by megawatt hour of electricity generated within the metered boundaries of each balancing authority.

(3) Real-time data dissemination

To the maximum extent practicable, the system established under paragraph (1) shall disseminate data—

- (A) on a real-time basis; and
- (B) through an application programming interface that is publicly accessible.

(4) Complementary efforts

The system established under paragraph (1) shall complement any existing data dissemination efforts of the Administrator that make use of electricity generation data, such as electricity demand by subregion and electricity interchange with directly interconnected balancing authorities.

(c) Observed characteristics of bulk power system resource integration

(1) In general

Not later than 1 year after November 15, 2021, the Administrator shall establish a system to

provide to the public timely data on the integration of energy resources into the bulk power system and the electric distribution grids in the United States, and the observed effects of that integration.

(2) Requirements

In carrying out paragraph (1), the Administrator shall seek to improve the temporal and spatial resolution of data relating to how grid operations are changing, such as through—

- (A) thermal generator cycling to accommodate intermittent generation;
- (B) generation unit self-scheduling practices;
- (C) renewable source curtailment;
- (D) utility-scale storage;
- (E) load response;
- (F) aggregations of distributed energy resources at the distribution system level;
- (G) power interchange between directly connected balancing authorities;
- (H) expanding Regional Transmission Organization balancing authorities;
- (I) improvements in real-time—
 - (i) accuracy of locational marginal prices; and
 - (ii) signals to flexible demand; and

(J) disruptions to grid operations, including disruptions caused by cyber sources, physical sources, extreme weather events, or other sources.

(d) Distribution system operations

(1) In general

Not later than 1 year after November 15, 2021, the Administrator shall establish a system to provide to the public timely data on the operations of load-serving entities in the electricity grids of the United States.

(2) Requirements

(A) In general

In carrying out paragraph (1), the Administrator shall—

- (i) not less frequently than annually, provide data on—
 - (I) the delivered generation resource mix for each load-serving entity; and
 - (II) the distributed energy resources operating within each service area of a load-serving entity;
- (ii) harmonize the data on delivered generation resource mix described in clause (i)(I) with measurements of greenhouse gas emissions collected by the Environmental Protection Agency;
- (iii) to the maximum extent practicable, disseminate the data described in clause (i)(I) and the harmonized data described in clause (ii) on a real-time basis; and
- (iv) provide historical data, beginning with the earliest calendar year practicable, but not later than calendar year 2020, on the delivered generation resource mix described in clause (i)(I).

(B) Data on the delivered generation resource mix

In collecting the data described in subparagraph (A)(i)(I), the Administrator shall—

- (i) use existing voluntary industry methodologies, including reporting protocols, databases, and emissions and energy use tracking software that provide consistent, timely, and accessible carbon emissions intensity rates for delivered electricity;
- (ii) consider that generation and transmission entities may provide data on behalf of load-serving entities;
- (iii) to the extent that the Administrator determines necessary, and in a manner designed to protect confidential information, require each load-serving entity to submit additional information as needed to determine the delivered generation resource mix of the load-serving

entity, including financial or contractual agreements for power and generation resource type attributes with respect to power owned by or retired by the load-serving entity; and

(iv) for any portion of the generation resource mix of a load-serving entity that is otherwise unaccounted for, develop a methodology to assign to the load-serving entity a share of the otherwise unaccounted for resource mix of the relevant balancing authority.

(Pub. L. 117–58, div. D, title IV, §40412, Nov. 15, 2021, 135 Stat. 1039.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18773. Expansion of energy consumption surveys

(a) In general

Not later than 2 years after November 15, 2021, the Administrator shall implement measures to expand the Manufacturing Energy Consumption Survey, the Commercial Building Energy Consumption Survey, and the Residential Energy Consumption Survey to include data on energy end use in order to facilitate the identification of—

- (1) opportunities to improve energy efficiency and energy productivity;
- (2) changing patterns of energy use; and
- (3) opportunities to better understand and manage miscellaneous electric loads.

(b) Requirements

(1) In general

In carrying out subsection (a), the Administrator shall—

- (A) increase the scope and frequency of data collection on energy end uses and services;
- (B) use new data collection methods and tools in order to obtain more comprehensive data and reduce the burden on survey respondents, including by—
 - (i) accessing other existing data sources; and
 - (ii) if feasible, developing online and real-time reporting systems;
- (C) identify and report community-level economic and environmental impacts, including with respect to—
 - (i) the reliability and security of the energy supply; and
 - (ii) local areas with households with a high energy burden; and
- (D) improve the presentation of data, including by—
 - (i) enabling the presentation of data in an interactive cartographic format on a national, regional, State, and local level with the functionality of viewing various economic, energy, and demographic measures on an individual basis or in combination; and
 - (ii) incorporating the results of the data collection, methods, and tools described in subparagraphs (A) and (B) into existing and new digital distribution methods.

(2) Manufacturing Energy Consumption Survey

With respect to the Manufacturing Energy Consumption Survey, the Administrator shall—

- (A) implement measures to provide more detailed representations of data by region;
- (B) for large manufacturing facilities, break out process heat use by required process temperatures in order to facilitate the identification of opportunities for cost reductions and energy efficiency or energy productivity improvements;
- (C) collect information on—

- (i) energy source-switching capabilities, especially with respect to thermal processes and the efficiency of thermal processes;
- (ii) the use of electricity, biofuels, hydrogen, or other alternative fuels to produce process heat; and
- (iii) the use of demand response; and

(D) identify current and potential future industrial clusters in which multiple firms and facilities in a defined geographic area share the costs and benefits of infrastructure for clean manufacturing, such as—

- (i) hydrogen generation, production, transport, use, and storage infrastructure; and
- (ii) carbon dioxide capture, transport, use, and storage infrastructure.

(3) Residential Energy Consumption Survey

With respect to the Residential Energy Consumption Survey, the Administrator shall—

(A) implement measures to provide more detailed representations of data by—

- (i) geographic area, including by State (for each State);
- (ii) building type, including multi-family buildings;
- (iii) household income;
- (iv) location in a rural area; and
- (v) other demographic characteristics, as determined by the Administrator; and

(B) report measures of—

- (i) household electrical service capacity;
- (ii) access to utility demand-side management programs and bill credits;
- (iii) characteristics of the energy mix used to generate electricity in different regions; and
- (iv) the household energy burden for households—
 - (I) in different geographic areas;
 - (II) by electricity, heating, and other end-uses; and
 - (III) with different demographic characteristics that correlate with increased household energy burden, including—
 - (aa) having a low household income;
 - (bb) being a minority household;
 - (cc) residing in manufactured or multifamily housing;
 - (dd) being in a fixed or retirement income household;
 - (ee) residing in rental housing; and
 - (ff) other factors, as determined by the Administrator.

(Pub. L. 117–58, div. D, title IV, §40413, Nov. 15, 2021, 135 Stat. 1042.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18774. Data collection on electric vehicle integration with the electricity grids

(a) In general

Not later than 1 year after November 15, 2021, the Administrator shall develop and implement measures to expand data collection with respect to electric vehicle integration with the electricity grids.

(b) Sources of data

The sources of the data collected pursuant to subsection (a) may include—

- (1) host-owned or charging-network-owned electric vehicle charging stations;
- (2) aggregators of charging-network electricity demand;
- (3) electric utilities offering managed-charging programs;
- (4) individual, corporate, or public owners of electric vehicles; and
- (5) balancing authority analyses of—
 - (A) transformer loading congestion; and
 - (B) distribution-system congestion.

(c) Consultation and coordination

In carrying out subsection (a), the Administrator may consult and enter into agreements with other institutions having relevant data and data collection capabilities, such as—

- (1) the Secretary of Transportation;
- (2) the Secretary;
- (3) the Administrator of the Environmental Protection Agency;
- (4) States or State agencies; and
- (5) private entities.

(Pub. L. 117–58, div. D, title IV, §40414, Nov. 15, 2021, 135 Stat. 1043.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18775. Plan for the modeling and forecasting of demand for minerals used in the energy sector

(a) Plan

(1) In general

Not later than 180 days after November 15, 2021, the Administrator, in coordination with the Director of the United States Geological Survey, shall develop a plan for the modeling and forecasting of demand for energy technologies, including for energy production, transmission, or storage purposes, that use minerals that are or could be designated as critical minerals.

(2) Inclusions

The plan developed under paragraph (1) shall identify—

- (A) the type and quantity of minerals consumed, delineated by energy technology;
- (B) existing markets for manufactured energy-producing, energy-transmission, and energy-storing equipment; and
- (C) emerging or potential markets for new energy-producing, energy-transmission, and energy-storing technologies entering commercialization.

(b) Metrics

The plan developed under subsection (a)(1) shall produce forecasts of energy technology demand—

- (1) over the 1-year, 5-year, and 10-year periods beginning on the date on which development of the plan is completed;
- (2) by economic sector; and
- (3) according to any other parameters that the Administrator, in collaboration with the Secretary of the Interior, acting through the Director of the United States Geological Survey, determines are needed for the Annual Critical Minerals Outlook.

(c) Collaboration

The Administrator shall develop the plan under subsection (a)(1) in consultation with—

(1) the Secretary with respect to the possible trajectories of emerging energy-producing and energy-storing technologies; and

(2) the Secretary of the Interior, acting through the Director of the United States Geological Survey—

(A) to ensure coordination;

(B) to avoid duplicative effort; and

(C) to align the analysis of demand with data and analysis of where the minerals are produced, refined, and subsequently processed into materials and parts that are used to build energy technologies.

(Pub. L. 117–58, div. D, title IV, §40415, Nov. 15, 2021, 135 Stat. 1044.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18776. Expansion of international energy data

(a) In general

Not later than 1 year after November 15, 2021, the Administrator shall implement measures to expand and improve the international energy data resources of the Energy Information Administration in order to understand—

(1) the production and use of energy in various countries;

(2) changing patterns of energy use internationally;

(3) the relative costs and environmental impacts of energy production and use internationally; and

(4) plans for or construction of major energy facilities or infrastructure.

(b) Requirements

In carrying out subsection (a), the Administrator shall—

(1) work with, and leverage the data resources of, the International Energy Agency;

(2) include detail on energy consumption by fuel, economic sector, and end use within countries for which data are available;

(3) collect relevant measures of energy use, including—

(A) cost; and

(B) emissions intensity; and

(4) provide tools that allow for straightforward country-to-country comparisons of energy production and consumption across economic sectors and end uses.

(Pub. L. 117–58, div. D, title IV, §40416, Nov. 15, 2021, 135 Stat. 1045.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18777. Harmonization of efforts and data

Not later than 1 year after November 15, 2021, the Administrator shall establish a system to harmonize, to the maximum extent practicable and consistent with data integrity—

(1) the data collection efforts of the Administrator, including any data collection required under this subchapter, with the data collection efforts of—

- (A) the Environmental Protection Agency, as the Administrator determines to be appropriate;
- (B) other relevant Federal agencies, as the Administrator determines to be appropriate; and
- (C) State or regional energy credit registries, as the Administrator determines to be appropriate;

(2) the data collected under this subchapter, including the operating data on electricity generation collected under section 18772(a) of this title, with data collected by the entities described in subparagraphs (A) through (C) of paragraph (1), including any measurements of greenhouse gas and other pollutant emissions collected by the Environmental Protection Agency, as the Administrator determines to be appropriate; and

(3) the efforts of the Administrator to identify and report relevant impacts, opportunities, and patterns with respect to energy use, including the identification of community-level economic and environmental impacts required under section 18773(b)(1)(C) of this title, with the efforts of the Environmental Protection Agency and other relevant Federal agencies, as determined by the Administrator, to identify similar impacts, opportunities, and patterns.

(Pub. L. 117–58, div. D, title IV, §40419, Nov. 15, 2021, 135 Stat. 1047.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

SUBCHAPTER V—ENERGY EFFICIENCY AND BUILDING INFRASTRUCTURE

PART A—RESIDENTIAL AND COMMERCIAL ENERGY EFFICIENCY

§18791. Definitions

In this part:

(1) Priority State

The term "priority State" means a State that—

- (A) is eligible for funding under the State Energy Program; and
- (B)(i) is among the 15 States with the highest annual per-capita combined residential and commercial sector energy consumption, as most recently reported by the Energy Information Administration; or
- (ii) is among the 15 States with the highest annual per-capita energy-related carbon dioxide emissions by State, as most recently reported by the Energy Information Administration.

(2) Program

The term "program" means the program established under section 18792(a) of this title.

(3) State

The term "State" means a State (as defined in section 6202 of this title), acting through a State energy office.

(4) State Energy Program

The term "State Energy Program" means the State Energy Program established under part D of title III of the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.).

(Pub. L. 117–58, div. D, title V, §40501, Nov. 15, 2021, 135 Stat. 1050.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Energy Policy and Conservation Act, referred to in par. (4), is Pub. L. 94–163, Dec. 22, 1975, 89 Stat. 871. Part D of title III of the Act is classified generally to part B (§6321 et seq.) of subchapter III of chapter 77 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 6201 of this title and Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18792. Energy efficiency revolving loan fund capitalization grant program

(a) In general

Not later than 1 year after November 15, 2021, under the State Energy Program, the Secretary shall establish a program under which the Secretary shall provide capitalization grants to States to establish a revolving loan fund under which the State shall provide loans and grants, as applicable, in accordance with this section.

(b) Distribution of funds

(1) All States

(A) In general

Of the amounts made available under subsection (j), the Secretary shall use 40 percent to provide capitalization grants to States that are eligible for funding under the State Energy Program, in accordance with the allocation formula established under section 420.11 of title 10, Code of Federal Regulations (or successor regulations).

(B) Remaining funding

After applying the allocation formula described in subparagraph (A), the Secretary shall redistribute any unclaimed funds to the remaining States seeking capitalization grants under that subparagraph.

(2) Priority States

(A) In general

Of the amounts made available under subsection (j), the Secretary shall use 60 percent to provide supplemental capitalization grants to priority States in accordance with an allocation formula determined by the Secretary.

(B) Remaining funding

After applying the allocation formula described in subparagraph (A), the Secretary shall redistribute any unclaimed funds to the remaining priority States seeking supplemental capitalization grants under that subparagraph.

(C) Grant amount

(i) Maximum amount

The amount of a supplemental capitalization grant provided to a State under this paragraph shall not exceed \$15,000,000.

(ii) Supplement not supplant

A supplemental capitalization grant received by a State under this paragraph shall supplement, not supplant, a capitalization grant received by that State under paragraph (1).

(c) Applications for capitalization grants

A State seeking a capitalization grant under the program shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including—

- (1) a detailed explanation of how the grant will be used, including a plan to establish a new revolving loan fund or use an existing revolving loan fund;
- (2) the need of eligible recipients for loans and grants in the State for assistance with conducting energy audits;
- (3) a description of the expected benefits that building infrastructure and energy system upgrades and retrofits will have on communities in the State; and
- (4) in the case of a priority State seeking a supplemental capitalization grant under subsection (b)(2), a justification for needing the supplemental funding.

(d) Timing

(1) In general

The Secretary shall establish a timeline with dates by, or periods by the end of, which a State shall—

- (A) on receipt of a capitalization grant under the program, deposit the grant funds into a revolving loan fund; and
- (B) begin using the capitalization grant as described in subsection (e)(1).

(2) Use of grant

Under the timeline established under paragraph (1), a State shall be required to begin using a capitalization grant not more than 180 days after the date on which the grant is received.

(e) Use of grant funds

(1) In general

A State that receives a capitalization grant under the program—

- (A) shall provide loans in accordance with paragraph (2); and
- (B) may provide grants in accordance with paragraph (3).

(2) Loans

(A) Commercial energy audit

(i) In general

A State that receives a capitalization grant under the program may provide a loan to an eligible recipient described in clause (iv) to conduct a commercial energy audit.

(ii) Audit requirements

A commercial energy audit conducted using a loan provided under clause (i) shall—

- (I) determine the overall consumption of energy of the facility of the eligible recipient;
- (II) identify and recommend lifecycle cost-effective opportunities to reduce the energy

consumption of the facility of the eligible recipient, including through energy efficient—

- (aa) lighting;
- (bb) heating, ventilation, and air conditioning systems;
- (cc) windows;
- (dd) appliances; and
- (ee) insulation and building envelopes;

(III) estimate the energy and cost savings potential of the opportunities identified in subclause (II) using software approved by the Secretary;

(IV) identify—

(aa) the period and level of peak energy demand for each building within the facility of the eligible recipient; and

(bb) the sources of energy consumption that are contributing the most to that period of peak energy demand;

(V) recommend controls and management systems to reduce or redistribute peak energy consumption; and

(VI) estimate the total energy and cost savings potential for the facility of the eligible recipient if all recommended upgrades and retrofits are implemented, using software approved by the Secretary.

(iii) Additional audit inclusions

A commercial energy audit conducted using a loan provided under clause (i) may recommend strategies to increase energy efficiency of the facility of the eligible recipient through use of electric systems or other high-efficiency systems utilizing fuels, including natural gas and hydrogen.

(iv) Eligible recipients

An eligible recipient under clause (i) is a business that—

(I) conducts the majority of its business in the State that provides the loan under that clause; and

(II) owns or operates—

(aa) 1 or more commercial buildings; or

(bb) commercial space within a building that serves multiple functions, such as a building for commercial and residential operations.

(B) Residential energy audits

(i) In general

A State that receives a capitalization grant under the program may provide a loan to an eligible recipient described in clause (iv) to conduct a residential energy audit.

(ii) Residential energy audit requirements

A residential energy audit conducted using a loan under clause (i) shall—

(I) utilize the same evaluation criteria as the Home Performance Assessment used in the Energy Star program established under section 6294a of this title;

(II) recommend lifecycle cost-effective opportunities to reduce energy consumption within the residential building of the eligible recipient, including through energy efficient—

- (aa) lighting;
- (bb) heating, ventilation, and air conditioning systems;
- (cc) windows;
- (dd) appliances; and
- (ee) insulation and building envelopes;

(III) recommend controls and management systems to reduce or redistribute peak energy consumption;

(IV) compare the energy consumption of the residential building of the eligible recipient to comparable residential buildings in the same geographic area; and

(V) provide a Home Energy Score, or equivalent score (as determined by the Secretary), for the residential building of the eligible recipient by using the Home Energy Score Tool of the Department or an equivalent scoring tool.

(iii) Additional audit inclusions

A residential energy audit conducted using a loan provided under clause (i) may recommend strategies to increase energy efficiency of the facility of the eligible recipient through use of electric systems or other high-efficiency systems utilizing fuels, including natural gas and hydrogen.

(iv) Eligible recipients

An eligible recipient under clause (i) is—

(I) an individual who owns—

(aa) a single family home;

(bb) a condominium or duplex; or

(cc) a manufactured housing unit; or

(II) a business that owns or operates a multifamily housing facility.

(C) Commercial and residential energy upgrades and retrofits

(i) In general

A State that receives a capitalization grant under the program may provide a loan to an eligible recipient described in clause (ii) to carry out upgrades or retrofits of building infrastructure and systems that—

(I) are recommended in the commercial energy audit or residential energy audit, as applicable, completed for the building or facility of the eligible recipient;

(II) satisfy at least 1 of the criteria in the Home Performance Assessment used in the Energy Star program established under section 6294a of this title;

(III) improve, with respect to the building or facility of the eligible recipient—

(aa) the physical comfort of the building or facility occupants;

(bb) the energy efficiency of the building or facility; or

(cc) the quality of the air in the building or facility; and

(IV)(aa) are lifecycle cost-effective; and

(bb)(AA) reduce the energy intensity of the building or facility of the eligible recipient;

or

(BB) improve the control and management of energy usage of the building or facility to reduce demand during peak times.

(ii) Eligible recipients

An eligible recipient under clause (i) is an eligible recipient described in subparagraph (A)(iv) or (B)(iv) that—

(I) has completed a commercial energy audit described in subparagraph (A) or a residential energy audit described in subparagraph (B) using a loan provided under the applicable subparagraph; or

(II) has completed a commercial energy audit or residential energy audit that—

(aa) was not funded by a loan under this paragraph; and

(bb)(AA) meets the requirements for the applicable audit under subparagraph (A) or (B), as applicable; or

(BB) the Secretary determines is otherwise satisfactory.

(iii) Loan term

(I) In general

A loan provided under this subparagraph shall be required to be fully amortized by the earlier of—

- (aa) subject to subclause (II), the year in which the upgrades or retrofits carried out using the loan exceed their expected useful life; and
- (bb) 15 years after those upgrades or retrofits are installed.

(II) Calculation

For purposes of subclause (I)(aa), in the case of a loan being used to fund multiple upgrades or retrofits, the longest-lived upgrade or retrofit shall be used to calculate the year in which the upgrades or retrofits carried out using the loan exceed their expected useful life.

(D) Referral to qualified contractors

Following the completion of an audit under subparagraph (A) or (B) by an eligible recipient of a loan under the applicable subparagraph, the State may refer the eligible recipient to a qualified contractor, as determined by the State, to estimate—

- (i) the upfront capital cost of each recommended upgrade; and
- (ii) the total upfront capital cost of implementing all recommended upgrades.

(E) Loan recipients

Each State providing loans under this paragraph shall, to the maximum extent practicable, provide loans to eligible recipients that do not have access to private capital.

(3) Grants and technical assistance

(A) In general

A State that receives a capitalization grant under the program may use not more than 25 percent of the grant funds to provide grants or technical assistance to eligible entities described in subparagraph (B) to carry out the activities described in subparagraphs (A), (B), and (C) of paragraph (2).

(B) Eligible entity

An entity eligible for a grant or technical assistance under subparagraph (A) is—

- (i) a business that—
 - (I) is an eligible recipient described in paragraph (2)(A)(iv); and
 - (II) has fewer than 500 employees; or
- (ii) a low-income individual (as defined in section 3102 of title 29) that owns a residential building.

(4) Final assessment

A State that provides a capitalization grant under paragraph (2)(C) to an eligible recipient described in clause (ii) of that paragraph may, not later than 1 year after the date on which the upgrades or retrofits funded by the grant under that paragraph are completed, provide to the eligible recipient a loan or, in accordance with paragraph (3), a grant to conduct a final energy audit that assesses the total energy savings from the upgrades or retrofits.

(5) Administrative expenses

A State that receives a capitalization grant under the program may use not more than 10 percent of the grant funds for administrative expenses.

(f) Coordination with existing programs

A State receiving a capitalization grant under the program is encouraged to utilize and build on existing programs and infrastructure within the State that may aid the State in carrying out a

revolving loan fund program.

(g) Leveraging private capital

A State receiving a capitalization grant under the program shall, to the maximum extent practicable, use the grant to leverage private capital.

(h) Outreach

The Secretary shall engage in outreach to inform States of the availability of capitalization grants under the program.

(i) Report

Each State that receives a capitalization grant under the program shall, not later than 2 years after a grant is received, submit to the Secretary a report that describes—

(1) the number of recipients to which the State has distributed—

(A) loans for—

(i) commercial energy audits under subsection (e)(2)(A);

(ii) residential energy audits under subsection (e)(2)(B);

(iii) energy upgrades and retrofits under subsection (e)(2)(C); and

(B) grants under subsection (e)(3); and

(2) the average capital cost of upgrades and retrofits across all commercial energy audits and residential energy audits that were conducted in the State using loans provided by the State under subsection (e).

(j) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section \$250,000,000 for fiscal year 2022, to remain available until expended.

(Pub. L. 117–58, div. D, title V, §40502, Nov. 15, 2021, 135 Stat. 1051.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18793. Energy auditor training grant program

(a) Definitions

In this section:

(1) Covered certification

The term "covered certification" means any of the following certifications:

(A) The American Society of Heating, Refrigerating and Air-Conditioning Engineers Building Energy Assessment Professional certification.

(B) The Association of Energy Engineers Certified Energy Auditor certification.

(C) The Building Performance Institute Home Energy Professional Energy Auditor certification.

(D) The Residential Energy Services Network Home Energy Rater certification.

(E) Any other third-party certification recognized by the Department.

(F) Any third-party certification that the Secretary determines is equivalent to the certifications described in subparagraphs (A) through (E).

(2) Eligible State

The term "eligible State" means a State that—

- (A) has a demonstrated need for assistance for training energy auditors; and
- (B) meets any additional criteria determined necessary by the Secretary.

(b) Establishment

Under the State Energy Program, the Secretary shall establish a competitive grant program under which the Secretary shall award grants to eligible States to train individuals to conduct energy audits or surveys of commercial and residential buildings.

(c) Applications

(1) In general

A State seeking a grant under subsection (b) shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including the energy auditor training program plan described in paragraph (2).

(2) Energy auditor training program plan

An energy auditor training program plan submitted with an application under paragraph (1) shall include—

- (A)(i) a proposed training curriculum for energy audit trainees; and
- (ii) an identification of the covered certification that those trainees will receive on completion of that training curriculum;
- (B) the expected per-individual cost of training;
- (C) a plan for connecting trainees with employment opportunities; and
- (D) any additional information required by the Secretary.

(d) Amount of grant

The amount of a grant awarded to an eligible State under subsection (b)—

- (1) shall be determined by the Secretary, taking into account the population of the eligible State; and
- (2) shall not exceed \$2,000,000 for any eligible State.

(e) Use of funds

(1) In general

An eligible State that receives a grant under subsection (b) shall use the grant funds—

- (A) to cover any cost associated with individuals being trained or certified to conduct energy audits by—
 - (i) the State; or
 - (ii) a State-certified third party training program; and

(B) subject to paragraph (2), to pay the wages of a trainee during the period in which the trainee receives training and certification.

(2) Limitation

Not more than 10 percent of grant funds provided under subsection (b) to an eligible State may be used for the purpose described in paragraph (1)(B).

(f) Consultation

In carrying out this section, the Secretary shall consult with the Secretary of Labor.

(g) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section \$40,000,000 for the period of fiscal years 2022 through 2026.

(Pub. L. 117–58, div. D, title V, §40503, Nov. 15, 2021, 135 Stat. 1056.)

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

PART A–1—RESIDENTIAL EFFICIENCY AND ELECTRIFICATION REBATES

§18795. Home energy performance-based, whole-house rebates

(a) Appropriation

(1) In general

In addition to amounts otherwise available, there is appropriated to the Secretary for fiscal year 2022, out of any money in the Treasury not otherwise appropriated, \$4,300,000,000, to remain available through September 30, 2031, to carry out a program to award grants to State energy offices to develop and implement a HOMES rebate program.

(2) Allocation of funds

(A) In general

The Secretary shall reserve funds made available under paragraph (1) for each State energy office—

- (i) in accordance with the allocation formula for the State Energy Program in effect on January 1, 2022; and
- (ii) to be distributed to a State energy office if the application of the State energy office under subsection (b) is approved.

(B) Additional funds

Not earlier than 2 years after August 16, 2022, any money reserved under subparagraph (A) but not distributed under clause (ii) of that subparagraph shall be redistributed to the State energy offices operating a HOMES rebate program using a grant received under this section in proportion to the amount distributed to those State energy offices under subparagraph (A)(ii).

(3) Administrative expenses

Of the funds made available under paragraph (1), the Secretary shall use not more than 3 percent for—

- (A) administrative purposes; and
- (B) providing technical assistance relating to activities carried out under this section.

(b) Application

A State energy office seeking a grant under this section shall submit to the Secretary an application that includes a plan to implement a HOMES rebate program, including a plan—

- (1) to use procedures, as approved by the Secretary, for determining the reductions in home energy use resulting from the implementation of a home energy efficiency retrofit that are calibrated to historical energy usage for a home consistent with BPI 2400, for purposes of modeled performance home rebates;
- (2) to use open-source advanced measurement and verification software, as approved by the Secretary, for determining and documenting the monthly and hourly (if available) weather-normalized energy use of a home before and after the implementation of a home energy efficiency retrofit, for purposes of measured performance home rebates;
- (3) to value savings based on time, location, or greenhouse gas emissions;
- (4) for quality monitoring to ensure that each home energy efficiency retrofit for which a rebate

is provided is documented in a certificate that—

- (A) is provided by the contractor and certified by a third party to the homeowner; and
- (B) details the work performed, the equipment and materials installed, and the projected energy savings or energy generation to support accurate valuation of the retrofit;

(5) to provide a contractor performing a home energy efficiency retrofit or an aggregator who has the right to claim a rebate \$200 for each home located in a disadvantaged community that receives a home energy efficiency retrofit for which a rebate is provided under the program; and

(6) to ensure that a homeowner or aggregator does not receive a rebate for the same upgrade through both a HOMES rebate program and any other Federal grant or rebate program, pursuant to subsection (c)(7).

(c) HOMES rebate program

(1) In general

A HOMES rebate program carried out by a State energy office receiving a grant pursuant to this section shall provide rebates to homeowners and aggregators for whole-house energy saving retrofits begun on or after August 16, 2022, and completed by not later than September 30, 2031.

(2) Amount of rebate

Subject to paragraph (3), under a HOMES rebate program, the amount of a rebate shall not exceed—

(A) for individuals and aggregators carrying out energy efficiency upgrades of single-family homes—

(i) in the case of a retrofit that achieves modeled energy system savings of not less than 20 percent but less than 35 percent, the lesser of—

(I) \$2,000; and

(II) 50 percent of the project cost;

(ii) in the case of a retrofit that achieves modeled energy system savings of not less than 35 percent, the lesser of—

(I) \$4,000; and

(II) 50 percent of the project cost; and

(iii) for measured energy savings, in the case of a home or portfolio of homes that achieves energy savings of not less than 15 percent—

(I) a payment rate per kilowatt hour saved, or kilowatt hour-equivalent saved, equal to \$2,000 for a 20 percent reduction of energy use for the average home in the State; or

(II) 50 percent of the project cost;

(B) for multifamily building owners and aggregators carrying out energy efficiency upgrades of multifamily buildings—

(i) in the case of a retrofit that achieves modeled energy system savings of not less than 20 percent but less than 35 percent, \$2,000 per dwelling unit, with a maximum of \$200,000 per multifamily building;

(ii) in the case of a retrofit that achieves modeled energy system savings of not less than 35 percent, \$4,000 per dwelling unit, with a maximum of \$400,000 per multifamily building; or

(iii) for measured energy savings, in the case of a multifamily building or portfolio of multifamily buildings that achieves energy savings of not less than 15 percent—

(I) a payment rate per kilowatt hour saved, or kilowatt hour-equivalent saved, equal to \$2,000 for a 20 percent reduction of energy use per dwelling unit for the average multifamily building in the State; or

(II) 50 percent of the project cost; and

(C) for individuals and aggregators carrying out energy efficiency upgrades of a single-family

home occupied by a low- or moderate-income household or a multifamily building not less than 50 percent of the dwelling units of which are occupied by low- or moderate-income households—

(i) in the case of a retrofit that achieves modeled energy system savings of not less than 20 percent but less than 35 percent, the lesser of—

- (I) \$4,000 per single-family home or dwelling unit; and
- (II) 80 percent of the project cost;

(ii) in the case of a retrofit that achieves modeled energy system savings of not less than 35 percent, the lesser of—

- (I) \$8,000 per single-family home or dwelling unit; and
- (II) 80 percent of the project cost; and

(iii) for measured energy savings, in the case of a single-family home, multifamily building, or portfolio of single-family homes or multifamily buildings that achieves energy savings of not less than 15 percent—

- (I) a payment rate per kilowatt hour saved, or kilowatt hour-equivalent saved, equal to \$4,000 for a 20 percent reduction of energy use per single-family home or dwelling unit, as applicable, for the average single-family home or multifamily building in the State; or
- (II) 80 percent of the project cost.

(3) Rebates to low- or moderate-income households

On approval from the Secretary, notwithstanding paragraph (2), a State energy office carrying out a HOMES rebate program using a grant awarded pursuant to this section may increase rebate amounts for low- or moderate-income households.

(4) Use of funds

A State energy office that receives a grant pursuant to this section may use not more than 20 percent of the grant amount for planning, administration, or technical assistance related to a HOMES rebate program.

(5) Data access guidelines

The Secretary shall develop and publish guidelines for States relating to residential electric and natural gas energy data sharing.

(6) Exemption

Activities carried out by a State energy office using a grant awarded pursuant to this section shall not be subject to the expenditure prohibitions and limitations described in section 420.18 of title 10, Code of Federal Regulations.

(7) Prohibition on combining rebates

A rebate provided by a State energy office under a HOMES rebate program may not be combined with any other Federal grant or rebate, including a rebate provided under a high-efficiency electric home rebate program (as defined in section 18795a(d) of this title), for the same single upgrade.

(d) Definitions

In this section:

(1) Disadvantaged community

The term "disadvantaged community" means a community that the Secretary determines, based on appropriate data, indices, and screening tools, is economically, socially, or environmentally disadvantaged.

(2) HOMES rebate program

The term "HOMES rebate program" means a Home Owner Managing Energy Savings rebate program established by a State energy office as part of an approved State energy conservation plan

under the State Energy Program.

(3) Low- or moderate-income household

The term "low- or moderate-income household" means an individual or family the total annual income of which is less than 80 percent of the median income of the area in which the individual or family resides, as reported by the Department of Housing and Urban Development, including an individual or family that has demonstrated eligibility for another Federal program with income restrictions equal to or below 80 percent of area median income.

(Pub. L. 117–169, title V, §50121, Aug. 16, 2022, 136 Stat. 2033.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of Pub. L. 117–169, and not as part of div. D of Pub. L. 117–58, which enacted this chapter.

STATUTORY NOTES AND RELATED SUBSIDIARIES

DEFINITIONS

For definitions of "greenhouse gas", "Secretary", "State", "State energy office", and "State Energy Program" as used in this section, see section 50111 of Pub. L. 117–169, set out as a note under section 17113b of this title.

§18795a. High-efficiency electric home rebate program

(a) Appropriations

(1) Funds to State energy offices and Indian Tribes

In addition to amounts otherwise available, there is appropriated to the Secretary for fiscal year 2022, out of any money in the Treasury not otherwise appropriated, to carry out a program—

(A) to award grants to State energy offices to develop and implement a high-efficiency electric home rebate program in accordance with subsection (c), \$4,275,000,000, to remain available through September 30, 2031; and

(B) to award grants to Indian Tribes to develop and implement a high-efficiency electric home rebate program in accordance with subsection (c), \$225,000,000, to remain available through September 30, 2031.

(2) Allocation of funds

(A) State energy offices

The Secretary shall reserve funds made available under paragraph (1)(A) for each State energy office—

(i) in accordance with the allocation formula for the State Energy Program in effect on January 1, 2022; and

(ii) to be distributed to a State energy office if the application of the State energy office under subsection (b) is approved.

(B) Indian Tribes

The Secretary shall reserve funds made available under paragraph (1)(B)—

(i) in a manner determined appropriate by the Secretary; and

(ii) to be distributed to an Indian Tribe if the application of the Indian Tribe under subsection (b) is approved.

(C) Additional funds

Not earlier than 2 years after August 16, 2022, any money reserved under—

(i) subparagraph (A) but not distributed under clause (ii) of that subparagraph shall be redistributed to the State energy offices operating a high-efficiency electric home rebate program in proportion to the amount distributed to those State energy offices under that clause; and

(ii) subparagraph (B) but not distributed under clause (ii) of that subparagraph shall be redistributed to the Indian Tribes operating a high-efficiency electric home rebate program in proportion to the amount distributed to those Indian Tribes under that clause.

(3) Administrative expenses

Of the funds made available under paragraph (1), the Secretary shall use not more than 3 percent for—

(A) administrative purposes; and

(B) providing technical assistance relating to activities carried out under this section.

(b) Application

A State energy office or Indian Tribe seeking a grant under the program shall submit to the Secretary an application that includes a plan to implement a high-efficiency electric home rebate program, including—

(1) a plan to verify the income eligibility of eligible entities seeking a rebate for a qualified electrification project;

(2) a plan to allow rebates for qualified electrification projects at the point of sale in a manner that ensures that the income eligibility of an eligible entity seeking a rebate may be verified at the point of sale;

(3) a plan to ensure that an eligible entity does not receive a rebate for the same qualified electrification project through both a high-efficiency electric home rebate program and any other Federal grant or rebate program, pursuant to subsection (c)(8); and

(4) any additional information that the Secretary may require.

(c) High-efficiency electric home rebate program

(1) In general

Under the program, the Secretary shall award grants to State energy offices and Indian Tribes to establish a high-efficiency electric home rebate program under which rebates shall be provided to eligible entities for qualified electrification projects.

(2) Guidelines

The Secretary shall prescribe guidelines for high-efficiency electric home rebate programs, including guidelines for providing point of sale rebates in a manner consistent with the income eligibility requirements under this section.

(3) Amount of rebate

(A) Appliance upgrades

The amount of a rebate provided under a high-efficiency electric home rebate program for the purchase of an appliance under a qualified electrification project shall be—

(i) not more than \$1,750 for a heat pump water heater;

(ii) not more than \$8,000 for a heat pump for space heating or cooling; and

(iii) not more than \$840 for—

(I) an electric stove, cooktop, range, or oven; or

(II) an electric heat pump clothes dryer.

(B) Nonappliance upgrades

The amount of a rebate provided under a high-efficiency electric home rebate program for the purchase of a nonappliance upgrade under a qualified electrification project shall be—

(i) not more than \$4,000 for an electric load service center upgrade;

(ii) not more than \$1,600 for insulation, air sealing, and ventilation; and

(iii) not more than \$2,500 for electric wiring.

(C) Maximum rebate

An eligible entity receiving multiple rebates under this section may receive not more than a total of \$14,000 in rebates.

(4) Limitations

A rebate provided using funding under this section shall not exceed—

(A) in the case of an eligible entity described in subsection (d)(1)(A)—

(i) 50 percent of the cost of the qualified electrification project for a household the annual income of which is not less than 80 percent and not greater than 150 percent of the area median income; and

(ii) 100 percent of the cost of the qualified electrification project for a household the annual income of which is less than 80 percent of the area median income;

(B) in the case of an eligible entity described in subsection (d)(1)(B)—

(i) 50 percent of the cost of the qualified electrification project for a multifamily building not less than 50 percent of the residents of which are households the annual income of which is not less than 80 percent and not greater than 150 percent of the area median income; and

(ii) 100 percent of the cost of the qualified electrification project for a multifamily building not less than 50 percent of the residents of which are households the annual income of which is less than 80 percent of the area median income; or

(C) in the case of an eligible entity described in subsection (d)(1)(C)—

(i) 50 percent of the cost of the qualified electrification project for a household—

(I) on behalf of which the eligible entity is working; and

(II) the annual income of which is not less than 80 percent and not greater than 150 percent of the area median income; and

(ii) 100 percent of the cost of the qualified electrification project for a household—

(I) on behalf of which the eligible entity is working; and

(II) the annual income of which is less than 80 percent of the area median income.

(5) Amount for installation of upgrades

(A) In general

In the case of an eligible entity described in subsection (d)(1)(C) that receives a rebate under the program and performs the installation of the applicable qualified electrification project, a State energy office or Indian Tribe shall provide to that eligible entity, in addition to the rebate, an amount that—

(i) does not exceed \$500; and

(ii) is commensurate with the scale of the upgrades installed as part of the qualified electrification project, as determined by the Secretary.

(B) Treatment

An amount received under subparagraph (A) by an eligible entity described in that subparagraph shall not be subject to the requirement under paragraph (6).

(6) Requirement

An eligible entity described in subparagraph (C) of subsection (d)(1) shall discount the amount of a rebate received for a qualified electrification project from any amount charged by that eligible entity to the eligible entity described in subparagraph (A) or (B) of that subsection on behalf of which the qualified electrification project is carried out.

(7) Exemption

Activities carried out by a State energy office using a grant provided under the program shall not be subject to the expenditure prohibitions and limitations described in section 420.18 of title 10, Code of Federal Regulations.

(8) Prohibition on combining rebates

A rebate provided by a State energy office or Indian Tribe under a high-efficiency electric home rebate program may not be combined with any other Federal grant or rebate, including a rebate provided under a HOMES rebate program (as defined in section 18795(d) of this title), for the same qualified electrification project.

(9) Administrative costs

A State energy office or Indian Tribe that receives a grant under the program shall use not more than 20 percent of the grant amount for planning, administration, or technical assistance relating to a high-efficiency electric home rebate program.

(d) Definitions

In this section:

(1) Eligible entity

The term "eligible entity" means—

- (A) a low- or moderate-income household;
- (B) an individual or entity that owns a multifamily building not less than 50 percent of the residents of which are low- or moderate-income households; and
- (C) a governmental, commercial, or nonprofit entity, as determined by the Secretary, carrying out a qualified electrification project on behalf of an entity described in subparagraph (A) or (B).

(2) High-efficiency electric home rebate program

The term "high-efficiency electric home rebate program" means a rebate program carried out by a State energy office or Indian Tribe pursuant to subsection (c) using a grant received under the program.

(3) Indian Tribe

The term "Indian Tribe" has the meaning given the term in section 5304 of title 25.

(4) Low- or moderate-income household

The term "low- or moderate-income household" means an individual or family the total annual income of which is less than 150 percent of the median income of the area in which the individual or family resides, as reported by the Department of Housing and Urban Development, including an individual or family that has demonstrated eligibility for another Federal program with income restrictions equal to or below 150 percent of area median income.

(5) Program

The term "program" means the program carried out by the Secretary under subsection (a)(1).

(6) Qualified electrification project

(A) In general

The term "qualified electrification project" means a project that—

- (i) includes the purchase and installation of—
 - (I) an electric heat pump water heater;
 - (II) an electric heat pump for space heating and cooling;
 - (III) an electric stove, cooktop, range, or oven;
 - (IV) an electric heat pump clothes dryer;
 - (V) an electric load service center;
 - (VI) insulation;
 - (VII) air sealing and materials to improve ventilation; or
 - (VIII) electric wiring;
- (ii) with respect to any appliance described in clause (i), the purchase of which is carried out—

- (I) as part of new construction;
- (II) to replace a nonelectric appliance; or
- (III) as a first-time purchase with respect to that appliance; and

(iii) is carried out at, or relating to, a single-family home or multifamily building, as applicable and defined by the Secretary.

(B) Exclusions

The term "qualified electrification project" does not include any project with respect to which the appliance, system, equipment, infrastructure, component, or other item described in subclauses (I) through (VIII) of subparagraph (A)(i) is not certified under the Energy Star program established by section 6294a of this title, if applicable.

(Pub. L. 117–169, title V, §50122, Aug. 16, 2022, 136 Stat. 2036.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of Pub. L. 117–169, and not as part of div. D of Pub. L. 117–58, which enacted this chapter.

STATUTORY NOTES AND RELATED SUBSIDIARIES

DEFINITIONS

For definitions of "Secretary", "State energy office", and "State Energy Program" as used in this section, see section 50111 of Pub. L. 117–169, set out as a note under section 17113b of this title.

§18795b. State-based home energy efficiency contractor training grants

(a) Appropriation

In addition to amounts otherwise available, there is appropriated to the Secretary for fiscal year 2022, out of any money in the Treasury not otherwise appropriated, \$200,000,000, to remain available through September 30, 2031, to carry out a program to provide financial assistance to States to develop and implement a State program described in section 6322(d)(13) of this title, which shall provide training and education to contractors involved in the installation of home energy efficiency and electrification improvements, including improvements eligible for rebates under a HOMES rebate program (as defined in section 18795(d) of this title) or a high-efficiency electric home rebate program (as defined in section 18795a(d) of this title), as part of an approved State energy conservation plan under the State Energy Program.

(b) Use of funds

A State may use amounts received under subsection (a)—

- (1) to reduce the cost of training contractor employees;
- (2) to provide testing and certification of contractors trained and educated under a State program developed and implemented pursuant to subsection (a); and
- (3) to partner with nonprofit organizations to develop and implement a State program pursuant to subsection (a).

(c) Administrative expenses

Of the amounts received by a State under subsection (a), a State shall use not more than 10 percent for administrative expenses associated with developing and implementing a State program pursuant to that subsection.

(Pub. L. 117–169, title V, §50123, Aug. 16, 2022, 136 Stat. 2041.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of Pub. L. 117–169, and not as part of div. D of Pub. L. 117–58, which enacted this chapter.

STATUTORY NOTES AND RELATED SUBSIDIARIES

DEFINITIONS

For definitions of "Secretary", "State", and "State Energy Program" as used in this section, see section 50111 of Pub. L. 117–169, set out as a note under section 17113b of this title.

PART B—BUILDINGS

§18801. Building, training, and assessment centers

(a) In general

The Secretary shall provide grants to institutions of higher education (as defined in section 1001 of title 20) and Tribal Colleges or Universities (as defined in section 1059c(b) of title 20) to establish building training and assessment centers—

(1) to identify opportunities for optimizing energy efficiency and environmental performance in buildings;

(2) to promote the application of emerging concepts and technologies in commercial and institutional buildings;

(3) to train engineers, architects, building scientists, building energy permitting and enforcement officials, and building technicians in energy-efficient design and operation;

(4) to assist institutions of higher education and Tribal Colleges or Universities in training building technicians;

(5) to promote research and development for the use of alternative energy sources and distributed generation to supply heat and power for buildings, particularly energy-intensive buildings; and

(6) to coordinate with and assist State-accredited technical training centers, community colleges, Tribal Colleges or Universities, and local offices of the National Institute of Food and Agriculture and ensure appropriate services are provided under this section to each region of the United States.

(b) Coordination and nonduplication

(1) In general

The Secretary shall coordinate the program with the industrial research and assessment centers program under section 17116 of this title and with other Federal programs to avoid duplication of effort.

(2) Collocation

To the maximum extent practicable, building, training, and assessment centers established under this section shall be collocated with industrial research and assessment centers (as defined in section 18811 of this title).

(c) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section \$10,000,000 for fiscal year 2022, to remain available until expended.

(Pub. L. 117–58, div. D, title V, §40512, Nov. 15, 2021, 135 Stat. 1059.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18802. Career skills training

(a) Definition of eligible entity

In this section, the term "eligible entity" means a nonprofit partnership that—

(1) includes the equal participation of industry, including public or private employers, and labor organizations, including joint labor-management training programs;

(2) may include workforce investment boards, community-based organizations, qualified service and conservation corps, educational institutions, small businesses, cooperatives, State and local veterans agencies, and veterans service organizations; and

(3) demonstrates—

(A) experience in implementing and operating worker skills training and education programs;

(B) the ability to identify and involve in training programs carried out under this section, target populations of individuals who would benefit from training and be actively involved in activities relating to energy efficiency and renewable energy industries; and

(C) the ability to help individuals achieve economic self-sufficiency.

(b) Establishment

The Secretary shall award grants to eligible entities to pay the Federal share of associated career skills training programs under which students concurrently receive classroom instruction and on-the-job training for the purpose of obtaining an industry-related certification to install energy efficient buildings technologies.

(c) Federal share

The Federal share of the cost of carrying out a career skills training program described in subsection (b) shall be 50 percent.

(d) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section \$10,000,000 for fiscal year 2022, to remain available until expended.

(Pub. L. 117–58, div. D, title V, §40513, Nov. 15, 2021, 135 Stat. 1060.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18803. Commercial building energy consumption information sharing

(a) Definitions

In this section:

(1) Administrator

The term "Administrator" means the Administrator of the Energy Information Administration.

(2) Agreement

The term "Agreement" means the agreement entered into under subsection (b).

(3) Survey

The term "Survey" means the Commercial Building Energy Consumption Survey.

(b) Authorization of Agreement

Not later than 120 days after November 15, 2021, the Administrator and the Administrator of the Environmental Protection Agency shall sign, and submit to Congress, an information sharing agreement relating to commercial building energy consumption data.

(c) Content of Agreement

The Agreement shall—

(1) provide, to the extent permitted by law, that—

(A) the Administrator shall have access to building-specific data in the Portfolio Manager database of the Environmental Protection Agency; and

(B) the Administrator of the Environmental Protection Agency shall have access to building-specific data collected by the Survey;

(2) describe the manner in which the Administrator shall use the data described in paragraph (1) and subsection (d);

(3) describe and compare—

(A) the methodologies that the Energy Information Administration, the Environmental Protection Agency, and State and local government managers use to maximize the quality, reliability, and integrity of data collected through the Survey, the Portfolio Manager database of the Environmental Protection Agency, and State and local building energy disclosure laws (including regulations), respectively, and the manner in which those methodologies can be improved; and

(B) consistencies and variations in data for the same buildings captured in—

(i)(I) the 2018 Survey cycle; and

(II) each subsequent Survey cycle; and

(ii) the Portfolio Manager database of the Environmental Protection Agency; and

(4) consider whether, and the methods by which, the Administrator may collect and publish new iterations of Survey data every 3 years—

(A) using the Survey processes of the Administrator; or

(B) as supplemented by information in the Portfolio Manager database of the Environmental Protection Agency.

(d) Data

The data referred in subsection (c)(2) includes data that—

(1) is collected through the Portfolio Manager database of the Environmental Protection Agency;

(2) is required to be publicly available on the internet under State and local government building energy disclosure laws (including regulations); and

(3) includes information on private sector buildings that are not less than 250,000 square feet.

(e) Protection of information

In carrying out the agreement, the Administrator and the Administrator of the Environmental Protection Agency shall protect information in accordance with—

(1) section 552(b)(4) of title 5 (commonly known as the "Freedom of Information Act");

(2) subchapter III of chapter 35 of title 44; and

(3) any other applicable law (including regulations).

(Pub. L. 117–58, div. D, title V, §40514, Nov. 15, 2021, 135 Stat. 1061.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

PART C—SMART MANUFACTURING

§18811. Definitions

In this part:

(1) Energy management system

The term "energy management system" means a business management process based on standards of the American National Standards Institute that enables an organization to follow a systematic approach in achieving continual improvement of energy performance, including energy efficiency, security, use, and consumption.

(2) Industrial research and assessment center

The term "industrial research and assessment center" means a center located at an institution of higher education, a trade school, a community college, or a union training program that—

(A) receives funding from the Department;

(B) provides an in-depth assessment of small- and medium-size manufacturer plant sites to evaluate the facilities, services, and manufacturing operations of the plant site; and

(C) identifies opportunities for potential savings for small- and medium-size manufacturer plant sites from energy efficiency improvements, waste minimization, pollution prevention, and productivity improvement.

(3) Information and communication technology

The term "information and communication technology" means any electronic system or equipment (including the content contained in the system or equipment) used to create, convert, communicate, or duplicate data or information, including computer hardware, firmware, software, communication protocols, networks, and data interfaces.

(4) Institution of higher education

The term "institution of higher education" has the meaning given the term in section 1001(a) of title 20.

(5) North American Industry Classification System

The term "North American Industry Classification System" means the standard used by Federal statistical agencies in classifying business establishments for the purpose of collecting, analyzing, and publishing statistical data relating to the business economy of the United States.

(6) Small and medium manufacturers

The term "small and medium manufacturers" means manufacturing firms—

(A) classified in the North American Industry Classification System as any of sectors 31 through 33;

(B) with gross annual sales of less than \$100,000,000;

(C) with fewer than 500 employees at the plant site; and

(D) with annual energy bills totaling more than \$100,000 and less than \$3,500,000.

(7) Smart manufacturing

The term "smart manufacturing" means advanced technologies in information, automation,

monitoring, computation, sensing, modeling, artificial intelligence, analytics, and networking that—

(A) digitally—

- (i) simulate manufacturing production lines;
- (ii) operate computer-controlled manufacturing equipment;
- (iii) monitor and communicate production line status; and
- (iv) manage and optimize energy productivity and cost throughout production;

(B) model, simulate, and optimize the energy efficiency of a factory building;

(C) monitor and optimize building energy performance;

(D) model, simulate, and optimize the design of energy efficient and sustainable products, including the use of digital prototyping and additive manufacturing to enhance product design;

(E) connect manufactured products in networks to monitor and optimize the performance of the networks, including automated network operations; and

(F) digitally connect the supply chain network.

(Pub. L. 117–58, div. D, title V, §40531, Nov. 15, 2021, 135 Stat. 1068.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18812. Leveraging existing agency programs to assist small and medium manufacturers

The Secretary shall expand the scope of technologies covered by the industrial research and assessment centers of the Department—

(1) to include smart manufacturing technologies and practices; and

(2) to equip the directors of the industrial research and assessment centers with the training and tools necessary to provide technical assistance in smart manufacturing technologies and practices, including energy management systems, to manufacturers.

(Pub. L. 117–58, div. D, title V, §40532, Nov. 15, 2021, 135 Stat. 1069.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18813. Leveraging smart manufacturing infrastructure at National Laboratories

(a) Study

(1) In general

Not later than 180 days after November 15, 2021, the Secretary shall conduct a study on how the Department can increase access to existing high-performance computing resources in the National Laboratories, particularly for small and medium manufacturers.

(2) Inclusions

In identifying ways to increase access to National Laboratories under paragraph (1), the Secretary shall—

- (A) focus on increasing access to the computing facilities of the National Laboratories; and
- (B) ensure that—
 - (i) the information from the manufacturer is protected; and
 - (ii) the security of the National Laboratory facility is maintained.

(3) Report

Not later than 1 year after November 15, 2021, the Secretary shall submit to Congress a report describing the results of the study.

(b) Actions for increased access

The Secretary shall facilitate access to the National Laboratories studied under subsection (a) for small and medium manufacturers so that small and medium manufacturers can fully use the high-performance computing resources of the National Laboratories to enhance the manufacturing competitiveness of the United States.

(Pub. L. 117–58, div. D, title V, §40533, Nov. 15, 2021, 135 Stat. 1069.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18814. State manufacturing leadership

(a) Financial assistance authorized

The Secretary may provide financial assistance on a competitive basis to States for the establishment of programs to be used as models for supporting the implementation of smart manufacturing technologies.

(b) Applications

(1) In general

To be eligible to receive financial assistance under this section, a State shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(2) Criteria

The Secretary shall evaluate an application for financial assistance under this section on the basis of merit using criteria identified by the Secretary, including—

- (A) technical merit, innovation, and impact;
- (B) research approach, workplan, and deliverables;
- (C) academic and private sector partners; and
- (D) alternate sources of funding.

(c) Requirements

(1) Term

The term of an award of financial assistance under this section shall not exceed 3 years.

(2) Maximum amount

The amount of an award of financial assistance under this section shall be not more than \$2,000,000.

(3) Matching requirement

Each State that receives financial assistance under this section shall contribute matching funds in an amount equal to not less than 30 percent of the amount of the financial assistance.

(d) Use of funds

A State may use financial assistance provided under this section—

(1) to facilitate access to high-performance computing resources for small and medium manufacturers; and

(2) to provide assistance to small and medium manufacturers to implement smart manufacturing technologies and practices.

(e) Evaluation

The Secretary shall conduct semiannual evaluations of each award of financial assistance under this section—

(1) to determine the impact and effectiveness of programs funded with the financial assistance; and

(2) to provide guidance to States on ways to better execute the program of the State.

(f) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section \$50,000,000 for the period of fiscal years 2022 through 2026.

(Pub. L. 117–58, div. D, title V, §40534, Nov. 15, 2021, 135 Stat. 1070.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18815. Report

The Secretary annually shall submit to Congress and make publicly available a report on the progress made in advancing smart manufacturing in the United States.

(Pub. L. 117–58, div. D, title V, §40535, Nov. 15, 2021, 135 Stat. 1071.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

PART D—SCHOOLS AND NONPROFITS

§18831. Grants for energy efficiency improvements and renewable energy improvements at public school facilities

(a) Definitions

In this section:

(1) Alternative fueled vehicle

The term "alternative fueled vehicle" has the meaning given the term in section 13211 of this title.

(2) Alternative fueled vehicle infrastructure

The term "alternative fueled vehicle infrastructure" means infrastructure used to charge or fuel an alternative fueled vehicle.

(3) Eligible entity

The term "eligible entity" means a consortium of—

(A) 1 local educational agency; and

(B) 1 or more—

(i) schools;

(ii) nonprofit organizations that have the knowledge and capacity to partner and assist with energy improvements;

(iii) for-profit organizations that have the knowledge and capacity to partner and assist with energy improvements; or

(iv) community partners that have the knowledge and capacity to partner and assist with energy improvements.

(4) Energy improvement

The term "energy improvement" means—

(A) any improvement, repair, or renovation to a school that results in a direct reduction in school energy costs, including improvements to the envelope, air conditioning system, ventilation system, heating system, domestic hot water heating system, compressed air system, distribution system, lighting system, power system, and controls of a building;

(B) any improvement, repair, or renovation to, or installation in, a school that—

(i) leads to an improvement in teacher and student health, including indoor air quality; and

(ii) achieves energy savings;

(C) any improvement, repair, or renovation to a school involving the installation of renewable energy technologies;

(D) the installation of alternative fueled vehicle infrastructure on school grounds for—

(i) exclusive use of school buses, school fleets, or students; or

(ii) the general public; and

(E) the purchase or lease of alternative fueled vehicles to be used by a school, including school buses, fleet vehicles, and other operational vehicles.

(5) High school

The term "high school" has the meaning given the term in section 7801 of title 20.

(6) Local educational agency

The term "local educational agency" has the meaning given the term in section 7801 of title 20.

(7) Nonprofit organization

The term "nonprofit organization" means—

(A) an organization described in section 501(c)(3) of the Internal Revenue Code of 1986 and exempt from tax under section 501(a) of such Code; or

(B) a mutual or cooperative electric company described in section 501(c)(12) of such Code.

(8) Partnering local educational agency

The term "partnering local educational agency", with respect to an eligible entity, means the local educational agency participating in the consortium of the eligible entity.

(b) Grants

The Secretary shall award competitive grants to eligible entities to make energy improvements in accordance with this section.

(c) Applications

(1) In general

An eligible entity desiring a grant under this section shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(2) Contents

The application submitted under paragraph (1) shall include each of the following:

(A) A needs assessment of the current condition of the school and school facilities that would receive the energy improvements if the application were approved.

(B) A draft work plan of the intended achievements of the eligible entity at the school.

(C) A description of the energy improvements that the eligible entity would carry out at the school if the application were approved.

(D) A description of the capacity of the eligible entity to provide services and comprehensive support to make the energy improvements referred to in subparagraph (C).

(E) An assessment of the expected needs of the eligible entity for operation and maintenance training funds, and a plan for use of those funds, if applicable.

(F) An assessment of the expected energy efficiency, energy savings, and safety benefits of the energy improvements.

(G) A cost estimate of the proposed energy improvements.

(H) An identification of other resources that are available to carry out the activities for which grant funds are requested under this section, including the availability of utility programs and public benefit funds.

(d) Priority

(1) In general

In awarding grants under this section, the Secretary shall give priority to an eligible entity—

(A) that has renovation, repair, and improvement funding needs;

(B)(i) that, as determined by the Secretary, serves a high percentage of students, including students in a high school in accordance with paragraph (2), who are eligible for a free or reduced price lunch under the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.); or

(ii) the partnering local educational agency of which is designated with a school district locale code of 41, 42, or 43, as determined by the National Center for Education Statistics in consultation with the Bureau of the Census; and

(C) that leverages private sector investment through energy-related performance contracting.

(2) High school students

In the case of students in a high school, the percentage of students eligible for a free or reduced price lunch described in paragraph (1)(B)(i) shall be calculated using data from the schools that feed into the high school.

(e) Competitive criteria

The competitive criteria used by the Secretary to award grants under this section shall include the following:

(1) The extent of the disparity between the fiscal capacity of the eligible entity to carry out energy improvements at school facilities and the needs of the partnering local educational agency for those energy improvements, including consideration of—

(A) the current and historic ability of the partnering local educational agency to raise funds for construction, renovation, modernization, and major repair projects for schools;

(B) the ability of the partnering local educational agency to issue bonds or receive other funds to support the current infrastructure needs of the partnering local educational agency for

schools; and

(C) the bond rating of the partnering local educational agency.

(2) The likelihood that the partnering local educational agency or eligible entity will maintain, in good condition, any school and school facility that is the subject of improvements.

(3) The potential energy efficiency and safety benefits from the proposed energy improvements.

(f) Use of grant amounts

(1) In general

Except as provided in this subsection, an eligible entity receiving a grant under this section shall use the grant amounts only to make the energy improvements described in the application submitted by the eligible entity under subsection (c).

(2) Operation and maintenance training

An eligible entity receiving a grant under this section may use not more than 5 percent of the grant amounts for operation and maintenance training for energy efficiency and renewable energy improvements, such as maintenance staff and teacher training, education, and preventative maintenance training.

(3) Third-party investigation and analysis

An eligible entity receiving a grant under this section may use a portion of the grant amounts for a third-party investigation and analysis of the energy improvements carried out by the eligible entity, such as energy audits and existing building commissioning.

(4) Continuing education

An eligible entity receiving a grant under this section may use not more than 3 percent of the grant amounts to develop a continuing education curriculum relating to energy improvements.

(g) Competition in contracting

If an eligible entity receiving a grant under this section uses grant funds to carry out repair or renovation through a contract, the eligible entity shall be required to ensure that the contract process—

(1) through full and open competition, ensures the maximum practicable number of qualified bidders, including small, minority, and women-owned businesses; and

(2) gives priority to businesses located in, or resources common to, the State or geographical area in which the repair or renovation under the contract will be carried out.

(h) Best practices

The Secretary shall develop and publish guidelines and best practices for activities carried out under this section.

(i) Report by eligible entity

An eligible entity receiving a grant under this section shall submit to the Secretary, at such time as the Secretary may require, a report describing—

(1) the use of the grant funds for energy improvements;

(2) the estimated cost savings realized by those energy improvements;

(3) the results of any third-party investigation and analysis conducted relating to those energy improvements;

(4) the use of any utility programs and public benefit funds; and

(5) the use of performance tracking for energy improvements, such as—

(A) the Energy Star program established under section 6294a of this title; or

(B) the United States Green Building Council Leadership in Energy and Environmental Design (LEED) green building rating system for existing buildings.

(j) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section \$500,000,000 for

the period of fiscal years 2022 through 2026.

(Pub. L. 117–58, div. D, title V, §40541, Nov. 15, 2021, 135 Stat. 1071.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Internal Revenue Code of 1986, referred to in subsec. (a)(7), is classified generally to Title 26, Internal Revenue Code.

The Richard B. Russell National School Lunch Act, referred to in subsec. (d)(1)(B)(i), is act June 4, 1946, ch. 281, 60 Stat. 230, which is classified generally to chapter 13 (§1751 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 1751 of this title and Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18832. Energy efficiency materials pilot program

(a) Definitions

In this section:

(1) Applicant

The term "applicant" means a nonprofit organization that applies for a grant under this section.

(2) Energy-efficiency material

(A) In general

The term "energy-efficiency material" means a material (including a product, equipment, or system) the installation of which results in a reduction in use by a nonprofit organization of energy or fuel.

(B) Inclusions

The term "energy-efficiency material" includes—

- (i) a roof or lighting system or component of the system;
- (ii) a window;
- (iii) a door, including a security door; and
- (iv) a heating, ventilation, or air conditioning system or component of the system (including insulation and wiring and plumbing improvements needed to serve a more efficient system).

(3) Nonprofit building

The term "nonprofit building" means a building operated and owned by an organization that is described in section 501(c)(3) of the Internal Revenue Code of 1986 and exempt from tax under section 501(a) of such Code.

(b) Establishment

Not later than 1 year after November 15, 2021, the Secretary shall establish a pilot program to award grants for the purpose of providing nonprofit buildings with energy-efficiency materials.

(c) Grants

(1) In general

The Secretary may award grants under the program established under subsection (b).

(2) Application

The Secretary may award a grant under paragraph (1) if an applicant submits to the Secretary an application at such time, in such form, and containing such information as the Secretary may prescribe.

(3) Criteria for grant

In determining whether to award a grant under paragraph (1), the Secretary shall apply performance-based criteria, which shall give priority to applicants based on—

- (A) the energy savings achieved;
- (B) the cost effectiveness of the use of energy-efficiency materials;
- (C) an effective plan for evaluation, measurement, and verification of energy savings; and
- (D) the financial need of the applicant.

(4) Limitation on individual grant amount

Each grant awarded under this section shall not exceed \$200,000.

(d) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section \$50,000,000 for the period of fiscal years 2022 through 2026, to remain available until expended.

(Pub. L. 117–58, div. D, title V, §40542, Nov. 15, 2021, 135 Stat. 1074.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Internal Revenue Code of 1986, referred to in subsec. (a)(3), is classified generally to Title 26, Internal Revenue Code.

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

PART E—MISCELLANEOUS

§18841. Survey, analysis, and report on employment and demographics in the energy, energy efficiency, and motor vehicle sectors of the United States

(a) Energy Jobs Council

(1) Establishment

The Secretary shall establish a council, to be known as the "Energy Jobs Council" (referred to in this section as the "Council").

(2) Membership

The Council shall be comprised of—

- (A) to be appointed by the Secretary—
 - (i) 1 or more representatives of the Energy Information Administration; and
 - (ii) 1 or more representatives of a State energy office that are serving as members of the State Energy Advisory Board established by section 6325(g) of this title;

(B) to be appointed by the Secretary of Commerce—

- (i) 1 or more representatives of the Department of Commerce; and
- (ii) 1 or more representatives of the Bureau of the Census;

(C) 1 or more representatives of the Bureau of Labor Statistics, to be appointed by the Secretary of Labor; and

(D) 1 or more representatives of any other Federal agency the assistance of which is required to carry out this section, as determined by the Secretary, to be appointed by the head of the applicable agency.

(b) Survey and analysis

(1) In general

The Council shall—

(A) conduct a survey of employers in the energy, energy efficiency, and motor vehicle sectors of the economy of the United States; and

(B) perform an analysis of the employment figures and demographics in those sectors, including the number of personnel in each sector who devote a substantial portion of working hours, as determined by the Secretary, to regulatory compliance matters.

(2) Methodology

In conducting the survey and analysis under paragraph (1), the Council shall employ a methodology that—

(A) was approved in 2016 by the Office of Management and Budget for use in the document entitled "OMB Control Number 1910–5179";

(B) uses a representative, stratified sampling of businesses in the United States; and

(C) is designed to elicit a comparable number of responses from businesses in each State and with the same North American Industry Classification System codes as were received for the 2016 and 2017 reports entitled "U.S. Energy and Employment Report".

(3) Consultation

In conducting the survey and analysis under paragraph (1), the Council shall consult with key stakeholders, including—

(A) as the Council determines to be appropriate, the heads of relevant Federal agencies and offices, including—

- (i) the Secretary of Commerce;
- (ii) the Secretary of Transportation;
- (iii) the Director of the Bureau of the Census;
- (iv) the Commissioner of the Bureau of Labor Statistics; and
- (v) the Administrator of the Environmental Protection Agency;

(B) States;

(C) the State Energy Advisory Board established by section 6325(g) of this title; and

(D) energy industry trade associations.

(c) Report

(1) In general

Not later than 1 year after November 15, 2021, and annually thereafter, the Secretary shall—

(A) make publicly available on the website of the Department a report, to be entitled the "U.S. Energy and Employment Report", describing the employment figures and demographics in the energy, energy efficiency, and motor vehicle sectors of the United States, and the average number of hours devoted to regulatory compliance, based on the survey and analysis conducted under subsection (b); and

(B) subject to the requirements of subchapter III of chapter 35 of title 44, make the data collected by the Council publicly available on the website of the Department.

(2) Contents

(A) In general

The report under paragraph (1) shall include employment figures and demographic data for—

(i) the energy sector of the economy of the United States, including—

- (I) the electric power generation and fuels sector; and
- (II) the transmission, storage, and distribution sector;

(ii) the energy efficiency sector of the economy of the United States; and

(iii) the motor vehicle sector of the economy of the United States.

(B) Inclusion

With respect to each sector described in subparagraph (A), the report under paragraph (1) shall include employment figures and demographic data sorted by—

(i) each technology, subtechnology, and fuel type of those sectors; and

(ii) subject to the requirements of the Confidential Information Protection and Statistical Efficiency Act of 2002 (44 U.S.C. 3501 note; Public Law 107–347)—

- (I) each State;
- (II) each territory of the United States;
- (III) the District of Columbia; and
- (IV) each county (or equivalent jurisdiction) in the United States.

(Pub. L. 117–58, div. D, title V, §40553, Nov. 15, 2021, 135 Stat. 1076.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Confidential Information Protection and Statistical Efficiency Act of 2002, referred to in subsec. (c)(2)(B)(ii), is title V of Pub. L. 107–347, Dec. 17, 2002, 116 Stat. 2962, which is set out as a note under section 3501 of Title 44, Public Printing and Documents.

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

§18842. Model guidance for combined heat and power systems and waste heat to power systems

(a) Definitions

In this section:

(1) Additional services

The term "additional services" means the provision of supplementary power, backup or standby power, maintenance power, or interruptible power to an electric consumer by an electric utility.

(2) Waste heat to power system

The term "waste heat to power system" means a system that generates electricity through the recovery of waste energy.

(3) Other terms

(A) Purpa

The terms "electric consumer", "electric utility", "interconnection service", "nonregulated

electric utility", and "State regulatory authority" have the meanings given those terms in the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2601 et seq.), within the meaning of title I of that Act (16 U.S.C. 2611 et seq.).

(B) EPCA

The terms "combined heat and power system" and "waste energy" have the meanings given those terms in section 6341 of this title.

(b) Review

(1) In general

Not later than 180 days after November 15, 2021, the Secretary, in consultation with the Federal Energy Regulatory Commission and other appropriate entities, shall review existing rules and procedures relating to interconnection service and additional services throughout the United States for electric generation with nameplate capacity up to 150 megawatts connecting at either distribution or transmission voltage levels to identify barriers to the deployment of combined heat and power systems and waste heat to power systems.

(2) Inclusion

The review under this subsection shall include a review of existing rules and procedures relating to—

- (A) determining and assigning costs of interconnection service and additional services; and
- (B) ensuring adequate cost recovery by an electric utility for interconnection service and additional services.

(c) Model guidance

(1) In general

Not later than 18 months after November 15, 2021, the Secretary, in consultation with the Federal Energy Regulatory Commission and other appropriate entities, shall issue model guidance for interconnection service and additional services for consideration by State regulatory authorities and nonregulated electric utilities to reduce the barriers identified under subsection (b)(1).

(2) Current best practices

The model guidance issued under this subsection shall reflect, to the maximum extent practicable, current best practices to encourage the deployment of combined heat and power systems and waste heat to power systems while ensuring the safety and reliability of the interconnected units and the distribution and transmission networks to which the units connect, including—

- (A) relevant current standards developed by the Institute of Electrical and Electronic Engineers; and
- (B) model codes and rules adopted by—
 - (i) States; or
 - (ii) associations of State regulatory agencies.

(3) Factors for consideration

In establishing the model guidance under this subsection, the Secretary shall take into consideration—

- (A) the appropriateness of using standards or procedures for interconnection service that vary based on unit size, fuel type, or other relevant characteristics;
- (B) the appropriateness of establishing fast-track procedures for interconnection service;
- (C) the value of consistency with Federal interconnection rules established by the Federal Energy Regulatory Commission as of November 15, 2021;
- (D) the best practices used to model outage assumptions and contingencies to determine fees or rates for additional services;
- (E) the appropriate duration, magnitude, or usage of demand charge ratchets;
- (F) potential alternative arrangements with respect to the procurement of additional services,

including—

- (i) contracts tailored to individual electric consumers for additional services;
- (ii) procurement of additional services by an electric utility from a competitive market; and
- (iii) waivers of fees or rates for additional services for small electric consumers; and

(G) outcomes such as increased electric reliability, fuel diversification, enhanced power quality, and reduced electric losses that may result from increased use of combined heat and power systems and waste heat to power systems.

(Pub. L. 117–58, div. D, title V, §40556, Nov. 15, 2021, 135 Stat. 1078.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Public Utility Regulatory Policies Act of 1978, referred to in subsec. (a)(3)(A), is Pub. L. 95–617, Nov. 9, 1978, 92 Stat. 3117. Title I (§101 et seq.) of the Act enacted subchapters I to IV of chapter 46 (§2611 et seq.) of Title 16, Conservation, and section 6808 of this title, and amended sections 6802 to 6807 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 2601 of Title 16 and Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

SUBCHAPTER VI—WAGE RATE REQUIREMENTS

§18851. Wage rate requirements

(a) Davis-Bacon

All laborers and mechanics employed by contractors or subcontractors in the performance of construction, alteration, or repair work on a project assisted in whole or in part by funding made available under this division or an amendment made by this division shall be paid wages at rates not less than those prevailing on similar projects in the locality, as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40 (commonly referred to as the "Davis-Bacon Act").

(b) Authority

With respect to the labor standards specified in subsection (a), the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and section 3145 of title 40.

(Pub. L. 117–58, div. D, title XI, §41101, Nov. 15, 2021, 135 Stat. 1130.)

EDITORIAL NOTES

REFERENCES IN TEXT

This division, referred to in subsec. (a), is div. D of Pub. L. 117–58, Nov. 15, 2021, 135 Stat. 923, which enacted this chapter and enacted and amended numerous other sections and notes in the Code. For complete classification of div. D to the Code, see Tables.

The Davis-Bacon Act, referred to in subsec. (a), is act Mar. 3, 1931, ch. 411, 46 Stat. 1494, which was

classified generally to sections 276a to 276a–5 of former Title 40, Public Buildings, Property, and Works, and was repealed and reenacted as sections 3141–3144, 3146, and 3147 of Title 40, Public Buildings, Property, and Works, by Pub. L. 107–217, §§1, 6(b), Aug. 21, 2002, 116 Stat. 1062, 1304. For complete classification of this Act to the Code, see Tables.

Reorganization Plan Numbered 14 of 1950, referred to in subsec. (b), is set out in the Appendix to Title 5, Government Organization and Employees.

SUBCHAPTER VII—MISCELLANEOUS

§18861. Office of Clean Energy Demonstrations

(a) Definitions

In this section:

(1) Covered project

The term "covered project" means a demonstration project of the Department that—

(A) receives or is eligible to receive funding from the Secretary; and

(B) is authorized under—

(i) this division; or

(ii) the Energy Act of 2020 (Public Law 116–260; 134 Stat. 1182).¹

(2) Program

The term "program" means the program established under subsection (b).

(b) Establishment

The Secretary, in coordination with the heads of relevant program offices of the Department, including the Office of Technology Transitions, the Loan Program Office, and all applied program offices, shall establish a program to conduct project management and oversight of covered projects, including by—

(1) conducting evaluations of proposals for covered projects before the selection of a covered project for funding;

(2) conducting independent oversight of the execution of a covered project after funding has been awarded for that covered project; and

(3) ensuring a balanced portfolio of investments in covered projects.

(c) Duties

The Secretary shall appoint a head of the program who shall, in coordination with the heads of relevant program offices of the Department—

(1) evaluate proposals for covered projects, including scope, technical specifications, maturity of design, funding profile, estimated costs, proposed schedule, proposed technical and financial milestones, and potential for commercial success based on economic and policy projections;

(2) develop independent cost estimates for a proposal for a covered project, if appropriate;

(3) recommend to the head of a program office of the Department, as appropriate, whether to fund a proposal for a covered project;

(4) oversee the execution of covered projects that receive funding from the Secretary, including reconciling estimated costs as compared to actual costs;

(5) conduct reviews of ongoing covered projects, including—

(A) evaluating the progress of a covered project based on the proposed schedule and technical and financial milestones; and

(B) providing the evaluations under subparagraph (A) to the Secretary; and

(6) assess the lessons learned in overseeing covered projects and implement improvements in

the process of evaluating and overseeing covered projects.

(d) Employees

To carry out the program, the Secretary may hire appropriate personnel, including by using the authorities in section 19321 of this title, to perform the duties of the program.

(e) Additional authority

The Secretary may solicit, select, and manage covered projects directly through the program.

(f) Project termination

Should an ongoing covered project receive an unfavorable review under subsection (c)(5), the Secretary or their designee may cease funding the covered project and reallocate the remaining funds to new or existing covered projects carried out by that program office.

(g) Coordination

In carrying out the program, the head of the program shall coordinate with—

- (1) project management and acquisition management entities with the Department, including the Office of Project Management; and
- (2) professional organizations in project management, construction, cost estimation, and other relevant fields.

(h) Reports

(1) Report by Secretary

In accordance with section 16391a of this title, the Secretary shall include in each updated technology transfer execution plan submitted under subsection (h)(2) of section 16391 of this title information on the implementation of and progress made under the program, including, for the year covered by the report—

- (A) the covered projects under the purview of the program; and
- (B) the review of each covered project carried out under subsection (c)(5).

(2) Report by Comptroller General

Not later than 3 years after November 15, 2021, the Comptroller General of the United States shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report evaluating the operation of the program, including—

- (A) a description of the processes and procedures used by the program to evaluate proposals of covered projects and the oversight of covered projects; and
- (B) any recommended changes in the program, including changes to—
 - (i) the processes and procedures described in subparagraph (A); and
 - (ii) the structure of the program, for the purpose of better carrying out the program.

(i) Omitted

(Pub. L. 117–58, div. D, title XII, §41201, Nov. 15, 2021, 135 Stat. 1130; Pub. L. 117–167, div. B, title VI, §10723, Aug. 9, 2022, 136 Stat. 1709.)

EDITORIAL NOTES

REFERENCES IN TEXT

This division, referred to in subsec. (a)(1)(B)(i), is div. D of Pub. L. 117–58, Nov. 15, 2021, 135 Stat. 923, which enacted this chapter and enacted and amended numerous other sections and notes in the Code. For complete classification of div. D to the Code, see Tables.

The Energy Act of 2020, referred to in subsec. (a)(1)(B)(ii), is div. Z of Pub. L. 116–260, Dec. 27, 2020, 134 Stat. 2418. For complete classification of div. Z to the Code, see Short Title of 2020 Amendment note under section 17001 of this title and Tables.

CODIFICATION

Section is comprised of section 41201 of div. D of Pub. L. 117–58. Subsec. (g) (now subsec. (i)) of section 41201 of div. D of Pub. L. 117–58 amended section 16391 of this title.

AMENDMENTS

2022—Subsec. (b). Pub. L. 117–167, §10723(1), inserted "including the Office of Technology Transitions, the Loan Program Office, and all applied program offices," after "Department," in introductory provisions.

Subsec. (d). Pub. L. 117–167, §10723(2), inserted ", including by using the authorities in section 19321 of this title," after "personnel".

Subsecs. (e) to (i). Pub. L. 117–167, §10723(3)–(5), added subsecs. (e) and (f), redesignated former subsecs. (e) to (g) as (g) to (i), respectively, and in introductory provisions of subsec. (h)(1), as redesignated, substituted "In accordance with section 16391a of this title, the Secretary" for "The Secretary".

STATUTORY NOTES AND RELATED SUBSIDIARIES

WAGE RATE REQUIREMENTS

For provisions relating to rates of wages to be paid to laborers and mechanics on projects for construction, alteration, or repair work funded under div. D or an amendment by div. D of Pub. L. 117–58, including authority of Secretary of Labor, see section 18851 of this title.

CHAPTER 163—RESEARCH AND DEVELOPMENT, COMPETITION, AND INNOVATION

Sec.

18901. Definitions.

SUBCHAPTER I—DEPARTMENT OF ENERGY SCIENCE FOR THE FUTURE

18911. Basic energy sciences program.

18912. Research security.

SUBCHAPTER II—NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY FOR THE FUTURE

18921. Definitions.

PART A—MEASUREMENT RESEARCH

18931. Engineering biology and biometrology.

18932. Greenhouse gas measurement research.

18933. Software security and authentication.

18934. Biometrics research and testing.

18935. Dissemination of resources for research institutions.

18936. Neutron scattering.

18937. Artificial intelligence.

18938. Sustainable chemistry research and education.

18939. Premise plumbing research.

18940. Dr. David Satcher Cybersecurity Education Grant Program.

PART B—GENERAL ACTIVITIES

18951. International standards development.

18952. Standards development organization grants.

PART C—HOLLINGS MANUFACTURING EXTENSION PARTNERSHIP

18961. National Supply Chain Database.

PART D—MANUFACTURING USA PROGRAM

18971. Expanding opportunities through the Manufacturing USA Program.

18972. Promoting domestic production of technologies developed under Manufacturing USA

Program.
SUBCHAPTER III—NATIONAL SCIENCE FOUNDATION FOR THE FUTURE

PART A—PRELIMINARY MATTERS

18981. Definitions.

PART B—STEM EDUCATION

18991. PreK–12 STEM education.
18992. Undergraduate STEM education.
18993. Graduate STEM education.
18994. STEM workforce data.
18995. Cyber workforce development research and development.
18996. Cybersecurity workforce data initiative.
18997. Microelectronics workforce development activities.
18998. Mandatory cost-sharing.
18999. Programs to address the STEM workforce.

PART C—BROADENING PARTICIPATION

19011. Robert Noyce Teacher Scholarship program update.
19012. NSF Eddie Bernice Johnson INCLUDES Initiative.
19013. Broadening participation on major facilities awards.
19014. Expanding geographic and institutional diversity in research.
19015. Diversity in tech research.
19016. Chief Diversity Officer of the NSF.
19017. Research and dissemination to increase the participation of women and underrepresented minorities in STEM fields.
19018. Intramural emerging research institutions pilot program.

PART D—NSF RESEARCH SECURITY

19031. Office of Research Security and Policy.
19032. Chief of Research Security.
19033. Reporting to Congress.
19034. Online resource.
19035. Research awards.
19036. Authorities.
19037. Research security and integrity information sharing analysis organization.
19038. Plan with respect to controlled information and background screening.
19039. Foundation funding to institutions hosting or supporting Confucius Institutes.
19040. Foreign financial support.

PART E—FUNDAMENTAL RESEARCH

19051. Broader impacts.
19052. Research ethics.
19053. Research reproducibility and replicability.
19054. Climate change research.
19055. Social, behavioral, and economic sciences.
19056. Measuring impacts of Federally funded research and development.
19057. Food-energy-water research.
19058. Biological field stations and marine laboratories.
19059. Sustainable chemistry research and education.
19060. Risk and resilience research.
19061. Unmanned aircraft systems technologies.
19062. Accelerating unmanned maritime systems technologies.
19063. Leveraging international expertise in research.
19064. Biological research collections.
19065. Clean water research and technology acceleration.
19066. Technology and behavioral science research.

- 19067. Critical minerals mining research and development.
- 19068. Advancing IoT for Precision Agriculture Capabilities Act.
- 19069. Astronomy and satellite constellations.
- 19070. Research on the impact of inflation.
- 19071. Microgravity utilization policy.

PART F—RESEARCH INFRASTRUCTURE

- 19081. Facility operation and maintenance.
- 19082. Reviews.
- 19083. Helium conservation.
- 19084. Advanced computing.
- 19085. National secure data service.

PART G—DIRECTORATE FOR TECHNOLOGY, INNOVATION, AND PARTNERSHIPS

- 19101. Establishment.
- 19102. Purposes.
- 19103. Activities.
- 19104. Requirements.
- 19105. Assistant Director.
- 19106. Advisory committee.
- 19107. Challenges and focus areas.
- 19108. Regional Innovation Engines.
- 19109. Translation Accelerator.
- 19110. Test beds.
- 19111. Planning and capacity building awards.
- 19112. Entrepreneurial fellowships.
- 19113. Scholarships and fellowships.
- 19114. Research and development awards.
- 19115. Scaling innovations in PreK–12 STEM education.
- 19116. Authorities.
- 19117. Coordination of activities.
- 19118. Ethical, legal, and societal considerations.
- 19119. Reports and roadmaps.
- 19120. Evaluation.

SUBCHAPTER IV—BIOECONOMY RESEARCH AND DEVELOPMENT

- 19131. Definitions.
- 19132. National Engineering Biology Research and Development Initiative.
- 19133. Initiative coordination.
- 19134. Advisory committee on engineering biology research and development.
- 19135. Agency activities.
- 19136. Rule of construction.

SUBCHAPTER V—BROADENING PARTICIPATION IN SCIENCE

PART A—STEM OPPORTUNITIES

- 19151. Federal research agency policies for caregivers.
- 19152. Collection and reporting of data on Federal research awards.
- 19153. Policies for review of Federal research awards.
- 19154. Collection of data on demographics of faculty.
- 19155. Cultural and institutional barriers to expanding the academic and Federal STEM workforce.
- 19156. Existing activities.
- 19157. Merit review.
- 19158. Definition.

PART B—RURAL STEM EDUCATION RESEARCH

- 19171. Definition.

- 19172. National Science Foundation rural STEM activities.
- 19173. Opportunities for online education.
- 19174. NIST engagement with rural communities.

PART C—MSI STEM ACHIEVEMENT

- 19181. Agency responsibilities.
- 19182. Research at the National Science Foundation.
- 19183. Capacity-building program for developing universities.
- 19184. Definitions.

PART D—COMBATING SEXUAL HARASSMENT IN SCIENCE

- 19191. Findings.
- 19192. Purpose.
- 19193. Definition.
- 19194. Research awards.
- 19195. Interagency working group.

SUBCHAPTER VI—MISCELLANEOUS SCIENCE AND TECHNOLOGY PROVISIONS

PART A—SUPPORTING EARLY-CAREER RESEARCHERS

- 19211. Early-career research fellowship program.

PART B—NATIONAL SCIENCE AND TECHNOLOGY STRATEGY

- 19221. Strategy and report on the nation's economic security, science, research, and innovation to support the national security strategy.
- 19222. National research and development strategy for distributed ledger technology.

PART C—RESEARCH SECURITY

- 19231. Requirements for foreign talent recruitment programs.
- 19232. Malign foreign talent recruitment program prohibition.
- 19233. Review of contracts and agreements.
- 19234. Research security training requirement for Federal research award personnel.
- 19235. Person or entity of concern prohibition.
- 19236. Nondiscrimination.
- 19237. Definitions.

PART D—INTERAGENCY WORKING GROUP

- 19251. Interagency working group.

PART E—QUANTUM NETWORKING AND COMMUNICATIONS

- 19261. Quantum networking and communications.

PART F—BLOCKCHAIN SPECIALIST

- 19271. Establishment of blockchain and cryptocurrency specialist position within OSTP.

PART G—PARTNERSHIPS FOR ENERGY SECURITY AND INNOVATION

- 19281. Foundation for Energy Security and Innovation.

PART H—ENERGIZING TECHNOLOGY TRANSFER

- 19291. Definitions.

SUBPART 1—NATIONAL CLEAN ENERGY TECHNOLOGY TRANSFER PROGRAMS

- 19301. National Clean Energy Incubator Program.
- 19302. Clean Energy Technology University Prize competition.
- 19303. Clean energy technology transfer coordination.

SUBPART 2—SUPPORTING TECHNOLOGY DEVELOPMENT AT THE NATIONAL LABORATORIES

- 19311. Lab-Embedded Entrepreneurship Program.
- 19312. Entrepreneurial leave program.
- 19313. National Laboratory non-Federal employee outside employment authority.

SUBPART 3—DEPARTMENT OF ENERGY MODERNIZATION

19321. Special hiring authority for scientific, engineering, and project management personnel.

PART I—MICRO ACT

19331. Microelectronics research for energy innovation.

PART J—APPLIED LABORATORIES INFRASTRUCTURE RESTORATION AND MODERNIZATION

19341. Applied laboratories infrastructure restoration and modernization.

PART K—FISSION FOR THE FUTURE

19351. Advanced nuclear technologies Federal research, development, and demonstration program.

§18901. Definitions

In this division:

(1) Artificial intelligence

The term "artificial intelligence" or "AI" has the meaning given such term in section 9401 of title 15.

(2) Awardee

The term "awardee" means the legal entity to which Federal assistance is awarded and that is accountable to the Federal Government for the use of the funds provided.

(3) Award personnel

The term "award personnel" means principal investigators and co-principal investigators, faculty, postdoctoral researchers, and other employees supported by a grant, cooperative agreement, or contract under Federal law.

(4) Biomanufacturing

The term "biomanufacturing" means the utilization of biological systems to develop new and advance existing products, tools, and processes at commercial scale.

(5) Emerging research institution

The term "emerging research institution" means an institution of higher education with an established undergraduate or graduate program that has less than \$50,000,000 in Federal research expenditures.

(6) Engineering biology

The term "engineering biology" means the application of engineering design principles and practices to biological systems, including molecular and cellular systems, to advance fundamental understanding of complex natural systems and to enable novel or optimize functions and capabilities.

(7) EPSCoR

The term "EPSCoR" has the meaning given the term in section 502 of the America COMPETES Reauthorization Act of 2010 (42 U.S.C. 1862p note).

(8) EPSCoR institution

The term "EPSCoR institution" means an institution of higher education, nonprofit organization, or other institution located in a jurisdiction eligible to participate in the program under section 1862g of this title.

(9) Federal laboratory

The term "Federal laboratory" has the meaning given such term in section 3703 of title 15.

(10) Federal research agency

The term "Federal research agency" means any Federal agency with an annual extramural research expenditure of over \$100,000,000 in fiscal year 2022 constant dollars.

(11) Foundation

The term "Foundation" means the National Science Foundation.

(12) Historically Black college and university

The term "historically Black college and university" has the meaning given the term "part B institution" in section 1061 of title 20.

(13) Institution of higher education

The term "institution of higher education" has the meaning given the term in section 1001(a) of title 20.

(14) Interagency working group on inclusion in STEM

The term "interagency working group on inclusion in STEM" means the interagency working group established by section 6626 of this title.

(15) Labor organization

The term "labor organization" has the meaning given the term in section 152(5) of title 29, except that such term shall also include—

(A) any organization composed of labor organizations, such as a labor union federation or a State or municipal labor body; and

(B) any organization which would be included in the definition for such term under such section 152(5) of title 29 but for the fact that the organization represents—

(i) individuals employed by the United States, any wholly owned Government corporation, any Federal Reserve Bank, or any State or political subdivision thereof;

(ii) individuals employed by persons subject to the Railway Labor Act (45 U.S.C. 151 et seq.); or

(iii) individuals employed as agricultural laborers.

(16) Low-income individual

The term "low-income individual" means an individual from a family whose taxable income for the preceding year did not exceed 150 percent of an amount equal to the poverty level determined by using criteria of poverty established by the Bureau of the Census.

(17) Manufacturing extension center

The term "manufacturing extension center" has the meaning given the term "Center" in section 278k(a) of title 15.

(18) Manufacturing USA institute

The term "Manufacturing USA institute" means a Manufacturing USA institute described in section 278s(d) of title 15.

(19) Minority-serving institution

The term "minority-serving institution" means a Hispanic-serving institution as defined in section 1101a(a) of title 20; an Alaska Native-serving institution or Native Hawaiian-serving institution as defined in section 1059d(b) of title 20; or a Predominantly Black institution, Asian American and Native American Pacific Islander-serving institution, or Native American-serving nontribal institution as defined in section 1067q(c) of title 20.

(20) National Academies

The term "National Academies" means the National Academies of Sciences, Engineering, and Medicine.

(21) Non-profit organization

The term "non-profit organization" means an organization which is described in section

501(c)(3) of title 26 and exempt from tax under section 501(a) of such title.

(22) PreK–12

The term "PreK–12" means pre-kindergarten through grade 12.

(23) Quantum information science

The term "quantum information science" has the meaning given such term in section 8801 of title 15.

(24) Recipient

The term "recipient" means an entity, usually a non-Federal entity, that receives a Federal award directly from a Federal research agency. The term "recipient" does not include entities that receive subawards or individuals that are the beneficiaries of the award.

(25) Research and development award

The term "research and development award" means support provided to an individual or entity by a Federal research agency to carry out research and development activities, which may include support in the form of a grant, contract, cooperative agreement, or other such transaction. The term does not include a grant, contract, agreement or other transaction for the procurement of goods or services to meet the administrative needs of a Federal research agency.

(26) Skilled technical work

The term "skilled technical work" means an occupation that requires a high level of knowledge in a technical domain and does not require a bachelor's degree for entry.

(27) STEM

The term "STEM" means science, technology, engineering, and mathematics, including computer science.

(28) STEM education

The term "STEM education" has the meaning given the term in section 2 of the STEM Education Act of 2015 (42 U.S.C. 6621 note).

(29) Technical standard

The term "technical standard" has the meaning given such term in section 12(d)(5) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note).

(30) Tribal College or University

The term "Tribal College or University" has the meaning given such term in section 1059c of title 20.

(Pub. L. 117–167, div. B, §10002, Aug. 9, 2022, 136 Stat. 1405.)

EDITORIAL NOTES

REFERENCES IN TEXT

This division, referred to in introductory provisions, is div. B of Pub. L. 117–167, Aug. 9, 2022, 136 Stat. 1399, which enacted this chapter and enacted, amended, and repealed numerous other sections and notes in the Code. For complete classification of div. B to the Code, see Short Title note set out below and Tables.

Section 502 of the America COMPETES Reauthorization Act of 2010, referred to in par. (7), is section 502 of Pub. L. 111–358, which is set out as a note under section 1862p of this title.

The Railway Labor Act, referred to in par. (15)(B)(ii), is act May 20, 1926, ch. 347, 44 Stat. 577, which is classified principally to chapter 8 (§151 et seq.) of Title 45, Railroads. For complete classification of this Act to the Code, see section 151 of Title 45 and Tables.

Section 2 of the STEM Education Act of 2015, referred to in par. (28), is section 2 of Pub. L. 114–59, which is set out as a note under section 6621 of this title.

Section 12(d)(5) of the National Technology Transfer and Advancement Act of 1995, referred to in par. (29), is section 12(d)(5) of Pub. L. 104–113, which defines "technical standards" and is set out as a note under section 272 of Title 15, Commerce and Trade.

STATUTORY NOTES AND RELATED SUBSIDIARIES

SHORT TITLE

Pub. L. 117–167, div. B, §10001, Aug. 9, 2022, 136 Stat. 1405, provided that: "This division [div. B (§§10001–10862) of Pub. L. 117–167, see Tables for classification] may be cited as the 'Research and Development, Competition, and Innovation Act'."

SUBCHAPTER I—DEPARTMENT OF ENERGY SCIENCE FOR THE FUTURE

§18911. Basic energy sciences program

(a) to (c) Omitted

(d) Foundational nuclear science

(1) In general

The Director of the Office of Science shall support a program of research and development to bridge scientific barriers to, and expand theoretical and fundamental knowledge relevant to, understanding nuclear materials and matter for the benefit of commerce, medicine, and national security.

(2) Activities

As part of the program described in paragraph (1)—

(A) the Director of the Office of Science shall support basic research to pursue distinct lines of scientific inquiry, including—

(i) research in nuclear materials science, including the application of advanced computing practices to foundational and emerging research areas in nuclear materials science and discovery, such as—

(I) the advanced characterization of materials;

(II) materials synthesis;

(III) processing;

(IV) the innovative use of experimental and theoretical data; and

(V) mechanical behavior in unique environments, including the effects of radiation;

(ii) electrochemistry research and associated techniques for processing nuclear materials;

(iii) the development of advanced instrumentation and nuclear data collection to inform the activities described in clauses (i) and (ii); and

(iv) any other area of research, as determined by the Director of the Office of Science; and

(B) the Assistant Secretary for Nuclear Energy shall consult with the Director of the Office of Science to support the direction of translational research, development, and validation of physical concepts developed under the program.

(3) Funding

Of the funds authorized to be appropriated for basic energy sciences in a fiscal year, there is authorized to be appropriated to the Secretary of Energy to carry out activities under this subsection \$50,000,000 for each of fiscal years 2023 through 2027.

(e) Carbon Materials Science Initiative

(1) Initiative

(A) In general

The Director of the Office of Science (referred to in this subsection as the "Director") shall establish a research initiative, to be known as the "Carbon Materials Science Initiative" (referred to in this subsection as the "Initiative"), to expand the fundamental knowledge of coal, coal-wastes, and carbon ore chemistry useful for understanding the conversion of carbon to material products.

(B) Coordination

In carrying out programs and activities under the Initiative, the Director shall leverage expertise and resources from the Office of Fossil Energy and Carbon Management and the United States Geological Survey.

(C) Teams

(i) In general

In carrying out the Initiative, the Director shall establish and organize activities among multidisciplinary teams to leverage, to the maximum extent practicable, expertise from the National Laboratories, institutions of higher education, and the private sector.

(ii) Goals

The multidisciplinary teams described in clause (i) shall pursue expedient, milestone-driven research goals established by the Director.

(2) Research program

(A) In general

The Director shall carry out under the Initiative a program to support, and discover fundamental knowledge relevant to, carbon materials and carbon ore processing research.

(B) Activities

As part of the program described in subparagraph (A), the Director shall, in coordination with the Assistant Secretary of Energy for Fossil Energy and Carbon Management, as appropriate, support research to pursue distinct lines of scientific inquiry, including—

- (i) methods of extraction, processing, recycling, and utilization of the materials and valuable minerals contained in raw coal and coal-waste;
- (ii) methods of improving performance, cost, and availability of materials for use in carbon capture systems; and
- (iii) unconventional pathways and materials for conversion of carbon dioxide molecules, minerals, and materials.

(C) Review

The Director shall periodically review activities carried out under the program described in subparagraph (A) to evaluate the achievement of scientific objectives and research milestones.

(D) Coordination with existing programs and centers

In carrying out the program described in subparagraph (A), the Director shall—

- (i) ensure coordination and knowledge sharing with—
 - (I) the United States Geological Survey; and
 - (II) the programs and the Carbon Utilization Research Center established under section 16298a of this title; and
- (ii) avoid duplication of efforts to the maximum extent practicable.

(3) Carbon Materials Research Centers

(A) In general

In carrying out the activities authorized under paragraph (2), the Director shall establish 1 center in each of the 2 major coal-producing regions of the United States, each of which shall—

(i) be known as a "Carbon Materials Research Center" (referred to in this paragraph as a "Center"); and

(ii) focus on early stage research and development activities, including—

(I) developing and advancing methods of extracting, processing, or recycling carbon or other valuable materials or minerals from raw coal, coal-waste, or other solid carbon materials, for the development of new carbon-based materials;

(II) methods of improving the structural, physical, and chemical properties of carbon-based materials or other valuable materials from raw coal, coal-waste, or other solid carbon materials and their recyclability;

(III) overcoming the challenges and maximizing the benefits of commercially extracting, producing, or improving coal-derived carbon and resulting products; and

(IV) identifying novel pathways and materials for carbon storage and conversion into useful products.

(B) Selection

The Director shall—

(i) select Centers under subparagraph (A) on a competitive, merit-reviewed basis; and

(ii) consider applications from the National Laboratories, institutions of higher education, multi-institutional collaborations, and other appropriate entities.

(C) Duration

A Center shall receive support for a period of not more than 5 years beginning on the date of establishment of that Center, subject to the availability of appropriations.

(D) Renewal

On the expiration of any period of support of a Center, the Director may renew support for that Center, on a merit-reviewed basis, for a period of not more than 5 years.

(E) Existing facilities

The Director shall—

(i) ensure that the research activities carried out by the Centers are not duplicative of existing efforts; and

(ii) if practicable, leverage existing user facilities and other capabilities of the Department of Energy to carry out the research objectives of the Centers.

(f) Carbon Sequestration Research and Geologic Computational Science Initiative

(1) Initiative

(A) In general

The Secretary of Energy (referred to in this subsection as the "Secretary") shall establish a research initiative, to be known as the "Carbon Sequestration Research and Geologic Computational Science Initiative" (referred to in this subsection as the "Initiative"), to expand the fundamental knowledge, data collection, data analysis, and modeling of subsurface geology for the purpose of advancing carbon sequestration in geologic formations.

(B) Leveraging

In carrying out programs and activities under the Initiative, the Secretary shall leverage expertise and resources from the Office of Fossil Energy and Carbon Management and the United States Geological Survey.

(C) Teams

(i) In general

In carrying out the Initiative, the Secretary shall establish and organize activities among multidisciplinary teams to leverage, to the maximum extent practicable, expertise from the National Laboratories, institutions of higher education, and the private sector.

(ii) Goals

The multidisciplinary teams described in clause (i) shall pursue aggressive, milestone-driven research goals established by the Secretary.

(D) Additional activities

The Secretary may organize additional activities under this subsection through other organizational structures.

(2) Research program

(A) In general

The Secretary shall carry out under the Initiative a program to support research needed for, and discover knowledge relevant to, the sequestration of carbon in geologic formations.

(B) Activities

As part of the program described in subparagraph (A), the Director of the Office of Science shall support fundamental research to pursue distinct lines of scientific inquiry, including—

- (i) gathering geologic data for pore space characterization, including improvements to geologic seismic imaging;
- (ii) evaluating pore space quality, including evaluation of geologic samples, to determine appropriate sequestration zones for carbon;
- (iii) testing carbon sequestration;
- (iv) monitoring carbon migration in geologic formations;
- (v) advancements in data analytics, including the analysis of seismic data, and computational science to improve the advanced computing, visualization, and imaging of geologic formations for the sequestration of carbon; and
- (vi) predictive understanding of coupled processes in complex subsurface geologic systems for secure carbon storage.

(C) Review

The Secretary shall periodically review activities carried out under the program described in subparagraph (A) to evaluate achievement of scientific objectives and research milestones.

(3) Carbon storage research and geologic computational science centers

(A) In general

In carrying out the activities authorized under paragraph (2), the Secretary shall select and establish not more than 2 carbon storage research and geologic computational science centers (referred to in this paragraph as a "Center") to develop and advance improvements to data collection, analysis, and modeling of subsurface geology for the purpose of advancing carbon sequestration in geologic formations.

(B) Selection

(i) In general

The Secretary shall—

- (I) select Centers under subparagraph (A) on a competitive, merit-reviewed basis; and
- (II) to the maximum extent practicable, locate each Center in a geographically diverse region with established and ongoing geologic carbon sequestration research and demonstration.

(ii) Applications

In selecting Centers under subparagraph (A), the Secretary shall consider applications from institutions of higher education, multi-institutional collaborations, and other appropriate entities.

(C) Duration

(i) New Centers

A Center established after August 9, 2022, shall receive support for a period of not more than 5 years beginning on the date of establishment of that Center, subject to the availability of appropriations.

(ii) Existing Centers

A Center already in existence on August 9, 2022, may continue to receive support for a period of not more than 5 years beginning on August 9, 2022.

(iii) Renewal

On expiration of a period of support described in clause (i) or (ii), the Secretary may renew support for the Center, on a merit-reviewed basis, for a period of not more than 5 years.

(4) Coordination with existing programs and Centers

In carrying out this subsection, the Secretary shall—

(A) ensure coordination with—

- (i) the United States Geological Survey; and
- (ii) the programs established under section 16293 of this title; and

(B) avoid duplication of efforts to the maximum extent practicable.

(g) Funding for Carbon Initiatives

Of the funds authorized to be appropriated for basic energy sciences in a fiscal year, there is authorized to be appropriated to the Secretary to carry out activities under subsections (e) and (f) \$50,000,000 for each of fiscal years 2023 through 2027.

(Pub. L. 117–167, div. B, title I, §10102, Aug. 9, 2022, 136 Stat. 1409.)

EDITORIAL NOTES

CODIFICATION

Section is comprised of section 10102 of div. B of Pub. L. 117–167. Subsecs. (a), (b), and (c) of section 10102 of div. B of Pub. L. 117–167 amended sections 18641, 16313, and 16315 of this title, respectively.

§18912. Research security

(a) Definitions

In this section:

(1) Country of risk

(A) In general

The term "country of risk" means a foreign country determined by the Secretary, in accordance with subparagraph (B), to present a risk of theft of United States intellectual property or a threat to the national security of the United States if nationals of the country, or entities owned or controlled by the country or nationals of the country, participate in any research, development, demonstration, or deployment activity authorized under this division or division A or an amendment made by this division or division A.

(B) Determination

In making a determination under subparagraph (A), the Secretary, in coordination with the Director of the Office of Intelligence and Counterintelligence, shall take into consideration—

- (i) the most recent World Wide Threat Assessment of the United States Intelligence Community, prepared by the Director of National Intelligence; and
- (ii) the most recent National Counterintelligence Strategy of the United States.

(2) Covered support

The term "covered support" means any grant, contract, subcontract, award, loan, program, support, or other activity authorized under this division or division A, or an amendment made by this division or division A.

(3) Entity of concern

The term "entity of concern" means any entity, including a national, that is—

(A) identified under section 1237(b) of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (50 U.S.C. 1701 note; Public Law 105–261);

(B) identified under section 1260H of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (10 U.S.C. 113 note; Public Law 116–283);

(C) on the Entity List maintained by the Bureau of Industry and Security of the Department of Commerce and set forth in Supplement No. 4 to part 744 of title 15, Code of Federal Regulations;

(D) included in the list required by section 9(b)(3) of the Uyghur Human Rights Policy Act of 2020 (Public Law 116–145; 134 Stat. 656); or

(E) identified by the Secretary, in coordination with the Director of the Office of Intelligence and Counterintelligence and the applicable office that would provide, or is providing, covered support, as posing an unmanageable threat—

(i) to the national security of the United States; or

(ii) of theft or loss of United States intellectual property.

(4) National

The term "national" has the meaning given the term in section 1101 of title 8.

(5) Secretary

The term "Secretary" means the Secretary of Energy.

(b) Science and technology risk assessment

(1) In general

The Secretary shall develop and maintain tools and processes to manage and mitigate research security risks, such as a science and technology risk matrix, informed by threats identified by the Director of the Office of Intelligence and Counterintelligence, to facilitate determinations of the risk of loss of United States intellectual property or threat to the national security of the United States posed by activities carried out under any covered support.

(2) Content and implementation

In developing and using the tools and processes developed under paragraph (1), the Secretary shall—

(A) deploy risk-based approaches to evaluating, awarding, and managing certain research, development, demonstration, and deployment activities, including designations that will indicate the relative risk of activities;

(B) assess, to the extent practicable, ongoing high-risk activities;

(C) designate an officer or employee of the Department of Energy to be responsible for tracking and notifying recipients of any covered support of unmanageable threats to United States national security or of theft or loss of United States intellectual property posed by an entity of concern;

(D) consider requiring recipients of covered support to implement additional research security mitigations for higher-risk activities if appropriate; and

(E) support the development of research security training for recipients of covered support on the risks posed by entities of concern.

(3) Annual updates

The tools and processes developed under paragraph (1) shall be evaluated annually and updated as needed, with threat-informed input from the Office of Intelligence and Counterintelligence, to reflect changes in the risk designation under paragraph (2)(A) of research, development,

demonstration, and deployment activities conducted by the Department.

(c) Entity of concern

(1) Prohibition

Except as provided in paragraph (2), no entity of concern, or individual that owns or controls, is owned or controlled by, or is under common ownership or control with an entity of concern, may receive, or perform work under, any covered support.

(2) Waiver of prohibition

(A) In general

The Secretary may waive the prohibition under paragraph (1) if determined by the Secretary to be in the national interest.

(B) Notification to Congress

Not less than 2 weeks prior to issuing a waiver under subparagraph (A), the Secretary shall notify the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives of the intent to issue the waiver, including a justification for the waiver.

(3) Penalty

(A) Termination of support

On finding that any entity of concern or individual described in paragraph (1) has received covered support and has not received a waiver under paragraph (2), the Secretary shall terminate all covered support to that entity of concern or individual, as applicable.

(B) Penalties

An entity of concern or individual identified under subparagraph (A) shall be—

(i) prohibited from receiving or participating in covered support for a period of not less than 1 year but not more than 10 years, as determined by the Secretary; or

(ii) instead of the penalty described in clause (i), subject to any other penalties authorized under applicable law or regulations that the Secretary determines to be in the national interest.

(C) Notification to Congress

Prior to imposing a penalty under subparagraph (B), the Secretary shall notify the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives of the intent to impose the penalty, including a description of and justification for the penalty.

(4) Coordination

The Secretary shall—

(A) share information about the unmanageable threats described in subsection (a)(3)(E) with other Federal agencies; and

(B) develop consistent approaches to identifying entities of concern.

(d) International agreements

This section shall be applied in a manner consistent with the obligations of the United States under international agreements.

(e) Report required

Not later than 240 days after August 9, 2022, the Secretary shall submit to Congress a report that—

(1) describes—

(A) the tools and processes developed under subsection (b)(1) and any updates to those tools and processes; and

(B) if applicable, the science and technology risk matrix developed under that subsection and

how that matrix has been applied;

(2) includes a mitigation plan for managing risks posed by countries of risk with respect to future or ongoing research and development activities of the Department of Energy; and

(3) defines critical research areas, designated by risk, as determined by the Secretary.

(Pub. L. 117–167, div. B, title I, §10114, Aug. 9, 2022, 136 Stat. 1469.)

EDITORIAL NOTES

REFERENCES IN TEXT

This division, referred to in subsec. (a)(1)(A), (2), is div. B of Pub. L. 117–167, Aug. 9, 2022, 136 Stat. 1399, which enacted this chapter and enacted, amended, and repealed numerous other sections and notes in the Code. For complete classification of div. B to the Code, see Short Title note set out under section 18901 of this title and Tables.

Division A, referred to in subsec. (a)(1)(A), (2), is div. A of Pub. L. 117–167, Aug. 9, 2022, 136 Stat. 1372, known as the CHIPS Act of 2022. For complete classification of div. A to the Code, see Short Title of 2022 Amendment note set out under section 4651 of Title 15, Commerce and Trade, and Tables.

Section 9(b)(3) of the Uyghur Human Rights Policy Act of 2020, referred to in subsec. (a)(3)(D), is section 9(b)(3) of Pub. L. 116–145, June 17, 2020, 134 Stat. 656, which is not classified to the Code.

SUBCHAPTER II—NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY FOR THE FUTURE

§18921. Definitions

In this subchapter:

(1) Director

The term "Director" means the Director of the National Institute of Standards and Technology.

(2) Enrollment of needy students

The term "enrollment of needy students" has the meaning given the term in section 1058(d) of title 20.

(3) Framework

The term "Framework" means the Framework for Improving Critical Infrastructure Cybersecurity developed by the National Institute of Standards and Technology and referred to in Executive Order No. 13800 issued on May 11, 2017 (82 Fed. Reg. 22391 et seq.).

(4) Institute

The term "Institute" means the National Institute of Standards and Technology.

(5) International standards organization

The term "international standards organization" has the meaning given such term in section 2571 of title 19.

(6) Secretary

The term "Secretary" means the Secretary of Commerce.

(Pub. L. 117–167, div. B, title II, §10201, Aug. 9, 2022, 136 Stat. 1471.)

EDITORIAL NOTES

REFERENCES IN TEXT

Executive Order No. 13800, referred to in par. (3), is set out as a note preceding section 1500 of Title 6, Domestic Security.

PART A—MEASUREMENT RESEARCH

§18931. Engineering biology and biometrology

(a) In general

The Director, in coordination with the National Engineering Biology Research and Development Initiative established pursuant to subchapter IV, shall—

(1) support basic measurement science and technology research for engineering biology, biomanufacturing, and biometrology to advance—

(A) measurement technologies to support foundational understanding of the mechanisms of conversion of DNA information into cellular function;

(B) technologies for measurement of such biomolecular components and related systems;

(C) new data tools, techniques, and processes to improve engineering biology, biomanufacturing, and biometrology research; and

(D) other areas of measurement science and technology research determined by the Director to be critical to the development and deployment of engineering biology, biomanufacturing and biometrology;

(2) support activities to inform and expand the development of measurements infrastructure needed to develop technical standards to establish interoperability and facilitate commercial development of biomolecular measurement technology and engineering biology applications;

(3) convene industry, institutions of higher education, nonprofit organizations, Federal laboratories, and other Federal agencies engaged in engineering biology research and development to develop coordinated technical roadmaps for authoritative measurement of the molecular components of the cell;

(4) provide access to user facilities with advanced or unique equipment, services, materials, and other resources to industry, institutions of higher education, nonprofit organizations, and government agencies to perform research and testing;

(5) establish or expand collaborative partnerships or consortia with other Federal agencies engaged in engineering biology research and development, institutions of higher education, Federal laboratories, and industry to advance engineering biology applications; and

(6) support graduate and postgraduate research and training in biometrology, biomanufacturing, and engineering biology.

(b) Rule of construction

Nothing in this section may be construed to alter the policies, processes, or practices of individual Federal agencies in effect on the day before August 9, 2022, relating to the conduct or support of biomedical research and advanced development, including the solicitation and review of extramural research proposals.

(c) Controls

In carrying out activities authorized by this section, the Secretary shall ensure proper security controls are in place to protect sensitive information, as appropriate.

(Pub. L. 117–167, div. B, title II, §10221, Aug. 9, 2022, 136 Stat. 1474.)

§18932. Greenhouse gas measurement research

(a) In general

The Director, in consultation with the Administrator of the National Oceanic and Atmospheric Administration, the Administrator of the Environmental Protection Agency, the National Aeronautics and Space Administration, the Director of the National Science Foundation, the Secretary of Energy, and the heads of other Federal agencies, as appropriate, shall carry out a measurement research program to inform the development or improvement of best practices, benchmarks, methodologies, procedures, and technical standards for the measurement of greenhouse gas emissions and to assess and improve the performance of greenhouse gas emissions measurement systems placed in situ and on space-based platforms.

(b) Activities

In carrying out such a program, the Director may—

(1) conduct research and testing to improve the accuracy, efficacy, and reliability of the measurement of greenhouse gas emissions at a range of scales that covers direct measurement at the component or process level through atmospheric observations;

(2) conduct research to create novel measurement technologies and techniques for the measurement of greenhouse gas emissions;

(3) convene and engage with relevant Federal agencies and stakeholders to establish common definitions and characterizations for the measurement of greenhouse gas emissions, taking into account any existing United States and international technical standards and guidance;

(4) conduct outreach and coordination to share technical expertise with relevant industry and nonindustry stakeholders and standards development organizations to—

(A) assist such entities in the development and adoption of best practices and technical standards for greenhouse gas emissions measurements; and

(B) promote consistency and traceability in international reference standards and central calibration laboratories;

(5) in coordination with the Administrator of the National Oceanic and Atmospheric Administration, the Administrator of the Environmental Protection Agency, and the Secretary of Energy, develop such standard reference materials as the Director determines is necessary to further the development of such technical standards, taking into account any existing United States or international standards;

(6) coordinate with the National Oceanic and Atmospheric Administration to ensure data are managed, stewarded, and archived at all levels and promote full and open exchange at Federal and State levels, and with academia, industry, and other users; and

(7) coordinate with international partners, including international standards organizations, to maintain global greenhouse gas measurement technical standards.

(c) Testbeds

In coordination with the private sector, institutions of higher education, State and local governments, the National Oceanic and Atmospheric Administration, the Environmental Protection Agency, the Department of Energy, and other Federal agencies, as appropriate, the Director may continue to develop and manage testbeds to advance research and standards development for greenhouse gas emissions measurements from in situ and space-based platforms.

(d) Center for Greenhouse Gas Measurements, Standards, and Information

(1) In general

The Director, in collaboration with the Administrator of the National Oceanic and Atmospheric Administration, the Administrator of the Environmental Protection Agency, and the heads of other Federal agencies, as appropriate, shall establish a Center for Greenhouse Gas Measurements, Standards, and Information (in this subsection referred to as the "Center").

(2) Collaborations

The Director shall require that the activities of the Center include collaboration among public

and private organizations, including institutions of higher education, nonprofit organizations, private sector entities, and State, Tribal, territorial, and local officials.

(3) Purpose

The purpose of the Center shall be to—

(A) advance measurement science, data analytics, and modeling at a range of scales that covers direct measurement and estimation at the component or process level through atmospheric observations and at the analysis level to improve the accuracy of spatially and temporally resolved greenhouse gas emissions measurement, validation, and attribution to specific underlying activities and processes;

(B) test and evaluate the performance of existing capabilities, and inform and improve best practices, benchmarks, methodologies, procedures, and technical standards, for the measurement and validation of greenhouse gas emissions at scales noted in subparagraph (A);

(C) educate and train students in measurement science, computational science, and systems engineering research relevant to greenhouse gas emissions measurements;

(D) foster collaboration among academic researchers, private sector stakeholders, and State, Tribal, territorial, and local officials in the use of Institute testbeds as described in subsection (c);

(E) conduct activities with research institutions, industry partners, and State and local officials to identify research, testing, and technical standards needs relevant to greenhouse gas emissions; and

(F) collaborate with other Federal agencies to conduct outreach and coordination to share and promote technical data, tools, and expertise with relevant public and private sector stakeholders, including State, Tribal, territorial, and local officials, to assist such in the accurate measurement of greenhouse gas emissions.

(Pub. L. 117–167, div. B, title II, §10222, Aug. 9, 2022, 136 Stat. 1475.)

§18933. Software security and authentication

(a) Vulnerabilities in open source software

The Director shall assign severity metrics to identified vulnerabilities with open source software and produce voluntary guidance to assist the entities that maintain open source software repositories to discover and mitigate vulnerabilities.

(b) Artificial intelligence-enabled defenses

The Director shall carry out research and testing to improve the effectiveness of artificial intelligence-enabled cybersecurity, including by generating optimized data sets to train artificial intelligence defense systems and evaluating the performance of varying network architectures at strengthening network security.

(c) Authentication of Institute software

The Director shall ensure all software released by the Institute is digitally signed and maintained to enable stakeholders to verify its authenticity and integrity upon installation and execution.

(d) Assistance to Inspectors General

Subject to available funding, the Director shall provide technical assistance to improve the education and training of individual Federal agency Inspectors General and staff who are responsible for the annual independent evaluation they are required to perform of the information security program and practices of Federal agencies under section 3555 of title 44.

(e) Software supply chain security practices

(1) In general

The Director shall, in coordination with industry, academia, and other Federal agencies, as appropriate, develop a set of security outcomes and practices, including security controls, control

enhancements, supplemental guidance, or other supporting information to enable software developers and operators to identify, assess, and manage cybersecurity risks over the full lifecycle of software products.

(2) Outreach

The Director shall conduct outreach and coordination activities to share technical expertise with Federal agencies, relevant industry stakeholders, and standards development organizations, as appropriate, to encourage the voluntary adoption of the software lifecycle security practices by Federal agencies and industry stakeholders.

(Pub. L. 117–167, div. B, title II, §10224, Aug. 9, 2022, 136 Stat. 1478.)

§18934. Biometrics research and testing

(a) In general

The Secretary, acting through the Director, shall establish a program to support measurement research to inform the development of best practices, benchmarks, methodologies, procedures, and voluntary, consensus-based technical standards for biometric identification systems, including facial recognition systems, to assess and improve the performance of such systems. In carrying out such program, the Director may—

(1) conduct measurement research to support efforts to improve the performance of biometric identification systems, including in areas related to conformity assessment, image quality and interoperability, contactless biometric capture technologies, and human-in-the-loop biometric identification systems and processes;

(2) convene and engage with relevant stakeholders to establish common definitions and characterizations for biometric identification systems, which may include accuracy, fairness, bias, privacy, consent, and other properties, taking into account definitions in relevant international technical standards and other publications;

(3) carry out measurement research and testing on a range of biometric modalities, such as fingerprints, voice, iris, face, vein, behavioral biometrics, genetics, multimodal biometrics, and emerging applications of biometric identification technology;

(4) study the use of privacy-enhancing technologies and other technical protective controls to facilitate access, as appropriate, to public data sets for biometric research;

(5) conduct outreach and coordination to share technical expertise with relevant industry and nonindustry stakeholders and standards development organizations to assist such entities in the development of best practices and voluntary technical standards; and

(6) develop such standard reference artifacts as the Director determines is necessary to further the development of such voluntary technical standards.

(b) Biometrics test program

(1) In general

The Secretary, acting through the Director, shall carry out a test program to provide biometrics vendors the opportunity to test biometric identification technologies across a range of modalities.

(2) Activities

In carrying out the program under this subsection, the Director shall—

(A) conduct research and regular testing to improve and benchmark the accuracy, efficacy, and bias of biometric identification technologies, which may include research and testing on demographic variations, capture devices, presentation attack detection, partially occluded or computer generated images, privacy and security designs and controls, template protection, de-identification, and comparison of algorithm, human, and combined algorithm-human recognition capability;

(B) develop an approach for testing software and cloud-based biometrics applications, including remote systems, in Institute test facilities;

(C) establish reference use cases for biometric identification technologies and performance criteria for assessing each use case, including accuracy, efficacy, and bias metrics;

(D) produce public-facing reports of the findings from such testing for a general audience;

(E) develop policies and procedures accounting for the legal and social implications of activities under this paragraph when working with a foreign entity of concern (as such term is defined in section 19221 of this title);

(F) establish procedures to prioritize testing of biometrics identification technologies developed by entities headquartered in the United States; and

(G) conduct such other activities as determined necessary by the Director.

(c) GAO report to Congress

Not later than 18 months after August 9, 2022, the Comptroller General of the United States shall submit a detailed report to Congress on the impact of biometric identification technologies on historically marginalized communities, including low-income communities and minority religious, racial, and ethnic groups. Such report should be made publicly available on an internet website.

(Pub. L. 117–167, div. B, title II, §10226, Aug. 9, 2022, 136 Stat. 1479.)

§18935. Dissemination of resources for research institutions

(a) Dissemination of resources for research institutions

(1) In general

Not later than one year after August 9, 2022, the Director shall, using the authorities of the Director under subsections (c)(15) and (e)(1)(A)(ix) of section 272 of title 15, disseminate and make publicly available tailored resources to help qualifying institutions identify, assess, manage, and reduce their cybersecurity risk related to conducting research.

(2) Requirements

The Director shall ensure that the resources disseminated pursuant to paragraph (1)—

(A) are generally applicable and usable by a wide range of qualifying institutions;

(B) vary with the nature and size of the qualifying institutions, and the nature and sensitivity of the data collected or stored on the information systems or devices of the qualifying institutions;

(C) include elements that promote awareness of simple, basic controls, a workplace cybersecurity culture, and third-party stakeholder relationships, to assist qualifying institutions in mitigating common cybersecurity risks;

(D) include case studies, examples, and scenarios of practical application;

(E) are outcomes-based and can be implemented using a variety of technologies that are commercial and off-the-shelf; and

(F) to the extent practicable, are based on international technical standards.

(3) National cybersecurity awareness and education program

The Director shall ensure that the resources disseminated under paragraph (1) are consistent with the efforts of the Director under section 7443 of title 15.

(4) Updates

The Director shall review periodically and update the resources under paragraph (1) as the Director determines appropriate.

(5) Voluntary resources

The use of the resources disseminated under paragraph (1) shall be considered voluntary.

(b) Other Federal cybersecurity requirements

Nothing in this section may be construed to supersede, alter, or otherwise affect any cybersecurity requirements applicable to Federal agencies.

(c) Definitions

In this section:

(1) Qualifying institutions

The term "qualifying institutions" means institutions of higher education that are awarded in excess of \$50,000,000 per year in total Federal research funding.

(2) Resources

The term "resources" means guidelines, tools, best practices, technical standards, methodologies, and other ways of providing information.

(Pub. L. 117–167, div. B, title II, §10229, Aug. 9, 2022, 136 Stat. 1481.)

§18936. Neutron scattering

(a) Strategic plan for the Institute neutron reactor

The Director shall develop a strategic plan for the future of the NIST Center for Neutron Research after the current neutron reactor is decommissioned, including—

- (1) a succession plan for the reactor, including a roadmap with timeline and milestones;
- (2) conceptual design of a new reactor and accompanying facilities, as appropriate; and
- (3) a plan to minimize disruptions to the user community during the transition.

(b) Coordination with the Department of Energy

The Secretary, acting through the Director, shall coordinate with the Secretary of Energy on issues related to Federal support for neutron science, including estimation of long-term needs for research using neutron sources, and planning efforts for future facilities to meet such needs.

(c) Report to Congress

Not later than 30 months after August 9, 2022, the Director shall submit to Congress the plan required under subsection (a), and shall notify Congress of any substantial updates to such plan in subsequent years.

(Pub. L. 117–167, div. B, title II, §10231, Aug. 9, 2022, 136 Stat. 1483.)

§18937. Artificial intelligence

The Director shall continue to support the development of artificial intelligence and data science, and carry out the activities of the National Artificial Intelligence Initiative Act of 2020 authorized in division E of the National Defense Authorization Act for Fiscal Year 2021 (Public Law 116–283), including through—

- (1) expanding the Institute's capabilities, including scientific staff and research infrastructure;
- (2) supporting measurement research and development for advanced computer chips and hardware designed for artificial intelligence systems;
- (3) supporting the development of technical standards and guidelines that promote safe and trustworthy artificial intelligence systems, such as enhancing the accuracy, explainability, privacy, reliability, robustness, safety, security, and mitigation of harmful bias in artificial intelligence systems;
- (4) creating a framework for managing risks associated with artificial intelligence systems; and
- (5) developing and publishing cybersecurity tools, encryption methods, and best practices for artificial intelligence and data science.

(Pub. L. 117–167, div. B, title II, §10232(a), Aug. 9, 2022, 136 Stat. 1484.)

REFERENCES IN TEXT

The National Artificial Intelligence Initiative Act of 2020, referred to in introductory provisions of subsec. (a), is div. E of Pub. L. 116–283, Jan. 1, 2021, 134 Stat. 4523, which is classified principally to chapter 119 of Title 15, Commerce and Trade. For complete classification of div. E to the Code, see Short Title note set out under section 9401 of Title 15 and Tables.

Division E of the National Defense Authorization Act for Fiscal Year 2021, referred to in introductory provisions of subsec. (a), is div. E of Pub. L. 116–283, Jan. 1, 2021, 134 Stat. 3388, also known as the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021. For complete classification of this Act to the Code, see Tables.

§18938. Sustainable chemistry research and education

In accordance with section 9303 of title 15, the Director shall carry out activities in support of sustainable chemistry, including coordinating and partnering with academia, industry, nonprofit organizations, and other entities in activities to support clean, safe, and economic alternatives, technologies, and methodologies to traditional chemical products and processes.

(Pub. L. 117–167, div. B, title II, §10233, Aug. 9, 2022, 136 Stat. 1484.)

§18939. Premise plumbing research

(a) In general

The Secretary, acting through the Director, shall create a program, in consultation with the Environmental Protection Agency, for premise plumbing research, including to—

- (1) conduct metrology research on premise plumbing in relation to water safety, security, efficiency, sustainability, and resilience; and
- (2) coordinate research activities with academia, the private sector, nonprofit organizations, and other Federal agencies.

(b) Definitions

For purposes of this section, the term "premise plumbing" means the water distribution system located within the property lines of a property, including all buildings and permanent structures on such property. Such term includes building supply and distribution pipes, fixtures, fittings, water heaters, water-treating and water-using equipment, and all respective joints, connections, devices, and appurtenances.

(Pub. L. 117–167, div. B, title II, §10234, Aug. 9, 2022, 136 Stat. 1485.)

§18940. Dr. David Satcher Cybersecurity Education Grant Program

(a) Authorization of grants

(1) In general

Subject to the availability of appropriations, the Director shall carry out the Dr. David Satcher Cybersecurity Education Grant Program by—

(A) awarding grants to assist institutions of higher education that have an enrollment of needy students, historically Black colleges and universities, Tribal Colleges and Universities, and minority-serving institutions, to establish or expand cybersecurity programs, to build and upgrade institutional capacity to better support new or existing cybersecurity programs, including cybersecurity partnerships with public and private entities, and to support such institutions on the path to producing qualified entrants in the cybersecurity workforce or becoming a National Center of Academic Excellence in Cybersecurity; and

(B) awarding grants to build capacity at institutions of higher education that have an enrollment of needy students, historically Black colleges and universities, Tribal Colleges and

Universities, and minority-serving institutions, to expand cybersecurity education opportunities, cybersecurity programs, cybersecurity research, and cybersecurity partnerships with public and private entities.

(2) Reservation

The Director shall award not less than 50 percent of the amount available for grants under this section to historically Black colleges and universities, Tribal Colleges and Universities, and minority-serving institutions.

(3) Coordination

The Director shall carry out this section in coordination with appropriate Federal agencies, including the Departments of Homeland Security, Education, and Labor.

(4) Sunset

The Director's authority to award grants under paragraph (1) shall terminate on the date that is 5 years after the date the Director first awards a grant under paragraph (1).

(b) Applications

An eligible institution seeking a grant under subsection (a) shall submit an application to the Director at such time, in such manner, and containing such information as the Director may reasonably require, including a statement of how the institution will use the funds awarded through the grant to expand cybersecurity education opportunities at the eligible institution.

(c) Activities

An eligible institution that receives a grant under this section may use the funds awarded through such grant for increasing research, education, technical, partnership, and innovation capacity, including for—

- (1) building and upgrading institutional capacity to better support new or existing cybersecurity programs, including cybersecurity partnerships with public and private entities;
- (2) building and upgrading institutional capacity to provide hands-on research and training experiences for undergraduate and graduate students; and
- (3) outreach and recruitment to ensure students are aware of such new or existing cybersecurity programs, including cybersecurity partnerships with public and private entities.

(d) Reporting requirements

Not later than—

- (1) one year after the effective date of this section, as provided in subsection (f), and annually thereafter until the Director submits the report under paragraph (2), the Director shall prepare and submit to Congress a report on the status and progress of implementation of the grant program under this section, including on the number and demographics of institutions participating, the number and nature of students served by cybersecurity programs at institutions receiving grants, as well as the number of certificates or degrees awarded through such cybersecurity programs, the level of funding provided to grant recipients, the types of activities being funded by the grants program, and plans for future implementation and development; and
- (2) five years after the effective date of this section, as provided in subsection (f), the Director shall prepare and submit to Congress a report on the status of cybersecurity education programming and capacity-building at institutions receiving grants under this section, including changes in the scale and scope of these programs, associated facilities, or in accreditation status, and on the educational and employment outcomes of students participating in cybersecurity programs that have received support under this section.

(e) Performance metrics

The Director shall establish performance metrics for grants awarded under this section.

(f) Effective date

This section shall take effect 1 year after August 9, 2022.

(Pub. L. 117–167, div. B, title II, §10235, Aug. 9, 2022, 136 Stat. 1485.)

PART B—GENERAL ACTIVITIES

§18951. International standards development

(a) Sense of Congress

It is the sense of Congress that—

(1) the principles of openness, transparency, due process, balance of interests, appeals, and consensus in the development of international standards are critical;

(2) voluntary consensus standards, developed through an industry-led process, serve as the cornerstone of the United States standardization system and have become the basis of a sound national economy and the key to global market access;

(3) strengthening the unique United States public-private partnerships approach to standards development is critical to United States economic competitiveness; and

(4) the United States Government should ensure cooperation and coordination across Federal agencies to partner with and support private sector stakeholders to continue to shape international dialogues in regard to standards development for emerging technologies.

(b) International standards engagement

(1) In general

The Director shall lead information exchange and coordination among Federal agencies and communication from Federal agencies to the private sector of the United States to ensure effective Federal engagement in the development and use of international technical standards.

(2) Requirements

To support private sector-led engagement and ensure effective Federal engagement in the development and use of international technical standards, the Director shall consider—

(A) the role and needs of the Federal Government with respect to international technical standards;

(B) organizations developing international technical standards of interest to the United States, United States representation and influence in these organizations, and key contributors for technical and leadership expertise in these organizations;

(C) support for persons with domain subject matter expertise, especially from small businesses located in the United States, to influence and engage in technical standards leadership positions, working groups and meetings;

(D) opportunities for partnerships for supporting international technical standards from across the Federal Government, Federally funded research and development centers, university-affiliated research centers, institutions of higher education, industry, industry associations, nonprofit organizations, and other key contributors;

(E) support for activities to encourage the adoption of technical standards developed in the United States to be adopted by international standards organizations; and

(F) other activities determined by the Director to be necessary to support United States participation in international standards development, economic competitiveness, and national security in the development and use of international technical standards.

(c) Capacity building guidance

The Director shall support education and workforce development efforts to promote United States participation in international standards organizations. The Director shall—

(1) identify and create, as appropriate, technical standards education and training resources for interested businesses, industry associations, academia, nonprofit organizations, Federal agencies,

and other relevant standards contributors, including activities targeted at integrating standards content into undergraduate and graduate curricula in science, engineering, business, public policy, and law;

(2) conduct outreach, including to private sector leaders, to support engagement by more United States stakeholders in international technical standards development; and

(3) other activities determined necessary by the Director to support increased engagement, influence, and leadership of United States organizations in the development of international technical standards.

(d) Capacity building pilot program

(1) In general

The Director, in coordination with the Director of the National Science Foundation, and the heads of other relevant Federal agencies, as appropriate, shall establish or enter into cooperative agreements with appropriate nongovernmental organizations to establish a 5-year pilot program to award grants, on a merit-reviewed, competitive basis, to private sector entities, institutions of higher education, or nonprofit institutions based in the United States to support increased participation and leadership by small business and academic interests in international standards organizations.

(2) Use of funds

Grants awarded to eligible entities under this subsection may be used to cover reasonable costs, up to a specified ceiling set by the Director, of activities to support increased engagement and leadership of eligible entity employees in international standards organizations, which may include costs associated with—

(A) travel;

(B) education and training;

(C) dues or fees related to participation in technical standards development activities; and

(D) other such costs that the Director determines may reasonably support participation of the eligible entity in international standards organizations.

(3) Award criteria

The Director shall ensure that award decisions made under this subsection take into account the extent to which the eligible entity—

(A) employs full-time an individual or individuals who demonstrate deep technical standards expertise;

(B) employs full-time an individual or individuals who demonstrate knowledge with the processes of the standards development organization in which the eligible entity intends to engage using grant funds;

(C) proposes a feasible set of standard deliverables to be completed over the period of the grant;

(D) explains how the eligible entity will fund additional standards-related activities necessary to achieve the deliverables referred to in subparagraph (C) if the grant funds are insufficient to cover all costs of such activities;

(E) commits personnel with appropriate expertise to regularly engage in relevant international organizations responsible for developing technical standards over the period of the grant; and

(F) identifies a clearly defined current or anticipated market need or gap that would be addressed by their standards development proposal.

(4) Eligibility

A small business concern (as such term is defined in section 632 of title 15 based in the United States, an institution of higher education, or a nonprofit institution (as such term is defined in section 3703 of title 15) shall be eligible to receive grants under this program.

(5) Guidance on application and award process

The Director shall develop, and periodically update, guidance, including eligibility, applicant

disclosure requirements, grant amount and duration, the merit review process, priority areas for standards development, and any additional requirements for how grants are awarded under this subsection.

(6) Merit review process

The Director shall ensure that grants under this subsection are awarded based on a competitive, merit review process including the use of merit review panels that may include experts from both government, the private sector, and, as appropriate, academic, nonprofit, or other organizations as the Director determines appropriate.

(7) Consultation

In carrying out the pilot program established under this subsection, the Director shall consult with other Federal agencies, private sector organizations, institutions of higher education, and nonprofit organizations to help inform the pilot program, including the guidance developed under paragraph (5).

(8) Report to Congress

The Director shall brief Congress after the second year of the pilot program and each year following that includes the following:

(A) An assessment of the effectiveness of the pilot program for improving the participation of United States small businesses, United States institutions of higher education, or other nonprofit research institutions in international standards organizations, including—

- (i) the type of activities supported, including leadership roles;
- (ii) the international standards organizations participated in; and
- (iii) the technical areas covered by the activities.

(B) If determined effective, a plan for permanent implementation of the pilot program.

(Pub. L. 117–167, div. B, title II, §10245, Aug. 9, 2022, 136 Stat. 1488.)

§18952. Standards development organization grants

(a) Nongovernmental standards development organization defined

In this section, the term "nongovernmental standards development organization" means a nongovernmental standards development organization (as defined in section 2(e) of the Office of Management and Budget Circular A–119 (relating to Federal participation in the development and use of voluntary consensus standards in conformity assessment activities), or any successor document) that adheres to the American National Standards Institute (ANSI) Essential Requirements for Due Process for American National Standards.

(b) Grant authority

The Secretary of Commerce, acting through the Director, shall establish a competitive program of grants for nongovernmental standards development organizations for the purposes described in subsection (c).

(c) Purposes

A grant awarded under subsection (b) shall be used to develop, approve, disseminate, maintain, and review forensic science voluntary consensus standards and best practices that shall be available to the public free of charge.

(d) Additional requirements

The Director may promulgate such requirements, guidelines, and procedures as may be necessary to carry out this section.

(e) Authorization of appropriations

There are authorized to be appropriated to carry out this section \$2,000,000 for each of fiscal years

2022 through 2026.

(Pub. L. 117–167, div. B, title II, §10248, Aug. 9, 2022, 136 Stat. 1495.)

PART C—HOLLINGS MANUFACTURING EXTENSION PARTNERSHIP

§18961. National Supply Chain Database

(a) Establishment of National Supply Chain Database

The Director shall establish a voluntary National Supply Chain Database, subject to the availability of appropriations.

(b) Purpose

The purpose of the voluntary National Supply Chain Database shall be to assist the Federal Government and industry sectors in minimizing disruptions to the United States supply chain by having an assessment of United States manufacturers' capabilities.

(c) Study on National Supply Chain Database

In establishing the National Supply Chain Database, the Director shall consider the findings and recommendations from the study authorized pursuant to section 9413 of the National Defense Authorization Act for Fiscal Year 2021 (Public Law 116–283), including measures to secure and protect the Database from adversarial attacks and vulnerabilities.

(d) Database and Manufacturing Extension Partnership

(1) In general

The Director shall establish the infrastructure for the National Supply Chain Database through the Hollings Manufacturing Extension Partnership, established pursuant to section 278k of title 15, by connecting information from the Centers (as such term is defined in such section) through the Database.

(2) National view

The Director shall ensure that connections under paragraph (1)—

- (A) provide a national overview of the networks of supply chains of the United States; and
- (B) support understanding of whether there is a need for some manufacturers to retool in some critical areas to meet the urgent need for key products.

(3) Individual Hollings Manufacturing Extension Partnership Center databases

(A) In general

The Director shall ensure that—

- (i) each Center is connected to the National Supply Chain Database; and
- (ii) each supply chain database maintained by a Center is interoperable with the Database.

(B) Rule of construction

Nothing in this section may be construed to require a State or territory of the United States to establish a new supply chain database through the Hollings Manufacturing Extension Partnership program.

(e) Maintenance of National Supply Chain Database

The Director, acting through the Hollings Manufacturing Extension Partnership program or a designee of the program—

- (1) shall maintain the National Supply Chain Database as an integration of State-level databases from the Center of each State or territory of the United States;
- (2) may populate the Database with information from past or current clients of Centers; and

(3) may include in the Database information voluntarily provided by non-client private sector entities based and operating in the United States, as applicable and appropriate.

(f) Database content

The National Supply Chain Database may include the following:

- (1) Basic private sector entity information.
- (2) An overview of capabilities, accreditations, and products.
- (3) Proprietary information.

(g) Standard classification system

The National Supply Chain Database may, where applicable, use the North American Industry Classification System (NAICS) Codes as follows:

- (1) Sector 31-33 – Manufacturing.
- (2) Sector 54 – Professional, Scientific, and Technical Services.
- (3) Sector 48-49 – Transportation and Warehousing.

(h) Levels

The National Supply Chain Database shall be multi-leveled as agreed to under terms of mutual disclosure as follows:

- (1) Level 1 shall have the capability to provide basic private sector entity information and shall be available to the public.
- (2) Level 2 shall have the capability to provide a deeper, nonproprietary overview into capabilities, products, and accreditations and shall be available to all companies that contribute to the Database.
- (3) Level 3 shall have the capability to hold proprietary information.

(i) Matters relating to disclosure and access

(1) FOIA exemption

The National Supply Chain Database, and any information contained therein that is not publicly released by the Institute, shall be exempt from public disclosure under section 552(b)(3) of title 5.

(2) Limitation on access to content

Access to a contributing private sector entity's nonpublic content in the National Supply Chain Database shall be limited to—

- (A) the contributing private sector entity, the Institute, and staff from a Center who sign a nondisclosure agreement, and
- (B) other Federal departments and agencies,

as the Director considers appropriate.

(3) Aggregated information

The Director may make aggregated, de-identified information available to contributing companies, Centers, or the public, as the Director considers appropriate, in support of the purposes of this section.

(j) Coordination with National Technology and Industrial Base Council

The Director, acting through the Hollings Manufacturing Extension Partnership program, may work with the National Defense Technology and Industrial Base Council established under section 4812 of title 10 as the Director considers appropriate, to include in the National Supply Chain Database information regarding the defense manufacturing supply chain.

(k) Protections

(1) In general

Supply chain information that is voluntarily and lawfully submitted to the National Supply Chain Database by a private sector entity and accompanied by an express statement described in paragraph (2)—

(A) shall be exempt from disclosure under section 552(b)(3) of title 5;

(B) may not be made available pursuant to any Federal, State, local, or Tribal authority pursuant to any Federal, State, local, or Tribal law requiring public disclosure of information or records; and

(C) may not, without the written consent of the private sector entity submitting such information, be used directly by the Director, or any other Federal, State, or local authority in any civil enforcement action brought by a Federal, State, Tribal, or local authority.

(2) Express statement

The express statement described in this paragraph, with respect to information or records, is—

(A) in the case of written information or records, a written marking on the information or records substantially similar to the following: "This information is voluntarily submitted to the Federal Government in expectation of protection from disclosure as provided by the provisions of section 10253(k) of the Research and Development, Competition, and Innovation Act."; or

(B) in the case of oral information, a written statement similar to the statement described in subparagraph (A) submitted within a reasonable period following the oral communication.

(l) Rules of construction

(1) Private entities

Nothing in this section may be construed to require any private sector entity to share data, including proprietary information, with the Director or the National Supply Chain Database.

(2) Prohibition on new regulatory authority

Nothing in this section may be construed to grant the Director, or the head of any other Federal agency, any authority to promulgate regulations or set standards on manufacturers, based on data within the National Supply Chain Database, that was not in effect on the day before August 9, 2022.

(Pub. L. 117–167, div. B, title II, §10253, Aug. 9, 2022, 136 Stat. 1500.)

H, title XCIV, Jan. 1, 2021, 134 Stat. 4819, also known as the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021. Section 9413 of the Act is not classified to the Code.

Section 10253(k) of the Research and Development, Competition, and Innovation Act, referred to in subsec. (k)(2)(A), is section 10253(k) of Pub. L. 117–167, div. B, title II, Aug. 9, 2022, 136 Stat. 1500, which is classified to subsec. (k) of this section.

PART D—MANUFACTURING USA PROGRAM

§18971. Expanding opportunities through the Manufacturing USA Program

(a) In general

The Secretary of Commerce, in consultation with the Secretary of Energy, the Secretary of Defense, and the heads of such other Federal agencies as the Secretary of Commerce considers relevant, shall coordinate with existing and new Manufacturing USA institutes to integrate covered entities as active members of the Manufacturing USA institutes, including through the development of preferences in selection criteria for proposals to create new Manufacturing USA institutes or renew existing Manufacturing USA institutes that include one or more covered entities.

(b) Covered entities

For purposes of this subsection, a covered entity is—

- (1) an historically Black college and university;
- (2) a Tribal College or University;
- (3) a minority-serving institution;
- (4) a minority business enterprise (as such term is defined in section 1400.2 of title 15, Code of Federal Regulations, or successor regulation); or
- (5) a rural-serving institution of higher education (as such term is defined in section 1161q of title 20).

(Pub. L. 117–167, div. B, title II, §10262, Aug. 9, 2022, 136 Stat. 1504.)

§18972. Promoting domestic production of technologies developed under Manufacturing USA Program

(a) Department of Commerce policies to promote domestic production of technologies developed under Manufacturing USA Network

(1) Policies

(A) In general

Each agency head (as such term is defined in section 278s(a) of title 15) and the Secretary of Defense shall, in consultation with the Secretary of Commerce, establish policies to promote the domestic production of technologies developed by the Manufacturing USA Network.

(B) Elements

The policies established under subparagraph (A) shall include the following:

- (i) Measures to partner domestic developers of goods, services, or technologies by Manufacturing USA Network activities with domestic manufacturers and sources of financing.
- (ii) Measures to develop and provide incentives to promote transfer of intellectual property and goods, services, or technologies developed by Manufacturing USA Network activities to domestic manufacturers.
- (iii) Measures to assist with supplier scouting and other supply chain development, including the use of the Hollings Manufacturing Extension Partnership under section 278k of title 15 to carry out such measures.
- (iv) A process to review and approve or deny membership in a Manufacturing USA institute by foreign-owned entities, especially from countries of concern, including the People's Republic of China.
- (v) Measures to prioritize Federal procurement of goods, services, or technologies developed by the Manufacturing USA Network activities from domestic sources, as appropriate.

(C) Processes for waivers

The policies established under this paragraph shall include processes to permit waivers, on a case by case basis, for policies that promote domestic production based on cost, availability, severity of technical and mission requirements, emergency requirements, operational needs, other legal or international treaty obligations, or other factors determined important to the success of the Manufacturing USA Program.

(2) Prohibition

(A) In general

A company of the People's Republic of China may not participate in the Manufacturing USA Program without a waiver, as described in paragraph (1)(C).

(B) Company defined

In this paragraph, the term "company" has the meaning given such term in section 847(a) of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116–92; 10 U.S.C. 4819 note).

(b) to (d) Omitted

(e) Advice from the United States Manufacturing Council

The Secretary shall seek advice from the United States Manufacturing Council of the International Trade Administration of the Department of Commerce on matters concerning investment in and support of the manufacturing workforce within the Manufacturing USA Program.

(Pub. L. 117–167, div. B, title II, §10263, Aug. 9, 2022, 136 Stat. 1504.)

EDITORIAL NOTES

CODIFICATION

Section is comprised of section 10263 of div. B of Pub. L. 117–167. Subsecs. (b) to (d) of section 10263 of div. B of Pub. L. 117–167 amended section 278s of Title 15, Commerce and Trade.

SUBCHAPTER III—NATIONAL SCIENCE FOUNDATION FOR THE FUTURE

PART A—PRELIMINARY MATTERS

§18981. Definitions

In this subchapter:

(1) Board

The term "Board" means the National Science Board.

(2) Director

The term "Director" means the Director of the National Science Foundation.

(3) NSF INCLUDES

The term "NSF INCLUDES" means the initiative carried out under section 19012 of this title.

(4) STEM ecosystem

The term "STEM ecosystem" means a local, regional, or statewide network, consortium, or multi-sector partnership, which may be led or co-led by a nonprofit organizational entity, that is operating in the United States with the goal of supporting participation in STEM study, activities, and career pathways as defined in the CoSTEM Annual Progress Report of 2020 with a broad range of non-Federal partners.

(Pub. L. 117–167, div. B, title III, §10302, Aug. 9, 2022, 136 Stat. 1506.)

PART B—STEM EDUCATION

§18991. PreK–12 STEM education

(a) National Academies study

Not later than 120 days after August 9, 2022, the Director shall enter into an agreement with the National Academies to conduct a study to—

- (1) review the research literature and identify research gaps regarding the interconnected factors that foster and hinder successful implementation of promising, evidence-based PreK–12 STEM education innovations at the local, regional, and national level;
- (2) present a compendium of promising, evidence-based PreK–12 STEM education practices, models, programs, and technologies;
- (3) identify barriers to widespread and sustained implementation of such innovations; and
- (4) make recommendations to the Foundation, the Department of Education, the National Science and Technology Council's Committee on Science, Technology, Engineering, and Mathematics Education, State and local educational agencies, and other relevant stakeholders on measures to address such barriers.

(b) Omitted

(c) [Log 907 S2522] ¹ National STEM Teacher Corps pilot

(1) Purpose

It is the purpose of this subsection to elevate the profession of STEM teaching by establishing a National STEM Teacher Corps pilot program to recognize outstanding STEM teachers in our Nation's classrooms, rewards ² them for their accomplishments, elevates ³ their public profile, and creates ⁴ rewarding career paths to which all STEM teachers can aspire, both to prepare future STEM researchers and to create a scientifically literate public.

(2) Definitions

In this subsection:

(A) Administrator

The term "Administrator" means the Administrator of the National STEM Teacher Corps.

(B) Eligible entity

The term "eligible entity" means—

- (i) an institution of higher education; or
- (ii) a consortium consisting of an institution of higher education and one or more of the following:
 - (I) A State educational agency (as defined in section 7801 of title 20).
 - (II) A local educational agency (as defined in section 7801 of title 20).
 - (III) An education nonprofit Association.
 - (IV) A cross sector ⁵ STEM organization.
 - (V) A private entity, including a STEM-related business.

(C) High-need school

The term "high-need school" has the meaning given the term in section 6631(b) of title 20.

(D) Professional development

The term "professional Development" ⁶ has the meaning given the term in section 7801 of title 20.

(E) Corps Alliance

The term "Corps Alliance" means a regionally or topically based award under this subsection.

(F) National STEM Teacher Corps Advisory Board

The term "National STEM Teacher Corps Advisory Board" means the Advisory Board for the National STEM Teacher Corps established under paragraph (5).

(3) Establishment of National STEM Teacher Corps

The Director may, subject to the availability of appropriations, establish within the Foundation, a National STEM Teacher Corps 10-year pilot program to be administered by the Administrator, who shall be appointed by the Director. As appropriate, the Director may use existing NSF programs to establish and execute this program.

(4) Duties of the Administrator

The Administrator shall—

(A) create a process and standards for selection of eligible applicants to become members of the National STEM Teacher Corps, including—

(i) uniform selection criteria that includes ⁷—

(I) deep knowledge of STEM content and pedagogy;

(II) a passion for STEM subjects and dedication to teaching, evidence of leadership skills, and potential for continued career growth as an educator; and

(III) demonstrated experience increasing STEM student achievement and STEM participation rates for all students, particularly those from rural and high-need schools; and

(ii) a uniform selection process, including a comprehensive application that includes recommendations and other relevant professional information;

(B) promote the National STEM Teacher Corps and elevate best practices that emerge from the National STEM Teacher Corps to a national audience;

(C) evaluate the operation and effectiveness of the Corps alliances; and

(D) evaluate the overall and long-term impact of the National STEM Teacher Corps by—

(i) documenting, monitoring, and assessing the program outcomes or impact on the STEM careers of participants; and

(ii) documenting, monitoring, and assessing the program outcomes for the STEM education profession nationwide, particularly for rural and high-need schools.

(5) National STEM Teacher Corps Advisory Board

(A) Establishment

There is established a National STEM Teacher Corps Advisory Board to advise the Director on matters pertaining to the National STEM Teacher Corps for the length of the pilot program.

(B) Composition

(i) In general

The membership of the National STEM Teacher Corps Advisory Board shall—

(I) be appointed by the Director;

(II) include a representative from each of the following: School leaders, STEM researchers, STEM education researchers, Business leaders, PreK–12 STEM educators, and Students pursuing a postsecondary STEM degree; and

(III) be geographically diverse.

(ii) Existing committee

The Director may assign the duties of the National STEM Teacher Corps Advisory Board to another advisory committee of the Foundation.

(6) Duties of the Corps alliances

Subject to the availability of appropriated funds, the Administrator may make awards on a competitive, merit-review basis, to establish Corps alliances at eligible entities. Activities carried out by such alliances shall include—

(A) engaging local partners, which may include local educational agencies, institutions of higher education, STEM organizations, or education nonprofit organizations, to—

(i) develop and serve the community of National STEM Teacher Corps members within

the region or topic area, in coordination with local partners to carry out day-to-day activities;

(ii) coordinate professional development activities, including activities led by National STEM Teacher Corps members;

(iii) connect National STEM Teacher Corps members with existing educator professional development programs and coordinate members' involvement as cooperating teachers or mentors;

(iv) seek opportunities to involve teachers who are not members of the National STEM Teacher Corps to participate in National STEM Teacher Corps activities; and

(v) build partnerships with existing education organizations and other efforts by State educational agencies and local educational agencies that operate programs relevant to the National STEM Teacher Corps and its activities;

(B) recruiting eligible applicants, with a focus on recruiting diverse STEM educators to advance equity based on race, ethnicity, sex, socioeconomic status, age, disability status, geography, and language ability;

(C) screening, interviewing, and selecting members of the National STEM Teacher Corps using procedures and standards provided by the Administrator;

(D) coordinating the online network that supports all National STEM Teacher Corps members in the region or topic area;

(E) convening occasional meetings of National STEM Teacher Corps members in a region or topic area;

(F) creating opportunities for the professional growth of National STEM Teacher Corps members, with a focus on increasing STEM student achievement and STEM participation rates for all students, particularly those from rural and high-need schools; and

(G) supporting the retention and success of National STEM Teacher Corps members in the region or topic area.

(7) Duties of members of the National STEM Teacher Corps

An applicant that is selected by a Corps alliance to be a member of the National STEM Teacher Corps shall—

(A) serve a 4-year term with a possibility of reappointment;

(B) receive an annual stipend in an amount not less than \$10,000; and

(C) have substantial responsibilities, including—

(i) working with other members of the National STEM Teacher Corps to develop and improve innovative teaching practices, including practices such as inquiry-based learning;

(ii) participating in professional development in innovative teaching methodology and mentorship; and

(iii) continuing to excel in teaching the member's own students, with a focus on advancing equity by spending additional time teaching and coaching underserved students to increase STEM student achievement and STEM participation rates for students from rural and high-need schools.

(8) Evaluation

The Director, acting through the Administrator, shall submit a report to Congress after the third year of the pilot program that includes—

(A) an assessment, drawing on the evaluations the Administrator shall conduct under subparagraphs (C) and (D) of paragraph (4), and other sources of information, of the effectiveness of the pilot program in recruiting and retaining high-quality STEM teachers in the selected regions or topic areas, particularly in high-need and rural schools; and

(B) if deemed effective, a proposal to Congress for permanent implementation of the pilot program.

(9) Sunset

The authority to carry out this subsection shall terminate on the date that is 15 years after

August 9, 2022.

(10) Authorization of appropriations

There are authorized to be appropriated \$60,000,000 for each of fiscal years 2023 through 2032 to carry out this subsection.

(Pub. L. 117–167, div. B, title III, §10311, Aug. 9, 2022, 136 Stat. 1510.)

§18992. Undergraduate STEM education

(a) Research on STEM education and workforce needs

The Director shall make awards, on a competitive basis, to four-year institutions of higher education or nonprofit organizations (or consortia of such institutions or organizations) to support research and development activities to—

- (1) encourage greater collaboration and coordination between institutions of higher education and industry to enhance education, foster hands-on learn experiences, and improve alignment with workforce needs;
- (2) understand the current composition of the STEM workforce and the factors that influence growth, retention, and development of that workforce;
- (3) increase the size, diversity, capability, and flexibility of the STEM workforce; and
- (4) increase dissemination and widespread adoption of effective practices in undergraduate education and workforce development.

(b) Omitted

(c) Innovations in STEM education at community colleges

(1) In general

The Director shall make awards on a merit-reviewed, competitive basis to institutions of higher education or nonprofit organizations (or consortia of such institutions or organizations) to advance research on the nature of learning and teaching at community colleges and to improve outcomes for students who enter the workforce upon completion of their STEM degree or credential or transfer to 4-year institutions, including by—

- (A) examining how to scale up successful programs at community colleges that are

improving student outcomes in foundational STEM courses;

(B) supporting research on effective STEM teaching practices in community college settings;

(C) designing and developing new STEM curricula;

(D) providing STEM students with hands-on training and research experiences, internships, and other experiential learning opportunities;

(E) increasing access to high quality STEM education through new technologies;

(F) re-skilling or up-skilling incumbent workers for new STEM jobs;

(G) building STEM career and seamless transfer pathways; and

(H) developing novel mechanisms to identify and recruit talent into STEM programs, in particular talent from groups historically underrepresented in STEM.

(2) Partnerships

In carrying out activities under this subsection, the Director shall encourage applications to develop, enhance, or expand cooperative STEM education and training partnerships between institutions of higher education, industry, and labor organizations.

(d) Improving access to STEM education at career and technical education institutions

(1) In general

The Director shall make awards, on a competitive basis, to institutions of higher education (including postsecondary vocational institutions) to support career and technical education in STEM and computer science related fields.

(2) Priority

In making awards under this subsection, the Director shall give priority to institutions that demonstrate effective strategies to recruit and provide career and technical education to veterans and members of the Armed Forces transitioning to the private sector workforce.

(3) Career and technical education defined

In this subsection, the term "career and technical education" has the meaning given that term in section 2302 of title 20.

(e) Course-based undergraduate research experiences

(1) In general

The Director shall carry out a 4-year pilot program under which the Director shall make awards, on a competitive basis, to institutions of higher education and nonprofit organizations (or consortia of such institutions or organizations) to establish a total of not fewer than five Centers to develop and scale up successful models for providing undergraduate students with hands-on, course-based research experiences.

(2) Use of funds

Awards made under this paragraph shall be used to—

(A) develop, assess, and disseminate models for providing undergraduate students with course-based research experiences across STEM disciplines and education levels;

(B) identify and address opportunities and challenges in facilitating implementation across a broad range of institution types, including historically Black colleges and universities, Tribal Colleges or Universities, minority serving institutions and community colleges;

(C) identify and develop best practices to address barriers for faculty, including institutional culture, resources, and incentive structures;

(D) identify and address factors that may facilitate or discourage participation by students from all backgrounds;

(E) provide faculty with curriculum, professional development, training, networking opportunities, and other support to enable the development, adaptation, or expansion of a course-based research experience; and

(F) collect data and carry out research to evaluate the impacts of course-based undergraduate research experiences on the STEM workforce.

(3) Partnerships

In making awards under this paragraph, the Director shall consider the extent to which the proposed Center will establish partnerships among multiple types of academic institutions, including community colleges, emerging research institutions, EPSCoR institutions, historically Black colleges and universities, Tribal Colleges or Universities, and minority-serving institutions, the private sector, and other relevant stakeholders in supporting programs and activities to facilitate faculty training and the widespread and sustained implementation of promising, evidence-based practices, models, programs, and curriculum.

(4) Report

Not later than 180 days after the date on which the pilot program is completed, the Director shall submit to Congress a report that includes—

(A) an assessment, that includes feedback from the research community, of the effectiveness of the pilot program in increasing the number, diversity, and workforce readiness of STEM graduates; and

(B) if determined to be effective, a plan for permanent implementation of the pilot program.

(Pub. L. 117–167, div. B, title III, §10312, Aug. 9, 2022, 136 Stat. 1516.)

EDITORIAL NOTES

CODIFICATION

Section is comprised of section 10312 of div. B of Pub. L. 117–167. Subsec. (b) of section 10312 of div. B of Pub. L. 117–167 amended section 1862i of this title. Subsec. (f) of section 10312 of div. B of Pub. L. 117–167 amended sections 1862h, 1862i, and 1862j of this title.

§18993. Graduate STEM education

(a) Mentoring and professional development

(1) Mentoring plans

(A) Omitted

(B) Evaluation

Not later than 120 days after August 9, 2022, the Director shall enter into an agreement with a qualified independent organization to evaluate the effectiveness of the postdoctoral mentoring plan requirement for improving mentoring for Foundation-supported postdoctoral researchers.

(2) Career exploration

(A) In general

The Director shall make awards, on a competitive basis, to institutions of higher education and nonprofit organizations (or consortia of such institutions or organizations) to develop innovative approaches for facilitating career exploration of academic and nonacademic career options and for providing opportunity-broadening experiences, including work-integrated opportunities, for graduate students and postdoctoral scholars that can then be considered, adopted, or adapted by other institutions and to carry out research on the impact and outcomes of such activities.

(B) Review of proposals

In selecting award recipients under this subparagraph, the Director shall consider, at a minimum—

(i) the extent to which the administrators of the institution are committed to making the proposed activity a priority; and

(ii) the likelihood that the institution or organization will sustain or expand the proposed

activity effort beyond the period of the award.

(3) Development plans

The Director shall require that annual project reports for awards that support graduate students and postdoctoral scholars include certification by the principal investigator that each graduate student and postdoctoral scholar receiving substantial support from such award, as determined by ¹ has developed and annually updated an individual development plan to map educational goals, career exploration, and professional development.

(4) Professional development supplement

The Director shall carry out a five-year pilot initiative to award up to 2,500 administrative supplements of up to \$2,000 to existing research awards annually, on a competitive basis, to support professional development experiences for graduate students and postdoctoral researchers who receive a substantial portion of their support under such award, as determined by the Director. Not more than 10 percent of supplements awarded under this subparagraph ² may be used to support professional development experiences for postdoctoral researchers.

(5) Graduate education research

The Director shall make awards, on a competitive basis, to institutions of higher education or nonprofit organizations (or consortia of such institutions or organizations) to support research on the graduate education system and outcomes of various interventions and policies, including—

(A) the effects of traineeships, fellowships, internships, and teaching and research assistantships on outcomes for graduate students;

(B) the effects of graduate education and mentoring policies and procedures on degree completion, including differences by—

(i) sex, race and ethnicity, and citizenship; and

(ii) student debt load;

(C) the development and assessment of new or adapted interventions, including approaches that improve mentoring relationships, develop conflict management skills, and promote healthy research teams; and

(D) research, data collection, and assessment of the state of graduate student mental health and wellbeing, factors contributing to and consequences of poor graduate student mental health, and the development, adaptation, and assessment of evidence-based strategies and policies to support emotional wellbeing and mental health.

(b) Graduate Research Fellowship Program update

(1) Sense of Congress

It is the sense of Congress that the Foundation should increase the number of new graduate research fellows supported annually over the next 5 years to no fewer than 3,000 fellows.

(2) Omitted

(3) Cybersecurity scholarships and graduate fellowships

The Director shall ensure that students pursuing master's degrees and doctoral degrees in fields relating to cybersecurity are eligible to apply for scholarships and graduate fellowships under the Graduate Research Fellowship Program under section 1869 of this title.

(c) Study on graduate student funding

(1) In general

Not later than 120 days after August 9, 2022, the Director shall enter into an agreement with a qualified independent organization to evaluate—

(A) the role of the Foundation in supporting graduate student education and training through fellowships, traineeships, and other funding models; and

(B) the impact of different funding mechanisms on graduate student experiences and

outcomes, including whether such mechanisms have differential impacts on subsets of the student population.

(2) Report

Not later than 1 year after August 9, 2022, the Director shall publish the results of the evaluation carried out under paragraph (1), including a recommendation for the appropriate balance between fellowships, traineeships, and other funding models.

(d) [LOG 165 H10304(g)/S2208] ¹ AI scholarship-for-service

(1) Definition of executive agency

In this subsection, the term "executive agency" has the meaning given the term "Executive agency" in section 105 of title 5.

(2) AI scholarship-for-service initiative report

Not later than 1 year after August 9, 2022, the Director, in coordination with the Office of Personnel Management, shall submit to the Committee on Commerce, Science, and Transportation of the Senate, the Committee on Science, Space, and Technology of the House of Representatives, the Committee on Homeland Security and Governmental Affairs of the Senate, and the Committee on Oversight and Reform of the House of Representatives a report on the need and feasibility, and if appropriate, plans to implement a program to recruit and train the next generation of artificial intelligence professionals to meet the needs of Federal, State, local, and Tribal governments. The report shall include—

(A) recent statistical data on the size, composition, and educational requirements of the Federal AI workforce, including an assessment of current and future demand for additional AI professionals across the Federal Government;

(B) an assessment of the capacity of institutions of higher education to produce graduates with degrees, certifications, and relevant skills related to artificial intelligence that meet the current and future needs of the Federal workforce; and

(C) an evaluation of the need for and feasibility of establishing a scholarship-for-service program to recruit and train the next generation of artificial intelligence professionals to meet the needs of Federal, State, local, and Tribal governments, including opportunities for leveraging existing processes and resources for administering the Federal Cyber Scholarship-for-Service Program established under section 7442 of title 15 in standing up such a program.

(3) Program establishment

Upon submitting the report required in paragraph (2), the Director, in coordination with the Director of the Office of Personnel Management, the Director of the National Institute of Standards and Technology, and the heads of other agencies with appropriate scientific knowledge, is authorized to establish a Federal artificial intelligence scholarship-for-service program (referred to in this section as the Federal AI Scholarship-for-Service Program) to recruit and train artificial intelligence professionals to lead and support the application of artificial intelligence to the missions of Federal, State, local, and Tribal governments.

(4) Qualified institution of higher education

The Director, in coordination with the heads of other agencies with appropriate scientific knowledge, shall establish criteria to designate qualified institutions of higher education that shall be eligible to participate in the Federal AI Scholarship-for-Service program. Such criteria shall include—

(A) measures of the institution's demonstrated excellence in the education of students in the field of artificial intelligence; and

(B) measures of the institution's ability to attract and retain a diverse and nontraditional student population in the fields of science, technology, engineering, and mathematics, which may include the ability to attract women, minorities, and individuals with disabilities.

(5) Program description and components

The Federal AI Scholarship-for-Service Program shall—

(A) provide scholarships through qualified institutions of higher education to students who are enrolled in programs of study at institutions of higher education leading to degrees or concentrations in or related to the artificial intelligence field;

(B) provide the scholarship recipients with summer internship opportunities or other meaningful temporary appointments in the Federal workforce focusing on AI projects or research;

(C) prioritize the employment placement of scholarship recipients in executive agencies;

(D) identify opportunities to promote multi-disciplinary programs of study that integrate basic or advanced AI training with other fields of study, including those that address the social, economic, legal, and ethical implications of human interaction with AI systems;

(E) support capacity-building education research programs that will enable postsecondary educational institutions to expand their ability to train the next-generation AI workforce, including AI researchers and practitioners;

(F) create courses or training programs in technology ethics for students receiving scholarships; and

(G) award fellowships to masters and doctoral students who are pursuing degrees or research in artificial intelligence and related fields, including in the field of technology ethics.

(6) Scholarship amounts

Each scholarship under paragraph (5) shall be in an amount that covers the student's tuition and fees at the institution for not more than 3 years and provides the student with an additional stipend.

(7) Post-award employment obligations

Each scholarship recipient, as a condition of receiving a scholarship under the program, shall enter into an agreement under which the recipient agrees to work for a period equal to the length of the scholarship, following receipt of the student's degree, in the AI mission of—

(A) an executive agency;

(B) Congress, including any agency, entity, office, or commission established in the legislative branch;

(C) an interstate agency;

(D) a State, local, or Tribal government, which may include instruction in AI-related skill sets in a public school system; or

(E) a State, local, or Tribal government-affiliated nonprofit entity that is considered to be critical infrastructure (as defined in section 5195c(e) of this title).

(8) Hiring authority

(A) Appointment in excepted service

Notwithstanding any provision of chapter 33 of title 5, governing appointments in the competitive service, an executive agency may appoint an individual who has completed the eligible degree program for which a scholarship was awarded to a position in the excepted service in the executive agency.

(B) Noncompetitive conversion

Except as provided in subparagraph (D), upon fulfillment of the service term, an employee appointed under subparagraph (A) may be converted noncompetitively to term, career-conditional, or career appointment.

(C) Timing of conversion

An executive agency may noncompetitively convert a term employee appointed under subparagraph (B) to a career-conditional or career appointment before the term appointment expires.

(D) Authority to decline conversion

An executive agency may decline to make the noncompetitive conversion or appointment under subparagraph (B) for cause.

(9) Eligibility

To be eligible to receive a scholarship under this section, an individual shall—

- (A) be a citizen or lawful permanent resident of the United States;
- (B) demonstrate a commitment to a career in advancing the field of AI;
- (C) be—
 - (i) a full-time student in an eligible degree program at a qualified institution of higher education, as determined by the Director;
 - (ii) a student pursuing a degree on a less than full-time basis, but not less than half-time basis; or
 - (iii) an AI faculty member on sabbatical to advance knowledge in the field; and
- (D) accept the terms of a scholarship under this section.

(10) Conditions of support

(A) In general

As a condition of receiving a scholarship under this section, a recipient shall agree to provide the qualified institution of higher education with annual verifiable documentation of post-award employment and up-to-date contact information.

(B) Terms

A scholarship recipient under this section shall be liable to the United States as provided in paragraph (12) if the individual—

- (i) fails to maintain an acceptable level of academic standing at the applicable institution of higher education, as determined by the Director;
- (ii) is dismissed from the applicable institution of higher education for disciplinary reasons;
- (iii) withdraws from the eligible degree program before completing the program;
- (iv) declares that the individual does not intend to fulfill the post-award employment obligation under this section; or
- (v) fails to fulfill the post-award employment obligation of the individual under this section.

(11) Monitoring compliance

As a condition of participating in the program, a qualified institution of higher education shall—

- (A) enter into an agreement with the Director to monitor the compliance of scholarship recipients with respect to their post-award employment obligations; and
- (B) provide to the Director, on an annual basis, the post-award employment documentation required under paragraph (10) for scholarship recipients through the completion of their post-award employment obligations.

(12) Amount of repayment

(A) Less than 1 year of service

If a circumstance described in paragraph (10) occurs before the completion of 1 year of a post-award employment obligation under this section, the total amount of scholarship awards received by the individual under this section shall—

- (i) be repaid; or
- (ii) be treated as a loan to be repaid in accordance with paragraph (13).

(B) 1 or more years of service

If a circumstance described in clause (iv) or (v) of paragraph (10)(B) occurs after the completion of 1 or more years of a post-award employment obligation under this section, the total amount of scholarship awards received by the individual under this section, reduced by the

ratio of the number of years of service completed divided by the number of years of service required, shall—

- (i) be repaid; or
- (ii) be treated as a loan to be repaid in accordance with paragraph (13).

(13) Repayments

A loan described in paragraph (12) shall—

(A) be treated as a Federal Direct Unsubsidized Stafford Loan under part D of title IV of the Higher Education Act of 1965 (20 U.S.C. 1087a et seq.); and

(B) be subject to repayment, together with interest thereon accruing from the date of the scholarship award, in accordance with terms and conditions specified by the Director (in consultation with the Secretary of Education).

(14) Collection of repayment

(A) In general

In the event that a scholarship recipient is required to repay the scholarship award under this section, the qualified institution of higher education providing the scholarship shall—

- (i) determine the repayment amounts and notify the recipient and the Director of the amounts owed; and
- (ii) collect the repayment amounts within a period of time as determined by the Director, or the repayment amounts shall be treated as a loan in accordance with paragraph (13).

(B) Returned to Treasury

Except as provided in subparagraph (C), any repayment under this subsection shall be returned to the Treasury of the United States.

(C) Retain percentage

A qualified institution of higher education may retain a percentage of any repayment the institution collects under this subsection to defray administrative costs associated with the collection. The Director shall establish a fixed percentage that will apply to all eligible entities, and may update this percentage as needed, in the determination of the Director.

(15) Exceptions

The Director may provide for the partial or total waiver or suspension of any service or payment obligation by an individual under this section whenever compliance by the individual with the obligation is impossible or would involve extreme hardship to the individual, or if enforcement of such obligation with respect to the individual would be unconscionable.

(16) Public information

(A) Evaluation

The Director, in coordination with the Director of the Office of Personnel Management, shall annually evaluate and make public, in a manner that protects the personally identifiable information of scholarship recipients, information on the success of recruiting individuals for scholarships under this section and on hiring and retaining those individuals in the public sector AI workforce, including information on—

- (i) placement rates;
- (ii) where students are placed, including job titles and descriptions;
- (iii) salary ranges for students not released from obligations under this section;
- (iv) how long after graduation students are placed;
- (v) how long students stay in the positions they enter upon graduation;
- (vi) how many students are released from obligations; and
- (vii) what, if any, remedial training is required.

(B) Reports

The Director, in coordination with the Office of Personnel Management, shall submit, not

less frequently than once every 3 years, to the Committee on Homeland Security and Governmental Affairs of the Senate, the Committee on Commerce, Science, and Transportation of the Senate, the Committee on Science, Space, and Technology of the House of Representatives, and the Committee on Oversight and Reform of the House of Representatives a report, including the results of the evaluation under subparagraph (A) and any recent statistics regarding the size, composition, and educational requirements of the Federal AI workforce.

(C) Resources

The Director, in coordination with the Director of the Office of Personnel Management, shall provide consolidated and user-friendly online resources for prospective scholarship recipients, including, to the extent practicable—

- (i) searchable, up-to-date, and accurate information about participating institutions of higher education and job opportunities related to the AI field; and
- (ii) a modernized description of AI careers.

(17) Refresh

Not less than once every 2 years, the Director, in coordination with the Director of the Office of Personnel Management, shall review and update the Federal AI Scholarship-for-Service Program to reflect advances in technology.

EDITORIAL NOTES

REFERENCES IN TEXT

The Higher Education Act of 1965, referred to in subsec. (d)(13)(A), is Pub. L. 89–329, Nov. 8, 1965, 79 Stat. 1219. Part D of title IV of the Act is classified generally to part D (§1087a et seq.) of subchapter IV of chapter 28 of Title 20, Education. For complete classification of this Act to the Code, see section 1 of Pub. L. 89–329, set out as a Short Title note under section 1001 of Title 20 and Tables.

CODIFICATION

Section is comprised of section 10313 of div. B of Pub. L. 117–167. Subsecs. (a)(1)(A) and (b)(2) of section 10313 of div. B of Pub. L. 117–167 amended sections 1862o and 1869 of this title, respectively.

STATUTORY NOTES AND RELATED SUBSIDIARIES

CHANGE OF NAME

Committee on Oversight and Reform of House of Representatives changed to Committee on Oversight and Accountability of House of Representatives by House Resolution No. 5, One Hundred Eighteenth Congress, Jan. 9, 2023.

¹ *So in original.*

² *So in original. Probably should be "paragraph".*

§18994. STEM workforce data

(a) Skilled technical workforce portfolio review

(1) In general

Not later than 1 year after August 9, 2022, the Director shall conduct a full portfolio analysis of the Foundation's skilled technical workforce investments across all Directorates in the areas of education, research, infrastructure, data collection, and analysis.

(2) Report

Not later than 180 days after the date of the review under paragraph (1) is complete, the Director shall submit to Congress and make widely available to the public a summary report of the portfolio review.

(b) Survey data

(1) Rotating topic modules

To meet evolving needs for data on the state of the science and engineering workforce, the Director shall assess, through coordination with other Federal statistical agencies and drawing on input from relevant stakeholders, the feasibility and benefits of incorporating questions or topic modules to existing National Center for Science and Engineering Statistics surveys that would vary from cycle to cycle.

(2) New data

Not later than 1 year after August 9, 2022, the Director shall submit to Congress and the Board the results of an assessment, carried out in coordination with other Federal agencies and with input from relevant stakeholders, of the feasibility and benefits of incorporating new questions or topic modules to existing National Center for Science and Engineering Statistics surveys on—

- (A) the skilled technical workforce;
- (B) working conditions and work-life balance;
- (C) harassment and discrimination;
- (D) immigration and emigration; and
- (E) any other topics at the discretion of the Director.

(3) Longitudinal design

The Director shall continue and accelerate efforts to enhance the usefulness of National Center for Science and Engineering Statistics survey data for longitudinal research and analysis.

(4) Government Accountability Office review

Not later than 1 year after August 9, 2022, the Comptroller General of the United States shall submit a report to Congress that—

- (A) evaluates Foundation processes for ensuring the data and analysis produced by the National Center for Science and Engineering Statistics meets current and future needs; and
- (B) includes such recommendations as the Comptroller General determines are appropriate to improve such processes.

(Pub. L. 117–167, div. B, title III, §10314, Aug. 9, 2022, 136 Stat. 1529.)

§18995. Cyber workforce development research and development

(a) In general

The Director shall make awards on a merit-reviewed, competitive basis to institutions of higher education or nonprofit organizations (or consortia of such institutions or organizations) to carry out research on the cyber workforce.

(b) Research

In carrying out research pursuant to subsection (a), the Director shall support research and development activities to—

- (1) understand the current state of the cyber workforce, including factors that influence growth, retention, and development of that workforce;
- (2) examine paths to entry and re-entry into the cyber workforce;
- (3) understand trends of the cyber workforce, including demographic representation, educational and professional backgrounds present, competencies available, and factors that shape employee recruitment, development, and retention and how to increase the size, diversity, and capability of the cyber workforce;
- (4) examine and evaluate training practices, models, programs, and technologies; and

(5) other closely related topics as the Director determines appropriate.

(c) Requirements

In carrying out the activities described in subsection (b), the Director shall—

(1) collaborate with the National Institute of Standards and Technology, including the National Initiative for Cybersecurity Education, the Department of Homeland Security, the Department of Defense, the Office of Personnel Management, and other Federal departments and agencies, as appropriate;

(2) align with or build on the National Initiative on Cybersecurity Education Cybersecurity Workforce Framework wherever practicable and applicable;

(3) leverage the collective body of knowledge from existing cyber workforce development research and education activities; and

(4) engage with other Federal departments and agencies, research communities, and potential users of information produced under this subsection.

(Pub. L. 117–167, div. B, title III, §10315, Aug. 9, 2022, 136 Stat. 1530.)

§18996. Cybersecurity workforce data initiative

The Director, acting through the National Center for Science and Engineering Statistics established in section 1862p of this title and in coordination with the Director of the National Institute of Standards and Technology and other appropriate Federal statistical agencies, shall establish a cybersecurity workforce data initiative that—

(1) assesses the feasibility of providing nationally representative estimates and statistical information on the cybersecurity workforce;

(2) utilizes the National Initiative for Cybersecurity Education (NICE) Cybersecurity Workforce Framework (NIST Special Publication 800–181), or other frameworks, as appropriate, to enable a consistent measurement of the cybersecurity workforce;

(3) utilizes and complements existing data on employer requirements and unfilled positions in the cybersecurity workforce;

(4) consults key stakeholders and the broader community of practice in cybersecurity workforce development to determine data requirements needed to strengthen the cybersecurity workforce;

(5) evaluates existing Federal survey data for information pertinent to developing national estimates of the cybersecurity workforce;

(6) evaluates administrative data and other supplementary data sources, as available, to describe and measure the cybersecurity workforce; and

(7) collects statistical data, to the greatest extent practicable, on credential attainment and employment outcomes information for the cybersecurity workforce.

(Pub. L. 117–167, div. B, title III, §10317, Aug. 9, 2022, 136 Stat. 1531.)

§18997. Microelectronics workforce development activities

(a) Creating helpful initiatives to produce personnel in needed growth industries

(1) In general

The Director shall make awards to institutions of higher education, non-profit organizations, or consortia thereof, for research, development, and related activities to advance innovative approaches to developing, improving, and expanding evidence-based education and workforce development activities and learning experiences at all levels of education in fields and disciplines related to microelectronics.

(2) Purposes

Activities carried out under this section shall be for the purpose of supporting the growth, retention, and development of a diverse and sustainable microelectronics workforce to meet the

requirements of the programs established in section 4656(c)(2)(C) of title 15 in support of the evolving needs of industry, academia, government, and Federal laboratories.

(3) Uses of funds

Awards made under this section shall be used to support activities, such as—

(A) development of industry-oriented curricula and teaching modules for topics relevant to microelectronics, including those that provide meaningful hands-on learning experiences;

(B) dissemination of materials developed in subparagraph (A), including through the creation and maintenance of a publicly-accessible database and online portal;

(C) development and implementation of training, research, and professional development programs for teachers, including innovative pre-service and in-service programs, in microelectronics and related fields;

(D) support for learning activities and experiences that provide physical, simulated, or remote access to training facilities and industry-standard processes and tools, including equipment and software for the design, development, manufacturing, and testing of microelectronics;

(E) increasing the integration of microelectronics content into STEM curricula at all education levels;

(F) Growing ¹ academic research capacity in microelectronics by incentivizing the hiring of faculty in fields critical to microelectronics;

(G) support for innovative industry pathway programs that connect high school, vocational, military, college, and graduate programs; and

(H) providing informal hands-on microelectronics learning opportunities for PreK-12 students in different learning environments, including competitions.

(4) Advanced microelectronics traineeships

(A) In general

The Director shall make awards to institutions of higher education or nonprofit organizations (or consortia of such institutions and organizations) to establish traineeship programs for graduate students who pursue microelectronics research leading to a masters or doctorate degree by providing funding and other assistance, and by providing graduate students with opportunities for research experiences in government or industry related to the students' microelectronics studies.

(B) Use of funds

Institutions of higher education or non-profit organizations (or consortia of such institutions and organizations) shall use award funds provided under subparagraph (A) for the purposes of—

(i) paying tuition and fees, and providing stipends, for students receiving traineeships who are citizens, nationals, or aliens lawfully admitted for permanent residence;

(ii) facilitating opportunities for scientific internship programs for students receiving traineeships in microelectronics at private industry, nonprofit research institutions, or Federal laboratories; and

(iii) such other costs associated with the administration of the program.

(5) Microelectronics skilled technical workforce programs

The Director shall make awards under the Scientific and Advanced-Technology Act of 1992 (42 U.S.C. 1862h-j) to support programs for skilled technical workers in STEM disciplines that are aligned with skilled workforce needs of the microelectronics industry and lead to an associate's degree, or equivalent certification, by providing funding and other assistance, including opportunities for internships and other hands-on experiences in industry related to the students' microelectronics studies.

(6) Microelectronics research experiences through existing programs

The Director shall seek to increase opportunities for microelectronics research for students and trainees at all levels by encouraging proposals in microelectronics through existing programs

including—

- (A) research experiences for undergraduates pursuant to section 1862p–6 of this title;
- (B) postdoctoral fellowship programs established pursuant to section 1862p–11 of this title;
- (C) graduate fellowships established pursuant to section 1869 of this title;
- (D) informal STEM education programs established pursuant to section 1862q of this title;
- (E) the Robert Noyce Teacher Scholarship Program established pursuant to section 1862n–1 of this title;
- (F) major research instrumentation programs established pursuant to section 1862o–14 of this title; and
- (G) low-income ²scholarship program established pursuant to section 1869c of this title.

(7) Industry partnerships

In carrying out the activities under this section, the Director shall encourage awardees to partner with industry and other private sector organizations to facilitate the expansion of workforce pipelines and enable access to industry-standard equipment and software for use in undergraduate and graduate microelectronics education programs.

(8) Interagency coordination

In carrying out activities under this section, the Director shall collaborate with the Subcommittee on Microelectronics Leadership of the National Science and Technology Council, established in subsection (a) of section 4656 of title 15 and the National Semiconductor Technology Center established in subsection (c) of section 4656 of title 15, and other relevant Federal agencies to maintain the effectiveness of microelectronics workforce development activities across the agencies.

(b) National Network for Microelectronics Education

(1) In general

The Director, in coordination with the Secretary of Commerce, shall on a competitive, merit-reviewed basis, make awards to institutions of higher education and non-profit organizations (or consortia of such institutions and organizations) to establish partnerships to enhance and broaden participation in microelectronics education.

(2) Activities

Awards made under this subsection shall be used for the following:

- (A) To conduct training and education activities funded by awards under paragraph (1) and in coordination with the Network Coordination Hub established in paragraph (3), including curricula design, development, dissemination, and assessment, and the sharing of information and best practices across the network of awardees.
- (B) To develop regional partnerships among associate-degree-granting colleges, bachelor-degree-granting institutions, workforce development programs, labor organizations, and industry to create a diverse national technical workforce trained in microelectronics and ensure education and training is meeting the evolving needs of industry.
- (C) To develop local workforce pipelines that align with capacity investments made by industry and the Federal government, including vocational and high school training programs, community college degrees and certificates, veteran post service opportunities, and mentoring.
- (D) To facilitate partnerships with employers, employer consortia or other private sector organizations that offer apprenticeships, internships, or applied learning experiences in the field of microelectronics.
- (E) To develop shared infrastructure available to institutions of higher education, two-year colleges, and private organizations to enable experiential learning activities and provide physical or digital access to training facilities and industry-standard tools and processes.
- (F) To create and disseminate public outreach to support awareness of microelectronics education and career opportunities, including through outreach to PreK–12 schools and STEM-related organizations.

(G) To collaborate and coordinate with industry and existing public and private organizations conducting microelectronics education and workforce development activities, as practicable.

(3) Network coordination hub

The Director shall make an award on a competitive, merit-reviewed basis to an institution of higher education or nonprofit organization (or a consortium thereof) to establish a national network of partnerships (referred to in this section as the "National Network for Microelectronics Education") to coordinate activities, best practice sharing, and access to facilities across the partnerships established in accordance with paragraph (1).

(4) Incentivizing participation

To the extent practicable, the Director shall encourage participation in the National Network for Microelectronics Education through the coordination of activities and distribution of awards described in subsection (a).

(5) Partnerships

The Director shall encourage the submission of proposals that are led by historically Black colleges and universities, Tribal Colleges or Universities, and minority-serving institutions or that include partnerships with or among such institutions to increase the recruitment of students from groups historically underrepresented in STEM to pursue graduate studies in microelectronics.

(6) Outreach

In addition to any other requirements as determined appropriate by the Director, the Director shall require that proposals for awards under this section shall include a description of how the applicant will develop and implement outreach activities to increase the participation of women and other students from groups historically underrepresented in STEM.

(7) Coordination across foundation programs

In carrying out the activities under this section, the Director shall ensure awardees coordinate with, and avoid unnecessary duplication of, the activities carried out under this Section ¹ with the activities of the 21st Century Nanotechnology Research and Development Act (Public Law 108–153), the National Quantum Initiative Act (Public Law 115–368), and Division E of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021, and other related programs, as appropriate.

(8) Interagency coordination

In carrying out activities under this section, the Director shall collaborate with the Subcommittee on Microelectronics Leadership of the National Science and Technology Council, established in subsection (a) of section 4656 of title 15 and the National Semiconductor Technology Center established in subsection (c) of section 4656 of title 15.

(Pub. L. 117–167, div. B, title III, §10318, Aug. 9, 2022, 136 Stat. 1532.)

The Scientific and Advanced-Technology Act of 1992, referred to in subsec. (a)(5), is Pub. L. 102–476, Oct. 23, 1992, 106 Stat. 2297, which enacted sections 1862h to 1862j of this title and amended section 1862 of this title. For complete classification of this Act to the Code, see Short Title of 1992 Amendment note set out under section 1861 of this title and Tables.

Section 1862p–11 of this title, referred to in subsec. (a)(6)(B), was in the original "section 522 of the America COMPETES Act of 2010", and was translated as meaning section 522 of Pub. L. 111–358, the America COMPETES Reauthorization Act of 2010, to reflect the probable intent of Congress.

The 21st Century Nanotechnology Research and Development Act, referred to in subsec. (b)(7), is Pub. L. 108–153, Dec. 3, 2003, 117 Stat. 1923, which is classified generally to chapter 101 (§7501 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 7501 of Title 15 and Tables.

The National Quantum Initiative Act, referred to in subsec. (b)(7), is Pub. L. 115–368, Dec. 21, 2018, 132 Stat. 5092, which is classified generally to chapter 114 (§8801 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 8801 of Title 15 and Tables.

The William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021, referred to in subsec. (b)(7), is Pub. L. 116–283, Jan. 1, 2021, 134 Stat. 3388. Division E (§§5001–5501) of the Act, also known as the National Artificial Intelligence Initiative Act of 2020, is classified principally to chapter 119 (§9401 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 9401 of Title 15 and Tables.

¹ *So in original. Probably should not be capitalized.*

² *So in original. Probably should be preceded by "the".*

§18998. Mandatory cost-sharing

(a) Waiver

The cost-sharing requirements under section 1862o-14(c) of this title for the Major Research Instrumentation Program and under section 1862n-1a(i) of this title for teaching fellowships administered within the Robert Noyce Teacher Scholarship Program are waived for a period of 5 years following August 9, 2022.

(b) Assessment

Not later than 5 years following August 9, 2022, the Director shall submit to Congress an assessment, that includes feedback from the research community, of the impacts of the waivers provided under subsection (a), including—

- (1) programmatic and scientific goals;
- (2) institutional commitment and stewardship of Federal resources;
- (3) institutional strategic planning and administrative burden;
- (4) equity among recipient institutions; and
- (5) recommendations for or against extending or making permanent such waivers.

(Pub. L. 117–167, div. B, title III, §10320, Aug. 9, 2022, 136 Stat. 1536.)

§18999. Programs to address the STEM workforce

(a) In general

The Director shall issue undergraduate scholarships, including at community colleges, graduate fellowships and traineeships, postdoctoral awards, and, as appropriate, other awards, to address STEM workforce gaps, including for programs that recruit, retain, and advance students to a bachelor's degree in a STEM discipline concurrent with a secondary school diploma, such as through existing and new partnerships with State educational agencies.

(b) Postdoctoral professional development

In carrying out this section, the Director shall encourage innovation in postdoctoral professional development, support the development and diversity of the STEM workforce, and study the impacts of such innovation and support. To do so, the Director may use postdoctoral awards established under subsection (a) or leveraged under subsection (d)(1) for fellowships or other temporary rotational postings of not more than 2 years. Such fellowships or temporary rotational postings shall be awarded—

- (1) to qualified individuals who have a doctoral degree and received such degree not earlier than 5 years before the date that the fellowship or temporary rotational posting begins; and
- (2) to carry out research at Federal, State, local, and Tribal government research facilities.

(c) Direct hire authority

(1) In general

The head of any Federal agency may appoint, without regard to the provisions of subchapter I of chapter 33 of title 5, other than sections 3303 and 3328 of that title, a qualified candidate described in paragraph (2) directly to a position in the competitive service with the Federal agency for which the candidate meets Office of Personnel Management qualification standards.

(2) Fellowship or temporary rotational posting

Paragraph (1) applies with respect to a former recipient of an award under this subsection who—

(A) earned a doctoral degree in a STEM field from an institution of higher education; and

(B) successfully fulfilled the requirements of the fellowship or temporary rotational posting within a Federal agency.

(3) Limitation

The direct hire authority under this subsection shall be exercised with respect to a specific qualified candidate not later than 2 years after the date that the candidate completed the requirements related to the fellowship or temporary rotational posting described under this subsection.

(d) Existing programs

In carrying out this section, the Director may leverage existing programs, including programs that issue—

(1) postdoctoral awards;

(2) graduate fellowships and traineeships, inclusive of the NSF Research Traineeships and fellowships awarded under the Graduate Research Fellowship Program;

(3) scholarships, research experiences, and internships, including—

(A) scholarships to attend community colleges; and

(B) research experiences and internships under sections 1862p–5, 1862p–6, and 1862p–7 of this title; and

(4) awards to institutions of higher education to enable the institutions to fund innovation in undergraduate and graduate education, increased educational capacity, and the development and establishment of new or specialized programs of study for graduate, undergraduate, or technical college students, and the evaluation of the effectiveness of the programs of study.

(Pub. L. 117–167, div. B, title III, §10321, Aug. 9, 2022, 136 Stat. 1537.)

PART C—BROADENING PARTICIPATION

§19011. Robert Noyce Teacher Scholarship program update

(a) Sense of Congress

It is the sense of Congress that over the next five years the Foundation should increase the number of scholarships awarded under the Robert Noyce Teacher Scholarship program established under section 1862n–1 of this title by 50 percent.

(b) Outreach

To increase the diversity of participants, the Director shall support symposia, forums, conferences, and other activities to expand and enhance outreach to—

(1) historically Black colleges and universities;

(2) Tribal Colleges or Universities;

- (3) minority-serving institutions;
- (4) institutions of higher education that are located near or serve rural communities, including EPSCoR institutions;
- (5) labor organizations;
- (6) emerging research institutions; and
- (7) higher education programs that serve or support veterans.

(Pub. L. 117–167, div. B, title III, §10322, Aug. 9, 2022, 136 Stat. 1538.)

§19012. NSF Eddie Bernice Johnson INCLUDES Initiative

(a) In general

The Director shall make awards, on a competitive basis, to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to carry out a comprehensive national initiative to facilitate the development of networks and partnerships to build on and scale up effective practices in broadening participation in STEM studies and careers of groups historically underrepresented in such studies and careers.

(b) Change of name

The initiative under subsection (a) shall be known as the "Eddie Bernice Johnson Inclusion across the Nation of Communities of Learners of Underrepresented Discoverers in Engineering and Science Initiative" or the "Eddie Bernice Johnson INCLUDES Initiative".

(Pub. L. 117–167, div. B, title III, §10323, Aug. 9, 2022, 136 Stat. 1539.)

§19013. Broadening participation on major facilities awards

The Director shall require organizations seeking a cooperative agreement for the management of the operations and maintenance of a Foundation project to demonstrate prior experience and current capabilities in or to have a plan for employing best practices in broadening participation in science and engineering and ensure implementation of such practices is considered in oversight of the award.

(Pub. L. 117–167, div. B, title III, §10324, Aug. 9, 2022, 136 Stat. 1539.)

§19014. Expanding geographic and institutional diversity in research

(a) Continuing support for EPSCoR

(1) Sense of Congress

It is the sense of Congress that—

(A) because maintaining the Nation's scientific and economic leadership requires the participation of talented individuals nationwide, EPSCoR investments into State research and education capacities are in the Federal interest and should be sustained;

(B) EPSCoR should maintain its experimental component by supporting innovative methods for improving research capacity and competitiveness; and

(C) the Director should carry out this subsection while maintaining or increasing proposal success rates at emerging research institutions throughout the United States and without precluding access to awards for such institutions.

(2) Omitted

(3) Geographic diversity and inclusion

(A) In general

To the maximum extent practicable, not less than—

- (i) 15.5 percent in fiscal year 2023,

- (ii) 16 percent in fiscal year 2024,
- (iii) 16.5 percent in fiscal year 2025,
- (iv) 17 percent in fiscal year 2026,
- (v) 18 percent in fiscal year 2027,
- (vi) 19 percent in fiscal year 2028, and
- (vii) 20 percent in fiscal year 2029,

of the amounts appropriated to the Foundation for research and related activities, and science, mathematics, and engineering education and human resources programs and activities, excluding those amounts made available for polar research and operations support (and operations and maintenance of research facilities), shall be awarded to EPSCoR institutions.

(B) Scholarships

To the maximum extent practicable, not less than—

- (i) 16 percent in fiscal year 2023,
- (ii) 18 percent in fiscal year 2024, and
- (iii) 20 percent in each of fiscal years 2025 through 2029,

of the amounts appropriated to the Foundation for scholarships (including at community colleges), graduate fellowships and traineeships, and postdoctoral awards shall be used to support EPSCoR institutions.

(C) Considerations

The Director shall consider prioritizing funding and activities that enable sustainable growth in the competitiveness of EPSCoR jurisdictions, including—

- (i) infrastructure investments to build research capacity in EPSCoR jurisdictions;
- (ii) scholarships, fellowships, and traineeships within new and existing programs, to promote the development of sustainable research and academic personnel;
- (iii) partnerships between eligible organizations in EPSCoR and non-EPSCoR jurisdictions, to develop administrative, grant management, and proposal writing capabilities in EPSCoR jurisdictions;
- (iv) capacity building activities for emerging research institutions, historically Black colleges and universities, Tribal Colleges or Universities, and minority serving institutions, consistent with this section and section 19183 of this title; and
- (v) leveraging the Partnerships for Innovation program, as well as the Foundation coordination role in the Department of Commerce technology and innovation hub program under section 3722a of title 15 as added by section 10621, to build sustainable innovation ecosystems in EPSCoR jurisdictions.

(D) Merit review

The Director shall achieve the percentages specified in this paragraph to the maximum extent practicable, consistent with the National Science Foundation merit review process.

(E) Consortia

In the case of an award to a consortium, the Director may count the entire award toward meeting the funding requirements of subparagraph (A) if the lead entity of the consortium is located in an EPSCoR institution ¹

(F) Annual reporting

Beginning with the fiscal year 2023, the Director shall submit to Congress a report describing—

- (i) the Foundation's implementation of this paragraph;
- (ii) progress in building research capacity, including both infrastructure and personnel, in EPSCoR jurisdictions, including at historically Black colleges and universities, Tribal Colleges or Universities, minority-serving institutions, and emerging research institutions;

and

(iii) if the Foundation does not meet the requirement described in subparagraph (A), an explanation relating thereto and a plan for compliance in the following fiscal year and remediation.

(G) Analysis and sustainability report

Not later than December 31, 2026, the Director shall submit to Congress a report containing an analysis of the impacts of the requirements under subparagraphs (A) and (B). The report shall include—

(i) an analysis of how the requirements under this paragraph affected the balance of total funding awarded by the Foundation to states and territories across the United States;

(ii) an analysis of any changes in award success and total funding awarded to Historically black colleges and universities, Tribal Colleges or Universities, minority-serving institutions, and emerging research institutions between August 9, 2022, and December 31, 2026;

(iii) an analysis of the gains in academic research capacity, quality, and competitiveness and in science and technology human resource development in EPSCoR jurisdictions made between August 9, 2022, and December 31, 2026;

(iv) an assessment of EPSCoR eligibility criteria and determination on whether new eligibility criteria should be developed based on the findings from clauses (i), (ii), and (iii); and

(v) a plan to sustain and grow improvements in research capacity and competitiveness in EPSCoR jurisdictions.

(H) EPSCoR eligibility

(i) In general

The Director shall ensure eligibility for current EPSCoR jurisdictions for five years from August 9, 2022, after which the Director shall determine whether new eligibility criteria should be developed based on the findings in the report required under subparagraph (G).

(ii) Report

Not later than December 31, 2028, the Director shall report to Congress regarding any new eligibility criteria determined under clause (i), any changes to jurisdictional eligibility based on such criteria, and the necessity and practicality of continuing or modifying the requirement under subparagraph (A) given any such changes to eligibility. The report shall include an analysis of options to support regions in non-EPSCoR jurisdictions, adjacent to EPSCoR jurisdictions, that historically receive disproportionately low levels of funding from the Foundation, including, if appropriate, options to expand the EPSCoR program or to establish new programs.

(b) Fostering STEM research diversity and capacity program

(1) In general

The Director shall make awards on a competitive, merit-reviewed basis to eligible institutions to implement and study innovative approaches for building research capacity in order to engage and retain students from a range of institutions and diverse backgrounds in STEM.

(2) Eligible institution defined

In this subsection the term "eligible institution" means an institution of higher education that, according to the data published by the National Center for Science and Engineering Statistics, is not, on average, among the top 100 institutions in Federal research and development expenditures during the 3-year period prior to the year of the award.

(3) Purpose

The activities under this subsection shall be focused on achieving simultaneous impacts at the student, faculty, and institutional levels by increasing the research capacity at eligible institutions and the number of undergraduate and graduate students pursuing STEM degrees from eligible

institutions.

(4) Requirements

In carrying out this program, the Director shall—

(A) require eligible institutions seeking funding under this subsection to submit an application to the Director at such time, in such manner, containing such information and assurances as the Director may require. The application shall include, at a minimum a description of how the eligible institution plans to sustain the proposed activities beyond the duration of the award;

(B) require applicants to identify disciplines and focus areas in which the eligible institution can excel, and explain how the applicant will use the award to build capacity to bolster the institutional research competitiveness of eligible entities to support awards made by the Foundation and increase regional and national capacity in STEM;

(C) require the awards funded under this subsection to support research and related activities, which may include—

(i) development or expansion of research programs in disciplines and focus areas in subparagraph (B);

(ii) faculty recruitment and professional development in disciplines and focus areas in subparagraph (B), including for early-career researchers;

(iii) stipends for undergraduate and graduate students participating in research in disciplines and focus areas in subparagraph (B);

(iv) acquisition of instrumentation necessary to build research capacity at an eligible institution in disciplines and focus areas in subparagraph (B);

(v) an assessment of capacity-building and research infrastructure needs;

(vi) administrative research development support; and

(vii) other activities necessary to build research capacity; and

(D) require that no eligible institution should receive more than \$10,000,000 in any single year of funds made available under this section.

(5) Additional considerations

In making awards under this subsection, the Director may also consider—

(A) the extent to which the applicant will support students from diverse backgrounds, including first-generation undergraduate students;

(B) the geographic and institutional diversity of the applying institutions; and

(C) how the applicants can leverage public-private partnerships and existing partnerships with Federal Research Agencies.

(6) Duplication

The Director shall ensure the awards made under this subsection are complementary and not duplicative of existing programs.

(7) Report

The Director shall submit a report to Congress after the third year of the program that includes—

(A) an assessment of the effectiveness of the program for growing the geographic and institutional diversity of institutions of higher education receiving research awards from the Foundation;

(B) an assessment of the quality, quantity, and geographic and institutional diversity of institutions of higher education conducting Foundation-sponsored research since the establishment of the program in this subsection;

(C) an assessment of the quantity and diversity of undergraduate and graduate students graduating from eligible institutions with STEM degrees; and

(D) statistical summary data on the program, including the geographic and institutional allocation of award funding, the number and diversity of supported graduate and undergraduate

students, and how it contributes to capacity building at eligible entities.

(8) Authorization of appropriations

There is authorized to be appropriated to the Director \$150,000,000 for each of the fiscal years 2023 through 2027 to carry out the activities under this subsection.

(c) Partnerships with emerging research institutions

(1) In general

The Director shall establish a five-year pilot program for awards to research partnerships that involve emerging research institutions and may involve institutions classified as very high research activity by the Carnegie Classification of Institutions of Higher Education at the time of application.

(2) Requirements

In carrying out this program, the Director shall—

(A) require that each proposal submitted by a multi-institution collaboration for an award, including those under part G of this subchapter, that exceeds \$1,000,000, as appropriate, specify how the applicants will support substantive, meaningful, sustainable, and mutually beneficial partnerships with one or more emerging research institutions;

(B) require recipients funded under this subsection to direct no less than 35 percent of the total award to one or more emerging research institutions;

(C) require recipients funded under this subsection to report on the partnership activities as part of the annual reporting requirements of the Foundation; and

(D) solicit feedback on the partnership directly from partner emerging research institutions, in such form as the Director deems appropriate.

(3) Capacity building

Funds awarded to emerging research institutions under this subsection may be used to build research capacity, including through support for faculty salaries and training, field and laboratory research experiences for undergraduate and graduate students, and maintenance and repair of research equipment and instrumentation.

(4) Report

The Director shall submit a report to Congress after the third year of the pilot program that includes—

(A) an assessment, drawing on feedback from the research community and other sources of information, of the effectiveness of the pilot program for improving the quality of partnerships with emerging research institutions; and

(B) if deemed effective, a plan for permanent implementation of the pilot program.

(Pub. L. 117–167, div. B, title III, §10325, Aug. 9, 2022, 136 Stat. 1539.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 10621, referred to in subsec. (a)(3)(C)(v), is section 10621 of div. B of Pub. L. 117–167, which enacted sections 3722a and 3722b of Title 15, Commerce and Trade, amended section 3723 of Title 15, and enacted provisions set out as notes under sections 3722a and 3722b of Title 15.

August 9, 2022, referred to in subsec. (a)(3)(G)(ii), (iii), was in the original "the date of enactment" in cl. (ii) and "the enactment of this Act" in cl. (iii), and both instances were translated as meaning the date of enactment of Pub. L. 117–167, which was approved Aug. 9, 2022.

CODIFICATION

Section is comprised of section 10325 of div. B of Pub. L. 117–167. Subsec. (a)(2) of section 10325 of div. B of Pub. L. 117–167 amended section 1862p–9 of this title.

¹ So in original. Probably should be followed by a period.

§19015. Diversity in tech research

The Director shall make awards, on a competitive basis, to institutions of higher education or nonprofit organizations (or consortia of such institutions or organizations) to support basic, applied, and use-inspired research that yields a scientific evidence base for improving the design and emergence, development and deployment, and management and ultimate effectiveness of entities involved in technology research, including research related to diversity and inclusion in the technology sector.

(Pub. L. 117–167, div. B, title III, §10326, Aug. 9, 2022, 136 Stat. 1544.)

§19016. Chief Diversity Officer of the NSF

(a) Chief Diversity Officer

(1) Appointment

The Director shall appoint a senior agency official within the Office of the Director as a Chief Diversity Officer.

(2) Qualifications

The Chief Diversity Officer shall have significant experience, within the Federal Government and the science community, with diversity- and inclusion-related matters, including—

- (A) civil rights compliance;
- (B) harassment policy, reviews, and investigations;
- (C) equal employment opportunity; and
- (D) disability policy.

(b) Duties

The Chief Diversity Officer is responsible for providing advice on policy, oversight, guidance, and coordination with respect to matters of the Foundation related to diversity and inclusion, including ensuring the geographic diversity of the Foundation programs. Other duties may include—

(1) establishing and maintaining a strategic plan that publicly states a diversity definition, vision, and goals for the Foundation;

(2) defining a set of strategic metrics that are—

- (A) directly linked to key organizational priorities and goals;
- (B) actionable; and
- (C) actively used to implement the strategic plan under paragraph (1);

(3) advising in the establishment of a strategic plan for diverse participation by individuals and institutions of higher education, including community colleges, historically Black colleges and universities, Tribal Colleges or Universities, minority serving institutions, institutions of higher education with an established STEM capacity building program focused on Native Hawaiians or Alaska Natives, and EPSCoR institutions); ¹

(4) advising in the establishment of a strategic plan for outreach to, and recruiting from, untapped locations and underrepresented populations;

(5) advising on a diversity and inclusion strategy for the Foundation's portfolio of PreK–12 STEM education focused programs and activities, including goals for addressing barriers to participation;

(6) advising on the application of the Foundation's broader impacts review criterion; and

(7) performing such additional duties and exercise such powers as the Director may prescribe.

(c) Authorization of appropriations

To carry out this section, there are authorized to be appropriated \$5,000,000 for each of fiscal years 2023 through 2027.

(Pub. L. 117–167, div. B, title III, §10327, Aug. 9, 2022, 136 Stat. 1544.)

¹ *So in original. The closing parenthesis probably should not appear.*

§19017. Research and dissemination to increase the participation of women and underrepresented minorities in STEM fields

(a) In general

The Director shall make awards on a competitive, merit-reviewed basis, to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations), to enable such entities to increase the participation of women and underrepresented minorities in STEM studies and careers.

(b) Use of funds

An eligible entity that receives an award under this subsection shall use such award funds to carry out one or more of the following activities designed to increase the participation of women or minorities historically underrepresented in STEM, or both:

- (1) Research to analyze the record-level data collected under sections 19152 and 19154 of this title, consistent with policies to ensure the privacy of individuals identifiable by such data.
- (2) Research to study best practices for work-life accommodation.
- (3) Research to study the impact of policies and practices that are implemented or are otherwise consistent with the purposes of this section.
- (4) Mentoring programs that facilitate engagement of STEM professionals with students.
- (5) Research experiences for undergraduate and graduate students in STEM fields.
- (6) Outreach to elementary school and secondary school students to provide opportunities to increase their exposure to STEM fields.

(c) Dissemination activities

The Director shall carry out dissemination activities consistent with the purposes of this section, including—

- (1) collaboration with other Federal research agencies and professional associations to exchange best practices, harmonize work-life accommodation policies and practices, and overcoming common barriers to work-life accommodation; and
- (2) collaboration with institutions of higher education in order to clarify and catalyze the adoption of a coherent and consistent set of work-life accommodation policies and practices.

(d) Authorization of appropriations

There are authorized to be appropriated to carry out this section \$5,000,000 for each of fiscal years 2023, 2024, 2025, 2026, and 2027.

(Pub. L. 117–167, div. B, title III, §10328, Aug. 9, 2022, 136 Stat. 1545.)

§19018. Intramural emerging research institutions pilot program

(a) Establishment

The Director may conduct multiple pilot programs, including through existing programs or other programs authorized in this division or division A, within the Foundation to expand the number of institutions of higher education (including such institutions that are community colleges), and other eligible entities that the Director determines appropriate, that are able to successfully compete for Foundation awards.

(b) Components

Pilot programs under this section may include—

- (1) a mentorship program;
- (2) award application writing technical assistance;
- (3) targeted outreach, including to a historically Black college or university, a Tribal college or university, or a minority-serving institution (including a Hispanic-serving institution or an institution of higher education with an established STEM capacity building program focused on Native Hawaiians or Alaska Natives);
- (4) programmatic support or solutions for institutions or entities that do not have an experienced award management office;
- (5) an increase in the number of award proposal reviewers from institutions of higher education that have not traditionally received funds from the Foundation; or
- (6) an increase of the term and funding, for a period of 3 years or less, as appropriate, for awards with a first-time principal investigator, when paired with regular mentoring on the administrative aspects of award management.

(c) Limitation

As appropriate, each pilot program under this section shall work to reduce administrative burdens for recipients and award personnel.

(d) Agency-wide programs

Not later than 5 years after August 9, 2022, the Director shall—

- (1) review the results of the pilot programs under this section; and
- (2) develop agencywide best practices from the pilot programs for implementation across the Foundation, in order to fulfill the requirement under section 1862(e) of this title.

(Pub. L. 117–167, div. B, title III, §10330, Aug. 9, 2022, 136 Stat. 1550.)

B to the Code, see Short Title note set out under section 18901 of this title and Tables.

Division A, referred to in subsec. (a), is div. A of Pub. L. 117–167, Aug. 9, 2022, 136 Stat. 1372, known as the CHIPS Act of 2022. For complete classification of div. A to the Code, see Short Title of 2022 Amendment note set out under section 4651 of Title 15, Commerce and Trade, and Tables.

PART D—NSF RESEARCH SECURITY

§19031. Office of Research Security and Policy

The Director shall maintain a Research Security and Policy office within the Office of the Director with not fewer than four full-time equivalent positions, in addition to the Chief of Research Security established pursuant to section 19032 of this title. The functions of the Research Security and Policy office shall be to coordinate all research security policy issues across the Foundation, including by—

- (1) consulting and coordinating with the Foundation Office of Inspector General, with other Federal research agencies, and intelligence and law enforcement agencies, and the National Science and Technology Council, as appropriate, in accordance with the authority provided under section 1746 of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116–92; 42 U.S.C. 6601 note), to identify and address potential security risks that threaten research

integrity and other risks to the research enterprise and to develop research security policy and best practices, taking into account the policy guidelines to be issued by the Director of the Office of Science and Technology Policy under section 19231 of this title;

(2) serving as a resource at the Foundation for all issues related to the security and integrity of the conduct of Foundation-supported research;

(3) conducting outreach and education activities for recipients on research policies and potential security risks and on policies and activities to protect intellectual property and information about critical technologies relevant to national security, consistent with the controls relevant to the grant or award;

(4) educating Foundation program managers and other directorate staff on evaluating Foundation awards and recipients for potential security risks;

(5) communicating reporting and disclosure requirements to recipients and applicants for funding;

(6) performing risk assessments, in consultation, as appropriate, with other Federal agencies, of Foundation proposals and awards using analytical tools to assess nondisclosures of required information;

(7) establishing policies and procedures for identifying, communicating, and addressing security risks that threaten the integrity of Foundation-supported research and development, working in consultation, as appropriate, with other Federal agencies, to ensure compliance with National Security Presidential Memorandum–33 (relating to strengthening protections of United States Government-supported research and development against foreign government interference and exploitation) or a successor policy document; and

(8) in accordance with relevant policies of the agency, conducting or facilitating due diligence with regard to applications for research and development awards from the Foundation prior to making such awards.

(Pub. L. 117–167, div. B, title III, §10331, Aug. 9, 2022, 136 Stat. 1551.)

§19032. Chief of Research Security

The Director shall appoint a senior agency official within the Office of the Director as a Chief of Research Security, whose primary responsibility shall be to manage the office established under section 19031 of this title.

(Pub. L. 117–167, div. B, title III, §10332, Aug. 9, 2022, 136 Stat. 1552.)

§19033. Reporting to Congress

(a) Report on resource needs

Not later than 180 days after August 9, 2022, the Director shall provide a report to the Committee on Science, Space, and Technology of the House of Representatives, the Committee on Commerce, Science, and Transportation of the Senate, the Committee on Appropriations of the House of Representatives, and the Committee on Appropriations of the Senate on the resources and the number of full time ¹ employees needed to carry out the functions of the office established in section 19031 of this title.

(b) Annual report on Office activities

(1) In general

Not later than one year after August 9, 2022, and annually thereafter, the Director shall submit to Congress a report on the activities carried out by the Office of Research Security, detailing—

(A) a description of the activities conducted by the Office, including administrative actions taken;

(B) such recommendations as the Director may have for legislative or administrative action

relating to improving research security;

(C) identification and discussion of the gaps in legal authorities that need to be improved to enhance the security of institutions of higher education performing research supported by the Foundation; and

(D) information on Foundation Inspector General cases, as appropriate, relating to undue influence and security threats to research and development activities funded by the Foundation, including theft of property or intellectual property relating to a project funded by the Foundation at an institution of higher education.

(2) Form

The report submitted under paragraph (1) shall be submitted in both unclassified and classified formats, as appropriate.

(Pub. L. 117–167, div. B, title III, §10333, Aug. 9, 2022, 136 Stat. 1552.)

¹ So in original. Probably should be "full-time".

§19034. Online resource

The Director shall develop an online resource hosted on the Foundation's website containing up-to-date information, tailored for institutions and individual researchers, including—

- (1) an explanation of Foundation research security policies;
- (2) unclassified guidance on potential security risks that threaten research integrity and other risks to the research enterprise;
- (3) examples of beneficial international collaborations and how such collaborations differ from foreign government interference efforts that threaten research integrity;
- (4) best practices for mitigating security risks that threaten research integrity; and
- (5) additional reference materials, including tools that assist organizations seeking Foundation funding and awardees in information disclosure to the Foundation.

(Pub. L. 117–167, div. B, title III, §10334, Aug. 9, 2022, 136 Stat. 1552.)

§19035. Research awards

The Director shall continue to make awards, on a competitive basis, to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to support research on the conduct of research and the research environment, including research on research misconduct or breaches of research integrity and detrimental research practices.

(Pub. L. 117–167, div. B, title III, §10335, Aug. 9, 2022, 136 Stat. 1553.)

§19036. Authorities

In addition to existing authorities for preventing waste, fraud, abuse, and mismanagement of Federal funds, the Director, acting through the Office of Research Security and Policy and in coordination with the Foundation's Office of Inspector General, shall have the authority to conduct risk assessments, including through the use of open-source analysis and analytical tools, of research and development award applications and disclosures to the Foundation.

(Pub. L. 117–167, div. B, title III, §10336, Aug. 9, 2022, 136 Stat. 1553.)

§19037. Research security and integrity information sharing analysis organization

(a) Establishment

The Director shall enter into an agreement with a qualified independent organization to establish a research security and integrity information sharing analysis organization (referred to in this section as the "RSI-ISAO"), which shall include members described in subsection (d) and carry out the duties described in subsection (b).

(b) Duties

The RSI-ISAO shall—

(1) serve as a clearinghouse for information to help enable the members and other entities in the research community to understand the context of their research and identify improper or illegal efforts by foreign entities to obtain research results, know how, materials, and intellectual property;

(2) develop a set of standard risk assessment frameworks and best practices, relevant to the research community, to assess research security risks in different contexts;

(3) share information concerning security threats and lessons learned from protection and response efforts through forums and other forms of communication;

(4) provide timely reports on research security risks to provide situational awareness tailored to the research and STEM education community;

(5) provide training and support, including through webinars, for relevant faculty and staff employed by institutions of higher education on topics relevant to research security risks and response;

(6) enable standardized information gathering and data compilation, storage, and analysis for compiled incident reports;

(7) support analysis of patterns of risk and identification of bad actors and enhance the ability of members to prevent and respond to research security risks; and

(8) take other appropriate steps to enhance research security.

(c) Funding

The Foundation may provide initial funds toward the RSI-ISAO but shall seek to have the fees authorized in subsection (d)(2) cover the costs of operations at the earliest practicable time.

(d) Membership

(1) In general

The RSI-ISAO shall serve and include members representing institutions of higher education, nonprofit research institutions, and small and medium-sized businesses.

(2) Fees

As soon as practicable, members of the RSI-ISAO shall be charged an annual rate to enable the RSI-ISAO to cover its costs. Rates shall be set on a sliding scale based on research and development expenditures to ensure that membership is accessible to a diverse community of stakeholders and ensure broad participation. The RSI-ISAO shall develop a plan to sustain the RSI-ISAO without Federal funding, as practicable.

(e) Board of directors

The RSI-ISAO may establish a board of directors to provide guidance for policies, legal issues, and plans and strategies of the entity's operations. The board shall include a diverse group of stakeholders representing the research community, including academia, industry, and experienced research security administrators.

(f) Stakeholder engagement

In establishing the RSI-ISAO under this section, the Director shall take necessary steps to ensure the services provided are aligned with the needs of the research community, including by—

(1) convening a series of workshops or other multi-stakeholder events; or

(2) publishing a description of the services the RSI-ISAO intends to provide and the requirements for membership in the Federal Register and provide an opportunity for submission of

public comments for a period of not less than 60 days.

(Pub. L. 117–167, div. B, title III, §10338, Aug. 9, 2022, 136 Stat. 1553.)

§19038. Plan with respect to controlled information and background screening

(a) In general

Not later than 180 days after August 9, 2022, the Director, in consultation with the Director of National Intelligence and, as appropriate, other Federal agencies, shall develop a plan to—

(1) identify research areas supported by the Foundation, including in the key technology focus areas, that may involve access to controlled unclassified or classified information, including in the key technology focus areas; and

(2) exercise due diligence in granting access, as appropriate, to the CUI or classified information identified under paragraph (1) to individuals working on such research who are employees of the Foundation or covered individuals on research and development awards funded by the Foundation.

(b) Definitions

In this section:

(1) Classified information

The term "classified information" means any information that has been determined pursuant to Executive Order 13526, any predecessor or successor order, or sections 1-274, 275-321, and 1001-3115 of the Atomic Energy Act of 1954 (42 U.S.C. 2011-2021, 2022-2286i, 2296a-2297h-13) ¹ to require protection against unauthorized disclosure and that is so designated.

(2) Controlled unclassified information

The term "controlled unclassified information" or "CUI" means information described as "Controlled Unclassified Information" under Executive Order 13556 or any successor order, to require protection against unauthorized disclosure and that is so designated.

(Pub. L. 117–167, div. B, title III, §10339, Aug. 9, 2022, 136 Stat. 1554.)

EDITORIAL NOTES

REFERENCES IN TEXT

Executive Order 13526, referred to in subsec. (b)(1), is set out as a note under section 3161 of Title 50, War and National Defense.

The Atomic Energy Act of 1954, referred to in subsec. (b)(1), is act Aug. 1, 1946, ch. 724, as added by act Aug. 30, 1954, ch. 1073, §1, 68 Stat. 919, which is classified principally to chapter 23 (§2011 et seq.) of this title. Some of the Code sections referred to in subsec. (b)(1) are not part of the Act, and some of the Code sections that are part of the Act have been repealed. For complete classification of this Act to the Code, see Short Title note set out under section 2011 of this title and Tables.

Executive Order 13556, referred to in subsec. (b)(2), is set out as a note under section 3501 of Title 44, Public Printing and Documents.

§19039. Foundation funding to institutions hosting or supporting Confucius Institutes

(a) Confucius Institute defined

In this section the term "Confucius Institute" means a cultural institute established as a partnership between a United States institution of higher education and a Chinese institution of higher education

to promote and teach Chinese language and culture that is funded, directly or indirectly, by the Government of the People's Republic of China.

(b) Restrictions of Confucius Institutes

Except as provided in subsection (d), none of the funds made available to the Foundation under this division or division A, or an amendment made by this division or division A, may be obligated or expended to an institution of higher education that maintains a contract or agreement between the institution and a Confucius Institute, unless the Director, after consultation with the National Academies, determines such a waiver is appropriate in accordance with subsection (c).

(c) Waiver

The Director, after consultation with the National Academies, may issue a waiver for an institution of higher education that maintains a contract or agreement between the institution and a Confucius Institute if such contract or agreement includes clear provisions that—

- (1) protect academic freedom at the institution;
- (2) prohibit the application of any foreign law on any campus of the institution;
- (3) grant full managerial authority of the Confucius Institute to the institution, including full control over what is being taught, the activities carried out, the research awards that are made, and who is employed at the Confucius Institute; and
- (4) prohibit co-location with the institution's Chinese language, history, and cultural programs and require separate promotional materials.

(d) Special rule

(1) In general

Notwithstanding any other provision of this section, this section shall not apply to an institution of higher education if that institution has fulfilled the requirements for a waiver from the Department of Defense as described under section 1062 of the National Defense Authorization Act for Fiscal Year 2021 (Public Law 116–283).

(2) Exception

Notwithstanding any other provision of this section, the prohibition under subsection (b) shall not apply to amounts provided to students as educational assistance.

(e) Effective date

The limitation under subsection (b) shall apply with respect to the first fiscal year that begins after the date that is two years after August 9, 2022, and to any subsequent fiscal year subject to subsection (f).

(f) Sunset

This section shall cease to be effective on the date that is five years after August 9, 2022. (Pub. L. 117–167, div. B, title III, §10339A, Aug. 9, 2022, 136 Stat. 1555.)

EDITORIAL NOTES

This division, referred to in subsec. (b), is div. B of Pub. L. 117–167, Aug. 9, 2022, 136 Stat. 1399, which enacted this chapter and enacted, amended, and repealed numerous other sections and notes in the Code. For complete classification of div. B to the Code, see Short Title note set out under section 18901 of this title and Tables.

Division A, referred to in subsec. (b), is div. A of Pub. L. 117–167, Aug. 9, 2022, 136 Stat. 1372, known as the CHIPS Act of 2022. For complete classification of div. A to the Code, see Short Title of 2022 Amendment note set out under section 4651 of Title 15, Commerce and Trade, and Tables.

Section 1062 of the National Defense Authorization Act for Fiscal Year 2021, referred to in subsec. (d)(1), probably means section 1062 of Pub. L. 116–283, known as the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021, which is set out as a note under section 2241 of Title 10, Armed Forces.

§19040. Foreign financial support

(a) In general

The Director shall request, on an annual basis, from a recipient institution of higher education a disclosure, in the form of a summary document, from the institution, a foundation of the institution, and related entities such as any educational, cultural, or language entity, of the current financial support, the value of which is \$50,000 or more, including gifts and contracts, received directly or indirectly from a foreign source (as such term is defined in section 1011f(h)(2) of title 20) associated with a foreign country of concern.

(b) Records

Each disclosure to the Director under this section shall be made on the condition that the institution will maintain a true copy of the relevant records subject to the disclosure requirement until the latest of—

- (1) the date that is four years after the date of the agreement;
- (2) the date on which the agreement terminates; or
- (3) the last day of any period that applicable State public record law requires a true copy of such agreement to be maintained.

(c) Documentation

Upon review of the disclosures under this section, the Director may request that a recipient institution provide true copies of any contracts, agreements, or documentation of financial transactions associated with disclosures made under this section.

(d) Office of the Inspector General

The Director, acting through the Office of Research Security and Policy in coordination with the Foundation's Office of Inspector General and in consultation with the recipient institution, may reduce the award funding amount or suspend or terminate the award if the Director determines—

- (1) such institution fails to comply with the records retention requirement in subsection (b) or fails to provide information requested under this section; or
- (2) the Chief of Research Security determines the disclosures under this section indicate a threat to research security.

(Pub. L. 117–167, div. B, title III, §10339B, Aug. 9, 2022, 136 Stat. 1556.)

PART E—FUNDAMENTAL RESEARCH

§19051. Broader impacts

(a) Assessment

Not later than 120 days after August 9, 2022, the Director shall enter into an agreement with a qualified independent organization to assess how the Broader Impacts review criterion is applied across the Foundation and make recommendations for improving the effectiveness for meeting the goals established in section 1862p–14 of this title.

(b) Activities

The Director shall make awards on a competitive basis, to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to support activities to increase the efficiency, effectiveness, and availability of resources for implementing the Broader Impacts review criterion, including—

- (1) training and workshops for program officers, merit review panelists, award office

administrators, faculty, and students to improve understanding of the goals and the full range of potential broader impacts available to researchers to satisfy this criterion;

(2) repositories and clearinghouses for sharing best practices and facilitating collaboration; and

(3) tools for evaluating and documenting societal impacts of research.

(Pub. L. 117–167, div. B, title III, §10341, Aug. 9, 2022, 136 Stat. 1557.)

§19052. Research ethics

(a) Sense of Congress

It is the sense of Congress that—

(1) a number of emerging areas of research have potential ethical, social, safety, and security implications that might be apparent as early as the basic research stage;

(2) the incorporation of ethical, social, safety, and security considerations into the research design and review process for Federal awards, may help mitigate potential harms before they happen;

(3) the Foundation's agreement with the National Academies to conduct a study and make recommendations with respect to governance of research in emerging technologies is a positive step toward accomplishing this goal; and

(4) the Foundation should continue to work with stakeholders to promote best practices for governance of research in emerging technologies at every stage of research.

(b) Incorporation of ethics considerations

Drawing on stakeholder input, not later than 24 months after August 9, 2022, the Director shall revise proposal instructions to require that ethical and societal considerations are to be included as part of a proposal for funding prior to making the award, where such considerations are applicable. Such considerations shall be evaluated by the Director in the review of proposals, taking into account any relevant input from the peer-reviewers for the proposal, and shall factor into award decisions, as deemed necessary by the Director. When incorporating such considerations, proposers may include, as appropriate—

(1)(A) any readily foreseeable or quantifiable risks to society, including how the research could enable products, technologies, or other outcomes that could intentionally or unintentionally cause significant societal harm; or

(B) an assertion that no readily foreseeable potential ethical, social, safety, or security implications are apparent;

(2) how technical or social solutions can mitigate such risks and, as appropriate, a plan to implement such mitigation measures; and

(3) how partnerships and collaborations in the research can help mitigate potential harm and amplify potential societal benefits.

(c) Guidance

The Director shall solicit stakeholder input to develop clear guidance on what constitutes a readily foreseeable or quantifiable risk as described in subsection (b)(1), and to the extent practicable harmonize this policy with existing ethical policies or related requirements for human subjects.

(d) Research

The Director shall make awards, on a competitive basis, to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to support—

(1) research to assess the potential ethical and societal implications of Foundation-supported research and products or technologies enabled by such research, including the benefits and risks identified pursuant to subsection (b)(1); and

(2) the development and verification of approaches to proactively mitigate foreseeable risks to society, including the technical and social solutions identified pursuant to subsection (b)(1).

(e) Annual report

The Director shall encourage recipients to update their consideration of potential risks and benefits as appropriate as part of the annual reports required by all awardees under the award terms and conditions.

(Pub. L. 117–167, div. B, title III, §10343, Aug. 9, 2022, 136 Stat. 1557.)

§19053. Research reproducibility and replicability

(a) In general

Consistent with existing Federal law for privacy, intellectual property, and security, the Director shall facilitate public access to research products, including data, software, and code, developed as part of Foundation-supported projects.

(b) Data management plans

(1) In general

The Director shall require that every proposal for funding for research include a machine-readable data management plan that includes a description of how the awardee will archive and preserve public access to data, software, and code developed as part of the proposed project.

(2) Requirements

In carrying out the requirement in paragraph (1), the Director shall—

(A) provide necessary resources, including trainings and workshops, to educate researchers and students on how to develop and review high quality data management plans;

(B) ensure program officers and merit review panels are equipped with the resources and training necessary to review the quality of data management plans; and

(C) ensure program officers and merit review panels treat data management plans as essential elements of award proposals, where appropriate.

(c) Open repositories

The Director shall—

(1) consult with the heads of other Federal research agencies, as appropriate, and solicit input from the scientific community, to develop and widely disseminate a set of criteria for trusted open repositories to be used by Foundation-funded researchers, accounting for discipline-specific needs and necessary protections for sensitive information;

(2) work with stakeholders to identify significant gaps in available repositories meeting the criteria developed under paragraph (1) and options for supporting the development of additional or enhanced repositories;

(3) make awards on a competitive basis to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) for the development, upgrades, and maintenance of open data repositories that meet the criteria developed under paragraph (1);

(4) work with stakeholders and build on existing models, where appropriate, to establish a single, public, web-based point of access to help users locate repositories storing data, software, and code resulting from or used in Foundation-supported projects;

(5) work with stakeholders to establish the necessary policies and procedures and allocate the necessary resources to ensure, as practicable, data underlying published findings resulting from Foundation-supported projects are deposited in repositories meeting the criteria developed under paragraph (1) at the time of publication;

(6) incentivize the deposition of data, software, and code into repositories that meet the criteria developed under paragraph (1); and

(7) coordinate with the scientific publishing community and the heads of other relevant Federal departments and agencies to support the development of voluntary consensus standards around data archiving and sharing.

(d) Research, development, and education

The Director shall make awards, on a competitive basis to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to—

- (1) support research and development of open source, sustainable, usable tools and infrastructure that support reproducibility for a broad range of studies across different disciplines;
- (2) support research on computational reproducibility, including the limits of reproducibility and the consistency of computational results in the development of new computation hardware, tools, and methods; and
- (3) support the education and training of students, faculty, and researchers on computational methods, tools, and techniques to improve the quality and sharing of data, code, and supporting metadata to produce reproducible research.

(Pub. L. 117–167, div. B, title III, §10344, Aug. 9, 2022, 136 Stat. 1558.)

§19054. Climate change research

The Director shall make awards, on a competitive basis, to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to support research to improve our understanding of the climate system and related human and environmental systems.

(Pub. L. 117–167, div. B, title III, §10345, Aug. 9, 2022, 136 Stat. 1560.)

§19055. Social, behavioral, and economic sciences

The Director shall—

- (1) actively communicate opportunities and solicit proposals for social, behavioral, and economic science researchers to participate in cross-cutting and interdisciplinary programs, including the Convergence Accelerator and agency priority activities, and the Mid-Scale Research Infrastructure program; and
- (2) ensure social, behavioral, and economic science researchers are represented on relevant merit review panels for such activities.

(Pub. L. 117–167, div. B, title III, §10346, Aug. 9, 2022, 136 Stat. 1560.)

§19056. Measuring impacts of Federally funded research and development

The Director shall make awards on a competitive, merit-reviewed basis to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to support research and development of data, models, indicators, and associated analytical tools to improve our understanding of the impacts of Federally funded research on society, the economy, and the workforce, including domestic job creation.

(Pub. L. 117–167, div. B, title III, §10347, Aug. 9, 2022, 136 Stat. 1560.)

§19057. Food-energy-water research

The Director shall make awards on a competitive basis to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to—

- (1) support research to significantly advance our understanding of the food-energy-water system through quantitative and computational modeling, including support for relevant cyberinfrastructure;
- (2) develop real-time, cyber-enabled interfaces that improve understanding of the behavior of food-energy-water systems and increase decision support capability;
- (3) support research that will lead to innovative solutions to critical food-energy-water system

problems; and

(4) grow the scientific workforce capable of studying and managing the food-energy-water system, through education and other professional development.

(Pub. L. 117–167, div. B, title III, §10348, Aug. 9, 2022, 136 Stat. 1560.)

§19058. Biological field stations and marine laboratories

The Director shall continue to support enhancing, repairing and maintaining research instrumentation, laboratories, telecommunications and housing at biological field stations and marine laboratories.

(Pub. L. 117–167, div. B, title III, §10349, Aug. 9, 2022, 136 Stat. 1560.)

§19059. Sustainable chemistry research and education

In accordance with section 9303 of title 15, the Director shall carry out activities in support of sustainable chemistry, including—

(1) establishing a program to make awards, on a competitive basis, to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to support—

(A) individual investigators and teams of investigators, including to the extent practicable, early career investigators for research and development;

(B) collaborative research and development partnerships among universities, industry, and non-profit organizations;

(C) integrating sustainable chemistry principles into elementary, secondary, undergraduate, and graduate chemistry and chemical engineering curriculum and research training, as appropriate to that level of education and training; and

(2) incorporating sustainable chemistry into existing Foundation research and development programs.

(Pub. L. 117–167, div. B, title III, §10350, Aug. 9, 2022, 136 Stat. 1560.)

§19060. Risk and resilience research

The Director shall make awards on a competitive basis to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to advance knowledge of risk assessment and predictability and to support the creation of tools and technologies, including advancing data analytics and utilization of artificial intelligence, for increased resilience through—

(1) improvements in our ability to understand, model, and predict extreme events and natural hazards;

(2) the creation of novel engineered systems solutions for resilient complex infrastructures, particularly those that address critical interdependence among infrastructures and leverage the growing infusion of cyber-physical-social components into the infrastructures;

(3) development of equipment and instrumentation for innovation in resilient engineered infrastructures;

(4) multidisciplinary research on the behaviors individuals and communities engage in to detect, perceive, understand, predict, assess, mitigate, and prevent risks and to improve and increase resilience; and

(5) advancements in multidisciplinary wildfire science, including those related to air quality impacts, human behavior, and early detection and warning.

(Pub. L. 117–167, div. B, title III, §10351, Aug. 9, 2022, 136 Stat. 1561.)

§19061. Unmanned aircraft systems technologies

In coordination with the Administrator of the Federal Aviation Administration and the Administrator of the National Aeronautics and Space Administration, the Director shall carry out a program of research and related activities related to unmanned aircraft system technologies, which may include a prize competition pursuant to section 3719 of title 15 and support for undergraduate and graduate curriculum development.

(Pub. L. 117–167, div. B, title III, §10352, Aug. 9, 2022, 136 Stat. 1561.)

§19062. Accelerating unmanned maritime systems technologies

(a) In general

In order to support advances in marine science, maritime domain awareness, and national security the Director, in consultation with the Under Secretary of Commerce for Oceans and Atmosphere and the Commandant of the Coast Guard, shall issue awards, on a competitive basis, to institutions of higher education or nonprofit organizations (or consortia of such institutions or organizations) to support research that will accelerate innovation to advance unmanned maritime systems for the purpose of providing greater maritime domain awareness to the Nation.

(b) Coordination

In implementing this section, the Director shall coordinate with the Coast Guard, the Department of Defense, the National Oceanic and Atmospheric Administration, and other Federal agencies, including those established under the Commercial Engagement Through Ocean Technology Act of 2018 (Public Law 115–394) [33 U.S.C. 4101 et seq.].

(Pub. L. 117–167, div. B, title III, §10353, Aug. 9, 2022, 136 Stat. 1561.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Commercial Engagement Through Ocean Technology Act of 2018, referred to in subsec. (b), is Pub. L. 115–394, Dec. 21, 2018, 132 Stat. 5281, also known as the CENOTE Act of 2018, which is classified generally to chapter 54 (§4101 et seq.) of Title 33, Navigation and Navigable Waters. For complete classification of this Act to the Code, see Short title note set out under section 4101 of Title 33 and Tables.

§19063. Leveraging international expertise in research

The Director shall explore and advance opportunities for leveraging international capabilities and resources that align with the Foundation and United States research community priorities and have the potential to benefit United States prosperity, security, health, and well-being, including through binational research and development organizations and foundations and by sending teams of Foundation scientific staff for site visits of scientific facilities and agencies in other countries. The Director shall establish and implement policies, including through any research security training requirements, to mitigate the potential risks of such interactions, including risks to the protection of intellectual property and the risk of undue foreign influence on research.

(Pub. L. 117–167, div. B, title III, §10354, Aug. 9, 2022, 136 Stat. 1562.)

§19064. Biological research collections

(a) In general

The Director shall continue to support databases, tools, methods, and other activities that secure

and improve existing physical and digital biological research collections, improve the accessibility of collections and collection-related data for research and educational purposes, develop capacity for curation and collection management, and to transfer ownership of collections that are significant to the biological research community, including to museums and universities.

(b) Specimen management plan

In consultation with other relevant Federal research agencies, and as the Director determines is appropriate, the Director shall require that proposals submitted to the Foundation for funding for research that involves collecting or generating specimens include, as part of the data management plan under section 19053 of this title, a description of how the specimens and associated data will be accessioned into and maintained in an established biological collection.

(c) Action Center for Biological Collections

In coordination with other relevant Federal research agencies, as appropriate, the Director shall make awards on a competitive basis to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to facilitate coordination and data sharing among communities of practice for research, education, workforce training, evaluation, and business model development, including by establishing an Action Center for Biological Collections.

(Pub. L. 117–167, div. B, title III, §10355, Aug. 9, 2022, 136 Stat. 1562.)

§19065. Clean water research and technology acceleration

The Director shall make awards on a competitive, merit-reviewed basis to institutions of higher education or non-profit organizations (or consortia of such institutions or organizations) to—

(1) support transdisciplinary research to significantly advance our understanding of water availability, quality, and dynamics and the impact of human activity and a changing climate on urban and rural water and wastewater systems, including in low-income, underserved, and disadvantaged communities;

(2) develop, pilot, and deploy innovative technologies, systems, and other approaches to identifying and addressing challenges that affect water availability, quality, and security, including through direct engagement with affected communities and partnerships with the private sector, State, territorial, Tribal, and local governments, non-profit organizations and water management professionals; and

(3) grow the scientific workforce capable of studying and managing water and wastewater systems and of conducting wastewater surveillance, through education, training, and other professional development.

(Pub. L. 117–167, div. B, title III, §10356, Aug. 9, 2022, 136 Stat. 1563.)

§19066. Technology and behavioral science research

(a) In general

The Director shall make awards on a merit-reviewed, competitive basis for research and development to—

(1) increase understanding of social media and consumer technology access and use patterns and related mental health, behavioral, and substance use disorder issues, particularly for children and adolescents; and

(2) explore the role of social media and consumer technology in rising rates of mental health and substance use disorder issues, including within communities experiencing long-term economic distress.

(b) Coordination to avoid duplication

In making awards under this subsection, the Director shall, for purposes of avoiding duplication of

activities and research, consult, collaborate, and coordinate with the heads of other relevant Federal departments and agencies, including the Department of Health and Human Services.

(Pub. L. 117–167, div. B, title III, §10357, Aug. 9, 2022, 136 Stat. 1563.)

§19067. Critical minerals mining research and development

(a) Critical minerals mining research and development at the Foundation

(1) In general

In order to support supply chain resiliency, the Director shall make awards, on a competitive basis, to institutions of higher education or nonprofit organizations (or consortia of such institutions or organizations) to support basic research that will accelerate innovation to advance critical minerals mining strategies and technologies for the purpose of making better use of domestic resources and eliminating national reliance on minerals and mineral materials that are subject to supply disruptions.

(2) Use of funds

Activities funded by an award under this section may include—

(A) advancing mining research and development activities to develop new mapping and mining technologies and techniques, including advanced critical mineral extraction and production, separation, alloying, or processing techniques and technologies that can decrease energy intensity to improve existing or to develop new supply chains of critical minerals, and to yield more efficient, economical, and environmentally benign mining practices;

(B) advancing critical mineral processing research activities to improve separation, alloying, manufacturing, or recycling techniques and technologies that can decrease the energy intensity, waste, potential environmental impact, and costs of those activities;

(C) conducting long-term earth observation of reclaimed mine sites, including the study of the evolution of microbial diversity at such sites;

(D) examining the application of artificial intelligence for geological exploration of critical minerals, including what size and diversity of data sets would be required;

(E) examining the application of machine learning for detection and sorting of critical minerals, including what size and diversity of data sets would be required;

(F) conducting detailed isotope studies of critical minerals and the development of more refined geologic models;

(G) improved understanding of the geological and geochemical processes through which critical minerals form and are concentrated into economically viable deposits; or

(H) providing training and research opportunities to undergraduate and graduate students to prepare the next generation of mining engineers and researchers.

(3) Existing programs

The Director shall ensure awards made under this subsection are complementary and not duplicative of existing programs across the Foundation and Federal Government.

(b) Critical Materials Interagency Subcommittee

(1) In general

The Critical Minerals Subcommittee of the National Science and Technology Council (referred to in this section as the "Subcommittee"), shall coordinate Federal science and technology efforts to ensure secure, reliable, and environmentally sustainable supplies of critical materials to the United States.

(2) Purposes

The purposes of the Subcommittee shall be—

(A) to advise and assist the National Science and Technology Council, including the Committee on Homeland and National Security, on United States policies, procedures, and

plans as it relates to critical materials, including—

- (i) Federal research, development, and commercial application efforts to minimize the environmental impacts of methods for extractions, concentration, separation and purification of conventional, secondary, and unconventional sources of critical materials;
- (ii) efficient use, substitution, and reuse of critical materials;
- (iii) the critical materials workforce of the United States; and
- (iv) United States private industry investments in innovation and technology transfer from federally funded science and technology;

(B) to identify emerging opportunities, stimulate international cooperation, and foster the development of secure and reliable supply chains of critical materials and establish scenario modeling systems for supply problems of critical materials and energy critical materials;

(C) to ensure the transparency of information and data related to critical materials; and

(D) to provide recommendations on coordination and collaboration among the research, development, and deployment programs and activities of Federal agencies to promote a secure and reliable supply of critical materials necessary to maintain national security, economic well-being, public health, and industrial production.

(3) Responsibilities

In carrying out this subsection, the Subcommittee may, taking into account the findings and recommendations of relevant advisory committees—

(A) provide recommendations on how Federal agencies may improve the topographic, geologic, and geophysical mapping of the United States and improve the discoverability, accessibility, and usability of the resulting and existing data, to the extent permitted by law and subject to appropriate limitation for purposes of privacy and security;

(B) assess the progress towards developing critical materials recycling and reprocessing technologies, and technological alternatives to critical materials;

(C) establish a mechanism for the coordination and evaluation of Federal programs with critical material needs, including Federal programs involving research and development, in a manner that complements related efforts carried out by the private sector and other domestic and international agencies and organizations;

(D) examine options for accessing and developing critical materials through investment and trade with our allies and partners and provide recommendations;

(E) evaluate and provide recommendations to incentivize the development and use of advances in science and technology in the private industry;

(F) assess the need for and make recommendations to address the challenges the United States critical materials supply chain workforce faces, including aging and retiring personnel and faculty, and foreign competition for United States talent;

(G) develop, and update as necessary, a strategic plan to guide Federal programs and activities to enhance scientific and technical capabilities across critical material supply chains, including a roadmap that identifies key research and development needs and coordinates on-going activities for source diversification, more efficient use, recycling, and substitution for critical materials; as well as cross-cutting mining science, data science techniques, materials science, manufacturing science and engineering, computational modeling, and environmental health and safety research and development;

(H) assess the need for, and make recommendations concerning, the availability and adequacy of the supply of technically trained personnel necessary for critical materials research, development, extraction, and industrial production, with a particular focus on the problem of attracting and maintaining high-quality professionals for maintaining an adequate supply of energy critical materials; and

(I) report to the appropriate Congressional committees on activities and findings under this section.

(c) Definitions of critical mineral and critical mineral or metal

In this section, the terms "critical mineral" and "critical mineral or metal" include any host mineral of a critical mineral (within the meaning of those terms in section 1606 of title 30).

(Pub. L. 117–167, div. B, title III, §10359, Aug. 9, 2022, 136 Stat. 1564.)

§19068. Advancing IoT for Precision Agriculture Capabilities Act

(a) Short title

This section may be cited as the "Advancing IoT for Precision Agriculture Act of 2021".

(b) Purpose

It is the purpose of this section to promote scientific research and development opportunities for connected technologies that advance precision agriculture capabilities.

(c) Foundation directive on agricultural sensor research

In making awards under the sensor systems and networked systems programs of the Foundation, the Director shall include in consideration of portfolio balance research and development on sensor connectivity in environments of intermittent connectivity and intermittent computation—

- (1) to improve the reliable use of advance sensing systems in rural and agricultural areas; and
- (2) that considers—
 - (A) direct gateway access for locally stored data;
 - (B) attenuation of signal transmission;
 - (C) loss of signal transmission; and
 - (D) at-scale performance for wireless power.

(d) Omitted

(e) GAO review

Not later than 18 months after August 9, 2022, the Comptroller General of the United States shall provide—

- (1) a technology assessment of precision agriculture technologies, such as the existing use of—
 - (A) sensors, scanners, radio-frequency identification, and related technologies that can monitor soil properties, irrigation conditions, and plant physiology;
 - (B) sensors, scanners, radio-frequency identification, and related technologies that can monitor livestock activity and health;
 - (C) network connectivity and wireless communications that can securely support digital agriculture technologies in rural and remote areas;
 - (D) aerial imagery generated by satellites or unmanned aerial vehicles;
 - (E) ground-based robotics;
 - (F) control systems design and connectivity, such as smart irrigation control systems;
 - (G) Global Positioning System-based applications; and
 - (H) data management software and advanced analytics that can assist decision making and improve agricultural outcomes; and

- (2) a review of Federal programs that provide support for precision agriculture research, development, adoption, education, or training, in existence on August 9, 2022.

(Pub. L. 117–167, div. B, title III, §10361, Aug. 9, 2022, 136 Stat. 1567.)

EDITORIAL NOTES

CODIFICATION

Section is comprised of section 10361 of Pub. L. 117–167. Subsec. (d) of section 10361 of Pub. L. 117–167 amended section 1862i of this title.

§19069. Astronomy and satellite constellations

The Director shall support research into and the design, development, and testing of mitigation measures to address the potential impact of satellite constellations on Foundation scientific programs by—

(1) making awards on a competitive basis to support study of the potential impacts of satellite constellations on ground-based optical, infrared, and radio astronomy, including through existing programs such as Spectrum and Wireless Innovation enabled by Future Technologies (SWIFT) and the Spectrum Innovation Initiative;

(2) supporting research on potential satellite impacts and benefits and mitigation strategies to be carried out at one or more Foundation supported Federally Funded Research and Development Centers or major multiuser research facilities as defined in section 1862s–2(g) of this title, as appropriate; and

(3) supporting workshops related to the potential impact of satellite constellations on scientific research and how those constellations could be used to improve scientific research.

(Pub. L. 117–167, div. B, title III, §10362, Aug. 9, 2022, 136 Stat. 1568.)

§19070. Research on the impact of inflation

(a) In general

The Director may make awards, on a competitive merit-reviewed basis, to institutions of higher education or nonprofit organizations (or consortia of such institutions or organizations) to support research to improve our understanding of the impact of inflation.

(b) Use of funds

Activities funded by an award under this section may include—

(1) measuring the economic impact of inflation on the American people, including an analysis of cost-of-living and wage impacts;

(2) considering the impact of inflation on American international competitiveness;

(3) evaluating the impact of inflation on rural and underserved communities throughout the country;

(4) assessing the ways inflation could impact future American generations; and

(5) evaluating the impact of policymaking on inflation, including the impact of further Government spending.

(c) Coordination to avoid duplication

In making awards under this section, the Director shall, for purposes of avoiding duplication of activities and research, consult, collaborate, and coordinate with the programs and policies of other relevant Federal agencies.

(Pub. L. 117–167, div. B, title III, §10363, Aug. 9, 2022, 136 Stat. 1568.)

§19071. Microgravity utilization policy

(a) Sense of Congress

It is the sense of Congress that space technology and the utilization of the microgravity environment for science, engineering, and technology development is critical to long-term competitiveness with near-peer competitors, including China.

(b) Policy

To the extent appropriate during an award period, the Foundation shall facilitate access by recipients of Foundation awards to the microgravity environment, including in private sector platforms, for the development of science, engineering, and technology relevant to the award.

(c) Report

Not later than 180 days after August 9, 2022, the Director shall provide to the appropriate committees of Congress a report on the Foundation's plan for facilitating awardee access to the microgravity environment.

(Pub. L. 117–167, div. B, title III, §10364, Aug. 9, 2022, 136 Stat. 1569.)

PART F—RESEARCH INFRASTRUCTURE

§19081. Facility operation and maintenance

(a) In general

The Director shall continue the Facility Operation Transition pilot program for a total of 5 years.

(b) Cost sharing

The Facility Operation Transition program shall provide funding for 10 to 50 percent of the operations and maintenance costs for major research facilities that are within the first five years of operation, where the share is determined based on—

- (1) the operations and maintenance costs of the major research facility; and
- (2) the capacity of the managing directorate or division to absorb such costs.

(c) Report

After the fifth year of the pilot program, the Director shall transmit a report to Congress that includes—

- (1) an assessment, that includes feedback from the research community, of the effectiveness of the pilot program for—

- (A) supporting research directorates and divisions in balancing investments in research grants and funding for the initial operation and maintenance of major facilities;
- (B) incentivizing the development of new world-class facilities;
- (C) facilitating interagency and international partnerships;
- (D) funding core elements of multi-disciplinary facilities; and
- (E) supporting facility divestment costs; and

- (2) if deemed effective, a plan for permanent implementation of the pilot program.

(Pub. L. 117–167, div. B, title III, §10371, Aug. 9, 2022, 136 Stat. 1570.)

§19082. Reviews

The Director shall periodically carry out reviews within each of the directorates and divisions to assess the cost and benefits of extending the operations of research facilities that have exceeded their planned operational lifespan.

(Pub. L. 117–167, div. B, title III, §10372, Aug. 9, 2022, 136 Stat. 1571.)

§19083. Helium conservation

(a) Major research instrumentation support

(1) In general

The Director shall support, through the Major Research Instrumentation program, proposal requests that include the purchase, installation, operation, and maintenance of equipment and

instrumentation to reduce consumption of helium.

(2) Cost sharing

The Director may waive the cost-sharing requirement for helium conservation measures for non-Ph.D.-granting institutions of higher education and Ph.D.-granting institutions of higher education that are not ranked among the top 100 institutions receiving Federal research and development funding, as documented by the National Center for Science and Engineering Statistics.

(b) Annual report

No later than 1 year after August 9, 2022, and annually for the subsequent two years, the Director shall submit an annual report to Congress on the use of funding awarded by the Foundation for the purchase and conservation of helium. The report should include—

- (1) the volume and price of helium purchased;
- (2) changes in pricing and availability of helium; and
- (3) any supply disruptions impacting a substantial number of institutions.

(Pub. L. 117–167, div. B, title III, §10373, Aug. 9, 2022, 136 Stat. 1571.)

§19084. Advanced computing

(a) Computing needs

To gather information about the computational needs of Foundation-funded projects, the Director shall require award proposals submitted to the Foundation, as appropriate, to include estimates of computational resource needs for projects that require use of advanced computing. The Director shall encourage and provide access to tools that facilitate the inclusion of these measures, including those identified in the 2016 National Academies report entitled "Future Directions for NSF Advanced Computing Infrastructure to Support U.S. Science and Engineering in 2017–2020".

(b) Reports

The Director shall document and publish every two years a summary of the amount and types of advanced computing capabilities that are needed to fully meet the Foundation's project needs as identified under subsection (a).

(c) Roadmap

To set priorities and guide strategic decisions regarding investments in advanced computing capabilities, the Director shall develop, publish, and regularly update a 5-year advanced computing roadmap that—

- (1) describes the advanced computing resources and capabilities that would fully meet anticipated project needs, including through investments in the Mid-Scale Research Infrastructure program and the Major Research Equipment and Facilities Construction account;
- (2) draws on community input, information contained in research proposals, allocation requests, insights from Foundation-funded cyber-infrastructure operators, and Foundation-wide information gathering regarding community needs;
- (3) considers computational needs of planned major facilities;
- (4) reflects anticipated technology trends;
- (5) informs users and potential partners about future facilities and services;
- (6) addresses the needs of groups historically underrepresented in STEM and geographic regions with low availability and high demand for advanced computing resources;
- (7) considers how Foundation-supported advanced computing capabilities can be leveraged for activities through the Directorate for Technology, Innovation, and Partnerships; and
- (8) provides an update to Congress about the level of funding necessary to fully meet computational resource needs for the research community.

(d) Securing American research from cyber theft

(1) Omitted

(2) Computing enclave pilot program

(A) In general

The Director, in consultation with the Director of the National Institute of Standards and Technology and the Secretary of Energy, and the heads of other relevant Federal departments and agencies, shall establish a pilot program to make awards to ensure the security of federally supported research data and to assist regional institutions of higher education and their researchers in compliance with regulations regarding the safeguarding of sensitive information and other relevant regulations and Federal guidelines.

(B) Structure

In carrying out the pilot program established pursuant to subparagraph (A), the Director shall select, for the development, installation, maintenance, or sustainment of secure computing enclaves, three institutions of higher education that have an established graduate student program and a demonstrated history of working with secure information, consistent with appropriate security protocols.

(C) Regionalization

(i) In general

In selecting universities pursuant to subparagraph (B), the Director shall give preference to institutions of higher education with the capability of serving other regional universities.

(ii) Geographic dispersal

The enclaves should be geographically dispersed to better meet the needs of regional interests.

(D) Program elements

The Director shall work with institutions of higher education selected pursuant to subparagraph (B) to—

- (i) develop an approved design blueprint for compliance with Federal data protection protocols;
- (ii) develop a comprehensive and confidential list, or a bill of materials, of each binary component of the software, firmware, or product that is required to deploy additional secure computing enclaves;
- (iii) develop templates for all policies and procedures required to operate the secure computing enclave in a research setting;
- (iv) develop a system security plan template; and
- (v) develop a process for managing a plan of action and milestones for the secure computing enclave.

(E) Sustainability

In reviewing applications for awards, the Director shall review and consider plans and prospects of the applicant institution of higher education to ensure long-term sustainability of the computing enclave, beyond the availability of Federal funds.

(F) Duration

Subject to other availability of appropriations, the pilot program established pursuant to subparagraph (A) shall operate for not less than 3 years.

(G) Report

(i) In general

The Director shall report to Congress not later than 6 months after the completion of the pilot program under subparagraph (A).

(ii) Contents

The report required under clause (i) shall include—

- (I) an assessment of the pilot program under subparagraph (A), including an assessment of the security benefits provided by such secure computing enclaves;
- (II) recommendations related to the value of expanding the network of secure computing enclaves; and
- (III) recommendations on the efficacy of the use of secure computing enclaves by other Federal agencies in a broader effort to expand security of Federal research.

(H) Authorization of appropriations

There is authorized to be appropriated to the Director, \$38,000,000 for fiscal years 2023 through 2025, to carry out the activities outlined in this paragraph.

(Pub. L. 117–167, div. B, title III, §10374, Aug. 9, 2022, 136 Stat. 1571.)

EDITORIAL NOTES

CODIFICATION

Section is comprised of section 10374 of Pub. L. 117–167. Subsec. (d)(1) of section 10374 of Pub. L. 117–167 amended section 5511 of Title 15, Commerce and Trade.

§19085. National secure data service

(a) In general

The Director, in consultation with the Director of the Office of Management and Budget and the interagency committee established under section 9413 of title 15, shall establish a demonstration project to develop, refine, and test models to inform the full implementation of the Commission on Evidence-Based Policymaking recommendation for a governmentwide data linkage and access infrastructure for statistical activities conducted for statistical purposes, as defined in chapter 35 of title 44.

(b) Establishment

Not later than one year after August 9, 2022, the Director shall establish a National Secure Data Service demonstration project. The National Secure Data Service demonstration project shall be—

- (1) aligned with the principles, best practices, and priority actions recommended by the Advisory Committee on Data for Evidence Building, to the extent feasible; and
- (2) operated directly by or via a contract that is managed by the National Center for Science and Engineering Statistics.

(c) Data

In carrying out this section, the Director shall engage with Federal and State agencies to collect, acquire, analyze, report, and disseminate statistical data in the United States and other nations to support governmentwide evidence-building activities consistent with the Foundations for Evidence-Based Policymaking Act of 2018.

(d) Voluntary participation

Participation in the National Secure Data Service demonstration project by Federal and State agencies shall be voluntary.

(e) Privacy and confidentiality protections

If the Director issues a management contract under subsection (b), the recipient shall be designated as an "agent" under subchapter III of chapter 35 of title 44 with all requirements and obligations for protecting confidential information delineated in the Confidential Information Protection and Statistical Efficiency Act of 2018 and the Privacy Act of 1974.

(f) Technology and privacy standards

In carrying out this subsection, the Director shall—

(1) consider application and use only of systems and technologies that incorporate protection measures to reasonably ensure confidential data and statistical products are protected in accordance with obligations under subchapter III of chapter 35 of title 44, including systems and technologies that ensure—

(A) raw data and other sensitive inputs are not accessible to recipients of statistical outputs from the National Secure Data Service demonstration project;

(B) no individual entity's data or information is revealed by the National Secure Data Service demonstration project platform to any other party in an identifiable form;

(C) no information about the data assets used in the National Secure Data Service demonstration project is revealed to any other party, except as incorporated into the final statistical output;

(D) the National Secure Data Service demonstration project permits only authorized analysts to perform statistical queries necessary to answer approved project questions, and prohibits any other queries; and

(E) the National Secure Data Service demonstration project conducts privacy risk assessments to minimize the privacy risks to individual entities whose data has been made available by a reporting entity, including those privacy risks that could result from data breaches of any system operated by the reporting entity, as well as for determining approved project questions under subparagraph (D) to minimize the privacy risks to individuals affected by uses of the statistical output; and

(2) the National Secure Data Service demonstration project shall implement reasonable measures commensurate with the risks to individuals' privacy to achieve the outcomes under subparagraphs (A) through (E) of paragraph (1), which may include the appropriate application of privacy-enhancing technologies and appropriate measures to minimize or prevent reidentification risks consistent with any applicable guidance or regulations issued under subchapter III of chapter 35 of title 44.

(g) Transparency

The National Secure Data Service established under subsection (b) shall maintain a public website with up-to-date information on supported projects.

(h) Report

Not later than 2 years after August 9, 2022, the National Secure Data Service demonstration project established under subsection (b) shall submit a report to Congress that includes—

(1) a description of policies for protecting data, consistent with applicable Federal law;

(2) a comprehensive description of all completed or active data linkage activities and projects;

(3) an assessment of the effectiveness of the demonstration project for mitigating risks and removing barriers to a sustained implementation of the National Secure Data Service as recommended by the Commission on Evidence-Based Policymaking; and

(4) if deemed effective by the Director, a plan for scaling up the demonstration project to facilitate data access for evidence building while ensuring transparency and privacy.

(i) Authorization of appropriations

There are authorized to be appropriated to the Director to carry out this subsection \$9,000,000 for each of fiscal years 2023 through 2027.

(Pub. L. 117–167, div. B, title III, §10375, Aug. 9, 2022, 136 Stat. 1574.)

PART G—DIRECTORATE FOR TECHNOLOGY, INNOVATION, AND PARTNERSHIPS

§19101. Establishment

There is established within the Foundation the Directorate for Technology, Innovation, and Partnerships to advance research and development, technology development, and related solutions to address United States societal, national, and geostrategic challenges, for the benefit of all Americans. (Pub. L. 117–167, div. B, title III, §10381, Aug. 9, 2022, 136 Stat. 1576.)

§19102. Purposes

The purposes of the Directorate established under section 19101 of this title are to—

- (1) support use-inspired and translational research and accelerate the development and use of federally funded research;
- (2) strengthen United States competitiveness by accelerating the development of key technologies; and
- (3) grow the domestic workforce in key technology focus areas, and expand the participation of United States students and researchers in areas of societal, national, and geostrategic importance, at all levels of education.

(Pub. L. 117–167, div. B, title III, §10382, Aug. 9, 2022, 136 Stat. 1576.)

§19103. Activities

Subject to the availability of appropriated funds, the Director shall achieve the purposes described in section 19102 of this title by making awards through the Directorate that—

- (1) support transformational advances in use-inspired and translational research and technology development, including through diverse funding mechanisms and models at different scales, to include convergence accelerators and projects designed to achieve specific technology metrics or objectives;
- (2) encourage the translation of research into innovations, processes, and products, including by—
 - (A) engaging researchers on topics relevant to United States societal, national, and geostrategic challenges, including by educating researchers on engaging with end users and the public;
 - (B) advancing novel approaches and reducing barriers to technology transfer, including through intellectual property frameworks between academia and industry, nonprofit entities, venture capital communities, and approaches to technology transfer for applications with public benefit that may not rely on traditional commercialization tools; and

(C) establishing partnerships that connect researchers and research products to businesses, accelerators, and incubators that enable research uptake, prototype development and scaling, entrepreneurial education, and the formation and growth of new companies;

(3) develop mutually-beneficial research and technology development partnerships and collaborations among institutions of higher education, including historically Black colleges and universities, Tribal Colleges or Universities, minority-serving institutions, emerging research institutions, EPSCoR institutions, and nonprofit organizations, labor organizations, businesses and other for-profit entities, Federal or State agencies, local or Tribal governments, civil society organizations, other Foundation directorates, national labs, field stations and marine laboratories, and, as appropriate, international entities and binational research and development foundations and funds, excluding foreign entities of concern;

(4) partner with other directorates and offices of the Foundation for specific projects or research areas including—

(A) to pursue basic questions about natural, human, and physical phenomena that could enable advances in the challenges and key technology focus areas under section 19107 of this title;

(B) to study questions that could affect the design (including human interfaces), safety, security, operation, deployment, or the social and ethical consequences of technologies and innovations in the challenges and key technology focus areas under section 19107 of this title, including the development of technologies and innovations that complement or enhance the abilities of workers and impact of specific innovations on domestic jobs and equitable opportunity; and

(C) to further the creation of a domestic workforce capable of advancing, using, and adapting to the key technology focus areas;

(5) build capacity and infrastructure for use-inspired and translational research at institutions of higher education across the United States, including by making awards to support administrative activities that advance development, operation, integration, deployment, and sharing of innovation;

(6) support the education, mentoring, and training of undergraduate students, graduate students, and postdoctoral researchers, to both advance use-inspired and translational research and to address workforce challenges, through scholarships, fellowships, and traineeships; and

(7) identify social, behavioral, and economic drivers and consequences of technological innovations that could enable advances in the challenges and key technology focus areas under section 19107 of this title.

(Pub. L. 117–167, div. B, title III, §10383, Aug. 9, 2022, 136 Stat. 1576.)

§19104. Requirements

In carrying out the activities under the Directorate, the Director shall ensure the programmatic work of the Directorate and Foundation—

(1) utilizes the full potential of the United States workforce by avoiding undue geographic concentration of research and development and education funding across the United States, and encourages broader participation in the key technology focus area workforce by populations historically underrepresented in STEM; and

(2) incorporates a worker perspective through participation by labor organizations and workforce training organizations.

(Pub. L. 117–167, div. B, title III, §10384, Aug. 9, 2022, 136 Stat. 1577.)

§19105. Assistant Director

(a) In general

The Director shall appoint an Assistant Director responsible for the management of the Directorate established under this part, in the same manner as other Assistant Directors of the Foundation are appointed.

(b) Qualifications

The Assistant Director shall be an individual, who by reason of professional background and experience, is specially qualified to—

(1) advise the Director on all matters pertaining to use-inspired and translational research, development, and commercialization at the Foundation, including partnership with the private sector and other users of Foundation funded research; and

(2) develop and implement the necessary policies and procedures to promote a culture of use-inspired and translational research within the Directorate and across the Foundation and carry out the responsibilities under subsection (c).

(c) Responsibilities

The responsibilities of the Assistant Director shall include—

(1) advising the Director on all matters pertaining to use-inspired and translational research and development activities at the Foundation, including effective practices for convergence research, and the potential impact of Foundation research on United States societal, national and geostrategic challenges;

(2) identifying opportunities for and facilitating coordination and collaboration, where appropriate, on use-inspired and translational research, development, adoption, and commercialization—

(A) among the offices, directorates, and divisions within the Foundation; and

(B) between the Foundation and stakeholders in academia, the private sector, including non-profit entities, labor organizations, Federal or State agencies, and international entities, as appropriate;

(3) ensuring that the activities carried out under this part do not substantially and unnecessarily duplicate activities supported by other parts of the Foundation or other relevant Federal agencies;

(4) approving all new programs within the Directorate;

(5) developing and testing diverse merit-review models and mechanisms for selecting and providing awards for use-inspired and translational research and development at different scales, from individual investigator awards to large multi-institution collaborations;

(6) assessing the success of programs;

(7) administering awards to achieve the purposes described in section 19102 of this title; and

(8) performing other such duties pertaining to the purposes in section 19102 of this title as are required by the Director.

(d) Relationship to the Director

The Assistant Director shall report to the Director.

(e) Relationship to other programs

No other directorate within the Foundation shall report to the Assistant Director.

(Pub. L. 117–167, div. B, title III, §10385, Aug. 9, 2022, 136 Stat. 1577.)

§19106. Advisory committee

(a) In general

In accordance with the Federal Advisory Committee Act (5 U.S.C. App.) ¹ the Director shall establish an advisory committee to assess, and make recommendations regarding, the activities carried out under this part.

(b) Membership

The advisory committee members shall—

(1) be individuals with relevant experience or expertise, including individuals from industry and national labs, educators, academic subject matter experts, including individuals with knowledge of key technology focus areas and their impact on United States national security and geostrategic leadership, the technical and social dimensions of science and technology, technology transfer experts, labor organizations, representatives of civil society, and other nongovernmental organizations; and

(2) consist of at least 10 members broadly representative of stakeholders, including no less than 3 members from the private sector, none of whom shall be an employee of the Federal Government, and no less than 1 member with significant expertise in United States national security and economic competitiveness.

(c) Responsibilities

The Committee's responsibilities shall include—

- (1) reviewing and advising on activities carried out under this part;
- (2) proposing strategies for fulfilling the purposes in section 19102 of this title;
- (3) proposing potential areas of research, particularly as relevant to United States societal, national, and geostrategic challenges; and
- (4) other relevant issues as determined by the Director.

(Pub. L. 117–167, div. B, title III, §10386, Aug. 9, 2022, 136 Stat. 1578.)

EDITORIAL NOTES

§19107. Challenges and focus areas

(a) In general

In consultation with the Assistant Director, the Board, and the interagency working group established under part D of subchapter VI, the Director shall identify, and annually review and update as appropriate, a list of—

- (1) not more than 5 United States societal, national, and geostrategic challenges that may be addressed by technology to guide activities under this part; and
- (2) not more than 10 key technology focus areas to guide activities under this part.

(b) Initial list of societal, national, and geostrategic challenges

The initial list of societal, national, and geostrategic challenges are the following:

- (1) United States national security.
- (2) United States manufacturing and industrial productivity.
- (3) United States workforce development and skills gaps.
- (4) Climate change and environmental sustainability.
- (5) Inequitable access to education, opportunity, or other services.

(c) Initial list of key technology focus areas

The initial list of key technology focus areas are the following:

- (1) Artificial intelligence, machine learning, autonomy, and related advances.
- (2) High performance computing, semiconductors, and advanced computer hardware and software.
- (3) Quantum information science and technology.
- (4) Robotics, automation, and advanced manufacturing.
- (5) Natural and anthropogenic disaster prevention or mitigation.
- (6) Advanced communications technology and immersive technology.
- (7) Biotechnology, medical technology, genomics, and synthetic biology.
- (8) Data storage, data management, distributed ledger technologies, and cybersecurity, including biometrics.
- (9) Advanced energy and industrial efficiency technologies, such as batteries and advanced nuclear technologies, including but not limited to for the purposes of electric generation (consistent with section 1874 of this title).
- (10) Advanced materials science, including composites 2D materials, other next-generation materials, and related manufacturing technologies.

(d) Relationship between United States societal, national, and geostrategic challenges and key technology focus areas

- (1) In updating the list under subsection (a)(1), the Director shall evaluate national and global technology trends.
- (2) In updating the list under subsection (a)(2), the Director shall consider the impact of the selected technologies on United States societal, national, and geostrategic challenges.
- (3) The list under subsection (a)(2) may, but is not required to, align directly with the list under subsection (a)(1).
- (4) Nothing under this section shall prevent the Director from making limited investments in technologies or areas not identified in subsection (a)(1) or subsection (a)(2).

(e) Review and updates

The Director, in coordination with the interagency working group established under part D of subchapter VI and in consultation with the Director of National Intelligence and the Director of the Federal Bureau of Investigation, shall annually review and update as appropriate, the list of key technology focus areas for purposes of this division. As part of the annual review, the Director—

- (1) shall consider input from relevant industries and stakeholders;
- (2) may consider the challenges and recommendations identified in the reports required by sections 6615 and 6615b of this title, as added by section 10611 and 10613 of this division and in other relevant reports, such as technology and global trend reports from the defense and intelligence communities;
- (3) shall consider the potential impact of the key technology focus areas on addressing societal, national, and geostrategic challenges; and
- (4) subject to the limitation under subsection (a), may add or delete key technology focus areas in light of shifting national needs or competitive threats to the United States (including for reasons of the United States or other countries having advanced or fallen behind in a technological area).

(f) Reporting

At the conclusion of the annual review and update process required by subsection (e), the Director, in consultation with other Federal research agencies, as appropriate, shall deliver a report to Congress detailing—

- (1) the key technology focus areas and rationale for their selection;
- (2) the societal, national, and geostrategic challenges and rationale for their selection;
- (3) the role of the Foundation in advancing the key technology focus areas;
- (4) the impact, including to the academic research community, of any changes to the key technology focus areas; and
- (5) the activities and partnerships between the Directorate and the private sector.

(g) Detailed description

The National Science Foundation shall, in coordination with the Office of Management and Budget, submit as part of their annual budget requests to Congress, a detailed description of the activities to be funded under this part, including an explanation of how the requested funding is complementary and not redundant of programs, efforts, and infrastructure undertaken or supported by other relevant Federal agencies.

(h) National Academies

Not later than 5 years after August 9, 2022, the Director shall contract with the National Academies to conduct a review of the key technology focus areas and the societal, national, and geostrategic challenges, including—

- (1) an assessment of their selection process;
- (2) an assessment of their relevance to the purposes of the Directorate, including to solving challenges with social, economic, health, scientific, and national security implications;
- (3) a review of whether Federal investment in the key technology focus areas have resulted in new domestic manufacturing capacity and job creation;
- (4) an assessment of any critical, new emerging areas;
- (5) an assessment of Federal investments in education and workforce development to support the key technology focus areas; and
- (6) an assessment of relative balance in leadership in addressing the key technology focus areas between the United States, allied and partner countries, and the People's Republic of China.

(Pub. L. 117–167, div. B, title III, §10387, Aug. 9, 2022, 136 Stat. 1579.)

EDITORIAL NOTES

REFERENCES IN TEXT

This division, referred to in subsec. (e), is div. B of Pub. L. 117–167, Aug. 9, 2022, 136 Stat. 1399, which enacted this chapter and enacted, amended, and repealed numerous other sections and notes in the Code. For complete classification of div. B to the Code, see Short Title note set out under section 18901 of this title and Tables.

Sections 10611 and 10613 of this division, referred to in subsec. (e)(2), are sections 10611 and 10613 of div. B of Pub. L. 117–167, which, respectively, generally amended section 6615 of this title and enacted section 6615b of this title.

§19108. Regional Innovation Engines

(a) In general

From amounts made available to the Directorate, the Director shall make awards to eligible entities for the planning, establishment, and support of Regional Innovation Engines.

(b) Purpose

The purpose of the Regional Innovation Engines shall be to—

- (1) advance multidisciplinary, collaborative, use-inspired and translational research, technology development, in key technology focus areas;
- (2) address regional, national, societal, or geostrategic challenges;
- (3) leverage the expertise of multi-disciplinary and multi-sector partners, including partners from private industry, nonprofit organizations, and civil society organizations; and
- (4) support the development of scientific, innovation, entrepreneurial, and STEM educational capacity within the region of the Regional Innovation Engine to grow and sustain regional innovation.

(c) Uses of funds

Funds awarded under this section may be used by a Regional Innovation Engine to—

- (1) conduct use-inspired and translational research and technology development to advance innovation in at least one of the key technology focus areas and to help solve a compelling

regional, national, societal, or geostrategic challenge;

(2) further the development, adoption, and commercialization of innovations in key technology focus areas, including through support for proof-of-concept development, and through partnership with other Federal agencies and Federal laboratories, industry, including startup companies, labor organizations, civil society organizations, and State, territorial, local, and Tribal governments;

(3) develop and manage, or facilitate access to, test beds and instrumentation, which may include fabrication facilities and cyberinfrastructure, to advance the development, integration, and demonstration of new, innovative technologies, including hardware or software;

(4) establish traineeship programs for graduate students who pursue degrees and research related to the key technology focus areas leading to a masters or doctorate degree by providing funding and other assistance, and opportunities for research experiences in government or industry related to the students' studies;

(5) engage in outreach and engagement in the region to broaden participation in the activities of the Regional Innovation Engine; and

(6) reimburse, in part or in whole, the cost of instrumentation, technology transfer, and commercialization activities, including patenting and licensing, and for operations and staff, as the Director determines appropriate.

(d) Selection process

In making awards under this part, the Director shall consider, in addition to the scientific and technical merit of the proposal, the extent to which the activities and locations proposed—

(1) have the potential to create an innovation ecosystem, or enhance existing ecosystems and contribute to job creation in a region;

(2) demonstrate a capacity to engage and partner with multiple types of institutions of higher education, industry, labor, nonprofit organizations, civil society organizations, other Federal agencies, Federal laboratories, State, local, and Tribal governments, and other appropriate organizations, including to inform research directions and account for ethical, societal, safety, and security implications relevant to the potential applications of the research;

(3) demonstrate a capacity to broaden participation of populations historically underrepresented in STEM in the activities of the Regional Innovation Engine; and

(4) demonstrate a plan and capability to prevent the inappropriate use or dissemination of the research and technology, including research results, data, and intellectual property, as appropriate and consistent with the requirements of the relevant award.

(e) Requirements

(1) Eligibility

For the purposes of this section, an "eligible entity" means an institution of higher education, a nonprofit organization, a private sector entity, or a consortium thereof.

(2) Partnerships

To be eligible for an award under this section an eligible entity—

(A) shall include in its proposal partnership with 1 or more institution that is—

(i) a historically Black college or university;

(ii) a Tribal College or University;

(iii) a minority-serving institution;

(iv) an EPSCoR institution;

(v) an emerging research institution; or

(vi) a community college;

(B) may include partnership with 1 or more—

(i) additional entities described in paragraph (2)(A);

(ii) industry entities, including startups, small businesses, and public-private partnerships;

(iii) economic development organizations or venture development organizations, as such terms are defined in section 3722a(a) of title 15, as added by section 10621 of this division;

- (iv) National Laboratories;
- (v) Federal laboratories, as defined in section 3703 of title 15;
- (vi) Federal research facilities;
- (vii) labor organizations;
- (viii) entities described in paragraph (1) or (2) from allied or partner countries;
- (ix) other entities to be vital to the success of the program, as determined by the Director;
- (x) binational research and development foundations and funds, excluding those affiliated with foreign entities of concern, as defined in section 19221 of this title; and
- (xi) Engineer Research and Development Center laboratories of the Army Corps of Engineers; and

(C) shall include as part of its proposal a plan for—

- (i) establishing a sustained partnership that is jointly developed and managed, draws from the capacities of each institution, and is mutually beneficial; and
- (ii) documents governance and management plans, financial contributions from non-Federal sources, and plans for ownership and use of any intellectual property.

(3) Promoting partnerships

In making awards under this section, the Director shall encourage applicants for a Regional Innovation Engine that include multiple regional partners as described in subsection (e)(2).

(4) Geographic distribution

In making awards under this section, the Director shall take into consideration the extent to which the proposals expand the geographic distribution of the Regional Innovation Engines, including by giving special consideration to rural-serving institutions of higher education.

(5) Resource availability

The Director shall ensure that any eligible entity receiving an award under this section shall—

- (A) provide information on relevant currently existing resources available to the proposing team from all internal and external sources, including all partner organizations; and
- (B) include letters of collaboration from partner organizations that include information on resource contributions committed by such partners.

(f) Collaboration with regional technology hubs

Each Regional Innovation Engine established under this section may collaborate and participate in, as appropriate, the activities of any regional technology hub designated under section 3722a of title 15, as added by section 10621.

(g) Duration

(1) Initial period

An award under this section shall be for an initial period of 5 years.

(2) Renewal

An established Regional Innovation Engine may apply for, and the Director may award, extended funding for periods of 5 years on a merit-reviewed basis.

(h) Competitive, merit-review

In making awards under this section, the Director shall—

- (1) use a competitive, merit review process that includes peer review by a diverse group of individuals with relevant expertise from both the private and public sectors; and
- (2) ensure the focus areas of the Regional Innovation Engines do not substantially and unnecessarily duplicate the efforts of any other Regional Innovation Engine or any other similar effort at another Federal agency.

(i) Collaboration

In making awards under this section, the Director may collaborate with Federal departments and

agencies whose missions contribute to or are affected by the technology focus area of the institute. (Pub. L. 117–167, div. B, title III, §10388, Aug. 9, 2022, 136 Stat. 1581.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 10621 of this division and section 10621, referred to in subsecs. (e)(2)(B)(iii) and (f), mean section 10621 of div. B of Pub. L. 117–167.

§19109. Translation Accelerator

(a) In general

The Director shall establish Translation Accelerators to further the research, development, and commercialization of innovation in the key technology focus areas.

(b) Partnerships

(1) In general

Each Translation Accelerator shall be comprised of a partnership including 2 or more of the following entities:

- (A) An institution of higher education.
- (B) A for-profit company.
- (C) A nonprofit organization.
- (D) A Federal agency.
- (E) Another entity, if that entity is determined by the Director to be vital to the success of the program.

(2) Institutional or organizational level

The Director shall work to ensure that such partnerships exist at the institutional or organization level, rather than solely at the principal investigator level.

(3) Cost share

Not less than 25 percent of the funding for an institute shall be provided by non-Federal entities.

(4) Number of centers and institutes established

The Director shall endeavor to establish a balance in the number of Regional Innovation Engines and Translation Accelerators.

(c) Authorization of appropriations

From within funds authorized for the Directorate for Technology, Innovation, and Partnerships, there are authorized to carry out the activities under this section and section 19108 of this title \$6,500,000,000 for fiscal years 2023 through 2027.

(Pub. L. 117–167, div. B, title III, §10389, Aug. 9, 2022, 136 Stat. 1584.)

§19110. Test beds

(a) Program authorized

(1) In general

From amounts made available for the Directorate, the Director, in coordination with the Director of the National Institute of Standards and Technology, the Secretary of Energy, and other Federal agencies, as determined appropriate by the Director, shall establish a program in the Directorate to make awards, on a competitive basis, to institutions of higher education, nonprofit organizations, or consortia thereof to establish and operate test beds, which may include

fabrication facilities and cyberinfrastructure, to advance the development, operation, integration, deployment, and, as appropriate, demonstration of new, innovative critical technologies, which may include hardware or software.

(2) Coordination

In establishing new test beds under this section, the Director shall ensure coordination with other test beds supported by the Foundation or other Federal agencies to avoid duplication and maximize the use of Federal resources.

(b) Proposals

An applicant for an award under this section shall submit a proposal to the Director, at such time, in such manner, and containing such information as the Director may reasonably require. The proposal shall, at a minimum, describe—

- (1) the technology or technologies that will be the focus of the test bed;
- (2) the goals of the work to be done at the test bed;
- (3) how the applicant will assemble a workforce with the skills needed to operate the test bed;
- (4) how the applicant will ensure broad access to the test bed;
- (5) how the applicant will collaborate with firms in critical technologies, including through coordinated research and development and funding, to ensure that work in the test bed will contribute to the commercial viability of any technologies and will include collaboration from industry and labor organizations;
- (6) how the applicant will encourage the participation of inventors and entrepreneurs and the development of new businesses;
- (7) how the applicant will increase participation by populations that are underrepresented in STEM;
- (8) how the applicant will demonstrate that the commercial viability of any new technologies will support the creation of high-quality domestic jobs;
- (9) how the test bed will operate after Federal funding has ended;
- (10) how the test bed will disseminate lessons and other technical information to United States entities or allied or partner country entities in the United States; and
- (11) how the applicant plans to take measures to prevent the inappropriate use of research results, data, and intellectual property, as applicable and consistent with the requirements of the award.

(c) Authorized use of funds

A recipient of an award under this section may, consistent with the purposes of this section, use the award for the purchase of equipment and for the support of students, faculty and staff, and postdoctoral researchers.

(d) Geographic diversity

In selecting award recipients under this section, the Director shall consider the extent to which proposals would expand the geographic diversity of test beds.

(Pub. L. 117–167, div. B, title III, §10390, Aug. 9, 2022, 136 Stat. 1585.)

§19111. Planning and capacity building awards

(a) In general

Under the program established in section 1862p–2 of this title and the activities authorized under this section, from amounts made available to the Directorate, the Director, in coordination with other Federal agencies as determined appropriate by the Director, shall make awards, on a competitive basis, to eligible entities to advance the development, adoption, and commercialization of technologies, consistent with the purposes of the Directorate under section 19102 of this title.

(b) Eligible entity

To be eligible to receive an award under this section, an entity shall be—

- (1) an institution of higher education, which may be a community college (or a consortium of such institutions);
- (2) a nonprofit organization that is either affiliated with an institution of higher education or designed to support technology development or entrepreneurship; or
- (3) a consortium that includes—
 - (A) an entity described in paragraph (1) or (2) as the lead award recipient; and
 - (B) one or more additional individuals or entities, which shall be—
 - (i) an economic development organization or similar entity that is focused primarily on improving science, technology, innovation, or entrepreneurship;
 - (ii) an industry organization or firm in a relevant technology or innovation sector;
 - (iii) an industry-experienced executive with entrepreneurship experience that is focused primarily on de-risking technologies from both a scientific and a business perspective; or
 - (iv) an individual or entity with industry and startup expertise, including a mentor network, across relevant technology or innovation sectors.

(c) Use of funds

In addition to activities listed under section 19103 of this title, an eligible entity receiving an award under this section may use funds to—

- (1) identify academic research with the potential for technology transfer and commercialization, particularly as relevant to the purposes of the Directorate under section 19102 of this title;
- (2) ensure the availability of staff, including technology transfer professionals, entrepreneurs in residence, and other mentors as required to accomplish the purpose of this section;
- (3) help offset the costs of patenting and licensing research products, both domestically and internationally;
- (4) revise institution policies, including policies related to intellectual property and faculty entrepreneurship, and taking other necessary steps to implement relevant best practices for academic technology transfer;
- (5) develop local, regional, and national partnerships among institutions of higher education and between institutions of higher education and private sector entities and other relevant organizations, including investors, with the purpose of building networks, expertise, and other capacity to identify promising research that may have potential market value and enable researchers to pursue further development and transfer of their ideas into possible commercial or other use;
- (6) develop seminars, courses, and other educational opportunities for students, post-doctoral researchers, faculty, and other relevant staff at institutions of higher education to increase awareness and understanding of entrepreneurship, patenting, business planning, research security, and other areas relevant to technology transfer, and connect students and researchers to relevant resources, including mentors in the private sector; and
- (7) create, support, or fund entities or competitions to allow entrepreneurial students and faculty to illustrate the commercialization potential of their ideas, including through venture funds of institution of higher education.

(d) Limitations on funding

- (1) Awards made under this section shall be at least 3 years in duration and shall not exceed \$1,000,000 per fiscal year.
- (2) Awards made under this section shall not support the development or operation of capital investment funds.

(e) Application

An eligible entity seeking funding under this section shall submit an application to the Director at such time, in such manner, and containing such information and assurances as such Director may require. The application shall include, at a minimum, a description of—

- (1) how the eligible entity submitting an application plans to sustain the proposed activities

beyond the duration of the award;

(2) the steps the applicant will take to enable technology transfer and adoption and why such steps are likely to be effective;

(3) how the applicant will encourage the training and participation of students and potential entrepreneurs and the transition of research results to practice, including the development of new businesses;

(4) as relevant, potential steps to drive economic growth in a particular region, by collaborating with industry, venture capital entities, non-profit organizations, and State and local governments within that region; and

(5) background information that the Director determines is relevant to demonstrate the success of the innovation and entrepreneurship support models proposed by the applicant to commercialize technologies.

(f) Collaborative innovation resource center program

(1) In general

The Director shall make awards under this section to eligible entities to establish collaborative innovation resource centers that promote regional technology transfer and technology development activities available to more than one institution of higher education and to other entities in a region.

(2) Use of funds

An eligible entity that receives an award under this subsection shall use award funds to carry out one or more of the following activities, to the benefit of the region in which the center is located:

(A) Providing start-ups and small business concerns (as defined in section 632 of title 15) within the region with access to facilities, scientific infrastructure, personnel, and other assets as required for technology maturation.

(B) Supporting entrepreneurial training for start-up and small business personnel.

(3) ¹ Providing engineering and entrepreneurial experiences and hands-on training for students enrolled in participating institutions of higher education.

(g) Reporting on commercialization metrics

The Director shall establish—

(1) metrics related to commercialization for an award under this section; and

(2) a reporting schedule for recipients of such awards that takes into account both short- and long-term goals of the programs under this section.

(h) Geographic diversity

The Director shall ensure regional and geographic diversity in issuing awards under this section.

(i) Authorization of appropriations

From within funds authorized for the Directorate for Technology, Innovation, and Partnerships, there are authorized to carry out the activities under this section \$3,100,000,000 for fiscal years 2023 through 2027.

(Pub. L. 117–167, div. B, title III, §10391, Aug. 9, 2022, 136 Stat. 1586.)

¹ *So in original. Probably should be "(C)".*

§19112. Entrepreneurial fellowships

(a) In general

The Director, acting through the Directorate for Technology, Innovation, and Partnerships, shall

award fellowships to scientists and engineers to help develop leaders capable of maturing promising ideas and technologies from lab to market or other use and forge connections between academic research and the government, industry, financial sectors, and other end users.

(b) Application

An applicant for a fellowship under this section shall submit to the Director an application at such time, in such manner, and containing such information as the Director may require. At a minimum, the Director shall require that applicants—

- (1) have completed a doctoral degree in a STEM field no more than 5 years prior to the date of the application, or have otherwise demonstrated significant postbaccalaureate scientific research experience and are considered early career, according to requirements established by the Director; and
- (2) have included in the application a proposal for how the fellow will be embedded in a host institution's research environment.

(c) Outreach

The Director shall conduct program outreach to recruit fellowship applicants—

- (1) from diverse research institutions;
- (2) from all regions of the country; and
- (3) from groups historically underrepresented in STEM fields.

(d) Administration agreements

The Director may enter into an agreement with a qualified third-party entity to administer the fellowships, subject to the provisions of this section.

(e) Authorization of appropriations

There are authorized to be appropriated to the Director a total of \$125,000,000 for fiscal years 2023 through 2027, to carry out the activities outlined in this section.

(Pub. L. 117–167, div. B, title III, §10392, Aug. 9, 2022, 136 Stat. 1588.)

§19113. Scholarships and fellowships

(a) In general

The Director, acting through the Directorate, shall fund undergraduate scholarships (including at community colleges), graduate fellowships and traineeships, and postdoctoral awards in the key technology focus areas.

(b) Implementation

The Director may carry out subsection (a) by making awards—

- (1) directly to students; and
- (2) to institutions of higher education or consortia of institutions of higher education, including those institutions or consortia involved in operating Regional Innovation Engines established under section 19108 of this title.

(c) Broadening participation

In carrying out this section, the Director shall take steps to increase the participation of populations that are underrepresented in STEM, which may include—

- (1) establishing or augmenting programs targeted at populations that are underrepresented in STEM;
- (2) supporting traineeships or other relevant programs at historically Black colleges and universities, Tribal Colleges or Universities, and minority-serving institutions;
- (3) enabling low-income populations to pursue associate, undergraduate, or graduate level degrees in STEM;
- (4) addressing current and expected gaps in the availability or skills of the STEM workforce, or addressing needs of the STEM workforce, including by increasing educational capacity at

institutions and by prioritizing awards to United States citizens, permanent residents, and individuals that will grow the domestic workforce; and

(5) addressing geographic diversity in the STEM workforce.

(d) Encouraging innovation

In carrying out this section, the Director shall encourage innovation in graduate education, including through encouraging institutions of higher education to offer graduate students opportunities to gain experience in industry or Government as part of their graduate training, and through support for students in professional master's programs related to the key technology focus areas or to the societal, national, and geostrategic challenges.

(e) Areas of funding support

Subject to the availability of funds to carry out this section, the Director shall—

(1) issue—

(A) postdoctoral awards,

(B) graduate fellowships and traineeships, inclusive of the NSF Research Traineeships and fellowships awarded under the Graduate Research Fellowship Program; and

(C) scholarships, including undergraduate scholarships, research experiences, and internships, including—

(i) scholarships to attend community colleges; and

(ii) research experiences and internships under sections 1862p-5, 1862p-6, and 1862p-7 of this title;

(2) ensure that not less than 10 percent of the funds made available to carry out this section are used to support additional awards that focus on community college training, education, and teaching programs that increase the participation of populations that are historically underrepresented in STEM, including technical programs through programs such as the Advanced Technological Education program; and

(3) if funds remain after carrying out paragraphs (1) and (2) make awards to institutions of higher education to enable the institutions to fund the development and establishment of new or specialized programs of study for graduate, undergraduate, or technical college students and the evaluation of the effectiveness of those programs of study.

(f) Low-income scholarship program

(1) In general

The Director shall award scholarships to low-income individuals to enable such individuals to pursue associate, undergraduate, or graduate level degrees in STEM fields.

(2) Eligibility

(A) In general

To be eligible to receive a scholarship under this subsection, an individual—

(i) must be a citizen of the United States, a national of the United States (as defined in section 1101(a) of title 8), an alien admitted as a refugee under section 1157 of title 8, or an alien lawfully admitted to the United States for permanent residence;

(ii) shall prepare and submit to the Director an application at such time, in such manner, and containing such information as the Director may require; and

(iii) shall certify to the Director that the individual intends to use amounts received under the scholarship to enroll or continue enrollment at an institution of higher education (as defined in section 1001(a) of title 20) in order to pursue an associate, undergraduate, or graduate level degree in STEM fields designated by the Director.

(B) Ability

Awards of scholarships under this subsection shall be made by the Director solely on the basis of the ability of the applicant, except that in any case in which 2 or more applicants for

scholarships are deemed by the Director to be possessed of substantially equal ability, and there are not sufficient scholarships available to award one to each of such applicants, the available scholarship or scholarships shall be awarded to the applicants in a manner that will tend to result in a geographically wide distribution throughout the United States recipients' places of permanent residence.

(3) Omitted

(4) Authorization

Of amounts authorized for the Directorate for Technology, Innovation, and Partnerships, \$100,000,000 shall be authorized to carry out this subsection.

(g) Existing programs

The Director may use or augment existing STEM education programs of the Foundation and leverage education or entrepreneurial partners to carry out this section.

(Pub. L. 117–167, div. B, title III, §10393, Aug. 9, 2022, 136 Stat. 1589.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 1101(a) of title 8 and section 1157 of title 8, referred to in subsec. (f)(2)(A)(i), were so in the original, but probably should have been references to sections 101(a) and 207 of the Immigration and Nationality Act, act June 27, 1952, ch. 477, which are classified to sections 1101(a) and 1157 of Title 8, Aliens and Nationality.

Section 1001(a) of title 20, referred to in subsec. (f)(2)(A)(iii), was so in the original, but probably should have been a reference to section 101(a) of the Higher Education Act of 1965, Pub. L. 89–329, which is classified to section 1001(a) of Title 20, Education.

CODIFICATION

Section is comprised of section 10393 of Pub. L. 117–167. Subsec. (f)(3) of section 10393 of Pub. L. 117–167 amended section 1869c of this title.

§19114. Research and development awards

(a) In general

From amounts made available for the Directorate, the Director shall make awards, on a competitive basis, for research and technology development within the key technology focus areas, including investments that advance solutions to the challenges under section 19107 of this title.

(b) Purpose

The purpose of the awards under this section shall be to accelerate technological advances and technology adoption in the key technology focus areas.

(c) Recipients

Recipients of funds under this section may include institutions of higher education, research institutions, non-profit organizations, private sector entities, consortia, or other entities as defined by the Director.

(d) Metrics

The Director may set metrics, including goals and deadlines, for the development and demonstration of technology as determined in the terms of the award, and may use such metrics to determine whether an award recipient shall be eligible for continued or follow-on funding.

(e) Short term technology deployment

The Director shall also make awards, including through the SBIR and STTR programs (as defined in section 638(e) of title 15), to expedite short-term technology deployment within a period of no

longer than 24 months.

(f) Selection criteria

In selecting recipients for an award under this section, the Director shall consider, at a minimum—

(1) the relevance of the project to the challenges and the key technology focus areas under section 19107 of this title, and the potential of the project to result in transformational advances for such challenges and the key technology focus areas;

(2) the current status of similar technology, the limits of current practice, and the novelty and risks of the proposed project;

(3) the ethical, societal, safety, and security implications relevant to the application of the technology;

(4) the appropriateness of quantitative goals and metrics for evaluating the project and a plan for evaluating those metrics; and

(5) the path for developing and, as appropriate, commercializing the technology into products and processes in the United States.

(g) Authorization of appropriations

From within funds authorized for the Directorate for Technology, Innovation, and Partnerships, there are authorized to carry out the activities under this section \$1,000,000,000 for fiscal years 2023 through 2027.

(Pub. L. 117–167, div. B, title III, §10394, Aug. 9, 2022, 136 Stat. 1591.)

§19115. Scaling innovations in PreK–12 STEM education

(a) In general

Taking into consideration the recommendations under section 18991(a)(4) of this title, the Director shall make awards, on a competitive, merit-reviewed basis, to establish multidisciplinary Centers for Transformative Education Research and Translation (in this section referred to as "Centers") to support research and development on widespread and sustained implementation of STEM education innovations.

(b) Eligibility

The entity seeking an award for a Center under this section must be an institution of higher education, a nonprofit organization, or a consortium of such institutions or organizations, which may include a STEM ecosystem.

(c) Application

An eligible entity under subsection (b) seeking an award under this section shall submit an application to the Director at such time, in such manner, and containing such information as the Director may require. The application shall include, at a minimum, a description of how the proposed Center will be used to—

(1) establish partnerships among academic institutions, local or State educational agencies, and other relevant stakeholders in supporting programs and activities to facilitate the widespread and sustained implementation of promising, evidence-based STEM education practices, models, programs, curriculum, and technologies;

(2) support enhanced STEM education infrastructure, including cyberlearning technologies, to facilitate the widespread adoption of promising, evidence-based practices;

(3) support research and development on scaling practices, partnerships, and alternative models to current approaches, including approaches sensitive to the unique combinations of capabilities, resources, and needs of varying localities, educators, and learners;

(4) include a focus on the learning needs of under-resourced schools and learners in low-resource or underachieving local educational agencies in urban and rural communities and the development of high-quality curriculum that engages these learners in the knowledge and practices of STEM fields;

- (5) include a focus on the learning needs and unique challenges facing students with disabilities;
- (6) support research, development, or education on one or more of the key technology focus areas;
- (7) support research and development on scaling practices and models to support and sustain highly-qualified STEM educators in urban and rural communities; and
- (8) at the discretion of the Director, any other requirements recommended in the study commissioned under section 18991(a) of this title.

(d) Additional considerations

In making an award under this section, the Director may also consider the extent to which the proposed Center will—

- (1) leverage existing collaborations, tools, and strategies supported by the Foundation, including NSF INCLUDES and the Convergence Accelerators;
- (2) support research on and the development and scaling of innovative approaches to distance learning and education for various student populations;
- (3) support education innovations that leverage new technologies or deepen understanding of the impact of technology on educational systems; and
- (4) include a commitment from local or State education administrators to making the proposed reforms and activities a priority.

(e) Partnership

In carrying out the program under this section, the Director shall explore opportunities to partner with the Department of Education, including through jointly funding activities under this section.

(f) Duration

Each award made under this section shall be for a duration of no more than 5 years.

(g) Annual meeting

The Director shall encourage and facilitate an annual meeting of the Centers, as appropriate, to foster collaboration among the Centers and to further disseminate the results of the Centers' supported activities.

(h) Existing programs

The Director may use existing NSF programs to establish and execute this section.

(i) Report

Not later than 5 years after August 9, 2022, the Director shall submit to Congress and make widely available to the public a report that includes—

- (1) a description of the focus and proposed goals of each Center;
- (2) an assessment, based on a common set of benchmarks and tools, of the Centers' success in helping to promote scalable solutions in PreK–12 STEM education; and
- (3) any recommendations for administrative and legislative action that could optimize the effectiveness of the Centers established under this section.

(Pub. L. 117–167, div. B, title III, §10395, Aug. 9, 2022, 136 Stat. 1591.)

§19116. Authorities

In addition to existing authorities available to the Foundation, the Director may exercise the following authorities in carrying out the activities under this part:

(1) Awards

In carrying out this part, the Director may provide awards in the form of grants, contracts, cooperative agreements, cash prizes, and other transactions.

(2) Program directors

(A) Designation

The Director may designate individuals to serve as program directors for the programs established within the Directorate pursuant to the responsibilities established under subparagraph (B). The Director shall ensure that program directors—

- (i) have expertise in one or more of the challenges and key technology focus areas under section 19107 of this title; and
- (ii) come from a variety of backgrounds, including industry, and from a variety of institutions of higher education.

(B) Responsibilities

A program director of a program of the Directorate, in consultation with the Assistant Director, shall be responsible for—

- (i) establishing research and development goals for the program, including through the convening of workshops, conferring with a broad range of stakeholders and outside experts, taking into account relevant expert reports, and publicizing the goals of the program to the public and private sectors;
- (ii) surveying a wide range of institutions of higher education, nonprofit organizations, and private entities to identify emerging trends in the challenges and key technology focus areas under section 19107 of this title, and, as appropriate, soliciting proposals from such entities to conduct research in areas of particular promise that the private sector is the not likely to undertake independently.¹
- (iii) facilitating research collaborations in the challenges and key technology focus areas under section 19107 of this title, including connecting academic researchers with potential end-users of technology, including industry, labor organizations, nonprofit organizations, civil society organizations, and other relevant organizations;
- (iv) reviewing applications for projects submitted under section 19114 of this title according to the Merit Review Criteria established by the Director for such projects and described in the Foundation's Proposal and Award Policies and Procedures Guide, and any such additional criteria as determined by the Director; and
- (v) monitoring the progress of projects supported under the program and taking into account input from relevant experts and stakeholders, recommending program updates as needed.

(C) Selection criteria

Program directors may use diverse merit review models for selection of award recipients under section 19114 of this title, including internal review and different models that use peer review.

(D) Terms

Program directors of the Directorate may be appointed by the Director for a limited term, renewable at the discretion of the Director.

(3) Experts in science and engineering

(A) Program authorized

The Foundation may carry out a program of personnel management authority provided under subparagraph (B) in order to facilitate recruitment of eminent experts in science or engineering for research and development projects and to enhance the administration and management of the Foundation.

(B) Personnel management authority

Under the program under subparagraph (A), the Foundation may—

- (i) without regard to any provision of title 5 governing the appointment of employees in the competitive service, appoint individuals to a total of not more than 70 positions in the Foundation, of which not more than 5 such positions may be positions of administration or

management of the Foundation;

(ii) prescribe the rates of basic pay for positions to which employees are appointed under clause (i)—

(I) in the case of employees appointed pursuant to clause (i) to any of 5 positions designated by the Foundation for purposes of this clause, at rates not in excess of a rate equal to 150 percent of the maximum rate of basic pay authorized for positions at level I of the Executive Schedule under section 5312 of title 5; and

(II) in the case of any other employee appointed pursuant to clause (i), at rates not in excess of the maximum rate of basic pay authorized for senior-level positions under section 5376 of title 5; and

(iii) pay any employee appointed under subparagraph (A), other than an employee appointed to a position designated as described in clause (ii)(I), payments in addition to basic pay within the limit applicable to the employee under subparagraph (D).

(C) Limitation on term of appointment

(i) In general

Except as provided in clause (ii), the service of an employee under an appointment under subparagraph (B)(i) may not exceed 4 years.

(ii) Extension

The Director may, in the case of a particular employee under the program under subparagraph (A), extend the period to which service is limited under clause (i) by up to 2 years if the Director determines that such action is necessary to promote the efficiency of the Foundation.

(D) Maximum amount of additional payments payable

Notwithstanding any other provision of this subsection or section 5307 of title 5, no additional payments may be paid to an employee under subparagraph (B)(iii) in any calendar year if, or to the extent that, the employee's total annual compensation in such calendar year will exceed the maximum amount of total annual compensation payable at the salary set in accordance with section 104 of title 3.

(4) Highly qualified experts in needed occupations

(A) In general

The Foundation may carry out a program using the authority provided in subparagraph (B) in order to attract highly qualified experts in needed occupations, as determined by the Foundation. Individuals hired by the Director through such authority may include individuals with expertise in business creativity, innovation management, design thinking, entrepreneurship, venture capital, and related fields.

(B) Authority

Under the program, the Foundation may—

(i) appoint personnel from outside the civil service and uniformed services (as such terms are defined in section 2101 of title 5) to positions in the Foundation without regard to any provision of title 5 governing the appointment of employees in the competitive service;

(ii) prescribe the rates of basic pay for positions to which employees are appointed under clause (i) at rates not in excess of the maximum rate of basic pay authorized for senior-level positions under section 5376 of title 5; and

(iii) pay any employee appointed under clause (i) payments in addition to basic pay within the limits applicable to the employee under subparagraph (D).

(C) Limitation on term of appointment

(i) In general

Except as provided in clause (ii), the service of an employee under an appointment made pursuant to this subsection may not exceed 5 years.

(ii) Extension

The Foundation may, in the case of a particular employee, extend the period to which service is limited under clause (i) by up to 1 additional year if the Foundation determines that such action is necessary to promote the Foundation's national security missions.

(D) Limitations on additional payments

(i) Total amount

The total amount of the additional payments paid to an employee under this subsection for any 12-month period may not exceed the maximum amount of total compensation payable at the salary set in accordance with section 104 of title [2](#).

(ii) Eligibility for payments

An employee appointed under this subsection is not eligible for any bonus, monetary award, or other monetary incentive for service, except for payments authorized under this subsection.

(E) Limitation on number of highly qualified experts

The number of highly qualified experts appointed and retained by the Foundation under sub [3](#) (B)(i) shall not exceed 70 at any time.

(F) Savings provisions

In the event that the Foundation terminates the program under this paragraph, in the case of an employee who, on the day before the termination of the program, is serving in a position pursuant to an appointment under this paragraph—

(i) the termination of the program does not terminate the employee's employment in that position before the expiration of the lesser of—

(I) the period for which the employee was appointed; or

(II) the period to which the employee's service is limited under subparagraph (C), including any extension made under this paragraph before the termination of the program; and

(ii) the rate of basic pay prescribed for the position under this paragraph may not be reduced as long as the employee continues to serve at an acceptable level of performance in the position without a break in service.

(5) Additional hiring authority

To the extent needed to carry out the duties under paragraph (1)(A), the Director is authorized to utilize hiring authorities under section 3372 of title 5 to staff the Foundation with employees from other Federal agencies, State and local governments, Indian Tribes and Tribal organizations, institutions of higher education, and other organizations, as described in that section, in the same manner and subject to the same conditions, that apply to such individuals utilized to accomplish other missions of the Foundation.

(6) National Academy of Public Administration

(A) Study

Not later than 30 days after August 9, 2022, the Director shall contract with the National Academy of Public Administration to conduct a study on the organizational and management structure of the Foundation, to—

(i) evaluate and make recommendations to efficiently and effectively implement the Directorate for Technology, Innovation, and Partnerships; and

(ii) evaluate and make recommendations to ensure coordination of the Directorate for Technology, Innovation, and Partnerships with other directorates and offices of the

Foundation and other Federal agencies.

(B) Review

Upon completion of the study under subparagraph (A), the Foundation shall review the recommendations from the National Academy of Public Administration and provide a briefing to Congress on the plans of the Foundation to implement any such recommendations.

(Pub. L. 117–167, div. B, title III, §10396, Aug. 9, 2022, 136 Stat. 1593.)

EDITORIAL NOTES

CODIFICATION

Section is comprised of section 10396 of Pub. L. 117–167. Par. (7) of section 10396 of Pub. L. 117–167 amended section 1870 of this title.

§19117. Coordination of activities

(a) In general

In carrying out the activities of the Directorate, the Director shall coordinate and collaborate as appropriate with the Secretary of Energy, the Director of the National Institute of Standards and Technology, and the heads of other Federal research agencies, as appropriate, to further the goals of this part.

(b) Avoid duplication

The Director shall ensure, to the greatest extent practicable, that activities carried out by the Directorate are not duplicative of activities supported by other parts of the Foundation or other relevant Federal agencies. In carrying out the activities prescribed by this division, the Director shall coordinate with the interagency working group established under part D of subchapter VI and heads of other Federal research agencies to ensure these activities enhance and complement, but do not constitute unnecessary duplication of effort and to ensure the responsible stewardship of funds.

(c) Emerging technologies

After completion of the studies regarding emerging technologies conducted by the Secretary of Commerce under title XV of division FF of the Consolidated Appropriations Act, 2021 (Public Law 116–260), the Director shall consider the results of such studies in carrying out the activities of the Directorate.

(Pub. L. 117–167, div. B, title III, §10397, Aug. 9, 2022, 136 Stat. 1597.)

EDITORIAL NOTES

REFERENCES IN TEXT

This division, referred to in subsec. (b), is div. B of Pub. L. 117–167, Aug. 9, 2022, 136 Stat. 1399, which enacted this chapter and enacted, amended, and repealed numerous other sections and notes in the Code. For complete classification of div. B to the Code, see Short Title note set out under section 18901 of this title and Tables.

Title XV of division FF of the Consolidated Appropriations Act, 2021, referred to in subsec. (c), is title XV of Pub. L. 116–260, div. FF, Dec. 27, 2020, 134 Stat. 3276, known as the American Competitiveness Of a More Productive Emerging Tech Economy Act, and also known as the American COMPETE Act, which is

not classified to the Code.

§19118. Ethical, legal, and societal considerations

The Director shall engage, as appropriate, experts in the social dimensions of science and technology and set up formal avenues for public input, as appropriate, to ensure that ethical, legal, and societal considerations are taken into account in the priorities and activities of the Directorate, including in the selection of the challenges and key technology focus areas under section 19107 of this title and the award-making process, and throughout all stages of supported projects.

(Pub. L. 117–167, div. B, title III, §10398, Aug. 9, 2022, 136 Stat. 1597.)

§19119. Reports and roadmaps

(a) Annual report

The Director shall provide to the relevant authorizing and appropriations committees of Congress an annual report describing projects supported by the Directorate during the previous year.

(b) Roadmap

Not later than 1 year after August 9, 2022, the Director shall provide to the relevant authorizing and appropriations committees of Congress a roadmap describing the strategic vision that the Directorate will use to guide investment decisions over the following 3 years.

(c) Reports

Not later than 1 year after August 9, 2022, and every 3 years thereafter, the Director, in consultation with the heads of relevant Federal agencies, shall prepare and submit to Congress—

(1) a strategic vision for the next 5 years for the Directorate, including a description of how the Foundation will increase funding for research and education for populations underrepresented in STEM and geographic areas; and

(2) a description of the planned activities of the Directorate to secure federally funded science and technology pursuant to section 1746 of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116–92; 42 U.S.C. 6601 note) and section 6605 of this title and the requirements under part D of this subchapter and subtitle E of title VI.

(d) Selection criteria report

Not later than 24 months after the establishment of the Directorate, the Director shall prepare and submit a report to Congress regarding the use of alternative methods for the selection of award recipients and the distribution of funding to recipients, as compared to the traditional peer review process.

(Pub. L. 117–167, div. B, title III, §10399, Aug. 9, 2022, 136 Stat. 1598.)

§19120. Evaluation

(a) In general

After the Directorate has been in operation for 6 years, the Director shall enter into an agreement

with the National Academies to provide an evaluation of how well the Directorate is achieving the purposes identified in section 19102 of this title.

(b) Inclusions

The evaluation shall include—

- (1) an assessment of the impact of Directorate activities on the Foundation's primary science mission;
- (2) an assessment of the Directorate's impact on the challenges and key technology focus areas under section 19107 of this title;
- (3) an assessment of efforts to ensure coordination between the Directorate and other Federal agencies, and with external entities;
- (4) a description of lessons learned from operation of the Directorate; and
- (5) recommended funding levels for the Directorate;

(c) Availability

On completion of the evaluation, the evaluation shall be made available to Congress and the public.

(Pub. L. 117–167, div. B, title III, §10399A, Aug. 9, 2022, 136 Stat. 1598.)

SUBCHAPTER IV—BIOECONOMY RESEARCH AND DEVELOPMENT

§19131. Definitions

In this subchapter:

(1) Initiative

The term "Initiative" means the National Engineering Biology Research and Development Initiative established under section 19132 of this title.

(2) Omics

The term "omics" refers to the collective technologies used to explore the roles, relationships, and actions of the various types of molecules that make up the cells and systems of an organism and the systems level analysis of their functions.

(Pub. L. 117–167, div. B, title IV, §10401, Aug. 9, 2022, 136 Stat. 1599.)

EXECUTIVE DOCUMENTS

EXECUTIVE ORDER NO. 14081

Ex. Ord. No. 14081, Sept. 12, 2022, 87 F.R. 56849, which related to advancing biotechnology and biomanufacturing innovation for a sustainable, safe, and secure American bioeconomy, was revoked by Ex. Ord. No. 14236, §2(k), Mar. 14, 2024, 90 F.R. 13037.

§19132. National Engineering Biology Research and Development Initiative

(a) In general

The President, acting through the Office of Science and Technology Policy, shall implement a National Engineering Biology Research and Development Initiative to advance societal well-being, national security, sustainability, and economic productivity and competitiveness through the following:

- (1) Advancing areas of research at the intersection of the biological, physical, chemical, data, and computational and information sciences and engineering to accelerate scientific understanding

and technological innovation in engineering biology.

(2) Advancing areas of biomanufacturing research to optimize, standardize, scale, and deliver new products and solutions.

(3) Supporting social and behavioral sciences and economics research that advances the field of engineering biology and contributes to the development and public understanding of new products, processes, and technologies.

(4) Improving the understanding of engineering biology of the scientific and lay public and supporting greater evidence-based public discourse about its benefits and risks.

(5) Supporting research relating to the risks and benefits of engineering biology, including under subsection (d).

(6) Supporting the development of novel tools and technologies to accelerate scientific understanding and technological innovation in engineering biology.

(7) Expanding the number of researchers, educators, and students and a retooled workforce with engineering biology training, including from traditionally underrepresented and underserved populations.

(8) Accelerating the translation and commercialization of engineering biology and biomanufacturing research and development by the private sector.

(9) Improving the interagency planning and coordination of Federal Government activities related to engineering biology.

(b) Initiative activities

The activities of the Initiative shall include the following:

(1) Sustained support for engineering biology research and development through the following:

(A) Grants to fund the work of individual investigators and teams of investigators, including interdisciplinary teams.

(B) Projects funded under joint solicitations by a collaboration of not fewer than two agencies participating in the Initiative.

(C) Interdisciplinary research centers that are organized to investigate basic research questions, carry out technology development and demonstration activities, and increase understanding of how to scale up engineering biology processes, including biomanufacturing.

(2) Sustained support for databases and related tools, including the following:

(A) Support for the establishment, curation, and maintenance of curated genomics, epigenomics, and other relevant omics databases, including plant, animal, and microbial databases, that are available to researchers to carry out engineering biology research in a manner that does not compromise national security or the privacy or security of information within such databases.

(B) Development of standards for such databases, including for curation, interoperability, and protection of privacy and security.

(C) Support for the development of computational tools, including artificial intelligence tools, that can accelerate research and innovation using such databases.

(D) An inventory and assessment of all Federal government omics databases to identify opportunities to improve the utility of such databases, as appropriate and in a manner that does not compromise national security or the privacy and security of information within such databases, and inform investment in such databases as critical infrastructure for the engineering biology research enterprise.

(3) Sustained support for the development, optimization, and validation of novel tools and technologies to enable the dynamic study of molecular processes in situ, including through the following:

(A) Research conducted at Federal laboratories.

(B) Grants to fund the work of investigators at institutions of higher education and other nonprofit research institutions.

(C) Incentivized development of retooled industrial sites across the country that foster a pivot

to modernized engineering biology initiatives.

(D) Awards under the Small Business Innovation Research Program and the Small Business Technology Transfer Program (as described in section 638 of title 15).

(4) Support for education and training of undergraduate and graduate students in engineering biology, biomanufacturing, bioprocess engineering, and computational science applied to engineering biology and in the related ethical, legal, environmental, safety, security, and other societal domains.

(5) Support for a national network of testbeds based on open standards, interfaces, and processes, including by repurposing existing facilities such as those specified in paragraph (3)(C), that would enable scale up of laboratory engineering biology research.

(6) Activities to develop robust mechanisms for documenting and quantifying the outputs and economic benefits of engineering biology.

(7) Activities to accelerate the translation and commercialization of new products, processes, and technologies by carrying out the following:

(A) Identifying precompetitive research opportunities.

(B) Facilitating public-private partnerships in engineering biology research and development, including to address barriers to scaling up innovations in engineering biology.

(C) Connecting researchers, graduate students, and postdoctoral fellows with entrepreneurship education and training opportunities.

(D) Supporting proof of concept activities and the formation of startup companies including through programs such as the Small Business Innovation Research Program and the Small Business Technology Transfer Program.

(c) Expanding participation

The Initiative shall include, to the maximum extent practicable, outreach to primarily undergraduate and historically Black colleges and universities, Tribal Colleges or Universities, and minority-serving institutions about Initiative opportunities, and shall encourage the development of research collaborations between research-intensive universities and primarily undergraduate and historically Black colleges and universities, Tribal Colleges or Universities, and minority-serving institutions.

(d) Ethical, legal, environmental, safety, security, and societal issues

Initiative activities shall take into account ethical, legal, environmental, safety, security, and other appropriate societal issues by carrying out the following:

(1) Supporting research, including in the social sciences, and other activities addressing ethical, legal, environmental, and other appropriate societal issues related to engineering biology, including integrating research on such topics with the research and development in engineering biology, and encouraging the dissemination of the results of such research, including through interdisciplinary engineering biology research centers described in subsection (b)(1)(C).

(2) Supporting research and other activities related to the safety and security implications of engineering biology, including outreach to increase awareness among Federal researchers and federally-funded researchers at institutions of higher education about potential safety and security implications of engineering biology research, as appropriate.

(3) Ensuring that input from Federal and non-Federal experts on the ethical, legal, environmental, safety, security, and other appropriate societal issues related to engineering biology is integrated into the Initiative.

(4) Ensuring, through the agencies and departments that participate in the Initiative, that public input and outreach are integrated into the Initiative by the convening of regular and ongoing public discussions through mechanisms such as workshops, consensus conferences, and educational events, as appropriate.

(5) Complying with all applicable provisions of Federal law.

(Pub. L. 117–167, div. B, title IV, §10402, Aug. 9, 2022, 136 Stat. 1599.)

§19133. Initiative coordination

(a) Interagency committee

The President, acting through the Office of Science and Technology Policy, shall designate an interagency committee to coordinate activities of the Initiative as appropriate, which shall be co-chaired by the Office of Science and Technology Policy. The Director of the Office of Science and Technology Policy shall select an additional co-chairperson from among the members of the interagency committee. The interagency committee shall oversee the planning, management, and coordination of the Initiative. The interagency committee shall carry out the following:

(1) Provide for interagency coordination of Federal engineering biology research, development, and other activities undertaken pursuant to the Initiative.

(2) Establish and periodically update goals and priorities for the Initiative.

(3) Develop, not later than 12 months after August 9, 2022, and update every five years thereafter, a strategic plan submitted to the Committee on Science, Space, and Technology, the Committee on Agriculture, and the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation, the Committee on Agriculture, Nutrition, and Forestry, the Committee on Small Business and Entrepreneurship, and the Committee on Health, Education, Labor, and Pensions of the Senate that—

(A) guides the activities of the Initiative for purposes of meeting the goals and priorities established under (and updated pursuant to) paragraph (2); and

(B) describes—

(i) the Initiative's support for long-term funding for interdisciplinary engineering biology research and development;

(ii) the Initiative's support for education and public outreach activities;

(iii) the Initiative's support for research and other activities on ethical, legal, environmental, safety, security, and other appropriate societal issues related to engineering biology, including—

(I) an applied biorisk management research plan;

(II) recommendations for integrating security into biological data access and international reciprocity agreements;

(III) recommendations for manufacturing restructuring to support engineering biology research, development, and scaling-up initiatives; and

(IV) an evaluation of existing biosecurity governance policies, guidance, and directives for the purposes of creating an adaptable, evidence-based framework to respond to emerging biosecurity challenges created by advances in engineering biology;

(iv) how the Initiative will contribute to moving results out of the laboratory and into application for the benefit of society and United States competitiveness; and

(v) how the Initiative will measure and track the contributions of engineering biology to United States economic growth and other societal indicators.

(4) Develop a national genomic sequencing strategy to ensure engineering biology research fully leverages plant, animal, and microbe biodiversity, as appropriate and in a manner that does not compromise economic competitiveness, national security, or the privacy or security of human genetic information, to enhance long-term innovation and competitiveness in engineering biology in the United States.

(5) Develop a plan to utilize Federal programs, such as the Small Business Innovation Research Program and the Small Business Technology Transfer Program (as described in section 638 of title 15), in support of the activities described in section 19132(b)(3) of this title.

(6) In carrying out this section, take into consideration the recommendations of the advisory committee established under section 19134 of this title, the results of the workshop convened under section 19132 of this title, existing reports on related topics, and the views of academic, State, industry, and other appropriate groups.

(b) Quinquennial report

Beginning with fiscal year 2023 and every five years thereafter for ten years, the interagency committee shall prepare and submit to the Committee on Science, Space, and Technology, the Committee on Energy and Commerce, and the Committee on Agriculture of the House of Representatives and the Committee on Commerce, Science, and Transportation, the Committee on Health, Education, Labor, and Pensions, the Committee on Small Business and Entrepreneurship, and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report that includes the following:

(1) A summarized agency budget in support of the Initiative for the current fiscal year, including a breakout of spending for each agency participating in the Program, and for the development and acquisition of any research facilities and instrumentation.

(2) An assessment of how Federal agencies are implementing the plan described in subsection (a)(3), including the following:

(A) A description of the amount and number of awards made under the Small Business Innovation Research Program and the Small Business Technology Transfer Program (as described in section 638 of title 15) in support of the Initiative.

(B) A description of the amount and number of projects funded under joint solicitations by a collaboration of not fewer than two agencies participating in the Initiative.

(C) A description of effects of newly-funded projects by the Initiative.

(c) Initiative Coordination Office

(1) In general

The President shall establish an Initiative Coordination Office, with a Director and full-time staff, which shall—

(A) provide technical and administrative support to the interagency committee and the advisory committee established under subsection (a) and section 19134 of this title;

(B) serve as the point of contact on Federal engineering biology activities for government organizations, academia, industry, professional societies, State governments, interested citizen groups, and others to exchange technical and programmatic information;

(C) oversee interagency coordination of the Initiative, including by encouraging and supporting joint agency solicitation and selection of applications for funding of activities under the Initiative, as appropriate;

(D) conduct public outreach, including dissemination of findings and recommendations of the advisory committee, as appropriate;

(E) serve as the coordinator of ethical, legal, environmental, safety, security, and other appropriate societal input; and

(F) promote access to, and early application of, the technologies, innovations, and expertise derived from Initiative activities to agency missions and systems across the Federal Government, and to United States industry, including startup companies.

(2) Funding

The Director of the Office of Science and Technology Policy, in coordination with each participating Federal department and agency, as appropriate, shall develop and annually update an estimate of the funds necessary to carry out the activities of the Initiative Coordination Office and submit such estimate with an agreed summary of contributions from each agency to Congress as part of the President's annual budget request to Congress.

(3) Termination

The Initiative Coordination Office established under this subsection shall terminate on the date that is 10 years after August 9, 2022.

(d) Rule of construction

Nothing in this section may be construed to alter the policies, processes, or practices of individual Federal agencies in effect on the day before August 9, 2022, relating to the conduct of biomedical

research and advanced development, including the solicitation and review of extramural research proposals.

(Pub. L. 117–167, div. B, title IV, §10403, Aug. 9, 2022, 136 Stat. 1602.)

§19134. Advisory committee on engineering biology research and development

(a) In general

The agency co-chair of the interagency committee established under section 19133 of this title shall, in consultation with the Office of Science and Technology Policy, designate or establish an advisory committee on engineering biology research and development (in this section referred to as the "advisory committee") to be composed of not fewer than 12 members, including representatives of research and academic institutions, industry, and nongovernmental entities, who are qualified to provide advice on the Initiative.

(b) Assessment

The advisory committee shall assess the following:

(1) The current state of United States competitiveness in engineering biology, including the scope and scale of United States investments in engineering biology research and development in the international context.

(2) Current market barriers to commercialization of engineering biology products, processes, and tools in the United States.

(3) Progress made in implementing the Initiative.

(4) The need to revise the Initiative.

(5) The balance of activities and funding across the Initiative.

(6) Whether the strategic plan developed or updated by the interagency committee established under section 19133 of this title is helping to maintain United States leadership in engineering biology.

(7) Whether ethical, legal, environmental, safety, security, and other appropriate societal issues are adequately addressed by the Initiative.

(c) Reports

Beginning not later than two years after August 9, 2022, and not less frequently than once every five years thereafter, the advisory committee shall submit to the President, the Committee on Science, Space, and Technology, the Committee on Energy and Commerce, and the Committee on Agriculture of the House of Representatives, and the Committee on Commerce, Science, and Transportation, the Committee on Health, Education, Labor, and Pensions, and the Committee on Agriculture, Nutrition, and Forestry of the Senate, a report on the following:

(1) The findings of the advisory committee's assessment under subsection (b).

(2) The advisory committee's recommendations for ways to improve the Initiative.

(d) Application of Federal Advisory Committee Act

Section 14 of the Federal Advisory Committee Act (5 U.S.C. App.) ¹ shall not apply to the advisory committee.

(e) Termination

The advisory committee established under subsection (a) shall terminate on the date that is 10 years after August 9, 2022.

(Pub. L. 117–167, div. B, title IV, §10404, Aug. 9, 2022, 136 Stat. 1605.)

§19135. Agency activities

(a) National Science Foundation

As part of the Initiative, the National Science Foundation shall carry out the following:

(1) Support research in engineering biology and biomanufacturing through individual grants, collaborative grants, and through interdisciplinary research centers.

(2) Support research on the environmental, legal, ethical, and social implications of engineering biology.

(3) Provide support for research instrumentation, equipment, and cyberinfrastructure for engineering biology disciplines, including support for research, development, optimization, and validation of novel technologies to enable the dynamic study of molecular processes in situ.

(4) Support curriculum development and research experiences for secondary, undergraduate, and graduate students in engineering biology and biomanufacturing, including through support for graduate fellowships and traineeships in engineering biology.

(5) Award grants, on a competitive basis, to enable institutions to support graduate students and postdoctoral fellows who perform some of their engineering biology research in an industry setting.

(b) Department of Commerce

(1) National Institute of Standards and Technology

As part of the Initiative, the Director of the National Institute of Standards and Technology shall carry out the following:

(A) Advance the development of standard reference materials and measurements, including to promote interoperability between new component technologies and processes for engineering biology and biomanufacturing discovery, innovation, and production processes.

(B) Establish new data tools, techniques, and processes necessary to advance engineering biology and biomanufacturing.

(C) Provide access to user facilities with advanced or unique equipment, services, materials, and other resources to industry, institutions of higher education, nonprofit organizations, and government agencies to perform research and testing.

(D) Provide technical expertise to inform the potential development of guidelines or safeguards for new products, processes, and systems of engineering biology.

(2) National Oceanic and Atmospheric Administration

As part of the initiative, the Administrator of the National Oceanic and Atmospheric Administration shall carry out the following:

(A) Conduct and support research in omics and associated bioinformatic sciences and develop tools and products to improve ecosystem stewardship, monitoring, management, assessments, and forecasts, consistent with the mission of the agency.

(B) Collaborate with other agencies to understand potential environmental threats and safeguards related to engineering biology.

(c) Department of Energy

As part of the Initiative, the Secretary of Energy shall carry out the following:

(1) Conduct and support research, development, demonstration, and commercial application activities in engineering biology, including in the areas of synthetic biology, advanced biofuel and bioproduct development, biobased materials, and environmental remediation.

(2) Support the development, optimization and validation of novel, scalable tools and technologies to enable the dynamic study of molecular processes in situ.

(3) Provide access to user facilities with advanced or unique equipment, services, materials, and other resources, including secure access to high-performance computing, as appropriate, to industry, institutions of higher education, nonprofit organizations, and government agencies to perform research and testing;¹

(4) Strengthen collaboration between the Office of Science and the Energy Efficiency and Renewable Energy Office to help transfer fundamental research results to industry and accelerate commercial applications.

(d) Department of Defense

As part of the Initiative, the Secretary of Defense shall carry out the following:

(1) Conduct and support research and development in engineering biology and associated data and information sciences.

(2) Support curriculum development and research experiences in engineering biology and associated data and information sciences across the military education system, including the service academies, professional military education, and military graduate education.

(3) Assess risks of potential national security and economic security threats relating to engineering biology.

(e) National Aeronautics and Space Administration

As part of the Initiative, the National Aeronautics and Space Administration shall carry out the following:

(1) Conduct and support research in engineering biology, including in synthetic biology, and related to Earth and space sciences, aeronautics, space technology, and space exploration and experimentation, consistent with the priorities established in the National Academies' decadal surveys.

(2) Award grants, on a competitive basis, that enable institutions to support graduate students and postdoctoral fellows who perform some of their engineering biology research in an industry setting.

(f) Department of Agriculture

As part of the Initiative, the Secretary of Agriculture shall support research and development in engineering biology through the Agricultural Research Service, the National Institute of Food and Agriculture programs and grants, and the Office of the Chief Scientist.

(g) Environmental Protection Agency

As part of the Initiative, the Environmental Protection Agency shall support research on how products, processes, and systems of engineering biology will affect or can protect the environment.

(h) Department of Health and Human Services

As part of the Initiative, the Secretary of Health and Human Services, as appropriate and consistent with activities of the Department of Health and Human Services in effect on the day before August 9, 2022, shall carry out the following:

(1) Support research and development to advance the understanding and application of engineering biology for human health.

(2) Support relevant interdisciplinary research and coordination.

(3) Support activities necessary to facilitate oversight of relevant emerging biotechnologies.

(Pub. L. 117–167, div. B, title IV, §10406, Aug. 9, 2022, 136 Stat. 1606.)

¹ *So in original. The semicolon preceding the period probably should not appear.*

Nothing in this subchapter may be construed to require public disclosure of information that is exempt from mandatory disclosure under section 552 of title 5.

(Pub. L. 117–167, div. B, title IV, §10407, Aug. 9, 2022, 136 Stat. 1609.)

SUBCHAPTER V—BROADENING PARTICIPATION IN SCIENCE

PART A—STEM OPPORTUNITIES

§19151. Federal research agency policies for caregivers

(a) OSTP guidance

Not later than 12 months after August 9, 2022, the Director, in consultation with the heads of relevant agencies, shall provide guidance to each Federal research agency to establish policies that—

(1) apply to all—

(A) research awards granted by such agency; and

(B) principal investigators of such research and their trainees, including postdoctoral researchers and graduate students, who have caregiving responsibilities, including care for a newborn or newly adopted child and care for an immediate family member who has a disability or a serious health condition; and

(2) provide, to the extent feasible—

(A) flexibility in timing for the initiation of approved research awards granted by such agency;

(B) no-cost extensions of such research awards;

(C) award supplements, as appropriate, to research awards to sustain research activities conducted under such awards; and

(D) any other appropriate accommodations at the discretion of the director of each such agency.

(b) Uniformity of guidance

In providing guidance under subsection (a), the Director shall encourage uniformity, to the extent practicable, and consistency in the policies established pursuant to such guidance across all Federal research agencies.

(c) Establishment of policies

Consistent, to the extent practicable, with the guidance under subsection (a), Federal research agencies shall—

(1) maintain or develop and implement policies for individuals described in paragraph (1)(B) of such subsection; and

(2) broadly disseminate in easily accessible formats such policies to current and potential award recipients.

(d) Data on usage

Federal research agencies shall consider—

(1) collecting data, including demographic data that can be disaggregated by sex, geographic location, and socioeconomic indicators, which may include employment status, occupation, educational attainment, parental education, and income, on the usage of the policies under subsection (c), at both institutions of higher education and Federal laboratories; and

(2) reporting such data on an annual basis to the Director in such form as required by the

Director.

(Pub. L. 117–167, div. B, title V, §10501, Aug. 9, 2022, 136 Stat. 1609.)

§19152. Collection and reporting of data on Federal research awards

(a) Collection of data

(1) In general

Each Federal research agency shall collect, as practicable, with respect to all applications for merit-reviewed research and development awards made by such agency, standardized record-level annual information on demographics, primary field, award type, institution type, review rating, budget request, funding outcome, and awarded budget.

(2) Uniformity and standardization

The Director, in consultation with the heads of each Federal research agency, shall establish, and update as necessary, a policy to ensure uniformity and standardization of the data collection required under paragraph (1).

(3) Record-level data

(A) Requirement

Beginning not later than two years after the issuance of the policy under paragraph (2) to Federal research agencies, and on an annual basis thereafter, each Federal research agency shall submit to the National Center for Science and Engineering Statistics record-level data collected under paragraph (1) in the form required by the Director of the National Science Foundation.

(B) Previous data

As part of the first submission under subparagraph (A), each Federal research agency, to the extent practicable, shall also submit comparable record-level data, if it is available to the agency, for the five years preceding the date of such submission, or an analysis for why such data cannot be provided.

(b) Reporting of data

The Director of the National Science Foundation shall publish statistical summary data, as practicable, collected under this section, disaggregated and cross-tabulated by race, ethnicity, sex, socioeconomic indicators, which may include employment status, occupation, educational attainment, parental education, and income, geographic location, and years since completion of doctoral degree, including in conjunction with the National Science Foundation's report required by section 1885d of this title.

(Pub. L. 117–167, div. B, title V, §10502, Aug. 9, 2022, 136 Stat. 1610.)

§19153. Policies for review of Federal research awards

(a) Assessment of policies

Federal research agencies shall regularly assess, and update as necessary, policies, and practices to remove or reduce cultural and institutional barriers limiting the recruitment, retention, and success of groups historically underrepresented in STEM research careers, including policies and practices relevant to the unbiased review of Federal research applications.

(b) Considerations and activities

In carrying out the requirements under subsection (a), Federal research agencies shall—

(1) review current levels of participation of groups historically underrepresented in STEM in peer-review panels and consider approaches for expanding their participation;

(2) analyze the data collected under section 19152 of this title, including funding rates of

proposals from all groups, including those historically underrepresented in STEM;

(3) collect and disseminate best practices to remove or reduce cultural and institutional barriers limiting the recruitment, retention, and success of groups historically underrepresented in STEM research careers; and

(4) implement evidence-based policies and practices to achieve the goals of this section.

(Pub. L. 117–167, div. B, title V, §10503, Aug. 9, 2022, 136 Stat. 1610.)

§19154. Collection of data on demographics of faculty

(a) Collection of data

(1) In general

Not later than 5 years after August 9, 2022, and at least every five years thereafter, the Director of the National Science Foundation shall carry out a survey to collect data from award recipients on the demographics of STEM faculty, by broad fields of STEM, at different types of institutions of higher education that receive Federal research funding.

(2) Survey considerations

To the extent practicable, the Director of the National Science Foundation shall survey, by sex, race, socioeconomic indicators, which may include employment status, occupation, educational attainment, parental education, and income, geographic location, ethnicity, citizenship status, and years since completion of doctoral degree—

(A) the number and percentage of faculty;

(B) the number and percentage of faculty at each rank;

(C) the number and percentage of faculty who are in nontenure-track positions, including teaching and research;

(D) the number and percentage of faculty who are reviewed for promotion, including tenure, and the percentage of that number who are promoted, including being awarded tenure;

(E) faculty years in rank;

(F) the number and percentage of faculty to leave tenure-track positions;

(G) the number and percentage of faculty hired, by rank; and

(H) the number and percentage of faculty in leadership positions.

(b) Existing surveys

The Director of the National Science Foundation, may, in modifying or expanding existing Federal surveys of higher education (as necessary)—

(1) take into account the considerations under subsection (a)(2) by collaborating with statistical centers at other Federal agencies; or

(2) make an award to an institution of higher education or nonprofit organization (or consortia thereof) to take such considerations into account.

(c) Reporting data

The Director of the National Science Foundation shall publish statistical summary data collected under this section, including as part of the National Science Foundation's report required by section 1885d of this title.

(d) Authorization of appropriations

There are authorized to be appropriated to the Director of the National Science Foundation \$4,000,000 in each of fiscal years 2023 through 2025 to develop and carry out the initial survey required under subsection (a).

(Pub. L. 117–167, div. B, title V, §10504, Aug. 9, 2022, 136 Stat. 1611.)

§19155. Cultural and institutional barriers to expanding the academic and

Federal STEM workforce

(a) Best practices

(1) Development of guidance

Not later than 12 months after August 9, 2022, the Director, in consultation with the interagency working group on inclusion in STEM and utilizing existing guidance already developed by Federal research agencies where applicable, shall broadly disseminate to entities that receive Federal research funding best practices for—

(A) conducting periodic climate surveys of STEM departments and divisions, with a particular focus on identifying and addressing any cultural or institutional barriers to the recruitment, retention, or advancement of groups historically underrepresented in STEM studies and careers; and

(B) providing educational opportunities, including workshops, for STEM professionals to learn about current research on effective practices for unbiased recruitment, evaluation, and promotion of undergraduate and graduate students and research personnel.

(2) Establishment of policies

Consistent with the guidance developed under paragraph (1)—

(A) The Director of the National Science Foundation, in consultation with the heads of Federal research agencies, shall develop a policy that—

(i) applies to, at a minimum, doctoral degree granting institutions that receive Federal research funding; and

(ii) requires each such institution, not later than 3 years after August 9, 2022, and to the extent practicable, to report to the Director of the National Science Foundation on activities and policies developed and implemented based on the guidance disseminated under paragraph (1); and

(B) each Federal research agency with a Federal laboratory shall maintain or develop and implement practices and policies for the purposes described in paragraph (1) for such laboratory and, not later than three years after August 9, 2022, each Federal laboratory shall report to the head of such agency on such practices and policies.

(b) Report to Congress

Not later than four years after August 9, 2022, the Director of the National Science Foundation shall submit a report to Congress that includes a summary and analysis of the types and frequency of activities and policies developed and carried out under subsection (a) based on the reports submitted under paragraph (2) of such subsection.

(Pub. L. 117–167, div. B, title V, §10505, Aug. 9, 2022, 136 Stat. 1612.)

§19156. Existing activities

A Federal research agency may satisfy requirements under this part through activities and programs in existence as of August 9, 2022.

(Pub. L. 117–167, div. B, title V, §10506, Aug. 9, 2022, 136 Stat. 1612.)

§19157. Merit review

Nothing in this part may be construed as altering any intellectual or broader impacts criteria at Federal research agencies for evaluating award applications.

(Pub. L. 117–167, div. B, title V, §10508, Aug. 9, 2022, 136 Stat. 1613.)

EDITORIAL NOTES

REFERENCES IN TEXT

This part, referred to in text, was in the original "this subtitle", meaning subtitle A (§§10501–10510) of title V of div. B of Pub. L. 117–167, Aug. 9, 2022, 136 Stat. 1609, which is classified principally to this part. For complete classification of subtitle A to the Code, see Tables.

§19158. Definition

In this part, the term "Director" means the Director of the Office of Science and Technology Policy.

(Pub. L. 117–167, div. B, title V, §10510, Aug. 9, 2022, 136 Stat. 1613.)

PART B—RURAL STEM EDUCATION RESEARCH

§19171. Definition

In this part, the term "Director" means the Director of the National Science Foundation.

(Pub. L. 117–167, div. B, title V, §10511, Aug. 9, 2022, 136 Stat. 1613.)

§19172. National Science Foundation rural STEM activities

(a) Preparing rural STEM educators

(1) In general

The Director shall make awards on a merit-reviewed, competitive basis to institutions of higher education or nonprofit organizations (or a consortium thereof) for research and development activities to advance innovative approaches to support and sustain high-quality STEM teaching in rural schools.

(2) Use of funds

(A) In general

Awards made under this subsection shall be used for the research and development activities referred to in paragraph (1), which may include—

- (i) engaging rural educators, principals, or other school leaders of students in prekindergarten through grade 12 in professional learning opportunities to enhance STEM knowledge, including computer science, and develop best practices;
- (ii) supporting research on effective STEM teaching and school leadership practices in rural settings, including the use of rubrics and mastery- based grading practices to assess student performance when employing the transdisciplinary teaching approach for STEM disciplines;
- (iii) designing and developing pre-service and in-service training resources to assist such rural educators, principals, and other school leaders in adopting transdisciplinary teaching practices across STEM courses;
- (iv) coordinating with local partners to adapt STEM teaching practices to leverage local, natural, and community assets in order to support in-place learning in rural areas;
- (v) providing hands-on training and research opportunities for rural educators described in clause (i) at Federal laboratories or institutions of higher education, or in industry;
- (vi) developing training and best practices for educators who teach multiple grade levels within a STEM discipline;

(vii) designing and implementing professional development courses and experiences, including mentoring, for rural educators, principals, and other school leaders described in clause (i) that combine face-to-face and online experiences; and

(viii) any other activity the Director determines will accomplish the goals of this paragraph.

(B) Rural stem collaborative

The Director shall establish a pilot program of regional cohorts in rural areas that will provide peer support, mentoring, and hands-on research experiences for rural STEM educators, principals, and other school leaders of students in prekindergarten through grade 12, in order to build an ecosystem of cooperation among educators, principals, other school leaders, researchers, academia, and local industry.

(b) Broadening participation of rural students in STEM

(1) In general

The Director shall make awards on a merit-reviewed, competitive basis to institutions of higher education or nonprofit organizations (or a consortium thereof) for—

(A) research and development of programming to identify the barriers rural students face in accessing high-quality STEM education; and

(B) development of innovative solutions to improve the participation and advancement of rural students in prekindergarten through grade 12 in STEM studies.

(2) Use of funds

(A) In general

Awards made under this subsection shall be used for the research and development activities referred to in paragraph (1), which may include—

(i) developing partnerships with community colleges to offer advanced STEM course work, including computer science, to rural high school students;

(ii) supporting research on effective STEM practices in rural settings;

(iii) implementing a school-wide STEM approach, including preparation and support for principals and other school leaders;

(iv) improving the Foundation's Advanced Technology Education program's coordination and engagement with rural communities;

(v) collaborating with existing community partners and networks, such as the Cooperative Extension System services and extramural research programs of the Department of Agriculture and youth serving organizations like 4-H, after school STEM programs, and summer STEM programs, to leverage community resources and develop place-based programming;

(vi) connecting rural school districts and institutions of higher education, to improve precollegiate STEM education and engagement;

(vii) supporting partnerships that offer hands-on inquiry-based science activities, including coding, and access to lab resources for students studying STEM in prekindergarten through grade 12 in a rural area;

(viii) evaluating the role of broadband connectivity and its associated impact on the STEM and technology literacy of rural students;

(ix) building capacity to support extracurricular STEM programs in rural schools, including mentor-led engagement programs, STEM programs held during non-school hours, STEM networks, makerspaces, coding activities, and competitions;

(x) creating partnerships with local industries and local educational agencies to tailor STEM curricula and educational experiences to the needs of a particular local or regional economy; and

(xi) any other activity the Director determines will accomplish the goals of this paragraph.

(c) Application

An applicant seeking an award under subsection (a) or (b) shall submit an application at such time, in such manner, and containing such information as the Director may require. The application may include the following:

- (1) A description of the target population to be served by the research activity or activities for which such award is sought.
- (2) A description of the process for recruitment and selection of students, educators, principals, and other school leaders, or schools from rural areas to participate in such activity or activities.
- (3) A description of how such activity or activities may inform efforts to promote the engagement and achievement of rural students in prekindergarten through grade 12 in STEM studies.
- (4) In the case of a proposal consisting of a partnership or partnerships with one or more rural schools and one or more researchers, a plan for establishing a sustained partnership that is jointly developed and managed, draws from the capacities of each partner, and is mutually beneficial.

(d) Partnerships

In making awards under subsection (a) or (b), the Director shall—

- (1) encourage applicants which, for the purpose of the activity or activities funded through the award, include or partner with a nonprofit organization or an institution of higher education (or a consortium thereof) that has extensive experience and expertise in increasing the participation of rural students in prekindergarten through grade 12 in STEM;
- (2) encourage applicants which, for the purpose of the activity or activities funded through the award, include or partner with a consortium of rural schools or rural school districts; and
- (3) encourage applications which, for the purpose of the activity or activities funded through the award, include commitments from school principals, other school leaders, and administrators to making reforms and activities proposed by the applicant a priority.

(e) Evaluations

All proposals for awards under subsections (a) and (b) shall include an evaluation plan that includes the use of outcome-oriented measures to assess the impact and efficacy of the award. Each recipient of an award under this subsection shall include results from these evaluative activities in annual and final projects.

(f) Accountability and dissemination

(1) Evaluation required

The Director shall evaluate the portfolio of awards made under subsections (a) and (b). Such evaluation shall—

- (A) use a common set of benchmarks and tools to assess the results of research conducted under such awards and identify best practices; and
- (B) to the extent practicable, integrate the findings of research resulting from the activity or activities funded through such awards with the findings of other research on rural students' pursuit of degrees or careers in STEM.

(2) Report on evaluations

Not later than 180 days after the completion of the evaluation under paragraph (1), the Director shall submit to Congress and make widely available to the public a report that includes—

- (A) the results of the evaluation; and
- (B) any recommendations for administrative and legislative action that could optimize the effectiveness of the awards made under this subsection.

(g) Report by Committee on Equal Opportunities in Science and Engineering

As part of the first report required by section 1885c(e) of this title transmitted to Congress after August 9, 2022, the Committee on Equal Opportunities in Science and Engineering, in consultation with the Chief Diversity Officer of the National Science Foundation, shall include—

- (1) a description of past and present policies and activities of the Foundation to encourage full participation of students in rural communities in science, mathematics, engineering, and computer

science fields;

(2) an assessment of trends in participation of rural students in prekindergarten through grade 12 in Foundation activities; and

(3) an assessment of the policies and activities of the Foundation, along with proposals for new strategies or the broadening of existing successful strategies towards facilitating the goal of increasing participation of rural students in prekindergarten through grade 12 in Foundation activities.

(h) Coordination

In carrying out this subsection, the Director shall, for purposes of enhancing program effectiveness and avoiding duplication of activities, consult, cooperate, and coordinate with the programs and policies of other relevant Federal agencies.

(i) Authorization of appropriations

There are authorized to be appropriated to the Director—

(1) \$8,000,000 to carry out the activities under subsection (a) for each of fiscal years 2023 through 2027; and

(2) \$12,000,000 to carry out the activities under subsection (b) for each of fiscal years 2023 through 2027.

(Pub. L. 117–167, div. B, title V, §10512, Aug. 9, 2022, 136 Stat. 1613.)

§19173. Opportunities for online education

(a) In general

The Director shall make competitive awards to institutions of higher education or nonprofit organizations (or a consortium thereof, which may include a private sector partner) to conduct research on online STEM education courses for rural communities.

(b) Research areas

The research areas eligible for funding under this subsection shall include—

(1) evaluating the learning and achievement of rural students in prekindergarten through grade 12 in STEM subjects;

(2) understanding how computer-based and online professional development courses and mentor experiences can be integrated to meet the needs of educators, principals, and other school leaders of rural students in prekindergarten through grade 12;

(3) combining computer-based and online STEM education and training with mentoring and other applied learning arrangements;

(4) leveraging online programs to supplement STEM studies for rural students that need physical and academic accommodation; and

(5) any other activity the Director determines will accomplish the goals of this subsection.

(c) Evaluations

All proposals for awards under this section shall include an evaluation plan that includes the use of outcome-oriented measures to assess the impact and efficacy of the award. Each recipient of an award under this subsection shall include results from these evaluative activities in annual and final projects.

(d) Accountability and dissemination

(1) Evaluation required

The Director shall evaluate the portfolio of awards made under this subsection. Such evaluation shall—

(A) use a common set of benchmarks and tools to assess the results of research conducted under such awards and identify best practices; and

(B) to the extent practicable, integrate findings from activities carried out pursuant to research

conducted under this section, with respect to the pursuit of careers and degrees in STEM, with those activities carried out pursuant to other research on serving rural students and communities.

(2) Report on evaluations

Not later than 180 days after the completion of the evaluation under paragraph (1), the Director shall submit to Congress and make widely available to the public a report that includes—

(A) the results of the evaluation; and

(B) any recommendations for administrative and legislative action that could optimize the effectiveness of the awards made under this section.

(e) Coordination

In carrying out this section, the Director shall, for purposes of enhancing program effectiveness and avoiding duplication of activities, consult, cooperate, and coordinate with the programs and policies of other relevant Federal agencies.

(Pub. L. 117–167, div. B, title V, §10513, Aug. 9, 2022, 136 Stat. 1617.)

§19174. NIST engagement with rural communities

(a) Prize competition

Pursuant to section 3719 of title 15, the Secretary of Commerce shall carry out a program to award prizes competitively to stimulate research and development of creative technologies to support the deployment of affordable and reliable broadband connectivity in rural communities, including unserved rural communities.

(b) Plan for deployment in rural communities

Each proposal submitted pursuant to subsection (a) shall include a proposed plan for deployment of the technology that is the subject of such proposal.

(c) Prize amount

In carrying out the program under subsection (a), the Secretary may award not more than a total of \$5,000,000 to one or more winners of the prize competition.

(d) Report

Not later than 60 days after the date on which a prize is awarded under the prize competition, the Secretary shall submit to the relevant committees of Congress a report that describes the winning proposal of the prize competition.

(e) Consultation

In carrying out the program under this section, the Secretary shall consult with the Federal Communications Commission and the heads of relevant departments and agencies of the Federal Government.

(Pub. L. 117–167, div. B, title V, §10516, Aug. 9, 2022, 136 Stat. 1619.)

PART C—MSI STEM ACHIEVEMENT

§19181. Agency responsibilities

(a) In general

In consultation with outside stakeholders and the heads of Federal research agencies and the Interagency Working Group on Inclusion in STEM, the Director of the Office of Science and Technology Policy shall develop a uniform set of policy guidelines for Federal research agencies to

carry out a sustained program of outreach activities to increase clarity, transparency, and accountability for Federal research agency investments in STEM education and research activities at HBCUs, TCUs, and MSIs, including such institutions in rural areas.

(b) Outreach activities

In developing policy guidelines under subsection (a) the Director of the Office of Science and Technology Policy shall include guidelines that require each Federal research agency—

(1) to designate a liaison for HBCUs, TCUs, and MSIs responsible for—

(A) enhancing direct communication with HBCUs, TCUs, and MSIs to increase the Federal research agency's understanding of the capacity and needs of such institutions and to raise awareness of available Federal funding opportunities at such institutions;

(B) coordinating programs, activities, and initiatives while accounting for the capacity and needs of HBCUs, TCUs, and MSIs;

(C) tracking Federal research agency investments in and engagement with HBCUs, TCUs, and MSIs; and

(D) reporting progress toward increasing participation of HBCUs, TCUs, and MSIs in award programs;

(2) to the extent practicable, to produce an annual summary of funding opportunities and proposal deadlines targeted at HBCUs, TCUs, and MSIs, including for grants, contracts, subcontracts, and cooperative agreements;

(3) to the extent practicable, identifying in annual budget requests potential areas for collaboration with HBCUs, TCUs, and MSIs in the relevant fiscal year, including relating to potential meetings and workshops;

(4) to investigate proposal structures that support broader participation by emerging research institutions, including HBCUs, TCUs, and MSIs;

(5) to conduct on-site reviews of research facilities at HBCUs, TCUs, and MSIs, as practicable, and make recommendations regarding strategies for becoming more competitive in research;

(6) to hold geographically accessible or virtual workshops on research priorities of the Federal research agency and on how to write competitive award proposals and how to bolster award management capacity for the entire award lifecycle, from application to completion;

(7) to ensure opportunities for HBCUs, TCUs, and MSIs to directly communicate with Federal research agency officials responsible for managing competitive award programs in order to receive feedback on research ideas and proposals, including guidance on the Federal research agency's merit review process; and

(8) to foster mutually beneficial public-private collaboration among Federal research agencies, industry, Federal laboratories, academia, and nonprofit organizations to—

(A) identify alternative sources of funding for STEM education and research at HBCUs, TCUs, and MSIs;

(B) provide access to high-quality, relevant research experiences for students and faculty of HBCUs, TCUs, and MSIs;

(C) expand the professional networks of students and faculty of HBCUs, TCUs, and MSIs;

(D) broaden STEM educational opportunities for students and faculty of HBCUs, TCUs, and MSIs; and

(E) support the transition of students of HBCUs, TCUs, and MSIs into the STEM workforce;

1

(c) Strategic plan

(1) In general

Not later than one year after August 9, 2022, the Director of the Office of Science and Technology Policy, in collaboration with the head of each Federal research agency, shall submit to Congress a report containing a strategic plan which reflects the plans of each Federal research agency to increase the capacity of HBCUs, TCUs, and MSIs to compete effectively for grants,

contracts, or cooperative agreements and to encourage HBCUs, TCUs, and MSIs to participate in Federal programs.

(2) Considerations

In developing a strategic plan under paragraph (1), the Director and the head of each Federal research agency shall consider the following:

(A) Issuing new or expanding existing funding opportunities targeted to HBCUs, TCUs, and MSIs.

(B) Modifying existing research and development program solicitations to incentivize effective partnerships with HBCUs, TCUs, and MSIs.

(C) Offering planning grants for HBCUs, TCUs, and MSIs to develop or equip grant offices with the requisite depth of knowledge to submit competitive grant proposals and manage awarded grants.

(D) Offering additional training programs, including individualized and timely guidance to grant officers, faculty, and postdoctoral researchers at HBCUs, TCUs, and MSIs to ensure their understanding of the requirements for an effective grant proposal.

(E) Other approaches for making current competitive funding models more accessible for underresourced HBCUs, TCUs, and MSIs.

(d) Report on policy guidelines

Not later than two years after August 9, 2022, and every five years thereafter, the Director of the Office of Science and Technology Policy shall report to Congress on the implementation by Federal research agencies of the policy guidelines developed under this section.

(Pub. L. 117–167, div. B, title V, §10522, Aug. 9, 2022, 136 Stat. 1620.)

EDITORIAL NOTES

CODIFICATION

Section is comprised of section 10522 of Pub. L. 117–167. Subsec. (e) of section 10522 of Pub. L. 117–167 amended section 6621 of this title.

¹ So in original. The semicolon probably should be a period.

§19182. Research at the National Science Foundation

(a) In general

The Director shall make awards, on a competitive basis, to institutions of higher education or nonprofit organizations (or consortia thereof) to—

(1) conduct research described in subsection (b) with respect to HBCUs, TCUs, and MSIs; and

(2) identify and broadly disseminate effective models for programs and practices at HBCUs, TCUs, and MSIs that promote the education and workforce preparation of minority students pursuing STEM studies and careers in which such students are underrepresented.

(b) Research

Research described in this subsection is research on the contribution of HBCUs, TCUs, and MSIs to the education and training of underrepresented minority students in STEM fields and to the meeting of national STEM workforce needs, including relating to the following:

(1) The diversity with respect to local context, cultural differences, and institutional structure among HBCUs, TCUs, and MSIs and any associated impact on education and research endeavors.

(2) Effective practices at HBCUs, TCUs, and MSIs and associated outcomes on student recruitment, retention, and advancement in STEM fields, including the ability for students to compete for fellowships, employment, and advancement in the workforce.

(3) Contributions made by HBCUs, TCUs, and MSIs to local, regional, and national

workforces.

(4) The challenges and opportunities for HBCUs, TCUs, and MSIs in attaining the resources needed for integrating effective practices in STEM education, including providing research experiences for underrepresented minority students.

(5) The access of students at HBCUs, TCUs, and MSIs to STEM infrastructure and any associated outcomes for STEM competency.

(6) Models of STEM curriculum, learning, and teaching successful at HBCUs, TCUs, and MSIs for increasing participation, retention, and success of underrepresented minority students.

(7) Successful or promising partnerships between HBCUs, TCUs, and MSIs and other institutions of higher education, private sector and nonprofit organizations, Federal laboratories, and international research institutions.

(c) Research experiences

Awards under this section may fund the development or expansion of opportunities for the exchange of students and faculty to conduct research, facilitate professional development, and provide mentorship, including through partnerships with institutions of higher education that are not HBCUs, TCUs, or MSIs, private sector and nonprofit organizations, Federal laboratories, and international research institutions.

(Pub. L. 117–167, div. B, title V, §10523, Aug. 9, 2022, 136 Stat. 1622.)

§19183. Capacity-building program for developing universities

(a) Awards

(1) In general

The Director shall make awards, on a competitive basis, to eligible institutions described in subsection (b) to support the mission of the Foundation and to build institutional research capacity at eligible institutions.

(2) Administration

The Director may administer separate competitions for each category of eligible institution described in subparagraphs (A) through (C) of subsection (b)(1) in order to ensure fair competition for institutions with significantly different research capacities.

(b) Eligible institutions

To be eligible to receive an award under this subsection, an entity—

(1) shall be—

(A) a historically Black college or university;

(B) a Tribal College or University;

(C) a minority-serving institution;

(D) an institution of higher education with an established STEM capacity-building program focused on Native Hawaiians and Alaska Natives; or

(E) consortia thereof;

(2) shall—

(A) have not more than \$50,000,000 in annual federally financed research and development expenditures for science and engineering as reported through the National Science Foundation Higher Education Research and Development Survey; or

(B) not be an institution classified as having very high research activity by the Carnegie Classification of Institutions of Higher Education.

(c) Partnerships

In making awards under this section, the Director shall—

(1) encourage entities that are consortia of eligible institutions to submit proposals and require

such proposals to include a plan for establishing a sustained partnership that is jointly developed and managed, draws from the capacities of each institution, and is mutually beneficial;

(2) encourage proposals submitted in partnership with the private sector, nonprofit organizations, Federal laboratories, and international research institutions, as appropriate;

(3) require proposals described in paragraphs (1) and (2) to include a plan to strengthen the administrative and research capacity of the partnering HBCUs, TCUs, or MSIs to lead future proposals.

(d) Very high research activity status Historically Black Colleges and Universities program

Awards under this section may be used to enable HBCUs which have high research activity status to achieve very high research activity status, as classified under the Carnegie Classification of Institutions of Higher Education, by enabling—

(1) faculty professional development;

(2) stipends for graduate and undergraduate students, and postdoctoral scholars;

(3) acquisition of laboratory equipment and instrumentation; and

(4) other activities as necessary to build research capacity.

(e) Proposals

To receive an award under this subsection, an eligible institution shall submit an application to the Director at such time, in such manner, and containing such information as the Director may require, including—

(1) a plan that describes how the eligible institution will establish or expand research office capacity and how such award would be used to—

(A) conduct an assessment of capacity-building and research infrastructure needs of an eligible institution;

(B) enhance institutional resources to provide administrative research development support to faculty at an eligible institution;

(C) bolster the institutional research competitiveness of an eligible institution to support awards made by the Foundation;

(D) support the acquisition of instrumentation necessary to build research capacity at an eligible institution in research areas directly associated with the Foundation;

(E) increase capability of an eligible institution to move technology into the marketplace;

(F) increase engagement with industry to execute research through the SBIR and STTR programs (as such terms are defined in section 638(e) of title 15) and direct contracts at an eligible institution;

(G) enhance STEM curriculum and research training opportunities at the undergraduate, graduate, and postdoctoral levels at an eligible institution;

(H) further faculty development initiatives and strengthen institutional research training infrastructure, capacity, and competitiveness of an eligible institution;

(I) address plans and prospects for long-term sustainability of institutional enhancements at an eligible institution resulting from the award including, if applicable, how the award may be leveraged by an eligible institution to build a broader base of support; and

(J) develop and implement mechanisms for institutions of higher education to partner with HBCUs, TCUs, and MSIs on STEM education, including the facilitation of student exchanges, course and resource sharing, collaboration, and matriculation of students to either institution's graduate programs, mentoring programs for students and junior faculty, joint research projects, and student access to graduate education; and

(2) as relevant, a plan, which shall be updated every three years, that describes the institution's strategy to achieve very high research activity status, including making investments with institutional and non-Federal funds, to achieve that status within a decade of the grant award, to the extent practicable.

(f) MSI Centers of Innovation

Awards under this section may fund the establishment of not more than five MSI Centers of Innovation to leverage successes of HBCUs, TCUs, and MSIs in STEM education and research training of underrepresented minority students as models for other institutions, including both HBCUs, TCUs, and MSIs and institutions of higher education that are not HBCUs, TCUs, or MSIs. Such centers will be located on campuses of selected HBCUs, TCUs, or MSIs, and serve as incubators to allow institutions of higher education to experiment, pilot, evaluate, and scale up promising practices.

(g) Awards

Awards made under this subsection shall be for periods of three years and may be extended for periods of not more than five years.

(h) Authorization of appropriations

There are authorized to be appropriated to the Director \$200,000,000 for fiscal year 2023 and \$250,000,000 for each of fiscal years 2024 through 2027 to carry out the activities in this section and section 19182 of this title.

(i) Report on improving the research capacity at high research activity Historically Black Colleges and Universities

(1) In general

Not later than one year after August 9, 2022, the National Science and Technology Council shall prepare and submit a report that—

(A) identifies challenges and barriers to Federal research and development awards for high research activity status HBCUs; and

(B) identifies recommendations for Federal research agencies to sustainably boost the research capacity of high research activity status HBCUs through awards-making authorities.

(2) Report submission

The National Science and Technology Council shall transmit the report required under paragraph (1) to the Director, the Administrator of the National Aeronautics and Space Administration, the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Defense, the Secretary of Energy, the Secretary of Health and Human Services, and the heads of other such agencies as determined relevant by the National Science and Technology Council.

(3) Information from Federal agencies

The National Science and Technology Council may secure directly from a Federal department or agency such information as the National Science and Technology Council considers necessary to prepare the report required under paragraph (1). Upon a request from the National Science and Technology Council, the head of a Federal department or agency shall furnish such information as is requested to the National Science and Technology Council.

(Pub. L. 117–167, div. B, title V, §10524, Aug. 9, 2022, 136 Stat. 1623.)

§19184. Definitions

In this part:

(1) Director

The term "Director" means the Director of the National Science Foundation.

(2) HBCU

The term "HBCU" has the meaning given the term "part B institution" in section 1061 of title 20.

(3) Minority serving institution

The term "minority serving institution" or "MSI" means Hispanic-Serving Institutions as

defined in section 1101a) of title 20; Alaska Native Serving Institutions and Native Hawaiian-Serving Institutions as defined in section 1059d of title 20; and Predominantly Black Institutions, Asian American and Native American Pacific Islander-Serving Institutions, and Native American-Serving Nontribal Institutions as defined in section 1067q of title 20.

(4) TCU

The term "TCU" has the meaning given the term "Tribal College or University" in section 1059c of title 20.

(Pub. L. 117–167, div. B, title V, §10526, Aug. 9, 2022, 136 Stat. 1627.)

PART D—COMBATING SEXUAL HARASSMENT IN SCIENCE

§19191. Findings

Congress makes the following findings:

(1) According to the report issued by the National Academies of Sciences, Engineering, and Medicine in 2018 entitled "Sexual Harassment of Women: Climate, Culture, and Consequences in Academic Sciences, Engineering, and Medicine"—

(A) sexual harassment is pervasive in institutions of higher education;

(B) the most common type of sexual harassment is gender harassment;

(C) 58 percent of individuals in the academic workplace experience sexual harassment, the second highest rate when compared to the military, the private sector, and Federal, State, and local government;

(D) women who are members of racial or ethnic minority groups are more likely to experience sexual harassment and to feel unsafe at work than White women, White men, or men who are members of such groups;

(E) the training for each individual who has a Doctor of Philosophy in the science, technology, engineering, and mathematics fields is estimated to cost approximately \$500,000; and

(F) attrition of an individual so trained results in a loss of talent and money.

(2) According to a 2017 University of Illinois study, among astronomers and planetary scientists, 18 percent of women who are members of racial or ethnic minority groups and 12 percent of White women skipped professional events because they did not feel safe attending.

(3) Reporting procedures with respect to sexual harassment are inconsistent among Federal research agencies and have varying degrees of accessibility.

(4) There is not adequate communication among Federal research agencies and between such agencies and recipients regarding reports of sexual harassment, which has resulted in harassers receiving Federal funding after moving to a different institution.

(Pub. L. 117–167, div. B, title V, §10531, Aug. 9, 2022, 136 Stat. 1627.)

§19192. Purpose

The purpose of this part is to increase understanding of the causes and consequences of sex-based and sexual harassment, as discussed in the report issued by the National Academies in 2018 entitled "Sexual Harassment of Women: Climate, Culture, and Consequences in Academic Sciences, Engineering, and Medicine", and to advance evidence-based approaches to reduce the prevalence and negative impact of such harassment.

(Pub. L. 117–167, div. B, title V, §10532, Aug. 9, 2022, 136 Stat. 1628.)

§19193. Definition

In this part, the term "Director" means the Director of the National Science Foundation.
(Pub. L. 117–167, div. B, title V, §10533, Aug. 9, 2022, 136 Stat. 1628.)

§19194. Research awards

(a) In general

The Director shall make awards, on a competitive basis, to institutions of higher education or nonprofit organizations (or consortia of such institutions or organizations)—

(1) to expand research efforts to better understand the factors contributing to, and consequences of, sex-based and sexual harassment affecting individuals in the STEM workforce, including students and trainees; and

(2) to examine approaches to reduce the incidence and negative consequences of such harassment.

(b) Use of funds

Activities funded by an award under this section may include—

(1) research on the sex-based and sexual harassment experiences of individuals, including in racial and ethnic minority groups, disabled individuals, foreign nationals, sexual-minority individuals, and others;

(2) development and assessment of policies, procedures, trainings, and interventions, with respect to sex-based and sexual harassment, conflict management, and ways to foster respectful and inclusive climates;

(3) research on approaches for remediating the negative impacts and outcomes of such harassment on individuals experiencing such harassment;

(4) support for institutions of higher education or nonprofit organizations to develop, adapt, implement, and assess the impact of innovative, evidence-based strategies, policies, and approaches to policy implementation to prevent and address sex-based and sexual harassment;

(5) research on alternatives to the power dynamics, hierarchical, and dependent relationships, including but not limited to the mentor-mentee relationship, in academia that have been shown to create higher levels of risk for and lower levels of reporting of sex-based and sexual harassment; and

(6) establishing a center for the ongoing compilation, management, and analysis of organizational climate survey data.

(Pub. L. 117–167, div. B, title V, §10534, Aug. 9, 2022, 136 Stat. 1628.)

§19195. Interagency working group

(a) In general

The Director of the Office of Science and Technology Policy, acting through the National Science and Technology Council, shall establish or designate an interagency working group for the purpose of coordinating Federal research agency efforts to reduce the prevalence of sex-based and sexual harassment involving award personnel. In coordination with the working group on inclusion in STEM fields established under section 6626 of this title and the Safe Inclusive Research Environments Subcommittee of the National Science and Technology Council, and in consultation with representatives from each Federal research agency, the Office for Civil Rights at the Department of Health and Human Services, the Office for Civil Rights at the Department of Education, and the Equal Employment Opportunity Commission, the working group shall—

(1) not later than 90 days after August 9, 2022, submit to the Committee on Science, Space, and Technology, the Committee on Education and Labor, and the Committee on Energy and

Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation and the Committee on Health, Education, Labor, and Pensions of the Senate an inventory of Federal research agency policies, procedures, and resources dedicated to preventing and responding to reports of sex-based and sexual harassment;

(2) not later than 6 months after the date on which the inventory is submitted under paragraph (1)—

(A) in consultation with outside stakeholders, develop a consistent set of policy guidelines for Federal research agencies; and

(B) submit a report to the committees referred to in paragraph (1) containing such guidelines;

(3) encourage and monitor efforts of Federal research agencies to develop or maintain and implement policies based on the guidelines developed under paragraph (2);

(4) not later than 1 year after the date on which the inventory under paragraph (1) is submitted, and every 5 years thereafter, the Director of the Office of Science and Technology Policy shall report to Congress on the implementation by Federal research agencies of the policy guidelines developed under paragraph (2); and

(5) update such policy guidelines as needed.

(b) Requirements

In developing policy guidelines under subsection (a)(2), the Director of the Office of Science and Technology Policy shall include guidelines that require, to the extent practicable—

(1) recipients to submit to the Federal research agency or agencies from which the recipients receive funding reports relating to—

(A) any decision made to launch a formal investigation of sex-based or sexual harassment, including bullying, retaliation, or hostile working conditions by, or of, award personnel;

(B) administrative action, related to an allegation against award personnel of any such harassment, as set forth in organizational policies or codes of conduct, statutes, regulations, or executive orders, that affects the ability of award personnel or their trainees to carry out the activities of the award;

(C) the total number of investigations with no findings or determinations of misconduct including such harassment;

(D) findings or determinations of such harassment, as set forth in organizational policies or codes of conduct, statutes, regulations, or Executive orders by, or of, award personnel, including the final disposition of a matter involving a violation of organizational policies and processes, to include the exhaustion of permissible appeals, or a determination of a sexual offense in a court of law, or any other disciplinary action taken;

(2) the sharing, updating, and archiving of reports of sex- based and sexual harassment from recipients submitted under paragraph (1) with relevant Federal research agencies, on a yearly basis and by agency request; and

(3) consistency among Federal research agencies with regard to the policies and procedures for receiving reports submitted pursuant to paragraph (1).

(4) FERPA

The Director of the Office of Science and Technology Policy shall ensure that such guidelines and requirements are consistent with the requirements of section 1232g of title 20 (commonly referred to as the "Family Educational Rights and Privacy Act of 1974").

(5) Privacy protections

The Director of the Office of Science and Technology Policy shall ensure that such guidelines and requirements—

(A) do not infringe upon the privacy rights of individuals associated with reports submitted to Federal research agencies; and

(B) do not require recipients to provide interim reports to Federal research agencies.

(c) Considerations

In carrying out subsection (a)(2), the Director of the Office of Science and Technology Policy shall consider issuing guidelines that require or incentivize—

- (1) recipients to periodically assess their organizational climate, which may include the use of climate surveys, focus groups, or exit interviews;
- (2) recipients to publish on a publicly available internet website the results of assessments conducted pursuant to paragraph (1), disaggregated by sex and, if practicable, race, ethnicity, disability status, and sexual orientation, and in a manner that does not include personally identifiable information;
- (3) recipients to make public on an annual basis the number of reports of sex-based and sexual harassment at that institution or organization;
- (4) recipients to regularly assess and improve policies, procedures, and interventions to reduce the prevalence of and improve the reporting of sex-based and sexual harassment;
- (5) each entity applying for a research and development award certify that a code of conduct is in place for maintaining a healthy and welcoming workplace for award personnel and posted on their public website;
- (6) each recipient and Federal research agency to have in place mechanisms for addressing the needs of individuals who have experienced sex-based and sexual harassment, including those individuals seeking to reintegrate at the recipient entity; and
- (7) recipients to work to create a climate intolerant of sex-based and sexual harassment and that values and promotes diversity and inclusion.

(d) Federal research agency implementation

Not later than 270 days after receiving the guidelines under paragraph (a)(2), each Federal research agency shall—

- (1) develop or maintain and implement policies with respect to sex-based and sexual harassment that are consistent with policy guidelines under subsection (a)(2) and that protect the privacy of all parties involved in any report and investigation of sex-based or sexual harassment, to the maximum extent practicable; and
- (2) broadly disseminate such policies to current and potential recipients of research and development awards made by such agency.

(Pub. L. 117–167, div. B, title V, §10536, Aug. 9, 2022, 136 Stat. 1629.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

CHANGE OF NAME

Committee on Education and Labor of House of Representatives changed to Committee on Education and the Workforce of House of Representatives by House Resolution No. 5, One Hundred Eighteenth Congress, Jan. 9, 2023.

SUBCHAPTER VI—MISCELLANEOUS SCIENCE AND TECHNOLOGY PROVISIONS

PART A—SUPPORTING EARLY-CAREER RESEARCHERS

§19211. Early-career research fellowship program

(a) In general

The Director of the National Science Foundation may establish a 2-year pilot program to make awards to highly qualified early-career investigators to carry out an independent research program at the institution of higher education or participating Federal research facility chosen by such investigator, to last for a period not greater than two years.

(b) Selection process

The Director of the National Science Foundation shall select recipients under subsection (a) from among citizens, nationals, and lawfully admitted permanent resident aliens of the United States.

(c) Outreach

The Director of the National Science Foundation shall conduct program outreach to recruit fellowship applicants—

- (1) from all regions of the country;
- (2) from historically underrepresented populations in the fields of science, technology, engineering, and mathematics; and
- (3) who graduate from or intend to carry out research at a variety of types of institutions of higher education, including—
 - (A) historically Black colleges and universities;
 - (B) Tribal Colleges and Universities;
 - (C) minority-serving institutions;
 - (D) institutions of higher education that are not among the top 50 institutions in annual Federal funding for research; and
 - (E) EPSCoR institutions.

(d) Special consideration

The Director of the National Science Foundation shall give special consideration and priority to an application from an individual who graduated from or is intending to carry out research at an institution of the type specified in subsection (c)(3).

(e) Reports from fellows

Not later than 180 days after the end of the pilot program under this section, each early-career investigator who receives an award under the pilot program shall submit to the Director of the National Science Foundation a report that describes how the early-career investigator used the award funds.

(f) Report from the Director

Not later than 90 days after the conclusion of the second year of the pilot program, the Director of the National Science Foundation shall submit to Congress a report that includes the following:

- (1) A summary of the uses of award funds under this section and the impact of the pilot program under this section.
- (2) Statistical summary data on fellowship awardees disaggregated by race, ethnicity, sex, geography, age, years since completion of doctoral degree, and institution type.
- (3) If determined effective, a plan for permanent implementation of the pilot program.

(Pub. L. 117–167, div. B, title VI, §10601, Aug. 9, 2022, 136 Stat. 1632.)

PART B—NATIONAL SCIENCE AND TECHNOLOGY STRATEGY

§19221. Strategy and report on the nation's economic security, science, research, and innovation to support the national security strategy

(a) Definitions

In this section:

(1) Foreign country of concern

The term "foreign country of concern" means the People's Republic of China, the Democratic People's Republic of Korea, the Russian Federation, the Islamic Republic of Iran, or any other country determined to be a country of concern by the Department of State.

(2) Foreign entity of concern

The term "foreign entity of concern" means a foreign entity that is—

(A) designated as a foreign terrorist organization by the Secretary of State under section 1189(a) of title 8;

(B) included on the list of specially designated nationals and blocked persons maintained by the Office of Foreign Assets Control of the Department of the Treasury (commonly known as the SDN list);

(C) owned by, controlled by, or subject to the jurisdiction or direction of a government of a foreign country that is a covered nation (as such term is defined in section 4872 of title 10);

(D) alleged by the Attorney General to have been involved in activities for which a conviction was obtained under—

(i) chapter 37 of title 18 (commonly known as the Espionage Act);

(ii) section 951 or 1030 of title 18;

(iii) chapter 90 of title 18 (commonly known as the Economic Espionage Act of 1996);

(iv) the Arms Export Control Act (22 U.S.C. 2751 et seq.);

(v) section 2274, 2275, 2276, 2277, or 2284 of this title;

(vi) the Export Control Reform Act of 2018 (50 U.S.C. 4801 et seq.); or

(vii) the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq.); or

(E) determined by the Secretary of Commerce, in consultation with the Secretary of Defense and the Director of National Intelligence, to be engaged in unauthorized conduct that is detrimental to the national security or foreign policy of the United States.

(3) National security strategy

The term "national security strategy" means the national security strategy required under section 3043 of title 50.

(b) Strategy and report

(1) In general

Not later than 90 days after the transmission of each national security strategy under section 3043(a) of title 50, the President, acting through the Director of the Office of Science and Technology Policy, shall, in coordination with the National Science and Technology Council, the National Security Council, the Director of the National Economic Council, and the heads of such other relevant Federal agencies as the Director of the Office of Science and Technology Policy considers appropriate and in consultation with such nongovernmental partners as the Director of the Office of Science and Technology Policy considers appropriate—

(A) review such strategy, including the national defense strategy under subsection (g) of section 113 of title 10 and the national science and technology strategy under section 6615 of this title, programs, and resources as the Director of the Office of Science and Technology Policy determines pertain to United States' national competitiveness in science, technology, research, innovation, and technology transfer activities, including patenting and licensing, that support the national security strategy;

(B) develop or revise a national strategy to improve the national competitiveness of United States science, technology, research, and innovation to support the national security strategy; and

(C) submit to Congress—

(i) a report on the findings of the Director of the Office of Science and Technology Policy with respect to the review conducted pursuant to subparagraph (A); and

(ii) the strategy developed or revised pursuant to subparagraph (B).

(2) Termination

This subsection terminates on the date that is 5 years after August 9, 2022.

(c) Elements

(1) Report

Each report submitted under subsection (b)(1)(C)(i) shall include the following:

(A) An assessment of the efforts of the United States Government to preserve United States leadership in key emerging technologies and prevent United States strategic competitors from leveraging advanced technologies to gain strategic military or economic advantages over the United States.

(B) An assessment of public and private investment in science and technology relevant to national security purposes, and the implications of such for the geostrategic position of the United States.

(C) A description of the prioritized economic security interests and objectives.

(D) An assessment of global trends in science and technology, including potential threats to the national security of the United States in science and technology.

(E) An assessment of the national debt and its implications for the economic and national security of the United States.

(F) An assessment of how regional innovation capacity efforts in STEM fields are contributing and could contribute to the national security the United States, including programs run by State and local governments.

(G) An assessment of the following:

(i) Workforce needs for competitiveness in technology areas identified in the national security strategy.

(ii) Any efforts needed to expand pathways into technology fields to achieve the goals of the national security strategy.

(H) An assessment of barriers to the development, evolution, or competitiveness of start-ups, small and mid-sized business entities, and industries that are critical to national security.

(I) An assessment of the effectiveness of the Federal Government, federally funded research and development centers, and national laboratories in supporting and promoting the technology commercialization and technology transfer of technologies critical to national security.

(J) An assessment of manufacturing capacity, logistics, and supply chain dynamics of major export sectors that are critical to national security, including access to a skilled workforce, physical infrastructure, and broadband network infrastructure.

(K) An assessment of how the Federal Government is increasing the participation of underrepresented populations in science, research, innovation, and manufacturing.

(L) An assessment of public-private partnerships in technology commercialization in support of national security, including—

(i) the structure of current defense technology research and commercialization arrangements with regard to public-private partnerships; and

(ii) the extent to which intellectual property developed with Federal defense funding—

(I) is being used to manufacture in the United States rather than in other countries; and

(II) is being used by foreign business entities that are majority owned or controlled (as such term is defined in section 800.208 of title 31, Code of Federal Regulations, or a successor regulation), or minority owned greater than 25 percent by—

(aa) any governmental organization of a foreign country of concern; or

(bb) any other entity that is—

(AA) known to be owned or controlled by any governmental organization of a foreign country of concern; or

(BB) organized under, or otherwise subject to, the laws of a foreign country of concern.

(M) Recommendations to enhance the ability of the Federal Government to recruit into Federal service and retain in such service individuals with critical skills relevant to national security.

(N) Recommendations for policies to protect United States leadership and the allies of the United States in critical areas relevant to national security through targeted export controls, investment screening, and counterintelligence activities.

(O) Informed by the interagency process established under section 1758 of the Export Control Reform Act of 2018 [50 U.S.C. 4817], a technology annex, which may be classified, describing an integrated and enduring approach to the identification, prioritization, development, and fielding of emerging technologies relevant to national security.

(2) Strategy

Each strategy submitted under subsection (b)(1)(C)(ii) shall, to the extent practicable, include the following:

(A) A plan to utilize available tools to address or minimize the leading threats and challenges and to take advantage of the leading opportunities, particularly in regards to technologies central to international competition in science and technology relevant to national security purposes, including the following:

(i) Specific objectives, tasks, metrics, and milestones for each relevant Federal agency.

(ii) Strategic objectives and priorities necessary to maintain the leadership of the United States in science and technology relevant to national security purposes, including near-term, medium-term, and long-term research priorities.

(iii) Specific plans to safeguard research and technology funded, as appropriate, in whole or in part, by the Federal Government, including in technologies critical to national security, from theft or exfiltration by foreign entities of concern.

(iv) Specific plans to support public and private sector investment in research, technology development, education and workforce development, and domestic manufacturing supportive of the national security of the United States and to foster the use of public-private partnerships.

(v) A description of the following:

(I) How the strategy submitted under subsection (b)(1)(C)(ii) supports the national security strategy.

(II) How the strategy submitted under such subsection is integrated and coordinated with the most recent—

(aa) national defense strategy under subsection (g) of section 113 of title 10; and

(bb) national science and technology strategy under section 6615 of this title.

(vi) A plan to encourage the governments of countries that are allies or partners of the United States to cooperate with the execution of such strategy, where appropriate.

(vii) A plan for strengthening the industrial base of the United States.

(viii) A plan to remove or update overly burdensome or outdated Federal regulations, as appropriate.

(ix) A plan—

(I) to further incentivize industry participation in public-private partnerships for the purposes of accelerating technology research and commercialization in support of national security, including alternate ways of accounting for in-kind contributions and valuing partially manufactured products;

(II) to ensure that intellectual property developed with Federal funding is commercialized in the United States; and

(III) to ensure, to the maximum appropriate extent, that intellectual property developed with Federal funding is not being used by foreign business entities that are majority owned or controlled (as such term is defined in section 800.208 of title 31, Code of Federal Regulations, or a successor regulation), or minority owned greater than 25 percent by—

(aa) any governmental organization of a foreign country of concern; or

(bb) any other entity that is—

(AA) known to be owned or controlled by any governmental organization of a foreign country of concern; or

(BB) organized under, or otherwise subject to, the laws of a foreign country of concern.

(x) An identification of additional resources, administrative action, or legislative action recommended to assist with the implementation of such strategy.

(d) Research and development funding

The Director of the Office of Science and Technology Policy shall, as the Director of the Office of Science and Technology Policy considers necessary, consult with the Director of the Office of Management and Budget and with the heads of such other elements of the Executive Office of the President as the Director of the Office of Science and Technology Policy considers appropriate to ensure the recommendations and priorities with respect to research and development funding relevant to national security, as expressed in the most recent report and strategy submitted under subsection (b)(1)(C) are incorporated into the development of annual budget requests for Federal research agencies.

(e) Publication

The Director of the Office of Science and Technology Policy shall, consistent with the protection of national security and other sensitive matters and to the maximum extent practicable, make each report submitted under subsection (b)(1)(C)(i) publicly available on an internet website of the Office of Science and Technology Policy. Each such report may include a classified annex if the Director of the Office of Science and Technology Policy determines such is appropriate.

(Pub. L. 117–167, div. B, title VI, §10612, Aug. 9, 2022, 136 Stat. 1635.)

The International Emergency Economic Powers Act, referred to in subsec. (a)(2)(D)(vii), is title II of Pub. L. 95–223, Dec. 28, 1977, 91 Stat. 1626, which is classified generally to chapter 35 (§1701 et seq.) of Title 50, War and National Defense. For complete classification of this Act to the Code, see Short Title note set out under section 1701 of Title 50 and Tables.

§19222. National research and development strategy for distributed ledger technology

(a) Definitions

In this section:

(1) Director

Except as otherwise expressly provided, the term "Director" means the Director of the Office of Science and Technology Policy.

(2) Distributed ledger

The term "distributed ledger" means a ledger that—

- (A) is shared across a set of distributed nodes, which are devices or processes, that participate in a network and store a complete or partial replica of the ledger;
- (B) is synchronized between the nodes;
- (C) has data appended to it by following the ledger's specified consensus mechanism;
- (D) may be accessible to anyone (public) or restricted to a subset of participants (private); and
- (E) may require participants to have authorization to perform certain actions (engaging) or require no authorization (permissionless).

(3) Distributed ledger technology

The term "distributed ledger technology" means technology that enables the operation and use of distributed ledgers.

(4) Institution of higher education

The term "institution of higher education" has the meaning given the term in section 1001 of title 20.

(5) Relevant congressional committees

The term "relevant congressional committees" means—

- (A) the Committee on Commerce, Science, and Transportation of the Senate; and
- (B) the Committee on Science, Space, and Technology of the House of Representatives.

(6) Smart contract

The term "smart contract" means a computer program stored in a distributed ledger system that is executed when certain predefined conditions are satisfied and wherein the outcome of any execution of the program may be recorded on the distributed ledger.

(b) National distributed ledger technology research and development strategy

(1) In general

The Director, or a designee of the Director, shall, in coordination with the National Science and Technology Council, and the heads of such other relevant Federal agencies and entities as the Director considers appropriate, which may include the National Academies, and in consultation with such nongovernmental entities as the Director considers appropriate, develop a national strategy for the research and development of distributed ledger technologies and their applications, including applications of public and permissionless distributed ledgers. In developing the national strategy, the Director shall consider the following:

(A) Current efforts and coordination by Federal agencies to invest in the research and development of distributed ledger technologies and their applications, including through programs like the Small Business Innovation Research program, the Small Business Technology Transfer program, and the National Science Foundation's Innovation Corps programs.

(B)(i) The potential benefits and risks of applications of distributed ledger technologies across different industry sectors, including their potential to—

- (I) lower transactions costs and facilitate new types of commercial transactions;
- (II) protect privacy and increase individuals' data sovereignty;
- (III) reduce friction to the interoperability of digital systems;
- (IV) increase the accessibility, auditability, security, efficiency, and transparency of digital services;
- (V) increase market competition in the provision of digital services;
- (VI) enable dynamic contracting and contract execution through smart contracts;
- (VII) enable participants to collaborate in trustless and disintermediated environments;
- (VIII) enable the operations and governance of distributed organizations;
- (IX) create new ownership models for digital items; and
- (X) increase participation of populations historically underrepresented in the technology,

business, and financial sectors.

(ii) In consideration of the potential risks of applications of distributed ledger technologies under clause (i), the Director shall take into account, where applicable—

(I) additional risks that may emerge from distributed ledger technologies, as identified in reports submitted to the President pursuant to Executive Order 14067, that may be addressed by research and development;

(II) software vulnerabilities in distributed ledger technologies and smart contracts;

(III) limited consumer literacy on engaging with applications of distributed ledger technologies in a secure way;

(IV) the use of distributed ledger technologies in illicit finance and their use in combating illicit finance;

(V) manipulative, deceptive, and fraudulent practices that harm consumers engaging with applications of distributed ledger technologies;

(VI) the implications of different consensus mechanisms for digital ledgers and governance and accountability mechanisms for applications of distributed ledger technologies, which may include decentralized networks;

(VII) foreign activities in the development and deployment of distributed ledger technologies and their associated tools and infrastructure; and

(VIII) environmental, sustainability, and economic impacts of the computational resources required for distributed ledger technologies.

(C) Potential uses for distributed ledger technologies that could improve the operations and delivery of services by Federal agencies, taking into account the potential of digital ledger technologies to—

(i) improve the efficiency and effectiveness of privacy-preserving data sharing among Federal agencies and with State, local, territorial, and Tribal governments;

(ii) promote government transparency by improving data sharing with the public;

(iii) introduce or mitigate risks that may threaten individuals' rights or broad access to Federal services;

(iv) automate and modernize processes for assessing and ensuring regulatory compliance; and

(v) facilitate broad access to financial services for underserved and underbanked populations.

(D) Ways to support public and private sector dialogue on areas of research that could enhance the efficiency, scalability, interoperability, security, and privacy of applications using distributed ledger technologies.

(E) The need for increased coordination of the public and private sectors on the development of voluntary standards in order to promote research and development, including standards regarding security, smart contracts, cryptographic protocols, virtual routing and forwarding, interoperability, zero-knowledge proofs, and privacy, for distributed ledger technologies and their applications.

(F) Applications of distributed ledger technologies that could positively benefit society but that receive relatively little private sector investment.

(G) The United States position in global leadership and competitiveness across research, development, and deployment of distributed ledger technologies.

(2) Consultation

(A) In general

In carrying out the Director's duties under this subsection, the Director shall consult with the following:

(i) Private industry.

- (ii) Institutions of higher education, including minority-serving institutions.
- (iii) Nonprofit organizations, including foundations dedicated to supporting distributed ledger technologies and their applications.
- (iv) State governments.
- (v) Such other persons as the Director considers appropriate.

(B) Representation

The Director shall ensure consultations with the following:

- (i) Rural and urban stakeholders from across the Nation.
- (ii) Small, medium, and large businesses.
- (iii) Subject matter experts representing multiple industrial sectors.
- (iv) A demographically diverse set of stakeholders.

(3) Coordination

In carrying out this subsection, the Director shall, for purposes of avoiding duplication of activities, consult, cooperate, and coordinate with the programs and policies of other relevant Federal agencies, including the interagency process outlined in section 3 of Executive Order 14067 (87 Fed. Reg. 14143; relating ensuring responsible development of digital assets).

(4) National strategy

Not later than 1 year after December 23, 2022, the Director shall submit to the relevant congressional committees and the President a national strategy that includes the following:

- (A) Priorities for the research and development of distributed ledger technologies and their applications.
- (B) Plans to support public and private sector investment and partnerships in research and technology development for societally beneficial applications of distributed ledger technologies.
- (C) Plans to mitigate the risks of distributed ledger technologies and their applications.
- (D) An identification of additional resources, administrative action, or legislative action recommended to assist with the implementation of such strategy.

(5) Research and development funding

The Director shall, as the Director considers necessary, consult with the Director of the Office of Management and Budget and with the heads of such other elements of the Executive Office of the President as the Director considers appropriate, to ensure that the recommendations and priorities with respect to research and development funding, as expressed in the national strategy developed under this subsection, are incorporated in the development of annual budget requests for Federal research agencies.

(c) Distributed ledger technology research

(1) In general

Subject to the availability of appropriations, the Director of the National Science Foundation shall make awards, on a competitive basis, to institutions of higher education, including minority-serving institutions, or nonprofit organizations (or consortia of such institutions or organizations) to support research, including interdisciplinary research, on distributed ledger technologies, their applications, and other issues that impact or are caused by distributed ledger technologies, which may include research on—

- (A) the implications on trust, transparency, privacy, accessibility, accountability, and energy consumption of different consensus mechanisms and hardware choices, and approaches for addressing these implications;
- (B) approaches for improving the security, privacy, resiliency, interoperability, performance, and scalability of distributed ledger technologies and their applications, which may include decentralized networks;
- (C) approaches for identifying and addressing vulnerabilities and improving the performance and expressive power of smart contracts;
- (D) the implications of quantum computing on applications of distributed ledger

technologies, including long-term protection of sensitive information (such as medical or digital property), and techniques to address them;

(E) game theory, mechanism design, and economics underpinning and facilitating the operations and governance of decentralized networks enabled by distributed ledger technologies;

(F) the social behaviors of participants in decentralized networks enabled by distributed ledger technologies;

(G) human-centric design approaches to make distributed ledger technologies and their applications more usable and accessible;

(H) use cases for distributed ledger technologies across various industry sectors and government, including applications pertaining to—

(i) digital identity, including trusted identity and identity management;

(ii) digital property rights;

(iii) delivery of public services;

(iv) supply chain transparency;

(v) medical information management;

(vi) inclusive financial services;

(vii) community governance;

(viii) charitable giving;

(ix) public goods funding;

(x) digital credentials;

(xi) regulatory compliance;

(xii) infrastructure resilience, including against natural disasters; and

(xiii) peer-to-peer transactions; and

(I) the social, behavioral, and economic implications associated with the growth of applications of distributed ledger technologies, including decentralization in business, financial, and economic systems.

(2) Accelerating innovation

The Director of the National Science Foundation shall consider continuing to support startups that are in need of funding, would develop in and contribute to the economy of the United States, leverage distributed ledger technologies, have the potential to positively benefit society, and have the potential for commercial viability, through programs like the Small Business Innovation Research program, the Small Business Technology Transfer program, and, as appropriate, other programs that promote broad and diverse participation.

(3) Consideration of national distributed ledger technology research and development strategy

In making awards under paragraph (1), the Director of the National Science Foundation shall take into account the national strategy, as described in subsection (b)(4).

(4) Fundamental research

The Director of the National Science Foundation shall consider continuing to make awards supporting fundamental research in areas related to distributed ledger technologies and their applications, such as applied cryptography and distributed systems.

(d) Distributed ledger technology applied research project

(1) Applied research project

Subject to the availability of appropriations, the Director of the National Institute of Standards and Technology, may carry out an applied research project to study and demonstrate the potential benefits and unique capabilities of distributed ledger technologies.

(2) Activities

In carrying out the applied research project, the Director of the National Institute of Standards and Technology shall—

(A) identify potential applications of distributed ledger technologies, including those that could benefit activities at the Department of Commerce or at other Federal agencies, considering applications that could—

(i) improve the privacy and interoperability of digital identity and access management solutions;

(ii) increase the integrity and transparency of supply chains through the secure and limited sharing of relevant supplier information;

(iii) facilitate broader participation in distributed ledger technologies of populations historically underrepresented in technology, business, and financial sectors; or

(iv) be of benefit to the public or private sectors, as determined by the Director in consultation with relevant stakeholders;

(B) solicit and provide the opportunity for public comment relevant to potential projects;

(C) consider, in the selection of a project, whether the project addresses a pressing need not already addressed by another organization or Federal agency;

(D) establish plans to mitigate potential risks, including those outlined in subsection (b)(1)(B)(ii), if applicable, of potential projects;

(E) produce an example solution leveraging distributed ledger technologies for 1 of the applications identified in subparagraph (A);

(F) hold a competitive process to select private sector partners, if they are engaged, to support the implementation of the example solution;

(G) consider hosting the project at the National Cybersecurity Center of Excellence; and

(H) ensure that cybersecurity best practices consistent with the Cybersecurity Framework of the National Institute of Standards and Technology are demonstrated in the project.

(3) Briefings to Congress

Not later than 1 year after December 23, 2022, the Director of the National Institute of Standards and Technology shall offer a briefing to the relevant congressional committees on the progress and current findings from the project under this subsection.

(4) Public report

Not later than 12 months after the completion of the project under this subsection, the Director of the National Institute of Standards and Technology shall make public a report on the results and findings from the project.

(Pub. L. 117–263, div. E, title LIX, §5913, Dec. 23, 2022, 136 Stat. 3443.)

EDITORIAL NOTES

REFERENCES IN TEXT

Executive Order 14067, referred to in subsec. (b)(1)(B)(ii)(I), (3), is Ex. Ord. No. 14067, Mar. 9, 2022, 87 F.R. 14143, which is set out as a note preceding section 5101 of Title 31, Money and Finance.

CODIFICATION

Section was enacted as part of the James M. Inhofe National Defense Authorization Act for Fiscal Year 2023, and not as part of the Research and Development, Competition, and Innovation Act which in part comprises this chapter.

PART C—RESEARCH SECURITY

§19231. Requirements for foreign talent recruitment programs

(a) Purpose

The purpose of this part is to direct actions to prohibit participation in any foreign talent recruitment program by personnel of Federal research agencies and to prohibit participation in a malign foreign talent recruitment program by covered individuals involved with research and development awards from those agencies.

(b) Guidance

Not later than 180 days after August 9, 2022, the Director of the Office of Science and Technology Policy, in coordination with the interagency working group established under section 1746 of the National Defense Authorization Act for Fiscal Year 2020 (42 U.S.C. 6601 note; Public Law 116–92), shall publish and widely distribute a uniform set of guidelines for Federal research agencies regarding foreign talent recruitment programs. Such policy guidelines shall—

(1) prohibit all personnel of each Federal research agency, including Federal employees, contract employees, independent contractors, individuals serving under the Intergovernmental Personnel Act of 1970 (42 U.S.C. 4701 et seq ¹), Visiting Scientist, Engineering, and Educator appointments, and special government employees other than peer reviewers, from participating in a foreign talent recruitment program;

(2) as part of the requirements under section 6605 of this title, require covered individuals to disclose if such individuals are a party to a foreign talent recruitment program contract, agreement, or other arrangement;

(3) prohibit research and development awards from being made for any proposal in which a covered individual is participating in a malign foreign talent recruitment program; and

(4) to the extent practicable, require recipient institutions to prohibit covered individuals participating in malign foreign talent recruitment programs from working on projects supported by research and development awards.

(c) Definition of foreign talent recruitment programs

As part of the guidance under subsection (b), the Director of the Office of Science and Technology Policy shall define and describe the characteristics of a foreign talent recruitment program.

(d) Implementation

Not later than one year after August 9, 2022, each Federal research agency shall issue a policy utilizing the guidelines under subsection (b).

(e) Consistency

The Director of the Office of Science and Technology Policy shall ensure that the policies issued by the Federal research agencies under subsection (d) are consistent to the greatest extent practicable. (Pub. L. 117–167, div. B, title VI, §10631, Aug. 9, 2022, 136 Stat. 1664.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Intergovernmental Personnel Act of 1970, referred to in subsec. (b)(1), is Pub. L. 91–648, Jan. 5, 1971, 84 Stat. 1909, which is classified principally to chapter 62 (§4701 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 4701 of this title and Tables.

¹ *So in original. Probably should be followed by a period.*

§19232. Malign foreign talent recruitment program prohibition

(a) In general

Not later than 24 months after August 9, 2022, each Federal research agency shall establish a policy that, as part of a proposal for a research and development award from the agency—

(1) each covered individual listed in such proposal certify that each such individual is not a

party to a malign foreign talent recruitment program in the proposal submission of each such individual and annually thereafter for the duration of the award; and

(2) each institution of higher education or other organization applying for such an award certify that each covered individual who is employed by such institution of higher education or other organization has been made aware of the requirements under this section and complied with the requirement under paragraph (1).

(b) Stakeholder input

In establishing a policy under subsection (a), Federal research agencies shall publish a description of the proposed policy in the Federal Register and provide an opportunity for submission of public comment for a period of not more than 60 days.

(c) Compliance with existing law

Each Federal research agency and recipient shall comply with title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.) in the establishment of policies pursuant to under ¹ subsection (a).

(d) International collaboration

Each policy developed under subsection (a) shall not prohibit, unless such activities are funded, organized, or managed by an academic institution or a foreign talent recruitment program on the lists developed under paragraphs (8) and (9) of section 1286(c) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (10 U.S.C. 4001 note; Public Law 115–232)—

(1) making scholarly presentations and publishing written materials regarding scientific information not otherwise controlled under current law;

(2) participation in international conferences or other international exchanges, research projects or programs that involve open and reciprocal exchange of scientific information, and which are aimed at advancing international scientific understanding and not otherwise controlled under current law;

(3) advising a foreign student enrolled at an institution of higher education or writing a recommendation for such a student, at such student's request; and

(4) other international activities determined appropriate by the Federal research agency head or designee.

(e) Limitation

The certifications required under subsection (a) shall not apply retroactively to research and development awards made or applied for prior to the establishment of the policy by the Federal research agency.

(f) Training

Each Federal research agency shall ensure that, as a requirement of an award from each such agency, recipient institutions provide training on the risks of malign foreign talent recruitment programs to covered individuals employed at such institutions, including those individuals who are participating in activities described in subsection (d).

(Pub. L. 117–167, div. B, title VI, §10632, Aug. 9, 2022, 136 Stat. 1665.)

¹ *So in original.*

§19233. Review of contracts and agreements

(a) In general

In addition to existing authorities for preventing waste, fraud, abuse, and mismanagement of Federal funds, each Federal research agency shall have the authority to—

(1) require, upon request, the submission to such agency, by an institution of higher education or other organization applying for a research and development award, of supporting documentation, including copies of contracts, grants, or any other agreement specific to foreign appointments, employment with a foreign institution, participation in a foreign talent recruitment program and other information reported as current and pending support for all covered individuals in a research and development award application;

(2) require such institution of higher education or other organization to review any documents requested under paragraph (1) for compliance with the Federal research agency's award terms and conditions, including guidance on conflicts of interest and conflicts of commitment; and

(3) upon receipt and review of the information provided under paragraph (1) and in consultation with the institution of higher education or other organization submitting such information, initiate the substitution or removal of a covered individual from a research and development award, reduce the award funding amount, or suspend or terminate the award if the agency head determines such contracts, grants, or agreements include obligations that—

(A) interfere with the capacity for agency-supported activities to be carried out; or

(B) create duplication with agency-supported activities.

(b) Limitations

In exercising the authorities under subsection (a), each Federal research agency shall—

(1) take necessary steps, as practicable, to protect the privacy of all covered individuals and other parties specified in the documentation submitted under paragraph (1) of such subsection;

(2) endeavor to provide justification for requests for supporting documentation made under such paragraph;

(3) require that allegations be proven by a preponderance of evidence; and

(4) as practicable, afford subjects an opportunity to provide comments and rebuttal and an opportunity to appeal before final administrative action is taken.

(Pub. L. 117–167, div. B, title VI, §10633, Aug. 9, 2022, 136 Stat. 1666.)

§19234. Research security training requirement for Federal research award personnel

(a) Annual training requirement

(1) In general

Not later than 12 months after August 9, 2022, each Federal research agency shall establish a requirement that, as part of an application for a research and development award from the agency—

(A) each covered individual listed on the application for a research and development award certify that each such individual has completed within one year of such application research security training that meets the guidelines developed under subsection (b); and

(B) each institution of higher education or other organization applying for such an award certify that each covered individual who is employed by such institution or organization and listed on the application has completed such training.

(2) Consistency

The Director of the Office of Science and Technology Policy shall ensure that the training requirements established by Federal research agencies pursuant to paragraph (1) are consistent.

(b) Training guidelines

The Director of the Office of Science and Technology Policy, acting through the National Science and Technology Council and in accordance with the authority provided under section 1746(a) of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116–92; 42 U.S.C. 6601 note), shall, taking into consideration stakeholder input, develop guidelines for institutions of higher education and other organizations receiving Federal research and development funds to use in developing their own training programs to address the unique needs, challenges, and risk profiles of such institutions and other organizations, including adoption of security training modules developed under subsection (c), to ensure compliance with National Security Presidential Memorandum–33 (relating to strengthening protections of the United States Government-supported research and development against foreign government interference and exploitation) or any successor documents.

(c) Security training modules

(1) In general

Not later than 90 days after August 9, 2022, the Director of the Office of Science and Technology Policy, in coordination with the Director of the National Science Foundation, the Director of the National Institutes of Health, the Secretary of Energy, and the Secretary of Defense, and in consultation with the heads of relevant Federal research agencies, shall enter into an agreement or contract with a qualified entity for the development of online research security training modules for the research community and participants in the United States research and development enterprise to ensure compliance with National Security Presidential Memorandum–33 or successor documents, including modules—

(A) focused on cybersecurity, international collaboration and international travel, foreign interference, and rules for proper use of funds, disclosure, conflict of commitment, and conflict of interest; and

(B) tailored to the unique needs of—

(i) covered individuals;

(ii) undergraduate students, graduate students, and postdoctoral researchers; and

(iii) applicants for awards under the SBIR and STTR programs (as such terms are defined in section 638(e) of title 15.

(2) Stakeholder input

Prior to entering into the agreement under paragraph (1), the Director of the Office of Science and Technology Policy shall seek input from academic, private sector, intelligence, and law enforcement stakeholders regarding the scope and content of security training modules, including the diversity of needs across institutions of higher education and other recipients of different sizes and types, and recommendations for minimizing administrative burden on recipients and researchers.

(3) Development

The Director of the Office of Science and Technology Policy shall ensure that the entity referred to in paragraph (1)—

(A) develops security training modules that can be adapted and utilized across Federal research agencies; and

(B) develops and implements a plan for regularly updating such modules as needed.

(Pub. L. 117–167, div. B, title VI, §10634, Aug. 9, 2022, 136 Stat. 1667.)

§19235. Person or entity of concern prohibition

No person published on the list under section 1237(b) of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (Public Law 105–261; 50 U.S.C. 1701 note) or entity identified under section 1260h ¹ of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (10 U.S.C. 113 note; Public Law 116–283) may receive or participate in any grant, award, program, support, or other activity under—

- (1) the Directorate established in part G of subchapter III of this chapter;
- (2) section 3722a(b)(1) of title 15, as added by section 10621; or
- (3) the Manufacturing USA Program, as improved and expanded under part D of subchapter II of this chapter.

(Pub. L. 117–167, div. B, title VI, §10636, Aug. 9, 2022, 136 Stat. 1669.)

Section 10621, referred to in par. (2), means section 10621 of Pub. L. 117–167.

Part D of subchapter II of this chapter, referred to in par. (3), was in the original "subtitle E of title II of this division", meaning subtitle E (§§10261–10263) of title II of div. B of Pub. L. 117–167, which is classified principally to part D of subchapter II of this chapter. For complete classification of subtitle E to the Code, see Tables.

¹ So in original. Probably should be "1260H".

§19236. Nondiscrimination

In carrying out requirements under this part, each Federal research agency shall ensure that policies and activities developed and implemented pursuant to this part are carried out in a manner that does not target, stigmatize, or discriminate against individuals on the basis of race, ethnicity, or national origin, consistent with title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.).

(Pub. L. 117–167, div. B, title VI, §10637, Aug. 9, 2022, 136 Stat. 1669.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Civil Rights Act of 1964, referred to in text, is Pub. L. 88–352, July 2, 1964, 78 Stat. 241. Title VI of the Act is classified generally to subchapter V (§2000d et seq.) of chapter 21 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 2000a of this title and Tables.

§19237. Definitions

In this part:

(1) Covered individual

The term "covered individual" means an individual who—

(A) contributes in a substantive, meaningful way to the scientific development or execution of a research and development project proposed to be carried out with a research and development award from a Federal research agency; and

(B) is designated as a covered individual by the Federal research agency concerned.

(2) Foreign country of concern

The term "foreign country of concern" means the People's Republic of China, the Democratic People's Republic of Korea, the Russian Federation, the Islamic Republic of Iran, or any other country determined to be a country of concern by the Secretary of State.

(3) Foreign entity of concern

The term "foreign entity of concern" means a foreign entity that is—

(A) designated as a foreign terrorist organization by the Secretary of State under section 1189(a) of title 8;

(B) included on the list of specially designated nationals and blocked persons maintained by

the Office of Foreign Assets Control of the Department of the Treasury (commonly known as the SDN list);

(C) owned by, controlled by, or subject to the jurisdiction or direction of a government of a foreign country that is a covered nation (as such term is defined in section 4872 of title 10);

(D) alleged by the Attorney General to have been involved in activities for which a conviction was obtained under—

- (i) chapter 37 of title 18 (commonly known as the Espionage Act);
- (ii) section 951 or 1030 of title 18;
- (iii) chapter 90 of title 18 (commonly known as the Economic Espionage Act of 1996);
- (iv) the Arms Export Control Act (22 U.S.C. 2751 et seq.);
- (v) section 2274, 2275, 2276, 2277, or 2284 of this title;
- (vi) the Export Control Reform Act of 2018 (50 U.S.C. 4801 et seq.); or
- (vii) the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq.); or

(E) determined by the Secretary of Commerce, in consultation with the Secretary of Defense and the Director of National Intelligence, to be engaged in unauthorized conduct that is detrimental to the national security or foreign policy of the United States.

(4) Malign foreign talent recruitment program

The term "malign foreign talent recruitment program" means—

(A) any program, position, or activity that includes compensation in the form of cash, in-kind compensation, including research funding, promised future compensation, complimentary foreign travel, things of non de minimis value, honorific titles, career advancement opportunities, or other types of remuneration or consideration directly provided by a foreign country at any level (national, provincial, or local) or their designee, or an entity based in, funded by, or affiliated with a foreign country, whether or not directly sponsored by the foreign country, to the targeted individual, whether directly or indirectly stated in the arrangement, contract, or other documentation at issue, in exchange for the individual—

(i) engaging in the unauthorized transfer of intellectual property, materials, data products, or other nonpublic information owned by a United States entity or developed with a Federal research and development award to the government of a foreign country or an entity based in, funded by, or affiliated with a foreign country regardless of whether that government or entity provided support for the development of the intellectual property, materials, or data products;

(ii) being required to recruit trainees or researchers to enroll in such program, position, or activity;

(iii) establishing a laboratory or company, accepting a faculty position, or undertaking any other employment or appointment in a foreign country or with an entity based in, funded by, or affiliated with a foreign country if such activities are in violation of the standard terms and conditions of a Federal research and development award;

(iv) being unable to terminate the foreign talent recruitment program contract or agreement except in extraordinary circumstances;

(v) through funding or effort related to the foreign talent recruitment program, being limited in the capacity to carry out a research and development award or required to engage in work that would result in substantial overlap or duplication with a Federal research and development award;

(vi) being required to apply for and successfully receive funding from the sponsoring foreign government's funding agencies with the sponsoring foreign organization as the recipient;

(vii) being required to omit acknowledgment of the recipient institution with which the individual is affiliated, or the Federal research agency sponsoring the research and development award, contrary to the institutional policies or standard terms and conditions of the Federal research and development award;

(viii) being required to not disclose to the Federal research agency or employing institution

the participation of such individual in such program, position, or activity; or

(ix) having a conflict of interest or conflict of commitment contrary to the standard terms and conditions of the Federal research and development award; and

(B) a program that is sponsored by—

(i) a foreign country of concern or an entity based in a foreign country of concern, whether or not directly sponsored by the foreign country of concern;

(ii) an academic institution on the list developed under section 1286(c)(8) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (10 U.S.C. 2358 note; ¹ Public Law 115–232); or

(iii) a foreign talent recruitment program on the list developed under section 1286(c)(9) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (10 U.S.C. 2358 note; ¹ Public Law 115–232).

(Pub. L. 117–167, div. B, title VI, §10638, Aug. 9, 2022, 136 Stat. 1669.)

PART D—INTERAGENCY WORKING GROUP

§19251. Interagency working group

(a) Establishment

The Director of the Office of Science and Technology Policy, acting through the National Science and Technology Council, shall establish or designate an interagency working group to coordinate the activities specified in subsection (c).

(b) Composition

The interagency working group shall be composed of the following members (or their designees), who may be organized into subcommittees, as appropriate:

- (1) The Secretary of Commerce.
- (2) The Director of the National Science Foundation.
- (3) The Secretary of Energy.

- (4) The Secretary of Defense.
- (5) The Director of the National Economic Council.
- (6) The Director of the Office of Management and Budget.
- (7) The Secretary of Health and Human Services.
- (8) The Administrator of the National Aeronautics and Space Administration.
- (9) The Secretary of Agriculture.
- (10) The Director of National Intelligence.
- (11) The Director of the Federal Bureau of Investigation.
- (12) Such other Federal officials as the Director of the Office of Science and Technology Policy considers appropriate, including members of the National Science and Technology Council Committee on Technology.

(c) Coordination

The interagency working group shall seek to ensure that the activities of different Federal agencies enhance and complement, but, as appropriate, do not duplicate, efforts being carried out by another Federal agency, with a focus on the following:

- (1) The activities of the National Science Foundation Technology, Innovation, and Partnerships Directorate in the key technology focus areas, such as within the Regional Innovation Engines under section 19108 of this title and test beds under section 19110 of this title.
- (2) The activities of the Department of Commerce under this division, including regional technology hubs under section 3722a of title 15, as added by section 10621, the Manufacturing USA Program established under section 278s(b)(1) of title 15, and the Hollings Manufacturing Extension Partnership (15 U.S.C. 278k).
- (3) The activities of the Department of Energy in the key technology focus areas, including at the national laboratories, and at Federal laboratories, as defined in section 3703 of title 15, and facilities and user facilities operated in partnership with such national laboratories or the Department of Energy.
- (4) Any other program that the Director of the Office of Science and Technology Policy determines involves research and development with respect to the key technology focus areas.

(d) Report

The interagency working group shall—

- (1) by not later than 180 days after August 9, 2022—
 - (A) conduct an initial review of Federal programs and resources with respect to the key technology focus areas identified pursuant to section 19107(a)(2) of this title, in order to—
 - (i) assess current level of efforts and characterize existing research infrastructure, as of the date of the review;
 - (ii) identify potential areas of overlap or duplication with respect to the key technology focus areas; and
 - (iii) identify potential cross-agency collaborations and joint funding opportunities; and ¹
 - (B) submit a report regarding the review described in subparagraph (A) to Congress; and
 - (C) seek stakeholder input and recommendations in the course of such review; and

- (2) shall ² carry out the annual reviews and updates required under section 19107(e) of this title.

(e) Conflicts

If any conflicts between Federal agencies arise while carrying out the activities under this section, the President shall make the final decision regarding resolution of the conflict.

(Pub. L. 117–167, div. B, title VI, §10651, Aug. 9, 2022, 136 Stat. 1682.)

EDITORIAL NOTES

REFERENCES IN TEXT

This division, referred to in subsec. (c)(2), is div. B of Pub. L. 117–167, Aug. 9, 2022, 136 Stat. 1399, which enacted this chapter and enacted, amended, and repealed numerous other sections and notes in the Code. For complete classification of div. B to the Code, see Short Title note set out under section 18901 of this title and Tables.

Section 10621, referred to in subsec. (c)(2), means section 10621 of Pub. L. 117–167.

² *So in original. The word "shall" probably should not appear.*

PART E—QUANTUM NETWORKING AND COMMUNICATIONS

§19261. Quantum networking and communications

(a) Definitions

In this section:

(1) Director

The term "Director" means the Director of the National Science Foundation.

(2) Appropriate committees of Congress

The term "appropriate committees of Congress" has the meaning given such term in section 8801 of title 15.

(3) Q2work Program

The term "Q2Work Program" means the Q2Work Program supported by the Foundation.

(b), (c) Omitted

(d) Quantum information science workforce evaluation and acceleration

(1) In general

Not later than 180 days after August 9, 2022, the Director shall enter into an agreement with the National Academies of Sciences, Engineering, and Medicine to conduct a study to evaluate and make recommendations for the quantum information science workforce. The study shall—

(A) characterize the quantum information science workforce, including by—

(i) describing what constitutes a quantum information science qualified worker across sectors, including academia, the Federal Government, and industry; and

(ii) describing the size and makeup of the quantum information science workforce, including an assessment of current and future trends;

(B) identify near- and long-term quantum information science workforce needs across government, academia, and industry sectors, including identifying the cross-disciplinary academic degrees or academic courses necessary to—

(i) prepare students for multiple career pathways in quantum information sciences and related fields;

(ii) ensure the United States is competitive in the field of quantum information science while preserving national security; and

(iii) support the development of quantum applications;

(C) assess the state of quantum information science education and skills training at all education levels and identify gaps in meeting current and future workforce needs, including with respect to—

- (i) elementary, middle, and high-school student access to foundational courses, age-appropriate quantum concepts, and hands-on learning opportunities;
- (ii) elementary, middle, and high-school teacher professional development and access to resources, materials, lesson plans, modules, and curricula;
- (iii) career pivot and skills training opportunities, including professional certificates and internships; and
- (iv) higher education curricula, laboratory experiences in academia, the Federal Government, and industry settings, and cross-discipline degree programs aligned with workforce needs; and

(D) make recommendations for developing a diverse, flexible, and sustainable quantum information science workforce that meets the evolving needs of academia, the Federal Government, and industry.

(2) Report

Not later than two years after August 9, 2022, the National Academies of Science, Engineering, and Medicine shall submit to Congress and the Director a report containing the results of the study conducted pursuant to paragraph (1).

(e) Omitted

(f) Quantum Education Pilot Program

(1) In general

Not later than one year after August 9, 2022, the Director, building on the National Science Foundation's role in the National Q–12 Education Partnership and programs such as Q2Work Program, shall make awards to institutions of higher education, non-profit organizations, or consortia thereof to carry out a pilot program, to be known as the "Next Generation Quantum Leaders Pilot Program" (in this subsection referred to as the "Program"), for the education and training of the next generation of students and teachers in the fundamental principles of quantum mechanics.

(2) Requirements

(A) In general

In carrying out the Program, the Director shall—

- (i) encourage awardees to coordinate with educational service agencies (as such term "educational service agency" is defined in section 1401(5) of title 20), associations that support STEM educators or local educational agencies, and partnerships through the Q–12 Education Partnership, to encourage elementary schools, middle schools, and secondary schools, and State educational agencies to participate in the Program; [1](#)
- (ii) require that awardees partner with elementary schools, middle schools, or secondary schools, or consortia thereof, and State educational agencies, to carry out activities under the Program; [2](#)

(B) Use of funds

In carrying out the Program, the Director shall make competitive, merit-reviewed awards to—

- (i) support testing, evaluation, dissemination, and implementation of age-appropriate quantum information sciences curricula and resources, including the integration of quantum information science and engineering into the STEM curriculum pursuant to subsection (d) of section 8841 of title 15, as added by subsection (e);
- (ii) support opportunities for informal education on quantum concepts, including informal hands-on learning opportunities;
- (iii) support opportunities for students to further explore quantum information science education and related careers;

(iv) develop and implement training, research, and professional development programs for teachers, including innovative pre-service and in-service programs, in quantum information science and related fields; and

(v) carry out such other activities as the Director determines appropriate.

(C) Distribution

In carrying out the Program and to the extent practicable, the Director shall ensure there is a wide, equitable distribution of Program participants across diverse geographic areas and that the Program includes a diverse representation of students, including students from groups historically underrepresented in STEM.

(3) Consultation

The Director shall carry out the Program in consultation with the QIS Workforce Working Group of the Subcommittee on Quantum Information Science of the National Science and Technology Council and the Advancing Informal STEM Learning Program.

(4) Reporting

Not later than four years after August 9, 2022, the Director shall submit to Congress a report that includes the following:

(A) An assessment, that includes feedback from a wide range of stakeholders in academia, K-12 education, and the private sector, of the effectiveness of the Program in scaling up implementation of effective quantum education and training innovations.

(B) If determined to be effective, a plan for integrating the Program into existing programs, including the feasibility and advisability of expanding the scope of the Program to include additional technology areas, grade levels, and educational institutions beyond those originally selected to participate in the Program.

(5) Authorization of appropriations

There are authorized to be appropriated to the Director \$8,000,000 for each of fiscal years 2023 through 2026 to carry out this section.

(6) Termination

This subsection shall terminate on the date that is four years after August 9, 2022.

(Pub. L. 117–167, div. B, title VI, §10661, Aug. 9, 2022, 136 Stat. 1683.)

EDITORIAL NOTES

CODIFICATION

Section is comprised of section 10661 of Pub. L. 117–167. Subsecs. (b), (c), and (e) of section 10661 of Pub. L. 117–167 amended sections 8813, 8831, and 8841, respectively, of Title 15, Commerce and Trade.

¹ *So in original. Probably should be followed by "and".*

² *So in original. The semicolon probably should be a period.*

PART F—BLOCKCHAIN SPECIALIST

§19271. Establishment of blockchain and cryptocurrency specialist position within OSTP

The Director of the Office of Science and Technology Policy shall establish or designate a blockchain and cryptocurrencies advisory specialist position within the Office to coordinate Federal

activities and advise the President on matters of research and development relating to blockchain, cryptocurrencies, and distributed ledger technologies.

(Pub. L. 117–167, div. B, title VI, §10671, Aug. 9, 2022, 136 Stat. 1688.)

PART G—PARTNERSHIPS FOR ENERGY SECURITY AND INNOVATION

§19281. Foundation for Energy Security and Innovation

(a) Definitions

In this section:

(1) Board

The term "Board" means the Board of Directors described in subsection (b)(2)(A).

(2) Department

The term "Department" means the Department of Energy.

(3) Executive Director

The term "Executive Director" means the Executive Director described in subsection (b)(5)(A).

(4) Foundation

The term "Foundation" means the Foundation for Energy Security and Innovation established under subsection (b)(1).

(5) Historically Black college or university

The term "historically Black college or university" has the meaning given the term "part B institution" in section 1061 of title 20.

(6) Individual Laboratory-Associated Foundation

The term "Individual Laboratory-Associated Foundation" means a Laboratory Foundation established by an operating contractor of a National Laboratory.

(7) Minority-serving institution

The term "minority serving institution" means a Hispanic-serving institution as defined in section 1101a of title 20, an Alaska Native-serving institution and a Native Hawaiian-serving institution as defined in section in ¹ 1059d of title 20, or a Predominantly Black Institution, Asian American and Native American Pacific Islander-serving institution, or a Native American-serving nontribal institution as defined in section 1067q of title 20.

(8) National Laboratory

The term "National Laboratory" has the meaning given the term in section 15801 of this title.

(9) Secretary

The term "Secretary" means the Secretary of Energy.

(10) Tribal College or University

The term "Tribal College or University" has the meaning given in section 1059c of title 20.

(b) Foundation for Energy Security and Innovation

(1) Establishment

(A) In general

Not later than 180 days after August 9, 2022, the Secretary shall establish a nonprofit corporation to be known as the "Foundation for Energy Security and Innovation".

(B) Mission

The mission of the Foundation shall be—

- (i) to support the mission of the Department; and
- (ii) to advance collaboration with energy researchers, institutions of higher education, industry, and nonprofit and philanthropic organizations to accelerate the commercialization of energy technologies.

(C) Limitation

The Foundation shall not be an agency or instrumentality of the Federal Government.

(D) Tax-exempt status

The Board shall take all necessary and appropriate steps to ensure that the Foundation is an organization that is described in section 501(c) of title 26 and exempt from taxation under section 501(a) of title 26.

(E) Collaboration with existing organizations

The Secretary may collaborate with 1 or more organizations to establish the Foundation and carry out the activities of the Foundation.

(2) Board of Directors

(A) Establishment

The Foundation shall be governed by a Board of Directors.

(B) Composition

(i) In general

The Board shall be composed of the ex officio nonvoting members described in clause (ii) and the appointed voting members described in clause (iii).

(ii) Ex officio members

The ex officio members of the Board shall be the following individuals or designees of those individuals:

- (I) The Secretary.
- (II) The Under Secretary for Science.
- (III) The Under Secretary for Nuclear Security.
- (IV) The Chief Commercialization Officer.

(iii) Appointed members

(I) Initial members

The Secretary and the other ex officio members of the Board shall—

(aa) seek to enter into an agreement with the National Academies of Sciences, Engineering, and Medicine to develop a list of individuals to serve as members of the Board who are well-qualified and will meet the requirements of subclauses (II) and (III); and

(bb) appoint the initial members of the Board from that list, if applicable, in consultation with the National Academies of Sciences, Engineering, and Medicine.

(II) Representation

The appointed members of the Board shall reflect a broad cross-section of stakeholders from academia, National Laboratories, industry, nonprofit organizations, State or local governments, the investment community, and the philanthropic community.

(III) Experience

The Secretary shall ensure that a majority of the appointed members of the Board—

- (aa)(AA) has experience in the energy sector;
- (BB) has research experience in the energy field; or

- (CC) has experience in technology commercialization or foundation operations; and
- (bb) to the extent practicable, represents diverse regions, sectors, and communities.

(C) Chair and Vice Chair

(i) In general

The Board shall designate from among the members of the Board—

- (I) an individual to serve as Chair of the Board; and
- (II) an individual to serve as Vice Chair of the Board.

(ii) Terms

The term of service of the Chair and Vice Chair of the Board shall end on the earlier of—

- (I) the date that is 3 years after the date on which the Chair or Vice Chair of the Board, as applicable, is designated for the position; and
- (II) the last day of the term of service of the member, as determined under subparagraph (D)(i), who is designated to be Chair or Vice Chair of the Board, as applicable.

(iii) Representation

The Chair and Vice Chair of the Board—

- (I) shall not be representatives of the same area of subject matter expertise, or entity, as applicable, under subparagraph (B)(iii)(II); and
- (II) shall not be representatives of any area of subject matter expertise, or entity, as applicable, represented by the immediately preceding Chair and Vice Chair of the Board.

(D) Terms and vacancies

(i) Terms

(I) In general

The term of service of each appointed member of the Board shall be not more than 5 years.

(II) Initial appointed members

Of the initial members of the Board appointed under subparagraph (B)(iii)(I), half of the members shall serve for 4 years and half of the members shall serve for 5 years, as determined by the Chair of the Board.

(ii) Vacancies

Any vacancy in the membership of the appointed members of the Board—

- (I) shall be filled in accordance with the bylaws of the Foundation by an individual capable of representing the same area or entity, as applicable, as represented by the vacating board member under subparagraph (B)(iii)(II);
- (II) shall not affect the power of the remaining appointed members to execute the duties of the Board; and
- (III) shall be filled by an individual selected by the Board.

(E) Meetings; quorum

(i) Initial meeting

Not later than 60 days after the Board is established, the Secretary shall convene a meeting of the ex officio and appointed members of the Board to incorporate the Foundation.

(ii) Quorum

A majority of the appointed members of the Board shall constitute a quorum for purposes of conducting the business of the Board.

(F) Duties

The Board shall—

- (i) establish bylaws for the Foundation in accordance with subparagraph (G);

- (ii) provide overall direction for the activities of the Foundation and establish priority activities;
- (iii) carry out any other necessary activities of the Foundation;
- (iv) evaluate the performance of the Executive Director; and
- (v) actively solicit and accept funds, gifts, grants, devises, or bequests of real or personal property to the Foundation, including from private entities.

(G) Bylaws

(i) In general

The bylaws established under subparagraph (F)(i) may include—

(I) policies for the selection of Board members, officers, employees, agents, and contractors of the Foundation;

(II) policies, including ethical standards, for—

(aa) the acceptance, solicitation, and disposition of donations and grants to the Foundation, including appropriate limits on the ability of donors to designate, by stipulation or restriction, the use or recipient of donated funds; and

(bb) the disposition of assets of the Foundation;

(III) policies that subject all employees, fellows, trainees, and other agents of the Foundation (including ex officio and appointed members of the Board) to conflict of interest standards; and

(IV) the specific duties of the Executive Director.

(ii) Requirements

The Board shall ensure that the bylaws of the Foundation and the activities carried out under those bylaws shall not—

(I) reflect unfavorably on the ability of the Foundation to carry out activities in a fair and objective manner; or

(II) compromise, or appear to compromise, the integrity of any governmental agency or program, or any officer or employee employed by, or involved in, a governmental agency or program.

(H) Compensation

(i) In general

No member of the Board shall receive compensation for serving on the Board.

(ii) Certain expenses

In accordance with the bylaws of the Foundation, members of the Board may be reimbursed for travel expenses, including per diem in lieu of subsistence, and other necessary expenses incurred in carrying out the duties of the Board.

(I) Restriction on membership

No employee of the Department shall be appointed as a member of the Board of Directors.

(3) Purposes

The purposes of the Foundation are—

(A) to support the Department in carrying out the mission of the Department to ensure the security and prosperity of the United States by addressing energy and environmental challenges through transformative science and technology solutions; and

(B) to increase private and philanthropic sector investments that support efforts to create, characterize, develop, test, validate, and deploy or commercialize innovative technologies that address crosscutting national energy challenges, including those affecting minority, rural, and other underserved communities, by methods that include—

(i) fostering collaboration and partnerships with researchers from the Federal Government, State governments, institutions of higher education, including historically Black colleges or

universities, Tribal Colleges or Universities, and minority-serving institutions, federally funded research and development centers, industry, and nonprofit organizations for the research, development, or commercialization of transformative energy and associated technologies;

(ii) strengthening and sharing best practices relating to regional economic development through scientific and energy innovation, including in partnership with an Individual Laboratory-Associated Foundation;

(iii) promoting new product development that supports job creation;

(iv) administering prize competitions—

(I) to accelerate private sector competition and investment; and

(II) that complement the use of prize authority by the Department;

(v) supporting programs that advance technology maturation, especially where there may be gaps in Federal or private funding in advancing a technology to deployment or commercialization from the prototype stage to a commercial stage;

(vi) supporting efforts to broaden participation in energy technology development among individuals from historically underrepresented groups or regions; and

(vii) facilitating access to Department facilities, equipment, and expertise to assist in tackling national challenges.

(4) Activities

(A) Studies, competitions, and projects

The Foundation may conduct and support studies, competitions, projects, and other activities that further the purposes of the Foundation described in paragraph (3).

(B) Fellowships and grants

(i) In general

The Foundation may award fellowships and grants for activities relating to research, development, demonstration, maturation, or commercialization of energy and other Department-supported technologies.

(ii) Form of award

A fellowship or grant under clause (i) may consist of a stipend, health insurance benefits, funds for travel, and funds for other appropriate expenses.

(iii) Selection

In selecting a recipient for a fellowship or grant under clause (i), the Foundation—

(I) shall make the selection based on the technical and commercialization merits of the proposed project of the potential recipient; and

(II) may consult with a potential recipient regarding the ability of the potential recipient to carry out various projects that would further the purposes of the Foundation described in paragraph (3).

(iv) National Laboratories

A National Laboratory that applies for or accepts an award under clause (i) shall not be considered to be engaging in a competitive process.

(C) Accessing facilities and expertise

The Foundation may work with the Department—

(i) to leverage the capabilities and facilities of National Laboratories to commercialize technology; and

(ii) to assist with resources, including by providing information on the assets of each National Laboratory that may enable the deployment and commercialization of technology.

(D) Training and education

The Foundation may support programs that provide training to researchers, scientists, other relevant personnel at National Laboratories and institutions of higher education, and previous or current recipients of or applicants for Department funding to help research, develop, demonstrate, deploy, and commercialize federally funded technology.

(E) Maturation funding

The Foundation shall support programs that provide maturation funding to researchers to advance the technology of those researchers for the purpose of moving products from a prototype stage to a commercial stage.

(F) Stakeholder engagement

The Foundation shall convene, and may consult with, representatives from the Department, institutions of higher education, National Laboratories, the private sector, and commercialization organizations to develop programs for the purposes of the Foundation described in paragraph (3) and to advance the activities of the Foundation.

(G) Individual and Federal Laboratory-Associated Foundations

(i) Definition of covered foundation

In this subparagraph, the term "covered foundation" means each of the following:

- (I) An Individual Laboratory-Associated Foundation.
- (II) A Federal Laboratory-Associated Foundation established pursuant to subsection (c)(1).

(ii) Support

The Foundation shall provide support to and collaborate with covered foundations.

(iii) Guidelines and templates

For the purpose of providing support under clause (ii), the Secretary shall establish suggested guidelines and templates for covered foundations, including—

- (I) a standard adaptable organizational design for responsible management;
- (II) standard and legally tenable bylaws and money-handling procedures; and
- (III) a standard training curriculum to orient and expand the operating expertise of personnel employed by covered foundations.

(iv) Affiliations

Nothing in this subparagraph requires—

- (I) an existing Individual Laboratory-Associated Foundation to modify current practices or affiliate with the Foundation; or
- (II) a covered foundation to be bound by charter or corporate bylaws as permanently affiliated with the Foundation.

(H) Supplemental programs

The Foundation may carry out supplemental programs—

- (i) to conduct and support forums, meetings, conferences, courses, and training workshops consistent with the purposes of the Foundation described in paragraph (3);
- (ii) to support and encourage the understanding and development of data that promotes the translation of technologies from the research stage, through the development and maturation stage, and ending in the market stage;
- (iii) for writing, editing, printing, publishing, and vending books and other materials relating to research carried out under the Foundation and the Department; and
- (iv) to conduct other activities to carry out and support the purposes of the Foundation described in paragraph (3).

(I) Evaluations

The Foundation shall support the development of an evaluation methodology, to be used as part of any program supported by the Foundation, that shall—

- (i) consist of qualitative and quantitative metrics; and
- (ii) include periodic third party evaluation of those programs and other activities of the Foundation.

(J) Communications

The Foundation shall develop an expertise in communications to promote the work of grant and fellowship recipients under subparagraph (B), the commercialization successes of the Foundation, opportunities for partnership with the Foundation, and other activities.

(K) Solicitation and use of funds

The Foundation may solicit and accept gifts, grants, and other donations, establish accounts, and invest and expend funds in support of the activities and programs of the Foundation.

(L) Authority of the foundation

The Foundation shall be the sole entity responsible for carrying out the activities described in this paragraph.

(5) Administration

(A) Executive Director

The Board shall hire an Executive Director of the Foundation, who shall serve at the pleasure of the Board. Subject to the compliance with the policies and bylaws established pursuant to paragraph (2)(G), the Executive Director shall be responsible for the daily operations of the Foundation in carrying the activities described in paragraph (4).

(B) Compensation

The rate of compensation of the Executive Director shall be fixed by the Board.

(C) Administrative control

No member of the Board, officer or employee of the Foundation or of any program established by the Foundation, or participant in a program established by the Foundation, shall exercise administrative control over any Federal employee.

(D) Strategic plan

Not later than 1 year after August 9, 2022, the Foundation shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a strategic plan that contains—

- (i) a plan for the Foundation to become financially self-sustaining in fiscal year 2023 and thereafter (except for the amounts provided each fiscal year under paragraph (11)(A)(iii));
- (ii) a forecast of major crosscutting energy challenge opportunities, including short- and long-term objectives, identified by the Board, with input from communities representing the entities and areas of subject matter expertise, as applicable, described in paragraph (2)(B)(iii)(II);
- (iii) a description of the efforts that the Foundation will take to be transparent in the processes of the Foundation, including processes relating to—
 - (I) grant awards, including selection, review, and notification;
 - (II) communication of past, current, and future research priorities; and
 - (III) solicitation of and response to public input on the opportunities identified under clause (ii);
- (iv) a description of the financial goals and benchmarks of the Foundation for the following 10 years;
- (v) a description of the efforts undertaken by the Foundation to engage historically underrepresented groups or regions, including through collaborations with historically Black colleges and universities, Tribal Colleges or Universities, minority-serving institutions, and minority-owned and women-owned business, and;

(vi) a description of the efforts undertaken by the Foundation to ensure maximum complementarity and minimum redundancy with investments made by the Department.

(E) Annual report

Not later than 1 year after the date on which the Foundation is established, and every years ³ thereafter, the Foundation shall submit to the Committee on Energy and Natural Resources of the Senate, the Committee on Science, Space, and Technology of the House of Representatives, and the Secretary a report that, for the year covered by the report—

- (i) describes the activities of the Foundation and the progress of the Foundation in furthering the purposes of the Foundation described in paragraph (3);
- (ii) provides a specific accounting of the source and use of all funds made available to the Foundation to carry out those activities to ensure transparency in the alignment of Department missions and policies with national security;
- (iii) describes how the results of the activities of the Foundation could be incorporated into the procurement processes of the General Services Administration; and
- (iv) includes a summary of each evaluation conducted using the evaluation methodology described in paragraph (4)(I).

(F) Evaluation by Comptroller General

Not later than 5 years after the date on which the Foundation is established, the Comptroller General of the United States shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives—

- (i) an evaluation of—
 - (I) the extent to which the Foundation is achieving the mission of the Foundation; and
 - (II) the operation of the Foundation; and
- (ii) any recommendations on how the Foundation may be improved.

(G) Audits

The Foundation shall—

- (i) provide for annual audits of the financial condition of the Foundation; and
- (ii) make the audits, and all other records, documents, and papers of the Foundation, available to the Secretary and the Comptroller General of the United States for examination or audit.

(H) Separate fund accounts

The Board shall ensure that any funds received under paragraph (11)(A) are held in a separate account from any other funds received by the Foundation.

(I) Integrity

(i) In general

To ensure integrity in the operations of the Foundation, the Board shall develop and enforce procedures relating to standards of conduct, financial disclosure statements, conflicts of interest (including recusal and waiver rules), audits, and any other matters determined appropriate by the Board.

(ii) Financial conflicts of interest

To mitigate conflicts of interest and risks from malign foreign influence, any individual who is an officer, employee, or member of the Board is prohibited from any participation in deliberations by the Foundation of a matter that would directly or predictably affect any financial interest of—

- (I) the individual;
- (II) a relative (as defined in section 109 of the Ethics in Government Act of 1978 (5 U.S.C. App.) ⁴) of that individual; or

(III) a business organization or other entity in which the individual has an interest, including an organization or other entity with which the individual is negotiating employment.

(J) Intellectual property

The Board shall adopt written standards to govern the ownership and licensing of any intellectual property rights developed by the Foundation or derived from the collaborative efforts of the Foundation.

(K) Liability

(i) In general

The United States shall not be liable for any debts, defaults, acts, or omissions of—

(I) the Foundation;

(II) a Federal entity with respect to an agreement of that Federal entity with the Foundation; or

(III) an Individual Laboratory-Associated Foundation with respect to an agreement of that Federal entity with the Foundation.

(ii) Full faith and credit

The full faith and credit of the United States shall not extend to any obligations of the Foundation.

(L) Nonapplicability of FACA

The Federal Advisory Committee Act (5 U.S.C. App.) ⁴ shall not apply to the Foundation or an Individual Laboratory-Associated Foundation.

(6) Department collaboration

(A) National Laboratories

The Secretary shall collaborate with the Foundation to develop a process to ensure collaboration and coordination between the Department, the Foundation, and National Laboratories—

(i) to streamline contracting processes between National Laboratories and the Foundation, including by—

(I) streamlining the ability of the Foundation to transfer equipment and funds to National Laboratories;

(II) standardizing contract mechanisms to be used by the Foundation in engaging with National Laboratories; and

(III) streamlining the ability of the Foundation to fund endowed positions at National Laboratories;

(ii) to allow a National Laboratory or site of a National Laboratory—

(I) to accept and perform work for the Foundation, consistent with provided resources, notwithstanding any other provision of law governing the administration, mission, use, or operations of the National Laboratory or site, as applicable; and

(II) to perform that work on a basis equal to other missions at the National Laboratory; and

(iii) to permit the director of any National Laboratory or site of a National Laboratory to enter into a cooperative research and development agreement or negotiate a licensing agreement with the Foundation pursuant to section 3710a of title 15.

(B) Department liaisons

The Secretary shall appoint liaisons from across the Department to collaborate and coordinate with the Foundation, including not less than 1 liaison from the Office of Technology Transitions, who shall ensure that the Foundation works in conjunction with and does not

duplicate existing activities and programs carried out by the Department, including the Technology Commercialization Fund of the Department.

(C) Administration

The Secretary shall leverage appropriate arrangements, contracts, and directives to carry out the process developed under subparagraph (A).

(7) National security

Nothing in this subsection exempts the Foundation from any national security policy of the Department.

(8) Support services

The Secretary may provide facilities, utilities, and support services to the Foundation if it is determined by the Secretary to be advantageous to the research programs of the Department.

(9) Preemption of authority

This subsection shall not preempt any authority or responsibility of the Secretary under any other provision of law.

(10) Transfer funds

The Foundation may transfer funds to the Department, which shall be subject to all applicable Federal limitations relating to federally funded research.

(11) Authorization of appropriations

(A) In general

There is authorized to be appropriated—

(i) not less than \$1,500,000 shall be for the Secretary for fiscal year 2023 to establish the Foundation;

(ii) not less than \$30,000,000 shall be for the Foundation for fiscal year 2024 to carry out the activities of the Foundation; and

(iii) not less than \$3,000,000 shall be for the Foundation for each of the fiscal years 2025 through 2027 for administrative and operational costs.

(B) Limitation

None of the funds authorized to be appropriated to the Secretary by subparagraph (A)(i) of this paragraph shall be used for construction.

(C) Cost share

Funds made available under subparagraph (A)(ii) shall be required to be cost-shared by a partner of the Foundation other than the Department or a National Laboratory.

(c) National Energy Technology Laboratory-Associated Foundation

(1) Establishment

(A) In general

The National Energy Technology Laboratory may establish, or enter into an agreement with a nonprofit organization to establish, a Federal Laboratory-Associated Foundation (referred to in this subsection as a "Laboratory Foundation") to support the mission of the National Energy Technology Laboratory.

(B) Not agency or instrumentality

A Laboratory Foundation shall not be an agency or instrumentality of the Federal Government.

(C) Governance structure

A Laboratory Foundation established under subparagraph (A) shall have a separate governance structure from, and shall be managed independently of, the National Energy

Technology Laboratory.

(2) Activities

Activities of a Laboratory Foundation may include—

(A) conducting support studies, competitions, projects, research, and other activities that further the purpose of the Laboratory Foundation;

(B) carrying out programs to foster collaboration and partnership among researchers from the Federal Government, State governments, institutions of higher education, federally funded research and development centers, and industry and nonprofit organizations relating to the research, development, and commercialization of federally supported technologies;

(C) carrying out programs to leverage technologies to support new product development that supports regional economic development;

(D) administering prize competitions—

(i) to accelerate private sector competition and investment; and

(ii) that complement the use of prize authority by the Department;

(E) providing fellowships and grants to research and development personnel at, or affiliated with, federally funded centers, in accordance with paragraph (3);

(F) carrying out programs—

(i) that allow scientists from foreign countries to serve in research capacities in the United States or other countries in association with the National Energy Technology Laboratory;

(ii) that provide opportunities for employees of the National Energy Technology Laboratory to serve in research capacities in foreign countries;

(iii) to conduct studies, projects, or research in collaboration with national and international nonprofit and for-profit organizations, which may include the provision of stipends, travel, and other support for personnel;

(iv)(I) to hold forums, meetings, conferences, courses, and training workshops that may include undergraduate, graduate, post-graduate, and post-doctoral accredited courses; and

(II) for the accreditation of those courses by the Laboratory Foundation at the State and national level for college degrees or continuing education credits;

(v) to support and encourage teachers and students of science at all levels of education;

(vi) to promote an understanding of science amongst the general public;

(vii) for writing, editing, printing, publishing, and vending of relevant books and other materials; and

(viii) for the conduct of other activities to carry out and support the purpose of the Laboratory Foundation; and

(G) receiving, administering, soliciting, accepting, and using funds, gifts, devises, or bequests, either absolutely or in trust of real or personal property or any income therefrom, or other interest or equity therein for the benefit of, or in connection with, the mission of the applicable Federal laboratory, in accordance with paragraph (4).

(3) Fellowships and grants

(A) Selection

Recipients of fellowships and grants described in paragraph (2)(E) shall be selected—

(i) by a Laboratory Foundation and the donors to a Laboratory Foundation;

(ii) subject to the agreement of the head of the agency the mission of which is supported by a Laboratory Foundation; and

(iii) in the case of a fellowship, based on the recommendation of the employees of the National Energy Technology Laboratory at which the fellow would serve.

(B) Expenses

Fellowships and grants described in paragraph (2)(E) may include stipends, travel, health insurance, benefits, and other appropriate expenses.

(4) Gifts

An amount of funds, a gift, a devise, or a bequest described in paragraph (2)(G) may be accepted by a Laboratory Foundation regardless of whether it is encumbered, restricted, or subject to a beneficial interest of a private person if any current or future interest of the funds, gift, devise, or bequest is for the benefit of the research and development activities of the National Energy Technology Laboratory.

(5) Ownership by Federal Government

A contribution, gift, or any other transfer made to or for the use of a Laboratory Foundation shall be regarded as a contribution, gift, or transfer to or for the use of the Federal Government.

(6) Liability

The United States shall not be liable for any debts, defaults, acts, or omissions of a Laboratory Foundation.

(7) Transfer of funds

Notwithstanding any other provision of law, a Laboratory Foundation may transfer funds to the National Energy Technology Laboratory and the National Energy Technology Laboratory may accept that transfer of funds.

(8) Other laws

This subsection shall not alter or supersede any other provision of law governing the authority, scope, establishment, or use of nonprofit organizations by a Federal agency.

PART H—ENERGIZING TECHNOLOGY TRANSFER

§19291. Definitions

In this part:

(1) Clean energy technology

The term "clean energy technology" means a technology that significantly reduces energy use, increases energy efficiency, reduces greenhouse gas emissions, reduces emissions of other pollutants, or mitigates other negative environmental consequences of energy production, transmission or use.

(2) Department

The term "Department" means the Department of Energy.

(3) Director

The term "Director" means the Director of each National Laboratory and the Director of each Department of Energy single-purpose research facility.

(4) Economically distressed area

The term "economically distressed area" has the meaning described in section 3161(a) of this title.

(5) Grant

The term "grant" means a grant award, cooperative agreement award, or any other financial assistance arrangement that the Secretary of Energy determines to be appropriate.

(6) Institution of higher education

The term "institution of higher education" has the meaning given such term in section 1001 of title 20.

(7) National Laboratory

The term "National Laboratory" has the meaning given that term in section 15801 of this title.

(8) Secretary

The term "Secretary" means the Secretary of Energy.

(Pub. L. 117–167, div. B, title VI, §10701, Aug. 9, 2022, 136 Stat. 1701.)

EDITORIAL NOTES

REFERENCES IN TEXT

This part, referred to in text, was in the original "this subtitle", meaning subtitle J (§§10701–10727) of title VI of div. B of Pub. L. 117–167, which is classified principally to this part. For complete classification of subtitle J to the Code, see Tables.

SUBPART 1—NATIONAL CLEAN ENERGY TECHNOLOGY TRANSFER PROGRAMS

§19301. National Clean Energy Incubator Program

(a) Clean energy incubator defined

In this section, the term "clean energy incubator"—

(1) means any entity that is designed to accelerate the commercial application of clean energy technologies by providing—

(A) physical workspace, labs, and prototyping facilities to support clean energy startups or established clean energy companies; or

(B) companies developing such technologies with support, resources, and services, including—

(i) access to business education and counseling;

(ii) mentorship opportunities; and

(iii) other services rendered for the purpose of aiding the development and commercial application of a clean energy technology; and

(2) may include a program within or established by a National Laboratory, an institution of higher education or a State, territorial, local, or tribal government.

(b) Program establishment

Not later than 180 days after the enactment of this Act, the Secretary, acting through the Chief Commercialization Officer established in section 16391(a) of this title, shall establish a Clean Energy Incubator Program (herein referred to as the "program") to competitively award grants to clean energy incubators.

(c) Clean energy incubator selection

In awarding grants to clean energy incubators under subsection (b), the Secretary shall, to the maximum extent practicable, prioritize funding clean energy incubators that—

(1) partner with entities that carry out activities relevant to the activities of such incubator and that operate at the local, State, and regional levels;

(2) support the commercial application activities of startup companies focused on physical hardware, computational, or integrated hardware and software technologies;

(3) are located in geographically diverse regions of the United States, such as the Great Lakes region;

(4) are located in, or partner with entities located in, economically-distressed areas;

(5) support the development of entities focused on expanding clean energy tools and technologies to rural, Tribal, and low-income communities;

(6) support the commercial application of technologies being developed by clean energy entrepreneurs from underrepresented backgrounds; and

(7) have a plan for sustaining activities of the incubator after grant funds received under this program have been expended.

(d) Award limits

The Secretary shall not award more than \$4,000,000 to one or more incubators in one given State, per fiscal year.

(e) Duration

Each grant under subsection (b) shall be for a period of no longer than 5 years, subject to the availability of appropriations.

(f) Use of funds

An entity receiving a grant under this section may use grant amounts for operating expenses.

(g) Renewal

An award made to a clean energy incubator under this section may be renewed for a period of not more than 3 years, subject to merit review.

(h) Evaluation

In accordance with section 16391a of this title, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate an evaluation of the program established under this section that includes analyses of the performance of the clean energy incubators.

(i) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section \$15,000,000 for each of fiscal years 2023 through 2027.

(Pub. L. 117–167, div. B, title VI, §10713, Aug. 9, 2022, 136 Stat. 1701.)

§19302. Clean Energy Technology University Prize competition

(a) Definitions

In this section:

(1) Eligible entity

The term "eligible entity" means a nonprofit entity, an institution of higher education, or an entity working with one or more institutions of higher education.

(2) Minority-serving institution

The term "minority-serving institution" means an institution described in section 1067q(a) of title 20.

(b) In general

The Secretary shall establish a program, known as the "Clean Energy Technology University Prize", to award funding for eligible entities to carry out regional and one national clean energy technology prize competitions, under section 3719 of title 15. In carrying out such prize competitions, students shall compete to develop a business model for furthering the commercial application of an innovative clean energy technology.

(c) Training funding

In carrying out this program, the Secretary may provide funding to train participating students in skills needed for the successful commercial application of clean energy technologies, including through virtual training sessions.

(d) Prioritization

In awarding grants under this section, the Secretary shall prioritize awarding grants to eligible entities that work with students at minority-serving institutions.

(e) Coordination

In carrying out this program, the Secretary shall coordinate and partner with other clean energy technology prize competitions. In doing so, the Secretary may develop and disseminate best practices for administering prize competitions under this section.

(f) Report

In accordance with section 16391a of this title, the Secretary shall report annually on the progress and implementation of the program established under section (b).

(g) Evaluation

In accordance with section 16391a of this title, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate an evaluation on the long-term outcomes of the program established under this section and the progress towards achieving the purposes of the program in subsection (b).

(h) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the activities authorized in this section \$1,000,000 for each of fiscal years 2023 through 2027.

(Pub. L. 117–167, div. B, title VI, §10714, Aug. 9, 2022, 136 Stat. 1703.)

§19303. Clean energy technology transfer coordination

(a) In general

The Secretary, acting through the Chief Commercialization Officer established in section 16391(a) of this title, shall support the coordination of relevant technology transfer programs that advance the commercial application of clean energy technologies nationally and across all energy sectors. In particular, the Secretary may support activities to—

- (1) facilitate the sharing of information on best practices for successful operation of clean energy technology transfer programs;
- (2) coordinate resources and improve cooperation among clean energy technology transfer programs;
- (3) facilitate connections between entrepreneurs and start-up companies and the variety of programs related to clean energy technology transfer under the Department; and
- (4) facilitate the development of metrics to measure the impact of clean energy technology transfer programs on—
 - (A) advancing the development, demonstration, and commercial application of clean energy technologies;
 - (B) increasing the competitiveness of United States in the clean energy sector, including in manufacturing; and
 - (C) commercial application of clean energy technologies being developed by entrepreneurs from under-represented backgrounds.

(b) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the activities in this section \$3,000,000 for each of fiscal years 2023 through 2027.

(Pub. L. 117–167, div. B, title VI, §10715, Aug. 9, 2022, 136 Stat. 1703.)

SUBPART 2—SUPPORTING TECHNOLOGY DEVELOPMENT AT THE NATIONAL LABORATORIES

§19311. Lab-Embedded Entrepreneurship Program

(a) In general

The Secretary shall competitively award grants to National Laboratories for the purpose of establishing or supporting Lab-Embedded Entrepreneurship Programs.

(b) Purposes

The purposes of such programs are to provide entrepreneurial fellows with access to National Laboratory research facilities, National Laboratory expertise, and mentorship to perform research and development and gain expertise that may be required or beneficial for the commercial application of research ideas.

(c) Entrepreneurial fellows

An entrepreneurial fellow participating in a program described in subsection (a) shall be provided with—

- (1) opportunities for entrepreneurial training, professional development, and exposure to leaders from academia, industry, government, and finance who may serve as advisors to or partners of the fellow;
- (2) financial and technical support for research, development, and commercial application activities;
- (3) fellowship awards to cover costs of living, health insurance, and travel stipends for the duration of the fellowship; and
- (4) any other resources determined appropriate by the Secretary.

(d) Program activities

Each National Laboratory that receives funding under this section shall support entrepreneurial fellows by providing—

- (1) access to facilities and expertise within the National Laboratory;

- (2) engagement with external stakeholders; and
- (3) market and customer development opportunities.

(e) Administration

National Laboratories that receive grants under this section shall prioritize the support and success of the entrepreneurial fellow with regards to professional development and development of a relevant technology.

(f) Partnerships

In carrying out a Lab-Embedded Entrepreneurship Program, a National Laboratory may partner with an external entity, including—

- (1) a nonprofit organization;
- (2) an institution of higher education;
- (3) a federally-owned corporation; or
- (4) a consortium of 2 or more entities described in paragraphs (1) through (3).

(g) Metrics

The Secretary shall support the development of short-term and long-term metrics to assess the effectiveness of programs receiving a grant under subsection (a) in achieving the purposes of the program in subsection (a).

(h) Evaluation

In accordance with section 16391a of this title, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate an evaluation of the effectiveness of the programs under subsection (a) based on the metrics developed pursuant to subsection (g).

(i) Coordination

The Secretary shall oversee the planning and coordination of grants under subsection (a) and shall identify and disseminate best practices for achieving the purposes of subsection (a) to National Laboratories that receive grants under this section.

(j) Interagency collaboration

The Secretary shall collaborate with other executive branch agencies, including the Department of Defense and other agencies with Federal laboratories, regarding opportunities to partner with National Laboratories receiving a grant under subsection (a).

(k) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the activities authorized in this section \$25,000,000 for each of fiscal years 2023 through 2027.

(Pub. L. 117–167, div. B, title VI, §10717, Aug. 9, 2022, 136 Stat. 1704.)

§19312. Entrepreneurial leave program

(a) In general

The Secretary shall delegate to Directors the authority to carry out an entrepreneurial leave program (referred to in this section as the "program") to allow National Laboratory employees to take a full leave of absence from their position, with the option to return to that or a comparable position up to 3 years later, or a partial leave of absence, to advance the commercial application of energy and related technologies relevant to the mission of the Department.

(b) Termination authority

Directors shall retain the authority to terminate National Laboratory employees that participate in the program if such employees are found to violate terms prescribed by the National Laboratory at which such employee is employed.

(c) Licensing

To reduce barriers to participation in the program, the Secretary shall delegate to the Directors the requirement to establish streamlined mechanisms for facilitating the licensing of technology that is the focus of National Laboratory employees who participate in the program.

(d) Report

In accordance with section 16391a of this title, the Secretary shall report annually on the utilization of this authority at National Laboratories, including the number of employees who participate in this program at each National Laboratory and the number of employees who take a permanent leave from their positions at National Laboratories as a result of participating in this program.

(e) Federal ethics

Nothing in this section shall affect existing Federal ethics rules applicable to Federal personnel. (Pub. L. 117–167, div. B, title VI, §10719, Aug. 9, 2022, 136 Stat. 1707.)

§19313. National Laboratory non-Federal employee outside employment authority

(a) In general

The Secretary shall delegate to Directors of National Laboratories the authority to allow their non-Federal employees—

(1) to engage in outside employment, including start-up companies based on licensing technologies developed at National Laboratories and consulting in their areas of expertise, and receive compensation from such entities; and

(2) to engage in outside activities related to their areas of expertise at the National Laboratory and may allow employees, in their employment capacity at such outside employment, to access the National Laboratories under the same contracting mechanisms as non-Laboratory employees and entities, in accordance with appropriate conflict of interest protocols.

(b) Requirements

If a Director elects to use the authority granted by subsection (a) of this section, the Director, or their designee, shall—

(1) require employees to disclose to and obtain approval from the Director or their designee prior to engaging in any outside employment;

(2) develop and require appropriate conflict of interest protocols for employees that engage in outside employment;

(3) maintain the authority to terminate employees engaging in outside employment if they are found to violate terms, including conflict of interest protocols, mandated by the Director; and

(4) ensure that any such programs or activities are in conformance with the Department's research security policies, including DOE Order 486.1.

(c) Additional restrictions

Employees engaging in outside employment may not—

(1) allow such activities to interfere with or impede their duties at the National Laboratory;

(2) engage in activities related to outside employment using National Laboratory government equipment, property, or resources, unless such activities are performed under National Laboratory contracting mechanisms, such as Cooperative Research and Development Agreements or Strategic Partnership Projects, whereby all conflicts of interest requirements apply; or

(3) use their position at a National Laboratory to provide an unfair competitive advantage to an outside employer or start-up activity.

(d) Federal ethics

Nothing in this section shall affect existing Federal ethics rules applicable to Federal personnel.

(Pub. L. 117–167, div. B, title VI, §10720, Aug. 9, 2022, 136 Stat. 1707.)

SUBPART 3—DEPARTMENT OF ENERGY MODERNIZATION

§19321. Special hiring authority for scientific, engineering, and project management personnel

(a) In general

The Under Secretary for Science shall have the authority to—

(1) make appointments of not more than 60 scientific, engineering, and professional personnel, without regard to civil service laws, to assist the Department in meeting specific project or research needs;

(2) fix the basic pay of any employee appointed under this section at a rate to be determined by the Under Secretary at rates not in excess of Level II of the Executive Schedule (EX–II) under section 5311 of title 5 without regard to the civil service laws; and

(3) pay any employee appointed under this section payments in addition to basic pay, except that the total amount of additional payments paid to an employee under this subsection for any 12-month period shall not exceed the lesser of the following amounts:

(A) \$25,000.

(B) The amount equal to 25 percent of the annual rate of basic pay of that employee.

(C) The amount of the limitation that is applicable for a calendar year under section 5307(a)(1) of title 5.

(b) Term

(1) In general

The term of any employee appointed under this section shall not exceed 3 years unless otherwise authorized in law.

(2) Termination

The Under Secretary for Science shall have the authority to terminate any employee appointed under this section at any time based on performance or changing project or research needs of the Department.

(Pub. L. 117–167, div. B, title VI, §10726, Aug. 9, 2022, 136 Stat. 1710.)

PART I—MICRO ACT

§19331. Microelectronics research for energy innovation

(a) Definitions

In this section:

(1) Center

The term "Center" means a Microelectronics Science Research Center established pursuant to subsection (d).

(2) Department

The term "Department" means the Department of Energy.

(3) Director

The term "Director" means the Director of the Office of Science.

(4) Historically Black college or university

The term "historically Black college or university" has the meaning given the term "part B institution" in section 1061 of title 20.

(5) Institution of higher education

The term "institution of higher education" has the meaning given the term in section 1001(a) of title 20.

(6) Microelectronics

The term "microelectronics" means—

- (A) a semiconductor and related materials;
- (B) processing chemistries;
- (C) design technologies;
- (D) fabrication technologies;
- (E) lithography technologies;
- (F) packaging technologies;
- (G) a sensor;
- (H) a device;
- (I) an integrated circuit;
- (J) a processor;
- (K) computing architecture;
- (L) modeling and simulation;
- (M) a software tool; and
- (N) any other related technology.

(7) Minority-serving institution

The term "minority-serving institution" means—

- (A) a Hispanic-serving institution (as defined in section 1101a(a) of title 20);
- (B) an Alaska Native-serving institution (as defined in section 1059d(b) of title 20);
- (C) a Native Hawaiian-serving institution (as defined in that section);
- (D) a Predominantly Black Institution (as defined in section 1067q(c) of title 20);
- (E) an Asian American and Native American Pacific Islander-serving institution (as defined in that section); and
- (F) a Native American-serving nontribal institution (as defined in that section).

(8) National Laboratory

The term "National Laboratory" has the meaning given the term in section 15801 of this title.

(9) Program

The term "program" means the program established under subsection (c)(1).

(10) Secretary

The term "Secretary" means the Secretary of Energy.

(11) Skilled technical workforce

The term "skilled technical workforce" has the meaning given the term in section 4(b)(3) of the Innovations in Mentoring, Training, and Apprenticeships Act (42 U.S.C. 1862p note; Public Law 115–402).

(12) Tribal College or University

The term "Tribal College or University" has the meaning given the term in section 1059c of title 20.

(13) Work-based learning

The term "work-based learning" has the meaning given the term in section 2302 of title 20.

(b) Findings

Congress finds that—

(1) the coming end of Moore's Law presents major technological challenges and opportunities for the United States and has important implications for national security, economic competitiveness, and scientific discovery;

(2) future progress and innovation in microelectronics, and the maintenance of a robust domestic microelectronics supply chain, will require an approach that advances relevant materials science, electronic and photonic device technologies, processing and packaging technologies, manufacturing technologies, circuit, chip, and system architecture, and software system and algorithm development in a codesign fashion;

(3) the National Laboratories possess unique technical expertise and user facilities that are essential to—

(A) overcoming foundational research challenges relevant to the topics described in paragraph (2); and

(B) translating and transferring research outcomes to industry; and

(4) the expertise and user facilities of the National Laboratories described in paragraph (3) will enable the Department to drive advances in microelectronics that are essential to meeting future needs in areas critical to the missions of the Department and the future competitiveness of the domestic microelectronics industry, including high-performance computing, emerging data-centric computing approaches and energy-efficient computing, optical sensors, sources, and wireless networks, and power electronics and electricity delivery systems.

(c) Microelectronics research program

(1) In general

The Secretary shall carry out a crosscutting program of research, development, and demonstration of microelectronics relevant to the missions of the Department to enable advances and breakthroughs that will—

(A) accelerate underlying research and development for design, development, and manufacturability of next-generation microelectronics; and

(B) ensure the global competitiveness of the United States in the field of microelectronics.

(2) Research projects

(A) In general

In carrying out the program, the Secretary shall provide financial assistance to eligible entities described in subparagraph (B) to carry out research projects in—

(i) foundational science areas, including—

(I) materials sciences, chemical sciences, and plasma science synthesis and fabrication;

(II) novel microelectronics devices, including emerging memory and storage technologies;

(III) diverse computing architectures and paradigms, including analog computing and edge computing;

(IV) data-driven modeling and simulation;

(V) integrated sensing, power harvesting, and communications;

(VI) component integration and subsystems;

(VII) photonic integration and packaging; and

(VIII) development of codesign frameworks for all stages of microelectronics design, development, fabrication, and application;

(ii) cybersecurity by design to result in trusted and resilient microelectronics;

(iii) methods for leveraging advanced simulation and artificial intelligence to enhance codesign and discovery in microelectronics;

(iv) in consultation with the National Institute of Standards and Technology, fabrication

and processing science and metrology associated with microelectronics manufacturing, including lithography, patterning, surface deposition, etching, and cleaning;

(v) approaches for optimizing system-level energy efficiency of advanced computing systems, the electrical grid, power electronics, and other energy infrastructure;

(vi) approaches for enhancing the durability and lifetime of radiation-hardened electronics;

(vii) enhancement of microelectronics security, including the development of integrated devices, packages, and thermal management for severe environments and national security;

(viii) in coordination with other relevant initiatives of the Department, methods to improve the lifetime, maintenance, recycling, reuse, and sustainability of microelectronics components and systems, including technologies and strategies that reduce the use of energy, water, critical materials, and other commodities that the Secretary determines are vulnerable to disruption; and

(ix) methods and techniques for domestic processing of materials for microelectronics and components of microelectronics.

(B) Eligible entities

An eligible entity referred to in subparagraph (A) is—

(i) an institution of higher education, including a historically Black college or university, a Tribal College or University, and a minority-serving institution;

(ii) a nonprofit research organization;

(iii) a State research agency;

(iv) a National Laboratory;

(v) a private commercial entity;

(vi) a partnership or consortium of 2 or more entities described in clauses (i) through (v); and

(vii) any other entity that the Secretary determines appropriate.

(C) Notification

Not later than 30 days after the Secretary provides financial assistance to an eligible entity under subparagraph (A), the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a notification of the financial assistance provided, including—

(i) the criteria used by the Secretary to select the eligible entity receiving the financial assistance;

(ii) the manner in which the criteria described in clause (i) comport with the purposes of the program described in paragraph (1); and

(iii) a description of the research project that the eligible entity will carry out using the financial assistance.

(3) Technology transfer

In carrying out the program, the Secretary, in coordination with the Director of the Office of Technology Transitions and in consultation with the private sector, shall—

(A) support translational research and transfer of microelectronics technologies; and

(B) identify emerging research and development needs of industry and government for the benefit of United States economic competitiveness.

(4) Workforce development

In carrying out the program, the Secretary shall support—

(A) workforce development through existing authorities and mechanisms available to the Department, including internships, fellowships, individual investigator grants, and other activities the Secretary determines appropriate; and

(B) in consultation with the National Science Foundation, as appropriate, education and outreach activities—

(i) to disseminate information and promote understanding of microelectronics and related fields among students at elementary school, secondary school, high school, undergraduate,

and graduate levels; and

(ii) that may include educational programming with an emphasis on experiential and project-based learning.

(5) Outreach

The Secretary shall conduct outreach to recruit applicants to the program and engage participants from all regions of the United States, especially individuals from underserved communities and groups historically underrepresented in science, technology, engineering, and mathematics.

(6) Coordination

In carrying out the program, the Secretary shall—

(A) coordinate across all relevant programs and offices of the Department; and

(B) coordinate the research carried out under the program relating to microelectronics with activities carried out by other Federal agencies and programs relating to microelectronics research, development, manufacturing, and supply chain security, including the programs authorized under subsections (c) through (f) of section 4656 of title 15.

(7) Report

Not later than 180 days after August 9, 2022, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report describing the goals, priorities, and anticipated outcomes of the program.

(8) Funding

There are authorized to be appropriated to the Secretary to carry out this subsection—

(A) \$75,000,000 for fiscal year 2023;

(B) \$100,000,000 for fiscal year 2024;

(C) \$100,000,000 for fiscal year 2025;

(D) \$100,000,000 for fiscal year 2026; and

(E) \$100,000,000 for fiscal year 2027.

(d) Microelectronics Science Research Centers

(1) In general

In carrying out the program, subject to the availability of appropriations, the Director shall establish not more than 4 Microelectronics Science Research Centers, each comprising 1 or more eligible entities—

(A) to conduct mission-driven research to address foundational challenges in the design, development, characterization, prototyping, demonstration, and fabrication of microelectronics; and

(B) to facilitate the translation of research results to industry.

(2) Eligible entities

An eligible entity referred to in paragraph (1) is—

(A) a National Laboratory;

(B) an institution of higher education, including a historically Black college or university, a Tribal College or University, and a minority-serving institution;

(C) a private commercial entity;

(D) a research center;

(E) a partnership or consortium of 2 or more entities described in subparagraphs (A) through (D); and

(F) any other entity that the Secretary determines appropriate.

(3) Activities

The activities of a Center shall include research, development, and demonstration activities for—

(A) accelerating the development of new microelectronics science and technology, including materials, devices, circuits, systems, architectures, fabrication tools, processes, diagnostics, modeling, synthesis, and, in consultation with the National Institute of Standards and Technology, metrology;

(B) advancing the sustainability and energy efficiency of new microelectronics devices, packages, and systems;

(C) application-driven codesign and prototyping of novel devices to facilitate laboratory-to-fabrication transition;

(D) advancing knowledge and experimental capabilities in surface and materials science, plasma science, and computational and theoretical methods, including artificial intelligence, multiscale codesign, and advanced supercomputing capabilities to invent and manufacture revolutionary microelectronic devices;

(E) creating technology testbeds for prototyping platforms for validation and verification of new capabilities and sharing of ideas, intellectual property, and the unique facilities of the Department;

(F) supporting development of cybersecurity capabilities for computing architectures that measurably improve safety and security and are adaptable for existing and future applications; and

(G) supporting long-term and short-term workforce development in microelectronics.

(4) Request for proposals; merit review

(A) In general

The Director shall, at such time, in such manner, and containing such information as the Director determines to be appropriate, issue a request for proposals from eligible entities described in paragraph (2) seeking to be designated as a Center.

(B) Competitive merit review

The Director shall select eligible entities under subparagraph (A) through a competitive, merit-based process.

(5) Operation

(A) Duration

(i) In general

Each Center shall operate for a period of not more than 5 years, unless renewed for an additional 5-year period in accordance with clause (ii).

(ii) Renewal

(I) Initial renewal

In the case of a Center that has operated for not more than 5 years, the Director may renew support for the Center on a merit-reviewed basis for a period of not more than 5 years.

(II) 10-year operation

In the case of a Center that has operated for not less than 5 years but not more than 10 years, the Director may renew support for the Center on a competitive, merit-reviewed basis for a period of not more than 5 years.

(III) 15-year operation

In the case of a Center that has operated for not less than 10 years but not more than 15 years, the Director may renew support for the Center on a merit-reviewed basis for a period of not more than 5 years.

(B) Termination

Consistent with the existing authorities of the Department, the Director may terminate an

underperforming Center during the performance period.

(6) Technology transfer

The Director, in coordination with the Director of the Office of Technology Transitions, shall seek to enter into partnerships with industry groups to facilitate the translation and transfer of research results produced by the Centers.

(7) Coordination

The Secretary shall—

(A) establish a coordinating network to coordinate cross-cutting research and foster communication and collaboration among the Centers; and

(B) ensure coordination, and avoid unnecessary duplication, of the activities of each Center with the activities of—

(i) other research entities of the Department, including—

(I) the Nanoscale Science Research Centers;

(II) the National Quantum Information Science Research Centers;

(III) the Energy Frontier Research Centers;

(IV) the Energy Innovation Hubs;

(V) the National Laboratories; and

(VI) other offices of the Department;

(ii) the National Semiconductor Technology Center established under section 4656(c)(1) of title 15;

(iii) institutions of higher education;

(iv) industry; and

(v) relevant research activities carried out by other Federal agencies.

(8) Workforce development

Each Center shall support workforce development through—

(A) incorporation of undergraduate students, postdoctoral fellows, graduate students, and early career researchers, as well as elementary school, secondary school, and high school students, through opportunities such as dual-enrollment programs and work-based learning programs, as applicable;

(B) hands-on research and equipment training programs;

(C) technical training and certificate programs for the skilled technical workforce;

(D) facilitation of engagement among academic, industry, and laboratory researchers; and

(E) public outreach activities, including to students at elementary school, secondary school, high school, undergraduate, and graduate levels, which may include educational programming with an emphasis on experiential and project-based learning.

(9) Outreach

The Director shall support the workforce development of Centers under paragraph (8) by conducting outreach to recruit applicants and engage participants from all regions of the United States, especially individuals from underserved communities and groups historically underrepresented in science, technology, engineering, and mathematics.

(10) Intellectual property

The Secretary shall ensure that the intellectual property and value proposition created by the Centers are retained within the United States.

(11) Notification

(A) Definition of covered determination

In this paragraph, the term "covered determination" means a determination of the Secretary—

(i) to establish a Center under paragraph (1);

(ii) to renew support for a Center under paragraph (5)(A)(ii); or

(iii) to terminate a Center under paragraph (5)(B).

(B) Notification

Not later than 30 days after the Secretary makes a covered determination, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a notification of the covered determination, including—

- (i) the criteria used by the Secretary to make the covered determination; and
- (ii) the manner in which the criteria described in clause (i) comport with the purposes of the program described in paragraph (1).

(12) Funding

Subject to the availability of appropriations, the Secretary shall use not more than \$25,000,000 to fund each Center for each of fiscal years 2023 through 2027.

(Pub. L. 117–167, div. B, title VI, §10731, Aug. 9, 2022, 136 Stat. 1711.)

PART J—APPLIED LABORATORIES INFRASTRUCTURE RESTORATION AND MODERNIZATION

§19341. Applied laboratories infrastructure restoration and modernization

(a) Definition of National Laboratory.

In this section, the term "National Laboratory" means—

- (1) the National Renewable Energy Laboratory;
- (2) the National Energy Technology Laboratory;
- (3) the Idaho National Laboratory;
- (4) the Savannah River National Laboratory;
- (5) the Sandia National Laboratories;
- (6) the Los Alamos National Laboratory; and
- (7) the Lawrence Livermore National Laboratory.

(b) Restoration and modernization projects

(1) In general

The Secretary shall fund projects described in paragraph (2) as needed to address the deferred maintenance, critical infrastructure needs, and modernization of National Laboratories.

(2) Projects described

The projects referred to in paragraph (1) are, as determined by the Secretary—

(A) priority deferred maintenance projects at National Laboratories, including facilities sustainment for, upgrade of, and construction of research laboratories, administrative and support buildings, utilities, roads, power plants, and any other critical infrastructure; and

(B) lab modernization projects at National Laboratories, including projects relating to core infrastructure needed—

- (i) to support existing and emerging science missions with new and specialized requirements for world-leading scientific user facilities and computing capabilities; and
- (ii) to maintain safe, efficient, reliable, and environmentally responsible operations, including pilot projects to demonstrate net-zero emissions with resilient operations.

(3) Approach

In carrying out paragraph (1), the Secretary shall use all available approaches and mechanisms, as the Secretary determines to be appropriate, including—

- (A) capital line items;
- (B) minor construction projects;
- (C) energy savings performance contracts;
- (D) utility energy service contracts;
- (E) alternative financing; and
- (F) expense funding.

(c) Submission to Congress

For each fiscal year through fiscal year 2027, at the same time as the annual budget submission of the President, the Secretary shall submit to the Committee on Appropriations and the Committee on Energy and Natural Resources of the Senate and the Committee on Appropriations and the Committee on Science, Space, and Technology of the House of Representatives a list of projects for which the Secretary will provide funding under this section, including a description of each project and the funding profile for the project.

(d) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out the activities described in this section \$800,000,000 for each of fiscal years 2023 through 2027, of which, in each fiscal year—

(1) \$640,000,000 is authorized to be appropriated for projects at National Laboratories described in paragraphs (1) through (4) of subsection (a); and

(2) \$160,000,000 is authorized to be appropriated for projects at National Laboratories described in paragraphs (5) through (7) of that subsection.

(Pub. L. 117–167, div. B, title VI, §10761, Aug. 9, 2022, 136 Stat. 1725.)

PART K—FISSION FOR THE FUTURE

§19351. Advanced nuclear technologies Federal research, development, and demonstration program

(a) Definitions

In this section:

(1) Advanced nuclear reactor

The term "advanced nuclear reactor" has the meaning given the term in section 16271(b) of this title.

(2) Eligible entity

The term "eligible entity" means each of—

- (A) a State;
- (B) an Indian Tribe (as defined in section 5304 of title 25);
- (C) a Tribal organization (as defined in section 5304 of title 25);
- (D) a unit of local government;
- (E) an electric utility (as defined in section 796 of title 16);
- (F) a National Laboratory (as defined in section 15801 of this title);
- (G) an institution of higher education (as defined in section 1001(a) of title 20); and
- (H) a private entity specializing in—
 - (i) advanced nuclear technology development;
 - (ii) nuclear supply chains; or
 - (iii) with respect to nuclear technologies and nonelectric applications of nuclear technologies, construction, project financing, contract structuring and risk allocation, or regulatory and licensing processes.

(3) Program

The term "program" means the program established under subsection (b)(1).

(4) Secretary

The term "Secretary" means the Secretary of Energy.

(b) Establishment of program

(1) In general

The Secretary shall establish a program to provide Federal financial assistance to eligible entities to support the research, development, demonstration, and deployment of advanced nuclear reactors and associated supply chain infrastructure.

(2) Competitive procedures

To the maximum extent practicable, the Secretary shall carry out the program using a competitive, merit-based review process that is consistent with section 16353 of this title.

(c) Applications

An eligible entity desiring Federal financial assistance under the program shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(d) Priority

In selecting eligible entities to receive Federal financial assistance under the program, the Secretary shall give priority to eligible entities that—

(1) plan to carry out projects at or near the site of 1 or more fossil fuel electric generation facilities that are retired or scheduled to retire, including multi-unit facilities that are partially shut down—

(A) to support the productive reuse of fossil fuel electric generation facilities that are retired or scheduled to retire; and

(B) to sustain and revitalize communities impacted by the closure of fossil fuel electric generation facilities;

(2) plan to support nonelectric applications, including supplying heat for—

(A) energy storage;

(B) hydrogen or other liquid and gaseous fuel or chemical production;

(C) industrial processes;

(D) desalination technologies and processes;

(E) isotope production;

(F) district heating; and

(G) other applications, as the Secretary determines to be appropriate; and

(3) have implemented or demonstrated the ability to successfully implement workforce training or retraining programs to train workers to perform activities relating to the research, development, and demonstration of advanced nuclear reactors.

(e) Cost share

Section 16352 of this title shall apply to Federal financial assistance provided under the program.

(f) Authorization of appropriations

In addition to amounts otherwise available, there are authorized to be appropriated to the Secretary to carry out the program—

(1) \$75,000,000 for fiscal year 2023;

(2) \$100,000,000 for fiscal year 2024;

(3) \$150,000,000 for fiscal year 2025;

(4) \$225,000,000 for fiscal year 2026; and

(5) \$250,000,000 for fiscal year 2027.

(Pub. L. 117–167, div. B, title VI, §10781, Aug. 9, 2022, 136 Stat. 1728; Pub. L. 118–31, div. C, title XXXI, §3131(p)(1), Dec. 22, 2023, 137 Stat. 803.)

EDITORIAL NOTES

AMENDMENTS

2023—Subsec. (b)(1). Pub. L. 118–31 substituted "demonstration, and deployment of advanced nuclear reactors and associated supply chain infrastructure" for "and demonstration of advanced nuclear reactors".

CHAPTER 164—SPEAK OUT ACT

Sec.

- | | |
|--------|--|
| 19401. | Findings. |
| 19402. | Definitions. |
| 19403. | Limitation on judicial enforceability of nondisclosure and nondisparagement contract clauses relating to sexual assault disputes and sexual harassment disputes. |
| 19404. | Applicability. |

§19401. Findings

Congress finds the following:

(1) Sexual harassment and assault remain pervasive in the workplace and throughout civic society, affecting millions of Americans.

(2) Eighty-one percent of women and 43 percent of men have experienced some form of sexual harassment or assault throughout their lifetime.

(3) One in 3 women has faced sexual harassment in the workplace during her career, and an estimated 87 to 94 percent of those who experience sexual harassment never file a formal complaint.

(4) Sexual harassment in the workplace forces many women to leave their occupation or industry, or pass up opportunities for advancement.

(5) In order to combat sexual harassment and assault, it is essential that victims and survivors have the freedom to report and publicly disclose their abuse.

(6) Nondisclosure and nondisparagement provisions in agreements between employers and current, former, and prospective employees, and independent contractors, and between providers of goods and services and consumers, can perpetuate illegal conduct by silencing those who are survivors of illegal sexual harassment and assault or illegal retaliation, or have knowledge of such conduct, while shielding perpetrators and enabling them to continue their abuse.

(7) Prohibiting nondisclosure and nondisparagement clauses will empower survivors to come forward, hold perpetrators accountable for abuse, improve transparency around illegal conduct, enable the pursuit of justice, and make workplaces safer and more productive for everyone.

(Pub. L. 117–224, §2, Dec. 7, 2022, 136 Stat. 2290.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

SHORT TITLE

Pub. L. 117–224, §1, Dec. 7, 2022, 136 Stat. 2290, provided that: "This Act [enacting this chapter] may be cited as the 'Speak Out Act'."

§19402. Definitions

In this chapter:

(1) Nondisclosure clause

The term "nondisclosure clause" means a provision in a contract or agreement that requires the parties to the contract or agreement not to disclose or discuss conduct, the existence of a settlement involving conduct, or information covered by the terms and conditions of the contract or agreement.

(2) Nondisparagement clause

The term "nondisparagement clause" means a provision in a contract or agreement that requires 1 or more parties to the contract or agreement not to make a negative statement about another party that relates to the contract, agreement, claim, or case.

(3) Sexual assault dispute

The term "sexual assault dispute" means a dispute involving a nonconsensual sexual act or sexual contact, as such terms are defined in section 2246 of title 18 or similar applicable Tribal or State law, including when the victim lacks capacity to consent.

(4) Sexual harassment dispute

The term "sexual harassment dispute" means a dispute relating to conduct that is alleged to constitute sexual harassment under applicable Federal, Tribal, or State law.

(Pub. L. 117–224, §3, Dec. 7, 2022, 136 Stat. 2290.)

**§19403. Limitation on judicial enforceability of nondisclosure and
nondisparagement contract clauses relating to sexual assault disputes and
sexual harassment disputes**

(a) In general

With respect to a sexual assault dispute or sexual harassment dispute, no nondisclosure clause or nondisparagement clause agreed to before the dispute arises shall be judicially enforceable in instances in which conduct is alleged to have violated Federal, Tribal, or State law.

(b) Continued applicability of State law

Nothing in this chapter shall prohibit a State or locality from enforcing a provision of State law governing nondisclosure or nondisparagement clauses that is at least as protective of the right of an individual to speak freely, as provided by this chapter.

(c) Continued applicability of Federal, State, and Tribal law

This chapter shall not be construed to supersede a provision of Federal, State, or Tribal Law ¹ that governs the use of pseudonyms in the filing of claims involving sexual assault or sexual harassment disputes.

(d) Protection of trade secrets and proprietary information

Nothing in this chapter shall prohibit an employer and an employee from protecting trade secrets or proprietary information.

(Pub. L. 117–224, §4, Dec. 7, 2022, 136 Stat. 2291.)

¹ *So in original. Probably should not be capitalized.*

§19404. Applicability

This chapter shall apply with respect to a claim that is filed under Federal, State, or Tribal law on or after December 7, 2022.

(Pub. L. 117-224, §5, Dec. 7, 2022, 136 Stat. 2292.)
